THE ROBLIN MINISTRY SUSTAINED
BY THE ELECTORS OF MANITOBA

Present Premier of the Province Again Returned to Power With a
Majority of at Least Ten--Government Claim 28 Out of 41
Seats--Two Cabinet Ministers, Colin Campbell and McFadden
Go Under--Leader of the Liberal Party Defeated at Portage
la Prairie and Horace Chevrier in St. Boniface--Conservatives
Carry Three Seats in Winnipeg--Ex-Mayor Sharpe Among the Slain

WINNIPEG, March 7.—From all
the returns to hand tonight, the indica-
tions are that the Roblin Govern-
ment will have a majority of ten
seats in the next legislature. That
they have been sustained is a sure
thing, as they have some twenty seats
already, barring successful
protests, and will likely win a number
when the final returns are in.
In a number of the constituencies
the majorities are small and, as odd
polls here and there are missing,
several changes are likely to take
place.
The first returns were overwhelm-
ingly in favor of the Government, as
they carried nearly every town in the
province. When the rural returns
started to arrive things looked bet-
ter, but the lead was too great to
overcome.
The most serious blow to the Lib-
erals is the defeat of Edward Brown,
the Liberal leader, in Portage la
Prairie, Hugh Armstrong, Conserva-
tive, having a majority of over 200.
Another hard blow was the defeat of
Horace Chevrier in St. Boniface.
Chevrier was one of the strong men
and his absence from the Liberal
ranks in the next House will be keen-
ly felt.
Although sustained, the Govern-
ment lost two cabinet ministers, the
victims being Colin H. Campbell, Lib-
eral, and Hon. Robert Rogers, Lib-
eral, Secretary of the Interior. Dr. J.
P. Molloy, carrying the constituency
by a small majority and Provincial
Secretary, McFadden, who also went
down to defeat in Emerson, the Lib-
eral organizer, Geo. Walton, winning
by about a hundred.
The Liberals expected to make an
even break in Winnipeg, the result
of only one seat out of the four
returns favored the Government and
they continued to get worse.
The Government claim 28 seats
out of the 41. This includes the elec-
tions in Gilbert Plains and Gimli to
be held later. Premier Roblin car-
ried Dufferin by over two hundred
and Hon. Robert Rogers was defeated
in Manton and Hon. J. H. Agnew in
Virden.
Latest Results.

WINNIPEG, March 8, 1:30 a.m.—
The following are the latest returns
from the various constituencies in
yesterday's elections.

ONE HUNDRED NEW
TOWNS ON PRAIRIE
ENGLAND ONLY
TOUCHED EDGE

G.T.P. STATIONS ABOUT EVERY
SEVEN MILES WEST OF
WINNIPEG.

VICTORIA, B. C., March 7.—This
year will be a momentous one in the
history of the Canadian West, for it
will witness the founding of over
400 new towns on the line of the
Grand Trunk Pacific alone, to say
nothing of the new towns which will
be brought into being by the exten-
sions of other systems, such as the
Canadian Pacific and Canadian Nor-
thern. The hundreds of new towns
referred to will fill in the prairie
country between Winnipeg and Ed-
monton—one of the most fertile
stretches of land in all Canada. The
distance between the two points is
790 miles, and the plans of the Grand
Trunk Pacific are such that there will
be a station, the forerunner of a town,
at an average of every seven miles
for the whole of that distance.
Land speculators have naturally
been endeavoring to take advantage
of the rise in values which the new
towns will bring about, and in many
instances have endeavored to antici-
pate the townsites and get in ahead
of the railway itself. Quite a num-
ber of shrewd guesses have been
made, but very few of the speculators
have succeeded in holding the com-
pany up for exorbitant amounts, for
when extravagant prices have been
asked the company has simply shifted
its location a few miles further away.
This has had a dampening effect on
the energy of the speculators, a few
of whom have been very badly "left."
Officially stated this morning that about
three-quarters of the grading had
been done in the 790-mile stretch
between Winnipeg and Edmonton,
and work on the remainder is being
pushed forward as rapidly as possi-
ble. As soon as spring opens up
tracklaying starts in earnest.
The tracklaying was actually commenced
last summer, about 50 miles being
laid west of Portage la Prairie, be-
fore the frosts set in and stopped the
work. During the winter material
has been accumulating in great quan-
tities both at Portage la Prairie and
Saskatoon, and this summer similar
divisions will also be estab-
lished at Edmonton, so that work
can be proceeded with there in readi-
ness, and three or four of these will
be used. Each will lay three miles of
track a day, so that the steel will be
put down at the rate of from nine to
twelve miles a day. This means that
the company has every hope that it
will be able to complete the work
on time, and get a connection
between Portage la Prairie and Ed-
monton this year, provided the Gov-
ernment section from Winnipeg to
the junction with the Frye Wilton
branch of the G.T.P. is completed on
time.
"Nobody need want for work this
summer," said the official. "We shall
ourselves want 10,000 men in the
West, to say nothing of the other
companies which will employ from 12
to 15,000, and board costs \$4 a week."

FIGHTING TWO-CENT RATE.
Western Railroads Will Fight Law
In the U. S. Courts.

CHICAGO, March 7.—It was decid-
ed yesterday that the western rail-
roads would fight in the courts all
state laws making two cents a mile
the maximum passenger rate. The
plan is to ask the courts to restrain
the enforcement of the law, on the
ground that the rate would cause the
railroads a heavy loss, and in many
cases would require them to run trains
at less than the actual operating ex-
penses, regardless of the fixed charges
and other obligations of the rail-
roads, of which they claim the pas-
senger traffic should assume a share.

PRELIMINARY TRIAL THIS MORNING
RESULTS IN HIS
COMMITTAL.

PORTAGE LA PRAIRIE, March 6.—
The preliminary trial of Wilson Lyle,
who is accused of killing James Alex-
ander, at Tenby, near Plumas, on Feb.
13, 1907, was held here this morning
before Magistrate Marshall, and the
prisoner was committed to stand his
trial at the spring assizes on March
19. Only three witnesses were called,
James Alexander and A. MacLeod, of
Tenby, and Dr. Edwin Ross, coroner of
Clatskanie. No evidence in defence
was submitted and the trial only
lasted half an hour. P. J. Taylor,
prosecutor, has charge of the prose-
cution, and the defence is in
charge of Bert Ryan.

FRIEND OF THE RAILWAYS OR THE FARMERS—WHICH?

In our issue of the 28th February, we published extracts from an interim report of the wheat crop of 1906...

This report was prepared by the Department with the primary object of drawing the attention of the transportation companies to the very grave situation, and its appearance was most timely.

Mr. Bennett's statement of defence as reproduced in Hansard reads: "Now in the fall of 1905 I happened to be in the province of Manitoba and the North-West Territories. On that occasion I saw on every hand signs of enterprise and opportunities for investment in land...

At that time our contemporary evidently thought the situation "infinitely grave" to devote a large amount of space to editorials advocating prompt action on the part of the railway companies. Now, however, its views have undergone considerable modification...

