### DR. PYNE'S LETTER

Toronto, July 9th, 1908.

Dear Mr Donovan,—Referring to your enquiry as to the abolition of the Model School at Athens, I may say that you were quite justified in stating that it might be retained. Any public statement you made to this effect would be entirely warranted by the information possessed by me up to a few days ago.

The announcement I made in the

legislature last session was that the Model Schools would be retained wherever they were required. It was impossible at that time to be more explicit because the statistics which have since been collected all over the Province and the report of the Model School Inspector on these facts were not then available. The evidence necessary before deciding upon a policy for this year has recently been obtained and the decision to abolish the School at Athens is one which neither you nor I could have foreseen. No decision to abolish it, therefore, had been reached when you made your statement to your uents and you acted in perfectly

good faith throughout.

In resolving to retain certain Model Schools for 1908, I have been guided by the report of the Model School Inspector based upon the number of District and Temporary Certificates now in existence in those portions of the Province where the Schools will be situated. The government took action speedily when the necessary evidence

From various causes I have found it impracticable to organize the new system of Model Schools during the present year. In particular, the number of teachers with the new Third Class (the old District) certificate that will be needed for 1908—1909 cannot be definitely ascertained at present. From appearances it will not be large. I have, accordingly, thought it wise to continue for 1908 the former Model Schools at the places announced to the different Boards and published in the

As you know, the effort to secure etter trained teachers is no easy task and demands some sacrifice on the part of all of us since it is only by united action that better educational results can be obtained. It would not be fair to the parents of the children nor to the children themselves to continue the issue of Lower Grade Certificates where they are really not required, The excellence of any Model School is really not the question at all but whether the district in which it is situated is one requiring, for financial reasons, a supply of low grade certifi-cates. The School Board at Athens would not. I feel sure, desire to interan we are no in teachers' training. Even if some ment that they were not sent the sacrifice on the part of any locality forsacrince on the part of any locality for-merly in possession of a good Model School is necessary, I feel sure that sacrifice will cheerfully be made. The case is not that of Athens alone, but also of other centres throughout the Province, and the government confi dently looks for co-operation in carry-ing out its policy of substituting Nor-mal for Model School training,

In any event, owing to the fact that we had no definite evidence on which to decide the matter, your attitude cannot be fairly impugned either on the ground of sincerity or a lack of readiness to espouse your local Model

Yours very truly R. A. Pyne. A. E. Donovan, Esq , M.P.P., Toronto, Ont.

A LAW THAT BLIGHTS

The Loss of Model Schools as Viewed by a Farmer

For many years the Province of Ontario has enjoyed an excellent system of educational laws, a system which has proved not only of unnewed energies to the task of educating their children, knowing that with the gracious educational provisions afforded them it would not be long un afforded them it would not be long until they should gain the teaching profession, when they would be able not only to provide for themselves and prepare for higher qualification, but also in many cases to recompense their parents for at least a part of the hard earnings expended on them. Thus has our country not only been

filled with self-made young men and women, who are the glory and pride of a nation, but also with grateful parents

sory year's training at a Normal School in some distant city before the young teachers can earn anything for themselves, where, then, will the average farmer and laboring man's hopes appear? They are utterly cut off, for they cannot afford the additional expense on one child and do equally as pense on one child and do equally as pense on one child and do equally as well by the rest, and in a parent's heart there can be no distinction. Quite unlike the Whitney Government law which heaps bounties on some and burdens on others.

During the cold winter recently passed, two girls, daughters of a widow ed mother, walked three miles each way, morning and night, to attend our Athens High School, aspiring to be come teachers, but, alas, their hopes are now gone-and this is only a type of hundreds of suchlike cases. Surely the man responsible for this sad change must either on the one hand be most dastardly ignorant of the depressed condition of affairs among the laboring class of our country, or on the other mu possess the hardened heart of a criminal. Has it not been the united influence of the laboring men ot our pro-vince that has placed the members

of this responsible government where they are? How is their kindest efforts being recompensed but by directly turn ing their children out of school and indi rectly away from home and out of our country. Surely the insult is too bold a one for any sane Legislature to offer to an intelligent public; for, when thus humiliated with a sense of failure through lack of means to reach the profession they had chosen, it is probable that many of them will seek mployment across the border. We all freely admit that a large per cent of the best teachers in our schools have sprung from homes like these. When these, our young people, are turned away, who will come and teach our schools? Perchance some tenderfoot or money man's dude, who may have but little or no regard for the progress or welfare of the pupils, but whose chief aim may only be to put in the time, draw his salary and get away to

spend it in gay saloons or at shows and theatres.
Surely the time has come when we, the sober minded, honest hearted, in dustrious men of our country should working out for raising the standard thusiasts and members of that govern rob us of our just rights and rule with tyranny, but rather as our servants to protect our rights, execute good and honest legislation, and do our pleas

> Another serious injury to be wrought by the removal of the county Model Schools is this: While waiting for money men's sons and daughters to sufficiently respond to the call, our rural schools must be filled in many places with young girls and boys direct from the public and high schools, with out the least training as teachers. Now, we all know that in starting in a thing of so great importance, they should start right and with a uniform method, which will not be the case without a Model training, and when left to thus start wrong how will they ever get right or make a success of the

Yet one more question, for it seems hard to close, though being written after a long day's toil and under the flickering glare of a midnight lamp, but my heart is full of injured feelings in behalf of many of our dear young people. Ask yourselves this question : how many rural schools in our county, which has proved not only of un-told worth to the youths of successive in our province, multiply the number generations, but has borne with it, as by at least three hundred, being the on wings of love, a cherished hope to lowest salary paid in each, and see the hearts of thousands of parents, how many hundred thousand dollars whose earthly possessions were indeed in salaries will thus pass from the small, inspiring them to bend with re-reach of the laboring class into the hands of the wealthy, and ask is this right, and the answer will be invari-

Mexican Karebit—Meit a tablespoonful of butter in a chafing dish. When well heated add a tablespoonful of Mexican pepper pulp, a half-teaspoonful of mustard and a little salt. To this add a half pound of cheese cut in small pieces. When the cheese is melted stir in slowly three or four tablesponfuls of milk, and then add one beaten egg. The mixture should be stirred constantly while cooking. When sufficiently the content of the co cooking. When sufficiently thick serve on small squares of toasted

Luncheon Ham-Fill a medium-sized baking dish with alternate layers of dry bread crumbs and finely chopped ham. Cover with two cops milk, mixed with three well-beaten eggs. Salt if required and bake 30 minutes in dish

required and bake 30 minutes in dish suitable to place on table. Gingerbread—One cup New Orleans molasses, one even teaspoon soda, one-fourth teaspoon each of gingen nutmeg, charamon, one-half cup sugar, one teaspoon butter. Beat well together and add one cup sour cream or milk. Stir in flour so you can pour batter in tin. Bake in slow oven.

in flour so you can pour batter in tin. Bake in slow oven.
Virginia Bisoutite—These are thin, and if well made they are crisp and wholesome. Any bread that is sufficiently hard to require mastication is preferable to soft bread. Add a teaspoonful of salt to a quart of sifted flour, and sift again. Mix half a pint of milk with half a pint of water and add flour, and sift again. Mix half a pint of milk with half a pint of water, and add it gradually. Knead the dough until it is elastic, and then pound it until light. Take off a portion of this and roll it out as thin as a wafer. With a pastry jagger or sharp knife cut it into square biscuits about half the size of an ordinary soda cracker. Prick core the biscuits about half the size of an ordin-ary soda cracker. Prick over the top with a fork. Place in a baking pan, and bake in a slow oven for from 20 to 25 minutes. These biscuits may be served warm, or they may be baked in large quantities, put aside, and warmed up at serving time.

Imitation Sauerkraut—Select a small, solid head of caphage and shop it up

solid head of cabbage and chop it up fine. Place in a granite or porcelain kettle for 24 hours. Before putting away add salt and a little water; cover away and sait and a little water; cover well; next drain off the water, rinse well and fry in fat, lard or butter, as may be desired. It also can be boiled

with meat.

Baked Codfish Hash—To each cup of finely flaked and freshened codfish allow two cups of chopped cold potatoes; mix in two tablespoonfuls of melted butter and one cup of milk; pack in a buttered pan, cover and bake 30 minutes

utes.
Fried Salt Codfish—Cut the fish in squares and soak in cold water over-night; dry on a cloth and dip each equare in beaten egg, to which has added one tablespoon of cream: roll added one tablespoon of cream; roll the fish in flour and fry a golden brown in

Codfish Chowder-Brown one cup of finely minced salt pork and place it in the chowder kettle; add a layer of sliced raw potatoes, with a seasoning sliced raw potatoes, with a seasoning of salt and pepper, a layer of flaked and freshened codfish, a layer of broken milk crackers, sprinkled over with bits of butter, and, lastly, another layer of light ways on a supply fish; pour on enough milk to cover and cook slowly until the potatoes are done; add a little more milk before serving, if necessary.

### HUNT FOR BIG GAME.

Woman Braves Dangers of Lower California in Search for Big Horn Sheep.

Mr. and Mrs. Howard S. Reed, in their recent two months' trip in Lower California, shot more big horn sheep than

pamed by Elbridge D. Rand, went down the west coast in a schooner and landed at a village not far form Magdalena Bay. They had three guides and packers, a pack train of eight mules and three more animals on which they rode.

In Reeds gradually worked their way 150, miles inland, reaching a region seldom invaded by white sportsmen. The scarcity of water was a very serious The scarcity of water was a very serious matter. It had sometimes to be packed for thirty miles and was seldom of good

quality. The water holes when round proved to be more or less contaminated. The country is as wild and rocky as Before the trip was the country is as wild and rocky as

I was surprised the other day when I dropped into the office of G. P. Baccelli, and a line of the property of the Italian consul, to learn that he was required to the property of the pr to pieces. It was almost impossible to keep shoes on the mules.

been a close student of sheep in every years, often visiting Syracuse and other range from northern Alaska to the nearby cities to secure recruits. In Italy,

is growing very rare, and even in Lower California it taxes the ingenuity of a hunter to get a shot at one. Mr. Reed was anxious to secure specimens of all plications at Syracuse this week, and allower the specimens of all plications at Syracuse this week, and allower the specimens of all plications at Syracuse this week, and allower the specimens of the specim ages for preservation in some museum. very animal shot was carefully measd, samples of shrubs or other food on which it may have been feeding gath. ered, and a photograph taken. For the establishment of a museum of natural history in California Mr. Reed has contributed money as well as his personal efforts, and his hope will probably be realized in the near future.

Mrs. Reed has often taken her life in

her hands. She can skin and preserve her game like a professional, knows woodcraft thoroughly and is a dead shot with the rifle. Fatigue seems unknown to her. She and her husband are in perect harmony in their love of the wilds.
When in the field she wears a short khaki skirt, flannel shirt, khaki hat and elkskin shoes and leggings. In Alaska she carried a .405 Winchester and in the south a .351 Remington, the weapon

that shoots through steel.

Mrs. Reed is the only white woman who has ever had the courage to penenia. She bagged two sheep, one fine ewe and a ram. She also did her own skinning, and the old Indian guide did a war dance when he saw her skill with the hunting knife. The ewe killed had iemb, and this the huntress decided to

The killing of a famous ram was one The killing of a famous ram was one of the exciting incidents of the trip. Mr. Reed had heard stories of the monster, and wished eagerly for a shot. For years big/game hunters had chased it in vain. Some had even come over from England, lured by romantic tales of the gigantic sheep, but until Mr. Reed's arrival it had escaped leaden pills. The monarch of the peninsula led a solitary life, keeping apart from the band and ife, keeping apart from the band and generally taking up a position on some almost inaccessible crag, where he could

see approaching enemies.

The Reeds followed the trail eagerly, The Reeds followed the trail eagerly, but it was a week or more before their opportunity came. Near sundown the big ram was seen on a distant crag, silhouetted against the glowing skies. He had already seen the hunting party, and evidently was curious about the mules.

Leaving his companions, Mr. Reed began crawling on his hands and knees toward the animal, and when within seventy-five yards fired straight and true for the sheep's shoulder. The horns measure 17% inches at the base.—Los Angeles Times.

HOBGOBLINS IN A MAINE HOUSE. Deputy Sheriff and a Crowd Called

Out to Solve the Mystery. They are having quite exciting times at the home of Elmer Dare, in Harmony,

about two miles from here.

June 9 the place was visited by spir its, holy the place was visited by spirits, holy the place was visited by spirits, holy creatures. The family was awakened in the night by cider and vinegar barrels being rolled over in the cellar, doors slamming, chairs tipped over and other noises too numerous to mention

The neighbors were called in by tele phone and watched all night, but failed to locate the cause of the disturbance The next three nights the same mysterious doings were repeated, and several windows were broken. Although there was a bright moon and several men watched the place, they failed to discover

any cause for the unusual commotion.

We have not heard the result of Saturday night, but a crowd, with the deputy sheriff for a leader, were fully resolved o solve the mystery if possible. It may be a case like what we heard at Union several years ago, when a certain young lady endeavored to persuade her father to buy her an organ by getting old Uncle Ben Robbins to play ghost.—Athens correspondence Rockland Opinion.

Instruct the Children. A Rockford merchant who deals in fireworks and who is familiar with the deadly records of the Fourth resulting from the use of various kinds of explo-sives submits the following suggestions, which, if followed, would, he thinks, mitigate the horrors of the day:
"Parents should have a box or an old chair or an elevated board for the chil-

dren to lay their fireworks on so they will not have to stoop and have their eyes over the fireworks to be shot off. "Do not hold any piece of fireworks in the hands. There is always a possible danger. Get an old pan and fill it with sand and stick all Roman candles and penny fireworks into the sand to pre-

ent tipping over.
"Instruct the children never to pick up a firecracker after once lighting.
"Don't shoot fireworks known as serpents or chasers; they are dangerous; you don't know where they will go."— Rockford Republican.

