## CHATHAM TALENT TO BROADCAST

It is pleasing to note that Chatham has again been asked to contribute of its musical talent to broadcast from C.N.R.A. station at Moncton. We understand that the Chatham String Orchestra has been requested to broadcast a program of music from Moncton on Friday evening Feb. 6th. The personnel is as follows:—Violins: Mrs. Searle, Miss Babineau, Miss McKendy, Mr. H. B. McDonald and Rev. F.H. Littlejohns. Cellos: Mr. Chubb MacLoon and Mrs. Miller, Bass: Miss MacLoon. Piano: Mrs. H. B. McDonald.

The program will consist of several numbers by the orchestra. Two instrumental trios by Mr. and Mrs. McDonald and Mr. Littlejohns. Three groups of songs by Mr. Chubb MacLoon and two groups of violin solos by Mr. Littlejohns.

## Campbellton Wins North Shore 'Spiel

Campbellton curiers won the 11th North Shore Bonspiel with a total of 235 points.

This is the third successive victory for this club and gives them permanent possession of the Bonspiel Trophy.

Bathurst was second with 212 points; Dalhousie third with 151; Chatham fourth with 149 and New Campbell fifth with 127 points.

## Blackville Lodge Held Annual Meeting

Victory L.O.L., No. 86 Blackville, N. B., held their annual meeting on the evening of Dec. 27. The report for the year was most satisfactory showing a surplus on hand, and the reinstatement of several old members.

Election of officers for 1925 then took place. The result was as follows:—W. M., W. A. K. Underhill; D.M., Stanley Crawford;

Chaplain; Hayward Walls; Sec. Olive Underhill; Treas. Freeman Mountain; R. Sec. Lloyd Corney;

Rec. Sec. Peter McLaggan; D. of C. John W. Underhill; Committee Underhill installed the officers in their positions, each officer making a short address.

A vote of thanks was tendered the retiring master and all members hope that the year 1925 under the direction of the new Master will be a banner one.

After the meeting the members present were invited to the home of the new D. M., Stanley Crawford, where a very enjoyable evening was spent.

## RED CROSS CARNIVAL A GREAT SUCCESS

The Red Cross Carnival held last Wednesday evening in the College Rink, Chatham was one of great success. Everybody enjoyed themselves to the limit with the variety of entertainment afforded and the splendid sum of \$350 was realized for the good work of the Red Cross Society.

The big event of the evening was the choosing of "Miss Miramichi" and this honor went to Miss Pearl Whalen of Loggieville, daughter of Conductor Whalen of the C.N.R. Miss Whalen was closely followed by Miss Ethel McLennan of Chatham, another worthy candidate for the honor and in fact all the six young ladies who graced the ice as candidates received scores of votes from their many admirers.

## Complain About Interference

Many local radio fans complain that interference, said to be caused by tuning in, has been greatly marring their enjoyment of the concert programs broadcast from the various stations received here. They assert, that especially on Sunday evenings is the noise the greatest. This noise resembles a squeal which spoils music, lectures etc. It is thought that some sets were being tuned too high and as a result were broadcasting instead of receiving. Others say that it is due to the fact that "listeners in" fail to log their stations when located and then keep twisting their dials at random until such time as they find something and by so doing interfere with and annoy others. The radio fans would appreciate it, if everyone who has a set would be careful in future, while tuning in, and endeavor to "tune" as little interference as possible.

## New Drug Store For Doaktown

The thriving town of Doaktown, N.B. is soon to have a long-felt want filled. Messrs C.M. Dickson & Sons, proprietors of the "Rexall Store" Newcastle, intend shortly to open a Drug and Optical store in this community with capable druggists and optometrists in charge. A full line of drugs, optical supplies and sundries will be continually kept in stock and prompt and efficient service will be given patrons. Doaktown residents will be pleased to hear that they will soon be given an up-to-date drug store and no doubt will show their appreciation by their valued patronage.

## LECTURE & CONCERT AT DOUGLASTOWN

The lecture and concert, which was held in the Associated Lodges Hall, Douglastown, last Tuesday evening, under the auspices of the Ferry Road Ladies Auxillary of the Miramichi Hospital Aid, was greatly enjoyed by a large audience. Rev. Mr. Davidson who was chairman for the evening, opened with a few remarks and the program was as follows.

Male quartette—"Lassie of Mine" Charles Dickison, David Gulliver, Howard Cassidy, Professor Liscombe. Reading—Mrs. Waldo Crocker. Solo—David Gulliver. Reading—Miss Muriel Ellis. Solo—Mrs. T. J. McEwen. Lecture—Robert Burns, Rev. Dr. Harrison.

Intermission. Duet—A Wee House Among the Heather, David Gulliver, Professor Liscombe.

Quartet—Chas. Dickison, David Gulliver, Howard Cassidy, Professor Liscombe. Solo—Chas. Dickison.

Reading—Mrs. Waldo Crocker. Solo—Mrs. T. J. McEwen. Candy was sold during intermission and at the close lunch was served by the Ladies Auxillary to those taking part.

## Chatham Defeats Campbellton

Chatham defeated Campbellton last night in a hockey game played in Chatham by a score of 4-2. Ten minutes overtime play was necessary to decide the winner.

## C. N. R. President Denied Rumor

Sir Henry Thornton is Not Contemplating Leaving Railroad

Winnipeg; Man Jan 31—Sir Henry Thornton on arrival at midnight here last night from Chicago contradicted the rumor that he was considering leaving the railway at the end of his contract and taking up similar work elsewhere.

"I have nothing of the sort in contemplation" he said and as it is a matter which rests largely with the Government of Canada, it would be inappropriate to comment upon the situation further."

