Guelph Evening Mercury

WEDNESDAY EVENING, MAY 20, 1874. Town and County News. Dr. McCullough, of Kookwood, has returned home, and is again attending to his practice. A pleasant time is anticipated at the Baptist Church to-morrow evening. An excellent programme has been arranged. PASSED - We are pleased to notice that Mr. Charles Gordon, of Messrs. Lemon, Peterson & McLean's law office, has passed his first intermediate law examination at Osgoode Hall, Toronto. AN OLD SETTLER GONE - We chronicle to-day the death of Mrs. James Manderson, an old and respected resident of Palfrey Block. She came to the Township in 1833, and resided on the same farm from that time to the day of her death. ENTERTAINMENT - We learn that the young people of the Wesleyan Church have made arrangements to give a grand entertainment in the Town Hall on Monday evening next, 25th inst. It will consist of music, readings, recitations, &c., and will no doubt be a very enjoyable affair. THE ELORA ROAD - We have heard grievous complaints of several quarters of the bad state of the Elora Road, particularly from the Junction to Elora. The road is very rough, and it made more so by the number of loose stones lying on it, and by the rats which have not been killed up, and are getting deeper every day. THE CARLIST INSURRECTION. The Emperor's order will sit Woolwich to-day, and respect the Government docks and works. The Carlist Insurrection. The Carlist Insurrection. The Carlist Insurrection. THE CARLIST INSURRECTION. BY TELEGRAPH TO THE MERCURY

Loss of the S. S. Mancha. Industries in the Deluged Districts. The Carlist Insurrection. The Czar's Visit. London, May 19th. - The Czar went to a d'harot, where he reviewed 14,000 troops this morning. The usual crowds gathered in the streets to see him. He returns to London this afternoon. A State ball will be given in his honour at Buckingham Palace to-night. The Emperor's order will sit Woolwich to-day, and respect the Government docks and works. London, May 20. - A special to the London Telegraph says that the alleged challenge of Paul Cassagnac by the Duke De Chartres is unfounded. The billion gone into the Bank on balance to-day is \$29,000. The weather throughout England to-day is fair. Constantinople, May 19. - A fire last night in Galata and suburbs destroyed a hundred houses, which were mostly occupied by poor Jews. Madrid, May 19. - A severe skirmish between the Republicans and Carlists occurred to-day in the neighbourhood of Bilbao. Carlists attacked and were repulsed with heavy loss; thirty Carlists were captured. The Republicans lost 100 killed and wounded. San Francisco, May 19. - Additional information in regard to the loss of the steamer Manchu, shows that on the 15th March (two days after she sank) the Japanese fishing boat her coal bunkers gave way, and her engine rooms were flooded, stopping the engines. On the 17th the vessel became water-logged. Mr. Crocker and Mr. Jones succeeded in getting into a small boat, but afterwards the latter could not warn the people on board the Manchu, the five before stated. A despatch from San Diego says that John Orend, wife and four children were found murdered in their house. New York, May 20. - Weather warmer and pleasant. A Northampton despatch states that although in some localities the industrial interest in the present generation will live to see the Valley in its former thrift and industry. Propositions have been made by New York capitalists which may result in the rebuilding of Leeds, which was famous for buttons and paper. The brass works of Hayden & Gere will be speedily rebuilt on the old site in Haymarket. William and his people left for a nucleus, and is likely to revive in the course of time. Skinnac, 11, of which there is not left one stone upon another, will not be rebuilt. A large number of Irish harbored revengeful feelings against Spellman, whom they falsely accused of detaining Cheney so that the latter could not warn the people of the flood in season. They threatened to burn his house and hang him. Yesterday Spellman removed his family with a half dozen neighbors, thoroughly armed, and picked his premises. The Irish began to gather in knots of four or five, but finding a detachment of troops on duty the rioters dispersed. A Dominican Friar addressed a large audience of Catholics in Brooklyn yesterday, in which he anathematized the reading furnished the people of the U.S., especially through the columns of daily newspapers. A Little Rock special says that it is generally believed that Brooks is still in that city, but many of his followers have left the State, fearing arrest for treason. It is believed a general system of fraud has been practised on the State, and the auditors and other books of State officials will be thoroughly overhauled. Springfield, Mass., May 19. - Some twenty of the missing dead bodies have been dug out of the ruins of the building and deposits of sand, and twenty-five or thirty more are still to be recovered. Some 400 volunteer laborers went at work to-day digging over the ruins for the dead bodies, and 1,000 are expected to-morrow. Suicide in Goderich. (Special to the Mercury by Dominion Line) Goderich, May 20. Mr. John Kay, general merchant and express agent, and an old and respected resident of this place, committed suicide by shooting himself through the head with a rifle. A coroner's inquest was held this a.m. and the jury returned the verdict that the deceased "came to his death by his own hand while laboring under a fit of temporary insanity." POLICE COURT. (Before the Police Magistrate.) The case of Benjamin Hill, who had been arrested and lodged in gaol on suspicion of having connived at the escape of Samuel McLean, was concluded on Tuesday. The examination was held within closed doors before the Police Magistrate, and the evidence was of such a character as to justify the Magistrate in committing the prisoner for trial at the Fall Assizes. A straggle measuring 6 feet 4 inches in length and weighing 115 lbs. has been caught in Nanapan. The Anchor Line steamer Trojan, due at St. John, N.B., is now generally given up. This is her fortieth day from London, and no tidings of any kind have been received. Rev. Dr. Jeffers, pastor of the Wesleyan Methodist Church in London, was presented with a purse containing \$266, accompanied by an address, in anticipation of his removal to another place. THE SOUTHERN EXTENSION RAILWAY. - A Lucknow paper says: "We understand that the long-looked for opening of the Southern Extension takes place not later than the 15th of June. A gang of men left Lucknow yesterday for Listowel, from which point they will start to repair the crossings, cattle-guards, &c." REV. Wm. COCHRAN preached his twelfth anniversary sermon in Zion Church, Brantford, on Sunday.

