Above the table hung a prettily decorated white cloth, from which the guest of honor, with the aid of a long fork, fished out many lovely handkerchiefs each with an original verse, and also a little booklet of original poems. A sing-song followed. In the evening, Miss Alice Rising, Miss Jennie Black, Miss Evelyn Pearson, Miss Avis Weaver, Miss Freda Donnell, Miss Dorothy Kay, Miss Margaret Lean, Miss Alice Rising, Margaret Lean, Miss Alice Rising, Margaret Lean, and Miss Jennie Flower, the matron.

THREE MATTERS FOR UTILITIES BOARD

N. B. Telephone Co. Stock Issue, Maritime Canneries, Woodstock Rates

Several matters came before the New Brunswick Board of Public Utilities this afternoon when it met in special session here. The first to come up was the application of the New Brunswick Telephone Company for authority to issue an additional 20,000 shares of stock, with par value of \$10 a share. Another matter to come up is the hearing of the Maritime Canneries Ltd. in connection with the cancelling of their license to sell stock in the province. Recently the factory of the company at Long Reach was burned, and the chairman of the board, understanding there was no insurance on the plant, decided to suspend the certificate until an investigation of the company's affairs had been made. It is understood there will also be filed an application for an extension of the time for filing the schedule of rates for electricity in the town of Woodstock.

WHY COAL TRADE IS COMING HERE

Portland R-ute for Hard Coal to Quebec Province Now Underquotted by Saint John Development.

The great hard coal market of Montreal and Quebec province is now turning to Saint John for cheaper transport than obtains through Portland.

The many thousands of tons of such coal from Wales and Scotland which this market consumes will tax the capacity of a local development.

Saint John's dominant position in this new traffic comes about through the development of the Eastern Coal Docks, Ltd. Builders are now busy on the old Lawton Wharf, converting it to this purpose. As the only such wharf combining rail transport with full depth water through all tides—available for bulk cargo traffic—this property, purchased and improved by Eastern Coal Docks, Ltd., will have several distinct advantages. Its all-tide depth permits cheaper ship charters. The screening apparatus will effect further economies in coal handling, impossible elsewhere locally. Thus great savings will be made in cheaper ship charters; in re-shipping on to cars, in obtaining cargoes from across the ocean in bulk instead of costly bag method, and also in saving breakage into slack waste, as prevented by aforementioned facilities.

The Eastern Coal Docks Ltd. will widen its sales in more directions than Quebec province. Its importing and reshipping advantages will bring through Saint John, coals for inland points of New Brunswick and Maine. Their docking and storage capacity can handle four times their past activities. The wharf which they will make for better business and employment conditions here.

HORSE SAVED FROM DEATH IN QUAGMIRE

A horse belonging to George Buckle of Glen Falls nearly lost its life yesterday afternoon in a drainage ditch there into which it had fallen. It was almost buried in a quagmire, only the head being free. Men and boys plunged into the mud to place planks under the animal. Finally a team of horses was requisitioned and a chain muffed about the exhausted horse's head. By slow steady pulling and prying with planks the horse was liberated. Mr. Buckle was very grateful to those who so readily assisted him. It is stated the creek into which the horse fell is in the

WINTER ACTIVITY STARTING TONIGHT

Germain Street Y. M. A. Begins Season With Banquet at "Beatty". An event of some local importance is the banquet to take place this evening in the Admiral Beatty Hotel, signaling the beginning of the winter's activities of the Y. M. A. of Germain street Baptist church.

This men's organization starts its operations each fall with some such social gathering, and winds up in the spring in a similar manner. This evening, besides some matters of business in the way of brief reports on last year's work, the gathering of men will be addressed by Rev. C. Gordon Lawrence, rector of Trinity.

It is understood the outgoing officers of the Y. M. A. are able to report a successful year in connection with the Sunday afternoon class, under the leadership of W. C. Cross, with improved attendance and finances. Social and educational events were carried out and assistance given to several branches of church work.

PRESENT OFFICERS. The officers now taking charge of affairs are E. J. Alexander, president; Donaldson Hunt, vice-president; C. Rayworth, secretary-treasurer, and efficient committees on social and educational matters, music, entertainment, and ministerial students' fund, headed by J. N. Dow, Everett Hunt, J. Wilcox, V. B. Collins and A. D. Gunter.

WIFE DIES, HUSBAND IS INJURED IN CRASH. CONTRECOEUR, Que., Sept. 30.—Mrs. Jean Marie Renaud was fatally injured and her husband, J. Renaud, suffered serious injuries when a balcony on which they were making some repairs gave way, plunging both to the paved sidewalk below.

SAINT JOHN, N. B., OCTOBER 1, 1926.

AS OTHERS SEE US.
 Surely we should be encouraged by recent expressions of two eminent outsiders. The opinions of even the keenest observers of men, manners and events are not necessarily entirely correct, opinions voiced on the strength of short acquaintance are necessarily based on premises insufficiently wide to warrant acceptance without reservation, but when a British judge and a British bishop both visualize Canada marching onward from glory to glory it should suffice to quicken our heart-beats and cause us to strain every effort to make ourselves worthy of our predicted future.

Lord Darling said, "Anyone who has been in Canada, as I have been, cannot help being convinced that it has a wonderful future. I only wish it had been borne in on everyone as it has been borne in on me. And Canada is not the only dominion in the Empire. The Empire will develop, there can be no doubt about it." The Bishop of London said that he considers the opportunities in Canada priceless. "You have not begun to exploit your riches," he is reported as saying. "Canadian industries are shrinking because population is too small. If you had enough people your industries would beat the United States, and when your population reaches 100,000,000, Canada will be lending money to the United States."

Perhaps it may be well not to overlook the utterance of yet a third eminent man, Rabindranath Tagore. This Indian poet in comparing western and eastern civilization says, "You Westerners who possess all material wealth are starving yourselves intellectually. We who have nothing believe we have sensed the mysteries of the Infinite." This may possibly be oversteering with Oriental philosophy, but at the same time it is well to remember, particularly when engaged in the pursuit of material wealth, that man does not live by bread alone.

As we progress towards prosperity let us not forget the riches of mind and intellect.

CANADA'S INDEPENDENCE.
 The Nation, of New York, referring to the recent Canadian elections, says: "The Liberal gains indicate that Canada will continue along the path of growing independence which her economic interests so plainly mark for her." Just what this means is not apparent. If it is meant that Canadians are looking to the severance of the Imperial tie, that sort of independence is not and has not been in the minds of the Canadian people. Canada desires and enjoys autonomy. There was a difference of opinion on the constitutional question arising out of the action of Lord Byng, but he was just the beloved Governor-General who has just left the Dominion amid universal expressions of high regard on the part of Canadians. His successors will not be unimpaired of the political controversy, but will have no misgivings as to the feelings of the people in regard to the King and the person of his representative.

Premier King will carry to the Imperial Conference the assurance of a settled determination of Canada to remain a member of the British Commonwealth of Nations. Nothing has happened to weaken the tie that binds her to the Motherland, nor is there the most remote possibility that the British Government will pursue a course such as would bring in question the autonomy the Dominion enjoys. There is in the United States a plentiful lack of knowledge regarding the relations between Canada and the Mother Country, and it extends even to those who should be much better informed.

CLEVELAND.
 Judged by the Cleveland News Achievement Celebration Supplement, Cleveland is an extraordinarily goodly city. The supplement starts off with a front page showing cuts and word-pictures of Cleveland yesterday, today—and tomorrow. The comparisons between the first two are instructive.

A twenty-four page supplement is too big a thing to review in anything like detail, but to the student of cities—and, judging by signs of the times, Saint John is blessed with many such—the whole issue should provide absorbing reading. Cleveland is not Saint John—that must be remembered throughout. Cleveland's problems and Saint John's problems are dissimilar. Therefore, because Cleveland has prospered and expanded under a City Manager—the largest city in the world under that form of city administration—it does not necessarily follow that such government is the answer for

Queer Quirks of Nature

By ARTHUR N. PACK
WILD-CAT, he used chiefly to be called, but now bob-cat seems to be the accepted name, because his tail is shorter than that of our domesticated cat. His real nature, however, is exactly similar to that of his relative of the town.

In other words, our own town cat has not changed one iota since those days, now so distant that we do not know either the time nor the place of his enslavement. If such a word is used to describe the domestication of an animal so little tamed that after all these ages he still takes all, and gives nothing.

Now our bob-cat is by no means the savage and untamable beast that he is usually pictured. Nature, it is true, has decreed that he live by taking toll of such creatures of the forest as are weaker than himself, and in their pursuit he is no more relentless than the robin who searches the lawn for earthworms, or the king-bird who snips all day on the orchard though snapping up each insect as it comes along.

True, man has invaded the haunts of the original inhabitants of the forest, and has brought with him his flocks and herds. Is it any wonder if the poor bob-cat, finding the creatures he used to hunt growing scarcer, should sometimes take for his supper some of the new game that comes his way.

And when the concealed trap grips

BOB-CAT

ning of the end of the age of mammals, of which man claims to be chief, and the beginning of the era of insects.

If this be true should not man carefully weigh the evidence before he destroys even the race of bob-cats, for he has not yet learned the place held by this wild creature in the economy of nature. Let us learn more about him before he exterminate him from the world, for when he is gone it will be too late.