## Finds Uneasiness In Europe Today

Birmingham Feb. 1—Austen Chamberlain Secretary for Foreign Affairs speaking at the Birmingham Jewelers banquet last night alluded to his recent visit to France and Italy where he said "he found an atmosphere of uncertainty and uneasiness which clouded the present European situation."

He referred also to the recent exchange of notes between the Allies and Germany regarding Cologne and Germany's treaty obligations saying he regretted the tone and temper of the German reply and Chancellor Luther's speech Friday. "It is not by speeches that great international affairs will be settled" said Mr. Chamberlain "and I am not going to enter into a controversy conducted in that manner."

### Jollying a Dealer

A Man from the Maritimes asked a British Columbia merchant for a box of his very best chocolates. The latter produced Moira and to jolly him the customer said: "Surely

those aren't your best—they're no good!" The merchant replied: "They're not, eh? well, let me tell you, they're so well liked by my customers I'm dropping all other makes." She: You never bring me chocolates like you did before we were married. He: Did you ever hear of a fisherman using bait on a fish after he caught it?

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoclinic acid of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Mush! Mush!

Through the streets of Quebec. Even driving through these historic by-ways in the calesche does not have the charm of a run through them in a husky-drawn carriage. There's a tang in the air and such an atmosphere as could be found nowhere else. Exhilarating and full of color and life. This is the Chateau Frontenac team.

**NERVOUS BREAK-DOWN**

Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario. "I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which left me very weak. I was nervous and could not sleep nor eat as I should and spent much time in bed. I was in this state, more or less, for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my sickness I had been obliged to get some one to look after my home for me, but thanks to the Vegetable Compound I am now able to look after it myself. I have taken Lydia E. Pinkham's Blood Medicine in turn with the Vegetable Compound, and I certainly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial."—Mrs. J. SHEPHERD, 130 Joe. Jansisse Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, which they so often have, should give Lydia E. Pinkham's Vegetable Compound a fair trial. All druggists sell this medicine.

**MORSE'S TEAS**

There's no Question about it!

The people who use MORSE'S TEA are the most satisfied tea drinkers in this country. There is no doubt about it!

**Skin Trouble?**

There is nothing so gentle in its beginnings, and afterwards so difficult to eradicate, as skin disease. At the first sign of unpleasant irritation, redness or eruption, anoint the place with Zam-Buk. This herbal balm will speedily end any incipient trouble. When the skin is already aflame with eczema, or poisoned or ulcerated, Zam-Buk is the one external medicine powerful enough to get to the root of these troubles and replace unhealthy tissue with new clear skin.

### North'd County Council

(Continued from page 2)  
 From fines collected are diverted to Federal uses.

RESOLVED also that this matter be brought to the attention of the Inland Revenue Department with a view to having the law so amended that either the fines collected shall be paid into the Municipal Treasury or that the cost of maintenance of prisoners confined in gaol in this and kindred offences be paid by the Federal authorities to the Municipal Treasury.

RESOLVED FURTHER that copies of this resolution be forwarded to the Department of Inland Revenue, Dept. of Indian Affairs, and W. B. Snowball Esq., our Federal Member. Carried.

Moved by Coun. Harriman that Sinclair Walsh be paid the sum of \$12.00 for pound rent. That bill of World for \$4.00 be paid. Carried. And bill of Gazette for \$3.00 be paid. Carried.

Moved by Coun. Harriman that \$910 be assessed upon the Town and Parish of Chatham for the support of Patients in the Provincial Hospital. Carried.

Coun. L. Doyle moved that the matter of repairs on jail be left to the Jail Committee and they may use their own judgment with regard thereto. Carried.

Moved by Coun. Fletcher seconded by Coun. Baldwin.

WHEREAS the drivers of horse drawn conveyance over the Tarvia Road between Nelson and Chatham for obvious reasons prefer the gravel track to that of Tarvia and in consequence wherever possible have used the level portion of the crown of the road outside the tarvia for horse traffic. Carried.

WHEREAS the addition of very little expense would make a gravel road throughout the entire length of the tarvia and prove a great benefit to drivers of horse drawn conveyances.

RESOLVED that this Municipal Council record itself in favor of adding to said tarvia a gravel track for horses and that a copy of this be forwarded to Hon. P. J. Veniot, Premier and Minister of Public Works, and copies sent to our local representatives with a view to having said road widened wherever necessary to accommodate such horse traffic. Carried.

Coun. Tucker moved that \$390 with the cost of assessing and collecting be assessed upon the Parish of Blackville for the maintenance of patients in the Provincial Hospital. Carried.

Moved by Coun. Tucker, seconded by Coun. Bean, that the Parish Clerk for Blackville be paid \$6. Carried.

Moved by Coun. McKay, seconded by Coun. D. Doyle:

WHEREAS among other things the Intoxicating Liquors Act provided that all fines collected shall be paid into the Provincial Treasury while the cost of maintenance of prisoners confined in the Common Gaol on account thereof is borne by the Municipality, and

WHEREAS the cost of maintaining such prisoners amounts to large sums each year,

RESOLVED that this Municipal Council record our strongest protest against the unfairness of being obliged to support and maintain these prisoners while the revenues from fines collected is turned over to the Provincial Treasury.

RESOLVED also that this matter be brought to the attention of the Local Government with a view

to having the law so amended that either the fines so collected shall be paid into the Municipal Treasury or that the cost for maintenance of prisoners confined in the common gaol in default of payment of fine for this and other offences (where the fines are paid direct to the Provincial Treasury) be borne by the Provincial Government.

