Show Interest in Fight Waged Against White Plague.

School Children Are Shown Around by Experts.

Convention of Canadian Association Opens To-morrow.

That people are waking up to the importance of the battle waged against the appalling white plague and are anxious to assist in checking its ravages is evident from the interest displayed yesterday at the opening of the Ontario Government's free tuberculosis exhibit, which is being shown here in connection with the annual convention of the Canadian Association for the prevention of Consumption.

Three hundred children from the city schools viewed the exhibit and heard the views explained by Dr. Roberts, Medical Health Officer, Dr. Holbrook, Superintendent of the Mountain Sanatorium, Dr. Carrick and Dr. Davey.

Both lectures were brimful of helpful suggestions. The abolishment of carpets, fresh air, pure food and the prevention of infection by general hygienic rules were some of the points Dr. Holbrook emphasized.

Dr. Davey dealt instructively with his subject, defining the contagions, the cause, the nature of the attack, and the methods of preventing it.

To-morrow at 10 o'clock in the Conservatory of Music hall will take place the official opening of the ninth annual convention of the Canadian Association for the Prevention of Consumption and Other Forms of Tuberculosis.

The exhibit is a particularly interesting one, as it shows the methods which have been adopted for fighting consumption in England, Germany, the United States and Canada.

A deputation of the retail grocers of Brantford were in the city last night and made arrangements to have a joint picnic of the retail grocers of the two cities, as in former years.

WHEAT RECORD.

Price on Hamilton Market Today \$1.30.

The demands for wheat on the local market is so strong that the price reached \$1.30, which is 4 cents a bushel higher than the grain buyers remember it having been sold at on the Hamilton market.

LEAVING CITY.

Watkins' Advertising Manager Going to Worcester, Mass.

Mr. G. E. Newkirk, for the past three years advertising manager with the firm of Thomas C. Watkins, the well-known dry goods merchant, has accepted a position as merchandise manager and advertising manager with Denholm & McKay Co.'s big department store of Worcester, Mass.

ARE DIVIDED.

Remains of Sir A. Mac Nab and Relatives Re-Interred.

In connection with the burial of the remains of Sir Allan MacNab in Holy Sepulchre cemetery, a service will be conducted in the chapel at the cemetery to-morrow morning at 8.30.

The removal of the remains has brought to the mind of older residents some stirring incidents in connection with the funeral in 1862.

Hamilton Men in Chicken Fight—Salary Increased.

(Special Despatch to the Times.) Brantford, May 18.—Two youthful vagrants, each 12 years old, wandered into the city last evening, footsore and weary, after a long day's tramp from Hamilton, where they said their parents resided.

CHICKEN FIGHT.

Geo. Ireland was charged at the Police Court here yesterday with having a cocking main on his premises in the northern part of the city.

SECURED INCREASE.

The congregation of St. James' Church met last evening and decided to give their rector an increase in stipend, in order to prevent his acceptance of an invitation to become pastor at Delaware, near London.

A SAD EVENT.

Word has been received here by Mr. John Harper of a fatal accident at Morristown, N. J., in which his son, Fred, was killed, while a brakeman on the Pennsylvania & Reading Railway.

CASE DISMISSED

Two Women Accused of Assaulting an Officer.

Ida Lockhart and Mrs. Mary Simpson were found not guilty this morning before Judge Snider on a charge of assaulting John Hunt. He charged them with unlawfully resisting and obstructing his efforts to make a seizure under an execution he held against Mrs. Simpson.

Canadian Brigade of Five Hundred War Veterans.

New York, May 18.—A revolution trust has been formed in New York. Captained by Melville Boynton, it will be incorporated under the laws of the State this week.

We've got a skyscraper for our purpose, said the captain to-night. "I have just returned from Canada, where I have organized the Canadian brigade, consisting of 500 war veterans."

I wonder if the donor of the Hospital for Incurable Consumptives regrets he ever mentioned the subject. I imagine he must.

Have you made up your mind how you are to vote on the 7th of June?

A gentleman told me yesterday morning that the city dock was a fine thing for Hamilton, and was paying interest on the investment as well.

The first requisite in fighting the white plague is lots of fresh air. Do you sleep with your bedroom window open?

If it came to a pinch I suppose the city could rent the Public Library building to advantage, i. e., make a profit out of it.

You'll often see an error in the newspapers that will make you laugh. But if you knew how easily they are made you would not wonder.

Mr. Longair thinks men are being driven to suicide by the stress of circumstances and by pressure from business competitors.

No doubt the dog does his full share in destroying flowers and garden plots, but it is two-footed animals who steal the flowers and fruit.

The Tories' attempt to make the new Minister of Labor work for less than union wages met with the failure it deserved.

Did it ever occur to you that after all you may be wrong and the other fellow right? Of course, you may be positive and all that sort of thing.

The Indian list is growing so lengthy and so many persons have the honor or distinction of appearing upon it that it is hardly safe to ask a man to "have something" without first making a few inquiries, and without running the risk of a \$20 fine.

Mr. Sturdy may find it necessary to add a few names of citizens who are entire strangers to the Police Court, but who look upon the wine when it is red far too often to suit their families, and whose business would receive better attention if they would devote less attention to putting the drink down.

Magistrate Agrees With Inspector re Indians.

Percy Stinson, the young London man who was killed early Sunday morning on the Grand Trunk Railway one mile east of Dorchester station, had been residing in Hamilton for three or four weeks previous to the accident.

There seems no doubt whatever that death was accidental and was due to the deceased having stepped aside to allow the train to pass and in so doing stepped directly in the path of another.

Regarding the statement of License Inspector Sturdy that so many requests have been made to put drinkers on the prohibitive list that he cannot fill all the orders, Magistrate Jellis says he thinks it is better to confine the list to the worst cases—that it is better to have a small number of the worst drinkers on the list and be able to keep track of them than have a large number and be unable to keep any of them from being served.

MRS. TAFT ILL.

President's Wife Suffering From Nervous Breakdown.

Washington, May 18.—Mrs. Taft, who suffered a nervous breakdown yesterday, was much improved to-day. After the call of Dr. Delaney, the attending physician, at the White House this morning, it was announced that the President's wife had rested comfortably and was much better.

Mrs. Taft became ill yesterday while on a trip down the Potomac River with the President and a small party of friends.

SUDDEN DEATH

Mr. Chas. W. Servos Passed Away Last Evening.

Mr. Charles W. Servos, a clerk in the freight office of the T. H. & B. R., and a popular young man, died suddenly last evening, after an illness of only two or three days.

He attended a meeting of a lodge of the Canadian Order of Foresters last Thursday night, and later rolled a few games of ten pins.

The funeral will be on Wednesday at 2 p. m. from his late residence, 68 Steven street.

The BOSS WHO MAKE EVERYBODY HAPPY

The noble-minded dedicate themselves to the promotion of the happiness of others—everyone who injure them.

Cincinnati, May 17.—Dr. John Uri Lloyd, a great student of the Hindu philosophers, has adopted Bharavi's motto as his own.

Dr. Lloyd is an author, whose "Stringtown on the Pike" was one of the most charming of the six best-sellers of half a dozen years ago.

There's a business man in New York State who talks and writes much about the brotherhood of man, and the beauty of co-operation, and the happiness which work brings to all.

"Happiness is the thing we want. Money brings happiness occasionally—often not. I can make a lot of other people happy by running my factory as I do.

"I figured this way," said Dr. Lloyd. "Happiness is the thing we want. Money brings happiness occasionally—often not. I can make a lot of other people happy by running my factory as I do.

But Dr. Lloyd doesn't do these things.

SCHOONER RELEASED.

Kingston, May 18.—The schooner Mary Ann Lydon (Capt. Patterson), which went ashore last fall near Charlottetown, was released on Saturday, and arrived in port to-day. She is leaning a little and will have to go on the dry dock.

Keeping Time in Holland.

"Railroad time, as we generally understand the phrase in the United States is a little ahead of the 'town' time, but in The Hague, the quaint old capital of Holland, all private and unofficial clocks and watches are kept twenty minutes fast," said Gerald Watfall. "When it is noon in the railway station, postoffice and other Government buildings of The Hague the timepieces in the shops and the watches of the sturdy burghers show 12.20 p.m. Just what reason there is for this I don't know, although I asked enlightenment in many quarters. It seems a custom that has been handed down for generations, and the Dutch are too conservative to change the ways of their progenitors there, without some mighty inducement."—From the Baltimore American.

OVER \$3,000.

Subscriptions For Relief of Adana Christians.

Subscriptions for the relief of the Christian refugees in Asia Minor are over the \$3,000 mark and coming freely. The need is very great, as the following cable from the Associated Press representative in Turkey indicates: "Messina, Sunday night.—The conditions in the refugee camps are pitiable. Many thousands are huddled there and lack food, shelter and medical aid. The authorities are making efforts to improve the situation and send the refugees back to their farms. Many Armenians are quartered at the missions, and most of them decline to leave because of their lack of confidence in the protection offered. The greatest danger is from epidemic in the overcrowded camps and missions. Malaria, typhoid fever and cholera are already spreading and it is urgently necessary that the refugees be dispersed as soon as possible. Many contributions are greatly needed."

The following contributions have been received by the Hamilton branch of the Canadian Bank of Commerce, and any further subscriptions may be handed to them, when they will be forwarded to their Toronto office and cabled through the Ottoman Bank to Mr. W. W. Peet, the general agent of the great missionary organization known as the American Board of Missions. This method is chosen because the bulk of the men and women in the field are sent out by the American Board and know the situation thoroughly: W. M. NOT KNOWN.

Late Millionaire Burn Not Remembered in Melbourne.

Globe: Millionaire Burn is said to have made his money in Pittsburg, and to have been stricken with a mortal seizure in Melbourne, Australia. Before death came, however, he is said to have made a will leaving these great gifts to Mr. Kidd; [Burn was said to have left an immense sum of money to Mr. David Kidd, of Toronto, to build a mission in that city.] The Globe wired the Pittsburg Dispatch for information regarding the deceased. In due course a reply was received, and the name of the man, millionaire or otherwise, was known there, and yet he is credited with amassing his great fortune in the place.

Still not entirely satisfied, the Globe continued the search of knowledge of Mr. Burn, and yesterday Mr. E. S. Cunningham, editor of the Melbourne Argus, one of the visiting delegates to the Imperial Press Conference, was questioned on the matter of the millionaire's death in the antedipian city. "I have lived in Melbourne for forty years," said Mr. Cunningham, "and I can run over the names of practically all the millionaires in Melbourne or Australia, but Burn was certainly not one of them. Had a millionaire died in our town, we as newspaper men would certainly have heard of it. But I cannot recall any such case. I'm sorry I cannot help you out in any way, but you can take it for granted that Millionaire Burn did not die in Melbourne or in Australia, either."

OBITUARY.

Mrs. Bertha Lovell is Dead, at Age of 79.

Mrs. Bertha Lovell, widow of the late Alfred R. Lovell, died at the residence of her daughter, 105 Cannon street east. The deceased was 79 years of age, and had been a resident of this city for the past 30 years. She leaves to mourn her loss three sons and two daughters.

The funeral of the late Mrs. Mary A. Stroud took place this afternoon from her late residence, 462 York street, to Hamilton Cemetery, and was largely attended. Rev. E. E. Howitt conducted the services, and the pall-bearers were: Messrs. Geo. Stroud, Richard Crooks, Leslie Crooks, Thomas Crooks, Stanley Stroud and Harvey Stroud.

The remains of J. B. Rutherford arrived in this city from Saginaw, Mich., this morning, and the funeral took place from the residence of his son, 336 Locke street south. The pall-bearers were: Messrs. Adam Rutherford, George Street, J. J. Hobson, H. Murdoch, P. Johnson and H. Harvey.

The funeral of Minerva Scott took place from her granddaughter's residence, 54 1/2 King street west, and not 45 1/2, as stated in yesterday's issue. The funeral of the late Helen Armstrong took place yesterday afternoon at 3 o'clock from her late residence, 183 Argue street, to Hamilton Cemetery, and was largely attended. Rev. Dr. Williamson officiated at the house and

VIEW FALLS.

Australian Newspapermen Passed Through Hamilton To-day.

A Grand Trunk special, carrying the Australian newspaper men, on their way to the Imperial Press Conference at London, passed through Hamilton on the way to the Falls this morning. They return to Toronto this evening. As a compliment to the distinguished visitors, Mr. Charles Hayes, vice-president and general manager of the Grand Trunk Railway System, and president of the Grand Trunk Pacific, sent up from Montreal President Sir Rivers Wilson's private car, the "Violet."