BILL SMITH, a country shopkeeper, went to the city to buy goods. They were sent immediately and reached home before he did. When the boxes were delivered, Mrs. Smith, who was keeping the shop, uttered a scream, seized a hatchet, and began frantically to open the largest one.

"What's the matter, Sarah?" asked one of the bystanders, who had watched her in an amazement. Pale and faint, Mrs. Smith pointed to an inscription on the box.

It read: "Bill inside."

POEMS I LOVE

"The Factories," By Margaret Widemer.
 MISS WIDEMER often writes with deep feeling; but here she figuratively hits her reader between the eyes. The strong emotional appeal of this utterance cannot be denied. If it does not move you, then you are not to be moved, or affected in any way by the inequalities of life.

I have shut my little sister in from life and light,
 (For a robe, for a ribbon, for a wreath across my hair.)
 I have made her restless feet still until the night,
 Locked from sweets of summer and from wild spring air;
 I who roamed the meadowlands, free from sun to sun,
 Free to sing and pull the buds and watch the far wings fly,
 I have bound my sister till her playing-time is done—
 Oh, my little sister, was it I? Was it I?
 I have robbed my sister of her day of maidenhood,
 (For a robe, for a feather, for a trinket from love till dusk shall fall, how shall she know good,
 How shall she go scathless through the sunlit dark?)
 I who could be innocent, I who could have love and mirth before the light went by,
 I have shut my sister in her mating time away—
 Sister, my young sister, was it I?
 I have robbed my sister of the lips against her breast,
 (For a coin, for the weaving of my child's lace and lawn,
 Feet that pace beside the loom, hands that cannot rest,
 How can she know motherhood, whose strength is gone?)
 I, who took no heed of her, starved and labor-worn,
 I, against whose placid heart my sleepy gold-heads lie,
 Round my path they cry to me, little souls unborn—
 God of Life! Creator! It was I! It was I!

DINNER STORIES

CLINGING desperately to their small raft, two shipwrecked sailors were tossing hither and yon on the wild, wild waves. One of them finally weakened, and in trembling accents started to pray:
 "Oh, Lord, I know I have broken all the things that were wrong, but if I am spared, I will—"
 A violent shaking interrupted him at this point, and his mate shouted into his ear, "Hold on a minute mate. Don't commit yourself. I think I see land."

AN AUTOMOBILE dashed along the country road. Turning a curve, it came suddenly upon a man with a gun on his shoulder, and a weak sick-looking dog beside him. The dog was directly in the path of the motor car. The chauffeur sounded his horn, but the dog did not move until he was struck. After that he did not move.

The automobile stopped and one of the men got out and came forward.

DO YOU PAY COAL PRICES FOR THIS?

WHEN you see the ashes being cleaned out of your furnace or range to be carried away, do you think of this: "I paid coal prices—and I got waste matter." Every coal leaves ash after burning—some more than others—none as little as our Consolidation CLEAN Coal. It is fuel that is practically all heat because Consolidation mining is CLEAN mining that removes the visible non-combustible impurities and assures you of solid heat from every shovelful of coal.

If you are interested in coal economy write or telephone us for information about Consolidation CLEAN Coal.

Of all the coals coming from Miller's Creek, or said to come from there—none proves near the purity and heat test of CONSOLIDATION Miller's Creek. Less than a bushel of ash to the ton. Try and equal that. Try and equal the heat power of CONSOLIDATION Miller's Creek in grate, stove or furnace. Can't be done. Use it right, as told by us, and you outlast any other coal. Save as you never saved before—in every way. What's price \$11.50 a ton. Ship now due. Try a ton right off and learn coal economy to delight you all winter long. But if your bill doesn't say CONSOLIDATION Miller's Creek you haven't got the genuine.

ACTION TO REMEDY CONDITIONS IN MARITIMES IS PROMISED

ASSURANCE GIVEN AT BANQUET IN HONOR OF N. B. CABINET MEMBER

Enthusiastic Reception Given Hon. P. J. Veniot at Saint John Function in His Honor—Tribute Is Paid New Postmaster-General by Mayor White

THAT the Mackenzie King Government would deal promptly with the report of the Duncan Commission on Maritime matters was one of the outstanding statements by Hon. P. J. Veniot, Postmaster-General, in addressing a banquet tendered him by the Young Men's Liberal Association of Saint John in the Admiral Beatty Hotel last evening with upwards of 150 present.

It is not my intention to deal with this question tonight, Hon. Dr. Veniot said, "because the Duncan Commission only completed its report on the day before the new Government was sworn in at Ottawa and it is now before the Government and will be dealt with without delay. Therefore, it would be out of place for me to say anything on this matter tonight, save this, that I have the promise of the Premier of Canada that we will leave no stone unturned in our efforts to remedy existing conditions in the Maritime Provinces."

His address was highly enthusiastic and the gathering was a flattering ovation when he rose to speak. New Brunswick's representative in the Federal cabinet spoke in his usual vigorous and trenchant manner and was frequently interrupted with applause. He professed his remarks by saying he had deeply appreciated this tribute and said it was not directed so much to him as to the Prime Minister of Canada, Mr. W. L. Mackenzie King, in designating to a son of New Brunswick the cure of one of the most important portfolios of the Federal cabinet.

Speakers of the evening included Hon. Dr. Veniot, Premier of the Province, Mr. Walter E. Foster, former Premier who was tendered a striking reception; His Worship Mayor White, William M. Ryan and R. T. Hayes, Liberal candidates in Saint John-Albert in the last election; R. P. Elmer, McLaughlin Liberal candidate in Charlotte county; F. M. Thompson, of Hillsboro, and Dr. W. E. Hensberry, of the Liberal standard bearer in the 1921 elections.

Mayor White's tribute to the qualities of Hon. Dr. Veniot, coming from one of an opposite political faith, was "a rare confession, gentlemen," he said, after being given a hearty reception. "That I am for Saint John first and all times, but the interests of this great port and the Province of New Brunswick are so closely intertwined that they must go hand in hand. It would be a very strange world, indeed, if we all saw eye to eye, but only a man lacking in common sense would withhold credit from where it was justly earned and I am glad to say that it is highly satisfying to New Brunswick to be represented in the Cabinet council by a man of such proven ability as Hon. Dr. Veniot. Stirring applause greeted his remark."

Mr. Ryan said he endorsed all that had been said by the previous speaker. He said it was a hopeful sign that the Young Men's Liberal Association so active and he referred with pride to the fact that he and Mr. Hayes had borne the Liberal banner in the last election. Saint John-Albert was hard fighting ground but if the party was not successful here, it was triumphant in the Dominion, he declared. He urged them to maintain always the Liberal principles.

Mr. Foster said he was deeply touched by the tribute accorded him and he was glad to say that he had been invited by the Prime Minister to Ottawa to confer in connection with the representation and urge the claims of Hon. Dr. Veniot, a man who had always stood by him. He praised the Young Men's Liberal Association and said he would like to see the idea spread. The province, he said, would be ably represented at Ottawa as the people knew the Liberal party was their party and would lead them on the road to prosperity.

Major McLaughlin said he was surprised to be called on but was glad of the opportunity of congratulating Hon. Dr. Veniot. In Charlotte, he said, the organization was already being perfected for the next election and he was confident of success.

Mayor White spoke. Mayor White said he had just come from a luncheon for 24 C. N. R. ticket agents who were down here to see the way of tourist travel and at that luncheon he said he had spoken of the man they were honoring "Good Roads" Veniot, who was largely responsible for the present excellent system. If he could believe the English language in the press and from the political platform, a new era was dawning for New Brunswick, for the people of the Dominion of Canada were coming to realize that sectionalism must cease. Canada, he declared, was in a similar position to a limited liability company and when the dividends were being passed around, they should not all go to one part. The Maritimes, he said, were placing their case in the hands of Hon. Dr. Veniot in the cabinet councils, confident they would be ably represented. Dr. Broderick and F. M. Thompson, of Hillsboro, also spoke briefly, extending congratulations to Hon. Dr. Veniot.

Among the Albert county men present were Lane Colpitts, J. D. Ryan, Everett Irving, Burton Irving, J. P. Beatty, A. A. Stevens and Dr. B. J. Dash.

INTEREST IN FAIR IS GROWING DAILY

Largest Crowd Yet Present Last Night—Games Are Well Patronized

It was the biggest night yet at the New Brunswick Protestant Orphanage Fair in St. Andrew's Rink last night, the crowd being counted at about 1,600, and all of the games and booths having a large and thronging attendance.

Special requests for further supplies of fancy work and aprons for the fair said that supplies of country produce were much less this year than in previous years while the demand was greater. Some country produce has been coming in from time to time, but not in sufficiently large quantities to satisfy the committee. It was decided last night to have the fair run all its attractions for everybody on Saturday afternoon and not to have the orphans the only visitors at that time.

Tonight the 28th Regimental band will furnish the music, and the door prize will be a large bag of flour. Last night the door prize was a load of coal, and it was won by ticket 5819 but was not claimed.

