When the Tribune Came (By J. MERVIN HUGL.) One bright winter morning John and Dorcas Larkin were sitting in their cozy room...

THE MIDLAND RAILWAY CO. ON AND AFTER OCTOBER 12th, 1903, trains will run as follows:

Leaves Toronto at 7.00 a.m., arrive in Windsor 9.05 a.m.

Leaves Toronto at 3.15 p.m., arrive in Windsor 5.25 p.m.

Leaves Toronto at 5.15 p.m., arrive in Windsor 7.25 p.m.

H. V. HARRIS, General Manager.

Life's Happier Hours. As faces the landscape on the night when evening's veil is for all lowered...

When the Tribune Came (Continued) 'But something did happen so that he was delayed on the road, and the minute it was twelve o'clock the lawyer went and ordered the bell tolled for old Daddy Dodge.'

'My goodness me!' exclaimed Dorcas, as she glanced at the next item. 'Just listen to this, and she read: "Last Friday afternoon James Ray and Mrs. Emeline Riggs were married at the home of the bride, Rev. T. H. Ayer tied the knot..."'

'John Larkin smote his knee with a tremendous blow, leaped back in his chair and laughed without restraint. "Well, I am beat out!" he said. "I never expected that would come to pass, although I did my best to help it along..."'

'"That boy is full of catnip, ain't he?" said John. "He's a good deal like his grand-father," said Dorcas.

'"Sho, now!" exclaimed the delighted old man, as he took his chair and placed it near his wife. "Now you read the news to me. "Read the Riverside column first."

'Dorcas adjusted her spectacles, took the paper, and began: "Norman Stannard starts tomorrow for Boston where he enters upon a lucrative position in the well-known establishment of Brooks & Fenderson."

'"Yes sir-ee!" exclaimed the old man. "The city folks have to send up into the country when they want a good clerk. Time and again I used to see the Boston drummers wagging Norman pretty close when he was trading with customers, and I told Bennett he couldn't expect to keep such a clerk forever. Well, well, I shall look Norman up right away and we can invite him over here once in a while."

'"So we can," agreed Dorcas, eagerly, and it will seem like home to have one of the Rivendale young folks round, won't it?" Then she read on: "Last Sunday morning, when Janitor Jones undertook to ring the church bell, it was found to be cracked and the tone destroyed. A subscription has already been started for the purpose of procuring a new bell."

'"That's too bad!" said John. "That bell has called us to meeting a good many years. I remember when it was first rung in the old church. It used to make the shivers run down my back when it tolled for any one that had died. But that custom stopped a good while ago, and I believe the last time the bell tolled it was for some one who wasn't dead at all."

'"Why, how was that?" asked Dorcas. "I don't seem to remember about it."

'"The boys did well, and no mistake!" he cried. "But all they have to do nowadays to get a head of water is just to open with the hydrants, and then it staggers two men to hold the nozzle. It was tough work fighting fire when I was captain of the old Eagle fire-engine."

'"Don't you remember, Dorcas, when Barton's block burned on that same 'spook' one winter night thirty years ago? Land of Goshem! It was cold when that factory bell began to ding, ding, ding, ding! In fact as the watchman could jerk the rope as the boys turned out promptly, hoisting fire and dressing themselves on the way to the engine-house. The old Eagle squeaked and squeaked over the Minard's Lignum vitae is used by Physicians.

Doctors failed and Mrs. Rowdon never expected to be so well again.—Dr. Chase's Ointment cured.

Mrs. W. Rowdon, North St., St. Catharines, Ont., states:—"For thirty years I was severely afflicted with piles which gave me such prolonged torture that I did not expect to ever be well again. I have been treated by physicians who have given me gray in the practice of medicine without obtaining relief. I don't suppose there ever was a more discouraged sufferer than I was. Finally I was forced to seek Dr. Chase's Ointment and after using a few boxes my long-standing complaint was cured. I am free from every symptom and I can say that if this Ointment had not been used I should not be white today."

Dr. Chase's Ointment is the only guaranteed cure for piles. 50 cents a box, at all druggists, Edman, Dales & Co., Toronto. Portrait and signature of Dr. A. W. Chase on every box.

was for old Daddy Dodge, explained John. "You know what a fine old fellow he was. Well, it seems that the old man had a bill to pay to Lawyer Pease on a certain day and the lawyer would at him about it every time they met. 'I's madd the old man wrothy, and one day he took off his hat the way he always did when he was mad, and his hair stood up like a feather duster all over his head, and he shook his old bell down at the lawyer and stomped his foot and bellowed out, "You mean old money-grabber! You needn't borrow any trouble about my not being here!" If I ain't there by twelve o'clock noon, you may know that I'm dead, and you can have the bell tolled for me.'

'"But something did happen so that he was delayed on the road, and the minute it was twelve o'clock the lawyer went and ordered the bell tolled for old Daddy Dodge. Pretty soon the old man came along and wanted to know what the bell was tolling for. When he found out he was madder than a hatter, and threatened to sue Pease, and all manner of things."

'"Last Friday afternoon James Ray and Mrs. Emeline Riggs were married at the home of the bride, Rev. T. H. Ayer tied the knot. We extend sincere congratulations."

'"Well, John," said Dorcas in mild reproach, "I don't think you need to make so much noise and go through all the motions. Folks will think there's a lot of children here, instead of an old man of seventy-five."

'"Oh, well, Dorcas, I guess there's no harm done," said John, somewhat abashed. "I sort of stis me up when I get talking about old times, but hereafter I will endeavor to keep the peace. Why don't you read on?" he asked after a pause.