The Standard points out that Condie has not been fully reported and very knowingly suggests that the figures in the report may have been supplied by Foxleigh. In this connection the Leader learns from the Bureau of Information and Statistics that a number of Grain Growers' Associations through their officials supplied information and statistics concerning the situation in their respective districts while, at the same time, the towns or villages at which their grain is marketed gave figures to show the conditions existing at the point of shipment.

the figures supplied by Foxleigh Grain Growers' Association, which gave Condie as a tributary shipping point, were credited to Condie in the absence of complete statistics. The Standard now complains that the report that it characterized as "exaggerated" was not sufficiently large, and proceeds to discredit its own editorial utterances on this question during the last week for no better reason than that after showing that the quantity of grain on hand is greater than the report of the Department of Agriculture indicated, it tries to give the impression that the railways operating in the province are not to be condemned for their failure to move the crop of the province because that failure now appears to be greater than it originally seemed to be.

MAKES ALL THE DIFFERENCE.

Western land transactions have for a long time past been a favorite topic for discussion in the House of Commons at Ottawa, members of the Opposition never failing when opportunity offered to criticize the Saskatchewan Valley Land Co. arrangement or any other which seemed to offer the most shadowy opening for an attack upon the Government or members on the Government side of the House.

The recent investigations of the Insurance Commission brought to light various somewhat peculiar transactions, but those connected with them were occupants of the Opposition benches, W. H. Bennett, George E. Foster, Mr. Fowler and others. The change of attitude as shown by these gentlemen when it comes to investigating their dealings in western lands is very marked and seems to show that they entertain the belief that while they may criticize, they must never be criticized.

"A few days ago Mr. W. H. Bennett, M.P. for East Simcoe, gave parliament his version of a western land transaction which claims to have been the investigation of the Insurance Commission, and which has since been the subject both of comment by the press and of discussion in the House. Owing to these references Mr. Bennett deemed it advisable or necessary to give the House an explanation of his connection with the transaction for the purpose of showing that his course had been one fairly open to any man, whether a member of parliament or not, and therefore in no way disqualifying him as the representative of a constituency.

Mr. Bennett's statement of defence as reproduced in Hansard reads: "Now in the fall of 1905 I happened to be in the province of Manitoba and the North-West Territories. On that occasion I saw on every hand signs of enterprise and opportunities for investment in land, and I think I had a perfect right to invest in a dollar's worth of land as well as anybody else, and was accompanied by some gentlemen who are members of this House—the Hon. member for Prince, P.E.I. (Mr. LeFurgey), the Hon. member for King's, N.B. (Mr. Fowler), Mr. Rufus Pope, formerly a member of this House, and other gentlemen who are now in the House."

"At that time our contemporary evidently thought the situation "infinitely grave" to devote a large amount of space to editorials advocating prompt action on the part of the railway companies. Now, however, its views have undergone considerable modification, and in its issue of the 9th instant the insertion is made that "this portentous array of alarming statistics" has all importance and significance, and draws its inept conclusion because it has discovered that Condie has some 200,000 bushels of wheat more than this interim report represented it to have. As a matter of fact the situation is shown to be that much worse than the report of the Department of Agriculture indicated it to be.

The Standard points out that Condie has not been fully reported and very knowingly suggests that the figures in the report may have been supplied by Foxleigh. In this connection the Leader learns from the Bureau of Information and Statistics that a number of Grain Growers' Associations through their officials supplied information and statistics concerning the situation in their respective districts while, at the same time, the towns or villages at which their grain is marketed gave figures to show the conditions existing at the point of shipment. It may be noted that a number of Grain Growers' Associations are found in rural districts instead of at the towns or villages. On file in the office of the Department is a report from one such country district that was supplied by the Secretary of the Grain Growers' Association showing that it produced 80,000 bushels of wheat. This district was adjacent to a village which reported that the shipments of wheat from that point would amount to 700,000 bushels. By publishing both of these reports the figures would be "exaggerated," but in the case of Condie, from which no report had been directly received,

seeks to evade or avoid it by valiantly denying what has not been charged. "Accepting then the standard Mr. Bennett would have applied to his conduct, does Mr. Bennett or do his associates apply that standard of conduct to their fellow members? The day had not closed on which Mr. Bennett quite unceremoniously but quite legitimately, pleaded for fair treatment from his political opponents until an opportunity was given to show how far the opposition gentlemen were willing to accord such treatment to those opponents. The debate to which Mr. Bennett contributed closed only to permit the associates of that gentleman to open an onslaught on the member for Humber on the ground that he had sold a lease of grazing lands for more than it cost him. The fact that Mr. Bennett had purchased the lease from the lessee and sold it supposedly at a higher figure was seized upon as a pretext for dragging the debate to a higher level. It was the making him the centre of attack and heaping upon him ridicule and insinuations which was the object of the member of the House. He was represented as an avaricious individual whose speculation had placed a price of some \$20,000 on the lease user of the land. Where then was Mr. Bennett, whose deliberate testimony was given for a price of \$200,000 the price the settler must pay for a tract of western land, and in doing which Mr. Bennett claimed the benefit of the law, and in doing which with no responsibility to parliament? "Does Mr. Bennett normally apply or pretend to apply to his political opponents the standard he had set up for himself?" Is there within the four walls of the legislative chamber a member more characteristically abusive, more persistently and deliberately offensive, than the member for East Simcoe? Is there one more indifferent to the boundary between private conduct and public capacity or more prepared to abolish that boundary, when by doing so the standing of a political opponent may be damaged? Or does he exert among the gentlemen with whom he associates an influence for disconnection between matters of public concern and the methods of the gutter snipe politician?

THE MANTOBA ELECTIONS.

The people of Manitoba yesterday sustained the Roblin government administration in a manner that can only be characterized as decisive, though two of the ministers, Hon. David McPadden, Provincial Secretary, and Hon. Colin H. Campbell, Attorney General, are among those who failed to gain the approval of their constituents. The loss of these two men, however, may be rather regarded as strengthening the Roblin party, the latter gentleman especially having been a source of weakness rather than otherwise to the cabinet.

The Liberals emerge from the election, it is true, numerically stronger than they went into it, but otherwise considerably weaker. The defeat of Horace Chevier, in St. Boniface removes the only effective fighting member who occupied a seat on the Opposition benches in the Legislature, while the fall of Fortage and Prairie keeps for the present the one man who seems destined to lead the party back again to power in the province.

Taken on the whole the general result of the election comes as a surprise, few even of his warmest supporters supposing that Roblin would return to the House with more than at the utmost eight of a majority. Intimately connected with the liquor traffic, the willing tool of a corporation that cared to make it "worth their while," hank in glove with the grain interests and convicted of the most shameless manipulation of the provincial lands for the benefit of party hood—the Roblin Government stood discredited throughout the length and breadth of Manitoba and to the world at large.

