## ANNUAL REPORT 1908.

Presented at Meeting of Shareholders January 18, 1909:

The Directors beg to present to the Shareholders the following Report and Statements for the year ending 31st December, 1908.

The Net Profit for the year, after making full provision for interest on Deposits, Rebate on Current Discounts and for all bad and doubtful debts, amount to \$134,442.98. The following disposition has been made of this amount:

Dividends at the rate of 12 per cent. per annum for the first three quarters and at the rate of 15 per cent. per annum for the last quarter, have been declared, amounting in all to \$87,762.62. To the Rest Account has been added \$20,000, and to the Pension Fund has been contributed \$5,000. The sum of \$110,000 has been written off Bank Premises Account. The Balance of \$11,484.45 has been added to Profit and Loss Account.

The Rest Account has been further increased by the addition of \$46,447. Premium on new Capital Stock sold and issued during the year.

In view of the conditions that have prevailed, and the large reserves that have been maintained, the results may be considered satisfactory.

The Statements, now submitted show increases in the various departments as compared with a year ago, and notably in Deposits made by the Public.

The ability of the Bank to use the increased Capital having been demonstrated, and the Rest Account being so large in proportion to the Capital, a larger dividend has become practicable.

Branches of the Bank have been opened in Chipman, N. B., and in O'Leary, P. E. I.

A new building for the Carleton branch is now in course of construction by the Bank, and plans are in preparation for new premises at Summerside, P. E. I., and Grand Manan, N. B. More suitable premises have been leased and fitted up in Halifax, N. S. to accommodate the increasing business of that Branch.

The loans and affairs of the Bank have again been submitted to the inspection of a firm of Chartered Accountants, who have certified to the correctness of the Balance Sheet, and to make this audit as thorough as possible, the various Branches have also been inspected by them during the year.

St. John, N. B., 18th January, 1909.

JAMES MANCHESTER, President

## NORTHUMBERLAND COUNTY COUNCIL

Number of Committees Were Appointed and Some Business Transacted.

### OFFICIAL REPORT

(Special News Service.)

NEWCASTLE, Jan. 19.—Northumberland County Council opened at two o'clock, no quorum being present in the forenoon.

Councillors present at opening were: Aldwick—Wm. Anderson. Blackley—Geo. Hayes, Millet Underhill. Blissett—F. D. Swin, Ronald Hurley. Chatham Town—D. MacLachlan, Ed. Ward, Gallivan. Chatham Parish—James F. Connors, J. Fred Benson. Derby—John W. Vandenberg, Everett J. Parker. Etneg—Wm. V. Ullock, John McNaughton. Hardwick—Michael Bransfield. Lethbridge—Wm. A. Campbell, John S. Pond. Neeson—Thos. W. Flett, James Harigen. Newcastle, Town—S. W. Miller. Newcastle, Parish—R. L. Malby, Lawrence Doyle. North Esk, Edward Mendes. Rogersville—John L. LeBlanc, Thos. Chisholm. South Esk—George Hubbard, James Johnston. Absent—Wm. H. Allain, Egnou; Daniel Lewis, Hardwick; Michael Ryan, North Esk.

On motion Couns. Anderson and Vandenberg the absent councillors were excused for non-attendance in forenoon because of bad roads and Coun. Ryan during the sessions because of illness.

Minutes of last session were read and approved.

H. H. Stuart and J. L. Stewart were on motion, appointed official reporters, at ten dollars per day.

Wm. Irving and John Cassidy were, on motion, appointed constables.

Communications were read from the Union of New Brunswick Municipalities asking for the appointment of delegates to that body and requesting payment of annual fee for 1909; and from the Chatham Natural History Society asking for a contribution fund for the parish of Chatham.

The following committees were appointed:

County Accounts—Connors, Anderson, Parker, Pond, Flett. Petitions—Swin, Benson, Campbell, Vandenberg. Contingencies—Connors, Parker, Anderson, Flett, Pond. Parish Accounts—Campbell, Hurley, Hayes, Vandenberg, Malby, Harrigan, Chisholm, McNaughton, Benson, Allain, Lewis. Visiting Ambassadors—Mendes, Vandenberg, Bransfield. Printing—Benson, Flett, Doyle. By-laws—Miller, Underhill, MacLachlan. To Visit Jail—Johnson, LeBlanc, McNaughton. Ambulance Accounts—Allain, Hurley, Gallivan.