DOMINION PARLIAMENT.

OTTAWA, May 19. The Minister of Justice stated that the writ for Provencher had been delayed pending an enquiry as to the name of the Returning Officer. The Controverted Elections Bill was read a third time. The House went into Committee and passed the estimates. The resolutions respecting the North West Customs duties, relating to intoxicating liquors, were adopted, and a Bill was introduced and read a first time. Mr. Mackenzie, without comment, moved the second reading of the Canadian Pacific Railway Bill. Dr. Tupper recapitulated the circumstances attending the original Canadian Pacific scheme, and the causes which, from his point of view, led to its failure. He argued in favor of the scheme for constructing the road by means of a great public company, declaring the road might have been completed, and that, too, without increasing the rate of taxation, if left in the hands of private enterprise supported by ample capital. He read from Mr. Cartwright's speech to show that the latter estimated the cost of the road at from \$150,000,000 to \$160,000,000, but that estimate was founded on the supposition that the road was to be completed in seven years. Dr. Tupper declared if the present scheme of the Government were not strangled in its inception it would bring financial ruin on the country. He was especially hostile to the proposition embodied in the Bill to aid Ontario's lines to connect with the Niagara and Georgian Bay Lakes. He professed to believe the Government was not serious in its proposal. Mr. Mackenzie alluded to the fact that Dr. Tupper was a member of the Government that agreed to build a road not only of 2,700 miles, but 150 miles more, which were not compelled to build, and the only result of which was that the Ministry of the day got \$360,000 to carry their elections. He exposed the recklessness of the scheme of the late Administration, and ridiculed Dr. Tupper's objection to using American lines pending the establishment of communication through Canadian territory. He pointed out the ample safeguards provided by the Bill for securing the authority and control of Parliament, and the limitation of the expenditure on the road to such an amount as the resources of the country may justify. It was not the intention of Government to present to build the Eastern section of the road, and they were determined to utilize the magnificent water communication along that portion of the route which lay between Fort Garry and the Rocky Mountains. He showed that Dr. Tupper's figures were incorrect, and that as all the work would be subject to public tender, it would be done at the lowest expense possible, whatever the expense would be. He closed his speech by declaring that they would not take one step without the sanction of Parliament. Mr. Jones (Halifax) defended the course Mr. Mackenzie had taken from the first on the question. Mr. De Cosmos considered the great question of a trans-continental railway should not be approached in a party spirit. He expressed the opinion that the road could be constructed within seven years. Mr. Cartwright (New Westminster) asked the question of the route was in the hands of the Government, and he was contented to abide their decision. Mr. Thomson (Cariboo) desired that the objective point on the coast should be decided as soon as possible, and the work then energetically pushed forward. He complained that people in British Columbia were impatient of inaction, in consequence of the violation of the original terms of Union. Mr. Baxter said the terminus must be at Esquimalt, which was the finest harbor in the world. In Committee, Mr. Walker thought the branch lines were absolute necessities, if the main line were ever to be constructed. Mr. D. A. Smith believed in the success, in course of time, of the railway. The Pembina link should be made as soon as possible. After some discussion, the Bill was passed through Committee without amendment. At 2.50 o'clock a.m. the House adjourned. Goderich Items. The schooner Katy Pringle picked up the body of a man about three miles off Bayfield this week. The body had apparently been in the water for a long time, and was very much decomposed. It was dressed in a grey flannel shirt, blue and waistcoat, grey striped pants, and had a grey woolen sock on one foot. There was a black watch-glass attached to the vest, but no watch. In the trouser pocket was a tin box full of out tobacco, a knife and a small rule; a tin box with a list of names was found in another pocket. The man appears to be 35 or 40 years of age. The schooners Hungarian and Jane McLeod are loading buck salt for Chicago. Work has been commenced in removing the old dock, preparatory to the building of new ones jointly by the Government and the town. Items from Hespeler. Messrs. Schofield & Co. have purchased the building machinery formerly used by Randall Farr & Co., and purpose running it under the superintendence of Mr. Weaver, the gentleman who ran it under the old regime, he having returned from St. Joseph's, M. O., for that purpose. On Tuesday evening a boy by the name of Greh, speared with a table fork a bass weighing four pounds, in the outlet to Pashlock Lake, and succeeded in landing him safely. The programmes of amusements in Hespeler for the Queen's Birthday have been published, and show that the day will be right royally celebrated in this village. A capital list of games and sports has been arranged, with liberal prizes to the successful competitors, to wind up with a social dance in the evening. A female patient in the Kookwood Insane Asylum fell a distance of sixty feet while trying to escape, and was instantly killed. A delegation from the Montreal Northern Colonization Railway Company, including the Mayor of the city, will shortly leave for England, the object being to float the Company's bonds and securities on the London Market.