A peculiar feature of the law is that it is to apply only in those provinces which do not substitute a Sunday law of their own; but the law meets with such general approval that in one province only, Quebec, has the legislature substituted a mild or law for the drastic law of the Dominion. Such a provision allowing any one province to nullify the action of the parliament of the Dominion is in the spirit of John C. Calhoun's doctrine of the right of South Carolina to review the acts of the national government, but that doctrine never was enacted into the law of the country on this side of the line. Quebec is so different in blood and tradition from the rest of Canada that it might have been expected to reject such a Sunday law, but the homogeneity of the other provinces is admirably shown by their acceptance of the law, or rather their demand for it. "Canada, with the exception of Quebec, has been settled mainly from England, Scotland, and the north of Ireland. The old reverence for Sunday still has a strong hold on the people. It is the insular, not the continental, Sunday which is the model for the legislators. In the

of the extension of Manitoba's northern boundaries. The return to power of Roblin, the people of Manitoba were again and again assured, both from the platform and the party organ, would ensure Manitoba's getting the major portion, if not indeed the whole of the northern territory, the division of which is now under consideration at Ottawa. The electors of Manitoba have chosen to look to Roblin rather than to Sir Wilfrid Laurier to obtain what they want in the way of extension northwards and the people of Saskatchewan are willing that it should be so. If Mr. Roblin can fulfil his promises with regard to the northern boundaries, will any man? Meanwhile we in this province may rest assured that our just and legitimate aspirations for a port in the Hudson's Bay have suffered not at all as the outcome of yesterday's elections.

A WELCOME INVASION.

Within the past ten years over \$200,000,000 of United States capital has been invested in Canadian farms, factories, forests, mills and mines, a fact which very significantly tells of the confidence felt in the future of this country by our cousins across the line.

There is as a rule very little of sentiment in the make up of the average American business man. He invests his money where he thinks it will show him the best returns, quite uninfluenced by any ideas of kinship or neighborliness. If he thought that Greenland's ice mountains presented a good field for the investment of his money, we may rest assured that to Greenland's icy mountains it would go. The one thing he asks is a good return on the capital invested.

It may therefore be taken for granted that the investment of \$200,000,000 of Uncle Sam's money in this country within the past decade indicates a very firm belief in the prospects and the permanence of its prosperity. For the most part the investments made are of a permanent character, gaining in value with the healthy development of the country.

Here in the west, as I well know, we owe not a little of the progress made since 1895 to the northward flow of American dollars. The Americans were among the first to see the great future awaiting the Canadian West and they have not hesitated in giving tangible assurance of that confidence. They have done more, they have come with their dollars and today the American invaders may be counted among the most prosperous and progressive of the settlers in the West. They have brought with them the adaptability and resourceful energy characteristic of their race and content to live in harmony with the laws and customs of their adopted country are reckoned today as being by no means the least estimable of our citizens. Everything points to the peaceful invasion from the South assuming during 1907 greater proportions than in any previous year and that this may be the case all who have the good of our western country at heart will fervently hope. We cannot have too many settlers of the type that the United States is sending us and they may be assured of a hearty welcome and every endeavor on our part to make them feel at home here.

THE CANADIAN SABBATH.

Commenting recently upon the new Lord's Day Act now in force in this country, the Chicago Daily Tribune made the following editorial comment under the heading "Sunday Across the Line": "A new strict Sunday rest law has gone into effect throughout the Dominion of Canada, except in one province. The expression, 'one province' is not merely a way of speaking. The law actually was observed last Sunday, and no violations were reported. Practically all public forms of amusement are forbidden, together with fishing, hunting, playing ball, selling foreign newspapers, working on the street, and so on. In some places, however, it is permitted to work, selling goods on Sunday, or liquors from 7 p.m. on Saturday to 5 a.m. on Monday.

A peculiar feature of the law is that it is to apply only in those provinces which do not substitute a Sunday law of their own; but the law meets with such general approval that in one province only, Quebec, has the legislature substituted a mild or law for the drastic law of the Dominion. Such a provision allowing any one province to nullify the action of the parliament of the Dominion is in the spirit of John C. LEGISLATURE SPENDS DAY IN COMMITTEE

SEVERAL BILLS ADVANCED A STAGE—DONALDSON'S PETITION READ TO HOUSE.

PRESS GALLERY, March 6.

The Legislature devoted its attention all afternoon to work in committee of the whole on several of the bills which are now engaging the attention of the legislators. No night sitting was held.

Mr. Wellington presented a petition of the Hudson's Bay Insurance Co., Ltd., of Moose Jaw, praying for an Act recognizing it as a corporation.

The clerk of the House read the petition of S. J. Donaldson, praying that he be declared elected for Prince Albert district.

HAULTAIN ENDORSES CALDER'S HIGH SCHOOL LEGISLATION

CONGRATULATES GOVERNMENT ON ITS STRICTLY NON-SECTIONARIAN CHARACTER.

PRESS GALLERY, March 7.

One of the most important and interesting debates of the session took place in the Legislature today upon the second reading of the bill respecting the organization and maintenance of secondary educational institutions.

HIGHER EDUCATION.

After routine proceedings had been disposed of, Mr. Calder moved the second reading of Bill No. 11, respecting the organization and maintenance of secondary educational institutions.

come when they must do something to better secondary education and also in the way of making some provision for higher educational work in this country.

Both political parties in the legislature were in agreement that this work should be undertaken in the high schools, at least until such time as they had colleges and a university in the province.

When the act went into force he estimated that they would have two collegiate institutions, which had been organized under it.

Mr. Haultain in raising the question of secondary education always has found ready to join in legislation which had for its object the strengthening, broadening and extension of the educational system.

BETTER SALARIES FOR TEACHERS.

These were some of the difficulties which it was attempted to remedy by the bill under discussion.

SUGGESTIONS OFFERED.

A LIBERAL COURSE OF EDUCATION.

vide for at least four distinct courses of study.

First, a general course which any student might take who desired to get a better education than the present school offer.

Second, a special course for those who purposed entering the teaching profession.

Third, a commercial course which would include instruction in the various subjects usually included in such a course.

ATTORNEY GENERAL LAMONT.

Mr. Lamont said he had not intended to speak on the bill at this stage and would not have done so but for some expressions of the leader of the Opposition in the latter part of his speech.

INTERESTING DISCUSSION ON PROVISIONS OF HIGH SCHOOL LEGISLATION WHICH GUARANTEE THAT NEW SYSTEM SHALL BE ABSOLUTELY NON-SECTIONARIAN.

**PROCEEDINGS IN THE LEGISLATURE**

(Continued from page 5.)

provision lay at the very foundation of the proposed system. It was not a new system they were creating and if a separate board were not provided for, instead of having one public institution provision would have to be made for two, one managed by the public school board and one managed by the separate school board. If the present public school trustees were to be the trustees of the high school board they would have to make provision for a separate high school. This distinct class of institution public in every sense. There was, however, nothing in the bill to prevent every member of the public school board being elected as a member of the high school board.

