PROTEST WILL PREVENT CALL OF N. B. HOUSE

Mr. Justice Barry to Begin Hearing of the Restigouche Case on Feb. 16

SESSION CANNOT MEET FOR TWENTY DAYS

Little Prospect Therefore, of Legislature Opening Before Middle of March

Fredericton, N.B. Jan. 29--Wednesday, February 16th, is the date which has been named by Mr. Justice Barry for hearing at Dalhousie the election protest case entered by F. M. Anderson of Campbellton, against the election of D. A. Stewart and Henry Diotte, the opposition candidates, in Restigouche county at the last general election.

The order for the case to be heard at that time has been fixed in the office of Dr. T. Carleton Allen, registrar of the Supreme Court of New Brunswick, here. Formal notice has been sent to Sheriff Craig of Restigouche county, who has posted notices of the date of the hearing in the constituency affected.

In this connection it may be pointed out that this trial cannot legally commence within twenty days of the opening of the session of the Legislature. And as the House is supposed to meet on either February 24th or March 4th, will be seen that the hearing must be postponed until three weeks after prorogation. Thus the question will arise as to whether the members declared elected for Restigouche will be able to take their seats for this session.

Queried on the situation last night, Premier Foster stated that he had not heard of Justice Barry's order until informed by The Standard. In all probability, he said, the Legislative session would not be called until such a date in March as would make all proceedings conform to the statute requirements.

ORGANIZING ORANGE LODGES
Rev. J. A. MacFarlane M. A. of Quebec, Grand Organizer of the Provincial Grand Lodges of Quebec and New Brunswick spent last week in the Miramichi district in the interest of the Orange Order.

Mr. MacFarlane is a scholarly and challenging speaker and on Wednesday evening conducted the Prayer Meeting in St. James Hall, Newcastle after which he delivered a lecture in the interests of the Orange Lodge. On Friday evening he was present with the local Orange Lodge members and gave them a stirring message. He continued his work among the lodges of Douglastown and Loggieville during the week. On Sunday Mr. MacFarlane conducted the service in Knox Church, Loggieville in the morning and in St. Luke's, Chatham in the evening. At a mass meeting held in St. Andrew's Church, Sunday evening, after the regular service, he delivered his striking address on the Story of the Christian Church in Ireland.

ARRANGING FOR SPECIAL TRAIN TO CAMPBELLTON

Miramichi People Want to See the Big Match in Campbellton on Feb. 9th

Plans are now on foot to arrange for a special train of engine and four passenger cars to be run from Chatham to Campbellton for the big Chatham-Campbellton hockey game in Campbellton on February 9th, when the final decisive game in the N. B. Hockey League will be played, for if Campbellton should win its game with Fredericton, it would still have a chance to tie the champions by a win in their home rink.

For this reason the game is bound to be the best of the good series and everybody would like to see it. By chartering a special train and getting a large number to go on this train, the committee in charge can arrange to give the round trip at a lower price than the railway charges, and in addition the special train will leave here at a more convenient hour than the regular trains, and will also return shortly after the game at a much better hour and on more certain time than the Maritime.

"SHORTY" VENO GETS CHATHAM IN WRONG

Fredericton, N. B., Jan. 28--Officials of the Fredericton Hockey Club upon their return from Chatham Thursday, stated that a protest had been lodged before the game started last night with Frank Brown, of Moncton, who was the referee.

It is understood the protest is based upon the claim that Stanley Veno recently mentioned for a try-out with the Canadiens of Montreal, was ineligible to play with Chatham, because he had given up his residence in that town when he went to play with the Moncton team in the Eastern League. It was also said the protest was necessary to protect the teams' amateur standing and had been ordered for that reason.

Veno's eligibility to play for Moncton was questioned in the Eastern League and at least one of the games he played there was protested by the Charlottetown club.

Quebec, Jan. 27--Reports today on the new liquor legislation by the Taschereau Government announce that there will be no private wholesalers in the province, that bootlegging and other illicit forms of selling will be punishable by imprisonment without other option; and that there may be a drunkards' "blacklist" containing the names of habitual or dangerous drunkards.

There will be no liquor exported from Quebec province to other parts of Canada.

Every drop of spirituous liquor that passes through the bonded warehouses of the province will be the property of the Government and they will exercise complete and absolute control over the distribution.

VENO BOYS IN LIMELIGHT

Montreal, Jan. 28--Vineault, better known as Veno, reported to be a shifty forward from Chatham N.B., and engaged by George Kennedy as a new man for the Canadiens, has mysteriously disappeared, says the Montreal Star. The paper adds Kennedy sent him his transportation money and Veno reported on Tuesday, to the office of the Canadien club, but the managing director was in New York and his representative told the Chatham Man to go to an hotel and report again on Wednesday.

