Mr. Carvel Asks For Committal Of William B. Tennant To Jail Refuses To Say To Whom That \$20,000 Went

Admits T'was For Political Purposes Commissioner Stevens Says Witness Must Answer and Gives Him Till This Afternoon to Decide—Thos. Nagle, on Stand, Denies Some Statements of Former Witness

There was a dramatic scene at the Valley Railway inquiry, which is being held in the court house by Commissioner J. M. Stevens, during the morning session today, when W. B. Tennant faced the alternative of being paid \$20,000 for political purposes or going to jail for contempt of court for refusing to answer.

CATHEDRAL BLAZE WAS NOT DUE TO FRENCH

Famous St. Quentin Church Probably Has Been Destroyed—Germans Rob the Town

French front in France, Aug. 16.—(By the Associated Press)—The fire in the St. Quentin Cathedral was first observed about six o'clock on Wednesday night by sentinels in a French trench outside of St. Quentin.

Further investigation by a Times reporter this morning revealed something new in the mystery surrounding the burning of the cathedral.

Counter-Attack Near Loos Only Temporarily Successful—Fail, Too, in Heavy Attacks on French—Canadians Took 900 Prisoners

London, Aug. 17.—The British statement follows: "Early last night the enemy twice counter-attacked the new positions gained by us yesterday east of Loos, in the direction of Cité St. August. At the second attempt they succeeded in pressing back our line slightly at some points, but later in the night our troops again attacked and re-established our positions.

ARMORY IS TO BE USED

A deputation of the Military Hospital Commission has been visiting St. John in behalf of the returned convalescent soldiers and has found that conditions here are not operating to the best advantage of the invalided men. The attractiveness and homelike conditions of the military hospital have made the authorities hesitate about dispensing with it, but it has been recognized for some time that the demand of patients, and as a result about 100 of the convalescent patients are scattered throughout the province.  
It is believed necessary for the advantage of these men that they should be gathered to a centre where they could be given the most efficient medical treatment and be under proper medical observation. The government house at Fredericton, an ideal place for such a centre, will not be ready for about two months. Meanwhile, it has been decided to use the armory, which for some time has been the cause of much because of its being left idle.  
The two wings of the armory are to be used only, while the main section of the building is being reserved for use as a receiving depot. Mrs. G. A. Kilgus and others interested in the welfare of the convalescent soldiers went through the armory yesterday afternoon and they report that the quarters which are to be occupied by convalescents are very comfortable. The home is now staffed by members of the No. 8 Field Ambulance, under Major L. M. Curran.

U. E. OF GAS IN BERLIN CUT DOWN

Copenhagen, Aug. 16.—New gas regulations issued in Berlin virtually put the ordinary consumers of gas on half rations from now on. The new orders are made necessary because of the inability of the gas works to obtain a supply of coal. Similar measures are impending throughout the empire.  
The announcement of the new orders unloosed a general storm of indignation. The Berlin newspapers demand to know how home life will be possible with the household supply of coal so greatly reduced.  
According to the newspapers, the minimum water supply in homes is limited to certain hours, three days a week, and the use of alcohol and kerosene for cooking purposes is prohibited. No substitute lighting methods are available.

"A WEB OF MAGIC MUSIC"

This has been described the exquisite cello performance of Pablo Casals. The spirit of music which sleeps beneath his calm exterior comes to the surface in his interpretation of the famous "Evening Star" aria from Tannhauser. At times it reaches a point where words fail. In this melody which has in it the essence of all evening calm, strings of this master's cello speak more eloquent than many words.  
Casals' latest Columbia records ("Tannhauser" Evening Star) with orchestral accompaniment, also "Leahetto from Quintette in D major—Mozart—with clarinet and string quartet accompaniment, and "The Boat Song" are being sold in Amherst Pianos, Ltd., in Market square.

MR. TENNANT CHOOSES; QUERY IS ANSWERED

Money Went to Central Financial Conservative Committee, Thos. Bell Treasurer  
At this afternoon's session of the Valley Railway inquiry, W. B. Tennant answered the question relative to where the \$20,000 went.  
"Tennant said in answer to the question that 'the money was paid to the Central Financial Conservative Committee of which Thomas Bell is the treasurer.'  
William McDonald, accountant and engineer with Kennedy and McDonald, told of overhearing a conversation between Mr. Nagle and Mr. Kennedy, saying that he had promised it and that if Mr. Kennedy did not give it he would have to pay it out of his own pocket. This was two days before the Carleton county bye-election.  
The court took recess to allow Mr. Bell to call Thomas Bell as a witness.

CONDITIONS IN MADRID BETTER

Paris, August 16.—A Havas dispatch from Madrid says, "The strike situation today was entirely normal. All activities are taken up as usual. Traffic of all kinds has been resumed. The business houses all have been reopened. The special police have been withdrawn from the centre of the capital and are now guarding the railroad lines as a precautionary measure. No untoward incidents were reported up to noon."

