**Live Wires Take 3 Lives**  
**Toronto Boy Drops Dead**  
**As He Walks on Street**

**Broken Feed Wire Hanging Among Trees on Bloor Street Kills Albert Jewell and Shocks Others.**

**GUY WIRE GETS CURRENT**  
**KILLS TWO IN HAMILTON.**

The terribly deadly nature of the "live wire" was never more vividly demonstrated than in two instances yesterday, when two men in Hamilton and a boy in Toronto met death as in the twinkling of an eye.

As 13-year-old Albert J. Jewell of 210 Robert was passing along the south side of Bloor-street, about 30 feet to the east of Spadina-avenue, his neck was grazed by an electric feed wire, which, broken, was hanging among the trees. The boy dropped dead in his tracks.

The boy was seen lying in the street by Gordon Spooner, 72 Sussex-avenue, another boy. The body was removed to E. J. Humphrey's undertaking rooms in West of Queen-street. There it was discovered that a red spot upon the neck was the only mark upon the body. Coroner L. W. Graham will hold an inquest to-day.

Not knowing the cause of the boy's death Patrol Sergeant Beatty touched the wire, which hung about four feet from the ground, with his hand. So great was the shock that he was thrown against the fence, six feet distant. Even when it was known that the wire was "alive," the police had great difficulty in keeping back the crowd. An adventurous man came too close. The wire touched his head, dropping him to the ground. He was able to go away unharmed.

The body of the dead boy lay in the boulevard for more than an hour before it was removed. The ambulance had first been called, and refused to take the body, and the patrol wagon had to be called.

There was also delay in securing the services of a coroner who, the regulations demand, must first view the body. Because it was thought it was a street railway case, in which Chief Coroner Johnson has no jurisdiction, an attempt was made to find County Crown Attorney Drayton or his assistant, but both were out of the city. Then Dr. Johnson decided to end the unfortunate delay by appointing a coroner himself.

While the crowd still gathered about the body, employees of the electric light company removed the wire, before the police had definitely ascertained to whom it belonged. At first the Bell Telephone Co. had been notified, but they disclaimed ownership.

**TO KEEP COOL**

WASHINGTON, June 24.—Dr. Harvey W. Wiley, food expert of the government, has a few simple rules for eating and drinking during the heated term. Here are his commandments:

Eat one-fourth less in summer than in winter.

Eat meat in moderation. Select the lighter meats.

Banish all alcoholic beverages. Eat most largely of cooked fruits and vegetables.

Drink nothing below 60 degrees in temperature, and drink sparingly.

Be careful to seek the society of cheerful friends.

Practise moderation in open air exercise.

Don't fret; don't worry.

**CORNWALL CANAL MAY BE FIXED IN 3 WEEKS**

Superintendent Weller Starts Double Shifts at Work Repairing Damage.

CORNWALL, June 24.—(Special.)—The work of repairing the break in the Cornwall Canal started this morning under the personal direction of Mr. Weller, superintendent of the Welland Canal, who arrived here this morning to take charge of the work. A conference between Hon. George F. Graham, minister of railways and canals; Mr. Weller and Mr. Carpenter, chief engineer of the New York Central Railway, resulted in the adoption of a plan by which the channel of the canal will be switched north around the land pier of the Ontario and New York. This will mean the excavation of a new channel by means of steam shovels, and is rendered necessary by the wearing away of the bottom of the canal at the break, where the water has eaten out the soft bottom, almost half way across the canal. The break and this wash-out will be closed by a huge cofferdam. Mr. Weller, the engineer in charge, refused to make any statement as to the length of time that will be required to have the canal ready for navigation, but it is likely to take from three to four weeks.

On June 24, the work is at work to-day, with a strong night shift. The Ontario and New York Railway will proceed at once with the removal of the wrecked bridge, and the rebuilding of the same; the cost will be over \$50,000.

**TWO MEN KILLED**

Guywire Crossed One That Was Charged and Death Was Instant.

HAMILTON, June 24.—(Special.)—Albert E. Scotney, 115 Florence-street, and George Bambrick, 167 Canada-st., carpenters, were electrocuted at the works of the B. Greening Wire Co. on Queen-street this afternoon.

The circumstances surrounding the accident are horrible. The bodies of both men were terribly burned. The men were employed by the firm to build a shed in rear of the Queen-st. mill. A guy wire was in their way and they cut it down. While both had hold of the wire it came in contact with the live wire, which carried the current of electricity that operates the plant and the full current of two thousand volts shot thru their bodies. They were hurled into a pool of water, but were not released from the wire, and flames in long streamers played around the bodies until both were horribly burned. By means of a plank the guy was separated from the live wire, but both were long past help.

Scotney was 24 years of age and leaves a widow and a baby only a few days old. Bambrick was 28 years of age and his wife is in a delicate state. Both men were well and favorably known in Hamilton. Coroner Anderson will hold an inquest and the jury will meet to-morrow at noon.

**LUMBERMEN ORGANIZE.**

Big Operators Want Duty on Southern Timber.

OTTAWA, June 24.—(Special.)—The Canadian Lumbermen's Association was formed here to-day to act as a general advisory body to deal with matters affecting the trade. The capital represented is about \$25,000,000. The new president elected was J. R. Booth, Ottawa, Gordon W. B. Miller, Toronto, president; J. B. Miller, Toronto, treasurer; R. G. Cameron, Ottawa. A permanent secretary will be appointed. Afterwards a deputations asked the premier and minister of customs to impose a duty on southern pine and hemlock brought into Canada.

Sir Wilfrid Laurier will consider this, but intimated that no restrictions will be imposed that would act as an obstacle to western people receiving what lumber they required. The lumbermen said the duty would not have effect in the west, where white pine is mainly used.

**PREMIER WHITNEY'S SUGGESTION.**

LONDON, Eng., June 24.—Premier Whitney has written an English correspondent suggesting that the time has come when the general interests of the empire demand a full and free discussion of the preferential problem in the imperial conference.

**SUDDEN DEATH OF MIMIC WARFARE**  
**CLEVELAND**  
**SHOCK**

Ex-President of the United States Passes Away—Secrecy Surrounds His Illness.

PRINCETON, N. J., June 24.—Grover Cleveland, former President of the United States, died suddenly at his home at Westland here at 8.40 o'clock this morning.

The death was not immediately announced, but was delayed until an official statement had been prepared by the physicians who had been attending him in the various periods of his illness.

The statement said:

"Mr. Cleveland for many years had suffered from repeated attacks of gastro-intestinal origin. Also he had long standing organic disease of the heart and kidneys. Heart failure complicated with pulmonary thrombosis and oedema were the immediate cause of his death."

While Mr. Cleveland had been seriously ill from time to time, his announcement of his death came like a thunderbolt to those who had been watching his illness.

His famous message to Britain on March 18 last. During the past winter Mr. Cleveland kept close to his home in Princeton until the approach of his birthday, when he went to Lakewood with his family. He was a trustee of the Equitable Life Assurance Society of this city and up to the time of his going to Lakewood had attended to correspondence in connection with his duties for that society.

