FEAST OF BLOSSOMS WAS OPENED TO-DAY.

Sixty Thousand Blossoms Used In Decorating.

Lieut.-Governor Clark at Opening.

The Conservatory of Music where the Feast of Blossoms under the auspices of the combined city chapters of the Imperial Order of the Daughters of the Empire opens this afteroon is a bower of beauty and a blaze of glory. If a little patch of the Mikado's grounds were transferred from the Flowery Kingdom to the Conservatory the effect could not be more entrancing and bewitch ing. It's one of the most magnificent floral displays Hamilton has seen. Flowers bank the terraces around the ecture hall, cover the walls and bloom from the ceiling. They are not nature's product. Sixty thousand of the blossoms which aid in the brilliant effect were made by the ladies during the Lenten season, but they would deceive a botanist at a dis tance so perfectly is each bud and

The walls and ceilings are covered with flowers, Japanese lanterns and parasols. On the right hand side as one enters the Japanese garden is the Homemade Candy Booth, in charge of Mrs. (Canon) Sutherland. Further west is the Japanese novelty booth in charge of Mrs. W, R. Davis. The booth is loaded with dainty little Japanese novelties, which will doubtless find a ready sale. The Flower Booth will be presided over by Mrs. J. S. The young woman put on the hat before the depot was reached, and when the train stopped she started out of the Pullman at a brisk gait. Suddenly there was a grinding noise, and the young woman came to a stop. The aisle along the side of the Pullman was-not wide enough for the hat when it was on top of the young woman's head. The conductor was shouting that the train would have to start, and there was all kinds of excitement. Then the porter started to push the young woman from

Cissy at this time was an unspeakable comfort to Gibrielle. His stay was prolonged far beyond the ten days which, on arriving, he had named; and, throughout it, morning, noon and night.

was protonged far beyond the ten days which, on 'arriving, he had named; and, throughout it, morning, noon and night, saw him pursuing Cissy. Pursuing for promohouse to garden, from garden to house. But then, when almost hopeless, he seemed on the field, she would alter her tacties: would smile sweetly, receive his pretty speeches, and send him to and fro on herrands. This, till his confidence returned; the signal for her coyness to trum likewise.

"Gissy," said Gabrielle, one evening, as after leaving the dining-room, they stood together in a window of the saloon "Cissy," do you know—have you observed, that Mr. Trevor seems—"
"Rather smitten with me?" said Cissy, supplying the gap. "Of course I have. Months and months ago."

Gabrielle stared.

"What great, shocked eyes, my darling! Well, I'll tell you all about it. The rest of them may set me down as a filtre and welcome; it will give them pleasure, poor dears! but you, perhaps, would prefer to come behind the scenees."

"Thoroughy," said Cissy, with deep emphasis; "do-you remember what I said one day about fitting? that, in my opinion, flirting may often be turned to account, as a verygroper means of punishment! Well! I alm now punishing. Mr. Trevor, and richly he deserves it."

"Why, what has he done?" said Gabrille, estonished.
Cissy's color rose; her eyes sparkled.

"Nothing can be too had for him!" she cried, clinching her fist. "He jilted a girl last year, Gabrielle, coolly and deile the mand all the rest of it. The wedding day was on the point of being fixed; when he—he—well, I need not mine matters to you. He saw me, the first time for three years, and—you may guess the sequel. She could not imagine why. "Oh, yes; do try them, Cissy. I should like to hear them so much."

"And you won't mistake me for a pea cock, and fancy it's going to rain? This looks pretty—"Rock Me to Sleep, Mother."

Next ing herself at the piano, she began forthwith, not pausing to scrutinize the words. And Gabrielle listened, thinking not of the young unknown mother, who had lain nineteen years in her grave, but of him who had been to her father and mother in one, and to whom, throughout this miserable month, her heart had turned with an intensity of longing sharper than any that she had felt since his death.

When Cissy had finished there was a pause. Then Gabrielle said:

"Don't sing that again, Cissy: I cannot bear it," and burst into an agony of weeping.

WINSTON CHURCHILL DEFINES POSITION ON IRISH QUESTION.