Mr. Haultain deplored the lack of interest taken by the public in matters pertaining to school boards. He quite agreed with the general principle of the bill, but thought it would be a good thing if they could have a general education board for various localities. If the hon. gentleman would carry the spirit of this legislation further and provide in the general school legislation to make all schools the same and have one general education board he would greatly support him.

**PASSAGE OF ARMS IN LEGISLATURE**

**CHANGE OF DEPUTY HEADS OF DEPARTMENTS GIVES REASON TO DISCUSSION.**

PRESS GALLERY, March 11.

The more or less proxy character of the discussion in committee of the whole in the Legislature so far this session was broken this afternoon by certain unforeseen expenditures during the past financial year. For a while there was a rapid fire of questions across the floor. Upon questions of law the Attorney General proved more than a match for Mr. Haultain, while Mr. A. F. Ketchen, as deputy commissioner of agriculture, in place of Mr. J. R. C. Honeyman.

Mr. Haultain moved the reference of Mr. Donaldson's petition to the committee on elections and privileges, which was agreed to without debate. At the opening of the sitting Mr. Boyle presented a petition from P. Cooper, H. F. Mytton and others, of Regina, praying for the incorporation of the Saskatchewan Agricultural and Industrial Exhibition Association.

Mr. Garry presented a petition of the Town of Yorkton, praying for the passage of an act to legalize a certain by-law.

Mr. Motherwell gave notice that on Wednesday he would move for leave to introduce a bill to amend the Game Ordinance.

Mr. Lamont introduced bills respecting mechanics' liens and jurors' fees, both of which were given first readings.

**Grants for High Schools.**

Mr. Calder moved the House into committee on a resolution to provide for grants for secondary educational institutions. In committee Mr. Calder explained that in order to obtain the grants provided for in the resolution it would be necessary for a high school to have made an expenditure of at least \$125 for scientific apparatus, \$75 for a reference library, and \$50 for maps and globes. In each subsequent year an expenditure of \$70, \$50 and \$10 respectively for the above purposes would have to be made until maximum amounts of \$350, \$250 and \$80 had been so expended. An expenditure of \$250 was necessary in the case of a high school in order to obtain the first grant and of \$500 in the case of a collegiate institute. After the maximum had been reached there would be a reduction in the amount of the grant, which, however, would be such as to enable the institution to maintain their expenditure at the maximum figures. An additional grant would be paid on the organization and efficiency of a school as shown by the inspector's report and a still further grant to those schools providing a proper commercial course.

if an official resigned and it was found impossible to fill the position at the old salary authorized it certainly was never contemplated that they should be powerless in the matter.

Mr. Haultain did not wish to be understood as opposing the departmental salaries and in order to increase salaries and be considered Mr. Ford a thoroughly capable and satisfactory man for the position. The item passed.

**Mr. Honeyman's Removal**

The next item was a similar one and provided for the difference in salary paid to Mr. Ketchen, deputy commissioner of agriculture, to that paid to his predecessor, Mr. Honeyman. Mr. Haultain said he had obtained the services of a practical man, a thoroughly trained agriculturist, as departmental minister, and in order to secure the services of such a man a larger salary was necessary than that provided for in the estimates. Mr. Haultain wanted to know what Mr. Ketchen's qualifications were, and in reply Mr. Motherwell informed him that he had had a thorough agricultural training in his branches.

Mr. Haultain was not satisfied with this. Was Mr. Ketchen an expert on bugs, microbes and weeds? He was an expert in live stock, but he considered it was a mistake to have an expert in one particular line as deputy minister. He would endeavor to promote his pet branch at the expense of other branches. He also considered Mr. Honeyman was a very good executive head for the department, and a man well qualified for the work a deputy minister should do. He had not been treated courteously in his summary dismissal.

Mr. Motherwell said Mr. Honeyman was a very good man. He was a clerk, but he was a man who was lacking in the knowledge necessary for one in his position. He was a faithful worker, but he lacked the knowledge, so far as the treatment accorded him was concerned, he had been given the month's leave of absence with pay.

**The Spoils System.**

Dr. Elliott said Mr. Honeyman was specially qualified for the great work of the Agricultural Department, while Mr. Ellis said his dismissal and that of Mr. Wood was the introduction of a pure spoils system. They merely wanted a faithful member of the party to all the spoils.

Mr. Langley very vigorously pointed out that under no Government in Canada was the spoils system less in evidence than in Saskatchewan. He intended that the spoils system should not be introduced. They would not intend that the spoils system should be applied in Saskatchewan. No one denied that Mr. Honeyman was a good man, but he was all he was. He was civil and obliging in his office, but said that they had nothing to do with the removal of the member from Wolsely (laughter). It made little difference, but when the spoils system was introduced, the things formerly done had to be modified. A little bit of the spoils system, general approval all over the province.

**Dr. Elliott Silenced.**

Dr. Elliott said Mr. Motherwell a year ago had been a competent official, and he wanted to know how long it took the honorable gentleman to find out that he was not the competent official.

Mr. Motherwell—Not quite so long as it took the public to find out the incompetency of his former minister. Mr. Motherwell denied having ever said that Mr. Honeyman was competent. He said he still said so, but beyond that he did not say and did not now say.

**SLIDING MOUNTAIN**

Slackens Its Speed But Citizens Continue to Flee.

NAPLES, March 10.—The mountain above Montemurro, which for two days has been slipping into the valley, appears now to be moving more slowly. The right of the mountain, however, continues, many fearing a repetition of the terrible earthquake of 1887, in which 400 persons were killed and 20 dwellings and two churches, but there have been no victims.

**SWEDISH LUTHERANS.**

Minnesota Conference Decides to Appoint Superintendent for Canada.

ST. PAUL, Minn., March 9.—At the annual Minnesota conference of the Swedish Lutheran church a petition was presented by delegates from northern Minnesota asking that the conference be divided, and declaring the conviction that the best results could not be attained while the organization was so widely extended. At present the conference includes Minnesota, North and South Dakota, Canada and portions of Wisconsin and Michigan. The proposition was discussed and it was decided to constitute northern Minnesota, Dakota and Canada a separate conference. The vote, however, showed that the majority did not favor such a division, and the report published in the Swedish paper, "Canada," admitted that the general interests of the body demanded a large district with a combined strength of 10,000 members, rather than a division into two smaller districts.

In the dissection of a park Canada the Canadian delegates, as well as the conference generally took part and it was found necessary to appoint a general superintendent to select the most suitable man for this position. It is composed of L. P. Bergstrom, Winthrop; pastor, L. E. Almen, St. Peter; E. Lind, Minneapolis, and Dr. P. M. Magnusson, St. Cloud.

**THE INSURANCE COMMISSION**

REPORT NOT LIKELY TO BE DISCUSSED THIS SESSION OF COMMONS.