'"Why—?" Dorcas began, slowly, "this next item is partly about you and me," and she read: "Last evening at a special meeting of the church, James Ray was unanimously elected deacon, to fill the vacancy caused by the removal of Deacon John Larkin. The following minute was also adopted: "(1) Grounds out (coarser hulls removed) (2) Strivings from rotted oats (no hulling dust should be included.) (3) Two parts ground oats, two parts ground buckwheat, one part ground corn. (4) Equal parts ground oats, ground barley, and ground buckwheat. (5) Two parts ground barley, two parts low grade flour, one part wheat bran."

'"The ground meal should be mixed to a thin porridge with thick sour skim-milk or buttermilk. On the average 10 pounds of meal require from 15 to 17 pounds of sour skim-milk. A small quantity of salt should be added to the mash. When sufficient st-milk or buttermilk cannot be obtained for mixing the mash, a quantity of animal or raw vegetable food should be added to the fattening ration. The chickens should remain in the fattening crates for period of 24 days, more or less, depending on the conditions of the bird. Before they are placed in the crates they should be well dusted with sulphur to kill the lice. They should be again sulphured three days before they are killed. THE FIRST WEEK.—It is necessary to feed the chickens lightly the first week they are in the crates. A small quantity of the fattening food should be spread along the troughs, and as this is eaten more food is added, but not as much as the chickens would consume. The food should be given three times a day, and after feeding the troughs should be cleaned and turned over. The chickens should receive fresh water twice a day, and grit two or three times a week while in the crates. THE SECOND WEEK.—The chickens should be given twice a day as much food as they will eat. Half an hour after feeding the feed troughs should be cleaned and turned over. THE LAST TEN DAYS.—At the commencement of this period one pound of tallow a day should be added to the mash for every 70 chickens. The quantity of tallow should be gradually increased so that at the latter part of the period one pound of tallow is fed to 50 chickens. The chickens should receive the fattening food twice a day. Yours very truly, W. A. CLERMONT, Publication Clerk.

now, but we dragged her up in front of the mill in short order. "Suction hose!" says I, and the boys sprang to and put it down into the flume; but big Bill Martin slipped and fell head foremost into the water. They pulled him right out by the heels, but in a second his clothes froze on him stiff, and all he could do was to tumble into the boiler-room of the mill and stay there. "Man the brakes!" says I, and in less than half a jiffy thirty-six big men stood ready for the word. "All ready!" came a shout from the hoemen. "Who's got the nozzle?" I says as I jumped up on the engine. "Jim Ray and your boy Ezra," says old Enoch Marsh, out of his frozen beard. "Just at that instant there came an explosion. The flat roof of the building heaved up, and the black smoke and fire poured out. My heart gave a terrible jump. Inside I said, "Lord take care of the boys!" but I sung out with all vengeance: "Let her live, boys! NOW!" "Down went the brakes, and the good old Eagle tined up clear and strong,—ca-bunk, ca-bunk, ca-bunk, ca-bunk!—and I tell you it was music to me when the water began to splutter from the nozzle and swirl into the fire. We couldn't save the block, but by working hard all night we kept the fire from spreading and saved the village."

'"Well, John," said Dorcas in mild reproach, "I don't think you need to make so much noise and go through all the motions. Folks will think there's a lot of children here, instead of an old man of seventy-five."

'"Oh, well, Dorcas, I guess there's no harm done," said John, somewhat abashed. "I sort of stis me up when I get talking about old times, but hereafter I will endeavor to keep the peace. Why don't you read on?" he asked after a pause.

'"Why—?" Dorcas began, slowly, "this next item is partly about you and me," and she read: "Last evening at a special meeting of the church, James Ray was unanimously elected deacon, to fill the vacancy caused by the removal of Deacon John Larkin. The following minute was also adopted: "(1) Grounds out (coarser hulls removed) (2) Strivings from rotted oats (no hulling dust should be included.) (3) Two parts ground oats, two parts ground buckwheat, one part ground corn. (4) Equal parts ground oats, ground barley, and ground buckwheat. (5) Two parts ground barley, two parts low grade flour, one part wheat bran."

'"The ground meal should be mixed to a thin porridge with thick sour skim-milk or buttermilk. On the average 10 pounds of meal require from 15 to 17 pounds of sour skim-milk. A small quantity of salt should be added to the mash. When sufficient st-milk or buttermilk cannot be obtained for mixing the mash, a quantity of animal or raw vegetable food should be added to the fattening ration. The chickens should remain in the fattening crates for period of 24 days, more or less, depending on the conditions of the bird. Before they are placed in the crates they should be well dusted with sulphur to kill the lice. They should be again sulphured three days before they are killed. THE FIRST WEEK.—It is necessary to feed the chickens lightly the first week they are in the crates. A small quantity of the fattening food should be spread along the troughs, and as this is eaten more food is added, but not as much as the chickens would consume. The food should be given three times a day, and after feeding the troughs should be cleaned and turned over. The chickens should receive fresh water twice a day, and grit two or three times a week while in the crates. THE SECOND WEEK.—The chickens should be given twice a day as much food as they will eat. Half an hour after feeding the feed troughs should be cleaned and turned over. THE LAST TEN DAYS.—At the commencement of this period one pound of tallow a day should be added to the mash for every 70 chickens. The quantity of tallow should be gradually increased so that at the latter part of the period one pound of tallow is fed to 50 chickens. The chickens should receive the fattening food twice a day. Yours very truly, W. A. CLERMONT, Publication Clerk.

THE ACADIAN.

WOLFVILLE, N. S., JULY 27, 1904

Willow Bank Cemetery

DEAR SIR:—Will you kindly advise the readers of your highly valued paper concerning the obtaining of Willow Bank Cemetery, on what conditions, when, for what, and for how much, and oblige

INTERESTED.
[The above enquiry is no doubt the result of the interest lately manifested in the condition of the cemetery. The ground which comprises the cemetery was donated to the residents of Ward 8 in the year 1880 by the late John W. Barrs, on the condition that it be fenced, ornamented and laid out in lots for a cemetery. In our next issue we shall give fuller details of the transaction.—Ed.]

