Those Must Pay In

There's a settlement in profit or nearly every indulgence.

Sometimes the pay day is long deferred, and in that case the settlement may bear compound interest.

Often a payment in ill health is required for the dance had with tea or coffee during earlier years. Sometimes the collection comes in sleeplessness, sometimes in headaches, sometimes in high blood pressure, or in nervous indigestion—sometimes in all these penalties.

Nerves won't always stand the whipping of tea and coffee's drug, caffeine.

If you've been dancing to tea or coffee's fiducial why keep on till payment time comes? If you're beginning to pay, now, why not cancel the contract?

There's an easy and pleasant way to avoid tea and coffee's penalties, as thousands have found who have changed to Postum. It is a delight with any meal—rich, comforting and satisfying—and it never harms. Even the little children can have a breakfast cup of Postum, with no fear for what may happen to sensitive nerves.

Instead of paying penalties for your meal-time drink, let it pay benefits to you, by giving natural health a full chance—and begin the new arrangement today. Any grocer will sell you, or any good restaurant will serve you Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health
"There's a Reason"

In judging the crops... points was used: one-half point for each 5 cwt. of roots; quality 10 points, cultivation 20 points, and records 40 points. Cultivation and records were thus made the strong feature of the work.

An arrangement was made whereby the competition accompanied the local supervisor and judge from plot to plot. In several instances during the judging, the supervisors of adjoining clubs brought their members along. The opportunity thus afforded for comparison aroused keen rivalry, and many a competitor who had a poor plot, on seeing a good one and listening to the complimentary remarks of the judge, resolved to do better next year. Each school was allotted a first, second and third prize, while each group of schools was awarded three prizes for the three best crops in the group. There were also three championship prizes for the three best crops in the whole district. A handsome challenge shield was also presented by a business firm to the school securing the highest aggregate number of points.

In addition to field root clubs, calf clubs are being started for the coming season and are attracting good entries. Accounts that have appeared from time to time in the Agricultural Gazette of the method of conducting Boys' and Girls' clubs in Canada were of much assistance in planning the work in New Zealand.

Recruits for the Guards Regiment must be of British birth.

ISSUE No. 1—'22.

ASPIRIN

WARNING! Always say "Bayer" when you buy Aspirin.

Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

riding, instead of bareback dancing.

For some strange reason commit-
tees of ladies always call on the
editor on days when he hasn't had
time to shave.

The art of blackening shoes will
never reach perfection until men
discover what makes a bald head
shine like that.

... recently adopted a
novel scheme of bolstering up the
church collection, which had been
diminishing.

He informed his congregation
just before the plates were passed
round that the members who were
in debt were not expected to con-
tribute.

The collection that day was
double the usual sum.

... June—Very warm and very dry,
with probably wind and frost about
the 10th.

... July—Warmer than average, and
very dry, with rain about the 11th.

... August—Average temperature and
rainfall. Rain in last week.

... September—A large temperature
and rainfall. Rain the first week.

... October—A very wet and a very
cold one, with stormy, persistent
winds, especially at the end. There
will likely be considerable snow.

... November—Very decidedly warm
until about the 25th, then heavy
rains, strong winds, snow and frost.

... December—A record-breaker for
being so very warm.

A lady advertised for a man to
work in her garden, and two men
applied for the job. While she was
interviewing them on the lawn she
noticed that her mother was making
signs for her to choose the shorter
of the two men, which she finally did.

