

Warning!

HYDRO POWER SHORTAGE

Owing to weather conditions, the ice troubles at Niagara Falls have assumed extremely serious proportions, which may continue for some days. Lighting consumers are therefore advised to procure candles and oil lamps if they are depending wholly on hydro-electric power for lighting. Manufacturers should immediately put into commission any steam plant which they have available. Service will be given whenever possible, and all consumers are requested to conserve as much as possible at these times, so that everyone will obtain his share of the power available.

Relief is hoped for at any moment, but we recommend

PUBLIC UTILITIES COMMISSION

SPEND \$274,000 TO BUILD NEW CITY SCHOOLS

Education Committee To Submit Estimate of This Amount For Construction.

\$70,000 FOR EALING

Same Amount For Adding To Wortley Road School—A Big Program.

After No. 2 committee of the board of education had passed its estimates of building operations for the year for public schools, it passed them once more, and in consequence the estimates to be submitted to the board of education will total only \$274,000.

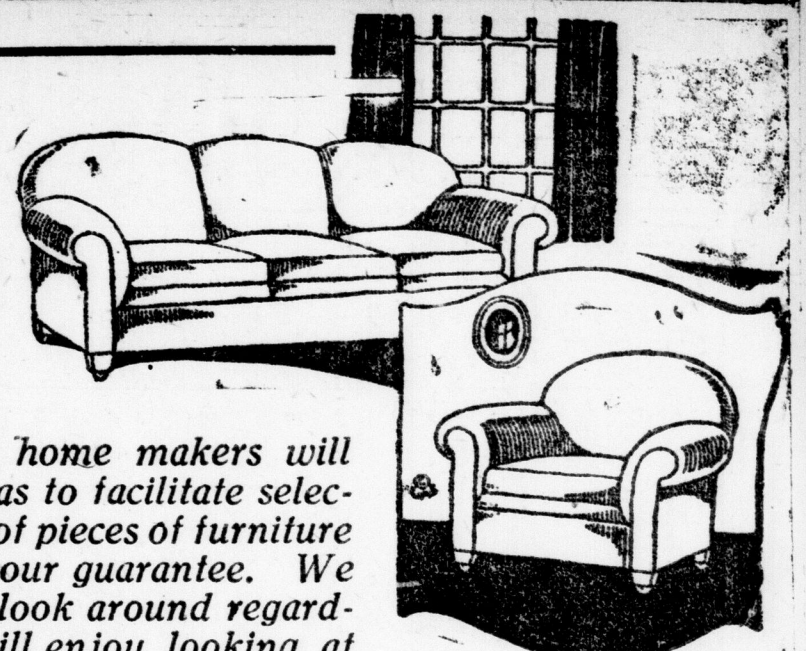

The board's architect, L. E. Carrothers, estimates the cost of a four-room school at Ealing, plus a kindergarten, at \$80,000. At Victoria school a four-room addition and an assembly hall were first put up at \$80,000, but trustee Harry Hayman pointed out that by making a few changes practically \$10,000 could be saved and the estimate was changed to \$70,000, which was also the total of the amount that was deemed necessary to expend on Wortley road school, where it is proposed to add six new rooms to take care of the congestion that exists there at the present time.

The northern section of the city, which is growing fast, will have a four-room school with all improvements, the cost being put at \$50,000. The original estimate called for \$60,000. If all plans for the year are carried out, the board of education and the board of health over the installation of lavatories in the various streets by each school will end this year, for the committee proposes to spend \$5,000 on the school this year and this includes an appropriation for school lavatories. Improvements that are needed at Simcoe street school were figured out at \$15,000.

A UNITED CAMPAIGN NEXT MAY TO RAISE FUND FOR CHARITIES

Committee Will Select Name For the Co-ordinating Organization.

Practically all London charitable institutions and organizations were represented at a meeting called by the Chamber of Commerce, and held in its rooms on Friday night, for the purpose of making arrangements for a united campaign for funds. It was decided to hold the campaign some time in May, the date to be fixed by the executive.

A nominating committee, consisting of five women and an equal number of men, will be appointed by George M. Reid. This committee will name the officers of the organization, and the officers will select a name by which the body is to be known. Committees will also be named by this committee, and the organizing of the campaign will be proceeded with immediately.

Some of those present last night spoke in reference to the placing of subscriptions. Many people it was claimed, would willingly donate to one organization, but would almost certainly refuse to have their money go towards the upkeep of some other society. George M. Reid said that this was a difficult thing to overcome. He did not think there were many people so narrow-minded as to

PARKS BOARD APPROVES A DANCE HALL AT SPRINGBANK

Two New Roads and Other Improvements Planned.

The parks board met yesterday afternoon in the board room of the utilities commission and approved an application for permission to erect a dance hall at Springbank Park. It will be up to utilities commission to conclude negotiations.

Plans for the year were talked over and it was decided to develop two new roads in Springbank Park as well as make improvements on unimproved spots in the city. A flower bed will be put in at the corner of Hamilton road and Horton street. Many improvements for Thames Park are also among the progressive features that the parks board intends to put in operation this year.

For the past ten years there has been a steady agitation by the friends and members of the association for the securing of a new building, it being claimed that the activities of every branch were cramped. In the many plans were discussed, worked up and dropped. The most prominent being that of securing the Sacred Heart convent property. During the past few years it has become urgent that some steps must be taken in the near future.

It is quite evident that it will cost money to erect a new building, and everyone who is acquainted with the modern Y. M. C. A. building knows that it will cost no less than \$200,000. However, no estimate has been made of what the building in London will cost when it materializes, said one of the directors.

Mr. H. Wendall said that the association was in no financial position to erect a building, and that it is self-evident that the money will have to come from the citizens of London.

Although the directors are living in hope that some public-spirited citizen will make a grant of sufficient funds away down in their hearts they know that the campaign to raise the amount will have to be staged. They have known this for the past four years.

All settled by someone.

Although it has been published that the campaign is to be staged this year, and in all probability will be, there has been no decision to that effect on the part of the board of directors. It is desirable to get the funds as soon as possible, but according to W. R. Wendall the plans are all extremely indefinite. He said that he personally had made an attempt to create interest in the project by discussing it with several people.

All the features of the new association were published, even to the description of the billiard rooms, bowling alley and cafeteria and the finest swimming pool in Canada. "None of these plans have been decided upon," said E. J. Jennings when interviewed. "These things are in the hands of the modern Y. M. C. A. but nothing definite in regard to them has been done in this city. The only thing that is certain is that if confirmed or denied, for there are some facts in it which are, as a matter of course, tampered out the most of them have been created in someone's vivid imagination."

FINE BUILDING--ON PAPER--BUT WHEN?

New Y. M. C. A. Coming in Sweet-Bye-and-Bye.

Once again this city is the richer by a magnificent building—that is, one built on paper. This building is not ten stories high and crowded by a magnificent roof garden, although it could easily be made so, but it is a few scratches of the pen; nor is it one that will double one of London's largest industries. It is nevertheless a new one, five stories high and modernly equipped—in other words, a new Y. M. C. A.

There is no doubt that a new home for the association will be built, as the present quarters long ago were discovered to be too small and insufficiently equipped to house one of the largest and liveliest organizations in the city, but any of the directors or members will remark that "when" is the question. According to W. R. Wendall, president of the board of directors, and E. J. Jennings, the general secretary, nothing definite has been decided, and it may be in four months or four years.

For the past ten years there has been a steady agitation by the friends and members of the association for the securing of a new building, it being claimed that the activities of every branch were cramped. In the many plans were discussed, worked up and dropped. The most prominent being that of securing the Sacred Heart convent property. MARRIAGE ANNULLED BECAUSE CHILDLESS

MILAN, Jan. 30.—The annulment of a marriage has been obtained here solely on the grounds that it was childless. This decision is expected to be followed by numerous applications for annulment on similar grounds, for there is no divorce in Italy.

The action of the tribunal is endorsed by the Italian press, as a whole, and the socialists have gone so far as to prepare a measure for the introduction into the chamber proposing that marriages shall be compulsorily annulled if no children result from them.

Junior Farmers' Improvement Association Has Banquet

W. C. Westlake, R. R. No. 2, London, was elected president of the London Junior Farmers' Improvement Association, formed by the members of the classes who took the short course in agriculture given by the department of agriculture in this city. The officers elected were: First vice-president, N. T. Sanderson, London, R. R. No. 7; secretary-treasurer, H. Paek, Byron, No. 1.

The association has a membership of 25 at the present time. Its object will be to advance the use of modern methods in farming in London Township. The inaugural meeting will be held during the third week in February.

A banquet was held by the association last night in the Royal Cafe. The meeting was addressed by W. J. Prebber, M.P.P., who spoke on "Community Spirit and Agriculture in Ontario." An address on "Citizenship" was given by W. H. Porter.