Convinced of Necessity of Settling Problem on Broad and Generous Lines

—But Not Until End of the Present

Manchester, April 20. - Winston Spencer Churchill, who is seeking reelection, due to his recent appointment to the Cabinet, made a notable speech here to-night, which has been awaited by the followers of John Redmond before they undertook to counsel the Nationalists as to how they should vote. Mr. Churchill announced that he had the concurrence of Premier Asquith in saying that at the close of the present Parliament the Liberal party would claim full authority and a free hand to deal with the problem of Irish self-government without being restricted by mere measures of devolution like the abandoned Irish Councils bill. tó the Cabinet, made a notable speech

Mr. Churchill said that his recent vote in support of John Redmond's home rule resolution in the House of Comwas no mere perfunctory pro

ceeding.
"It constituted on my part," he said,
"It constituted on my part," he said, "It constituted on my part," he said, "a distinct acceptance of an advanced position on the Irish question. My opinion ripened during the last two years, I frankly admit. I have become convinced that a national settlement of the Irish question on broad and generous lines is indispensable to a harmonious conception of liberalism, and I have a great object lesson in my own experience in the matter of South Africa. There they ran a risk far greater. I hope some day for a settlement in a similar spirit in Ireland."

land."
Late to-night Mr. Redmond's decision was still awaited. Although Mr. Churchill distinctly stated that the Irish solution must wait until the next general election, the tenor of his speech seems to bear out the rumor that Mr. Redmond delivered a virtual ultimatum as the price of the Irish vote in Manchester.

When the sacrilege occurred Miss anderson, who had already received Communion, being deeply absorbed, only realized the incident through seeing the sister of the Pope next to her raise horrified hands. Simultaneously the members of the Papal Court and high prolates, noticing the insult, removed the insulters, who, however, justified their action by alluding to their ignorance of the Catholic faith.

As the Pope withdrew to his apartment evidently disturbed he exclaimed, "May God forgive them. They knew not what they did." The incident brings out a peculiar situation in the Holy See. If the sacrilege had occurred in any church in Rome outside the Vatican, Italy would punish the insulters, but the Vatican enjoying the rights of extra territoriality, Italy cannot be applied to.

SAVED BY EASTER HATS.

A Phalanx of "Merry Widows" Pre vented a Panic in Church.

New York, April 20.—A despatch to the Herald from St. Louis says: "Merry Widow" hats massed in a solid bank in the foremost rows of St. John's Catholic Church, Soulard and Seventeenth streets, to-day prevented a panic among the worshippers at Eeaster service by hiding from the congregation a dangerous blaze on the altar, which was extinguished by a priest and two altar boys.

Bouquets of large paper lilies had become ignited by candles grouped on the altar, and while the fire burned fiercely those in the church remained with bowed heads in prayer, the view of the dangerous flames being blocked by the wide-spreading Easter creations in the front of the church. MRS. DE ARMAN WAS JUSTIFIED

The eyes of many were filled with ears at the scene before them—Justice

Holloway standing, hands outstretched, before the defendant—who fainted as soon as she heard the sentence. Only about a minute elapsed after the argument made by Attorney P. Schenck, who defended Mrs. De Arman, until the Judge gave his decision.

Mrs. U. Z. De Arman, wife of the well

known horseman, was taken before Justice Holloway this morning for the pre-liminary examination. She was charged with shooting Mrs. Helen Griffin, who, she believed, had alicnated her husband's affections, and was planning to take him away from her. The killing took place in the post office at Montovia.

The events that led up to the shooting covered a period of five years of unhappy married life, which Mrs. De Arman had endured, she said, for the sake of her four children, Lynnie De Arman, Annie De Arman, Cecil De Arman and Clay De Arman.

De Arman, During March she told several of her friends that the strain was becoming too great. She could not bear, she said, the taunts which Mrs. Griffin directed the taunts, which Mrs. Griffin directed at her at every opportunity and the in-sistent statements made by Mrs. Griffin that she, too, was Mrs. De Arman. Driven almost to desperation, she first resolved to end her own life and the lives of her children, too, in the fear that they would come into the care of Mrs. Griffin. She made preparations to do this, buying a bottle of earbolic acid, and when this was taken from her, she secured a bottle of laudanum. At the last moment, however, Mrs. De

MARKETS and FINANCE

Tuesday, April 21.—The market was very singgish this morning, and prices suffered somewhat. Meat prices were very much depressed and pork and hogs broke. Veal also tumbled a few cents, and spring lamb lost a few points. The heavy market of Saturday spoiled the meat prices, and big shipments which came in late were untouched. Vegetables are easy, and the butter and egg market is rather quiet. Eggs were unusually plentiful. The rest of the market was small, and breaks in the prices are expected this afternoon or before Thursday.

THE HAMILTON TIMES

TUESDAY, APRIL 21, 1908.

NO TYLED DOORS.

Friends of Liberalism and good gov-ernment may look forward to two very interesting meetings this week to which they are all cordially invited, that of the nominating convention for the Legislature, on Thursday night, and that of the public meeting to be addressed by Mr. J. G. Turriff, M. P., of East Assin iboia, and Mr. Adam Zimmerman, M. P., of West Hamilton, on Saturday night. At this convention every Liberal will stand on an even keel, the rights of all to take part in the discussions, and to candidates, being e ;ua'; no tyled a ors, no machine boss rule. Those tactics are left to the other fellows.