**Roosevelt's Tribute.**

WASHINGTON, June 24.—In a proclamation announcing the death of the president says:

"In his death the nation has been deprived of one of its greatest citizens. By profession a lawyer, his chief services to his country were rendered during a long, varied and honorable career in public life. As mayor of his city, as governor of his state and twice as president, he showed signal power as an administrator, coupled with entire devotion to the country's good and a courage that quailed before no hostility when once he was convinced that his duty lay there. Since his retirement from the presidency he has continued well and faithfully to serve his countrymen by the simplicity, dignity and uprightness of his private life.

"In testimony of the respect in which his memory is held by the government and people of the United States, I do hereby direct that the flags on the White House and the several department buildings be displayed at half mast for a period of 30 days; and that suitable military and naval honors under the orders of the secretaries of war and of the navy, be rendered on the day of the funeral."

**Flags at Half-mast.**

NEW YORK, June 24.—Immediately upon the receipt of the news of the death of Mr. Cleveland, flags went to half mast upon almost all of the buildings in the financial district, including those of the sub-treasury, the custom house, assay office and postoffice.

**Col. Mason Narrowly Averts Catastrophe in To-Day's Sham Fighting at Niagara Camp—Soldiers Sleep in Open.**

NIAGARA CAMP, June 24.—(Special.)—A serious accident might have occurred at to-morrow's sham fight had not Col. Mason detained the Fifth Infantry Brigade long enough to make a search of the cartridge belts.

For some unknown reason several cartridges loaded with real slugs had got mixed with the blanks, and were issued to the men. Every trooper was searched and the brigade was not allowed to proceed on its way to defend the Welland Canal.

Detachments of the defence army have been leaving camp all afternoon by various roads on the 14-mile route march towards Thorold. The army will bivouac to-night by camp fire, without tents, and provided only with overcoats and blankets as protection against the night air.

The attack will be on the move shortly after midnight, taking the river road to Queenston, the Four-Mile Creek road to St. Davids, and the Virgil road to Thorold.

In all, 4468 men will be engaged. The "Blue" (defence) army has 1866 of all corps and arms, and the "Red" (attack) will have 2600. The disposition is as follows:

"Red"—Artillery, 2 guns 7th Battery, 47 men; Infantry, 3rd brigade, 1271 troops, 4th brigade, 1032 troops; A. M. C., 12th and 18th Field Ambulance, four squadrons, composed of G. G. B. G., 1st Hussars and 2nd Dragoons, 200 men.

"Blue"—Artillery, 11th Battery, 2 guns, 47 men; Infantry 5th brigade, 1335 troops; A. M. C., Nos. 10 and 11, 135 men; Cavalry, 15th and 16th squadrons, composed of G. G. B. G., 1st Hussars and 2nd Dragoons, 200 men.

**Battle Losses Overcoat.**

While here yesterday Sir Frederick Borden lost his overcoat, and consequently there is a not a day's camp order ready to-day:

"Lost—A light overcoat (circular) with silk handkerchief in pocket. Reward of \$5 will be given for its return to camp headquarters office. C. O.'s will see that this notice is fully promulgated."

Some very interesting work was done

**\$5,000,000 IS GIVEN**  
**PAN-ANGLICAN FUND**

250 Bishops Assemble at St. Paul's for Presentation of Thanksgiving Offering.

LONDON, June 24.—The Pan-Anglican Congress opened with a mass meeting for women in Albert Hall, which was presided over by the Bishop of London. The day was spent in several large devotional meetings.

A thanksgiving service at St. Paul's Cathedral was held at noon to-day, at which 250 bishops from all parts of the world walked in solemn procession and laid the offerings of their dioceses on the high altar.

It is reported that the fund thus provided amounts to \$5,000,000.

**MOULDER DRINKS ACID.**

Toronto Man Kills Himself in Port Hope.

William D. Wallace, aged 45, 265 Montrose-avenue, an iron moulder, committed suicide at Port Hope yesterday. Some days ago he went there looking for work, but was unable to find it. He had without funds he slept in a sleigh standing behind the Queen's Hotel. Yesterday he was found lying dead in the sleigh with an empty bottle of carbolic acid beside him.

Wallace had lived in Toronto for years, and was formerly employed by the Standard Ideal Enamelling Works. He leaves a wife and family in Toronto.

**MEDICINE DEALERS ACTIVE.**

Delegation of Proprietary Men Goes to Ottawa.

OTTAWA, June 24.—(Special.)—The special committee of the house of commons to which the bill regulating the sale of patent and proprietary medicines has been referred will meet on Tuesday afternoon next at 3 o'clock. It is expected that there will be quite a delegation here from Toronto in support of the measure, which is understood to have the endorsement of the proprietary medicine men of Canada.

**THAT ELECTION LAW.**

Aylesworth Bill Will Be Taken Up on Monday Next.

OTTAWA, June 24.—(Special.)—It is expected that the Aylesworth election bill will be again taken up on Monday next.

An agreement has been reached with regard to Manitoba and British Columbia and the unorganized portion of Quebec, but the northern Ontario feature will be contested in committees as well as clause seventeen, regarding the secrecy of the ballot.

**Business Methods in Parliament and Business Administration of Departments.**

The parliamentary machine, as it runs in Canada to-day, is about breaking down. It is not equal to the requirements; or, to put it in another way, advantage may be taken of it to the public detriment. It began business, or professed to begin business, for this session late in November last, and it has been in continuous session ever since; that is, it has been running seven months or more, and there is most of its work yet to be done. A great deal of the time of the members and of the country has been wasted; time that costs the country a lot of money, and time that costs the members no little sacrifice on their part. Needed legislation has been held back, supplies have been delayed, and a deadlock has been more or less imminent now for several weeks. It may take another month, it may take three months, to conclude some of the business still on the paper; and the likelihood is that a great deal of business now scheduled will have to be discharged. The report current is that the insurance bill, which is of great interest to many people, will have to stand over for another session.

Another thing that has developed, the few people have yet been acquainted with it, is this, that no cabinet is equal to the discharge of its many duties outside of parliament, and no minister is equal to the proper administration of his department, that has to give minister to nine months to hostilities in the legislative chamber. Such a minister has largely to abandon his department, and the proper supervision of his department. The pressure of such a situation at times tempts a minister into overwork, or to careless habits, and ultimately forces his retirement. A cabinet minister should be able to give plenty of time to his department, and the cabinet ought to have sufficient time to study the legislation introduced by private members.

But, besides the breakdown of the parliamentary machine in its legislative branch, there is another thing evident to all the Canadian people, and that is that business administration in many of the public departments is altogether lacking. No one can say that the revelations made in connection with the department of marine and fisheries would justify the claim that that department was administered in a businesslike way. No one can say that the department of militia and defence is of an exemplary character, nor can some of the things done in the other departments be justified from a business standpoint.

