Russian Gunners, Suffering From Cold, Wept With Despair at Impotence to Hammer Down Japanese Defences.

Russian Headquarters, Huan Mountain, Feb. 1.—The five days' combat, which will be known as the battle of the Hun River, was fought on a plain broken up by Southern Manchurian Mountains, around Fentai, the solitary eminence of bloody memory.

The bright glare of the sun, reflected from a dazzling expanse of snow, was painful to the eyes, and it was with difficulty that one could follow here and there black streaks marking the Russian columns, or wavering skirmish lines dashing against what resembled dull grey rocks, but which, in reality, were the Villages of Lidia and Tanepu, and the extensive hamlets of Sandepas, battered by the nose defences, and converted by the Japanese into veritable fortresses, surrounded with wire entanglements and earthworks.

YAMA REPORTS.

Russians Repulsed on Every Hand up to Jan. 31.

Tokio, Feb. 1.—Field Marshal Oyama, reporting yesterday, says that the Russians bombarded his centre and right wings on Jan. 29, and that the Japanese of infantry to attack the Japanese outposts where they were repulsed.

On the same day heavy Russian gunners shelled Piyental and Chenchiepao, on Jan. 31, the Japanese repulsed the attack on Chenchiepao, Lapai and Litajenta and two companies of infantry attacked Chenchiepao, advancing to the south end of Piyental.

RUSSIANS AT SANDEPAS.

Artillery Set Fire to the Town on Jan. 30.

St. Petersburg, Feb. 1.—Gen. Kuropatkin, telegraphing under date of Jan. 30, says Sandepas was that day set on fire by the Russian artillery.

In a telegram dated Jan. 31, the commander-in-chief reports a number of minor attacks on the Japanese outposts, villages and passes already reported.

From the reports of the general staff, it is not clear yet whether the fighting on the Hun River is ended. The Russians continue the bombardment of Sandepas and apparently a strong force of Russians is between Sandepas and Shikpu, to check the Japanese, who seem to be trying to use their forming movement across the Hun River.

Plan Milk Pipe Lines.

Carlisle, Pa., Feb. 1.—A. G. Miller of Carlisle, counsel for the Pennsylvania Farmers' Condensing Company, which has lately bought three large dairies near here, and built a big experiment plant at Shippenburg, stated in argument before the quarter sessions court here to-day that if his clients were not disturbed by petty suits their plan was to establish pipe lines running to certain large cities, thru which the daily supply of milk from the rural districts would be forced to metropolitan consumers, in a manner similar to the present method of pumping out over long lines.

SIR WILFRID LAURIER MADE AN OFFER TO DEFEAT MR. CHAMBERLAIN.

If Colonial Proposition is Refused Sympathy Likely to Be Sought Elsewhere.

(Canadian Associated Press Cable.) London, Feb. 1.—Mr. Chamberlain, speaking at Gainsborough, urged upon his audience the desirability of thinking imperially without reference to antiquated conditions of the British Empire.

Referring to the colonial support in the late war, he said for the first time it made possible an organized union of all the different parts of the British Empire. He said that the British Empire was won by sacrifice and can only be maintained by sacrifices.

Roosevelt for the People Asking Nation to Back Him.

In Crusade Against the Railways and Packers' Trust He Takes the Side of the Individual.

Washington, Feb. 1.—Washington awoke to-day to a realization that there is a serious conflict on between the president and congress, and that the president has decided to force the fighting. His speech on the subject of Union League, at Philadelphia, last night, is accepted as an appeal to the country for help.

FOR THE PEOPLE.

Men who care to think will have much food for thought in the stand President Roosevelt is taking at present for the individual. He has recently announced himself as in favor of government control of railway rates.

Show No Mercy.

"Put some of the packers in jail if there is any way by which you can prove that they have violated and are violating the law," is the order the president issued to Attorney-General Moody after the cabinet meeting yesterday, when they discussed the supreme court decision against the beef trust.

CZAR PROMISING REFORMS PRODUCES QUIETING EFFECT.

The Imperial Family Grants \$25,000 to Aid the Families of Victims of Conflict.

St. Petersburg, Feb. 2.—Personal assurances of his intention to ameliorate the conditions and remove the causes, in so far as they are economic, which led to the recent strike trouble, was given by Emperor Nicholas yesterday to a deputation of workmen representing all the leading factories of St. Petersburg.

This interview, face to face with their "Little Father," in whom their faith has not been shaken by the events of the bloody Sunday of Jan. 22, had a far greater and more reassuring effect than any number of promises by ministers and government officials.