Coun. Harrigan presented a petition in favor of removing polling booth from Mahoy's to A. O. H. Hall in Barnaby River, and explained that the Provincial and Dominion Governments would accept the change which would accommodate all the people of the district. Referred to Com.

The Secretary Treasurer reported that he had obtained promise of squatters on Shekade Island to leave, and had leased island at public auction to Wm. Damery and arranged for issuance of fishing license to Lessee. Referred to Com.

Warden Malby reported as delegate to Municipalities convention. He had been up to inspect government to protest against charging maintenance of paper lunatics to parishes where they had no legal domicile.

Government had admitted it was wrong, and said it should be remedied, but nothing had been done. He advised refusal to pay for pauper lunatics in future.

## HON. CHAS. MARCIL

### ELECTED SPEAKER

Words of Commendation From Sir Wilfrid Laurier, Hon. R. L. Borden and Others As to His Worth.

### MR. MARCIL REPLIES

OTTAWA, Jan. 20.—Charles Marcil, M. P. for Bonaventure, was elected speaker of the eleventh parliament of Canada, which opened at 3 o'clock this afternoon. There was no other business.

Tomorrow the commons will be summoned to the senate chamber to listen to the announcement of the seasonal programme set down in precise phrases in the speech from the throne.

Mr. Marcil's election as the first commoner was not contested. He was deputy speaker of the last parliament and when elected he should have a step up.

There was practically a full house when the clerk asked the members to choose a presiding officer. Hon. W. S. Flettling is in Paris, Sir Fred Borden on the ocean, MacKenzie King is in China at the opium conference and Mr. Sproule has not arrived from Markdale, where he is having a stock sale. These were practically all the absentees. Hon. Mr. Templeman has no vote.

When Sir Wilfrid Laurier made his entry after the commons had returned from the senate chamber and had been elected to elect a speaker and return tomorrow to hear the speech from the throne, the Liberal benches broke into loud applause, and the galleries, which were well filled, looked on in admiration.

Sir Wilfrid Laurier, in inviting the house to its first duty, the election of a speaker, spoke of the importance of the position. He referred to the number selected for the chair, to the qualities that might be expected of him—integrity, dignity, fairness, and impartiality.

In the British House—the mother of parliaments—he said there was an unwritten law that decreed that once a speaker was elected, he was to be respected as a speaker. This was calculated to produce the high measure of efficiency that characterized the holder of the position.

Sir Wilfrid regretted that he had not adopted a similar rule. In the early days of his political career, when he was leader of the opposition, he had made the suggestion to Sir John Macdonald and in the last parliament he had discussed with the then speaker whether it would not be better to adopt the English practice. The speaker had replied that while the honor of the position was great, the sacrifice was greater unless there was a change in methods of procedure it would be impossible to adopt the English system.

Sir Wilfrid pointed out that it was impossible for the speaker to continue his private business. The British House made the speaker's salary a judicial position with a salary of \$25,000 a year and on retirement a pension of \$20,000 a year and a pension of \$10,000 a year. He said that he was not a pensioner but he had a vivid recollection that they were not popular.

It was not in accordance with our traditions to give a speaker for a second term, but it was a tradition that the member who was next to the chair and the house was fortunate in having in Mr. Magill a man of the highest character. As chairman of the committee of the whole house he had discharged his duties with grace, dignity, fairness and marked ability.

Every member of the last parliament would agree that he was endowed by nature for the position and was the possessor of a vast store of parliamentary knowledge.

Sir Wilfrid hoped Mr. Marcil would give satisfaction to both parties and to the scales of justice without fear or favor.

R. L. Borden said the prime minister had described very truly and forcibly the position of the first commoner and he was inclined to share the regret of the premier that all the traditions surrounding the office of speaker in the British House of Commons had not been adhered to here.

