DE VALERA GOES TO DUBLIN WITH PREMIER'S OFFER

Lloyd George to be Kept Informed on Discussions.

Newspapers Continue Hopeful and Irish Leader Confident—Some Unionist M. P.'s Objecting to Government's Course.

London, July 22.—The centre of interest in Irish affairs was transferred to Dublin today with the departure of Eamon De Valera and his cabinet for the seat of their government. The Irish leader is taking with him a document he received yesterday from Lloyd George, setting forth definite proposals by the British government as a settlement of the Irish problem.

These proposals will be submitted to members of the Dail Eireann, as well as other prominent Irish Republicans, and Lloyd George will hear from time to time how the discussions are proceeding. Later Mr. De Valera will return to London for further conversations, and Sir James Craig, the Ulster premier, may re-enter the negotiations at this time.

It is authoritatively stated that the peace in Ireland will continue for an indefinite period, thus convincing the most skeptical that the factions still are far from disorganizing.

London newspapers this morning take an amazingly cheerful view of the entire situation, refusing even to anticipate the probability of a breakdown. Some Unionist M. P.'s Dissent.

Meanwhile opposition from the extreme Unionists appears to have hardened somewhat as a result of an interview which several Ulsterite members of the commons had with Austen Chamberlain, leader of the government forces, yesterday.

While this interview is understood to have had for its purpose the conciliation of Ulster supporters in the House of Commons, a statement issued by the department said that Chamberlain's explanations were "entirely unsatisfactory" and that about forty of the dissenters had passed resolutions "expressing grave apprehension over the government's Irish policy."

Just how much this hostility will be allowed to affect the government is not yet apparent. The London Times says it is not to be underestimated and adds: "Certainly the relief and satisfaction which would be produced by the settlement of the Irish problem along any lines would sweep the opposition aside and give the government overwhelming authority to conclude the arrangements."

DeValera Expresses Confidence. London, July 22.—Eamon De Valera arrived at Euston station a little after eight o'clock this morning to take an eight-thirty train for Dublin. To newspapermen he said:

"Although the immediate future is uncertain, we have perfect confidence in the ultimate success of our cause. A few minutes later he stood up in his carriage to address a large crowd of Irish enthusiasts, who swarmed about the station. First in Irish then in English he thanked them for coming out so early in the morning to bid him good-bye, and said everywhere he went he found the same enthusiasm for the Sinn Fein, which only a just cause could inspire.

"I am perfectly certain our cause will win in the end. It may take some time to accomplish, but success certainly will come. Of that I have no doubt."

Cheering and singing, the crowd surrounded the train. Just as it was steaming out, an old Irish woman made her way to the front and shouted: "God bless you, sir, Ireland needs you." De Valera acknowledged by smiling and waving his handkerchief.

Irish Newspaper Opinion. Dublin, July 22.—Belief that the conversations between Eamon De Valera and Lloyd George will be resumed is expressed by the Freeman's Journal. It says the interview in London yesterday was evidently not their last.

"One thing, at any rate, seems certain," it continues. "There can be no return to the monstrous, unwholesome condition to which Ireland had been subjected, before the truck, by the British government."

The Irish Times considers that the public will derive satisfaction from the fact that the proposals submitted emanated from the coalition cabinet, which Mr. De Valera did not feel justified in immediately turning down. "This indicates," adds the paper, "a great advance, which we trust will not be countered by the gathering forces of reaction during these unfortunate, if necessary, periods of delay."

ULSTER GETS COPY OF TERMS. Belfast, July 22.—A copy of the Irish peace terms handed by Premier Lloyd George yesterday to Eamon De Valera, was placed before and considered by the Ulster cabinet today.

No opinion on the terms was requested by the British premier, it was said, and none has been given.

Canada's Front Door

St. John harbor is our most cherished possession. It is too valuable and highly prized to be turned over to the mercies of the harbor commission act. Let us keep it till Canada realizes its importance in the growth of the Dominion and a true nationalization plan is presented.

INTIMIDATION IS ALLEGED

Street Railway Trouble Gone Into.

Charge Made Against E. M. Elliott—James E. Shepherd, Motorman, Tells of South End Incident.

Ernest Minto Elliott was before the police magistrate this morning charged with intimidation of an employee of the N. B. Power Company on the evening of Sunday, July 17. He pleaded not guilty and the evidence had been taken the case was adjourned to Monday morning at 11:30.

Dr. F. R. Taylor, K. C. appearing for the N. B. Power Company, asked that, as he was unfamiliar with the facts, having only been informed of the case this morning, the accused be remanded until he had an opportunity of going into the case and finding what witnesses were necessary. J. A. Barry, counsel for the accused, said that his client was employed by a business man who was out of town at present and that he had charge of the business and therefore would like to have the case disposed of at once to permit of his return to his work. The magistrate said that the accused had the option of having an adjournment entered and if necessary having the case go to the supreme court or of being tried by him under summary conviction. The accused elected to be tried under the latter form. The case was then proceeded with.

James Shepherd was the first witness for the prosecution. He swore that he was a motorman on the street railway which runs along Wentworth street a week ago last Sunday. He was the operator of car No. 84 running on the Prince William street line. He had been a motorman since he was 16 and was not formerly in the employ of the N. B. Power Company. On the evening of July 17 he was left to take care of the car on the street about 7:15 to go to his home in the west end. He went along Wentworth street and noticed that he was being followed by about ten men and boys. When he reached Garmarthen street, he said he turned and hurried into the gate at the car barns in Wentworth street about 7:15 to go to his home in the west end.

He said he saw a man in a dark suit and hat who he said was following him. He said he saw a man in a dark suit and hat who he said was following him. He said he saw a man in a dark suit and hat who he said was following him.

FRANCE REGARDS IT STILL SERIOUS

Sees Crisis Over Upper Silesia Reinforcements.

Briand to Press His Views Upon President—Papers Feature London Reports on Stand Taken by Mr. Lloyd George.

Paris, July 22.—The Anglo-French controversy which has arisen over the demands by France that Allied reinforcements be sent to Upper Silesia is still regarded by the French press in the light of a crisis.

While the British reply to Premier Briand's proposal that the supreme council meet on July 23 to discuss the matter has not been received, press despatches from London to that effect that Lloyd George is taking a firm position against sending reinforcements and prominently displayed in the Paris newspapers.

It is understood that Premier Briand, after a meeting of his ministers today, will reiterate his stand to President Millerand and insist upon the necessity of sending additional troops.

Belief is held in Paris that the French reply to a French protest against German activities in the Silesian area is expected in Paris this morning, but the British believe it will have little effect on the situation.