World Wide.

The general opinion now is that the Sydney strike is broken and will soon be over.

Ex-president Paul Kruger died at Clarens, Switzerland, on July 14th. He was chief executive of the Transvaal republic from 1883 until its end in 1902. He will be buried in the Transvaal.

The London Express draws the following conclusions from the recent experiment of England's combined naval and military maneuvers. The volunteer force is not well trained; the army is too large, too expensive and inefficient; the navy and torpedo boat flotilla guard the existence of the empire; no enemy can effect a landing on English soil.

The Baptists of the North-West have brought an action for libel against the Winnipeg Telegram in consequence of charges made by the paper against one of their ministers, Rev. W. C. Vincent.

A specimen of the shell Bessis Procipitoides, or as the Scotch call it, the "Roaring Buckie" was recently found near Montreal in a strata of sand gravel. It is probably a relic of that remote period when the glacial area extended as far south as the Hudson.

The wreck of the Canadian steamer Islander, which was lost in the Alaskan waters three years ago with one hundred persons on board, has been located by the Neptune Salvage Co. She will probably be raised and her treasure of gold, amounting to about \$70,000, recovered.

St. John Exhibition.

From numerous and conclusive indications, this year's St. John, N. B. Exhibition, 17th to 24th September, will be the best held yet. The demand for floor space has been altogether unprecedented and has taken on all the dimensions of a great enterprise.

The prize list is now being sent out. A number of extra classes and special prizes have been added making it very attractive to the agricultural community. Those desiring a copy should send in their name and address to Manager Hubbard of St. John, N. B.

Mr. Fred G. Spencer, whose name is associated in the public mind with the bringing to the provinces of Miss Jessie Macfichlin, Madam Nordica, and other musical treats, has just returned from a tour through the principal music centres in America, where he has selected for the Exhibition Association the very best amusement features available at an expenditure greatly exceeding that of any previous year. His tour has been eminently successful. The aggregation secured will, undoubtedly, prove the most attractive ever seen in St. John.

It includes Adzie's Lions, the most thrilling and popular show seen during recent years. Mr. Spencer's enviable reputation as an amusement provider is certain to be still further enhanced by this his latest venture. The famous English Glee Club, and the Vitagraph Moving Pictures have also been secured.

The fame of the Meister Singers is world-wide. They stand alone in their class, and were great favorites with the late Queen as they now are with our King.

The Vitagraph Co., being the largest manufacturers of films in the world, naturally carry with them when touring, the latest, tallest and best selection of pictures. All no-table Russo-Japanese War Episodes occurring between now and September will take their first appearance on the screen at the St. John Exhibition.

One of the chief features of the Fair will be the Daily Horse Show at which the leading breeders in all the horse show has ever shown a proven a splendid exhibition feature; and the St. John Exhibition Association guarantees a good horse show.

Baby's Own Tablets.

For Weak Sickly Children During the Hot Weather Months.

Thousands of infants and children die through the hot weather months, because summer complaints and stomach troubles cause suddenly, and mothers do not have the means of hand to promptly check and care them. In homes where Baby's Own Tablets are used these little lives can be saved. So based in the land where there are children should be without the Tablets. They promptly cure all stomach and bowel troubles and give relief to teething children, and the mother has a guarantee that they contain no opiate or harmful drug. You can crush the Tablets to a powder and give them with perfect safety to a new born babe. Mrs. S. M. Black, St. Peter's, N. S., says: "I have used Baby's Own Tablets for most of the troubles from which little ones suffer, and I find them the best medicine I have ever used." All medicine dealers sell these Tablets or you can get them by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Another Blaze.

Shortly before 12 o'clock last Saturday night the Fire Co. was again called out, this time in consequence of a blaze discovered in a small out-building near Mr. K. E. Harris' store. In a remarkably short time the fire men were on the spot and had two streams of water on the fire. The building was in a decidedly favorable location for producing a big fire, being within a few feet of buildings on each side, and was filled with paper, straw, oil, tar and other combustible materials. Fortunately there was no wind and owing to the promptness of the firemen the blaze was soon subdued and what might easily have been a big conflagration was averted. Mr. Harris' store, the office of the Wolfville Coal and Lumber Co., and other buildings were in great danger, but were saved without injury. The cause of the fire is unknown, but as the building was not locked was probably caused by some person throwing down a lighted match. Fires are getting to be uncomfortably frequent in Wolfville, and the town is to be congratulated on having a Fire Company able to promptly and energetically meet every emergency.

The Clifton House.

The Clifton property at Windsor, which Judge Haliburton, "Sam Slick," owned, and where he lived for many years, has been leased by John W. Churchill, Hantsport. His present proprietor, to George N. Towell, who intends to keep a first-class house. No doubt it will prove an attractive place to American tourists and to other travellers, who like quiet romantic and picturesque surroundings. G. N. Towell was for five years the steward of King's College.

The Clifton property contains two and one-half acres of orchard, and a grove of trees between four and five acres in extent. The house has been put in thorough repair by Mr. Churchill at a large cost. All the rooms have been painted and papered. There are twenty rooms in the house, fourteen bed rooms. The parlor, sitting-room and smoking room are all spacious. The bath room is nicely fitted up. There is hot and cold water and telephone connection with Windsor and the outer world. The house presents some curious features of olden times—the large window frames with their quaint eight by ten panes of glass. The great fire place in the dining room where in the days of old, large logs of wood were burned and can be yet if so desired, the copper boiler let into the big chimney to furnish hot water, and the old-fashioned tank built to last forever, as such things were constructed in the days of our grandfathers, and the four old-fashioned book cases which belonged to Judge Haliburton and which form part of the furniture of the Clifton House, are some of the old time objects which attract attention and interest.