Mr. Borden recollected being in England in 1895 when there was a great deal of discussion as to whether Sir Wm. Court Gully should be re-elected speaker, but in the end he was re-elected without opposition. In this country Canadians were somewhat different and possibly it was not regarded as preferable to carry over the conditions obtaining in the Imperial house, but he trusted that in other respects, such as the dignity and importance surrounding the office, we had not been behind.

He agreed with the prime minister that the office must be judicial.

As to Mr. Marcil, Mr. Borden observed as deputy speaker he had conducted himself with dignity and impartiality. Allusion had been made to his methods of campaigning.

I don't purpose the opposition leader went on, to affirm or deny what has been said, I have not the evidence but so far as the system of offering bribes to constituencies is concerned, it is a vicious one (opposition cheers), and so far as I am concerned I lifted up my voice in favor of the prohibition of that by statute. The whole question may be discussed later on in a more complete way. I will say nothing more on that now. But I desire to say that the very judicial qualities with which the speaker is invested would negative the idea that a person in that position could be a suppliant for favors. I trust that I will be understood as laying down a principle which I think ought not to be gained.

The resolution of Sir Wilfrid Laurier and Hon. Wm. Pacion was carried unanimously and Mr. Marcil was escorted to the chair.

Speaker Marcil thanked the house, expressing the hope that he would be supported in his efforts to discharge his duties in an impartial manner.

Mr. Borden was told by the premier that the speaker of the House of Commons on the marine department had now been received.

Mr. Borden also expressed anxiety in regard to the recent troubles.

The prime minister replied that the waterways treaty would be tabled as soon as received.

If your Stomach, Heart or Kidneys are weak, try at least a few doses of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cure rheumatism. And here is why help comes so quickly. Dr. Shoop doesn't drug the Stomach, nor stimulate the Heart or Kidneys. Dr. Shoop's Restorative goes directly to the weak and falling nerve. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity suffer. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading to a new era in the treatment of all universal ailments. A test will surely tell. Sold by all dealers.

## SAW SNOW MAKING ABOVE THE CLOUDS

Balloonist of Wonderful Experience.

### BEAUTIFUL EFFECTS

NEW YORK, Jan. 16.—Lee Stevens, the well-known aeronaut, recently said:—

Ballooning is wonderfully spectacular, but it is not so much a feat of strength as it is a feat of skill. I saw snow in the making. It was beautiful.

There was seven of us in the car—John Larkin, of Buffalo; Mr. Wade, Mr. Morgan, of Cleveland; A. Holland Forbes, Mr. Whyte, Mr. Taylor and myself. We were at an altitude of one and a quarter miles.

"First the snow resembled a great shower of granulated sugar. The sun shining through it gave it all the rainbow colors so that it looked like a great shower of confetti. Then the reflection of the sun's rays played queer freaks. At times the shower appeared to go up instead of down, sweeping below us as though whirled up from the earth by some enormous hand. Down below us when the light cleared we could see the specks spread into big, beautiful disks."

### Describing an Ascent

Stevens' face lighted up with an aeronaut's enthusiasm. "I love to fly in the air," he exclaimed. "Once the ropes are let I am happy." And leaning back in his chair, he gave me a picture of an ascension I shall never forget.

You are floating softly upward into a great blue ocean of air, fresh, sweet, exhilarating. Swiftly the earth sinks away beneath you, howling up around the horizon of an enormous crater. The noisy shouts of "no voyage" die away in a faint wavering strain, and soon you are in the midst of original silence. Not a sound is heard save the gentle ticking of the barograph.

### Changes into Map

The earth changes into a great map. Tall mountains look like paper boxes and then are sped in the general "skitiness." Cities and villages become mere diffused outlines of growing points. Fences change into tiny, evanescent lines; roads look like pale yellow ribbons and rivers like silver streaks in the earth's surface.

Over these is a thin white streak of smoke, waving its length over the green vista. A train is visible, and suddenly it is gone, swallowed up. It would seem that that strange looking earth, but no, it is there, merely plunging into a tunnel beneath a towering mountain, the very presence of which is lost to the balloonist's eye.

Now you pass above the clouds and into a blinding sunlight. The white billows of the car upon them look like a great trackless field of snow. So realistic is the scene it seems as if you could put on snowshoes and walk away.