Since then he has not shown up and wires have been sent to Chatham to find out if he returned home.

Fredericton, Jan. 28--It is reported today that the maritime province branch of the Amateur Athletic Union of Canada, will carry on an investigation into the amateur standing of Stanley Veno, whose presence with the Chatham team this winter, caused a protest to be lodged. It is said that President A.W. Covey is looking into certain charges which reached him from Moncton several days before the game that Veno had played hockey under an assumed name and because of that the Fredericton team was ordered to play under protest.

ST. MARY'S ACADEMY VISITED BY BISHOP

On Thursday of last week the pupils of St. Mary's Academy had the pleasure of a visit from His Lordship Bishop P. A. Chiasson of the Chatham diocese. His Lordship was accompanied by Rev. P. W. Dixon, pastor of St. Mary's Church, and several priests from outside points. The reception to His Lordship was held at 3 o'clock, and was opened by an Overture, followed by a Latin "Ecce Sacerdos," after which flowers were presented His Lordship by Miss Blanche Murphy, who was attended by Miss Eileen Morrissey and Miss Dorothy Dalton.

The Salutation in French was read in a pleasing manner by Miss Alma Paulin. The National Anthem of the Academics was sung by the Convent, after which Miss Mona McWilliam read an address in English.

County Council Annual Meeting

(Continued from last week)

Newcastle, N.B., Jan. 22.—Northumberland Municipal Council met at 10 a.m. Warden Anderson in the chair. Minutes of yesterday's session read and approved. Warden named Couns. L. Doyle, W. Baldwin, R.J. Gill, John LeBlanc and E.J. Parker Committee to audit and pass accounts in July.

On motion the Newcastle School board was heard in reference to a piece of property near the Academy which was needed for a play ground for the children. On motion same was referred to the Land Committee to report back today.

On motion of Coun. McNaughton claims for 26 sheep killed by dogs, accompanied by affidavits were passed at \$16 for each sheep killed. Parishes that had not collected dog tax accounts be held until canvass. Committee recommended that the land desired by the Newcastle School Board be sold to the town for \$500, and that the bye-law relating to sale of county lands be rescinded in this case to allow the sale to take place at once. Carried.

On motion of Couns. Bransfield and Gulliver a resolution was passed asking the local government to bonus a doctor who would locate and practice in Hardwick parish near the Bay du Vin River

bridge. Coun. Bransfield explained the need of a physician in that vicinity, the nearest doctor was at Loggieville, and as the doctor there was a very busy man, many times it was impossible to have him go to Hardwick.

Coun. D. Doyle opposed the resolution. All parishes would be asking for the same assistance. Coun. Arsenault favored the resolution.

Coun. Allain said Alnwick was in much the same position as Hardwicke. It was only foolishness to ask the Government to make the grant, and he did not think the electors would back up the Council in asking for the grant. The local members could not get anything like this done as they were opposed to the government.

Coun. Bransfield said if you asked him there was damn little government at the present time. The local Government were in a tight place and would have to come to terms or come to the people. (Laughter).

On motion of Coun. E. Parker Parish clerk's account Derby passed.

On motion of Coun. Sutherland Parish Officers, South Esk. passed.

Conn. D. Doyle presented the estimates for contingencies for 1921 as follows.

No. 2—For all that part of the parish lying easterly of the Stymiest Road and not included in sub-

districts 3, 6 and 1, to Burnt Bridge, so called or the prolongation of the line northwest to the County line and prolongation of the line south east to the bay shore at or near Tabusintac Bridge.

No. 4—For the remainder of the parish not included in above named sub-districts, at or near Isaih Legere's at Portage River.

On motion of Couns. Gaynor and D. Doyle, no part of the estimates to pay revisors was to be assessed on the Town of Clatham or Newcastle.

Coun. Gaynor moved a resolution asking that the councillors who had voted against taking any action on the Board of Health assessment assume the responsibility for any costs or action that the local Government might take. This was ruled out of order by the Warden on the advice of the legal adviser.

Coun. Gaynor appealed from the ruling of the chair, but on a vote being taken the chair was sustained.

Coun. Harriman moved that constables be paid \$30.00 for taking patients to Provincial Hospital instead of \$20.00.

Coun. E. J. Parker thought scale was laid down by law.

Coun. Gulliver said that some constable got more, he was of the opinion that \$30.00 was reasonable.

