We believe that, throughout the various lines surveyed in Canada, the necessity of a tunnel is nowhere imperative, and from Lachine to Cornwall the country is peculiarly adapted to Railway operations. Let us hope that the triumphs of the Lachine Company will be the prelude to an extension of the works so desirable to this city, and so advantageous to farming interests.

Longucuil will henceforth be an outpost of the Laprairie Mission, and the hitherto neglected Pro-tions of the House.

The following Resolutions, adopted at a meeting testants in that section, will now have an opportunity of attending Divine Service every Sunday.

MADEMOISELLE EUPHRASIE BOROMESE, - This accomplished artiste gave her first Concert-at Monklands on Friday evening last, which was attended by a highly respectable and numerous audience. In our next issue we intend noticing

her various performances at length.

The Band of the 20th Regiment was in attendance, and performed several beautiful airs, at intervals, during the evening; and after the Concert was over, played a selection of Quadrilles, Polkas and Waltzes, to which the gay and joyous audience danced with great glee.

IMPORTANT TO DATAYMEN.—A down-east genine has invented a machine for milking cowa, which is said to do the work with expedition, and ease to the milker. Its average apsed is one quart per minute. In these days of patent churns and butter-makers, we do not see why a milking machine is not a desirable article in the dairy business. It will save the milk maids a deal of disagreeable see, and the risk of being kieked over now and 2, he an unmanagerly cow.

Not Bad.—The St. Johns News says that it requires "great faith, and no little credulity, to rely on the veracity of a Member of Parliament?"

Sarved Him Right.—It appears that the

has been inflicted by that Assembly on the yable body of the Press; but he eream of the jike is, that the Assembly won't let him report! That's capital; and if our contemporary is not rightly punished for his sneaking desertion of his brethren, then we never knew punishment fall on the right shoulders. Some information with respect to the squable will be found in our Toronto letter.

We are happy to hear that the Church at Longueuil, after remaining for several years in a deserted and dilapidated state, has, through the indestationally after remaining for several years in a defaultion of the press should be present; but only asserted and dilapidated state, has, through the indestational put into a state of thorough repair, and will be report!

A Sultan's Joke. Proprietor of the Montreal Gazette had actually ordered his Reporter again to attend the Chamber of the Assembly, and go on with his duties as usual, notwithstanding the series of insults which has been inflicted by that Assembly on the whole hody of the Press; but he cream of the joke is, that the Assembly won't let him report! That's lature and witness its proceedings. The Resolution did not even claim as a right that the public and the Press should be present; but only asserted the desirableness of giving every facility to their admission. I think the Resolution did not go far enough; it should have asserted the right of the public to be present at the public deliberations of the House.

The following Resolutions, adopted at a meeting of the Press of this city, take this ground:

Resolved,—That it is the right of the public do witness the public proceedings, and hear the discussions, in the Legislative Assembly of this Prevince.

Resolved,—That it is equally the right of the confuctors and reporters of the press, to be so admitted, and that they ought therefore to be previded with suitable accommediation, so as to enable them to report the debates for publication, and to the formulation of the protected from annoyance in the discharge of the protected from annoyance in the discharge of the denist of the rights asserted in the two foregoning resolutions, and that a Committee Assembly, was sout themselves from the Legislative Assembly, was the denist of the rights asserted in the two foregoning resolutions, and that to avoid any mistakee on the denist of the rights asserted in the two foregoning southers. A Petition, founded on these Resolutions, is in the hands of Mr. Bell, and is to be presented to-day. Mr. Bell has shown it to several "legal" Members, and they assert that the Petition is a breach of privilege! When men become mad, it is impossible to say what they will not do.

I find that I was premature in announcing that the items in the Estimates relating to the removal of the Seat of Government had been voted. No one doubts that they will be voted when they come

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848.

DR. HALBEY—DEAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for apwards of ten years; and, having adhered cl. sely to the directions which accompany the Medicines, I have recovered my health, motwithstanding all who know me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to who knew me thought my case incurable. Previous to taking the Wime and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my Iriends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are headrels who are despusded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the deception used by others should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies, Humanly, speaking, they have saved my fife; where I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time. I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased fifteen pounds in weight, having taken one box of the Pills and two hottles of the Wise. Would to God that every poor sufferer would avail himself of the same remedies!