When the two ladies were alone, the
daughter said, "Why did you signal
me to choose the shorter man, moth-
er? The other man had a much
better face." "Face!" returned the
old lady. "When you are picking out
a man to work in your garden you
want to go by his overalls. If they
are patched at the knees, you want
him; but if they are patched on the
seat, you don't."

considerable interest, and attention from many quarters was directed to reception at the English port. The grain was apprehension that the grain would suffer passing through the tropical region of the Panama zone, but when unloaded in England, grain experts stated that grain had never been received there in better condition. Pacific coast exporters breathed easily, and saw a wonderful future opened up for the Pacific coast in sharing with the East the business of carrying the grain product of the West to Europe. Other shipments followed immediately upon the first, and by the end of the season sixteen thousand tons of grain, mostly wheat, had left Vancouver for Europe via the Panama canal. This year shipments from the Pacific coast to Europe began just as soon as the movement of the threshed crops from the prairies got under way and the export business has been busy since that time. Grain dealers at the coast estimate that during the present season, approximately ten times as much grain will pass through Vancouver for Europe as left last season. This will amount, according to estimate, to

Surnames and Their Origin

MacKENNA
Variations — McKenna, MacKenna,
McKinney, Kinney.
Racial Origin—Irish.
Source—Given names.

There are two forms of this name, or rather two separate names in Gaelic from which the anglicized family names in this group have been derived. It is unfortunate that in so many family names the Irish and the English forms should be so different as to cause confusion in the translation of the name from one language into the other.

Here is another case where you'd have some genealogical record to make sure whether your ancestors were members of that clan known as the "MacInaugh" which played a vital part in the wars of Irish rebellion in the early seventeenth century, or of the ancient "Clann Cionaotha".

The early records of this latter clan are clear. It was headed by a chieftain named Cionath (the meaning of the given name being "without servile work") about the year 250 A.D., thus establishing this family name as about twice as old as the majority of English family names. The stronghold of this clan was in Athdown.

The name "MacInaugh" is derived from the given name "Ionach," which means a "dick," it is not certain at just what period the clan was established, but it was a branch of the ancient clan of the O'Harts, and it was well established in Ardara County

Waterford, as well as in Dundalk and in Thomastown, County Monaghan.

LAUDER
Racial Origin—Scottish.
Source—A locality.

Who had not heard of this name, the name of the famous Scottish comedian? But how many know what the origin of the name was?

It is not, however, as one might suspect from the costume so often worn by its widely known bearer, a Highland name. It is just a place name, indicating that the original Lauders came from, or dwelt in that section.

Lauder is a burgh in the County of Berwick, Scotland, near Edinburgh. Near it is the Castle of Thirlestane, which in olden days was the seat of the Earl of Lauderdale.

Such names as these grew up naturally as addition to given names at a period when populations were increasing so rapidly that given names were no longer sufficiently numerous to indicate a man's identity. The name of the place in which a man dwelt or that where he had previously dwelt often was added to his given name to distinguish him from others in the same community of the same name. In the course of time their descriptive meaning became lost, and they were accepted merely as the "tag" of the individuals or families, just as the meanings of given names were early lost in the thought of the person whose identity was indicated.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or gripe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box their use the baby will be able to get Brockville, Ont.

Boys' and Girls' Club Work in New Zealand

A little over a year ago the first boys' and girls' clubs were organized in New Zealand, and the movement, which started in the South Taranaki district, bids fair to extend widely. Mr. J. W. Deem, Field Instructor of the Department of Agriculture at Mangamui, in an article in The New Zealand Journal of Agriculture for July, gives a full account of the methods adopted and the results of the first contest. A committee representing the Farmers' Union, the Agricultural Department, the Education Board, and the school teachers had the matter in charge, and the success achieved was largely due to their enthusiastic and united efforts. For local supervision, a resident member of the Farmers' Union was appointed in each school district; the school teachers were asked to assist, and the writer states that, after a season's experience, he can testify to the great importance of the teacher's influence, as on their attitude largely depends the success or failure of the work.

The first contest was limited to the growing of mangolds and swedes, and it is interesting to note that the two most successful schools had a lady teacher in charge, and that the champion mangold and swede crops were grown by girls. Nineteen schools entered the competition with 140 entries for mangolds and 52 for swedes. The Department of Agriculture supplied the seeds, the manures, and the printed instructions.

