Montreal Stock Market.

ABSENCE OF PUBLIC INTEREST STILL APPARENT — SETTLEMENT DAY IN LONDON — HOLIDAY IN NEW YORK RENDERS MARKET INACTIVE — WAR EAGLE DIRECTORS MEET TO-DAY — 4½ P.C. LOOKED FOR IN LONDON.

Montreal, Feb. 21.

It has been lately remarked that if markets do not go up when they ought to, they in general have a tendency to decline. There is plenty of good news on which stocks might be advanced, yet with scarcely an exception their prices are lower. For one thing market doings at present are largely professional. They are so of necessity from the want of orders to be filled. The good news about South Africa has so decided a character that the public wants to get more before beginning to trade. Settlement day in London always causes listless marketing and leaves markets on this side without the London stimulus. Wall Street, besides this, had to-morrow's holiday to fight against, followed on Saturday by the New York bank statements. These in the absence of public buying were sufficient to keep professional trading within narrow limits. !

On account of the meeting of War Eagle directors to-day there was a little interest felt in the stock which was bidden up to 162, but there was no actual business done at this or at any price. Report was that the stock was very strong on Toronto Exchange.

On a single transaction of 200 shares, Canadian Pacific at 99½ receded ½ from previous close. The London report about all stocks is that the public for the present is not enquiring of them. Hence Pacific there was inactive and without advance, and also here was quiet, showing little strength.

The decline of ½ in Duluth at 5¾ and the decline of 1 in Rich. & Ont. at 112, illustrate the rule that where advance does not come in favorable circumstances, decline is apt to ensue.

Advance of Twin City, 5½, to 67, on a

sale of 75 shares, was no doubt on the return of earnings for the 2nd week February amounting to \$47,763.85, showing an increase of \$5,841.95. It closed firmly with 65 asked and 64 offered.

The heavy trading in Virtue opened 3½ higher than previous close, but the successive sales of stock, put through, declined each ½ and closed at 77. This was ½ lower than the closing of previous session. This stock is a purchase and will prove a money maker.

Three medium sized transactions in Electric advanced its closing price ¼ over the opening which also was the previous closing price. The difference on which buyers and sellers separated gave evidence perhaps of a little weakness.

On reports of Payne now with 100 men at work and large masses of ore ready blocked for the miners now at work, this stock might well have been expected to grow stronger every day. Its close at 122 to-day was ½ lower than the close of previous session.

Republic, too, was ½ lower, showing how the market was not weak, but was without public interest and good buying orders.

At 103½ Toronto Ry. was sold at the same price as previous transaction.

MORNING SALES.

Can. Pac.—200, 99½.
Dul. Com.—100, 5¾.
R. & O.—10, 112.
Twin City—75, 64.
Virtue—14,000, 78, 1500, 77½, 5000, 77.
Electric—40, 194, 75, 194½, 25, 194½.
Payne—3500, 122, 500, 124.

MARKETS CLOSE.

Thursday, 22nd February, being the anniversary of the birth of Washington, the markets at New York and Chicago will be closed that day.

Answers To Correspondence.

A we have special facilities for obtaining correct information on all matter pertaining to the value of stocks. We shall be pleased at all times to give our subscribers the benefit of same.

All correspondence must be accompanied with the name and address of the writer, as only enquiries from bona fide subscribers will be answered.

Exchange, Quebec—Would sell the first. Buy Deer Trail Cons. or Virtue.

R. & G., Joliette—Think you will see the stock around \$1.25, then it would, we think, be a pretty safe buy.

A T F., Ottawa—Cheap stocks, California, Deer Trail Cons. and Golden Star. In the others Virtue and Payne.

MONTREAL MINING EXCHANGE.

VIRTUE REMAINS STRONG ALTHOUGH NOT QUITE SO ACTIVE — SLOCAN STOCKS IN GOOD DEMAND AT STEADY PRICES — DEER TRAIL DECLARES DIVIDEND.

Montreal, Feb. 21.
The temper of the room this morning was greatly relieved by the news from the seat of war. The long expected boom which has been awaited with such hopeful anticipations failed to be realized, a damper been cast by the long list of dead and wounded amongst our Canadian soldiers.

Trading was fairly generous, prices remaining steady to strong.

The Deer Trail Cons. Company have declared the March dividend of $\frac{1}{4}$ per cent per share payable on March 10th to shareholders on record of March 1st. The stock sold to-day at $9\frac{1}{2}$ cents. Expect it to do better.

Big Three, although not active, was steady at 7c, and sold at that figure.

Decca, likewise, was firm at 7c, 1000 shares changing hands.