Randall, Farr & Co's Works at Holyoke.

We find in the Transcript of May the 2nd an account of the opening of their new Factory at Holyoke. As our numerous readers in a short Hespeler will be interested in the prospects of this firm whose factory for years was of such advantage to Hespeler, we give a condensed sketch of the description furnished by the Transcript. - Only six months ago we announced the organization of the company; to-day we can show to our readers a sample of the first piece of the "lustrous" woven at these mills. Weaving was commenced four days ago, with a few looms, since which time six or six a day have been set up in six motion. The main building is set long by 56 feet wide, three stories high. From the west side, there is a south end of the main building, and of the same height, an L, 37 feet wide, is projected 100 feet west; in the right angle stood 100 feet, and the tower some 60 feet high; and extending westward from the L is the dye house, one story high and 50x37 feet in ground dimensions. The weave-room is isolated from the other buildings. When fully furnished the room will contain 265 looms. The motor is a 225 horse power American Turbine, made by the Holyoke Machine Company. After fully describing the process of manufacturing the beautiful lustrous made by this Company, the Transcript goes on to say: - The full capacity of the mill is 800 pieces, or 40,000 yards, per week. The goods will be made in a dozen different qualities ranging in price, perhaps, from 25 to 50 cents per yard manufacturer's price. At an outset only black lustrous will be made. It will require some four weeks to finish the building, but the hands are ready and set to work as fast as room or place is finished for them. The complement of three hundred hands belonging to the force of the Holyoke mill; with their experience and knowledge of these machines, and the fact that they have been kept with and interested in the enterprise, the company will be able to accomplish a better organization in one month than under ordinary circumstances a new concern could accomplish in four, and besides there has not been lost or wasted, in experiments or otherwise, a particle of stool, and there is certainly no reason why the first year of the lustrous produced at the new mill should not be as good as any made at the old one. The experimenting has all been done by Mr. Farr and his friends in Canada, who have now brought to our city the ripe results of their risks and experiments, only to secure better advantages for the production of an article already favourably known in the market. The officers of the company are J. Bees, President; J. Bees, J. Merrick, J. C. Parsons, Amerson A. By, George Randall, Joseph McCall and H. M. Farr, directors. Mr. Farr is at present acting as agent and treasurer. Fustineh Farmers' Club. A meeting of the Fustineh Farmers' Club was held in the Town Hall, Aberfoyle, on Saturday last. There was a good attendance. Mr. J. H. Glennie was appointed chairman, and Mr. Jos. Grant, secretary. The constitution, by-laws, &c., were submitted to the meeting, and after being read over and carefully considered, were adopted. The following gentlemen were then chosen officers-bearers for the current year: President, Duncan McFarlane; Vice-President, Peter Mahon; Sec.-Treasurer, Joseph Grant. Board of Managers - John H. Glennie, Robert Little, Hugh Cockburn, John Marshall, John Scott, Peter McLean, jun. The next meeting of the Club will be held in the Town Hall, Aberfoyle, on Saturday the 30th May, at 2 p.m., when the following subjects will be discussed: "Terra culture in Canada and Britain," Mr. James A. Deacon to lead; "The best variety of Turnip Seed adapted for Light soil," Mr. Alex. Smith, J. P., to lead. We are glad to learn that the Club has been formed under the most encouraging auspices, and we trust that it will have a long and prosperous career. If properly conducted it will result in great good to the members, and tend to enlarge their knowledge on agricultural subjects. We have seen the constitution by-laws and rules, and they are ably drawn up, and admirably adapted for the guidance of the Club in the transaction of their business. Quite a number of members have already joined, and in the prospect of several more joining at the next meeting. Moorefield Correspondence. Sprag has come at last, and up here at least, all is activity. Two law houses and a wagon shop have gone up already and neither is to be long completed. One of the horses is already tenanted, and the other will be in a few days. A number of carpenters and others are to-day engaged laying down a sidewalk from the telegraph office to the railway station. This will greatly add to the appearance of our village, and also to the comfort of pedestrians, particularly in rainy weather. Large posters are out announcing the celebration in grand style of the Queen's Birthday. Dinner will be served in Mr. Luxton's new wagon shop at 1.30 p.m., after which those bent on pleasure and amusement will adjourn to the beautiful grove adjoining the B. R. station, where swings will be erected. Music will be furnished, speeches delivered, dialogues spoken, &c., and a good time is anticipated. Winterbourne Correspondence. We notice that Mr. James Logie, who opened a new store a few weeks ago in the building formerly occupied by Mr. Geo. Stork, has added quite a number of new goods to the old stock, and as he sells cheap it would be well for those wishing to purchase to give him a call. A new building has been put in this place during the last week by Mr. Jasper Smith, who intends to use it as a carpenter shop. This with the most brick dwelling and ornamental fence built by Mr. Smith last summer, gives quite a good appearance to what was formerly a dilapidated looking corner. We understand that a new dwelling is to be put up this summer on the vacant lot next to Mr. Smith's, the stone for the foundation being already on the ground. We have no celebration in this place for the Queen's birthday. There is to be an afternoon base ball match and evening concert and ball in the neighboring village of Conestogo.

