BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

Our Office is connected with the N. B. Telephone Co.'s line by two separate lines insuring prompt attention.

Bernier, The Tailor

Mr. and Mrs. John Prevost of Cloquet, Minn., who have been spending the winter at their old home here, left for their home on Tuesday the 9th inst. During their visit they took an extended trip down the Gaspe coast, visiting old friends and renewing old acquaintances and enjoyed every minute of their trip. After an absence of thirty-five years it is pleasant to be "back to the old home again". Mr. and Mrs. Prevost were pleased to be in place and they hope to return in the near future to spend the summer months and enjoy the salubrious climate of the beautiful Baie des Chaleurs.

Mr. Prevost is one of the pioneers of the striving town of Cloquet, Minn., having settled there about 40 years ago. He has occupied several prominent positions, such as mayor of the town, deputy sheriff, etc.

Their many friends wish them "bon voyage."

DELEGATION GOES TO BATHURST

Members of Board of Trade Discuss Freight Matter With Bathurst Board.

A meeting of the Council of the Campbellton Board of Trade was held Saturday afternoon when a communication was read from the Board of the Maritime Division of the Manufacturers Association, re the proposed application for increased freight rates on all railways in Canada.

A number of shippers and others interested discussed this matter from all points and it was thought advisable that a strong delegation be sent to Bathurst to meet the Manufacturers Association and a traffic expert from the Manufacturers Association who was to stop off there Tuesday.

Tuesday the following delegation went to Bathurst:

W. F. Napier, A. McLennan, W. H. Miller, D. A. Stewart, H. J. Currie, S. S. Harrison, W. H. Wallace and P. M. Shannon.

At Bathurst a meeting had been called for four o'clock to talk over matters formally and a meeting of the full Bathurst Board of Trade in the evening.

The afternoon meeting was taken up with submitting information in reference to traffic matters. It was shown that under the terms of Confederation it was explicitly set forth that the Maritime provinces must not be discriminated against in the matter of freight rates and it was decided to set this forth strongly.

At the evening meeting there were addresses by various Campbellton and Bathurst gentlemen and a strong resolution in reference to the proposed freight increase was passed.

Campbellton members were asked to bring the matter up at once and pass a similar resolution.

PASPEBIAC.
(Too late for last issue.)
On February the 27th occurred the death of Miss Armande Lavigne at the Presbytery Paspebiac, at the age of twenty-four years. Deceased was an amiable young lady and was greatly favorite among her many friends. She had been highly educated and had hopes of a bright future.

Everything was done to restore her to health but it was in vain.
The funeral took place on Monday, March 1st, in the R. C. Church and was very largely attended, friends came from Bonaventure, New Carlisle, Paspebiac and Hopetown to attend the service. The remains were interred in the R. C. Cemetery.

She leaves to mourn her loss, her uncle, Rev. Father Duret, parish priest, Paspebiac, with whom she lived, also one sister and an aunt living in France, and other relatives who have the sympathy of the whole community in their sad bereavement.

Mr. and Mrs. John Prevost of Cloquet, Minn., who have been spending the winter at their old home here, left for their home on Tuesday the 9th inst. During their visit they took an extended trip down the Gaspe coast, visiting old friends and renewing old acquaintances and enjoyed every minute of their trip. Nine Guilty of Stealing From Cars Sentenced to Six Months Each.

Fredericton, N. B. March 12.—Nine of the employees of the Canadian national railways who had pleaded guilty to the theft of liquor from a car loaded with Kentucky Rye whiskey at Napadogan on the Transcontinental division, were sentenced by Police Magistrate Limerick in the police court here this afternoon to serve six months each in the York County jail. Another prisoner whose wife is in a delicate condition at Moncton was admitted here for one week at the end of which time he is to return and be given a similar sentence. The other of eleven prisoners, who were arrested pleaded not guilty and was sent up for trial at the York County Court next week. Chief H. J. Page of the C. N. R. investigation department has been here from Toronto in charge of the case.