The train will be composed of a commissary-baggage car, a standard dining car, a buffet parlor car with the beautiful "Violet" on the rear end. Only upon two former occasions has this magnificent car been used for the entertainment of visitors. The "Violet" is said to be one of the handsomest official cars on the continent.

GERMAN SCARE.

Stories That Make the English People Look Silly.

Story About a German Liner and a Depot in London.

London, May 18.—The "German scare" grows apace, and no sooner is one wild rumor laid at rest than another appears to try the nerves of the English people. Last week there was the story of a big German liner filled with troops which it was alleged had entered the Humber, surveyed the possibilities of making a landing, and departed without being sighted by the British warships, with which the North Sea is supposed to be closely dotted, which to-day Sir John Barlow, a Liberal member of the House of Commons and a well known merchant, startled the country with the sensational suggestion that the Germans have established a depot of arms containing 50,000 Mauser rifles in the centre of London, together with 7,500,000 rounds of ammunition, for the use of 60,000 trained German soldiers now employed in various capacities in England.

As an evidence that Sir John attaches some credence to this remarkable story, he has notified War Secretary Halasde of his intention to question him concerning it in Parliament.

CONVICT DIES.

U. S. Man Dies in Insane Ward of Penitentiary.

(Special Despatch to the Times.) Kingston, Ont., May 18.—Edward Shurfeldt, who was sentenced in July, 1905, in Manitoba to five years in the Kingston Penitentiary for retaining stolen property, died yesterday in the insane ward, where he was transferred in June, 1908. The cause of death was paralysis. Shurfeldt was born in the United States about thirty years ago, and had no relatives in this country except in Vancouver. He was unmarried. The remains will be interred in Catarqui cemetery.

FATAL FALL.

Waterbury, N. Y., May 18.—Charles Yorke, aged 23, of Russell, Ont., was instantly killed by a fall from a railroad bridge near Aldrich, in the Adirondacks. With a companion he was crossing the bridge late last night when he missed his footing. His body was found on the river bank the next morning.

SEAMEN'S STRIKE.

THE HAMILTON TIMES

TUESDAY, MAY 18, 1909.

"OWNERSHIP" FRAUD.

The Socialistic municipal traders are diligent in the publication of alleged facts laudatory of their system, and seem to trust largely to the repetition of false reports to carry on a crusade.

Notwithstanding that Lord Avebury (Sir John Lubbock) in his admirable book on "Municipal and National Trading" has utterly exposed the absurd claims of great profits made by the municipally operated gas works at Manchester, Eng., which are actually a burden on the taxpayers, the story is still being sent out that millions of pounds have been saved to the people.

Lord Avebury has gone carefully into many of these municipal ventures into "ownership and operation," among them that of the London tramways, only to find the same lack of candor and "hunger-mugger" deceit in the book-keeping in the effort to sway the public which it is sought to fleece.

Lord Avebury points out that when London took over the tramways it leased the north side lines to a private company, while the Council operated the south side system. Conditions and mileage were practically the same.

It is the old story over again. Quer, how all the grafters and fellows who seek to make a fat living out of the dear public are to be found "rooting" for the ownership and operation!

WHITNEY'S GREAT BLUNDER.

The London Advertiser has brought down upon itself the vials of the Toronto Telegram's wrath by calling attention to the obvious fact that "if the scheme of the Hydro-Electric Commission had never been heard of, Niagara power would have been distributed through this portion of Ontario by private companies at prices fixed by public authority."

That sort of turgid nonsense may go down in Toronto to the Ignorant, but it will not deceive anybody who knows the facts.

The Telegram ought to know—probably does know—that great steps toward public control of rates had been taken before the Hydro-Electric scheme was thought of. In fact the Hydro-Electric scheme was devised to cover up a huge blunder Whitney made by which the public was deprived of electric power at prices to be absolutely fixed by the Ontario Government!

That blunder was the outcome of partisanship and petulance, and it is to cost the people of this province dear. Part of this cost is being loaded on the municipalities by the Hydro-Electric scheme.

When the Electrical-Development Company was building its plant it discovered that by a comparatively small increase of expenditure it could generate 125,000 h.p. more current, but that if once its works were completed the cost to take in the extra water required would be practically prohibitive.

On those conditions the Government agreed to recommend the grant of the franchise to the Legislature. That arrangement would have absolutely protected the municipal supply, and the control of rates for such a block of power would have compelled a healthy competition. It was an excellent arrangement. Why did it not go through?

Whitney attained to power, and with the arrogance and malignity which has so frequently marked his course set about "getting even" with any and all whom he suspected of having given him political party opposition.

pleted its works and turned on the water without the proposed extension of its capacity. Whitney had worked his petty vengeance. He was happy.

But, no; such acts rarely bring happiness; they did not in this case. When he came to sleep over it, he could not convince himself that he had acted in a statesmanlike or large-hearted manner. He had robbed the municipalities of an assured cheap power supply. He had lessened the Provincial Government's power of control of prices, and cut off a considerable annual revenue. Worse yet; the apportionment of the water to be taken from each side of Niagara being made soon after would shut us out of this 125,000 h.p. for good and all.

In gratifying partisan bitterness by depriving the Electrical Development Company of this franchise he had inflicted a deprivation on the Province. The ugly facts stared him in the face. The municipalities, to which he had promised Niagara power as "free as air," were pressing for something more than big talk. And so the Hydro-Electric Commission was organized. It does no more than Ross authorized the municipalities to do for themselves. There is this difference, however, that the Ross scheme gave the municipalities the say as to their action—it combined power with responsibility; the Hydro scheme holds them for all the expense and risk, but makes all the expenditure and offices Government patronage!

It is not now necessary to pursue the matter, to show the efforts made by the Whitney gang to crush the Electric Development Company, and how it was saved; the bad faith and misrepresentation that has marked the course of the misbegotten and un-Canadian Hydro scheme, involving the denial of private rights and the closing of the courts of justice to those wronged by it. Enough that the facts here presented prove that the entire scheme is the result of an attempt to cover up a disgraceful wrong done to the Province in the pursuit of the gratification of partisan malice as small-souled as it is contemptible. Of which let the Telegram take notice. The Advertiser was right.

EDITORIAL NOTES.

George Meredith, poet and novelist, died last night, aged 81. He was a prolific writer, and much that he has produced will find a permanent place in English literature.

The Pennsylvania Railway began its employees' pension fund in 1900, and in that time has paid out \$3,445,793 to beneficiaries. That is an illustration of the fact that a great railroad company can practically refute the sneer that "corporations have no souls."

In the discussion on the United States glass tariff in Washington the other day it was pointed out that pitchers, which sold at the factory for 90c a dozen, were retailed for \$4.80, and that the duty on much of the product was several times the actual manufacturing cost.

But when it comes to the question of which is the better authority as to whether the Ontario & Michigan Power Co. is an invasion of Provincial rights, between the writer of the junior local Tory organ and Hon. Geo. W. Ross we imagine the public will not hesitate long in choosing.

Captain Hains, the brutal and cowardly murderer of William Annis, has been sentenced to from eight to sixteen years in jail—and still he is not happy! He wishes to appeal against the sentence. He should congratulate himself that an outraged public allows him to poison the air with his noxious breath.

Whatever may have led the carpenters to accept the situation and avert a strike, the fact that there is to be no interruption to the progress of building will be pleasant news for those who have planned houses and shops, and to the public generally. Let us hope that before the season is over all hands will be convinced that the avoidance of strikes was the best policy.

One of the Liberal papers objects to the appointment of a labor man to the new Labor Bureau as Minister on the ground that a competent man cannot be found in the ranks of the workers—Mail and Empire.

This specimen falsehood illustrates the methods adopted by the leading Tory organ in its effort to make political capital. What do the workmen with whom it would curry favor think of it?

The insurance bill has passed the Commons, including the provision for a special tax of 15 per cent. on the net cost of insurance effected by companies not licensed in Canada. It was felt that some measure of this sort was necessary to make foreign companies take out licenses here and live up to the regulations imposed upon our home companies.

We beg to direct attention to the list of subscriptions appearing in another column for the poor persecuted and suffering Armenians. The Times is glad to see that the appeal is meeting with a good response here, but the need is great, and the citizens are urged to accept this opportunity of showing their sympathy for these Christians by generously subscribing to the fund.

According to the reports sent out, Adam Beck's talk mill was allowed to run at Dundas last night without its governor. The little man seems to be animated by a terrible bitterness against the Cataract Power Company.

But he should be above making any of the statements credited to him. Consider that our people know something of the facts of the situation.

Queen Amelie, widow of King Carlos of Portugal, has been decorated with the insignia of three orders for her heroism in saving the life of the present King at the time of the assassination of Carlos and Luis. And the honor is a deserved one. She is the first woman upon whom these honors were ever conferred by Portugal. Heroism is not a virtue displayed only by men; never think it!

Has anybody noticed what has become of all the anti-Ross rifle campaigners of last Parliament? They used to make a great deal of noise, and they almost persuaded many Canadians that they had some ground for their complaints. This session there is a great silence on the subject. The Ross rifle has been accepted as having made good. Most of the men who used to fulminate against it were left at home by the electors. Col. Sam Hughes, who warmly championed the weapon, is the only Tory military critic who is now heard in the House!

The post-prandial speeches made at the gathering to entertain the visiting New Zealand and Australian newspaper men in Toronto last night should be made into a booklet and forwarded to Kaiser Wilhelm. If he has any idea that the British people throughout the world are not one in sentiment, it might help to disabuse his mind. It is a great pity, however that James Whitney should have described "Canada is loyal to the British Empire," as "the new spirit." It is far from new. It is as old as British Canada, and it is growing stronger year by year.

There are a lot of people who are always ready to cavil at the work of the assessors and who are apparently quite sure that they are quite competent to direct their work. But it should not be forgotten that the assessors have no easy task. Moreover, they alone are responsible for the work; they are sworn to do it in a certain way, and are thus removed from the influences of aldermen and others who may seek to sway their judgment. There are many bad things about the assessment law, at which criticism may properly be directed; but preserving the independence of the assessors is not one of its bad features.

Hon. Dr. Reaume has another chance to explain the course of the Ontario Government in violating the confidence of the Dominion in publishing the draft regulations to govern the international fisheries in boundary waters, representing it to be "the joint regulations of Canada and the United States," when it was really only the draft proposals of the American Commissioner. It may have seemed quite "smart" to the little partisans of the Whitney Government to thus seek to make party capital by such a breach of faith, but few men in business or social life would care to be guilty of such an act.

Our readers will learn with regret of the death of Mr. John M. Treble, of Toronto, head of the large Treble gents' furnishing business in this city, which took place yesterday very unexpectedly. Mr. Treble was in his 64th year. In his home city Mr. Treble filled a large place in religious and philanthropic work. He was Vice-President of the Sawyer Massey Company, and was a member of the Board of Directors of the Massey-Harris Company. He leaves four children, two sons and two daughters, one of the sons, Mr. Arthur Treble, making his home in this city, and devoting himself to the mercantile business carried on here.

If Sir James Whitney does not wish to make a laughing-stock of himself, he should put a bridle upon his tongue. His assumption that he has a right to butt in with protests in such matters as legislation upon insurance and international streams, because some people in Ontario may be interested therein—fear that their interests may suffer—would simply mean that the Dominion Parliament should take its cue from a Legislature in these matters. No, no, Jimmy boy! The less cannot be allowed to rule the greater, and your care of property and civil rights has not won the admiration of the world. Your pirate methods do not appeal to honest Canadians. Run away back and sit down!

OUR EXCHANGES

DO WE REFUSE? (Toronto News.) Even the strongest peace advocates in Great Britain support the navy to which we refuse to contribute.

POOR FISHING. (St. Catharines Standard.) Just now the industry-finding business is at rather a low ebb. None of the towns or cities appear to be landing any new factories. What is St. Catharines doing about it?

SOME HARD ONES. (Woodstock Sentinel-Review.) One of the great church bodies of the Province passed a resolution recently in favor of the introduction of the Bible into the schools as a text book. How would the Bible be used as a text book? Who would teach it? How and where would the teachers be prepared for the task?