The house was formally opened to the public a few days ago by Mr. Towell. He procured the services of the 68th regimental band, and at eight o'clock the band marched to the Clifton grounds, where during the evening it played acceptably. It was a pleasant evening after the great heat of the day, and a large number of people listened to the music and walked about the beautiful grounds. Seats were provided. Ice cream, cake and temperance drinks were furnished, and a number of the spectators were shown all through the house by Mrs. Towell.

The Crops.

B. W. Chipman, secretary for agriculture, issues the following synopsis of crop prospects in Nova Scotia:—The crop reports for this year were made returnable to the office of agriculture during the first week in July. Upward of 100 reports have been received, these reports cover the most important agricultural districts in the province and may be considered as giving a fairly accurate estimate up to the date of their make-up. Although the winter was remarkably cold, containing nearly with heavy snow falls, perhaps on the whole the coldest winter the province has had for many years, notwithstanding this fact opened early, and in many parts of the province growth was remarkably good up to June 1st. Although in a few districts in several counties growth was retarded by cold and lack of rain, and the average reports from all parts of the province show considerable falling off in most crops, refreshing showers during the week beginning July 11th in Cape Breton considerably improved the outlook for grass on low lands and very much brightened the prospects for grains and roots. But in many parts of the province dry weather continuing so long will leave the hay crop considerably under the average. According to the reports received, the total for hay on upland for the whole province is 75 per cent of a full crop. On dyke land 83 per cent, and on intervals 83 per cent, and total average for the province for potatoes and roots is 87 per cent. Oats and other grains, 90 per cent. Roadways 83 per cent. Should rain come soon, hay on low land and intervals may be somewhat increased, and it is possible that some reasonable crops during the next few weeks would bring potatoes and roots close up to the average. The indications are that the fruit crop will be very good indeed, and that there is some increase in the number of dairy and beef cattle.

The municipalities of the French River and Ottawa Valley want a canal made from Georgian Bay to Montreal for the grain traffic.

Mid-Summer CASH SALE!

In order to make room for Fall Stock the following lines must be cleared out at a

SACRIFICE, DRESS GOODS

In Tweeds, suitable for fall or light winter wear, Regular prices \$1.10 to \$1.50, now 75c. and \$1.12 per yard.

THE ACADIAN.

WOLFVILLE, N. S., JULY 23, 1904.

Cleanings by Acadian News Gatherers.

The chief interest this week has centered in the murder trial at Kentville, which will probably occupy the whole week.

The Baptist service next Sunday will be in College Hall, and will be conducted by Rev. Mr. Adams.

House to let—One lately vacated by Mrs. Mitchell. Nine rooms and bath, set range. Apply to L. W. Sleep.

The electric fire alarm has been augmented by the placing of an extra bell in the residence of Mr. L. W. Sleep.

The subject of Rev. H. F. Adams' sermon next Sunday morning in College Hall will be: 'Canada for Christ, and Christ for Canada.'

The nineteenth annual convention of the Kings County Sabbath School Association will be held in Berwick, on Friday, September 10th.

House to rent—Next the campus. Possession given August 15th. Apply to Johnson H. Bishop.

Mrs. (Capt.) Ryder, who has been living in town since last summer, has taken part of Miss Gormley's house, Linden avenue, and will reside there after September 1st.

Seven-room dwelling with bath, &c. in good location. Apply to J. F. Herbin.

While playing with other children last Friday evening a little daughter of Mr. and Mrs. J. F. Herbin fell and broke a bone in her arm near the elbow. She is now safely on the way to recovery.

The effects of sunburn, and that 'sore' feeling after shaving, banished by Parker's Witch Hazel Cream—25c at Parker's Pharmacy.

There will be a meeting of Court Blomidon, I. O. F., in Temperance Hall next Tuesday evening, when important business is to be transacted, including the installation of officers. Members are urged to be present.

One of the hydrants on Front street, which was broken some time ago, has been replaced by a new one. A number of extra hydrants of an improved pattern are also to be placed on Main street.

As it is the purpose of the Council to require all other parties to connect their premises with the sewer in the near future C. M. Gormley will be pleased to furnish estimates on a guaranteed job. Call early and avoid the rush.

At five of the seven Baptist Associations of the Maritime Provinces, resolutions re-affirming the faith of the Baptists in the inspiration and infallibility of the Bible, have been passed. The other associations took no action on the subject.

There are no particular directions to follow in the making of 'VIM TEA'. Just make it the same as you have been in the habit of making Tea all your life. If you find 'VIM' better value, do the packers of this kind, and re-recommended 'VIM TEA' to your friends.

There has been some talk of organizing a cricket team here, and we trust it may prove to be successful. In former years, Wolfville's cricket teams were among the very best in the Province, and we believe there is sufficient material here to sustain the record.

To Let—Furnished House on Westwood Avenue. Six rooms, besides bathroom, pantry and attic.

Apply to Miss Richardson, Wolfville, N. S.

It is hardly necessary to call attention to the large adv. of Mr. J. S. Heales, which appears this week, as it speaks for itself with no uncertain sound. Mr. Heales is making a big inducement to customers, and as his stock is all new, there will no doubt be a ready response.

Thermometer readings at Parker's Pharmacy

Monday " 18th	84	70
Tuesday " 19th	83	73
Wednesday " 20th	85	74

We pay 20c. lb. for good washed Wool in exchange for goods. Lowest cash prices on all goods.

J. D. CHAMBERS.

Next Sunday will be the last opportunity for making up the \$500 allotted to the Wolfville Baptist church for the Convention Fund, and as the subscription is now \$500 in arrears the members of the congregation are asked to make the necessary effort to have the amount ready at that time.