THE SESSION.

From present appearances the business of the session will be got through in a week or ten days at farthest, and our hard worked legislators will be released from their duties. It is but a rare thing in the history of Canada to have a session of Parliament in which so much work is crowded, and which has been so expeditiously accomplished. From the Premier down through all the grades of ministers and officials, the duties pertaining to each office have been promptly and efficiently performed. There was no waiting for ministerial measures, departmental reports, or returns. The work in each department has been properly systematized, and ministers see that their subordinates attend to their duties.

Not a few members have already gone home to look after their private business, and it is doubtful if they will return, the session being so nearly at an end. During its continuance the Government have lost none of their strength, nor, we believe, have they alienated a single supporter. There were not a few prophecies made by the Conservatives before the House met that the difficulties which would meet the Administration in maturing their measures would tend to weaken their strength, and that not a few followers would fall away from the ranks disappointed or offended. Nothing of the kind has happened. There has been no trouble in the Cabinet. Questions of the first magnitude have been discussed, and a policy in regard to them agreed on without difficulty, or any difference of feeling to mar the harmony of the Council. The Government measures have received a very large support; and even the amended tariff—about which there was such a difference of opinion—and which in some respects did not give satisfaction to many Reformers—was carried by a sweeping majority. The Opposition divided the House twice on the tariff. The first amendment was in reference to the duties on home-grown tobacco, for which only 61 voted—108 being for the Government. The next was an amendment for the remission of the duties on tea and coffee for which 16 voted, and 81 voted for the tariff as recommended by the Government. With regard to the bill for the construction of the Pacific Railway, we anticipate no opposition. The scheme is the only practical one—its demonstration by Mr. Mackenzie in his able speech last week—and any member who would propose another or speak in favour of the one recommended by the old Government would be laughed at as a man not in his senses.

The fact is that the present Opposition are utterly demoralized. Sir John Macdonald does not even think it worth while to attend the sittings, or to question the policy of the Government; and though it is not possible to keep Dr. Tupper quiet, yet his opposition is of the weakest kind, and his attacks fall powerless on the firm and unbroken ranks of the Government supporters. The Ministry are as strong now as they were in March, when the House met; their administrative talent has been fully and fairly tested. They have been found equal to the work, and thereby earned the respect and confidence of the House and the country.

The Pacific Railway Bill. Through the attention of Mr. Sirtin we have received an early copy of the Pacific Railway Bill, founded on the resolutions of which we have already given the substance. The Bill provides for the construction of the road as the finances of the country will permit, and in this respect differs altogether from the old Bill, which limited its construction to a fixed period, within which it would have been impossible to build the road. The Bill provides a second time on Tuesday night, and with the exception of an unfriendly speech from Dr. Tupper, it met with scarcely any opposition.

The North West Committee's Investigations. We have from time to time given as much of the evidence as has been published of those witnesses who have been examined by the Committee on the troubles which occurred in the North West. Although this evidence has only been given in part, we now know enough to substantiate the fact that the late Government did indirectly, and that one of their own number—Sir Geo. E. Cartier—did directly promise an amnesty to Riel and the others engaged in the revolt. Mr. Putney, the Deputy Minister of Militia, was examined the other day, and he stated that in 1870, when Sir Geo. E. Cartier was acting Premier, in the absence of Sir John Macdonald, he positively guaranteed to Father Richot everything he might demand. The deceased Minister on several occasions afterwards told Mr. Putney that he had promised to obtain a general amnesty, and referring to the murder of Scott said that was a difficulty in the way, but it could ultimately be got over. Thus we have at last obtained full and clear testimony that an amnesty had been promised. With reference to Sir John Macdonald's share in the work, we have it also in evidence that if he did not go so far as Sir Geo. E. Cartier, he said he would do all he could with the Imperial Government for Riel, and in this sense may be said to have made Riel's cause his own.