ENJOYABLE EVENING AT DUNDAS CENTRE CHURCH

A most enjoyable evening was spent by the pupils and teachers of the Intermediate department of Dundas Centre Sunday school on Friday evening, when their annual tea was held. Supper was served to 125 from a prettily decorated table, and afterwards a program of a literary and musical character was given. The following took part:

Vocal solo Ernest White

Vocal solo Leon Adams

"The Spirit and Agriculture in Ontario" Mrs. Lowrey's Class

Recitation Louise Andrews

Piano solo Annie Ward

"China-Wag" Dr. Gordon's and Mr. Shipman's Classes

Vocal solo Myrtle Pocock

Mr. German, the superintendent, also spoke a few words to the scholars, and with the singing of "God Save the King" a happy evening was brought to a close.

LIBERAL CLUB WINS EUCHRE FROM GEO. WHITE & SONS

In the second of the three match series of progressive euchre between George White & Sons and the Liberal Club, the club came out on top, with a lead of 118 points by running comment in the artist's character style, and a very appreciative received. Mr. Barker's lightning sketches on the blackboard, accompanied by running comment in the artist's character style, drew enthusiastic applause. Other items on the program which were much appreciated were pianoforte duets by Misses MacIntyre and Bond and readings by Miss Margaret Timmins.

The first match was won by the Liberals by 67 points, so they now have a 185 point lead on their opponents.

The final match will be played on Friday night next week.

Messrs. A. Robson and J. Glendon of the Liberal Club were the high score men, and were presented with prizes.

C. G. Spencer, St. Louis; P. H. O'Brien, Butte, Mont.; and J. Jennings, of Tomorden, Toronto, Canada, were tied for second place, with scores of 185.

Frank Troch, of Vancouver, B. C. and R. D. Morgan, of Washington, D. C., broke 194 targets for a third place tie.

Spencer was high professional, with a score of 185.

All the matches were for 200 targets.

18TH BN. ASSOCIATION HOLDS SOCIAL EVENING

New Organization Also Elects its Officers.

Thomas Lamb was elected president and A. R. Elliott, secretary-treasurer of the London Company, 18th Battalion Association, at a social evening held by the club rooms of the Army and Navy Veterans on Dundas street last night. More than 150 members and friends were present.

Although it was only the second social event of the association, the first being a Christmas theatre party, it will rank as one of the most successful evenings ever held by a soldier organization in this city. A splendid organization of readings, dances and singing was given, and after a luncheon had been served the evening was completed by progressive whist and euchre.

Perhaps the most popular numbers of the program were readings by Miss Beatrice Wells, although the Scotch, Irish and fancy dances, executed by Misses M. Stark and J. Anderson were enthusiastically received, especially their butterfly dance. S. Chapman, pleased with some excellent whistling, and S. Rankin created much laughter with a humorous reading and several funny stories. The refreshments were prepared and served by the Army and Navy Veterans.

SPRINGBANK PASSENGERS HAD FACES FROST-BITTEN WHILE WAITING FOR CAR

Were Delighted to Hear Squeaks of Old "27" Although Half-Hour Late.

Old 27 of the London Street Railway looks good at any time to Byron residents, who turn their best ear toward the car to better hear the squeaky noises created as she sweeps around the curves, but this morning those old squeaks sounded just like a heavenly choir.

Owing to the fact that hydro was off for 17 minutes (actual time by Motor-man Arthur Rockett's chronometer), and that the engine refused to go faster than a walk in the cold weather, Byron residents had to wait an extra half hour this morning for the car, and in the words of one passenger from the "Sax" it was no giddy Sabbath school picnic.

One after the other the noses and ears of the anxious passengers succumbed to the biting attentions of the bitter east wind, and Jack Frost chorused with such gusto that the unfortunate people trying to thaw out each other's noses with snow. First one passenger with a shawl draped around the car had to receive a goodly amount of face massage with snow before the palatial Pullman run by the street railway. Therefore it is no exaggeration to say that the car, as manufactured by squeaky 27 sounded like a heavenly band in full swing.

DEATHS AND FUNERALS

WILLIAM FORSYTHE BURIED.
William A. Forsythe was buried from the home of his sister, Mrs. Elizabeth Shaw, 823 Van street, Friday, January 23, interment being made in Mount Pleasant Cemetery. The services were conducted by Rev. George McKimley of Hyatt Avenue Methodist Church, assisted by Rev. C. H. Graydon of River Street Baptist. The pallbearers were Charles Pratt, Hector McPhee, John Stielz, William Pratt, Fred Johnson of London, and George Lillie of Seaford. Numerous beautiful floral tributes testified to the esteem in which the deceased was held.

DEATH OF THOMAS BROWN.
The death took place at St. Joseph's Hospital on Friday evening of Thomas Brown in his 30th year. Mr. Brown was born at Carlisle, England, and came to this country in an early age. For 10 years he lived at Allen Craig. He had resided in this city for the past 23 years. His wife produced him eleven years ago. He is survived by four sons, Robert S. and Thomas, both of this city, George of Lobo and John of Toronto. Gordon Scott acted as the accompanist, and acquitted himself in a creditable manner.

ENGLISH WOMAN IS LABOR CANDIDATE

LONDON, Jan. 29.—Miss Margaret Bonfield, secretary of the National Federation of Women Workers, who is a member of the British delegation to the Labor Congress at Washington, has been adopted as the parliamentary candidate for the Labour party in the Northampton constituency.

WALL STREET.
New York, Jan. 31.—Wall Street, 10:10 a.m.—Motors, steels and equipments were the leading features of the market at the opening of today's stock market. Changes among other issues, including the British delegation, were fractional and mainly lower.

10:30 a.m.—Equipments and steels, as well as the British delegation, were the strongest issues in the early part of today's stock market. The leading gains yesterday's gains by 1 to 2 points. Motors and their specialties, including rubber shares, showed a moderate recovery for falls, which started with a low-priced issue of 100 shares of 25-cent specialties. American Tobacco was prominent for its gain of 5 points.

New York, Jan. 31.—The crisis in foreign exchange, which gave rise to the financial centres, and further stringent domestic money conditions, were the leading features of the day's stock market. Traders were at first inclined to ignore the continuing influence of these conditions, but that momentous situation was later used as a lever to effect fresh gains.

The market was comparatively free from weak spots, save in some of the low-priced oils and miscellaneous specialties, whose intrinsic values and doubtful dividend status formed the basis of the speculation.

Sleeps In Snow Rather Than Go Under Home Roof

Colored Girl Picked Up by the Police At Night.

Edith Campbell, a young colored girl in a snowbank in Chelsea Green last night and refused to get up. The police were sent and Edith spent the night in the cells. This morning in court she was remanded for a week. "I might have frozen to death," declared Chief Williams. "I understand that she spent all of Thursday night out in the snow. Why she was not frost-bitten or frozen to death is a miracle." Magistrate Graydon gave the girl a severe lecture and will consider her case in the future. She told the court that she couldn't live at home as her mother would sooner sleep in the snow than under the home roof.

RURAL MAIL CARRIERS AND THEIR JOBS.

To the Editor of The Advertiser: I noticed during the past week one or two paragraphs in your esteemed daily regarding the mail carriers for the country parts. Having to travel the months for their wages is long enough, but when it comes to nearly four months, a mail carrier, who, as a rule, is not a wealthy man, it means there is some pinching in the boot somewhere, especially if he has a married man with all the commodities of life away up as far as the north end of the county. The price of hay at not less than \$22 in the bush and oats at \$1 for the bush—all this comes out of his (sometimes) less than \$300 per year.

It should be paid on a scale of wages per day. Of course we understand that they are mail contractors, and they put their own price in the contract, but that was before the cost of living went up, and the farmer, making all the other contractors wished to buy oats off the farmer, and he could not do so, as the farmer would not sell.

When a carrier writes to the department for an increase of wage, the answer comes back promptly reminding him of his contract, and the responsibility of himself and his two surrogates for the next four years should expire. The mail contractor seems to be tied all roads, and he must keep his contract even at a loss to himself.

It is one of the main things that the government should take in hand at its very earliest, and put the mail contractor on a sound footing. The service to the farmer is just as important as to the city. I remain, sir, yours obediently.

VETERANS STRONGLY FAVOR SCHOLARSHIP SCHEMES PROPOSED

Inorse Plan To Use Up Canteen Funds.

Reporting on the business of the provincial convention, the provincial headquarters of the G. W. V. A. forwarded the following communication to the local command yesterday:

"A resolution that any funds accruing from overseas canteen profits be supplemented by the Dominion Government to make same sufficient to fund 200 scholarships for children of deceased soldiers, each to be valued at \$750. These are to be known as war memorial scholarships.

"The scholarships should be given each year for competition at first, by orphans only, after fifteen years to the children of any soldier or sailor, and after 40 years to all children in Canada except those of alien residents, was adopted. The Dominion Executive will endeavor to find out the amount of the funds available.

"The delegates, including Lieutenant-Col. W. G. Coles of this city, and the provincial secretary, were appointed to wait on Premier E. C. Drury to submit resolutions and memoranda dealing with the helping of returned soldier students attending the G. W. V. A. C. by the Provincial Government, and in connection of a provincial monument in Queen's Park, Toronto, to commemorate the dead and the sacrifices of the women of the province who gave their men to the nation.