This newspaper also expresses surprise that the British stand to President Millerand is an entirely different interpretation upon the communication from the Allied High Commission, which the French reading is correct.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to the Times reporter, "I see the town's walkin' up. They was talkin' an' harbor commission up in the market this mornin'—I been feller's arguin' about it in the square. Some of 'em didn't know any more about that three commission act than the laws allow. One feller said it 'ud bring the taxes down an' the wharves was fallin' down anyway an' it 'ud be a good job to unload 'em on somebody. You 'ud heerd what another feller said to him. It was as good as a play-act to him. Well, I'm glad the folks is walkin' up. It's a good sign. St. John's had no more you got some here that wouldn't throw a good sellery over their shoulder, nuther. Was you thinkin' about it?"

"I trust," said the reporter, "my merits will not be overlooked."

"Go to it," said Hiram. "I will," said the reporter.

St. John Expected to Send Men to Quits Tourney—Feature of Sydney Races—A Ring Fatality.

Toronto, July 22.—Confirmation was received yesterday by the Canadian Henley Regatta Association of the entries from the Vesper R. C. of Philadelphia.

A four representing the Philadelphia club will be stroked by George Kelly, who will also row double with Costello.

Entries for the lightweight, junior and senior eights have been received from Detroit, while the Belyea brothers of St. John, N. B., have entered the junior and senior sculling.

The Argonaut Club is lending their four and two shells to the Philadelphia entrants.

Sydney Races. Sydney, N. S. W., July 22.—The setting back of "The Ghost" for helping "Lak Be Sure" and the firing of Bob McGowan for refusing to start "Our Peggy" in the third heat of the 225 club were features of yesterday's postponed meet at Ashby track. The card was commenced Wednesday afternoon by Summary:

Herman Home. New York, July 22.—Pete Herman, former world's bantamweight boxer, who will arrive to retrain the babies Lynch in Brooklyn on Monday night, arrived today from England on the S. S. Orinda. He sailed immediately after he knocked out Jim Higgins, English bantamweight champion in the eleventh round of a scheduled twenty round bout on July 11. He has been training during the voyage. Friends say he has shown all his latest bouts an aggressiveness and punishing power that has been lacking since he won the title from "Kid" Williams in 1917.

Ring Fatality. Galveston, Texas, July 22.—Henry Eates, the "Prisco Kid," a local boxer, died last night from injuries received in a fight with a man named Ed. Eates of Oklahoma. Eates was knocked out in the sixth round and never regained consciousness. A charge of negligence has been filed against Owensky.

Quits Championships. Halifax, N. S., July 22.—The maritime quits championships will be held on August 25 and 26, the place to be selected next week. Pitou county has asked that they be held in New Glasgow, and it is thought that town will be chosen. St. John, New Glasgow, Stellarton, Westville and Halifax players are expected to compete.

Eucharistic Congress for Quebec in 1922. Toronto, July 22.—His Grace Archbishop Neil McNeil has received official notice from His Eminence Cardinal Begin of Quebec that the next eucharistic congress will be held in the city of Quebec in 1922.

It is expected to bring to Canada a gathering of priests and ecclesiastics such as has not been seen since the days of Rome in modern times. The congress which was held in Montreal in 1910 brought unprecedented crowds from all over America, including Latin America, as well as from Europe and more distant parts of the world.

GOLD FOUND ON ONTARIO FARM. Bourke's Sliding, Ont., July 22.—A spectacular discovery of gold in Northern Ontario has just been made in the township of Benoit. The find lies on A. Anderson's farm. Samples of the ore were brought out yesterday. The gold is shot through in leaves such as the silver occurs in the high grade silver ore at Cobalt. In addition to this heavy gold there are loose leaves of pure gold which are as big around as a twenty-five cent piece.

The body in which the rich ore occurs is about eight feet in width, in which are stringers measuring two to three inches in width. The gold occurs in the intervening rock is highly mineralized.

BUT SHE TOOK ONE FOR BETTER OR FOR WORSE

Folkestone, Eng., July 6.—(Associated Press, by Mail)—Every woman knows that men, "though interesting creatures, are tiresome, hard to control and are prone to seek their own way in spite of warnings, according to Mrs. H. A. Fisher, wife of the president of the British National Board of Education. She told an audience at the Royal Sanitary Institute Congress that most men become ill entirely through faults of their own and "sowed seeds of trouble for themselves by eating too much, eating the wrong things, drinking too much, being lazy, keeping late hours or living in hermetically sealed rooms."

NO DIVISION OF CLASS AT DUKE'S CAMP FOR BOYS

King's Son to Have 200 from High Grade Schools, and 200 from Workshops as Guests.

London, July 22.—An interesting experiment is going to be made by the Duke of York, youngest son of King George V. Two hundred "public school boys," by which, in England, are meant the boys attending a relatively small number of high class educational institutions of which Eton and Harrow are the best known examples, and another 200 lads from the workshops of Great Britain are to be his royal highness's guests for a week, at a summer camp in Kent.

Another item provides for one million five hundred thousand pounds to take care of the increased cost of unemployment insurance arising from the exceptional industrial situation.

Although the British taxpayer this year will be required to contribute more than nine hundred million pounds to the national account, as compared with a pre-war contribution of two hundred and seven million pounds.

Of this total, three hundred and thirty millions are required to look after the war debt, one hundred and twenty millions for pensions and sixteen millions for other obligations to men who fought in the great war.

Many More at Work. London, July 22.—(Canadian Associated Press)—An indication of the improving industrial situation in Britain is furnished by the latest report of the labor department of the board of trade, which shows that the number of unemployed was 100,000 below that during the previous week.

Every effort is being made to regain the export coal trade which was lost during the miners' strike.

Colonel MacMillan has just returned from the United States and Canada, will have to be met in European markets, formerly dominated by the British coal trade, but even the miners recognize that recovery of the coal trade is essential for the national prosperity.

EASES MINDS OF OUR HEROIC DEAD

A Salvation Army Official's Refutation of Report of Empty Graves.

Toronto, July 22.—"The people of Canada may set their minds at rest concerning the bodies of their heroes who were buried in France and Flanders," was the reassuring message which Col. MacMillan of the Toronto territorial staff of the Salvation Army brought today, in reply to a distressing item cable from Canada, after publication in the London Express, about Canadian soldier graves being found empty.

Colonel MacMillan has just returned after the international social congress of the Salvation Army in London. He was delegated by General Bramwell Booth to make a tour of inspection of the cemeteries and graves of British soldiers in France and Flanders.

"The cemeteries of the Canadians are in splendid condition," he assured. "They are tended with the greatest care and with a spirit of devotion and kindness that is amazing. Parties of British troops are about everywhere examining bodies from their solitary graves and bringing them to the common resting places."