THE ROYAL BANK OF CANADA

MAKING WOMEN IMMIGRANTS

CHRISTMAS DINNER, DORCHESTER HOUSE

In the midst of the city of Montreal, half-way between the uptown and downtown business districts, on the corner of two of the best residential streets, there stands, surrounded by large shade-trees, a substantial and comfortable old-fashioned stone dwelling-house. On one of the pillars of the wide hospitable looking entrance is a brass plate announcing the house to be Dorchester House, the Canadian Women's Hostel of Montreal.

This house is the Montreal headquarters of the association, which with the aid of the Government has undertaken to provide a welcome for the women of the old lands coming to make their homes in Canada, no matter what may be their nationality or religion. The house stands for a welcome to these women from beyond the sea, but it also stands for many other things, such as safety for even the most inexperienced traveller, business and assistance during the first days of natural bewilderment in strange surroundings, employment for those seeking work, and a friendly headquarters until the stranger feels herself firmly established in the new land.

During the five years the association has been in existence the hostel has proved a boon and its workers have befriended thousands of girls and women from the old lands. Since the removal in May, 1920, of the hostel to Dorchester House, its present beautiful and spacious quarters, the promoters of the work have been enabled more than ever to provide a veritable "home from home" for the girls and women newly arrived in Canada.

Montreal, a port city in summer and the great railway terminus of the east at all seasons, forms a sort of gate-way to all parts of the Dominion west of the Maritime Provinces. Thus the functions of the hostel include the entertaining for a few hours of rest, of travellers bound for the distant west of Canada.

An explanation of the methods of work of the hostel shows how every precaution is taken for the safety and comfort of the travellers. Before the boat arrives in dock or the boat train is due at the station the name of every unaccompanied woman and girl on the boat has been received at the hostel. The deaconesses of Dorchester House meet the boats and trains no matter at what hour they may arrive. The girls can identify them by means of a purple badge worn on the arm, and may be provided themselves with a small purple button by the immigration authorities. But whether wearing the official button or not, if in need of help of any kind, if without friends in the country, if disappointed in meeting expected friends, they need only speak to the westerly of the purple badge and their difficulties will vanish before wisdom and experience.

The strangers are straightway brought to Dorchester House where they may obtain comfortable rooms and board at a very small expense, or if domestic workers without employment remain 24 hours free of charge, during which time a post is found for them. Those going on to the west are taken to the hostel for a few hours rest while the procedure

DORCHESTER HOUSE

for the remainder of the journey is explained to them, and they are started on their way. In the meantime the hostel advises friends at the end of the journey of their impending arrival.

If no such friends exist a representative of the hostel in the nearest centre arranges for a church home for the friendless girl in her new home and through this connection ties of friendship are soon formed.

A casual visit to Dorchester House at any hour of the day or evening impresses the visitor that the house lives in every way up to its motto of a "home from home." The girls who have once had a taste of its hospitalities never fail, if in the city, to keep in close touch with its good times. There is no trace of "institution" about the home where the girls go and come in the freest possible manner under the kindly supervision of the Lady Superintendent who soon becomes also their mother-confessor and best friend in the country. The big lofty rooms are furnished with artistic yet homely taste, and the girls' own sitting-room, with big chairs and couches and a piano, is an ideal spot for friendly gatherings and jolly afternoons and evenings.

During the year of 1920 about 1,400 women and girls from the old land were entertained in some way by the hostel. Many of the girls came to Montreal without prospect of work, without connections or even acquaintances in this country. The employment bureau of the hostel found positions for those wishing to remain in Montreal without charge to them, and afterwards kept in touch with them to see that they were happy and contented and had met with fair treatment.

As the largest field by far for women's work in Canada is domestic service, the girls, if at all capable in that direction, can be placed directly in good homes in the city. If further training is necessary the hostel arranges for classes in house work, and a few lessons in Canadian methods of housekeeping, which may be obtained at the hostel, are very helpful to any of the overseas women.

No matter how comfortable the home, however, the girl alone in a strange community longs for recreation and the companionship of young people with a glimpse of faces from "over there." This is where Dorchester House again steps in. The house is open to the girls at all times and they may obtain any one of the three meals a day for the small charge of a shilling, a quarter in Canadian Money. The use of the recreation rooms is entirely free of charge. There is never a day goes by that the girls do not drop in for tea and a visit. Thursday afternoons and evenings are gala occasions every week, for Thursday is a half-holiday for the domestics in most Canadian homes. The girls come to tea alone or in groups, and the meal is not well over when the rugs are rolled back from the sitting-room floor and a dance is in full swing.