It is, therefore, evident that there is an absolute lack of business methods in the conduct of parliament, and that there is a very considerable lack of business administration in more than one of the great public departments, and that extravagance and carelessness, and dishonesty have resulted.

Another thing that is now apparent is that the lack of business methods in the house is in some way connected with the lack of business administration of departments. In other words, the time of the house that ought to be devoted to legislation has been given up to discussing charges of graft and scandal, of extravagance and maladministration of departments; and one member of the opposition—we forget who it was—summed up the situation when he called out: "Quit grafting and we will quit obstructing."

Where, then, are we to look for relief? First of all, there must be business methods in the conduct of the house of commons; and sooner or later a greater control of discussion and more limitation of mere talk, better means for bringing all issues to a vote, and the elimination of a lot of discussion of details must be reached. The house must, at a very early date, revise its rules on the line of what has been done in England and at Washington. It is also equally incumbent on the government, and on some of the ministers, to give us business administration of every department, to get rid of the grafter, and to get rid of the extravagant deputy of the department and of extravagant heads of branches, and to get a dollar's worth of value for a dollar's worth of money. No party benefits by graft, or by reckless or careless administration. On the contrary, it is certain to bring even a progressive government to disgrace.

Canadians must insist on these two things: the reform of the procedure of the house and the introduction of business methods, and the introduction of business administration to the great public departments. Without these things parliamentary government will become a curse, cabinet and departmental responsibility a failure.

**Meat and Milk Prices**  
**Go Up With the Mercury**

Local Retailers Can't Hold Out Much Hope to Housewives—Reasons Why.

"The cow jumped over the moon" is no longer in the category of nursery rhymes, the phrase is not even a metaphor so far as the prices of meats in Canada and the United States are concerned. In fact, beef, in the better cuts at any rate, is soaring in price.

"Altho," said G. H. Walter & Son of St. Lawrence market, "the price in Canada for choice centre cuts of sirloin and porterhouse steaks is not quite so high as in the United States, the price for these cuts has never been dearer, and the outlook is not any too encouraging."

"There are two causes for this. The first is of long standing and really began last fall with the scarcity and high prices of feed. The conditions were such that it paid the cattler

**EXPLANATION OF THE DIAPHONE PRICES**

J. P. Northey, the Inventor, Tells of the Cost of Invention and Perfection, and of Business Done.

In reference to the evidence given before Judge Cassels, enquiring into the marine department, John P. Northey, president of the Canadian Fog Signal Co., Ltd., writes The World as follows:

I desire to prevent a possible injustice being done to the Canadian Fog Signal Co. and to myself by the necessarily incomplete reports that have been published of the proceedings in the unfinished marine department investigation before Justice Cassels at Ottawa. The casual suggestion of counsel as to "unconscionable profits" is not only unsupported by the testimony so far given, but will be entirely exploded by the fuller evidence that will be submitted when the commission resumes in September. At the opening sitting last week, when a short statement was filed on behalf of the company, no representative of the press was present, as Mr. Watson at the time remarked, and the admitted facts have been overlooked.

A word or two of personal reference is necessary. After disposing of the business of the Northey Manufacturing Co. and since the spring of 1903, I have devoted my whole time and attention to perfecting the diaphone. Realizing the recognized imperfections of existing appliances and the importance to the world of an effective fog signal, I acquired the basal patents of the diaphone and set myself to develop the invention. While showing undoubted merit, it had reached, at that time, its limit of usefulness and could not be operated in larger sizes with any reasonable expenditure of power. Surely if I have been successful after years of application and very large expenditures of money, sacrificing thousands of dollars for materials alone, the value of the diaphone is not to be measured by the mere cost of the material of which it is composed.

**Device Thoroughly Tested.**

It was necessary to purchase a boat and boats' equipment to make tests in all kinds of weather, experts were retained for years, existing fog horn appliances were purchased and tested, stations were established and the most efficient English horn was sent to Canada for the purpose of a comparison. Test were also made in Great Britain and Ireland. Even two years ago C. W. Scott, chief engineer

**ST. HYACINTHE BANK**  
**DEPOSITS GUARANTEED**

Bank of Montreal Will Conduct Business of Bankrupt Institution and Save Creditors.

MONTREAL, June 24.—(Special.)—The Bank of Montreal will open a branch to-morrow morning in the building formerly occupied by the Bank of St. Hyacinthe, whose suspension was announced yesterday. The statement is also authorized that the depositors of the institution will be as good as secured.

This morning the secretary of the Canadian Bankers' Association, J. P. Knight returned to St. Hyacinthe, and after an interview with the directors, three of these gentlemen, Hon. Senator Desaulles, the president of the bank; V. B. Slocot and Dr. Oudry, came into the city with Mr. Knight, and the conference was resumed at the Bank of Montreal.

It can, therefore, be stated upon the best authority, that the situation is far from being as bad as was generally supposed when the news of the suspension was first given out.

From what can be learned an arrangement has been made with the Bank of Montreal and one or two other institutions, by which the present deposits of the Bank of St. Hyacinthe are as good as guaranteed. It is understood that W. E. Staver of the head office of the Bank of Montreal, will be followed later by Ernest Cochrane, will take charge at St. Hyacinthe.

**OUT-OF-SIGHT**

HOT? I SHOULD SAY SO

Don't imagine it is going to last forever, though. Fall is not far off and you know that winter follows closely on its heels.

Now is the time to make preparations for a comfortable winter.

Economy Furnaces and Boilers are the best.

Initial cost may be a trifle higher, but you have something you can depend on.

Write or call for information.

PEASE FOUNDRY CO., Ltd., Manufacturers

ECONOMY FURNACE HOT-WATER BOILERS

qured and length of time for which such officials were necessary.

The grades have been arranged and classified with due regard to the character of the service required in the various departments and the several sections in each grade so divided that the services of the various officials may be valued as they may be more or less technical in the departments to which they belong, thus leaving a certain elasticity in each grade, under which all branches of the service may be organized.

SEeks RUNAWAY HUSBAND.

Mrs. Walpole, Late of Toronto, Advertiser for Spouse.

DETROIT, June 24.—(Special.)—Thomas Walpole, who left Toronto three years ago, come and claim his boy before he is adopted, his mother is sick at 129 Sixth-street. The forgoing has appeared in one of the local papers.

Mrs. Thomas Walpole says she and her husband lived in Toronto three years ago; he was making good wages. He left her in June, taking a 2-year-old son with him. In November the other boy was born. She came to Detroit and has been making a struggle to support herself and baby, but since last April her husband has been making such a thing as he is unable to do much.

TIMBER SALES OPEN.

Revenue From \$1,071,500.