Like a wave caused by the falling of a stone, the strike movement, however, is spreading over the great sea of Russian industrial life; and while St. Petersburg and Moscow, where the troubles began, are now placid, the workmen of Poland and other provinces are not yet calm, and the ripple has reached to far off Irkutsk and other Siberian towns.

REFER TO FINANCE MINISTER.

Manufacturers Refuse to Treat With Men Until They Go to Work.

St. Petersburg, Feb. 1.—The association of St. Petersburg Manufacturers has adopted the following resolutions: First—All points of the men's demands concerning the eight hours per day, participation in the profit, etc., shall not be discussed, but submitted to the minister of finance with a view to their settlement legislatively.

Second—Regarding the demands advanced at the different works, discussion is inadvisable till the men have returned to work. Third—Recognizing that the men were drawn into the movement by other than economic causes, the association unanimously voted that no mutual bitterness exists, and has therefore decided to meet the workmen and to apply the endeavor to discover the instigators and leaders of the strike, and to employ special measures against them, and to collect funds for the support of the families of the strikers.

Fourth—The association, in order not to create a precedent by paying workmen for the time they have been engaged in the strike, will grant assistance only in the necessities which need not be repaid.

VALLENS NUMBERS BALLOTS AND TROUBLE GROWS UP

Judgment in Wentworth Election Protest Trial Reserved by the Learned Judges.

Hamilton, Feb. 1.—(Special.)—Should the ballots that were numbered on the back by Deputy Returning Officer Valen be counted or not is the problem on which Chief Justice Meredith and Justice Tostel will sleep for an indefinite period.

W. O. Sealey was elected for the house of commons for Wentworth at the recent federal elections by a majority of 15 E. D. Smith, his Conservative opponent, applied for a recount, which was conducted by Judge Smead.

Judge Smead then declared Smith elected. Mr. Sealey entered a protest, and by agreement it was arranged that the question of the numbered ballots was to be submitted to the court.

St. Petersburg, Feb. 1.—Tolstoy in an interview says: "The news from St. Petersburg is shocking, but I have not received a full account of the awful events."

"I have been inundated with telegrams from newspapers and individuals all over the world requesting an expression of my views on these events. It is impossible to give an adequate answer to such an important question in a few words."

"Furthermore, I have at different times expressed my views on such questions as of people trying by force to better their condition."

"Under the influence of recent events I have made sundry notes which will later serve as the basis of a comprehensive article on the subject. The tenor of these notes is this: "All governments, whether monarchic, constitutional or republican, are nothing more than organized institutions which themselves being immune from punishment, have the power to punish others, to plunder and to rob."

"Neither the working classes nor the intelligent classes of Russia, are true exponents of the real desires and needs of the people."

"The program which they submit to the government is not the program of the people. These elementary measures which they demand of the government—such as freedom of opinion, freedom of speech and freedom of conscience, etc., the essential conditions for a life of culture, do not touch the problem of the crying need of the people which lies solely in the nationalization and communism of land."

"On this point neither the working men nor the educated classes raise the cry, nor do we hear any such cry from the people of other lands, despite the apparent freedom of those countries. In other countries there exists the so-called independent press, but its independence is only apparent."

"All Rights With Individual." "We have only to observe the fate which attended the plan advocated by Henry George for the nationalization of land."

"The only possibility of a change in the general policy of civilization lies in perfecting the individual morally and religiously. Then thru the development of the individual, thru moral improvement, thru inoculation of real respect for others, thru hatred of force, cruelty and injustice will disappear."

BULL OFFICIALS

Col. Salloway, Veteran of Civil War, Has Little Food and No Bed.

War, he sung, is full and trouble; Honor, but an empty bubble. In a dark, musty room on the third floor of a shabby office building on Sixth avenue, lies Col. W. A. Salloway, 52 years old, a veteran of the civil war, suffering from under. Under his pillow are personal letters to him from Secretary and Secretaries of the War Department.

Nothing to do. Nothing to do. The doctor says, "You must do something, or you will die." In eight thousand communities in more than 100 countries, there is a man who is suffering from the same disease as Col. Salloway. He is a man who is suffering from the same disease as Col. Salloway. He is a man who is suffering from the same disease as Col. Salloway.

Had Liberal Training. In the shadow of a man from North Church Street, from whose belfry tower Paul Revere hung his signal on the night of his famous ride, Col. Salloway was born. Until he was 12 years old he worked on a farm and attended public school. He then learned printing, and also studied locomotive building.