OTTAWA, March 11.—The Hon. W. S. Fielding stated in the House of Commons today that the Probation Commission report would not be discussed this session. The question was raised by Mr. Oliver, regarding Mr. Smith's report. The Secretary of the Army had the good of trades unions at heart and would not permit their immigrants to go where they took the work and their employees, but the Army refused to bring skilled mechanics to Canada.

**Mr. Lemieux's Labor Bill**

The House then went into committee on Mr. Lemieux's Labor Disputes Bill. An amendment was made providing that no one who had any direct pecuniary interest could be a member of the board.

An amendment was made to provide that no person can act as a member of the board who has any direct pecuniary interest in the issue of the dispute referred to the board. Another amendment provided that the board should be composed of three or less persons and by counsel or solicitor as hereinafter provided. Originally it was intended that lawyers should be excluded from proceedings before the board.

The clauses providing for the appointment of an investigation board were amended to provide that if the board should find that any member of the union, the application being signed by two of the officers of the union or on a resolution passed by a majority of the members of the union, and if made by employees some of whom are members of the union and some are not, the board shall be signed by a majority vote of the employees to which it live without effect. He had decided to drop the clause to provide that the Governor in Council might specify certain industries to which the provisions of the act should apply. He had decided to drop the clause which provided that the board should be composed of three or less persons and by counsel or solicitor as hereinafter provided. It had been decided to drop the clause which provided that the board should be composed of three or less persons and by counsel or solicitor as hereinafter provided.

Woodstock Man by Quick Action Saves Motorist's Life.

DETROIT, Mich., March 11.—Woodward avenue car No. 1091, going at a good rate of speed, crashed into car No. 1141 of the same line at Jefferson avenue and Third street, smashing the former car and inflicting probably fatal injuries on Motorist Roscoe E. Dodge, who was in the vestibule. It was at first thought the car-brakes refused to stop, but it was due to the slippery tracks. The driver was thrown forward and was saved by the quick action of Joseph Boyle, a bystander, of Woodstock, Ont., who jumped in and nudged the imprisoned man out of the debris.

SEIZING ARRANGING OF EVELYN'S MOTHER BY HER GRANDMOTHER.

NEW YORK, March 11.—Frederick W. Longfellow was the first witness called by District Attorney Jerome when the Thaw trial opened this morning. Longfellow formerly was Thaw's attorney.

PITTSBURGH, Pa., March 11.—In a startling statement, the mother and half-sisters of Evelyn Nesbit Thaw's father have come out and blamed Evelyn's mother, Mrs. Charles J. Holman, as responsible for the murder of the wife of the man on trial for the murder of Stanford White. The mother is scathingly arraigned as "a human monster."

PILOT BUTTE MAN'S CURIOUS LETTER... ASKS FORGIVENESS FOR WRONG DONE ANOTHER FIFTEEN YEARS AGO... MONTREAL, March 9.—James Wilkins, Des Moines, Iowa, in an interview here says that great as has been the tide of settlers from the American West into the same region of Canada during the past year, it will be very much surpassed by the influx this year, if the promises hold good...

After bearing for 15 years the burden of undeserved suspicion, an industrial Dreyfus of Northfield, Eng. Mr. Henry Snelling has been, according to an article in Lloyd's Weekly News, cleared by a confession written from Pilot Butte, Sask.

Mr. Snelling's confession is a long and interesting one, and it is worthy of confidence, advice, and assistance in obtaining employment. It will, in fact, be a certificate of bona fides, and a proof that the owner of it has not only left school without a stain on his character, but also that he has passed through the probationary period immediately after school, say of 18 months or two years, learning a profession or calling with credit.

ASKS CONGRESS FOR REDRESS

ORGANIZED LABOR PETITIONS INVESTIGATION OF THREE WESTERN MINES' ARREST

WASHINGTON, March 10.—Organized labor has asked Congress to institute an investigation into all the facts and circumstances attending the arrest in Colorado of Charles H. Moyer, William D. Haywood and George F. Pettibone, officers of the Western Federation of Mines, and their deportation to Idaho to stand trial on charges of complicity in the murder of Governor Frank Stenberger.

To that end Senator Carmack today presented a petition signed by hundreds of working men and citizens and also printed in the record, the dissenting opinion of Associate Justice McKenna to the opinion of the supreme court of the United States that the court could not inquire into the circumstances surrounding the alleged "kidnaping" of the three men.

Senator Hayburn then secured an order for the printing of the majority opinion of the court.

The petition asked for the enactment of "such laws and measures as may be required to redress the grievances committed against Moyer, Haywood and Pettibone, and to safeguard and protect the citizens of this country from legalized kidnapping and deportations by administrative order in the future."

The fact that these men had not been in Idaho for several years prior to the time they were arrested for complicity in the Stenberger murder is recalled. It is declared the decision of the supreme court, that it could not inquire into the alleged "conspiracy of the government of Idaho and Colorado," legalizes the crime of kidnapping and "puts in the hands of corporate interests power by which they may lay hands upon citizens of any state, tear them from their homes and families, deport them to another state, and confine them in prison, there to remain without trial for months or years, thus depriving citizens of this country of life and liberty without process of law."

The petition emphasizes the claim that the western federation of miners is "a large and peaceful organization of labor."

DEFEAT OF PROVINCIAL SECRETARY DAMPENS ARDOR OF CONSERVATIVES.

Williams Elected in Arthur Over Lyle—Little Doubt That a Reaccount Will Be Demanded in Attorney General Campbell's Constituency.

WINNIPEG, Man., March 8.—The result of yesterday's provincial elections is still the principal topic of discussion in all parts of the city.

The official figures from the returning officers of the four city ridings show the result of yesterday's election to be as follows: South Winnipeg, Gordon, 184 majority.

WINNIPEG, March 8.—2.30 a.m.—Latest returns tonight record another Liberal reverse, Russell, Dr. Wright was leading by a small majority, swinging over into the government ranks.

SPAIN NOT SURPRISED. Scarcely Interested Now in Disclosures in Cuba.

LONDON, March 7.—The Times correspondent at Madrid sends the following cable despatch: The Imperial, commenting on the alleged disclosures of bribery by Estrada Palma in 1897, when he was the principal agent in connection with the Cuban filibustering intrigues in the United States, says:

"We do not share in the surprise Americans have caused in the march of these events found in the much that seems inexplicable."

As the result of a special appropriation made during the last session of the Provincial Legislature, the Department of Agriculture is offering \$1,000 reward with a view to encourage the killing of the wolves which are such a tax on the sheep, poultry and cattle industries and so destructive to the game birds and large game in northern Saskatchewan.

WANTS VEILED CHARGES OF PREMIER RUTHERFORD'S BILL GRAFT BY MR. FOWLER FURTHER INQUIRED INTO.

Were Not Specific, Says the Premier, While Leader of the Opposition Calls on the Member for Labels to Stop Talking to Vacant Chair.

OTTAWA, March 8.—In the House of Commons this afternoon, Mr. Bourassa, member for Labelle, again brought up Mr. Fowler's spectacular threat of some weeks ago and said that at that time the Prime Minister and the Opposition leader had agreed that the session could not pass without a discussion of the matter, but that it would be well to wait for the Insurance Commission's report.