Fate of Alaskan Fur Seal Herds

"The Alaskan fur seal herd is being rapidly exterminated by pelagic sealing vessels, mainly Canadians," said Professor David Starr Jordan. These sailing vessels fellow the herd as it moves along fornia, shot more big horn sheep than ever before were woured by one hunting party, and this means much, for the successful stalking of sheep on the peninsula is regarded as one of the most difficult of accomplishments. The Reeds' nineteen victims were not only excellent specimens but included by the Paris tribunal to use the spear—more deadly than the shotgun—in killing, outside of the sixty-mile zone, the big big horns of all ages. our Pacific coast in the spring, and en-ters Bering Sea at the end of the close horns of all ages.

Mr. and Mrs. Reed, who were accompanied by Elbridge D. Rand, went down the west coast in a schooner and landed the west coast in a schooler was the west coast in a schooner and landed the west coast in a schooler was the starvation of the young upon the land, and the inevitable rapid extinction of the fur seal herd. Unless something is done for the protection of the seal herds within five years not only the Alaskan but aslo the Russian seal herds will be completely externized. pletely exterminated, and deprive this country of a valuable source of revenue and the world of a great boon."-From the Washington Herald.

Italy Recruiting in Africa.

receiving applications from young Italians who desire to join the army of Unquestionably the success of the on the recent trip for big horn sheep was due to the fact that Mr. Reed has oint furthest south where they are to as in other European countries, all certain length of time, and although Italians living in this country cannot so a few in this city. These young men will be sent to Italy, where they will remain in the army for three years .- Albany Journal.

Rhinoceros Blood a Cure-All.

The blood of the rhinoceros is very highly esteemed by Burmese and Chinese as a medicine for all kinds of ailments. Whenever a party of hunters are successful in shooting a rhinoceros—they are less numerous than they used to be-the native beaters carefully draw off the blood and bring it to Rangoon stored in ollow bamboos. The precious liquid is worth its weight

Minard's Liniment Cures Diphtheria.

Adventurous Life in India.

Adventurous Life in India.

Tram travelling in Calcutta evidently calls for special training of the revous system. A correspondent gives details of three mishaps which he observed during the space of a few hours. He saw one car with no apparent excuse crash into another standing at a junction. In the next case he saw a car, upon which the driver was engaged in drinking a "lota" of water, charge a number of bullock carts, and his final experience was of a cyclist "contemplating the ruins of his certs, and ms innat experience was or a cyclist "contemplating the ruins of his bicycle and addressing measured and adjectival language to an official at the steering wheel."—From the Advocate of

An Offer to Illustrate. "What do you use the whip fer, mis-ter?" asked the street urchin of the

motor cab chauffeur.
"Get on behind and I'll show you."

After suffering eight years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter. Mrs. A. D. Trudeau, Arnprior, Ontario, writes to Mrs. Pinkham:

"I suffered terribly from ulcera-tion of the feminine organs for eight years. I tried four doctors but got no relief, and thought I would have to die. "One day I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in the paper. I sent for some, and before I had used five bottles I was entirely cured. I hope every suffering woman will take my advice and use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pink-ham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands o women who have been troubled with displacements, inflammation, ulcerafibroid tumors, irregularities periodic pains, backache, that bear ing-down feeling, flatulency, indiges. tion, dizziness or nervous prostration.

Why don't you try it? Don't hesitate to write to Mrs. Pinkham if you need advice about your sickness. She will treat your letter in confidence and advise you free. Because of her vast experience she has helped thou-sands. Address, Lynn, Mass.

BIG LOAD OF OYSTER SHELLS. Use to Which it is Proposed to Put

a Shipment of 30,000 Bushels. The barge H. W. Conklin, of New Lonon, Capt. Law, carried the largest conignment of oyster shells ever taken rom'this harbor when she sailed on Sunlay. There were about 30,000 bushels of shells in the cargo, sepresenting 30,000 gallons of oysters. The usual barge ship-ment of shells from this port is between 10,000 and 15,000 bushels, although the largest previous cargo was 23,000 bush-els. The shells are to be used in cover-

ng oyster beds in New Haven. They are put on the beds in prepara-tion for the spawning season, which is close at hand. Oyster spawn, unlike other fish spawn, is a creamy substance which rises to the surface of the water and after floating about in the form of soum sinks to the bottom and adheres to whatever hard substance it comes in soum sinks to the bottom and adheres to whatever hard substance it comes in contact with. Thus the shelling of the beds facilitates propagation, and a large number of shells are used every year in that manner. The piles of shells from which shipments were being made contained over 110,000 bushels before it was broken into. Even the Providers was broken into.—From the Provide Tribune.

## SUTHERLAND SISTERS SCALP CLEANER

the only Dandruff Cure! For shampooing has no equal. Sold by all druggists: 50c, sent postpald from the Seven Sutherland sters, 179 King Street, Toronto, on receipt

Queer Virginia Oysters.

But sure enough, did you know there vere some oysters, and Virginia oysters at that, which cannot live always under sheets of water? The seaside oyster does not grow in deep water, say over ten feet, and the most and best of them grow in water so shoal that it is dry ebb half the time. These latter are the most prolific seed bearers we have; but they prolitic seed bearers we have; but they will die if planted in deep water or in the Chesapeake Bay. The inside or bay oyster should never ebb bare to thrive best. Singular, isn't it, that the Virginia oysters, one and the same bivalves, can lead a double life, but only one phase of it at a time The seaside fellow must be out of water a good portion of his time to thrive, while the bay and river fellow will die in summer and freeze in winter if exposed to the air.—From the Virginia Citizen.

The Girl Graduate.

Did you ever have a girl graduate from the high school out of your family? If so, you know what it is, but if you have not you have missed about all that is worth anything in life. There is nothing like it. The happiness, the satisfaction the success that has come is worth man times the money and effort put forth. What is the finest product of America? Secretary Loeb insists it is rabbits; Carnegie stands for libraries; Mrs. Hetty negie stands for libraries; Mrs. Hetty Green considers it ready money; while Secretary of Agriculture Wilson crows over the American hen. They are all wrong. It's the girl graduate. As Daniel Webster remarked of Massachusetts: "Gentlemen, she needs no apology; there she stands" For years father has poured she stands" For years tather has boured out his money in buying her frocks and laces and hats, in paying for her chem-istry and music and chewing gum. Mo-ther has spent years of her life in teach ing her morality, truth, the catechism and the proper way to do up her hair. And they feel that she's worth all the crouble and care and money she has cost. -From the Lawrence Journal. A Grammatical Exception.

The Teacher of Elocution—Do you mean to say that you said "no" to Mr. Stuper twice?

The Grammar Teacher—Yes; and then he went away and said he would never come back any more; and I was so sure he would know what I meant by a double negative.—The Bohemian Magazina.

LOCOMOTIVE NESTING PLACES.

Strange Preferences Shown by Birds in Home Making Arrangements. The sparrow which was discovered

The sparrow which was discovered a few days ago sitting on a nest among the coal of a Great Eastern Company's engine running between &. Margaret's and Buntingford has had several predecessors in her preference for a locomotive nesting place.

A year or two ago a thrush's nest containing two eggs was found snugly ensconced on the Westinghouse brake pipe of a carriage on an express train which had just returned to York from a trip to Newcastle: The nest, we are told, was "quite warm and comfortable."

About the same time a couple of rob-About the same time a couple of rob

About the same time a couple of robins built their nest on the axle of a culliery wagon which was standing idle for a few days at Saghill, Northumberiand. Six eggs were laid, and then the wagon was started on its journeys again. The parent birds followed it all the way to the Two and it was their assisted by he Tyne, and it was their excited hovring over the wagon which led to an anvestigation and to the discovery of their strange nesting place:—From the Westminster Gazette.

Oklhahoma Wolf Story.

Rossway, Digby Co., N. S.

Orlie Hizer, of near Lawrie, was in the city yesterday to claim bounty on a ouple of large wolf scalps. Having occasion to go down into a gulch, he threw his shotgun over his shoulder in hopes of a chance shot at a rabbit. He noticed a a chance and at a rapoit. He noticed a stri in a clump of bushes and found that they contained a wolf, part of its body being visible. With only a single barreled shotgun, he took chances and fired. Through the cloud of smoke he saw the animal coming straight at him, and jumped to one side as its jaws snapped. Quickly reloading, he fired again, killing

On examination of the bushes he found that he had killed the wolf that he had first seen, and that its mate had bee there also and had made a spring at him.

Guthrie correspondence Dallas News.

The New York American of Dec. 18th, 1907, says the common house fly is one of the greatest enemies of man. It is a solemn scientifically ascertained fact that he is one of the worst disseminators of disease known, far surpassing the mosquito in this respect. Wilson's Fly mosquito in this respect. Wilson's R Pads will kill many times more fli than any other article.

Indian Engineer

A descendant of Tama's band of Musquakie Indians is now the engineer of a train on the Burlington road. He is here on the same ground where his ancestors lived for many generations. He crosses the same rivers, surveys the same landscapes, observes the same phenomena of wind, temperature, storms, etc., that were familiar to his ancestors of centuries ago. He wears more clothes than they wore, and he speaks a different language, and he is serving civilization instead of barbarism. Few if any of the passengers who ride behind him know that a Tama Indian sits in the cab of the engine as it speeds over the prairies.—From the Burlington Post.

All Druggists, Grocers and general stores sell Wilson's Fly Pads.

"Ownership" Fraud. It is doubtful whether there could be gotten together a body of men more specially fitted to investigate municipal lighting than the six who were selected by the Civic League of St. Louis. Their by the Civic League of St. Louis. Their report, excerpts from which are given claewhere in this issue, contains three distinct contributions which are worthy of the thoughtful consideration of all of the thoughtful consideration of all citizens. In the first place it shows why the actual cost of operating a municipal plant is likely to greatly exceed the estimated cost. It also shows how almost impossible it is to get at the real cost of operation of municipal plants, because the officials who compile the reports "are advocates of a cause rather than disinterested compilers of statistics." And, lastly, the report gives in detail the items which should be included to secure a true estimate of municipal cost as compared with contract prices. In some respects this is the most important feature of the report. for it is the touchstone which enables even the inexpert to detect the essentially misleading character of almost all municipal reports. It is only by ignoring some of these items that M. O. "Experts" are able to make a beginning "experts" are able to make a showing of success and economy for municipal as compared with contract lighting.—

A glass of iced "Salada" Tea will be found most refreshing this warm weather. As cofling as a summer

Has Had Enough Spirit Lake, Iowa, recently voted by good majority to sell or lease the electic plant which was presented to it a few days ago, because, as the town clerk

"It certainly cannot be operated sucessfully under municipal ownership. It

has never paid and never will."

For the first eight months of 1907 the earnings were \$3,823, and the operating expenses were \$6,328. This means that expenses were \$0,020. This means that the street arcs cost at the rate of something over \$350 a year, with no allowance for depreciation or lost taxes. Quite showing for a plant that has no inter-

est to pay. Minard's Liniment Cures Colds, etc.

Inconsistency. "Gracious!" cried the night-singing tomeat, dodging the professor's boot lack, "how inconsistent you are!"
"How am I inconsistent?" enquired the

learned man. "Why, you teach the beauties of poetry every day, yet now you would dis-courage my mews."

No Liking Apparent. "Your wife likes the last word, doesn't she?"
"I don't think so," answered Mr.
Meekton. "Anyway, she's mighty reluctant about reaching it."—Washington

LEE CHIT SHOT DOWN AT HIS OWN DOOR IN PHILADELPHIA.

Slayer Deliberately Opened Fire of Vicitim in Afternoon on Crowded Street-Alleged Murderer Captured With Others Connected With

Philadelphia, July 20.—The war of the rival tongs in Chinatown broke out afresh yesterday, and resulted in the murder of one Chinese and the murder of one Chinese and the mot only his old friends of the South out of the South injury of two white men who were passing at the time. The dead men was Lee Chit, proprietor of a restaurant at No. 917 Race street, one of the ant at No. 917 Race street, one of the most prominent Chinese in the colony. The injured men were Max Soble, of No. 305 Grange avenue, Olney, shot in the right thigh, and Abram Dunnam, of No. 265 North Twelfth street, who had a bullet wound in the hand. The dying and injured men were rushed to the Hahnemann Hospital, where Chit died without being able to make a statement.

ment.

A young Americanized Chinese, giving his name as George Lee, 24 years old, was locked up after the shooting by Sixth district policeman, charged with the murder. Twelve witnesses rounded up by the police declared to Lieutenant Barry, of the Sixth district, that they had seen Lee fire the shots which killed Chit and wounded the two white men. They said they saw him run across They said they saw him run across the street and into a house at No. 922 Race street, into which Policemen Hugh Reilly, Casey and Bond broke and arrested him a few minutes later, In broken English Lee asserted his innecesse and when taken to the stannocence, and when taken to the station house told the lieutenant that his home was at No. 323 South Clark street, where he claims to be a mis-

sion worker. Rev. Frederic Poole and other mission-workers deny that Lee is known to them as connected with any religlous work or institution and declare that they would probably be aware of the fact were Lee interested in that line of work. Although Dr. Poole said that the shooting in his opinion had its origin in a personal grudge between the two principals, he also said the house in which Lee was Lee was caught was known as the headquarters of the On Leong Tongs. Lieutenant Barry also expressed the belief that the murder was the outcome of a private quarrel, but admitted the on Chit by members of one

f the secret societies.

Additional significance is attached the generally accredited leader of the Hip Sing Tong, who was convicted Hip Sing Tong, who was convicted several months ago on the charge of subordination of perjury. Since that time Lee Chit had been acting as the manager of York's restaurant, at No.

Leongs.

