London, Dec. 11.—1.10 p.m.—
Premier Lloyd-George has sent the following to all members of the House of Commons, it was announced officially today:

"The King has entrusted me with the task of forming a government. I have carried out the command. I had hoped to make a statement to the House on Tuesday. I now find it to be impossible. On Tuesday Mr. Bonar Law, as leader in the House, will move adjournment till Thursday.

"The one predominant task before the government is the vigorous prosecution of the war to a triumphant conclusion. I feel confident the government can rely on your support as long as they devote their energies effectively to that end."

London. Dec. 11.—The new ministry evokes no hostile criticism in the press, and for the most part is commented on with enthusiasm. Lloyd George is generally congratulated on the speed with which he accomplished his difficult task, and the manner in which he holdly abandoned traction has separately abandoned traction has separately abandoned tractic commentator, the Dally News refrains from any condemnation. Not Cromwell himself, ever devised a bolder experiment. The most drastic of the measures which the prime minister was credited with the intention of taking, are insignificant by comparison with this daring innovation."

The Northcliffe papers cease attacking the appointments of Arthur Balfour and Lord Robert Cecil, although the Mail refers to them briefly as exceptions to otherwise excellent appointments. The Times declares:

"The cabinet is received every-where with enthusiasm and fresh hope. The difficulties are immense, but Premier Lloyd George has chosen

The majority of the nominations receive detailed praise for reasons connected with the personalities of the individuals concerned. This is especially notable in connection with some of the appointments of men without previous experience in official routine. A warning note, however, is raised in this connection by The Times, which says that it will be necessary to bewars least these ministers become subject to the influence of permanent department officials, many of whom, it says, are apt to be active politicians and seek to impress their own views on their chiefs.

# Hunger Stalks Through Belgium NOW!

While we in Canada are bringing in the harvests, filling our store-rooms and stocking our pantries with an abundance of good food—our Allies in overrun Belgium are facing another

winter of near-starvation.

Women and children there by millions have gone for two years on short rations, for the Belgian Relief Fund has never been sufficient to provide full fare. Consequently they are in no condition to stand the still greater privations

condition to stand the still greater privations threatened on account of the growing number dependent on the Fund. Anything less than the present meagre allowance of bread and soup would, in thousands of cases, fail to hold bodies and souls together.

Shall we—can we—go on eating our three square meals a day—living well if not luxuriously—while Belgian children, pinched and cold, sobbingly beg their mothers for bread enough to stop the gnawing hunger?

\$2.50 a month in the hands of the Belgian Relief Commission, will feed a Belgian family. A cigar less a day—a night missed from the theatre—simpler refreshments after an evening's cards—the price of any one of a dozen such habitual luxuries would provide the food that means life

the price of any one of a dozen such natural luxuries would provide the food that means life for a Belgian mother and her children till the end of the war.

Won't your own meals taste better when you know some little Belgians also are enjoying the food which you provide? Whatever you feel that you can spare, send your subscription weekly, monthly or in one lump sum to Local or Provincial Committees, or send Cheques payable to Trassurer.

### THE SITUATION

There is a glint of sunlight with regard to the Roumanian operations. The troops of King Ferdinand have taken the offensive 'Northeast of Bucharest, and have driven the Austro-Germans back Westward. Along the Transylvania frontier the Russians report success and Berlin admits that they have captured an important height. As for the rest of the struggle the Teutons claim Von Mackensen has Russian and Roumanian forces in full flight, that Von Falkenhayn has annihilated one of the Russian wings and that the Russian forces trying to join King Ferdinand's troops from the moun-

tain region have been pushed back. The position of affairs in Greece still remains most disquieting. King Constantine has openly hinted that if the Allies are not more careful he will declare for Germany, and in addition, followers of Venizelos continue to be dealt with most harshly. The Royalists have a number of soldiers gathered in and around the Capital and it is believed that a clash may take place between them and the Allied troops at almost any min- mans now stand at the Somme.

The king, as a sign that he entertains no hostile intentions, offered to withdraw two regiments from Thessaly, and instrust the guarding of the Corinth Canal and the Chalois bridge to French torpedoboat destrovers.

"While the Greek Government announces that the situation has improved, the diplomatic body is reserved." Later, in the vestibule of the church, M. Psaroulaki, president of the Greek colony, delivered a speech, denouncing King Constantine. The

semblage appointed five members to visit the Greek legation and demand the suppression throughout the edifice of all emblems of the monarchy. Washington, Dec. 11-A statement regarding the clash at Athens, following the allied demand that Greece give up arms and ammunition to the allies, was presented to the state department Saturday evening by the Greek legation. It declared full responsibility for the incident rested on

the allied commanders, and charged that the Anglo-French fleet continued its bombardment of the city after an armistice had been decided upon. The statement handed to the department for its information, was a copy of a cablegram from Athens, instructing the Greek minister at London to call the facts to the attention of the British foreign office. It is signed by Foreign Minister Zalacost.

Thanks for the privilege of appealing through your columns on behalf of the Hospital for Sick Children, the great Provincial Charity.

Our need of money is measured by the children's need of help, and you can judge how great that need must be when last year 3,045 sick little ones were treated as in-patients, and as will be seen from the 1916 figures, 592 patients were admitted from 242 places outside Toronto.

Last year 271 in-patients were treated for deformities, such as club feet, bow-legs, knock-knees, Pott's disease of the spine, dislocations, infantile paralysis, tubercular disease of knee, hip, ankle. The report of the committee on education, revealed the fact that a great many of Norfolk's young people, especially in the west and north, are attending high schools outside of the county. Reeve Savage, of Waterford, remarked positively that he will not be a member of next year's council,

spine, dislocations, infantile paralysis, tubercular disease of knee, hip, ankle. Is the Hospital for Sick Children to take dollars out of your pocket, or is death to take babies out of their cradies? That is the question.

One gift more in the Hospital's treasury means one coffin less in the LITTLE WHITE HEARSE.

The Hospital must be digging up

LITTLE WHITE HEARSE.

The Hospital must be digging up help for little children from the soil of human kindness, or sextons will be digging graves for little children in the soil of many a cemetery.

The Hospital for Sick Children can only volunteer its mercy in so far as you friends of little children volunteer your money for service in the Hospital's never-ending battle for the lives of the little ones.

your money for service in the Hospital's never-ending battle for the lives of the little ones.

Let your money fight in the trenches of some mother's trouble and rescue some little child from the dugout of pain, disease and death.

Can the Hospital leave children to die because the fathers of those children have left home to fight for liberty on the British battle line, and can the Hospital help the children of Canada's soldiers with its care unless you help the Hospital with your cash?

You have money enough to help every other war fund without keeping back a dollar from the Hospital's war fund—the fund that helps the Hospital save the lives of little children.

Do not let the little children.

Do not let the Hospital's care, the contribution that should be given and must be given to the war funds.

Your money can send a message of cheer to some father in the trenches—yes, send that message from the cot where the Hospital nurses some little child hack to life, the child of the father who is fighting your battle in the trenches.

Every dollar kept from the Hospital's power to serve the little children is a weight added to the burdens and a grief added to the sorrows of this war.

You' can bear to have your pocket

You can bear to have your pocket emptied of a little money easier than some mother can bear to have her home emptied of a little child.

It will go on shirking. Stimulants on the other hand, whip up the digestive organs and end by exhausting them. You can't cure yourself that way.