At all times the girls send their parcels, and get their mail at Dorchester House, and come with their troubles and sometimes "bring a groan and leave without it," in the words of the Lady Superintendent. In cases of illness the hostel arranges for the girls entering a hospital if necessary, and if a rest is all that is required the patient can arrange to stay at the hostel. At the Christmas season holiday feasts at Dorchester House are the order of the day. Several of the city churches, as well as the hostel authorities, provide entertainments for the girls, and sometimes from 150 to 200 guests attend these parties.

During the summer of 1920 "Cupid" made of Dorchester House his Canadian headquarters for a few weeks. In one week 100 engagements took place in the parlour of the hostel. The brides who had come over to marry their boys were met by the Deaconesses and brought to Dorchester House, where the marriage was solemnized, and a little wedding tea-party given to celebrate the occasion after which the pair were given a send-off to their new home, usually in the far distant west.

At Christmas, 1920, cards and letters poured in from all parts of Canada to Dorchester House, Montreal, from grateful girls.

Hands were on FIRE

A Remarkable Case of Eczema.

"My hands broke out," says Mrs. Hector McDonald, of Oyster Ponds, N.S., "into a fiery irritable rash which the doctor called eczema. When his treatment failed to check the trouble I tried various salves and so-called blood-purifiers. But I got steadily worse and what were just isolated sores at first became one large mass of eczema. For over a year this went on, and you can imagine my suffering.

"Then I got Zam-Buk and I shall never forget how it soothed the dreadful fiery pain and itching. Even the first box of Zam-Buk effected wonderful improvement. Day by day the sores lessened and died away until, in time, the last sore healed. Zam-Buk banished every trace of disease."

DICKISON & TROY, 'The Rexall Store'

County Council Annual Meeting

(Continued from page 2)

Coun. Arsenault thought Council could vote any extra amount they thought fit.

Couns. McKnight thought that it should be left as it was. Expenses were different from different parts of the County. Let the constables send in their bill and they would be paid any extra cost.

Coun. E. J. Parker an amendment that Sec'y-Treas. be authorized to pay \$10.00 extra for taking patients to Provincial Hospital, Carried.

On motion of Coun. Young parish clerk's account, Blackville passed.

The Jail Committee reported visiting the jail and finding it well kept, clean and tidy. That there were no prisoners in the jail, which is the first time such has been the case at any meeting of the Council for years.

Coun. F. D. Swin urged that a board of valuers be appointed.

The law provides that they be appointed every three years. There were at present no valuers in the county.

Coun. Bransfield could see no necessity of a board of valuers.

Coun. T. Parker said a board of valuers constituted a tribunal for appeals from assessors, and should be appointed. He moved sec. by Coun. Swin that a board be appointed. Carried.

The following names were placed in nomination: T. M. Gaynor, Ferdinand Robichaud, Edward Gallivan, Henry Swin, C. E. Fish, Randolph Crocker, on a ballot being taken, Messrs. Crocker, Fish and Gallivan were elected.

Coun. Swin read report of Alms House committee as follows:

Your committee appointed at this session of the county council to examine Alms House Accounts have made a careful examination and find the books well kept and in good order. Your committee recommend that an assessment be made in the Parishes of the county for 1921 as follows; Chatham, \$2,600; Newcastle, 900; Nelson, \$450; North Esk, 300; South Esk, \$100; Alnwick, \$450; Hardwicke, \$700; Glenelg, \$75; Derby, \$350; Blackville, 450; Blissfield, 200; Ludlow, \$175; Rogersville, \$1,000.

On motion of Coun. McKnight a resolution endorsing a railway between Newcastle and Tracadie was passed.

Coun. Young of Petitions Committee recommended that petition of F. Muzzerall for refund of pedlers license illegally collected be refunded. That petition of Sheriff Cassidy that scale of fee for summoning juries, which had existed prior to 1920 be restored, be granted; That petition of J. R. Lawlor for refund of extra amount earned in registry office be refunded. That petition of W. F. Fairly and others for bidding the running at large of cattle in Boiestown be not granted.

On motion of Coun. Arsenault a bill of \$40.00 for extra work in revising Rogersville lists passed.

On motion of Coun. Baldwin a bill for \$36.25 for extra work of revisors in Chatham parish passed.

On motion of Coun. Ailain and Doyle a resolution urging the construction of The Miramichi Valley railway passed.

On motion of Coun. Walsh Nelson Parish officers passed.

On motion of Coun. Gaynor it was decided that if Government passed bill allowing 10 p.c. for assessing and collection that the rate to be paid assessors and collectors be left with Finance Committee.