On the Planet

You are on a new planet now, rounded with a wonderful exhilaration. Beautiful rainbow effects create a vast, iridescent, fairyland all about you. Suddenly a faint, weird music of sweetest cadence strikes the ear and is gone as swiftly as it came. That is some great jarring noise from the earth, or the heterogeneous roar of a big city merged into measured vibrations of harmony, and waiting up to your ear world by some warped current of air.

### ARE YOU A DYSPEPTIC?

Nine people out of ten suffer from dyspepsia and don't know it. Half the pale cheeks, poor appetite and sleepless nights are the direct cause of dyspepsia. The cause lies in failure of the stomach and kidneys are clogged, and unable to do their work. Nothing puts vigor into these organs so fast as Dr. Hamilton's Pills. They tone up the whole digestive system, regulate and strengthen the stomach, absolutely cure dyspepsia! Simple to take and sure to cure—better try Dr. Hamilton's Pills.

### OPERA HOUSE

There will be a special programme put on at the Opera House tonight. The pictures will be: "Queen Tercentenary," in the Land of Gold Mine; "A Mysterious Overlight." A new orchestral programme by Miss May Rodden will be in attendance, also a good list of amateurs are expected to perform. Admission as usual, 10 cents.

### CURLING

Three exciting games were played in the curling rink last evening. The cup series is now well advanced and some of the rinks are down to the semi-finals. The scores last evening were as follows: F. W. Kennedy, 14; D. F. McMillan, 10; Dr. Price, 16; W. H. Marquis, 7; John Cameron, 11; H. G. Milligan, 10. The silver rink should have been skipped by Richard Ellisworth, but in his absence the game was engineered by the sub-skipp, John Cameron.

### WOMEN'S PAIN

Womanly pains, head pains, in fact any pain anywhere can be completely stopped in 20 minutes with one of Dr. Shoop's Pink Pain Tablets. Ask your doctor or druggist about the formula. It is printed on the box—and it can't be bettered. Try one dose and be convinced. Box 25c. Sold by all dealers.

While out walking small Howard found a horse. "Oh, mamma," he exclaimed, "a horse has lost one of its feet!"

## RESTIGOUCHE CO. COUNCIL MEETING

DALHOUSIE, Thursday.—The County Council has been in session for the last three days, presided over by Warden A. G. Adams.

Although considerable time was lost in waiting for accounts all bills were passed tonight, except those belonging to the parish of Chatham, which will be considered Friday.

Mayor Montgomery who represents the town of Dalhousie at the county Board was appointed to the finance committee in place of ex-Councillor Stewart.

No question of great importance will engage the attention of our County rulers during this session except the finances and the road law.

Our Council contains fourteen members, twelve conservatives and two liberals. They would be a happy family if it were not for the road act. Some of these councillors were so loud in denouncing the old government that they were not invited to the highway act of 1904, which was so reasonable in its taxation provisions. History is now repeating itself. Mr. Hansen who asked the councillors a couple of years ago to condemn the Tweedle Road Act is now asking the municipal council throughout the province for advice.

The Restigouche County Councillors will take up the road question on Saturday afternoon.

A more serious question for the people of this county is the financial one.

There is no Quinine, nothing whatever to cure or prevent the disease. These little Candy Cold Cure Tablets act as by magic. A few hours, and your threatening cold is broken. ### MANILA HAS A BAD CLOUDBURST

MUCH DAMAGE DONE—Fields Ruined, Highway impassable.

BRIDGES DESTROYED

MANILA, Jan. 20.—The volcano Langan has been the cause of a "glut" of water. The governor of the province reports by telegraph that a huge area of cultivated fields was ruined. Highways were rendered impassable and many bridges destroyed.

MEXICO CITY, Jan. 20.—The volcano near the city of Columbia is in eruption. It is throwing out a great quantity of ashes and puffs of smoke. Several slight earthquake shocks have been reported from that region; but no damage has been done.

MANILA, Jan. 20.—The despatches today from Tayabas Province extreme southwestern part of Luzon express the opinion that what was ascribed to the eruption of the volcano of "Langan" last night, was not an eruption, but merely a great "sneeze" over Mount Banaul. The area damaged by the storm is apparently very wide.