Ex-Governor Archibald also lets us into some secrets regarding Cartier's election for Provencher in 1872. He was instructed by Sir John to obtain a seat for Cartier, but that he was to keep it secret that Riel retired in Cartier's favour. These and other revelations are most damaging to the character of the late Government, and show to what shifts they were put in order to retain power, and what despicable means were employed in order to shield a murderer, and even obtain, if possible—a pardon for him.

A CHIEF IN FRANCE.—The Duke de Broglie, after being a year in power, has met with defeat in the French Assembly from a coalition of the same character as raised him to power. The subject of the constitution was the cause of his defeat, which was brought about by a coalition of Bonapartists and Legitimists. M. Goulard, one of Thiers' old ministers, is trying to form a Government, but has not yet succeeded. The probable effect of this crisis will be to perpetuate the Republic, and lessen still more the chances of the re-establishment of a Monarchy.

NEW BRUNSWICK.—The Legislative Assembly of this Province has been dissolved, and a new election will take place in June. This step has been taken in order finally to settle the much vexed school question.

The Parliamentary printing has been awarded to McLean, Roger & Co., of the Ottawa Times, and should they fail to fulfill the terms of contract it shall go to I. B. Taylor. The contract for binding was granted to Grison, Freshette & Co., of Ottawa, and should they fail then it shall go to James Hope, of Ottawa. The contract for paper was given to Mr. Barber of Georgetown, Ont.

Fergus Correspondence. The tavern keepers are trying to evade the Saturday night law by closing at 7 o'clock, and then opening their gin later in the evening. Mr. Inspector Gilmour had better attend to his business or he will have to pay a heavy fine.

The seeding is nearly through, and the fine showers of Saturday and Sunday will do much good. Preparations are being made for games and horse racing on the Queen's birthday. The ladies of St. Andrew's Church hold a bazaar, and close the day by a grand concert.

The communion was dispensed in the Presbyterian Churches here last Sunday. A large number of people came out, notwithstanding the heavy rain.

Quite an excitement is created here by the bill to re-allocate the County to its old plan. This bill puts the Tory camp into consternation.

Surveyors are now engaged on the proposed route of the Credit Valley Railway, and it is expected that work will be shortly commenced.

Elora Items.

The village is very quiet at present. The farmers are almost through with their seeding. We have had nothing to excite any excitement for over a week. Last week we were very near having a law case, but it was settled before it came to Court; but one of our business men had a very narrow escape from being sent to "limbo." Perhaps it will be to him and others a lesson not soon to be forgotten. The grass has come on very quickly this week, since the rain. Mr. John L. Kirk, of the firm of Kirk & Clarke, continues to be very ill, and is very weak. Mr. Blain, of Clifford, preached in Chalmers' Church last Sabbath evening to a large congregation.

IMPORTANT

SALE OF PIANOS

The Committee appointed to dispose of the Pianos at the Manufactory of

JOSEPH F. RAINER, WEST MARKET SQUARE, GUELPH,

Will offer them at a considerable reduction on cost on reasonable

TERMS OF CREDIT. The stock consists of about

40 First-class Instruments!

Similar to those shown at the last Central Exhibition, and for which he was awarded the first prize.

They are equal in compass of tone, finish and durability to the best instruments of any of the celebrated manufacturers, and as such an opportunity seldom occurs, parties in want of pianos would do well to avail themselves of it.

An inspection invited. A competent person will be on the premises, near Mr. John Harris's, who will show the instruments. Guelph, March 18, 1874. dtwif

Our Weekly Arrivals of Goods make things Lively at THE LION!
 Trade better than Ever!

Over Thirty Thousand Dollars worth more Goods sold this Spring than last, and there will be more in the future, for we are determined to keep prices down in spite of increase in the tariff. Every one remarks the great business doing at THE LION. Of course it must be so,—our stock is larger than any six stocks in Guelph, and our prices so much lower, and the people find out these things, and go where they get the best value for their money.

We have received a speciality this week of over one thousand dollars worth of Double Ballou's Kid Gloves direct from French makers, that we will sell at one dollar a pair; elsewhere you pay from \$1.25 to \$1.50 for the same.

Also, French Silks in all the newest shades in plain, striped, and shot, at \$1 worth \$1.50 a yard.

