The Toronto World

RUSSIAN DRIVE ABOUT TO GAIN GREAT VICTORY

Slav Approach to Brzezany Threatens Serious Reverse to Teutons. EXPECT BIG ROUND UP Latest News From East Forecasts Winning of Great Victory.

BY ARTHUR S. DRAPER. Special Cable to The Toronto World. London, Oct. 4.—The report that the Russians are almost in the suburbs of Brzezany, the important railway junction on the Zlota Lipa, 56 miles southeast of Lemberg, is hailed here tonight as the prelude to a big Russian victory in Galicia. If the despatch is true, the Russians have taken another big stride towards the capture of their goal. The investment of Brzezany, by the Russians, would probably compel the retirement of Von Bothmer's army from the whole line of the Zlota Lipa, north of that point. With the Zlota Lipa, entirely in the hands of the Russians, the whole Teuton force in Galicia would be compelled to retreat on Lemberg to escape flank attacks. In the centre, in the north, along the Brody-Lemberg Railroad, and in the south, in the Halicz section, the Russians would be able to sweep forward in a converging drive on the capital city.

ATTACK BAPAUME IN THREE PLACES

British and French Proceed Methodically to Encircle the Town.

EAUCOURT IS CAPTURED

British Line Again Straightened Out in Important Sector.

BY ARTHUR S. DRAPER. Special Cable to The Toronto World. London, Oct. 4.—The torrential rains are still preventing wide offensive movements in Picardy. Both the British and the French swung forward today for local advances, important in their effects on the situation as a whole.

Between Morval and the St. Pierre Vanast wood, near the junction of two gullied fronts, French troops completed the seizure of a line of powerful German trenches. This move represents a step forward on the Bethune road, bringing the French into position to flank Sully.

DEFENCES IMPROVE British Metropolis Perfects Protection Against Aerial Marauders.

London, Oct. 4.—London will continue to be visited by zeppelins despite the recent losses and the great improvement in the capital's air defences. This opinion was expressed to The Canadian Press today by the Earl of Derby, who said:

"Raids will continue for the effect on the German people who have been taught that zeppelins, like submarines, could bring England to her knees. Hence the ridiculous communications and newspaper articles in Germany representing that England was terrorized and London in flames. I will not say that London is the best defended of the allies' capitals, but I can assert that there has been a vast improvement, which means that other zeppelins will be brought down when they come again."

DINEEN'S "CHRISTY STIFFS." Men do their best shopping towards the week-end, and Dineen's prepare for the shoppers by arranging something special in men's hats. The new fall shipments have all arrived, and Dineen's have as complete a stock as it is possible to have in these times. The English Christy importations are as varied as usual, and the quality and style are well up to the English hatmaker's best product. Dineen's, 140 Yonge Street.

ZEPPELIN RAID OVER

Is Likely the Result of French Invasion on Mannheim a Week Ago.

Amsterdam, Oct. 4, via London.—The newspaper Les Nouvelles says that in the air raids on Mannheim, Germany, on Sept. 27 a zeppelin 750 feet in length was destroyed and much other damage was done. Twenty-six workmen were killed and 40 wounded.

Ex-Mayor Schmalt Fined Second Charge is Dropped

Special to The Toronto World. Kitchener, Oct. 4.—This morning Magistrate Weir imposed a fine of \$1 upon ex-Mayor Schmalt, who yesterday was found guilty of rude behavior at a women's meeting in Glick's Hall on Sept. 25. The other charge against Schmalt of violating the statutes regarding public meetings has been dropped.

ALLIES REGISTER SLIGHT ADVANCE

British Drive Foe Out of All of Eaucourt L'Abbaye.

REPULSE BOMBERS

French Push Lines Outward at Point East of Morval.

Special Cable to The Toronto World. London, Oct. 4.—Little further progress was made by the Anglo-French army in Picardy today after the French captured the village of Eaucourt L'Abbaye, the section of Eaucourt L'Abbaye held by the Germans last night. The weather conditions were unfavorable for fighting, and the infantry mostly kept baling out trenches instead of attempting to drive the Germans out of their trenches. The Germans, however, attempted a bombing attack against a section of the British line midway between Eaucourt L'Abbaye and Gueudecourt, but they were driven off. Some of the German wounded were abandoned in the British line.

Heavy artillery fighting continued, the chief converging points for the firing being the neighborhood of the Zollern redoubt and the front between Gueudecourt and Eaucourt L'Abbaye.

Twenty-one German prisoners dribbled into the British lines today. On the French side of the battlefield the heavy cannonade continued. It reached its greatest intensity in the environs of Belloy and Assesvillers.

FOE TO CONTINUE RAIDS ON LONDON Lord Derby Expects Germans to Make Further Zeppelin Attacks.

DEFENCES IMPROVE British Metropolis Perfects Protection Against Aerial Marauders.

London, Oct. 4.—London will continue to be visited by zeppelins despite the recent losses and the great improvement in the capital's air defences. This opinion was expressed to The Canadian Press today by the Earl of Derby, who said:

"Raids will continue for the effect on the German people who have been taught that zeppelins, like submarines, could bring England to her knees. Hence the ridiculous communications and newspaper articles in Germany representing that England was terrorized and London in flames. I will not say that London is the best defended of the allies' capitals, but I can assert that there has been a vast improvement, which means that other zeppelins will be brought down when they come again."

Lord Derby expressed satisfaction with the progress of the western campaign which he declared only needed good weather to show substantial progress, and added:

"One of the most striking features of the present phase of the war is the notable decline in the accuracy of the official German reports, which over a considerable period, I am inclined to believe, were reasonably accurate. Now they are evidently written for home and neutral consumption; they are notoriously false in what they relate and strikingly deficient in what they minimize or conceal."

GERMANY'S SHORT OF GUNS BUT NOT FOOD

Interesting Document Captured by British Has Surprising Information.

AMMUNITION IS LOW

Numerical Superiority of British Airmen is Admitted.

War Correspondent's Headquarters in France, Oct. 4, via London, Oct. 5.—Germany is short of guns, aeroplanes and war material of all sorts, but not of food, according to a most sensational interesting document the British have captured, which is called "The Experiences of the Fourth German Corps in the Battle of the Somme."

"The document was written as instructions to the troops. It was drawn from the lessons of the battle by Gen. Count Sixt Von Arnim, the corps commander, who has been fighting opposite the British throughout the offensive. This long detailed revelation of the inner thoughts of the German staff discusses the methods and shortcomings of every branch of the German army in view of the unexpected power and organization the British have shown. The document starts out by paying a tribute to the British infantry which undoubtedly has learned much since last autumn's offensive.

"It shows great dash in attack," the document continues. "The Englishman also has physique and training in his favor. One must acknowledge the skill of the English is rapidly consolidating captured positions and their great tenacity in the defence of them."

"Because the breach actions of so many German lines have been cleared with dirt, Gen. von Arnim suggests in the document that it would be advisable to use the British method of the rifles, like that used in the British army, which can be easily unfurled and then hangs from the rifle."

Explicit instructions are given in the document to the artillery to change their methods of placing batteries in villages and behind steep slopes beyond the range of the British method of distribution of their artillery fire which prodigally searches all obvious shelters. Owing to the terrific concentration of the British shells, the document says, the front lines of trenches should be thinly held and dependence placed on small groups of machine gunners. On the subject of a curfew of fire on the trench, it adds, the men had better evacuate it and lie down in the open.

Most interesting to the officers, in view of the fact that the British have so consistently held ground they have taken against counter-attack, is what Gen. von Arnim says of the subject: "If a counter-attack is made, the count of the situation ought to be methodically prepared, are hurried, they cost much blood, and because the troops lose the trench in the trenches if they fall, which nearly always happens," says Gen. von Arnim.

A New Experiment. He then complains that the "existing telephone system has proved totally inadequate in consequence of the development of the fighting," and says the art of the signal system broke down. The commander asserts that he has discovered that British aeroplanes use sound signals to tell gunners where their shells are falling, and says the fourth corps already has started an experiment on the same kind of methods as a complement to the wireless, which is frequently interrupted.

"The numerical superiority of the British airmen and the fact that their machines were better made is disconcertingly apparent to the German," Gen. von Arnim says, and he speaks of the surprisingly bold procedure of British airmen, who were often "able to fire successfully on our troops with machine guns by descending to within a few hundred feet of the ground." He adds that the German anti-aircraft guns could not continue firing at that height without exposing their own troops to the serious danger of shell fragments. "Before the battle of the Somme airmen kept at anywhere from 6000 to 12,000 feet over the lines on account of anti-aircraft gun fire."

Ammunition Supply Inadequate. Gen. von Arnim warns his infantry to use their rifles against these daring British aviators. He says that the ammunition supply and the artillery are inadequate, and that maps were insufficient in quantity and bad as regards details. Also the supply of mineral water and beverages, which the British have always found plentiful in captured German trenches, and says that the troops cannot have too much of all kinds of sausages and meat when fighting. Dried herring are unsatisfactory, as they increase thirst. Alcoholic drinks need not be served out to the troops in dry, warm weather, but soured alcohol for cooking warm meals has proved useful.

Fresh troops, says the document, should always be used for attack.

(Continued on Page 10, Col. 2.)

FROST HAS INJURED NIAGARA TOMATO CROPS

Canners Have Large Orders, But Are Unable to Fill Them.

Special to The Toronto World. St. Catharines, Ont., Oct. 4.—Canners of Niagara district are in a great quandary as to where their pack of tomatoes is to come from this year. A dry early season and small size of first crop led canners to rely on the late crop, but recent frosts which killed the greater portion of tomatoes in vines in the late season section, has knocked all plans. Factories have received orders from headquarters to can every tomato possible to procure.

Kitchener Crown Attorney Is Eighty-Two Years Old

Special to The Toronto World. Kitchener, Oct. 4.—Ward H. Bowby, K.C., crown attorney, is the recipient of congratulations upon his 82nd birthday. Mr. Bowby has been crown attorney for 30 years, having been appointed on Dec. 24, 1887. For nearly three scores years he has been identified with law. Despite his advanced years, Mr. Bowby is hale and hearty. He is the oldest crown attorney in the province.

ITALIANS CAPTURE MOUNTAIN BASE

Make Advance in Fighting Towards Little Col. Brigon.

REPULSE AUSTRIANS

Ally Engages in Lively Action in Travnigol-Avisio Valley.

Special Cable to The Toronto World. Rome, Oct. 4.—Attacking the Austrians with great vigor after their failure at the Italian position, established on the northern slopes of Col Brigon, drove back the Austrians and they captured some ground in the direction of the Little Col Brigon Mountain.

The Italians also repulsed many determined and successive attacks of the Austrians in the Travnigol-Avisio Valley. These assaults were elaborately prepared for by violent and intense artillery fire in which the ground was saturated with shells. The Austrian infantry then came down into the valley to assault the Italian positions on the heights of the southern side. The waves of the attacks were received with a terrific artillery and machine gun fire, and the forces of the enemy recoiled everywhere with heavy losses.

GREEK CABINET TO REORGANIZE

Will Include Three Members of the Venizelos Party.

RESIGNATION ACCEPTED

Official Statement Says Government Could Not Agree With Entente.

London, Oct. 4.—King Constantine has accepted the resignation of the Greek cabinet, says a Reuter despatch from Athens. It is believed in Athens, the despatch adds, that Nicholas Dimitracopoulos, former minister of justice, will form a new cabinet, which will include three members of the Venizelos party.

The following official statement regarding the cabinet situation was issued today: "The government, not having succeeded in getting to touch with the representatives of the entente powers, and considering that the situation hinders progress in national questions, has begged the king to accept its resignation. The king has accepted the resignation of the government."