Chinatown was in an unusually quiet state yesterday, shortly after 2 o'clock, when a good-looking Chinese, attired in clothes of the latest American cut, and wearing a brown felt hat, was seen to run hastily out of the store at 923 Race street and rush toward Lee Chr, who was pacing the pavement in front of his restaurant, at 917 Race street. When he was within ten feet of Chit the assailant Without turning to face the man, Chit

staggered forward and walked to to the restaurant. As he fell into a chair he faced about and Lee who was at his heels, again fired. He missed, and the bullet struck Max Soble in the right thigh. As the latter fell Lee fired rapidly at Chit. One bullet struck the Chinese in the abdomen, while another, striking the fleshy part of the body, passed through and struck was passing at the time. in the right hand. A fifth bullet went wild and struce a window in Flanagan's pawnshop, at the southeast corner of Ninth and Race streets.

The shooting having scared off all spectators, Lee, unopposed by anyone, dashed across Race street and through the side doorway of 992. By that time Policeman Hugh Reilly, of the Sixth district, was on the scene, and followed the policemen guarded the rear exit from the house on Hutchinson street, while Policemen Casey and Bond joined Reilly, and the trio placed excryone found in the house under arrest. Lee and two

trict station house, where the witnesses collected by the police unanimously designated Lee from the group of Chinaese and with one voice declared he was the man who did the shooting. Lee was hurried to the Hahnemann Hospital, where the wounded Chinese was, but Chit was unconscious and died without being able to identify his assailant. But Sobel and to identify his assailant. But Sobel and Dunham, who were also at the Hahne-Dunham, who were also at the Banne mann Hospital, positively identified Lee as the man who fired at them.

### **FIREBALL AT** CHURCH PICNIC.

DROPPED FROM A CLOUD AND HURT EIGHT PERSONS

d Down a Tree and by Wire Nato Pavilion Crowded With Germans -Then Burst, and Folks Knocked Down Arose to Pray-Other Freaks of the Lightning.

New York, July 20 .- A ball of light ning dropped into the middle of a crowded pavilion at Highland Park, East New Yord, at the height of the storm yesterday afternoon, painfully injured eight persons and scared nearly 400 others, Florence Koenig, of 28 Ashford street, Williamsburg, was so severely shocked that she is now in Bushwick Hospital, partially paralyzed and in danger of

Others who were injured were Emma Edelman, of 264 Grandview avenue; Emma Jenningz, of 205 Lewis avenue; George Edelman, of 264 Grandview av enue; Marie and Josephine Ranbieur, of 31 Ashford street, and Katherine and Louise Boltz, of Fountain place, Brook

lyn.

The parishioners of Zion German
Evangelical Church, which is at Liberty
avenue and Bradford street, Wildhand burg, had gone on a picnic to Highland Park early in the day. There were between four and five hundred of them. When the storm popped up they took refuge on the floor of a pavilion about 400 feet square which is in the picnic grounds. grounds.

The thunder grew nearer and many

became terrified at the repeated flashes of lightning and edged away from the open sides of the flimsy house in which they were collected. Suddenly there was a particularly bright flash and those near the east side of the building saw a glowing hall of fire slided over saw a glowing ball of fire slide down the branches of a tree. It struck a tele-phone wire leading from the tree to the pavilion and like a conjurer's ball on a string the electric globe slipped down the wire, through the side of the build ing and out through the side of the building and out through the mouth-piece of a telephone instrument.

It dropped onto the pavilion floor almost in the midst of the huddled persons and apparently rolled along the

sons and apparently rolled along the floor for about ten feet, leaving a trai of smoke. Then while the picnickers fell to right and left to avoid it the ball of blue flame exploded with a heavy report.

Two dozen persons were thrown from their feet by the explosion. When they scrambled up again eight persons were lying where the electric ball had exploded. Policeman Mechan, of the Liberty avenue station, who ran to Florence Koenig, said afterward that as he picked her up from the floor he felt a shock through his whole body and he saw that the unconscious girl's hair was standing straight out from her head.

All of the others who were unable to rise were conscious and suffering noth-

ing more serious than slight pin prick burns and temporary paralysis of their muscles. A surgeon from the Bushwick Hospital hurried the Koenig girl away in the ambulance. To others injured he gave temporary relief on the spot and they were able to go to their homes. At the hospital it was found that Miss Koenig was suffering from complete paralysis of the legs and back and that

she had lost the power of speech.
Several persons who were standing near Miss Koenig at the time the fire ball burst had narrow escapes. Mrs. George Schmid, the wife of the rector of the church, who was holding her baby, George Schmid, jun., was thrown to the floor and slightly shocked, although her baby did not seem to have felt the current. Marie Raphieus one felt the current. Marie Ranbieus, one

each appearing to have been pricked into the flesh with an electric needle.

The panic that followed the appearance of the lightning bolt drove most of those who had sought shelter in the pa-vilion out into the storm. The Rev. Schmid started a prayer, and for several minutes the frenzied congregation stood in the wet and lifted their voices in exhortation.

Witnesses said the globe of lightning was "as big as a small football."

Lightning struck the roof of building No. 33 at the Brooklyn navy yard, containing quartermasters' stores; burned a hole through the roof and set fire to some of the upper floor. The fire squad of the navy yard put the flames out.
Forty-two families in the Knowlton apartments at Broadway and 158th at 30-foot flagpole on the roof. The pole was shattered to its base and the pieces fell over the edge of the roof; carrying away a piece of the cornice. Lightning also hit the flagpole on the building of Hackett & Carhart, at 837 Broadway, and sent fragments of it into

Buffalo, N. Y., July 20.-In a high power motor boat, Chinese Inspectors Archbold and McCullough pursued an-Archbold and McCullough pursued another motor boat containing eight husband and his friend until they came Chinese and two white men in the harbor early to-day, and after a chase of more than a mile drew up along-side of the smugglers' craft. One of the white men, Tnomas Roach, of 255 Gennessee street, immediately went over the side and struck out for shore. He was hauled aboard the inspectors' boat by the use of a boat hook, and the sight of a big revolver induced him to

of 95 Broadway, remained quietly in the boat with the Chinese, and was towed to the foot of Main street. There the prisoners were loaded in a patrol

The inspectors have been on the watch for Chinese smugglers for weeks. Several days ago they ceived a tip that Roth and Roach a party of Chinese concealed in a barn on the Canadian shore, and were making preparations to bring them into the United States. The officers, accordingly, patrolled the harbor, keeping a carefu watch, and their vigil was rewarded shortly after 2 o'clock this morning by the appearance of a swift motor boat. The little craft was chugging along easily and making no attempt at con-

The man at the wheel did not make out the boat of the Chinese inspectors until the two officers swung her around and made swiftly for the smugglers' craft. The race that followed was a most exciting one, but the Government won. Roach and Roth refuse to say where they got the Celestials.

### AT THE ZENITH.

NAVAL SCIENCE REACHES HIGH STATE OF PERFECTION.

Greatest Armada the World Has Ever Seen Assembles for British Naval Manoeuvres-Defence Controlled by Wireless Telegraphy.

London, July 20.-Th e British naval manoeuvres which began in the North Sea to-day mark the supreme achievement of naval science. The 315 warships participating comprise the greatest armada the world has ever seen. Theoretical war was declared to-day. The general scheme is that the Chan-nel Fleet, under Admiral Lord Charles Beresford, shall attack Great Britain, while the Home Fleet and of the Atlantic Fleet, und Admiral Sir Francis Bridgeman, seeks

to repel the enemy.

A new era is introduced in naval warfare by the fact that the general direc-tion of the defence will be entirely con-trolled by the Admiralty Board in London by means of wireless telegraphy. Recent experiments have brought the Government's wireless facilities for this purpose to a marvelous degree of perfec-tion. The scene of operations is 300 or 400 miles from London, but comor 400 miles from London, but communication is rapid and accurate with all the ships of the fleet.

The Admiralty uses a code, with the defenders which is unintelligible to the attacking fleet. British warships are able to communicate easily to 1,300 miles. Messages are exchanged daily between London, Gibraltar and all points on the Mediterranea.

### points on the Mediterranean. MATCH EXPLODED STOVE

A London, Ont., despatch: Miss Etta Proctor, a school teacher, residing at 37 Weston street, was reverely burned in a gasolene explosion which occurred at the above address at 3 o'clock this afternoon. Miss Proctor was heating after he had produced his badge.

When the defendants pleaded not guilty the Crown Attorney informed the Magistrate that Detective Greer had not taken action because he felt vindictive. "He only desires to establish the right of an officer to enter such places as the ball grounds when he received severe human should the badge.

An explosion followed, in which Miss Proctor's clothes were set aftire and she places as the ball grounds when he received severe human should the badge.

### WIFE PULLS RIVAL'S HAIR

WRONGED WOMAN TRAILS ERR ING HUSBAND AND AFFINITY

Across Continent to Atlantic City-In Exciting Scrimmage-Aggriev ed One Passes Night in Jail After Fierce Encounter on Boardwalk.

Atlantic City, July 20 .- Pursuit of susband and an alleged affinity which reached clear across the continent ended in a dramatic scene in front of one of the Broadwalk cafes at 2 o'clock this morning, when Mrs. Sarah S. Dunn, rich, pretty and furious, clenched in a fierce battle with her handsome rival. The combat waged with much fury for several minutes. Two high pompadours were ruined and two luxurious sill were ruined and two luxurious silk gowns were very badly mussed before the frightened husband could summon Boardwalk police to quell the turmoil.

As a second of the

As a sequel of the encounter Mrs. Dunn was arraigned for a secret hearing before Mayor Stoy this afternoon, after having spent a sleepless night in jail. She was discharged on a complaint of disorderly conduct, but was rearrested disorderly conduct, but was rearrested as she was leaving the court room on a warrant sworn out by her rival, Mrs. Holmes, who charged her with assault and battery. She furnished bail for a bearing Thursday morning.

Much mystery surrounds this morning's exciting combat. According to the police, Mrs. Dunn trailed her husband 3.000 miles across the country from San

police, Mrs. Dunn trailed her huspand 3,000 miles across the country from San Francisco. She claims that he left her a few weeks ago, taking with him \$120,000 of her money. She later found out that he had come to Atlantic City and the country of an "efficier". then came rumors of an "affinity.

The angry Californian reached the resort some time yesterday, and the erring husband, who had an inkling that his wife was on the war path, sent to headquarters and had three plainclothes men detailed as a bodyguard.

Mrs. Dunn picked up the trail somewhere in the cafes late last night, and, eluding the sleuths, watched for her out of one of the cafes. Like a flash she had seized her rival' hair, and cafe Hall, despite her vigorous protests.

Mrs. Dunn, who is said to be worth

\$200,000 in her own name, appeared at the hearing this afternoon, handsomely dressed. She and Mrs. Holmes darted angry looks at each other during the proceedings, and officers were instructed to be on the alert to prevent another revelations are promised at the hearing Thursday morning, when Mrs. Holmes will appear in the role of chief complain-

Back to Her Own Modest Way of Living in Two Rooms.

Had to be Dressed Up All the Time at Hotel Plaza.

New York, July 20 .- The World says: Mrs. Hetty Green was found yesterday in a boarding house at 673 Madison avenue, living with her daughter Sylvia, and her pet dog, Dewey, in two very ordinary

Her newly made friends in fashionable circles thought that she would go to Newport for the summer after her sur-prising debut in the Hotel Plaza, and they were greatly amazed to learn that she has returned to a life almost as sim-ple as that in the red brick Hoboken flat

ple as that in the red brick Hoboken had where she lived last spring.

But the woman financier is sorely disgusted with high society, as she experienced it at the Hotel Plaza.

"It is too expensive," she explained to an acquaintance. "You have to keep the strength of th

dressed up all the time. It's all non-sense. Hoboxen should have suited me vell enough." At all events she seems happier in her are home. There she pays approximately \$40 a week for a plainly furnished sitting room and a bedroom with simple board for herself, Miss Sylvia and Dewey. Her saving is at least \$300 a

## PAY FOR DINNER.

Passenger Wants Toronto Street Railway to Do That.

Toronto despatch: The Toronto Railway Company has received the first claim for damages as the result of stopping the cars during the Orange parade, and it is a peculiar one. It is from a Government official, whose name the company refuses to divulge. He was on a Dundas car, which stopped north Bloor street, and remained there for two hours. In the meantime the official went to the nearest hotel and ordered a good dinner with what he termed "the usual fringe," a pint of wine. He asks the company to pay for the dinner.

To Make Waxed Paper.

This is used for keeping substances which either contain volatile aromatic ingredients or grease, which would pene-trate through ordinary paper. On a flat sheet of copper over a gentle fire place a sheet of copper over a gentie lire place a sheet of paper as a base, and then lay a second sheet on the top of the first, coat this second sheet with yellow or white wax, and distribute the latter uniformly over the entire sheet by means of a sponge, exerting a little pressure, till the paper is everywhere transparent, and consequently permeated by the wax. If the fire is too feeble, the process will be retarded; too powerful a flame is still more harmful, as the paper is liable to become brown or black. Stearine may become brown or black. Stearine ma be used instead of wax.—Der Industrios Geschaftsmann.

## CROSSED THE DARK RIVER.

Woman Went Beyond the Veil and Came Back Again.

"Do Not Fear to Die." Says Weman Who Was "Dead."

Was In Beautiful Place-Spoke to Her Dead Mother.

New Britain, Conn., July 20 .- To all appearance Mrs. William McNulty was dead for one hour. This is admitted even by her physician, Dr. Thomas Mulligan, a hard-headed, unemotional person who seeks only scientific facts. He says hers was a remarkable case of suspended animation; the more remarkable because while her body seemed to have become but a shell of clay, her mind was active.

"Oh, I have been far away," she sighed, when speech was restored to her. "Do not be afraid to die: I have never experienced such a blessed sensation."