NO STEAMER FOR GASPE COAST

Department of Trade and Commerce Says No Subsidy This Year.

The following is the text of a question put in the House March 11th by Hon. Charles Macle, M. P. for Bonaventure and the reply thereto by the Hon. Sir Geo. E. Foster, Acting Premier—

Hon. Mr. MACLE (Bonaventure):

1. Does the Government intend to offer a subsidy this year for a steamship service between Campbellton, N. B., and Gaspe, Que.?
2. Since when has this service been discontinued?
3. Have any requests been received for the revival of the service this year?
4. Does the Government contemplate the subsidizing of a steamer service this year between Montreal and Quebec and Gaspe and Campbellton?
5. Was there any steamer service at all last year between Montreal and Quebec and Gaspe and Campbellton?

Sir GEORGE FOSTER:

1. No.
2. Since the close of navigation in 1917.
3. No.
4. Yes, the Gulf of St. Lawrence Shipping and Trading Co. of Quebec hold a contract for this service.
5. The Gulf of St. Lawrence Shipping and Trading Co. ran fortnightly trips last year between Montreal, Quebec, Gaspe and Campbellton. There was no service to Campbellton.

LAND OWNERS BLAMED FOR FOOD CRISIS IN EGYPT

Wheat and Other Cereals Actually Have Been Ploughed Up When Approaching Maturity in Order to Sow Cotton.

London, March 8.—The food crisis in Egypt is due mainly to land owners, including the land owning peasantry, increasing the area planted in cotton so as to take advantage of the soaring prices of cotton, according to the Daily Mail's Cairo correspondent.

"Wheat and other cereals actually have been ploughed up when approaching maturity in order to sow cotton," the correspondent continues, and the cotton area is now nearly 25 per cent greater than before the war. Normally Egypt practically feeds herself but in view of the present shortage of cereals there is greater danger of the famine being driven to rioting. The situation is bad in the towns, but it is worse in the country. It is at its worst in Upper Egypt where the difficulties of importation are greater.

"Gambling in cotton seed has been disastrously widespread among all classes. Mendacity and theft are rife. Nationalist agitators are persuading the peasants that their plight is due to the British. The outlook is difficult."

LUDENDORFF ATTENDS MEETING OF NEW CABINET

London, March 16.—The new government at Berlin held a cabinet meeting last night, which was attended by General Ludendorff, according to a despatch to the Exchange Telegraph from the German capital by way of Amsterdam.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs" which contains full directions for babies, children of all ages and for grown-ups.

Until He Took "Fruit-a-tives" The Fruit Medicine

R. R. No. 1, Lower, Ont.

"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit-a-tives'. Before I had used half a box I was improved; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

REVOLUTION NOW IN GERMANY

Military Party in Charge of Government—Socialists Plan Counter Stroke

Civil war seems imminent in Germany as a result of the refusal of the Ebert government, now sitting at Stuttgart to carry on negotiations with the reactionary regime which seized power suddenly on last Saturday morning. Unconditional surrender of the men directing the new government is demanded by President Ebert, who announces he will continue to direct the affairs of the troubled country from Wurtemberg. The German national assembly will meet in Stuttgart tomorrow afternoon at four o'clock.

In Grip of Strike.

Berlin is in the grip of a general strike, called by Socialists and Labor leaders as a counter stroke to the assumption of power by the government headed by Dr. Kapp who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Extreme measures will be taken under the decree from four o'clock this afternoon, and it is possible the crisis of the new revolution will quickly follow.

Details of the situation throughout Germany are somewhat obscure, but there seems to be reason to believe the Ebert government is still holding control in the southern and western sections, while the Kapp regime is rather firmly entrenched in northeastern Prussia and in Silesia, where many towns and cities are reported to have declared their adherence to the new government.

Fighting is reported at various points throughout Germany, and it is said there was bloodshed in suburbs of Berlin yesterday, but it would seem that clashes so far reported have been between militia units and disorderly crowds. So far as is known, armed forces of the two governments have not come into collision.