EXPLOSION ON SHIP. The Admiral Farragut Disabled and Twelve of Crew Scalded. San Francisco, July 22.—The steamer Admiral Farragut is disabled twelve miles north of San Francisco by an explosion of her main feed pipe, according to word received here early today. She is reported to be belching and drifting in a dense fog. Twelve members of the engine room crew are reported severely scalded, one probably fatally.

The steamer, which is of 1400 tons and belongs to the Pacific Steamship Company and left San Francisco for Seattle at 6:35 last night, with passengers and freight.

There are seventy-five passengers aboard the Farragut which has a crew of sixty. The tug Sea Eagle was sent from here with physicians to attend the injured men.

of the Safety Storage Warehouse, 41 Governor street, confessed, the police say, that she "fished up" a hold-up that she reported on July 12, when \$405 was stolen. She told that she stole the money and gave it to her sweetheart, John Letts, of 208 Goodwin street, so they could get married, the police reported to the newspaper men. She and Letts were arrested. The woman was released in \$500 bail, but Letts was un-

able to get bail and was held pending action of the grand jury.

Miss Christie, who is the daughter of Peter J. Christie, manager of the warehouse, was arrested after the police had questioned Letts. He had a revolver which, he said, Miss Christie carried wrapped in paper when she called at his home and accused him of paying attention to another girl, so the police version goes. After receiving the money from Miss Christie, Letts, the police say, is a native of Yarmouth (N. S.), and returned to Chicago. They also say he told

A SEARCHING ANALYSIS.

The attendance at last night's meeting in Pythian Hall shows that public interest in the question of harbor commission is being aroused, and that the citizens want to know what it is they are to vote upon on the first of August. Mr. H. R. McLellan made a clear explanation of the harbor commission act, showing from the document itself that it would impose impossible burdens upon the harbor revenue without pledging the government of Canada to spend one dollar on harbor development.

One of the significant statements made by Mr. McLellan, and he challenged successful contradiction, was that the act is so drawn as to make the government the trustee for the harbor commission, and not the commission a trustee for the government. That is to say, under the act as drawn the commission would be the actual owner of the harbor. This would be an extraordinary state of affairs.

Mr. McLellan was especially effective in dealing with Hon. Mr. Ballantyne's estimate in parliament that the harbor revenue would be \$225,000, and would meet all charges, including interest and sinking fund. He clearly showed that the charges laid upon the harbor revenue by the act would, if new work were undertaken, call for an expenditure such as would require about three times the amount named by Mr. Ballantyne. It was made perfectly clear, however, either that parliament was being deceived or that the harbor revenue was expected to pay the charges enumerated in the act. That being so, if any appeal were made hereafter to parliament in behalf of St. John, it would be possible for any member to cite the act and the minister's assurance when it was being passed, and ask why the country should be asked to do anything more—especially as the people of St. John had agreed to the terms of the act, which placed the whole burden upon the harbor revenue.

Mr. McLellan proved by the act itself that the only thing the government is pledged to do is to redeem harbor commission debentures to the value of \$637,282.45. The act says that if the harbor commission does not redeem them the government will do so. It does not make any such pledge in relation to the \$1,842,117.55 of harbor debt.

By a computation which speaks for itself, Mr. McLellan showed that under the provisions of the act the harbor commission would face a very large deficit before it began to spend a dollar on new work. Even if his figures as to the cost of construction of the government works to be taken over were greatly reduced, there would still be a huge deficit. For the act, as Mr. McLellan points out, takes a property that is paying its way and saddles it with another which is not doing so, and adds other charges which still further increase the burden.

The Times suggests to its readers that they read very carefully the report in this issue of Mr. McLellan's address. It deals with the harbor commission act, and it is the act the people are asked to endorse or reject. Let nobody be deceived by the assurance of Mr. R. E. Armstrong that after the vote has been taken the mayor and city council will make a satisfactory agreement with the government. That is the most remarkable suggestion that has yet been made. The harbor commission act is the agreement. It is an act of parliament. Even the government cannot vary its terms. Once it is accepted, the city is bound by those terms, and the city council can make no changes. And when any man argues that the government will look after all deficits let him be confronted by this statement in parliament by Hon. Mr. Ballantyne:

"I am going to advise the harbor commissioners of Vancouver, Montreal and Quebec that the federal government will look to them not only to pay the interest on the money loaned, but to set aside a sinking fund to take care of these debentures instead of the federal government having to take them up. They ought to manage their revenue so as to be able to do this."

No doubt the statements made by Mr. McLellan will be challenged by the advocates of harbor commission. Let us hope they will call meetings and discuss the harbor commission act. Their hearers should insist that they confine themselves to the act, for that is the only issue. Let us hope also that every member of the city council will place himself on record and give his reasons against the act. As the directors of the

city they should have long since told the shareholders (the taxpayers) whether they regarded this commission act as good business or not. The time is now short, but the whole subject should be fully and publicly discussed before the vote is taken.

WHAT OF THE FUTURE?

If the harbor commission act is rejected, what will be the condition of affairs in respect to St. John harbor? In the first place the tri-partite agreement will stand. Under that agreement the government must provide facilities as needed at West St. John. The Canadian Pacific says that agreement is good enough for it, and has added the information that there is enough pier accommodation now at West St. John to handle all the traffic the railway can bring there until it has a double track to Montreal. And when more piers are needed the tri-partite agreement will bring them. This disposes of West St. John.

As to the eastern side of the harbor, it is known that the C. N. R. has plans for additional wharves for its traffic, which were held up partly because of the scarcity of money and partially because the harbor commission act has not been disposed of. The C. N. R. has two lines running to St. John. Here they meet steamers owned by the government. For the sake of its own railway and steamship business the government must provide port facilities on the east side of the harbor.

Thus, if the harbor commission act is rejected, the government is, in no sense relieved of its obligations, first under the tri-partite agreement, and second, to provide terminals for its own railways and steamships. If such terminals were provided under the harbor commission act, the act says the harbor revenue must take care of the interest and sinking fund. If anybody contends this is absurd and impossible, then that is a reason for rejecting the act and calling for an agreement the terms of which would not be absurd or impossible.

If the harbor commission act is rejected, St. John remains just what it was before—a national port on one of the great trade routes of the Empire. It will still be able to appeal to the people of Canada to recognize it as a national port, and not to impose upon it burdens which the whole country should bear.

A VOTER'S QUERY.

A voter wrote to the Globe yesterday as follows: "Will you please state just what the ballot paper for the vote on August 1st will be? Do the people vote in favor or against harbor commission, or is the vote in favor or against the act? If the vote is favorable either way, are the commissioners then compelled to sign over the harbor on behalf of the city, or can they first insist on certain changes being made? I think the electors should have all the information possible."