Among the prize winners at the games were the following: Ten pins, M. Emery; bagatelle, C. A. Brown; darts, among the tailors, C. A. Brown; Sapphire Lodge Rebekahs of the I. O. O. F. had charge of the country store, and the home cooking booth was in charge of Potts Lodge, L. O. B. A. from Lorneville. The committee from the lodge which was at the booth last night consisted of the following: W. M. Miss Kathleen Simpson, Mrs. Jennie Ouellet, Mrs. Samuel Galbraith, Mrs. James H. Galbraith, Mrs. Samuel Wilson, Mrs. Robert Baird, Mrs. Andrew Wilson, Mrs. John Ferguson, Mrs. Jane Ferguson, Miss Elizabeth Wilson, Miss Della Macgregor, Miss George King, Miss Marguerite Baird and Miss Edna Wilson.

EXPECTS REDUCED INSURANCE RATES

Lancaster Hoping Fire Alarm System Will Cut Cost of Protection

There is every likelihood that the insurance rates in the parish of Lancaster will be reduced since the installation of the new fire alarm system, it was said yesterday by Councillor E. Claude Seeley, chairman of the fire and police department for Lancaster.

Deaths

Charles S. Morrison After an illness of about three years Charles S. Morrison passed away in this city on Sept. 30. He had resided in Saint John all his life and was about 80 years of age. He was formerly in the employ of the C. N. R. but had retired many years ago. He was greatly respected and held in high regard by all who knew him. Mr. Morrison was the son of the late John and Margaret Morrison and is survived by one brother, Andrew W., of Moncton. The funeral will take place on Saturday afternoon from Brennan's 121 Paradise Row.

CHIMNEY FIRE

The fire department was called out yesterday afternoon at 4:30 o'clock by an alarm from box 83 for a chimney fire in a house occupied by William Murphy, 129 Erin street. There was no damage done.

Banquet in Honor Of 75th Anniversary

DIGBY, Sept. 30.—The 75th anniversary of the founding of the Rebekah Branch of the Independent Order of Oddfellows, was observed by Telma Rebekah Lodge, this week, at Digby. The annual roll-call was held at which upwards of 80 members responded. The Noble Grand, Mrs. Mulio, presided. The members held a banquet in honor of the anniversary, at which the Vice Grand of the Rebekahs, Miss Hazel Smith, of La Tour Lodge, was the guest of honor.

TAKE PRECAUTIONS

MONCTON, Sept. 30.—Several class rooms in the Church street school were closed this afternoon. It was discovered that the family from which one of the pupils came had been suffering from sore throats, but not diphtheria, but it was decided that the rooms should be fumigated. The diphtheria situation in the city is reported to be improving and no new cases had been reported lately, according to the school authorities this afternoon.

Weddings

Newcombe-Smith. HOPEWELL HILL, Sept. 30.—A very pretty wedding was solemnized in the United Church at West River, Albert county, on Wednesday evening when Miss Arvilla Martha Smith, daughter of Mrs. Annie Smith and the late Samuel Smith, of Germantown, was united in marriage to Everett Evans Newcombe, son of Mrs. Ella Newcombe and the late J. L. Newcombe, of Hopewell Hill. The ceremony took place at 8 o'clock. Rev. Mr. Pyche, of Alma, pastor of the United Church, officiating.

Miller-Henderson. The home of Mr. and Mrs. Frank Henderson, Andover, N. B., was the scene of a pretty wedding on Wednesday, September 8, when their only daughter, Vera Orinda, was united in marriage to John Owens Miller, of Tracey Mills, N. B., by Rev. C. O. Howlette. The house was nicely decorated for the occasion with cut flowers in pink and white, the bridal party standing under an arch of evergreen and white asters.

Allen-Bernard. NEWCASTLE, Sept. 29.—A very interesting wedding to many Miramichi friends took place at Saint Bernard's church, Moncton, at 7 o'clock Wednesday, with nuptial mass, when Rev. Fr. Carroll united in marriage Anna Isabel (Ella), youngest daughter of Mr. and Mrs. James Bernard, of Newcastle, to Leslie M. Allen, son of Mr. and Mrs. A. C. Allen, of Newcastle, but now residing in Moncton.

Green-Sewell. FREDERICTON, N. B., Sept. 30.—At Christ Church parish church here Wednesday evening, Rev. A. F. Bate, rector, united in marriage George Harold Green, son of George Green of this city and Miss Minnie Louise Sewell, daughter of Mr. and Mrs. Fred Sewell, also of this city. They will make their home at Desk.

Could Two People Who are Very Much Alike Be Happily Married, or Should They Be Opposite Types?—Why a Husband With an Incompetent Wife Should Stick by His Children—The Polly of Secret Marriages.

DEAR MISS DIX—I am engaged to be married to a girl who is almost my counterpart, we are so much alike in our thoughts, actions and moods. What is your observation in this connection? Have you found that union between two people who are so closely akin spiritually and mentally turns out to be an unqualified success? L. A. Z.

DOROTHY DIX

ANSWERS: My observation has been that the more alike a husband and wife are the better they get along together, unless they both possess very bad dispositions. You can see, for instance, that if two very high-tempered people or two very selfish people make the big mistake as a general thing of picking out a pocket-edition wife and the brilliant man select a wife who is beautiful but dumb and which causes the butterfly woman to fall in love with the poor clerk instead of the millionaire's son...

After the honeymoon has waned marriage settles down into a glorious friendship or else it becomes that most terrible of all things, an enforced intimacy with an ungenerous companion, than which nothing on earth is worse. Now it is only possible to be friends with those whose ideas and ideals are those of those who differ with us on every subject and with whom conversation is a perpetual acrimonious argument.

Our mental pictures of a happy family is one in which the husband and wife go together and in which they pull apart, with different interests, with different friends, with different objects in life.

DEAR DOROTHY DIX—I have been married seven years and have two children to whom I am devoted. My wife and I are always quarrelling, and I have got to the place where I cannot bear her in my sight. She is very unkind. Never looks nice. Doesn't keep the children clean. She has no friends at all and my people hate her. I have tried in vain to change her and now I am so unhappy that I am going to leave her. What do you think? WORRIED HUSBAND.

ANSWER: I think that a slovenly, lazy, quarrelsome woman is enough to drive any man from her and I don't blame you for wanting to leave her. If you had no children you would be perfectly justified in doing so, but have you considered your duty to the helpless little creatures that you brought into the world and for whose fate you are responsible?

For the sake of their children many women endure marriages that are hell on earth. They put up with unfaithful husbands whose infidelities are an insult to them. They endure avaricious, cross, abusive husbands who never give them a kind word. If they had only themselves to think of they would put on their hats and go to the homes in which they are treated like a dog. But they have no way to support their children and to keep a roof over their children's heads and to give them the advantages that even a bad father can often give his children. So they endure their martyrdom of a miserable marriage.

Is a father's duty any less to his children than a mother's? Is a father less called upon to sacrifice himself to his children than a mother is? If your children have a bad mother are you not the more bound to be a good father to them? If their mother's influence over them is going to push them down is it not the more important that you should use your influence to hold them up?

If your wife is lazy and slovenly and incompetent, if she will not even keep them clean in body, she will not keep them clean in mind. She will neglect their manners and their morals. She will let them run the streets and join the hoodlum gangs. Will your conscience be clear when they turn out badly if you wash your hands of all responsibility of them and leave them to their fate? I think not.

As I see it, it is your duty to stand by them and try to be both mother and father to them. Believe me, children who have a good mother can possibly do without a father, but the children who have a bad mother need a good father.

My heart bleeds for all unhappy husbands and wives. I see no reason why those who have married men and women who are slackers and quitters should stick to them if they have no children, but if they have children they have no right to let their personal unhappiness make them default on the great job of fatherhood or motherhood. DOROTHY DIX.

DEAR MISS DIX—I am very much in love with a boy who says he loves me dearly and wants me to marry him secretly. But he has one terrible fault that he will not give up even for me, and that is drink. He says that if I marry him he will stop drinking, but if I refuse him he will never stop drinking. I don't know what to do. Please tell me. BROKEN-HEARTED PAT.

ANSWER: In the first place, don't marry any man who asks you to marry him secretly. A secret marriage is a mistake and always reflects on the woman. It is one of the things that never can be explained and a hard-boiled world always smiles cynically at a belated marriage license.

It is a safe rule of conduct never to do anything you can't do openly and publicly in the sight of all men. And don't believe any man who tells you that he will stop drinking when he gets married. Marriage is no Keweenaw cure, and the man who craved liquor before marriage will have just exactly the same thirst afterward.

The man who hasn't the strength and manhood to control his appetites for the sake of his own self-respect is never going to do it for the sake of a woman. DOROTHY DIX.

Milady Wears Shawl in Ways Grandma Never Dreamed

By MME. LISBETH. Long metallic shawls fringed on three sides are among the new shawls. Large modernistic patterns are broadened in these metallic shawls in silver and black and gold and black effects, as well as colored combinations. Eighteen-inch silk fringes, double or single-knotted by hand, appear in self-color or in multi-colors. On the right is a sample of the well liked sports type of hat in a swaggy white felt model. A black and white polka dotted silk scarf is worn with this hat. Among the newest scarves shown in shawl and scarf collections are rayon silk scarves embroidered in small repeat designs.

hand-painted chiffon shawl scarfs, and large crepe de chine scarfs adorned with machine-embroidered Spanish floral themes in self color. The small, chic hat which favors refuse to be displaced in public favor by the larger models is illustrated in the center. This chapeau is made of black panne velvet and has a turned-up brim allowing milady's eyes to be seen once more. A buckle of brilliant stones apparently holds the folds of the trimming in front.