MR. CARVELL ASKS FOR COMMITMENT OF WILLIAM B. TENNANT TO JAIL

(Continued from page 1.)  
agreement was carried out; was that also only a bluff?  
A. Yes.  
Q. You never told Dan McDonald that you had to divide up this money.  
A. No.  
Q. A note was given for \$2,500, due in March, for the last of the \$30,000?  
A. Yes.  
Mr. Tennant Pledged Note.  
Q. The manager of the Bank of Commerce has testified that the note was pledged to the bank by Mr. Tennant. How later?  
A. I gave it to him.  
Q. As part of this transaction?  
A. No; we have been doing business for years.  
Q. And he got no portion of the \$30,000?  
A. No.  
Q. Did you contribute to any political fund?  
A. No. I never contributed to any political fund, except in 1908 to the Grit party.  
Mr. Carvell—Well, the Liberal party was to be thankful for the fact that Mr. Nagle now is a good Tory.  
Q. Did you contribute anything to the 1917 election fund?  
A. No.  
Q. Were you not in Simonds parish on election day?  
A. Yes.  
Q. And handled large sums of money?  
Not a cent, and I did not see any handled, except by the other side.  
Mr. Carvell—That will be about all I have to ask.  
Witness—It may be hard for you to believe, but it is true.  
Mr. Carvell—The witness will be able to get the public to believe it.  
Dennis McDonald Statement  
To Mr. Teed, the witness said that he had not told McDonald that the money was not for himself, nor that the N. B. Construction Co. was to get the contract. He would have to put in a tender at a higher price.  
The witness produced a memorandum of the agreement drawn up on June 1, after he had taken a hand in the negotiations. The memo showed that getting a copy of the Longley & Innes contract, and what was finally agreed on. A completed form of contract was signed.  
The witness denied that there was any agreement that only half the \$30,000 was to be paid until the contract for the bank was signed.  
To Mr. Teed, the witness said that things on the contract were getting so rotten that he asked Kennedy to get off the work and the witness would give him some terms as to how to get the \$30,000 out of the bank.  
Kennedy refused to consider anything except selling his entire plant. Later Mr. Kennedy told him that he had arranged it, that he had sublet it to a man named Frank McDonald and it was too good to be disturbed. They were getting \$1,287, and had sub-let at \$1,100. I asked why he had not considered Longley & Innes, and he said he had not thought of it. When A. K. McDonald came from Montreal, he told me that he had come to clear up the mess. Mr. Kennedy was in with Frank McDonald, and he was trying to arrange with Longley & Innes, and promised to draw up a contract. I saw him that evening when he was leaving for Montreal, and told him that I did not think the Longley & Innes contract was good, as there had been a lot of trouble over it. He got excited and accused me of trying to hold him up for money, and I had not mentioned money. The note had nothing to do with it. I did not hold up the Longley & Innes contract, and neither did I. The witness denied telling McDonald that only one tender was to be submitted for the main contract. He again denied having agreed that half of the \$30,000 was not to be paid until the northern section was built. "There could be no agreement," he said, "about a contract that had not been let."  
Mr. Carvell objected to this remark, saying that the contract of May 19, covered the northern section. "I have selected," he said, "such a witness."  
Mr. Teed contended that the northern section of May 19 did not cover the section.  
In reply to Mr. Teed, the witness said that Mr. Lindsay's reference to the arrangement of other matters, in a letter to the railway board was holding up the railway board. Mr. Carvell—Mr. O'Leary says that is not true.  
Mr. Carvell asked the witness who interfered on behalf of Longley & Innes and the witness replied "Premier Clarke."  
Mr. Carvell—That will do. Premier Clarke is dead and cannot speak for himself. Every witness when matters wanted, and what was finally agreed on. A completed form of contract was signed.

To Mr. Teed, the witness said that things on the contract were getting so rotten that he asked Kennedy to get off the work and the witness would give him some terms as to how to get the \$30,000 out of the bank.  
Kennedy refused to consider anything except selling his entire plant. Later Mr. Kennedy told him that he had arranged it, that he had sublet it to a man named Frank McDonald and it was too good to be disturbed. They were getting \$1,287, and had sub-let at \$1,100. I asked why he had not considered Longley & Innes, and he said he had not thought of it. When A. K. McDonald came from Montreal, he told me that he had come to clear up the mess. Mr. Kennedy was in with Frank McDonald, and he was trying to arrange with Longley & Innes, and promised to draw up a contract. I saw him that evening when he was leaving for Montreal, and told him that I did not think the Longley & Innes contract was good, as there had been a lot of trouble over it. He got excited and accused me of trying to hold him up for money, and I had not mentioned money. The note had nothing to do with it. I did not hold up the Longley & Innes contract, and neither did I. The witness denied telling McDonald that only one tender was to be submitted for the main contract. He again denied having agreed that half of the \$30,000 was not to be paid until the northern section was built. "There could be no agreement," he said, "about a contract that had not been let."  
Mr. Carvell objected to this remark, saying that the contract of May 19, covered the northern section. "I have selected," he said, "such a witness."  
Mr. Teed contended that the northern section of May 19 did not cover the section.  
In reply to Mr. Teed, the witness said that Mr. Lindsay's reference to the arrangement of other matters, in a letter to the railway board was holding up the railway board. Mr. Carvell—Mr. O'Leary says that is not true.  
Mr. Carvell asked the witness who interfered on behalf of Longley & Innes and the witness replied "Premier Clarke."  
Mr. Carvell—That will do. Premier Clarke is dead and cannot speak for himself. Every witness when matters wanted, and what was finally agreed on. A completed form of contract was signed.  
The witness denied that there was any agreement that only half the \$30,000 was to be paid until the contract for the bank was signed.

MISSION TO PALESTINE IS NOT ABANDONED

Morgenthau Party Halted Owing to Check of British Advance at Gaza—May Discuss Peace

Washington, Aug. 17.—The Foreign Affairs news service sends the following to its clients: "Henry Morgenthau, former ambassador to Turkey, before leaving for Europe, ostensibly as the head of a mission to investigate possibilities for ameliorating the condition of war sufferers in Palestine, took his instructions, it is learned direct from President Wilson."

"The Morgenthau mission has not been abandoned, however, and it is possible for him to fulfill a part of his mission before proceeding to Egypt and Palestine. It was declared by a high authority that the special purpose of his visit to France and Asia is to study, especially in its political details, the entire Jewish problem, and particularly with relation to the proposed creation of an independent Palestine."

"President Wilson was said to be satisfied with his present information on the subject, but to desire the most comprehensive investigation to be made upon the certainty of the dissolution of her empire in the event of an Allied victory. Added to these considerations is the fear that Turkey will be sacrificed by Germany and Austria-Hungary, and that those countries will even attempt to compensate themselves, the Allies being willing, at the expense of Turkey, concessions in Europe."

There is a strong belief also that Mr. Morgenthau who knows personally the influential statesmen and military chiefs of Turkey, intended upon reaching the British lines in Palestine, to seek conferences with Turkish officials and discuss with them the possibilities of a separate peace for Turkey. There is great dissatisfaction in Turkey over the continuance of the war caused principally by the economic distress of the population and the seeming impossibility of wrenching victory from the Allies.

"Turkey is also in embarrassing financial straits and looks with misgivings upon the certainty of the dissolution of her empire in the event of an Allied victory."