These are very proper questions. The harbor commission act, in what the people will vote upon. It will not be within the power of the city council or of the government to vary the terms of the act. It is an act of parliament and only parliament can change it. The Globe intimates, and Mr. R. E. Armstrong has also intimated, that the city can impose terms and conditions. This is wholly incorrect. The act stands, and if the people vote for it they accept the terms. There is a great difference between harbor commission and the harbor commission act. Mr. McLellan, for example, says he is in favor of the principle of harbor commission, but he opposes this act. Unless, therefore, those who do not favor the act of the city, or can they first insist on certain changes being made? I think the electors should have all the information possible."

It is being whispered about that the wharves in St. John harbor are in very bad condition. Whoever hears the whisper should ask what engineer says so, and ask to be shown his report. There is no such report. The foundations of the St. John wharves do not decay. The upper portions can be repaired as required at moderate cost. There are some who seek to convey the impression that under harbor commission we would have the wharves rebuilt—possibly of granite. That is too ridiculous. Most of the wharves in the great port of New York are of piling and crib-work. If we had harbor commission tomorrow what would be torn down and rebuilt of other material. The city's most important wharves today are quite as good as those built by the government.

THE SPIDER.

Out from that secret Me I spin, I twist, A drifting, shifting web of fantasies, Which from those two frail posts, Hope and Despair, Hangs tremulous to every wanton air, To every change of the skies.

I weave, I wind, and, on a sudden, fall Down a silk-soft thought far over the abyss. Ah! then, poor spider, what if a wind shake Your precious labyrinth, and a knot break? What if a strand should miss? —Yonelis Trueman in Westminster Gazette.

MONTREAL STOCK EXCHANGE.

Montreal, July 22—Trading on the local stock exchange during the first half hour this morning was dominated by considerable weakness in some of the leaders. Abitibi, however, remained unchanged at 25, but Bradburd lost a half point to 23-1/4. Brompton was quiet at its yesterday's closing quotation, viz. 20. Laurentide was very weak, dropping two points to 60. Rionden, too, was weak, a small lot selling this morning at 63-4. This issue closed at seven last night. Wayagmack weakened a half point to 40-1/2.

LAUDER EXPLAINS.

Selling Estate Because It Was For His Son.

London, July 22—Sir Harry Lauder said that it was not owing to taxation or anything financial that he was selling his estate in Argyleshire. "The estate," he said, "was bought for my son. Now that he has gone my interest in it has gone. I have no interest but my work." The comedian's only child, Captain John Lauder, was killed in action in France.

MAKE COURT LIFE MORE DEMOCRATIC

Expected Result of Visit of Japanese Crown Prince to Great Britain—Pictures of Royalty in Press

Tokio, June 24—(Associated Press, by Mail)—Changes, democratic in nature, will probably be made for the court life of Japan and in the relations of the imperial family to the people, as a result of the visit of Prince Hirohito to Europe. It is likely that the printing of photographs of members of the imperial family in newspapers and magazines will be permitted. The military guards which are always established on the occasion of a visit of a member of the imperial family to any place outside the palace will also be simplified, if the suggestions which have been formulated by officers of the imperial household are accepted. According to one report, the household department requested the Crown Prince to inquire while he is abroad as to the customs which are followed in the royal family of Great Britain and as to the social work which are undertaken by them. It is assumed that these customs and practices which exist in Great Britain will be adopted here following the Crown Prince's return to Japan.

MARKING OF GOODS.

Department of Customs Preparing Regulations. Ottawa, July 22—Regulations governing the marking of goods with the name of the country of origin, as required under the amended customs regulations of last session, are now being drawn up by the Department of Customs and Excise. It was stated and these will probably be issued soon.

\$5,000 IN GEMS SENT TO COBBLER IN PAIR OF SHOES

Disappear Before She Recalls Hiding Place—Shoemaker Claims Not Having Seen Them.

New York, July 22—Mrs. Frank Colenso, of 173 High Street, Williamsburg, took a pair of old shoes to a cobbler to be repaired, she told detectives, but failed to recall that she had been using the shoes as a receptacle for \$5,000 worth of diamonds and other jewels. When she remembered the treasure concealed in the shoes, rushed to the shop of the Franklin Shoe Company, at 155 Hooper street, and asked Tony

Colenso, the proprietor, to produce her shoes. A hasty examination showed that their contents had disappeared. Colenso said that he had not seen any jewels when he had the shoes on the repair bench and returned the footwear to Mrs. Colenso. She hurried to the Thirtieth District Detective Bureau and detectives began an investigation which had not been completed last night. Mrs. Colenso told them that she had been in fear of burglars and since she had no immediate need of the shoes put upon them as a place of safekeeping. Burglars, she said, never would think of looking into the toe of a shoe for hidden valuables. She explained that she had not worn the shoes for several months and had almost forgotten that she had them, but upon finding the shoes in a closet on Sunday decided to have them repaired. At the outset the detectives urged her to make a thorough search of her home. They pointed out that she could not have been positive that the jewelry was in the shoes when she took them to the cobbler or she would have removed the articles.

STARTS ON HER 4TH JOURNEY ON MATRIMONIAL SEA

Stenographer, Three Times Divorced, Twice from the Same Man, Marries Her Employer.

Richard H. Long, prominent shoe manufacturer and Democratic candidate for governor, and Miss Laura J. Bousquet, a stenographer in his Worcester office, were married last night by the Rev. William A. Knight, pastor of Plymouth church, Framingham, Mass. The former Mrs. Long was killed in an airplane accident at Salisbury Beach on July 10, 1920. Mr. Long is fifty-six years old and has six children. His bride, a native of Canada, has been married three times before, twice to the same man. On each occasion she obtained a divorce and was permitted to resume her maiden name. At Worcester, Mass., in 1903, Miss Bousquet married Ira St. James, and she divorced him in that city April 10, 1911, on grounds of neglect. She then married N. H. Brown, and in June 16, 1916, she divorced him, also at Worcester, alleging cruelty. According to records she remarried Brown in New York City Jan. 27, 1917, and lived with him there, at Bridgeport, Conn., and Worcester. She again won a divorce, alleging cruel and abusive treatment, once more taking her maiden name. The second Mrs. Long is about thirty-five, and attractive. She is at the parental home at Framingham with Mr. Long and his eleven-year-old daughter.

WIVES OF PRIME MINISTERS

Lady Astor Descants Humorously on Their Powers. London, July 7. — (By mail) — A luncheon was given at the Langham Hotel yesterday by the British Women's Patriotic League to Mrs. Lloyd George and the wives of the dominion prime ministers. Princess Louise presided, and the guests were received by Mrs. Lloyd George.

Lady Cowan (chairman of the league), in welcoming the dominion guests, said that since the war the tie that bound them was not that of sentiment, but sacrifice. Lady Astor said that she admired the wives of the imperial prime ministers.