IRKUTSK IN HANDS OF BOLSHIEVIKI

Recent Seat of Kolchak Government Which Was Seized Last Month by Insurrectionary Troops Who Later Executed Leader, Now Held by Reds.

London, March 8.—Irkutsk, the recent seat of the Kolchak Government, which was seized last month by insurrectionary troops who later executed Admiral Koltchak, is now in the hands of Bolshevik regulars, troops of the Red army having entered the town. It is announced in a wireless message from Howcos. Several members of the former Kolchak ministry and many active counter-revolutionists who were imprisoned in Irkutsk are being transferred to Omsk, where they will be delivered to the judgment of a revolutionary tribunal, the despatch adds.

NEW CABINET TO BE FORMED IN RUMANIA

London, March 16.—Information received in Rumanian quarters in London is to the effect that King Ferdinand has accepted the resignation of acting Premier Kop and that he has commissioned General Averesco, minister of the interior, to form a new cabinet, says the London Times.

DARTMOUTH MAN GAINS 15 POUNDS

Five Years Trouble Ended And He Works Every Day Since Taking Tanlac.

"I have gained fifteen pounds in weight since I began taking Tanlac, and if I had known about this medicine three years ago I would have saved many a dollar, to say nothing of the suffering I went through," said Joseph E. Clattenburg, Brenton Street, Dartmouth, N. B. Canada, recently. Continuing, Mr. Clattenburg said:

"My trouble started five years ago with occasional attacks of indigestion, which kept getting worse until I could hardly eat anything at all. For the past three years now I had no appetite and the little I did manage to eat would bloat me up and keep me feeling miserable for hours. I had sharp, cramping pains all through my stomach, which would nearly draw me double and I was constipated all the time. My tongue was badly coated and my skin had a yellow, sallow appearance. I could get but little sleep and always felt so bad in the mornings it was all I could do to get up. I was so badly run down that some days I just had to quit work and go home, and I have often had to lay off from work seven or eight days at a time. Added to my other troubles I had an attack of jaundice and was unable to work for two weeks. I lost considerable weight and my strength was just about all gone."

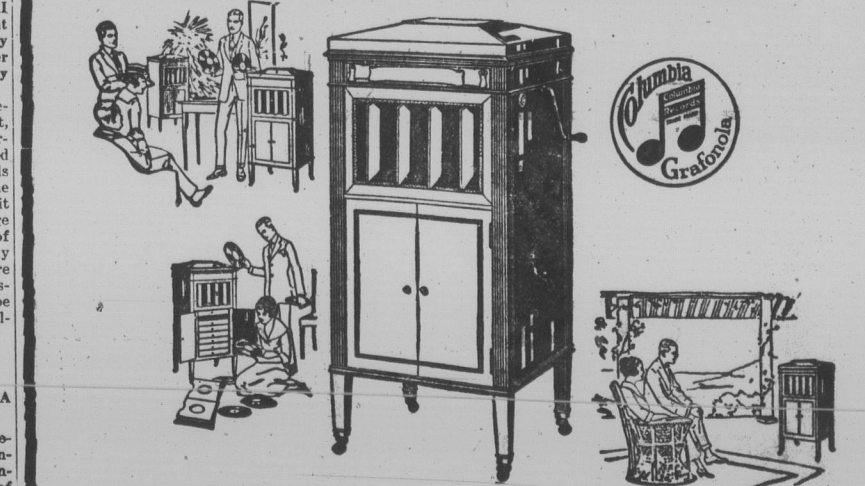

"I tried many different treatments and medicines without being benefited, but when I heard so many people praising Tanlac, I decided to try it. At the time I started taking it I had been off from work for over a week, but before I had finished the first bottle I was back on the job and haven't been off since. I have taken six bottles in all, and my appetite has improved until I eat as much at one meal now as I did all day before and am never troubled with pains, gas, sour or upset stomach or any other bad feeling. I am not constipated and my liver is in fine shape again. My tongue is never coated and my skin has cleared up to a good healthy color. I sleep well at night, tired sluggish feeling is all gone. In fact, I haven't felt better in years than I do now, but I don't believe I would be able to work today if it hadn't been for Tanlac and it is a pleasure for me to make this statement." TANLAC is sold in Campbellton by THOMAS WRAN, Druggist; in Jaccet River, by D. McALLISTER; in Archibald Settlement, by M. SMEARER.

