BRITISH WIN BACK GROUND AT FRESNOY

GERMANY PLOTTING TO PARK ITALY AND THE ALLIES

FIRST LINE WORKS OF GERMANS TAKEN BY RUSH OF FRENCH

Nivelle's Troops Make Substantial Gain Near Craonne and Beat Off New Assaulting Waves of Enemy.

Paris, May 9.—Noon.—The French last night captured first-line German trenches over a front of three-quarters of a mile northeast of Chevreaux, near Craonne, the war office announces. The French took 160 prisoners.

REPEATED COUNTER-ATTACKS.

During the night the Germans made repeated counter-attacks in force against the important positions taken from the plateau of Chemin-des-Dames and California plateau. Although the Germans were stopped by French artillery and machine-gun fire, new assaulting waves resumed the effort several times, until the ground was strewn with German dead.

ENEMY PLOTTING TO TAKE ITALY FROM ENTENTE

Mysterious Propaganda Is At Work In The Italian Capital.

SONNINO MAY BE A TOOL

Foreign Minister, Despite His Good Record, Is Attacked by Extremist Party.

London, May 9.—Germany's intrigues for a separate peace are not confined to Italy alone. The character and the common inspiration of these movements are demonstrated by the exact similarity of the methods used in the two countries.

In Russia the German Socialist propaganda has appealed to the revolutionary and extreme democratic elements in an effort to overthrow Foreign Minister Milyukoff, who is the backbone of Russia's devotion to the Allies. Dispatches from Russia describe exactly similar and even more mysterious propaganda at work there.

Until a few weeks ago Baron Sonnino, the Italian foreign minister, was regarded as a man of high character and well high a crime to question anything he had done since the war began. He had been proved absolutely correct in his understanding of the situation in Greece when other foreign officials failed to see it. If this record had been followed Bavaria would have kept out of the war.

Dearest record the extremist press has launched a great assault against him, alleging that he is too strongly nationalistic, too conservative and anti-democratic, and is opposed to the great revolutionary plans drawn up for the overthrow of the Kaiser. These are precisely the same charges made against M. Milyukoff by the same elements, and Rome claims to have positive knowledge that both campaigns are being directed in Germany.

RINTELEN CONSPIRED TO BRING ON GREAT STRIKES

New York, May 9.—Andrew D. Meloy, who was charged with having obtained the passport on which Capt. Franz Rintelen of the German navy left this country for England in the fall of 1915, continued his testimony today as a witness on the German end of the trial of Rintelen and his seven co-defendants charged with conspiring to cut off munitions from the Entente Allies.

Meloy testified today that Rintelen told him in July, 1915, that David Lamar and, former representative, Frank Buchanan and H. Robert Fowler had entered into a plan, first by Rintelen, to stop up the munitions strikes in munition plants, and that it was represented to him that this plan had been made in the United States.

THE WEATHER

Following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest, 58; lowest, 20.

The official temperature for the 12 hours previous to 8 a.m. today were: Highest, 44; lowest, 36.

TOMORROW—FAIR AND WARMER.

Forecast: Toronto, May 9.—A.m. Fair.

Today—Moderate northerly winds; fair.

Thursday—Moderate winds; a few scattered showers, but mostly fair; stationary or a little higher temperature.

TEMPERATURES.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

| Stations. | High. | Low. | Weather. |
|--------------|-------|------|----------|
| Victoria | 56 | 46 | Fair |
| Calgary | 72 | 36 | Clear |
| Winnipeg | 70 | 32 | Fair |
| Port Arthur | 48 | 28 | Clear |
| Parry Sound | 56 | 38 | Cloudy |
| Port Stanley | 54 | 38 | Cloudy |
| Buffalo | 56 | 38 | Cloudy |
| Toronto | 58 | 40 | Fair |
| Kingston | 60 | 40 | Fair |
| Ottawa | 60 | 38 | Fair |
| Montreal | 48 | 40 | Fair |
| Quebec | 48 | 40 | Cloudy |
| Father Point | 48 | 32 | Fair |

Weather Notes.

The disturbance which was near the South Atlantic coast yesterday is now centred off Nova Scotia, accompanied by strong winds and rain.

The weather continues fair and warm in the Western Provinces.

RUSS TROOPS SMASH LINES OF THE HUNS IN RUMANIA

Berlin Claims Defeat for Allies in Macedonia.

Petrograd, via London, May 9.—Russian troops on the Rumanian front, northwest of Senne, yesterday broke through the Teuton positions and advanced toward Jena, says the official statement issued today by the Russian war office.

BERLIN CLAIMS A WIN.

Berlin, May 9.—Via London, 4:01 p.m.—German and Bulgarian troops have administered a severe defeat upon Entente forces in Macedonia, army headquarters announced today.

General Sarrajl attacked on the Cerna front, but all assaults broke down. Attacks on the Vardar and west of Lake Doiran met with the same fate.

LENINE IS "MISSING"; WAS GERMAN AGENT POSING AS PATRIOT

London, May 9.—11:07 a.m.—It is reported in an Exchange Telegraph dispatch from Copenhagen that Nikolai Lenin, the Russian radical socialist leader, has been missing for two days. The dispatch, which quotes the Svenska Dagbladet of Stockholm as its authority, says nothing is known as to Lenin's fate.

Lenine, an expatriate under the old Russian regime, was permitted by the German Government to return home through Germany from Switzerland after the revolution. He undertook a group of radicals in the head of a peace movement, and was so active that he caused some anxiety among those who supported the Government in its determination to continue the war. Lenin's influence is said to have been waning.

SWEDEN TO RELEASE MANY ALLIED SHIPS IN RETURN FOR FOOD

90,000 Tonnage In Bothnia Will Be Allowed To Sail.

Stockholm, May 9.—Via London, May 9, 12:30 p.m.—Approximately 90,000 tons of allied shipping, which has been tied up in the Gulf of Bothnia since the beginning of the war, will be released as the result of an agreement between Great Britain and Sweden, which was perfected today. Sweden secures as its part of the bargain the release of its shipping, laden with foodstuffs and other necessities, which have been detained in the harbours.

The official statement of this arrangement says that thereby the country's wheat requirements for the next harvest will be met, provided the present system of rationing is steadily adhered to, even as there is reason to fear, the harvest is late. Furthermore, it is said, it seems possible to increase rations to some extent in very urgent cases.

SINN FEINERS WINNING ELECTION AT LONGFORD

Longford, Ireland, May 9.—An election for the southern division of Longford County was held today. The candidates were Patrick McKenna, Nationalist, and Joseph McGuinness, a Sinn Feiner.

The campaign which had lasted for some weeks was one of the bitterest in recent years. The importance attached to the result was increased by the intervention of Joseph Devlin, John Dillon and other Nationalist leaders, who recently was elected to the House of Commons from the adjoining county of Roscommon. Laurence and other Republicans whose policy was scathingly denounced by Mr. Dillon.

PENN. GOVERNOR REFUSES TO EXTRADITE H. THAW

Harrisburg, May 9.—Governor Brumbaugh today refused to extradite Harry H. Thaw to New York City, where he is wanted on an indictment for assaulting a Kansas City school boy. Thaw is still in a Philadelphia hospital, where he was taken after an attempt at suicide.

THE LION GOES FISHING.

TYPHOON OF THE BRITISH FIRE TOO MUCH FOR FOE'S WAVES; ATTACKS LITERALLY MELT AWAY

(By William Philip Simms.)
[Special Cable to The Advertiser.]
With the British Armies in the field, May 9.—Tremendous attacks of massed forces, violent artillery fire, on both sides, doggedly stubborn resistance and equally determined attack, marked the fighting all last night and early today around Bullecourt and Gavrelle. No amount of losses inflicted by British gunfire seems to stop the German attacks until their massed lines literally melt away.

A typhoon of fire. One such attack was thus repelled by the British forces around the Gavrelle windmill last night. It was preceded by a terrific German bombardment of the position. Then came the assaulting line. Into them the British field guns and machine guns poured a typhoon of fire. The Germans wavered and retired.