King Hears Situation. King Constantine presided over the crown council held at the palace this morning to consider written opinions of the situation submitted by each minister, to which the minister's resignation was appended, to be accepted in case the opinions were unsatisfactory to the monarch.

The minister of the interior, Loukas Roufas; the minister of communications, Lysandre Kafandjioglou; the minister of justice, M. Yokotopoulos, oppose Greece's entry into the war. The king promptly accepted the resignation of the entire ministry for the purpose of forming a national war cabinet, which will include three of the adherents of ex-Premier Venizelos. Demetrios Diamantidis, minister of communications in the Venizelos cabinet, was called to the palace to advise the king respecting the Venizelists to be chosen. The former president of the chamber of deputies, Constantine Zavisanos, and the former minister of the interior, K. Kafandaris are under consideration in addition to M. Diamantidis.

WITH THE BRITISH TROOPS ON WESTERN FRONT

Troops watching prisoners passing after the capture of Guillemont.

EX-MAYOR JAMES SCARFF DIED VERY SUDDENLY

Woodstock's Chief Magistrate for Three Years, Also an Alderman.

Special to The Toronto World. Woodstock, Oct. 4.—Ex-Mayor James Scarff died very suddenly at his home here this afternoon. He had been down town in the morning and was doing some light work in his garden when he fell over dead. Mr. Scarff was for many years a prominent figure in the business and municipal life of Woodstock. He was mayor for the years 1906, 1910 and 1913, besides holding an aldermanic berth for some years. He was also a member of the water and light commission and was chairman of the parks commission at the time of his death.

Mr. Scarff took an active interest in the work of the horticultural society and probably did more for the beautification of Woodstock by planting shade trees than any other individual. He was 77 years of age and had spent most of his life in Woodstock.

PREMIER AFFIRMS SWEDEN NEUTRAL

Declares Rumors of Strained Position With Entente Allies False.

WILL REMAIN SO

Any Step Displeasing to Belligerents Taken for Kingdom's Welfare.

Stockholm, via London, Oct. 4.—"Sweden proclaimed her attitude of neutrality at the very outbreak of the war. All her actions since that time have borne out that proclamation, and all rumors or accusations that she has done or intends to do anything inconsistent with this attitude are due either to failure to comprehend her situation or to some less creditable reason. And whenever Sweden has taken any step displeasing one or other belligerent power her action has been dictated solely by considerations of the kingdom's own necessities and of the future welfare, and not by any partisan reasons. We hope sincerely that the belligerents will not make it impossible for us to maintain this attitude unto the end."

Thus in effect said the prime minister of Sweden, Dr. K. H. L. Hammarstrand, to the correspondent of the Canadian Press, apropos of the controversy now going on between Sweden and the entente allies over matters affecting Sweden's neutrality.

Premier Hammarstrand dismissed lightly the whole crop of rumors, which spring up from time to time, to the effect that Sweden is on the point of joining in the war and other similar tales.

When asked for an explanation of these rumors he replied drily: "Neutrality is not an intention that I don't know."

Woodstock Tax Rate is Raised By Patriotic Giving

Special to The Toronto World. Woodstock, Oct. 4.—Woodstock's tax rate for 1917 will be 29 mills, as compared with 24 9-10 mills for 1916. The assessor gives the population as 10,004, a decrease of 80 from last year's figures. The increase in taxes is due to the increase in the assessment of property owing to new conditions imposed by the Ontario temperance act.

WANTED IN TORONTO

Special to The Toronto World. Niagara Falls, Ont., Oct. 4.—Albert Hazelwood a young man who is wanted by the Toronto police on a charge of theft of a lady's watch and a suit of clothes from a rooming house, was arrested as he stepped off the Toronto train at Queenston tonight. By Constable Wadsworth of the provincial police, he was lodged in jail for the night.

SERBIANS WIN ADVANTAGE IN DALIKAN DRIVE

Victorious Advance Brings Allies Close to Monastir in Macedonia.

BRITISH BEAT ENEMY

Roumanians Make Progress in Violent Battle of Dobrudja.

Special Cable to The Toronto World. London, Oct. 4.—As a result of their successful advance, the allies have crossed well over the border into Serbian Macedonia. They have occupied a position in the bend of the Cerina River and they are pushing forward in further victorious assaults towards Monastir.

The troops engaged in pressing back the Bulgarians comprise Serbians, French and Russians. The pursuing columns of the allies reached Petalino, on the western slope of Mount Kalkamalak, and they have seized on their left wing the town of Plogodori, the base of Mount Cevobio. This point lies in the loop of the Cerina on the Kessal-Negochan line.

Continuing this advance to the Cerina, the Serbians crossed the river today and they defeated the Bulgarians posted on the Neils Mountain in Serbia and they captured the Kessal railway station. They are thus moving forward on the railway between Saloniki and Monastir. Seven towns have been taken and 230 square kilometers (about 90 square miles) of their country has been already recaptured in the advance.

On the right flank the British have been engaged in a strenuous battle with the Bulgarians in the Strana valley, after the capture of Jelliboli. They occupied the part of this village that lies to the south of the Strana railway, an ethnic action drew upon them many violent successive Bulgarian attacks. These were all repulsed by rifle, machine gun and artillery fire.

The Roumanians and the Russians have also made progress in the heavy engagements in the Dobrudja front. In the Dobrudja front they captured a position at Armasa, and they took seven guns, 1,000 prisoners and much war material. They attacked on the centre of the enemy continues to make progress, according to the official communication issued at Bucharest today.

The Roumanians and the Russians are continuing their attacks with the utmost vigor. Russian gunboats have steamed down the Danube River and they are bombarding the enemy camps of the enemy near Raova. The battle is proceeding with great violence between the Danube and the Black Sea.

Fight Waxes Violent. A violent struggle is also going forward on the banks of the Danube between Ruzhank and Turukal, where the Roumanians forced a passage on the other day. Turks, Austrians, Germans and Bulgarians have violently rushed forward and hurried themselves on the Roumanians in order to prevent if possible the consolidation of the ground. The Germans claim that they drove back the Roumanians, who crossed the Danube near Rajhor. They assert that the result of their attack was the withdrawal of the Roumanians in hasty flight.

The Roumanians also defeated the Teuton forces in an engagement near Fogaras in Transylvania. They took 800 German prisoners and they captured eight machine guns. They repulsed Austro-German attacks near Odorkim, capturing 14 officers and 1,228 men, and they made progress in the mountains west of the St. River. A slight withdrawal of the Roumanian forces in the Tin Valley was made to escape the violent Teuton attacks. Before retiring the Roumanians destroyed the coal mines in Petrony for which the enemy was fighting.

Teutons Repulsed. Three attacks of the Teutons were also repulsed by the Roumanians at Orsova near the Hungarian-Roumanian frontier on the Danube.

The Bulgarians also have attempted to cross the Danube to invade Roumania, and Sofia claims that they have got as far as an island near Vienna.

Vienna tells a different story from that told by the allies by ignoring what they have done and by alleging what the Teutons have done in Transylvania. According to the official communication issued yesterday by the Austrian general headquarters a Roumanian battalion has been annihilated south of Hermannstadt. The Roumanian frontier crest has been reached in several places east of Rotherthum, and farther to the eastward the Austro-German forces are pushing towards Fogaras.

Increased Menace. These successes in Serbian Macedonia by the allies vastly increase the menace to Monastir. The Bulgarians have lost nearly all the so-called key positions along the northern Macedonian frontier. The Serbs have advanced to the north of the enemy's lines in the west, thus threatening at any moment to flank them. Less than three miles now separates the allied forces

(Continued on Page 2, Col. 3.)

The New Party on Three Present Problems

Today we propose to discuss three pressing problems, and how the New Party will deal with them.

One problem is the activity of Mr. Bourassa and his sayings in Quebec. Already the new party has been accused of unkindness to our French-speaking neighbors. La Patrie of Montreal announces that the new party is "still-born." In the same breath, however, the party is declared to be sufficiently alive to commit "stupidities" and to cherish designs inimical to Quebec and to Canadian unity.

We have no quarrel with Quebec. Indeed, we believe many patriotic citizens of that province will be glad to join the new party. Both the old parties, we think, have been afraid of Mr. Bourassa, and are anxious to make terms with him. The new party will make no alliance with Mr. Bourassa or anyone else who is interfering with recruiting or with Canada taking her full share in the war for liberty. The new party will not bend to any element in our body politic which is not heart and soul with Canada and Britain against the Kaiser.

But this surely does not mean that we question the loyalty of Quebec or asperse the good name of her people. On the contrary, we are not sure that Mr. Bourassa as all represents the feeling and sentiments of Quebec. La Patrie says that the Borden government should arrest and otherwise punish Mr. Bourassa. We say on the other hand, that the loyal people of Quebec should discipline Mr. Bourassa, or, at least, repudiate him by their own patriotic words and deeds.

The Ross rifle, and especially the contract of the government with the Ross rifle company, is a problem that clamors for drastic solution. The Telegram believes that Sir Wilfrid Laurier and Sir Frederick Borden are responsible for making the contract, but that Sir Robert Borden is not to blame for carrying it out. It says, in effect, that he had no choice but to accept the soldiers at the front with a defective and almost useless rifle, because Sir Wilfrid made a "perpetual" agreement with Sir Charles Ross. This contract the Telegram interprets to mean that we must buy and use the Ross rifle, no matter who is prime minister—never, in perpetuity, to all eternity, without end.

So in the coming campaign we suppose the Liberals will say that the Ross rifle contract is a good thing, and we suppose

CANADIAN CASUALTIES

The rifle so vehemently denounced for years by Sir Robert Borden and his followers in opposition, was the only rifle furnished to the Canadian boy at the front by Sir Robert Borden and his followers if they came to power. The contract device used by Sir Robert Borden and his followers in opposition has remained in force during the five years that have elapsed since their accession to power.

The Telegram, that has been independent, and is now getting Conservative again as election time approaches, explains that in saying that Laurier and Borden were equally responsible for the Ross rifle, it has nothing to say against Sir Robert Borden, but assures us that the Borden government is helpless because the Laurier government made a "perpetual" agreement with Sir Charles Ross which can never be changed so long as the world endures. So it appears that not only are the old parties equally to blame for the Ross rifle situation, but they are equally impotent. The Borden government, we are told, is helpless.

The new party and the new government will find a way of cancelling it in five minutes, and it will declare a policy for national factories to make our rifles and our munitions, and no more Rosses.

Another big problem is the railway situation. Yesterday your venerable and ever-to-be-respected neighbor of The Globe came out flat-footed for government ownership of all transportation lines, municipal, provincial, and national. After much wandering and many head-aching steps The Globe now boldly declares that all the railways of Canada must be united in one system, owned and operated by the Dominion Government. But that is the doctrine of the new party, and we take it that the Globe desires to enroll itself under the Globe banner. If this be the case, there are certain formalities to be attended to. The Globe must declare itself and be attested if it is to do service in the ranks. To our neighbor we will be glad to extend the right hand of fellowship, for we believe The Globe can do yeoman service for the people under the banner of the new party.

Possibly, however, The Globe intends to remain with the Liberal party, with which it has been for more than half a century associated. If that be the case, we ask whether it is voicing the platform of the Liberal party on the railway problem? Does it speak for Sir Wilfrid Laurier? If it does, then the Liberal party already goes into the next campaign with a plank borrowed from the new party, but a strong plank that may hold many wavering Liberals in line.

HAMILTON NEWS

The Hamilton Office of The Toronto World is now located at 40 South Main Street.

S. F. LAZIER, K.C., DIED YESTERDAY

Prominent Hamilton Philanthropist and Churchman Passes.

