To the British Lady Golfers.
They may have won at polo, and in yachting.
They may have clinched the great Olympic Games.
And many other things they're scored a lot in.
Adding to the lofty Eagle's fame. They surely put it over Ray and Vardon.
In a style we cannot quite forget. But at Wilmington they're saying.
Where the ladies now are playing. The British have them going, that's a bet.
Good luck to you fair ladies, we're relying.
Upon your golfic skill to win the day.
And keep that good old Union Jack a-flying.
By the plucky prowess of your play. We'll soon forget our many past disasters.
If you will only let the whole world see.
That at least there's no decay in.
The grand old game you're playing.
So here's to you, and here's to victory.

BETTER THAN RECIPROCITY

During a speech to his constituents in North Toronto, Hon. George Foster, in his trenchant way, fully demonstrated that Johnny Canuck has secured far more by refusing reciprocity than if he had swallowed that dose at the behest of Laurier. He noted that a number of important events had taken place during his absence from the country, and that the Conservative government which had been derided and calumniated and attacked, and had only held its own, but had gained in strength. Recently the world had seen the culmination of a movement in the United States by the signing of the new tariff bill by President Wilson. Mr. Foster did not feel inclined to boast of the perspicacity of one party as compared with that of another. But he felt that the Liberal party had made in three of the greatest policies it had propounded to the people errors of judgment which time had detected. In 1880 and in 1882 that party had opposed the N. P. which it had subsequently followed in office, and in 1911 it had advocated a reciprocity agreement with the United States. It had only taken two years to prove that the Conservative party had been wiser in setting its face against such a proposal.

The Underwood tariff was not a free trade victory, but it was the logical result of overmuch protection. It provided for an average tariff of 27 per cent on all things going into the United States, as compared with a Canadian tariff of about 27 per cent. The Conservative party had in 1911 foreseen what was coming in the United States and had urged Canada, instead of binding herself by an agreement, to wait until the agitation for tariff reduction had borne fruit. Under the new tariff the United States would admit free most of the articles stipend under the reciprocity agreement, and an important list of commodities which were not stipulated in that compact. They had also lowered the duties on a whole list of articles. "And these things are obtained," said Mr. Foster, "without Canada renouncing her own freedom of legislation. Let the United States legislate for the good of their own people and let Canada legislate for the good of her own people. What a ridiculous thing it would have been if we had entered into that agreement and had in two years seen the whole world getting for nothing privileges for which Canada had to grant concessions. I say we are getting something better than we would have got in 1911."

The Minister's reference to the result of the polling in Chateaugay on Saturday was the occasion for cheers and applause. The Conservative party had defined its policies, and the Liberal party had not only opposed them but had expressed a desire to test them before the people. Two by-elections had taken place "in the heart of the promised land for the Liberal party" if one was to judge from the utterances of members of that party. Yet no Liberal candidate had come forward to contest Portage la Prairie against Hon. Arthur Meighen, the new Solicitor-General. Then had come the contest in the County of Chateaugay. That constituency which had been indoctrinated with Liberalism since before Confederation, had said to Sir Wilfrid Laurier and his followers: "We don't believe in you or in your policy."

FINE CROP REPORT.

A bulletin issued by the Census and Statistics Office of the Department of Trade and Commerce, Ottawa, gives a provisional estimate of the yield of the principal grain crops and also the average quality of these crops at harvest time.

During the month ended September 30 ideal weather for the in-gathering of the grain crops prevailed over all Canada. In the greater part of Ontario and in the Western provinces harvesting operations were well completed by the middle of September and only in parts of Quebec and the Maritime provinces, where the spring opens later, was harvesting carried on during the latter end of the month. The estimates given a month ago

are slightly greater than those now issued which may be presumed to be based more or less on results of threshing. The final estimates based altogether on threshing results and calculated on corrected areas will be issued on December 15.