At the Saturday evening meeting Mr. Turriff, who was formerly Commissioner of Crown Lands in the Interior Depart ment, will have something interesting to say to his audience. It will be remem bered that in the timber limit scandal hunt in which Mr. Samuel Barker, M. P., figured as one of the "smellers," the slanderbund made many odious insinua tions against Mr. Turriff. They carefully refrained, however, from making any definite charge which could be regularly submitted to investigation. What they were after was party campaign material -means of damaging opponents by the method of employing "suppressio veri suggestio falsi"-and they took good care to seek to prevent the actual facts from being placed in evidence. But they were compelled to hear Mr. Turriff and his secretary testify under oath, and with the first cool breath of truth, their foul fabric of gaseous slander was dissipated. Mr. Turriff is well qualifiednone better-to thoroughly expose the cowardly tactics of the slanderbund. Mr. Zimmerman will also be heard, and the electors of the city will enjoy a practical talk from a member who does things for Hamilton, and who figures in Parliamentary life in a better role than that of him who metaphorically devotes his time to spying at keyholes, hunting for scandals, or nosing about Depart. mental kitchens and bedchambers for excuses for grumbling at extravagance constituents' interests are neglected. In Mr. Zimmerman's time, Hamilton has not been without a representative to look after her interests, and one who stood well with the Governnent and his colleagues in Parliament. He will address an appreciative audience.

PIE-CRUST PROMISES.

Whitney's treasons, violations, and failures to keep his promises, by piping diligently on what excellent things he to accomplish in the future. One of these is a set-off to the villainy of the recent gerrymander, which, we are told, "if his present views are maintained," will be the last under the present system. According to these touts. Whitney will introduce an independent commission system of redistribution we have heard something about Whitney's boasted fairness. He promised that the gerrymander just perpetrated would not take place, but that the re districting would be done by a committee consisting of members of both parties. He did appoint a committee, of course, composed of a majority of Conserva That committee went through the farce of taking part in the redistribution-nominally only, however, . The real distribution was made by Whitney his colleagues with the aid of the Tory machines in the constituencies; the chedules, as prepared to accomplish the being placed before the committee complete, the Tory majority of the com-

perience of Whitney's duplicity will tremists in defeating the bill. Time will in for a bite, there would harely be a place little faith in any promises his show. friends and retained admirers may make for his introducing an honest method of redistribution.

THE CORPSE OF A "SCANDAL."

As an illustration of how hard up the Conservative organs are for grounds of Conservative organs are for grounds of complaint against the Liberal administration, the persistent efforts to keep alive the "thin red line outrage" fake, are illuminating. The Times has already dealt fully with this matter, which was, labeled to my the stable of a certain class from processary and in brief, no more than a necessary and proper readjustment of the voters' lists as prepared for the Provincial constituencies in Manitoba for use at the Dominion elections. In some of the federal constituencies, including several of the Provincial ones and parts thereof, it became necessary to strike out the names in some divisions where the voters were not entitled to vote, and insert them in the particular divisions of the Dominion onstituency where their franchise was to be exercised. This work was done in course, and the elections took place. Nobody's rights were prejudiced thereby. Following the Tory defeat, the Manitoba Ministers set out to make a griev-ance of this readjustment of the lists. fake "outrage" was made much of by the Manitoba Tory politicians. The Provincial Attorney-General went so far in the effort to "work" it for political party capital that he prostituted his of fice to the extent of bringing a legal for a great length of time, while the that there is only one honest newspape organs produced scandal editorials by man addressing the people of Canada the column. But there is an end to all All the others are out to betray the pub things of the kind, and a time arrived lic. Mr. W. F. Maclean, M. P., seems

when Mr. Rogers' bluff was called. When he faced the Assize Court and longer de-lay could not be obtained, he climbed lown from his high horse, withdrew all his high-sounding charges, and struck the case off the calendar! He had not a tittle of evidence of wrongdoing to justify his disgraceful abuse of his posi-tion, and his shameful persecution of the officials who had but done their duty

But the Toronto Mail still tries to galvanize into life the corpse of this "scandal," and reiterates the old falsehood that nearly 1,500 voters in each of seven Provincial constituencies were disfrauchised by the readjustment of the lists. Of course the falsehood will have no effect, save to create disgust at the organ's mendacity, with those who have any knowledge of the facts. But the Mail and Empire trades on the chance of their being unaware of the actual situation. How false its figures are may sed from the fact that the vote polled at the election where we are asked to believe so many thousands were disfranchised was much greater than in the previous elections, or in the elections that followed, when no readjustment of the list took place! The simple fact is that there was no disfranchisement. Had there been any, Attorney-General Rogers would have been only too eager to take his case into court. He would not have weakened and fled.