Another lot of lovely Dress Goods in Plain Lustres, Zenobin Stripes, Australian Crapes, and Polka Spots.

59 Boys' Suits just received to suit little chaps from 4 to 10 years old at \$3.50, \$3.75, \$4.00, \$4.50 and \$5.00 a suit.

Our Agent advises that next steamer will bring us 100 pieces Linon Tasso Dresses that he has bought very cheap. The goods are worth 25 cents; we will sell them at 12½ cents. The next Allan steamer will bring them.

Shaw & Murton,

MECHANIC TAILORS

January 1874, was 4,338, an increase of 203 offices in 1873 over the previous year. This does not include Prince Edward Island, which came into the Dominion on the 1st July, 1873, with 180 offices, a postal route covering 98 miles and a mileage of 226,000 miles. The revenue from the offices on the Island had been \$12,000, and the expenditure \$26,000. Ontario and Quebec numbered in January, 1874, 2,814 offices, and the other Provinces as follows:—New Brunswick 611, Nova Scotia 833, Manitoba 34, British Columbia 46. In 1873, the post route contained 65,588 miles, while Her Majesty's mails travelled 13,266,598, an increase of 718,209 miles over the previous year.

CIRCULATION.—Letters and postal cards have circulated in 1873 to the number of 34,579,000, being an increase over 1872 of 3,979,000. Newspapers have increased from 24,400,000 in 1872, to 25,480,000 in 1873, a difference of 1,080,000. Registered letters numbered in 1873 1,377,000, and in 1872 1,230,000, an increase of 97,000. Free letters have decreased from 1,125,000 in 1872, to 1,091,000 in 1873. Parcels sent by post numbered 112,300 in 1873, against 95,200 in 1872, an increase of 17,100.

The receipts for correspondence between Canada and the States were 444,024. There were 1,998,240 letters, 1,736,960 newspapers, 51,998 books, and 24,418 parcels sent between Canada—exclusive of New Brunswick and Nova Scotia—and the United Kingdom.

DEAD LETTERS.—The number of dead letters was in 1873 426,886, the unpaid postage on which amounted to \$5,000. 3,089 of the letters were registered.

FINANCES.—The revenue was \$1,406,984 in 1873, an increase of \$213,922 over the previous year. The expenditure in 1873 was \$1,533,004, an increase of \$234,411 over 1872. The total loss on the service is reduced for the year to \$146,020.

The revenue for the year was divided among the several Provinces as follows: Ontario and Quebec, \$1,192,530; New Brunswick, \$82,135; Nova Scotia \$109,750; Manitoba \$5,050; British Columbia \$17,517. The expenditure is as follows:—Ontario and Quebec, \$1,164,327; New Brunswick, \$132,106; Nova Scotia, \$182,230; Manitoba, \$14,716; British Columbia, \$59,722. The value of stamps and postal cards was \$980,075 in 1873, exceeding the previous year by \$147,840.

Rockwood Items.

The town hall has been finely painted outside, and renovated inside, and it really looks well. Rockwood can now boast of as good a hall and school house as there is in any village in the county.

Professor Matland, of Guelph, is teaching a singing class here at present, which is very well patronized. It was very much wanted, as there are a great many young people in the village and vicinity whose musical education has been sadly neglected.

Mr. J. Boome Kay gave one of his popular readings in the town hall on Thursday evening. It was not as well attended as it ought to have been; perhaps the season of the year had something to do with it.

The temperance cause is as lively as ever in our village. It has been one of the greatest blessings that Rockwood ever enjoyed. Long may it prosper in our midst.

The crops are looking very well so far. Fall wheat is much better than was expected at one time; in fact it looks better than it did last year, although spring was late. Seeding is not much later than usual. The fields are fine and dry to receive the seed, and the fine showers have had lately are starting vegetation very rapidly.

Power of Magistrates. The following judgment of the Judges, in reference to the powers of County Magistrates in towns in which Police Magistrates have been appointed, was given in the course of the delivery of a decision in reference to the objection to a recognition before the Election Court, and is of interest as it sets at rest a question, as to jurisdiction of County Magistrates, on which considerable discussion has taken place.

The County Magistrate has jurisdiction in the town, except in local cases. The meaning of the statute is to exclude County Magistrates' jurisdiction only in cases arising in town, otherwise he could not take acknowledgments of married women parting with their real estate. Nor could he take proofs of loss arising under insurance policies. It has been held, under 27 Edw. ch. 13, which requires an oath of robbery to be made before a J. P. of the County, that the oath could not be taken before a J. P. of the city of London—(Paley on Convictions, 18, 19.) Nothing but express words in his commission can oust the jurisdiction of a Magistrate for the County, or prevent his exercising it in an incorporated town—(Paley 30, 31.) He may perform acts out of his jurisdiction, where not of a coercive nature. He may take a voluntary recognition—(Bacon's Abridgment, 7th ed., vol. 4, p. 619.) He may do a ministerial act, and take recognisances and informations for these, says Lord Chief Justice Hall, "are acts of voluntary jurisdiction, and may be done in any county." (Regina v. Wharton, et al. 19 U. C. C. Pg.)