For spring wheat the estimate for the end of September is 188,468,000 bushels as compared with 182,840,000 bushels last year. For fall wheat the estimate is 19,107,000 bushels as against 16,396,000 bushels last year and 18,481,000 bushels in the preliminary estimate this year. The total estimated wheat production this year is therefore 207,575,000 bushels as compared with 199,236,000 bushels last year, an increase of 8,339,000 bushels or 4.17 per cent. The yield per acre for all wheat is 21.15 bushels as compared with 20.42 bushels last year. Oats show a total yield of 391,418,000 bushels and an average yield of 40.57 bushels as compared with 367,733,000 bushels and an average yield of 39.25 bushels. Barley gives an estimated total yield of 44,348,000 bushels and an average of 31.00 bushels per acre as compared with 44,014,000 bushels and an average of 31.10 bushels in 1912. For this year the total production of rye is 2,559,000 bushels, of peas 3,974,000 bushels, of buckwheat 7,600,000 bushels, of flax 14,912,000 bushels, of mixed grains 17,178,000 bushels, of corn 14,086,000 bushels, of beans 989,500 bushels as compared with a total yield last year for rye of 2,594,000 bushels, for peas of 3,773,500 bushels, for buckwheat of 10,193,000 bushels, for flax of 21,681,500 bushels, for mixed grains of 17,952,000 bushels, for corn for husking of 16,569,800 bushels, for beans of 1,040,800 bushels.

For the three Northwest provinces the total yield of spring wheat is estimated at 183,852,000 bushels, of fall wheat at 5,264,000 bushels, of oats at 239,595,000 bushels, of barley at 27,904,000 bushels, of rye at 686,000 bushels, of flax at 14,808,000 bushels. The average quality of these crops measured upon a per cent basis of 100 as representing grain well headed well filled, well saved and unaffected to any appreciable extent by frost, rust, smut, etc., is as follows: spring wheat 89.17, oats 90.52, barley 88.25, rye 85.41, peas 81.71, beans 78.48, buckwheat 73.40 mixed grains 90.59, flax 82.68, corn for husking 75.16. Of these wheat, oats, barley and rye are above the average quality for either of the last two years.

The potato and root crops continue to show good figures, as representing average conditions during growth. The condition of potatoes is 83.50, turnips 82.62, mangolds 83.64, sugar beets 82.63.

DEPARTMENT OF LABOR.

According to the record maintained in the Department of Labor there was continued improvement in September. There was a still further decrease in the number of strikes and lockouts in existence, and a favorable record is shown when a comparison is made with the same month of last year. There were altogether eleven trade disputes in existence throughout the country, as compared with 18 last month and twenty-one during September, 1912. Only two of these occurred during September. Of those that were in existence before that time, the only one of importance as affecting industrial conditions to any great extent was that of coal miners on Vancouver Island, which remained unsettled at the end of the month although there were not so many men out of work as a result of it as before. Upwards of 78,000 working days were lost through strikes during September, as compared with a loss of 109,530 during the preceding month.

The Department's index number of wholesale prices stood at 136.0 for September, as compared with 136.2 in August and 132.7, September, 1912. The slight fall was due to lower prices for fresh fruits, vegetables and canned salmon, but some important advances occurred in eggs, fish, sugar, cream of tartar, silk, anthracite coal, some building materials and starch. In retail prices, eggs, butter and coal were higher, but potatoes declined.

NOTES AND COMMENTS.

Do you notice the fine work going on in connection with Brantford's new public building?

The Modern Woman I cannot wear the old gowns I wore six months ago; I make myself a laughing stock, I'd be a holy show. They measure two yards 'round the hem, I cannot wear the old gowns And look right, anyhow.

I cannot wear the old gowns; Although they're neat and trim, And though they made me look a fath. I must be yet more slim, The skirts that seemed so narrow then.

Now seem to me immense, I cannot wear the old gowns, I'd look like thirty cents.

