COMBINE BY ABATTOIRS AND MEAT WHOLESALERS RETAIL BUTCHERS CLAIM

Large Number of the Merchants **Appoint Committee to Make** Appeal for Fair Treatment - Fear Many Must Quit.

Declaring that four of the largest abattoirs in the city have formed a combine to raise the price of carcases to retail meat dealers, and that it will be impossible to continue doing business unless there is a reduction, the butchers' section of the Retail Merchants' Association, last night unanimously decided to take steps to protect themselves. The meeting, which was large and representative, was presided over 50,000 in Line by J. T. Adamson.

The most serious aspect, as the retailers view it, is that the wholesale neat dealers are being approached by the managers of abattoirs with the object of inducing them to maintain a like standard of charges. It was asserted that two of the largest wholesalers had fallen into line with the abattoirs and that efforts were being made to include all the twenty wholesale meat houses in Toronto. As a means of blocking this alleged design, the retail men last night appointed a committee to go to the wholesalers and

plead for a square deal.

Carcase Costs More. Carcase Costs More.

The committee is made up of J. I. Anderson, S. J. Crealock, W. H. Thorndike, E. Devine, F. Fuerst, W. Hubbert and J. R. Outhet. It is to report the result at a meeting on May 30.

While it is felt that the price charged them for carcases is higher than warranted, a particular grievance is that the retailers have to pay extra for the perquisites, such as the heart, lights, liver and ox tail. Formerly these were included with the carcase, but now they are an additional tax on but now they are an additional tax on the butchers, who claim that it makes a difference of from 75c to \$1 in the price of a carcase. It is stated that in a year about \$75,000 extra toll is in this way alone taken out of the retail men

The temper of the speeches made indicated that there is a marked line of cleavage between the retail trade and those abattoirs and wholesale houses, which they believe to be banded together to promote unduly their own

Forced Out of Business. "We are being forced to the wall," is the cry of the butchers. "At the prices we have to pay for meat, we must tax the consumer so much that he rebels. Unless we get relief, there will be a good many butcher shops for rent this sammer."

One member suggested making an attempt for relief by resort to the Anti-Combine Act.

GIRL SHOPLIFTERS Two Children Locked Up-Detectives Watched Them Pilfering

Blanche Hamilton, 13 years, Duchess-street, and Pauline Bell, 12 years, 71 Berkeley-street, are the youngest, but by no means the least expert shoplifters that the police have been called upon to deal with for some time.

They were arrested in the Eaton store yesterday afternoon after their operations had been observed for some time. Detectives Newton and Tipton escorted them to headquarters, where they disgorged a pair of boots, some small articles of jewelry and some ribon. They were sent to the Children's Shelter chaged with theft. Their homes were searched, and a

number of other articles, believed to have been stolen, were found.

Says Troops Brought From Toronto to Quell Riots Not Needed.

SAULT STE. MARIE, Ont., May 17 .-(Special.)—The spring assizes, held un-der Sir Glenholm Falconbridge, praclically closed to-day with the case of the government v. Sault Ste. Marie. The government is suing the city for \$7000, the expenses of transportation and pay of 364 Toronto troops sent to the Soo in 1903 to quell the riots when the Clergue industries collapsed. The city claims that the troops from To-ronto were not required and had not been legally summoned here. The government contention is that when a municipality asks for troops it is left en-tirely to the discretion of the military authorities as to the number of men required. The city claims that it only asked for men from the 97th Regiment, for which it has paid. Justice Falconprovide yer own bait. bridge reserved judgment.

Axel Hultman, director of state telephones, Stockholm, Sweden, and tral administration, are staying at the King Edward. They are in Canada by authority of Herman Rydin, director-general of the Royal Swedish Tele-phone Department, for the purpose of examining the automatic telephone system which has been installed at Peterboro. Brantford and elsewhere. They will be at Brantford on Friday, and go thence to Chicago.

Mr. Hultman did not seem to think hat there was much to be learned from the monopolist system in Toronto, and the rates he mentioned as prevailing in Sweden under government ownership ought to make an impression on Sir James Whitney.