RESOLVED FURTHER that copies of these resolutions be forwarded to Premier Veniot and to our Local Members.

Moved by Coun. Pond that the Parish Officers for the Parish of Ludlow do now pass. Carried.

Moved by Coun. Baldwin, seconded by Coun. McKnight:

WHEREAS since the last meeting of our Council, Almighty God in His Infinite Wisdom has removed by death our late reporter, R. A. N. Jarvis.

THEREFORE BE IT RESOLVED that we the County Councillors of the Municipality of Northumberland hereby express our regret in the loss of the late Mr. Jarvis and wish to extend to Mrs. Jarvis and family our heartfelt sympathy.

BE IT FURTHER RESOLVED that copy of this resolution be forwarded to Mrs. Jarvis and to the local papers for publication and recorded in the Minutes of the Council. Carried.

Moved by Coun. Holmes that Dr. Desmond D. H. M. O. be heard. Carried.

Dr. Desmond spoke on the "Reck-feller Foundation Public Health Nursing. The Doctor stated that this institution pledged itself to pay the salaries and expenses of two public health nurses for two years provided that the County would carry on after that time. He also stated that the Town of Chatham had a public health nurse of its own.

Coun. Mersereau stated that this credit should be given to the Hotel Dieu Hospital and not to Chatham Town.

After some discussion it was moved by Coun. Brasfield that no action be taken by this Council.

Moved in amendment that this matter lay on the table until two o'clock to-morrow. Carried.

Moved by Coun. Chanson that the returns of the Collectors of the Parish of Rogersville pass. That

toward that ideal.

..If an experienced breeder were to go out of business and then begin over again to re-establish a strain; he would go to a flock of his chosen breed and there with a standard type clearly in mind; would select from the available specimens; with some respect to pedigree; those that measured up to his requirements.

None of these selected for the new flock would be perfect but all would be strong; healthy birds; chosen so that birds having the same defect would not have to be mated together. Thus would he begin at once to make progress toward the building up of a strain superior to the original stock from which he made his selections. This sort of selection is essential to any continued progress in breeding poultry. Now is the time to begin; for another breeding season is almost here.

### Protect Your Child's CHEST & LUNGS WITH Peps

If a mother has the least suspicion of any throat or chest weakness in her dear ones, let her give them Peps to suck at bedtime and before going outdoors into the wet and cold.

The rich medicines breathed direct into lungs from a Peps tablet, act like the pure pine forest air in strengthening and fortifying the tender throat and breathing passages. In this way, Peps quickly conquers coughs, checks any inflammatory tendency, and keeps whooping cough, croup and bronchitis at bay.

Peps wins the confidence of doctors, because of their freedom from harmful drugs. Children love Peps for their pleasant taste and refreshing and strengthening effect. Peps save many a mother's life. Of medicine dealers everywhere.

### BUILDING UP A POULTRY STRAIN

There are beginners in poultry keeping who buy from one breeder the first year; from another the next; and so on for perhaps four or five years. They keep within the breed; to be sure; but they do not have a very clear idea of what they are seeking in the way of new stock because they do not have any clear idea of what they are going to produce. And as a result they get nowhere.

New blood should be introduced always for a definite purpose to improve some point; to check some fault. The breeder must have a standard clearly in mind and breed

#### PREDICTION OF VERY DRY 1925 CLIMATICALLY

The year 1925 will be the driest the universe has experienced this century, an official of the British Meteorological Department told the Associated Press in explaining a new discovery which departmental experts have made and which, it is declared, enables them to pick out the wet and dry years to come.  
St. Swithin will have 12 months of large scale unemployment this year, the department has emphatically predicted, and the drought to come will not only dry up the British islands, but extend to the rest of the world.

This statement was made after much study on the part of weather scientists and as the result of the discovery that a close connection exists between rainfall, particularly in Great Britain, and the frequency of solar prominences. The latter are explained to be the tongues of flaming gas that dart out from the sun's surface, sometimes to a height of 250,000 miles; and at a speed of more than 150 miles an hour.

Experts have spent three years studying the relation of this phenomenon with the fall of rain and have learned that the interval between the dates when these giant fireworks are most active has grown progressively shorter during the last half century, while the periodicity of wet years in England has shown a corresponding change. The mathematical curves indicate a relationship that is too definite to be overlooked, say the departmental chiefs.

This reliability is nothing new. It was noticed about 1865, and for the next 25 years, every fifth year in England was wet, the other four being dry or normal. All this time the solar prominences were appearing regularly and normally. At the end of the 25 years the flames appeared oftener and continued to appear at regular periods for 20 years, when every third year was wet. From 1910 to 1921 the flames were more active and alternate yrs

were wet and dry.  
The drought year of 1921 appears to have been the turning point for now the department experts have figured out that for the next period increased solar activity the yrs will be in cycles of three, two wet years and one dry one. The year 1922 is reckoned as the last year on the late period, therefore the years 1923 and 1924 have been wet ones, and 1925 (if any faith can be placed in the constancy of the solar prominence of the sun) should be a dry one in England and a droughty one for the rest of the world.