Lots of women worry themselves old trying to look young. Girls are true friends, when they cry together in sympathy.

STUDEBAKER Announcement To The Canadian People

THE existing prices of Studebaker Automobiles were determined, as they have
always been, on the basis of exact quality of value between the American and
Canadian dollar. Prices will not be increased to cover losses in exchange unless they
become considerably more serious than they are at present, which we believe is un-
likely. This corporation is a Canadian industry, employing Canadian labor, investing
its surplus funds in Canadian Government securities, depositing its working capital
in Canadian banks, and paying large taxes to the Canadian Government. It respects
and values the good will and patronage of the Canadian people, and will not take ad-
vantage of a temporary emergency to increase the prices of its cars.

amputation was necessary.

NO FLOODS HERE.

After four months without rain, a
light rain fell here Friday, but only
enough to settle the snow. The
water shortage was not helped any.
While other parts of the province and
Nova Scotia suffered heavily from the
storm the North Shore escaped again
as it has done many times this winter.

CHANDLER.

Chandler has been brought into the New Brunswick Hockey Arena, to be made the laughing stock of the Campbellton Hockey Fans and brought there by a few self styled hockey players. The very Amateur Chandler Hockey League came to an ignominious end in Campbellton last Wednesday night by Campbellton defeating their All Star Players by a score of 14 to 1.

It would be well for the sake of the people interested, to give them an idea, what the so called Eastern Quebec Champions consisted of. The Chandler Hockey League was organized by the ones who showed what they could do in Campbellton.

They have an open air rink here about two thirds the size of an ordinary rink, and selected players from the office and mill and store of the ST. LAWRENCE PULP & LUMBER CORP.

They formed four teams and called them Chicoutimi-Levis-Chandler & Grand Pabos, and bought a Cup for themselves and when the season drew to a close, there was quite an argument as to who should have it, however the leading officials of the Company who were on the Chicoutimi team presented the Trophy to themselves.

Not satisfied with this, they decided to look for new worlds to conquer, they challenged Campbellton, by sending them a telegram which Campbellton could not ignore. They started accompanied by a few of the same mind, and with the approval and good wishes of the general Manager of the Company, who was one of the players of the Chicoutimi team.

The leading organizer of this outfit are the same ones who organized the Board of Trade of the Coast which died in its early infancy. They are also the same ones who organized the Election in January last, and who sent such a brilliant account of same to the GRAPHIC where they showed, how a Five Million Corporation, succeeded in winning a Municipal Election from the property owners of Chandler, and who styled the Property owners as obstacles in the path of Progress.

They stated they were going to build wharves, colleges, large schools, churches, hospitals, city hall, hundreds of houses and etc. THE MIRACLE MAN IS COMING TO CAMPBELLTON BUT WE HAVE HIM ALL THE TIME.

OBITUARY.

Berlin, March 8.—Field Marshal von Hindenburg's candidacy for the Presidency of Germany is strongly urged in an appeal that has just been issued here. The appeal, according to the Morgen Post, is the outcome of an agreement between the German Nationalist Party and the People's party. The Lokal Anzeiger claims to have knowledge that the Field Marshal would accept a nomination. His name has been frequently mentioned previously among the possible candidates for the next presidential term.

We turn out work very promptly and on time. You'll find our prices very reasonable, indeed, perhaps, less than you have been in the habit of paying.

McRAE'S SHOE STORE

Women's Shoes \$5.50 to \$9.00
at Moderate Prices.....

WE have found it very difficult to secure high cut boots at the above prices, but by careful study of the shoe conditions and placing our orders a long way in advance we have now in stock quite a number of lines which we consider cannot be excelled in value anywhere.