Saved President Lincoln. A Confederate battery on the Virginia shore opened fire to sink the boat. Col. Salloway lowered a boat and rowed President Lincoln to a place of safety. A few days later Mr. Salloway received a letter from Secretary Stanton which he still cherishes so highly. "You should be proud and not wishing to enter soldier's home because that would mean separation from his wife, he asks for a chance to earn an honest living."

REGINA COURSE AT ISLAND AND MORE PARK PROPOSALS

Provided Discussion for Two Committees—Salary Increase for Dr. Sheard—Radials.

The proposition for an island regatta course was discussed at length by the island committee yesterday.

Robertson, McKay, J. G. Merrick and "Bush" Thompson appearing to push the interests of aquatic sports, however, was referred back to the city engineer, with instructions to report on the best course, the acreage of new land that would be created and the cost of the work.

The committee decided against hiring any outside expert.

Mr. Merrick said the course proposed would run thru 800 feet of land now covered by water, thru 75 feet of the island Park and thru 625 of the other land not now used for park purposes.

There would be work for five sand pumps in the city for 15 years to create the course and 300 feet wide and the course would be made at least eight feet deep and would be encouraged in every way.

It is clear enough that the pioneer work, both in agricultural and industrial development, will be done largely by emigrant labor.

Some interesting questions were discussed at the meeting of the Associated Charities of the city on Tuesday.

With the main object of the resolution which was adopted there will be general agreement. It is highly desirable that all immigrants coming to Canada should be strictly examined and rejected if their admission would tend to lower the moral and physical wellbeing of the Dominion.

While the terms of the resolution are unexceptionable, the same favorable comment cannot be made upon some of the views expressed at the meeting.

No doubt it would be highly desirable if immigration into Canada could be limited to first-class workmen and skilled agricultural laborers, but everyone knows that if it were the country would wait a long time for that considerable increase in the population which its growing necessities require.

First-class workmen are as much needed in Britain and other great industrial centres as they are in Canada or the United States, and command the same prices there as much as here.

On the other hand, British agricultural laborers, the poorly paid, are in the meantime less given to emigration than any other class of the community, and if they move at all as a rule gravitate towards the cities.

The scarcity of labor for agricultural purposes is a constant cry in England, as the many attempts made to get the unskilled city laborer "back to the land" sufficiently testify.

Canada at the present moment cannot afford to refuse any well behaved well conditioned emigrant who lands upon our shores desirous of making his way in a rapidly developing country and willing to work in any honest avocation.

The future of Canada does not lie exclusively in the wheat fields of the central provinces. No reasonable and unbiased observer can doubt that with her enormous mineral wealth Canada is destined to be the home of many industries, and that a place will be found in her social economy for all kinds of labor.

Notwithstanding the occasional complaints of disgruntled individuals who, from want of energy or application or natural unsuitability for the rough-and-tumble ways and methods of a young and democratic community, are a fact that Canada at the present moment is absorbing and assimilating all sorts and conditions of men.

Unless, indeed, she can do this and weld them into the mass of her nationhood who will stand a poor chance of reaching the goal which is looming ever more clearly before her eyes.

Thousands of young men have found from which a crucifix has just been erected at the entry of the village of Castle Bellingham, County Louth, Ireland, to which you make reference in your issue of the 26th inst, permit me to say, that when a small boy—I think it was in the winter of 1867—I happened to be present at a social entertainment given by the Orange body at which Col. Lawrence Hall, Toronto, at which Col. Sydney Bellingham, then member for Argenteuil in the legislative assembly for the Province of Canada, was one of the speakers.

Col. Bellingham was as a son of the second baronet and, if I may venture to say, would be an uncle of the present holder of the title. He was a member of the Orange body and, as a member of the Orange body, he was a member of the Orange body.

He was a member of the Orange body and, as a member of the Orange body, he was a member of the Orange body.

THE EQUITY'S FINE SUCCESS.

It is something for a company to go thru a liquidation and not lose a cent.

Whatever may be said concerning the disaster which befell most of the insurance companies in Ontario during the past year, it is small progress for a company to have gained in business in the face of such a disaster.

The Equity Fire Insurance Company, which has been in business in Ontario since 1850, has not only maintained its reputation, but has added to its strength in spite of the Toronto conflagration.