#### Worries in the Home

##### It is These That Cause Many a Breakdown in Health.

Almost every woman at the head of a home meets daily with little worries in her household affairs. They may be too small to notice an hour afterwards, but it is the same little worries that break down the health of so many women. Their effect may be noticed in nervous headaches, sickle appetite, indigestion; pains in the side or back, and a sallow complexion. To those afflicted in this way Dr. Williams' Pink Pills, by improving and purifying the blood, bring speedy relief. Among thousands of weak women who have tested and proved the merits of this medicine is Mrs. Gustave Hutt; Bruxelles; Man. who says:—"It is with profound thanks that I write to tell you what Dr. Williams' Pink Pills have done for me. Before I began taking these pills I was weak; and my blood thin and watery. I was so thin that I looked like a skeleton. I was troubled with headaches and indigestion; did not sleep well; and was terribly constipated. I decided to try Dr. Williams' Pink Pills and I soon found that they were just what I needed. Under their use my appetite returned; my food digested properly, and I slept better at night and gained in flesh as well as strength. The result is that now I am a perfectly healthy woman; and there is no doubt that it is due to the use of Dr. Williams' Pink Pills; a supply of which I now always keep in the house; and I would advise other women to do the same."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### NOVA SCOTIA CURLERS TO VISIT MONTREAL

##### Play for the Gordon Medals—Many Matches Scheduled.

NEW GLASGOW, N. S., Jan. 31.—Judge Patterson announced here last night, that he had completed arrangements for the visit to Montreal of the three rinks of Nova Scotia curlers, who will engage in friendly matches with the Caledonia Club, Saint Lawrence, Royal Montreal, Montreal West, Heather Ootremont, Saint Andrew's and Thistle Curling clubs of Montreal. On Feb. 6 they will play for the Gordon Medals and will be guests of the Montreal Curlers at a banquet to be given the visiting American curlers that evening. The Nova Scotia players will be: Judge Patterson, H.B. McCullough, Dr. Agnew and George D. McDougall; New Glasgow; J.J. Turnbull, Charles Thompson, Dr. Lynch and either Hugh Ross or W.H. Torrey; Sydney H.F. Adams; J.G. Pike; R.B. Colwell and C.J. Burchell; Halifax

#### WILLIAMS TO HANG ON APRIL 23

The jury in the case of the King vs Harry D. Williams, charged with a double murder brought in a verdict of guilty at the York Circuit Court Thursday afternoon after deliberating twenty minutes. His Honor Judge LeBlanc immediately pronounced the death penalty upon the prisoner. The sentence of the court was that he be returned to the county jail and there on April 23rd, before nine o'clock in the morning, be hanged by the neck until dead.

#### PRINCE WILL BE A BACHELOR KING, LONDON PREDICTS

Even those people who spoke with forbearance of the matrimonial shyness of the Prince of Wales are now getting uneasy with the announcement that the royal heir will probably visit to South Africa next year to include a trip to the Argentine. This can only mean to these Englishmen that another year will be added to the interval until the prince announces he has picked out a girl to be the future queen.

And Englishmen have listened to the same tale of postponement for the last five years. Whenever the Prince of Wales remains in London for a long period, the busybodies, working mostly through the newspapers, get up a series of stories intimating that a certain interesting announcement on royal note paper will be forthcoming from Buckingham Palace, and even speculating who the girl is. Such great expectations have never been given a chance to materialize, for the prince has stepped out of the country on a trip to his future domains just in time and the ladies in question have, in most cases, married before his return home.

Now there are not so many eligibles for speculation. The Ladies Mary and Rachel Cavendish, Lady Mary Gordon-Lennox and Lady Mary Cambridge, who were freely discussed as prospective mates for the Prince of Wales, have married. In fact the list of English girls of suitable age is becoming distressingly narrowed, and as most Englishmen have made up their minds that David Edward is not going outside his father's realm for a bride, the prince will probably live to choose his bride from a younger generation.

So interested have the public become in this chapter of his life, His Royal Highness can hardly attend house parties or dances without a resounding echo connecting his name with some debutante being heard immediately throughout Mayfair, then down to Southwark and Clapham.

Since returning from his last trip the prince has successfully counteracted this gossip by not appearing at dances and house parties. At the present time there is no girl being honored as the prospective Princess of Wales.

There are many people in London now who whisper that the announcement of the engagement of the Prince of Wales will never come and that he is going to be that strange complex, a bachelor king. Some who profess to know even say the prince has often stated he does not want to marry. So far as the outward circumstances show the betting is on their side.

#### WATER ON ICE

The weight of snow on the ice opposite Loggieville has so weighed down the ice that water has come up on the surface to the depth of two feet in many places, and has formed a deep layer of slush. Crossing at Loggieville is therefore almost out of the question at the present time.

#### Here and There

Mineral production in Canada for 1924 is estimated at \$205,194,000, as compared with \$214,979,331 in the preceding year, according to a preliminary statement issued by the Department of Mines. Metallic minerals accounted for \$66,084,000 of the total, followed by fuels and other non-metallics with \$73,530,000, and structural materials and clay products with \$33,330,000.

The Port of Montreal created a new world record in 1924 for the amount of grain handled by any one port in any one year, namely, 165,139,396 bushels, while from January 1 to November 30 she handled 94,366,508 bushels more than her nearest competitor and 17,332,709 bushels more than the seven next busiest ports combined.

Described as the finest coastal vessel in the world, the "Princess Kathleen," recently launched by Lady Mount Stephen, widow of the late Lord Mount Stephen, a former president of the Canadian Pacific Railway, left Glasgow on January 15 on her ten thousand mile journey through the Panama canal to join the Canadian Pacific's fleet of coastal steamships plying the seaboard of British Columbia.

A historic pageant of some proportions is being planned by the Calgary exhibition board for this year, its object being to commemorate the fiftieth anniversary of the founding of the city by the old North-West Mounted Police in 1875. In the period which has since elapsed, Calgary has grown to be an extremely busy, modern city, having a population of 75,000. A stampede similar to those held in Calgary in previous years is also planned for this summer.