Matching the hat to the frock still is the vogue to a large extent in Paris, it is said, and the mode undoubtedly will be just as dominant here in the coming season.

They arrive at the beauty parlor as soon as the first white hairs appear above their brows. Those grey and white streaks are dyed to match the natural color. "They tell me that a youthful appearance is very important now," explained the artist, who has been beautifying New York for nearly half a century. "They say that good looks is a tremendously important factor today. Really, I don't know what we're coming to—though it does make business good, but I can't see why this sudden rush for youth is on. Age and experience were always associated—and now they all want to look young."

There is another place, I am told, where men go to have their hair maccelled. The patrons are, for the most part, Broadway actors, middle-aged men interested in taking "young things" to parties and sugar daddies.

The centre of the beautifying industry in New York is the middle Fifties, just east of Fifth avenue. Here one may see at first hand the gentleman who invented the permanent wave and who can go through his life without worry as the result.

Here one can also see, adorning the walls, the picture of the first married man ever achieved in America, to say nothing of a life-sized portrait of M. Marcel himself.

This is the very capital of vanity. And there is something about its pretensions and its artificiality that cause me to smile—no matter how serious others may take such things. GILBERT SWAN.

THE RHYMING OPTIMIST By Aline Michells. Oh, a man can go far with no word of praise, little valued, misunderstood; he can tell, untired by the wearing days, just as long as his work is good! If the thing that springs from his brain has the marvel of deathless truth, to his lips, as he goes, wells a glad refrain from the heart of eternal youth. If the thing that grows by his strength or line, he tastes the joy of a task well-planned, a joy that is high and fine. Oh, a man can go far with but meagre pay, and though coldly by all men viewed, for a torch unflinching will light his way, just as long as his work is good.

BEHIND THE SCREEN

WHEN Ann Rork decided she wanted to become a motion picture actress she not only had to convince her dad that acting was the right profession for her but she also had to show him she could act. For her father is Sam E. Rork, First National producer. He had her make several thousands of feet of film tests to determine her chances of making good in a business where competition is keen.

As a result of the tests Ann got a part in "The Desert Healer," a picture made for First National release by Marion Fairfax. She is still in her teens and recently finished her education at an eastern school where she studied dramatic expression, although at that time she did not contemplate acting as a career. Miss Rork has a long line of ancestors who were actors and her mother was a well known operatic star on the New York stage when Sam Rork was a Broadway producer.

At present she has just finished her role in "The Blonde Satan," with Doris Kenyon and Lewis Stone.

STAR DUST Richard Cortez has spent a small fortune in railroad fares during the past two years. He has made nine transcontinental journeys since Sept. 1, 1924. Jack Holt, George Bancroft, Wallace Berry and Emil Jannings are all more than six feet in height. Raymond Hatton, five feet, six inches, is the shortest man of the 70 players under contract to Paramount.

James Lowe, another regular, is going to become Mrs. Victor Fleming very soon. Fleming is a Paramount director.

Charles Murray and Chester Conlin have been signed to play the lead roles in "McFadden's Flats," which is to be directed by Richard Wallace for First National.

Flapper Fanny Says PREMIER REIJIRO WAKATSUKI Premier Reijiro Wakatsuki pulls a long bow when he is not directing the policies of Japan. In the garden of his home, he exercises his skill at archery, stretching back a seven-foot bow with ease, though he is sixty years old. At practice he adopts the Japanese fighting costume, throwing back the left sleeve of his kimono and baring his shoulder to give his arm free play.

Archery has for many years been a favorite sport of the Japanese, though lately it has lost some of its popularity. The conservatives of Japan, however, are making energetic efforts to retain the recreation at its old peak of popularity.

DISPLAY GOOD AT ANNUAL FAIR AT MOOSEPATH

Saint John City and County Agricultural Society Exhibition Held

The Saint John City and County Agricultural Society Fair held yesterday on the old Moosepath Park property, was up to the average in spite of the fact that three of the most active exhibitors in the district were busily engaged on road work, and therefore forced to stay out of competition.

The unusually bounteous harvests and a particularly fine display of cattle as well as the entrance of the Boys' Industrial Home into the prize lists, made up for the other shortcomings and Secretary R. R. Patchell considers on the whole it was a very good show.

The judges were J. F. Roach, of Sussex, who selected the winners in the cattle classes; John F. Frost, of Norton, for the horses, swine, sheep and poultry; Mrs. G. C. P. McIntyre and Mrs. Hugh McMonagle, of Sussex, judged the women's work, including cooked goods, preserves, etc., and O. C. Hicks, of the Government Experimental Farm at Fredericton, judged the produce and dairy products.

The women's classes of work were a battle royal between friendly neighbors and relatives as has been the case for several years past. Mrs. W. R. McFate, of Upper Golden Grove, carried off the butter awards again, having been successful for several years at the Saint John Exhibition as well. In this instance it was a case of a town girl after taking up her residence in the country becoming a leader in butter making.

The next fair will be held on Wednesday, Oct. 13, at Loch Lomond.

The entrance of the boys of the Boys' Industrial Home, Saint John, under Superintendent Marcheson, this year was an innovation in community work, and the ladies and their leader came in for congratulations from interested visitors. Judges and officials. The ladies were greatly pleased with the success of their first efforts in open competition.

The next fair will be held on Wednesday, Oct. 13, at Loch Lomond.

A Year of Mushroom Soup

F. J. Holman, farmer, near St. Paul, claims the mushroom he is shown measuring is the largest ever discovered in the United States. It's five feet around. Numbers like this grow in the woods at the rear of his home and all are edible. The giant mushroom weighs 20 pounds, and the others range in weight from 17 pounds down to 3.

Your Daughter's Health

MANY GIRLS are obliged to be absent from school for a few days each month because of illness. In many cases this is unnecessary because young girls—as well as older women—can be strengthened by Lydia E. Pinkham's Vegetable Compound. At no age does your daughter need greater care than from the time she reaches the age of twelve years until womanhood is established. If she complains of headaches, pains in the lower limbs, or if she is nervous and irritable make life easier for her. Many a woman has suffered years of misery because as a girl she has been allowed to sit around with wet feet, lift heavy articles, do hard work and over-study.

In all such cases Lydia E. Pinkham's Vegetable Compound should be given, as it is specially adapted to such conditions. It can be taken in safety by any woman, young or old. Nervous and Weak. Charleston, Illinois.—"I gave my fifteen-year-old girl Lydia E. Pinkham's Vegetable Compound and it did her a wonderful lot of good. Her periods were delayed and she was nervous, weak and dizzy. At last she was so bad off that she was out of school for four months. I read the advertisements about the Vegetable Compound, and since she has taken it she has improved in every way and has gone back to school again. I recommend the Vegetable Compound to other mothers with girls who are not as strong as they should be."—Mrs. ALICE LOUTHAN, Route 2, Charleston, Illinois. Terrible Cramps. Los Angeles, California.—"My daughter had terrible cramps which caused her to go to bed on every first day. The sharp pains seemed to take the life right from her. She was out of school two terms. I have known about Lydia E. Pinkham's Vegetable Compound all my life and finally decided she should try it. Three bottles cured her of the cramps and other pains and helped her in various ways for the next couple of years. I recommend the Vegetable Compound highly to every girl and woman."—Mrs. W. E. GILLETTE, 386 East 62nd Place, Los Angeles, California.

PEOPLE OF ST. GEORGE'S MEET FOR CENTENARY

At Congregational Social Greetings Received From Many Churches

In observance of the centennial of the consecration of the church a congregational re-union and social was held in the hall of St. George's church last night and the large auditorium was filled to capacity and when clergy and friends from other congregations were also present to join in the celebration.

Garden flowers made an effective decoration. Mrs. John Unsworth, wife of the rector, and Mrs. H. H. McCleod, wife of the junior warden, welcomed the guests and members of the vestry acted as ushers. Rev. W. H. Sampson, who had been rector for 35 years and immediately preceded the present rector, Rev. John Unsworth, was the chairman and extended a hearty welcome to all present.

He referred to the church having been consecrated just 100 years ago by Bishop Inglis. During the century much had been accomplished, he said, and the church was worthy of the name and honor accorded it.

Rev. W. A. Robbins, pastor of Ludlow street Baptist church, conveyed greetings from his congregation.

Rev. J. H. A. Holmes brought the love and congratulations of St. Jude's congregation which looked upon St. George's as the mother church. Rev. Canon R. P. McKim, of St. Luke's church, extended congratulations on behalf of that congregation. Rev. James Dunlop, of the Charlotte street Baptist church, referred to the long periods of tenure of the rectorship of the church as having been unique and paid a tribute to both Mr. Sampson and Mr. Unsworth.

Rev. H. A. Cady, of St. James' church, conveyed congratulations from his own congregation. He said it was a coincidence that there had been seven rectors in St. George's church and seven in St. James' church. He told of the many changes and developments which had taken place in the locality and in customs since St. George's church was dedicated.