Miss Vera E. Fanjoy of North End has received first class superior marks for teacher's license. At Milford early last evening, a barn filled with hay, belonging to Randolph & Baker, was burned to the ground. The chauffeurs' meeting was held last night in the Oddfellows' Hall, in Union street, and the following officers were elected: William Johnson, conductor; Vincent McGrath, secretary-treasurer. Leave to sign judgment for \$2,000, the full amount of the claim, was given to the plaintiff on Tuesday by Chief Justice McKeown, in the case of the Merchants' Bank vs. Kennedy & McDonald.

DIED AT CAMP MEETING Mrs. Joseph Benn of Debec, N.B., died on Aug. 12 at Littleton camp grounds. She had not been in good health but nevertheless wished to attend the camp meetings but the effort was beyond her strength. Mrs. Benn, whose maiden name was Mary Tapley, was born seventy-six years ago in Mapledale, N.B. She was married fifty-two years ago and had been a widow for two years. She is survived by five sons and one daughter. The funeral services were conducted on last Wednesday in the Methodist church, McKenzie Corner, by Rev. E. C. Turner.

The 74th anniversary of True Blue Lodge, L. O. L., was celebrated last night in the "Prentice Boys' hall, Guilford street, West St. John. The feature of the evening was the unveiling of the honor roll of fourteen members who are now overseas. The honor roll was unveiled by J. B. M. Baxter. A street car collided with a sloven driven by Thomas Murphy in Prince William street last evening about 9:45 o'clock. The wheel of the sloven caught in the car track with the result that before he could pull out the street car ran into the side of the team, breaking the whitewire and throwing Mr. Murphy to the pavement, cutting his face and bruising his right arm and leg.

AMERICANS TO WORK AT OUR CROPS

Dominion in Return Will Send Laborers to Help Maine Farmers Dig Potatoes Washington, Aug. 17.—Twenty thousand American harvest hands will help save Canada's grain crop and nearly half as many Canadians will dig potatoes in Maine under an arrangement reached by representatives of the American and Canadian governments. Immigration regulations will be suspended by both countries to permit the labor to cross and re-cross the border. American harvest labor, working northward with the grain season, heretofore has stopped at the Canadian line and scattered to other pursuits in this country. The agreement made contemplates their crossing to take the places of thousands of Canadian workers who this year cannot go to the western grain fields because of the labor shortage in the dominion. The wheat fields of Manitoba, Saskatchewan and Alberta begin to ripen just after the crop in the northern tier of states is gathered. Canada is counting this year on 800,000,000 bushels of wheat, the second largest country has grown. Maine's potato crop is about ready for digging and there is not enough available labor in New England to take care of the yield. Canadian labor employed for a short time will enable Maine farmers to save all of their crop.

ST. JOHN, N. B., AUGUST 17, 1917.

The Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the laws of the Dominion of Newfoundland.

THE WAR SITUATION

The summer is passing without any news of importance from the Macedonian front. The entry of Greece into the war on the side of the Allies has not been followed by any military operations of importance.

none too secure. We are told that there may be important developments at Ottawa within a very brief period, but this is mere speculation. The next move is up to the premier, but his past record offers no encouragement to the belief that he will now develop such qualities of leadership as the situation his blunders has brought about demands.

THE LID LIFTED

At last the truth is out. The complete vindication of Mr. Dugal, of Mr. Carvell and Mr. E. S. Carter came yesterday, when Mr. A. R. Gould swore that he paid \$100,000 for the Valley Railway contract.

THE STANDARD EXPOSED

The only witness at the Gould arbitration case yesterday was Mr. Gould and after his cross-examination had been concluded the case was adjourned until a date to be agreed upon by the parties interested, when argument will be heard.

THE POLITICAL PROBLEM

The political situation in Canada is very unsettled. There are still some who are striving to secure the formation of a union government. Several Ottawa correspondents say that the elections may not take place before winter, and may even be postponed until March.

OUR GREAT FINANCIERS

Once more we are refreshed with a recital of the former financial exploits of Mr. J. K. Flemming. This time it is in connection with the Gould contract for the Valley Railway.

 A contract has been made by the school board for the delivery in St. John of 1,000 tons of hard coal to heat the schools during the winter months, at the rate of \$11.75 per ton. It is estimated that it will cost another dollar to put the fuel in the bins, but even then it will be sixty cents a ton cheaper than the next lowest tender. Eight hundred tons were ordered at \$13.85 from a local dealer, put in the bins.

## He Needs Nine Billions More

U. S. Treasury Head Asks Further War Credits

**New Loans To The Allies**  
 Bond Issue of Three or Four Billions and \$500,000,000 More Taxes at Present Session of Congress

Washington, Aug. 17.—Congressional leaders have been informed by Secretary McAdoo that it will be necessary for them to authorize at this and the winter session of congress an additional \$900,000,000 for war expenditures, including further loans to the Allies, to June 30, 1918. Five billions in bonds already have been authorized, and a \$2,000,000,000 war tax bill is pending in the senate.

Within an hour after the secretary had conferred with Representative Kitchin, chairman of the House Ways and Means Committee, plans were under way for raising the money. A meeting of the Ways and Means Committee was called for Aug. 25, and arrangements made for the house to resume its regular meetings on Aug. 27 and expedite financial legislation.

Issuance of between \$3,000,000,000 and \$4,000,000,000 in bonds to meet new allied loans and authorization of an additional \$900,000,000 in taxes, to be added to the bill before the senate, probably will be proposed by the committee and agreed to by the house. No delay in either authorization is anticipated. The bond issue will be agreed to, Mr. Kitchin predicted, and the \$900,000,000 probably will be added to the revenue bill in conference, with the approval of the house.

The plan is to have the remainder of the \$9,000,000,000 authorized at the next session of congress, beginning in December. Whether it will be raised by bonds or additional taxation, or in what proportion of both, is undecided.

Announcement that authorization of a new bond issue to meet an allied loan was desired came as a surprise to most of the congressional leaders. They thought the conference the secretary sought with Mr. Kitchin was for the purpose of discussing raising possibly an additional \$1,000,000,000 or \$2,000,000,000 for emergency domestic needs. They planned to authorize it, go home, and raise it at the next session of the session of \$4,000,000,000 or \$5,000,000,000 it was estimated the war would cost during this fiscal year.

The need of the Allies have been much heavier than was expected, and the \$8,000,000,000 already authorized, it is estimated, will hardly carry them further than October.