The dwelling of Enos C. Bligh, of Waterville, this county, was burned early on Tuesday afternoon of last week, together with its contents. Mrs. Bligh was away from home, and Mr. Bligh was in the barn doing his chores, when the fire was discovered, too late to save anything.

The old delapidated plank-bridge for driveways, etc., ought to have become a thing of the past. Now is the time to have them replaced by a terra cotta bridge. G. M. Gormley, of this town, has on hand a supply of hard-glassed crock pipe, guaranteed against frost, which is excellently adapted for the purpose and cheaper in the end.

The excursion to Parrsboro yesterday under the management of the Oddfellows, was not very largely patronized, owing to the busy season. A very nice company, however, participated the greater number of whom were tourists. The day was a delightful one, and as all the conditions were favorable a pleasant day's outing was no doubt had.

The calendar of Acadia University and affiliated institutions, for the year 1904-1905, has been received. The volume contains: Part 1—Acadia University; Part 2—Acadia Seminary; and Part 3—Acadia Collegiate Academy. It is neatly printed, well illustrated and contains the usual fund of interesting information concerning these well-known educational institutions.

Barque Swanses Abandoned.

The barque Swanses, which left Hautport May 16th for Buenos Ayers, was abandoned at sea, and the captain and crew, ten in all, were picked up by a steamer, and are now on their way to England. The Swanses loaded at Kingsport last year, and made several attempts to sail, finally getting frozen in. She was built in Hautport, in 1877, and was 745 tons. Captain G. H. Suttie, was her commander. Captain H. Masters, of Hautport is the managing owner.

Beach Echoes.

The fine weather and high tides during the past week have been very favorable for picnic parties, and in consequence the Beach has been visited by a goodly number of pleasure seekers.

Although the season is not far advanced a large number of people have visited the Beach, and there are prospects of a good picnicking summer.

Mr. and Mrs. J. D. Chambers and family, of Wolfville, arrived at the Beach on Thursday and are occupying Glen Cottage.

Miss Nellie Crawley and Miss Edith Tobin are visiting at Point Pleasant.

A private party from Coldbrook visited us on Thursday.

Miss Dixon, of Wolfville, accompanied by her brothers and sisters, are occupying Fern Cottage.

A party from Steam Mill Village picniced here on Saturday and apparently spent a very pleasant day.

Dr. and Mrs. Trotter and family arrived at Clear View Cottage to-day, where they will remain the season.

Regarding the Wolfville Laundry.

DEAR MR. EDITOR:—Permit me space in your valuable paper to inform those whom it may concern that the Directors have made a change in the management of this Laundry, so that for an indefinite period the mechanical part of the work will be under the supervision of Mr. W. and Mrs. Nichols, who have returned to this Province after over ten years' experience in Laundries in the United States. We therefore confidently hope that all goods entrusted to us will be attended to with care, thoroughness and dispatch.

In future the revised Price Lists which have just come to hand will be used, and all bundles containing less than 25 pieces will be charged as per this new reduced price-list.

In Family Washes the charges will be for white flat work, from 25 to 100 pieces, (including large as well as small pieces) 1 cent each. Rough dried work including un-clothing, &c., 2 cents each and if ironed 3 cents each.

Finished, starched and ironed goods as shirts, shirt waists and dresses, will be charged as per list or less, it being understood that in all cases where two prices are printed the lower of the two will be used when possible. Weekly payments when possible are desired. We thank those who have given us their support and on behalf of the shareholders ask that our people generally may decide to give this new enterprise their patronage.

Yours very truly,
J. B. Tingley
President

Wolfville, July 20th, 1904.

Testing Dairy Herds.

The Department of Agriculture, Ottawa, has for some time been recommending the establishment among Canadian dairy farmers of cooperative testing associations, somewhat similar to those which have had such a marked effect in increasing the milking capacity and reducing the cost of production in Danish dairy herds.

Under the direction of the Minister of Agriculture, an object lesson along that line is now being given in the district about Cowansville, Que., with the Government Cool Curing Room as the centre where the testing is done and the records kept. Arrangements have been made whereby 82 farmers in the vicinity undertake to keep accurate records of the daily milk yield of each cow in their herds. Samples of both morning and night's milk are taken three times a month and tested for butter fat at the Cool Curing Room. The milk record sheets are collected monthly, and these are compared with the books of the cheese factories to which the farmers send milk, so that a fairly efficient check on accuracy is provided. Some 1450 cows are concerned in this Cowansville cow census, which shows that the large dairymen of that district are alive to the importance of weeding out the unprofitable producers. This testing association is, as yet, merely in the experimental stage, but if it works out satisfactorily, it will doubtless lead to a considerable extension of the movement.

Challenge.

As it has been said by some persons that my claim of holding the world's record for one mile walk (6 m. 12 sec.) cannot be maintained, I hereby challenge any man of my age, or any age, to walk a mile under the usual conditions.

After you have tried it you will understand why VIM TEA has such an enormous sale.

The Sweetest Echo.
IT ANSWERS A CALL AT A TOMB AT AGRA, IN HINDUSTAN.
One of the finest echoes of which we have record is mentioned by Bartolus, in his notes on the Thebas of Nakh, where Coblenz and Bingen, where an echo of the sea was repeated seven times.

At Milan is an echo that reiterates the report of a pilot from fifty to sixty times. In a cave of the Pantheon it is said that the guide, by flapping his coat makes a noise equal to the report of a twelve pounder. Pliny speaks of a cave in Dalmatia where a stone tossed in would raise a perfect storm.

The sweetest echo in all the world answers a call at the side of the tomb of Nur-Mahad d'Jehanghir at Agra. The guide raises the cry, 'Great is God, and Mohammed is his prophet—Allah! Allah!' At first three distinct musical notes are heard in the echo. These reverberate round the dome and ascend until they reach the smaller dome, where they reunite and escape from the temple as one tone.