CRISP COMMENTS

A poor man can't afford a but he can get married.
Speaking of the

During a train journey a man dashed down the corridor and put his head in at the door of a compartment. "Has anyone any whiskey?" he asked; "a lady has fainted in the next carriage."

A flask was handed to him. He took a good drink, and then said, calmly, "it always upsets me to see a lady faint."
Then he went back to his compartment.

Stephen Zowisluk, the Gallician, who a few days ago broke a large number of plate glass windows at Owen Sound because he was without lodging, and hoped to be placed in jail for a month or two, has been convicted of ten counts and has been given four years in penitentiary for each count, the sentences to run consecutively, making forty years in all. The magistrate says that it will not be profitable for others to follow his example.

SOUNDS FISHY, BUT 'TIS TRUE

(Harriston Review)

A Minto farmer, whose farm adjoins the town, went into a local bank on Monday to borrow a small sum of money to make up the amount to pay his taxes. When he was informed that he had money on deposit in the bank he scoffed at the assertion of the manager, who then turned up the bank books and showed him a deposit of four hundred and some odd dollars made five years ago, which together with the interest for that time brought the total up to nearly five hundred dollars. A pleasant surprise, surely! This farmer, being a bachelor will no doubt buy his best girl a diamond ring for Christmas.

BELMORE

The members and attendants of Knox church, amounting to a hundred or more gathered on Tuesday evening at the manse to spend a few pleasant hours with Mr. and Mrs. Sinclair and family before they leave for their new home at Tiverton. The evening was spent in speech-making, instrumental music, social intercourse, after which Mr. and Mrs. Sinclair were presented with a purse and address as follows:

To Rev. N.R.D. Sinclair and Mrs. Sinclair:

We, your friends, have gathered to wish you God speed on the eve of your departure from amongst us. It is difficult to estimate in any way the degree in which your life among us has meant to us as individuals and as a community. Your ready sympathy and good fellowship has always made you welcome visitors to our homes, and we are going to miss you. We know full well that our loss will be gain to those whom you are going to and we pray that you may be as richly blessed in your new sphere of labor, your example being

KNECHTEL & KNECHTEL

THE WEATHER FOR 1922

During the past few years, Mr. J. B. Bowes of Chatsworth has been making weather predictions for the year ahead and has been remarkably close to the actual weather. In December 1919, he predicted the mild January of 1921 and a year ago predicted the mild December that we have had this year.

Following is his prediction for 1922 and does not apply to districts whose temperature is varied or ruled by air or water currents, like British Columbia or Britain, but are rather for regions about the 45th degree of latitude.

January—Very mild until the last week, when it will turn decidedly stormy and cold.

February—First fifteen days cold, with very strong winds, especially about the 9th. Balance of month very mild.

March—First week average temperature, second week high winds, rain and snow. Third week very mild. Last week, very high winds, rain, frost and snow.

April—Very cold, high winds, snow, for about ten days of month very mild.

May—First week very mild, second week

Principal

GUARANTEE FOR "DR. HESS STOCK TONIC"

HORSES—If you are feeding four quarts of grain and working your horses hard, add "Dr. Hess Stock Tonic" and at the end of thirty days cut their grain ration in half; if this does not put them in better condition and keep them better, bring back the empty pail and your money will be refunded.

PIGS—Start with pigs that are four, five or six weeks old; feed the contents of one pail to six pigs, which is sufficient to last for five months and twenty days. At that age we guarantee to make a net profit of increase of sixty lbs. on each pig over any record even made without the use of "Dr. Hess Stock Tonic."

Multiply the sixty lb. increase by the present price of hogs, this will give you the extra profit made on each pig through the use of "Dr. Hess Stock Tonic."

COWS—The increase in the milk yield must net the farmer \$20 on each pail of "Dr. Hess Stock Tonic" used.

CHICKENS—Pan-a-cera is guaranteed to increase output to more than ten times pay for the cost of the tonic. Every reliable farmer will be given a pail or more out for himself. Come in and get a pail.