Mr. Foster rose quickly and in a voice quite audibly stirred with emotion, suggested that Mr. Bourassa should be charged with the report made a charge against him.

LONDON, March 8.—The Woman's Enfranchisement Bill, which came up for a second reading in the House of Commons today, and which was introduced by Mr. Dickinson, Liberal, although practically identical with the measure introduced by Mr. Keir Hardie last year, has evoked far greater general interest.

Mr. Bennett (Simcoe) agreed with the member for Labelle that the charges of Mr. Fowler not only affected the Government, but the fair name of the country.

Let Me Sell You a Chatham Incubator - On Time

Do you know there is big money in raising poultry? Do you know there is more money in running a good incubator than in almost anything else you can do for the amount of time and trouble it takes? Do you know my incubator will pay you a bigger profit than any other thing you can have on your place? Well, all these things are true, and I can prove it. Thousands of people all over Canada have proved it every year for the last five years.

I want to quote you a price on my Chatham Incubator, -sold ON TIME. I want to send you my Chatham book. This incubator book is free - I'll send it to you for just a postal card. It tells you a lot you ought to know about the poultry business - it tells you how to make money out of chickens - it tells you how my Chatham incubator will make you more money than you can make with hens - far more, you will find it true.

This book tells you how my incubators are made - why they are the best ever invented - and why I sell them ON TIME and on a 5-Year Guarantee.

My company has been in business in Canada for over 50 years. We also operate a large factory at Detroit, Mich. We have the incubator and brooder business down to a science. Chatham Incubators and Brooders will make you money for a fertile egg set into it in 21 days. Chatham Incubator will hatch a live, healthy chicken out of every egg set into it in 21 days.

Will you write for my book today? Write me while you think of it. Just say on a postal card "Please send me your incubator book." I'll send it to you personally. That's all I ask of you.

Word-Pictures Outline Ideals

By Clara Kern Bayliss

It may take this old world a long time to get a new idea into its head, but when once a belief or a superstition has taken root, there centuries are required to extricate it. It is a tree that dies slowly, and the fibrous roots, and ages pass before the fibrous roots, hiding away under the ground, are eradicated, and even when it is wholly dead and gone, the terms once used to describe it persist in our language.

Any minister of the gospel will admit that he uses figures and phrases handed down from generation to generation, which tend to revivify ideas long since known to be moribund. "The edge of the earth," "the foundations of the earth," "the four corners of the earth," come to us from the time when people believed in separate flat earth, supported by four pillars of rock, or upon the back of an elephant or a turtle. Christians still speak of the sun as the "King of Day," and the sun as "the King of Darkness," names that have come down the centuries from some far off, ancestral nature worship.

Good old ladies still read their bibles and pray with faces to the east, as of old men turned their faces and directed their supplications to the rising sun god. And around the heads of saintly ones is pictured the halo which adorned the head of this same sun god.

In our secular literature we speak of "tongues of fire" and "fiery serpents," as if we still believed in "the Little God of Fire," and the "rising sun god," and the "winged serpent darting athwart the heavens."

We read of the "serpents" and "the teeth of the storm," though nowadays the only teeth we have faith in are in a certain pair of square jaws used in the papers as a symbol of the owner, and when the daily press is abroad in the land we merely smile

and ask, "What is Teddy going to do next?"

We say that the thunder rolls, although we know that it does not roll, and from time to time one has picked up a genuine, egg-shaped thunder stone, one of the bolts that writhed in Thunder God used to hurl at obstinate mortals.

"The mantle of darkness" and "the dome of the sky" are survivals from the days when the sky was believed to be a solid dome resting upon the edge of the earth, over which blankets of different colors hung at dawn and dusk.

In the word "lunatic" our language has preserved for us a relic of the fancy that the Goddess Luna exerted a peculiar influence over mortals, and that lunatics, mad and crazy people were "moon struck." I remember to have heard in my childhood that once a man lay down in a cornfield and watched the moon rise and set, and that when he awoke he was blind.

Even science as yet has found no exact synonym for the "sun rises" "passes across the sky," "sets," "the moon and stars come out."

We speak of the wings of the wind, though we have ceased to consider it an animate being. But we still do provide the spirits of deceased mortals with wings instead of shrouds.

We say the clouds by across the sky or soar through ether, though we no longer hold to the red man's theory that they must be huge birds else they could not sustain themselves in the air or move in it from place to place.

As we cling fondly to that ancient phrase, "the first breath of dawn," though we know that the lovely dawn maiden, like the Palpatuma of the Flute and the Holy Corn Maiden, long since vanished from the eyes of mortals, and that the gray mist of morning closed around her, nor shall we ever see her more.

DEVELOPMENT OF REGINA'S INDUSTRIAL CENTRE WILL BE IMPORTANT FEATURE OF 1907

CITY'S LIBERAL TRACK SITES POLICY, TOGETHER WITH UNIQUE DISTRIBUTING FACILITIES, PROVES IRRESISTIBLE MAGNET TO IMPORTANT COMMERCIAL ENTERPRISES - SIXTEEN WAREHOUSES ENTAILING AN EXPENDITURE OF CLOSE UPON \$250,000, ALREADY PLANNED TO BE ERECTED DURING COMING SEASON - OTHER WHOLESALE FIRMS IN NEGOTIATION WITH CITY FOR WAREHOUSE SITES - LARGE NUMBER OF SPLENDID PUBLIC BUILDINGS AND SCORES OF RESIDENCES EXPECTED TO SWELL YEAR'S BUILDING OPERATIONS TO OVER \$3,000,000.

Last year Regina's building figures went over the \$2,000,000 mark, and this year the Capital City of this province fifth among the cities of the Dominion for that year, but large and constantly satisfied as those figures were, every indication at the present time points to their being greatly exceeded during the coming season. Wholesale and industrial growth, undoubtedly what promises to be the outstanding feature of this year's building operations will be the expansion in the wholesale and industrial districts of the city on the north side of the C.P.R. main line, where, thanks to the progressive and far-sighted policy pursued by the City Councils and continued by the city now in office with regard to offering bonus bids for wholesale sites and industrial undertakings with track facilities at extremely low prices, warehouses will this year be erected totalling close upon a quarter of a million dollars in value.

The position of Regina as the chief distributing centre for Saskatchewan was established once for all in 1903, which year saw the leading implement firms both of this country and the States establish distributing warehouses in the city, not only for their Saskatchewan trade, but in several cases for the whole of Western Canada. What the unique position of the city as a railway centre commanding the finest wheat-growing areas in the world rendered possible, the generous track site policy of the City Council in connection with the large areas of land conveyed to the North End has made inevitable, and at the present time the city is witnessing an influx of wholesale commercial enterprises which six years ago not even the most sanguine of its citizens ever dreamed of.