Psychologists, spiritualists, those who seek to raise the veil from what has been the unknowable, can study these facts:

Mrs. McNulty, about 60 years old, is her family and her home, her friends and neighbors esteem her highly. She has been ill. While seated in a chair she bcame unconscious; her family, intensely

alarmed, hurried a messenger for Dr.
Mulligan, who has been treating her.
On examination the physician found
that she had ceased to breathe. He detected a faint pulse at her wrist, but quickly that disappeared; her heart had stopped beating; seemingly she was dead. Her mourning family began to arrange for the funeral.

But Dr. Mulligan was not perfectly convinced that he had lost his patient. that he had lost his patient. He sent for his electric battery and applied a very strong current to the apparently lifeless woman.

Seventy minutes had passed since

she had lost consciousness, when the muscles of her neck twitched slightly. Dr. Mulligan continued to apply the cur-rent; in five minutes more Mrs. McNulty made a deep inhalation, then breathed faintly, but regularly; then she regained

nsciousness. Mrs. McNulty was asked where she had been and whom she had seen. She answered quite rationally that she had seen many people, some old, some young, among them her mother and a relative who had been dead 30 years. She sai she spoke to them and was intensely delighted with the conversation

She was asked if her journey had been pleasant and she answered that it had and in describing the place where she had been she said it was beautifully illuminated, not by the sun, moon or stars, but by a most peculiar light, remarkable for its beauty and brilliancy.

## CUSTOMS MEN DEAD.

USED AXE TO OPEN BOX OF DE-TONATING CAPS.

Two of the Men Instantly Killed in the Explosion-A Third Died Later-Two Clerks Injured-Explosi sion Set Fire to Wharf Shed.

customs inspectors and a wharf watch man were killed and two longshoremen and two clerks injured in the explosion to-day of a box containing detonating caps in an inspection locker in a shed on Mystic wharf. Nicerson, Lynn, Mass., assistant examiner; Chas. F. Atwood, Quincy, Mass., inspector; Thomas Mason, East Boston, watchman. The box containing the caps was landed this afternoon from the Ham-burg-American line steamer Bethania and taken into the compartment or locker of the pier for inspection.

Nickerson began to open the box with an axe when there came a muffled rean axe when there came a muffled re-port, followed by a louder explosion, which shook the shed.

Nickerson and Mason were hurled against the side of the shed and al-

most instantly killed. Atwood was picked up unconscious. He barely lived to reach a hospital. The others were found lying about the floor of the locker in a bruised and dazed con-dition. The explosion set a portion of the shed on fire, but the flames were

## EARTH SHOOK.

Terrific Earthquake Reported In Chile-No Lives Lost.

Sacna, Chile, July 20 .- A terrible earthquake occurred yesterday in the provinces of Tacna and Arica, in Chile, the southern part of Peru and Bolivia. Considerable destruction of property, but no loss of life is reported. The ca-ble between Arica and Lime has been broken and the telegraph lines to Bolivia damaged.

Mr. W. A. Singleton,
Crosby, Ont.
Dear Sir.—In the winter of 1905 I was laid up with La Grippe and unable to to get relief from several other patent medicines. I was convinced by several of my neighbors to try St. Regis Lumbago Cure, and I can thankfully say it was the first thing that gave me immediate relief. Since that time I have never been without it in my house, and cannot speak too highly of it, especially for children, as it will break up a cold at once. I have also found it a sure cure for lame-back.

You are at liberty to use my mame for reference if you wish to publish it for the benefit of others. I am yours truly,

Mishaps That Follow in the Wake of Operations.

OBJECTS LEFT IN THE BODY.

Recorded Cases Show That Tubes, Clamps, Sponges, Towels and Sole-sors Have Been Forgetten or Over-looked Until Dictioned by Autopsy.

Accidents will happen in the best reg-

such as forceps, sponges, towels and gause pads, are more frequently left in the human body after operations than the public is aware of. To be sure, the number of operations in which this happens is small. It occurs perhaps once or twice in the course of 2,000 operations. Like an eruption of Vesuvius, however, it is likely at any time and has marked the operations of some of the best known surgeons of this city. They say it may occur again not-withstanding the number of schemes which have been devised to prevent it. No one knows the number of these naps, as only in relatively few cases is death followed by an autopsy. The announcement that "the operation was a success, but the patient died," may cover a multitude of sins of omission and commission so far as any one can tell. One may find in the files of the "Annals of Surgery" the reports of between 150 and 200 cases in which objects used in operations have been left in the body. These objects include tubes, clamps, sponges, towels, forceps, scissors and finger rings. Usually it is a piece of gauze or a sponge that is left in the wound. In 109 cases reported from Europe thirty-one sponges

and sometimes years or were discovered and removed by operations performed to relieve the pain caused by the movements of these objects. In one case a surgeon lost his seal ring. It finally pushed its way to the surface of the body of a person on whom he had operated and was returned to its owner. In another a pair of forceps circulated about the abdom

and thirty-three pieces of gauze were left in wounds. In forty-three cases

death resulted. In the other sixty-six

cases the articles worked their way out

after remaining in the body for months

inal cavity of a "case" for four years before being recovered. Pieces of gauze five feet long and a yard wide have been removed from persons on whom operations had been performed. It seems strange to the layman that anything should be able to escape the Dr. Shoop's surgeon in such a small cavity as is likely to be created in the body in the

Portland, Feb. 8, 1908

MOIAN REMEDY.

course of an operation. Especially does it seem impossible that anything should be lost in view of the extreme care taken to prevent it. Many surgeons have worked out methods of procee for operations with the intention of eliminating the possibility of the loss of anything used. Unfortunately even these have never proved infallible. The most usual method is to have everything counted by a nurse before the operation begins. Before the wound is closed each article is accounted for by a recount. Some surgeons have had experiences which led them to triple the number of persons responsible for the appliances, each to check the counts of all the others. Other surgeons have the gauze pads in packages of half a dozen or a dozen. Only one package is opened at a time, and its contents must be accounted for before the next is opened. Tying tapes to each gauze, pad or instrument inserted in a wound

is another precaution. A prominent Brooklyn surgeon devised a check sys-tem similar to that used by baggagemen. A quantity of glass checks were numbered, there being two of each number, and to each set of duplicates was attached a tape. To every article used in the operation one of these tapes with the check attached was fas-tened. Whenever, for instance, a piece of gauze was taken from a basin for use one of the checks was removed and placed in the basin. Before the wound was stitched each article represented by these detached checks had

to be accounted for. Notwithstanding such precautions, in four recorded cases large sponges were torn in half while the operation was in progress and one of the halves placed in the wound and lost sight of. When the count was made there was the same number of sponges as at the beginning of the operation. The missing half was forgotten and the wound

If your dealer does not keep this medicine kindly ask him to order same for you as any sized order will be filled promptly.

First order, freight prepaid

Yours truly, W. A. SINGLETON A surgeon in describing one of these

nishaps says: "A young surgeon, assisted by an older surgeon, performed the operation. The older one tore a sponge in half and tucked half of it in without saying anything about it. The woman died of shock, and the sponge was removed at the postmortem examination, much to the surgeon's surprise, as a count of sponges gave the number with which

the operation had been begun." Another way in which a reputable surgeon may be made the victim of this kind of an accident is illustrated in this settlement, made by an Ameri-

can practitioner: "I have had two unfortunate experiences in regard to foreign bodies remaining in the abdominal cavity, one occurring a few years ago when using the old fashioned sponges, the patient dying from general peritonitis. One occurred about three years ago in which a small gauze sponge was left, the pa-tient making a good recovery, but on a reappearance of the disease a year after the sponge was found on explora-tion. This is an accident to be regretted. I have always been fortunate in the servants' quarterly payment of reference to forceps and instruments.

and in the first case to which I reserve,
I lind trusted entirely to my assistant,
who assured me all the sponges were
accounted for. After the death of the
patient and on making an autopsy, you
can imagine my sorrow and chagrin in
finding a small sponge in the abdom-

inal cavity."

Even when the count does not tally and it is evident that something is

and it is evident that something is missing, the accident which may cost a life happens.

"It was a sponge about the size of a small hen's egg, lost in the abdominal cavity, thanks to the assistance of a visiting surgeon," said one surgeon in reporting his experience. "A prominent operator from one of the large eastern cities being present, I asked him to assist me, as was then so frequently the custom. I did not feel at liberty to speak to him guite as I should have speak to him quite as I should have done to my usual assistant: Before closing the wound the customary sponge count was called for and showed one missing. A thorough search of the room failed to reveal it. I then searched the cavity, as I thought, most carefully. In the meantime every asthen the custom—expressed his views, and it was decided that the missing sponge was one which had been drop-ped during the process of cleaning. The incident was recalled and seemed confirmed by my vain search of the cavity. Peritonitis promptly followed not altogether unusual at that time

and the postmortem four days later revealed the sponge thoroughly con-cealed in the upper part of the cavity." Not often to be sure, but occasionally, the mistake is made of operating on the wrong member. A case is reporte from Canada which illustrates this. It was that of a diseased optic nerve. It was feared that the disease would be communicated to the healthy nerve of the other eye, and it was decided that to obviate this the diseased nerve and eye should be removed. The nature of the malady was such that one could not tell by appearance the diseased from the healthy eye. The patient, be thetic, could not give any information

on that point. The healthy eye was "Of course you would feel like shooting the surgeon," said the physician who told the incident to a representa-

tive of the Tribune, "but there was nothing to guide the surgeon." Since then in such a case it has become the custom to indicate the eye to be operated upon by an identification mark before the operation is undertak--New York Tribune.

### SPECULATION.

One View of the Influence of the Stock Exchange.

Now, let us see what speculation does. What justification is there for it? Americans are known as the greatpeculators or speculators in commodity futures, but as speculators generally, willing to take a risk, anxious to put their intelligence, their wit, their brain, brawn and resources against the tricks of fate. And we have grown and grown steadily, expanding politically and intellectually, and who shall say not morally? Legitimate speculation, then, has some good effect, some proper function, some economic basis

Some of the things that speculation on the stock exchanges and on the commodity exchanges make possible are or should be obvious. It divides or limits the risks of trade, gives a market at all times for securities or commodities, makes it possible for every one to know what the market value is of any security, of wheat, cotton, corn, always ready to buy or sell at the turning will take up residence market price. It follows the fluctuation in values and reg changes in the market prices. It makes possible the development of the country along great broad lines. It is means of warning those who are holders of securities that the value of their property is decreasing and makes it possible for them to take proper action in the premises. It is an insurance for the producer, the manufacturer, and vitalizes the farmer's credit. These things are overlooked speculation is attacked, and that is because the gambling factor in the speculative market is more spectacular, more intrusive and more susceptible to picturesque denunciation. Speculabegets certain evils impossible of eradication and which assume their

present form simply because the spec-ulative markets facilitate their development. Abolish the markets and they will manifest themselves elsewhere, no less vicious and no more easy to remedy, to root out.—John Paul Ryan in Metropolitan Magazine.

When Servants Were Fined. What would servants of modern times say to the following rules and regulations that were adopted over 800 years ago in the household of Sir J. Harrington, the translator of Ariosto? A servant absent from prayers to be fined twopence; uttering an oath, a penny; leaving a door open, a penny; a penny fine for any beds unmade, fire unlit or candle box uncleaned after 8; any one breaking any of the butler's glass, a shilling; twopence fine for any one who has not laid the table for dinner by half past 10 or supper by 6; any one being absent without leave, fourpence fine; a penny fine for any follower visiting the cook; a fine of a penny for any visitor's room left untidy for four hours after he or she dressed; a penny fine if the hall be not cleaned by 8 in winter and 7 in summer; a fine of threepence if the

stairs be uncleaned every Friday after dinner. All these fines were deducted from their wages.-London Standard.

Deptorable Levely.

"We students can stand a good many; things," said the college girl, "but this last missionary was too much for us. He preached on the glories of the missionary calling for women. He told us we ought all of us to go and help the heathen. That was all right. "But then he worked up to a glow-

ing finish. Now, I appeal to you, as college women, how much better than mere learning and mere books it is to go forth into the world and become

"That was too much. Of course we miled. In fact, some of us snickered audibly. Then the missionary con plained to 'prexy' that he couldn't help

noticing a deplorable spirit of levity apparent among the students." Missed the Fun.

## STEVENS-POULIN

"Oh, that's different!"

On Tuesday morning at eight o'clock large number of friends assembled in St. Francis Xavier church, Brockville, to witness the nuptials of one of Brockville's popular young ladies, Miss Eva A., youngest daughter of the late Mr Peter Poulin, to Mr Marcus A. Stevens, of Montreal, son of Mr James Stevens, Athens.

The bride entered the church in the company of her brother, Mr Adolphus Poulin, to the strains of Mendelssohn's wedding march, played by Prof. Stanistreet. She was dressed in a travelling suit of brown ladies' cloth, tailor-made with white hat trimmed with ostrich plumes. The brides maid, her neice Miss Ida May Braniff, was gowned in pink voile muslin, made Empire style and trimmed with valenciennes lace and wearing a large picture hat. The groomsman was Mr Maurice Stevens, brother of the groom. The ceremony was performed by Rev Father Traynor.

When the bridal party returned to the home of the bride's mother, Pearl street, congratulations were heartily extended by members of both families and other relatives assembled. Break fast was served and a couple of hours socially spent until the time arrived for the departure of the steamer Tor onto for the west.

Mr and Mrs Stevens were escorted to the wharf and given a rousing send-off. They left for a two weeks' visit oats, coffee, etc. It keeps pace with to Rochester, Toronto, Bnffalo and the increase in trade. Speculators are other western cities and upon re

Montreal. Mr Stevens is a native also a tormer resident of Brockville, being at one time in the employ of Robt. Wright & Co. At present he is holding a lucrative position with Redmond & Co., of Montreal. Mrs of Children's Washable Bonnets, Hats Stevens is a young lady who has spent her life in the Island City and her removal to another sphere will be felt in many circles in which she moved. She is an accomplished musician and her talents have been freely given to many an affair which object was for the public good. She received innumer able presents, from friends here and at remodelling a distance. The gift of the groom was

pearl ring,—Recorder.