APPEAL TO LOVERS. (Galt Repeater.) If the people who made love to one another in Grimsby Park in past summers could be reached and a dollar set

aside from each one the fine old place might be saved from going under the hammer.

THE DOG. (Stratford Beacon.) The little town of Dundas, following the example of its big neighbor, Hamilton, has passed a by-law prohibiting dogs running at large. Household in Stratford who are making gardens would like to know if our city fathers will do anything.

RUNS ITSELF. (Toronto Star.) Gipsy Smith says that if there isn't a devil he'd like to know who carries on the business. Well, as far as we have noticed there appear to be a lot of it that's got going so smoothly that it practically runs itself.

THE JURY'S PAY. (Kingston Whig.) The Kinrade enquiry has cost the Province already about \$10,000, but of this sum not much goes to the jury. The members of it expected double fees, in view of the service they rendered, and the Attorney-General has ruled against them.

FOR DULL BOYS. (Toronto Telegram.) Where is the "occupation in life" that does not "call for writing and spelling"? Night schools should be opened for the education of organs which suggest that to "enter shops, pick up tools and learn trades" is the destiny of boys who "at school have shown no aptitude for study."

GIPSY SMITH. (London Free Press.) Massey Hall is being filled two or three times daily by crowds that excel in eagerness anything seen in the heat of a general election campaign in the emotional city of Toronto. The cause of it is one man, a former Gipsy, rejoicing in the name of Smith. His story is the simple one of Calvary. It is an old story. What is there about Smith that thus attracts the multitude? Because his story is regularly told from hundreds of pulpits in the land, and there is no crush for seats at least in most of the churches.

WHAT GERMANY FEARS. (Toronto Globe.) For Germany the question is not whether Britain's nose is to be pulled, but whether the sea is to be kept open for German shipping. A Pacific, free-trade, Gladstonian Britain may build all the war vessels she pleases, and Germany will take no alarm. But an aggressive, protectionist, Chamberlainite Britain, armed to the teeth and seeking whom she may devour, is a peril against which no preparations can be accounted excessive. At present, no doubt, Britain is under a free-trade, peacefully-inclined Government. But how long is that going to last? In three or four years at farthest there must be another general election in Britain, and then the position of parties may be completely reversed. Those three or four years are a priceless opportunity which must be used to the full now or lost forever.

MOVING THE CAT. (Toronto Star.) You may tote your grand piano, your tables and your chairs, and the pictures on the easels, and the carpet on the stairs. You may get the furnace going, get things straightened in the flat. But there's trouble still before you when you try to move the cat.

You will find he's formed attachments in the neighborhood you've left, and he dodges all your efforts, as a dodger is a deft. He grows wild instead of placid, lean and sleek and fat. Still he likes the same old neighbors, and it's hard to move the cat.

You may spread your choicest viands in a corner soft and warm. Offer him the sofa cushion snugly sheltered from the storm. See him scorn your best endeavors, though the night be cold and wet. And in old familiar alleys he will take his chances yet.

There are things when you are moving that you find nailed to the wall. And the lifting of the carpets is a task which might appal. But these jobs are airy trifles you will find compared to that. Which will suddenly confront you when you try to move the cat.

But suppose at last you land him, by some lure he failed to guess, and in triumph tote him over. Are your troubles ended? Yes? Not for Thomas is it settled. Not for you rejoicings gay. Now you've moved him you will find it puzzles you to make him stay.

FOR SING SING.

Capt. Hains Leaves New York to Serve His Sentence. New York, May 18.—Capt. Peter C. Hains, jun., was taken from the Queen's county jail to-day to Sing Sing Prison to begin what will be a term of at least eight years, unless appeal taken by his counsel results in a new trial. No effort was made to prevent his transfer to Sing Sing. Eugene N. Young, one of the attorneys, said no application would be made for a certificate of reasonable doubt, but that an appeal in the captain's behalf would be taken to the higher courts in the regular way.

Mr. Young went to the jail to-day and notified Sheriff Harvey of the decision of Hains' counsel to offer no opposition to his transfer to prison. The sheriff immediately made preparations to send the captain to Sing Sing.

Capt. Hains left the jail in custody of a keeper. His bearing was not material. He changed from his first appearance in the court room. He walked beside the keeper in a dazed manner and showed no evidence of emotion. On the way to the Grand Central Station he neither recognized nor spoke to anyone. None of his relatives was at the jail when he departed.

At the Grand Central Station the captain and his keeper boarded a train for Ossining.

WHEAT UP. Chicago, May 18.—After a fortnight of quiet steadiness wheat for May delivery to-day jumped to \$1.30 a bushel which is a new high record for the crop. Covering of small line by a belated short is said to have caused the advance.

OUT OF JAIL. Generals Stoessel and Admiral Nebogoff Released. St. Petersburg, May 18.—Lieut.-Gen. Anatole Stoessel and Rear Admiral Nebogoff have been released from confinement in the fortress of St. Peter and St. Paul by order of Emperor Nicholas. The health of both men has been gravely affected by their confinement. Gen. Stoessel was found guilty by court-martial of surrendering the fortress of Port Arthur to the Japanese, and was serving a sentence of ten years' imprisonment. Nebogoff was sentenced to be imprisoned in a fortress for the same length of time for surrendering to the enemy at the battle of the Sea of Japan. JEWISH MOVEMENT. New York, May 18.—Information has been received from London by the Jewish Daily News concerning the movement among foreign Jews to unify all the large Jewish organizations striving to ameliorate the condition of the Jews into one body for the purpose of inaugurating a Jewish colonization on a large scale in Mesopotamia. People who live in glass houses should avoid glass eaters.

THE ADVANCE OF YEARS. Which Happily People Fail to Realize, Says Mr. Flickerton. "Isn't it curious," said Mr. Flickerton, "how we get lost about the age of people, and particularly of people whose age we might well be supposed to know? 'We hear, for instance, of the death of Walkinshaw, aged 64, and we say to ourselves, 'Goodness, you don't mean to tell me that Walkinshaw was 64!' We may have known him intimately and have seen him daily for forty years, since he was 24; and if anybody ought to have known his age, we ought. 'As a matter of fact it is those very people whom we do see constantly whose ages we fail to realize; for the reason that age, so far as its outward signs are concerned, steals on them gradually. 'If we see a man only at intervals of ten or twenty years, why, then the changes in him may be so apparent that we cannot fail to note them; but in the man we see from day to day we see no change at all; there is no sinking sign to make us realize that he is growing older, and so we are likely to carry him forward in our minds as of the age at which we first knew him. It is then that he makes his first strong, clear impression on us; and that impression we are likely to hold for many years and against many changes. 'I know I do this commonly. I carry men forward as of the age at which I first knew them; they always seem so to me. Then something happens that brings up the question of age, and my friend says to me that he's 57, and I say, 'What! 57?' Really it is a great surprise to me, and I find it hard to realize it. 'I can scarcely believe it even though I have known him for thirty years and when I first knew him he was 27. He may be now but little or he may be greatly changed, but however that may be I have never realized it any more than I have the lapse of time passing day by day. 'Happily this is true also as to ourselves. We don't realize our own advancing years. Even though we look in a mirror now and then we see no signs of age, or none to amount to anything, but our hair doesn't look that way to us. We may be growing positively portly, but over that we smile. At heart we are still young. 'Providence has many kind ways.'—New York Sun. His Preference. Farmer (showing him his live stock)—"These are my Jerseys. Ever see any finer cows?" City Visitor—"They are certainly fine specimens. Still, I always thought that if I were buying a cow for my own use I should prefer the—er—Early York breed." Sounds Plausible. "What is your principal object, anyhow," asked the visiting foreigner, "in building that Panama canal?" "Well," answered the native, "we have an idea it will limit the size of future battleships."

B.Y.P.U. RALLY. DRAGOONS.

Big Gathering of Baptists at Beamsville Last Night.

The spring rally of the Hamilton District of the B. Y. P. U. was held in the Beamsville Baptist Church last evening and was very largely attended. A delegation of 100 persons from Hamilton journeyed by special car to Beamsville and Grimshyites also joined in the procession.

Rev. A. L. Brown, of Beamsville, was the chairman, and he heartily welcomed the visiting societies to Beamsville.

One of the most interesting features of the meeting was the reading of two-minute reports from each society in the district. Splendid growth and progress were shown in every society, and gave promise of a bright future. During the evening the Wentworth Street Baptist Church male quartette sang a couple of numbers, with pleasing effect.

The feature of the evening was the address given by Rev. H. Edgar Allen, pastor of Victoria Avenue Baptist Church, on his conception of "Intelligent Service." Before Mr. Allen completed his address, Rev. Mr. Priest, of Grimshy, rose and announced that the electric railway could not accommodate the Grimshy people on the Hamilton car, and that necessitated about fifty people having to get up and leave the church.

Mr. Allen then mentioned several ways by which a man might learn more of the service of God, and also of his own shortcomings. A strong, physical body and a deep spiritual welfare of the soul were necessary to fight the good fight, and finish the work, for God and the good of humanity.

The rally closed with an anthem by the Beamsville church choir. The Hamilton delegation returned about midnight.

N. C. OF W.

Important Meeting Held Here Yesterday.

The quarterly meeting of Hamilton Local Council of Women was held yesterday afternoon, Mrs. Sanford, President, in the chair.

Miss Wood, Recording Secretary, read the report, which she had prepared for the meeting of the National Council.

Mrs. Ballard, Treasurer, reported a balance on hand of \$70.14.

Miss Harris, Corresponding Secretary, read communications regarding the coming National, international and Quinquennial meetings of the Council of Women to be held in Toronto. The meeting of the National Council of Canada will be held on July 1, and will only last one day.

Mrs. Robert Evans and Mrs. Thomas W. Watkins are members of the National Council. Miss Lyle, Mrs. Ballard, Mrs. Leggat, Miss Harris and Miss Wood were elected delegates.

The meetings from June 18 to 22 of the International will be open to all, but only delegates may vote.

There will be a charge of \$1.50 for the course of six days, or 25 cents for single days of the Quinquennial Congress.

Mrs. Thomas W. Watkins will be prepared to supply tickets to Hamilton ladies.

Mrs. Woolverton brought up the subject of playgrounds for children, but owing to the lateness of the hour the matter was referred to the executive.

A resolution endorsing the plan that the city should retain the Public Library building for a museum, art gallery, etc., was passed.

There are now twenty-five affiliated societies and forty individual members in the local council. The attendance was large and the members full of interest.

HONOR DEAD.

Veterans of '66 Receive Invitation From Toronto Comrades.

The Toronto Veterans' Association of 1866 has extended an invitation to the comrades of the Hamilton Association to join with them in the ceremony of decoration of the monuments in Queen's Park on Monday next (Victoria Day), at 9.30 a. m. Parade will assemble at the armories at that hour.

J. M. TREBLE

Expired Suddenly in Massey-Harris Board Room.

John M. Treble, a well-known Toronto business man, died there suddenly yesterday in the board room of the Massey-Harris Company, of which he was recently elected a director.

Mr. Treble, the eldest son of the late Major Charles Treble, was born near Holsworth, Devon, England, 64 years ago. The family came to Canada when he was quite young and settled in the Niagara country.

While in Windsor he was married to Mary Elizabeth Holland, who died on Dec. 9, 1887, leaving four children. Mrs. A. L. Terryberry, of the Methodist parsonage, Grimshy; Dr. C. E. Treble, of Toronto; Miss Ethel Treble, and Mr. Arthur Treble, of Hamilton.

Twelve years ago Mr. Treble was married to Miss Lillian Massey, the only daughter of Hart A. Massey, of Toronto, who survives him.

Mr. Treble was a prominent worker in the Methodist Church. He was also vice-president of the Sawyer-Massey Co., and was proprietor of Treble's, Limited, of Hamilton, a furnishing business in which his younger brother was interested prior to the latter's death in Hamilton.

Men Will Have Their Uniforms in Two Weeks.

The second recruit drill of "C" squadron, 2nd Dragoons, was held last night in the old armory, and the turnout was highly satisfactory to the officers. The squadrons were put through foot drill and then dismissed. The uniforms have not yet arrived, but the men will be fitted out within the next two weeks, and their outdoor parades will be held.

D.O.E. OFFICERS

Mrs. P. D. Crerar, Vice-President of National Chapter.