"The delegation pressed for the reorganization of the Ontario labor bureau. They asked for the elimination of the harmful activities of the soldiers' aid commission. The prime minister was heartily in accord with the plans and promised that future provincial legislation would prove the sincerity of his word.

"A resolution deploring the detention of shell-shocked veterans in provincial asylums was adopted.

"The board of pension commissioners expressed a desire to have the traveling medical boards examine pensioners at G. W. V. A. rooms wherever possible. Branches are asked to co-operate with them. In order that the delegates to the Dominion convention may enter Montreal without undergoing vaccination permission has been granted from the authorities in Quebec for delivery at the province on the present of the army pay book that records vaccination while in the army."

Wouldn't You Like to Be a Partner in a Fuel Factory Like This?

This is only one of a chain of OAKOAL factories that will extend from Samia and Windsor to Quebec in cities having populations of 20,000 and over. In these cities there will be an output of some 4,500 tons daily, thereby effecting a balance of trade in favor of Canada and Canadians of some eight million dollars a year.

Out of this and the difference between the price of coal and OAKOAL the users of OAKOAL will save some four million dollars annually.

Shareholders in OAKOAL will participate in profits of nearly a million and a quarter a year, when this output has been attained.

This Toronto plant is now being completed and will turn out some 300 tons of fuel daily (two shifts). The machinery has been bought and fully paid for, thus benefiting shareholders to the extent of a substantial cash discount. OAKOAL engineers and workmen are now loading this specially designed briquetting machinery—British made (from the famous Yeardon Company). This will reach Toronto early in March, at which time the contractors will have the main building ready to receive it.

In this building, which is of brick and steel construction, the assembling of the specially treated ground, dried garbage, coal dust and chemicals will take place. The garbage will be received in the garbage building, where it is sorted and scientifically treated, after which it is conveyed to the main building by automatic carriers and pulverized with the coal dust. This pulverized material is then elevated to a mixer where the chemicals that disinfect, deodorize and weather and waterproof the material are added. This fluxed mass now passes to the mulcher, thence to an automatic feeder and finally into the gigantic roller press, from whence the finished product pours out at the rate of 15 tons per hour, under a pressure of 5,000 pounds per square inch, in briquettes of egg shape and size—THE BEST SUBSTITUTE FOR ANTHRACITE COAL THAT HAS EVER BEEN PRODUCED, this fact being indisputable as tests made by hundreds of citizens, Government and University Laboratories, Federal Fuel Testing Station at Ottawa, and fuel experts in New York, Chicago and Washington prove.

The large building shown with the spouts is the storage shed. All these buildings are equipped with the most modern type of machinery, so as to eliminate every possible cost, that the public may purchase at the minimum price consistent with a fair profit.

The capital that is building and equipping this Toronto plant has been subscribed by some 500 citizens, including bank managers, wholesale, professional and scientific men, manufacturers, as well as farmers, mechanics and all classes of people generally.

This capital has been subscribed since last June, and as this was done without any tangible assets other than the Company's process and patents, it is reasonably certain that with this big, valuable plant, and the confidence and co-operation of Toronto's best citizens, the stock now offering for the erection of plants in Montreal, Hamilton and Ottawa this year will be quickly subscribed.

You have seen or heard of investments that have multiplied their original amounts by over a thousandfold, hundreds have multiplied by a hundredfold—and since OAKOAL is an essential product and the best coal substitute ever manufactured, there is no doubt but that it will beat the best of present industrials.

The conservative, careful management, with active board consultation and expert legal counsel, insures shareholders' interests being amply protected—hence you are advised, if you have money for investment, to secure a block of this stock.

Millionaires in Toronto are engaged in the briquetting of coal dust. Their stock was not offered to and cannot be purchased by the public. Millionaires cannot control the OAKOAL industry. In the selling of its stock the Company limited the allotments to \$1,000—making this a shareholders' company—a shareholders' organization, and under its new charter and reorganization, necessitated by the purchase of Quebec territory recently, the shares are offering at \$5.00—and you may purchase any quantity from ten to two hundred shares. We suggest that you lose no time getting further information concerning this great industrial.

In the manufacture of OAKOAL the company not only produces the best fuel, which will always be sold below others, but in that production CONSERVES wastes, and in that conservation SOLVES the disposal problem of these wastes, thus they have an industry of a distinctly ESSENTIAL NATURE and ONE THAT WILL GROW WITH THE GROWTH OF CITIES!

This is undoubtedly the outstanding investment opportunity of the day, and we cannot impress upon you too strongly the wisdom of securing the Company's literature.

Our faith in OAKOAL is seen from the fact that after having fully investigated the Company, its methods, its process, and product, and seeing the list of shareholders and the character and calibre of the men associated with it, we purchased a large block of the stock and now offer it, subject to the terms of the Company's prospectus, which with other literature will be sent upon request.

On a basis of 4,400 tons per day for 300 working days per year at only \$1.00 per ton net profit, after allowing 8 per cent. dividend on a total issue of \$750,000 Preferred Stock, every dollar of Common Stock would yield \$2.52 per annum, and on the basis of an 8 per cent. investment every dollar of Common Stock would be worth \$31.50—thus every \$5.00 share of Common Stock would be worth \$157.50.

The members of the Senator Coffee Chapter are entertaining at a bridge party at Wong's Cafe on Monday afternoon. The Trafalgar Chapter, I.O.G.E., entertained at cards and dancing in their rooms in the Royal Bank building last night. The proceeds were for the Children's Memorial Hospital fund.

Misses Ada and Saldie Munro of Alisa Craig were in the city this week, attending Stanley Meredith's production, "Sublet for the Summer," which is being put on under the auspices of the Women's Canadian Club in aid of their soldiers' memorial fund.

About twenty-five young people of Dutton were guests at the home of Mr. and Mrs. W. H. Cape on Tuesday evening, the guests of honor being Miss Myrtle Waite, bride-elect, in the course of a pleasant social evening. Miss Waite was showered with many useful kitchen articles by the young people.

A Jolly Informal dance was held by the Janey Canick Chapter in the Institute of Musical Art last night. Flowers and ferns made the large assembly hall on the top floor very attractive. A host of young people dropped in for an hour or so for dancing and to help swell the coffers of the chapter for the Children's Memorial Hospital fund.

A social event of next week, which is being looked forward to with much pleasure, is the Informal dance which will be held under the auspices of the Daughters of Zion for war relief at Hyman Hall on Tuesday evening, February 3. The committee in charge

are the Misses Lewis, Fishbein and Bertie Jackson, all of whom are sparing no efforts to make the dance one of the jolliest of the season. A delightful program of the latest dance music will be furnished, and the chapter is looking forward to a large turnout of its friends and members.

The Masonic Temple was brilliant last night with hundreds of little colored lights on the occasion of the home given by the St. George's Chapter of Royal Arch Masons. The affair was very informal, cards and dancing being enjoyed, and a buffet luncheon served. The happy party broke up at the midnight hour, throughout the evening delightful dancing music was provided by the Masonic orchestra under the leadership of Joseph Fococke. The committee in charge of the arrangements were Rt. Ex. Comp. George E. Logan (chairman committee), Comp. W. Parkinson, Rt. Ex. Comp. Edwin Smith, Comp. Tom Cousins, Comp. Harry A. Bell, Comp. J. B. BRUSH-HARTFORD. A pretty wedding took place at Blenheim when Wheeler Brush, son of Mrs. Mary Brush and Miss Mary Hartford, daughter of Mrs. Orlando Hartford of South Lewich, were married at the home of Mrs. Hartford by the Rev. J. C. McCrackin. The young couple are spending their honeymoon in Toronto, and will return to their home in South Lewich.

RYAN-McILHARVEY. On January 14 a quiet but pretty wedding took place at St. Patrick's Church, Leuchan, by the Rev. Fr. Hogan when Miss Sadie McIlharvey, youngest daughter of Mrs. J. McIlharvey, and the Rev. Mr. Ryan were united in matrimony. The bride was escorted by her brother, and the groom by his brother-in-law. The ceremony was performed by the Rev. Fr. Hogan. The bride was dressed in white, and the groom in a dark suit. The reception was held at the home of the bride's parents. The young couple will reside in South Lewich.

Is there a cross word that tries to be said? Don't let it, my dear, don't let it. Don't speak two pleasant words, might it in your ear? And that will make you forget it. —Robert Louis Stevenson.