## LEMIEUX ACT OF GREAT VALUE

Thirty Five Disputes Were Handled by the Act During the Year.

### ANNUAL REPORT

OTTAWA, Jan. 19.—The annual report of the labor department for the last fiscal year is one of the first of the seasonal blue books to be issued. The report is signed by ex-deputy Minister W. L. M. King, M. P., and in its 408 pages contains a comprehensive review of the many-sided works of the department during the year, covering over a score of important investigations affecting the interests of labor, prices of articles published in the Labor Gazette, a statement of the results of the first year's operation of the Industrial Disputes Act and statistics as to labor unions, strikes, etc. throughout the Dominion.

In respect to the Industrial Disputes Act the report says that it was the means of eliminating from the category of strikes and lockouts practically all disputes affecting public utilities. There were 35 references to the boards of conciliation under the provision of the act, the number of men concerned was about 30,000 and the amount of capital invested many millions of dollars. In only one case did a strike follow the report of the board and in this single instance, after a strike lasting thirteen weeks, the men returned to work on terms recommended by the board. The total cost of administration of the act during the year was within \$20,000. The total number of labor organizations in Canada on March 1st last was 1,681. The number of local trades unions was 1,503, of which 752 were in Ontario, 246 in Quebec, 115 in British Columbia, 112 in Nova Scotia and 70 in New Brunswick.

### ARE YOUR JOINTS LAME?

Have you a weak spot, a place where cold and inflammation always settle? Whether it is in the neck, side, joints or limbs—the cure is simple—a good rub with Nerviline and then apply Nerviline Tenuous Plaster. These great rubefacients invariably cure strain, swelling, weakness and muscular pain. There is no mystery about this. Nerviline is the most penetrating liniment known—constantly it goes where the trouble really is. Nerviline Porous Plasters are great healers and draw out congestion. Be sure you get the genuine, substitutes can't do the work.

### HOUSE FOR SALE

## HOW TO CURE A HEADACHE

To attempt to cure a headache by taking a "headache powder," is like trying to stop a leak in the roof by putting a pan under the dripping water. Chronic headaches are caused by poisoned blood. The blood is poisoned by waste, undigested food and other impurities remaining too long in the system. These poisons are not promptly eliminated because of sick liver, bowels, skin or kidneys. If the bowels do not move regularly, if there is pain on the back or white kidney trouble—if the skin is sallow or disfigured with pimples—it shows clearly what is causing the headache. "Fruit-a-lives" cures headaches because they cure the cause of headaches. "Fruit-a-lives" act directly on the three great eliminating organs—bowels, kidneys and skin. "Fruit-a-lives" keep the system free of poisons. "Fruit-a-lives" come in two sizes, 25c and 50c. If your dealer does not have them, write to Fruit-a-lives Limited, Ottawa.

## THE NEW SPEAKER

At the opening of the House of Commons on Wednesday, Hon. Chas. Marcil, member for Bonaventure was unanimously chosen as speaker of the House of Commons. The choice is a good omen and many friends in the House of Commons express their congratulations to Mr. Marcil on his elevation to such a high and honorable position.

In evidence of the high appreciation in which the new speaker is held we publish a few extracts from the speeches of the premier, the leader of the opposition and from some newspapers.

They were fortunate in having with them the member for Bonaventure (Mr. Marcil), who had discharged the duties of deputy speaker with grace, dignity, impartiality and marked ability, and those who sat with him in the last parliament would agree that Mr. Marcil seemed to have been endowed by nature for the high position of first commoner. Mr. Marcil had accumulated a fine store of parliamentary knowledge and they had every reason to believe that in the discharge of the duties of office he would give satisfaction to both sides, holding even the scales of justice, showing neither favor or fear.

Sir Wilfrid concluded by formally moving, seconded by Hon. W. Patterson, the election of Charles Marcil.

As to Mr. Marcil, Mr. Borden observed as deputy speaker he had conducted himself with dignity and impartiality.