Its business is large, as pointed out, is worthy of note, as the president remarks, that out of over \$15,000,000 of business done in 1904, \$1,000,000 remained unpaid at the close of the year, and those because they were not paid.

MAKE EXPLOSIVES HERE TO GET FROST-GLASS KIND

Sir Frederick Borden Falls in Line With the Idea Suggested by Col. Fowler.

Ottawa, Feb. 1.—(Special.)—Militia estimates were under discussion in the house to-night.

On the appropriation of \$500,000 for annual drill, Dr. Worthington asked of the location of the camps would be changed this year.

The minister replied that he considered it desirable that as far as possible the camps should be held at the same place.

Col. Fowler asked if it was the intention of the government to establish another arsenal.

Sir Frederick Borden replied that such was the intention, and he hoped before the end of the session to supply further information and perhaps a contract.

It was desirable that ammunition should be manufactured at more than one place, and that one place should be in the vicinity of Ottawa. All explosives, however, should be manufactured in Canada.

Col. Fowler suggested that the government should manufacture all ammunition which would ensure a first-class arsenal, which would ensure a first-class arsenal.

The minister thought this a good time to encourage private capital, especially in the manufacture of explosives, and the railway building that is going on in Canada would provide a good market.

Col. Fowler stated that at a later stage he would ask for information as to the he would ask for information as to the he would ask for information as to the

JAMES WANTED TO RESIGN BUT WAS NOT ALLOWED TO

Now an Action Against Him in the High Court Has Been Instituted.

Bowmanville, Feb. 1.—Proceedings are being taken in the name of Thomas Percy, blacksmith, to unseat M. A. James in the town council on the ground that at the last session of the 1904 council he presented an account for some corporation advertising and stationery used in his office as many in the name of the Satesman Printing Publishing establishment.

The case is to be argued in the high court of justice at Osgoode Hall, Toronto, on Tuesday next.

It is claimed that as the ex-mayor had been nominated for councillor five days before the town council was held, that he was disqualified thereby and could not legally take the seat.

William Brock, attorney at law, who resigned on Saturday and a new election has been ordered to fill the vacancy, but Mr. James' resignation, which was not accepted on Monday following the case is to be argued in the high court of justice at Osgoode Hall, Toronto, on Tuesday next.

FATAL SLEIGH PARTY SEVEN MEN KEEPT DEATH

Engine and Passenger Train Crashes Into Sleigh With Deadly Results.

Hornellville, N.Y., Feb. 1.—A passenger train on the Pittsburg, Shawmut and Northern Railroad to-night crashed into a sleigh containing a party of thirteen women, killing seven outright, and so seriously injuring the remaining six that two of them died after being removed to the hospital. Of the other four, two are in a serious condition. The accident occurred near Arisport, early this evening. The sleigh was one of the sleighs carrying a party from the Universalist Church of this city. The dead: Mrs. Mary Gillette, Mrs. Charles Thomas, Mrs. Eugene Shaw, Mrs. Joseph Hallitt, Mrs. C. G. Graves, Mrs. Bert Moore, Mrs. Ruth Patchon, Mrs. S. Coats, Mrs. Green. The wounded: Mrs. Boughton, Mrs. F. R. Rowley, Mrs. Deed, Mrs. Wallace, Mrs. Clark. The members of the Ladies Aid Society of the Universalist Church went to the sleigh farm house, near Arisport, to spend the afternoon. It was nearly dark when they started to return to the city. The occupants of the sleigh were directly across the railroad track. The pilot of the engine struck the sleigh with terrific force, pushing it to splinters and hurling the women in all directions. Every woman on the sleigh was killed or injured. The other members of the party hurried back to the assistance of their unfortunate companions and the train was stopped and backed up to the crossing. The sight was appalling. It seemed impossible that any of the bodies lying along the track could be recovered. The bodies of the women had received mortal wounds for a distance of 100 yards and great numbers of splinters were placed in the snow to tell plainly that some of the women had received mortal wounds. The bodies of the dead were placed upon the train and the injured were tenderly laid upon improvised cots in the baggage car.

STAND BY CUMULATIVE VOTING.

Labor Men Censure Aldermanic Opposition—'Withdrawal.'