We also buy in case lots which enable us to give our customers the advantage of a very close price.

Prices are liable to go still higher and would advise early buying.

All the manufacturers tell us that it is almost impossible to get help and production maintained.

New Triplex Springs Iron Out the Wrinkles of the Rough Roads

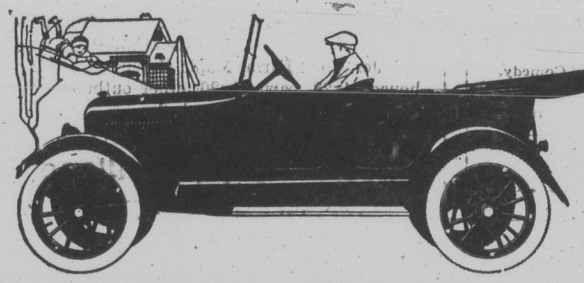

THE wrinkles of rough roads seem smoothed out completely by the wonderful springs of Overland 4.

These springs hold the wheels to the road, while the passengers ride in even comfort. The astonishing qualities of these diagonally attached Triplex Springs have created an utterly new conception of light car riding ease.

Best of all, this heavy car kind of comfort is now obtainable with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by two-unit electric starting and lighting system. It has rain-vision windshield and unit power plant. It is equipped with all the latest essentials and conveniences.

WILD FIGHT NEAR BRITISH HOUSE OF COMMONS

London, March 2.—There was a wild scene in the neighborhood of the House of Commons yesterday afternoon between the police and a procession of discharged workmen from the Woolwich arsenal. Mounted police were obliged to make a baton charge when the demonstrators attempted to rush a cordon of foot constables with the object of marching on Downing Street. Fifty people were injured, of whom twenty were taken to the hospital, including a police inspector who was cut on the head with a bottle.

While the riot was in progress a deputation of men who had reached the premier's residence on Downing street were informed that discharges would be suspended until March 13, and this helped to still the disorder.

The demonstrators numbered 5,000 men, mostly ex-soldiers, and they were headed by two wagon loads of crippled men.

HOLLAND RECOGNIZING ONLY OLD GOVERNMENT

The Hague, March 16.—Holland so far is recognizing only the Ebert government of Germany and is doing so only with the representative of that regime here, it is learned from government sources. No other action will be taken by the Netherlands government until the present chaos in Germany is ended.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Dandruff.
If you care for heavy hair that glazes the face with beauty and radiance, with life and an incomparable softness and is fluffy and lustrous, try Dandruff. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; the hair falls out fast. Surely get a small bottle of Dandruff and see how from any drug store and just try it.

GREAT POWER PLANTS STRIKING FEATURES OF WORK BY ENGINEERS.

Queenston-Chippewa Power Development is Well Under Way and One Interesting Detail is the Reversal of the Flow of the Welland River—Power Will Be Available Next Year.

SOME novel features mark the new Queenston-Chippewa power development on the Canadian side of the Niagara river, where it runs into the Niagara, will become an intake. Niagara water will flow up the Welland for four miles and a half, and then through a nine-mile canal to Queenston at the edge of the cliff that marks the limit of the present Niagara gorge and the site of the falls in a former geological age. Here will be the power plant, utilizing a fall of over three hundred feet to the level of Lake Ontario. The horse-power developed will be 300,000, but not all of it can be used without shutting down some of the power in the older Canadian plants. Otherwise, the limit of flow assigned to Canada by international agreement would be exceeded. Our quotations are from an article in the Engineering News-Record (New York), which we quote and condense.

Work on the new hydro-electric development at Niagara Falls, which the Hydro-Electric Power Commission of Ontario started in 1915, is progressing at an expected rate of speed. Some little difficulty has been met in holding the slope in the deep cuts in the earth overburden, but this has not caused serious retardation, and the prospect now is that power will be available in 1921.

As at present designed, the plant will develop 300,000 horse-power with a flow of 10,000 cubic feet per second or 100 cubic feet per second. The old Niagara river power plants developed from 12" to 100" horse-power per second-foot, the new Ontario Power Company's development on the Canadian side about 100" and the new Hydraulic Power Company's development on the American side about 20."