The itinerary of the "All Blacks," New Zealand's wonderful rugby team, hitherto unbeaten, in their tour of Canada, was announced by the Canadian Pacific recently. Landing at St. John, N.B., on January 31, from the company's steamship "Montclair," the team will proceed across the Dominion via Canadian Pacific lines. They will make short stays at Montreal, on February 1; Toronto, February 2; Niagara Falls, February 3; Calgary, February 6; Banff, February 7-9; Vancouver, February 10-11, and sail from San Francisco on the 25th. Calgary is giving them a ball and dance at the Palliser Hotel, they will take part in the Banff winter carnival, and will play teams from Vancouver and Victoria while on the coast.

Very heavy summer travel is anticipated by the Canadian Pacific Railway during 1925, especially to conventions on the Pacific coast of Canada and the United States. C. B. Foster, passenger traffic manager of the company, announced recently, Canadian and American railroads expect 150,000 persons to attend these conventions, some of which will be very large. At least thirty westward bound special trains, and as many eastward bound, will be provided by the Canadian Pacific to handle the delegates. Mr. Foster stated, and Banff and Lake Louise expect great seasons, as so many of the travellers will stop off at those famous mountain resorts. There will also be a very heavy movement to conventions in eastern Canada and the eastern United States.

#### VERDICT GIVEN S. S. WOLDRINGHAM

##### Suit Arose Over Damage to Morrissey Bridge, Newcastle.

Judgement in favor of the defendant was given by Sir Douglas Hazen, C. J., last week in the Admiralty Court, in the case of the King vs the ship Woldringham, an action for damages amounting to some twenty thousand dollars arising from a collision in the Miramichi River when the steamer struck the so-called Morrissey bridge at Newcastle. The court found that the bridge had not been properly constructed to conform with the requirements of the Navigable Waters Protection Act, as it had been started without the necessary authority from Ottawa, this not being obtained until sometime afterwards. It was therefore, an interference with navigation under the interpretation of this statute and the plaintiff could not recover without showing evidence of negligence on the part of defendant. The onus was upon the plaintiff to prove negligence and the court had decided that this negligence had not been proved.

The evidence had shown that the ship was in charge of an experienced pilot, was going at the time only about two miles an hour and while proceeding straight through the draw her stern was swung at an angle and she struck the fender in the bridge. This gave way. The court found that the fender was not sufficiently substantial and was not properly supported, thus showing the plaintiff to have contributed to the damage. The incident in the opinion of the court was inevitable. The court dismissed the action. The plaintiff was represented by Dr. W. B. Wallace, K. C., and W. M. Ryan, while Dr. F. R. Taylor, K. C.; and C. F. Innes, K. C.; appeared for the steamer. Costs were not allowed but it was commended that an arrangement be made regarding same.

#### Would Cut Export Of Pulp To Develop Our Water Powers

The Canadian Pulp and Paper Association Friday put itself on record as in favor of a limitation of the export of pulpwood. Without any opposition a motion along the lines of a report presented by F.W. Clarke chairman of the Mechanical Pulp section, was adopted.

#### F.W. Clarke, Quebec was elected president.

Keep Our Water Power  
In the course of his address Mr Clarke said that if Canadian water power was to be kept in Canada we must find a use for it and an important move in that direction would be the retention of pulpwood in Canada and its manufacture into pulp and paper here. The power industry and the pulp and paper industry were thus ultimately associated and unless the future of the latter was assured it would be useless to place restrictions upon the export of power.

Find Another Market  
"Granted that the interest of the settlers and other private owners of pulpwood are involved to some extent in the problem of how best to deal with our diminishing wood supply, I submit that it ought not to be very difficult for the government acting in co-operation with our industry, to devise ways and means whereby exportations may be reduced to a minimum or stopped entirely without sacrificing these interests. We cannot, of course, expect to take away their present market without providing another equally as good or better.

Pay Forest Protection.  
"An adequate export tax on pulp wood shipped out of the country would provide funds for the protection of our forests and to that extent would relieve our mills of some of their heavy expenditures. A straight out embargo would be even more effective.

"Both Quebec and Ontario have recently declared against the exportation of hydro-electric power and have taken the unassailable position that our interests require that those who would use our water powers should come to Canada in order to do so."

### THE EIGHT HOUR DAY

The eight hour day question is expected to come before the federal Supreme Court this week if the provinces are ready for the hearing. The Ottawa Citizen explains that the essential question for the court to determine is whether the right to legislate as to working hours as a prerogative of the Dominion or the provinces. The latter have always dealt with this subject but for some years there have been efforts to secure a uniform Canadian law and the court will determine whether such would be intravires of the federal parliament. The Citizen adds "There is no question of the right to prescribe such hours on Dominion works but whether applicable to industry generally there could be no such law, is not at all certain and the case now before the courts will have a clarifying influence."

### CHARGES DISCRIMINATION IN EXPRESS RATES ON MARITIMES' FISH

Discrimination against Maritime Province Shippers in the matter of express rates of fish shipments to Upper Canadian points is being charged in protests being lodged by Halifax fish merchants against the Canadian National Railways who ask to have the rates put on an equal basis with those from Pacific ports. They charge that the rates are so much higher from Atlantic Ports that competition is impossible.

### Prohibition Ends In Newfoundland

St. John's Nfld. Feb 1.—Operation of the prohibition law which has been in effect in Newfoundland for eight years ceased last night and tomorrow a new statute will become effective providing for Government control of the sale of liquor. When her trunk was searched by the Chief of Police some of the stolen linen was found. Another charge of theft against her is being investigated.