Laid at Rest

The remains of the late John C. Bennett were conveyed from his late residence, Commercial Chambers, Dalhousie street, to Greenwood cemetery. The services at the house and at the grave were conducted by Mr. McNair of Toronto, and Mr. Ord of Hamilton, two life long friends of the deceased. The pall bearers were also intimate friends of the deceased, many of whom were from out of the city. The chief mourners were his son, Mr. Wm. Bennett, and his grandson, Mr. George Battersby. The floral tributes were numerous and beautiful, being a striking significance of the high esteem in which the deceased was held.

CARPETS. It means style with economy, and a saving thrown in, to buy those Tapestry Brussels Carpets now on sale at Crompton's.

Automobile Collision As the result of a collision last night on Dalhousie street about 0.45 two automobiles, driven by Mr. Earle Stark and Mr. Ashbury, a commercial traveller, were somewhat damaged. One of the machines was going west on Dalhousie street and the other car which had been proceeding north on Bridge street, was turning into Dalhousie street. The car proceeding west came out of the collision with a very badly damaged wheel and a smashed headlight. The other had a headlight smashed. They were both taken to a garage.

To The Editor

A REPLY TO MR. WEBSTER. October 14, 1913.

Editor Courier: Sir—I notice in yesterday's issue of the Courier a complaint from Fred Webster with regard to the Hydro Electric Department contemplating supplying customers with fittings and utensils at a greatly reduced price. This, from Fred's point of view is wrong, and he proceeds in a quiet way to advocate socialism all round with special recommendation to MacFarland, Ryerson and Broadbent. I hope these gentlemen will pay particular attention to the advice. "It is good."

Fred merely proves that socialism as a whole, is a good thing, only don't let it pinch me; be good enough to put your foot on the other fellow's toes, mine hurt.

The mere fact that the Hydro Electric department can do this business cheaper goes to prove that there is a good big margin between the expenses and the profits accumulated by private manipulation of public utilities. I have noticed in my time in Brantford many cuts and deductions in factory work. I have not yet noticed any reduction in commodities. I would like to hear Fred give a prolonged howl in that direction, it might help the workers a great deal more than any larger Brantford scheme that has yet been put on foot. Fred says that the city of Brantford should not compete against private property owners on account of their taxes. Do not these taxes come directly out of the pockets of the workmen of this city? Is it not the workmen who make this same property valuable in every sense of the word? Or would you like a special monopoly granted to you, "To skin 'em alive"? I think the people to-day need badly all the benefits the Hydro Electric can give them, and if Fred and the others do likewise a larger or smaller Brantford will thank them. There is still a large margin for speculation purposes in a city—even if they secure their fire, light, tramway, water or gas, as the case may be. Fred might even get a job in a factory at \$1.50 a day, if he does he

Suffered Tortures from Nervousness. Miss Margaret Lee, 31 Robert St., Hamilton, Ont., writes: "I was a wreck, reduced in body, and despondent. I suffered tortures from nervousness, and was totally unfit for work. A friend recommended Hood's Sarsaparilla. I commenced taking it and by the time the second bottle was consumed I knew that I was mending. Gradually I grew well. I have used Hood's since. I would not be without it on any account, and do most enthusiastically endorse every word in its favor." Get Hood's Sarsaparilla today. Sold by all druggists everywhere.

Well Known Man Dead

The death occurred at Dundas on Frank Collins, who for years conducted the old Collins House on King Street, and removed a figure that has been prominent in the life of this district for half a century. In his younger days he was known as an athlete, and especially as a runner. Of late years he took a deep interest in curling and other sports. In August last failing health compelled him to retire from the proprietorship of the Collins House in Dundas, which had been in the family for three-quarters of a century. Deceased was well known in Brantford.

Many Communications

The council dealt with many communications. The account of the Brantford Collegiate Institute against the County amounting to \$2,136.69, also a detailed statement. The account was referred to the educational committee.

Referred to House of Refuge Board

A communication was received from Dr. Bruce Smith, Inspector of Prisons and Public Charities in which the Inspector dealt with Section 16 of the Act, respecting the inspection of hospitals and Provincial Charities.