SEEKING COMMON GROUND.

There appears to be some prospect of an entente cordiale being arrived at between the warring factions in England over the question of elementary education. In the House of Lords a bill has been introduced by the Bishop of Asaph, and to which the Archbishop of Canterbury gave countenance, lution of the problem. The measure in lie elementary school in England and Wales shall be maintained out of public funds unless controlled by the local education authorities, abolishes religious tests for teachers in such schools, and provides that while no teacher, unless ed and who proposes it. Take the wishes it, shall be required to give any religious instruction, all teachers shall be left free to offer to give either simple Christian or distinctive denomin teaching. Undenominational teaching shall be given during school of the local education authority, and facilities for denominational teaching on three days a week for those children whose parents desire such teaching, but part of the cost is to be paid by the local education authority. Adulatory organs are busily engaged bishop of Canterbury says he does not trying to withdraw attention from feel justified in antagonizing the measure ure which he regards as looking toward a settlement without sacrificing funda-mental principles. Other lords, in speaking to the measure, regarded it as moderate and inviting to peace. The however, is not too hopeful. The Saturday Review denounces it as monstrous in the sacrifices which it demands of the Church of England. The view of the

We cannot help thinking that the more the bill is considered the more its general-framework will commend itself to practical men. At the same time, we fully recognize that the concessions which it demands from the church are of the most tremendous and far-reaching kind. The church in the narrower sense is, in fact, asked to sacrifice the whole of her privileged position—a position to of her privileged position—a position, be t remembered, which she has reached education ugh the personal energy and pecun-sacrifices of her members. For our lves, we think that the sacrifice is orth making in order to secure for all me a sound and firm religious basis Premier's dastardly and partisan pur-ate and apparent sacrifice is on an en-the people that elections may be any nose, being placed before the committee or mous scale.

Unable to deny that this is exactly object and end which the bonus to booking agents for settlers and farm hands is intended to serve, and that such bonus is paid for only a small selected portion of our large immigration, yet eager to say something disparaging Laurier Government, the local Tory organ copies the extract and proceeds to say, "Such is the theory. It is very well known that the practice dif fers widely from the theory." Now, if we are to have Government regulation, it must be regulation which regulates both ways. If the regulation protects the people against abuse and injustice on the part of, the railroads, so the regulation must protect the railroads against injustice on the part of the public. If Government regulation is simply to become the instrument of popular passion and greed, if it is to be used for the purpose of squeezing the life out of railroad investments, if it is to deprive the managers of the railroads of all power over their own properties, if it is to be employed for the purpose of securing to shippers rates which would not carn a fair return upon the capital invested, then Government regulation instead of being the adequate and impartial sovereign becomes a despot and a monster.

Here the it, unfortunately for somebody, The World advances its price. The ways charge the same old rate. But Mr. Maclean is not satisfied with this. He wants the railway rate reduced.

Dr. Marsh Answers Question "Where Are the Dead?"

The interest in the Bible lectures

given by Dr. Marsh, of New York, is evidently on the increase. Last evening. at the Gospel Tabernacle, the crowd was so large that many were obliged to stand throughout the entire service. The subject of the address was, "Where Are the Dead?" The speaker, in answering this question, quoted very largely from both the Oid and the New Testaments. Dr. Marsh is a firm believer in the Bible as the inspired word of God, and is fully convinced that it answers all of these perplexing questions. He stated that it is not a question of what we think or what man says. It is "Thus saith the Lord," that satisfies the believer. Mr. Marsh remarked that it was most unfortunate that some of the words that referred to the future estate of man had been mistranslated, hence many had a very wrong conception of the truth. so large that many were obliged to

The revolt against alcoholism, as expressed in the above bill, is the more remarkable as the consumption of alcoholic drinks is greater per capita in Denmark than in any other European country. Copenhagen, April 20.—A law now be ore Parliament proposes to make

ANGLICAN CHURCHES HAVE PROGRESSED

Highly Satisfactory Reports Presented at the Annual Vestry Meetings.

All Saints' and St. Peter's Are Talking of Expansion---Financial Statements Good.

CHRIST'S CHURCH CATHEDRAL.

CHRIST'S CHURCH CATHEDRAL.

The vestry meeting of Christ's Church Cathedral was well attended, quite a number of ladies being present. Rev. Canon Abbott occupied the chair.

Mr. Paul J. Myler, the People's Warden, presented the annual statement of the financial condition of the church. It was preceded by a letter from the Wardens, from which the following extracts are taken:

On account of the very extraordinary effort to reduce the mortgage debt put forth last year by the congregation, the Committee of Management and Wardens, decided it would be unwise to again make a special appeal this year for the same purpose. At the same time, it is realized that it would be a most desirable attainment to have the church entirely free from debt, and we would suggest that at Easter, 1909, an effort in this direction be made.