At a meeting of the Executive Council of the National Chapter, Imperial Order Daughters of the Empire, held in Toronto yesterday the following officers were elected: President, Mrs. Nordheimer; First Vice-President, Mrs. Gooderham; Second Vice-President, Mrs. Albert Crerar (Hamilton); Third Vice-President, Mrs. MacKenzie Alexander; Honorary Secretary, Mrs. W. E. George; Honorary Treasurer, Mrs. John Bruce; Honorary Organist, Mrs. John Bruce; Standard-Bearer, Mrs. James Scott; Trustee for the South African Graves Fund—Gen. Oster, C. B., chief of the staff; E. B. Oeler, M. P., Col. Sir Henry Pellatt, Knt., A.D.C.

MORTAL SIN.

Father O'Rielly Preached to Men on That Subject.

"The Gravity of Mortal Sin and the Necessity of Avoiding It," was the theme of Rev. Father O'Rielly, who preached at the men's mission in St. Lawrence's Church last night. The seat of accommodation was taxed to capacity.

Father O'Rielly spoke of the necessity of man serving God as God's creature. By committing sin man turned his back on his Saviour and while he declared in his heart he would not serve, yet he served his passions and made a slave of himself.

Mortal sin, said the missionary, was responsible for all the woes and misery in the world, and ultimately eternal woe and misery. How much better it was to serve God and attain the end of which we were created.

Father O'Rielly reminded his hearers that they had a greater responsibility than merely working out their own salvation—the saving of the souls of others.

To-night there will be a double service, one for married men in the body of the church, and another for single men in the basement.

Thursday will be a holy day of obligation, and the masses will be at 5 o'clock, 7.30 and 9.30. The evening service, as usual, will be at 7.30.

WHAT WILL THEY DO?

Grimshy, May 18.—As Grimshy Park is now in the liquidator's hands, it looks as if cottages which will have to get along the best they can this summer without electric light, water, post office and other services formerly supplied by the Grimshy Park Company, unless they formulate some plan of their own to supply these necessities that have been so absolutely needful for a summer's rustication at the park.

COLOR OF CARS.

Sporting Editor.—To settle a dispute, please answer the following question: What color are the new Hamilton street railway cars No. 400 and 402? C. H. L. Answer.—Pullman green, with cream facings.—S. E.

The demand for seats for the performance of "An Englishman's Home," which will be seen at the Grand Toronto and Thursday evenings, has been quite large. The Canadian tour of Major du Maurier's play is said to be progressing almost as much of a triumphal progress through the Dominion as its tour through England has proved.

There are, of course, different local and political conditions in this country, but solely as a play, the unusual interest and strength of Major du Maurier's work has aroused the greatest interest wherever it has been shown. Probably the most surprising thing about the play is said to be the roars of laughter with which it is received. It is in no sense of the word a serious play externally. It is deliciously funny and its serious message lies carefully hidden under its fun and its satire.

The piece will be presented under the management of Charles Frohman with exactly the same company and scenery which signified its successful run at the Criterion Theatre in New York, and which has been employed in Montreal and Toronto.

PUPILS' RECITAL.

An enjoyable recital was held in the Conservatory of Music last evening, when some of the pupils of Miss Margaret F. Langrish, Mus. Bac., played before an audience which filled the hall. The programme was a pretentious one embracing all the different styles of composition, and the varied nature of it proved interesting.

Arthur Garthwaite, Miss Jean Pennington and Mrs. Jex assisted. The programme was as follows: Funeral March of a Marionette (Gounod), Misses Kathleen Sullivan and Reba Meyers; Valsette (Arthur Brown), Miss Rebecca Shachover; Love is Everywhere (vocal) (Gerald Lane), Miss Janet Tebbutt; Mazurka (Carl Heins), Miss Marjorie Mills; Spinn Spin (Rose), Miss Helen Sullivan; Polish Dance (Schwarzen-dorf) (Liszt), Misses K. Sullivan and R. Meyers; Camelia (Yon), Miss Flossie Goodwin; Elegy (Nolet), Miss Kathleen Sullivan; Polish adnae (Schwarzen-dorf), Miss Mary Smith; This Meditation (violin) (M. T. Marwick), Miss Jean Pennington; Polonaise (Meyer-Helmund), Miss Reba Meyers; Tanzweise (Meyer-Helmund), Miss Genevieve Gay; Angus McDonald (vocal) (Rockel), Miss Douglas W. Anderson; Witch's Dance (Mac-dowell), Miss Marjorie Taft; (a) Kash-ly Wade; Overture, Midsummer Night's Dream (Mendelssohn), Misses Mamie Havill and Marjorie Taft.

CHURCH AND THE DRAMA.

New York, May 17.—There wasn't much left of the churches and church cant and hypocrisy and all those things last night at the Codrington dramatic-socialistic outfit after Rev. Dr. Henry Frank got through whaling 'em. The lofty spires were crumbling down and smashing all around, but out of the ruins were rising the "theatre churches," where folks could go and drink in morals and decent thoughts and high-brow living—all for the one price of admission. Dr. Frank really didn't care a tinker's anathema if all the churches in the land were put out of business if only plenty of 180-proof moral plays would flourish in their stead.

The enthused speaker started off his talk, after Julius Hoppe had presented him, by addressing his hearers as "fellow eaters," and then he threw the hooks into the Trinity Church Corporation and its stum tenements, and after that pumped a few missiles at the whole church layout. Altogether it was a pretty bad night for things ecclesiastic. "New York makes me sick," said Dr. Frank. "All the people want is a good time. Rather than see a play which points a moral and leaves a dark brown taste in the mouths of the hypocritical, they sit in Rector's all night and get their dark brown taste the next morning from the champagne they drink."

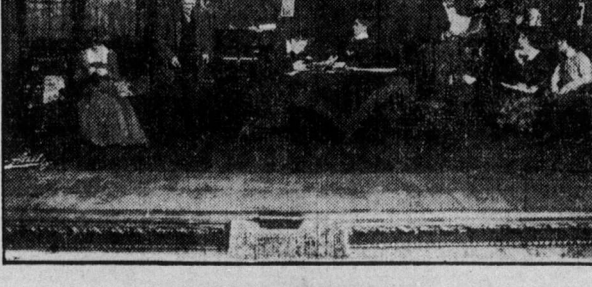

"All New York wants is vaudeville, high kickers and fooleries and tight-rope walkers and things like that. Why New York would be perfectly happy if the whole city was one big vaudeville show. Then they would sit up all night and never go to bed at all."

That seemed to tickle some of the eaters, for they laughed. Dr. Frank gave a boost to "The Writing on the Wall," and said it was the kind of play that did more good than sermons and eloquence. He defied all the preachers in the land.

They were playing poker. "Did you ever notice that the average successful man was raised on a farm?" asked the man who had opened the jack-pot. "Yes, and I have also noticed that they don't stay long after the raise," added the fellow who had come in on a pair of nines.

HIT BY TRAIN.

Walkerville, Ont., May 18.—William Sully, 35 years old, whose home is in London, was struck by the International express on the Grand Trunk while crossing the street. He was thrown across the street, but escaped with a broken arm and a badly bruised face. He was sent to his home in London last night.

A SCENE IN "AN ENGLISHMAN'S HOME." Which will be presented at the Grand on Wednesday and Thursday evenings.

TWO MAGISTRATES TEST ZAM-BUK.

Cure effected in both cases.

Mr. F. Rasmussen, of 211 Marquette street, Montreal, who is a Justice of the Peace, and a man not inclined to give praise except where it is well due, says: "For many years I was troubled with a serious eruption of the skin. This was not only unsightly, but very painful. I first tried various household remedies, but as these proved altogether useless, I took medical advice. Not one, but several doctors in turn were consulted, but I was unable to get any permanent relief. Some time back I determined to give Zam-Buk a trial, and after a thoroughly fair test, can say I am delighted with it. I have the best reasons for this conclusion; because, while everything I tried failed absolutely to relieve my pain and rid of my trouble, the boxes of Zam-Buk have worked a complete cure. In my opinion this balm would be even more widely known than it is."

Mr. C. E. Sanford, J. P., of Weston, King's Co., N. S., says: "I had a patch of eczema on my ankle, which had been there for over twenty years. Sometimes, also, the disease would break out on my shoulders. I had taken solution of arsenic, had applied various ointments, and tried all sorts of things, to obtain a cure, but in vain. Zam-Buk, on the contrary, proved highly satisfactory, and cured the ailment."

"I have also used Zam-Buk for itching piles, and it has cured them completely. I take comfort in helping my brethren, and if the publication of my opinion of the healing value of Zam-Buk will lead other sufferers to try it, I should be glad. For the relief of suffering caused by piles or skin diseases, it is without equal."

For eczema, eruptions, ulcers, piles, blood-poisoning, varicose ulcers, children's sore heads, ringworm, salt rheum, cuts, scratches, burns, bruises, and all skin injuries, Zam-Buk is a perfect cure. All druggists and stores sell at 50c a box, or post-free from Zam-Buk Co., Toronto, for price. Three boxes for \$1.25.

"EASIEST WAY."

No Trouble to Raise Money Says Chicago Y.M.C.A. Man.

C. S. Ward, of Chicago, the Y. M. C. A. International expert on Building Campaigns, paid a flying visit to the city yesterday afternoon. The local workers took advantage of his presence and invited about fifty prominent business men to luncheon to meet Mr. Ward and hear of his exploits in the world of finance. There is no man in America who has had such an extensive experience in raising money for Y. M. C. A. buildings as Mr. Ward. He is the strongest advocate, if not the originator, of the short term canvass plan, and related last evening in a most interesting conversational manner his experiences in various towns and cities all over America.

So recently as four or five years ago it was thought that money could only be secured in large amounts by a long drawn out canvass, but experience had taught that this was not necessary, and thirty days was the time arranged for, and even this proved to be too long, and was reduced to two weeks, then to nine days, then a week, now money is frequently raised by the hundreds of thousands in three days. And a remarkable fact, Mr. Ward stated, was that the short term method had not yet proven a failure in one single instance. He mentioned a number of cities the size of Hamilton, Ottawa among others, that had recently raised from two to three hundred thousand dollars for Y. M. C. A. new buildings during short term efforts. Ottawa was undertaken to raise two hundred thousand dollars and succeeded in raising two hundred and twenty thousand, sixty-nine thousand being raised the last day.

Mr. Ward was on his way to Montreal where he is directing an effort to raise three hundred and fifty thousand dollars in nine days. Mr. Ward outlined his plan of organization for large schemes in cities the size of Hamilton, and thought that it would not be necessary for him to assist the local workers if they were only going to attempt fifty thousand dollars.

Mr. Garside, President of the Central Y. M. C. A., Toronto; C. M. Copeland, Provincial Secretary; J. H. Crocker, Secretary Y. M. C. A., Brantford, were called upon for short addresses. Mr. Garside intimated that Toronto would likely undertake to raise at least four hundred and fifty thousand dollars for Y. M. C. A. building within a few months. His Worship, Mayor McLaren was introduced by President J. E. Brown. His Worship thought the work

Song Birds Die From Cold. Great numbers of birds migrating north have been caught here by the cold wave and storm and hundreds have died.

There was one flight of estimated fifteen hundred cock robins which alighted on the normal school grounds, and have remained here for a couple of days. The next most numerous bird is the hermit thrush and also there are a few bluebirds. Such a visitation of feathered songsters has never been seen in Winona before. Citizens generally have provided them with food as many of them have seemed to be in a starving condition.—Winona correspondence. Paul Despatch.

THE ANTIPODES JOURNALISTS.

Australian and New Zealand Delegates Banqueted at Toronto.

Closer Trade Relations and Better Cable and Mail Service.

Greater Britain Must be Reckoned With, Said Lieut.-Governor.

Toronto, May 18.—The need for closer personal relations between the three great over-seas dominions of the empire—Canada, Australia and New Zealand—and loyalty to British traditions and the empire as a whole were the dominant notes of the speeches delivered at the banquet tendered the Australian and New Zealand delegates to the Imperial Press Conference at the National Club last night.

His Honor the Lieutenant-Governor, presided, and the guests were: Messrs. Greasley Lukin, Wellington, New Zealand; N. Clark, Melbourne, Australia; J. W. Kirwan, Kalgoorlie; Thomas Temperley, Bathurst; Hudson Berkeley, Newcastle; George Fenwick, Dunedin; R. Kyffin-Thomas, Adelaide; E. S. Cunningham, Melbourne; and Hon. C. E. Davis, Hobart.