**\$65,000 GEMS GONE,
OWNER ARRESTED**

Chicago Police Deny Preston's Tale of 1,000 Wrist Watches Lost in a Hotel Room.

Chicago, July 22. — Harry Preston, said to be a member of the firm of Preston Brothers, wholesale jewelers in New York, and John Zuckerman, Chicago representative of the firm, were arrested here after Preston had declared he had been robbed of \$65,000 worth of jewelry in the Hotel Sherman.

Chief of Detectives Michael Hughes, together with Edward Kerwin and William Bruns, representing Lloyd's of London, refused to believe Preston had told the truth.

Preston declared the jewelry, including 1,000 wrist watches set with diamonds and pearls, had been taken from his grip while he was in the barber shop.

The police said nobody was seen to enter or leave the room during Preston's absence, and declared if any one had gone into the room the floor clerk, whose desk is near by, would have seen him.

They also questioned the bellboy who took Preston's grips into the hotel. The boy said the "empty" suitcase felt just about as heavy as when he took it from Preston to carry it in. He said that if it contained 1,000 wrist watches it was "a deceptive bag." It felt very light, he declared.

The insurance men, when called in, said it was queer that a thief would bother to transfer 1,000 watches and other pieces of jewelry from one grip to another instead of taking grip and all. They had no hesitancy in calling the robbery a "fake" and sent messages to ask New York authorities to have the firm's books examined. The jewels had been insured for \$50,000.

The total stock of the Preston company is said to be valued at \$100,000, according to the police, and Chief Hughes said it did not seem plausible to him that \$65,000 worth of jewelry should have been brought here to deliver to Zuckerman, who has been with the company only three weeks, and who has hitherto received only samples to show customers.

Preston registered at the hotel at 11:50 o'clock, he says, put the two grips in his room, called up Zuckerman and then went to the hotel basement to get a shave, a hair trim and a shine.

As soon as he went back to his room, he told the police, he found the grip that had contained the jewelry was empty. Immediately he notified representatives of Lloyd's of London, and then called the hotel detectives and the police.

A woman clerk on the eleventh floor, however, asserted positively that "no one entered Mr. Preston's room except himself."

Her desk is about twenty feet from the door of Preston's room.

She said she saw him go out and lock the door. Later, she said, Zuckerman called, knocked on the door and went away without having entered the room.

"I am sure nobody either entered or left room 1112 during Mr. Preston's absence," she told the police.

Preston was asked to give the police a complete list of the articles he declared were stolen. He said there were 1,152 pieces of jewelry in the grip, and priced them at \$65,000.

A number of other jewelry salesmen stopping at the various Loop hotels, the police admitted, had reported jewelry robberies during the last few years.

FORMAL OPENING PLANS ARRANGED

Arrangements for the formal opening on Wednesday of the new nurses' home of the general public hospital were discussed at the meeting of the Women's Hospital Aid held yesterday afternoon in the Board of Trade rooms with Mrs. F. H. Carter presiding.

The programme, as decided upon, was as follows: Formal opening address by Lieutenant Governor Pugsley at two o'clock; address by Mrs. E. Albertson Smith, president of the aid; address by M. E. Agar, chairman of the board of commissioners and, if they accept the invitation, addresses by Dr. Thomas Walker and Senator Daniel, former presidents of the board of commissioners. The unveiling of the memorial tablet to Nursing Sister Anna Stammers was placed as the last event in the afternoon programme. The tablet is the gift of friends of Miss Stammers, largely those among her own Baptist denomination. It was decided to place the tablet near the main entrance to the home and to ask Rev. E. H. Bone to take part in the ceremony of unveiling.

The treasurer, Mrs. R. Duncan Smith, reported receipts of \$5,794.36 in the general fund and a balance of \$3,763.85. The flower fund total was \$1.11 and the furnishing fund total, \$13,447.91. From Percy Thomson the sum of \$200 was received to furnish one bedroom and from Mrs. Moore, the sum of \$155, being the balance of the amount to furnish one bedroom in the name of the Salvation Army.

Gratification was expressed at the treasurer's splendid report. She said also that Manchester, Robertson, Allison, Limited, had paid for the insurance on the furniture while it was in the city.

waiting for the home to be ready for its installation.

Mrs. A. W. Estey, as convener of the building committee, reported on the weekly visits to the hospital and the distribution of magazines, fruit, candy and ice cream. One little girl had been given a doll and paper dolls and picture books were given the other children. One follow-up case was reported to the convener for the Anglicans, Mrs. Lester Mowry.

Mrs. Ralph Robertson, for the magazine committee, reported that the Anglicans had supplied the magazines during the month.

Mrs. R. Duncan Smith was appointed convener of the committee to have charge of the building of the home on the day of its opening and the members of the executive and volunteer assistants were asked to aid in supervising the various rooms and ushering the public.

It was decided, on Mrs. W. Edmund Raymond's motion, seconded by Mrs. A. W. Estey, to send a letter of thanks to Colonel E. T. Sturdee who presented two pictures, "The Burial of the Unknown Warrior" and "Day Dreams," which will be hung in the new home.

HOW MANY TEASPOONFULS TO A TON?

The average weekly increase in SALADA Sales during the first six months of this year has been TWENTY TONS. TWENTY TONS of tea would last the average North American consumer 32,000 years. Figure from this how many new customers have been gained for SALADA TEA in six months, for this 20 TONS a week represents the INCREASE ONLY in sales.

Tokyo, June 23.—(Associated Press, by Mail)—Japan is planning to electrify her railroads. Electric engines will be used on the main lines for passenger trains.

Notice!

Because of the recent bad reports concerning the purity of the City water supply, naturally people are somewhat concerned regarding that used in the manufacture of beverages of all kinds.

For our own reputation and the protection of the public, we submitted samples of the water used by us to the Department of Health with the request that a Bacteriological examination be made and a report submitted.

The Department under the direction of Dr. H. L. Abramson advises that the necessary tests have been made and

"The Water Is of Excellent Quality."

This is about as we expected, as the elaborate filtration equipment which we have always used guarantees us a pure supply at all times.

SUES FOR WOOLWORTH TAX.

State Seeks \$3,269, Estate Having Paid Only \$28 in 1919.

Albany, N. Y., July 22.—The state tax department has instituted court proceedings against the estate of Frank W. Woolworth to compel payment of \$3,269 in income taxes for 1919.

The estate paid \$28, holding that that was all it was required to turn into the state treasury under the non-resident clause in the income tax law.

STOCKS DISAPPEARED.

Twelve French Farms Stocked With War Material.

Nantes, France, July 22.—Twelve farms, quickly stocked with cattle and machinery intended for the devastated regions, have led to the seizure of their owner, Pierre Jarry, secretary general of a corporation handling the claims of owners of devastated properties for government reparations, and have resulted in the discovery of alleged irregularities estimated by the authorities at 20,000,000 francs.