At almost the same instant, the enemy massed for an attack near Fresnoy, three miles to the north of the windmill. There they were dispersed by crushing artillery fire.

British counter-attacks following soon and forced the enemy to retreat. The fighting front now runs just adjacent to the western limits of Fresnoy.

ARRAS DRIVE LOSSES 50 PER CENT SMALLER THAN SOMME FIGURES

Law Assesses Present Offensive Much Less Destructive.

London, May 9, 4:30 p.m.—Andrew Bonar Law, member of the British war council, today stated in the House of Commons that the British casualties in the recent offensive on the Arras front in France were from 50 to 75 per cent fewer than those in the Battle of the Somme.

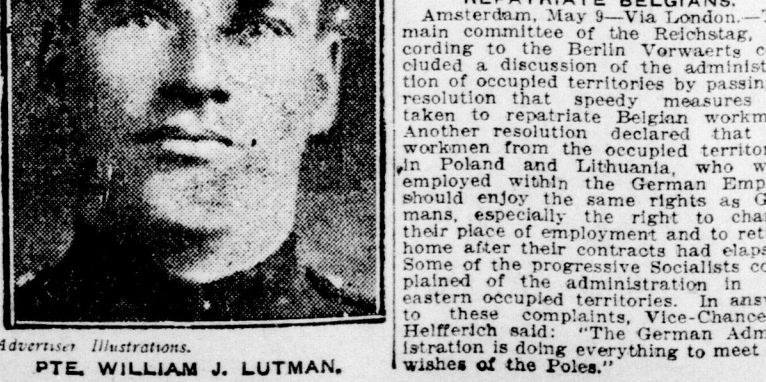

ALL NOVA SCOTIA TOWNS AND CITIES GIVEN RIGHT TO MUNICIPAL COYARDS

Halifax, N. S., May 9.—A bill enabling any city or town in Nova Scotia to establish a fuel yard to purchase fuel and to sell the same to the public was passed in the closing hours of the House of Assembly today.

FRENCH CATTLE CENSUS.

Paris, May 9.—Statistics gathered by the ministry of agriculture show that the national stock of cattle, which at the end of 1913 was 14,750,000, was less than 12,500,000 head at the end of 1915. Sheep stocks had decreased from 16,000,000 to 11,000,000, or 33 per cent; horses from 3,000,000 to 2,000,000, or 30 per cent.

INSPECTOR'S SON AMONG WOUNDED

Pte. William J. Lutman.

WHOLE ENEMY DIVISION SENT AT LONE BRITISH BATTALION BUT FAILS TO HOLD GAINS

THE WAR SITUATION

With massed reserves and every available gun at his command, Crown Prince Rupprecht of Bavaria is striving to halt the ceaseless British assaults on the Droocourt-Quaint line, the last bulwark protecting the richest prize of the Germans in Northern France—the coalfields of Lens. The reckless expenditure of human life by the German commander had at least a temporary reward in the recapture of Fresnoy, at the northern end of the line. This little village and the wood which surrounds it formed a deep salient driven by the Canadians to within two miles of Droocourt. Its capture Tuesday marked the first time in the present offensive that a German counter-attack had preceded in wresting an important position from the British. During last night, however, a great portion of the lost ground was regained by the British.

Curiously enough, the same official statement from Berlin which announces the capture of Fresnoy indicates that the British are much closer to the southern end of the Droocourt-Quaint line than has been claimed by London. The German war office tells of heavy fighting between Fresnoy and Fontaine, the former village being a bare mile and a half from Quaint, and that the distance from Cagnicourt, the next German stronghold north of Quaint, is only two miles.

Everything indicates that the present struggle on the British front is regarded on both sides as one of the most important actions of the war, but it may be many days before any decision is reached. The determination with which the Germans are fighting, and their strenuous efforts at the concentration of guns and reserves, show that the Droocourt-Quaint line is regarded by them as of vital importance, and will only be surrendered in the last extremity.

ON EASTERN FRONTS.

From two other war theatres news comes that opens up many possibilities.

The fighting on the Macedonian front is constantly developing in severity and extent, given renewed courage to the belief that Gen. Sarrajl is initiating operations of major importance, and possibly a general offensive. The Macedonian front appears to have given fresh impetus to the revolutionary movement in Greece, and the news that Venizelos' troops are on the firing line, and have been the first to enter the country, is a hereditary foe, the Bulgars. King Constantine has been declared deposed at great mass meetings in Saloniki, and an Athens dispatch says that the king's followers are deserting to the provisional government in increasing numbers.

Mesopotamia offers the second point of interest, with an announcement from the British war office that troops are again on the move on the Persian border. The unexpected action of these forces has been believed to have been responsible for the sudden halt in the victorious advance of the British army from Baghdad. Gen. Maude's successes have resulted in the practical surrender of the Turkish army in Mesopotamia, when the Russian advance from the Caucasus and the halting of the Russian drive from Persia changed the situation. The possibility of a general offensive in the region is still, however, obscure, and presents possibilities rather than probabilities.

CHINESE MINISTRY URGES PARLIAMENT TO WAR ON GERMANS

Peking, May 9.—Premier Tuan Chi-jui today in the cabinet session of the parliament today, and urged the Chinese government to declare war against Germany. The resolution was referred to the standing committee for consideration on Thursday.

Much opposition to the resolution developed, and there was a long debate. In the Senate the resolution came up informally, and caused a stormy session. The Opposition takes the ground that it does not want war until the cabinet is recognized and strengthened.

ALBERTA WAR VETERANS ARE FOR CONSCRIPTION

Calgary, Alta., May 9.—Alberta Great War Veterans in convention here passed resolutions favoring conscription of single men and of those married since the beginning of the war, and pensions of \$1200 to those totally disabled in service, and land grants of 320 acres to returned soldiers.

HOW TO SAVE ON FOODSTUFFS

London, April 28.—(Correspondence of the Associated Press.)—Maxims given wide distribution by the food economy department of the food ministry include the following:

"Rich people make their dinner of lobster salad are good patriots. The rich man who is digging their graves with their teeth."

"Eat slowly and you need eat less. Five people out of ten are digging their graves with their teeth."

"The dust bin swallows the food of millions."

British, After Being Forced From Fresnoy By Counter-Attack During Night, Regain Most of Ground Lost.

London, May 9.—1:45 p.m.—Part of the ground lost in the vicinity of Fresnoy, on the Arras battlefield, was regained by the British last night, it is announced officially.

MOST OF GROUND REGAINED.

British Headquarters in France, May 9, via London, 2:22 p.m.—(From a Staff Correspondent of the Associated Press.)—Most of the ground lost by the British in the vicinity of Fresnoy has been regained. The Germans are barely holding Fresnoy village itself.

The text of the British statement follows: "Last night our troops advanced their position slightly northeast of Hargicourt."

Yesterday evening the enemy attacked our positions northeast of the Gavrelle village. The attack was broken up by our barrage and machine gun fire and completely repulsed.

At the same time hostile forces concentrating for an attack north of Fresnoy were dispersed by our artillery fire.

"West of Fresnoy we improved our position during the night by a counter-attack. A portion of the ground lost yesterday morning has been regained. Early this morning an enemy raiding party was driven off east of Arrmentiers (on the Franco-Belgian border)."

DIVISION AGAINST BATTALION

(By Stewart Lyon, Special Correspondent of the Canadian Press in France.)
Canadian Army Headquarters, May 9.—The night of Tuesday passed in comparative calm on the Canadian front, but to the south, around about Fresnoy, there has been heavy fighting.

Concentrating the greater part of a division of his most trusted Bavarian troops against the Fresnoy front, held by a single British battalion, Prince Rupprecht attacked at dawn Tuesday and carried the village. His overmatched defenders fought with tenacity and stayed the Bavarian advance well to the east of Arrmentiers. The Canadian front to the north was realigned to conform to the new line in the region of Fresnoy, and the artillery set about its task of making the village untenable for the enemy.