**MORNING NEWS OVER THE WIRES**  
 In the supreme court in Newcastle yesterday afternoon the case of King vs. Levesque, charged with arson, the defendant swore that he had told his school fellows that he had set the fire in St. Thomas' College last October in a spirit of bravado, as he never attempted to set the fire. The jury acquitted him.

## ONTARIO CROPS GOOD.

Most of the Fall Wheat Cut and Housed.  
 Toronto, Aug. 17.—Most of the Ontario fall wheat has been cut and housed, says the weekly report of the Provincial Department of Agriculture, but some is yet in the shock. In yield per acre it will be about an average crop, although the returns per acre vary greatly, even in the same localities. Spring wheat will be above its average in yield and in the length of straw. Rye has a similar record to that of fall wheat. Barley never showed to better advantage, taking quantity and quality of both grain and straw into consideration. A fair portion of the crop already has been harvested. Oat-fields, as a rule, have been a revelation of growth.

**Lighten the Day's Work by eating food that does not use up all the vital powers in an effort to digest it. Every particle of Shredded Wheat Biscuit is digested and converted into healthy tissue and caloric energy. In the present food crisis every housekeeper and mother should demand bread that is 100 per cent. whole wheat. Shredded Wheat Biscuit is made of the whole wheat grain prepared in a digestible form. Better than meat, or eggs, or potatoes, and costs much less. For breakfast or any meal with sliced bananas, berries or other fruit.

## WHO CAN TELL

how serious may be the result of an apparently minor injury? Many a case of blood-poisoning and even amputation has been the result of a neglected cut or burn. Be on the safe side by keeping a box of Zam-Buk handy for such an emergency. It is the accumulation of germs in a wound that sets up festering. Zam-Buk destroys all germs as soon as applied, and protects the sore place from the germ-laden air. At the same time, the herbal oils and extracts, of which Zam-Buk is composed, are growing new skin and the wound is very soon healed.

Five Recruits

Four recruits were secured in the city yesterday. They were George W. Garman, William Johnston, Robert Smith, Royal Navy, O. S. draft; John W. Smith, York, England, No. 8 Field Ambulance Depot, and W. J. Bailey, Sussex, England, Royal Canadian Dragoons.

At St. George. The No. 9 Siege Battery, which has been encamped at New River, yesterday morning marched to St. George, a distance of sixteen miles. They covered the sixteen miles in four hours, which is considered extraordinary good time. The ladies of St. George have prepared for them a dinner. After going to the movies in St. George, the boys boarded the train and returned to their camp.

**CANADIANS GET OUT OF GERMANY**  
 Before Escaping They Buried Food in Fields to Victim Themselves to Frontier

London, Aug. 15.—Privates H. Henderson (405918), and R. Dusenbury (69281) have succeeded in escaping from Germany. They were taken prisoners in the battle of Sanctuary Wood in June last year. The Germans first moved them to Dulmen and then to Munster. Speaking to the Canadian Associated Press the men said they had a pretty rough time. The last few months they had been working in quarries. No actual brutality to the prisoners took place so long as they worked hard. Being in the pink of condition, Henderson and Dusenbury were able to do this. The parcels from the Red Cross arrived, mostly in good shape, and except for these parcels would certainly have been near starvation. "We had resolved for a long time to try getting away," said Henderson. "These parcels from home came in awfully handy and we managed to save something out of them for nearly a couple of months, hiding the stuff about the camp when we went out in working parties, taking good care to remember where we had put them all. It was hard lines not to be able to eat the food some days, but we had made up our minds that this was the only way of victualing ourselves for an eighty-mile journey to the frontier. One night we were out a bit later than usual, so just as darkness was coming we slipped off without causing an alarm. We went for our hidden parcels and found them all right, although some were rain soaked. We could not be guaranteed against this. We did very well on the whole, for we met nobody who asked us any questions. Of course we did not travel in daytime. Our food gave out, but we got along with turnips from the fields and fruit from the orchards. Once we found a friendly chicken who went the rest of the journey inside us. It was good fun, the weather being fine. When we crossed the frontier a guard came up, but he was not a bit surprised to find us. We were sent to Rotterdam and treated very kindly, being fitted out with new clothes, especially boots, ours having been worn to bits.

"A private of the Royal Scots Fusiliers got away with us. We should not have done so well if we had not thought it all out well in advance. "Things seem to be going badly for the German civilians."

**It's The Stopped Blade That Gives The Perfect Shave**

How about your morning shave? Does your razor stop the blade for you, giving you a cool, clean shave day after day? Can you clean and dry your Safety Razor without taking it to pieces—without even removing the blade?

These advantages are only possible with the AutoStrop Razor.

The stopping of the blade is not only necessary from the standpoint of economy, but is the only way a "real" shave can be had. The AutoStrop can be used unstropped the same as the ordinary safety razors, but when you once realize the difference between a stropped and an unstropped edge you will then appreciate the Self-Stopping feature of the AutoStrop razor.

**More Unusual Offer—**  
Borrow an AutoStrop Razor and try it

Pay nothing—deposit nothing. Decide upon its purchase after you have compared its wonderful blade service and smooth-shaving quality with other razors you have used or are using. Take it home and shave with it as freely as if you had purchased it outright. Your dealer will lend it to you for that purpose. Then come to a decision whether you will keep it or return it. We authorize dealers to loan the AutoStrop Razor on 30 days' trial and we stand back of the offer.

**POTATOES PLENTIFUL, IN WESTERN CANADA**

**But More Will be Used This Year Than Last—What Hillsburg Experts Say**

(Toronto Star)

C. J. Macmillan, of Hillsburg, Ont., one of the most extensive potato shippers in Ontario, has just returned from a tour of western Canada. He is of the opinion that the western potato crop will be very large, as there were far more potatoes than usual, owing to the high prices prevailing last season and the patriotic appeal to the farmers for greater production.

He thinks, however, that if the Ontario crop turns out to be as good as is promised to be, the Alberta crop may have to go begging, so far as eastern Canada is concerned. There will have to be some wise distribution if a large part of the Alberta crop is not wanted. The quality, he says, of the Alberta potato, is not quite equal to that of the Ontario potato.

The cities, too, have responded splendidly to the patriotic appeal, and this is certain to make a difference in the problem of distribution and in the price.