He believed that Saint John was on the eve of an era of progress and that as the city advanced the churches would also advance.

Mr. Unsworth spoke briefly in reply, declaring that Mr. Sampson had laid a wonderful foundation for the work of the church and he hoped he would be able to follow in his steps.

Many delightful musical numbers were given during the evening and these included violin solo, Mrs. T. J. Gunn, accompanied by Mrs. F. J. Hodgson; soprano, Mrs. H. Gregory, accompanied by Mrs. T. J. Gunn; reading, Ronald Shaw; contralto solo, Mrs. Stanley Harrison, accompanied by Miss Maria Beaty.

Dainty refreshments were served by a committee consisting of Mrs. W. W. Donohoe, Mrs. Frank T. Belyea, Mrs. John Maxwell, Mrs. C. Smith, Mrs. Alvin Currie, Mrs. Stanley G. Olive, Mrs. Herbert Fawcett, Mrs. William Smith, Mrs. George Chetty and Mrs. Arthur Hatfield.

\$25,000,000 MILL IN ONTARIO PLANNED

New York Times Proposes to Produce Newspaper at Kapuskasing

Canadian Press Despatch. TORONTO, Sept. 30.—The Telegram says today: "The presence in Canada of Adolph Ochs, proprietor of the New York Times, is explained on the eve of staging a total expenditure of \$25,000,000 in Canada as a result of which The Times will procure its entire usage of newsprint from one Canadian source, owned by Ochs interests."

"It was explained this afternoon by the secretary of Mr. Ochs that the proprietor of the New York Times has just concluded a business trip into Northern Ontario, in connection with the proposed large newspaper project. The site selected for the paper plant is at Kapuskasing.

"A new mammoth plant for newspaper production will be built. The waterpower for the mill will come from Smoky Falls, where 75,000 horsepower will be generated."

SUPPER AND SALE VERY SUCCESSFUL

Ladies' Aid of St. Matthew's Church in Charge—Enjoyable Event

The Ladies' Aid of St. Matthew's Presbyterian church, Douglas Avenue, under the convenship of their president, Mrs. Benedict Haines, held a very successful supper and sale in the schoolroom of the church last evening. The tables were decorated with asters, dahlias and marigolds. Many patrons enjoyed the excellent supper. A creditable sum was realized and will go towards the renovation fund of the church.

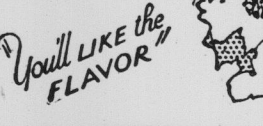

The conveners of the tables were: Mrs. J. A. Morrison, Mrs. John Malcolm, Mrs. George G. Corbet and Mrs. Albert Moore. They were assisted in serving by a very able committee of church workers: Mrs. B. Haines and Mrs. Edward Scott poured tea and coffee; Mrs. Robert Guild had charge of the meats; Mrs. Charles Kelly and Mrs. L. A. Colwell had charge of the potatoes; Mrs. Austin Galbraith and Mrs. J. Brooks looked after the jellies and Mrs. Herbert MacFarlane collected the tickets at the door.

Miss Carrie Bailey and her Sunday class of girls had charge of the pron table, which was attractively decorated. Miss Annie Aird and her L. T. group conducted the candy which was very prettily arranged in many colored boxes.

BRITAIN SEEKS FILM SALE IN DOMINIONS

Wants Fair Show Given Them; Conference to Take up Matter

LONDON, Sept. 30.—The British government is apparently determined to enlist as much support as possible from the Dominions to insure the granting of a fair show for British films as opposed to American.

A memorandum has been prepared giving the latest information regarding the British film industry and this has been sent to all Dominion governments so that when the question comes up at the forthcoming Imperial Conference the Premiers of the several Dominions will be well informed on the subject. The plan favored by the British government involves a compulsory quota system by which a certain proportion of all films shown throughout the Empire must be of British-make in order to break the American system of block booking with the government will argue that in certain respects Americans are a real menace to the best interests of the Empire, unless a proportion of British films is also shown.

DR. LOGAN SPEAKS AT MARQUETTE 'U'

Is Lecturing on Canadian Literature at Colleges in U. S. Middle West

Canadian Press Despatch. MILWAUKEE, Sept. 30.—Marquette University here, the largest Roman Catholic university in the United States, with an enrollment of 5,000 students, has the distinction of being the first university in the United States to introduce Canadian literature into its curriculum.

Dr. J. D. Logan, of Halifax, N.S., who is delivering special lectures on "The Social Basis of American Literature" in the universities of the middle west, opened his lectures at Marquette by naming his course "North American Literature." His purpose was, he explained, to include Canadian literature treated from the point of view of its relations to civilization and the culture of Canada.

Dr. Logan's lectures have awakened wide interest and are being largely attended. His aim, he explained, is to promote better understanding and amity between Canada and the United States.

NO ATTENDANCE MARKS IN DANGER

Capacity of St. Louis Park Not Big Enough to Reach Last Year's Record

NEW YORK, Sept. 30.—Attendance records for world's series have ever been determined by the capacity of the parks. The Giants and the Yankees, playing in two of the biggest baseball stadiums hung up a record for total attendance in the world's series of 1923 of 801,430 paid admissions for six games.

The largest attendance for any single game was 62,817 for the fifth game of the 1923 series played at the Yankee Stadium. The smallest paid attendance was in the world's series of 1908 between the Chicago Nationals and the Detroit Americans when only 62,232 persons passed through the stiles.

As none of the National League parks has the capacity of the Polo Grounds where part of the 1923 series was played, it is unlikely that any new attendance records will be hung up this year even though part of the series is run off at the huge Yankee Stadium. More money was taken in at last year's series between the Washington Senators and the Pittsburgh Pirates than was ever garnered at any previous series. The total attendance was 282,890 but the increased number of high priced seats accounted for the record gate receipts of \$1,182,854.

DIGBY WAR VETERAN PASSES IN HALIFAX

Frederick Lambert Enlisted in 26th Battalion; Was Gassed Overseas

DIGBY, Sept. 30.—The whole community was saddened today at the news of the death this morning of Frederick K. Lambert, one of the most popular young men of Digby. He was born at Calgary, Alberta, 33 years ago and enlisted in the 26th Battalion at Sussex when the war broke out in England he was transferred to the 104th and sent to France. He served there with great distinction. He was badly gassed and invalided to England where he remained one year, returning to Digby in 1918. He resided in Digby and was in fairly good health until some months ago when he went to Campbell Hospital for treatment.

He is survived by one child, who is living with his wife's parents, Mr. and Mrs. William Cairnes, of Digby. His wife predeceased him two years ago. The remains will arrive in Digby Friday and the funeral will be on Saturday. Interment will be in the Methodist cemetery. Rev. Jabez Appleby officiating. Deceased was a prominent member of the G. W. V. A.

Night Cops May Have Smoke On Beat

PHILADELPHIA, Sept. 29.—Night policemen in this city do not have to slip away in a doorway or hunt a dark street if they wish to smoke while on duty. Any Philadelphia policeman who is on duty from midnight until 7 a. m. may puff away to his heart's content on cigar, cigarette or pipe while he patrols his beat.

Police officials, in announcing the innovation, said, in substance, that "any man who smokes will smoke somehow during a tour of duty. It's better to have them on the streets than sneaking away in doorways and other places to enjoy a puff."

The police officials declare that they have found it keeps the men on their beats more and that it doesn't impair their efficiency a bit.

GENEVA, Sept. 30.—The Chinese delegates to the seventh assembly of the League of Nations have called all chambers of commerce and other associations in China urging the League to demand that Great Britain as a result of the Wahshan bombardment should be obliged to abrogate the Anglo-Chinese Treaty and its substitution by one based upon absolute equality and reciprocity.

Breaking of Dam Brings Death To 100 In Florida City

The Everglades city of Moore Haven, Fla., suffered far more from the floods which came with the breaking of the Lake Okechobee dam than from the Florida hurricane itself. Nearly a hundred persons are believed to have been drowned. Photos show Moore Haven's main street as the waters of the flood began to subside, making search for the dead possible; and a mother with her baby rescued in a small boat by two volunteer workers.

—and The Trees Grew

LONDON, Oct. 1.—"If there be any truth in the Word of God, may seven trees grow from my grave," said a woman, who was an atheist, as she lay dying 213 years ago. And the trees grew.

ed her on her deathbed to offer her words of spiritual comfort. "But when she saw him," writes an old chronicler, "her face became as that of a fury."

ENDS LIFE AFTER SEVERAL ATTEMPTS

Montreal Man's Wife Says He Took Suicidal Notions When Drinking

MONTREAL, Sept. 30.—William Wilson, aged 40, has succeeded in what detectives say was his fifth attempt in seven years to kill himself. His mother-in-law found him dead, hanging from a cord in the woodshed at the rear of his home, St. Jerome street.

HOSPITAL AS EQUAL OF CHURCH, SCHOOL

President Bachmeyer of American Hospital Association Stresses Growing Importance

ATLANTIC CITY, N. J., Oct. 1.—The growing social and economic importance of hospitals in modern civilization was stressed by Dr. A. C. Bachmeyer, superintendent of the Cincinnati General Hospital and President of the American Hospital Association, at the organization's twenty-eighth annual convention. More than 5,000 delegates from all over the United States and Canada were welcomed.