The continued prosperity is unquestionably due, we think, to the increasing and untiring activities of our beloved rector in his continual efforts to strengthen and build up the parish. An idea of his purochial duties, and the work accombished, may be obtained

dea of his parochial duties, and the work accomplished, may be obtained rom some of the statistics taken from from some of the statistics taken from his report to the wardens for the year ending March 31: Baptisms, 115; number of confirmations, 108; marriages, 25; burials, 34; parochial visits, 2,339; sick visits, 501; Sunday services, 168; week-day services, 150; sermons, 105; addresses, 90; total number of communicants, 4,751.

addresses, 90; total number, municants, 4,751.

During the year the Cathedral inherited a legacy of \$200 under the will of the late Elizabeth C. Birss, of Montreal. This was placed to the credit of the mortgage debt sinking fund. More than thirty years have clapsed since Miss Birss changed her residence from Hamilton, but it is evident by her kindly act that. Christ's Church, of Hamilton, the place of devotion of her early childnood, was still dear in her memory.

Canon Abbott named as his warden Mr. Harry B. Witton.

Mr. Myler moved that Mr. Ii. H. Champ be people's warden, and spoke highly of Mr. Champ's qualifications for the post. Mr. Scott seconded it, and the motion carried.

Mr. J. Bowstead moved, seconded by Mr. W. Armstrong, that the vestry's singere sympathy be forwarded to Canon Bland and his family in their recent great bereavement, and the motion was adopted.

The rector explained that the Pan-Anglican offering was really larger than when the Sunday school contribution was included, the total amount being \$180.

Mr. Higginson spoke encouragingly of the health of the rector, Canon Wade, hoping that he would come back to them restored in health this year. He thanked the congregation for the support he had received from it since he took charge. He then read a number of reports, from which the following is taken:

CHURCH OF ASCENSION.

There was a fairly good attendance at this vestry meeting last evening. It was and the tower of the church; the improvement of the ventilation of the verandah on the south side of the recent this vestry meeting last evening. It was and the tower should be repaired at once, harmonious and everybody seemed glad that the church had had such a prosper-report also recommended the painting of

the exterior of the Sunday school and sheeting of the walls of the choir room. Satisfaction was expressed at the liberal response to appeals for funds, and the fact that the church property is absolutely free from debt. It was suggested that a scheme to raise general revenue, so as to avoid the collection which has to be made annually at the end of the financial year by the Churchwardens, be devised. Appreciation was expressed at the increase in the size of the choir and its efficiency, largely due to the efforts of Edward Pearce.

The Wardens were warmly congratulated on the report. T. E. Leather and Mayor Mewburn declaring it the best in the history of the church.

Mr. Leather was rather disappointed because the attendance was not larger, and he thought that if the Churchwardens' statement was distributed a week before the vestry meeting the congregation would be better represented. The rector jocularly remarked that he was afraid it was impossible to get a large attendance unless there were prospects of a row.

The total cost of repairs recommend-

The total cost of repairs recommended by the wardens amounted to \$544, of which \$345 was for repairing the tower.

Mr. Hand strongly urged that some action be taken on the churchwardens' recommendation to have some way of raising the general revenue to avoid collections by the wardens at the end of the financial year. There was always a recommendation to have some way of raising the general revenue to avoid collections by the wardens at the end of the financial year. There was always a shortage, he said, at the end of the year of about \$250. Out of 112 he said only 40 members were contributing through the white envelopes. Increasing the envelope system, he thought, was the solution of it.

"There has not been any increase in the envelope system since 1899," said Mr. Leather.

In the course of the discussion Mr. Leather said there were churches in Hamilton where the list of those who contributed was pasted up where all could see it, and the big givers did not give until the others had paid their share and then they contributed liberally. St. Mark's Church was one of these, he said.

"I don't think we would care to introduce that here," said one of the wardens.

It was left, with the churchwardens.

to select a committee of four to assist them with the envelope system and the finances of the church during the year. If the same committee can find money for the repairs and improvements re-commended the work will be done.

Mr. Hand also brought up the matter of extensions. He thought fifteen feet to the east of the church property, should be purchased for Sunday school The salary of the organist, Mr. Pearce,

The salary of the organist, Mr. Pearce, was acreased from \$450 to \$500. The usual votes of thanks to the different officials and organizations and to Chas. N. Stewart, the honorary vestry clerk, were passed.

The rector spoke of the prosperous condition of the church and the Sunday school. On Easter Sunday, he said, there were 343 communicants, the largest number in the history of the church. The Sunday school has a membership, including officers and teachers, of about 335, and during the year raised \$475 for all purposes.