GOOD WORK BY BATTERIES.

Counter battery work still engrosses attention on the Canadian front with satisfactory results. The enemy's fire from heavy guns mounted in the region of Lens, has distinctly slackened. He makes much use of gas shells.

Aerial activity at present is great. The British supremacy in this department, challenged earlier in the season, is now assured.

BOTH IN BULLETCOURT

The Germans put down a heavy barrage against the British positions in the southern and western portions of Bullecourt late last night, but made no attempt to attack with infantry. Bullecourt is now in a rather strange condition, with British and German posts scattered through it. The hostile posts gradually are being absorbed, however, and a number of prisoners are being taken.

German counter attacks are being delivered with great force all the time after intensive artillery fire from a great concentration of guns. These attacks and from certain points in the line.

HOW ENEMY HAS IT.

Berlin, May 9.—Via London, 4 p.m.—The German war office today has been held by the Germans against fresh attacks by the British. An additional 100 prisoners have been taken today's army headquarters statement.

The text of the British statement follows: "During the unfavorable weather conditions the artillery fire increased its liveliness at only a few points."

The Bavarian-Frankish regiments which stormed Fresnoy with great dash, held the village against fresh enemy attacks and brought in as additional 100 prisoners.

"Local advances by the British at Rœux and Bullecourt were repulsed."

ELECTED PRESIDENT OF CANADIAN CLUB

HARRY FOWLER, B. A., of The Advertiser staff.

War Expenditure of Great Britain Daily Alarming Says Law

London, May 9.—4:14 p.m.—In moving a vote of credit for £500,000,000 in the House of Commons today Andrew Bonar Law, chancellor of the exchequer, said that the alarming figure of the figures was that they represented a total daily expenditure of £7,450,000.

Mr. Bonar Law said the assistance which America already had given in addition to financial assistance, was of the greatest value, and would become increasingly important as the week advanced.

NOON CASUALTY LIST NUMBERS 283 NAMES

Ottawa, May 9.—The noon casualty list today numbered 283 names, of which 141 are killed in action, 30 died of wounds, and 15 missing. Total since April 9 now 16,075.

THE KAPARIKA SUNK.
London, May 9.—The Norwegian steamer Kaparika (1,232 tons gross) has been sunk by a German submarine. The Norwegian foreign office announces, says a special news dispatch today, that two men of the crew were killed.

ENEMY'S WAR LOANS HAVE REACHED ELEVEN BILLIONS AND NEW ONE ANNOUNCED

Copenhagen, via London, May 9.—The Danish Tageblatt says that a bill will be introduced in the Reichstag within a few weeks for a new war loan.

The conclusion of the sixth German war loan was announced in the Reichstag by the minister of finance on April 17. The minister asserted that the loan had realized 12,975,940,000 marks.

According to statistics compiled by the United States federal reserve board Germany's war loans up to December 31 last aggregated \$11,225,000,000.

5,500 GARDENS WILL BE TILLED THIS YEAR BY SCHOOLS

Thousands "Enlisted" To Further Production.

REPORTS ARE RECEIVED

More Sections Give Figures On Number of Pupils Engaged.

The campaign to enlist school children in garden operations is proving to be a great success and Inspector Edwards is all enthusiasm.

In addition to the list reported yesterday, he has received information from the pupils of the Talbot Street School, 155 by the Lorne Avenue, who are engaged in tilling 50 gardens at Riverview School, with 20 children helping others, as they have to gardens, 55 at the Lord Roberts School, out of an enrollment of 541 pupils, a great record, with 312 families engaged in gardening, and 178 at the Alexandra School, with 124 pupils assisting.

"That is a great record," said the inspector. "I am more than pleased. These children are greatly interested, and I am confident that great results will follow. I have many other reports to come in, and I figure that there will be more than 5,500 gardens put in by public school pupils this year."

The inspector is also confident that 50 pupils will go to the farms. He is working out a proposition to send two boys together to each farm. The chum will make for greater efficiency, and will tend to keep the boys content and alive to their work.

The boys and girls have the right to make no mistake," said Mr. Edwards. "They are not advertising men, but they will make good."

COMPLAIN OF SPIKES USED BY PHONE MEN

A. Fraser and Others Say Damage to Trees Is Being Done.

The board of works hold a short session last evening little business coming for settlement.

Complaints were made by Mr. Fraser, K.C., and others that the Bell Telephone Company's men, in digging for cables in the streets, were using spikes in climbing trees, with the result that many had died. City Engineer Brazier will put a stop to this practice.

The residents of Talbot street consider that they are entitled to some compensation for the damage done to their street two years ago, on account of the amount of broken asphalt laid on the roadway and used elsewhere. City Clerk Baker and City Engineer Brazier will prepare a report on this matter.

The proposition to erect a sign board on Waverley road, near Beaconsfield avenue, did not meet with the approval of the residents of the road, and City Engineer Brazier will make an investigation.

On the request of the board of health it was decided to have garbage collections three times a week from the restaurants down town. This is considered necessary from the standpoint of health.

MRS. SLACK'S LETTER

To Mothers of Delicate Children

Palmira, Pa.—My little girl had a chronic cough and was so thin we could count her ribs and she had no appetite. Nothing we gave her seemed to help. After, until one day Mrs. Nibbeli asked me to try Vinol, and now she is hungry all the time, her cough is gone, she is rosy, and has a more healthy color. I wish every mother who has a delicate child would try Vinol.—Mrs. Alfred Slack.

We guarantee Vinol, which contains beef and cod liver peptone, iron and manganese peptones and glycerophosphates, to make delicate children healthy and strong.

Saxol Salve CURES SKIN AFFECTIONS

PARTY IN SPECIAL CAR WILL MEET MR. TAFT

American Statesman Will Be Given Hearty Reception by Citizens.

A courtesy extended to the Women's Canadian Club in connection with the visit to the city this afternoon of ex-President Taft by the board of the London and Port Stanley Railroad, is much appreciated. This forenoon Sir Adam Beck telephoned the president of the club, Mrs. Donald McLean, that a special car would be placed at the disposal of the Women's Canadian Club to go over to St. Thomas to meet Mr. Taft on his arrival there via the M.C.R. The car will leave London at 2:30 o'clock. The party will include the executive of the club, the mayor and board of the London and Port Stanley Railroad, F. P. Belts, who will be the host of the distinguished visitor during his stay in town, and representatives of the press.

A hearty welcome will be given to Mr. Taft when he reaches London by members of the Women's Canadian Club, prominent men of the city and others who will join in demonstrating their appreciation of the distinguished American statesman and the country he represents as an ally in the war. Music will be furnished by Venus's Band and a large number of decorated automobiles have been offered for the procession, including the Mayor's car of the stock of new McLaughlin cars in the local headquarters. The former president of the United States will be driven to the Hunt Club where a dinner of fifteen covers will be given in his honor by Mr. Belts.

The large advance demand for seats indicates that there will be a good attendance in the Princess Winter Garden this evening to hear Mr. Taft speak on "The United States in the War."

NEW EULOGY OF SOCKS WRITTEN BY SERGEANT

Pays Hearty Tribute to Work of Overseas Chapter.

A convincing little sermon on "Socks" is preached by Sergeant H. J. Bennett of the 4th Reserve Battalion, Western Ontario Regiment, Brampton, in a letter of appreciation just received by the Overseas Chapter, I. O. D. E. He says: "Dear Friends—I want to acknowledge the pair of socks that I received through your chapter. If I were revising a portion of the Bible I would make this change in the place where it says 'as cold water is to a thirsty soul, I would have it as a sock to a soldier.' Socks are to a tired soldier, so is good news from a distant country. I have worn them for a week, and they are a change from the socks we get issued, so nice and soft and comfy, and longer in the leg. I almost hate to change them for fear they would be lost in the wash. Socks are one of the needed comforts when a man walks about twelve miles to the rifle ranges with all his equipment on, and carrying a rifle, his feet get tired, blistered and sore, and when he returns and has a wash and a soft pair of socks to place on his weary feet, he is glad. 'When he knows that they were knit by some kind friend in Canada, he unconsciously murmurs a prayer for those who are the backbone of the Empire, the ladies, especially of the Imperial Order of Daughters of the Empire.'"