At the meeting of the executive of the District Trades and Labor Council, preparing for to-night's meeting, a report was drawn up with regard to cumulative voting. This system was introduced into Toronto by the Trades and Labor Council, and the present agitation in the city council to do away with it has aroused the indignation of the labor men. The report recommends that concerted action be taken against any alderman who opposes its continuance. The report will be dealt with to-night. The action of the Painters' and Decorators' Union in trying to break the cumulative voting system, and the fact that the Trades and Labor Council, and go back to old principles, which were in force before the union was formed, is a deal of comment in labor circles. They want a building trades council because they claim that they have received no benefit from the section plan which now holds. The building trades council, they say, are not as well attended as the Building Trades Council was, and furthermore, they are not enforcing the working card as it should. A few weeks ago, they withdrew their delegates from the council, and since that time the unions in the building trades are not favorably impressed, and some recently resigned. James Simpson of the Labor Temple will confer with the officers of the various local unions on Saturday evening, and will present to them a scheme by which the total indebtedness of the Labor Temple may be wiped.

PREFERRING SALMON NAMES MAKES RECESSIONS

Desires to Have All Documents Relating to the Dismissal of the Government Servant.

Ottawa, Feb. 1.—(Special.)—H. B. Ames, member for St. Ontario division, Montreal, made his maiden speech in the house to-day, dealing logically and forcefully with the dismissal of Capt. Salmon, former wreck commissioner in the department of marine and fisheries, or any other official of the department and Capt. Salmon in the matter of the Canadian Cape Breton investigation, and the resignation of Capt. Salmon from his position as wreck commissioner. Mr. Ames had his case well prepared, and submitted it to the house with commendable brevity and directness. He stated that he had been asked to investigate the accident, and of course his duty opening of a court of inquiry under order from the department of marine and fisheries. Counsel for the Richelieu and Ontario Navigation Company declined to appear before the court, and Capt. Salmon went ahead with the examination of the crews of the two boats. On Sept. 26 he announced that he would shortly render a decision. On Oct. 5 he gave judgment placing the responsibility where he thought it belonged, and at the same time tendered his resignation and gave his reasons therefor. His resignation was the result of certain things which took place between Sept. 25, the day of the announcement that a decision would be shortly rendered, and Oct. 5, the date of his resignation. He stated that Capt. Salmon made the direct charge that he had been tampered with, and restrained in the execution of his duty by the department of marine and fisheries. On Sept. 25 the Richelieu and Ontario Navigation Company tendered a resignation, and on Sept. 26 the Richelieu and Ontario Navigation Company tendered a resignation, and on Sept. 26 the Richelieu and Ontario Navigation Company tendered a resignation. He stated that he was asked by the department of marine and fisheries what his probable verdict would be, and was further told that it might be advised to tender his resignation. This, in effect, was the case stated by the department of marine and fisheries. He stated that he was asked by the department of marine and fisheries what his probable verdict would be, and was further told that it might be advised to tender his resignation. This, in effect, was the case stated by the department of marine and fisheries.

CURIOUS MAIL BAG.

Letters From Lone St. Hilda Planted to Mainland in Loon.

Glasgow, Feb. 1.—The lonely island of St. Kilda, sixty miles from the nearest land, corresponds but seldom with the mainland, and that by a most remarkable method. Such a gale prevailed on Jan. 8, and with thoughts of the New Year in their minds the inhabitants resolved to send off their annual mail. A few many letters were entrusted to the keeping of a strange little craft it is impossible to describe, but half a dozen of them have arrived in Glasgow, bearing the postmark of Jan. 11. The story of the boat's career can hardly be imagined. Floating in the open sea it arrived through the agency of the gale on the shores of Lewis within two days of its launching, having come sixty miles. It was picked up by a Lewis man, who conveyed to Stornoway, where there is a civilized postoffice. In the mail boat was found money, and the letters were despatched from Stornoway post office by the 8.45 pm. post on Jan. 11. These letters, which were directed to Glasgow were delivered on Saturday, Jan. 13th. The postmaster who sells in Glasgow and London the two weeks by the St. Kilda islanders received half a dozen letters. They are said with the breeze of the Western Ocean, and are at times scarcely legible. Brief and to the point, they are the simple lives and thoughts of the sixteen families in whose ears the roar of the sea is ever present. One of the letters reads as follows: "Very few of the trawlers have visited us this year, owing to the bad weather. I wish we could hear how you are all getting on the mainland, and especially how the churches are prospering. You will be glad to hear that we are all living yet."

ROOSEVELT

Frenches Democratic Principle That Many People Forget.