WELCOME HIGHLANDERS

Thousands at Station to Cheer Hundred and Seventy-Third.

Hamilton, Thursday, Oct. 5.—S. F. Lazier, K.C., a well-known Hamilton citizen and philanthropist, died yesterday. The late Mr. Lazier was born in Picton, Ont. July 1, 1841, and received his early education at the Dundas Grammar School and the Victoria College, Cobourg, where he obtained the degree of LL.B. and M.A. He was appointed Q.C. by both the Ontario and Dominion Governments. He was a prominent member of the Hamilton Law Association, of which he was president, and also past president of the Ontario Bar Association. He was a Mason and past master of Complan Lodge, No. 124, Hamilton. He was appointed Q.C. by both the Ontario and Dominion Governments. He was a prominent member of the Hamilton Law Association, of which he was president, and also past president of the Ontario Bar Association. He was a Mason and past master of Complan Lodge, No. 124, Hamilton. He was appointed Q.C. by both the Ontario and Dominion Governments.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

WITH the advance of the allies into Serbian Macedonia, the engagement of the British in heavy fighting in the Struma Valley, the making of progress by the Russians and Rumanians in the Dobruja and the opening of desperate attempts of the enemy to prevent their making of securing consolidated positions south of the Danube, the war in the Balkans has assumed a lively and significant aspect. The greatest advance was made yesterday by the Serbians, who have got well across the frontier into Serbian Macedonia. They captured the Petalino Peak on the western slope of Kaimakalan, and they seized Plosideri, at the base of Monte Ceecho. The Serbians have made a number of advances in the capture of the Cerina River forms a loop. Monastir is expected soon to fall, in heavy action at Jellikoi, east of the Struma River, the British contingent repulsed the Bulgarians.

Concerning the battle in the Dobruja, on the front extending from the Danube to the Black Sea, on the other side of Bulgaria, the Rumanians report that they are continuing to make progress in the centre and that they gained an advantage on their left wing in the capture of a position at Amzeas. Here they took 1000 prisoners, seven guns and much war material. The Rumanians, who are apparently operating on the right wing, close to the Danube, have brought a number of gunboats up stream and they are shelling the left flank of the enemy, while strongly attacking him frontally. Thus the foe is being subjected to a terrific cross fire against which no trenches can be made proof. This action resembles the action of the Belgians during the battle of the Yser, except that the forces now employing the warships are on the offensive instead of on the defensive, as they were two years ago in the western theatre of the war.

Between Turtukal and Rusechuk, on the southern bank of the Danube, the enemy has hurried up detachments of Bulgarians, Germans, Austrians and Turks, in an effort to dislodge the Rumanians before their making of permanent defences as points of support for an invasion. As the zone under attack is forty miles long, it may be deduced without much mental effort that the Rumanians have crossed the river in more places than one, so the report issued by the Germans about forcing a withdrawal of the Rumanians at one point need not cause any alarm. The Bulgarian effort to throw men across the Danube to enter Rumania appears to be undertaken in emulation of the Rumanians rather than a deliberately considered and prepared move.

On the whole the fighting in the Balkans is thus seen to be going against the enemy. It is certain that by this time urgent calls are being sent in to the German general staff for more shells, more guns and more men for this theatre of the war. But as the Russians are becoming dangerous again in the fighting before Lemberg, the only theatre left to the German higher command to secure reinforcements is the western theatre of the war. Owing to the virtual suspension of the fighting in Picardy by reason of the heavy rains, the Germans will be sorely tempted to gamble on the possibilities against further offensive operations in the autumn on the odd chance of it being a rainy season, and further to weaken their position in the west by subtracting some more divisions from the number stationed before the British and the French.

On the Russian front the heavy battle forced on the enemy in the Brezany region, in southeastern Galicia, is still raging with the utmost violence. The Russians, it is said, have approached near Brezany and they are bombarding the enemy's defensive position of the line of trenches miles deep and difficult to force under unfavorable road conditions.

Owing to the continued rains little was done on the western battlefield in Picardy by the Anglo-French armies yesterday beyond the usual intense artillery shelling. The British ousted the enemy from part of Eaucourt l'Abbaye in the previous night. They also beat off an attempt of a hostile bombing force against a point half way between Eaucourt l'Abbaye and Gueudecourt. Twenty-one prisoners were taken in this area. On the French side of the battlefield, except a small infantry advance east of Morval, nothing happened outside of the usual dulled fire of a rainy day. In the preceding night the French captured a strongly fortified line of German trenches between Morval and St. Pierre Vaast Wood.

The Italians were engaged in some lively fighting as a result of Austrian attempts in the Travinolo-Avisio Valley. These hostile blows were all parried by the excellence of the Italian artillery and machine gun fire. On the northern slopes of Col Brenon the Italians captured some ground in the direction of Col Brenon. A series of battles has been notably active in the Gorizia zone and on the Carso Plateau.

Lord Derby is satisfied with the progress of the western campaign, according to a Canadian Press interviewer. Only good weather is now needed to show substantial progress. He remarked that one of the most striking features of the present phase of the war was the notable decline in the activity of the German official communications. They are noticeably false in what they relate, and they are strikingly significant in what they minimize or conceal. Zeppelins, he says, will continue to attack London, in spite of recent losses and the vast improvement wrought in the air defences of the capital, for the German people have been taught that zeppelins, like submarines, can bring England to her knees.

SERBIAN'S ADVANTAGE IN BALKAN DRIVE

from Monastir at some points. Unless the Bulgarians abandon their trench lines, they will soon be in danger of envelopment. Once the tire on Monastir the task of the allies will be greatly simplified. It is already reported from Petrograd that the Serbians have captured a position amounting to about 140 square miles. Seven Serbian towns have been reclaimed.

The advance of the British forces on the Struma is regarded as especially encouraging, as they are especially by great difficulties and strong enemy forces. The King Peter's army is slowly yielding to the allied pressure along the entire Macedonian front.

Russian naval forces are taking an increasingly active part in the operations against the Bulgarians and Germans in the Dobruja sector. Today's official report from Petrograd announces that Russian gunboats have worked their way up the Danube beyond Cernavoda and have been raising the enemy's left flank near Racheva with a destructive fire. Mangalia, on the Black Sea coast, has again been the target for shells from Russian warships.

The island of Malakalaf, at the Danube, opposite Vidin, near the southwestern border of Rumania, has been seized by the Bulgarians, who are using it as the base for attacks on nearby Rumanian ports.

Boy Struck By Motorcycle Driver is Held By the Police

Edward Sanderson, 14 years of age, 177 Lippincott street, was struck by a motorcycle, ridden by Harvey E. Dodds, 60 Marchmont road, last night while crossing the intersection at College and Bathurst streets with a number of companions. His left leg was fractured. He was removed to the Western Hospital in a passing motor car. Dodds is held by the police pending full information as to the lad's condition.

STABLE WANTED

Good stable wanted for 18 or 20 horses, with yard accommodation; must be located within the boundaries of Spadina Road and Christie Street, and Harbor and Dupont Streets. Address, stating terms and full particulars, to Box 24, World Office.

EDWARD COOPER GUILTY OF CHARGE OF FALSE PRETENCES

The jury returned a verdict of guilty with a recommendation for mercy in the general sessions last night before Judge Winchester in the case of Edward D. Cooper, charged with false pretences with intent to defraud. Edgar Hill testified that he gave a cheque for \$350 to help pay for a car to demonstrate a new type of pneumatic tire, which was an invention of accused's brother, and which was claimed to be to be manufactured in Canada. Cooper was also alleged to have said that an order for a large number of tires had been obtained from the government. Hill and another witness, named Brennan, were to have a share in the agency profits in consideration for their monetary assistance in buying the car.

POISONING THE CAUSE OF COUPLE'S DEATH

Carbon Monoxide, Inhaled by Albert Neal and Housekeeper, is Fatal.

That Albert Neal came to his death at 122 University avenue from carbon monoxide poisoning between the 23rd and 24th of September, was the verdict brought in last night by the coroner's jury under Coroner Dr. W. A. Young, and told her he could not do otherwise.

REV. DAVID TULLY DEAD

Philadelphia, Oct. 4.—Rev. David Tully, said to be the oldest Presbyterian minister in active service in this country, died here today. He was 98 years of age. He was known to Presbyterians in Canada. Mr. Tully was a native of Scotland.

Style Review of the New Suits for Men and Young Men

THIS SEASON the fall and winter styles in men's suits show more or less form-fitting coats with high waist lines, natural shoulders and high armholes, giving altogether a military "set-up" effect that is extremely smart, especially for young men. In either single or double-breasted with narrow, sharp-pointed, peaked lapels and pockets, finished with flap, some slanting, some straight; some patch pockets.

Vests are all form-fitting, many with collars, and trousers are much the same.

FOR YOUNG MEN who prefer clothes of character, these Society Brand models are surely appealing. They are made of imported British materials carefully sewn by tailors who know how to make them fit smartly and neat. In single-breasted two-button style with soft roll peaked, long, rather narrow lapels. Made of fine twill worsted navy blue materials, in sizes 33 to 38. Price . . . 18.00

Young Men's Norfolk Suits, made of fine twill English navy blue worsted materials. The coat has box pleats at front and back from yoke to a stitched-down belt. Lapels are notch shaped. Trousers straight cut, with choice of cuff or plain bottoms. Sizes 32 to 36. Price . . . 13.50

Made in the same style from a trifle heavier navy blue worsted material are Young Men's Norfolk Suits at . . . 15.00

Also for young men is a very fine Twill Navy Blue Worsted Suit, with box pleats from yoke to bottom of coat, and loose belt at waist. This model has patch pockets and is lined with a fine lustre. Sizes 33 to 38. Price . . . 18.00

For Men of quiet, conservative taste, we call attention to a special line of Worsted suits, comprising a big assortment of grey twill patterns in a variety of shades, weaves and mixtures. They are all three-button models, with medium-width lapels, in various lengths. The vest mostly close-fitting and the trousers in fashionable width. Price . . . 15.00

Men's Suits, made of cassimere finished tweeds and English worsted materials, in neat dressy patterns, such as broken and small checks, twills and thread stripes, greys and new browns. They are single-breasted models, styled in seasonable fashion. Price . . . 18.00

Men's Eaton Brand Hand-Tailored Suits, made of strong British worsted materials, in winter weights; are shown in rich grey and olive shades, in mostly small check patterns. Price . . . 20.00 and 22.50

For good substantial and smart-looking Business Suits we feature Three-piece Suits made of both worsted and tweed materials. The patterns are very pleasing, including thread stripes, fancy weaves and small checks, in grey and brown, also blue with thread stripes of grey. All are single-breasted, three-button models, with twill serge linings. Sizes 36 to 44. Price . . . 12.50

Morning Coats, Black Suits, Etc., for Formal Wear

Thanksgiving comes at the commencement of the season of formal occasions, when dress suits, morning coats, black suits, etc., will be required by men who attend weddings, dances, banquets and formal social gatherings, etc. A few suggestions as to the prices and styles of such costumes are here given.