The many friends of the groom in Athens will join most heartily with the Reporter in extending congratula tions and best wishes.

## ભુક્ત ભુક્ત ભુક્તિ ભુક SUNDAY SCHOOL LESSON

LESSON IV .- JULY 26, 1908.

Saul Rejected by the Lord .- 1 Sam. 15: 1-35. Print 1 Sam. 15: 13-28.

Commentary-I. Saul commanded to destroy the Amalekites (vs. 1-9). How can the righteousness of God in exterminating the Amalekites be vindicated? 1. God gave life and he has the right to deprive human beings of life. 2. The Amalekites were destroyed because of their excessive, willful, habitual and incurable wickedness. 3. God had pronounced a curse upon them 400 years before this time (Exod. xvii. 8-16), and He had spared them in mercy that they might re-pent; but they would not change their conduct. 4. Their cup of iniquity was full. 5. God's people could not prosper while these wild hordes were devastating their borders. 6. The Israelites must be saved from becoming infected with the saved from becoming infected with the sins of this wicked nation. 7. It was necessary as a warning to the nations of the earth. 8. God's treatment is impar-tial. For like sins the Jews were told tial. For like sins the Jews were told that they would be destroyed—and so they were in the destruction of Jerusalem—and for like sins the nations that now exist will also be destroyed. 9. The judgments of God are necessary in order to the maintenance. to the maintenance of His government. 10 .If the destruction be just it matters but little whether they are destroyed by earthquake or pestilence, or by the armies of Israel. In all national punishments the innocent must suffer with the guilty. 11. Individuals who repented would be accepted by God. No one need e eternally lost. II. Saul's disobedience (vs. 10-21). Saul

committed three great sins: 1. He disobeyed in failing to wait at Gilgal for the coming of Samuel to offer burnt-of-ferings (I. Sam. xiii. 8-14). 2. His rash foolish vow which brought great ering to the people and well-nigh suffering to the people and well-night cost the life of Jonathan, his son (I. Sam. xiv. 24-45). 3. His failure to execute the divine judgment on the Amale-kites as Jehovah commanded, the details of which are given in this lesson. The command was to utterly destroy the Amalekites and their possessions; but the great wealth which they possessed was a strong temptation to Saul and his army and the command and his was a strong temperation to doubt ap-army, and the command no doubt ap-peared unreasonable to them. 13. Sam-uel came—The Lord informed Samuel of Sauls' disobedience, and Samuel was Sauls' disobedience, and Samuel was grieved and spent the whole night crying to God. His great soul was stirred to its profoundest depths. 1. He was disappointed in Saul. 2. He saw the evil effect Saul's act would have on the morals of the people. 3. He saw that this rejection of Saul would result in the same admits to the people. great calamity to the new government and to the prosperity of the country. He prayed, no doubt, that the king might be lorgiven and the threatened calamity verted. Blessed be thou-It would seem that Saul was acting the part of a bold, audacious hypocrite; yet he may have tried to persuade himself that because he had gained a victory he would not b brought to a strict account for his ac-tions; but successes will not take the place of obedience; neither will a partia

14. Samuel said-Samuel had a very 14. Samuel said—samuel had a very unpleasant duty to perform, but after praying all night he was prepared for it. "Saul is convicted of falsehood by the voices of the animals which he has spared contrary to God's command."—Lange His eagerness to declare his obedience was evidently an effort to cover his sin. . They have brought-After distinctly stating that he had performed the commandment of the Lord he now proceeds to make three excuses for not having performed it: 1. The people were to blame. 2. Only the best had been spared. 3. They disobeyed for the Lord's sake. These excuses only intensified his sin. A three like Saul was finally was a very large like saul was stating that he had performed the comsible, and he knew it (v. 24). He was following in the footsteps of Adam and Aaron (Gen. 3, 12; Exod. 32, 22). Then following in the footsteps of Adam and Aaron (Gen. 3, 12; Exod. 32, 22). Then he had been commanded to "utterly destroy" them and all that they had, and to spare the best was the height of disobedience, while to disobey in order to provide sacrifices to atone for their discharge in the fight. Soon he observed something was wrong. Presently it began to all and soon lay dead at his feet. Eager edience was an impious absurdity. 16. these vain and false said—Samuel had

own opinions,

cian, than to take the poison and then cian, than to take the poison and then be obliged to call on the physician and take his remedies. 23. Rebellion .... witcheraft—The meaning is that Saul's rebellious opposition to God was as bad as witcheraft and idolatry. A witch was liable to be put to death (Exod, 22: 18). Witcheraft was divination by the help of evil spirits. Teraphim (R. V.)—Household gods. Hath also rejected thee—A man disobedient to God is unfit to govern his people. By disobedience, Saul turned himself out of office. God would not subject his people to the rule of a not subject his people to the rule of a man who rejected God's rule over him. 24. I have sinned—After this severe rebuke Saul confessed his sins and urgently onke saut confessed his size and the 26.

The fact that Samuel would not recognize Saul's confession shows that his nize Saul's confession shows that his repentance was not genuine. Saul seemed

chiefly concerned lest Samuel should throw his influence against him. 27, 28. He laid hold —As Samuel inlignantly turned away, Saul laid hold f him, rending his mantle, whereupon the prophet at once made a symbol of it. The rent mantle typified the kingdom rent from the hand of Saul. Saul continued pleading with Samuel (v. 30), and Samuel changed his purpose and worshipped with Saul (v. 31). He thus "maintained the honor of the reigning king, for although Saul had forfeited his position as Jehovah's chosen representative, he must still rule the nation."—Cam. Bib. Verses 32-35 tell of the slaying of Agag and the departure of Samuel

PRACTICAL APPLICATIONS. The Results of Disobedience.

I. Self-glorification. "Behold...a place" (v. 12). Samuel erected his "Ebenezer" to glorify God (1 Sam. 7. 12): Saul "set him up a monument" (R. V. to glorify self. If we give money to build an institution and want it called by our name are we not following in the ootsteps of Saul?

II. Lying. "I have performed the com mandment of the Lord" (v. 13). God had said, "Go and smite Amalek and utterly destroy all that they have" (v. 3). The command was clear, explicit, absolute.

There was no mistaking it.

Here was no mistaking it.

III. Exposure. "What meaneth then this bleating?" (v. 14). Saul's sin had found him out (Num. 32, 23). "Dead sheep don't bleat." Do you say, "I have surrendered?" What meaneth then this murmuring and disputings (Phil) murmuring and disputing? (Phil. 2. 13, 14). Do you say, "I have been filled with the Spirit?" "What meaneth then" this foolish talking and jesting (Eph. 5. 4) instead of "speaking one to another in psalms and hymns and spiritual songs?" (Eph. 5. 20). "What meaneth then" hatred, variance, emulations, wrath, strife, seditions, heresies, and envyings? (Gal. 5. 16-21). Beloved, let us be careful 5. 16-21). Beloved, let us be careful how we say, "I have performed the commandment of the Lord." lest some bleating sheep betray us. We are not apt to court the things we do not love. If we really do not love this world, "what meaneth then this bleating of sheep?"

IV. Blaming others. "They have IV. Blaming others. "They have prought....the people spared" (v. 15) God says, "Saul and the people spared Agag and the best of the sheep" (v. 9). Saul led the people, the people dil not lead him. One lie leads to another. Cne

sin breeds many.

V. False excuses. "Spared.... to sac rifice" (v. 15). No excuse can justify dis-obedience. Saul's excuse was false. There is no mention of sacrifice in God's re-

vI. Rebuke. "When thou wast little ....wast thou not made the head?" (v. 17). "Before honor is humility" (Prov. 15:33; Luke 14:11; Job 22:29). The first beatitude is, "Blessed are the poor in spirit" (Matt. 5.2).

thing was wrong. Presently it began to fall, and soon lay dead at his feet. Eager to know the reason of its death, he examined it and found no trace of gunshot wound; but saw in its talons a small weasel, which in its flight, drawn near its body, had sucked the life-blood from the engle's breast. from the eagle's breast. Such is the end of him who persistently clings to sia. Sooner or later it saps his lifeblood and like Saul he falls down, lost, t, lost!

t, lost!

III. Rejection of the good. "Thou rejected the word of the Lord" (v. Jesus Christ is the word of God as. Those who reject him cannot the bim. Those who chor impli-

THIS ARTICLE REMOVED

TOLSTOI ASKS TO BE SHOT

Rather Than Be Responsible For So Many Hangings.

Tolstoi Deciares the People Are Becoming Deprayed.

Circulates Arraignment of the Czar and His Government.

New York,t July 20.-The American has received the following cable despatch from London: Driven to a fever of anger, indignation and despair by the awful masascres on the hangman's scaffold which are now sweeping over Russia, Count Leo Tolstoi has written the most terrible arraignment of the Czar and his agents of execution that ever came from the great novelist pen. The article is entitled "I Cannot Be Silent." After describing in detail the execution of twelve men for an attack made with intent to rob on a landed proprietors estate, the aged novelist says:

What is most dreadful in the whole matter is that all this inhuman violence and killing, besides the direct evil done to the victims and their families, brings a yet more enormous evil on the whole people by spreading depravity—as fire spreads amid dry straw-among every class of Russians.

A short time ago there were not two executioners to be found in all Russia. In the eighties there was only one. Not

A small shopkeeper in Moscow, whose affairs were in a bad way, having offered his services to perform the murders arranged by Government and receiving a hundred roubles (\$50) for each person hung, soon mended his affairs so well nung, soon mended his affairs so well that he no longer required this addi-tional business, and is now carrying on his former trade.

In Orel last month an executioner was

wanted, and at once a man was found who agreed with the organizers of Governmental murders to do the business for fifty roubles per head. But the volunteer hangman, after making this agrement, heard that more was paid in other towns, and at the time of the execution, having put the shroud sack on the victim, instead of leading him to the scaffold, stopped, and, approaching the superintendent, said: "You must add another twenty-live roubles, your Ex-cellently, or I won't do it!" He got the increase and he did the job.

increase and he did the job.

Of executions, hangings, murders and bombs people now write and speak as they used to speak about the weather. Children play at hangings. Lads from the high schools, who are almost children, go out on expropriating expeditions, ready to kill, just as they used to go hunting. go hunting.

The executioner at first hand knows

that he is an executioner and that he does wrong, and is therefore hated, and he is afraid of men, and I think this consciousness and this fear before men atone for at least a part of his guilt.

But you all—from the secretary of the court to the Premier and the Czar—

you indirect participators in the iniquities perpetrated every day—do not seem to feel your guilt nor the shame your participation in these horrors should evoke

Therefore I think that, low as that unfortunate executioner has fallen, he stands morally immeasurably higher than you, participators in and part authors of these sections. thors of these awful crimes. Everything now being done in Russia is done in the name of the general wel-

fare, in the name of the protection and tranquility of the inhabitants of Russia. And if this be so, then it is also all done for me, who lives in Russia. For me, therefore, exists the destitution of the people, deprived of the first most nat-ural right of man—the right to use the land on which he is born; for me the half million men torn away from wholesome peasant life and dressed in uniforms and taught to kill; for me that false, so-called priesthood, whose chief duty it is to pervert and conceal true Christianity; for me all these transportations of men from place to place; for me these hundreds of thousands of hungry workmen wandering about Russia; for me these hundreds of thousands of unfortunates dying of typhus and scurvy in the fortresses and prisons which do not suffice for such a multitude; for do not suffice for such a multitude; for me the mothers, wives and fathers of the exiles, the prisoners and those who are hung, are suffering; for me are these spies and this bribery; for me the inter-ment of these dozens and hundreds of

men who have been shot; for me the horrible work goes on of these hang-men, at first enlisted with difficulty, now no longer so loathing their ; for me exist these gallows, with soaped cords, from which hang we

children and peasants; for me ex-his terrible embitterment of man st his fellow-man. t, being conscious of this, I can no r endure it, but must free myself this intolerable position!

is impossible to live so! I, at any at is why I write this and will cir. te it by all means in my power, both tussia and abroad; that one of two gs may happen-either that these man deeds may be stopped or that connection with them may be snapand I put in prison, where I may be thy conscious that these horrors are committed on my behalf; or, still er (so good that I dare not even m of such happingss) they may be the more such that I dare not even more such happingss) they may be the such happingss) they may be the such happingss. m of such happiness), they may on me, as on those twenty or ve peasants, a shroud and a cap, and

my own weight I may tighten the soaped noose around my old throat. His Part.

Vhat part am I to take?" said chap

ou are to be the heroine's father. ied the stage manager. What does he do?"

push me also off a bench, so that

## RAIN MEANT MONEY.

SHOWERS COVERED ALMOST THE ENTIRE WEST.

Crops Were Badly in Need of Moisture-The Downpour Just What Was Required, and Insures an Early and Bountiful Crop.

Winnipeg, July 20 .- "People time speak of million-dollar rains but this one to-day means five bushels an acre all round," said W. B. Lanigan, of the C. P. R., this morning "On five million acres this would mean an addition to the crop of twenty-five million bushels ,at the price of, say, 60 cents per bushel; this would mean fifteen million dollars in money for the people of the west, and the net profit to the farmer might be esti-mated at one-third of this sum, more or less, according to the manner in which the work of the farm might be

"What would be the exact acreage ffected by the rain?" was asked.
Replying, Mr. Lanigan stated that rain was general through all the oductive area of the west. It was productive area of the west. It was raining at Swift Current this morning, and all southern Manitoba, northwestern Manitoba and the territory along the main line has been described. along the main line has received welalong the main line has received wei-come showers. The same thing is true of Saskatchewan, reports showing that the precipitation has been continuous there for a number of hours.