Palmerston Items. Mr. J. D. Caswell has completed the addition to his store, which makes it commodious and better adapted to his increasing trade. Mr. McLennan is building a store on Main street, between McEwing's and Nowry's stores. Mr. Wm. Leopold is erecting a hotel on Queen street. Work has been commenced on the Presbyterian and Wesleyan churches.

The Royal Exchange Hotel, lately occupied by J. C. Hill, has been leased by Mr. E. J. Hicks, of the Hicks House, Mitchell, and will hereafter be known as the Hicks Hotel. The house is being thoroughly renovated, and supplied with new furniture, and the travelling public may now rely upon getting first-class accommodation. The hotel will be under the management of Mr. Wm. Barley.

The Ladies' Aid Society will hold a necktie social in the Wesleyan Methodist Church on Monday evening, 25th inst. The gentlemen will furnish and the ladies draw the ties.

MANUFACTURE OF COCOA.—"We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London."—See article in Cassell's Household Guide.

THE LAND TENURE IN SCOTLAND.—The British Government has published a return of proprietors of land in Scotland, which throws some remarkable light upon a subject regarding which even among well-informed men in political life there existed a vast amount of misapprehension. It appears that there are 131,530 who hold ground in their own right by various tenures. Of these 40,000 own merely building stances and garden sites in burghs. Those who hold fees of less than an acre, outside burghs number 70,000. There are thus less than 20,000 proprietors of land available for agriculture or pasture. About 15,000 of this latter class derive an income of £10,000 a year, and only 120 more than £1,000 from their land. The extent of possessions is by no means proportionate to the income. Lord Elibank, for instance, from his 1,800 acres of land in East Lothian has a return of about £60,000, while Sir Charles Ross does not get a £1,000 from the thirty times as many acres in Sutherlandshire.

The Good Templars who are on their way from the old country with Mr. Samuel Capper, will lead in Napanea. They are from the laboring classes, and application for their assistance can be made to Mr. W. S. Williams, at that town.

BREAKFAST.—Epps's Cocoa.—GRAZING AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co., Homoeopathic Chemists, London."

The Druggists have just received a supply of Dr. Wheeler's Celebrated Chemical Food and Nutrients Tonic, the Compound Elixir of Phosphates and Calais. This preparation has been in use in private practice for fifteen years, and is confidently recommended to the public as the most elegant and reliable tonic in use for building up constitutions that have for long time been suffering from Chronic Wasting Diseases, depending upon poor blood. It perfects nutrition by aiding the digestion and assimilation of food, and thereby building up and vitalising all the organs and tissues of the body. In diseases peculiar to women from the female system, it supplies a want long felt by the physician, of a safe and agreeable remedy that may be taken for a protracted period, without any possibility of injury, or of becoming repugnant to the patient. Sold at \$1.

AT THE LION
 GUELPH

Our Weekly Arrivals of Goods make things Lively at THE LION!
 Trade better than Ever!

Over Thirty Thousand Dollars worth more Goods sold this Spring than last, and there will be more in the future, for we are determined to keep prices down in spite of increase in the tariff. Every one remarks the great business doing at THE LION. Of course it must be so,—our stock is larger than any six stocks in Guelph, and our prices so much lower, and the people find out these things, and go where they get the best value for their money.

We have received a specialty this week of over one thousand dollars worth of Double Ballou's Kid Gloves direct from French makers, that we will sell at one dollar a pair; elsewhere you pay from \$1.25 to \$1.50 for the same.
 Also, French Silks in all the newest shades in plain, striped, and shot, at \$1. worth \$1.50 a yard.
 Another lot of lovely Dress Goods in Plain Lustres, Zenobin Stripes, Australian Crapes, and Polka Spots.
 59 Boys' Suits just received to suit little chaps from 4 to 10 years old at \$3.50, \$3.75, \$4.00, \$4.50 and \$5.00 a suit.

Our Agent advises that next steamer will bring us 100 pieces Linen Tasso Dresses that he has bought very cheap. The goods are worth 25 cents; we will sell them at 12½ cents. The next Allan steamer will bring them.

MECHANIC TAILORS

January 1874, was 4,338, an increase of 203 offices in 1873 over the previous year. This does not include Prince Edward Island, which came into the Dominion on the 1st July, 1873, with 180 offices, a postal route covering 98 miles and a mileage of 226,000 miles. The revenue from the offices on the Island had been \$12,000, and the expenditure \$25,000. Ontario and Quebec numbered in January, 1874, 2,314 offices, and the other Provinces as follows:—New Brunswick 611, Nova Scotia 833, Manitoba 34, British Columbia 46. In 1873, the post routes contained 65,588 miles, while Her Majesty's mails travelled 13,266,598, an increase of 718,209 miles over the previous year.