Men's Morning or Cutaway Coats, made of imported Saxony finished wool materials, in soft, rich shade of grey. These are sponged and shrunk and tailored in two-button style, with rather short and slightly rounded lapels. The front of coat is cut smartly away from waist line. The vest has five buttons and notch collar. The body and sleeves of coat and back of vest are of fine soft twill silk. Sizes 36 to 42. Price . . . 25.00

In the same style is a dark grey British material, with a llama finish; tailored with silk linings and fancy mohair buttons. Priced at . . . 32.00

Eaton-Made Black Suits, made of worsted serge. Coats are three-button sac style, with notch lapels; five-button vest, without collar; fashionable-cut trousers. Sizes 36 to 44. Price . . . 12.50

Also **Eaton-Made** are English Worsted Black Suits, in medium wale. Three-button sac models, with soft roll notch lapels. The front is slightly rounded and the lining is of fine twill serge. Price . . . 15.00

Eaton-Brand Hand-Tailored Black Suits, made of British unfinished worsted materials, in a soft fine dull black that will not get glossy. It has been thoroughly shrunk and will hold its shape till worn out. Cleverly tailored in smart three-button sac style. Price . . . 25.00

Smart and Cosy Fall and Winter Weight Top Coats for Men

AS IN PREVIOUS SEASONS the slip-on tweed coat is the supreme favorite again this fall, a special feature being those with velvet collars. Many have straight patch pockets with flaps, while others have the well-known and convenient slant pockets. A few of the coats this season are form-fitting in plain or pinch-back effect. They are either single or double-breasted. As to prices, materials, colors and patterns read the following:

Young Men's Slip-on Topcoats, made of soft finished tweeds and Donegal homespuns, in fancy mixtures. They are in the correct length for easy walking, and have close-fitting collar of self material or velvet. Shoulders are natural width and have patch pockets with top flaps and are lined at shoulders and sleeves. Sizes 34 to 40. Price . . . 13.50

Very appropriate and exceedingly smart for young men are the Pinch-back Top Coats, with half belt and pleats at back. These are made of medium grey soft mixed weaves and are lined with twill serge. Sizes 34 to 38. Price . . . 13.50

Another line of medium weight Topcoats are in slip-on style, with satin lining at sleeves and shoulders. These are thoroughly tailored and well finished throughout of a beautiful grey tweed, with a mixture of green or blue, and a lighter grey in Donegal weave. Price . . . 25.00

Of heavier materials and lined throughout are Topcoats for stormy wintry weather. One two-button model in double-breasted style fits close at the back and is about 40 inches long. Has peaked lapels, velvet collar and cuffs on sleeves. They are made of soft tweeds, in brown with golden tint mixture. Sizes 34 to 40. Price . . . 13.50

The Jellicoe is another very smart model in exactly the same style, but made of a material a trifle heavier. It is a beautiful brown or almost golden shade, in herringbone weave. The collar is of brown velvet, and there are cuffs on sleeve. Price . . . 20.00

Very fashionable and one that will appeal to young men is a three-button double-breasted short boxy back model, with peaked lapels, patch pockets, with slanting-top flaps. Has velvet collar to match in color. Made of that rough-woven tweed, in a diamond pattern, in either a golden or dark brown. An exceptionally well-tailored coat, lined with mohair through sleeves and shoulders, and with taped seams. Price 22.50

Melton Cloth makes up into a very attractive coat. One we show being in Chesterfield style, with fly front. It is about 44 inches long and with velvet or self collars. The seams are plain or taped and edges are finished raw. In choice of Oxford or Cambridge greys, with twill serge lining. Sizes 35 to 44. Exceptionally good value at . . . 16.50

A very fashionable coat that will wear for years is made of an English niggerhead material, in rich shades of blue tinged with green. It's a double-breasted close-fitting model, with notch shaped soft rolling lapels, silk velvet collar and satin taped seams. It is lined through shoulders and sleeves with satin. Price . . . 32.50

New Fall and Winter Burberry Overcoats

Famous the world over are these high-grade garments of Burberry's. Always dependable for their serviceable, distinctive materials and style.

One style, in weights for Winter wear, are made of soft fleecy finished materials that are warm and yet not excessive in weight. They are in medium and dark grey and brown, with fancy mixtures; double-breasted style, with set-in sleeves and convertible lapels, with storm collar. They are lined to waist and through sleeves with silk, and have silk wind shield in sleeves. Sizes 36 to 44. Price . . . 30.00

Made of better quality material are Burberry models in soft fluffy finish, in dark shades of grey. They are in similar style to above mentioned coat, with extra fine silk linings to waist and through sleeves. Priced at . . . 42.00

D. C. M. PINNED ON BREAST OF HERO

Presentation to Sergt. J. Bruno Made by Gen. Sir William Otter.

HOPEFUL OF RESULTS Return of Troops Expected to Give Recruiting Stimulus.

While the armories rang with the plaudits of a large number of returned soldiers from the Military Convalescent Hospital, six hundred men of the Queen's Own Rifles and hundreds of civilian spectators last night Sergeant Joseph Bruno, of the 1st Battalion, in recognition of services on the field of battle, was presented with the Distinguished Conduct Medal by General Sir William Otter.

With the men lined up in a hollow square, General Otter recounted the circumstances under which the sergeant gained the distinction.

With the troops shortly returning to winter quarters in Toronto, recruiting officials are hopeful for increased recruiting activity in the city.

BORDEN SOLDIER DIES SUDDENLY

Sergt. Kerr, Muskoka Battalion, a Victim of Pneumonia.

LIEUT. CHILLY ILL Has Been Removed to Camp Hospital Suffering From Pleurisy.

By a Staff Reporter. Camp Borden, Oct. 4.—Sergt. Ronald Kerr of 122nd Muskoka Battalion died today in the camp hospital from pneumonia. He had only entered the hospital five days ago.

Disposition of Units in Toronto. Disposition of the units remaining in Toronto this fall have been decided as follows:

28th (Irish Canadian), in horticultural building, Exhibition Park; 198th (Irish), north wing of process building; 204th (Beavers), government building; 220th (York), poultry building; Artillery, in stable buildings; Army Medical Corps, Army Service Corps and Army Veterinary Corps in live stock building; Cyclists, in government building (272 men); Dental Clinic, in dairy building; postoffice in Ontario Government Loan Cabin.

Owing to the accommodation in the administration building not being sufficient for the headquarters staff, part of the southern wing of the process building will be used for staff offices this winter.

Suffering From Pleurisy. Lieut. Chilly of the divisional intelligence staff, Camp Borden, was admitted to the camp hospital tonight, suffering from pleurisy.

Capt. W. M. Smille of the divisional pay staff is acting as paymaster of the 166th Queen's Own Battalion, in charge of Capt. E. L. Williams, transferred to casualties.

A board of officers, composed of Major G. N. Bramfit, Lieuts. G. C. Hilliard and W. H. F. Mattinson, will meet here on Wednesday, Oct. 11, for the purpose of examining officers in equitation. Candidates are to provide their own horses.

Lieut. F. D. Doda, Canadian Army Service Corps, has been attached to the camp staff as assistant to Major G. C. Milson, A.D. of S. & T.

At a field day of sports held this afternoon under the auspices of the Army Medical Corps, the champion ship cup was won by Pte. J. Musgrove. Pte. W. Holwick, who finished second, received a shield, and Sergt. Davidson, third, a gold medal.

In the officers' event, Capt. Adlard won first place and Capt. Porter second.

In the races for nurses, Nursing Sister McCurdy won first prize and Nursing Sister Morden second.

Pte. Holwick won the hundred yard race. Sergt. Davidson won the 220 yard and also the shot-putting contest. Musgrove and Ross won the relay race.

Mrs. W. A. Logie presented the prizes to officers. Mrs. C. A. Warren presented prizes to the members of the A.M.C. Corps and Mrs. Holmes those to the nursing sisters.

Inspected Tomorrow. The 166th Queen's Own Battalion will be inspected tomorrow morning on the ceremonial area by Lt.-Col. J. S. Campbell, attached general staff.

CANADIAN TROOPS IN LAST BIG FIGHT

Party of Dominion Newspaper Men Caught in Yesterday's Engagement.

SPLENDID VALOR

Ontario Battalions Pushed Forward Lines in Somme Battle.

Canadian Headquarters, France, Oct. 4.—The party of Canadian correspondents now visiting the front were in the thick of a strenuous engagement yesterday. Their appreciation of the splendid valor of our Canadian troops has gone up a hundredfold.

An Ontario brigade pushed forward on the Ypres, much interest in the artillery being described. It could imagine oneself closely surrounded by the continuous explosion of the largest cannon in the world and above which are the screech and whine and roar of the heavy shells and the howl and burst of the Hun missiles, one might glean a faint idea of the noise. The heaven and earth reverberated as explosions occurred high up around our planes.

Fifty Tons of Machinery At Bottom of Detroit River

St. Thomas, Oct. 4.—While a huge pile driver was being moved into position at Ford City, at the plant of the Ford Motor Company, here today, the scow on which it was being slipped and the machinery fell into the Detroit River. Approximately 50 tons of machinery, including a 5000 pound steam hammer, is now lying in 20 feet of water.

JUSTIFY EXISTENCE OF CINEMATOGRAF

Pictures of Allies' Advance Will Be Preserved in Britain's Archives.

PASSED BY BOARD

"Battle of Somme" Film Released for Canada Remains Uncensored.

Actress Tells Secret

A Well-known Actress Tells How She Darkened Her Grey Hair With a Simple Home-made Mixture.

That an enthusiastic reception was accorded the official motion picture of "The Battle of the Somme," in which the British opened their offensive upon the Germans July 1, is proven in excerpts from the most prominent and influential newspapers in England, where the pictures were shown to millions of people.

Editorial comments expressing the firm conviction of the newspapers that the pictures should go uncensored, and despite their graphic portrayal of the warfare, exhibited about the temple, indicates to what extent an ineffaceable impression was made.

The London Times said: "If any doubts were needed to justify the existence of the cinematograph it is to be found in the wonderful series of films on the opening of the British attack on the Somme on July 1, which will soon be exhibited in every part of the country. In years to come, when historians wish to know the conditions under which the great offensive was launched, they will have to send for the films and a complete idea of the situation will be revealed for us take it as a matter of course that a number of copies will be carefully preserved in the national archives."

The same paper on Sept. 5 made the following comment: "We doubt whether the protest against the exhibition of the Somme films will find many supporters among those who have seen the pictures."

Those who have not seen them may be left to conjure up visions of "bestial horror" and of morbid spectators crowding to revel in "scenes of agony." For the truth is there is nothing in them to gratify the morbid, nothing to leave a sense of "bestial horror," nothing but just make the spectator a better and braver man, more convinced than ever of the invincible spirit of his fellow-countryman in France, and more determined than ever to play his own part in the war.

The London Evening News remarked: "When the Somme battle pictures were first solemnly passed in review by authority the chief question to be decided apart from the actual portrayal of war as it was too grim in its realism. The thing had never been done before in quite the same way as in a mere literary description, or most of all, those who were not giving the maximum of effort in their own actually fighting, he shown in a more intimate and personal way than ever before something—but not by any means all—of what these last were suffering in the cause of

CONSIDERATION PROMISED FOR QUEBEC PROHIBITION

Sir Lomer Gouin Tells Temperance Delegates Situation Will Be Carefully Weighed.

Quebec, Oct. 4.—Replying to a delegation composed of some three hundred advocates of temperance urging provincial prohibition, Sir Lomer Gouin in the legislative assembly this afternoon sought to mitigate the rigorous demands of the delegates by asking them what they would think of a system that would not include wine and beer.

Judge La Fontaine, president of the Montreal anti-alcoholic league, whom Sir Lomer asked the question, replied that unadulterated wines could only be bought by the retail and he termed it a bid and unsanitary beverage; and as an example he cited

SURE WAY TO GET RID OF DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dandruff is entirely, to do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

GERMANY, WHERE BEER IS SO EXTENSIVELY CONSUMED, ASKED IF A MORE BRUTAL NATION COULD BE FOUND.

Premier Gouin assured the delegates that their appeal had not fallen on deaf ears, and that the government's attitude towards temperance had not changed. It was plain that the government was facing a difficult problem, and opinions would have to be weighed.