In mental attainments, character and experience, Mr. Marcil is well qualified for the work. He has sat many years in Parliament and as chairman of the committee of the whole and deputy speaker has gained knowledge of the business of the House, the methods of transacting it and the responsibilities of the presiding officer. He also enjoys in a notable way the regard of the members.

If he shows himself to be firm as he is experienced and tactful, it can be expected that he will rank well up among the successful speakers.

The Montreal Gazette (Conservative).

The elevation of Mr. Charles Marcil, member for Bonaventure, to the Speakership of the House is an honor and worthy bestowed. Mr. Marcil is a gentleman of high attainments and a public man of sterling worth.

Halifax Chronicle.

The election of Mr. Chas. Marcil, as speaker of the House was not contested. A number of Conservative papers have been carrying on a vigorous campaign against Mr. Marcil, charging that he carried Bonaventure by whole sale promises of public expenditure, and that, therefore, he could not be made speaker of the House. When it came to a test, however, no candidate was named in opposition to Mr.

## SICK ONE YEAR

London, Ontario Man Says,  
"For Chronic Coughs,  
or Bronchial Troubles  
Vinol is Without an  
Equal."

"I was ill for over a year before taking Vinol. I had tried cod liver oil, also other remedies. I was influenced by the advertisement of Vinol, and I can safely recommend it to anyone requiring a first class tonic. It is quite palatable and pleasant to take, with all the nourishing qualities of the best cod liver oil. For chronic coughs and colds or bronchial troubles, it is without an equal, at the same time building up the run-down system, producing sound sleep and strengthening the appetite." A. J. Gilmore, 519 Achaleck St., London, Ontario.

This is because Vinol is a genuine tonic and body-builder which contains peptonate of iron together with every one of the body-building medicinal elements of cod liver oil, but without a drop of oil to upset the stomach and retard its work. Vinol acts directly on the stomach, creates a healthy appetite, and enables the necessary elements from the food eaten to make rich, red blood, healthy flesh and muscle tissue and create strength.

Your medical man, if Vinol fails to benefit, A. McG. McDonald, Druggist, Campbellton.

## DOING FIREMAN'S WORK

Engineer of the Train that Ran into Market Train was Shovelling Coal into the Furnace at the Time.

QUEBEC, Jan. 15.—A searching investigation has just been held into the cause of the accident on the I. C. R. at St. Michel de Beauce, as a result of which twenty persons were injured. It is understood that the accident was due to the fact that the engineer was performing the duties of a fireman, who was so tired that he was taking a rest. The engineer, who is a model employer, was engaged in shovelling coal into the furnace and failed to notice the distance which separated his train from the market train, which was standing at the station at St. Michel. All the passengers injured in the accident are doing well.

"I contracted Rheumatism by exposure  
five years ago, and was suffering for  
two months and in great pain all the  
time. I got Father Morriscy's  
"No. 7" Tablets and took them for about three  
weeks and lo! the Rheumatism was gone and  
we got it have had no return of the  
pain since."  
**Father Morriscy's  
"No. 7" Tablets**  
Rheumatism is generally brought on by exposure, but  
is really caused by Uric Acid in the blood. This Uric Acid  
is an irritating poison, formed from the waste matter of the  
body. The kidneys should remove it, but when they fail it  
poisons the blood, and, settling in the joints, causes  
Rheumatism.  
"No. 7" Tablets clear out the clogged-up kidneys and  
stimulate them to perform their task of filtering the Uric  
Acid out of the blood. When this is done the Rheumatism  
simply and naturally vanishes.  
"No. 7" Tablets cost 50c. At your chemist's. 23

CHATHAM, Jan. 19.—In a curling  
match which will go down in history as  
one of the most exciting ever played in  
the maritime provinces the Chatham  
Curling Club tonight successfully de-  
fended the McLeLellan cup, won at St.  
John last Thursday, against Amherst,  
who finished three points behind in a  
three-rink game.

**MT. WILSON TRIP A  
COMPLETE SUCCESS**

Wireless Experiments Were  
Successful and Station  
to be Erected.