AN IMPERIAL NOTE. The imperial note was sounded at the outset by His Honor the Lieutenant-Governor, the toastmaster, who, in preparing the health of His Majesty, took occasion to emphasize the fact that the members of the gathering, though widely separated geographically, were subjects of the same sovereign.

"Our brethren" was Hon. J. M. Gibson's happy designation of the guests, in extending formal greeting. One of the most satisfactory changes that time was bringing about, he observed, was that visits of the members of the various component parts of the British Empire to their fellow subjects in other lands.

"Subjects of the same King, citizens of the same empire, co-workers in the orderly evolution of British institutions," was Mr. J. S. Willison's description of the cosmopolitan gathering, in submitting the health of the guests.

IMPRESSIONS OF CANADA. The toast was first responded to by Mr. E. S. Cunningham, the editor of the Melbourne Argus, one of Australia's greatest daily newspapers, who was received with cheers. "I was reminded," he said, "when Mr. Willison was speaking of a politician in the republic to the south who was convicted of graft—I think that is the word. We have no such word in Australia. We call it something else." Then he went on to tell the story of how when the politician was escorted by his friends the penitentiary they called "A speech" a speech.

"The ruling passion," he said, "remained strong to the last, and he convicted one said 'I may see that this position is not one of my seeking.' That is my position."

Passing on, he described some of the impressions which he and his fellow-delegates had received of Canada. Their expectations were not equalled with the warmth of their actual reception. "We came, as we thought, as cousins, and found ourselves received as brothers." All along the route, down to the elevator boys, everybody had been keen to hear about their visitors' country and to tell of their own.

Building for the future was evidently the motto of Canada, and when they returned their effort would be to influence the line of travel to and through Canada. The two dominions should know more of each other. And touching on tariff questions, "if by the invention of man barriers are raised, the sooner they are removed the better."

Mr. George Fenwick, Dunedin, New Zealand, urged closer trade relations between Canada and Australia and New Zealand. The question of freight rates for the immense journey was, however, a serious one. He advocated the establishment of a direct line of steamships between Quebec and Halifax and the sister countries. New Zealand had already given a twenty per cent. preference to Canadian manufacturers, and he prophesied, amid enthusiasm, that Australia would shortly follow suit.

"You manufacture all kinds of things that we want," he declared. "Why should you not avail yourselves of the great market awaiting you? I do not think your Canadian Government has yet realized its possibilities in this respect."

A UNITED BATTLE FRONT. "Germany must be made to understand that not only Great Britain, but the dominions beyond the seas must be reckoned with in any struggle which takes place affecting British supremacy on the seas." These were the words of Lieut.-Governor Gibson in calling upon Mr. W. K. George to give "the Empire." They were received with cheers.

Mr. George, speaking on behalf of the Canadian Manufacturers' Association, expressed a desire to make clear the position of that body. They were in favor of a tariff protection for Canada, not because they wished the manufacturers to make an exorbitant profit, but because it was necessary for retention of industries, the promotion of new ones, and the developing of Canada's great natural resources. It was necessary to prevent the drift, industrially, to the south, and making Canada a fit member of the Empire. The granting of an Imperial preference had their support. Build up your own family commercially and give us a fair chance with the surplus trade was their policy.

WHITNEY SPEAKS. Sir James Whitney, in rising to respond, was given an enthusiastic reception. The present, he declared, to be a unique function. "It gives to the people of Ontario," he said, "a feeling of unalloyed satisfaction to look into your eyes—you brothers from the antipodes—and shake your hands. You have had no small share in our thoughts and memories in some years past." As Premier, and with the Lieutenant-Governor's consent, he extended the freedom of the Province.

"A new spirit has come into ex-

istence," the Premier proceeded; "the groups and communities which make up the British Dominions beyond the seas have awakened from their lethargy. A rearrangement of our relations is at hand. As Canadians, it is our desire and determination to bear our share of the burden—may, the privilege—of Imperialism. (Applause.)"

The hour is not now far distant when the groups and communities will come together to confer on a magnificent plan of Imperial rearrangement. We and you, our friends from the antipodes, are ready—aye, and anxious—to share the burden and privilege of Imperialism. And we shall deem it an honor, at that moment, to march with you, side by side, in the great Imperial procession.

VOICE FROM NEW ZEALAND. "There can be no shadow of doubt as to where Canada will be at the call of the motherland," said Mr. Greasley Lukin, of Wellington, New Zealand, commenting on Sir James' speech. "That," he continued, "will be grateful news to Australia and New Zealand, not that we yield one tithe to Canada, great as she is, in loyalty to—mark you—to the Empire."

In regard to Australia's position on the question of defence, there was considerable ground for interest. The Federal Government had held that the time was opportune for the beginning of an Australian navy, that they should be prepared to defend their own shore. It might be that the fate of the Empire would be decided in the North Sea, but that was no reason why they should not prepare to defend themselves against any raider confident of easy spoil.

The supremacy of Britain in the Pacific must be maintained, and he looked forward to the time when it would be the proud duty of Australia and New Zealand to help in the maintenance of that sway.

They hoped for a closer friendship and business relation with Canada. That was an immediate essential for the realization of the greater hope. Surely there was room for greater reciprocity in trade, no matter what their fiscal policy. Surely there was something in gridding the world with a British cable which should convey from one end of the Empire to the other the record of their lives and deeds. Surely there was an advantage to be gained by the establishment of an up-to-date mail service which would carry letters from New Zealand to London in three weeks.

In the absence of the President of the Board of Trade, Mr. J. P. Watson, Mr. R. S. Gourlay gave "Trade and Commerce," which, next to religious sentiment, he said, "had been the great factor in the civilization of the world."

Envy of Canada's great railway systems, her lakes and rivers, was expressed by Mr. R. Kyffin-Thomas, of Adelaide, in responding to the toast.

BLIND PIGS.

Ontario's Treasury Receives \$2,840 From the Cobalt District.

Cobalt, May 17.—Over fifty men and women were summoned to-day for running blind pigs in Cobalt, and \$2,840 has already been paid in fine by sixteen defendants. Under this new and more vigorous law \$100 is charged for the first offence, and this it was that ran up the fines into four figures, as nearly all the defendants were first offenders, though the houses they were running had been pulled time and time again.

Penalties ranging from \$100 to \$400 were imposed in record time by Magistrate Atkinson this afternoon. There are twenty more cases to deal with to-morrow, and a like amount in fines is likely to be obtained, bringing the amount drawn from the sellers of wagers to the treasury of the province \$6,900 in two days.

Why Catarrh is Dangerous. Usually it comes with a cold. Being slight it is neglected—but the seed is sown for a dangerous harvest, perhaps consumption. To cure at once, inhale Catarrhine. It destroys the germ of Catarrh, clears away mucus, cleanses the passage of the nose and throat. The hacking cough and sneezing cold soon disappear, and health is yours again. Nothing known for colds, catarrh and throat trouble that is so curative as Catarrhine. It cures by a new method that never yet failed. At all dealers, 25c and \$1.00. Get Catarrhine now, to-day.

GREAT LANDSLIDE.

Part of Mountain Side in Nova Scotia Falls Into Ocean.

Sydney, N. S., May 17.—Investigation of the reports that a volcano was in eruption on Saturday at Cape Dauphin indicates that a great landslide had occurred there instead. Upon a visit to Cape Dauphin no signs of volcanic eruption were evident, but at the mouth of the gorge leading to Fairy Cave there had been a tremendous landslide, tens of thousands of tons of rock and earth having been precipitated into the sea. The loosening of the mountain side was caused through the action of the waves in undermining the ground at the water line.

The huge masses of earth tumbling into the sea at intermittent intervals caused a deep booming sound and left in its wake dense heaps of dust, which circling skyward, gave the mountain peak the appearance of an eruption. Crowds of sight-seers visited Cape Dauphin yesterday in the hopes of witnessing a novel sight, but were disappointed.

INSURANCE BILL PASSED. Inside Civil Servants Given Their Increase. Opposition Protest in Case of Postmaster of Souris. Reported as Taking an Offensive Part in Last Election.

Ottawa, May 17.—After the burst of speed in which it finished the week the House of Commons settled down to a steadier pace to-day. The insurance bill had precedence, and the members were afforded another opportunity of expressing their views on the clause providing for a tax of fifteen per cent. on the net cost of insurance placed with unlicensed companies. An amendment was moved to reduce the tax to five per cent., but it found little support, and in the end the bill was given a third reading.

The finishing touches were also applied to the bill authorizing a flat rate increase of \$150 in the salaries of members of the civil service at Ottawa. Mr. Foster had the last word, and put in a plea for the older members of the service, who had reached the maximum of their class, and would not participate to the fullest extent in their increase. With the knowledge, however, that the Civil Service Association had applied for the classification, the House seemed satisfied with the arrangement proposed, and the bill went through without a division.

LEPERS AT LARGE.

Curiosity Seekers Welcomed at the Meetings—Toronto's Cesspools of Iniquity and the Responsibility for Them.

Toronto, May 18.—"Curiosity seekers." On more than one occasion a large proportion of the units forming the large gatherings which have assembled at Massey Hall to hear Gipsy Smith have been so denominated. That such is the case cannot be denied, neither is it regretted by the promoters of the mission. Gipsy Smith himself in one of his addresses yesterday dealt with the very point. He instanced the case of Zaccheus, the publican, who climbed a tree in order to see Christ as He passed by, and who has been called a "curiosity seeker" by many theologians. With the curiosity which leads to a desire to know the truth, he finds no fault, and welcomes such an affording opportunity for conviction. Really it was following out this idea when he said at yesterday afternoon's meeting that he would rather see a new Pentecost among church members than ten thousand conversions. If there could be such a visitation of the spirit to the city would be stirred from end to end.

DISSOLVE REPUBLIC.

Advice of French Royalist to Chamber of Deputies.

Paris, May 17.—M. Pugliesi-Conti, Nationalist member of the Chamber of Deputies, offered a resolution in the Chamber this afternoon, asking President Fallieres to exercise the presidential prerogative and dissolve Parliament on the ground of its "impotency." He supported his resolution in a speech, charging that the majority was bringing discredit upon Parliament by utterly neglecting the interest of the country. He said the sole accomplishment of Parliament had been to increase the salaries of the members, and declared that the head of the government should be the guardian of the patrimony of the country. At this statement M. Baudry D'Asson, Royalist, shouted: "It would be better to dissolve the republic."

M. Pressence, Socialist, agreed with M. Pugliesi-Conti that the majority were bankrupt, but he explained that the Socialists refused to coalesce with the reactionaries.

Premier Clemenceau, in a spirited reply, insisted that nothing justified the onslaught of M. Pugliesi-Conti. He declared that there was greater liberty in France to-day than ever before, and that the only liberty denied was the liberty of violence. He defended the policy of the Government, and asked for a vote of confidence, which was given, 379 to 83.

SUNDAY AT CONEY.

New York's Summer Resort Must Keep That Day.

New York, May 17.—Gay, care-free Coney Island, where Sunday frivolity exceeds the combined frivolity of the other six days of the week, was hit by a black cloud of blue laws to-day. An order went forth from the office of Mayor McEllan that hereafter there shall be no show in operation at the resort on six days in the week, but no more. In brief, Sunday licenses will be refused all performances to which admission is charged, not conducted under the head of amusements, and which means that all theatrical licenses must give up the best day of the week.

Moving picture shows are included, and practically every show on the island will be effected. Strict orders have been issued also calling for an enforcement of the excise law. Heretofore beer has flowed more freely at Coney Island on Sunday than on a "work day."

As a preliminary to the regulations to come, all shows requiring performers to appear in costumes are prohibited. This caused consternation, but what is predicted to come brought an outburst and the appointment of a committee to confer with the Mayor.

CREW BITTEN.

Mosquitoes Infect Fifteen Men With Malarial Fever.

New York, May 17.—The British steamer Vera Stone arrived from Kingston, Jamaica, with practically a new crew on board, having left fifteen men in a hospital at Kingston suffering with pernicious malarial fever. The disease was contracted while the steamer lay in the Madeira River, about 1,500 miles from Para, where the crew, although screened at night with mosquito netting, could not altogether escape the attacks of mosquitoes.

Belleville, May 17.—John Moses, an Indian, was tried before Judge Deroche for threatening to shoot his mother and firing a shot at her. He was found guilty and sent to the Central for six months.

DOUBLE TRAGEDY.

Richmond, Va., May 17.—Robert Smith and his son, Raymond, were killed with a shot gun near here to-day by Joseph Railback, in a quarrel over a line fence. Railback was wounded in the leg.