Attention! "A Puzzle" and "Sparks." Dear Miss Grey, I wrote quite a lengthy letter to the page not long ago, and didn't intend to write soon again, but I see there are more sparks flying. Now, surely, sparks, you do not think the cow storage eggs you bought were packed by farmers, and have never on a farm all my life, and I have never yet known a farmer who packed eggs in no manner for selling in the market. I cannot understand why the farmer failed to deliver the "eggs" to "A Puzzle." Are you sure he intended to "A Puzzle" in the same way that you did? My advice is, try and find out the truth. They are not all like that, and I am sure you will have the experience to judge all farmers by the quality of their produce. Last fall a man ordered five bushels of peaches from us. He told us several times that he would be here on a certain day. We haven't seen or heard from the man since. Of course, it is possible that he was on his way, but you can easily see that it takes all the risk which he makes a bargain with a farmer.

When I received your letter with "for a city, square deal is our way." The farmers' government stands for strictly no government, no regulation, no means a square deal at all, with no special privileges. In this last year we've seen just what they are capable of. They are not only taking the best of the land, but they are also taking the best of the people. They are not only taking the best of the land, but they are also taking the best of the people. They are not only taking the best of the land, but they are also taking the best of the people.

DERE MABLE. Dear Miss Grey, I have your room for another visitor? I hope so. Really, Miss Grey, you must be tired of getting letters asking for that stock of self-addressed stamped envelopes for sale. I have read your letters for some time, and I enjoyed them, too. I want to know that there is at least one person who reads them. I read your recent letter in which she talks about the "Dere Mable" books. I am sure you will find them very interesting. I have read them, and I am sure you will find them very interesting. I have read them, and I am sure you will find them very interesting.

FOR CHIBBIANS. I saw my last letter in print, so I gave me courage to write again. I got a lovely letter from Auntie on Saturday, and just got done answering it. I am going to ask you or some of the readers for the names of "Chibbi" boys. Dewdrop of the Hills, if you did not eat your slice of Christmas ractus when you were in the States, please write to me, if you are so kind as to write to me, if you are so kind as to write to me, if you are so kind as to write to me.

TO SWEETEN LARD. Dear Miss Grey, Many thanks for stocking-foot pattern and information which I received a few days ago. I am enclosing 10 cents for the pattern, and hope the fund is growing. I think I can be of some help this time with the "A Puzzle" and "Sparks" section. Put lard on the stove in a basin and when hot drop in a little sweetener. Boil for five minutes. The sweetener should be nearly cooked, then set away to cool. I am very much interested in the "A Puzzle" and "Sparks" section. A Clever Idea. Dear Miss Grey,—Resolved to write and ask admittance to your freebie and relate this little incident which may be interesting to some of the readers. When the Chicago World was in circulation, they published a page weekly, called "The Corner," to which many of my brothers wrote, signing their names as "The Corner." I was unknown to him, my sister wrote signifying her name Leone, and at times in her letters to the paper she would say some little personal thing about Carl; six months ago, one day she called on me and said she was going to write a letter to Carl from "The Corner." Well, did you ever, by God, I'm going to write to the editor and get the photo, which with this letter he sent her to the editor to see if she would like to be in the paper. Well, I received his letter. He came in the morning and said, "Now, Leone, just wait a minute. I have a letter for you. He opened the letter to find that the Leone in question was his own sister. Needless to say, it made him sore, and he vowed all kinds of things.

The object of the meeting was to try and bring about closer relations between the mothers of children in the public schools of the city and the Collegiate Institute, whence many of them ultimately go, and Mrs. Mooney's address dealt with this question. In addition there was an excellent musical program, including vocal solos by Miss Edna Guy and Carmen Learan, Mrs. Harry White was in the chair, in the absence of the president.

What is Gluten? Do you know? Food experts talk of food in terms of gluten, proteins, carbohydrates, fibre, heat, etc. These are important food properties. Reduced to simple English, they mean nutriment. Gluten is one of the important nutritives of flour. It is the organic compound that forms tissue. Therefore it is a very important body-builder. Manitoba No. 1 Hard and the best Ontario Soft Wheats contain very generous portions of gluten. When ground and baked into cakes, pies, etc., these two varieties of wheat provide a goodly share of gluten broken up into its most digestible form. Therefore for body-building value and for digestibility you cannot do better than have bread, cakes, pastry, etc., made from a perfect blending of these two qualities of grain. That is why DIAMOND FLOUR "Becomes a habit" among people who know the value of bread as a body-builder. Look for the labels on the bags and you get the best.

A FRIGHTFUL DEATH, SUFFOCATED BY ASTHMA. The Dread of Such an Unhappy End Oppresses Every Sufferer. Every sufferer from Asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old-fashioned remedies may relieve, but never cure. Best results come from Catarrhose, which cures Asthma after hope is abandoned. It's because Catarrhose kills the asthma germ that it cures. Choking spells and forced breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronic experience immediate relief and lasting cure. Equally good for Bronchitis, throat trouble and Catarrh. The large one dollar outfit includes the inhaler and lasts two months, sold by all dealers or from the Catarrhose Company, Kingston, Canada.

Welland Win From Colborne And Take District Honors

WELLAND, Jan. 30.—Welland Intermediate won the district League honors here by defeating Port Colborne in the last game of the series by 5 to 4. Many spectacular plays were in evidence. Durmister and Herbergs starred for Welland, Grant, Shay and Bell for Port Colborne.

SIMCOE AVENGES DEFEAT AT PARIS BY WIN 6-2

SIMCOE, Jan. 30.—Simcoe defeated Paris in a fast game here tonight by the score of 6 to 2. Although the game had no bearing on the group, the locals were out to avenge the game lost at Paris. Kelly and Osborne were the stars for Simcoe, while Wood and McLaughlin did well for Paris. Wins in goal for Simcoe made some sensational stops. The game was very clean and was handled by Referee Crant of Simcoe.

WALKERTON WINS.

WALKERTON, Jan. 30.—A Northern League hockey game played here tonight between Southampton and Walkerton resulted in favor of Walkerton 8 to 5. Southampton—Chasey, goal; Telford and Stevenson, defence; Arnold, right wing; Knowles, centre; Hubby, left wing; Hauck, spare. Walkerton—Kram, goal; O'Malley and Russell, defence; Robb, right wing; Oberle, centre; Wettlaufer, left wing; Ellis, spare. Referee—Legg of London.

Basketball Night Due for Western Gym Tuesday

City League Girls Will Play Before Aggie-Varsity O. B. A. Game.

At the Western U Gym on Tuesday night a basketball night will be staged, as a preliminary to the O. B. A. Western U. O. B. A. clash, the Varsity girls will stage a league game with the Shamrocks. At 8:30 the big game will be put on.

The Varsity crew, after what the local Y succeeded in doing to the Aggies are confident that they will have little trouble in taking them into camp. They have been working hard all week, and with tonight's game in Toronto should be in good shape for the regular fixture on Tuesday night.

OSHAWA 5, BOWMANVILLE 4.

Oshawa, Jan. 30.—Oshawa O. H. A. team defeated Bowmanville in an Intermediate fixture here tonight by a score of 5 to 4. The game was fast and full of excitement from start to finish. Bowmanville remained in the lead until the third period, when Oshawa scored four goals in quick succession. The ice was fast and a good crowd was in attendance.

Off the Boards

"What a funny game!" quoth one fair fan last night as she watched the London-Glencoe fracas. And she was right. It baffled analysis. It was not exactly farcical, and mislead travesty by a few inches, and yet at times it was real hockey, and the most serious faces in the whole rink were those topping the Glencoe sweaters.

At its worst, it was a blend of a good hockey and a bad show, and good hockey. At its best, which did take up more than fifteen minutes, it was a good watch, from a London point of view.

One of the best things about the whole hour was the manner in which the local defence attempted combination. The whole forward line was unselfish last night, and if it didn't get them anything in the way of goals, it's a start. A lot of it came to naught through inaccurate shooting, but a lot more of it ended in nothing, because Glencoe players unintentionally at least, it looked, stumbled or fell in the way of the pass.

With the exception of Davenport, who played defence, none of the visitors were finished hockey players. They were earnest, however, checked both hard and diligently. Davenport made several very nice rushes, and lost no time once he trips down. He quite frequently left the defence and ran back to his old position at centre ice.

Along with their earnestness, the visitors showed a disposition to get back on the defence, so that whenever Ferguson or Kelly started down they always had a man to get through. And they had an innocent way of working the local rushers into the corner, which was either good luck or it just happened that way.

During part of the second period considerable bodying and a little kneeling, with the old stiff-necked trip, went into the game of both teams. Some of them seemed curious to see what kind of a noise they'd make when they fell.

If hydro had been off a short while longer there would have been little of the rink left to play in. The fans apparently took it for granted that the lights would be turned off to keep the youngsters from putting on their usual "peppery grab" stunt. Bowdies attempted to start small bonfires, and generally raised a disturbance, that showed poor sportsmanship.

After the lights had been out for some time, the best the hydro station could promise was that they would be on again in about an hour. One would have been satisfied if they had never come on, quite honestly.

The Glencoe team deserve all kinds of credit for the way they have carried on this winter under warps. With no rink of their own, they have to depend largely upon games for their practice, or get it in an open-air rink.