He promised that the government would give the request all the consideration which they deserved, and assured them that his colleagues and himself would prove themselves worthy of the confidence of the people of the Province of Quebec.

Our Annual Invitation to Merchants

WE invite every merchant who carries in his stock goods that have been newspaper advertised, to join with us on Monday next in celebrating International Newspaper Window Display Week.

Similar invitations are being extended to merchants in about four hundred other cities of North America by other newspapers, in co-operation with the Bureau of Advertising, American Newspaper Publishers Association.

We want this city to be a banner spot in this Continent-wide demonstration. Our invitation is not only to your self-interest but to your civic pride.

Window Week is designed to direct the eyes of manufacturers and thousands of customers to your show windows and to prove that the majority of dealers are more interested in localized advertising through their home newspapers than in any other kind.

The plan is simplicity itself. Select from your stock the articles that have been advertised in this and other local newspapers by the manufacturer. Place these in your windows next week and with them put the sign this newspaper has furnished you—a sign which says:—

INTERNATIONAL WINDOW DISPLAY WEEK
of Standard Products Advertised in Daily Newspapers
— WE SELL THEM —

If you want more signs let us hear from you at once.

We urge your co-operation because it means more business for you, more business for us and good advertising for our city.

Put Newspaper Advertised Goods in Your Window on Monday Next!

MARAUDER FIRES TWICE ON POLICEMAN AND ESCAPES

Attempt to Enter Rosedale House in Early Morning Frustrated.

While he was inspecting an unoccupied house at 34 Castle Frank road,

Rosedale, about 2 o'clock yesterday morning, Policeman Perry (259), of 58 East Charles street, was fired upon twice by an unknown man with a revolver. One bullet grazed the policeman's arm, while the other penetrated his helmet. The policeman returned the fire, and chased the man thru the ravine, but he escaped.

Perry's attention was drawn to a movement in the shrubbery at the rear of the house. He had moved a few

feet toward the bush on a tour of investigation, when the marauder suddenly appeared, and without warning, fired upon him.

The policeman reported the occurrence to headquarters and Medical Officer Sprague examined his injury. Perry was then ordered to the General Hospital, where the wound was inspected by X-rays. He was then able to go home. The nature of the wound suggests that the bullet was of small calibre.

Terrible Accident Averted When Express Struck Freight

Kingston, Oct. 4.—If the westbound express, No. 9, on the Grand Trunk Railway, which was in collision with a freight train a few hundred yards east of Mallorytown Station about midnight Tuesday, had not stopped at that place to let off four soldiers, there would have been a terrible catastrophe, as the train would have ploughed into the freight at a speed of fifty miles an hour.

The freight was on a siding from the westbound truck and had gone only half its length when the express came along from a station at ten miles an hour and crashed into it, first striking an empty car which broke the force of the collision. The passengers were jarred but nobody was hurt.

The engineer and fireman of the express had not time to jump. The express was pulled back to Brockville and did not reach here until 3.30 a.m.

WILLS PROBATED

Mrs. Mary Jane Atchison, the sole beneficiary, has filed succession duty affidavits in connection with the estate of her husband, who died in Toronto May 12, 1909, leaving an estate valued at \$8500.

Mrs. Amelia M. Lobb died in Northville, N.J., Jan. 23, 1916, leaving an estate of \$5798. Two Toronto people, a son, Melville J. Lobb, and a granddaughter, Adeline Lobb, share in the estate to the extent of \$984 and \$465 respectively.

BAUGH GETS RESERVED CASE.

Before Judge Winchester yesterday afternoon Lieut.-Col. Greer and Mr. Godfrey, acting for the crown and Edward E. Baugh, respectively, agreed to terms by which Baugh will be granted a reserved case.

NEW HOME FOR SOLDIERS OPENED

Lieutenant-Governor Performs Ceremony in View of Large Crowd.

OLD KNOX COLLEGE

Transformed Into Comfortable Quarters for the Returned Men.

Several hundreds were unable to gain admittance to the new home for convalescent soldiers, formally opened yesterday afternoon by the lieutenant-governor, Sir John Hendrie, who, in his opening remarks, said that this was the only hospital exactly of this kind in Canada, and that had not come at all too quick. He emphasized the fact that no care nor generosity could be too much for the sick and wounded soldiers, and expressed appreciation to the societies and individuals who had helped to transform the old Knox College into the present comfortable and beautiful home.

Senator Loughheed, chairman of the military hospital commission, explained in detail the relationship between the government and the work of the commission. It is the duty of the government to provide convalescent homes in every military district in Canada, and this has been done. The government had also assumed the responsibility of finding employment for the sick and well.

In speaking for the employment commission, Mr. McPherson stated that the best teachers were being engaged to teach the wounded telegraphically, bookkeeping and many other trades and professions. It was also stated that an order in council had been passed to give returned soldiers vacancies in the civil service when they were fitted for the office.

Sir Henry Pellatt presided, and Mayor Church expressed his own good-will and that of the city council toward the home and the soldiers, and received hearty applause. W. K. George, on behalf of the hospital commission, spoke of the work entailed in preparing the hospital, and thanked the many who had assisted. Mrs. Crawford Brown had seen to the entire furnishing. The wards and beds had been donated by the teachers, children of the schools and many societies and individuals.

The hospital has 75 men in residence, and the number will be increased to 150 before the end of the week.

The suggestion that women's institutes might form themselves into Samaritan clubs to assist the tubercular cases in their various districts was made by Miss Barlow, of the social service commission, in an address before the Toronto Club.

The treasurer reported that receipts for the year, including the balance from last season, amounted to \$4,294.27, and the expenditure to \$2,290.28; balance on hand, \$2,003.99. During the summer sixty mothers and their children had been given a vacation at the Rest Home Cottage, Muskoka, at a cost of sixty cents a day for each guest.

Goes to Jury on Charge of Receiving Stolen Property

Charged with receiving stolen property, Lokatch, 48 Hayes street, appeared in the police court yesterday, and was committed for trial by jury. Mary Clifford, 286 Victoria street, claimed that his house was broken into and goods to the value of \$75 stolen. A fourteen-year-old boy admitted selling the stolen goods to Lokatch for 40 cents. Lokatch was allowed out on \$2000 bail.

Low spirits, discouragement, the result usually result from a tired brain and exhausted nervous system. Start the rebuilding process to-day by the use of the greatest of nerve restoratives.

The Best Suit Value of the Season

Smart New Models, Beautifully Tailored \$25.00
The Materials Unusually Fine, Today \$25.00

This sale of suits is the result of one of the best purchases we've made for years. We're proud—and justly so—of each model in the collection, for these are suits designed and tailored by a past master at his trade, a manufacturer who turns out only garments of the order that will satisfy the Murray-Kay clientele.

The cloths in these special suits are those that are used, as a general rule, in \$35.00 and \$40.00 models. They are beautiful gabardines, poplins, French serges and tweeds, in navy, regimental blue, black, green, grey, brown and heather mixtures.

So much for the materials. As for the models, they are eminently smart, the coats cut long, satin-lined throughout; one showing the influence of the Redingote idea; another one modelled in plain, tailored effect; a third having wide back collar, trimmed with band of velvet. The skirts are cut these highly attractive SUITS FOR WOMEN as unequalled in value at our price. They \$25.00 will be on sale today. Our special price for each

WOMEN'S BROADCLOTH SUITS, in various colors, fur-trimmed. The prices from \$32.50 to \$55.00

Our Sale of Thanksgiving Day Linens Includes a Host of Special Values

Thanksgiving Day draws nearer—the big turkey has given almost his last terrifying gobble—the cook is planning the menu for the festive day—and the special thing that remains to be done is the choosing of some new table linen to fit the occasion.

We suggest that you'll find what you want at our Thanksgiving Sale of Table Linen. Two uncommonly good lines will be featured today, of which we give details below:

Irish Wamsak Table Linen, all pure linen of fine quality, in spot and shamrock design only. Offered at prices that are literally below those asked by manufacturers today.
Table Cloths, 2 x 2 yards, \$3.50; 2 x 2 1/2 yards, \$4.00; 2 x 3 yards, \$5.00
Table Napkins, 20" x 20", per dozen, \$3.50; 22" x 22", per dozen \$4.00

Hemstitched Damask Table Linen, all pure Scotch linen of very fine quality, offered at about one-third less than the real value.
Hemstitched Table Cloth, 2 x 2 yards, \$6.00; 2 x 2 1/2 yards, \$7.00; 2 x 3 yards, \$8.00; 2 1/2 x 3 yards, \$9.00
Hemstitched Table Napkins, 22" x 22", per dozen \$10.00

EXPRESS DELIVERY CASE LIKELY TO BE POSTPONED

None of the Parties Interested in Railway Board Hearing Ready.

The chances are that the express delivery case, which is slated for the railway board sitting at the city hall today, will be laid over for some weeks. Neither the citizens' freight and express delivery workers nor the express concerns are ready for the battle. M. K. Cowan, K.C., has very recently received his brief from the city and will require some time to get the facts. Sir Henry Drayton may be represented in the chair by D'Arcy Scott.

At the board of control meeting yesterday Mayor Church severely criticized a report from City Auditor Sterling to the effect that payment of \$600 to the campaign committee would be illegal. "He has no business to make a report until he is asked," says the mayor.

WANTED IN BARRIE.
Victor Wainberg, of Barrie, was arrested yesterday afternoon by Detectives Armstrong and Archibald on a charge of fraud, preferred by the Barrie police.

TO RECEPTION HOSPITAL.
Yesterday the charge against Ellen Wynne, colored, was changed from housebreaking to insanity when she reappeared in the women's court. She was sent to the Reception Hospital for a week.

Dizziness

and Specks before the Eyes

Liver derangement is the cause behind these distressing conditions, and only restoration of perfect natural action can effect lasting cure. That is why Dr. Cassell's Instant Relief is so immeasurably superior to the old-fashioned cathartic liver-pills and aperient salts. Such things can only give passing relief by forcing the liver to unnatural action, and have to be continued. Dr. Cassell's Instant Relief strengthens the liver, and so brings about natural action in a natural manner.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver trouble.

Ask for Dr. Cassell's Instant Relief and take no substitute.

Price 50 cents from all Druggists and Storekeepers, or direct from the Sole Agents for Canada, Harold F. Etchico and Co., Ltd., 20, McCaslin-st., Toronto. War Tax 3 cents extra.

Dr. Cassell's Instant Relief is the companion to Dr. Cassell's Tablets.

Sole Proprietors: Dr. Cassell's Co., Ltd., Manchester, England.

THURSDAY MORNING, OCT. 4.

Lord Bryce's Speech

Viscount Bryce's speech at Birmingham has stirred up immediate, widespread, and in some cases, heated comment. The cause of the differences of opinion over it may be set down to the ethical principles at the basis of the viscount's views.

Lord Bryce merely emphasized the truth that had all so-called civilized people been real Christians there would have been no war.

On the other hand, it must be remembered that the Wilson administration has given the manufacturers, merchants and business men of the country an up-to-date banking and currency system, which effectually guards them from the money famine, the currency corners and the congested credits of former days.

Indeed, Mr. Wilson has pretty well carried out the progressive policies for which the middle west has been clamoring since 1890.

"A SHARK!"

many in mind. The Kaiser, with all his kaiser-craft and kaiserdom, must be swept away. These are exorcises on the nation or cluster of nations that forty-five years ago we called Germany.

Britain and her allies have nothing to fear from a regenerate Germany. And Germany has nothing to fear from the victor of the Transvaal. Let us distinguish between the people and their leaders, between great principles of truth and liberty, and half-baked conceptions of international relationship, and we shall see that Lord Bryce speaks an ultimate word which cannot be spoken till peace is made at Berlin.