"My impression," he said to "The Star," "is that the price of potatoes will be lower this year, owing to these causes, the increased acreage of farmers everywhere, and the part that cities are taking in the matter of production. I would not advise farmers to hold potatoes with the expectation of getting prices equal to last year. I think potatoes will come below a dollar a bag before the year is over.

"But more potatoes will be used," he added, "on account of the high price of bread, and this fact may have a steady influence on the price of potatoes. I do not think that seed potatoes next spring will be anything like the price they have been this year."

Asked concerning the grain crops in the west Mr. Macmillan did not believe they would be nearly so good as they were two years ago. "The seeding," he said, "was very late and the crops were not put in good time. Consequently the harvest will be late and if the frost is as early as usual conditions are not favorable for a bumper crop. In Alberta there was a lot of rain; seeding was very backward; there was heavy frost well into June. In Saskatchewan the weather was drier; indeed they did not have enough moisture to bring on the crops and the conditions generally throughout Saskatchewan are not favorable to a heavy crop. Ten bushels to the acre will be about the outside figure they will reach, and if the frost comes so early as usual even that will be cut down."

"And Manitoba?" Mr. Macmillan was asked.

"There again," he said, "the same conditions prevail. Manitoba generally was dry. Heavy frosts occurred in the early season which made the seed exceptionally late and the growth slow."

"As far as I can see," he concluded, "the conditions are not favorable for a bumper crop this season."

**COMMITTED TO BUY G. N. RAILWAY STOCK**

Ottawa, Aug. 16—On a straight party division in the commons, with a majority of 25, the government and its followers in parliament today passed the bill for the purchase of the Canadian Northern Railway Company. The first step has been taken toward the purchase of this railway in Canada. It is also the preliminary to the final clean-up of some \$10,000,000 by Mackenzie Mann, the millionaire financier of Toronto who are the pledges of some of the stock, and who have picked up at a price below par the unquoted securities of the system which now, through government ownership, will be given greatly enhanced value.

**FACTORY STARTS WORK**  
Goodyear Tire and Rubber Company's Plant Most Modern in World.

The huge building which the Goodyear Tire and Rubber Company has erected at New Toronto is now practically completed, and today the first products will be manufactured, says Montreal's Telegram.

The structure, which occupies some two acres of ground, measures 460 feet by 100 feet, and was erected at the cost of \$1,000,000.

It is reputed to be the most modern rubber factory in the world. Automobile tires, motorcycle, aeroplane and bicycle tires will be manufactured, and it is anticipated that the output of automobile tires alone will average three thousand daily.

The building is conspicuous for the unusual number of windows it contains, and 62,000 square feet of glass have been used in its construction.

Every department is consequently well lighted and very sanitary.

The factory has also a power plant and a 90,000-gallon tank has been erected to supply the sprinkler system. The fact that the plant will consume one million gallons of water daily necessitated the construction of a special waterworks system. The factory has also a power plant producing 25,000 horse power.

Magnificent as their new building is, the Goodyear Tire and Rubber Company anticipates a further extension of their plant, and have purchased twenty-five acres of land in the vicinity so that five other similar plants can be built as soon as they are required.

Tenders to have attached certified cheques for 5 per cent of the amount of same.

The Directors do not bind themselves to accept the lowest, or any tender. E. S. CARTER, Secretary. Fredericton, August 14, 1917. 8-20.

**Allies Hold Gains and Press Forward**

**LONDON, AUG. 16—REUTER'S CORRESPONDENT AT BRITISH HEADQUARTERS IN BELGIUM SAYS HE HEARS FIGHTING IS PROCEEDING WELL BEYOND LANGEMARCK.**

British Front in France and Belgium, Aug. 16—(By the Associated Press)—At 4 o'clock this afternoon the battle in Flanders, which was resumed by the French and British at dawn today, already had resulted in a large gain of ground.

From Dreigraachten, which the French occupied with little resistance, southward, the French pushed their positions forward to the edge of the flooded area along the left bank of the St. Janneke river and on the right bank they surged across the Steenbeek, which is a continuation of the St. Janneke and occupied German positions to an extreme depth of about 1,000 yards. At the same time British advanced on the right of the French and occupied considerable territory in the region of St. Julien and Langemarck. Langemarck village itself apparently is firmly in the hands of the Allies.

Further south the British had pushed forward at various points as far as the salient at the country west of the Polygon Wood. In all this region on a nine mile front, heavy fighting was in progress, especially in the vicinity of the Polygon Wood and the neighboring forests.

Meanwhile the Canadians were holding strongly Hill 70 and all the other positions which they wrested from the Germans about Lens yesterday, after having beaten off ten furious counter-attacks in which the enemy suffered heavy losses.

**The Hour of Germany's Difficulties**

**LONDON, AUG. 16—Premier Lloyd George announced in the house of commons today that the troops of Field Marshal Haig had captured Langemarck. The premier said that Field Marshal Haig had telegraphed that 1200 prisoners had been taken and that five guns had been captured by noon today.**

He asked what might be anticipated when Russia recovered, and America was really in. America's troops had been seen marching through the streets, symbols of her resolute entry into the struggle. This was the hour, Mr. Lloyd George added, of Germany's difficulties.

"The government has come to the conclusion," Premier Lloyd George said, "that with reasonable economy there is no chance of starving England out."

"The admiralty plans for dealing with submarines have been increasingly successful."

**SEAMEN TO DISCUSS GERMAN BRUTALITIES**

International Conference. Delegates will be present from Norway, Sweden, Denmark, Holland, France, Italy and probably Russia.

It is said that the object of the conference is to consider crimes committed by commanders and crews of submarines, and to pass a resolution on the conduct of J. Hawley Wilson, president of the International Seamen's Union, who in a statement last Saturday, said the Seamen's and Firemen's Union was fully determined to stick to its guns and refuse to carry peace delegates abroad.

The prospectus of the meeting says the delegates also will consider "what shall be our attitude toward German seamen after the war unless they cease their present murderous tactics."