The brand of hockey displayed by the locals wasn't helped any by the visitors' style of play. However, they showed all sorts of that old speed, and plenty of the fast in this particular. Incidentally, they showed again that if they do get teamwork going they'll be a hard outfit to beat.

The Juniors are rightly pleased with the result of the draw, which gave them a bye in the district playoffs. It looks now as if the seniors and Woodstock will play Wednesday in the first sudden-death match and Leamington the winners Friday night. It would be an awful blow to Tillsonburg if the Thomas outfit should have to play a defeat Monday night. It seems almost impossible, but things will happen sometimes.

The Stratford bugaboo, which has been heard all season from Stratford itself and from Toronto, was sent of batted by the St. Marys kids Thursday night, when they held the much-heralded Classic City boys to a 3-0 tie. If that is the brand of hockey Stratford plays, then the winners of the local group should have little trouble in getting into the playoffs. Perhaps the Stone Town crew have improved since their appearance early in the season, or perhaps the Stratford bunch had an off-night.

KITCHENER BEATS DON R. C.

Toronto, Jan. 30.—By a score of 8 to 0 Kitchener defeated the Don Rowing Club. The Don Rowing Club was outclassed from the start.

"What Shall I Do Then With Jesus, Who Is Called Christ?"

Pilate's Question Is Yours To-day

THE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

tians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

Where Do You Stand?

You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities? You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

The Inactive Christians

Not all continue faithful. Many neglect to keep the Pattern before them. They cease to pray. They forego public worship. They become only nominal Christians. Their sympathies are on the side of Right, but they miss the full-orbed peace that comes from being obedient to the Heavenly vision.

A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master; if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

National Peace Thank-Offering Simultaneous Every-Person Canvass by Each Communion February 9 to 14

Aiding the Enemy

Apart from their own loss, lukewarm Christians do positive harm to the Faith. Enemies never cite the lives of notable Christians.

"What shall I do then with Jesus, who is called Christ?"

A United Appeal

FIVE Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

The Decision Is Yours

LET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

PRESTON BEATS ELMIRA IN SENIOR N. H. L. GAME 7-3

PRESTON, Jan. 30.—In a senior Northern League game played here tonight between the fast Elmira and the local seniors resulted in a win for the locals by the score of 7 to 3. The game was fast and clean, and the small crowd in attendance was well pleased with the exhibition. Irvin Bowman and Meyers were the pick of the locals, while the Ruppel brothers were the best of Elmira. George Miller performed satisfactorily to all.

BRACEBRIDGE 7-PARRY SOUND 7.

PARRY SOUND, Jan. 30.—Bracebridge and Parry Sound played the final game of the series to decide the winner in Group 15 tonight. The game ended in a tie—7-7. Bracebridge thereby winning the round by three goals. Parry Sound were handicapped by having two men in the hospital list, but even at that had over two-thirds of the play. Jocque in the nets saved his team many times with almost impossible saves.

BRITTON GETS AWARD.

SEAFORTH 11-ST. MARYS 11.

SEAFORTH, Jan. 30.—In a very interesting intermediate O. H. A. game played tonight Seaforth easily outclassed St. Marys by a score of 11 to 11.

1870 Our Golden Jubilee 1920

The Father of the Mutual

IN the year 1869 the late Cyrus M. Taylor of Waterloo, Ont., was instrumental in organizing a Company that has made his name famous—The Mutual Life Assurance Company of Canada.

In the year 1863 the same far-sighted promoter had established the Waterloo Mutual Fire Insurance Company which had become very successful. This encouraged the people to place faith in his new enterprise.

There was a great amount of unselfish service rendered the policyholders in the early days by Mr. Taylor and his associates. Much of their work was entirely without compensation and their self-denial supplied the place of capital.

The Company has steadily kept its first aim in view of furnishing the people of Canada with the largest amount of life insurance at the lowest cost.

What is the secret of the success that attended the efforts of Mr. Taylor and his associates? The answer is co-operation or mutuality. At first the principle was not very well understood as applied to a

business proposition—but to-day it is the most significant word used in the world of business.

Up to the present the company has either paid in claims or holds to pay future claims upwards of sixty million dollars so that its usefulness has been clearly demonstrated. Over Mr. Taylor the simplest and grandest of epitaphs might well be written—

How Signs of Old Age Creep Into Your System When the Iron in Your Blood Runs Low

Fe' Want of Iron, You May Be Old at Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, with Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy.

IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue, and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life, simply because they have allowed worry, overwork, nervous strain, dissipation and occupational poisons to sap the iron from their blood, and thereby destroy its power to change food into living tissue, muscle and brain. You will find the greatest number of people at 40 who are broken in health and steadily going downward to physical and mental decay, while others at 40 are strong, active, alert and seemingly growing younger every year. One class withers and dies like leaves in autumn, while the other, by keeping up a strong power of resistance against disease may pass the three score and ten mark with surprising health, strength and vigor. But you cannot expect to look and feel young and vigorous unless you have plenty of iron in your blood, and physicians explain below why they prescribe organic iron—Nuxated Iron—to supply the iron deficiency in the weak, nervous and run-down, so as to build them up into stronger, healthier men and women.

YOU ARE AGEING If you are weary by the activities of your daily life.

YOU ARE AGEING If you have lost the spring of your step and your movement are cumbersome.

YOU ARE AGEING If your skin is shrinking and your face looks wrinkled, carefree, and old.

My own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take him- self or prescribe for his patients with the utmost confidence of obtaining suits.

Many a man and woman who ought still to be young in feeling is leading the old-time vim and energy that makes life worth living, simply because their blood is starving for want of iron," says Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Department), New York, and of Westchester County Hospital. "Thousands are ageing and breaking down at a time when they should be enjoying perfect health, because anaemia—lack of iron in the blood—has fastened its grip on them, and is sapping their strength, vitality and energy. But in my opinion, you can't make strong, keen, forceful men and healthy, rosy-cheeked women by feeding them on metallic iron. The old form of metallic

Iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are ready to be taken up and assimilated by the human system. I strongly advise readers to get results, remember that such prescription for organic iron—Nuxated Iron—if you don't want to go to the trouble of getting a physician's prescription for organic iron—Nuxated Iron—particular name (Nuxated Iron) appears on the package. If you have taken other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron. Dr. George H. Baker, formerly Physi-

FUN FAST AND FURIOUS IN BIG FILM FEATURE "PINTO" STARRING MABEL NORMAND AT MAJESTIC

AT THE MAJESTIC

TODAY (Last Time) — Stanley Meredith & Co.'s gorgeous musical show, a riot of pretty girls, brilliant costumes and catchy music. Constance Talmadge in "Happiness is a Mode."

MONDAY, TUESDAY, WEDNESDAY—Mabel Normand in her new screen triumph, "Pinto," a rollicking tale of a harum-scarum frolic into eastern society by a female Lochinvar, Vaudeville. Snub Pollard Comedy. Chester Outing Pictures. News and Travel Pictures.

THURSDAY, FRIDAY, SATURDAY—Special production. Beautiful Eileen Hammerstein and all-star cast in the superb masterpiece of the screen, "The Country Cousin," by Booth Tarkington.

COMING—One of the greatest screen productions of the year, Rupert Hughes' "The Cup of Fury."

"Packed With Pep" is the best and easiest way of describing Mabel Normand's new special production, "Pinto," which is to be shown at the Majestic Monday, Tuesday and Wednesday.

And talk about speed! From the minute "Pinto" hog-ties a "greaser" after a reckless ride in the opening scenes to the time she throws a noose around the hard-boiled neck-band of a social Romeo, drags him up to her window in a classy Long Island mansion, and brings him out west, where she makes a flannel-shirted cave-man out of him, there's no let up in the action. It's action and more action with every foot of film jam-packed with laughs and unexpected twists.

Wild chases over western plains; Pinto's sensational and highly informal introduction to society; a spectacular social fete in which the two-gun whirlwind stages a wild west show that winds up in a riot. These are but a few of the comic high lights that help to make "Pinto" the funniest and most

elaborate comedy in which Mabel Normand has ever appeared.

While hilarious comedy is the keynote of "Pinto," the picture is not without its moments of pathos which, instead of detracting from the fun the picture provides, further accentuates the laugh-producing episodes.

When "Pinto" reaches her eighteenth birthday, her five "fathers," who adopted her when her parents died, decide that ranch life will never make a "lady" out of her. Their pal, now a member of New York's "400," enthusiastically agrees to give her the necessary "education." Accordingly, "Pinto," accompanied by her "nursemaid," "Looney," bald, fat, and forty, hits the trail for New York and high society.

After many misadventures, "Pinto" arrives at the palatial home of her host and makes a flying, if undignified, entrance, and almost causes a riot among the society swells. She goes through some of the funniest stunts imaginable in her efforts to make her wild and woolly feet and eyes behave in society fashion; she gives society a high voltage electric shock with a wild west show that breaks up in a carnival of shooting and a riot call for the police; she exposes the secret love affair of the social-climbing wife of her host and puts a whirlwind finale to her social meanderings by roping a Romeo and taking him back west with her.