OTTAWA, June 24.—(Special.)—The sale of the Doka Indian reserve in the Russell House took place this morning. The eight berths were sold for \$371,000. The following is the list of sales:

Berth No. 1, J. S. Casselman, Riverdale, Cal., \$178,000; berth No. 2, Patrick Shannon, Pembroke, \$68,500; berth No. 4, James Playfair, Midland, \$114,000; berth No. 5, Patrick Shannon, Pembroke, \$68,500; berth No. 6, W. J. Sheppard, Midland, \$151,000; berth No. 7, C. A. McCool, Ottawa, \$131,000; berth No. 8, Jas. Playfair, Midland, \$102,000.

DEER PARK ANNEXATION.

J. R. L. Starr put in the petition of Deer Park for annexation to the city with the railway and municipal board yesterday, July 6, at 2:30 p.m., was set for hearing at the arguments.

Through Bala Sleeper.

On July 1 after next Friday, June 26, a standard sleeper for Bala will be attached to Canadian Pacific 9:30 p.m. express. Steamers for points on Muskoka Lakes leave Bala at 7 a.m., but if they wish passengers may remain in car until 8 a.m. Reserve berth at C. P. R. city ticket office, corner King and Yonge-streets. 234

Meeting the Conditions.

"Augusta," said Mr. Wyss when the quarrel was at its height, "you have devised a great variety of ways to call me a fool."

"Merely a matter of necessity," replied Mrs. Wyss. "You have devised so many ways of being one."—From The Bohemian Magazine for July.

At 9:30 Every Night.

The Canadian Pacific's new flyer leaves Toronto for Winnipeg, the Canadian Pacific's only through train, through the Muskoka route. Canadian Pacific is the only Canadian route to the Canadian west.

Bill to Incorporate Diocese.

OTTAWA, June 24.—(Special.)—A bill to incorporate the Diocese of Keewatin was reported in the private bills committee without amendment.

UNSAFE MACHINERY GETS WARNING TAG

Factory Inspectors Continue to Profit From Experiences of Others.

A number of helpful papers were read at the continuation of the convention of factory inspectors yesterday.

The afternoon proceedings opened with an address by C. C. James, deputy minister of agriculture, who dealt with the resources of the province. Mr. James pointed out that of the 200,000 square miles of the province, only one-third are occupied, leaving plenty of scope for expansion, particularly in consideration of the immense water-powers of Ontario.

Mrs. King of Montreal contributed a bright paper dealing with the personal factor in factory inspection. To be successful in this calling it was necessary to be a student of human nature, she declared. Great tact and the exercise of courtesy were required. It was desirable to retain as far as possible the good-will of employers, and inspectors should guard against assuming an autocratic and dictatorial attitude, and looking for faults.

W. W. Walling, New York, spoke of the necessary means sometimes adopted for enforcing regulations respecting safeguarding machinery and providing proper cleanliness in factories. In new plants, he said, the method where employers neglected to improve conditions after due warnings was to place placards with the inscription "unsafe" on such machines, and firms were liable to prosecution if such placards were removed or if the machines were operated, while "unsafe" tags were placed on goods where unsafe conditions existed in factories.

Mrs. Mary Davis, Albany, N.Y., emphasized the importance of demanding for operatives pure air, water and clean surroundings.

Hon. E. J. Watson, commissioner of the department of agriculture, South Carolina, said that yellow journals had written in conditions in cotton-mill districts of that state, and that the mills were on the average fully up to the standard of the various officials.

Papers were also read by Alfred Shepher, Iowa; F. W. Murray, St. Paul, Minn.; C. E. Baker, Ohio; Hon. J. W. C. Brown, Ontario; Hon. F. H. Morgan, Columbus, Ohio, and others.

"I do not believe that it is injurious for a child to work," said Hon. John Williams, commissioner of labor, New York. "Children should be taught certain habits of industry and industry should be employed under strict regulation." In cases where a child had to work to support a family, he would have the state give such a child compensation. "I would pay him for attending school," said he, "and I would not let the state pay for every day which he misses."

TORONTO MAN PRESIDENT.

Deaf Man Association Elections Held—Physical Culture Advocated.

John T. Shilton, Toronto, was elected president of the Ontario Deaf Mutes' Association at last night's session in Convocation Hall, defeating J. R. Byrne by 87 votes to 15.

Robert Mathison is the honorary patron and Dr. C. B. Coughlin, honorary secretary.

A lively competition developed for the first vice-president, Arthur Jaffray, defeated Mr. E. Byrnes, John Croun and P. Fraser by 76 votes to 147. F. Fraser, Toronto, received 102 votes for the second vice-president. Mrs. N. Belleville, was re-elected secretary by acclamation, and A. W. Mason, Toronto, for treasurer, 74 votes against 62 cast for W. R. Watt.

Other names submitted by the nominating committee were Messrs. E. Byrnes, J. W. C. Brown, Thomas and Roberts.

A resolution was adopted recommending the change of the name of the association to Ontario School for the Deaf.

This had been recommended by Dr. C. B. Coughlin, Belleville, now secretary, and Mr. E. Byrnes, Toronto, who had introduced the motion. Instead of this the telephone company sent a boy out this evening on a bicycle to the Gilmour home, he rushed into Mrs. Gilmour and shouted, "Dave's killed in Toronto."

COBALTER'S DEATH.

Coroner Singer Will Make an Enquiry Into the Circumstances.

Not satisfied with the cause of death given in the death certificate by Dr. Herbert Adams, Coroner Singer will to-day hold an inquest into the death of Charles Cobalter, who died Tuesday at 242 Victoria-street.

The man came to the city from Cobalt a few days ago. He took a room at the Victoria-street house Monday night. The next day he acted as the mentally unbalanced. After several calls Dr. Adams issued an order for his admission into St. Michael's Hospital. The hospital was reached by the man last night after Adams saw him for the first time after death. He gave asthma as the cause of death.

The inquest will be held at J. A. Humphrey & Sons' undertaking rooms, Church-street.

GRAIN RATES REDUCED.

Railroads Agree to Ameliorate Canal Blockade.

MONTREAL, June 24.—(Special.)—As the result of a deputa-tion of members of the Montreal Corn Exchange to the C.P.R. and C.P.R. railway managers, the railway companies have agreed, by way of offsetting the Corn Law, to include in their rates from Kingston and Prescott to Montreal a charge of 1-1/2¢ per bushel in addition to the regular rate per bushel in now three cents from Prescott and three and one-half cents from Kingston. The regular rate is four cents and three and one-half cents, plus loading charges.

Justice MacLaren of Toronto and H. C. Heintz of Pittsburgh will represent the International Peace Association at the next World's Peace Conference at London, England.

USELESS INJUNCTION ISSUED AGAINST I.O.F.

Rochester Member Appeals to Courts to Prevent Rate Increase

Dr. Millman is Treasurer.

Dr. Thomas Millman, supreme physician of the I.O.F., was temporarily appointed supreme treasurer yesterday. A full meeting of the executive council is necessary to ratify or otherwise deal with this action, and the council will meet for this purpose next month.

A notice of motion to combine the I.O.F. and the I.O.O.F. will come before the next meeting of the supreme council, and in view of the position of the I.O.F. the executive council may confirm the present temporary appointment.