APRIL TRADE RETURNS.

Business of the Dominion Shows a Steady Improvement. Ottawa, May 17.—Trade returns of the Dominion for April, the first month of the fiscal year, show a continued improvement. The total trade for the month amounted to \$34,968,854, an increase of \$4,028,267 over April of last year. Imports for the month totaled \$22,831,673, an increase of \$2,609,078. Exports totaled \$11,862,757, an improvement of \$1,567,969. The customs duty collected amounted to \$3,788,480, being a betterment of \$490,730.

MILITIAMAN SHOT.

Neglected to Extract Cartridge and Rifle Discharged Into His Heart.

Halifax, May 17.—Carelessness in handling a rifle caused the death of Reginald McKenzie, a youthful militiaman, at the Bedford Rifle Range on Saturday. He was a recruit in the 63rd Rifles, and was at target practice for the first time. He neglected to extract the cartridge, and, leaning on his rifle, it went off. The bullet and brass fragment penetrated his heart, and he sank to the ground dead. The deceased was only 19 years of age.

CLEAR DEBT IN TWO YEARS.

That Is What Centenary Church Expects to Accomplish.

Annual Reports Show Year of Growth and Progress.

Board Expresses Appreciation of Rev. R. Whiting's Services.

The closing meeting of the official board of Centenary Church was held last evening. It showed prosperity in every department of church work.

The Friesland Club is in a prosperous condition, the financial statement showing receipts of \$196 and a balance of \$7.

Reports from other departments were equally satisfactory, the poor fund receipts amounting to \$236, with a balance of \$13.

The Sunday school reported a large increase in membership, with total receipts of \$900, leaving a balance of \$23.

The superannuation fund, of which Mr. T. W. Watkins is treasurer, showed receipts of \$410.

The church debt fund, Dr. Emory treasurer, reported receipts of \$1,324, an increase of \$738.

The average monthly attendance at communion was 296. There was received into membership during the year 129.

After making up for losses by deaths and removals, there is a net increase of 50.

The present total church membership is 810. The newly elected stewards for next conference year are: W. C. Morden, Dr. Husband, A. Ward, S. F. Lazier, K. C. T. W. Watkins, H. A. Eager and W. A. Robinson.

A resolution of high commendation was extended to Mr. Hewlett for the valuable services of the choir during the year.

The board voted the month of August to Rev. Dr. Smith, the incoming pastor, for recuperation for next year's work.

The pulpit supply committee reported the engagement of Rev. Mr. Hardy, of Victoria University, for pulpit supply for August.

A lengthy resolution was moved by Mr. S. F. Lazier, seconded by Mr. W. A. Robinson, full of beautiful and affectionate words.

The official and trust boards for his very faithful and efficient services during his pastoral term.

The resolution expressed the fervent hope and prayer for his future prosperity; also expressing the fond desire that he may soon return as pastor of Centenary Church.

This was spoken to feelingly by many members of the board up to a late hour.

Mr. Whiting replied in most fitting terms, full of affection, not forgetting to express as far as possible how much he owed his success during his term to the faithful rallying power of all the of ficials in every department of church work.

The board voted unanimously out of the surplus money a bonus of \$350.

The board meeting was largely attended, and adjourned at a late hour. Rev. R. B. Rowe was appointed reporter for the press of the meeting.

BURIED ALIVE.

Two Workmen's Awful Death in Michigan Mine.

Negaunee, Mich., May 17.—A horrible accident occurred at the Mary Charlotte Copper Mine here this afternoon, the victims being two miners named Victor Lord and Edward Yammen.

Both were literally buried alive when several tons of earth fell and engulfed them while they were at work many hundreds of feet below the surface.

The alarm was given immediately, and all the workmen organized into a rescue party, but many hours passed before the diggers were able to reach the bodies.

The expressions upon the faces of the dead men showed plainly that the end had been a most terrible one, and had only come after minutes of suffering which must have seemed like hours.

CHURCHES SOLD. Montreal Edifices Being Converted Into Business Places.

Montreal, May 17.—The old Eskrine Church was turned into a dry goods store; the old Baptist Church into Bennett's Theatre, and both were on St. Catharine street.

Now the old St. Gabriel Church, also on St. Catharine street, has been sold for a restaurant. The price paid for the church was \$90,000.

STICKS TO STORY.

Diamond Maker Persists in Court That He Can Make the Gems.

Paris, May 17.—The trial of James Henry Lemoine, the so-called "diamond maker," on the charge of fraud preferred by Sir Julius Wernher, of London, from whom he got a large sum of money for the establishment of a laboratory where he was to make diamonds through a certain secret formula, began to-day.

The prisoner said he was willing to show the court the whole procedure, although he regretted to be thus compelled to sound the knell of the diamond. He had discovered, he said, why Moissan was only able to produce tiny crystals. Moissan could only submit his crucible to the necessary high pressure for one or two minutes. He (Lemoine) invented a means to submit crucibles to high temperature and a pressure of 2,000 atmospheres for several hours.

TO TALK TO MARS.

Professor to Go Up in Balloon in Airtight Tank With "Wireless."

New York, May 17.—According to the Herald, Professor David N. Todd, head of Amherst College observatory, announced his plans for picking up messages from Mars by means of wireless instruments carried up in a balloon to the edge of the earth's atmosphere.

Shut up in an airtight tank, borne aloft in a huge balloon, Professor Todd will make the first attempt ever made by the inhabitants of the earth to intercept messages from the people of the planet Mars, who, astronomers are inclined to think, have been signalling to the earth by means of ether waves for years.

The attempt will be made in September, when the planet is at its nearest point to the earth. Professor Todd will be accompanied by Leo Stevens, of New York, a celebrated aeronaut, who will endeavor to pilot the balloon to a height of ten miles. The outlay, it is expected, will not exceed \$5,000.

"If there are human beings on Mars," said Professor Todd, "I have no doubt that they have been sending messages for years and are still wondering at our stupidity in not replying.

"The Martians have found out the things that the people of this planet are still blindly groping for. Upon Mars they have progressed thousands of years beyond us. Many things that are mysterious here must be an open book there. Once given them, or else do work that is inferior. People will praise it then and write articles about it, but posterity will know better and see its weakness. You can't fool posterity."

These are some of the words George Meredith addressed to some newspapermen who interviewed him a little over a year ago, about the time he celebrated his eightieth birthday. He lived to be a little over eighty-one, surviving his friend, Swinburne but a few weeks.

George Meredith was educated for the law, but gave up that profession before he was twenty for journalism. Like so many famous writers, he found the pen a poor staff, and his early years in London were years of privation and sometimes of hardship. Slowly, however, his qualities of mind and character won him the friendship of men of standing. He began writing poetry in 1840, and two years later published his first volume, "The Ordeal of Richard Feverel," his first important novel, appeared in 1859. It did not win any wide popularity. None of Meredith's books ever did. But it has, without doubt, made for itself an assured place in English literature. "The Egoist," written twenty years later; "Diana of the Crossways," and "The Amazing Marriage," the hero of which is supposed to be Robert Louis Stevenson, are probably his best-known novels. He published several volumes of poems between 1880 and 1900, and in 1902 issued a volume of short stories. After that he wrote but little, though on his eightieth birthday he laughingly discussed plans for a novel with Anthony Hope, J. M. Barrie and other friends who had gathered to congratulate him.

THOUGHT HE HAD LIVED TOO LONG.

"It is a misfortune to live to be eighty. A man's life ought to finish when he is sixty-five. He must stop working then, or else do work that is inferior. People will praise it then and write articles about it, but posterity will know better and see its weakness. You can't fool posterity."

WILL CASE.

The Alleged Pious Will of a Farmer's Son.

Toronto, May 18.—When informed of the provisions of his father's will, Jas. Leach, of Trafalgar Township, Halton, said he hoped his father was suffering the torments of the lower regions. The words used by Leach may have been less euphonious, but the above are those expressed by Mr. Justice MacMahon in referring to the terms in which Leach expressed his feelings to Mr. W. H. Young, one of his father's executors, when told that the farm was to be sold after his mother's death and the proceeds divided equally among James and his five sisters.

His Lordship dismissed the action yesterday morning, holding that the provisions in the will leaving it to the discretion of the executors to either invest the principal of James' share and pay him the interest, or to hand him the whole, was reasonable, in view of his treatment of his father and the intemperance which had caused it.

EXPLODED AT MASS.

Almost a Panic in Catholic Church at Hull.

Ottawa, May 17.—While Adelard Blondin was prodding a dynamite cap with a match yesterday morning at the children's mass in Holy Redeemer Church, Hull, it exploded, blowing off two of the youth's fingers and badly mangled his hand. His face also was injured.

The explosion occurred during the sermon being preached by the pastor, Rev. Father Carriere, and almost created a panic among the several hundred children in attendance. The clergy and the Christian Brothers present succeeded in calming the young people, who for some little time after the concussion caused by the shot were greatly excited. Young Blondin, it appeared, was given the cap just before mass time by a companion, who, it is thought, got several at the cement quarries while bringing his father's dinner there the day before.

ROOM FOR SMUGGLERS.

Allegations Made in Non-Jury Civil Suit.

Toronto, May 18.—Evidence of alleged smuggling carried on in connection with a business in Windsor was given in a civil action brought by Alfred W. Reid, of Toronto, against the estate of the late Jacob Deibel. Judgment was reserved by Mr. Justice MacMahon, who heard the case yesterday in the non-jury assizes. The case was first reached on Jan. 22 last, but on that day the defendant, Mr. Deibel, fell to his death from a window on the fourth story of a downtown hotel.

FLOODS AT PORTO RICO.

Lower Section of Humacao Swept Away—Damage to Sugar—strict.

San Juan, Porto Rico, May 17.—Considerable damage to property in Humacao has been caused by a very heavy rainfall throughout the island, the lowest in a number of years. The heaviest section of the town, including many houses, has been washed away and two lives have been lost. The town of Salinas also has been partially inundated, and the Yabucoa sugar district has suffered damage estimated at \$100,000. The new electrical power plant at Comerio Falls has been badly damaged, and a washout on the San Juan Caguas Railroad will cause a suspension of traffic for some time. The river along the railroad rose 26 feet.

GRAND SUCCESS.

Wonderful Growth in Sales During 1908.

The year just passed will long be remembered for the financial and commercial depression. Business houses all over Canada were affected. Most of them show a loss over 1907. Some did about as much business last year as in the preceding one. A few—a very few—show substantial gains. In spite of "hard times" and "financial depression" the sales of "Fruit-a-tives" doubled in 1908 over 1907.

The National Drug & Chemical Co. of Canada Limited bought "Fruit-a-tives" in 100 gross lots (14,000 boxes). Lyman Sons & Company, of Montreal, and Lyman Brothers in Toronto, also ordered "Fruit-a-tives" by the hundred gross lots.

These big wholesalers bought such big orders simply because the retail dealers ordered so many boxes of "Fruit-a-tives"—and the dealers had to keep "Fruit-a-tives" always in stock to supply the constantly growing demand of people in every section of Canada.

To-day, "Fruit-a-tives" are the most popular family medicine in the Dominion. In the big cities, in the smaller towns, on farms and ranches, "Fruit-a-tives" are the standby in curing all forms of Stomach, Liver, Bowel, Skin and Kidney Trouble. Rheumatism, Headaches and Neuralgia.

Are you a sufferer from any of the diseases? Do you hesitate a moment? Get a box of "Fruit-a-tives"—take them according to directions—and they will cure without fail. 50c a box, 6 for \$2.50, or trial size, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

MEREDITH DEAD.

FAMOUS NOVELIST SUCCOMBS TO HEART DISEASE.

A Prolific Writer of Poetry and Romances—His Works Have Secured for Their Author an Enduring Place in English Literature.

London, May 18.—George Meredith, the English novelist, died at 3.35 this morning. The immediate cause of death was heart failure, following grave symptoms that developed early in the evening. Mr. Meredith's illness began on May 15, and he steadily declined after that time. So serious was his condition last night that the attending physician remained constantly at his bedside.

Mr. Meredith was out for his daily drive at his Boxhill retreat on a Saturday in a little donkey chaise. He seemed then to be in his usual health. A keen east wind was blowing, and it appears to have given him a chill. He returned home in a state of collapse, with serious attacks of pain in the intestinal regions. A physician was summoned, and the novelist, revived somewhat, but was unable to take nourishment. His daughter, Mrs. Sturgis, remained in constant attendance, and his son was summoned on Sunday. The King's physician, Sir Thomas Barlow, was called into consultation, and it was hoped, despite his great age, the patient would rally.