### Baby's Welfare During February

February is one of the hardest months of the year on little ones. It is a month of cold, blustery days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the home. More often than not the rooms are overheated and badly ventilated and the little one catches cold or gripe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and indigestion and in this way will either prevent or break up colds and gripe. Such a laxative is Baby's Own Tablets. They are mild but thorough in action; are absolutely safe as they are guaranteed to contain no opiates or narcotics. They never fail to be of benefit to little ones and may be given to either the newborn babe or the growing child.

The tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

**VALUE OF PAPER**

The value of an aggressive weekly newspaper is not always admitted, although it is usually recognized. Little would be known of many urban centres and rural districts, were it not for these mediums. Through them, home activities are published to the world. Were doubters on this point to see the exchanges that come to the desk of the weekly editors, the fact would be realized that the record of events published for the home folk is not confined to them but is given in part, at least by reprinting to a much wider constituency. Articles of interest are copied and news of important events goes the round, thereby gaining for the home community publicity that could not be secured in any other way. The group will not admit this, but the sane thinking individual will not hesitate to agree. The service given by the weekly press is inestimable.

**CARELESSNESS**

Every day brings the report of some disastrous fire resulting in loss of life and property. In most cases it is entirely accidental and beyond the power of human control,

but still there can be little doubt that the exercise of proper care and vigilance would reduce the number of these deplorable tragedies. Carelessness is responsible for many of the troubles in our lives. People are usually careless because they think only of themselves, forgetting that what harms them cannot fail to inflict loss and suffering on others. Our welfare is so inevitably bound up with that of the community in which we live that it is our bounden duty to do our utmost to safeguard the common interests. People who are persistently careless are not good members of society, and should not be treated as such. Through carelessness disease is often spread through an entire community, bringing sorrow and affliction to innocent people. If our social duties were only more carefully considered a lot of unnecessary troubles and tragedies would be avoided.

## Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

### A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

## MAYOR RE-ELECTED IN CAMPBELLTON

Mayor Norman C. McKay was re-elected in the Campbellton civic contest last Tuesday, having a majority of 154 votes over his opponent, W. H. Wallace. Owing to the coldness of the day not a great deal of interest was shown in the contest the total number of votes cast being only 378. Of this number 266 were cast for Mayor McKay.

In his denial of a published statement that he was not a rate payer of the town and therefore not qualified to be a candidate in the election, the following statement from the town treasurer was issued by Mr. Wallace.

"This is to certify that the name of William H. Wallace is on the assessment list of the Town of Campbellton for the year 1924 for \$114, being assessed on \$6,000 real estate. This was omitted by the assessors when making up their list in the first place. Signed S. H. Lingley, Town Treasurer. Certified correct D. A. Kean, Chairman Board of Assessors."

## DIPHTHERIA IN NOME, ALASKA, AND NO ANTITOXIN

Nome has a diphtheria epidemic and no antitoxin. The nearest known supply of antitoxin is at Anchorage, 600 miles away and must come by dog team. Several deaths have occurred. There is only one physician here and new cases are appearing daily. The United States Public Health Service in response to a request relayed by radio, cable and by land telegraph, has ordered 1000,000 antitoxin units dispatched from Seattle. This must come by way of Seward and the Alaska Railroad to Nenana, 400 miles away and thence by dog team. This would take 50 days.

Dan Sutherland, delegate in Congress from Alaska, has sent word that he is trying to get an airplane to fly from Fairbanks, Alaska, and pick up the anti-toxin at Nenana. By this means it would take about a week to bring the life-saving agent from Seattle.

The one physician has already shown signs of overwork, and George Maynard, Mayor of Nome, has appointed a special health board and engaged at public expense all the available nurses. The schools have been closed and Nome has been quarantined. A large percentage of the afflicted are Eskimos who in previous epidemics here have proved very susceptible to diseases that have scourged the white race.

**PIONEERING IN**  
**CANADA'S FORESTS**

Probably few are closer to the actual forest than the farmer, says the Natural Resources Intelligence Service of the Department of the Interior. As the pioneer he is opening up the country to settlement and living on the very edge of the primeval forest. As such no one stands to suffer more from forest fires. He usually has his family and possessions beneath the roof of his first homestead. Clearing, of course, must be done and clearing fires are necessary but care must be exercised in the setting of clearing fires. Settlers should get in touch with their nearest forest ranger, who is well acquainted with the danger of uncontrolled fires. He will advise when it is safe for clearing fires to be set, and, if conditions are favourable will issue a burning permit.

In another form also the forest appeals to the farmer. It is largely in the forest and wooded areas that he obtains his sport. Hunting and shooting is usually the favorite recreation of the farmer and his family. Without the forest, or with nothing within his reach except a partially burned over area in his immediate neighborhood, he would greatly miss this pleasure.

The latest figures available give the amount of firewood cut in Canada annually as nearly nine million cords. The larger centres of population use coal chiefly for heating purposes. It is the rural districts, therefore, that are more intensely interested in firewood, not only because it means comfort in winter but it also provides a great deal of employment to those who require to help out their farm income. In many portions of Canada large quantities of

railway ties, telephone poles, pulp wood, etc. are taken out every year and sold by settlers, who, with a burned forest, would be without this welcome help.

Then again, from the larger standpoint, the farmer is interested in the protection of the forest because it means so much in the wealth of Canada and Canada to him means home. After agriculture, the forest and forest products are the largest class of our exports, and go a long way to pay for those things which we are unable to produce or have an insufficient quantity.

There is constant danger of forest fires, and the farmers of Canada can do a great deal, personally and by interesting others, to assure a continuance of the forests, with all they mean as recreational regions, fuel supplies and, where necessary, employment.