New York, Feb. 1.—Before a Republican club in Philadelphia to-night, Theodore Roosevelt, in a speech, touched upon the democratic principle of Lincoln and of Jackson. He drew from Lincoln the inspiration to plead for the plain people and for the right of the individual. From Jackson he drew the inspiration to stand for the rights of the weak against the strong. In this the president was democratic. Another record was broken by Roosevelt to-night. He spoke for the individual and for the government. He stated that he was always in the government to stand for the individual. He stated that he was always in the government to stand for the individual. He stated that he was always in the government to stand for the individual.

THE FINANCIAL STATEMENT AND DIRECTORS' REPORT

DIRECTORS' REPORT AND FINANCIAL STATEMENT FOR YEAR ENDED 31ST DECEMBER, 1904.

Table with columns for Revenue Account, Profit and Loss Account, Balance Sheet, and Assets. Includes financial figures for 1904 and 1903.

This is to certify that we have maintained a continuing audit of the books, examined the vouchers and verified the securities of the Equity Fire Insurance Company, for the year ended 31st December, 1904, and find they have been correctly kept and are truly set forth in the above statements.

C. E. ARNOLD, FRED ROPER, Auditors.

Toronto, January 21st, 1905.

The Directors of the Equity Fire Insurance Company, in presenting to the shareholders the seventh annual statement, covering the financial transactions of the Company for the year 1904, take pleasure in calling attention to the continued growth of the Company's revenues, the gross premiums exceeding those of the previous year by \$122,556.81.

The first four months of the year's operations proved exceptionally unfortunate. On the 19th of April the Home City of the Company was visited by one of the most disastrous conflagrations in the history of Canada. Naturally, the Equity covered numerous risks in the fire sweep area amounting to \$1,000,000. Your Directors were gratified to find that, so conservative had been the underwriting of the Company, its net loss was but a little more than one-half the amount at risk. Following close upon this was the Erie conflagration, so that, on May 1st, the Company found itself confronted with net fire losses of \$75,000. The Company met all these losses promptly. Public confidence and the faithful efforts of our agents responded with an immediate and a continued increase of business. One result of the seeming misfortune has been that we are persuaded to permanently establish our reputation as one of the reliable and leading companies of the Dominion.

Arrangements were made about the middle of the year to visit, under competent supervision, surplus lines in the United States. The result thus far is very satisfactory.

The report of the President of the Dominion Government Insurance Department, your Directors made a call of 20 per cent. upon the shareholders, which was responded to in a most gratifying manner, and the Company now possesses practically the substantial paid-up capital of \$150,000, which is equal to the present large dimensions of the Company's business.

In a year unparalleled for losses, the Company is to be congratulated, we think, for having during the last eight months so largely redeemed the position impaired during the first four months of the year. This means that, after four months of the year's operations referred to, secured an excess of net income over the expenditure of no less than \$55,855.33.

It may be observed, also, that out of \$166,290.44 of net fire losses for the year, every adjusted loss was paid; and that only \$594.06 unadjusted but estimated net losses were carried forward.

The cash assets of the Company exceed the government requirement for Reserve by \$56,475.24, and the available cash resources of the Company, apart from the subscribed, but unpaid, capital of \$350,000, amount to \$18,624.21, which gives in all the very ample security to policyholders of \$334,624.21.

Under these circumstances, and in view of the splendid response to the call, about 95 per cent. of it having been met and believing the business of the Company has reached such proportionally high and equally high a point, the Directors of the Toronto conflagration have not interrupted the usual payment of a dividend, more especially since it may be paid out of interest earnings alone, your Directors have accordingly declared a dividend equal to 6 per cent. upon the original 10 per cent. paid-up capital of the Company, to be paid on the 15th of March, 1905, out of the accumulated reserve and above capital of \$34,624.21.

In connection with the successful business done during the last eight months of the year, we desire in an especial manner to thank the agents for their loyal support.

Consideration is due also to the Office Staff and Inspectors for the very faithful performance of their duties.

The term for which the Directors were elected now expires; they are eligible for re-election.

WM. GREENWOOD BROWN, General Manager and Secretary.

THOS. CRAWFORD, President.

In rising to move the adoption of the report, I desire to thank you for your attendance, and am pleased to have the opportunity of referring to certain features of the report just read, and the business of the year just closed. It was a year of conflagrations, but the great Baltimore and Toronto fires did not account for the whole one million dollars of fire loss in excess of the previous year's record in America. Whether from moral hazard, carelessness, or physical conditions, or all combined, the fire waste on this continent is deplorable, and whatever else is done, we must, as overseers of large interests, charge rates of insurance that will provide for losses, expenses, a reserve and reasonable margin of profit.