A resolution of condolence will be sent to the family of the late Harry A. Collins. According to precedent the salary for the current month will be sent to the representatives of the late treasurer.

A despatch from Rochester, N.Y., states that a temporary injunction was granted yesterday by Justice G. A. Benton restraining the supreme council, I.O.F., from increasing its present insurance rates pending the action brought on that point by Henry J. Stimmelink.

The council of United States courts, it may surprise Justice Benton to hear, do not run in Canada, and the injunction is quite ultra vires.

KILLED ON THE TRACK TRAGIC STORY IS TOLD

Companions Make Ghastly Discovery After Short Separation—Inquest is Opened.

Coroner Gilmour of West Toronto convened a jury last night to enquire into the cause of death of David Gilmour of Stronness, Ont., found dead on the tracks about a quarter of a mile south of Black Creek bridge, near Davenport, about midnight on Tuesday night. The inquest was then adjourned until 6 o'clock to-morrow.

The coroner said that the body of West Toronto, who will conduct the post-mortem examination, to be taken to the morgue at the hospital last night. The coroner said that the body would indicate that Gilmour, the dead man, and Thomas O'Leary, now in Grace Hospital with a fractured skull, had not had much sleep for the past couple of days, and that they lay down close to the rails so as not to "miss the train."

Clyde McCoy, who gives the address of Natural Bridge, New York State, and Julian Richards, from Montreal, were going to Miami, when the accident occurred. Cleveland (colored), a baker, was going north also, and Ellis Smith was trying to get to Burk's Falls.

O'Connell was in the train when it was derailed, and he was completely shattered, the pieces flying 300 feet into the air. Everything was carried on wheels in the quarters, and a splendid exhibition of the quality of construction which the engine and train are capable of in actual warfare. Major Lang supervised the work.

Tattoo To-Night.

The program for the tattoo to-morrow night is as follows: First post, 9 p.m.; bugles; regimental marches by the 12 bands as they march into the enclosure before the quarters to take positions. "Old Hundred," "Massed Bands," "Rule Britannia," "Canada," "Massed Bands," "The Maple Leaf," "Massed Bands and Vocal Chorus," "The British Grenadiers," by massed bands marching in review order. "By Your Order," "Massed Bands," "Last Post," by trumpets. "God Save the King."

The telephone message never reached the station until after 8 o'clock to-night," said Mr. Lawson, "al-though the undertaker states that he found the operator asleep in his chair. He called to him and woke him up, telling him of the accident, and instead of helping me he ran away and hid," said the witness. "Then I went to the signal man in his box which was scared, but at last I got him."

J. J. Lawson, agent for the G.T.F. Railway, arrived in West Toronto last night, and will take charge of the body.

"The telephone message never reached the station until after 8 o'clock to-night," said Mr. Lawson, "al-though the undertaker states that he found the operator asleep in his chair. He called to him and woke him up, telling him of the accident, and instead of helping me he ran away and hid," said the witness. "Then I went to the signal man in his box which was scared, but at last I got him."

KINGSTON CADET LEADS.

KINGSTON, June 24.—(Special.)—Battalion Sergeant-Major Carson, son of R. J. Carson of Kingston, comes highest in the examination at the Royal Military College, wins honor in the examination in the Royal Engineers.</

**DRINK WHITE LABEL SALE DOMINION BREWERY CO., LTD.**

ORDER FROM YOUR DEALER

**RELATIONS OF FUTURES CHANGED AT CHICAGO**

September Wheat Crosses the July Option—Liverpool Quotations Are Steady.

World Office, Wednesday Evening, June 24. Liverpool wheat futures closed to-day 1/4 lower than yesterday, and corn futures 1/4 lower. At Chicago, July wheat closed 1/4 higher, and July corn 1/4 higher. Winnipeg car lots of wheat to-day, 47; corn, 198; oats, 116. Northwest cars to-day, 210; week ago, 175; year ago, 227.

**ST. LAWRENCE MARKET.**

Receipts of farm produce were six loads of hay and a few dressed hogs. Hay—Six loads sold at \$12 to \$14 per ton. Dressed hogs—Prices are firm for hogs delivered in good condition at \$8.25 to \$9.25 per cwt., but green hogs, or better still, dry weather hogs, are not wanted, and during the hot weather farmers would do well to sell their hogs and calves alive.

**Winnipeg Wheat Market.**

Following are the closing quotations on Winnipeg grain futures: July 1908 bid, October 1908 bid, October 1909 bid.

**Chicago Markets.**

Marshall, Spader & Co. (J. G. Beatty), King Edward Hotel, reported the following fluctuations on the Chicago Board of Trade:

**FARM PRODUCE WHOLESALE.**

The prices quoted below are for first-class quality; lower grades sold at correspondingly lower quotations.

**GRAIN AND PRODUCE.**

Wheat—No. 2 white, sellers \$2.00; No. 2 red, \$1.95; No. 2 mixed, sellers \$1.90.

samples of hard wheat which have come to hand are of most satisfactory quality and of a high test per bushel. Spring wheat conditions are unchanged; in other words, as near perfect as has been seen.

**Wheat—**The lack of important early news was responsible for a quiet opening in wheat market, and, while some commission houses buying caused a slight advance, liquidation in the July option and general lack of interest resulted in a dull and quiet market until the last hour, when report of forty loads of wheat taken for export caused a moderate advance.

**Corn—**Has acted heavy. The Patten crowd, which has been the main support of the market, has been selling the country area conflicting; some reports say the weeds are far ahead of the corn. Local receipts, 18,000 bushels; contract, 18,000 bushels; year ago, 1,111,000 bushels.

**New York Dairy Market.**

NEW YORK, June 24.—Butter—Firm; receipts, 12,327; creamery, special, 23 1/2 to 25 1/2; extra, 22 1/2 to 24 1/2; state dairy, common to finest, 15 to 20 1/2.

**Wholesale Fruit Market.**

The heavy rains of yesterday morning, with the half-holiday prevailing in many stores on Wednesday afternoon, made the berry sale very slow at the fruit market yesterday. Six cars arrived at the Scott-street depot yesterday. These were somewhat nipped, but the berries are of good quality.

**CATTLE MARKETS.**

**Cables Eastern—Cattle and Hogs Are Firm at Chicago.**

NEW YORK, June 24.—Beaves—Receipts, 178; market, 12c to 15c to 17c per 100 lbs; oaten and steers, \$4.25 to \$4.50; butterfats, \$3.75 to \$4.

**Chicago Live Stock.**

NEW YORK, June 24.—Cattle—Receipts, estimated at about 11,000; market steady to 1/2c to 1/4c higher; steers, \$4.25 to \$4.50; calves, \$4.25 to \$4.50; sheep, \$4.25 to \$4.50; hogs, \$4.25 to \$4.50.