SPECIALIZATION IS DEFENDED

"The many scientific advances and discoveries of the last half century have operated to make our civilization the most complex of all time," said President Bachmeyer in his opening address. "Home life has undergone many changes. In the large cities the individual dwelling is rapidly giving way to the apartment hotel and tenement. When illness invades the home the life of the family is grossly disturbed because there is no place to care for the sick one."

Bishop Prizes Title Of "Children's Friend"

WINNIPEG, Man., Oct. 1.—"There is more in a title I would rather have in the whole world than that of 'The Children's Friend' given to me by boys and girls themselves," said the Bishop of London last night when addressing a meeting here which was attended by more than 4,000 men and women. In keeping with the title he prizes so much, the Bishop made his final public meeting in Canada before leaving for the United States today, the occasion for an appeal to Canada to pay serious attention to the physical, mental and spiritual welfare of the children.

Latest edicts of Paris as interpreted for Canadian women

By Lucille La Marre

MEN may watch the "ticker." Men may watch the financial publications. They may keep a close tab on finance and politics.

But every woman watches with equal interest the latest edicts of Paris. London and New York may be the financial capitals of the world, Geneva the focal point of international relations, but Paris, to woman, is paramount. To her, that vibrant city on the Seine, we turn with expectant interest, certain that she will have gathered for us a bounteous offering.

This is all aside from the question of importation and the resultant duty. To-day Canadian women, the nation over, are offered almost simultaneously with Paris the very latest, most approved models in gloves, hosiery and lingerie.

It is, as you doubtless know, a house specializing in things of silk, and is one of the world's largest purchasers of pure silk and pure dyes.

By this I mean it is preeminently dependable, not sacrificing style to quality, but combining sheer beauty with long wear, a happy marriage of Fashion and Economy.

How discouraging it is to buy without such assurance. If one goes by "looks" or "feel" alone, at the counter, how disappointing it is to have a lovely thing become shoddy all too soon. How costly!

SMOKER BRINGS SO. END LEAGUE SEASON TO END

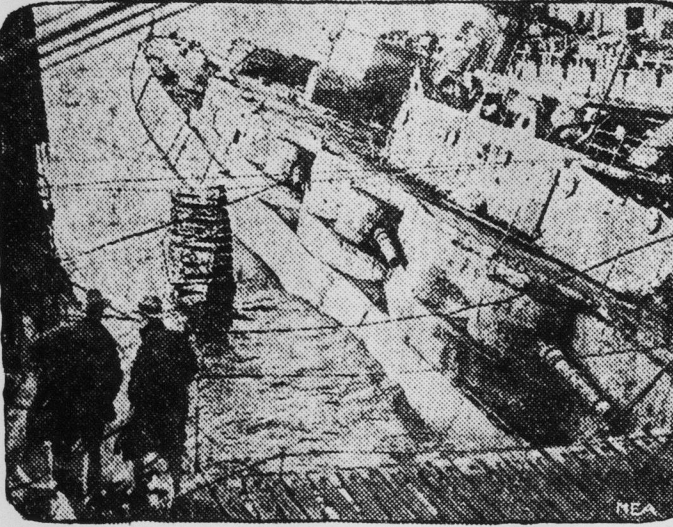

Prizes Presented at Enjoyable Event in St. John Baptist Rooms

The formal closing of the South End Senior League was held Thursday night in St. John the Baptist rooms, when President Chesley had as his guests the teams comprising the league, the officials and members of the society. The large meeting room of the society was filled to capacity and the colors of the various clubs were displayed about the walls.

The president, J. C. Chesley, was in the chair and in his opening remarks reviewed the activities of the league and told of the uphill fight they had to complete their schedule. He congratulated the members of the teams for their sportsmanlike conduct during the entire campaign and expressed the wish that all the teams would participate in the league of next year.

Among the guests was Rev. J. J. McDermott, pastor of the St. John the Baptist church. Father McDermott in his address urged the formation of a New Brunswick Baseball Association to settle all the misunderstandings in the handling of the baseball situation in this city.

MAN JAILED IN WESTMORLAND SHOOTING CASE

Cecil McNaughton Says Not Guilty of Wounding Little Shemogue Farmer

MONCTON, Sept. 30.—Cecil McNaughton, a young man of 19 years of age, whose home is on the Noonan Road, near Melrose, Westmorland county, was arrested at his home late this afternoon by Sheriff D. H. Charters, of this city, and Provincial Constable Tremblay, of Port Elgin, in connection with the mysterious shooting on Thursday evening, Sept. 23, of Murray, 64-year-old farmer, of Little Shemogue.

The prisoner was brought to Port Elgin and arraigned before Magistrate Cogg and was remanded until Wednesday, October 6, at 2 o'clock. Following the court proceedings McNaughton was conveyed to the county jail at Dorchester where he will be held until the trial resumes.

The wounded man is still confined to the Highland View Hospital at Amherst and the report received here tonight is that pneumonia has developed and his condition is regarded as being critical.

2 WARSHIPS AT HALIFAX

H.M.S. Calcutta and Capetown Return From Blowing Up Wreck

Canadian Press Despatch. HALIFAX, Sept. 30.—H. M. S. Calcutta, Captain A. D. Cunningham, the flagship of Vice-Admiral Sir Walter Cowan, commander of the North American and West Indies squadron, accompanied by H. M. S. Capetown, Captain Dawson, arrived at Halifax today from Port-au-Prince, Nfld.

The warships have been at Belle Isle Strait in connection with the blowing up of the wreck H. M. S. Raleigh. The length of their stay here is indefinite, probably about a week.

GETTING BACK OF THEM!

The Orphanage Fair committee have spent a lot of time and money in their endeavor to help wipe out the \$27,000 deficit on the maintenance fund of the Orphanage, and while up to date everything is going excellently, donations of all kinds are still coming in, the attendance is good and the financial receipts on the whole are all that could be expected from those who have attended. But there are comparatively speaking, only a small percentage of the whole Protestant people who have as yet got back of this effort. We wish to remind those who have not, that the committee's success or failure all rests in their hands. Without a much larger attendance and support, it is a practical impossibility to meet the objective. What are the Protestants going to do about it? The money must be raised and it is not only your Christian duty to assist, but the good name of Protestantism demands it. Looking after the orphans and homeless of today is making good citizens for the future. This is worthy of your most serious consideration.

New Cannery To Open In West Saint John

Another industry is coming to the city of Saint John, The Maritime Canneries, Limited, whose place of business was destroyed on September 8, at Long Reach, have secured premises in Saint John street, West Side, and expect to commence operations about October 11. This was the cheery news received last evening from the manager of the company, E. J. Tucker.

The company are also opening up a new place in the country in four weeks time. The first products of the plant in West Saint John will be oven baked beans. This product will be prepared in well constructed brick ovens and packed in sanitary cans. As much of the raw material as possible will be bought in the local market, Mr. Tucker added.

Weddings

Stevens-Lingley.
A pretty wedding took place on Wednesday afternoon at 3:30 at St. James' church, Westfield, when Miss Mariel May, daughter of Mr. and Mrs. Edward Lingley, of Sagwa, became the bride of Robert Thorne Stevens, son of Mr. and Mrs. Edward Stevens, of Grand Bay. The ceremony was performed by Rev. A. J. Patstone. The church was beautifully decorated with white flowers and autumn leaves by friends of the bride. The choir sang "The Voice That Breathed O'er Eden" and "O Perfect Love". Mrs. A. M. Woodman played Mendelssohn's wedding march. The bride was unattended, looked charming in a traveling gown of blond georgette with rosewood hat and carried a bouquet of pink roses. The happy couple left immediately after the ceremony on the Montreal train for Detroit and other U. S. cities. The groom is a telegraph operator in the employ of the C. P. R. Many gifts of silver, cut glass and china were received. Mr. and Mrs. Stevens will reside in Westfield.

RADIUM INSTITUTE DIRECTOR EXPELLED

Canadian Press Despatch. NEW YORK, Sept. 30.—Dr. C. Everett Field, director of the Radium Institute of New York, has been expelled from the American Medical Association, the Medical Society of the State of New York and the Medical Society of Queen's County for "prescribing and widely advocating the use of a secret remedy for the cure of cancer."

The Medical Society of Queen's County contended that Dr. Field did not know the ingredients of the formula he was advocating and therefore would be unable to prescribe an antidote in the event that the cure caused any "dangerous or deleterious symptoms."

ST. LOUIS ADMIRERS BANKING ON FIGHTING SPIRIT OF CARDS

WESTERN TEAM FULL OF PEP, SAY EXPERTS

Money on Series Now Getting Down to Even Basis

NEW YORK, Oct. 1.—Baseball's big spectacle of the 1926 world series, dominated the sports world today with the St. Louis Cardinals in the threshold of their first championship struggle against the New York Yankees.

Speculation as to the outcome appeared to be about evenly divided. Supporters of the Yankees gained comfort in the fact that their favorites will have the advantage in experience as they are now entering upon their fourth world series. However, the Yankees were crowned world champions but once.

Backers of the Cardinals cloaked their beliefs of a world title for St. Louis about the fighting spirit of the players, which carried them to the foremost pinnacle in the National race in what had developed to be an uphill battle at the finish.