It is doubtful if any other Company, large or small, however, with its head office in Toronto, came through the conflagration equally well. We head office in Toronto, came through the conflagration equally well. We head office in Toronto, came through the conflagration equally well.

The report refers to a 20 per cent. call made upon the shareholders. Your Directors, I may say, regretted to make that call, knowing it would be a disadvantage to some, and possibly, an inconvenience to others. The result, however, speaks volumes for the integrity and the financial strength of our Canadian Shareholders, and in connection with the Equity only. Not a single Canadian company failed to meet its obligations because of the Toronto conflagration.

Our loss ratio for the eight months was a favorable one, being about 33 per cent.; our expenses may be considered comparatively high, but, so long as its results in a favorable loss ratio, it becomes a valuable outlay.

The policyholders and the public generally ought to be well satisfied with the security which backs up an Equity policy. A Company that can pay off \$160,000 losses in one year, as soon as they are adjusted, and leave only \$500 of losses to be carried over, and only because they will do well to overlook power and strength, which the insurance public are unadjusted, are \$500 of our capital, to make the government standard of reserve, but in a case of the Equity, the policyholder has a security of this size \$55,855.33.

No one but the shareholder need spend time in examination of the report. He knows that he has been hit, and has paid up an additional amount on his holdings. This, to him, is either a loss, or it is a large investment; and it is interesting to him to know what the prospects are in other cases. We place before you a statement of the facts. These, we think, give every encouragement to believe in the successful outcome to the shareholders of our family with the business operations of the Company, its general and particular supervision, we are doubly convinced that the Equity is a good investment. You will observe that our interest account is more than enough to cover the dividends declared in connection with the original 10 per cent. paid up. I feel that no apology is due anyone by the Directors in addition to the fact that we hope the business of the present year will permit a dividend upon the entire paid-up capital. From the organization we now have, and the public confidence we enjoy, and from our increased experience and business. Our duties, we may, I think, look for a very successful year. We believe that courage, persistency and honest effort will win out.

I have pleasure in moving the adoption of the report.

The Vice-President, Mr. C. C. VanNorman, in a very able address, seconded the adoption. It was fully and warmly discussed, and approved.

At a subsequent meeting of the Board, Thomas Crawford, M.P.E., was re-elected President; Mr. C. C. VanNorman, Vice-President; in addition to these, His Honor Judge Morgan, David Carlyle and H. E. Irwin, K.C. were elected to the Executive.

Turned the Tide

In half an hour after Mr. Lavers took the first dose of Dr. Agnew's cure for the heart he was on the road to permanent recovery.

"I was under treatment with some of the best physicians in London (England) for what they diagnosed as an incurable heart trouble. I suffered agonies through pain about my heart, fainting spells, palpitation and exhaustion. A drowning man grasps at a straw. I tried Dr. Agnew's Cure for the Heart. The first bottle relieved me greatly, and when I had used two bottles all the symptoms of my heart trouble had left me."—A. Lavers, Collingwood, Ont.

Old Men Get's Prize.

Editor Wood: On Monday evening the spectators at Moss Park Rink were treated to an excellent display of original and grotesque costumes, there being from 300 to 400 competitors. However, when the decisions were known almost every competitor agreed that the winners were well chosen. It was rather amusing to see how even the losers in one or two instances were decorated in regard to the sex of the competitors. Misses Armine and Lillian Cornell were the winners of the prizes for the best historical costumes. Miss Lillian represented a Portuguese queen. Her sister, Miss Annie, appeared as Louis XIV of France, and played her role so successfully that she carried off the first prize without the judges detecting that she was of the fairer sex.

A Girl Admirer.

Macdonald Memorial Service. A memorial service, participated in by Rev. Dr. Henderson and a number of other well-known Methodist ministers and others interested in mission work, was held in Carlton-street Methodist Church last night to pay tribute to the late Rev. Davidson Macdonald, M.D., formerly of the Japan missions, who died suddenly at his home, in this city on Jan. 3.

President is Right.

Cambridge, Mass., Feb. 1.—President Charles Elliot, in his report to the State Board of Education, touched upon the doctrine of Lincoln and of Jackson. He drew from Lincoln the inspiration to plead for the plain people and for the right of the individual. From Jackson he drew the inspiration to stand for the rights of the weak against the strong. In this the president was democratic. Another record was broken by Roosevelt to-night. He spoke for the individual and for the government. He stated that he was always in the government to stand for the individual. He stated that he was always in the government to stand for the individual.