First in the List.

Continuing the writer pays this tribute to the Overseas Chapter: "Many associations of ladies in Canada are doing great work, many women who do not belong to any association or society are doing their bit in a quiet way. But I think the Daughters of the Empire are doing one of the greatest, if not the greatest work of those who are helping the men win the war."

The Overseas Chapter is one that any woman should be proud to belong to, as it carries with it the honor that a near relative must be overseas, or a member. Although all chapters are doing their share, still the Overseas Chapter is thicker than water. God speed the work when each member will have loved ones back with them again, and have a grand reunion. With the Overseas Chapter, I remain, yours faithfully, SERGEANT H. J. BENNETT.

Thanks From 14th.

The following letter has been received by Mrs. Galbraith, recent of the Overseas Chapter, from Lieut.-Col. W. MacVicar, O. C., 14th Battalion, in acknowledgment of kindness to the members of the unit:

Brampton.

Dear Madame—On behalf of the officers, non-commissioned officers and men of the 14th Battalion, kindly acknowledge the receipt of the letter of thanks for your kindness to us during our period of training in London (Ontario). Assuring you of our appreciation of the beautiful luncheon, I am, yours faithfully, W. W. MACVICAR.

FEWER INFECTIOUS DISEASES REPORTED

It is apparent from the returns reported by Dr. H. W. Hill, medical officer of health, that the epidemic of infectious diseases is subsiding. During the week ending May 5, 25 cases were reported, of these 5 were diphtheria, 2 mumps, 4 scarlet fever, 10 whooping cough, 1 German measles, 10 and 10 whooping cough. The factory. There are 35 cases in the city at present, 76 being all told in the city and 19 at the isolation hospital. Of these 17 are scarlet fever, 10 diphtheria, 2 of German measles, 6 of mumps, and 18 of whooping cough. Of these 46 are for scarlet fever, and 9 for whooping cough.

PERSONAL MENTION

Vint Atkinson, Dundas street, east, left last night via G. T. R. on a business trip through Quebec and the Maritime Provinces.

Poplin Raincoats

Poplin Raincoats in all colors. A Friend-Making value that is extra special, at

\$3.95

FRIEND-MAKING SALE

To Make New Friends and Draw Old Ones Closer

This sale's values are the result of long and thorough searching of the wholesale markets. With the great buying power of Three Busy Stores, we everywhere command the lowest prices on merchandise. Thus we can and do offer values such as other stores, less advantageously circumstanced, cannot be expected to equal. Hundreds of London's best dressed women have learned also that Raphael-Mack styles are distinct from those that other stores show. They have an air of smartness and a look of quality that puts them in a class by themselves. To prove these facts to other women, and to make hundreds of new friends for this store, we have arranged this "Friend-Making Sale" of very special values,

Moire Underskirts

In colors of green, purple, navy, blue, black. A Friend-Making special at

89c

Silk and Cloth SKIRTS

At Friend-Making Prices

In Serges, Gabardines, Wool Velours, In newest stripes and checks; Taffeta Silks, Satins, Fancy Silks, and Silk Poplins in plain colors and new coin spot designs. Latest styles, including many clever effects in belts, pockets, etc.

At \$22.75

Finest Model Coats, in strictly exclusive styles. Belted and flared effects, featuring large sport and distended pockets, novel ideas in cuffs and collars, over-collars, rows and rows of stitching and fancy buttons.

Fisher-Kennedy TWEED COATS

Ideal for motoring.

FRIEND-MAKING PRICE \$8.75

SECURES OPTION ON PIPE FOR GAS SUPPLY

General Manager Told That It Will Last Ten Years.

General Manager E. V. Buchanan was in Hamilton and the Selkirk gas fields securing a supply of gas pipes to deliver a supply to McClary's, and other manufacturers. He was able to get options on a sufficient quantity of pipe to last at least ten years, and the price was satisfactory.

It is expected that the utilities commission will ratify the deal at once, and that construction work can be commenced.

CITY HALL SHORT OF COAL TODAY

Contract Not Ratified and Engineer Had to Get Busy.

City Engineer Brazier had to do some hustling this morning to secure coal for the city offices. Some time ago the board of control ailed for tenders and the board of control awarded the contract to W. Hoaman & Sons. However the council refused to ratify the contract, and Mr. Hoaman notified Mr. Brazier this morning that the price quoted had been withdrawn.

As there was no coal in the cellars the city engineer got busy, and secured a sufficient supply to tide the city over for a day or two, or until such time as the weather improves.

75 CANDIDATES WILL GO OVER THE SANDS

Five Hundred Shriners Expected in City on Friday.

The Shriners will be here on Friday for the annual spring ceremonial. It is expected that 500-550 members of the (F) will be on hand.

The business session will be held in the afternoon, and in the evening the 75 candidates will be helped over the hot sands.

Alkali In Shampoo Bad for Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Starting Thursday, May 10th, at 9 a.m.

Whether you have any immediate expectation of making a purchase or not, we hope you will accept this as our special invitation to you to come and see the wonderful values that this store can give. You will find this a pleasant place to trade, with courteous and intelligent sales-service, and you will also find it a Store of Beautiful Styles and Wonderful Values. Come and see!

FRIEND-MAKING SUIT VALUES

Women looking for Suits out of the ordinary should certainly see these. Every material in use this season is to be found in the assortment—serges, gabardines, poplins, poiret twills, jerseys, burrills, gunniburrs, etc., in all colors, including a full range of the so-called "high shades." They have the smartness, workmanship and tailoring that mean so much to the carefully dressed woman who demands perfect style.

\$9.98, \$14.85, \$18.95 and \$22.75

WITH GENUINE NEW YORK MODEL SUITS

At \$28.50

Only one of a kind. Choice of any Suit in the store.

These Specials in WAISTS

will make many new friends.

In Georgette Crepe, Crepe de Chine and Habutal Silks. Our collection of waists captivates all who see them. Not only is there a beautiful array of styles, but the range of color affords an unusually good opportunity for selection.

At \$1.95, \$2.95, \$3.95, \$4.95, \$5.95 and \$6.95

Silk Waists \$1.85

Jap Silks, in both black and white.

Serge Dresses, \$7.85 and \$9.90

Smartest and newest styles, in green, brown, sand, navy and black.

At \$12.90

Genuine New York Sample Dresses—just one of a kind. Nothing higher in the store.

Cloth Dresses, \$4.75

Of all-wool serge, in black, navy and copen.

STILL MORE "FRIEND-MAKERS" IN SILK DRESSES

At \$8.75, \$11.50, \$14.85 and \$19.90

The most beautiful assortment of popular-priced Dresses this store has ever offered, comprising the models that have won highest approval in the country's style centres.

At \$24.75

Choice of any Silk Dress in the store, comprising a selection of beautiful Model Dresses, only one of each style, in Taffetas, Crepes de Chine, Chameuse and Georgette Crepe in all stylish colorings.

The RAPHAEL-MACK Co.

"The Store of Popular Prices."

New York Silk Dresses

Crepe de chine and taffeta.

FRIEND-MAKING PRICE \$14.85

SECURES OPTION ON PIPE FOR GAS SUPPLY

General Manager Told That It Will Last Ten Years.

General Manager E. V. Buchanan was in Hamilton and the Selkirk gas fields securing a supply of gas pipes to deliver a supply to McClary's, and other manufacturers. He was able to get options on a sufficient quantity of pipe to last at least ten years, and the price was satisfactory.

It is expected that the utilities commission will ratify the deal at once, and that construction work can be commenced.