Virtue was quieter, although still being in fairly good demand, 5000 shares changing hands between 77 and $75\frac{1}{2}$. It closed at the lowest on a sale of 1000 shares at $75\frac{1}{2}$, the stock being offered at 76. It would be only natural should the stock react several points after its late rapid advance. On declines it is a purchase, as it will soon work to a much higher level.

Rathmullen sold at 5c and was offered at 5c on the last call, the feeling in this stock being not quite so strong.

Payne was quite active, opening at 120, and selling up to 122, 3000 shares being sold.

Slocan Sovereign remains steady, selling at $32\frac{1}{2}$, the demand being fairly good.

There is no change in Montreal London, sales were made at 27, with more stock offering at the same price.

Golden Star remains steady, 19 being offered, and 20 asked.

Republic and War Eagle are neglected.

The result of the War Eagle meeting which is to take place is awaited with considerable interest.

MORNING SALES.

Montreal London—1700, 27.
Slocan Sov.—1500, $32\frac{1}{2}$.
Virtue—500, 77. 2500. $76\frac{1}{2}$. 100, 77.
700, 76. 1000, $75\frac{1}{2}$.
Decca—1000, 7.
Payne—1000, 120. 500, $121\frac{1}{2}$. 1500,
122.
Deer Trail Cons.—500, $9\frac{1}{2}$.

AFTERNOON SALES.

Payne—1000, $121\frac{1}{2}$.
Morrison—500, $3\frac{1}{2}$.
Virtue—500, $75\frac{1}{2}$. 500, 75. 1500, 74.

VIRTUE.

The wonderful showing in the Cumberland mine as reported by Mr. Obalski, who has just completed his inspection, must be very gratifying to the stockholders. Some months ago the statement was made that this mine alone could earn monthly dividends of 3 per cent on the total capitalization, and as to pay this dividend \$60,000 per month would be required, the statement was ridiculed by some.

Mr. Obalski's statement that at present ore is blocked out in the mine valued at \$2,500,000 would bring 8 per cent monthly dividends within the realm of possibility, although it is hardly likely that with the present conservative directorate, in charge, a larger dividend than one per cent monthly will be declared until a substantial cash surplus is put by.

The stock at present prices is a bargain, and should be bought; those buying around present figures will undoubtedly make handsome profits.

NEW YORK EXCHANGE.

PEOPLE'S GAS RUN DOWN ON REPORT OF TROUBLE WITH CITY COUNCIL — SUGAR'S DIV. MEETING ON 7TH MARCH — BELIEF COMMON IN 1½ QUARTERLY — THIRD AV. AROUSES INTEREST.

New York, Feb. 21.

There is no fresh news from Africa. All rumors seemed to be favorable. So far War Office has failed to disclose position of Gen. Cronje or to confirm rumors that he had been surrounded. On the east side of the Free State Buller has occupied Colenso and there is a vague rumor in London that Ladysmith has been relieved.

Consols are strong. Americans show gains ranging from $\frac{1}{4}$ to $\frac{3}{4}$.

It is announced that the financial difficulties of Third Avenue have been arranged for. The majority stockholders propose to lease the road in perpetuity, guaranteeing four p.c. on the stock for first four years and after that time 5 p.c. It is somewhat curious that the names of the bankers who are expected to find the \$28,000,000 are not disclosed, and there are other assertions made by Mr. Curtis who is the treasurer of the company, which have subsequently been flatly denied by parties concerned.

The feature of yesterday's market was the strength of the coal stocks. The annual statement of D. L. & N. no doubt induced some buying.

Cen. of New Jersey makes a good report for January, showing an increase in net of \$146,190. In fact, people conversant with the conditions which prevail, not only in the anthracite coal trade, but also in the bituminous coal trade say that business was never better, and rates were never so well maintained.

New York (noon), Feb. 21.

Although cables from London show that prices for Americans were from $\frac{1}{4}$ to $\frac{3}{4}$ higher than our close, our opening was rather heavy with evidences of renewed liquidation.

London bought during the first hour some 20,000 shares of different stocks and this to some extent offset the rather vigorous endeavors that were made by some of the room traders to bring about a lower range of prices. The stock which suffered greatest was People's Gas, traders making a drive at it and uncovering a good many stop orders.

There was no reliable news in regard to the property, but there was a rumor that some trouble was pending between the company and the city council of Chicago.

Sugar was dull and rather heavy. It is said that the market for the refined article is in a state of demoralization, the Philadelphia refineries cutting five points, and the Arbuckles making considerable reduction. The directors will meet for the dividend about 7th March, and general opinion on floor is that quarterly dividends will not be over 1½.