As "Pinto" Mabel Normand presents a figure that would bring tears of mirth out of a wooden Indian. She's a human dynamo of energy and fun. Whether she's galloping across the plains, or galloping through a Long Island mansion hell-bent, she just bristles with pep and fun.

Among the extra attractions on the program for Monday, Tuesday and Wednesday at the Majestic will be a Snub Pollard comedy; Chester Outing Pictures. News reels and many other interesting pictures. A cabaret singer

direct from New York will be the vaudeville attraction.

BEAUTIFUL EILEEN HAMMERSTEIN IN "THE COUNTRY COUSIN"

When Booth Tarkington and Julian Street wrote the "Country Cousin" they cleverly contrived to establish one of the most popular best sellers ever known in fiction, and also one of the most famous farcial successes the stage has ever presented.

For this reason among others it was determined to secure the screen rights of "The Country Cousin" for the initial appearance of beautiful Eileen Hammerstein—and it is with that added power of color, action and extensive scope that this splendid story has been created into a masterpiece of the screen.

Miss Hammerstein is the personification of youthful grace, charm and brightness, and her beauty places her at once in a special corner of the heart of each movie fan. Of medium height she is one of the few who can afford to rely upon humanness and instinctive talent to portray the characteristics created.

"The Country Cousin" is a tale of beautiful country estates and wonderful luxurious palaces of the wealthy of New York—of Nancy Meadowbrook, a little country mouse, who finds her way into the innermost circle of the smart set of eastern society. Her eyes and her ways (you know what I mean), were irresistible to the monogled Johnnies who bragged about their pull with the ladies. But Nancy from Meadowbrook suddenly became cliffed, looked on with envy, and then something startling happened.

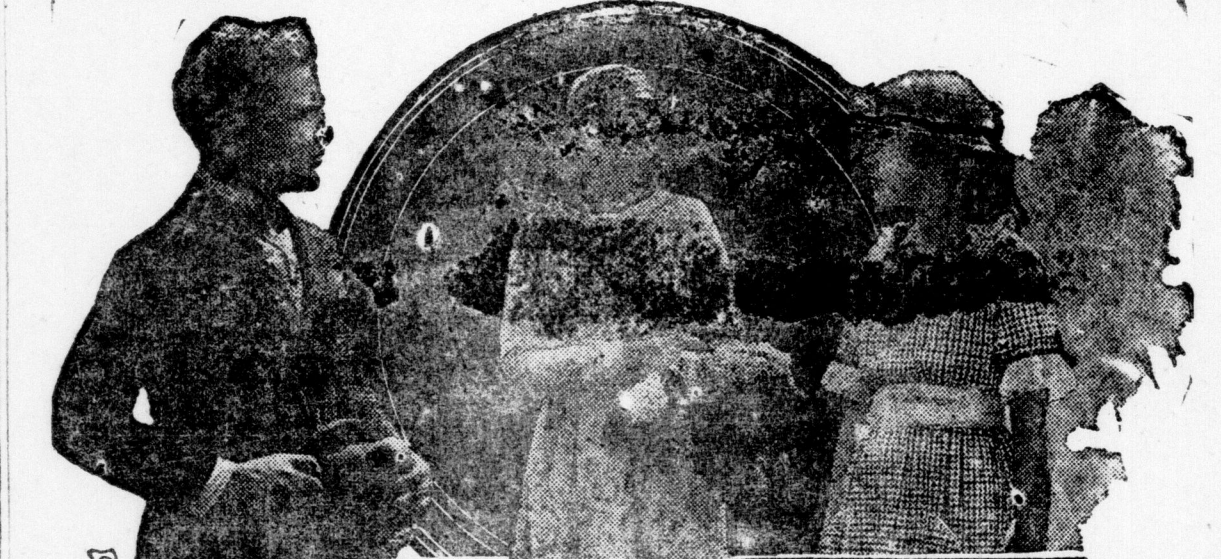

BIG PRODUCTIONS TO BE SHOWN SOON AT MAJESTIC THEATRE

Coming to the Majestic within a few weeks will be the much-awaited and one of the greatest screen productions of the year, Rupert Hughes' famous novel "The Cup of Fury," presented in seven reels with an all-star cast and one of the best adaptations which has ever been made of a book into a scenario.

The Majestic has booked for the next month a number of big special screen attractions, among which will be Alice Brady's big spectacular Oriental picture "Redhead"; Eugene O'Brien's new production "Sealed Hearts," heralded as another new and startling departure from the usual in screen attractions; Owen Moore in what is said to be his finest piece of work "Sooner or Later"; Madge Kennedy's most pleasing characterization as the little lady heroine of "The Blooming Angel"; Rex Beach's "Silver Horde" and Will Rogers in "Water, Water, Everywhere."

Scene from "Pinto," the big screen production starring Mabel Normand as the rollicking, frolicking cowgirl who broke into eastern society and started it out of many nights' sleep with her hair-raising stunts and two-gun love-making. A special production with an all-star cast—showing at the Majestic on Monday, Tuesday and Wednesday.

Another special production—a picture of wonderful country estates and magnificent New York palaces of wealth—of a charming little unsophisticated country beauty—and her adventures in romance amongst the monogled Johnnies of the idle rich—showing at the Majestic next Thursday, Friday and Saturday.

Eye Specialist and Medical Author Report on Wonderful Remedy To Strengthen Eyesight

Say It Strengthens Eyesight 50% in One Week's Time in Many Instances.

New York.—Dr. Smith, a well-known eye specialist, and Dr. Jenkins, a Massachusetts physician, make the following reports after thorough tests of a popular remedy for the eyes.

Says Dr. Smith: "When my attention was first called to it I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation, I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago, and I am frank to say that some of the results I have accomplished with Bon-Onto not only astonish myself, but also other physicians with whom I have talked about it, and I advise every thoughtful physician to give Bon-Onto the same careful trial I have, and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which have heretofore been difficult to cure. I have had individuals who had worn glasses for years tell me they have dispensed with them through the use of Bon-Onto. In my own practice I have seen it strengthen the eyesight of more than 50 per cent in one week's time. I have also used it with successful results in cases of weak-eyesight, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, watery eyes, blurred vision, and in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl 12 years old. Two prominent eye specialists after a thorough examination, decided, according to her father, that in order to save the sight of her right eye, the left must be removed. While awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Onto. In less than three days a marked improvement was noticed. At the end of a week

the inflammation had almost disappeared and at the end of six weeks the eye was pronounced saved. Just think what the saving of that eye means to this little girl! Another case is that of a lady 43 years old. She came to me with dull vision and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon-Onto the lids were absolutely normal and her eyes are as bright as many a girl of 18."

Dr. Jenkins, Massachusetts physician and medical author, formerly chief of clinics in the Union General Hospital, Boston, Mass., and formerly house surgeon at the New England Eye and Ear Infirmary of Portland, Maine, says: "I have found oculists too prone to operate, and oculists too willing to prescribe glasses, while neglecting the simple formulas which form the basis of Bon-Onto, which in my opinion is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eye's formula is well known to all old-fashioned and the use of Bon-Onto as common as that of the toothbrush. I am firmly convinced from my extensive work with Bon-Onto that it will strengthen the eyesight at least 50 per cent in one week's time in many instances."

Victims of eyestrain and other eye troubles, and many who wear glasses will be glad to know that according to Drs. Smith and Jenkins there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable remedy, and many who once wore glasses say they have had them taken off. One man says after using it: "I was almost blind. Could not see to read at all. Now I can read everything without any glasses, and my eyes do not hurt any more. At night they would burn dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The same trouble seemed to come upon me, but after using this remedy for 15 days everything seemed clear. I can read even fine print without

glasses." Another who used it says: "I was bothered with eyestrain caused by overworked tired eyes, which induced severe headaches. I have worn glasses for several years, both for distance and close work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now, and have discarded my long-distance glasses since then. I can count the buildings across the street now which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited in this easy manner. Go to any drug store and get a bottle of Bon-Onto tablets. Dissolve one tablet in a fourth of a glass of water, and use them from two to four times a day. You should notice your eyes clear and improve right from the start, and in a few days your eyes will be so strong that you will be able to take a vacation from your glasses. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

NOTE: Another prominent physician to whom he shows this article was submitted to him. He says: "The Bon-Onto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were affected through overwork or night glasses. It is one of the very few preparations I feel should be kept on hand in a household. It is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturer guarantees it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It is dispensed under guarantee to all good druggists in this city, including Standard Drug Company and Huggins' Drug Store."

"THE NAUGHTY WIFE" AT THE GRAND TWICE TODAY

PLAYING AT THE GRAND

TWICE TODAY (matinee 2:30, night 8:15)—"The Naughty Wife," the farce hit of the season. MONDAY, TUESDAY AND WEDNESDAY (daily at 2:15 and 7:30)

ALL NEXT WEEK—Mary Pickford in her latest and best, "Pollyanna." THURSDAY, FRIDAY AND SATURDAY—Change of vaudeville program: Budd and Jessie Grey, Rose and Thorne, "Ginger Snaps," Frank Mullane, "Married via Wireless."