Reports received from many points in the west yesterday indicated the crops were beginning to suffer for want of rain, and if the dry, hot spell had lasted many days longer the sults would have been serious. downpour, as Mr. Langan stated, had come at a critical time, and it is of such a nature that in parts of the conntry it insures an early and satisfa-

try handling of the crop.

It made the programme at the Fair here and Brandon impossible, but farmers and business men are rejoicing. Rain has also been falling in the Dako-tas, where it was very badly needed.

## REASON FOR DELAY.

WHY FRANCE HAS NOT APPROV ED TREATY WITH CANADA.

Claimed That Conditions Were Framed Under a Misconception-Concessions to Switzerland Make Consessions to France Valueless.

Paris, July 20.—The following explanation is being made for the delay in approving the Franco-Canadian convention. When the Canadian Parliament passed its new tariff law in 1906 it omitted to mention in the sche

dule of the most favored nations to be used as a basis for negotiations the of Switzerland, which enjoys such treatment under the treaty with Great Britain in 1865. The slip was not discovered until the convention had passed the Chamber, when Switzer-land brought her claim to the notice of Great Britain.

The French Deputies, being too late to do anything in their own House, worked upon the Senators for the departments of the centre and of Jura, where the silk and watchmaking interests are strong, and thus the opposition began. It was argued that these trades were among those for which the concessions nad been most boasted of, and now that Switzerland was to share in the benefits

Thereupon the powerful agricultural nist party arose in turn to reproach the Government, saying that if they had been silent against the large favors given Canadian agriculture, it was because other French industries were said to be benefitted in return, but if there was to be no just equivalent elsewhere they also objected to the con-cessions. The Government is as anxious as ever to conclude the treaty with Canada, but it will hesitate to commit itself to conditions framed under a mis-conception for which France is not re-

The Times' Paris correspondent believes it will be possible to overcome the opposition of the protectionists, and that the Franco-Canadian treaty will be ratified in October.

## FLEET OF AIRSHIPS.

JNITED STATES GOVERNMENT'S PLAN FOR COAST DEFENCE.

congress to be Asked for An Appro priation of a Million Dollars-

New York, July 20 .- A despatch to the Herald from Washington says: According to plans being discussed by the Signal Corps office and the Board of Ordnance for the arm, one million dollars will be asked of the next Con gress for fleets of dirigible airships similar to that of Count Zeppelin for coast defence. Rapid progress in aeronautics among foreign nations makes it imperative, they believe, that the Unit-ed States should begin plans for aerial fleets.

Should Congress make this appropriation and some signal officers urge the tion and some signal officers urge the necessity of asking Congress for an appropriation of \$10,000,000 in order to keep up with foreign countries in military aeronautics, stations on the Atlantic will probably be established at Boston, New York, some point on the New Jersey coast, Norfolk, Charleston and Mobile. On the Pacific coast stations will be established at Bremerton Sen will be established at Bremerton, San

Francisco and San Diego.

Men will be trained in a special aeronautic branch of the Signal Corps the handling of the airships and explosives to be dropped overboard on land forces or the enemy's battleships and

TORONTO MARKETS.

Farmers' Market The grain market continues very dull, there being no receipts, and prices are nominal. Hay is firmer, with offerings of twenty loads; ten loads of old sold at \$15 to \$16 a ton, and 10 loads of new at \$10 to \$11 a ton; striw, nominal, at \$10 to \$11 a ton.

Dressed hogs are unchangel. Choire lightweights sold at \$9.75, and heavy at

Wheat, white, bush Barrey, bush . . . . . 0 . 75

Hay, old, ton . . . 15 . 60

Do., new. ton . . . 10 . 60

Straw, per ton . . . 11 . 60 Do, creamery .. .. .. Eggs, dozen

Do., choice, carcase ...
Do., medium, carcase ... Mutton, per cwt ..... Veal, prime, per cwt. .. Lamb, spring, per lb. ... 9 00 7 50 0 15

Baled Hay and Straw Hay—Timothy is quoted at \$9 to \$10 in car lots on track here, with No. 2 at \$7 to \$8. Straw—Prices range between and \$7.50 per ton in car lots here.

Toronto Sugar Market. St. Lawrence sugars are quoted ollows: Granulated, \$5 in barrels, and No. 1 golden, \$4.60 in barrels. These prices are for delivery; car lots 5c less. Live Stock.

The receipts of live stock at city market as reported by the railways for Wednesday and Thursday were 81 car loads, composed of 961 cattle, 1973 hogs, 1292 sheep and lambs, 191 calves and 1 horse.

Considering the season, the quality of fat cattle was fair, and cattle are oming forward better than was ex-Butchers.-Geo. Rowntree reports \$5.

15 the highest for picked cattle; loads of good, \$4.85; medium, \$4.25 to \$4.50; on, \$3.75 to \$4; cows, \$3 to \$4, with a few at a little more money Feeders and Stockers.-Light feeders

and stockers, weighing from 600 to 900 lbs. each at \$3 to \$3.75 per cwt. This firm stated that they would be open to handle a few loads of good during the coming week.
Milkers and Springers.—The best cows sold from \$45 to \$55 each, with a few

at \$60 each. The average price of choice cows was given at \$46. Common cows sold at \$20 to \$30 each.

Veal Calves.—Prices were firmer at \$4 to \$5.75, with a few of the new milk

fed class as high as \$6 per cwt. Sheep and Lambs.—Export ewes at \$3.50 to \$3.75; rams, \$3 to \$3.50; yearlings, \$4.25 per cwt.; lambs \$7 to \$8.25 per cwt., with some selected lots

at \$8.50 per cwt. -Packers still quote \$6.90 selects fed and watered, and \$6.65 f.o.b. cars at country points. Drovers quote \$6.75 as being paid at many points to farmers and \$6.80, \$6.85 and even \$6.90

## OTHER MARKETS.

New York Sugar Market. Sugar barely steady; fair refining, 80c to 3.86c; centrifugal, 96 test, 4.30c to 4.36c; molasses sugar, 3.55c to 3.61c Refined, quiet.

Winnipeg Wheat Market. Following are the closing quotations

n Winnipeg grain futures: Wheat—July, \$1.06; October, 89 5-8; December 88 5-8c. Oats-July 41 1-2c, October, 357-8c Oats Situation.

The cats situation is very strong, and Winnipeg advanced another cent and a half to day. Large quantities are being taken by United States, although a duty of 15c a bushel exists. In a couple of days sales of half a million bushels of re-jected are reported to Buffalo. This is now loading at Fort William. Sales like that will soon reduce the two or three million bushels supposed to be left in

The Cheese Market Brockville, Ont.—To-day offered colored, 2,465; white, 1,605; total, 4,070. Best offer, 11 7-8c; all sold. Kingston, Ont.—There were 249 white and 531 colored registered at the Fron-The Airships Will be Similar to tenac Cheese Board to-day; all the Count Zeppelin's Balloon. sold at 11 3-4c.

Vankleek Hill, Ont .- There were 1, 800 boxes cheese boarded here to-day; all sold at 12c. Victoriaville-To-day 5 cars of cheese arded; none sold. Belleville, Ont.—To-day there ffered 2,145 white and 210 col offered 2,145 white and 210 colored; sales 990 at 11 7-8c, and 895 at 11 13

Wall Street News. Spot copper in London is 2s 6d lower and futures, 6s 9d higher. N. Y. banks lost \$1,398,000 through sub-Treasury operations since Friday

16c; balance refused at 11 13-16c.

Bank of England rate is unchanged.

H. H. Rogers says that the danger point has passed, but the recovery to normal will be slow on account of Presidential varial variations.

dential year. Trust companies of New York show an increase of \$205,000,000 in resources since March 25th. Five hundred depositors of National Bank have been paid in full by C. W.

E. H. Harriman reported in favor of an increase in freight rates.

Bradstreet's Trade Review.

continue to increase in volume, and the advance business for fall promises well. The two million dollar fire at Three. Rivers and the breaking of the Cornwall Canal are both having some effect upon general trade here. The latter accident will probably affect export shipments of grain from here, as much of it comes down through that canal. The weather has been favorable to the dry goods sorting trade, and orders cover a good range of lines.

Toronto.—The volume of wholesale

Toronto.—The volume of wholesale business here has shown further increase during the past week. Warm weather has helped the retail movement of seasonable lines, and there is a resulting improvement in the sorting trade. Fall business continues to be much helped business continues to be much helped along by crop conditions, which are re-ported to be about perfect in all directions. Some lines are already going forward, and the outlook for a big season's trade is most promising. Some buyers show conservatism, and say they will await a return visit of travellers. On this account a splendid late trade is looked forward to. In woollens and other staple prices have an upward tendency. The past month has seen an excellent business in household furnishings. There has been more activity in building during the past week, the value of permits having shown a good increase over those of last year.

Winnipeg.—Fall business is now mov-ing briskly, and wholesalers report a ing briskly, and wholesalers reported good sorting demand for general lines. Cool weather has been more or less gendamage is reported. eral, but no crop damage is reported. Early estimates say the wheat crop should total up to about a hundred and fifteen million bushels.

Vancouver and Victoria.—General business holds a good steady tone all along the Coast. The weather has been favorable to retail trade, and the sorting de-

mand keeps up well.

Quebec.—Trade conditions in this end of the province continue unchanged, but the outlook is generally favorably regarded, owing to the good crop reports.

Hamilton.—The volume of business here continues

here continues to show improvement. Fall lines are beginning to move well, and the seasonable weather is helping the retail movement. Local industries report better orders. Crop reports conreport better orders. Crop reports continue to promise exceedingly well, and country business is fair to good.

London.—There has been little change in general conditions here during the

Ottawa.—The dry goods trade is moving briskly in all lines.

### KEEPS HIS VOW.

WILLIAM M'CARTY OF OWN-WILL RE-ENTERS INDIANA PRISON.

Broken Parole Redeemed—"Never Knew of a Similar Case," Says. Warden of the Penitentiary.

Chicago, July 20 .- A thin, smooth-Chicago, July 20.—A thin, smooth-shaven man, with a curious, far away look in his eyes, walked into the office of the Indiana State Penitentiary at Michigan City yesterday afternoon at 5 o'clock and stepped up to the desk at which J. D. Reid, warden of the prison,

was sitting.

"My name is McCarty," he said, in a matter of fact tone. "I broke my parole with you three years ago and I've come to finish my sentence."

"All right," the warden replied. "I've here expecting you. Just step this way."

een expecting you. Just step this way."
Half an hour later the same man, in a prison uniform, came out of a cell in an upper tier, passed down a narrow corridor, and took his place in the line which was filing toward the prison din-ing room. His number was 5,784. And that number marked the end of William

McCarty's journey.

The first part of the strange journey was described in a former despatch. Mo-Carty started from North Yakima.

Wash., with nothing but his railroad the strange of the ticket and a firm conviction gained dur-ing a series of Salvation Army meetings, that it was disduty to return to Indiana and redeem the parole he had broken years before when he got drunk and hit a man over the head in a street fight. In Chicago he "stopped off" for a few hours and had a talk with several Salva-

tion Army officials. Then he went to Michigan City. When he arrived at the prison he found that his story had preceded him. Upon learning that he was on has way the learning that he was on has way prison officials began looking up record. There was no "William record. There was no "William McCarthy" on the prison books but after a little search it was found that "Thomas McCarthy" had begun his sentence for grand larceny in 1903, had been paroled in August, 1905, and had broken his parole in October of the same year. Before the record had been discovered, however, a Chicago afterward to the same year. however, a Chicago afternoon newspaper learned that there was no William Mo-

Carty on the prison books, and that at 8 o'clock in the morning he had not called at the penitentiary. The Salvation Army, it concluded, had been victimized, and an announcement to this effect was printed.

Meanwhile McCarthy was looking up a few old acquaintances in Michigan City—he drove an ice wagon while he was on parole—and making preparations to bury

himself, perhaps for the rest of his life Then, late in the afternoon, he stuck his little bundle under his arm and walked to the prison. "He was perfectly cheerful about it," said Warden Reid. "In all my experience I never knew of such a case as this. No extradition papers, no officers of the

law—even paying his own fare! I confess it's one too many for me. DECIDE MIRACLE WAS REAL

Church Affirms as Supernatural Pictures of Virgin in Hailstones.

Remirement, France, July 20 .-- A Dio esan Commission which has been cesan Commission which has been con-ducting an investigation of an alleged miracle here, after having heard 107 witnesses, to-day affirmed the reality of the supernatural event. During a violent hailstorm in May hailstones lent halistorm in May halistones were picked up, it is alleged, bearing images of the Virgin on their surface. Contact with the earth had split them in half, and on the smooth inner surface were the miraculous pictures.

Local Catholics consider this phenomena design response and results to the

ena a divine response and rebuke to the action of the municipal Council in vetoing a proposed procession in honor of the Virgin. The secretary of the Academy of Sciences attributes the phenom-Montreal.—Business conditions continue ena to photo-fulgural or vaporo-graphic impressions of certain medals struck to sorting orders for summer lines of goods honor of the Virgin.

"Not a bit of it," retorted Lavarick, | Sir Jordan as if he expected him to airily. "I'd defy even Trale to see through this get-up. Good, ain't it?" and he chuckled and stroked the grey

eard.
Jordan eyed him repellantly.
"It is good until it is penetrated," he

said, curtly.
"That's so," assented Lavarick, cheer "That's so," assented Lavarick, cheerfully. "I thought it best to come to the front door this time. Some one might have heard us talking in the room there"—he jerked his finger over his shoulder—"and, thiuking it was burglars, raise a row. And now what's it to be, Sir Jordan? You've had time to think it over and like a sensible man think it over, and, like a sensible man, you've made up your mind to come to

Jordan leaned back in his chair, his

Jordan leaned back in his chair, his eyes downcast.

"I have decided on my course of action in the matter," he said, slowly. "I will give you the money you ask——"

Lavarick snapped his fingers triumphantly and chuckled.