CIRCULATION.—Letters and postal cards have circulated in 1873 to the number of 34,579,000, being an increase over 1872 of 3,979,000. Newspapers have increased from 24,400,000 in 1872 to 25,480,000 in 1873, a difference of 1,080,000. Registered letters numbered in 1873 1,377,000, and in 1872 1,280,000, an increase of 97,000. Free letters have decreased from 1,125,000 in 1872, to 1,091,000 in 1873. Parcels sent by post numbered 112,300 in 1873, against 95,200 in 1872, an increase of 17,100.

The receipts for correspondence between Canada and the States were 444,024. There were 1,998,240 letters, 1,786,960 newspapers, 51,998 books, and 24,418 parcels sent between Canada—exclusive of New Brunswick and Nova Scotia—and the United Kingdom.

DEAD LETTERS.—The number of dead letters was in 1873 426,886, the unpaid postage on which amounted to \$5,000, 3,089 of the letters were registered.

FINANCES.—The revenue was \$1,406,984 in 1873, an increase of \$213,922 over the previous year. The expenditure in 1873 was \$1,533,004, an increase of \$284,411 over 1872. The total loss on the service is reduced for the year to \$146,020.

The revenue for the year was divided among the several Provinces as follows: Ontario and Quebec, \$1,192,530; New Brunswick, \$82,135; Nova Scotia \$109,750; Manitoba \$5,030; British Columbia \$17,517. The expenditure is as follows:—Ontario and Quebec, \$1,164,827; New Brunswick, \$132,106; Nova Scotia, \$182,230; Manitoba, \$14,716; British Columbia, \$39,722. The value of stamps and postal cards was \$980,075 in 1873, exceeding the previous year by \$147,940.

Rockwood Items.

The town hall has been finely painted outside, and renovated inside, and it really looks well. Rockwood can now boast of as good a hall and school house as there is in any village in the county.

Professor Maitland, of Guelph, is teaching a singing class here at present, which is very well patronized. It was very much wanted, as there are a great many young people in the village and vicinity whose musical education has been sadly neglected.

Mr. J. Roome Kay gave one of his popular readings in the town hall on Thursday evening. It was not as well attended as it ought to have been; perhaps the season of the year had something to do with it.

The temperance cause is as lively as ever in our village. It has been one of the greatest blessings that Rockwood ever enjoyed. Long may it prosper in our midst.

The crops are looking very well so far. Fall wheat is much better than was expected at one time; in fact it looks better than it did last year, although spring was late. Seeding is not much later than usual. The fields are fine and dry to receive the seed, and the fine showers have had lately are starting vegetation very rapidly.

Power of Magistrates. The following judgment of the Judges, in reference to the powers of County Magistrates in towns in which Police Magistrates have been appointed, was given in the course of the delivery of a decision in reference to the objection to a recognition before the Election Court, and in of interest to the public.

Palmerston Items. Mr. J. D. Caswell has completed the addition to his store, which makes it commodious and better adapted to his increasing trade.

The Royal Exchange Hotel, lately occupied by J. C. Tilt, has been leased by Mr. E. J. Hicks, of the Hicks House, Mitchell, and will hereafter be known as the Hicks Hotel.

The Ladies' Aid Society will hold a necktie social in the Wesleyan Methodist Church on Monday evening, 25th inst.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London.

THE LAND TENURE IN SCOTLAND.—The British Government has published a return of proprietors of land in Scotland, which throws some remarkable light upon a subject regarding which even among well-informed men in political life there existed a vast amount of misapprehension.

The Good Templars who are on their way from the old country with Mr. Samuel Capper, will lead in Napanea. They are from the laboring classes, and application for their assistance can be made to Mr. W. S. Williams, of that town.

Breakfast.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctor's bills.

Guelph Markets. Flour, per 100 lbs. 2 08 to 2 09. Fall Wheat, per 100 lbs. 2 08 to 2 09.

Toronto Markets. Fall Wheat, per bushel, \$1 28 to \$1 32. Spring Wheat, do, 1 20 to 1 24. Oats, do, 55 to 60.

Hamilton Markets. Write wheat, per bushel, \$1 30 to \$1 32. Treadwell, do, 1 25 to 1 30. Peas, do, 55 to 60.

THE Druggists have just received a supply of Dr. Wheeler's Celebrated Chemical Food and Nutritive Tonic, the Compound Elixir of Phosphates and Gallia. This preparation has been in use in private practice for fifteen years, and is confidently recommended to the public as the most elegant and reliable tonic in use for building up constitutions that have for a long time been suffering from Chronic Wasting Diseases, depending upon poor blood.