A fairly successful drive was made at leather, there stop orders were uncovered, but around 15½ there was support.

Third Avenue is very active and fairly steady. Keene brokers apparently had very large buying orders around 73. The short interest in this stock is considerable; in some cases a premium of 1-16 being paid for the use of it till Friday.

After 11 a.m. persistent rumors were in circulation that Buller had relieved Ladysmith. It lacks official confirmation, but it resulted in a further rise in London market and in some covering shorts here.

At moment the market is dull, but with a good undertone.

MINING NEWS.

GRAND FORKS INTELLIGENCE.

Grand Forks, Feb. 10.—Ross Thompson has returned from a visit to the Oro De Nero in Summit Camp. He made the announcement that a five-drill compressor will be installed shortly. One shot yesterday dislodged not less than 25 tons of \$35 ore. Shipments will begin as soon as the C. P. R. furnishes the cars required.

J. B. Henderson, vice-president of the Ruthmullen company visited the group this week. He states that drifting on the 68 and 200-foot levels is in progress. Ore of shipping grade is being extracted from both workings.

The customs returns at this port form a good index of the volume of business done in the Boundary country, and emphasize the fact that this city is becoming pre-eminently a distributing center. The dutiable imports entered here last month amounted to \$74,285, the duty thereon being \$17,869.

Thomas Parkinson, president of the Pathfinder mine on the North Fork of the Kettle river has purchased a seven-drill compressor until lately in use in driving the Bull-dog tunnel on the line of the Columbia & Western railroad. The plant will be installed at once. The Pathfinder has about 700 tons of ore on the dump, and with the compressor plant in operation will be enabled to make continuous shipments.

The Grand Forks Board of Trade is co-operating with the local Bar association in its efforts to have sittings of the Supreme Court held here. At yesterday's meeting a resolution was adopted urging the provincial government to grant the application made several months ago. The government was also asked to establish a registry of that court here.

The restriction on mining operations in Rossland has resulted in a great influx of miners to the Boundary country. Already many of them have been successful in obtaining employment. The outlook for mining labor throughout the district is very encouraging, as the B. C. and other large properties contemplate augmenting their forces very extensively in the near future.

The B. C. will shortly begin the construction of a bridge across the north Fork of Kettle river in connection with the spur to the smelter. As soon as the work is completed, including the laying of rails, the Knob Hill and Old Ironsides will begin the shipping of ore to the reduction works. A. B. W. Hodges, the superintendent, states that the roasting of ores in heaps will begin within four weeks, in anticipation of the early completion of the smelter. Cordwood is utilized for this purpose. The power house plant has been installed.

Traffic has greatly improved since the recent snowfall. Floating ice in the river

has greatly impeded the operations of the lumbermen.

R. A. (Volcanic) Brown has returned from the Sunset in the Similkameen district. He reports that an experimental shipment, recently made to the Tacoma smelter will average \$50 to the ton in all values.

A syndicate of local capitalists is applying for incorporation for the purpose of converting Observation mountain, the 2,000 foot peak, overlooking the city, into a summer resort in view of the prospectively large influx of visitors this year. It is proposed to erect suitable buildings, including dancing pavilions on the summit. In the evenings music will be furnished by a brass band and an orchestra. Meals will be served at city prices.

It is proposed to inaugurate the resort by holding a summer carnival.

From the plateau at the top of the peak a view of diversified scenery, embracing the valley with its fertile fruit farms, the winding Kettle river and the snow capped mountains of Washington—a view of picturesque grandeur unsurpassed on the continent—can be obtained. At night the grounds will be lighted by electricity. A carriage road and bicycle road will be constructed from the city. The ascent by climbing the northern slope of the mountain will be easy. As a result of the preliminary survey the announcement is made that the route presents no engineering difficulties.

The capital stock of the company is placed at \$50,000, and the incorporators include Mayor Lloyd A. Manly, J. W. MacLaughlin, manager of the Eastern Townships bank, and T. W. Holland, secretary of the townsite company.

CAMP MCKINLEY LIVELY.

The Cariboo and Other Companies Are Making Good Progress.

Mr. E. G. Warren, from Camp McKinley, reports that that camp is in a fairly lively condition. He said that the Cariboo company recently secured the control of the Okanagan, an adjoining property. In this they have blocked out large reserves of ore. There is also a large quantity of ore in the Cariboo and Amelia, the two original proprietors of the company. There is so much ore in sight that it has been decided to double the milling capacity. This means that they will add 20 stamps to their present mill, and then they will have a 40-stamp mill. The outlook for this company is very encouraging. The Waterloo company intends shortly to sink a vein from the 100-foot level on the best part of the ore shoot. The mill is running steadily on ore taken from the stopes on the 100-foot level. The flume through which the water for the mill runs, has been frozen up several times during the winter, and this has caused the mill to shut down at intervals.