A MYSTERIOUS CODE

Remarkable results have been  
achieved by the Los Angeles expedition  
that went to Mt. Wilson Saturday for  
experiment with wireless telegraph ap-  
paratus. The mysterious flashes that  
have been puzzling local wireless op-  
erators were distinctly heard by mem-  
bers of the expedition.

As a result of these experiments a  
wireless telegraph station will be es-  
tablished at Orchard Camp, the "back-  
way" house on the Mt. Wilson trail.  
James McNally of Orchard Camp has  
given the necessary permission and the  
apparatus will be installed at once.  
The aerial which catches the flying  
messages will be, it is asserted, the  
highest in the world. It will consist  
of two five-strand wires 2000 feet in  
length, suspended between two moun-  
tain peaks. The receiving and sending  
instruments will be in a cage 1000  
feet below.

F. D. Mackay, head of the Southern  
Pacific School of Telegraphy, in charge  
of the party, left Mt. Wilson yesterday  
for supplies, and will return to the  
heights this morning. He said last  
night that the success of this trip had  
been beyond expectation.

"Owing to the distance of our camp  
from the nearest power plant, it will  
be necessary to run a wire for elec-  
tricity through the forest," he said.  
So far, thirty-eight different stations  
have been heard from throughout the  
country. Five of these are unknown  
to us, and evidently are ships at sea.  
Only eighteen could be read from our  
Los Angeles station.

The law regarding privacy of tele-  
graphy messages prohibits my making  
known the subject matter of the mes-  
sages received while Mr. Wilson  
is here.

**Idyllic Location**

"It has been established that there  
is no induction or other interference  
which makes the holding of messages  
on this mountain as accurate and  
clear as telegraph work on metallic  
circuits. The only reason why it is not  
utilized in the receivers, besides the other  
waves, is a faint ripple coming from  
a brook, where we planted our ground  
wire."

"During the first two days, the re-  
ceiving operators were much puzzled  
by flashes which were made up of  
dots—no dashes being used. We were  
first inclined to believe that these  
sparks were sent out by amateurs.  
Later the persistence and accuracy in  
handling the work and the impossi-  
bility of tuning out the sparks convinced  
me that there was method and ex-  
perience in the sending. I also read  
sure that the messages came from a  
distant point.

**DESTRUCTION OF  
TOWN DESCRIBED**

One Who Escaped Earth-  
quake Shock Writes of  
the Disaster.

A GRAPHIC ACCOUNT

Perhaps the most graphic picture  
of the great Italian earthquake, as it  
affected those who survived, is given  
in yesterday's New York Herald. The  
narrator is one Degris, an officer of  
the Italian constabulary, who happened  
to be out in the country near Scylla  
when the shock came. Here is the  
story as told on his arrival in New  
York:

Just before daylight there was a  
sudden rush of the air all around and  
hideous, shrieking, crashing, roaring  
noises were heard at a distance. Down  
the mountainside came huge boulders  
and quantities of earth, sliding and  
rolling. From the town below arose  
the distant din of rocks and buildings  
falling.

Long after the earth ceased its mo-  
tion this continued, and the sea and  
the heavens gave forth the strangest  
noises, while in the west and south  
there were great bursts of light. The  
peasant accompanying Degris, who  
was screaming with terror and holding on  
to his donkey, which was trying to run  
away.

Now came a great roar from all  
along the shore, as if the sea were  
trying to engulf the land, but gradu-  
ally all grew quiet. After some little  
time they proceeded, picking their way  
over the now dangerous trail and as soon  
as it was light enough to see they  
labored in the things near them—the  
enormous damage which had been  
done by the shock.

Soon they met a man and two chil-  
dren running, crying and wailing, al-  
ong the road. The man called out  
that the end of the world had come,  
that the devil had got his brother and  
his brother's wife, and he was fleeing  
to a chapel in the mountains.

Still pressing on toward the town,  
they met more fugitives, nearly all of  
them clutching, and some holding al-  
ong or being half carried. All warned  
Degris not to go on to the town, but  
he continued until by the light of day  
he saw that there was no town to  
which to go. The curved path with  
the projecting rock on which it had  
stood was shattered, crumbling, and  
above the sea protruded bits of rock  
that were all that was left above the  
sea of debris, which the earthquake  
had chipped down into it.