He stated that he was instructed to inform the council that the transfer from the Provincial Hospitals for the Insane of persons whose mental condition was due to senility and whose condition is quiet and harmless and who are proper subjects for care in a House of Refuge, will in the near future be made.

He further stated that it is not proposed to place the burden and responsibility of caring for the insane upon the County Houses of Refuge, but it is proposed that many of those people who are referred after careful examination to be refuge cases, should not be kept in custody in the Provincial hospitals for the Insane, but allowed the full privileges and advantages of a House of Refuge. This communication will be sent to the House of Refuge Board.

Asks For Reward

Chief Felzer of Paris wrote asking the council for the usual county award for the arrest and conviction of John McDowell for horse stealing. This was referred to the finance committee.

Successful in Penmanship

County Inspector T. W. Standing wrote reporting that the county entrance board met Sept. 7 and the following awards of prizes offered for penmanship at the entrance examination by the county council: Girls 1, Helen Davis, S. 13, Brantford; Paris, 2, Ardel Smith, S. 3, Brantford, Mohawk; 3, Stella Moriarty, S. 3, Paris. Boys, 1, Stanley Hilborn, public school, Paris; 2, Donald Cavin, public school, Brantford; 3, Austin S. Danton, public school, Paris. This was referred to the educational committee.

Mr. Layton Explains

The communication with reference to the resolution passed by the Paris town council declaring Councillor Layton's seat vacant owing to his being absent from three council meetings was filed as that was the only course to take. Mr. Layton explained that he had stated he would be absent from the July and August meeting. It was his intention to be present at the September meeting but was unavoidably absent. He said the council had acted upon a section of the act but had not gone far enough. He also holds that the resolution was not properly carried out. He has issued a writ on the Mayor for a new election. He informed the council that he will attend all sessions of both the Paris and county council and he did not think his attendance would be the cause of upsetting any action of the council.

Re Policy on Boiler

K. V. Bunnell and Co. Ltd., wrote the Council advising that the policy covering the boiler in the Court House and Jail expires August 12 next—referred to the Buildings and Grounds committee.

TRENTON, Mich., Oct. 15.—Commercialized vice, under the recognition and regulation of the police department, ceased in Detroit at midnight last night. With the City Police

An address on horsemanship by Adam Aird was a feature of this morning's session of the police court, and as a result, Magistrate Livingston, Chief Slemm and the rest of the court officials probably know a little more about spavins, ringbones, colic and other well known horse diseases than they ever knew before.

Aird was charged with soliciting cab fares at the G.T.R. station without having a license. He indignantly denied the charge and continued to interrupt the court during the case. He wanted to be Chief Slemm \$10 that his horse could do ten miles in record time. Aird's invitation to the Magistrate to drive, was not very cordially received, Magistrate Livingston replying: "You can't get me behind that horse," while Chief Slemm expressed the opinion that the animal would fall through the harness before it got to its destination.

Aird declared that he could tell more about a horse than Chief Slemm, Dr. Cutcliffe, V.S., Magistrate Livingston or anybody else, and wound up by declaring that he had one of the finest little mares in the country, in fact he could get \$40 for her any time he wanted to open his stable door.

The accused stated that he could go out an bring in 100 horses in a worst condition than his, right in Brantford and the court told him to go and do it.

In the case before him His Worship was convinced that Aird had been soliciting fares and he ordered that the practice must cease. The G.T.R. authorities asked that Aird be ordered to keep away from the cab stand until he got a license and the defendant was accordingly warned. He promised, however to appear some of these days with a first-class outfit and he then expects to have a license and do business.

Mrs. Clara McIntyre was charged with allowing her chickens, cows and ducks to trespass on the property of St. Paul Avenue, and do damage to the amount of \$5. The defendant lost on the evidence of the plaintiff and his witnesses and she was given a notice in writing that in future all live stock belonging to her must be kept on her own property.

It will be remembered that Elliott was charged with shooting rabbits belonging to Mrs. McIntyre a few weeks ago and it is evident that the feeling between the two neighbors is not of the best.