SHIPMENTS PLACED UNDER BAN AS COMMERCE DESTROYERS

Five Major Naval Powers at Arms Conference Accept Proposal Without Reservation—Balfour Amendment Passed Making Agreement Immediately Binding on the Signatory Powers.

A dispatch from Washington says—Three major developments marked the progress of the arms conference on Thursday. The Japanese delegation obtained approval and acceptance by China of a revision of the Chinese tariff problem in accordance with the terms demanded by Japan from the start. An agreement was adopted which gives an effective ad valorem rate of five per cent on all goods imported into China, instead of the five per cent nominal and three per cent effective rate now obtaining. Agreement was concluded by the United States, Great Britain, France and Japan on a method to be pursued in excluding the Japanese home and from the territorial integrity guarantee of the four-power Pacific treaty. This will be accomplished, it was asserted, through a series of diplomatic notes designed to clarify the interpretation of the pact. Rough drafts of the notes already have been completed and approved, it was explained. The Root proposals to outlaw submarines as commerce destroyers was accepted by France, Japan and Italy without reservation. The United States and Great Britain previously had indicated their assent. Adoption of the resolution in the Committee on Naval Armaments Thursday afternoon, therefore, was unanimous. The Balfour amendment, making the proposition immediately applicable to the five signatory powers, also was agreed to, and the other nations of the earth invited to give their adherence. Formal adoption of the Root resolution, restating the rules of warfare, recognized under international law for the protection of neutrals and non-combatants at sea and making them applicable to submarines likewise was postponed. These rules as stated were: "A merchant vessel must be ordered to submit to visit and search to determine its character. Before it can be seized, a merchant vessel must not be attacked unless it refuses to submit to visit and search after warning, or to proceed as directed after seizure. A merchant vessel must not be destroyed unless the crew and passengers have been first placed in safety. Belligerent submarines are not under any circumstances exempt from the universal rule above stated; and if a submarine cannot capture a merchant vessel in conformity with these rules, the existing law of nations requires it to desist from attack and from seizure and to permit the merchant vessel to proceed unimpeded." The assent of all powers is invited.

- 1—Britain takes over the mandate for Mesopotamia.
2—South Africa returns give Gen. Smuts a majority in the elections.
3—Murder rife in Ireland; two civilians taken from bed and shot dead by unknown men at Drogheda; a young ex-soldier, Fred Newcom, shot and killed in Ennis-corbry, Wexford county, by armed men.
4—Opening of Dominion Parliament.
5—U. S. Senate passes the Fordney BZL, the emergency tariff measure, by 43 to 30.
6—British Privy Council decide that Irish Home Rule shall go into effect April 5.
7—Inauguration of President Harding at Washington.
8—Col. H. S. Cunningham killed from ambush by Sinn Feiners on Cork County road. United States insists on peace between Costa Rica and Panama Republics in the Panama area. Cardinal Logue pleads for a truce in Ireland.
9—Revolt against Soviet Government and Kronstadt are attacked.
10—Edouard Dato, Spanish Premier, assassinated. Allies occupy German cities in Rhine area to compel observance of reparation conditions.
11—Rebels capture Petrograd.
12—Tejmat Pascha, ex-Grand Vizier of Turkey, and responsible for Armenian massacres, is assassinated in 7 min by an Armenian student.
13—Greek cruisers blockade Asia Minor.
14—In the British coal areas, Edmond Talbot appointed secretary of Ireland.
15—During the year ended March 31 Sinn Feiners committed 10,804 outrages, killing 242 policemen and 90 soldiers and wounding several thousands.
16—Ontario votes for prohibition by a majority of 166,835, but cities of Toronto, Hamilton and Ottawa give big majorities against.
17—Four Sinn Feiners are executed at Cork for fighting the Crown forces. The amended G.T.R. bill passes the Dominion Senate.
18—French troops advance toward the Ruhr district.
19—Sir Henry Druyden brings down his Budget to the Dominion Parliament, increasing the sales tax, and taking off the business profits and luxury taxes.
20—Sinn Feiners burn the Custom House in Dublin, and in the accompanying riots seven civilians are killed, four auxiliaries and seven civilians wounded, and 111 prisoners taken by police.
21—Ulster elections give the Unionists a majority of 38 seats in the northern Parliament.
22—Germany fulfills agreement to pay one billion gold marks to the Allied Reparation Commission.
23—Lord Byng of Vimy appointed Governor-General of Canada.
24—The British policy ends the Silesian fight.
25—Meeting of the British Imperial Conference of Premiers in London.