**WHY DO WOMEN WORRY?**

First Sign Failing of Health  
Worry is a disease—and it's more  
it produces other diseases, because it  
breaks down the nerves and saps the  
vitality of the body.  
What a pity women don't realize that  
if they were well—if the blood was  
nutritious—if the nerves were strong—  
if all the organs were active—then the  
little things that irritate and prey on  
the mind wouldn't receive a moment's  
thought.

The woman who worries has a poor  
appetite—she sleeps poorly. If it only  
lasted for a day or two it might be of  
small consequence—but she grows im-  
miserable, unhappy—worse day by day.  
She needs Perrozene which cures  
worry by curing the conditions that  
render worry possible. For nervous,  
weak women, no tonic is so good;  
Perrozene has been found to be the  
most reliable remedy for all the ailments  
of the nerves. It is a public test-  
imonial for Perrozene, believing it to  
be a tonic of superior excellence and  
one that will rapidly build up strength  
and supply new energy to anyone not  
feeling well. Last spring I was in a  
very poor condition of health. I was  
nervous, fed tired, and completely worn  
out. No doubt, it's quite a common  
complaint among women of my age. I  
placed great reliance in Perrozene, and  
took it for several weeks. It made me  
quite strong, and in fact I have been  
in better health since. I can heartily  
recommend Perrozene.

Perrozene cures by making good  
food, strong nerves and a healthy  
body.  
This is why it gives color, clearness  
to the skin, buoyancy to the step,  
brightness to the eyes—because with  
good digestion and activity of the  
body in all its parts there's health.

**MEACHAM'S**  
McEacham's Orchestra of Chatham has been engaged to furnish the music for "Burns' Night."

**USE THE TELEPHONE**  
The public should remember that when a fire is discovered in any part of the town No. 175 should be notified. Make a note of it, the fire may be near your property next time.

**CARNIVAL TONIGHT**  
A large number of Campbellton people will attend the carnival at Dalhousie this evening. The Campbellton "Quintet" Band will be in attendance. A special train will leave Dalhousie for Campbellton at 11 p. m.

**DIVOLVED PARTNERSHIP**  
Messrs. Cyr & Nelson, who have been conducting a most progressive general furnishing business have dissolved partnership. The business will be conducted under the name of H. L. Nelson & Co. The Graphic understands that Mr. Cyr is to remove to Montreal. We wish the new firm continued success.

**CASSON CONCERT**  
The Casson Concert Troupe in the Opera House Wednesday night, drew a good house, and the entertainment was all that was claimed for it. The audience was delighted with it and should this talented troupe decide to give Campbellton another visit we are sure a crowded house will greet them.

**PRESENTATIONS**  
Rev. and Mrs. P. J. Stackhouse entertained the Choir of the Baptist Church at a turkey supper at the parsonage on Thursday evening. During the evening Miss Lennie Gilker, leader of the choir, and Miss A. Peterson, church organist, were each presented with a purse containing sixteen dollars in gold as an expression of appreciation from the members of the church and congregation.

**CANOEES**  
Geo. G. McKenzie & Co. agents for the well known Chestnut Canoe Co. of Fredericton have persuaded this firm to make up a number of canoe canopies for the Gaspe model. Mr. McKenzie forwarded a sample on which to make them by. There is no doubt this canoe will bring great demand as it is a much lighter canoe and does not dry up in the sun as the Gaspe boat does. Any person wishing one of these canoes had better call and see Mr. McKenzie and leave their order as it will be much cheaper buying them in canoes.

## WANDERERS ARE AGAIN THE VICTORS

Fast Game Hockey at the Skating Rink Wednesday Evening.

ATTENDANCE SMALL

The hockey game between the Wanderers and Thistles which was played on Wednesday evening resulted in a victory for the former team with a score of 3-1. This is the second game won by the Wanderers. The game was close and combination work was much in evidence. The spectators were not numerous but enthusiastic. Hockey is improving and the public should patronize the game. It takes a certain amount of capital to keep the clubs going and the boys should be encouraged in their winter sport.

The Citizens' Band was present and furnished music for the occasion. The skaters were allowed on the ice after the game.