On motion of Coun. L. Doyle the rate to be assessed for pauper lunatics.

Coun. Gaynor said that he had enquired into the use of the money granted by the Council last year for the Natural History Society and found that they had used \$42.00 for cases and balance for other work of the society. He moved that a grant of \$500 be given again this year.

Coun. D. Doyle said that the grant had been obtained last year on a snap verdict, and it was not right to try it again this year. The vote to the hospitals was a trifle large, but it was for a worthy cause, but he could not see his way clear to vote any more money to National History Society or anything else. Watling and Swin also opposed the grant, and it was lost.

On motion of Coun. O'Donnell the matter of the patient charge to Ludlow, who was not a resident there was left to the Secretary to take up with Dr. Anglin and arrange a satisfactory settlement.

WINTER RATION FOR MILCH COWS

The general principles involved in the feeding of milch cows may be outlined, but the most economical ration can be determined only by the feeds available, their cost and the capacity of the cows that are being fed. The feeder alone can determine what his individual cows should have, to give best returns. It may be definitely stated that a meal ration of from 1 pound meal to each 3 pounds milk produced, to 1 pound to each 4 pounds milk, is the profitable limit. It is also known that digestive troubles, due to the heavy feeding of meal which is necessary under high production can largely be overcome by giving an abundance of succulent feed along with the hay and meal ration. In considering a ration of milk, therefore, a good quality of hay, succulent feed, and meal mixture must be considered as definite requirements. The quality of the hay is a big factor, as poorly cured hay is not appetizing and may cause digestive troubles as well. The value of good clover hay as compared with the grasses is too little appreciated even though there is abundant evidence to show that the legume hay will materially reduce the meal feed requirements over the average hay. Hay and meal alone cannot give the best results. This is not because hay and meal does not contain the necessary constituents for milk as the corn silage or roots but rather because the animal is kept in better physical condition because of the succulent roughage and is therefore able to make full use of the meal and hay fed without ailments that are likely to follow heavy feeding of these alone. The succulent feeds are corn and

roots. Corn silage alone can be fed more abundantly than roots, for the reason that the bowels are not kept so open. A good combination is one third roots and two-thirds corn, mixed together. Cows ranging around 1100 pounds may be fed 55 pounds of the above mixture per day and those 1400 pounds may take 60 pounds without being too full. It is necessary for the feeder to watch his stock as cows cannot do well if purged excessively.

In compounding a meal ration bran should be one of the principal ingredients. Of all the mill products from wheat, bran seems to be the best and this with cracked oats should approximate two-thirds of the meal ration. To this is added the cottonseed or linseed meal which are more concentrated. A mixture which has given good results in feeding at the Kentville Experimental Station is made up of 300 pounds bran, 200 pounds crushed oats, 200 pounds cottonseed, 100 pounds linseed meal. This is mixed together and 1 pound salt added to every 100 pounds of the mixture when mixing.

With reasonable care there is little danger of trouble from overfeeding with bran and oats but with cottonseed there is danger and it is doubtful if it is, even in such a mixture advisable to give a cow more than 4 pounds of cottonseed per day, and if very heavy feeding is practised so that the above amount is given we would increase in the linseed and correspondingly reduce in the cottonseed. Cottonseed may be dropped out and the linseed meal used entirely as the latter is a safer concentrate, but generally the cottonseed is cheaper and can be used in part to advantage.

The practice at this Station is to feed during the winter 1 pound meal to 3 pounds milk produced, and 40 to 60 pounds roots and ensilage using two-thirds corn to one third roots, either turnips or mangels and 10 to 12 pounds hay for each cow per day.

The first feed is given directly after milking in the morning consisting of half the ensilage and roots with half the meal scattered on it, and followed by half hay. This is followed by an afternoon feed of ensilage and roots with meal, to be all eaten before milking time, and the balance of the hay is given after milking.

Water is before the cattle all the time and exercise is given in the yards on fine days.

Depend Upon the Condition of the Blood—Keep it Rich, Red and Pure

When a doctor tells you that you are anaemic, he simply means, in plain English, that your blood is weak and watery. But this condition is one that may easily pass into a hopeless decline if prompt steps are not taken to enrich the blood. Poor blood, weak, watery blood is the cause of headaches and backache, loss of appetite, poor digestion, rheumatism, neuralgia, nervous irritability and many other troubles. To poor blood is due the pimples and blotches, the muddy complexion that disfigures so many faces. To have good health, a good complexion and a cheerful manner, the blood must be kept rich, red and pure. This is

The Business Stabilizer

A year or two ago the manufacturer was swamped with business.