**A SLAVE RAID IN BELGIUM**

**Bishop of Namur Witnessed The Scene**

On Nov. 22, 1916, when the Germans were about to begin the deportations at Gembloux, the clock had hardly struck 6 a.m. when the Bishop of Namur, Mgr. Heylen, slipped secretly into the Agricultural Institute, the centre of control for the deportees. He was accompanied by two ecclesiastics. A German saboteur tried to make him leave the building, but the bishop succeeded in reaching the Oberleutnant directing the raid and said to him:

"I am the Bishop of Namur and that is why I am here. Hitherto no men have been taken from my diocese. As you begin today, I thought it my duty to come and see. Some days ago I sent a protest to the governor general, pointing out that I was convinced he was going to commit a grievous injustice. I have come now to renew my protest here. These men whom you are going to carry off are my children. As their father I intend to show that I take part in their sorrows and to support them by my presence here, to assure them that I shall not forget them and that they may rely on my prayers. Therefore I will remain here."

The officers, much embarrassed, tried to induce the bishop to leave the room and wanted him to be taken to a room upstairs, where he would have been unable to see anything and to interfere. The bishop firmly resisted, and as the officers did not dare to resort to violence they were forced to suffer his presence.

Mgr. Heylen witnessed all the successive operations of deportation. He saw chiefs of industry, heads of workshops, landlords, farmers, workmen, young students appear as "unemployed" and submitted to a rapid examination. The bishop interferred strongly in favor of a few of the most revolting cases.

At a given moment the bishop having withdrawn a few steps, a German officer shouted in German to the sentries:

"If those people withdraw again, do the same!"

This was done in order to press the bishop back as much as possible from the centre of the operations.

Some time afterwards the Germans lined up in front of Mgr. Heylen a score of class room benches. The bishop was then heard saying loudly to the Hauptmann: "Don't you have the impression of assisting at a slave market in Africa?"

The German officer kept silent.

Notwithstanding orders to the contrary, the bishop succeeded in forcing his way through to the train where the men were embarked for Germany.

Everywhere screaming and weeping mothers, wives, sisters were trying to approach for the last time their dear ones, but a cordon of soldiers with fixed bayonets kept them back. Then one of the ecclesiastics accompanying the bishop said to an officer:

"Don't you feel any pity for these people?"

"When one has been to the front one has no pity to spare," replied the German.

Mgr. Heylen, violently pushed back once, again forced his way through the cordon, went on exhorting and encouraging his people. There were 1,500 of them, waiting for long hours in the station without food and full of despair.

At about 2 p.m. the first train started and shouts of "Long live Belgium! Down with Germany!"

The Bishop of Namur remained there amidst the angry Germans for another three hours in the mud and rain, awaiting the departure of the second train.

Darkness fell and still the pitiful group of slaves was held up in the station. With an expression of intense disgust and a deep emotion, the Bishop of Namur, having done his duty, slowly went away in the night.

Gould Admits Payment Of \$100,000 In 1912 To Premier J. K. Fleming

\$75,000 to the Then Premier, Personally, and Balance at His Direction; Told What Was Expected of Him Before Contract Was Signed; Payment Vital to Present Liability of Province

A. R. Gould yesterday admitted, under oath, that he had paid \$100,000 to Hon. J. K. Fleming, then premier of the province, in 1912, before the construction of the Valley Railway was signed. The admission was made in his evidence in the hearing of the arbitration proceedings before Chief Justice McKeown in connection with his claim of nearly half a million dollars against the province. Mr. Gould swore that he paid \$75,000 to Mr. Fleming personally and the balance at his direction. When the court resumed after lunch, Mr. Carvell proceeded with the examination of Mr. Gould. Q.—Was your intention to go to a point in Andover parish and there make connections with Presque Isle? A.—Yes. Q.—You would have considered the line to Grand Falls a branch line? A.—I would not put it that way, but I would consider the line through because as the main line. Mr. Carvell here pointed out that the Dominion Statutes in 1910 provided for a subsidy for a railway from St. John to Grand Falls, a distance not to exceed 228 miles. In 1912 the subsidy was renewed. Q.—At the time you signed the contract, you did you expect to operate the Transcontinental? A.—The G. T. P. Operation by the I. C. R. had not been thought of. Q.—Would the change make any difference in the earning power of the Valley railway? A.—Yes, very greatly. The I. C. R. would not divert traffic to us and give us forty per cent. of the freight rates. Q.—It would militate against the Valley railway? A.—Yes, to a great extent. Q.—In estimating the value of the railway stock, as set forth in your petition, did you estimate on its value under G. T. P. or I. C. R. operation? A.—I had figured its value under G. T. P. operation. Those Personal Expenses. Q.—Then you claim also \$17,000 for personal expenses? A.—I gave the government an expense account for every dollar of it, in 1912. Q.—Does this represent actual expenses? A.—Yes, to a cent, as near as I could keep it. If I went to Ottawa and took a few of my government friends along I had to pay the bills. Q.—You claim that the government holds something like \$60,000 of your securities. Can you explain that? A.—When the surety bond for the payment of interest during construction expired there was nothing else that we were in default on except that. I was asked in legislation and I was asked if I would renew the surety bond or put up securities. I did not know that I could renew the bond, so I put up the securities, to the value of \$60,000. Q.—Have you got them back yet? A.—No. When the work of construction was completed, I applied for them, and the premier said he did not like to give them up or to make any concessions on anything until everything was cleared up. Finally he agreed to give back \$60,000, which he should have given back in

Coconut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulled coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, lustrous and easy to manage. You can get mulled coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