Man's Most Critical Age.
Very often the vital resources are small at forty-two, but if not then, between fifty-seven and sixty-two years of age there is a slowing down and loss of vitality. It is important that this transient period of decay should be checked; strength must be imparted to the tired brain, the weakened nerves must be fortified. The wise man will use Ferrozene whose potency is particularly applicable to these critical periods. Ferrozene quickens the whole being, imparts vigor and power, pushes back the onset of senility in a very manifest way. It's because Ferrozene gives strength, vitality, and vigor that it is useful to old men. Try it. Price 50c.

Illustrious Stammerers.
Esop, Virgil and Demosthenes are generally known to have been stammerers, but many others suffering from the like infirmity occupy an honorable place in the historical gallery.
The first of these whom we can recall is the prophet Moses. He, according to tradition, was a stammerer whose powers of speech were so limited that his brother Aaron always accompanied him, being specially commissioned to speak in his name and stead.
'I am not eloquent,' protested Moses, 'neither heretofore nor since thou hast spoken unto thy servant, but I am of slow speech and of a slow tongue.'

Claudius Maelius II, emperor of the east; Mohammed-el-Rasser, king of Spain during the Moorish domination; and Eric, king of Sweden, stammered notably.
Among the eighteen rulers of the name of Louis who have reigned in France we find only one, Louis le Begno, although he was by no means the only French sovereign, who stammered.
Catarth is Certainly Curable.
In fact it is one of the most curable diseases if fragrant healing Catarrhizone is used. No matter how long you have suffered with catarrh you can be perfectly cured by inhaling the antiseptic vapor of Catarrhizone, which strikes at the foundation of the trouble and establishes such a healthy condition in the system that Catarrh germs simply can't exist. 'I suffered for years,' writes S. H. Downie of Plattville, 'My nostrils were always stuffed up and I had a most disagreeable hacking cough. Catarrhizone cured me completely.' Catarrhizone never fails. Two month's treatment \$1.00; trial size 25c.

Weatherwise Birds and Fish.
The sea gull makes a splendid living barometer. If a convoy of sea gulls fly seaward early in the morning, sailors and fishermen know that the day will be fine and the wind fair, but if the birds keep inland, though there be no haze hanging out toward the sea to denote unpleasant weather, interested folk know that the elements will be unfavorable. Of all weatherwise fish the dolphin is the most remarkable. During a fierce gale or a storm at sea the mariner knows that the end of it is near if he can see a dolphin or a number of that fish sporting on the high sea waves.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.
The universal success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is always pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by G. V. Rand.

Workers in Bohemia.
In Bohemia every workman, of whatever sex or age, must have a work book, which contains his personal description and history and his employer's indentments. Permission to travel in search of work must be endorsed by the local authorities. In changing locations a certificate from original place of residence must be secured and filed at the new location.

No such workers will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by G. V. Rand.

GLEANED BY THE WAY.
'How old is Miss Jenkins?'
'I don't know, but if you can find out the age of her twin brother, she is just three years younger.'
The man who whispers down a well.
About the goods he has to sell, Will never make the shining dollars, Like he who climbs a tree and hollers.
'Here you is in trouble ag'in,' said the colored deacon. 'Didn't I tell you to fight yo' way only wid de sword er de Sperrit?'
'Yes, suh,' replied the pentent, but de razor wuz so handy.'

CASTORIA.
The Kind You Have Always Bought Bears the Signature of
Customer—Are my clothes ready?
Tailor—Not yet, sir.
Customer—But you said you would have them done if you worked all night.
Tailor—But I didn't work all night.
Why, Ethel, you don't mean to tell me you want to marry that bald-headed Professor Wisemanman?
'It is true he is bald,' said Ethel, but think how many young men of my day are bald on the inside of their heads.'

CASTORIA.
The Kind You Have Always Bought Bears the Signature of
Over in Boston little eight-year-old Jimmy Spry surprised his teacher with this outburst of confidence:
'Teacher, my mother is away. I was out to dinner last night; goin' out to dinner to-night—goin' where I please on Sunday; hain't had a bath for two weeks.'

Baddeck, June 11, 1897.
C. C. RICHARDS & CO.
Dear Sirs,—MINARD'S LINIMENT is my remedy for NEURALGIA. It relieves at once.
A. S. McDONALD.
Burt—I have no doubt you are sorry about your uncle's death, notwithstanding it brought you into a lot of money.
West—Yes; he was doing a good business you know, and if he had lived a year or two longer he might have let me a good deal more.
G. V. Rand will refund your money if you are not satisfied after using Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

Elderly Aunt Candelion you shook me when you talk of a wedding being 'pulled off.' You ought to be ashamed to use prize-fighting slang in speaking of so solemn a thing as a wedding.
Young Niece—You misunderstand me, Aunt Hepzibah. I said the wedding had been put off. But how did you know that 'pulled off' is prize fighting slang?
DR. A. W. CHASE'S 25c. CATARRH CURE... 25c.
'Now little boys, can you tell me,' said the teacher, 'what the effect of bucco is upon the system? Little Billy, who had wrestled with his first chess promptly held up his hand. "Well Billy, what is the effect? "Makes ye wish ye wuz dead."

CASTORIA
For Infants and Children.
The Kind You Have Always Bought Bears the Signature of
Visitor—You look very much like your pa.
Johnny—Do you think so? Visitor—You take after him very much. You have got his hair.
Johnny—Tain't me what takes after pa and gets his hair. It's ma who does that when he comes home tight.
Surprise to Doctors.
Most doctors are astonished at the results obtained by Dr. Chase's Ointment as a cure for skin diseases, such as itching and burning skin diseases, which are often considered well-nigh incurable by word of mouth from friend to friend. The exceptional merits of Dr. Chase's Ointment have gradually become known until it is now standard throughout the world and has a record of cures unparalleled in the history of medicine.