Today his orders are being cancelled, his prices are dropping, his mills--in many cases--shutting down.

What is the trouble? Uncertainty. Unsteady markets. Lack of confidence on the part of buyers. Lack of courage in the man who sells.

Business is shaky. But business can be made good. Business can *always* be good when it is gone after in the right way.

It needs courage. And confidence. And vision. It needs, above all else, the great business stabilizer--

ADVERTISING.

Advertising that restores public confidence. Advertising that creates demand, increases production, and keeps the wheels humming. Advertising that steadies markets. Advertising that *Stabilizes*.

For the past few years advertising has often been used as a spectacular plaything. Today it is a grim necessity. The time to splurge has passed. The time to use it sanely, steadily, consistently has come.

Advertise. But advertise wisely--where expense is minimized; where business can be developed to the highest point of activity.

MRS. COOK IS NOW ENJOYING HEALTH

Says Tanlac Ended her Troubles Last October and She's Felt Fine Ever Since

"I was down in bed and had been there for three weeks when I began taking Tanlac, but by the time I had finished the first bottle I was up walking around and now after taking four bottles I am a perfectly well and happy woman," said Mrs. D. Cook, 21 York St. St. John's, N. F.

"Besides restoring my health Tanlac has built me up, why I have actually gained thirty pounds in weight."

"The past twenty years have been one unbroken period of misery for me. I had chronic indigestion and my appetite had become so poor I ate scarcely enough to keep alive, I lost weight and strength and became so weak and thin I was unable to do my housework. My head would throb so bad I could not bear to lay it on the pillow. My nerves were almost a total wreck and at times I shook like a leaf. My kidneys were badly disordered and my back hurt continually, I don't believe I enjoyed a single night's sleep during the past twenty years."

"I have never seen anything more wonderful than what Tanlac restored my health. Why, for the first time in my life I can say I enjoy good health."

"This was all last October and I have retained the thirty pounds I gained and have been feeling just fine ever since. I am doing all my housework now and I simply couldn't ask to feel better."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

Family Matters.

"You used to pay me many pretty compliments before we were married," said Mrs. Dibbs, with a pout.

CHATHAM WON OVER FREDERICTON

Chatham, Jan. 26—Chatham evened up matters with Fredericton here this evening in what was considered one of the critical games in the New Brunswick Hockey League and secured a firm hold on the coveted Chestnut Trophy, when the locals defeated the Capitals by a score of three to one in what was considered to be the fastest cleanest, and hardest fought game of the season. There were 1,500 present for the game. From the opening going to the end it was fast, clean, sportsman like hockey. The first period was scoreless and devoid of penalties. Chatham scored twice in the second and one more in the third. Fredericton got its goal in the third. The Capitals team was on the defensive throughout.

I am so well satisfied with the Tablets that I have no opportunity in recommending them to other mothers." Rev. J. A. Irwin Arrested in Ireland

Belfast, Jan. 24—The military authorities refuse to give any information concerning the arrest of the Rev. J. A. Irwin, a Presbyterian minister, who delivered addresses in the United States, when Eamonn De Valera was touring that country. Headquarters has warned all the military commands to make no communication to the press concerning the Rev. Mr. Irwin. The minister has been sent to the Ballykintyre internment camp, where he probably is the sole non-Catholic prisoner. Interest in the case has been heightened by an interview with "Gipsy" Smith, the evangelist, published in the Belfast Telegraph. Smith ridiculed the reception given De Valera and the Rev. Mr. Irwin in Georgia, to which the Rev. Irwin wrote a long reply testifying to the enthusiasm accorded De Valera.

Big Developments in Evangeline's Land

The new Dominion Atlantic Railway Passenger Station at Bridgetown.