WOMEN IN SUPERB TOILETS GRACE AN ENTERTAINMENT

James H. Hyde Gives a Costume Reception of the Eighteenth Century Period.

New York, Feb. 1.—James H. Hyde, one of the young and rich bachelors of New York society, gave an entertainment last night at Sherry's that New York society called a very charming and novel affair.

There was much grumbling at first, as it is not altogether agreeable in the busy life of social New York to devote time to planning costumes, but few asked to the fête declined, and from a small affair at first intended by the host, the list grew and grew until he had absolutely to decline to give any further invitations.

Mr. Hyde had to decline in extending invitations beyond a certain number. The fête was carried out in an elaborate manner and with much elegance of detail.

The beautiful ballroom of Sherry's establishment was transformed into a theatre very much after the style of the days of Versailles.

The scheme was after Mr. Sherry's own ideas, the design having been drawn by Mr. Whitney Warren.

In place of a regular stage, with a proscenium arch and wings, a platform raised a few feet above the ballroom floor was erected at the south end of the room.

Over this was hung a baldquilt of royal purple velvet embroidered with the fleur-de-lis in gold. At either side of the platform was a screen of bay and orange trees, with plants in bloom.

At the left side was stationed an orchestra from the Metropolitan Opera, which was led by Nathan Franko.

The guests were seated in handsome chairs placed at intervals, and the gallery was turned into a "loge grille," in which sat several women who did not care to have chairs on the main floor.

British Government to Remain in Office, Opinion of Critics.

London, Feb. 1.—W. L. A. Burdett-Coutts, M.P., speaking at the Westminster Conservative Club tonight, said:

The government would remain in office until the Russo-Japanese war was concluded, and predicted the ending of that conflict during the coming summer.

He said the Anglo-Japanese alliance was the most precious act of foreign policy ever achieved by Great Britain, and Premier Balfour was bound by every consideration of honor and patriotism to remain in office during the critical period, when the war being conducted in the east, has not and perhaps not ever so shamelessly as they robbed Japan before.

With the closing of the war, the speaker said, would come a period of fine diplomacy, and it was impossible to think of any power might step in and take the place of the British government.

Sheep Starved to Death. London, Jan. 31.—The remarkable fate of a flock of sheep belonging to a farmer living near London, at the foot of Snowdon, is occupying the attention of the local police.

By some unknown agency 110 sheep grazing on the mountain side were driven into a bog, and were found in the bog starved to death.

It was evident from their positions that the animals had died in a bog, and some had attempted to turn their backs on it, and had been suffocated by fog.

Loves Her Dog. Mrs. Patrick Campbell, who has been confined in the east, has had a pet dog installed with her on the bed in the hospital ward, and the attendant has strict instructions to give him his meals with warm cream for breakfast, part of a well-done lamb chop for dinner, and a small quantity of chicken with cream sauce for dinner.

He also has a midnight supper, consisting as a rule, of portions of a bird or game.

British Government to Remain in Office, Opinion of Critics.

London, Feb. 1.—W. L. A. Burdett-Coutts, M.P., speaking at the Westminster Conservative Club tonight, said:

The government would remain in office until the Russo-Japanese war was concluded, and predicted the ending of that conflict during the coming summer.

He said the Anglo-Japanese alliance was the most precious act of foreign policy ever achieved by Great Britain, and Premier Balfour was bound by every consideration of honor and patriotism to remain in office during the critical period, when the war being conducted in the east, has not and perhaps not ever so shamelessly as they robbed Japan before.

With the closing of the war, the speaker said, would come a period of fine diplomacy, and it was impossible to think of any power might step in and take the place of the British government.

Sheep Starved to Death. London, Jan. 31.—The remarkable fate of a flock of sheep belonging to a farmer living near London, at the foot of Snowdon, is occupying the attention of the local police.

By some unknown agency 110 sheep grazing on the mountain side were driven into a bog, and were found in the bog starved to death.

It was evident from their positions that the animals had died in a bog, and some had attempted to turn their backs on it, and had been suffocated by fog.

Loves Her Dog. Mrs. Patrick Campbell, who has been confined in the east, has had a pet dog installed with her on the bed in the hospital ward, and the attendant has strict instructions to give him his meals with warm cream for breakfast, part of a well-done lamb chop for dinner, and a small quantity of chicken with cream sauce for dinner.

He also has a midnight supper, consisting as a rule, of portions of a bird or game.