- 14—Premier Lloyd George, Valera held preliminary conference in Downing street.
22—Twenty millions of Russians reported to be facing death from famine and plague.

AUGUST.
10—Arrival of Lord Byng, the new Governor-General, at Quebec. Imperial Conference of Teachers meets in Toronto.
16—Death of King Peter of Serbia.
23—Census returns give Great Britain a population of 42,767,536, an increase of 1,936,134 over 1911.
24—The giant dirigible L-42, on trial over Hull, England, buckles and explodes, and only three men are saved out of a crew of 47. Death of Sir Sam Hughes, Canadian ex-Minister of Militia.
27—Lord Byng opens the Canadian National Exhibition at Toronto.
29—Death of Lieutenant-Governor Lionel H. Clarke of Ontario.
SEPTEMBER.
6—Germany pays one billion gold marks as part of the reparations indemnity. Thousands die in floods in China.
11—Col. Henry Cocksbutt of Brantford appointed Lieut.-Governor of Ontario.
OCTOBER.
4—Dominion Parliament is dissolved.
26—Prince of Wales sails from England for India.
NOVEMBER.
6—National Assembly of Hungary deposes the former King Charles and ousts the Hapsburg dynasty.
11—The Ulster Cabinet rejects the proposal to have an all-Ireland Parliament. Armistice Day generally observed in Canada and the Empire.
12—U. S. Secretary of State Hughes lays before the first meeting of the Conference on the Limitation of Armament a program calling for a ten-year naval holiday and the scrapping of battleships.
25—The Mikado resigns in favor of the Crown Prince of Japan.
27—Admiral Earl Beatty feted at Montreal and Ottawa.
DECEMBER.
5—British Government and Sinn Fein leaders reach agreement to give Ireland a Dominion status.
6—Dominion Parliamentary elections result in the defeat of the Meighen Government.
10—The recommended pact between the United States, Great Britain, France and Japan made public; it includes a guarantee for a 10-year peace and the freedom of China.
20—Hon. William Lyon Mackenzie King sworn in as Prime Minister of Canada, with 18 other Liberals as Cabinet Ministers.

THE GREAT CHIPPAWAGONISTON CANAL. An aeroplane view of the power house and the forebay at Queenston. The portion of the power house seen near the bottom of the photograph is about one-fifth the size of the building when it will be completed. The fissures on the face of the rock are cuttings for the penstocks. The fall at this point is over 300 feet. At the top is the gate house for controlling the fall of water from the forebay.

DUTCH PRINCESS MAY WED BRITISHER

Viscount Trematon as Candidate for Hand of Juliana. A despatch from The Hague says: The prominent appearance of the Earl and Countess of Athlone at Queen Wilhelmina's official New Year reception gives rise to an apparently well founded rumor that the Earl's eldest son, Viscount Trematon, is to be a candidate for Princess Juliana's hand. The Earl and Countess and their children are at present staying with the Queen, where the young people are brought together frequently. There has been considerable speculation regarding Princess Juliana's future husband, but no names have been mentioned till now. There is no doubt the Dutch would welcome such a connection with England and the English Royal family. Princess Juliana is now eleven and Viscount Trematon fifteen. The Countess of Athlone is Princess Mary, daughter of the Duke of Albany, and a direct descendant of Queen Victoria. The Earl of Athlone denies the rumor that he is a candidate for the Governor-Generalship of Ireland.

