ADVERTISING RATES ON APPLICATION.

At its Convention held in Toronto, Nov. 20 and 21, 1880, the Ontario Association of Architects signified its approval of the CANADIAN CONTRACT RECUID, and pledged its members to use this journal as their medium of communication with contractors with respect to advertisements for Toulers.

Tenders.

The following resolution was unanimously adopted at the First Annual Meeting of the Province of Quebeo Association of Architects, held in Montreal, Oct. 10th and 11th, 1890: "Moved by M. Perrault, seconded by A. F. Dunlop, that we the Architects of the Province of Quebec now assembled in Convention being satisfied that the CANADIAN OONTRACT RECORD affords us a direct communication with the Contractors,—Iterative that we pledge our support to it by using its columns when calling for Tenders."

The publisher of the "Canadian Contract Record" desires to ensure the regular and prompt delivery of this Journal to every subscriber, and requests that my cause of complaint in this par-ticular he reported at once to the office of publica-tion. Subscribers who may change their address should also give prompt notice of same, and in doing so, should give both old and new address.

MONTREAL, QUE. - The contract for supplying terra cotta and 300,000 pressed brick for the Montreal General Hospital, has been given to T. A. Morrison & Co., Agents for The Ontario Perm Cotta & Pressed Brick Co., of Toronto.

TORONTO JUNCTION, ONT .- The Fire, Light and Police Committee has recommended acceptance of the following tenders: W. Morrison. chemical engine and hose waggon, \$2,500; John Marr, electric light building, \$2,150; John Perkins, engine and boiler for electric light plant. \$3,180.

WINNIPEG, MAN. -N. D. McDonald & Co., plumbers, of this city, have been awarded the contract for the construction of water works at Kamloops, B. C., the amount of tender being about \$11,000. They have also secured the contract for the plumbing and steam heating of the extensive new addition to the Alberta Hotel at Calgary, N.W.T.

Messrs. H. R. Ives & Co., having secured the services of a competent man of long experience in the manufacture of extensive works at Longueuil, and will be in the market this fall with a full line of their new celebrated "Buffalo" stoves and tanges. Their city works are fully occupied with architectural iron work for the Boyal Victoria Macril McCill College. Royal Victoria Hospital, McGill College, Workman and McDonald buildings, and various public and private buildings for the city and for the City Hall, Toronto.

USRFUL HINTS.

It is stated copper piping when hot has an injurious effect upon any india-rubber tubing with which it may come in contact.

A good cement for joining parts of apparatus, &c., permanently solid and waterproof, and which resists heat, oils and acids, is made by mixing concentrated syrupy glycerine with finely powdered litharge to a thick, viscid paste, which is applied like gypsum. Glass, metal and wood can be cemented together by it.

DANGEROUS BRIDGE FOUNDATIONS. It is related that in sinking cylindrical iron bridge piers in Brazil, one of them had gone down 40 feet in impermeable white clay when, after it had stood dry several hours since pumping, a man went down to dig and was suffocated, presumably by carbonic acid gas, which also overcame a companion who attempted to rescue him, so that both died and where brought up by a diver.

TO KEEP VARNISH CLEAN AND BRIGHT, - Workers at various trades know that varnish made with atcohol will get dull and spongy by the evaporation of the alcohol, which leaves water in the varnish as all commercial alcohol contains water. It is, therefore, advisable to take a thin sheet of gelatine, cut it into strips, and put it into the varnish; it will absorb in the thin sheet most of the water, and the varnish can be used clear and bright till the last drop. It can then be taken out and used again.