Wilson Warning Up

The Republican candidate fairly ran away from his principal opponent in the go-off of the presidential race, but the latter has been closing the gap, and Hughes and Wilson will enter the quarter stretch neck and neck.

The pro-German vote will stay with Hughes merely because it is anti-Wilson. The anti-German vote will not doubt go to the president. But after all the vote that may elect Wilson will come from that large body of American citizens who never think of the war without feeling grateful to the president for keeping them out of it.

The Republicans have been greatly helped by the trade conferences among the entente allies, which are interpreted or misinterpreted as forerunners of a world-wide trade war to be directed, in part at least, against the United States.

On the other hand, it must be remembered that the Wilson administration has given the manufacturers, merchants and business men of the country an up-to-date banking and currency system, which effectually guards them from the money famine, the currency corners and the congested credits of former days.

Indeed, Mr. Wilson has pretty well carried out the progressive policies for which the middle west has been clamoring since 1890.

INVALID PORT WINE

"FIEND" IS LATEST

Merchant Says Employee "Has Gone to Pieces" by Use of Liquid.

POSER FOR AUTHORITIES

Legislation Will Likely Be Introduced to Increase Medication.

A wholesale merchant wrote the Vice-Chairman Dingman of the House board yesterday saying that one of his employees, an excellent man at his particular job, that is, when he was sober, had simply gone to pieces since the advent of prohibition.

It is quite within the bounds of possibility, it is stated in well informed quarters, that legislation may be submitted at the next session of the legislature with a view to amending the present difficulty of prosecuting under the Patent Medicine Act, which simply provides that there shall be sufficient medication in such preparations to render them unpalatable.

Chairman Flavelle points out that before the act went into force, the druggists were very emphatic that they did not wish to have anything to do with the sale of liquor after prohibition. He asked if those druggists who had been so anxious about the sale of medicated wine.

Still Looking to South America

The Germans still hope to accomplish great things in South America. If the present war had gone as they anticipated the Monroe Doctrine would have been challenged, and perhaps successfully.

Singularly enough, the sale of the Danish West Indies to the United States still hangs fire. Uncle Sam is now willing to pay twenty-five million dollars for territory he thought dear at five million dollars in 1902.

One allegation made in this connection is that Great Britain would not have interfered in the war unless her own interests had been jeopardized, and that she feared that the conquest of France would have been followed by a German invasion of the British Isles.

It is quite clear that Great Britain is not fighting a war of conquest, but a war of defence. The freedom of the nations is the motto of the campaign.

ENEMY'S RESERVES

BEING CRUSHED

Twenty-Nine German Divisions Defeated on Somme Front.

MORALE IS BROKEN

Twenty-Six Thousand Seven Hundred Prisoners Captured in Advance.

London, Oct. 4.—An official statement issued here today gives details of the fighting on the Somme front after the advance of September 15, describing the capture of villages, including Combles, Gueudecourt, and Thiépval, and proceeds:

"These victories brought our front line at more than one point within a mile of the German trench position, west of the Bapaume-Transloy road."

"The statement continues: 'The enemy has fought stubbornly to check our advance, and since September 15 has fallen back upon a fourth line against us and five against the French. The severe and prolonged struggle demanded on the part of our troops very great determination and courage.'

"At the end of September the situation may be summarized as follows: Since the opening of the battle on July 1 we have taken 26,735 prisoners, and captured 38 German divisions, of which 29 (about 350,000 men) have been withdrawn or broken. We hold the half moon upland south of the Ancre, and occupy every height of importance, and so have direct observation ground to the east and northeast. The enemy has fallen back upon a fourth line behind a low ridge just west of the Bapaume-Transloy road."

"Their Counter-attacks Failed. 'The impetus of the three months' offensive is not to be judged by the distance advanced or the number of enemy trench lines taken. It must be looked for in the effect upon the morale of the enemy. For every material and morale. The enemy has used up his reserves in repeated costly and unsuccessful counter-attacks without causing our allies or ourselves to relax our steady, methodical pressure.'

"In this action troops from every part of the British Empire and British Isles have been engaged. All behaved with discipline and resolution of veterans. Our aircraft have shown in the highest degree the spirit of the offensive, causing our allies or ourselves to relax our steady, methodical pressure."

"The troops of the British Empire and British Isles have been engaged. All behaved with discipline and resolution of veterans. Our aircraft have shown in the highest degree the spirit of the offensive, causing our allies or ourselves to relax our steady, methodical pressure."

TORONTO OFFICERS

KILLED IN ACTION

Capt. J. H. Oldham and Lts. J. A. Harper, C. Odell and G. W. Sale in the List.

LT. G. A. SNOW MISSING

Son of Toronto Lawyer Believed Dead—Capt. Mavor Again Wounded.

Casualty lists issued yesterday contained the names of many well-known officers. In fact, the number of officers reported killed and wounded shows a decided increase over the past week.

Captain James Henry Oldham, the youngest son of Mrs. S. Taylor, 284 Dupont street, according to official advices was killed on Sept. 24. Prior to enlisting with Col. Pitt's battalion for overseas service he was associated with the law firm of Ritchie, Ludwig and Ballantyne, barristers. He was born in Manchester, England, coming to Canada when a lad with his parents. The late officer was extremely well-known in Toronto as a settlement worker, and took his B.A. at Victoria College and acquired his LL.B. at Osgoode Hall in 1913.

Lieut. Geoffrey A. Snow, younger son of A. J. Russell Snow, K.C., is missing but believed to be killed, according to a cable from his brother, Lieut. Bradley Snow, who is in England with the 24th Battalion. The unfortunate officer took up his commission with the 48th Highlanders and later became attached to the 92nd Highlanders. He was educated at St. Andrew's College.

Following six months' active service in the trenches, Lieut. Gordon Nicholson Sale, a well-known Toronto bowler, and Captain Wilfred Mavor, has been killed in action. He was gassed in the 74th Battalion about a year ago. He is survived by a wife and two children.

Lieut. John Harper, eldest son of George H. Harper, 44 Munro Park, has been killed in action. His death occurred just a few days after he had returned to the trenches following an extended leave of absence for sickness. For many years he was in the employ of the Bank of Montreal at Sarina and latterly at New Westminister.

Lieut. Cecil Odell, a nephew of G. G. Mills, and formerly on the staff of the Manufacturers' Life Insurance Company, has been killed in action. He enlisted as a private and was given a commission in the Imperial army subsequent to the battle of St. Julien.

For the fourth time since the outbreak of the war enlisted with the 48th Highlanders. Gassed at Langemarck, he was invalided home and returned to the front with the 92nd Highlanders.

The name of Lieut. Wilfred Bickle appears in the casualty list as having been wounded on Sept. 27. He lived at 467 Indian road and at the beginning of the war enlisted with the 48th Highlanders as a private. Last summer he obtained a commission in his own battalion.

After a short time in the trenches, Pte. C. J. E. Bickle, whose wife and children live at 60 Seymour avenue, has been killed in action. He is a native of Toronto and enlisted with the 48th Highlanders, discharging the sergeant's stripes in order to reach the front.

Nineteen-year-old Ernest Douglas of 530 Quebec avenue is reported killed in action. He enlisted with the 74th Battalion, but when killed was serving with the Canadian Mounted Rifles.

Lieut. William F. Frost has been killed in action. He lived at 96 Doel avenue and went overseas with the 83rd Battalion and was later transferred to the Mounted Rifles.

Subsequent to being transferred from the 83rd Battalion to another unit, Pte. John McCutcheon of 226 Campbell avenue was killed in action. He was a native of Scotland and came to this country from Scotland.

Pte. Glen W. Henderson, killed in action, was in the same battalion as McCutcheon. His next of kin is Albert Henderson of 46 Emerson avenue.

A Cornwall boy who enlisted in the 74th Battalion, Pte. Henry Crossley, has also been killed while serving with the Mounted Rifles.

Pte. George E. Gordon, who enlisted with the 76th Battalion when only 17 years of age, has been officially reported killed in action. He lived at 24 Ossington avenue.

Ottawa has officially reported Pte. S. J. Swanson of 1797 Dundas street killed. He enlisted with the 83rd Battalion volunteering for overseas service with a draft. Pte. Swanson was well-known at West Toronto.

A telegram received at 859 Eastern street has died of wounds at No. 13 years of age and unmarried. His father and two brothers, who reside at 422 Brock avenue, survive.

Pte. Herbert Peters of 92 Curzon street has died of wounds at No. 13 years of age and unmarried. He is survived by a wife and two children.

Survived by a family of three, Pte. John Cook of 638 Queen street, has been killed, according to a communication received by his sister-in-law, Mrs. Margaret Cook, Pte. Cook who came from Dundee, Scotland, left the city with a Toronto battalion in April last.

BARN FIRES IN THE PROVINCE SERIOUS

Damage in Last Two Months Totals Three Hundred Thousand Dollars.

TO CALL CONFERENCE

Will Discuss Cause and Prevention—Legislation is Suggested.

Barn fires to the number of 121 have been reported to Fire Marshal Heaton for the months of August and September of this year. The cost to the province is about \$300,000, of which 60 per cent. has been assumed by fire insurance companies and the remainder, \$120,000, on which there was no insurance, has been a dead loss to the farmers.

"I know that I am erring on the conservative side," said Mr. Heaton when he made the above statements yesterday. Returns for September are not complete. That no evidence of the incendiary suspected at one time when German interference was hinted.

Mr. Heaton plans to call a conference soon of those most nearly concerned to go into the cause and prevention of these fires, and to suggest legislation should that be necessary. Seventy township mutual companies have written most of the insurance, and Mr. Heaton thinks that the remedy lies in their hands for, in his opinion, the fault is in the fact that the modern barn makes little or no provision for ventilation of the loft, preferring heat for the stock, and the insurance companies should insist on ventilation, he says.

Four officers of the department are preparing reports on the field. One was sent to Simcoe County yesterday. Badly cured hay is thought to be the cause of the fires. This is the first time that a study has been made of such fires as Mr. Heaton's department was put in operation practically only on March 15, so that no data is available for reference, a lack which will be righted by this department.

Great British Air Fleet Overwhelms the Germans

London, Oct. 4.—In his summary of the Somme operations, Gen. Haig reports:

"Our aircraft have shown in the highest degree the spirit of the offensive. They have patrolled regularly far behind the enemy's lines, and have fought many battles in the air with hostile machines, and many with enemy troops on the ground. For every enemy machine that succeeds in crossing our front it is safe to say two hundred British machines cross the enemy's front."

GRAND TRUNK RAILWAY SYSTEM—MARKHAM FALL FAIR.

CYRIL MAUDE IN "JEFF" AT THE GRAND.

A few years ago a real humorist added to the literature of America one of the most delightful books of short stories that have ever been given to our reading public.

The writer of this book is Stephen Leacock and the book, "Sunshine Sketches," for "Grumpy" successor, as the original, his stage appearances in America this season.

Cyril Maude, the distinguished English actor, had Michael Morfon prepare a comedy based on incidents in the Leacock stories. The comedy has been given the title of "Jeff" and will be presented at the Grand Opera House Thanksgiving week.

"E. H. SOTHERN" AT STRAND.

YORK COUNTY ...AND... SUBURBS

COOKSVILLE NORTH TORONTO
FOUR THOUSAND AT COOKSVILLE FAIR
 Horse and Cattle Show Pronounced Best in Twenty-Five Years.

PROFITS TO RED CROSS
 George and Gordon Garners Are Pronounced Prize Twins.