Universities Raise Standards.

At a conference last week of the four universities in Ontario—Toronto, Queen's, Western, and McMaster—with the Department of Education, it was unanimously decided to increase the entrance requirements to the general course of the First Year. In 1923, students applying for admission will be required to have complete junior matriculation with 75 per cent in four subjects, or complete junior matriculation with 66 per cent in six subjects, or honor matriculation. The purpose in providing the three distinct means of entrance is to afford the small continuation schools in rural centres exactly the same opportunity to prepare students for the universities as have the large urban collegiate institutes. This change does not mean any increased cost in education—it simply means that students must remain in their home schools until they are well grounded in their work and able to take proper advantage of university education. Hence, the new regulation puts a premium on application to work and on intellectual ability.

To Call International Economic Conference

A despatch from Paris says: A despatch to the Havas Agency from Cannes says: Premiers Lloyd George and Briand agreed Thursday evening on the conditions for the convocation of an International Economic Conference. The program for the conference, from which politics is to be barred, was settled by them. The despatch adds that it is likely Germany and Russia will be invited to send delegates to the conference, but that participation by Russia will in no way imply recognition of the Soviet Government.

Hon. Rodolphe Lemieux. Prominent Liberal, who, it is announced by the Hon. MacKenzie King, will be elected Speaker of the House of Commons.

Flowers Strewn Along Royal Route in Mandalay

A despatch from Mandalay, Burma, says: Demonstrations of the utmost enthusiasm greeted the Prince of Wales on his arrival in Mandalay on Thursday afternoon from Rangoon. Flowers were showered upon the Prince along the entire route of the procession to Government house. The mandrake root contains more quinine than any other English-grown plant.

An ox of gigantic proportions was exhibited last April at the Royal Sydney Show, in Australia. It was a seven-year-old, and stood 6 ft. 4 in. high. It had a girth of 14 ft. behind the shoulders, and weighed 3,700 lbs. It came from New Zealand and had arrived some days before the opening of the show.

Chain for Key Rings. An elastic chain for key rings, which will stretch several inches, is formed of coiled piano wire spring links.

Shipwrecks in the Beale Sea average one for every day in the year.

A distinguished teacher of English requires his pupils first to write a three-thousand-word essay and then to compress it into five hundred words of good literary style. To the pupils the astonishing thing is that it takes a longer time and more thought to write the abridgment than to write the original. The number of words, or pages, in a manuscript tell nothing of the time and effort that went into writing it.

Peace Committee in the Dail Eire

A despatch from Dublin says: The announcement in the Dail Eire of the existence of a peace committee was the chief feature of Thursday's meeting. No member of the Cabinet is included in the committee, which is made up almost exclusively of able members of the rank and file of the Dail who have spoken for and against the treaty. The most notable of these are Owen O'Duffy, Liaison Officer of Ulster; Liam Mellows, and John T. O'Kelly, the Sinn Fein representative in Paris. Great Britain has one motor-car every 110 persons of its population.

REGULAR FELLERS—By Gene Byrnes

The Right Sort of Eatables

The preservation of health largely—almost wholly, in fact—is a matter of having the right sort of eatables, and then being sure that they are properly prepared for the table.

This store has no control over the cooking or the baking.

But it certain, sure can supply the right materials, all right.

No matter how much importance you housekeepers attach to the quality of the things you eat, you will find this store able to give you all the grocery goodness that you could ask for.

TRY IT AND PROVE IT.

At the Sign of the Star
The Store of Quality
J. N. Schefter

Housekeeping Is Not the Task It Used to Be

MODERN invention has done away with much of the hard work. For instance, the cleaning and polishing of hardwood floors, the dusting of moldings, the tops of high furniture, the stairs, under the radiator, etc. These back-breaking tasks are now made easy with the

O-Cedar Mop Polish

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Polish Mop. It gathers all the dust or dirt from everywhere and holds it. The mop is easily cleaned by washing and then renewed by pouring on a few drops of O-Cedar Polish.