"The government ought to operate the trunk lines," Mr. Hultman gave as his decided opinion. In Sweden the trunk lines belong to the government and there is no monopoly. In Stock-holm a private company has 40,000 subscribers, and the government system, which started many years later, has 20,000 subscribers. Outside Stockholm the government operates all the telephones.

Sample Rates.

The low rates are thus intelligible. In Stockholm the business phones rent for about \$14 a year. In Gothenburg they are about \$16. The maximum rate anywhere is \$20. The long distance rate as between Toronto and Montreal is fifteen cents for three minutes. Urgent speech, as it is domizated, is charged 30 cents, and takes precedence of ordinary business. The rates to Norway, Denmark and Germany are similiar.

In Norway there are no telephone monopolies, and the government is

trying to buy out such companies as exist in Bergen and a few other Mr. Hultman did not think much of our overhead system. In Sweden all main routes are underground, and no poles are seen on the streets. No no poles are seen on the streets. No electric wires are permitted overhead. The instruments used in Sweden are superior to what he evidently regarded as the antiquated instruments in use here. With those used in Sweden hearing is much clearer, the combination microphone and speaking phone being used.

Farmers Use Them.

Farmers Use Them. He estimated the number of farmers' phones in use in Sweden at much above 30,000. The fact that the government operates the trunk lines is the greatest boon to the farming population. We emphasized this point as respecting Ontario. "The government specting Ontario. "The government should have the trunk lines."

Hotels and Theatres Preparing For Twenty Fours Already Selected-Finals on Saturday,

NEW YORK, May 17.—Unusual preparations are being made to celebrate "Comet Night," as to-morrow evening already has come to be known, and if the fiery tail of the astral visitor brings a cataclysm it is bound t obe preceded by much joy.

The large hotels and restaurants in New York are making preparations for the accommodation of numerous patrons, and the theatres schedule special coemet programs. The manager of one east side theatre aiming to reassure Ms patrons against the deadly oxygen gas from the comet's tail, announced to-day that he will "blow an atmosphere of pure oxygen" into his auditorium on Wednesday evening, and will have medical advisers present. The effect of an atmosphere of pure oxygen would probably be such as to require the presence of medical advisers.

Another Tie at Berlin.

BERLIN, May 17.—In the football same played in the pouring rain, Gait and Ransers played a tie to-night, each tallying once, but it was almost a defeat for Berlin, the tieing goal coming with only two minutes to play. Gait's score was puthru by Sinclair, and was an easy-lookin one after a lone rush from centre field Charlie Gillespie of Berlin officiated a referee. This is Berlin's third straightie game, having neither won nor lost contest this season.

TORONTO GETS CATCHER

BECKENDORF FROM DETROIT

A deal which has been hanging fire for the last month or so was finally put thrulast night by the Toronto Baseball Club, when they secured Beckendorf from Detroit. Beckendorf, who was drafted from Scranton two years ago by the Tigers, has been actin gas third catcher during that period, and, therefore, the doped doesn't show anything startling, but he must be some goods when both Washington and St. Louis Americans refused to waive on him on the first waiver that was asked, they finally waivering when other influences were brought to bear upon them. Beckendorf only caught 15 games last year for Detroit, having a batting average was .957.

With the securing of Beckendorf, it

Jersey City 2, Rochester 1.

ROCHESTER, May 17.—(Special.)—Jersey City nosed out the Hustlers to-day in a hard fought game that really should have gone the other way. Rochester had several chances to better the visitors score, once with the bases filled, but listless playing allowed the Jerseyites to retain their hard-earned advantage. After the game Manager Ganzel announced the release of Meyers, the outfielder purchased by Rochester from Brooklyn, at the season's outset. Meyers will go to Lawrence, Mass. Score:

At Pittsburg-Phillippe, supported by brilliant fielding, held Boston to two hits and no runs. Frock, altho found for seven hits and three runs, struck out four of his former team-mates, and in the third innings, with the bases full and none out, he retired the side without a score. He, too, was supported by errorless fielding. Score: R.H.E. Batteries-Phillippe and Gibson: Frock and Graham. Umpires-Rigler and Emsile.