He pointed out that the bankers admitted the necessity of increased taxation to meet the increased expenditures. He challenged them to find a way that would be more equitable or less injurious to the country's trade.

The Premier estimated the average income tax in Great Britain, including the super tax, at 23 cents, which, he said, he regarded as extremely moderate and less than the imposition in Germany and France. He foreshadowed a further increase in the income tax, which he now regarded as a permanent part of Great Britain's fiscal machinery. He declared that with proper legislation and wise administration it would come to be considered the fairest of all taxes and capable of very wide expansion in time of public emergency.

The Prime Minister said the people must be prepared to give a large definition of the term "emergency" as not only applying to an outbreak of war, but also to preparation for war, while it would not be a wholly illegitimate expansion of the term to include therein pressing needs of social reform.

After dismissing the jury, who took nearly two hours to arrive at their decision, Judge Winchester, addressing Davis, said: "You are discharged, as the jury have found you not guilty, although upon the evidence they should have found you guilty. I am glad for your sake they have done so, as you are weak mentally and physically, but be very careful not to get into trouble again."

DIES OF WORK.

At 79, Continues to Labor—Leaves \$100,000 to Family.

Windsor, May 17.—Hypolite Milloux, reported to be the richest farmer in Essex county, is dead, from general breakdown, due to his advanced age and strain from over work.

He was seventy-nine years of age, but insisted on doing hard manual labor on his farm until he collapsed. He leaves an estate of one hundred thousand dollars, to be divided among eight children. His farm consisted of nine hundred acres of the best farming land in the county, with a good river frontage.

Deceased served over twenty years in municipal office, being six years reeve of Sandwich East. He was born on a farm where Windsor is now located.

SENTENCED TO HANG.

Convict Who Slew Deputy Warden Found Guilty.

Edmonton, Alta., May 17.—Barry R. Barret, the "life" convict charged with the murder of Deputy Warden Stedman, of the Alberta Penitentiary, on April 15 last, was found guilty at 7 o'clock to-night and sentenced to hang on July 14 next. He took the sentence calmly.

An appeal will be made to the Minister of Justice at Ottawa on the plea of unsound mind.

HIS FAVORITE MALADY. Appendicitis Carried Off Dr. Wynkop, Appendicitis Specialist.

New York, May 16.—Dr. Gerardus H. Wynkop, 65 years of age, an eminent New York surgeon, and one of the first physicians in America to perform the operation of the removal of the vermiform appendix, died to-day at his residence in Madison avenue. While the nature of his malady puzzled several physicians, he diagnosed the disease himself as appendicitis.

BRITISH BUDGET

Income Tax Will be Part of Britain's Fiscal Machinery.

Increase in What Asquith Declares "The Fairest of All Taxes."

London, May 17.—The House of Commons to-night, by a vote of 299 to 96, passed the budget's imposition of a 28-cent tax on unearned incomes and on incomes exceeding \$15,000; also the super tax of 12 cents upon incomes exceeding \$25,000 levied on the amount by which they exceed \$15,000.

In the course of the debate Premier Asquith referred to the protest made by bankers against the budget. He pointed out that the bankers admitted the necessity of increased taxation to meet the increased expenditures. He challenged them to find a way that would be more equitable or less injurious to the country's trade.

The Premier estimated the average income tax in Great Britain, including the super tax, at 23 cents, which, he said, he regarded as extremely moderate and less than the imposition in Germany and France. He foreshadowed a further increase in the income tax, which he now regarded as a permanent part of Great Britain's fiscal machinery. He declared that with proper legislation and wise administration it would come to be considered the fairest of all taxes and capable of very wide expansion in time of public emergency.

ACQUITTED OF PERJURY.

Judge Tells Accused Jury, Should Have Found Him Guilty.

Toronto, May 18.—E. J. Davis, charged with perjury in connection with an action brought against the Street Railway Company by Mrs. Caldwell at the March assizes, was found not guilty by the jury at the session yesterday. Davis is a weak-minded individual and nearly fainted in the witness box when under cross-examination by Crown Attorney Drayton.

DAILY HEALTH HINT

CITY AIR. City air is at all times filled with all sorts of impurities—that is, foreign substances held in suspension. It is only by its constant renewal that such an atmosphere can maintain even a relative degree of purity.

City air is never as pure as that of the country. But with proper regulations as to the construction of buildings, conditions that would otherwise become intolerably bad may be improved. This means that even where ground is scarce and valuable due attention should be paid to matters of light and ventilation. And tenements of the cheaper class should not be permitted unless the all important matters of light and air space have been amply provided for.

A MARVELOUS OPERATION.

Successfully Performed by Unskilled Persons in Manitoba.

Winnipeg, Man., May 17.—A marvelous story of a delicate surgical operation performed by unskilled persons comes from St. Laurent, Man. What is known as the Caesarian operation was performed with a common razor after the death of a Mrs. Loust, wife of a resident of the district, by neighbors, in the absence of a doctor. The child is still alive.

ANOTHER OUTBREAK?

Report That Cattle Disease Has Re-appeared in Michigan.

Windsor, Ont., May 17.—It is reliably reported to-night that the foot and mouth disease has again broken out in Michigan. The location of the outbreak is given as Ypsilanti township, in Cass county, about seventy-five miles from Detroit.

HANDS ACROSS THE SEA.

London, May 17.—The Holbein portrait is the subject of a cartoon by Bernard Partridge in the current issue of Punch. "Hands Across the Sea" is the caption, and the cartoonist shows a Yankee stranger seizing the duchess by the hand and dragging her from her frame, with the remark, "Once upon a time, and the girl is mine."

LORD ROBERTS, Celebrated his golden wedding yesterday.

London, May 17.—Lord Roberts is to-day celebrating the fiftieth anniversary of his wedding, and so popular is "Bobs" that the event has assumed something of the character of an Imperial festival. Except during the race meetings, the telegraph office at Ascot never has known anything to compare with the rush of messages that have been arriving all day long from all parts of the empire congratulating the Field Marshal. The King and Queen were among the earliest to remember the day, and the newspapers are full of eulogies of the veteran soldier.

Woolen Mills Burned.

Dunnville, May 17.—The Erie woolen mills, owned by John Slingsby, were destroyed by fire on Sunday evening, due probably to spontaneous combustion in some waste under a stairway. Loss, \$12,000; insured for \$8,000. The hostesses kindly served a dainty luncheon. The June meeting will be held at the home of Mrs. J. B. Hutty, when the Provincial delegate will be present from Guelph, and give a talk on "As Others See Us." All are welcome.

Kelvin

The weather has been very dull, too seeding. There are farmers around here who have not sown any at yet, as the land is too wet to work.

Rev. Mr. and Mrs. Coates were here calling on some of their friends a few days ago.

Mr. Walter Potts, of Brantford, was here visiting relatives last week.

Quite a number from this place attended the funeral of the late Mr. Geo. F. Mitchell, of Scotland, last week.

Rev. T. R. and Mrs. Clarke visited friends in Harley recently.

Mrs. W. Thompson spent one day last week with her father.

Mrs. W. Almas was the guest of her daughter a few days last week.

Mr. W. H. Robertson spent Saturday in Brantford.

Mrs. J. E. Smith, of this place, was visiting relatives a few days ago.

Mr. and Mrs. John Fiddling, of this place, spent Friday with their son, near Scotland.

Harrisburg

Mrs. Willis, who has been in Brantford the last six months, returned to her home here on Wednesday last week.

Owing to so much rainy weather the farmers are very late with their seeding. Miss Millie Misner, of Lynden, was calling on friends in the village on Sunday.

Mrs. F. Gage, of Bartonville, and Mrs. L. V. Vrooman, of Napanee, were guests in the village a few days last week.

The many friends of Mr. and Mrs. John Black will be sorry to hear of the death of their infant child, which died on Sunday.

The Ontario Portland Cement Company started a gang of men at work last week getting out clay for their works at Blue Lake.

Miss Ella Maney, of Hamilton, was in the village last week.

Blackheath

At the meeting of the Blackheath branch of the Woman's Institute, held at the home of Mrs. Irvine Berry on Wednesday, May 12, the following officers were elected:

President, Miss F. Hanson. Vice-President, Mrs. Irvine Berry. Secretary, Miss N. Blaine. Directors, Mesdames Gibson, Harrison, Gowland, Smiley, H. and Degrow. Auditors, Mrs. Gibson and Miss Harrison.

District Director, Miss Jennie Blair. Press Correspondent, Miss I. Hannah. Twenty-five ladies were present, and a very enjoyable and profitable time was spent. The President reviewed the year's progress and urged the young girls to cooperate in the work. The financial report, read by the Secretary, was encouraging.

MARKETS AND FINANCE

Central Market presented an almost deserted appearance to-day for this time of the year—only a few farmers being present, but a good number of buyers were there.

Meat is coming in in large quantities, but beef holds firm and pork went a little higher this morning.

Dairy produce remained unchanged, but butter will probably be a little easier in the course of a few weeks.

Another jump reached \$1.30. Flaxseed was plentiful and prices a little lower.

The standard prices at 8 a. m. were: Chickens, spring, lb. 0 40 0 50

WHAT IS GOING ON TODAY IN THE WORLD OF SPORT.

Gossip and Comment

Toronto World: To show the advantage of practice in cricket, as in any other pastimes, the little Hamilton school trimmed the big Hamilton C. C. on Saturday...

Regarding the Bobby Kerr meet here on Saturday the Toronto News says: One of the features of Saturday's big athletic happenings was the Knox family. Three brothers were engaged in competition and all were winners.

Howard, aged 17, won the hundred and 250 yards runs in the school try-outs for the coming field day at Exhibition Park. Vernon, aged 16, won the quarter and half mile runs at the same school events.

These three boys are all members of Central Y. M. C. A., and have won many a medal in competition before. It is not often that they corner up first honors to such a wholesale extent as on Saturday.

Toronto World: Shimoneze may continue to reel off impressive trials in conjunction with her uniform running last year, and the filly may even land the money on Saturday next, but the facts remain that the confidence is still unshaken in the Seagram ranks, and the bounded in the winter books make Courrier, Tolendale and Pearl Fisher the favorites.

Those who never had faith in the French mutual system of betting should look to the prices at Louisville and find almost a good long one like Maid Militant that paid \$100.25 or a fraction better than 19 to 1.

Toronto Mail: There are several horsemen at the track who object to their horses being photographed. They believe that they cannot win if they are "mugged." Sam Hirsch, the owner of King James, who is expected to start in the Toronto Cup, is so superstitious in this respect that under no circumstances will he consent to have his horses photographed.

Jack O'Brien and J. Johnson hit it up for six rounds in Philadelphia on Wednesday. As the gentlemen have cheated some on other occasions, we refuse to venture an opinion on what will happen. It is in Philadelphia, and anything is liable to happen there.

JOHNSON-O'BRIEN.

Colored Man and the Fakir Tomorrow Night.

New York, May 18.—The Pennsylvania Railroad will run four special trains to Philadelphia Wednesday night, when Jack O'Brien will box six rounds with Jack Johnson. No heavyweight contest since the Burns-Johnson mill in Australia has caused so much interest in the sporting world.

Persons who have seen O'Brien within the last three days say that he is in remarkable physical condition. They insist that he has trained harder for this bout than for any previous affair in the ring, and that he honestly believes he will take Johnson's measure decisively. It is predicted that the big negro will be satisfied to stand flatfooted and pick off as many of O'Brien's jabs and swings with his long reach as possible, but it is not believed by good judges that Johnson will outpoint the scientific Quaker when boxing at long range.

San Francisco, Cal., May 18.—Fight Promoter James Coffroth has offered Billy Papke, who defeated Hugo Kelly here Saturday \$10,000 to meet Sam Langford in the Colma Arena. The offer was made to Papke's brother, and the date suggested was July 5th. The offer was so unexpected that the Papkes were not ready to give a definite answer. Coffroth asserts he will offer \$5,000 to Langford for his end of the purse and he is confident of landing the match.

Woodbine Special

The report of the Times' special correspondent at the Woodbine race track appears on the last page.