A special gift of \$100 from the Synod was allowed for the last time. The improvements of the year were very heavy, but the people responded well, with the result that a balance of 16 cents is carried forward. The mortgage was reduced \$100, leaving \$2,800.

The growth of the church during the past year has been rapid. The total number of families who attend regularly is 140; 13 families have removed from the city, and yet the total number of members and adherents is 575; total confirmed is 295; communicants 220, being an increase of about 150 confirmed and 100 communicants. A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

SLENDER Margaret Knolly now, if you please. The fascinating leading lady of the Bijou, now more fascinating than ever, astonished all her friends on Beved-way the other day by presenting to their admiring gaze a svelt and willowy ferm in place of the plump, not to say fat outlines with which she gayly sailed away to new triumphs and for sign shores last January. After a good deal of diplomatic cross-examination from interested fat acquaintances the secret was cautiously whispered to a few dear friends, with the result that everybody knows it now. It was not exercise, nor fasting, nor see air, nor worry about her new venture that had brouget alcut this wonderful willowy change in the charming Margaret; no, none of these; nothing but a simple mixture which all druggists are familiar with and can supply at small cost, to wit: One-half ounce Marmola, 34 ounce Fluid Extract Cascara Aromatic and 434 ounces of Syrup Simplex. "Grown folks need a teaspoonful after meals and at bedtime," explained the now slepder Margaret. It is simply wonderful. It takes off the fat quickly, as much as a pound a day, and keeps it off. You can eat what you like, too. In that respect it is unlike anything of the kind I ever heard of, and, besides, it has another splendid feature—it is entirely harmless and will not cause wrinkles. I think it is about as essential a toilet article for the woman who is fat and wants to get thinner as face powder. In order to get the best results, however, you should buy the Marmola in the original package and mix it with the other two ingredients after it with the other two ingredients after

The sketch opens when they meet together at a lawyer's office. A stormy scene ensues, they reproach each other for past wrongs and keep the house convulsed with laughter when they argue as to which one shall have the lawyer. Forty-five Minutes From Broadway," with Scott Welch in the leading part, is to be presented at the Grand on Friday night by Klaw & Erlanger. Following out this theory, he has provided an entertainment that would succeed along either of two lines, and as a result scores unusual success along both. His play might be considered entirely by itself, for there is a real plot that is acted for all there is in it by a company of real actors and actresses, and in addition there are enough song hits to entitle the piece to recognition and fame on that score alone, and make the fame of a mediocre musical comedy. In this case the songs have been subordinated to the drama, and both gain in strength thereby. It is filled with delicious comedy moments, and one characterization in particular that has been so extraordinarily success that it has been made the basis for another play with the part the dominant feature. This is the exprize fighter "Kid Burns," portrayed by Scott Welch, whose naive viewpoint and quaint slang have been the talk of the theater-going world ever since he was given to the stage two years ago. It is a part that would make the fame of any actor of even moderate ability. Miss yesterday.

Mr. Webb thinks Saskatoon is a wonderful place and says that some of the buildings here would do credit to a much larger city. He is assured Saskatoon will be an important place, but inclines to the belief that the best interests will be served by holding the price of land as lowers possible, in order to induce new arrivals to settle there and engage in mir. Smith's Falls, April 20.—Henry Mc-Donald, an employee of the woollen mill at Burritt's Rapids, a short distance below Smith's Falls, had an experience yesterday that few men live to tell of. He was doing some work at the flume when he fell in and was carried its full length and under the bridge.

The water is very high at that point at present, and the force of it almost carried him into the wheel. Just as he reached it, however, the current, as if by a miracle, tossed him to one side, and he was carried away in the overflow to a point below the mill, where a fellow workman rescued him. He was pulled out more dead than alive, apparently, but in a short time he had recovered and was but little the worse of his thrilling experience. Ray and Ward did an excellent song and ance turn. As a German comedian Ray sang and danced well, and the pair had a fairly good line of talk.

Alexander Brothers and Brady, billed as The Exposition Four, gave a varied performance. Their best work was in the musical line, playing and singing. They also danced some, and did a little funny business. They did not shine as comedians as they did as musicians, however. These orders require that enough cars be operated to give every passenger a seat, if such a thing is possible. In order to provide for congestion, due to an occasional blockade, it is required that enough cars be run to provide, on an average, seats for 10 per cent. more than the number of passengers carried. Some of the churches had practically no music at the High Mass, apart from an ordinary chant.

His Grace, on Saturday, however, issued an order that the molecular and healthful action of the bowels, cleanses and invigorates the whole digestive and invigorates the whole digestive and invigorates and achies, of tired, languid feelings, biliousness, backache and constipation.