Johnny and Tommy were playing tag in a street where there was fast driving, and where they were forbidden to go.
'Hello,' said Johnny, 'there comes a spanking team.' 'Where?' replied Tommy.
'Right across the street, there; it's your mother and mine, and we'd better out sticks and get out of this' which they did, and their mothers after them.

Rounds Out the Form.
Persons who have become pale, weak and thin by overwork, worry or disease find that Dr. Chase's Nerve Food is wonderfully effective in forming new blood, restoring a healthy glow to the complexion and rousing out the form. You will soon feel the benefit of this restorative treatment and can prove it by noting your increase in weight.
She—Why do you think Miss Buldo isn't intellectual when you haven't even met her.
He—Appearances are against her. She's a pretty.
Blood Purse often Results.
From caring coats with razors. Wise people use Putnam's Painless Corn and Wart Extractor, the standard cure of America and Great Britain for all sorts of corns, warts and bunions. The only Putnam's.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is Pleasant, it contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Real Estate For Sale.
Within the town of Wolfville and neighborhood:
1. Shop and premises on Main street next west shop at corner of Main street and Highland avenue, now in occupation of J. W. Selfridge.
2. Tract of land containing about 3 acres on Main street, directly opposite 'Thornleigh,' late residence of John W. Bars, deceased. This property measures upwards of 300 feet on the street and is well adapted for building purposes.
3. About 13 acres of dyke land just below and adjoining on the north of the last mentioned land.
4. About 9 acres of land on west side of Highland avenue, containing about 150 apple trees just coming into bearing. This property would make fine building lots.
5. On the Wickwire dyke, five and a half acres of land near the division dyke.
6. In Grand Pit, buildings and premises lately occupied by John Robinson. This farm contains 30 acres of land, of which 10 acres are in orchard. There are 600 apple trees, the greater number just coming into bearing, besides pear, plum and peach trees.

And patronize Home Industry.
We were walking up and down the long platform of the railway station at New London one bright spring morning, and enjoyed the fresh breeze that blew in from the Sound while we waited for the Vermont Central train to take us on the northward.
There were other strollers besides ourselves, and we particularly noticed a handsome and dainty young athlete for his scrupulous neatness, his quiet demeanor, and his firm, erect carriage.
Presently he was accosted by a half dozen jolly young fellows, who were surprised and delighted at meeting there. They plied him with happy, boyish questions. "Where have you been?" "How are you getting on?"
We dropped down on a settee nearby, amused at the merry, lively chat. Presently some one offered our athlete a cigar.
"Thank you, no," he said. "I have given up smoking." And then he added, laughing a little, and showing a set of very white teeth: "The fact is, when I reached home there seemed to be no place for me to smoke, and I was under the necessity of giving up the habit."
"How was that, John?"
"Well, you see, I was glad enough to get home again, and after supper I went into the library and lay down on the sofa in front of the open fire, and, lighting a cigar, prepared for a smoke. Pretty soon ma came in. Not my own mother; she died when I was a little thing; but this one, ever since my father married her, has made a pretty and pleasant home for me. As she walked along, I heard the soft rustle of her dress, and then I heard her sniff, sniff, and presently she said, 'I fancied I smelled smoke.' I held up my cigar, and confessed I had been smoking a little, off and on, for some time."
"Oh, is that so?" she said gently. "Well, Johnny, I don't know that it is surprising, but please do not let me see you smoking on the street or when we are out anywhere. I don't think I could bear that. And I said, 'Certainly not, ma. You can depend on me.' But I threw my cigar into the fire, having lost my enjoyment of it somehow, although she did not scold."
"Pretty soon my father came in, and he said, directly: 'Ma tells me you have learned to smoke, my boy. Well, I suppose I ought to be surprised that you didn't learn sooner, but don't let me see you smoking around the house.' And I said, 'Certainly not, sir,' and was glad he had taken it so pleasantly.
"Before the evening was half over, my Uncle Tom, who is my father's partner in business, strolled over for a little chat, and as he took a seat looked me over in a way he has, as if he were taking an account of stock. Ma said in her soft voice, 'Johnny has a new accomplishment since he went away. He has learned to smoke.'
"Dearme! is that so?" exclaimed Uncle Tom. "Well, my boys will persist in burning up their hard earnings in a mystery to me; but you won't let me see you smoking around the factory, I hope. I shouldn't enjoy seeing my nephew and bookkeeper and prospective partner about the works with a pipe or cigar in his mouth."
"Uncle Tom is a great go-to-meeting man. One evening he asked me to go with him, and as I had no excuse to offer, I went. There was a collection, and Uncle Tom said to me: 'I used to use tobacco and beer, but since I left it off I have put what money I save in that way into the

THE WHITE RIBBON.
"For God and Home and Native Land."
Conducted by the Ladies of the W. C. T. U.
OFFICERS.
President—Mrs J. B. Hemmon.
Vice-Presidents—Mrs L. Sleep, Mrs I. B. Oakes.