Many Wholesale Concerns. Close upon two scores of wholesale and manufacturing firms of high standing are either now negotiating with the city for track sites or have actually completed them. Without taking into consideration those firms which may possibly not finally decide to locate here, there are even now being stated on a conservative basis of calculation that sixteen warehouses will be erected this season, with the approximate value of: Whittaker Bros., \$4,000; Muller Brewery, addition, \$20,000; Same, warehouse, 8,000; New Hamburg Mfg. Co., 4,000; International Harvesting Co., 4,000; North-West Thresher Co., 4,000; Nichols-Shepard Co., 8,000; J. I. Case Co., 4,000; R. E. Mitchell, 20,000; Robt. Bell Engine and Thresher Co., 4,000; Reeves Threshing Co., 4,000; Co., 4,000; J. N. Edgar, 4,000; J. W. Smith Hardware, 4,000; Read Bros., 8,000; Young & Thomas, soap factory, 25,000.

Total, \$227,000. Several of the above are being undoubtedly eventually prove to be considerably under the value of the buildings actually erected, being in many cases the minimum valuation stipulated by the City Council in granting the sites. With the exception of Mr. Young, which will be located in the wholesale section of the Eastern Annex in the north-east quarter of the city, all the warehouses and factories mentioned will be on special sites granted by the city and within the area provided for by the comprehensive spur track scheme recently drawn up by the City Engineer and approved by the City Council.

The effects of the large influx of commercial enterprises of which the above is some indication upon the city can hardly be overestimated. It insures the addition of a large industrial class to the community, adding considerably to the permanence and stability of the city's resources of wealth; it establishes more certainly the commercial supremacy of Regina among the cities of the province.

Other Building Operations. But quite apart even from the building operations outlined above, the season of 1907 promises, as already stated, to be one of unexampled importance, exhibiting in a very concrete manner the prosperity of the city and its growth in importance among the centres of the Dominion.

It is yet too early in the season to even approximately forecast the building programme for the year, but at any rate sufficient is already known to justify the prediction made with regard to its bringing Regina within the \$3,000,000 class. While every architect in the city at the present time is crowded with work of every description, few are as yet prepared to state exactly the extent and scope of their activities, though all are agreed in saying that they were never busier. In many cases, however, much of the work upon which they are engaged is still in the preliminary stages, and their clients prefer that information should be withheld until the contracts have been actually let. In more than one instance work is on hand which will entail an expenditure of over \$250,000, and there is hardly an architect in town whose office is not engaged on plans which will represent building operations aggregating over \$100,000.

Some Important Buildings. Taking only a few of the buildings the plans for which have been prepared and the contracts in some instances let, we have the following list of buildings which would be a credit to any city upon the continent: Darke business block, \$12,000; Mason Temple, \$12,000; Baptist School, 40,000; Albert School, 54,000; V. M. C. A., 40,000; Von Parhey Hotel, 45,000; Land Titles Office, 80,000.

In addition to the large number of buildings to be erected this year, which the above is but a partial list, several important undertakings still being under consideration, the construction of domestic residences will

COURT ADJOURNS TILL MONDAY WHEN MR. JEROME WILL BEGIN REBUTTAL. NEW YORK, March 8.—When the court convened for today Mr. Delmas announced that the defence had no more evidence to introduce. The court adjourned until Monday, when Mr. Jerome will begin the rebuttal.

When Mr. Justice Fitzgerald had ascended the bench and Clerk Penny had called the jury roll, Mr. Delmas arose and said: "The defence rests." Mr. Jerome then said he would have to ask for an adjournment until Monday morning.

Mr. Justice Fitzgerald turned to Mr. Delmas, who said: "There is not the slightest objection on our part." Mr. Justice Fitzgerald then ordered an adjournment until Monday, admonishing the jurors not to discuss the case with any one among themselves and above all, not to read the newspapers.

District Attorney Jerome said he was not prepared to add anything further to his statement of last night that the evidence he will have to offer in rebuttal will be before the jury by Wednesday evening. He added that the case should go to the jury by Friday night.

PATERSON'S The Cough Drop That Cures Dressed the red and yellow

CITY AND COUNTRY

(From Thursday's Morning Leader.)
-R. Boes is applying to the city for three lots for the purpose of erecting a felt factory.

-Ald. Wilkinson is asking the city to sell him lots 3 and 10 in block 270 for the purpose of building a wholesale warehouse thereon.

-Murray, Stewart & Mollard have vacated their offices in the Donahue block and are now located in room 2 of the Mickleborough block.

-The Regina Relief Society wish to acknowledge the following donations: Mrs. Westgate, \$2; Mrs. Saltfour, provisions; Miss Simpson, milk.

-Mr. H. J. Gardner, C.P.R. car inspector, left last week for a four months' visit with friends and relatives in London, Eng.

-Rev. E. A. Henry leaves this morning for Winnipeg to be present at the Presbyterian missionary conference to be held in that city this week.

-Ald. Wilkinson, who is to give evidence before the House of Commons committee appointed to enquire into the alleged lumber combine, expects to leave for the East on the 10th inst.

-The Finance Committee of the City Council decided yesterday to accept the tender of the National Trust Co. of \$172,355 for the \$150,000 worth of debentures recently advertised.

-At a meeting of the Victoria Hospital directors held on Tuesday evening, J. M. Young was re-elected president and O. E. D. Wood vice-president. It was also decided that in future tenders should be called for all purchases for the hospital.

-Inspector Harwood's report for the month of February showed the smallest number of police prosecutions in any one month during the last three years, viz. two under by-law No. 94 for being drunk and disorderly and two under the criminal code for assault, a total of four for the month.

-The difference which arose on Monday with the bricklayers working on the new King's Hotel building on Scarth street, was satisfactorily settled, the men returning to work the following morning at an increase of from five to fifteen cents an hour for a nine hour day.

-Miss L. McCrae, head milliner for the McCahey Supply Co. Ltd., has returned from a two months' pleasure and business sojourn in the East and is busily engaged with a numerous staff of assistants preparing a thoroughly up-to-date stock for a grand millinery opening.

-W. W. La Chance, the well-known architect, has decided to close his Regina office and confine his attention entirely to his Saskatoon and Prince Albert business. With the amount of work that he has on hand in the north, Mr. La Chance states that he finds it too great a distance for him to travel up and down the line so often.

-Two new banks are shortly to be added to the already long list of banking institutions already located in Regina, the Royal Bank of Canada arranging to occupy the ground floor of the new Mackenzie & Brown block on Scarth street, while the Bank of Nova Scotia has secured quarters in the new King's Hotel building a little further up the street.

From Friday Morning's Leader.

-Mr. Mowat, late of the Montreal Star, is in the city enroute to Saskatoon where he goes to become business manager of The Phoenix.

-Mr. Count Vay de Vaya, a well known Hungarian bishop of noble birth, arrived in the city last night and is the guest of His Honor at Government House. Mr. Vay de Vaya is at present on a tour visiting all the Hungarian settlements in the West.