AWFUL FATE.

NEW YORK, Oct. 15.—Between 80 and 90 passengers on the steamship Volturno were trapped in compartment No. 7 by the first explosion on the vessel Thursday morning last and either perished at once or were injured alive. This news was brought to port to-day with the docking of the steamship Grosser Kuriererst, bearing 105 survivors of the disaster, it came from the lips of Waldron Disselman, third officer of the Volturno, one of the rescued.

Two Men Killed.

MAHANAOY CITY, Pa., Oct. 15.—Two men were killed by falling walls and nearly a block of stores and office buildings were destroyed by fire here to-day. The flames for a time were beyond control and the situation became so threatening that assistance was summoned from surrounding towns. The fire started among the scenery in the Kaiser Opera House, swept through that building, aided by a high wind, and consumed a half dozen stores in the Kaiser Block and several small dwellings.

English, Irish and Canadian Champions Survived Opening Round

WILMINGTON, Del., Oct. 15.—Playing consistent golf the visiting English, Irish and Canadian champions all survived the opening round of match play in the 19th annual women's national golf championship tournament yesterday on the links of the Wilmington Country Club.

The visitor's all won in comparatively easy fashion, Miss Ravenscroft, the former English champion, defeating Miss Frances C. Griscom, a former American champion, from Philadelphia, 4 up and five to play; Miss Violet Pooley, of British Columbia, won from Miss Lillian Hyde, a former metropolitan champion of New York, 4 up and 3 to play.

Kisses for Recruits. The mayor and corporation of Newport, (Isle of Wight) are taking the lead in organizing recruiting for the Princess Beatrice (Isle of Wight) Rifles, of which the King is Colonel-in-Chief.

Red Cross lady workers are cooperating, and at a meeting one of the speakers, referring to the historic promise of the Duchess of Gordon to give a kiss to every man joining the Highland Regiment bearing her name, said the Red Cross ladies of the island could not give a kiss for a better object than strengthening the Princess Beatrice Rifles.

Praise For The Athletics

"Mack has the greatest team in the history of baseball and in Eddie Collins he has the greatest living player. We have no alibi."

Hughie Fullerton, in The New York Times, says: "No excuse to offer. The Giants were played to a standstill in every department, but in extension they were defeated by the greatest team in the history of the game, outclassing even the old Baltimore Orioles, the great Boston team of 9 years ago, and the Cub machine of Frank Chance's day."

Baruchell says in The Newport Times: "Matty deserved a better team behind him. The Athletics played the ball, showed the class and their whirlwind exhibition of infield work was enough to discourage any one, yet the Giants fell without dishonor. They went down fighting and trying. They were pitted against a stronger team than ever before was thought of in baseball. When they got the lead in early innings the Athletics began to give the great crowd exhibitions of infield prowess that discouraged their opponents, whose discouragement was evened by the Athletics' defence. There was no alibi. It was a clean-cut victory."

DUNCAN IS CHAMPION.

CHANTILLY, France, Oct. 15.—George Duncan, the fastest playing English professional, yesterday won the French open golf championship, with an aggregate of 304 strokes for the four rounds of the 18-hole course. James Brand, of England, who has held both the British and French open championships, was second with 307. H. Sherlock, also of England, finished third, with 309. Arnaud Massey, the former French champion, finished with 310, and Dr. H. D. Gillies, a London amateur, scored 311.

[Canadian Press Despatch] CHICAGO, Oct. 15.—B. B. Johnson, President of the American League and member of the National Baseball Commission, favors the retention of the world's series games each fall in their present form. Hockey

OTTAWA, Ont., Oct. 15.—Eastern professional hockey clubs are already on the still hunt for players.

It is practically settled that there will be no change in the composition of the National Hockey Association as the syndicators have inaugurated an early campaign of activity. There appears to be absolutely no opposition by the N. H. A. this winter, and it will likely hold sway from coast to coast, providing the Maritime clubs affiliate.