CITY HALL SHORT OF COAL TODAY

Contract Not Ratified and Engineer Had to Get Busy.

City Engineer Brazier had to do some hustling this morning to secure coal for the city offices. Some time ago the board of control ailed for tenders and the board of control awarded the contract to W. Hoaman & Sons. However the council refused to ratify the contract, and Mr. Hoaman notified Mr. Brazier this morning that the price quoted had been withdrawn.

As there was no coal in the cellars the city engineer got busy, and secured a sufficient supply to tide the city over for a day or two, or until such time as the weather improves.

75 CANDIDATES WILL GO OVER THE SANDS

Five Hundred Shriners Expected in City on Friday.

The Shriners will be here on Friday for the annual spring ceremonial. It is expected that 500-550 members of the (F) will be on hand.

The business session will be held in the afternoon, and in the evening the 75 candidates will be helped over the hot sands.

Alkali In Shampoo Bad for Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

OUTINGS FOR SOLDIERS DURING NEXT SUMMER

Motor Owners Will Endeavor to Make Life Pleasant for Boys.

The Soldiers' Aid Commission has named a summer outing committee, who will arrange for motor trips and excursions for the returned soldiers, particularly those confined to hospitals. It is hoped that the motor owners of the city will co-operate with the committee in making the summer pleasant for these men. The committee is composed of ex-Ald. R. J. Webster (chairman), ex-Controller W. W. Gammage, A. W. White, J. K. McDermid, Chas. Abbott, J. C. Beemer, E. R. Wilson, A. F. E. Harley, ex-Controller J. Frank Little, T. A. MacNahan, A. E. Miller, and A. H. Talbot.

INDIAN BRAVE READY FOR ANY OLD WEATHER

Reaches City in Coonskin Coat and Straw Hat.

Prepared for any sudden change in the weather, an Indian brave from Muncie arrived on a morning Grand Trunk train attired in a coonskin overcoat and at the same time wearing a wide-brimmed straw hat.

He immediately attracted considerable

SENATE REFORM AGAIN.

SOME DAY the spasmodic demands for the reform of Canada's Senate will crystallize into action, and after the upheaval the Senate will be better or worse or about the same as it is at present. Most forms of government provide for an upper house of some sort to insure a check on the frolicsome coils of the lower chamber, but no form of Government seems to have solved the problem to the permanent satisfaction of all concerned. Even the time-honored House of Lords in England, the daddy of them all, comes in for criticism. In the United States there has been "senate reform" in recent years, and the new order has not been in operation long enough to require another change. In most states the federal senators are chosen by the people, instead of by the legislature, as formerly. The change was made because it was felt that the upper house did not represent the country properly.

In Canada the senators are appointed by the Government in power when a vacancy occurs. Thus the life tenure of office makes the political complexion of the chamber more or less a matter of fate, frequently with no relation to the will of the people as expressed by their representation in the Commons. If Canada wants this sort of senate it should go the whole length, as opportunity may offer in these days of picturesque titles, and make it a real house of lords. Otherwise, there seems to be nothing to do but make it in some way an elective body.

THE ALDERMEN CAN HELP.

REPORTS of demonstrations in Germany because of high prices of food and other necessities make encouraging reading in Canada, but when such demonstrations become necessary in Canada, the land of plenty, they are not pleasing. London's parade on Monday night, a protest against the price of coal, taken by itself is not a serious matter, but is a symptom of a condition which calls for immediate investigation on the part of the authorities. No one expects London coal merchants of creating exorbitant prices, because high prices prevail everywhere. Neither are London bakers blamed because the price of bread has come to ten cents a loaf. The retail shoe dealers are not at fault because shoes cost from two to five dollars a pair more than they did three years ago.

The condition is not local; it is general. The remedy, if any can be found, must be general and not local. Labor unions are asking the civic authorities to take action because they are responsible for the interests of the citizens. Whether or not the aldermen and controllers can purchase and sell supplies cheaper than regular dealers is a question which may be open to debate; but there is no doubt that they can bring official influence to bear on the authorities who know or are in a position to know whether in reality "there is something rotten in Denmark." The Government has the machinery for taxing war profits; it would only be necessary to take another step to discover whether manufacturers or dealers of any kind are demanding extortionate profits. If, as the minister of finance says, it is merely a question of supply and demand, proof to this effect will satisfy the Canadian people. There is, however, a deep and growing conviction that it is not a question of supply and demand, but a question of manipulation, and the force of every municipality in the country should be brought to bear at once to prove or disprove this suspicion.

Without doubt, the Government can regulate prices of food. This is admitted by Government officials when they state that action by Canada will follow action by the United States. It is also a tacit admission that more than the law of supply and demand is involved? The London city council should heed the demand of the people and take the initiative in pushing the inquiry that may lead to reform.

PRISONERS MIGHT HELP.

FEW PEOPLE had much sympathy with the proposal to offer the inmates of Canadian prisons and penitentiaries freedom if they would enlist in the overseas forces. The idea of inflicting the presence and companionship of these upon the sterling men who now compose the army is repugnant.

But another suggestion has been made which has more to recommend it—that the law-breakers be used for production work. In this, it is pointed out, they could be kept together, under guards, and would not be mixing with others who might resent being associated with them.

At Guelph prison farm the inmates cultivated the grounds and made the land productive. There were escapes, but these were not numerous enough to injure the system. Furthermore, it is claimed that the nature of work done had a decided tendency to improve the men engaged. They were treated well and built up in health, the result frequently being that criminal tendencies were eliminated.

If all those prisoners considered fit

to be allowed out were made available for work in harvest-time, much of the labor problem would be solved, and at comparatively small expense. The men could be chosen for their fitness, morals and physically. It would not do to include dangerous criminals, but there are, for instance, hundreds of deserters, sentenced to various terms, who might be allowed to work out their own salvation on the farms, and by their labors earn a pardon at the end of the season, cutting short their sentence term. There are petty thieves, vagrants and many others who would be available and could assist, and if some few of these did run away it would be no great blow to the country.

Prisoners under present conditions, are either idle or kept working along more or less useless lives. Little benefit is derived from their activities. To turn their hands to providing food for the armies and the people would be to give them an interest in life, and at the same time help the nation. Would it not be worth trying?

THE CERTAIN END.

"I THINK the end of the war will be within sight of everybody within a few weeks," is a statement credited to a German banker in New York, who added that his country was staggering under its financial burden. This is what everybody would like to believe, and what everybody outside of Germany expects to see sooner or later. If this German banker would send his message home instead of giving it to America he would be doing a good service.

It is evident that Germany is staggering under more than a financial burden. She is being whipped by Britain and France alone. The preponderance of her fighting forces has been on the western front for weeks, and they are meeting disaster almost daily. If the Russians were delivering the sledge-hammer blows they were dealing earlier in the war Hindenburg's strategic flight would be a tragic flight. Meantime, as Mr. Viviani, head of the French mission, stated in Washington a few days ago, "we work together as free men, who are resolved to save the ideals of mankind," whether it requires a few weeks or many years.

EDITORIAL NOTES.

Such names as Rintelen, Gutschmidt, Bopp and Ludendorf leave a taste of nitro-glycerin in the mouth.

They tried to hock the Kaiser as far as heaven. His rebound from a closed pearly gate would have been something sensational.

The Government is going to control the distribution of wool. It has long been suspected of gathering an unlimited supply.

German attacks were repulsed on the Chemin-des-Dames. I. e. "Ladies' Road." The French are always champions of the fair.

Why not a joint declaration by wheat and sugar exporting countries to refuse supplies to European Governments not prohibiting the drink traffic?

Not content with ordinary warfare, Mexicans have to have a great sham-battle and kill a few people. How restless they would grow if peace should come to the nation.

Gen. Joffre is too busy to visit Canada. He seems to think more of his country's needs than his own pleasure, in which he differs from some government representatives who go abroad.