More than 4000 people attended Cooksville Fall Fair held in that village yesterday and saw the best show of horses, cattle and sheep in 25 years. John Coulson of Cooksville and John Bleckham of Weston, expert judges on horses, pronounced the fair a record one. Stanley Gardhouse, Reeve Silverthorne, Ed. Cooke and C. Cunningham were the judges of cattle and Dr. W. H. Grove, who undertook the position of judge of the baby show, had a strenuous time in arriving at any decision. He finally awarded the first prize to a pair of twins, George and Gordon Garners of Etobicoke Township, with A. Colborne, second; L. Beatty, third; B. Stoddin, fourth, and Arnold Guttridge, fifth.

A large sum of money was realized for Red Cross work, the Cooksville Red Cross Society, Dixie Presbyterian Church and the Etobicoke Women's Institute disposing of a large amount of home-made cooking.

The open trot or pace was won by the following horses: Brown Fred 1, Little Billy 2, Halton Boy 3. The farmers' trot: Little Billy 1, Halton Boy 2, Brampton Girl 3.

There was a big program of athletic events. Ladies' race—Mrs. A. Callcott 1, Mrs. Jordan 2, Mrs. Brown 3.

In the ladies' driving, open, Miss Tiet won out, with Miss Speers of Edinburgh and Miss C. Speers 3.

Lady drivers, under 18—Miss Steen 1, Miss Wolfe 2, Miss Graham 3.

There was a wonderful display of honey, some of the exhibitors being: Messrs. Elliott of Silverthorne, Bunting of Cooksville, J. J. Stewart of Fort Credit, W. Price of Burnhamthorpe, and W. Constance of Brantia, who carried off most of the prizes.

DANFORTH
Express and Freight Campaign Committee Get Information

The chairman and members of the executive committee of the citizens' express and freight campaign visited the Danforth district last evening and secured much valuable information to place before the railway board at their sitting this morning. The following case of inconvenience was quoted by N. B. Cobble-dick, funeral director, 1508 Danforth avenue:

"The Canadian Express Company delivers goods to our Queen street office free of charge and Mr. Cobble-dick, to reach their destination they have to pass our Danforth office, which is a distance of one and a quarter miles. They do not, however, make any free deliveries until they reach the vicinity of Queen street."

YORK TOWNSHIP
STEP NEARER LIGHTING TOWNSHIP BY HYDRO
 Officials of Municipality and Commission Confer on Scheme.

Judged by yesterday's conference between the York Township Council and the members of the Hydro-Electricity Commission, there will be something doing very shortly in respect to the lighting up of the highways and byways out in the municipality within the next few weeks. Yesterday Reeve Griffith, Deputies Miller and Graliam, Assessment Commissioner Clarke and J. R. L. Starr had a heart-to-heart talk with Messrs. Pope, Gaby and Jeffries, representing the provincial commission. The meeting was called to strict attention to a number of knotty points that had arisen and on the part of the township to impress on the commission the fact that if the present delay in construction was likely to continue, other companies were willing to go ahead with the work. At the close it was stated that the conference had been wholly satisfactory and that everything was adjusted. A number of minor details remain to be arranged between the township and the Toronto Hydro Commission before the work of installing lights is really started.

In the afternoon, council had another long session, attended by the solicitor and the engineer, dealing with the waterworks question and got along so well that they authorized Frank Barber, the engineer, to call for tenders for the mains on Eglinton East, Weston road and Kungymede. Today they go over the proposed route of the Canadian Northern spur line between Duncan and the C.P.R.

AURORA
Major Petermann Reported In Cable Killed in Action

A cablegram received from Etobicoke yesterday conveyed the information that Major Petermann had been killed in action in France. The young soldier, who had enlisted as a private and risen to the rank of major, was formerly attached to the clerical staff of the Timiskaming and Northern Ontario Railway at Cobalt and was a great favorite with all.

Earlscourt Women Send Comforts to Boys at Front

A well attended meeting of the independent Women Workers' Association of Earlscourt was held last evening in Little's Hall, Ascot avenue, when a large number of parcels containing comforts were prepared and forwarded to the Earlscourt boys in the trenches.

Mrs. A. Harland, vice-president, occupied the chair. Several new members were enrolled.

MARKHAM
MARKHAM TOWNSHIP TO FIGHT DAMAGE CASE
 Goodyear Refuses to Accept Machine Which Went Thru Bridge—Wants Price of New One.

No settlement has yet been arranged between the township of Markham and William Goodyear, the thrasher whose engine went thru a bridge over the River Rouge a month ago. A couple of experts from the city who examined the damaged machine a day or two ago reported that \$60 spent in repairs would leave the engine in as good shape as before the accident.

Goodyear, on the other hand, on the advice of representatives from whom the machine was bought, refuses to accept the machine under any conditions, charging that it could not be made to stand the government test, and is operating another new one, and is said to be looking to the township to assume the onus of the purchase price. The township council have engaged H. H. Dewar, K.C., in any action that may arise, and have received an assurance that they can only be held responsible for the actual damage entailed.

WESTON
Consider Ways and Means To Raise Funds in Weston

The meeting of the ratepayers held Tuesday night at the instance of the Weston council to discuss ways and means to raise the necessary money for the British Red Cross Fund was not very well attended owing to other matters interfering. Under the circumstances it has been considered advisable to call another meeting to get a larger representation of the ratepayers. The opinion of those who attended the meeting was that the methods used last year could not be improved upon.

Many friends and relatives attended the funeral of John B. Eagle, a prominent afternoon from his late residence to St. Philip's Church and thence to St. Philip's Cemetery.

He was 63 years of age. Besides his wife, one daughter, Mrs. E. Aikens of New York, survives.

MARKHAM VILLAGE
Markham Water Supply Is Unexcelled in Canada

Markham Village Council have been utilizing the past few days to good advantage in cleaning out the reservoir, re-cementing some of the pipes and generally getting everything in good shape for winter. With the practical completion of the waterworks system, commenced last year, the town is said to have a supply unexcelled in Ontario. In the new reservoir, the capacity is 45,000 gallons, the elevated tank holds 25,000 gallons, and the gathering basin 25,000, in all 130,000 gallons.

In addition, it is said the town is the owner of another spring up at Ramera, with a capacity half as great as the supply already assured. The fact that another flowing well was lately struck at Mt. Joy School seems to indicate that the district is honeycombed with artesian springs.

EARLSCOURT
The British Imperial Rifle Association Opens Season

The winter activities of the British Imperial Rifle Association opened last evening at Earlscourt School playground under the command of Captain H. Illissey, whose squad drills and general work were creditably performed by the members, who mustered in large numbers.

Arrangements were completed for a shooting competition between the association and Lambton Rifle Club on the latter's grounds at Lambton, at an early date.

GERMANY CRYING FOR WAR MATERIAL

(Continued from Page One).

They should avoid sunken roads and natural cover, as the British with their plentiful gunfire are sure to have these points registered by their guns and turn loose on them immediately an attack starts. Gen. Von Arnim emphasizes the value of the steel helmets, which the French first introduced, and with which the Germans are not yet fully supplied.

As an idea of the amount of ammunition such battle conditions as those of the Somme require, Gen. Von Arnim says that a battery of four field guns should have 2,200 rounds at the battery itself, aside from its reserve supply.

Indeed, Gen. Von Arnim's cry is for more guns, aeroplanes and ammunition—everything except food.

Canadian Appointments Are Officially Confirmed

Special Cable to The Toronto World, London, Oct. 4.—The following appointments have been officially confirmed:

Armed: Col. A. D. Macrae to be acting overseas deputy minister of militia and defence; Brigadier Leckie, acting chief of the general staff; Col. F. Laid, acting adjutant-general; Col. W. J. Neill, acting quartermaster-general during the absence of Col. Murphy, and Major Byron Green, acting director of personal services.

JURY HOPELESSLY LOST ON C. H. CAWTHORPE CASE

Member for Biggar, Sask., Charged With Bribery, Will Be Heard at Next Court.

Regina, Sask., Oct. 4.—After being out a little over an hour a supreme court jury tonight notified the court that it was hopelessly disagreed as to the guilt or innocence of C. H. Cawthorpe, M.L.A., Biggar, charged with having accepted a bribe from liquor men for his influence in connection with the banish the bar bill of 1914. The jury asked to be relieved. Judge Newlands thereupon discharged them, and suggested that as this was the second time during the sittings that a jury had failed to reach a conclusion, the case might go over to the next court. This accordingly was done.

The same evidence was given today as at the previous hearings. The case was replete with legal argument and objections. Cawthorpe gave evidence in his own behalf, emphatically denying that he had received money in the shape of a bribe at any time.

IGNORANCE RETARDS PROGRESS OF NORTH

Well Known Mining Man Presents "Horseshoes" in Sale of Prospects.

UNENVIABLE REPUTATION

Has Sold for Small Figure Several Properties Subsequently Big Mines.

Sam J. Dobie is one of our best known mining men. He is active in the new districts and as a rule comes away with substantial interests in promising properties.

The Ontario Government paid \$10,000 for a chunk of ore the dimensions of which were not greater than an ordinary pumpkin.

The ore acquired by the government was shown in a safe at the Toronto National Exhibition in Toronto.

Before this old world had all been missed over, and about the middle of the last century, a gold mine worth \$46,000 was found in "Florida" in Australia.

In his report on the Hollinger Consolidated, Mr. P. A. Robbins says that the results of the assay probably the result of local enrichment from the concentration of surrounding values.

But a single test of that kind would scarcely be sufficient to establish his reputation as the best man to buy from in the whole of northern Ontario.

These discoveries are quite apart from the vein on which proceeding or the Davidson. On that vein there was also a fine surface showing.

Some of the samples from the Davidson show gold taking up a large part of the cubes of decomposed pyrite.

Mr. Dobie is a very good fellow, kind, alert, straightforward, and it can hardly be said that he is in the mining game merely for the benefit of his health.

But the great gold regions of the north are living and growing, notwithstanding all adverse conditions.

ENGINEER'S REPORT ON NEWRAY CONVINCING

This Property Going to Be One of Big Producers of Camp, Says Statement.

Following is the copy of a report made by a special mining engineer for a syndicate of American financial men on the Newray and Lorrain Consolidated mines.

I have your letter asking me to furnish you with a private report of the Newray, following a personal examination of the property.

The ore acquired by the government was shown in a safe at the Toronto National Exhibition in Toronto.

Before this old world had all been missed over, and about the middle of the last century, a gold mine worth \$46,000 was found in "Florida" in Australia.

In his report on the Hollinger Consolidated, Mr. P. A. Robbins says that the results of the assay probably the result of local enrichment from the concentration of surrounding values.

But a single test of that kind would scarcely be sufficient to establish his reputation as the best man to buy from in the whole of northern Ontario.

These discoveries are quite apart from the vein on which proceeding or the Davidson. On that vein there was also a fine surface showing.

Some of the samples from the Davidson show gold taking up a large part of the cubes of decomposed pyrite.

Mr. Dobie is a very good fellow, kind, alert, straightforward, and it can hardly be said that he is in the mining game merely for the benefit of his health.

DAVIDSON PROPERTY LOOKS PROMISING

Quantity of Good Milling Ore Accumulated on the Dump.

J. C. Sutherland & Co. say the following on Davidson in their market letter.

Further work on the new surface discovery on this property has demonstrated conclusively that the strike is one of the richest ever made in the Porcupine camp.

This find does not mean the location of a new vein, but is a surface strike of unusual enrichment on the main vein about 400 feet to the north of the shaft.

A considerable quantity of splendid milling ore has accumulated on the dump and by next spring it is probable that the company will attain a basis of profitable production.

TECK-HUGHES MILL WAITING FOR POWER

By Special Correspondent. Kirkland Lake Oct. 4.—A connection, 700 feet long, on the 200-foot level of Teck-Hughes is almost complete.