Emslie.
At St. Louis—St. Louis won from Phila-

Caponi by Referee Colemn. The local man, who stripped half a hundred heavier and towered above the Italian, was outmatched all the way and obliged to seek refuge in footwork and clinching, and fouled continually. McLagan would have been knocked out but for the fight being stopped. The decision was very popular with the big crowd. OTHER SPORTS ON PAGE 2.

Parliament Buildings showed form in the Civil Service League, yesterday aftermoon by defeating the strong Postoffice team by il to 5. Everyone on the Building's mine had a hit, while Gage got two. Five hits, aided by a base on balls, a hit by pitcher, and an error netted six runs in the second inning. Scott of the Park Nine later replaced Crowe, but four runs were chalked up against him in his initial innings from four hits, two passes and an error. The new battery of the Buildings showed up well, but four hits being made off Dixen, three of them doubles, Following is the score:

"FULL OF QUALITY" NOBLEMEN CIGARS

THE VETO OF THE HOUSE OF LORDS

may be curtailed, British nobles may be deprived of their right to vote on the affairs of the nation, but the "NOBLEMEN" Cigar will continue to exercise its soothing influence on men of discrimination. It is doubtful if the English people will ever abolish such a cherished institution as the House of Lords.

It is doubtful if even WE will ever be able to make another cigar, at its price, to equal "NOBLEMEN." It is "full of quality"-full weight-full flavor-and better than many imported brands at double the price.

The Men who Examine Good Clothes

"Do not permit a garment to to leave your hands unless it is perfect 1"

From the superintendent to the foreman, to the chief examiner and his several assistants these are the instructions which are followed out, and the Company can cheerfully and faithfully guarantee every Semi-ready garment.

When you see the Semi-ready label you can bank on the quality and value.

These Clothes have gained the reputation of being the highest type of tailoring in Canada—you may be sure that there are good reasons behind that prestige.

If "Semi-ready" is not in the pocket it is not a Semi-ready garment. Watch that!

Pick of R. L. Thomas' Stable Reach Track From Sheepshead Bay-Big Shipments Due To-day.

Arrivals at the Woodbine made the approaches and the stable yards as lively at a country fair yesterday. Secretary W. P. Fraser gave personal directions at the track during the morning respecting the allotment of stalls. The O. J. C. secretary had the track office opened for the meeting, with M. Allen, who made many friends last year, again in charge.

The arrivals included the R. L. Thomas stable, in charge of Henry McDowell. The Thomas string includes:

Light Wool, six years old.

Why the Morning Newspaper

"To-day" vs. "To-morrow"

Being Chapter IV. of the Calling of the Ancient Bluff of the Evening Newspaper Posing in Borrowed Clothing as the Only Home Paper.

IME and again has many a brainy and bright woman asked us why is it Toronto's stores advertise "to-day" something that will be sold "to-morrow" and when to-morrow comes the adv. is lost or we've forgotten what it is they advertised.

That, O Gentle woman, is one of the seven wonders of the world which exists in Toronto and is a habit that was and is fostered by the Evening Newspaper for the purpose of hypnotising Mr. Advertiser into placing his principal advertisements on the "to-morrow" basis in their columns, on the plea that the Evening Paper is the Only Home Paper.

And you, O Mr. Advertiser.

have you never learned of the efficiency of to-day-has no one ever told you that "to-day" is always with us but "to-morrow" never comes?

Think of the timeliness of "to-day."

Tack the sign "Do it Now" in your advertising sanctum-let it permeate into your copy-and place your advertisements in the Morning World with "Now" and "To-day" plastered all over them.

And you'll see the women of the land-if it's the women you are appealing to rise in their might and invade your stores while they remember it "Now" not "To-morrow."

In the Morning Remember this: World - which is a Real Family Journal-you can safely say "today" because it is delivered at every household in Toronto not later than six a.m.—got there with the milkman—and is ready to spread the glad tidings with dawn of day.

It may interest advertisers to note that in addition to our staff of advertising hustlers we have a Department of Suggestion and Design in charge of One Who Knows and is Competent and who believes in "To-day."