your own lips; how much was it? You can't see it. Q.—I said \$100,000; was that near it? A.—Yes. Q.—How near? A.—Near enough. Q.—You must tell us yourself. A.—You know what it was. Q.—Was it \$100,000? A.—Yes, it was \$100,000. Q.—With whom did you make the agreement for the payment of this money? A.—With Mr. Fleming. Q.—When was that? A.—In the fall of 1911. Q.—When the contract was signed? A.—No. Q.—Did not Mr. Fleming negotiate with you for this payment at the time the negotiations for the contract were in progress? A.—I think I agreed long before the contract was signed, two or three months before. Q.—And the amount was fixed? A.—Yes, \$100,000. Q.—Did Mr. Fleming want more? A.—He said he could get more from other parties. Q.—How much more? A.—He said he could get double that amount. Q.—Then why did he take you at the lower amount? A.—I guess he thought I was easier to handle. Q.—How much of the amount did you pay to Mr. Fleming personally? A.—The larger part. Q.—Did you pay him \$75,000? A.—It might be a trifle more. Q.—And you paid the balance according to his instructions? A.—I did. Q.—Was the contract agreed to at the time the money was paid? A.—Yes, long before that, in the fall of 1911. Q.—Did you pay any money to Mr. McLeod, the provincial secretary who signed the contract? A.—The Chief Justice—I think that payments made to Mr. Fleming, as the agent of the province in the matter, have been on the liability of the province to pay Mr. Gould any money. I cannot see that this is so in the case of Mr. McLeod. Mr. Carvell—I am sorry that it so appears to you, I have a whole list of gentlemen regarding whom I would like to ask Mr. Gould. When Money Was Paid. Resuming, Mr. Carvell asked the witness: When was the \$100,000 paid? A.—In the spring of 1912. Q.—Before the local general elections? A.—Yes. Q.—Where did you get the money you gave Mr. Fleming? A.—I got it from the trust company and handed it over to Mr. Fleming. Q.—Did you know that it was your own money? A.—Yes, because you regarded the debt to the bank as a personal liability. Q.—Yes. Q.—The trust company gave you the money out of the proceeds of the bond? A.—I don't know where it came from. Q.—But the bonds had been deposited with the trust company? A.—Yes. Q.—Was it not only a few days? A.—I don't know. Q.—You know that the agreement that was made, that if they were made trustee of the fund, they were to loan you \$80,000 and that they were to loan you \$20,000 anyway? There is such a document. It was after the money was placed in the hands of the trust company. A.—I don't think I ever knew of that before. Q.—This \$100,000 referred to in the bill of particulars is the balance of the loan out of which you paid Mr. Fleming? A.—It would be about that amount. This concluded Mr. Carvell's questioning and Mr. Gregory then asked the court, after receiving the consent of Mr. Carvell, for permission for a private conference between Mr. Gould, Mr. Teed and himself, before proceeding with the re-examination. Permission was granted. Mr. Gregory—Was it any part of the consideration for getting the contract that you should contribute to the campaign fund? A.—No. Q.—Was it any part of the terms that you should contribute? A.—No. Q.—The preliminaries were all completed before it was suggested that you should contribute? A.—I would not say that. It was after the agreement was formulated and before the contract was signed it was intimated to me that Mr. Gregory—You are getting ahead of my questions. I did not say that the contract was signed; I asked if it was all agreed. A.—Yes, several months before. Q.—Was it any condition of your getting the contract? A.—It was not put up to me in just that way; I was told what I was expected to do. Q.—Was your contribution to the campaign fund made a condition of the contract being executed? A.—No particular conditions were made then. Q.—Had the proceedings gone so far that you would consider that you were entitled to get the contract, before this suggestion was made to you? A.—Yes. Q.—When was the suggestion made? A.—About two months before the contract was signed. Q.—How long had you been engaged in the negotiations? A.—Nearly two years. Q.—Were you required to contribute to the campaign fund? A.—I was informed that I was expected to. Q.—It was then that you were told that others were willing to contribute more? That Toronto Party. A.—It was after that. It was while I was in Ottawa. I was told a party in Toronto was willing to contribute a good large sum, about a quarter of a million was the intimation. I said I knew nothing about that, and I cared nothing about it. They could not get it was payable only to the St. John & Quebec Railway Company and I did not care what any one else offered. Q.—And you did contribute? A.—I did. Q.—As part of the consideration of the contract? A.—No, sir. Q.—When Mr. Fleming told you that they would stand behind you and asked for suggestions, did you make any suggestions? A.—I told him that the only thing I had to suggest was what Mr. Lisman had suggested; that the province should guarantee the \$10,000 a mile second mortgage bonds to make them salable, referring to the sum of \$205,000 in securities deposited with the Prudential Trust Company to secure the interest on the bonds, the witness said that he

claimed that he was entitled to the interest and he had given the trust company instructions not to say it to any one except on his order and was assured that the interest was intact. Interest on this amount, credited to his account, had reduced his liability to his trust company, on the old loan, to about \$63,000. Mr. Carvell—Was the suggestion for the \$100,000 contribution made by Mr. Fleming to you or by you to Mr. Fleming? A.—I never offer to give away anything. This concluded the evidence and the court adjourned to a day to be fixed later. Braves Purchase Schriber. Boston, Aug. 17.—The purchase by the Boston Nationals of infielder Schriber of the Lawrence club of the Eastern league for \$5,000 was announced. Business Manager Walter E. TEX RICKARD MAY REFEREE BIG RACE

Famous F romoter Selected as Stakeholder, Will be Asked to Act as Referee in Three-Cornered Contest
New York, Aug. 17.—"Tex" Rickard, who has been selected as stakeholder for the race, was proposed last night by Barney Oldfield and Louis Chevrolet to referee the three-cornered contest in which they and Ralph de Palma will meet at the Sheepshead Bay Speedway next Saturday afternoon. Oldfield and Chevrolet met yesterday to settle other details of the match and to post forfeits for appearance. De Palma, who was to have arrived here yesterday morning from the west, did not get in, but will be here today. The question of the distance of the extra heats was left until De Palma can meet with Oldfield and Chevrolet. D. W. H. Wellman, promoter of the race, selected Mr. Rickard as stakeholder for the match, and Oldfield and Chevrolet posted their forfeits with him. Oldfield's car, the "Golden Submarine" and his Delage, arrived yesterday and were towed to the track. Chevrolet's car is already there, and De Palma's Packard car is due this morning from Detroit, where the factory has been putting some special touches on it for this contest. One thousand dollars was put up Saturday by Harry S. Harkness, owner of the Sheepshead Bay Speedway, as a special prize for Ralph de Palma if he lowers the world's speedway records for one and two miles at the course next Saturday afternoon, when he will make an attempt as part of the programme. #### Tea Entered in Field Crops Competition—Judges Now Receiving Instructions

Fredricton, Aug. 17.—Active interest is being taken in ten counties of the province in the field crops competition which is being conducted by the New Brunswick agricultural department. The counties are: Restigouche, Gloucester, Madawaska, Carleton, York, Kings, Westmorland, Northumberland and Kent. It is hoped that next summer the remaining five counties of the province will be entered in the competition. The rules and regulations are the same as were in force last year. Next year they will be revised to give uniformity.