EASTERN CLUBS ARE AFTER PLAYERS

PITTSBURG, Oct. 15.—The Cleveland Americans yesterday won the seventh and deciding game of the inter-city series, defeating the Pittsburgh Nationals by a score of 4 to 1. The attendance was 2,953, and the receipts \$2,135.

In St. Louis he was judge and manager, and he made that city his home for a long time. He was 59 years old.

As a result of Varsity's defeat at the hands of R. M. C. of Kingston on Saturday, McGill University Rugbyists of Montreal, are again favorites in the Inter-Collegiate race this year. The tell-tale battle of the year will be played next Saturday when Varsity plays McGill in Montreal, but with Captain Jack Maynard out of the game, the Toronto students are not at all likely to come home with the bacon.

Woodstock Hockey Club organized last evening and decided to enter two teams in the O. H. A. this year, an intermediate and junior. The Woodstock city hockeyists claim that they will have the team to beat in the race for the junior championship this year, as they have all of last year's junior aggregation, which went up into the finals for the cup, with the exception of two players, and there is enough new material now located within the borders of the Baby City to fill up the vacancies and then some. Their intermediate team, they claim, will be a good one, and with their new \$35,000 arena, the hockey "bugs" are looking forward to a big season.

Maurice Gordon crossed the open space of cultivated garden and plunged into the black shadow of the forest.

"Was the devil in that?" he cried. "Meredith," answered a voice.

"Meredith—Jack Meredith, is that you?"

"Well, I'm blotted," exclaimed Maurice Gordon, shaking hands with his old friend.

"Oh, pleasure," replied Jack, with his face in the shadow.

"Pleasure! You've come to the wrong place, for that. However, I'll let you find that out for yourself."

When Maurice left her Jocelyn went out into the veranda. It was the beginning of the hot season.

She sat down in her usual chair while the moonlight, red and glowing, made a pattern on the floor and on her white dress with the shadows of the creepers.

She was very dull at Loango. There was too much time for thought and too little to think about.

Jack Meredith had not gone out of her life forever. There was no reason why she should ever meet him again.

SITUATION WORSE THAN EVER REGARDING MEXICO

WASHINGTON, Oct. 15.—Following a meeting of the Cabinet to-day, Secretary Bryan, by direction of President Wilson, sent telegraphic instructions to Nelson O'Shaughnessy, charge d'affaires of the United States in the City of Mexico, to inform the Mexican Government that in view of President Huerta's assumption of the role of dictator of the Republic this Government would be unable to recognize as legal and constitutional the election of President and members of Congress set for Oct. 26. By this action the Wilson Administration practically destroyed the last hope that the forthcoming elections would pave the way for the establishment of a constitutional government which would be recognized by the United States.

Situation Worse Than Ever.
Broadly speaking, the political situation in the perturbed Republic is worse than ever since the accession of General Huerta to the Provisional Presidency last February. Officials admit this. They see hope for better things, however, in the belief that Huerta's high-handed action in imprisoning 110 members of the Chamber of Deputies who would not do his bidding, and his assumption of dictatorship, will arouse the enmity of many of those who up to this time had given him their support.

DOG SAVES HIS MASTER FROM CERTAIN DEATH

WIARTON, Oct. 15.—On Monday evening James Ward, a farmer of Lake Charles, about 10 miles from Wiarton, had a narrow escape from death by being gored by a bull. He was leading the animal to the stable, when it turned on him and tossed him a distance of 12 feet, and then when he arose tossed him again about the same distance, which left him on the brow of the hill. Here the bull rushed at him and trampled and then lifted him and let

him fall about 30 feet upon a pile of large rocks. The bull then followed him and was preparing to trample him, when his cries brought to his assistance his dog, who immediately attacked the bull and in a few minutes distracted his attention so that Ward could crawl away to his brother, who was coming in answer to his cries. Mr. Ward will be unable to move for a number of weeks, as he is badly bruised from head to foot and is internally injured.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.