At the same time it is admittedly true that the members of the Scarboro Council have in their judgment, and acting on both the advice of the Dominion railway engineer and that of Township Engineer Barber, made the township at large. If the whole cost burg. of the installation of gates and the prise of the installation of gates and the maintenance of a level crossing could be assessed against the Canadian Northern there would be no objection to such a plan, but, on the contrary, generated a plan, but, on the contrary generated a plan, but, eral satisfaction. Local Literary Circle to Wind Up With Banquet in June.

THORNHILL, May 17.—(Special.)— The closing meeting of the Literary Circle, held at the residence of David James last night, was one of the most successful of the season, so good that some of the members wished for another meeting next month.

The music by the Misses Cooper and the address upon "Birds," by E. W. Moyle were much appreciated. The subject of the debate was: "Resolved that woman life and sphere of work should be in the home, and her education, training and development should be towards that object." Mrs. W. H. Mrs. Shuter and Mrs. E. Movie took the affirmative and Miss Beatty, Miss Hall and Miss Boyle the

I am glad to be here, tho we do meet under distressing auspices. I met your late King in Washington when he wa a lad of my own age, and I then form ed not only an estimate of his character, but an affection for his person which has existed down to the pre time. I entertain the opinion that he was the most useful and benign being truthful, avoiding, as it would avoid in the whole world. In the eight years pestilence and famine, the character of his reign he well illustrated what great things may be done by a sim-ple, quiet, unostentatious gentieman. He was recognized everywhere as go down to history as Edward the Peacemaker. I nurse no gloomy predictions as to what may happen by the removal of this beneficent figure from the activities of European po tics. In my view great wars are over The for great peoples. Prof. McPhedran deciared that, had the city's water been reasonably good, nine-tenths of the typhoid fever cases last fail and winter would have been prevented. Toronto had one or the highest death rates among children of any city in the world, due largely to a bad milk supply, and that the city was menaced with the slum evil. Dr. Amyot was qualified as no other man to guard the city against these dangers, and the deputation came as a spontaneous expression of the opinion of the medical profession.

"If something is not done we will have slums which will become a great menace to the health of the city. It would take years to cure such a situation, and the city's reputation would suffer," he said, and, advocating Dr. Amyot, said: "If he is appointed and doesn't succeed, you can put the responsibility on us."

Mr. Osler declared he was quite serious in this contention. The company wouldn't accept the board's proposal that it appoint experts to lay out the lines, because the best experts made mistakes. The railway would not consent to any variance of the contract because it was "vital to the protection of the millions of dollars entrusted to them that they should not allow the slightest infringement. Electric Belt. It is an invigorator of men.

It will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye, and a firm grip to your hand, and you will be able to meet your fellow-man and feel what others are capable of doing is not impossible for you. This grand appliance has brought strength, ambition and happiness to thousands in the past year.

What would you not sacrifice to feel as you did a few years ago; to have the same snap and energy, the same gladsome, joyous, light-hearted spirit and the physical strength you used to have? You know you are not the same man, and you know you would like to be. You can be.

Dr. McLaughlin's Electric Belt makes you noble; it causes the nerves to tingle with the joyous exhilaration of youth. It fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel. It has cured Nervous Debility. Weakness of

on the Little Nipissing property.

Superintendent Gordon states that the last, and one of the best discoveries made on the Little Nipissing, is the vein which was discovered a short while ago on the Big Nipissing property, and which has been traced to the Little Nipissing and appears to the Little Nipissing and the Little the Little Nipissing and appears to run clear across the company's property. Assays from this vein taken from the surface are of a good character, running as high as from two to three thousand ounces. It is not the present intention of the Little Nipissians to do anything with this vein, as

for their strength.

Considerable activity occurred in Pe-

terson Lake, Rochester, Beaver and Cobalt Lake, and it was these in the

moderate price shares which practically made to-day's market.

The improvement in prices came-somewhat unexpectedly as it scarcely

conforms with the actions of securities upon other markets, but this is taken

as an indication that the Cobalts are now in an exceedingly sound position,

and that there is a scarcity of offer-ings around the low levels recently

The public are entering the market in a little larger way and principally for investment purposes, taking the ground that with the general improvement which the camp has made ul-

timately there must be a recognition made of this fact in the various mining