FINAL DASHES CONSIDERED

Contrast of the final games of the season between the clubs was also taken into consideration. Shortly after mid-season the New Yorkers had run up an 11-game advantage on their closest competitors, but a slump at the close of the schedule disclosed the lead had been wasted away at times to a margin of only one and one-half games.

On the other hand the Cardinals exhibited consistency in the campaign for premier honors, and in the final days of the league scramble managed to weather repeated challenges thrown forth by opponents. Again, St. Louis has tasted its first championship after 38 years of waiting, and the enthusiasts look for a spur to carry off victory in the impending clash.

HORNSEY VS. RUTH

While the American League club's rooters look to Babe Ruth to furnish the battling thrills, St. Louis also boasts a heavy hitter, Rogers Hornsby, the player-manager, often referred to as "the rajah" of hitters.

As far as the baseball dog is pulling for the Cardinals. Some wagering firms along Wall Street, had the Yankees as favorites at 6 to 5, but many others had both clubs down on an equal basis in the money.

PENNOCK VS. SHERDEL?

Herb Pennock or Urban Shocker were likely to receive the call for mound duty for the Yankees, while "Wee Willie" Sherdel of Grover Alexander were regarded as possibilities for the pitching burdens of the Cards.

Baseball Commissioner K. M. Landis set at rest reports as to whether or not resin would be at the disposal of the pitchers. A resin bag will be behind the pitchers box during each game, Landis said, for use at any time.

Moncton Bodies Comment on Lack of Decision Over Special Meeting

The Yanks and Their Costly Home

HERE is a composite picture of the powerful Yankees outfit that entertains the St. Louis Cardinals tomorrow at the huge Yankee stadium in the first game of the world series. The American League champions are a heavy-hitting crew, with the greatest slugger in baseball, "Babe" Ruth, in their line-up. The Cards are strong sentimental favorites to cop the big series, but it looks as though they will have their work cut out for them.

Thrilling Series As In Last 2 Years Hoped For By Fans

Tense, Dramatic Interest of Battles for World Crown in 1924 and 1925 Are Recalled as Cards and Yanks Line Up

NEW YORK, Oct. 1.—The winning and losing fights of the picture-making Senators in the world's championships of the past two years have taken place among the most spectacular of baseball's classic title battles.

In the brilliant background they have added to diamond history, the tall figure of Walter Johnson, the "Big Train," stands out alternately tragic and heroic.

Johnson pulled the Senators to their first championship in 1924 against New York Giants by holding the fort dramatically in the final game after being pounded in to defeat in two previous starts.

Against Pittsburgh's rampant Pirates last fall, the "Big Train" was invincible in his first two games, permitting only one run in eighteen innings, but in the gloom and mud of Forbes Field he was shelved into defeat as the Pirates came from behind to take the seventh and final game.

As spectacles of tense dramatic interest, of shifting tides of fortune, of sensational uphill struggles and heart-breaking setbacks for rival contestants, these two championship conflicts of the last two years stand at the top of the list. In Washington, there was a background of unprecedented fever in 1924 for the first championship the capital city had ever gained while Pittsburgh burst into fanatical flame over its first triumph since 1909.

These two series, incidentally, were among only four which have gone the full limit of prescribed games, variously fixed at seven and nine contests. The others were in 1909 and 1912.

Observers recall the 1912 series, between the Boston Red Sox and New York Giants as one of the most fiercely fought of all. Eight games, including an eleven-inning tie, was fought out before the Red Sox finally emerged triumphant, beating Christy Mathewson in ten innings in the final contest, aided by a costly error by Fred Snodgrass, Giant outfielder. So nerve-racking was the series that after it was all over the rival managers, John McGraw and Jake Stahl, declared their men could not have withstood the strain of another game.

Time—Games start at 1:30 p.m. Standard Time, except on Sundays, in New York when starting time is 2 p.m. Reduced to Saint John time, the games in New York will start at 2:30 o'clock on week-days and 3 o'clock on Sundays while in St. Louis the games will begin at 3:30 p.m.

Price of tickets—\$1.00 for unserved bleacher seats to \$6.60 for box seats at both parks.

Umpires—George Hildebrand and Bill Dinneen for American League; Bill Klein, and Hank O'Day for National League.

British Soccer LONDON, Sept. 30.—The football games played today resulted as follows: English League, Third Division, Southern Section—Hewport County, 2; Charlton Athletic, 1; Queen's Park Rangers, 3; Aberdare Athletic, 0.

LOS ANGELES, Cal., Sept. 30.—The Times says that Charles Hoff, Norwegian pole vault champion, who turned professional recently, has filed a suit for \$100,000 against officials of the Amateur Athletic Union, charging that they have influenced United States immigration authorities to deny him an extension of a permit to remain in the country.

Hoff has been notified that it will be necessary for him to leave Oct. 15. An attempt to take out naturalization papers brought the information that Hoff must first return to Norway, Hoff said, and wait three years before he can make application for citizenship. The vaunter charges that he was forced into professionalism to earn a living, following his suspension by the A. A. U., last May, for failing to appear in an athletic meet in San Francisco. A. A. U. officials claimed they had barred Hoff from further competition for his own good, alleging that their only other alternative was to professionalize him.

INFLUENCE DENIED. NEW YORK, Sept. 30.—Flat denial that any influence whatever was brought to bear by the A. A. U. on immigration authorities to have Charles Hoff expelled from the country was made today in response to reports that the Norwegian athlete had sued the Amateur Athletic Union for \$100,000.

Dempsey A Great Sport Even In Defeat

Jack Dempsey still is a big centre of public attention, crowds thronging about him in New York. He arrived in the big city recently and whatever else may be said about Dempsey, he has taken his licking like a real man.

He was asked in an interview if the rain bothered him. "No," the reply came as the ex-champion smiled again. "I wasn't bothered by the rain. And I wasn't sick. I have no ailment to offer. The only handicap I had was myself. I lost to a better man and there's no other answer to it. There'll be no ailment from me or from any one else connected with me. I just wasn't there."

Whether I will fight again or retire, I am not prepared to say now," continued Dempsey. "I will have a statement on that within a few days. I have plenty of business to attend while here, some of it in the courts, where, it seems, my next fighting will be done. But whether I will continue in the ring or quit, I am not prepared to commit myself just now."

"The biggest kick of the whole fight was me after I returned to Atlantic City," Dempsey asserted, his shoulders shaking as he laughed. "Some one called up at the Ambassador Hotel where I was stopping to find out if there was truth in the report that I had committed suicide after losing the fight. I've always been willing to

admit that I was a little crazy, but never twice crazy. I had four stitches taken in that cut over my left eye, an old one which was reopened and extended. Everything seems to be healing alright now, but my real hard luck came after the fight, when I got some sort of litch on top of my other bruises.

"It's a funny thing, but I've had more sympathy levelled at me since I left the ring in Philadelphia, than ever before in my life. I suppose it's perfectly natural, and I appreciate the interest taken in my welfare and well-being, but I don't want sympathy. I'm still a big strong man. I don't need any sympathy and I want no alibis. The best man simply won."

"I am undecided what to do now. In the meantime I'll play around a little. I like New York. There are plenty of good shows here I've missed seeing up to now, and I intend to see them all. I'll attend the world's series games here, too."

Just then the telephone in Normie's room rang. It was from Mrs. Dempsey. "All right, I'll be right down. Right away," said the former champion, and hung up the receiver. Then, turning to the assembled newspaper men, he said: "Well, it looks as if this interview is over. Mrs. Dempsey said that dinner's waiting downstairs, and here I go. So long boys. See you tomorrow morning."

Suzanne Is Also Supreme At Ping-Pong

NEW YORK, Oct. 1.—France is supreme at ping-pong as well as tennis. This was demonstrated last night when the four international court stars gathered together by C. C. Pyle exhibited their dexterity in an impromptu match in a salon of the liner Paris.

Suzanne Lenglen and her countryman, Paul Feret, took the measure of Mary K. Brown and Vincent Richards, in a Franco-American mixed doubles contest, 6-3, after which Lenglen "battered" Miss Brown to defeat at 6-1.

LIFE doesn't change much from year to year. Here Connie Mack is announcing "plans for a pennant winner in 1927."

KING GEORGE has lost \$100,000 on the horses this year. He could lose considerably more betting on his heavyweights.

CAL COOLIDGE is back home after a vacation in the woods and we hope he isn't one of those birds who go around the office comparing sunburns.

FATE has a snouty way of thumbing its nose at invincibility. Nobody knows that better than Bill Tilden, Bobby Jones, Helen Wills and Dempsey.

POLITICAL observers say Coolidge is not gaining in popularity. This is surprising when you stop to consider his unswerving refusal to appear in public in blue flours.

BOSTON'S last high-hatted cabman has disappeared. But you can still find plenty of high hats in the community if you motor out as far as Harvard.

MAN'S IT about this time a year ago that everybody was saying the Pirates were such a great club they couldn't possibly lose before 1930?

CLUBS IN TWO CITIES TO MEET THIS EVENING

Break With M. P. B. to be Discussed Here at Victoria

LOCAL amateur ball clubs will gather tonight in the Victoria Hotel to consider plans for the proposed breakaway from the M. P. B., and representatives have been invited from all Saint John clubs. Halifax clubs also are meeting tonight to consider a similar matter.