**Chicago Gossip.**

Spader & Perkins to J. G. Beatty: Wheat—From day to day now there appears to be less desire to buy wheat, yet local speculative element is persistent in buying it higher, and it was buying of this class which closed the market firm to-day. Traders appear to ignore the absolute lack of demand from any quarter, and the fine harvesting weather of the past few days, which is having the effect of increasing the possibility of damage of have been used as a buying incentive for months, and in the winter or spring wheat prices. The July was a fair indicator of the cash position today, going from a premium of 1/4c at the close last night to a discount under the September during the session to-day. Harvesting conditions are very nearly perfect over the greater part of the belt, and the few

**WORLD'S TEMPERANCE MEETING AT SARATOGA**

J. O. McCarthy Elected Grand Most Worthy Patriarch—A Successful Congress.

The great World's Temperance Congress which has been in session for the past two weeks at Saratoga Springs, N. Y., was brought to a close last evening by a magnificent meeting of all the associations and societies represented at the congress. On Friday last the members of the congress adjourned to the home of Dr. Billy Clarke, where a beautiful memorial tablet was unveiled to the memory of this man, who organized the first temperance society on this continent a hundred years ago.

Among other events in connection with this centennial congress was the holding of the National Division of the Sons of Temperance. While the first temperance society was organized 100 years ago it was not until this morning that the Sons of Temperance, which was organized in 1842, was the first purely total abstinence society, and not only on this continent, but has spread to Great Britain, South Africa, New Zealand and Australia.

**New York Dairy Market.**

NEW YORK, June 24.—Butter—Firm; receipts, 12,327; creamery, special, 23 1/2 to 25 1/2; extra, 22 1/2 to 24 1/2; state dairy, common to finest, 15 to 20 1/2.

**Wholesale Fruit Market.**

The heavy rains of yesterday morning, with the half-holiday prevailing in many stores on Wednesday afternoon, made the berry sale very slow at the fruit market yesterday. Six cars arrived at the Scott-street depot yesterday. These were somewhat nipped, but the berries are of good quality.

**CATTLE MARKETS.**

**Cables Eastern—Cattle and Hogs Are Firm at Chicago.**

NEW YORK, June 24.—Beaves—Receipts, 178; market, 12c to 15c to 17c per 100 lbs; oaten and steers, \$4.25 to \$4.50; butterfats, \$3.75 to \$4.

**Chicago Live Stock.**

NEW YORK, June 24.—Cattle—Receipts, estimated at about 11,000; market steady to 1/2c to 1/4c higher; steers, \$4.25 to \$4.50; calves, \$4.25 to \$4.50; sheep, \$4.25 to \$4.50; hogs, \$4.25 to \$4.50.

**Chicago Gossip.**

Spader & Perkins to J. G. Beatty: Wheat—From day to day now there appears to be less desire to buy wheat, yet local speculative element is persistent in buying it higher, and it was buying of this class which closed the market firm to-day. Traders appear to ignore the absolute lack of demand from any quarter, and the fine harvesting weather of the past few days, which is having the effect of increasing the possibility of damage of have been used as a buying incentive for months, and in the winter or spring wheat prices. The July was a fair indicator of the cash position today, going from a premium of 1/4c at the close last night to a discount under the September during the session to-day. Harvesting conditions are very nearly perfect over the greater part of the belt, and the few

**TRADERS ATTACK PRICES TO FORCE PUBLIC SALES**

Scarcity of Buying Orders Taken Advantage of by Market Professionals.

Wednesday Evening, June 24. Traders took advantage of an absence of buying orders in to-day's local mining markets to force prices down. Most of the transactions were for short commitments, the expectation being that selling orders will arrive to-morrow on which to-day's business can be covered with a profit. Pressure of this kind was exerted against all the active shares except La Rose. This stock was regarded as invulnerable and was therefore not operated in except with real stock. Orders for the sale of Cobalt Central were received here from New York, but it is believed that this was a subterfuge to influence quotations on the New York curb. The market closed apparently in a weak condition, but the undertone of prices was firm and the offerings of shares to investors were quite small.

**Well-Known Geologist Inspects Cobalt.**

Professor Hidden, the well-known geologist of New York, J. J., and a fellow of the Geological Society of London, is at the King Edward Hotel, having come in from Cobalt this morning. While refusing to say anything regarding his reports on the La Rose mine, as that is now in the hands of the parties for whom he made the report, the professor was very enthusiastic over the new find made at a depth of 35 feet, as reported in other columns, and confirmed the facts there related.

**La Rose District Rich.**

PRINCE ALBERT, June 24.—(Special.)—The rich to the copper fields at La Rose continues. Eight out of its left to-day, including Fisher Bros. of Winnipeg. A stage road is to be opened from Montreal, Lake, 75 miles further north.

**Standard Stock and Mining Exchange.**

Cobalt Stocks—Amalgamated 10 1/2, 1.30; Cobalt Central 10 1/2, 1.30; Crown Reserve 10 1/2, 1.30; Little Nipissing 10 1/2, 1.30; Nova Scotia 10 1/2, 1.30; Peterson Lake 10 1/2, 1.30; Silver Queen 10 1/2, 1.30; Temiskaming 10 1/2, 1.30; Yukon Gold 10 1/2, 1.30.

**HUNTER ATTACKS COMRADE.**

Alberta Man Tried to Murder and Rob His Companion.

EDMONTON, June 24.—(Special.)—Yesterday a man named Hermengile Joll was brought to the General Hospital in charge of Dr. Charles Bois of Brossard, suffering from gun shot wounds in the back of the neck and shoulder. Joll comes from St. Paul de Metis, 25 miles north of Vegreville. It appears he went shooting Thursday with a man named Berthal, just out from France. As he was going to the shooting, his companion fired a shot upon him. The shot took effect in the neck. His first thought it was an accident, but when he called to his companion he came up to him, fired a second shot, took all his money, amounting to \$50.75, and left him to die.

**Edmonton Live Stock.**

EDMONTON, June 24.—(Special.)—About 800 head of cattle, 75 milch cows, 200 calves, 200 sheep and lambs and 150 hogs were offered for sale to-day. The warm, muggy weather helped to cause an unusually dull market. There were no prime beefs on the market. A few of the best cattle sold at 15c per lb., and from that down to 4c per lb. for the poorest good cattle. The great bulk of the offerings were leanish grassers, which sold at 10c to 12c per lb. Milch cows were dull at \$2 to \$3 each. Calves sold at \$4 to \$5 each. Good lots of hogs sold at \$6.25 to \$6.75.

**Edmonton Gossip.**

Spader & Perkins to J. G. Beatty: Wheat—From day to day now there appears to be less desire to buy wheat, yet local speculative element is persistent in buying it higher, and it was buying of this class which closed the market firm to-day. Traders appear to ignore the absolute lack of demand from any quarter, and the fine harvesting weather of the past few days, which is having the effect of increasing the possibility of damage of have been used as a buying incentive for months, and in the winter or spring wheat prices. The July was a fair indicator of the cash position today, going from a premium of 1/4c at the close last night to a discount under the September during the session to-day. Harvesting conditions are very nearly perfect over the greater part of the belt, and the few

**HIDDEN VEIN DISCOVERED ON LA ROSE PROPERTY**

Sensational Find Made at This Mine After Two Years' Work in Close Proximity.