(From Saturday's Morning Leader.)

-A. F. Northcott, of Toronto, is in the city for a few days.

-Miss Ida Hunter, of Arcola, is visiting Mr. and Mrs. Geo. Ross.

-J. Meyer returned on Wednesday from Guelph, where he has spent the winter.

-J. L. McKillop, of McKillop & Applefield, has returned to the city, after spending three months in Eastern Canada and the United States.

-At the last meeting of the N.W.M.P. Lodge No. 11, G.R.S., A.P. & A.M., a beautiful past master's jewel was presented to past master inspector Church.

-Speaking at last night's Board of Trade meeting, Mr. McCrae stated that yet another important firm dealing in agricultural machinery, the name of which he was not at liberty to disclose, was thinking of locating in Regina.

-Stuart Strathby, assistant general manager, and John L. Willis, inspector of the Traders Bank, left this week for Calgary, after visiting the Regina branch. Mr. Strathby is making a tour of the Western branches of the Traders Bank.

-Mr. and Mrs. O. E. Butler, of North Melville St., celebrated the 20th anniversary of their marriage the other evening. Those present were Mr. and Mrs. Rev. A. E. Henry, Mr. and Mrs. J. Robertson, Miss Robertson, Mr. and Mrs. J. Bryant, Mr. and Mrs. W. Bell, Mrs. Thomas Young, Mrs. Hannock, Miss Harjorie Macovee and Mr. Hy Holmes.

-An informal meeting of the public school board last night discussed some of the details of the bill now before the legislature providing for the organization and maintenance of high schools and collegiate institutes. At first it was proposed to make certain representations to the Commissioner of Education, but after looking into the matter more closely it was decided to take no action.

From Monday's Morning Leader.

-S. P. Porter, who has been sent for several weeks on business connected with the Dominion Lands Office returned to the city on Saturday.

-The Victoria Hospital is advertising for tenders for the supply of drugs, meals, coal, groceries, etc., to that institution for the next six months.

-The High School Cadet Corps concert takes place on Friday evening, March 15, at 8 o'clock. Reserved seats at Pettingill & Van Valkenburg's.

-The seating plan for the grand St. Patrick's concert which is to be given in the City Hall on March 18th has now been completed. The reserved seats are at Pettingill & Van Valkenburg's.

-Mr. J. F. Frame, law clerk to the Legislative Assembly and the Attorney General's Department, will, it is understood, retire from these positions after the close of the present session to enter the law firm of MacKenzie, Brown & Thom. The name of the firm will then be changed to MacKenzie, Brown, Thom & Frame.

-The William Pearson Land company have issued a beautifully illustrated booklet entitled "The Lake and the Land of the Last Mountains Valley." The book draws attention to the scenic beauties of the Last Mountain district, and to the important part being played in its development by the Lake itself, which it is predicted will at no very distant date become a very much favored summer resort with Regina people.

-Ald. Wilkinson left last evening for Ottawa, whither he has been summoned to give evidence before the House of Commons committee now enquiring into the alleged lumber combine. Mr. Wilkinson will travel East with Messrs. Green and Hopkins, who have just been joined by Mr. Hartridge. While in the East Mr. Wilkinson expects to conclude negotiations which he has been conducting for some time past with a large Toronto wholesale grocery firm for a warehouse for their western branch in this city.

-In the Alexandra Hotel on Saturday evening last a very enthusiastic gathering of Irishmen resident in Regina took place and resolutions were made appointing officers for a society to be formed in the city. A further meeting to be held at The Clayton Hotel on Wednesday, 13th inst., at 8 o'clock, when the business will be to form an Irish society, non-sectarian and non-political and appoint prominent officers, etc. R. J. Brown, who is acting as secretary pro tem., will be pleased to hear from all in any way interested in the movement, and all such will be cordially welcomed at Wednesday's meeting.

(From Tuesday's Morning Leader.)

-Miss Mary Clarke, of Prince Albert, is at present staying in the city, the guest of Mrs. John A. Kerr.

-Miss Laura McNair, of Iowa, late of Chicago, has opened fashionable dressmaking parlors in the Black block over the Traders Bank.

-The Rev. E. A. Henry will lecture for the Presbyterian Church in Wolseley, on Monday, the 8th of April. His subject will be "Some Old.".

-Mr. Fleming, of Sedley, was in the city on Saturday last. He is an ex-member of the R.N.W.M.P., and was for a while orderly to the Lt. Governor, and has many friends in the city who were glad to see him.

-There is some talk of a lacrosse team for Wolseley during the coming summer. A meeting will be held shortly to organize. A number of new players have come to town in the last few months.—Wolseley News.

-Mr. Hamilton, who was the Provincial Rights candidate for Redberry at the provincial elections, is in the city. Mr. Hamilton is to quote Mr. Hamilton's own words, treating his former political antagonist like a prince.

-The second annual meeting of the Saskatchewan Auctioneers' Association for this province will take place at the Clayton Hotel Regina, on March 22nd, at 10 o'clock a.m. All auctioneers are cordially invited to be present.

-J. R. Finkle, of Finkle & Ackerman, manufacturers of evaporated fruits and vegetables, Bowmanville, Ont., is in the city, a guest of his brother, G. H. Finkle, Corvayall St. Mr. Finkle is making a trip through the West in view of locating an evaporating factory. He is greatly impressed with Regina owing to its splendid position as a distributing centre and it is probable he may locate here.

-The Presbytery of Qu'Appelle met at Grandin on last Wednesday for the transaction of business. Mr. A. F. Fotheringham (moderator) in the chair. There was a very large attendance, including a number of brethren who had recently been called to charges within the bounds. The reports were chiefly of an encouraging nature, and the business was done so quickly that the Court adjourned on Thursday about 11 o'clock in the forenoon. The next meeting will be held at Fort Qu'Appelle in July.

-His Lordship Bishop Vay de Vaya, who was a guest at Government House, for a day at the end of last week, has left for Leclerc, where he is to meet the Hungarian miners. One of his objects in making the trip West is to meet his many compatriots who have settled in this country and to enquire as to their condition. He stayed off at Esterhazy for a couple of days, and was given a very cordial reception. His Lordship was pleased at the progress the Hungarians are making and is confident they will prove to be a valuable acquisition to our population. Regina, he considered, has grown wonderfully in the two years since he saw it last. After leaving Leclerc, he will proceed to Vancouver, from where he will sail for Korea. In that country, one of the many things he will do—will be to lay the corner-stone of a hospital which he has founded there.

From Wednesday Morning's Leader

-C. G. McDonald, of Pettingill & Van Valkenburg's staff, is spending the week at his home in Virden.

-The machinery in connection with the generation of power for the day service, which has been on order for over six months, has arrived and will be installed immediately.

-It was stated last night that the contract had been let for the erection of the new J. M. Young & Thomas school factory in the Eastern Annex. The contract price named was \$2,250 and Messrs. J. M. Young & Thomas are the contractors. The building is designed by W. W. Hilton.