On the Kamloops the shaft has been sunk to a depth of 125 feet. A crosscut was run from the 100-foot station, and the ledge has been crosscut at a point 45 feet from the shaft. The ledge is about four feet wide and carries ore of pay value. The intention is to drift east and west on this ledge towards the Minnehaha and in the direction of the Sailor. The property is looking very well and gives every promise of becoming a mine.

The 10-stamp mill of the Minnehaha is running steadily. In this property there recently was crosscut five feet of ore on the 100-foot level, which averaged \$15 to the ton. The first clean-up of the Minnehaha will take place inside of a month.

The Sailor shaft is down about 200 feet, and it is the intention to install a seven-drill compressor shortly.

A 10-stamp mill is being put up by the Lemon Mining company, whose property lies two miles east of Camp McKinley. The

property of this company has been opened down to the 200-foot level.

There are about 175 men working in the camp, and the population is about 450. There is considerable building in progress. There promises to be quite a boom there in the spring.

STRIKE IN BURNT BASIN.

A strike is reported in the Burnt Basin on a group of properties owned by Messrs. Bollgrove, Montgomery, Bellar and others. These properties have been operated all winter. On the North Basin, claim a shaft was sunk on the croppings of a large lead to a depth of 40 feet. At this depth a crosscut was made from wall to wall. Next to the footwall there is a body of almost solid galena, four feet wide, the clean ore assaying 87 ounces in silver and 61 per cent lead. Then there is 20 feet of mixed ore, composed of iron, galena, copper, and gold. Between this and the hanging wall there is a two-foot streak of gold-bearing quartz. Average samples taken across the last mentioned 22 feet were taken. There was 140 pounds in the lot, and it was sent to Trail for a smelter test, and the returns gave \$21.50 in all values.

There is an big dump about 80 tons of a good grade of ore, and the owners are now preparing the trail with the view of rawhiding out a carload, to be sent to the Trail smelter as a thorough test. If this is done they will be the first party to have shipped ore from the Burnt Basin, although there have been others long before now in a position to do likewise if they had felt that way inclined. There is a standing offer of two lots in the townsite of Gladstone to be given to the mine owner who ships the first car of ore, so in all likelihood they will be the lucky individuals.

CHICAGO MARKET.

WHEAT AND CORN CLOSED AT THE LOWEST AND WEAK — PROVISIONS LOST 15 CENTS TO-DAY AND CLOSED AT THE LOWEST.

Chicago, Feb. 21.

Liverpool—Wheat, spot, dull; futures quiet. March 5-9½, May 59½, July 5-9½, and closed March 5-9½, May 5-9½, July 5-9½.

Paris wheat opened 5 lower. Flour 5 higher. Closed wheat 25 lower, flour 15 to 30 lower.

New York opened ½ higher, but lost ½ cent first half hour.

Chicago wheat opened 1-16 lower from last night's closing, went up ½ higher, only to break down to 67½ and weak at that price.

Don't see any good in wheat as long as demand so small.

Broomhall cables that spot wheat in Liverpool is relatively scarce, with the exception of what millers hold. There is no California or Walla-Walla on spot.

Corn opened strong on higher cables at an advance of ½ from last night's closing, and held the advance. I could not see a bushel sold against the country account. The selling by people who bought last night and taving profits. Any kind of buying will put it to 36.

Our Peoria and Terre Haute houses wire that it has been raining all night and that country roads are impassable. This will cut off movement of corn entirely.

Comstock selling corn, but seems to be enough buying orders in market to hold it steady. Now looks to me as if some corn being worked.

Oats opened ½ higher, and steady now at last night's closing prices.

Provision market opened lower, selling entirely by shorts. Brokers buying. Hately best seller of provisions.

Ribs very strong; offerings light. Now weak market. Packers selling.

Primary receipts:

Last week receipts 544,802, shipments, 213,821. Last year holiday.

Hogs to-day 42,000; to-morrow 35,000.

Car lots wheat estimates 80, receipts 35, contract 0, shipments 26,850.

Car lots corn estimates 750, receipts 490, contract 2, shipments 401,867.

Car lots oats estimates 325, receipts 163, contract 35, shipments none.

CHICAGO MARKET—February 21, 1900.