No Trouble about That. "But how," they asked Jonah, "did the whale get back into deep water after depositing you on dry land?" "I believe," said Jonah, "the commentators explain that on the theory that the whale waited for the return of the high tide. Sounds reasonable, doesn't it?"

MADE WORLD'S RECORD

Paul Ocoose Did 15 Miles in 1.22.22.

Best Time Yet in an Indoor Track.

Flanagan and Powers Bury the Hatchet.

Winnipeg, Man., May 18.—Fred Appleby, champion fifteen miler, lost by a lap to Paul Ocoose, of Grenfell, Sask., on a track that was eleven laps to the mile in the Arena Rink here last night. The time was 1 hour 22 minutes 22 seconds. It was in the seventh and eighth miles that the Indian broke away and made the lap which in the eleventh and remaining miles the Englishman tried in vain to recover. Local records for all intervening distances were shattered. They ran on a cork linoleum track, and a second meeting has been secured by Appleby for May 24.

ANOTHER ACCOUNT

Winnipeg, Man., May 18.—Paul Ocoose, the almost unknown runner from Grenfell, Sask., smashed all world's indoor records for fifteen miles and incidentally defeated the holder, Fred Appleby, of England, in a race here last night in the Arena rink, when he finished in one hour 22 minutes 22 seconds. The Indian boy from the prairie measured up the Englishman after the seventh mile, and thenceforth ran him off his legs.

WITH THE POWERS THAT BE.

Toronto, May 18.—Everything has been amicably settled by P. T. Powers with not only Longboat, but the executive head of the Eastern League has brought about a happy arrangement with Tom Flanagan and J. J. McCaffery, whereby peace has been restored, and all parties concerned have seen the wisdom of bringing about this happy result.

Mr. Powers has acted as peacemaker, his missionary work in Montreal and Toronto being most effective. Tom Flanagan has held security of a thousand dollars from Longboat and Shrubbs to bind the twenty-mile race at Scarborough Beach the night of May 24, but as the athletic field will not be in shape the race will take place according to schedule at the Island, and will be conducted by Flanagan and McCaffery jointly. In future Tom Longboat will be managed by Sel Mintz, Mr. Powers doing the booking, so it goes without saying the fleet Indian will be well taken care of and kept busy.

Instead of the Longboat-Shrubbs race for Scarborough Beach, Mr. Flanagan will open the new park in a couple of weeks with an all-star Marathon. P. T. Powers expressed the opinion that the St. Yves-Marsh-Sellen race at Hanlan's Point on Saturday night is the most open of all the big professional running events which have been held since the long-distance craze has gained so strong a hold on the public. "It is anybody's race when you sit down and dope it out," said Mr. Powers. "Your Canadian runner, Marsh, surprised everybody who saw the last international Marathon Derby at New York. He was in second place and going strong when one of the spikes in his left shoe worked through the sole and jammed him. His foot was a sight when he finished, but he was fast and game, and would certainly have been second or better had not his unfortunate accident intervened."

CRICKET IN ENGLAND

The Australians began the first game of their English cricket tour auspiciously, getting Nottingham out in the first inning for 238, of which A. O. Jones (captain) scored 125, not out, playing through the entire inning. The centurion hit up 288, including W. W. Armstrong's 106, V. Trumper 94, W. Bardsley 63, H. Carter 61, and A. Cotter 22. Four of the Australians, Bardsley,

Whitty, O'Connor and Ransford, were making their first appearance in England, while Noble was also making his debut as captain and successor in office to Darling.

The first band of Australian cricketers visited England thirty-one years ago, and this is the thirteenth team from those colonies. The attendance for the game reached 8,000. Bardsley and Ransford are two famous left-handers. Special interest attached to the new arrivals, of whom Whitty, the left-handed bowler, who swings with his arm, accomplished some promising work.

Surrey did some tall scoring against Hampshire, 742, winning by an innings and a few hundred runs. Hayes and Hobbs played the biggest innings of their careers, 276 and 205, while the pair in partnership added 371 for the second wicket, which is only 27 runs short of the established record of Shrewsbury and William Gunn for Nottingham against Sussex in 1890.

LEAFS WON AGAIN.

Providence Defeated Yesterday in Close Game.

At Toronto—Driving two pitchers to the barn in two games may be said to be going some. That is the record of the Leafs in the last two games played. One of the lumbered fingers was a right hander, while the other reaches out for his pay from the opposite side of his anatomy. Toronto won yesterday's game from Providence by 4 to 2, and Pitcher Sline, who started the performance for Providence, was withdrawn by Manager Duffy in the fifth, just when he was due for an artistic coming by the Leafs. James McGinley, the Massachusetts shoemaker, undertook to beat the enemy, and F. F. Mitchell, a fellow-citizen of McGinley's in old Massachusetts, worked behind the bat, part of which goes to show that Mitchell's prognosis is recovering rapidly from its violent introduction to Houser's elbow. Sline, who was offered up by Mr. Duffy, has on previous occasions made trouble for Toronto, but he didn't do it yesterday. He was wild at times, and at times when he wasn't wild he was sweet picking for the Leafs' slugmights. He delivered himself of three bases on balls and a wild pitch in the first three innings, but what disgusted Mr. Duffy most was God's clean steal of the plate, which was contemporary with Mahling's theft of third. EASTERN MEETING.

Toronto, May 18.—P. T. Powers, President of the Eastern League, who was in Toronto yesterday, has called a meeting of the club owners of his circuit to be held at Buffalo to-night.

Mr. Powers said this meeting in Buffalo to-night was for the purpose of more clearly defining the salary and player limit question, as many objections had been raised the last couple of days. McCain and Duffy are managers, who wear uniforms and coach, but do not play. Shall they be counted in the sixteen?

The league will rule on the Toronto right field home-run question. President Powers said he saw no objection to the arrangements regarding the screen, and it will likely be adopted.

President McCaffery is indisposed and President Hugh Duffy of Providence will represent Toronto. FOUL TIPS.

Carl Lundgren, who was a good pitcher once when with the Cubs, has been relayed to Toronto by Brooklyn. Lundgren is best during cold weather, and ought to shine among the prairie whiteness of the Canuck village. Lumley didn't really want him, and merely acted as intermediary for Joe Kelley.—Jersey City Journal.

They will soon be in need of some money in Montreal. The game there was called off again yesterday on account of wet grounds.

Toronto St. Mary's juniors would like a game on the holiday. Address P. McLaughlin, Union Depot, Toronto. Duffy and Kelly "d'ye mind," had a run-in, and the Providence manager was ordered to the bench. And Sunday at Detroit Moriarty and Carrigan had it out. It's in the blood.

Philadelphia, May 18.—Manager Chance had his injured left shoulder subjected to an X-ray examination yesterday, and it was discovered that a bone was broken. The injury was caused by a collision between Chance and Gibson, of Pittsburgh, nearly two weeks ago. Chance will be kept out of the game for a month.

Brandon, Man., May 18.—Trouble between Winnipeg and West City ball teams over Pitcher Monette, a colored wonder from Dakota, threatens to result in the disruption of the league. The Winnipeg club are firm in their contention that he has never been released from their contract, but jumped to Brandon, and the President of the league has ruled that he must remain out of harness until the matter is officially settled. Brandon refuses to bow to this ruling, and if it is enforced will leave the league.

FOR THE AMATEURS.

HE TWO DIAMONDS at the new Maple Leaf Park will not be ready for a couple of weeks. Everything is hustle and bustle down there and it looks as if the City League teams will have to play at Victoria Park for another Saturday.

City League managers must remember that the first three "luc" City League players are the only ones eligible to play.

Frank Robbins will manage the Night Owls this year. He is a good sort of a sport and having had experience among the players should find little trouble in getting a winning team.

The Violets have changed their name to the Rivets.

Manager Bevis is quickly rounding his team into shape and the boys will be in great condition Saturday to give their opponents a hard game on the opening day.

Sullivan, who is covering first sack for the Broadviews, is considered by many to be one of the best first sackers in the league.

Manager Beattie, of the Broadviews, claims that his infield is one of the fastest in City League.

Ralph Awrey will likely be found playing first sack for the Night Owls. "Rufus" is one of the classiest little first-sackgers in the game and should be a valuable acquisition to the Night Owls.

"Bill" Shields will also play for the Night Owls.

Blatherwick has been signed by Manager Awrey, of First Methodist, to cover one of the "sacks."

Manager "Dandy" Bailey has signed Dandy, a ball player of much promise.

Royal Canadians, who dropped out of the Victoria Park League, were replaced by the Night Owls. The Owls are a faster team than the Canadians, and their admission will make the league better than ever.

Those wishing to see a fast game of "soft ball" should take in the game at the Victoria Park to-morrow evening between the Spectator and Times.

Manager Manson requests a full practice of the Ascensions at the Central grounds to-night at 6.30.

The Keystone will hold a practice at Fearman's Field to-night.

The Western Stars will play Ferguson Avenue Baptist on Saturday at Norton's Field.

A meeting of the Soft Ball League was held last evening at Nelson's. Only two teams were present and it was decided to postpone the meeting until two more teams can be formed.

Art Willis and Dick Roberts will do the pitching for the Night Owls with Dick Mathews at the receiving end. The Night Owls will play (short stop) for the Night Owls with Bill (short stop) Buckingham on 2nd base.

There will be a meeting of the East End Indoor League this evening at the Barton street branch of the Y. M. C. A. Forming a schedule will be part of the business. All the club representatives are requested to attend.

Hamilton Baseball fans who take in the Forester's excursion to Detroit on Saturday afternoon will have an opportunity of seeing the American League champions for 1908 in action. The Detroit Tigers are leading the league now. On Sunday and Monday of next week they will meet the Washingtons.

A Chicago exchange says: Jas. J. Jeffries has jumped on the scales in public for the first time since he came out of retirement, and in the presence of a few interested persons, tipped the beam at 243 pounds. Jeffries announced he would weigh again before he left the city and would show whether or not he was reducing his weight. He said his best fighting weight is 220. "I don't see where I am asking much for delay in training," said Jeffries. "I simply want to be in the best possible shape when I enter the ring. When Sullivan and Corbett signed up in 1892 it was in March. They met in September. How long did Fitzsimmons and Corbett have for training? It was a matter of months, I know."

Lou Marsh writes in the Toronto Star: Three men should go to England for the English championships—Bob Kerr, the sprinter; George Goulding, the walker; Ed. Archibald, pole-vaulter.

Kerr will go, because Hamilton is raising the funds. Goulding should go, because he can win more honors for Canada. Goulding was off color to the Olympic games, and was beaten, but this spring at Varsity was beaten, but this spring at Varsity track he has beaten S. E. Larner's one mile walking record of 6.27, and once he did the mile in 6.35. He has also won two miles in 13.42. If Goulding does record times at Ottawa he should go to England.

Ed Archibald holds the English vaulting record and championship. He should be sent to defend it.

West Wheat Seeding Completed. Winnipeg, Man., May 17.—The Canadian Northern crop report issued to-day is of a most satisfactory character. Wheat seeding is completed, and farmers have put in a considerable amount of coarse grains. The weather is all that could be desired for farm work.

Chicago, May 18.—Joe Rogers, the giant wrestler, who has returned here from Kansas City, brought word that Dr. B. P. Roller is lying dangerously ill at Kansas City, suffering from pneumonia. So alarmed were the physicians attending the big athlete, said Rogers, that they telegraphed to his wife at Seattle to hasten to his bedside. Dr. Roller's matches have all been cancelled. "GERMAN OAK" IN EAST.

Buffalo, May 18.—There has been no such wrestler as Ernest Seigried in Buffalo in many a day and the coming of the German Oak for the hour handi-capped against three heavyweights, at the Lyric Theatre next Thursday night is being eagerly awaited. Seigried is one of the biggest men on the American mat to-day, weighing over 220 pounds, over 6 feet tall, with arms, chest and legs muscled like iron. When he first showed in New York last winter, he began to challenge Frank Gotch to a match in Graeco-Roman for the world's championship. Since he went west this spring he has been doing a lot of catch-as-catch-can wrestling and has done well at it, so well that not a few Western experts are prepared to bet that he takes a fall or the title from Gotch when he meets him.

A splendid series of preliminaries will be arranged, and effort is being made to hold the brilliant middleweight, Al Ackerman, in town for a match with one of his numerous challengers. Buffalo is just beginning, as an athlete as good or better than Dan McLeod on the mat, and the time was not so long ago when Buffalo thought the Scot the greatest man in canvas shoe in America.