COBALT, June 24.—(Special.)—A wonderful discovery has been made in the La Rose mine at the intermediate level or at the depth of 35 feet, when a blind vein, 20 inches in places and running parallel to the main vein, was encountered. It is a mass of cobalt and silver and carries thousands of ounces of silver to the ton.

This discovery was made 80 feet southwest of the main shaft and 40 feet north of old discovery shaft, sunk by where Fred La Rose made his original discovery and which enabled him to do the staking that created the now celebrated mine that bears the blacksmith's name and has made Cobalt and the original staker famous.

A recital of what has been done by way of development work in this vein of the upper level and the discovery of the mine makes the discovery of the main vein and for over a 1000 feet at the lower level. The Right of Way Co. has also drilled on this vein and still, only seven feet distant and running parallel, a main vein has been found as the result of a few hours' work.

Hundreds of men have been working since the first two years on this vein, but no development work has been taken out, by development work alone, on either vein while this has been undisturbed. The beginning was months ago, when, at a depth of 35 feet, another vein was discovered on the main level, and short distance above described a cross vein was encountered. It was a main vein and no sensational value as the parent, and it was marked on the map and the drift on main vein continued.

When Professors Miller and Brock made their observations on the La Rose mine and reported ore reserves of nearly \$4,500,000, they were entirely in ignorance (as every one else was) of the existence of this vein. F.B.M.

Day's Doings in West Toronto North Toronto East Toronto YORK COUNTY

World subscribers in Toronto Junction are requested to register complaints of carelessness or late delivery at the World Branch Office, 22 Dundas-street East, West Toronto, or The World Office, 88 Yonge-street, Toronto. Intending advertisers may also transact business at the Junction Office.

MANY WEDDINGS TAKE PLACE IN THE COUNTY

Opening of Parish Church in Norway—Big Barn Raising in Scarborough—County News.

WEST TORONTO, June 24.—(Special.)—A pretty home wedding took place to-night at the residence of Mr. and Mrs. James Devins, well known and popular residents of West Toronto, corner of Eglinton and Dundas-streets, when their youngest daughter, Laura Estelle, was married to Thomas Taylor of Belleville, formerly of West Toronto. Rev. Dr. Hazlewood of the Annette Street Methodist Church officiated. The bride was attended by her sister, Miss Alice Aleta Devins, white as a groomsmen, Miss Meta Dorband played the wedding march.

The bride's dress was of cream embroidered net over ivory silk, which was of orange ribbon. She carried a shower bouquet of cream roses. Her traveling suit was of navy blue shadow stripe, and houses of raw silk, also a white hat with the crown banked with foliage and roses.

Mr. and Mrs. Taylor left on the 11 train for a trip on the upper lakes, and on their return will reside in Belleville. Mrs. Flintoff, wife of the chief of police, has returned home much improved in health after a long visit in California.

The marriage took place this afternoon of Miss Alice Mack, eldest daughter of Mr. and Mrs. William Mack, 40 North Union-street, to Edward Ramsey. The ceremony took place at the bride's home and was conducted by Rev. Dr. Hazlewood. Mr. and Mrs. Ramsey left this afternoon on a wedding trip to Woodstock and other points in western Ontario, and on their return will reside on Union-street.

Miss Lillian Irene McNaught, daughter of Mrs. E. McNaught of Victoria-street, was married this afternoon to Morley L. Chisholm of Dundas-street West Toronto. The ceremony was performed by Rev. J. D. Morrow of St. Mark's Presbyterian Church. Miss Margarette McNaught, sister of the bride, was maid of honor, and William Chisholm, brother of the groom, best man.

Mr. and Mrs. Chisholm left to spend their honeymoon in the eastern provinces. The Ontario Railway and Municipal Board will give judgment in a few days in the case of the Toronto Railway Company and West Toronto with regard to the car service to Keele-street. The board in the meantime have an accumulation of correspondence to deal with.

The growing importance of West Toronto can be estimated by the number of trains that pass through the city every day. Taking into consideration an extra train to Bala, there were thirty C.P.R. passenger trains every one of them stopped here to take on or leave off passengers. There were in addition 29 freight trains, which keep the local railway officials hustling all day long. A little over four years ago twelve trains per day was the maximum number that passed thru the city. Tho the local G.T.R.

traffic is not as great as the C.P.R., their business is also increasing enormously.

NORTH TORONTO.

Items of Interest Gathered Around the Village.

NORTH TORONTO, June 24.—A quiet wedding was solemnized at St. Clement's Church this morning when Miss Aphra Arabella O'Brien and Frank Kirby Pratt, both of Davisville, were united in marriage. Rev. Mr. Powell officiated.

SCARBORO.

March of Progress is Plainly Shown Among the Farmers.

SCARBORO, June 24.—(Special.)—Nearly 300 Scarboro and York Township farmers assisted at the raising of a fine new bank barn on the farm of Robert McCowan, a short distance north of the Kingston-road, yesterday.

THORNHILL.

Many Excursion Parties Go From Village and District.

THORNHILL, Ont., June 24.—The excursion of the season will be that of the Church of England, to be held on Tuesday, June 30, to Jackson's North Union-street, to Edward Ramsey. Arrangements have been made for the use of the park, etc. An exceptionally low rate of 70 cents return will no doubt attract a large crowd, as the general public are invited to go along.

Mr. McGregor claims to have one of the finest crops of strawberries in the province. No doubt he is right, as a finer field of berries could not be wished for. The village here is still improving, several new houses are being erected. Lindsay, Francis & Co. are enlarging their store to about twice its present size and a considerable amount of concrete sidewalks is being laid. A company has been formed to bore a test well for gas. Operations have already commenced, a carload of machinery having arrived from Sarnia a week ago.

NEWMARKET.

Heavy Electrical and Rain Storm Causes Some Damage.

NEWMARKET, June 24.—About noon yesterday a violent thunder-storm accompanied by a heavy rain, passed over the town. The storm lasted about half an hour, and was followed at 3 o'clock by another heavy downpour. During the passage of the storm the spire of the Roman Catholic Church was struck by lightning, but not seriously damaged. A barn belonging to Harry Hulse, a short distance north of the town, was also struck, but not fired. Two cattle on the farm of Sir William Mulock were struck and killed.

AGINCOURT.

Village Comes Within the Storm Radius.

AGINCOURT, June 24.—(Special.)—A heavy electrical storm passed over this village yesterday, the downfall of rain being especially great. During the progress of the storm a horse belonging to Thomas Bell, a short distance east of the village, was killed.

On Saturday afternoon the Scarboro Old Boys will hold their annual gathering here, and a good time is looked forward to. It is expected that His Honor Sir Mortimer Clarke will be present.