The project comprises four and one-half miles of river canalization and nine miles of power-canal dug in the dry. The river canalization will be reversed from its present mouth up to the canal intake where the canal extends across high land beyond the Niagara gorge to the power-house, which will be built at the foot of the gorge at the river elevation. Water will be delivered to the power-house by penstocks laid on the slope of the bluff.

The river-channel section is being excavated by dredges and shovels, to provide sufficient waterway. Canal excavation is largely through rock with a heavy earth overburden. The first one and a quarter miles of the canal just beyond the river is in earth section; the remainder is in rock with the exception of a short section opposite the Whirlpool, where an old gorge, probably a former bed of the Niagara river, drops the rock bottom so deep that it is impossible to found the canal on rock.

At a distance of about 2,400 feet from the river the canal widens out into a forebay 1,000 feet long and 200 feet wide at the intake gate. The penstocks are of riveted steel plates 14 feet in diameter and about 450 feet in length and extend from the steep bank of the gorge and the river from the forebay to the power-house. No surge tanks or standpipes will be required.

The work at present may be divided into that on the river, that on the canal proper, and that on the power-house. In the Welland river the dredge is working up from the mouth of the Niagara river and has reached the Michigan Central Railway bridge, about a half mile from the mouth. This dipper dredge is spoiling into scoops which are being taken on into the Niagara river and dumped. A cableway excavator farther up the river has done a certain amount of work, but is now operating at full capacity. Between 3,000,000 and 4,000,000 cubic yards of earth in the total excavation in the river. About one-quarter of this has been removed.

The larger part of the work in the canal has been done, beginning at the forebay end. The forebay itself is practically completed and channels and drains are working in the rock cut between the forebay and the end of the earth overburden excavation. The construction railway is completed, all except a short section at the upper end and is in operation carrying trains of earth and rock cars to the spoil dump, which is on a spur two miles to the west of the canal-line.

Two of the big concrete bridges, those carrying the St. Catharines and Thorold Railway and that carrying the Welland Railway, are completed. The twin bridges carrying the Grand Trunk and the Canadian National are under way, the foundations being all done at this time. At the power-house site the whole face of the cliff has been stripped and a construction railway is being built down to the river edge from a connection to the main-line road, about a mile below the power-house site. A steam shovel has been worked along about fifty feet above the river level and is engaged in excavating the power-house site.

Quebec Richer. Quebec increased her acreage under cultivation from 4,653,859 acres in 1914 to the enormous extent of 12,292,798 in 1918; agricultural products from \$93,000,000 in 1914 to \$273,000,000 in 1918—a war record unequalled by any other province.

OBITUARY.

Alexander B. Cleveland.

It was with deep regret that citizens last week learned of the death of Alexander B. Cleveland, J. P. of Robinsonville, which took place at his home Wednesday, March 10th after an illness extending over several months.

Deceased who was 65 years of age, is survived by a wife and two sons, who have the heartfelt sympathy of all in their bereavement. The funeral services which were held in Friday, Rev. Mr. Harrington officiating were largely attended. Interment was made at Matapedia.

Mrs. Anne Alexander.

The death of Anne Alexander, widow of the late Thos. Alexander, occurred at Upper Chatham on Friday the 12th day of March, of paralysis, aged 84 years. The deceased was born at Cape Traverse, P. E. I. and came with her parents, Mr. and Mrs. James Dickie to Campbellton, P. Q., where she lived until her marriage. She was widely known and loved by all for her kindly disposition. She is survived by one son James at home and one daughter Mrs. H. Bennet of Sanford, Maine, also six brothers and one sister, Robert of Vancouver B. C. William of Campbellton, John of Point la Poudre and James, both of California, Thomas of Marinette, Wis., Mrs. Sarah Blake of Ashland, Wis., also a very large circle of friends. The funeral took place on Monday the 15th March, and was well attended. The services were conducted by the Rev. J. H. Mc-