Literature and Press Work—Mrs de Biola.
Flower Mission—Mrs Munro.
Narcotics—Mrs M. P. Freeman.
Health and Heredity—Mrs De Witt.
Social Purity—Mrs John Vaughan.
Mother's Meetings—Mrs Trotter.
Next meeting Thursday, July 28th, at 3:30 p.m., at the vestry of the Methodist church. The meetings are always open to any who wish to become members. Visiting members of other W. C. T. Unions are cordially welcomed.
Boycott the Cigarette!
The cigarette! The cigarette!
Most subtle foe that youth has met!
We boys should take alarm!
A dangerous thing it is, though small,
For in its tiny folds lie all
The elements of harm.
The cigarette! The cigarette!
Oh, listen, boys, and don't forget!
(The half has never been told.)
There is a drug within it placed,
To which directly may be traced
Disorders manifold.
The cigarette! The cigarette!
To smoke it, boys, is to beget
A thirst for liquor vile;
Within the victim's weakened will
Love for the products of the still
Becomes entrenched the while.
The cigarette! The cigarette!
To smoke it, boys, I say!
Let every boy in every cot
Decide that he will use it not!
Boycott it, boys, to-day!
Why Johnnie Didn't Smoke.
We were walking up and down the long platform of the railway station at New London one bright spring morning, and enjoyed the fresh breeze that blew in from the Sound while we waited for the Vermont Central train to take us on the northward.
There were other strollers besides ourselves, and we particularly noticed a handsome and dainty young athlete for his scrupulous neatness, his quiet demeanor, and his firm, erect carriage.

We dropped down on a settee nearby, amused at the merry, lively chat. Presently some one offered our athlete a cigar.
"Thank you, no," he said. "I have given up smoking." And then he added, laughing a little, and showing a set of very white teeth: "The fact is, when I reached home there seemed to be no place for me to smoke, and I was under the necessity of giving up the habit."
"How was that, John?"
"Well, you see, I was glad enough to get home again, and after supper I went into the library and lay down on the sofa in front of the open fire, and, lighting a cigar, prepared for a smoke. Pretty soon ma came in. Not my own mother; she died when I was a little thing; but this one, ever since my father married her, has made a pretty and pleasant home for me. As she walked along, I heard the soft rustle of her dress, and then I heard her sniff, sniff, and presently she said, 'I fancied I smelled smoke.' I held up my cigar, and confessed I had been smoking a little, off and on, for some time."
"Oh, is that so?" she said gently. "Well, Johnny, I don't know that it is surprising, but please do not let me see you smoking on the street or when we are out anywhere. I don't think I could bear that. And I said, 'Certainly not, ma. You can depend on me.' But I threw my cigar into the fire, having lost my enjoyment of it somehow, although she did not scold."
"Pretty soon my father came in, and he said, directly: 'Ma tells me you have learned to smoke, my boy. Well, I suppose I ought to be surprised that you didn't learn sooner, but don't let me see you smoking around the house.' And I said, 'Certainly not, sir,' and was glad he had taken it so pleasantly.
"Before the evening was half over, my Uncle Tom, who is my father's partner in business, strolled over for a little chat, and as he took a seat looked me over in a way he has, as if he were taking an account of stock. Ma said in her soft voice, 'Johnny has a new accomplishment since he went away. He has learned to smoke.'
"Dearme! is that so?" exclaimed Uncle Tom. "Well, my boys will persist in burning up their hard earnings in a mystery to me; but you won't let me see you smoking around the factory, I hope. I shouldn't enjoy seeing my nephew and bookkeeper and prospective partner about the works with a pipe or cigar in his mouth."
"Uncle Tom is a great go-to-meeting man. One evening he asked me to go with him, and as I had no excuse to offer, I went. There was a collection, and Uncle Tom said to me: 'I used to use tobacco and beer, but since I left it off I have put what money I save in that way into the

Lord's work, and it gives me more pleasure than I ever got from smoke or drink."
"I will do that, too, sir," I said. "I will follow as excellent an example for a year, and then, if I am as good as I will keep it up as long as I live."
So I began saving my dimes. I had to go to church to put them in the box, of course, and in that way I became interested in the religion I heard preached, and concluded that I needed it as much as anyone. So, boys, I am a Christian and a church member and I feel as if I had been getting on quite a little.
"I like your speaking out and telling us all about it," said the jolliest young fellow of them all. "It gives me faith to believe that you have got hold of something worth having."
"All aboard for the North!" shouted Conductor Doane. And the next minute we were moving rapidly away leaving the group still talking.—Mrs Annie Preston, in "Onward."

Important Time in Every Girl's Life.
Is Between Fifteen and Eighteen Years of Age—How to Avoid the Dangers that Arise During this Period.
The mental activity of school life, coupled with the terrible strains that must come during these years, taxes the vitality of even the strongest. A girl at this age often does not understand the physical change she is undergoing. She will in all probability be nervous and puzzled. She should have the benefit of good motherly advice and a long treatment of Ferrozene, which will supply new energy to bear her safely past the critical period. Ferrozene is the best remedy to take in early womanhood, because it contains so much nerve and blood nourishment. It corrects all damage, cures bearing-down pains, nervousness, and prevents headaches. Ferrozene revitalizes young girls, gives them vim, buoyancy, strong nerves and healthy body. Every girl should use Ferrozene, and wise mothers will see that their daughters have the benefit of this health-giving tonic.
Mrs W. E. Michel, of Richmond, writes: "I can strongly recommend Ferrozene as a good tonic for young ladies. My daughter has been taking Ferrozene for the past six months, and it has worked wonders for her. Before using Ferrozene she was anaemic and nervous and had no strength. But Ferrozene has built up her whole constitution and given her strength and vitality. Of all the tonics I ever used I don't think one of them compares with Ferrozene. It certainly brings health and strength to young girls quickly."
There is no remedy half so effective as Ferrozene. A trial soon demonstrates its merit. Get Ferrozene from your druggist to-day and let it build you up. Beware of fraudulent substitutes and insist on having only Ferrozene. Price 50 cents a box, or six boxes for \$2.50. By mail, from the Ferrozene Company, Kingston, Ont.

His Last Hope Realized.
(From the Sentinel, Gelo, Mont.)
In the first opening of Oklahoma territory in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. He dug his traveling outfit and encountered much hot water, which together with the severe heat, gave him a very severe diarrhoea, which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him which was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a long night. That one little bottle worked complete cure and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by G. V. Rand.