Washington refused to receive von Tarnow, the proposed Austrian ambassador, so he returns home. The Americans evidently believed they could not touch tar now without being defiled.

The peace propaganda is giving trouble in Germany now. Some of the agents in the United States who have nothing to do there any longer seem to have got home by some means.

It is interesting that American students from the University of Illinois had to go to our west country to help put in the seed. While our Government smores, the neighbors come to the rescue.

Looking at a movie may sometimes remind an occasional book-learned person in the audience of "The Lady of Shalott." And she became "half sick of shadows." Still the shadows are not so bad.

German papers say that the Anglo-French commission at Washington has failed; that nothing can be done against the submarine and that ships cannot be built in America by magic. The German papers seem premature speakers, and their extreme confidence regarding the United States sounds artificial.

The Advertiser's Hint for City Gardeners.

Information As to Preparation, Planting and Care of Plants That May Be Grown in Backyards.

THE VALUE OF WOOD ASHES AND LEAVES.

Most people know in a vague sort of way that wood ashes are sometimes used as a fertilizer, but they are in ignorance as to what makes the ashes valuable and often foolishly allow the best part of the ashes to escape before they are used. Hardwood ashes are composed of nine per cent potash, two per cent phosphoric acid and a large percentage of lime, all of which are exceedingly valuable in the growing of plants. The first two mentioned are excellent plant foods and the lime acts chemically on the food materials in the soil, making them available for the plants. Thus we see that wood ashes is a fertilizer which should be by no means ignored.

Very few people burn wood in stoves today, but where they do the ashes may be easily obtained and used after they have cooled. These fresh ashes are abundant in potash, having lost none of their good qualities. For the people fortunate as to have a wood-burner, there is another way of obtaining these ashes. In the autumn collect all the sticks and of which are vegetable and burn them. The ashes obtained from the fertilizer for next spring's growth. They must not be left in a heap and exposed to all the rains and snow of winter, for then by the spring they will have lost a great part of the potash, which is the most valuable property which they possess. These ashes should be carefully col-

WHITE HYACINTHS.

By Sylvia Turner.

There had been seven weeks of steady rehearsing. Diane had grown to hate the very sight of a stage door before the opening night of "Semiramide," yet she had waited for nearly a year for this opening wedge in her chosen profession. Nobody knew except herself of the unceasing privations and self-sacrifice involved, yet she had always written home cheerfully, telling only the best that happened to her. Perhaps even she never realized that it was not for the sake of the family she did this, but so they would tell Clint Lovejoy how wonderfully she was succeeding, there had only been a tacit engagement, at least on Diane's side, if Clint had assured her that she meant, she felt it was not her fault. He had never approved of her longing for the stage any more than he did of her changing her name from Millicent Edwards to Diane Lester.

"It's not that I want to keep you tied down, Millicent," he had told her. "I've got enough to do as it is, but you can keep a hired girl, if you want to, though mother never seemed to think that was the way to do it. But to me, thinking, the stage craze is bound to wear off. Seems like all girls between 15 and 20 nowadays want to go on the stage or in the movies, just as a boy wants to be a cowboy or join the navy. You could stand it, but I hate to see you waste your time when you ought to be marrying and settling down when you've got the chance."

Nevertheless, she had come to the city with the \$200 Grandpa Powell had left her. It was queer how short a time it lasted in New York. She took a little room in the West Fifties, over near Eighth avenue. It was cheap, and still near enough to the park for her to enjoy long walks. Then after weeks of haunting agencies and finding her bearing theatrically, her youth and fresh charm had caught the attention of old Timmins as he passed through the waiting-room of Barber Bros., on his way to his private office. Thus it happened that Millicent became Diane, an Arabian dancer in the great desert tent scene of "Semiramide."

Her "bit" was brief. A whirling bit of fantasy with a mimic sandstorm raised outside the scenic tent and the orchestra played "Anitra's Dance," but she loved it with a strange sort of shivering anticipation. Wrapped in her cloak of brilliant colors with yards of veiling swathed about her little figure, she would stand eagerly at the first entrance, trying to watch the rest of the performance. And it was here that Hardy noticed her first. He had stepped to the little switchboard above her head to regulate some of the lights when he got back a little, kid," he said pleasantly.

Diane did not hear him even. She was watching Semiramide steal the silver ring from her sleeping spouse, the while singing and dancing entrancingly. Oh, would she ever be the star in a gorgeous production like that! Hardy's voice sharper the second time recalled her from her dreams, and keep out. Don't you know better than that?" She stumbled to her feet, overturning her stool, and he caught it just in time to prevent the noise of its landing on the stage. Diane fled before the look in his eyes. She was nervous and did not see a cleft bolt in the floor that had just been placed there for a set piece in the next scene. When she came to she was in an ambulance rumbling through the night to an emergency hospital.

Instead of dancing to "Anitra's Dance" through endless nights of wear and tear and oriental glamour, she found herself in a cot in a private room at a big hospital. Barber Brothers took care to avoid the employers' liability law by excessive fatherliness over all who worked for them in the event of accidents. Her expenses would all be paid, she was assured; also her salary. She need not worry at all.

"Not worry! Diane buried her face in the pillow when the manager's secretary left her. Could they understand what it meant to her, being laid up the second night of her first engagement, with nothing ahead but the long wait at the hospital?"

She did not want to alarm her family at home, so she wrote nothing about her accident. One of the girls in the company visited her, and told her that Hardy asked after her every day. "He picked you up, you know," she said, "when you tumbled, and carried you into Tremaine's dressing-room near the door, until they got the ambulance. Unlaced your sandals, too, and put that first bandage on the cold compress. I heard him asking Amy if you had any friends and relatives in the city. Did he blow you up about standing in the entrance?"

"Oh, I guess I deserved it, all right," replied Diane, diffidently. "But she was not surprised when the next morning there arrived by messenger a large pot of white hyacinths. They were the first flowers she had received, and their very presence in the room seemed to transform its snowy meagreness. On a card in an envelope was written:

"Best of luck to a plucky little girl, Alan Hardy."

It was that afternoon when the nurse told her that she had a visitor. Diane's heart beat faster. As the door opened, she glanced up, fully expecting to see Hardy, but, instead, there stood Clint, big and pugnacious, thoroughly roused over her night.

"Well, I hope you've had enough of it now, and are coming home with me, Millicent," he said. "I came to town to see what you were like on the real stage, and they told me over at the theatre I'd find you here. I guess this'll be a lesson to you. I'll go right down stairs to the office and make arrangements to get you out."

Diane's blue eyes snapped with indignation at his manner of authority over her.

"You'll do nothing of the sort, Clint."

She sat up in bed in spite of the wrench of pain it gave her. "I'm not going home. I'll be out of here in a couple of weeks, and I'm going back to the theatre."

"Well, for the love of Pete," gasped Clint, his eyes lighting on the pot of white hyacinths. "Looks like you've got a new interest. I'll bet a cookie it's a man."

Some elf of perversity made Diane keep silent. She only smiled with a provoking air of knowing lots that she

wouldn't tell, and Clint left in anger to take the 2 o'clock train for home. For another week Diane hugged her queer little romance of her own making in her heart. The fragrance of the hyacinths filled the whole room and supplanted the memory of the eastern perfume she had thought so wonderful in "Semiramide." Every day, her nurse told her, Mr. Hardy had called up to inquire for her. And the

fourth Sunday, when she was allowed to sit up in the solarium, he called to see her.

"I loved the hyacinths," she told him. "Did you?" his eyes looked at her eagerly. "I didn't know just what to say. Most girls like roses, but some now these days like you, little and white and sweet. I wanted to do something to let you know how sorry I felt for you and—"

he stumbled over his words "and—well—that you meant just that to me—white hyacinths. I suppose you're discouraged now, and are some back home to your people?"

Diane shook her head.

"I haven't given up yet. I'm coming back to the theatre next week for good."

Hardy smiled and his voice was low so that the nurse could not hear.