WHAT IT SENDS.

The Church Army Tells of the Immigrants That Come Here.

To the Editor of the Times:

Sir,-In his recent report on the subject of immigration from Great Britain by the charitable societies, Mr. J. Bruce Walker says concerning the Church

Walker says concerning the Church Army:

"This is a reformatory and charitable organization connected with and working under the auspices of the Established Church of England. They sent to Canada last year 1595 persons, of whom 1,519 received assistance from the Church Army emigration fund. This organization is of a many-sided character, embracing the reclamation of the drunk, ard, the reception of the discharged prisoner, the shelter and food of the homeless, and an asylum for the unemployed. It has a number of cheap night shelters throughout this city and country, and is engaged exclusively in operating amongst the lowest and most degraded classes to be found in England. In pursuance to the reformatory work, they have a farm colony, to which men are sent on probation, and where those who are destined for emigration to Canada are placed for observation and training in actual farming operations, but as these men were originally anything but who are desiring operations and training in actual farming operations, but as these men were originally anything but farmers or rural citizens, the probation can hardly be called satisfactory; the training is not very practical and the person still retains his aversion to the country and his love of populous places. "The Church Army also interests itself in the emigration of persons who can pay their fare; young men who are beyond parental control; young men whose relatives believe that removal from old haunts and old associations to a new country would afford a new opportunity for starting life afresh, and rehabilitating themselves in the good opinion of their friends, and I am afraid that not a few of the latter are selected, not from any examination, but from the personal influence of those who are desirous of obtaining the emigration of such persons."

As chairman of the Emigration Com-

the personal influence of those who are desirous of obtaining the emigration of such persons."

As chairman of the Emigration Committee of the Church Army I protest most emphatically against this sweeping condemnation of the emigrants sent out to Canada by this, organization. Will you allow me in the first place to say that, during the period when the 1.595 emigrants referred to were sent to Canada, Mr. Bruce Walker was assistant superintendent of emigration in London. He had no personal knowledge whatever of the emigrants we sent out, although if he had been so minded he might have seen from time to time at the Great Central Railway terminus at Marylebone nearly all the emigrants whom we sent. Mr. Bruce Walker is entirely mistaken in saying that the Church Army interests itself in the emigration of young men who are beyond parental control, or young men whose relations are interested in their getting a fresh start in a mew country. The great majority of the men whom we emigrated in the year 1907 were persons of the working class, who had always been honest and industrious, but who, from no fault of their own, had become destitute through being out of work a long time. Some of the emigrants and their friends found a a hospital?
Interlocutor—No, Sam; I shall have to pass that up. What is the difference between the late Lydia E. Pinkham and a couple of ice pitchers in a hospital?
Tambo—De one am yours for health and de uddah am ewers for sickness.
Interlocutor—Ladies and gentlemen, while the usher is gathering up the remains of the ill-fated man who got that off, the renowned balladist, Mr. Hunck O'Limburg, will favor you with his/celebrated song. "I Loyed Her Fondly; But She Handel Me a Loaded Gigar." own, had become destine. Some of the emigrants and their friends found a part of the cost of emigration, and all the emigrants agreed to repay the money we advanced to them by instalprosition.

President (of college)—Yes, he resigned at my urgent request. For the last three weeks he has talked nothing but baseball."

the emigrants agreed to repay the money we advanced to them by instalments spreading over several years. I am glad to say that whereas £1,715 became repayable in November last, we have received over £1,100 already, without exercising any pressure whatever. This, I submit, shows clearly that the men who remitted this money were both honest and industrious, and that they had been fully employed. Many persons who applied for emigration last year were rejected as unfit and cases were only accepted—after careful examination, medical inspection and investigation of references. The emigrants were sent out in batches to Canada, under the charge of one of our Church Army officers and on their arrival in Canada they went to places procured for them by our agents stationed at Montreal, Torto and Winnipeg. It is juite true that a small -proportion we sent last year were men who had been reclaimed through the agency of our labor homes.

a small-proportion we sent last year were men who had been reclaimed through the agency of our labor homes. We are informed that they are doing well and we have received grateful letters from them enclosing remittances on account of the cost of emigrating them. With regard to the emigrating them. With regard to the emigratis we sent in the year 1906, in an interview with our agent. Sir Wilfrid Laurier said "Your immigrants have done well for themselves and well for their employers. There is plenty of work for all you can send out, as the farmers are wanting men and cannot get them. I wish you all success in your work."

And even more care was taken in 1907 in the selection of emigrants, it must be clear to any unprejudiced mind that Mr. Bruce Walker's report is, as far as it refers to the Church Army, wholly incorrect. I am, sir, your obedient servant. William F. Hamilton, idon. Treasurer of the Church Army. April 10, 1908.