COMING WEEK FEB. 9—Douglas Fairbanks in "When the Clouds Roll By." COMING WEEK FEB. 23—"The Miracle Man."

POLLYANNA, THE GLAD GIRL, AT THE GRAND ALL NEXT WEEK ALSO TWO BIG VAUDEVILLE BILLS

Critics everywhere assert that "Pollyanna" is one of the greatest picture-plays ever filmed. The reason for this is that the philosophy upon which the story is based constituted a theme which at the present time has an unusually wide appeal.

points out in this story that even when things are bad they might be worse. This thought, planted in the minds of people who are dissatisfied with wage conditions or who think they are not getting a fair price for their goods, will tend to stimulate a line of mental activity which will result in stabilizing conditions.

The most progressive of the picture stars he eye in choosing plays, where-ever possible, which will act as a progressive propaganda of good. It is their ambition to have each screen medium serve a definite purpose and with this in mind Mary Pickford decided to picture Eleanor H. Porter's famous book, "Pollyanna" is a picture with a mission.

The management of the Grand have arranged two vaudeville bills of unusual excellence to be presented in conjunction with Mary Pickford's latest picture, "Pollyanna," which will be shown all next week.

Tuesday and Wednesday's vaudeville program will be the timely and elaborately presented musical revue, "Around the Map," and offering featuring the latest songs, dances and specialties.

On Thursday, Friday and Saturday's bill the headline will be the miniature musical comedy, "Married Via Wireless." This is one of the most spectacular and entertaining acts on the vaudeville stage this season, and is sure to be well received here.

Another act that will prove highly entertaining will be that of Rose and Thorne, "The Yale Boy and the Swede Girls." This duo have incorporated some new and novel ideas into their act.

Stockings for cold weather

Buster Brown Stockings will lighten the clothing bill this winter. They are sensible, closely-knit stockings, that will amply protect your boy against the cold, yet can be bought much more reasonably than other winter stockings.

Buster Brown Stockings wear longer—require less mending, too. They're knitted with three-ply heels and toes, and double-ply legs and feet. They give extra wear—they're shaped to fit—and they hold their color.

Get Buster Brown Stockings for your boy or boys this winter. They will lower the clothing account, especially if your family is large.

Ask for Buster Brown durable hosiery—the economical kind.

BUSTER BROWN'S SISTER'S STOCKINGS are ideal for the girls. Fine quality two-thread English mercerized lisle, in Black, Leather Shade Tan, Pink, Blue and White. Splendid wearing, moderately priced.

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-LIVES."

MRS. M. J. GORSE.

"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care, and he advised me to have an operation. I refused.

"Then, I started taking 'Fruit-a-lives,' and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds, and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-lives.'

FINDS SERIOUS UNREST AMONG U. S. FARMERS

Assistant Postmaster-General Tells of Widespread Grievances.

CANNOT SECURE HELP

Cities' Lure, Middlemen's Profits, Cutting Down Acreage, Says Official.

WASHINGTON, Jan. 30.—The existence of a serious condition of unrest among the farmers of the United States was brought to light today before the Senate postoffice committee, when James H. Blake, assistant postmaster-general, summarized the results of a questionnaire sent out to farmers throughout the country asking for suggestions as to what the postoffice department might do to improve the lot of living.

Forty thousand replies. More than forty thousand replies presented to the committee, the agricultural class, and the writers of 50 per cent of these said they intended to leave their farms or cut down the acreage cultivated. The chief complaints came from New England and the middle west and the south.

Cannot Secure Help. Inability to obtain help was one main trouble. Hired help and the farmers' children, said the writers, had been turned off to the cities by higher pay and easier living. Higher middlemen's profits on farm products was another grievance, a thing being the lack of proper agencies of contact between the farmer and the ultimate consumer.

"The time is very near when we farmers will have to raise only what we need for our own use and let the other fellows look out for themselves."

KOLCHAK ESCAPED, AND NOW IN HIDING; YUDENITCH RELEASED

Tokio Dispatch To Honolulu Says Admiral Free.

PRESSURE OF BRITISH

London Report Says Yudenitch Freed Through Allies' Influence.

HONOLULU, Jan. 30.—(By the Associated Press).—Admiral Kolchak is reported to have escaped from the Bolsheviks and to be in hiding in Manchuria, according to a Tokio dispatch to the Japanese newspaper Nippon Jiji here.

The Social revolution which occurred in Irkutsk and which ousted Kolchak transferred the government powers to the Bolsheviks, the cable added.

YUDENITCH RELEASED. LONDON, Jan. 30.—General Nicholas Yudenitch, commander of the Russian Northwest army in the offensive last fall again at Petrograd, whose arrest was reported here yesterday in advices from Revel, is said in semi-official quarters to have been released.

Private advices from Revel say General Yudenitch was released as a result of pressure exerted by French and British authorities there. Everything is reported quiet at Revel.

The arrest of General Yudenitch by General Baikalovitch, a former officer of the northwestern army, was a personal affair growing out of Baikalovitch's animosity towards his old chief, according to diplomatic advices received today. Baikalovitch has no official status, and is merely a member of the recently-disbanded northwestern army.

RESISTANCE TO REDS DISAPPEARS ON MANY FRONTS

London, Jan. 30.—Difficulties of supply have probably stopped the advance of Bolshevik troops along the Trans-Siberian Railroad west of Irkutsk, according to advices to the war office. All resistance to the soviet army seems to have disappeared. Bolshevik detachments are reported to have reached the Chinese frontier southeast of Bialik.

Latest reports seem to show that relations between the new government and the Czech-Slovaks have become worse, and that Bolshevism appears to be gaining ground as a result of the arrival of Red agents working in front of the Bolshevik army. Encounters between Semenov's troops and Czech detachments are reported, and it is stated Admiral Kolchak and his staff have been in prison at Irkutsk.

REDS RESUME ADVANCE

In South Russia the Bolsheviks have resumed their advance against Gen. Denekine. On the western half of the front the main effort of the soviet troops appears to be directed southward against Crimea and southwestward against the Korson-Nikolai-Odessa area. In the former sector they have reached the northern end of the isthmus and captured Gencheshok and Perokop, but further progress across the narrow and easily-defended neck of land has been stayed momentarily. In the latter area the Reds have pushed forward down the railway toward Nikolaijev after occupying Elizabethgrad, but still are about fifty miles from Nikolaijev.

Denekine Continues Fight. On the eastern half of the front the threatening Red advance along the western shores of the Caspian Sea has been checked and thrown back. In the centre, Gen. Denekine's units have fallen back, but in the Don region the anti-Bolsheviks are maintaining their positions. All reports concur in saying the Russian advance is being carried out in an orderly manner, and that the pursuing soviet cavalry is gaining ground only step by step, and is losing severely. The fighting spirit of Gen. Denekine's men has revived, it is said.

In Western Russia the Lithuanian advance along a 90-mile front has attained a maximum penetration of about 65 miles. Difficulties between Poland and Lithuania continue, and threaten to become acute, owing to acts of aggression by partisan detachments. The allied representatives are trying to mediate there.

As to how long the pulpwood resources of Canada would last, he pointed out that twelve years ago the department of forestry had put the probable date at 334 years. He understood they had now dropped the three hundred years, and were considering the division of the 34 years.

NO FIRE, NO FOOD, NO WATER AND ONLY RAGS FOR COVERING

Mother, New-Born Babe and Two Older Children in Terrible Condition.

FOUND IN A SHANTY

Windsor Children's Aid Society Takes Charge of the Family.

WINDSOR, Jan. 30.—Covered with dirty rags, with neither fire nor food in the house, and a newborn babe that had been brought into the world without medical aid lying on the bed at her side, Mrs. Amelia Forbes of this city was found today by W. H. F. Hackney, inspector of the Children's Aid Society.

The woman was lying in a house that was a mere tumbledown shanty unfit for human habitation. Two older children, when Mr. Hackney entered the home, were huddled together, wrapped in filthy rags, on another bed for warmth. The house was crawling with vermin, according to the inspector.

The baby was born on Monday at 9 o'clock, and a doctor did not arrive at the house until 1 o'clock. He could do little or nothing at that time. The baby, when Mr. Hackney found it, had never been washed. The water had been turned off in the house for several days by the landlord, owing to the fact that the family owed him a few dollars for rent.

Mr. Hackney stated that from investigation he has found that Forbes, the father of the child, is not the lawful husband of the woman. Her first husband, a man named Reid, is stated to be living in the border cities, and charges of neglect may be brought against him.

Calls For Police; Himself Arrested

COBALT, Jan. 30.—Henry O'Brien, who called in the police to assist in locating the masked men who robbed and bound him on Tuesday last is tonight himself under arrest. He was apprehended today by Provincial Inspector Rowell, and the chief of police of Cobalt, who picked him up on a charge of making liquor illegally.