Not only is the Canadian Pacific Railway making advances in accordance with the necessities of the times, and providing every modern improvement for the convenience and comfort of the public, but all its subsidiary lines are similarly progressive. The Dominion Atlantic Railway, which serves a large portion of Nova Scotia and runs through the beautiful Land of Evangeline, now owns and operates The Pines Hotel at Digby, providing first class accommodation for the large numbers of tourists who visit the district. A new night service between Halifax and Yarmouth has recently been inaugurated. This night service leaves Yarmouth on Monday, Wednesday and Saturday evenings, and Halifax on Sundays, Tuesdays, and Fridays, and marks one of the most important developments since the through line of railway from Yarmouth to Halifax was opened for traffic in 1891. These trains carrying on a combined freight and passenger service, but only carloads of through merchandise are carried. When on a trip of inspection over the Dominion Atlantic Railway, at the end of November last, Mr. Grant Hall, vice-president of the C. P. R., expressed the desire to have the D.A.R. equipped in the near future with steel rails much heavier than those at present laid. He said that this work would probably be undertaken when the effects of war conditions had disappeared. Important improvements are being carried out along the line and arrangements are progressing for the erection of a new station at Digby which will provide the most up-to-date facilities for tourists and other traffic and add considerably to the beauty of the town. It is estimated that during 1919, 50,000 tourists visited Nova Scotia, and spent there about \$3,000,000. Recently a new station was opened at Bridgetown, much to the satisfaction of the public of that town. It is a handsome building 24 ft. x 56 ft. with 20 ft. overhanging on each end and has in front a tavia walk 390 feet long and 12 feet wide. The building is very conveniently designed. It has a cement basement. The outside finish is stucco on truss-lath, centred with plain pebbled dash, with smooth finish above and below. The roof is asbestos. The inside consists of gents' room, 20 ft. x 24 ft., office 14 ft. x 14 ft., ladies' waiting room, 12 ft. x 24 ft., and baggage room 24 ft. 10 ft. The inside finish is of Douglas fir and birch, finished in the natural wood. The ceilings and side walls are sand finished, tinted in cream. There are also up-to-date conveniences and the heating plant consists of a Cumberland hot air furnace manufactured and installed by Mr. G. E. Banks, of Bridgetown, who also executed the plumbing. The inside and outside decorating was in charge of Mr. Harry Sencton. The whole work, including the building of a freight shed 30 ft. x 48 ft., on the opposite side of the track, was built by contract by J. H. Hicks & Sons, under the personal supervision of Mr. E. A. Hicks, of that firm, who has already built seven Dominion Atlantic Railway stations. The Dominion Atlantic Ry. has also added to its system the hotel at Kesville now known as the "Aberdeen." Kesville is an important and growing centre, and the fact that it is now to have modern hotel accommodation will add tremendously to its benefit. The "Aberdeen" is splendidly situated, and will be made very attractive. It will be renovated and refurbished from cellar to roof. Many of the rooms will be equipped with private baths. The work of renovation will begin at once, but will be so conducted that guests will not be disturbed. The Aberdeen will continue to be operated the year-around, and cater to the general and commercial interests as well as to the tourist traffic.

"California Syrup of Figs" is Child's Best Laxative

Beware! Say "California" or you may not get the genuine "California Syrup of Figs" which doctors recommend for babies and children of all ages. Nothing else cleans the little bowels and regulates the child's stomach and liver so gently, so thoroughly. Directions on each bottle. But you must say "California." Don't be talked into an imitation fig syrup which hasn't the delicious, fruity taste or the perfect "laxative physic" action.

Care of Vegetables In-Storage

Care of Vegetables 7:30 8:00 8:00\$890
There is always much loss of vegetables from rotting or drying up during the winter, but with a little watchfulness and care much of this could be prevented.

This year the late blight of potatoes caused much rot, and many tubers were so rotted with the disease in them. It will be found to pay well to look over the potatoes from time to time if a winter's supply has been stored and remove those which show the disease or are rotting so that others will not be infected. It will not be long before the potatoes will be in the sprout, and if the sprouts are removed promptly the tubers will remain in much better condition than if they are allowed to grow long. It will be necessary to go over them two or three times or more before spring to remove sprouts. If potatoes are in boxes or bins where sprouts can be readily seen one is more likely to remove the sprouts in good time than if they are kept in bags.

If onions are rotting, put them in a drier place and spread out well. For best results they need to be kept very dry.

If carrots, beets, parsnips and turnips are withering, a good plan is to put them in boxes and keep a damp rag or piece of sackling over the top of the box. To keep well all these vegetables should, however, be stored where it is cool but not very dry.

If cabbages are rotting, keep the head apart so they will not touch one another and so there will be a good circulation of air about them. While they should not be in a very dry place, yet one that is fairly dry is better than one that is inclined to be damp particularly if it is rather warm and not well ventilated. They should be kept cool, but will not stand many degrees of frost.

Squash and pumpkins kept in a cool place may have rotted by this time but if they are still in good condition they will keep much longer if put in a room where the temperature is about 50° Fahr.

If celery has begun to rot, the plants should be all gone over and diseased parts or plants removed, and when replanted see that the ops are kept dry as long as the plants last if there is room have a small space between the top of each plant. To keep celery in good condition during the winter the tops should be dry but the roots in moist soil, hence if watering is necessary great care should be taken not to wet the tops.