So far as possible, permanent employees of the agricultural department are used as judges in the competition. The judges have been in Fredericton for a few days receiving instructions concerning their work. S. J. Moore, of Truro, chief of the seed division, dominant department of agriculture, was here for one day assisting in the instruction. C. G. ### HELEN BROWN DEAD

#### Wm. P. McDonald's Fast Mare—Investigation Into Alleged "Doping"

Horse enthusiasts about the city and province will hear with regret of the passing of a mare that had made a brilliant career on the race track. Helen Brown, owned by William P. McDonald, with a race mark of 2:10 1/4, and a maiden mark 2:09 3/4, died yesterday afternoon in this city.

This mare, said to be twelve years of age, had made records throughout the office of the State of Maine that have never been lowered. She was bought by Thomas Hayes in Boston and brought to this part given special attention for one day assisting in the instruction. C. G. Cunningham, chief of special instruction in the matter of potato crops.

Much interest was aroused at a match race between Troas and this mare some weeks ago, but the latter proved a failure and Troas won an easy race in three straight heats. Since this race the horse had been in poor condition. There is talk of an investigation into rumors of "doping" by outsiders. This was intimated to The Times this morning that some of the alleged dope is being examined by the provincial analyzer.

### TRAFFIC LAW CASES

The entire session of the police court was taken up this morning with by-law cases.

C. H. Martin, chauffeur for J. E. Breen of the White Dairy, Coburg street, was fined \$10 for allowing his car to stand with the right wheel to the curb in Paradise row. The driver said the gear went wrong and he had to pull into the right side. Policeman Hogge, who made the report, said that the chauffeur went to a garage to have the car fixed. The line was allowed to stand.

Richard McCrossin was reported by Traffic Policeman Colwell for driving his team under the L. C. R. gates in Mill street. Gateman W. H. Blair said that Mr. McCrossin squeezed underneath the gates and he was forced to put them up or they would have struck the teamster in the face.

Scott E. Morrell, who appeared for Mr. McCrossin, said that there was a heavy load of flat iron on the sloop and when the teamster saw the gates coming down he was unable to back up as the pieces of iron were extending beyond the end of the sloop.

The magistrate took up the matter of signals at the crossing and asked if there was any bells, etc., to warn people that the gates were being lowered. The court said that the public were entitled to some consideration in view of the many inconveniences in the constant plying of locomotives to and from the station.

The magistrate asked the client's lawyer how old he was and when informed remarked he "is beyond the age and will let him go." The court explained that this would not hold water if it had been a liquor license charge. If they were 104 1/2 would give them the full penalty," said the magistrate.

Fred Coombs was reported by Detective Briggs for exceeding the speed limit in the Marsh road with a car. The detective said that the car was going at least thirty-five miles an hour.

Mr. Coombs entered a strenuous objection to being summoned to court in a case with which he had nothing to do. He said that he was employed with the Motor Equipment Company and did not own the cars used there. The case was set over until Tuesday. Mr. Coombs asked the court if the city police had jurisdiction in the county. To this the magistrate replied "Certainly."

Thomas Short was reported by Policeman Kinnear for having the lights on his coach out at the I.C.R. depot. He pleaded not guilty and as the policeman has since resigned the magistrate remarked that it is apparent "that his lights have gone out, too, so you can go, Mr. Short."

A case against John Glynn, reported for speeding in his car was further postponed until Tuesday.

John McAleary was reported for allowing his team to stand in Douglas avenue without a foot strap and also for being on the wrong side of the street. The defendant pleaded guilty and the case was set over until next Tuesday.

### DEATH OF CAPTAIN DAVID CORNING

#### Mariner, Well Known in St. John, Passes Away in Tacoma

Friends in St. John have received news of the death of Captain David W. Corning, which occurred a few weeks ago in Tacoma, Wash. He will be remembered well here by the older generation of citizens. Captain Corning married a niece of the late Pilot Richard Cline. The Tacoma Tribune of July 24 says:

Captain David W. Corning, retired shipmaster, aged 77 years, and known to seafaring men all over the world, died at his home, 410 South M street, Tacoma, Wash., on Tuesday morning, August 14, after a brief illness. Captain Corning had been ill for some three months and had been in fairly good health until Tuesday morning when he was seized with an attack of heart failure, from which he failed to rally.

Captain Corning had been a resident of Tacoma for the last eleven years, but first came here as master of the British bark Howard D. Troop, in 1898. Having one daughter, Mrs. J. C. Todd, a resident of Tacoma, and finding the city, in his opinion, an ideal place for a home, Captain Corning retired from the sea to make his residence here. As a shipmaster he had been one of the most successful of his profession and practically grew up on ship board, which placed him in command of his first vessel less than a year of age.

Was Native of Nova Scotia

A native of Nova Scotia, Captain Corning took to the sea when a boy and went into the service of the old shipping firm of Troop & Sons of New Brunswick. His first command was the Jane Young, one of the well known sailing vessels of the very early days. Long service with the Troop Company made him commodore of the firm. He owned an interest in all the vessels of the company with the exception of the Howard D. Troop. Other of the Troop vessels he commanded were the Crown Jewels and Troop.

Captain Corning is survived by Mrs. Corning and by one daughter, Mrs. J. C. Todd, 402 South Sheridan avenue, Tacoma, and by one sister, Mrs. Mary Goudy, residing in Nova Scotia. The funeral will be private.

### MISS CHAISSON SAID TO HAVE MADE PROVINCE RECORD

Miss Mary Chaisson, daughter of Angus Chaisson, King street east, has again distinguished herself. In the recent list of those who received superior teaching licenses the name of Miss Chaisson appeared. Her marks were 98 out of a possible hundred. Nine marks were given for merit, in addition to the mark ever made by any one in superior license examinations.

### SERIOUSLY ILL IN HOSPITAL IN ENGLAND

A letter from Mrs. George Waters, 92 Putnam street, Watertown, Mass., announces that she received a few days ago a letter from her son, Harry V. Waters, formerly of St. John, a letter stating that he is very ill in a military hospital in England. She fears that he cannot recover.

### TRAINS LATE

The Boston train was reported one hour and ten minutes late this morning owing to poor connections along the line. The Montreal was reported thirty-five minutes late in reaching the city.