It is charged that large quantities of stocks and materials for the devastated areas have disappeared and that the amounts of some claims were, that many fold, the alleged amount of 90,000 francs.

BONDS WENT FAST.

Toronto, July 22.—The excellent demand that exists at present for short term offerings was given another demonstration yesterday, when Hon. Peter Smith, provincial treasurer, after his sale of five million dollars, six months treasury bills on Monday, authorized a further sale of ten million dollars to the same syndicate.

The entire fifteen million dollars in treasury notes goes to a syndicate composed of Dominion Securities Corporation, A. E. Ames & Co., Wood, Gundy & Co., and A. Jarvis & Co., and the price for the entire amount of 99 1/2 per cent.

The syndicate sold the whole of the original \$5,000,000 within half an hour. The extra \$10,000,000 is in two blocks, half six month bills and the balance in twelve month bills.

BUY THAT HOME SITE NOW! PRICES OF BUILDING MATERIALS ARE DECLINING to normal. This means a greater demand for desirable building lots and a consequent increase in value and price. Buy your lot now while you have first choice of desirable sites and before prices move from the present low level. Our easy terms enable anyone to secure a freehold lot. THE FIRST STEP TOWARDS OWNING A HOME IS BUYING A LOT. We are exclusive selling agents for building lots on the following properties: PORTLAND PLACE—(Lansdowne Avenue, off Main Street, opposite Harrison; Dufferin Avenue, off Main street, opposite Simonds). A highly improved residential property, boulevard streets with paved roadway, grass plots and concrete sidewalks, city water and sewage, electric lights, reasonable building restrictions that insure uniform and pleasing development. We strongly recommend lots on this property to particular people. Easy terms to those intending to build. TISDALE PLACE—(One Mile House to Kane's Corner and out Red Head Road). This has been the most popular property on the market to the man who does all or part of his own building. Our easy terms have enabled many to escape the monthly drag of paying rent. Many fine homesites remain. A few with city water. WESTMORELAND HEIGHTS—(Opposite One Mile House). A new property just subdivided and put on the market and already in good demand. This is proving just as popular as Tisdale Place. The terms of sale are the same. Quite a number of lots have city water. Get first choice on this desirable property. LANCASTER HEIGHTS—(Between car line to Seaside Park and Sand Cove Road). High, level lots with a fine view of the Bay and surrounding country. These are undoubtedly the finest homesites on the western side of the harbor. Easy terms. MOUNT PLEASANT COUNTRY—(On Mount Pleasant Avenue near Rockwood Park). This is the highest class residential property in the city. Only four lots remain. Restricted to good class self-contained houses. A real opportunity to secure the best. OUR EASY TERMS—Our terms on all the above properties except Mount Pleasant Court are 1-10 cash and the balance in monthly payments of \$10 each, with interest on the outstanding balance only at 7 per cent. Larger payments accepted at any time. Everyone can buy a lot on these terms. It is the first step towards owning a home. GET YOURS NOW. NEW AIR ROUTE FROM PALESTINE TO MESOPOTAMIA

London, July 5.—(Associated Press by mail)—Regions that would have to wait many years before they could be traversed by railways are now quickly mastered by aerial transport. News comes today from the air ministry that a new air route has been opened up across the desert between Palestine and Mesopotamia. Notification has been received of the arrival at Bagdad of three airplanes of the Royal Air Force which have flown over this route.

The new route is about 590 miles long. It is an extension of the present Cairo-Ramleh route. It starts from Ramleh, where is the main Royal Air Force aerodrome in Palestine, passes through Amman (east of the Jordan) and Kash Aarak, where landing grounds have been prepared, and proceeds thence in an almost straight line across the Arabian

desert to Ramadid on the Euphrates, and thence to Bagdad.

The distance between the principal stations are as follows: Ramleh to Amman, sixty-five miles; Amman to Kash Aarak, fifty-five miles; Kash Aarak to Ramadid, 400 miles; Ramadid to Bagdad, sixty miles.

Out 'E Goes.

A London temperance orator was in the habit of holding forth in a workman's hall, and was constantly being interrupted.

The next time he lectured in that hall he engaged a prize-fighter to sit in the gallery and keep order. He was contracting the clean content of home life with the squallor of drunkenness.

"What do we want when we return from our daily toil?" he asked. "What do we desire to ease our burdens, to gladden our hearts, to bring smiles to our lips and joy to our eyes?"

As the orator paused for breath the prize-fighter shook his fist at the unruly

LIVING WAGE AND SOME COMPARISONS

(Ottawa Journal.)

We hear a great deal about "a living wage" during these days of readjustment. A letter published recently from the head of one of the railway unions indicated that the reduction of wages, which was to become effective 1st July, was still under consideration by the employees, who were concerned that they should have enough to meet the cost of living. It is obvious that we are utterly lacking in any standard by which the sufficiency of remuneration in such instances may be gauged. The pay which is more or less cheerfully accepted by large groups of workers is held to be wholly inadequate by others. This is the case just now with respect to railway wages. Without wishing to touch on the merits of the issue, the testimony offered the other day to the National Railway Labor Board by Fitzgerald Hall, general counsel of the Nashville, Chattanooga & St. Louis Railroad, would seem to be pertinent.

Mr. Hall said that "when judges, college professors, high school and grammar school teachers, policemen and fire fighters receive, as a whole, very much less than railway employees as a whole, there can be no just claim that a reasonable reduction in compensation will deprive railway employees of a proper living wage." He then proceeded to make some suggestive comparisons.

"The principal of the high school at Nashville, the capital of Tennessee, the educational centre of the South, receives \$250 per month, while yardmasters receive \$305 per month. High school teachers at Paducah, Ky., receive \$125 per month; at Chattanooga, Tenn., \$148 per month; at Huntsville, Ala., \$125 per month, while our blacksmiths receive \$185.51 per month, and our yard switchmen \$189.56 per month. The average Presbyterian preacher in the South is paid \$1,600 per annum—less than one-half the earnings of yardmasters and passenger engineers; \$662.72 less than yard switch tenders.

Vanderbilt University at Nashville pays its full professor \$5,750 per annum; the University of Tennessee at Knoxville, \$3,684 per annum; the Georgia School of Technology at Atlanta, \$3,600 per annum, while the conductor on our Rome branch, eighteen miles long, receives \$5,733.88—a sum greater than that received by the judges of the Supreme Court of the State of Tennessee. Assistant professors and instructors in these colleges and universities receive a maximum of \$2,250 per annum—less than a car inspector receives—less than the baggage-man on a passenger train receives.