It is not difficult for a farmer to care for his vegetables in winter as he has, as a rule, a good cool cellar. But in cities cellars are usually too warm for most vegetables, hence where the main cellar is too warm wherever possible a part of it where cool air can be admitted should be partitioned off from the rest for a vegetable room.

Advertising A Public Necessity.

WHEN goods are scarce and prices high, people are more appreciative than ever of the right kind of advertising.

They are seeking information. They want to know how to buy to the best advantage.

They want to know how to fill their needs and avoid waste. They welcome news of desirable substitutes for the things the country needs to conserve.

They read the newspapers carefully.

The dry goods merchant, grocer, jeweller, or manufacturer who does not advertise is not only missing the purely selfish opportunity, but he is failing in the service he owes to his customers.

Sport A-Plenty on Vancouver Island all the Time

When Captain Vancouver discovered Vancouver Island 128 years ago, he declared that it required only to be nourished by the industry of man, with villages, mansions and cottages to be "the most lovely country that can be imagined." Man has ably supplemented Nature since then, and the traveller who has crossed the United States to California returns east through Canada to enjoy the beauties of Victoria and Vancouver and the Canadian Pacific Rockies.

Owing to its mild climate in winter, Vancouver Island is as great a playground for lovers of sports as it is in summer. There are splendid roads and famous drives for the motorist, water sports of all kinds are popular, and golf, tennis and cricket have thousands of devotees.

Victoria and Vancouver girls are clever with the oars, particularly the girl scullers of the Vancouver Rowing Club who have won laurels even in competition with crews of the sterner sex. In the picture they are (left to right), Miss Elsie Cooper, Miss C. Sharp, Miss R. Matheson, Miss Florence Cooper and Miss Leonie Landon.

Vancouver Island is a great resort for fishermen who lure their finny prizes from both fresh and salt water. One of the gamiest of these is the tye salmon, so called by the Indians, the name meaning king fish. Victoria has many expert fishermen, among them W. R. Fletcher, a conductor on the Equinait & Nanaimo Railway, who recently caught two tye salmon weighing 40 and 45 pounds, respectively.

"When one of these boys hits the spoon," says Fletcher, "he'll keep you 'stepping some' for a while. He'll tow you around, dive for the bottom of the sea, then come up and jump five feet in the air. Some times he'll fight for nearly an hour before you land him in the boat."

BURN'S A NIVERSARY FITTINGLY OBSERVED
The one hundred and sixty-second anniversary of the birth of Scotland's best known poet was observed last Tuesday evening, when Mrs. L. H. MacLean ably assisted by local talent, gave an excellent programme in St. James' Hall. Considering the inclemency of the weather a large audience attended, and each and every number presented was much enjoyed. Mr. John Elder of Lover, Newcastle who was to have taken part was unable to be present, owing to the bad condition of the roads. At the close of a pleasing programme refreshments were served.

Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

TRAGEDIENNE ON STAGE
Elaine Innesourt an actress of international fame, plays an important role in the new play "The Arab Knight", a Robertson-Cole production, showing at the Happy Hour Theatre Wednesday. The picture shows Mr. Hakawa in a new and appealing role and Miss Innesourt is the one who makes the tragedienne so sore heavily as a comedienne.

Miss Innesourt is a newcomer to the movies. She makes her first appearance in the Hayaka picture as a maiden lady of wealth and refinement whose belief in the doctrine of reincarnation furnishes the principal element for the delicious comedy bits in which she and Mr. Havelaw figure.

Miss Innescourt was a native of London, England, and spent her girlhood in France and Germany studying for the stage. She made her first professional appearance with Sir Herbert Beerholm Tree in Shakespeare's repertoire at the age of seventeen. She made her debut on the American stage six years ago.

Grocers Taking Less Profit on Many Lines

Red Rose Tea People Make a Further Statement

Some of our friends among the grocers, in speaking of our letter to the press on grocers' profits have indicated that apparently it has been constructed by some readers to mean that Red Rose Tea was the only article on which the grocer takes a smaller profit, in order to give his customers a higher quality.

It was not our intention to convey such an impression, as we know that most grocers sell well known brands of other goods at less profit than they could make on some brands equally well known, and for the same reason that they recommend Red Rose Tea simply to give their customers the best possible value.

In our letter we mentioned Red Rose Tea because it naturally came first to our mind and because we knew that grocers were selling it at a less profit than they make on other teas.—T. H. Estabrooks Co., Limited, St. John, N. B.