"I'll bet it won't be for good," he

WINTER WHEAT CROP.
Washington, May 8.—The winter wheat crop forecast today by the department of agriculture promises a production of 265,118,000 bushels. Area to be harvested 27,553,000 acres. Condition was 73.2 per cent of a normal on May 1. Production last year was 481,744,000 bushels and in 1915 it was 673,947,000 bushels.

words "and—well—that you meant just that to me—white hyacinths. I suppose you're discouraged now, and are some back home to your people?"

Diane shook her head.

"I haven't given up yet. I'm coming back to the theatre next week for good."

Hardy smiled and his voice was low so that the nurse could not hear.

"I'll bet it won't be for good," he

British Cattle Supply Company Limited

From Monday, May 7th, offers for public subscription, one million dollars of common stock of the company, issued at par value, \$100, and payable 40 per cent. upon allotment, 30 per cent. in 12 months, and 30 per cent. in 18 months.

THE formation of this Company is primarily due to the desire of certain Canadians to combat, with practical measures, the Empire's meat shortage, and to restore and augment the breeding herds of Canada as a source of national wealth. This Company proposes, therefore, to enter upon the business of cattle-ranching on a scale consistent with the well-known world shortage and the incomparable natural advantages of the Dominion of Canada, both in respect to feed resources and accessibility to the chief centres of demand. Over half a million acres of well-watered, sheltered and luxuriant pasture-land have been secured in the Vermilion River district, Alberta, by this Company. A herd of ten thousand breeding animals, of which 1,500 have already been purchased, is now being assembled. It is the plan of the Company to have a permanent herd of 75,000 head upon its lands within four or five years.

The average cost of raising a n animal for market is \$20. The average market price to-day is \$125—and the lowest average in the past ten years is estimated at approximately \$84. Having in view the wholesale destruction of the French and Belgian herds, and the long-continued decline of the world's cattle population, it is difficult to foresee any recession in prices, at all events not below the lowest average above referred to. The unusual opportunity for profit is clear.

DEFOUGHT is unknown in the Company's territories. Failure of the natural hay crop is not recorded in the history of these areas. A reserve supply of winter feed is always available from the Company's lands at a nominal cost. Winter storms, which might be disastrous to herds grazing on flat prairie, are eliminated as a factor in the situation, owing to the rolling nature of the ground and the thick undergrowth on the hillsides. Disease will be guarded against by an arrangement whereby the Government of Alberta assures the Company of free veterinary inspection of every beast before it is placed on a ranch, and a free monthly inspection thereafter.

Will Government Cut Short Big Race Meets?

Looks as if Windsor Races Will Be Curtailed to 28 Days—Private Message From Ottawa Causes Annoncement.

[Special to The Advertiser.] WINDSOR, May 8.—Devotees of the racing game, who have been looking forward to a long summer of racing on Windsor's three tracks, seemed doomed to disappointment, if a private message from Ottawa received here today can be considered authoritative. It is stated, according to the dis-

patch, that the Government has decided to cut racing to 28 days at all Ontario tracks except Ottawa, where the runners will cavort for 48 days. Horsemen are now trying to figure out what Windsor tracks will fall under the axe, as each of the three has already announced its dates for the various summer meetings, making up 44 days in all.

SUPERIORITY

Considering power, mechanical details, luxury, comfort, first cost and maintenance cost—the Studebaker is supreme.

Here are some of the characteristics that have established Studebaker as the undisputed leader of all Canadian-made automobiles:

- 35 1/2 x 5 inch bore and stroke Motor—powerful, silent and economical in operation.
- Full-floating Rear Axle—full equipment of Timken bearings.
- Long, easy-riding Springs—semi-elliptic in front, 3/4 elliptic in rear.
- Studebaker-Wagner Electrical System—simple, reliable, never-failing.
- Individual, form-fitting front seats—with seat next to driver's reversible.
- Armchair auxiliary seats that disappear under tonneau seat when not in use.
- Beautiful and distinctive gun-metal finish—dignified and conservative body lines.
- Genuine, semi-glazed leather upholstery—not only genuine, but highest grade.

But come in and see these wonderful Made-in-Canada cars. Compare them point by point with their cars in the same price class. Then let us show you true roadability—over any road in this vicinity at any speed you wish.

YANKEES TAKE ANOTHER

Wild Bill's Crew Gets Early Lead and Trims Up Mack's Hopes.

DETROIT, May 8.—Stanley Coveleskie held Detroit to three hits today and Cleveland won 5 to 2. The visitors bunched hits in the last two innings to overcome a one-run lead, and were aided by two errors in the ninth. Heavy shower just before the game closed made it impossible to play the second part of the scheduled double header. Score: R H E Cleveland 5 10 0 0 0 0 2 5-10 1 Detroit 2 10 0 0 1 0 0 2-3 2 S. Coveleskie and O'Neill; Billings, Daus and Stange.

BUSH WAS BUSHED EARLY IN THE GAME

PHILADELPHIA, May 8.—Bush was ineffective in the first two innings of today's game and New York got a lead that Philadelphia could not overcome, the final score being 4 to 2. Score: R H E New York 2 10 0 0 0 0 1 4-10 1 Philadelphia 0 11 0 0 0 0 0 2-3 3 Cullen and Nunamaker; Bush, Myers and Schang.

WHITE SOX BEAT BROWNS TWICE IN ONE AFTERNOON

ST. LOUIS, May 8.—St. Louis outlasted Chicago today, but inability to hit runs were most needed, and poor fielding, lost both games for them. The scores were 4 to 2 and 2 to 0.

St. Louis held a lead of four runs in the fifth inning of the second game, but the locals' infield cracked, and the visitors made three runs on a single and four errors. Chicago tied the score in the sixth with two singles. Johnson's home run for St. Louis in the eighth tied the score again. In the ninth, Jackson's triple and Fiesch's single won for Chicago.

Score—First game—R H E Chicago 0 12 0 0 0 0 1 0-3 2 St. Louis 0 0 0 0 0 1 2 0-3 13 Scott, Cloutie, Danforth and Schalk; Davenport, Sothoron, Park, Hamilton, Plank and Severoid, Hale. Score—Second game—R H E Chicago 0 0 1 3 1 2 0 2-3 11 St. Louis 0 2 2 0 0 1 1 0-7 11 Williams, Bousch, Schalk; Sothoron, Koob and Severoid, Hale.

WASHINGTON, May 8.—Washington-Boston double-header postponed; wet.

LEAFS COME STRONG; NOSE OUT THE GREYS

Toronto Plays Sizzling Ball, Making Three Double Plays.

TORONTO, May 8.—After Schultz had held Toronto to three hits and no runs today, errors by Schultz and Cooney in the eighth enabled the Leafs to score two runs without a hit and beat the Greys 2 to 1. Three double plays held Providence down. Score: R H E Toronto 1 0 0 0 0 0 0 0-1 5 2 Schultz and Mayer; Hearn and Kelly.

At Rochester: Richmond-Rochester game scheduled for today played May 7. Other games not scheduled.

SARNIA GOLF CLUB TO ERECT NEW CLUB HOUSE

A Modern Structure To Be Built Immediately.

SARNIA, May 8.—At a largely attended meeting of the shareholders of the Sarnia Golf Club held on Monday evening, it was unanimously decided to erect a new clubhouse to replace the one recently destroyed by fire, to cost in the neighborhood of \$5,000, and to be erected as soon as possible. The exact plans and the amount of the appropriation were left in the hands of the directors, but the above figures were given as an unofficial estimate of the outlay. It is expected that tenders for the contract will be called for within a week's time. The new structure will be erected on the site of the ruined clubhouse and will be modern in every detail, embodying the latest ideas in clubhouse building and equipment.

ARCHER TO GO?

Rochester, N. Y., May 8.—The fact that Jimmie Archer, one time the greatest throwing catcher in baseball, is not with the Chicago Cubs on their first invasion of the east caused a report to gain circulation among the members of the club today that Archer was headed for oblivion. Manager Mitchell has four backstops now, Elliott, Wilson, Archer and Blackburn, and it is understood he is considering disposing of one of them shortly.