STRUCK BY LIGHTNING.

Barn and Stables Were Destroyed by Fire.

ISLINGTON, June 24.—(Special.)—During the storm yesterday the barns of Joseph Paterson, on the 5th line two miles north of here, were struck by a bolt and destroyed by fire. A large quantity of hay, oats and farm implements were destroyed.

EAST TORONTO.

One of Town's Most Popular Young Ladies Weds.

EAST TORONTO, June 24.—The marriage of Miss Elizabeth, youngest daughter of Mrs. Westlake of Lyall-avenue, to William Hillock of Toronto, took place at the family residence this afternoon. The bride was charmingly arrayed and little Miss Margaret Empringham, daughter of George Empringham, Jr. and niece of the bride, was flower girl. The bridesmaid was Miss Flo Westlake, sister, while the groom was supported by Mr. McCarthy of Toronto. The ceremony was performed by Rev. Mr. Rogers, and only the immediate relatives and friends of the young couple were present. Miss Westlake has for some time occupied most acceptably the position of organist of Emmanuel Church, and the bride was the recipient of many valuable presents from the choir. The

girls of the Glee Club presented her with a "kitchen shower" of useful presents. Mr. and Mrs. Hillock left on the evening train for Atlantic City, and on their return will reside on Simpson-avenue in the city. St. Saviour's garden party at Glen Stewart to-night promises to be a delightful affair.

DOVERCOURT.

Four Days' Fair of St. Edmund's Will Open on Wednesday.

DOVERCOURT, June 24.—St. Edmund's Anglican Church will hold a four days' fancy fair on the church grounds, corner Dovercourt and Bay-erport-roads, on July 1, 2, 3 and 4. There will be a change of program each day. The fair will be formally opened on Wednesday at 1 o'clock by W. F. Maclean, M.P.

UNIONVILLE.

Rainfall Was Fairly Heavy, But Just What Was Wanted.

UNIONVILLE, June 24.—(Special.)—An electrical storm accompanied by a moderately heavy shower of rain passed over the village this afternoon. No damage is reported from the village, or the surrounding neighborhood, and the rainfall will do an immense amount of good to the hay, grain and root crop.

RICHMOND HILL.

Big Hopes Are Entertained From Gas Testing Well at Thornhill.

RICHMOND HILL, June 24.—The newly elected officers of Richmond Lodge, A. F. and A. M. were duly installed this evening by R.W. Bro. H. A. Nicholls, P.D.D., G.M. Great crowds attended the garden party at Victoria Square on Saturday where they took in over \$300.

The Presbyterian Sunday school here will hold their annual picnic on July 1.

Efforts are being made to run the independent line of telephone thru from 4th Markham to connect with this place.

Principal Lamont is conducting entrance examinations at Thornhill. The fireman's excursion was popular. Everyone replies a grand day at the falls. A civic holiday was proclaimed for the event.

MILLIKEN'S CORNERS.

Annual Meeting of the Local Missionary Society Was Successful.

MILLIKEN'S CORNERS, June 24.—(Special.)—A large number of most interesting meetings of the Mission Band of St. John's Presbyterian Church were held at Milliken's Corners, the beautiful residence of Miss Eleanor Hood, here to-night. The report of the local branch was submitted, showing progress during the year. An address by Rev. Mr. Rae, pastor, and a returned lay missionary, together with other features, all combined to render the evening a pleasant one. Luncheon was served during the evening.

WESTON.

Nothing doing, everything quiet and in good running order, and with regard to the events of the past few days we have nothing further to say, as the affair is now in the hands of the crown. This was the reply of the Mayor Brothers of Weston, when asked by The World this afternoon if any further developments had taken place with regard to the trouble last Sunday evening. The men on whom the warrants were served will appear before Police Magistrate Ellis in Weston on Friday at 10 o'clock. The McCrear stove works are still watched as closely as ever night and day by pickets of the striking moulders.

NORWAY.

NORWAY, June 24.—(Special.)—The new parish house of St. John's Church, Norway, was formally dedicated to-night by Rev. Canon Welch, rural dean, and a reception will be tendered the congregation and former parishioners to-morrow, Thursday, evening at 8 o'clock.

OLD LANDMARK SOLD.

The old mill on the Humber, just at the Bloor-street crossing, has been sold by John Malton, the former owner, the mill and the surrounding 80 acres bringing \$18,000.

The old mill was built back in the thirties and was operated by water when the Humber was a bigger river than it is to-day. It was one of the most important places in the district and was finally closed in 1888.

WHITEVALE.

WHITEVALE, June 24.—(Special.)—Mrs. Thomas Burton, one of the oldest and best-beloved residents of this village, and in Pickering Township, is dying seriously ill at her home here. Mrs. Burton is in her 88th year.

The bill for the incorporation of the Dominion Power Development Company has been postponed for a week to allow of the municipalities being heard.

THE TORONTO WORLD will be mailed, upon request, to subscribers leaving the city during the summer months. The address will be made as frequently as desired; notices of such change should give both the old and new address. Regular subscription rates to any address in Canada or Great Britain.

The Housefurnishing Club is Free of Charge

You pay for the goods only — prices are exactly the same whether you join the Club or pay in cash, but you have time to pay at convenience if you join the Club.

SUPPOSE a woman you know has a pretty little house (or perhaps it is a pretty big house) and her husband is a good generous fellow but he really can't spare the money from his business just now, and some of the rooms do need things so badly?

What would you do if you were she? Would you wait until next Christmas and miss all the summer satisfaction of having your house right at vacation time when your friends were coming?

Or would you insist and make your husband sacrifice his business caution for an extra load of worry?

Of course not! Well then, what would you do? Would you have things "charged" in the ordinary way? That would not save any worry.

And yet your house does need these few things to make it right. Now if you know anybody who owns a house and who finds herself in a position like that, tell her about SIMPSON'S HOUSEFURNISHING CLUB.

Tell her she can have her Carpets, Rugs, Linoleums, Oilcloth, Matting, Mats, whatever the Carpet Department sells delivered NOW. Tell her she may have her Curtains, Blinds, Portieres, Hangings, Draperies, Furniture Coverings and whatever the Curtains Department sells delivered NOW (and we'll do the work connected therewith free).

Tell her she may order anything in the Furniture Department and have it delivered now. Tell her she may have anything in the Wall Paper or Picture Departments without waiting until a more convenient season. The convenient season is NOW—June, 1908.

The Housefurnishing Club simply means that 500 people may have the privilege of a charge account at Simpson's cash prices if they own their houses. Payments may be spread over the balance of the year as agreed upon. Nothing extra in any manner, shape or form is charged for the service.

The Club Secretary's Office is on the 3rd Floor in the Curtain Department. Everything is quiet, dignified, business-like. We are glad to extend this offer to responsible people, hoping to make permanent friends and extra trade.

And so we'll be glad to see you or that woman with the pretty little house that you may know. N.B.—Tuesday next is the last day of June.