The officers visited O'Brien's house for the purpose of obtaining information in connection with the robbery, and while there discovered a still, two bottles of mash and a bottle of what Inspector Rowell thinks is wood alcohol.

O'Brien will appear before Magistrate Atkinson tomorrow morning. No arrests have been made in the robbery and assault case.

THE FRANKLIN CAR

Winter Does Not Affect Its Growth in Sales Because Winter Never Affects Its Usefulness

WHEN a car can be used unrestrictedly the year 'round, the season at which it is bought is immaterial. Motorists are showing that they realize this, by keeping the sales of the Franklin Touring Car steadily on the increase even during the cold months.

ably. That's why you will find that Franklin owners habitually take longer trips in a day than others, and accomplish them with ease and safety.

Tire Reliability and General Economy

And blowouts and punctures are so rare that most Franklin owners do not bother to carry spare tires. Actual records show that the average is only three punctures in the life of a complete set, with blowouts almost unknown. Economy in every other respect, too, is certified by the familiar Franklin figures:

- 25 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

No car is so peculiarly fitted for all-year service as the Franklin. Its sales show this. They are increasing faster than those of any other fine car.

Freedom From Trouble and Its Costs

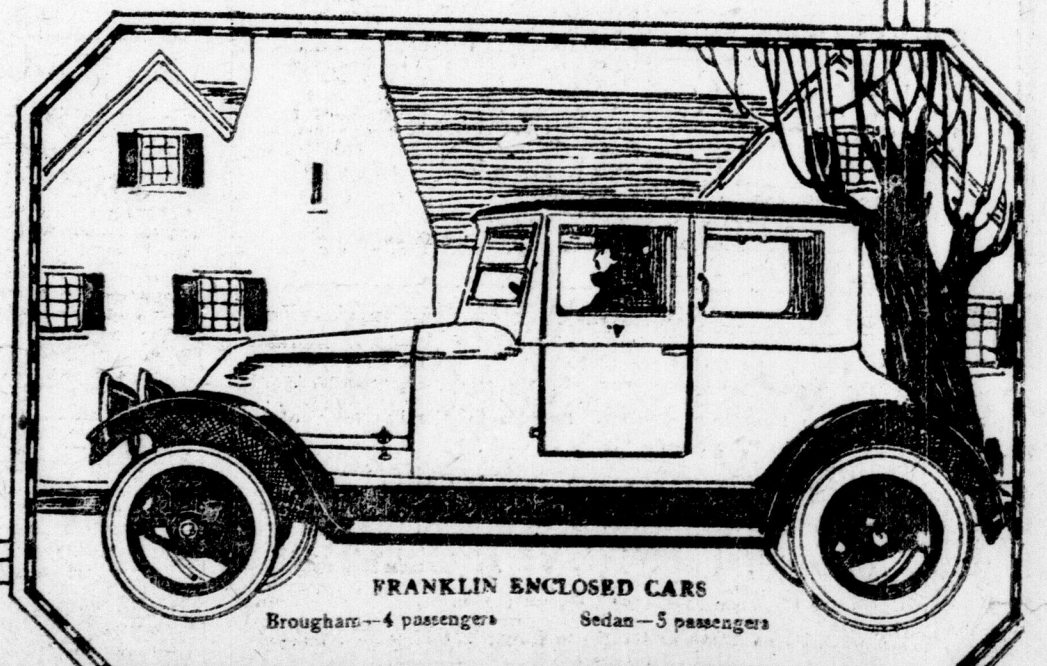

Franklin direct air cooling (no water to boil or freeze) is an important factor in this uniform popularity. Franklin direct air cooling is useful in summer, doing away with overheating, and in winter its advantages are even more valuable. It does away with many common winter annoyances—the usual starting troubles, draining and refilling, expensive anti-freeze mixtures, leaky radiators and pipes.

Under all conditions of roads or weather, the light and flexible Franklin handles readily and rides comfortably.

Should We Be Compelled to Save?

A citizen who purchased a small Victory Bond in 1918 advises that saving should be compulsory. He realizes, like thousands of others, that saving prevents much distress and builds up many a home. We cannot compel you to save. But we would urge you to save as much as you can. We pay 5 1/2 per cent interest. "SAVE AND PROSPER."

**SITE FOR A NEW WESTERN
UNIVERSITY THE FINEST

**Deputation Urges County
Council To Help To Make
This A Real Centre of
Learning—Buildings Will
Be of Stone.**

Western University—the one to be not the present one—was the subject of a most interesting discussion at the meeting of the county council on Friday afternoon. Major A. T. Little, Major T. J. Murphy, Prof. Sherwood Fox, Dr. Paul S. McKibbin and J. H. Chapman composed the deputation from the university which came to explain the matter.
Middlesex County Council had in December, 1919, expressed itself as being favorable to making a large grant to the institution as a memorial to the heroes of the county. Major A. T. Little reminded the councillors. The old Kingsmill farm, just south of the city, an expanse of 200 acres, had been secured as a site, and university buildings would be erected on it from time to time for a great many years to come. The buildings were to be constructed of stone, so that they would be permanent, and not need rebuilding within a decade or so. By arrangement, the stone would be purchased almost as cheaply as pressed brick. The structure would be built on a hill. The lowest one would be constructed on a 60-foot contour and the highest on a 130-foot contour.
During the first five years that the university would be located on the new site, at least two buildings would be needed, one to house the literary department, administration, library and assembly, and the other the department

**"LASCA" SHOWING AT
PATRICIA THEATRE
NEXT THUR., FRI., SAT.**

Frank Mayo Appears As Star
in Photoplay Based On
Poem.

"Lasca" will be shown at the Patricia Theatre on Thursday, Friday and Saturday next. If half the people who know the poem by heart will attend the show there will not be room enough in the theatre. "Lasca" is a poem which recited in the school room, which stirred our youthful imagination as no other epic of the great southwest had done. We thrilled to the wild ride of Lasca and her lover, and our hearts stopped beating when the onrushing herd of cattle, driven in their wild stampede by the fierce Texas norther, overtook the gallant pair.
The picture story shows the love of Anthony Moreland for the wild girl from below the Rio Grande; how his fashionable friends from the east came to visit the wealthy young ranchman, and how little Lasca's heart was stirred by jealousy, and then her opportunity to make the sacrifice for the man she loved.
The vaudeville feature is "Willard, the Man Who Grows," a Mutt and Jeff cartoon, and a special film, "Industrial London," shows the leading industries of London.

AFTER FOUR YEARS**
Tortured Woman Tried Dodd's
Kidney Pills.
Kidney Disease and Insomnia Had Made Her a Nervous Wreck Till She Used Dodd's Kidney Pills.
Dunvegan, Inverness Co., N. S., Jan. 30.—Special.—Women who are dragging weary limbs around, weighed down with a suffering and tiredness that can find no rest, will find sunshine and hope in the message Catherine McPherson of this place sends to them.
"I have just used one box of Dodd's Kidney Pills," Miss McPherson states, "but they did wonderful good for me."
"For nearly four years kidney disease tortured me. It finally developed into diabetes. I became a nervous wreck, and insomnia was added to my troubles. I was so weak and tired and irritable that every trifle added to my discomfort.
"Dodd's Kidney Pills gave me instant relief. They are a wonderful medicine. I shall recommend them to all my friends."
Dodd's Kidney Pills are purely a kidney remedy. They put the kidneys in shape to strain all the impurities out of the blood. That's why they bring health and restful sleep in their train.

THIEVES"—WILLIAM FOX PRODUCTION
Starring Gladys Brockwell and showing at the Patricia Theatre on Monday, Tuesday and Wednesday next. Also a "Big V" comedy "Pipe Dreams and Prizes"; a Fox News Weekly and Cornell and La Malz Brothers in a singing and talking act.

Rheumatic Pains
Are relieved in a few days by taking 30 drops of Mother Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extracts of Roots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago. It removes the cause; 50c a bottle at druggists.

Charles Talbot, the chairman of the board of road directors, Councillors Rockman, Peore and Reynolds, to meet at a conference similar committees from other counties interested in this scheme, and to come to some arrangement.
A grant of \$12,000 was voted to the proposed sick children's war memorial hospital at the evening session of the council. A little discussion took place on the matter, but the councillors decided to adopt the recommendation of the finance committee.
It was decided that a convention of the county road foremen should be held in the county building at a date to be decided upon by County Engineer Charles Talbot. These men will be paid their mileage and a day's pay to attend the meeting.

"THE HOME OF THE VICTROLA."

THE worthy presentation of the mightiest musical ensembles, the most famous vocalists and bands, calls for art which is nothing short of supreme. Surpassingly beautiful, the most famous instrumentalists, the great climaxes of operatic music, summon talents of the highest rank.

Victrola artists are equal to such a task. Victrola artists, vocal and instrumental, have never failed to score triumph, and their records are masterpieces, which establish the standard of comparison for future criticism in generations to follow.

A FINE COLLECTION OF VICTROLAS AND RECORDS ALWAYS ON HAND.