Boston, Mass., April 21 .- Charles E. Petch, of Toronto, Canada, who finished race twelve years ago: sixth to Tom Longboat in the 25-mile Marathon race of the Boston Athletic the chances of so many good men, proved Petch's undoing. He fell back rapidly, and, from a position once in the first twenty, retired substantially in relative position and still more in actual dis-

position and still more in actual distance.

The winner this year, with Tom Longboat barred by the Amateur Athletic Union from defending his title of last year, was T. P. Morrissey, of the Mohawk Athletic Club, of Yonkers, N. Y., the present indoor 25-mile champion of the A. A. U. Morrissey ran a heady race and his time of 2 hours, 25 minutes, 43 1-5 seconds, as against Longboat's 2 hours, 24 minutes, 24 seconds, was good. Second place went to John J. Bob Fowler, second to Longboat in 1907, had to content himself with third place this year, and he row slightly faster than a year ago. Jimmy Lee, of the Boston Athletic Association, and a local favorite, finished two places behind Fowler, after leading during the twentieth mile. He and Fowler ran abreast for much of the way amid intense excitement. Between the two at the finish was W. Wood, of Somerville, a new-comer to the Marathon game. Seventh and eighth places went to Pred Lorz and Sammy Mellor, both of whom have won former Marathons of the B. A. A. Roy Welton, the National junior five-mile champion, established new records for the figat fifteen miles, being four minutes under Longboat's time at the latter mark. But Welton, after seemingly having the race won, wilted rapidly and was ninth at the finish. Geo. She carried 109 pounds and ran the distance in 46 2-5, equalings the track record and within 2-5 of a second of the world's record. Fitzherbert was second with Erbert third. The surprise of the race, was the performance of Erbert. He was ridden by a stable-boy and was backed down from 30 to 1 to 10 to 1 at the close and with god handling would have been closer up. Trance went to the front soon after the start and, setting a fast pace, won by 1½ lengths.

The handicap at seven furlongs resulted in a fine finish. Shaw on Jubilee rode the best race he has shown this year. Jubilee was outrun in the early part, but Shaw waited with him until the stretch was reached and managed to win by a head. Col. Jack ly played, being backed down from

Mr. Lewis felt very keenly over the necessity of this move, and assured the men that just as soon as orders will materialize notice will be posted when the works will resume. In the meantime it is the intention of the company to take care of as many men as they can with the opening of navigation, as they will begin to receive ore and deliver rails, which are now piled in the vards waiting for the opening of navigation.

The blast furnaces will not be affected by the temporary suspension of the mill, but will keep on and accumulate a stock of iron, and the company will be strongly entrenched for a successful campaign after starting.

New Act Comes Into Force in England and Wales.

Loudon, April 21.—The Criminal Appeal Act came into force in England and Wales yesterday. Now anybody convicted of an indictible offence has the right to appeal both as to matters of law and fact. It introduces one new feature in all criminal trials, that is, the taking of full, verbatim, shorthand reports of the evidence. It is not intended as a rule that the appellate court shall bear the evucence, but the new law makes it necessary that the reviewing body shall have, before it, in case of need, a complete and accurate record of the statements of witnesses.

It is the Government's desire to conclude the business of the present session as expeditiously as possible, and it is further unduly prolonged it will certainly not be the fault of the Liberal members. At an early date it is proposed to start morning sessions of the Commons, and, barring any impossibility of exhausting the flood of the Opposition campaign talk to Hansard, it is hoped to have the prorogation in June. Vacant Lots and Sewer Rental the Cause of the Trouble.

(Special Despatch to the Times.) St. Catharines, April 21.—The Council held rather a stormy session last evening. The occasion was the last evening. The occasion was the charge made by Ald. Thomas Nihan at the previous meeting that Ald. Harry Southcott, who besides having a drug store, is also one of the largest shareholders of the Wethey Mince Meat & Canning Company, favored the appointment as assessors of Henry O'Loughlin and S. G. Dolson, who have served in that capacity for many years, in order to escape a proper assessment on vacant lots owned by him. Before the order of business was taken up last night, Ald. Southcott, rising to a question of privilege, resented most vigorously Ald. Nihan's insimuation, and after giving some figures regarding the increase of the Wethey business during the past three or four years, said that while he made no complaint about the matter, they were not treated by the city as generously as some other industries. He had no comparate that on Church stere he said were not treated by the city as generously as some other industries. He had one vacant lot on Church street, he said, but he was quite willing to pay his full share of taxes on it. He then accused Ald. Nihan of blocking the construction of the York street sewer because he owned property in that part of the city, and did not wish to be charged sewer rental.