Try it at Our Risk. Try it two whole days with this understanding: If you do not find it satisfactory in every respect we will return your money. The price is only \$1.50 and it will save its price many times over in a short time.

Liesemer & Kalbfleisch

UNION STOCK MARKETS TORONTO

All offerings of live stock for the opening market of the week at the Union Yards failed to come up to expectations with the result that considerably enhanced values were obtained in every department. The cattle receipts were about 1000 head under the estimate, and the light shipments were largely attributed to the uncertain conditions of the roads throughout the country. Cattle values moved up from 25 to 50 cents per cwt. on practically all classes and gains of about the same proportions were shown by calves and lambs. Sheep and steady, but hogs sold higher under a strong demand on the part of some of the big abattoirs.

A good deal of activity was apparent in the cattle section right from the opening of the yards and so brisk was the buying that a clean-up of the run was made before noon. In addition to the buying on the part of the abattoirs there was a good inquiry for heavy steers for export. The offering also included a few cars billed through from the United States for the overseas market. The stocker and feeder grade, however, was at a standstill, and the milk and springer business continues dull. The feature of yesterday's market was the excellence of the quality of the very few unfinished animals offered.

Buyers bought for export as high as \$8.50 per cwt. in instances. One load brought several loads moved between \$8.40. Choice butchers brought as high as \$8 numerous sales between \$7.50. In fact, the buying was general. Heavy sales were made. Cows and heavy Koshers had a top of \$10 and

\$10.50 on the f.o.b. basis. To-day, packers, however, will endeavor to cut prices and are bidding \$9.75 f.o.b.

Choice veal calves sold as high as \$13.50 per hundred. The bulk of the run was choice, with sales mostly between \$9 and \$12.50. Calves were from 25 to 50 cents higher, while lambs also jumped about 50 cents. Choice lambs sold from \$13 to \$13.50. Sheep sold steady from \$5.50 to \$6 for the best heavyweight with a few reaching \$6.50.

PRESENTATION TO DEPARTING MEMBER

On Thursday evening of last week Mrs. Peter Reuber was made the recipient of the following address by the members of the Evangelical Ladies Aid Society, of which she has been a faithful member for some years.

Mrs. Peter Reuber
Dear Sister:
It is with feelings of sorrow that we learn of your departure from our midst. You have always been a faithful member of our Ladies Aid as well as an officer. We shall miss you in our meetings and social gatherings for you were always willing to do your part, both in social circle as well as financially. We wish you God's blessing wherever you may make your home and may you be a useful member in some other Ladies Aid in the church of your choice. Please accept this gift as a token of our appreciation for the work and services rendered by you in our Ladies Aid and Women's Missionary Society. "May you not grow weary in well doing, for in due season you shall reap if you faint not."

Our best wishes go with you as you leave Mildmay in the near future, and may you ever be found faithful and diligent in the Master's kingdom.

Signed in behalf of the Ladies Aid and Women's Missionary Society of the Mildmay Evan. Church.

vertising, etc., 16 50
J. A. Johnston, reg. B.M.&D 4 75
Hy Schmidt, bal salary as con-
stable and nightwatchman 5 00

The Council then adjourned to
meet again at the call of the Reeve.

AN OFFER WITHOUT PREJUDICE

The Town Council, we understand
is preparing to make an offer with
out prejudice of \$200 to Mrs. Geo.
Ernest, who is suing the town for
\$10,000 damages for the death of
her husband, who was killed in a
runaway accident here on Armistice
Day, Nov. 11th. While the Town
Council figure that the town has an
excellent defence in the matter and
therefore a chance of successfully
contesting the suit, yet the law
costs in defending the issue would
likely stand the municipality close
to the \$200 mark, and the Council
would sooner see the widow and
her child get this coin than have it
frittered away in legal expenses.—
Times.