"The Judges of the Supreme Court of Tennessee are paid \$5,000 per annum, yet the engineer on our Rome branch, eighteen miles long, receives \$5,997.04 per annum. The negro flagman and porter on our Columbia-Decherd branch train receives \$3,146.50 per annum, being \$148.40 more than the district attorney general of the State of Tennessee, public prosecutors of the state, receive. The fireman on our Columbia-Decherd branch train receives \$3,925 per annum, being \$423 more than the assistant attorney general of the State of Tennessee, the man who represents the people of the state before its Supreme Court in practically every criminal case.

"The engineer on our Tallahoma accommodation receives \$4,371.92 per annum, being \$371.92 more than the salary of the governor of the State of Tennessee. The engineer on our Tracy City branch receives \$378 per month, a sum which is more than either the chief of police or chief of the fire department at Atlanta, Ga., Memphis, Nashville and Chattanooga or Paducah receive. The fireman on our Pikeville train receives \$291 per month—more than twice as much as any fireman in the fire-fighting service in any city on our entire system is paid. The circuit judges and chancellors of Tennessee are paid \$4,000 per annum, which is over \$100 a year less than the conductor on our Tracy City branch is paid.

Such testimony is very confusing to the searcher for the truth. The curious thing, however, is that all the outcry comes from the most highly paid class, while the lower paid classes referred to appear to be struggling alone, uncomplainingly, under circumstances which the other would regard as suggesting starvation.

TONIGHT AND TOMORROW MORNING

Will Be Busy Days for Shoppers

AT

St. John's Greatest Mercantile Event

Just Let's Emphasize These Points of Paramount Importance

Our entire stocks of high quality wearing apparel for men, women and children are marked at substantial reductions during this great July Sale.

These reductions are from prices already low, because our entire stocks were re-priced at replacement value long ago, and so these reductions are from present day values—not from the high prices of some months ago.

Besides our regular stocks all reduced, many lines have been bought new at tremendous price concessions and offered at a very narrow margin of profit; thus you reap the saving on an individual purchase—we reap the benefit of the increased volume.

Remember—Everything is on sale—but they can't all be enumerated here—so come along, see what there is, and save real money.

Features of Yesterday:

New York, July 22.—The Cleveland-New York American box score had such the appearance of two football team line ups yesterday, with pl... of su... Thirty men were used by both teams, Yankees putting in 16 players in a vain effort to stave off the worst defeat of the year. In regaining the coveted 1st position in the American League race, held by New York for 24 hours, the Cleveland team made it rain base hits, their total being 22 against 16 for the Yankees. Sixteen of the 38 hits were doubles. Joe Sewell, knocked out three. He made two other hits in six times up.

Another man, Falk of Texas, with the Chicago Americans, put himself on record with a home run in the 14th inning of the White Sox-Athletics battle, giving Urban Falser his twentieth victory of the season.

The St. Louis Browns chalked up their seventh straight victory by win over Boston.

Rain took charge of two contests in the National League and they were postponed.

In Brooklyn, Grimes, the Superbas, pitching team, returned to form and downed the St. Louis Cardinals in 11 innings.

King pitched the Phillies to their second consecutive win over Chicago.

Moncton Trip Postponed.
The Pirates and Commercial are scheduled to play on St. Peter's grounds this evening. The St. Peter's management announced last evening that the teams would not make the trip to Moncton tomorrow, but probably would play in the railway city in the near future.

Fakirs "do" the Farmers.
An interesting game of ball was played last evening on Kierstead's field, in the Manawagung area, where two local teams of alleged ball players, known as the Farmers and the Fakirs, struggled for supremacy. As is usual, according to tradition, when these two classes of society meet the Farmers came off second best. The game was marked by several sensational plays, the feature one being the catching of a fly ball by Farmer Foster. After the game the players were entertained at the home of Mr. Kierstead, where a musical programme was rendered and refreshments were served.

The teams lined up as follows:
Fakirs—Catcher, Porter; pitcher, W. S. Logan; 1st base, Miller; 2nd base, Pierce; 3rd base, Hatt; short stop, Elyer Logan; left field, Martin; centre field, Roy Robinson; right field, Kinsman.
Farmers—Catcher, McLeod; pitcher, Ira Scott; 1st base, A. E. Kierstead; 2nd base, H. J. Cotter; 3rd base, Lennox; short stop, C. Cotter; left field, Gordon Scott; centre field, Foster; right field, Fieveling.

Umpire, Fred Daston.

Grand Circuit.
In the Grand Circuit racing, yesterday, the 213 class trot, purse \$3000, was won by Mabel, time 2:09.14; the 218 class, purse \$400, was won by Dardanelle, time 2:08.1; the free-for-all purse, not announced, was won by Single G., time 2:09.5.

Fredericton Meet.
Vermont horses won two heats yesterday at Fredericton. The 214 trot, purse \$400, was won by Mabel, time 2:19.34; the 217 trot, purse \$400, was won by Bingen Worthy, best time 2:13.1; the 222 pace, purse \$400, was won by Nora Hill, best time 2:12.34.

On the third shoot off Patterson again brought down twenty-five, while Martin missed two.

The eastern zone team championship was won by New Jersey. Only four states entered this event. The New Jersey team broke 468 out of 500 targets.

The shoot off of the tie in the special fifty target event of yesterday was won by J. R. Honner of New York, who beat Jay Clark, Jr., of Worcester, in a close contest.

In the two hundred target championship, which Patterson won, other high scores by amateurs were—S. G. Vance, Tillsonburg, Ont. 182; J. Jennings, Toddernorden, Ont. 182.

GOLF. Barnes to Lead.
Washington, July 22.—With Jim Barnes of Petham, New York, well out in front of a field of 78 competitors in the national open golf championship, play in the final day of the twenty-fifth annual classic opened today over the course of the Columbia Country Club.

Barnes leads Fred McLeod of Washington and Charles R. Murray of Montreal, who are tied for second place, by four shots, and appears to be the choice for the championship. Just back of Murray and McLeod is Herbert T. Jones, Jr., a young Atlantic City star, who is five strokes behind the leader, with a total of 149. Four men are tied at 150, including George Duncan of Great Britain. Anyone of the seven men within striking distance of Barnes may overtake him by good golf today.

Ten Mile Race.
Philadelphia, July 22.—Thirty-three swimmers, including one Canadian, Sher Mendelson of Toronto, will compete in the national ten mile championship swimming match in the Delaware River from Philadelphia to Riverton, N. J., tomorrow. The present holder of the title is Eugene T. Holden of the Illinois A. C., who will attempt to defend his laurels this year.

RING. Brothers Work Together.
New York, July 22.—Mike and Tom Gibbons, brother boxers of St. Paul, began training each other here today for coming bouts. Mike will meet Augie Natter on August 1, and Tom will fight Georges Carpentier in October. Each will be in the other's corner.