"Thought you would," he said, nodding. "You're a sensible man, Sir Jordan. Another man might have played bluff a little longer——"

dan. Another man might have played bluff a little longer—"
"On one condition," said Jordan, haughtily. "And that is that you place the will in my hands and a declaration that you saw my—Sir Greville, burn it on the night of his death." Lavarick stared and frowned.

"What's the meaning of that, now?" asked. "What's your drift, eh?" Jordan looked up at him with an evil

smile.

"For a cunning scoundrel, Banks, you with a are singularly obtuse, he said, with a sneer. "You forget, too, a little incisneer . "You forget, too, a little inci-dent in your past career. I refer to your conviction for forgery—" Lavarick, still eyeing him suspiciously,

swore impatiently.
"What's that to do with it?" "Merely this," retorted Jordan, almost weetly, "that I think it highly probsweetly, "that I think it highly probable that in exchange for my money you would give me a forged copy of the will and retain a genuine one for another

A gleam of real admiration lit up Lavarick's face. arick's face.
"'Pon my soul, you're cute," he exclaimed, under his breath. "That's what you'd have done, isn't it?"

Jordan smiled and cast down his eyes.

"And I never thought of it!" mut-tered Lavarick, with honest shame and remorse. "I never thought of it, so help me! Sir Jordan, you're a clever man and I admire you! And to prove it I

say—done with you.'

And he held out his claw-like hand. Jordan looked at it as if he would rather handle a snake than touch it. "Good," he said. "That is my one contion. Give me that, and I am con-

coin I'm off. I did want to stay in the old country a little longer—"

He stopped and his face darkened with an evil scowl.

Jordan watched him.

"Whether you stay or go is your business," he said, coldly. "I have only to arrange for the—the exchange—"
Lavarick noddle.

dan, thoughtfully.

Lavarick smiled and shook his head.

hitting upon the idea of my forging a duplicate! No, no. We're safe, both of us, in the Burrows." Jordan pondered a moment or two.

will is not in your possession?"

"Do you mean do I carry it about with me? No, I certainly do not; I'm not of laugh.

such a fool, in fact. You don't carry the
Lynne diamonds in your cost afraid you'll go back on me. You can bring Trale if you like. But you know oth of us want is to settle this little affair between ourselves quietly and comfortably.'.
"Very well." said Jordan, "I have no

he added, after a pause. and he glanced significantly at the door and laid his hand on the bell.

Lavarick took up the highly respectable hat; which formed part of his dis-guise, then, as if by a sudden impulse, stretched out his hand and motioned Sir Jordan not to ring the bell.

"Half a moment," he said, hesitatingly, and looking down at the thick Turkey carpet with a strange and curious expression on his face. "We'v2 arrangexpression on his face. "We've arran ed one little matter, Sir Jordan; butbut there's another matter I wanted to

What is it?," said Jordan, impatiently, and rising as she spoke, as if the man's company grew more intolerable

Lavarick gnawed at his lip, and evielently made an effort to speak indiffer

"It's just this," he said, and his voice was thicker and huskier even than usual; "you might remember, Sir Jordan, that I'—he paused—"that I've got a

Jordan was standing in front of his chair, and as Lavarick spoke he seemed to grow suddenly stiff and rigid; then he turned to the letters on the small table beside him, so that his back was toward Lavarick, as he replied:

"Well,"-Lavarick paused again, and seemed as if he found it difficult to pro-ceed—"she—she was my only child. She was like her mother." He glanced at

sneer, and meant to resent the sneer if it came; but Jordan looked steadily at the carpet. "Her—her mother was a good woman, a—a better wife than I deserved, and it was a good job she died before—I was very fond of my little girl, Sir Jordan. You laugh, I dare say, and you think that such as I am haven't any right to facilizer.

right to feelings."
"I was not laughing," said Jordan, quietly, and without raising his eyes. "Go on."

"Go on."
"Well," resumed Lavarick, huskily,
"my girl was all the world to me, and
—and if anything would have kept me
straight, she would; but I'm one of
those who can't go straight. I suppose
there's something in the blood that
drives a man to the devil whether he will
or won't. I'm a bad lot, I know; but I
was fond and proud of my girl and the or won't. I'm a bad lot, I know; but I was fond and proud of my girl, and the worst part of the business when I was sent off was the thought that I was leaving her all alone and without any one to look after her."

He paused and cleared his throat.

"It was the dreadful longing to see

He paused and cleared his throat.

"It was the dreadful longing to see her that drove me to breaking out of quod. I thought if I could get away and take her to some place on the other side of the herring pond, she and me could make a fresh start. Well, I got out," he continued, with > touch of pride in his tone, "and I risked everything to come down here and see her. I knew I was running into danger, just putting my down here and see her. I knew I was running into danger, just putting my head into the lion's mouth, as you'd say; but I risked it. And when I got down here I found"—he stopped and turned his head away—"I found that my Rachel

had gone.' Jordan still gazed at his boots, outwardly calm and indifferent, but his heart was beating nineteen to the dozen, and his brain was hard at work.

and his brain was hard at work.

"She was gone. That was bad enough, but there was worse behind. My girl had fallen into bad hands. Some villain had—had played her false, and she'd gone off with him."

His harsh voice trembled, and Jordan, glancing up, saw that he was shaking as if with ague.

"That's all I could hear. It nearly drove me mad. I couldn't make inquiries: I

me mad. I couldn't make inquiries; daren't stop and try and find her. I had to bolt as you know. But I swore I'd come back and find out who it was that ruined her and—well, I've come back. But I'm as far off as ever. No one of course—know anything more than that she went off with some one, and that she's not been seen in Stoneleigh since." He dashed his hand across his eyes with an oath at the emotion which he could not conceal, and looked out of the

window. "It occurred to me," he went on, after "It occurred to me," he went on, after a pause during which Jordan remained silent and watchful, "that you might have heard—something; that you might know who it was that led her astray. "Good," he said. "That is my one condition. Give me that, and I am content. You may leave the country or—"
"Wait here till you've hit upon a plan for getting me safely lagged and sent back to jail," finished Lavarick, with a grin. "No, thank you. Once I touch the coin I'm off. I did want to stay in the coin I'm off. I did want to stay in the old country a little longer—"

silent and watchiui, "that you might know who it was that led her astray. You see, you're a magistrate and the local swell, and—things generally come to the ears of a man in your place. I want to find her." He stammered hoarsely. "I Lavarick folded it and thrust it in don't care what she's done; she's my girl, my Rachel still, and I want her. But I want the man that ruined her worse!

"I found it in my brother's room when the was cleaning it out after my father's cal swell, and—things generally come to the ears of a man in your place. I want to find her." He stammered hoarsely. "I Lavarick folded it and thrust it in his pocket, his eyes fixed on Jordan's face with an awful look. "Return it? No! I'll return it to the law of the country and the man that ruined her worse! old country a little longer—"

He stopped and his face darkened with an evil scowl.

Jordan watched him.

"Whether you stay or go is your business," he said, coldly. "I have only to arrange for the—the exchange—"

Lavarick noddde.

"I've thought of that," he said. "Bring the money—I'll take it in notes. Oh, I'm not farial you'll stop them. You couldn't without causing an inquiry, you know. Bring the notes to Lynne Burrows on Friday night at ten o'clock. I'll meet you by the clump of trees."

"Why not bring it here?" asked Jordan, most good anyway, and, look here—"and he struck the small table of the carpet.

"I've sworn—look here, Sir Jordan, most! I'll return it to him! I'll retu

ing it here?" asked Jorlook here—"and he struck the small table dan, thoughtfully.

Lavarick smiled and shook his head.
"No, thank you, Sir Jordan, I wouldn't trust mystlf with that precious document in my possession under your roof. You're so clever, you see. Think of your hitting upon the idea of my forging a smost inspirations do and it came as a flash as most inspirations do and it came as a flash. as most inspirations do, and its suddenness sent the blood to his pale face. "You will get into trouble, my good Banks," he said, gravely. "You had bet-

Jordan pondered a moment or two.
"Why Friday?" he said, sharply. "The ter forget your daughter and put your-sill is not in your possession?"
"Do you mean do I carry it about with Lavarick laughed, a gruesome Liid." "You think so. Well, look here; if the

Jordan turned pale, and his yes hid themselves under their thick lids. "I—I scarcely know whether I should

Jordan bit his lip softly as if still considering, then he said, slowly:

"I cannot refuse a father's appeal."
Lavarick swore impatiently.
"Curse that!" he said, hoarsely. "Out with what you know."

carpet pensively.

"You say that your daughter's name was Rachel?" he said.

fit of the footman in the hall.

But Lavarick, as if he had forgotten his assumed character and part, strode down the steps and along the drive with

"Heaven knows whether I am acting "Heaven knows whether I am acting wisely in—in telling you what I know," he said, "and if I do so it in the hope that I may aid you to recover your daughter—not that you may wreak your vengeance upon her betrayer. I think I saw her but once or twice as I passed through the town. I should ifot remember her if I were to meet her again—" ber her if I were to meet her again—"
"Go on!" broke in Lavarick, impati-

ently.

"You must let me tell you in my own way," said Jordan, rebukingly. "Did you know my half brother, Neville?" he asked, as if with painful reluctance. Lavarick started.

"No," he said. "He was at college, I suppose, when I was at home here. I never saw him. What-whv---, "Wait," said Jordan, almost gently.

minute or so with a letter i nhis band.

minute or so with a letter in his hand.
down with the gait, and, indeed, the expression, of a tiger thirsting for blood, stopped and glazed at him.
"What's that?" he asked.
Jordan held the letter firmly.
"I do not know, as I said, whether I am acting wisely in showing you this. I am not convinced that it—er—brings home the guilt of your daughter's betrayal to the person who received this letter, but I cannot withhold my sympathy from you, or refuse to help a father in the search for his lost child."
Lavarick eyed him with savage incredulity and suspicion.
"Stow all thet?" he said hereals am acting wisely in showing you this. I am not convinced that it—er—brings home the guilt of your daughter's betrayal to the person who received this letter, but I cannot withhold my sympathy from you, or refuse to help a father in the search for his lost child."

Lavarick eyed him with savage incredulity and suspicion.

"Stow all that!" he said hoarsely.

"What is it?"

"I will tell you." said Jordan grants.

"Stow all that!" he said hoarsely.
"What is it?"
"I will tell you," said Jordan, gravely.
"You taunted me that night with being
the cause of the quarrel between my
father and my half-brother Neville. It
was an ignorant and unjust accusation.
The cause of the trouble between Sir
Greville and Neville, who was his favorite son, was—your daughter."

Lavarick started back, gasping.
"What!" he said, 'almost inaudibly,
his eyes fixed on Jordan's face.

Jordan shook his head gravely.
"What I tell you is true," he said. "It
came to my futher's ears that Neville
was—well, well—being seen too frequently with your daughter Rachel, and my
father taxed Neville with his intended
perfidy, and bade him give up his de-

father taxed Neville with his intended perfidy, and bade him give up his designs upon a young and innocent girl. But I am ashamed to say that my half-brother Neville was as wilful and obstinate as he was victous. He persisted in his evil courses; a stormy scene ensued between my father and him, and then Neville disappeared. I fear—I greatly fear that he persuaded your unhappy daughter to accompany him."

Lavarick stood white and trembling. "Is this one of your lies?" he got out

"Is this one of your lies?" he got out at last. "Is this a dodge of yours to ome over me?"

Jordan shook his head.

"You do right to distrust me, Banks." he said, "but I am telling you the truth. Why should I concort this story? My brother Neville is doubtless dead, and beyond the reach of your vengeance; indeed if I did not the reach of your vengeance; indeed, if I did not think so, I should not have told you, for I bear him no ill Lavarick's trembling lips twisted into

"You hate him," he said, hoarsely. "You hate him," he said, hoarsely.
"But that's nothing to do with me. Give
me proofs. What's that in your hand?"
"The proof you ask for," said Jordan,
and then, as if reluctantly, he handed Lavarick the paper.

It was an old letter which had appar-

ntly been partly burned. The date the commencement were destroyed, but the body and the signature remained. Lavarick seized it and examined it, then he glared up at Jordan.
"It's—it's her handwriting!" he said, hoarsely. "It's her name—Rachel's!" and he dashed his hand on the signa-

ture.
"You recognize it?" said Jordan, gravely, almost pityingly. "It's a heartrending letter; the appeal of a helpless girl to the man who has ruined and deserted "Where—where did you get it from?" demanded Lavarick, wiping his eyes as if the sight of the familiar handwriting had blinded them.
"I found it in my brother's room when

f face with an awful look.

"Return it? No! I'll return it to him! I'll return it to him! I'll return it to him when I'm killing him! Oh, my God!" and he seized his head with both hands and held it

but with his eyes fixed on the carpet. "For your own sake," he said, "I trust you will not commit any rash deed. For your own sake..."

your own sake-Lavarick stopped him with a gesture at once defiant and savage.

"Leave that to me!" he said, brokenly; then he laughed a horrible laugh.
"If you'd only told me this, given me
this letter last night, I'd have let you
off the money."

off the money."

Poor Jordan started, and a gleam of egret crossed his face. Lavarick laughed again. "But I'll have the money and my re-

such a fool, in fact. You don't carry the Lynne diamonds in your coat pocket, do you? Well, this will's worth almost as much to me as they are to you. I vegot it hid away snug and safe, and I'll produce it on Friday, as I say. I'm not afraid you'll go back on me. You can bring Trole if you like Put you lear the produce of the girl you have been such as the produce of the girl you have been such as the father of the girl you afraid you'll go back on me. You can bring Trole if you like Put you lear the father of the girl you have been such as a suspicion that Jordan, for all his grave face, was venge, too. Curse you both; curse every-body by the name of Lynne! It's you and the likes of you that drive us to that Jordan, for all his grave face, was enjoying the sight of his misery. "I'm going," he said, breathing hard. "Friday, remember! I'll have the money. It will "I-I scarcely know whether I should be justified in telling you,' he begen, hesitatingly.