Considerable comment was made at a meeting of affiliated amateur clubs of Moncton city held last night that no action has as yet been taken by S. F. Doyle, president of the M. P. B., of the A. A. U. of C. in calling a special meeting to investigate charges of irregularities at the annual meeting of the branch at Amherst.

The representatives present were unanimous that such a meeting should be called at an early date and surprise was expressed that President Doyle had not made any statement as to when the meeting would be held.

An appeal was ordered sent to all affiliated clubs in Nova Scotia and P. E. I. to have representatives present at the special meeting so that the multiplied state of affairs may be ironed out.

WATERMEN MEET The Water Department A. A. met last evening to consider the present situation in regard to their team's position in the playoff for the New Brunswick title and appointed a committee consisting of James McCarthy, president, and James McLeod, manager, to interview W. E. Stirling, New Brunswick vice-president of the M. P. B., on the matter.

Messrs. McLeod and McCarthy met Mr. Stirling and told him they were entirely dissatisfied with the treatment accorded their team in the playoffs, according to Manager McLeod after the meeting. President McCarthy resigned Mr. Stirling's resignation.

MAE EDWARDS CO. VERY PLEASING IN 'THE HUMBUG'

Opera House Players Entertain Well in Drama and Specialties

In "The Humbug," presented last evening at the Opera House by the Mae Edwards Players, the company repeated the success of the opening bill. It is a comedy drama, with much of lighter touch to entertain, and deeper sentiment as well. It is built upon the efforts of a devoted sister to save a brother unjustly accused. Woven into the story is the bachelor life of two college chums, one of whom is forced by circumstance to assume the role of a girl to get his pal out of a scrape. All sorts of complications ensue, to the distress of the players in their assumed parts and to the delight of the audience. In these scenes Claude Pinckney makes a marked success as the pretended sister. Lawrence Hayes is right

with him through the troublous times and Miss Matzle Cecil Clark cleverly carries out an important part of the story. Miss Edwards plays the lead with much taste. Miss Peggy Downes, Billy Webb, Walter Sanville and Paul Linton round out a well balanced cast. Bright vaudeville numbers were given between the acts. They included a good dancing act by Billy Webb; Downes and Downes, with patter and drum; Anita Webb, who sings after the Eva Tangany style, and other features. Outstanding is the work of the Mae Edwards novelty orchestra, an excellent aggregation of masters of jazz. They had to play several encores. Tama and specialties pleased greatly and the performers had the pleasure of entertaining a large and well satisfied audience.

JOE GLICK LOSES FIGHT TO MORGAN

Junior Lightweight Champion Retains Crown in 15 Round Bout

NEW YORK, Sept. 30.—Tod Morgan, of Seattle, successfully defended his Junior lightweight championship against an onslaught by Joe Glick, of Brooklyn, when he won a decision in a 15-round bout here tonight. Morgan was able to avoid the jinx pursuing champions in all branches of sport in the year of 1926 by taking no chances with his opponent who was a dangerous but wild left to the championship arena. The champion was cautious throughout the early rounds but grew less timid as the bout progressed and finally after the tenth round began to show aggressiveness lacking in the earlier stages. Glick was floored for a count of five in the eleventh round but came back in inventive fashion and finished the round fighting. This was the only semblance of a knockdown during the fifteen rounds. Morgan weighed 128½, and Glick was one pound heavier.

BOWLING LEAGUE PLANS FOR SEASON

Commercial Organization Will Commence Play on October 10

The Commercial Bowling League met last evening in Blacks' alleys to draw up plans for the coming season. In the absence of the president of the League, A. E. Luck, of McAvity's, secretary, presided. Ten teams were represented at the meeting including among the number, representatives from James Pender Company, the Oplemans, the Power Company, Nashuaak Pulp Company, Standard Dairies, Bankers, C. N. R. Post Office, Kierstead's and McAvity's.

The opening date of the league was set for Oct. 10, when the first two teams to be drawn for will start the ball rolling. It is expected that H. R. McLellan, honorary president of the league, and donor of the beautiful trophy, will roll the first ball. Number 10 teams are entered and ready to take part in the scheduled number of matches, it was pointed out at the meeting that there are still two vacancies and any teams desiring to fill in these two vacancies are asked to get in touch with either Harry Black or A. E. Luck at McAvity's. A 12-team league is desired if possible, so it remains for any of the business houses boasting bowling teams to get in touch with either one of these two gentlemen as soon as possible. Tom Black, was appointed referee of all matches. With a 12-team league it is planned to duplicate this feat. The McLellan trophy has to be won three years consecutively, the C. N. R. last season defeating the Pender team who had two straight wins, thus depriving them of any chance of taking it permanently for the next three years to come. Much interest is being manifested in the Commercial League this coming season and it is expected that large crowds of enthusiastic fans will be on the side lines when the first match gets under way. A schedule will be drawn up within the next day or so after sufficient time has elapsed for all teams desiring to enter the league to notify the secretary, Mr. Luck.

MAYOR RECEIVES ENDORSEMENTS OF DR. BRITAIN

J. G. Harrison Sends Opinions on Proposed City Hall Investigator
Speaking this morning about the proposed survey of the civic administration and taxation system and the bringing of Dr. Horace L. Britain here with a view to engaging him to undertake this work, Mayor White said that he had made enquiries before recommending that Dr. Britain be asked to undertake the work and was satisfied he was the best man for the job.

MR. HARRISON'S LETTER

The letter follows:
Sept. 17, 1926.
His Worship Mayor White, City Hall, City.

Dear Sir,—With reference to our conversation in regard to the appointment of a suitable party to make a detailed report on civic conditions, as they at present exist in Saint John.

After forty years of experience, I have come to the conclusion that the best man, if one is appointed to undertake a job of this nature, would be Dr. Horace L. Britain, of the Citizens' Research Institute, Toronto.

In support of this opinion, I should like to quote from a number of letters received.

SIR JAMES WOODS states—"Regarding Horace L. Britain, I know him intimately, and have the greatest confidence in his ability along the line required by your Saint John friends. His integrity is beyond doubt. If he undertakes the job, he will do it thoroughly and conscientiously. If the citizens of Saint John simply want their affairs investigated, and if they are in need of a chartered accountant; but I take it they want a report on their civic affairs generally, and if so, I would think he would do useful service for your friends in Saint John."

SIR JOSEPH FLAVELLE writes—"Dr. Britain has done a great deal of the character of work asked for by the City of Saint John, and from my greater experience in this work, than anyone else in Ontario, in addition, he is a conscientious capable man. He has a quality of sustained effort, which is rare, and a fine body of common sense. I do not know anyone else I would recommend to you, and I would think he would do useful service for your friends in Saint John."

A. O. DAWSON, of the Canadian Cottons, Ltd., writes—"From inquiries I have made in Toronto in regard to Dr. Britain, I am led to believe that any work he may do for the City of Saint John would be quite satisfactory."

W. S. GIBSON, of Toronto, writes—"In my opinion, Dr. Horace L. Britain would be an admirable man to conduct an investigation, such as you have in mind. I am acquainted with Dr. Britain's work in different parts of Canada, and I have never heard anything but praise of his efforts. He undoubtedly possesses the necessary tact and forcefulness to get results, without unduly antagonizing the different civic authorities. A careful inquiry shows that Dr. Britain is unique in his field in this country, where there are individuals who pose as municipal managers, but Dr. Britain has had more experience in advancing recommending plans and schemes for municipal improvement, than all the rest of them in Canada put together."

From the managing secretary of the Winnipeg Board of Trade—"I may say that Dr. Britain's report on the civic affairs of Winnipeg was very satisfactory to those who were sufficiently conversant with civic matters to understand the report."

CITY CLERK, Vancouver, B. C.—"In the year 1920 the city engaged Dr. Britain to report on the local taxation situation in Vancouver, and he accordingly made a report after making a survey of the situation. From a civic standpoint, the report was quite satisfactory to the council, and was accepted, as far as the council were able to do so."

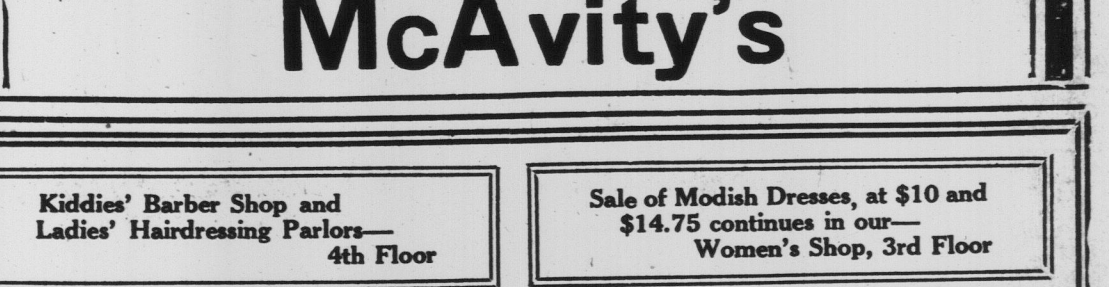

Trusting this information will help in arriving at a decision as to who would be the proper man to appoint, if any, for this required service, I am, Yours very truly, (Sgd.) J. G. HARRISON.