The connection is from No. 3 shaft, which is down 275 feet, and No. 1 shaft, down 200 feet, and will be a haulage way from No. 3, in the region of which exists most of the ore proven by assay to be high-grade milling.

Teck-Hughes has a 60-ton mill, which has been ready for operation since about May last.

No work has as yet been given out as to what Teck-Hughes mill heads are likely to be. It is probable that the mill will be put in operation by the end of the month.

CONSOLIDATION FORMED OF MINING PROPERTIES

Official announcement has been made of the consolidation of the Jackson and Jackson interests of Buffalo, which comprise in the neighborhood of fifty properties in Porcupine, Kirkland Lake, and other districts.

Calumet and Montana Now in Gold Property

Negotiations are now under way and, according to reports from Toronto, are practically completed for the taking over of the Murray-Mogridge property at Burkes Station by the Calumet and Montana Consolidated.

Mining Notes

Kirkland Lake, Oct. 2.—The Sylvanite, adjoining the Tough-Oakes on the west, is becoming increasingly busy.

TO BE INCORPORATED. Kirkland Lake, Oct. 4.—The Townships of Label and Teck, which contain most of the mines and good claims of Kirkland Lake, are to be incorporated this winter.

Kirkland Lake, Oct. 4.—Another Cobalt company has been attracted to the district. The La Rose has taken an option on the two Hard claims, a mile and a half south of the Tough-Oakes mine.

Dome Production

The production of Dome Mines during September fell slightly below the record of August, the return being \$179,530.

THE PARIS BOURSE.

Table with columns: High, Low, Cl. Sale. Rows for Apex, Boston Ex., Boston Creek, Hull Reef, etc.

MINING MEN

Between West Shining Tree Gold Camp and Nipigon (460 miles) several mining belts cross our steel.

Government Endorsement

The percentage of increase in the mine output from Porcupine and Cobalt, as shown in the official report issued recently by Ontario, is the highest to be expected in the securities of the producing gold and silver mines.

MINES ERRATIC WITH SOME WEAKNESS SHOWN

A Few Issues Displayed Strength, Including Dome Lake, Vac. Gas, Newray, Davidson.

The more active than on the previous day, the mining market at the Standard Exchange yesterday, displayed an erratic tendency and with the exception of three or four issues the trend was easier.

With the producing companies of both Porcupine and Cobalt increasing their output, with silver at the present price and many new and old properties rapidly nearing the producing stage, there seems to be room for doubt or pessimism, as to the future of the north country camps.

Dome Lake was a strong feature of the afternoon trading, opening at 89 and selling up a point to 90.

A good demand for Great Northern mining stock, presumably on the strength of a report that a zinc property in Missouri in which Great Northern has a half interest has made a valuable strike.

MARK HARRIS ON MINES and MINING

Last week the directors of Newray Mine received a telegram from Manager Charlebois, notifying them that they had just made a third big find, which was located between the Hanson and Anchor veins.

The market is a peculiar institution at times, and no one can anticipate what it will or will not do on receipt of important news; but in the end the market is usually influenced by the intrinsic worth of a property.

When I paid my last visit to the property, a few weeks ago, I asked Manager Charlebois what his future plans were, and he promptly told me he intended to continue his surface work until cold weather sets in.

He told me that also that he had uncovered two very large veins, either of which was of more importance than the "lost" vein, which produced over \$200,000 in the early days.

His wisdom in following this course has been more than justified by this latest "find," and now, when he crosses from the 200-foot level, he will have three big veins to uncover instead of two.

It will not take very long to cut these three veins at depth when crosscutting is once started, as the shaft is already down 425 feet, with stations finished at the 200, 300 and 400-foot levels.

As you may not fully realize what the cutting on the 200-foot level of these three veins means, I wish to explain that, with this accomplished fact, Newray will be one of the most important properties in Porcupine.

The mill is standing there idle today, but Manager Charlebois does not wish to start it up until these veins are cut at depth, and then, once started, it will continue indefinitely.

I am sure none of my clients ever had a better opportunity to invest money than is now offered by Newray, and I urge upon everyone who has purchased to put his stock away, and to hold it until the mill is grinding out the gold.

Big producing gold mines are not made in a day; but when once made they represent the best and safest investment in the world.

Manager Charlebois is making a mine out of Newray, and those who have the courage to purchase the stock, and hold on to it, are the ones that will win the rich rewards.

I have told you before, and I gladly reiterate, that in all my fifteen years of mining I have never examined such a meritorious property as Newray, and I honestly believe it will not only develop into a producer, but into one of the big producers of that district.

A big producer in the Porcupine district would be valued at anywhere from \$5,000,000 upwards, and as the total capital of Newray is only \$1,000,000, you can see what it means to you as a stockholder when the big veins are cut.

This work will start just as soon as the weather forces the men to stop surface work, and as Porcupine is far up north this may come any day.

If you are not a stockholder in Newray, I would like to see you purchase the stock today and thereby become one; and if you are a stockholder, I would like to see you increase your holdings, for I am thoroughly convinced in my own mind that the purchase of Newray around present prices offers wonderful possibilities of future profits.

Mark Harris

RAILWAY SHARES KEEP PROMINENT

This Group Far Outdistances Others on New York Exchange. PAPER MAKES GAINS Transactions Continue to Exceed Million Share Mark by Margin.

New York, Oct. 4.—The significant feature of today's trading in which the turnover again exceeded 1,000,000 shares by a comfortable margin, was the prominence of the railroad group. These shares far outdistanced all other issues as to combined activity and extent of gains and imparted a foundation of solidity that occasionally was lacking in other parts of the list. Additional statements of earnings furnished the motive power in elevating the railway shares, many making best prices of the year or since the outbreak of the war, while Norfolk and Western surpassed all its previous quotations on an advance of 1-2 points. Other notably strong rails included Union Pacific, which responded to its remarkable report for the fiscal year, New York Central, whose earnings for the same period are estimated at no less than 20 per cent. Louisville & Nashville, which earned almost 18 per cent, against \$8.87 in the previous year and St. Paul, Illinois Central and half a score of subsidiary or minor lines. In all issues, gains extended from 1 to 3 points, with nominal recessions at the close. Industrials, equipments, munitions, coppers and motors moved irregularly with further substantial gains in the paper shares, American Lined, common and preferred, Central Leather and Hide and Leather, preferred, at the new record of 75-7-8. Sugars also supplemented recent advances on reports of heavy sales to foreign interests and the shares of the several express companies rose 3 to 4 points. United States Steel, which again the individual leader, exerted little influence marketwise, ranging between 117 and 118 1-4 and closing at 117 5-8, a net gain of the smallest fraction. A related issue moved in narrow limits and finished with losses of small fractions to almost a point. Total sales amounted to 1,125,000 shares.

DOM. STEEL STRONG WITH SHARES REBOUND

Price Rallies Three Points From Recent Decline—Brazilian Weak on Liquidation. While the Toronto Stock Market evinces some irregularity, there is sufficient buying power to force advances on reasonable reactions. This was plainly evidenced yesterday in the rebound of Dominion Steel to 67, after selling the previous day to 63-4, a speculative profit-taking is responsible for the decline and the rebound taken at intervals, the technical position of the market is certainly improved. A lot of orders came into the market yesterday for Dominion Steel, but after the execution of a few orders at 64-3-4, the price advanced over a point and the filling of a few Montreal orders again raised the price to 67. This was the strong stock trading of the day's trading, but strength was also exhibited in Cement and the Spanish River issues. Liquidation in Brazilian stocks was continued, with the price of 55-3-8 touched. There seems no foundation for the rumor that the dividend is to be passed, but the selling has created the impression that something is impending. The price of the Ralls was also heavy, with the stock offered at 89 1-2. Other issues dealt in made no noteworthy change, and the dealings were generally light. The listed issues the new war loan was strong at a fractional premium on the issue price.

THE KIND OF LISTING THAT AMERICANS LIKE

As an indication of the temper of the mind of the American investor and speculator for Canadian securities and the following from the New York Financial World shows the matter with truly condensed approval. "In the listing of Nova Scotia Steel stock on the New York Stock Exchange, we confront another invasion. It is in a sort that is always welcome, we can stand it." Heron & Co. had the following at the close: Montreal, Oct. 4.—The paper stocks were again the most popular, today Wagnack touched a new high and Spanish common and preferred sold up on a brisk demand. In the late trading iron sold up to 67, and the buying was generally attributed to New York account. Brazil was heavy but stock was taken in the decline. The market had a good tone all thru and only one stock after another will continue to be moved up in turn.

NINETEEN ZEP RAIDERS DEAD

London, Oct. 4.—Official evidence presented at the inquest into the death of the members of the German crew of the zeppelin which was destroyed near Potter's Bar on the night of October 1 showed that nineteen bodies were recovered. The jury's verdict was that death had been caused by injuries received while traveling in a hostile airship which was brought down by the anti-aircraft organization.

WHEAT ADVANCES SEVERAL POINTS

Lack of Rain in Argentina Again Elevates Chicago Market. HOLLAND CHIEF BUYER British Government Makes No Heavy Purchases for Export.

Chicago, Oct. 4.—Export buying, which was said to be on a large scale helped to elevate the wheat market today to new high record prices for 1916, and so, too, did denials of rumors that rain had fallen in Argentina. The close was strong at 5-8 to 1-8-0 net advance with December at \$1.59 1-2 to \$1.59 3-4 and May at \$1.58 1-2. Corn gained 1-4 to 7-8, oats 1-8 and provisions 17 to 16.2. A noticeable tendency to ease owing to prevalent opinions that the bullish effect of the Argentine drought had been discounted enough, especially as some authorities expressed hope of a change soon in the weather conditions, and as rumors were current that rain had already fallen at certain places where needed. There were also intimations from British sources that measures were being taken to enlarge shipments from Australia. On the ensuing decline, however, indications pointed to a resumption of buying for Europe, and it was shown by late despatches that the reports of rain in the Argentina drought region were without any good basis. Substantial gains in the last half of the session replaced accordingly the earlier losses of wheat values and left the market in the end at virtual-ly the highest prices yet this season. Export business was finally announced as totalling 800,000 bushels, largely for Holland. Assertions of heavy buying for the British Government were officially denied. Corn, as well as wheat, was bullish-ly affected by export demand. The big shipments of corn from here of late were generally regarded as significant. Oats reflected the strength of other grain, but only to a slight extent. Liberal receipts formed more or less of an offset. A squeeze of shorts in October pork tended to lift the provision market as a whole. At one time the coveted option was bid up nearly \$2 a barrel, but it did not appear that any large transaction were involved.

CHANCELLOR HAS MANY ENEMIES IN REICHTAG Campaign Against Him Assuming Tangible Form—Circular Demands His Retirement. Berlin, Oct. 4.—The campaign against Chancellor Von Bethmann-Hollweg is daily assuming a more tangible form. One of the latest developments is a circular demanding the retirement of the Chancellor, which has been sent by a vociferous group of his opponents to such members of the Reichstag as are considered open to arguments. The indictment covers almost everything in the Chancellor's conduct of foreign affairs before and during the war. Attacks are made in particular on his attempts to reach an agreement with England, his first attitude toward Belgian neutrality and his policy in the submarine issue. Meanwhile the Chancellor and the Reichstag leaders continue to discuss the points at issue behind closed doors. It is being no longer held before the full committee on ways and means, to which all members of the Reichstag are admitted as auditors, but in a smaller select committee of party leaders, who are specially bound to secrecy. Such reports are leak out say that while the antagonism between the Chancellor and his opponents has not disappeared, the discussion is now being conducted on the basis of reason and not of passion.