Lavariek turned upon him eagtrly.
"You know something!" he exclaimed.
"What is it. Tell me!"

"He went to the door, but his hand shook so that he could not turn the

"Open it!" he said, roughly.

Jordan obeyed and accompanied him Lavarick swore impatiently. "Curse that!" he said, hoarsely. "Out with what you know."

Jordan rose and looked down at the fit of the footman in the hall.

Smith," he said, blandly, for the benefit of the footman in the hall.

was Rachel?" he said.
"Rachel?" assented Lavarick, huskily.
"What is it? What do you know?"

Jordan sighed.
"Heaven snows whether I am acting the pocket in which he had thrust the letter.

CHAPTER XXIV. A wise maxim maker has asserted that there can be no love between two women when both are young and pretty.
As is usual with maxim makers, he was

wrong, and Sylvia and Audrey proved him so. They were drawn toward each othe by a mutual sympathy which acted with equal force. Sylvia had gone through the furnace through which Audrey seemed now to be passing. But though Sylvia saw that something was troubling her newly made friend, she did not ask for Audrey's confidence, and Audrey did not give it. But notwithstanding this, the two girls had fallen in love with each

two griss had father in love with each other with that quiet fervency which evidences somehing warmer, deeper, and more lasting than a transient fancy.

The day after their meeting in Sylvia's room Audrey drove round to Bury

street and carried Sylvia off to Grosve-

nor Square.

Lady Marlow at first received her with a mixture of kindness and reserve, but before an hour had passed, Sylvia. had made her way, unconsciously and with-out any effort on her part, into her little ladyship's heart, and the viscount, hap-

the girls sat and talked over their tea, as women who are fast and loving friends delight to talk, Audrey was resplendent in her evening dress, and Sylvia was laughingly admiring her, and holding up a hand mirror that Audrey might survey herself when the maid-servant entered.

Sylvia, thinking she had come to remove the tea service, paid her no attention; when Audrey, who was trying to put aside the mirror, suddenly uttered a cry and half rose.

put aside the mirror, suddenly uttered a cry and half rose.
Sylvia turned her head to see what was the matter, and saw a tail figure standing in the doorway.

She dropped the glass and ran forward with both hands outstretched, exclaiming. "Lord Lorrimore!"

He took her hands and held them so tightly that he hurt her. But his eyes did not meet hers, they were fixed on the pale and downcast face of Audrey Hope.

"Audrey! Miss Hope, you here!" ex-claimed Lorrimore, his dark face flush-ing, his eyes lighting up with a sudden joy and gladness.

joy and gladness.
Sylvia looked from one to the other, but not a glimmering of the truth dawned upon her.

(To be continued.)

WARM AIR ABOVE THE COLD. Curious Fact Recently Observed by Meteorologists.

Students of the upper air were aston-ished when the little balloons they sent up, with self-recording thermometers, told them one day that in the high atmosphere there is a stratum which is warmer than the air immediately below it. No one has yet explained this strange inversion of temperature, but it has now been observed so many times in different parts of the world that there can be no doubt about it.

It was discovered in 1891, almost

simultaneously, by Mr. Teisserenc de Bort near Paris and by Prof. Assmann in Germany. Since then nearly all the bal-loons that have risen above 40,000 feet in central Europe have penetrated this stratum of warmer air. No one knows yet its upper limits.
In England it has been found that the

In England it has been found that the average height of this layer of warmer air is about \$5,000 feet.

In the last three years Dr. A. Lawgence Rotch has set afloat seventy-seven ballonssondes at St. Louis: Most of those which rose higher than 43,000 feet entered the stratum of warmer tempera-

On Oct. 8, for instance, the temperature at 47,600 feet was 90 degrees Fahrenheit, while at the greater altitude of 54,100 feet the temperature had risen

of 54,100 feet the temperature had risen to—72 degrees. Two days later the coldest temperature, 80 degrees, was found at 39,700 feet, while only 2,500 feet higher the temperature rose to 60 degrees.

This warmer stratum of air has not yet been discovered over the tropical Atlantic, but the noteworthy fact has been established that above the equator in summer it is colder at a height of eight miles than it is in winter at the same height in north temperate regions.

Meteorologists now think they have reason to believe that this warmer air exists throughout the tropical regions at heights exceeding 50,000 feet, and that it is probably a universal phenon at heights exceeding 50,000 feet, and that it is probably a universal phenon existing at some height all around the globe.

KEFP CHILDREN MELL.

### KEEP CHILDREN WELL

DURING HOT WEATHER Every mother knows how fatal the ummer months are to small children. Cholera infantum, diarrhcea, dysentry and stomach troubles are dysentry and stomach alarmingly frequent at this time too often a precious little life is lost after a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional the house feels safe. The occasional use of Baby's Own Tablets prevent stomach and bowel troubles, or if the trouble comes suddenly—as it generally does—the Tablets will bring the little one through safely. Mrs. George Howell, Sandy Beach, Que., says: "My baby was suffering with colic, vomiting and diarrhoea, but after giving him Baby's Own Tablets the trouble disappeared. I would advise all mothers to keep a box of Tablets always at hand." Sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Injudiciousness.

Policeman-Judge, this prisoner acted as if he was insane at the baseball game yesterday.

Judge—What did he do?

Policeman—During the game he threw his watch at one of the players—
Prisoner—It was an Ingersoll, Judge, and I was endeavoring to make the visiting catcher muff a foul fly.
Policeman—A few minutes later he ran through the grand stand shrieking like a wild person and smachine king. like a wild person and smashing other

men's hats——
Prisoner—One of our team swatted out a three-bagger and brought in three runs, making the game a tie. Policeman—The next second he jumpede onto the diamond and assaulted the mpire.
Prisoner (excitedly)—The umpire call-

ed that three-base hit a foul, Judge.
Judge (an old fan)—The prisoner is
discharged. Officer, I reprimand you for
your injudiciousness.—From the May

Blame Government Ownership.

Incidentally Japanese statesmen are complaining that it was not so much the cost of war, but the purchase and operation of Japanese railways by the Government that brought about the present serious financial stringency in the land of Nippon.—Cincinnati Com-

Vienna Sausage You've never tasted the best sausage until you've eaten Libby's Vienna Sausage.

It's a sausage product of high food value! Made different. Cooked different. Tastes different and is different than other sausage!

Libby's Vienna Sausage, like all of the Libby Food Products is carefully prepared and cooked in Libby's Great White Kitchen.

It can be quickly served for any meal at any time! It is pleasing, not over-flavored and has that satisfying taste. Try it.

Libby, McNeill & Libby, Chicago.

THE ENGAGED MAN. Flancer's Loyal Sisters Flee as From

the Plague. The behavior of the newly-engaged often affords the looker-on much food for amusing reflection, but far more in teresting is the attitude which the fam ily assures toward the happy pair during the period of probation. If they enter a room together every one flies from it

the period of probation. If they enter a room together every one files from it immediately, as if they had the small-pox if you come upon them in a library you may not so much as pause to find your book, but must precipitately retreat, taking care softly to close the door. door.
The man does not always seem to like

strange gods.
Sisters who are loyal to one another would consider it shocking. The man is bound to one, and one only, and it is al-most melancholy to witness the stam-pede which takes place at his coming.

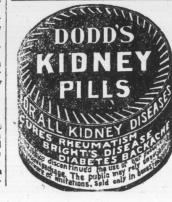

EGOTISM THE MAN'S HANDICAP

(By John A. Howland.) Youth claims title to buoyancy and venturesomeness because of two things. First, perhaps, are the prompt ings of an excess of mere animal spir its; second, lack of a sobering, qualifying experience. Why is it, then Why is it, then, of this statement fying experience. What in the face of which few people will challenge, one of the most hampering characteristics of the young man in business comes of his showing in his business relations a most had avided as the lations a marked evidence of this quality to which youth is the most

An employer will overlook a serious blunder of a young man's on the ground that the boy is young yet. Fellow workers, discovering that in a quiet, sober industriousness the young man has made an error and is in a tight place, will turn willingly to help him out. But that young man who has brought a breezy, push-

man who has brought a breezy, pushing optimism into a staid, conservative house full of old employes will discover, if able to sense it, that excuses are for others than himself.

"He's too fresh," is the colloquial diagnosis of his case when his back is turned; or if in the opinion of the young offender's fellows he has exceeded prescribed bounds, one or more of these fellow workers may make the diagnosis of the young man's especial benefit. nan's especial benefit. Two widely diverging points of view

seem to be responsible for this criticism of the young man's superabundant activity. On the one side are the individuals arrived at more sober estates, who, jealous o' their positions and connection with an establishment. resent the mere intrusion of youth On the other side is the wise, confi On the other side is the wise, confident man of experience who decides that the young matriculant is likely to wreck himself and his chances on rocks of which he is wholly ignorant for lack of a proper chart. This overabundant enthusiasm and venture-some activity from either of these points of view, is distressing in an organization. Men who are jealous of its invasion will have opportunity to put impediments in its way, while the wiser ones who seek to warn the victim of it may see their efforts fail.

I have a friend who has arrived at this age of wisdom from which he may see clearly into the status of the young man of this type. For years he has conducted a department in a great institution which calls for technical work of the highest degree of

young man of this type. For years he has conducted a department in a great institution which calls for technical work of the highest degree. Always the department has had at least one young man in its rather in the position of a postgraduate apprentice. He spoke to me some time ago in discouraged tones.

"T've discharged three young man from this department in three years because of the 'big head,'" said he "and the young man I have now is getting away from me in that direction faster than I can pull him back."

In this particular instance, however, a rather unusual influence is at work in the office to the undoing of this young man. He came into it a gentle, timid, thoroughly conscientious beginner, who was little more than a boy. He became popular with the men in the office, from the first. Had he been full of ego, even, it might have been better for him, for the office considered that he needed encouragement. They encouraged him and overdid it. From the shrinking are agement. They encouraged him and overdid it. From the shrinking, nervous disposition which once appealed to the sympathies of that office this voung man has evolved a distressing confidence and complacency which he has not earned.

Out of the natural buoyancy of his

youth the young man in business is likely to fall a victim of egotism. likely to fall a victim of egotism. True ambition rarely separates itself from the element of ego on the youthful side of thirty. The young man may be constitutionally egotistic, or as in the case cited, he may have egotism thrust upon him.

That young man who would test himself for signs of this hampering ago has a material point to approach.

himself for signs of this hampering ego has a material point to approach. He may ask himself, How well Satisfied am I with the work I am doing? Complete satisfaction with himself and his work is a first sign of decay in even the adult; there is no progress beyond this state of mind. In the young man this evidence of satisfaction can mean only arrested development because of arrested effort. Get a line on yourself, young man. If you are criticized you ought to be able to determine whether jealousy or wisdom is prompting your critic. But either voice is worthy of a thoughtful hearing.

Your dining room and kitchen can be kept free from flies by using Wilson's Fly Pads as directed on each package. Get the genuine Wilson's; no other fly killers compare with them.

WHEN MEN WORE SHAWLS resident Linconl's Partiality to His Big Scotch Plaid.

On very rare occasions you now see some old lady wearing a shawl, but generally speaking this once universal gar-

erally speaking this once universal garment has become obsolete.

Those children that are, say, 40 years
old or more can probably remember
when even men wore shawls instead of
overcoats. For about ten years they
were considered just the thing: This
was the decade beginning with about
1860. President Lincoln was very partial to his big Scotch shawl, which, according to the vogue, he wore, not foldcording to the vogue, he wore, not folded diagonally in femining fashion, but folded lengthwise, says the Pathfinder. This folded shawl was passed over the shoulders and around in front, where it was either held by the hands or pinned by a huge shawl pin. This case of the shawl is about the only one where the men have appropriated an article of wear from the women's wardrobe-though the instances where the reverse has happen-

ed are legion.

Even then, the shawl was originally not a woman's garment exclusively, for the Scotch Highlander has his tartan plaid, and the men of northern Italy still wear a cloak which is very little more than a shawl. There can be no question that the shawl is more useful and more picturesque as an article of attire than the close fitting coats both men and women now wear. The shawl could in case of emergency be used to protect two persons, or to wrap a child in, or as an extra bed covering; its fashion did not change every three months, and it could be used and passed down in the family until it was worn out.

Cook for Francis Joseph

Although the Austrian Emperor eats very frugally, His Majesty pays his chief cook £2,000 a year. The court is noted for its elaborate repasts, and a French contemporary gives an amusing account of how Perski—for such is the chef's name—entered the Emperor's service. Perski was formerly chef to Count Rheingaum, and one day Francis Joseph, who dined at the house of the count, was delighted with the manner in which the boar's head was served, and complimented the chef. Two days later an enormous packing case arrived at Schonbrunn with the Count's respects. When the box was opened they found in it Perski, in good health, but somewhat "shaken up." The Emperor accepted the present, and Perski became head of the intchen.—From the London Globe.

No Doubt About It.

Lawyer—Are you sure that occurrence was on the 17th of the month?
Witness—Yes, it was the 17th.

Lawyer-Now, remember, you are un-er oath. How do you know it was the Witness-'Cause the day before that

Lawyer-Be careful what you say low. Go on. was the 16th and the ·Witnessday after it was the 18th .-- Detroit

> Rideau Record: The present Pro vincial Government has adopted a policy of centralization of the model or normal schools, which means that those who wish to train for the teach ing profession from this section of the province must go for a year to Ottawa or Peterboro. This will be a great expense to the parents, for it is a wellknown fact that living is more expensive in large cities than in towns, and the result will surely be that fewer teachers will qualify, and in the end there will be a greater dearth of teach ers than there was a few years ago.

Heat prostrates the nerves. In the summer one needs a tonic to offset the customary hot weather Nerve and Strength depression.