**PREMIER HERRIOT**  
**OUTLINES FOREIGN**  
**POLICY OF FRANCE**

Paris, Jan. 2.--Security was the main theme of Premier Herriot's long awaited speech on France's foreign policy delivered before a great gathering in the Chamber of Deputies today.

The Premier occupied two hours of his three and a half hours' address in drawing up a vivid but dark picture of Germany's activities in armaments while he disposed of the problem of inter-Ally debts in a brief, but never the less emphatic manner.

Never before since he assumed power has Mr Herriot spoken of Germany in the tones he used to day and although he had the entire chamber, excepting the Communists applauding and cheering the general interpretation through out parliament was that his purpose was deeper than merely catering to the right groups--that it was a warning to the British government against the evacuation of the Cologne zone. On the subject of inter-Ally debts the Premier said:

"I come to the question of inter-Ally debts. I shall speak very briefly thereon, for you have remarked how great is the susceptibility of our friends and allies on this subject and you know how even the sublimest words and best sentiments risk at times being interpreted in a regrettable way. What I do is to solemnly repeat once more what M. Viviani has said-- France does not intend to repudiate her debts.

"It is not the government over which I preside, attached as it is to respect for treaties and conventions, that will disavow the principle of debts which France has contracted.

"That being said, we have the right after the speech, filled with such useful figures by Mr Dubois, after Mr Martin's to appeal to the sentiments of solidarity of our Allies and friends.

**NORTH SHORE REGT.**  
**HAS ANNUAL DINNER**

Campbellton, N. B., Jan. 28 --At the annual regimental dinner of the officers of the North Shore regiment held tonight in the Chateau Restigouche, covers were laid for 70. Major Murray was chairman. The banquet was a memorial event and in every way successful.

When the toast list was honored among the principal speakers were Pius Michaud, M. P., Edmundston; Dr. L. G. Pinault; Campbellton; Col. W. B. Anderson, C. M. G., D. S. O., O. C. of M. D. No. 7, St. John and Mayor Mackay, of Campbellton.

**Role of Militia**  
Colonel Anderson spoke of the importance of the militia to the welfare of the nation, saying that while he hoped there would be no more wars, in the event of war, it would be impossible to train officers and N. C. O.'s in less than a year or two years, and this was the work the militia was accomplishing in times of peace.

Colonel Sparling spoke of the details of militia organizations.

Rev. W. W. McNairn responded to the toast to "Our Fallen Comrades" and Judge Matheson responded to the toast "Our Guests."

**ADDRESS ON**  
**CHURCH PRAISE**

Rev. Alex. MacMillan, D. D. Secretary of Church Praise for the Presbyterian Church in Canada, who has been spending a month in the Maritime Provinces, addressed a congregation in Newcastle Wednesday evening. His addresses on Church Praise are of a high order and meet with the high appreciation of choirs and congregations where ever he goes. Dr. MacMillan has given a weeks' course of lectures to the college students in Halifax Presbyterian College and Mt. Allison University (Methodist), during his Maritime visit.

### OFF THE TRACK

The wing plough of the Ocean Limited going south, jumped the track in the Newcastle yard on Friday, holding up traffic for three hours.

### CARD OF THANKS

Mr. Walter Sturgeon and family of White Rapids, N. B. wish to thank the many friends and relatives for the kindness extended and services rendered in their recent sad bereavement.

### THE WEATHER

There was five changes in the moon during January besides an eclipse of the sun and this according to the wise ones accounts for the severe weather.

### FLOUR PRICE ADVANCED

Flour prices advanced last week \$1.00 per barrel, owing to a 29 cent bushel advance in wheat prices in the Winnipeg market. There was also an advance of 10 cents a bushel in Oat prices last week.

### APPLICATION FOR CONSIDERATION

It is understood that F.H. Peters, who was counsel for Harry D. Williams in his trial, will apply to the Minister of Justice for consideration of the case particularly on the grounds of his mental condition.

### LADIES' HOCKEY

A number of local young ladies are at present practising hockey with the intention of having one or more games here with lady hockeyists from neighbouring towns. The ladies are putting up a good brand of hockey and their games no doubt will be well patronized.

### FISHERMEN STOP WORK

The smelt fishermen of the Miramichi are hauling in their gear, while there are yet two weeks of the season left. Usually the fishermen do not begin to think about hauling in their nets until February 15th, when the season closes and generally they look for a two week's extension. The run of smelt this year has been a failure, the fish being very small and of very little market value.

### HOCKEY BY RADIO

The great hockey match between the Canadians and Bruins at the Boston arena last Tuesday night was broadcasted from station WBZ and was heard distinctly and greatly enjoyed by many people in town. A man named Ryan from a position in the press box described every feature of the play in English, and a Mr. Cartier handed out particulars of it in the French language for the benefit of listeners in the Province of Quebec. The cheerings of the thousands of fans who witnessed the game could be distinctly heard at intervals. The Canadians won the game by a score of 4 to 0, three goals having been secured in the first period.

### MOTHERS LIKE TO TREAT COLDS WITH VAPORS

Direct Treatment with Vaporizing Salve Immediately Reaches Inflamed Air Passages.

It is no longer necessary constantly to dose the children in treating croup, bronchitis, sore throat, or deep chest colds. Many Canadian mothers now use the "outside" remedy, Vicks VapoRub, for the cold troubles of all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier. At the same time Vicks is absorbed and stimulates the skin like a liniment or ointment and thus aids the vapors inhaled to break up the congestion. At all drug stores 50c a jar. For free literature write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

### SCHOOL HOLIDAY

The pupils of Harkins Academy were given a holiday on Friday afternoon, because of the heavy snow storm with which this section was visited.