SAVE DAD'S LIFE GET IT FOR HIM

Says It Is Suicide To Cut Corns and Tells How They Lift Right Out

You simply say to the drug store man: "Give me a quarter of an ounce of freezeone." This will cost very little, but is sufficient to remove every hard or soft corn from one's feet. A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while freezeone is sticky, it dries in a moment, and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin. Don't let father die of infection or lockjaw from whitening at his corns, but cut this out and make him try it.

PFEFFER WEAKENS AND BRAVES TALLY

Boston Stages Ninth-Inning Rally and Delights Fans.

GIANTS BEAT PHILLIES

McGraw's Sluggers Pound Out Twelve Bingles for Five Runs in Early Stages.

BOSTON, May 8.—Pfeffer held Boston to three hits until the ninth inning today, then singles by Konechey and Wilbert followed by Gowdy's double scored Konechey with the run that won for Boston 2 to 1.

Score: R H E Brooklyn 0 10 0 0 0 0 0 1-4 1 Boston 0 0 0 0 0 1 0 1-2 6 1 Pfeffer and Meyers; Tyler and Gowdy.

PUT GAME ON ICE IN EARLY STAGES

NEW YORK, May 8.—New York won the second and last game of the series from Philadelphia today 5 to 1. Rixey was hit hard by the Giants in the second and third innings. Mayer and Pittery held New York scoreless thereafter. Score: R H E Philadelphia 1 0 0 0 0 0 0 0-1 5 1 New York 0 3 2 0 0 0 0 5-12 0 Rixey, Mayer, Pittery and Killmer; Anderson and Hardin.

At Pittsburgh: Pittsburgh-St. Louis game postponed, cold weather. Other game not scheduled.

GOODERHAM PLATER ASTONISHES BIRDS

Captain B. Does Best Mile of Season in 1:47 2-5.

SEAGRAM AND DYMENT

Nags Will Be Out for Airing Today—Terehera and Sturdee Look Good.

TORONTO, May 8.—Trainers were favored with ideal conditions for the working of their horses at the Woodbine this morning. In fact, it was the first real spring-like day of the season, and the track was in good shape. The Dymont and Seagram horses, which arrived yesterday, were out for an airing and a slow jog. The platers, Gally Head and Sturdee, in the same car, Trainer Allan Bailett, brought Bird Trap, Silk Bird, Lost Bird, Froissart, Sordello, and Lady Spendrift.

Charles Crew's plater Oriana put in a nice mile in 1:49 4-5 in company with Pepper Sauce. Miss Gayle put in an easy five-eighths in 1:05 2-5. Corn not seem to be improving as well as she might. Fountain Fay showed a smart mile in 1:46 2-5. Victoria went three-quarters in 1:20. Graphic's mile was in 1:47. King Hamburg showed his best performance of the season, a mile in 1:45 2-5, the first half in 50 3-5. Impress went a half in :53. William Walker's Ada Anne stepped five-eighths in 1:06 1-5 and Doline five-eighths in 1:07 3-5. Thoughtful, from the Hendrie stable, went three-quarters in 1:24. The 2-year-olds Garry Water and Shorncliffe put in three-eighths in 39 3-8. Oriana Shows Improvement.

Broom led Old Pop a half in :53 2-5. The Beardmore plate candidate, King Dove, went her mile in 1:50. Under stout restraint Bachelor's Blend and Annie Edgar, the Irish horses, went three-quarters in 1:21 2-5. Albie Gates' Gordon put in three-quarters in 1:19 3-5, and Marcovia a half in :54. One of the smartest performances of the morning was that of Commonada, a mile in 1:45 3-5. Reno went five-eighths in 1:06 2-5. El Rey, from the Stormont-Paretto stable, went a mile in 1:52, and Repton a half in :50. The imported Russell Square bred five-eighths in 1:06 2-5. Al Austin's 2-year-old Hollinger, brother to Horron, put in a half in :51 2-5. This is a fine colt.

The Other Works.
Gold Crest Boy, five-eighths in 1:08 3-5.
Sir Lancelot, five-eighths in 1:08.
Illuminate, three-quarters in 1:23 2-5.
Dehaven, mile in 1:52.
Leo Lembruck, three-eighths in :39.
Sert Volan and Red Post, three-quarters in 1:13 3-5.

Among the arrivals this morning were: James Boden, with D. Raymond's Athena, Salvat, Royal Blue, Bright Sands, and Willie Boy, an imported 5-year-old, from Montreal, in the same car, Trainer Allan Bailett, brought Bird Trap, Silk Bird, Lost Bird, Froissart, Sordello, and Lady Spendrift.

WELL-KNOWN JOCKEY KILLED.
NEW YORK, May 8.—Arthur Rodfern, one of the best-known jockeys on the American turf a little more than a decade ago, died in a hospital today of injuries received last Friday night in an automobile accident at Coney Island. His wife, who was injured in the accident, is in a serious condition.

Save Your Gasoline

The numerous voluntary letters from McLaughlin owners in all parts of Canada furnish proof as to the economy of gasoline consumption of the McLaughlin valve-in-head motor.

A McLaughlin owner in Toronto (name on request) who owns a D-4-35 reports over 27 miles to the gallon of gasoline.

Many owners of our Model D-6-63 get 25 miles and more to the gallon.

A Maritime owner of a D-6-45 (name on request) gets over 20 miles to the gallon over hilly roads, which is 50% more than most motors of other makes developing the same horse

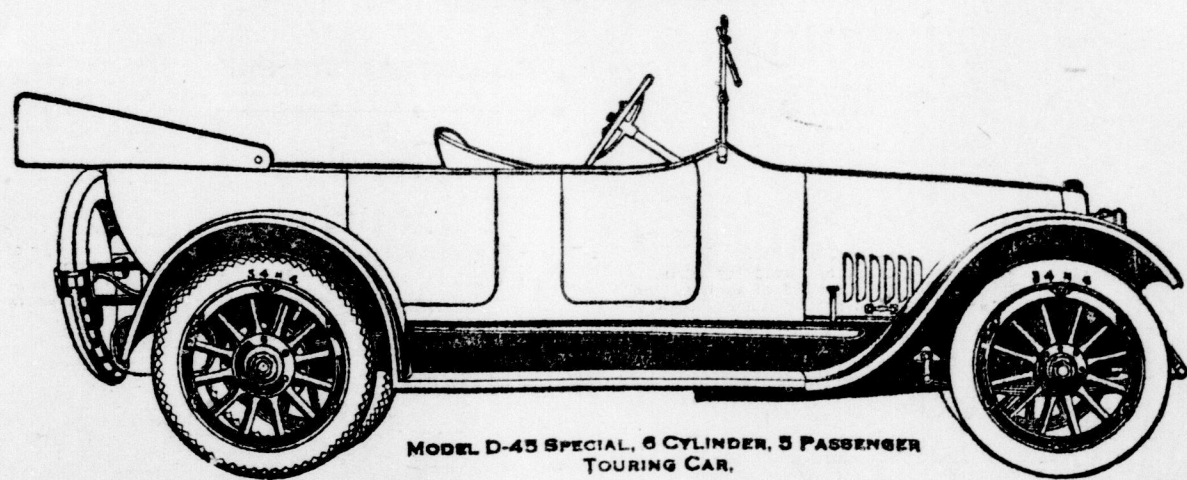

power and twice as much as some. The satisfactory gasoline mileage of McLaughlin motors is due to the valve-in-head principle of motor construction. This principle—right in the beginning—has been perfected during eight successive years of successful manufacturing experience. Today the McLaughlin valve-in-head motor is unrivalled for POWER ECONOMY and EFFICIENCY.

In McLaughlin Motor Cars all parts have been developed and perfected to the same high standard of efficiency and mechanical excellence as the valve-in-head motor.