TENNIS. Delays 'Sailing'.
Paris, July 22.—Mlle. Suzanne Lenglen, holder of the world's tennis championship for women has postponed her start of the U. S. until July 30, according to the Auto. She had intended to sail tomorrow.

RIFLE. The Trapsnooters.
New Haven, July 22.—W. H. Patterson of Buffalo won the 200 target contest yesterday in the eastern zone trapshooting tournament at the New Haven Gun Club. High winds put the scores on slightly lower plane than on Wednesday. There were 118 gunners in the competition yesterday and Patterson was tied for first place with G. H. Martin of New York and A. E. Rainey of Greenwich, Conn. Each broke 193 targets. On the first shoot off Patterson and Martin broke twenty-four out of twenty-five and Rainey broke twenty-three. On the second shoot off Patterson and Martin each had a perfect twenty-

MORNING NEWS OVER THE WIRES

Amos Moorehouse was taken into custody yesterday, on suspicion that he murdered Thomas Eugene Farrell on last Saturday night. The specific charge has not yet been laid against him. Moorehouse is an uncle of Miss Gertrude Wills, and was living at the Wills home in Farrington on the night of the murder. He claims that he slept in a barn behind the home on the night in question, on account of the hot weather.

Two sons of Fletcher Sprunt, eleven and nine years of age were drowned at Annapolis yesterday. They were playing on a raft when one fell in and the other attempted to save him. J. D. Barnum rushed to their assistance, but was too late to rescue them.

MEXICO CUTS PRICES USED IN OIL TAXES

Mexico City, July 22.—A virtual reduction of 10 per cent in the price on which taxes on crude petroleum and its derivatives are collected was contained in Circular 107, issued by the Petroleum Bureau. The reduction refers to the prices fixed by Circular 96, issued last May, and according to representatives of oil companies here, it is not concerned with President Obregon's recent decree increasing export taxes on oil.

El Sol Cites George V's Example of Intervention in Public Affairs.

Madrid, July 22.—El Sol, in an editorial on the initiative taken by King George of England in the attempt to arrive at a settlement of the Irish question, asserts that King Alfonso should follow the example of the British monarch and intervene in public affairs in order to secure the most advantageous solution. The newspaper says:

"It is absurd to expect the monarch to observe impartially the criminal spectacle of the politicians who are hurrying into anarchy both the nation and the throne of his ancestors. Intervention by the king certainly would incommode the political oligarchy, but public prosperity demands it."

PUBLIC NOTICE

In view of the unfavorable reports by the Department of Public Health on the City Water Supply. The Purity Bottling Works, Limited, wish to inform the general public that the water used in the manufacture of "Purity Drinks" is drawn from the famous Artesian Well at Oland's Brewery. Several independent analyses show this water absolutely free from bacteria, and especially suitable for the manufacture of carbonated beverages.

Having been advised by experts that filtering would not absolutely purify the city water, we decided to go to the expense of pumping from this noted well.

PHYLLIS CARSON MADE THE HIGHEST

High School Entrance Marks in Fairville, Union Point, Manawagonish and Milford Schools.

The results of the High School entrance examinations have just been received from the Fairville Superior, Union Point, Manawagonish and Milford schools, and show that a good proportion of those taking the papers passed this test.

At the Union Point school, three passed in first division and three in second division, as follows: John Geary, 785; Charles Fitzgerald, 704; Josephine Conway, 687; Francis Collier, 624; Joseph O'Brien, 569; Elmer Collins, 546.

J. D. O'CONNELL HELD UP BY AUTO ACCIDENT. Mayor Schofield received a telegram from J. D. O'Connell, the orphan's friend, saying that he was delayed on account of an automobile accident and would not reach the city until August 1.

WERNER HORNE TO BE RELEASED

German Who Blew Up the Bridge at Vanceboro.

Hun Captain Must be Returned to His Own Country at Once and Must be Held Till This is Arranged.

Fredericton, N. B., July 22.—Werner Horne, captain in the German army now serving a term in the Dorchester Penitentiary, is being held here at the penitentiary and that New York newspapermen are now in the maritime provinces investigating various features connected with the case.

Horne's brother in Brooklyn, N. Y., is said to be taking the principal part in the efforts to bring about the release, although it is said favorable representations for his release have been made on behalf of the German government.

Horne was sentenced to ten years imprisonment by Mr. Justice Barry here in the fall of 1919 for his offense, which was committed in February, 1918.

Soon after he had been taken to the penitentiary it was reported that he had become insane and would therefore be immediately released, but this was later denied. Now it is learned that in the same way as with all aliens he has been boarded to determine whether or not he is an undesirable alien.

Later. Ottawa, July 22.—(Canadian Press)—The government has ordered the release of Werner Horne from the penitentiary at Dorchester.

Some time ago the penitentiary surgeons certified that the dynamiter was insane, and it was on this ground that his release was granted. He must, however, be returned to his own country, Germany, immediately on his release, and the warden has been notified that Horne must not be released from the penitentiary until arrangements are completed for his immediate deportation.

LITTLE RIVER HAS A COMMUNITY CLUB

Prompt Reply to What a Correspondent Said Yesterday. H. B. Harrington, secretary, and E. D. Babcock, treasurer, of the Little River Community Club, called at the Times office today to say that an article in yesterday's Times in which a correspondent intimated that the people of Little River needed waking up was wholly wrong.

There is an active community club, of which Frank Goodwin is president and G. Gard is the recording secretary, and it holds weekly meetings. They ask the Times to print the following reply: "The correspondent responsible for the article which appeared in yesterday's issue of the Times charging the people of Little River with lack of community spirit has evidently been misinformed. If instead of walling and mourning he would show his interest in the community by attending the meetings of the Community Club he would discover what little cause there is for lamentation. Baseball is encouraged, the boy scouts are going strong, and the formation of the Community Club has been carried out with enthusiasm. It is true that the club has but recently been formed and needs the support of all who wish to make this an attractive and a pleasant place in which to live so we take this opportunity of urging all residents of Little River to attend the meetings held in the Methodist church ever Wednesday evening at eight o'clock."

Where "Swat The Fly" is Not The Vogue!

What has this to do with music say you. In certain parts of Egypt they protect the flies from harm because the flies furnish the children with the only music they ever hear! Egypt might have its attractions and advantages, but this would hardly be one of them to us. Years ago the only way to hear the world's great artists was to go to where the world's great artists might be performing at the moment. Today, thanks to new world inventions, the poorest family in the locality can have just as good music as the town's millionaire. The Mountain now goes to Mahomet, and not the other way around. You'll eventually get a phonograph. Why not get it now? You have a summer home? What better than good music to cool away the time? The McLagan is the machine we recommend—and if you will stop in sometime we'll tell you why. The machine itself will, if we can't. Plays all makes of disc records too, by the way.