### USING TRACTORS FOR HAULING LOGS

The Bathurst Company are using tractors to haul logs near their booms for first open water. It is an interesting spectacle to see these monsters travelling along with six and seven big sled loads of logs.

### SIMILAR NAMES

Miss Mary Hachey, of 24 Brook street, St. John N. B. said last week that she was not the girl of that name arrested in Newcastle on a charge of theft. Miss Hachey, of St. John, had intended going to Newcastle a week ago, but her departure had been postponed on account of illness.

### HEAVY SNOWSTORM

The worst storm of the season occurred here last Saturday morning. It broke about 8 o'clock in the morning and kept up steadily until 4 o'clock in the afternoon. The blustering gale was fought by all who were outdoors and who had to struggle to make headway against the blast. The snow was driven into hard deep drifts and teams had great difficulty in making progress.

### A PUBLIC DANGER

There should be some method of protecting the public from the snow and ice, which every winter, menaces the lives of citizens, as they walk along the streets. The immense icicles hanging to some buildings are liable to fall and perhaps bring instant death to some child. Such a tragedy would occasion an outcry and horror. What is wanted—is to forestall it.

### RINK TO BE ENLARGED

It is rumored about town that Newcastle is to have a large skating rink next season and both young and old, who enjoy this graceful and healthy recreation in the winter months, are delighted in the anticipation of enlarged facilities, as the present structure is inadequate for the large increasing number of residents who are at present recognizing the value of this delightful winter sport.

### COLD WEATHER

The question has been raised as to whether or not the cold weather of the last three weeks was not due to the dryness of the country. In the Canadian west which is at times very dry the people suffer from extremely low temperatures and probably there is something in the contention as expressed by our native "weather prophets." We notice in reading the reports of the temperature as it rises and falls that the counties of the province along the seaboard are not nearly as cold this winter as those that skirt the international boundary.

### ST. SWITHIN'S DAY

Yesterday was St. Swithin's Day and if the weather on that day has anything to do with the nature of the weather during the next month or so—then we should be favored with some fine weather in the future. One thing sure, the ground-hog did not see his shadow as the sun did not peep through the heavy clouds during the entire day. Everyone has had about all the winter they want in the month of January and fine weather from now on would be greatly appreciated. It is more or less encouraging to think that at any rate we are not to have two winters in one if the old adage about the ground hog be true.

### LOCALS DEFEAT CHATHAM

The Newcastle Senior Hockey team defeated a Chatham team in the local rink on Friday evening by a score of 6-2. A large attendance of hockey fans was present, who thoroughly enjoyed every minute of the game.

### STUDENTS WERE CAUTIONED

At the Provincial Normal School a caution was given by Dr. H. V. E. Bridges, principal against students attending sessions of the court during the trial of Harry D. Williams for murder. Prior to the caution being given many Normal students had attended. The consent of parents was specified by Dr. Bridges.

### ELECTION DAY

Thursday of this week is election day in Gloucester County, to fill the vacancy in the Provincial Legislature by the elevation of Hon. James P. Byrne, former Attorney General to the Supreme Court Bench Hon. Ivan C. Rand is the candidate for the government and J.L. Ryan for the Opposition.

### HEAVY DRIFTING

The 8 inches of snow which fell on Saturday drifted heavily on Sunday. The result was that roads were blocked and travel became difficult everywhere. Country roads suffered particularly and it will take some time to break them out, although this is really the first severe storm of the season. In town it was necessary to send the snowplows over the sidewalks several times.

### HOCKEY

Chatham defeated Moncton at the latter place last Thursday night in a close game of hockey by a score of 4 to 2. Jimmy Fallon of Newcastle, who is playing with Chatham this year, is credited with the goal, which won the game. In the third period Fallon skated from end to end and scored the third goal for Chatham and the one which won the game. It was a pretty piece of work and a long wing floater, which did the trick.

### CHURCH UNION

The Union Committee appears to have the ear of the Canadian News Service with the result that news favorable to that side of the question is sent over the wires.

It is said that "figures do not lie" but they can be used in misleading manner. A gentleman with a taste for facts took the trouble to obtain from Saskatchewan the voting figures for that Province and found that some hundreds of mission and preaching stations designated as "churches" in the Union Committee's statement had a church membership of from 5 to 15. He found that the membership of 147 of these stations was just equal to the majority in one Ottawa church, that voted to stay in the Presbyterian Church.

As the voting comes eastward of the Great Lakes so the list of churches determined to carry on other schemes of the Church. But

the grand old Presbyterian Church steadily increases. In Toronto up to the 27th of January, 41 city churches have cast their ballots. Of these 19 are in favor of entering the United Church, and 22 to stay in the Presbyterian Church. The total vote for union in the above churches was 12,741, and against Union 14,062.

In the presbytery of London, Ont. of 20 churches balloting on Union 12 have elected to stay in the Presbyterian Church. The officers of those 12 churches recently met and passed resolutions strongly protesting against the policy of the Union Committee which is urging the members voting Union to ask for their disjunctive certificates at once. It is pointed out that if this is carried out churches which have a proud record of paying their allocation of the budget in full will be unable to do so, with disastrous result to the foreign missions and churches determined to carry on other schemes of the Church. But

it seems to be the policy of the Unionists to rule or ruin.

It now appears to have been a wise provision of the New Brunswick legislation that the vote on Union shall not take place until after June 10th. By that time it will probably be found from the way the voting is now going that fully sixty per cent of the membership of the Presbyterian Church in Canada have elected to continue their denomination. If the congregations in New Brunswick are wise they will stand by their old Church solidly and decline to be split up to gratify the ambition of a few men in Toronto.
