Homœopathic Record

DEVOTED TO THE INTERESTS OF HOMŒOPATHY AND OF THE MONTREAL
HOMŒOPATHIC HOSPITAL.

VOL. VII. No. 10.

MONTREAL, OCTOBER, 1902.

25 cts. A YEAR.

Montreal Homœopathic Record

— PUBLISHED MONTHLY —

By the Montreal Homœopathic Hospital.

Communications relating to business and subscriptions to be sent to the Business Manager, care Sterling Publishing Co., 42 Lorne Avenue.

Manuscripts, news items, etc., should be addressed to A. D. PATTON, M.D., Editor Record, 5th Crescent Street.

NURSES' QUARTERS.

At a recent meeting of the committee of management the question of better accommodation for the nursing staff was brought up. In the discussion which followed, attention was drawn to the fact that a friend of the hospital was willing to purchase and present to us the property at present occupied as the Nurses' Home and Maternity Annex. This house, No. 46, and the two above it on McGill College Avenue, being similar in construction, style, etc., belong to parties who do not wish to sell them singly, or separately; consequently we are deprived of the benefit of the generosity of our friend in regard to No. 46, the house adjoining the hospital.

The proposition made at the meeting was, that if a purchaser could be found for the other two houses, then No. 46 would be secured, and the rental now paid on it could be diverted to the adjoining house, which would thus be

available entirely for nurses' quarters, thereby giving us the required accommodation.

Since the opening of the Maternity Annex, and during the past eighteen months, the work of the hospital has greatly increased, necessitating more nursing help. At present, ten nurses sleep in one room, and the night nurses have to seek rest in the daytime in the isolation ward, which fortunately is not required for the purposes for which it was built. This overcrowding does not permit of proper ventilation of the dormitory, and is not conducive to the health of our nurses. Then, after nurses have been on duty all day in an hospital full of sick people, they should be entitled to room for rest, recreation and study, other than their sleeping apartment affords.

The condition of the domestic help, in connection with the hospital, also calls for consideration. This, too, has been increased, especially since we have been doing our own laundry work, and at present has to be content with sleeping and living quarters in the basement of the old building, which, being of no modern date, is hardly up to the requirements of present day sanitation. We have found this condition one of the greatest drawbacks to our getting and retaining efficient or satisfactory domestic help.

We wish to point out to our friends the desirability of helping us to remedy this condition as soon as possible. This

is not so much of a begging proposition as we usually have to lay before you. We want some of our friends to arrange for the purchase of the houses Nos. 48 and 50 and give us a chance to rent the former. As a matter of business this proposition is a good one. No. 50 has been continuously rented, and will always be in demand. At the present rate of rental of these houses, the return on the investment is about ten per cent.; so that the purchaser would run no risk, while enabling us to solve an important problem in regard to the successful working of our hospital.

The acquisition of this extra house would give us ample room for the comfortable housing of our nursing staff and domestic help, at the same time giving us increased facilities for the care of patients in the rooms now used by the nurses. Think this matter over and see if you cannot find some way to help us to open a new Nurses' Home in the near future.

GOVERNORS' MEETING

The quarterly meeting of the Governors was held in the Hospital Board Room on Thursday, Sept. 25th. Among those present were Misses Moodie and Ames, Dr. L. Muller, Messrs. Grafton, Aird, Durnford, Baylis, O'Connor, Dawson, Drs. E. M. Morgan and A. D. Patton.

In the absence of the President the chair was taken by Mr. E. G. O'Connor, Vice-President. Mr. T. J. Dawson acted as Secretary. The minutes of the last meeting were read and confirmed. Reports were read from the Medical Superintendent, the Treasurer, and the Committee of Management, all of which were adopted.

The report of the Medical Superintendent showed a great increase in number of patients cared for, as compared with a like period of last year, the increase being marked in the number of private patients.

The number of outside medical men attending the hospital was greater than ever before. The total death rate was 2.08% for the past half year. Comment was made on the falling off in the outdoor department, and suggestions offered in remedy thereof. Additional clinics had been opened and means taken to thoroughly advertise the advantages of the dispensary to the deserving poor.

The Treasurer's report showed a very flourishing financial condition. During the past half year the hospital has paid its way, in addition to reducing the floating debt by the sum of \$240.00. This was done in the face of increased expenditure. The liabilities at present amount to \$1845.00, and the balance in bank to hospital's credit is \$2600.00. The report estimated that after all the liabilities of the Hospital up to October 1st were met, there would be a balance to its credit of between \$200.00 and \$300.00. This is the first time in the history of the institution that such a financial condition has existed and it places our hospital in a unique position among like establishments in the country.

The report of the committee of management showed that the main endeavor had been to keep the expenses within the income. Much had been done in the way of repairs and improvement of equipment. The committee being now freed from the worry incident to a large floating debt, expressed a hope that, with the assistance of the hospital's friends, they would now be able to carry out the much-needed improvements they had long had in contemplation, though they also expressed the determination to keep out of further debt, and hand over the hospital to their successors unhampered by obligations of any kind. The report presented to the governors a resolution that some means should be devised to minimize the abuse of the charity patients' privilege. The fee of fifty cents per day should be insisted on, and

be the rule, rather than the exception, due regard being had to cases of the deserving indigent sick. Attention was also called to the necessity of providing suitable accommodation for the nursing and domestic staff, the present quarters being totally inadequate for the increased numbers.

The question of collections was discussed, and the apparent apathy of the friends of the hospital deplored. It was shown that no organized effort had been made to obtain the support of the friends of the hospital, or the public generally, and means of remedying this condition were suggested, among others the feasibility of getting \$1.00 subscriptions, which would necessitate the co-operation of a lot of collectors. No definite action was taken in the matter, the chairman stating that now the committee of management being free from the debt question, would give their attention to this means of raising revenue and determine some method of procedure to enable the hospital to more fully engage in absolutely charitable work.

HOSPITAL WANTS.

Money, MONEY, MONEY.

Boxes of soap.
Boxes of starch.
Boxes of washing soda.
Barrel of sugar.
Barrel of flour.
Fruit for preserving.
Fruit for eating.
Barrel of chip soap.
Old linen.

Coal.

Several sufferers from writer's cramp are reported to have obtained great relief by becoming enthusiastic golfers. This game requires the use of the upper extremities just to the degree adapted to people who have lived a sedentary life. The movements are necessarily co-ordinate, and they are combined with proper exercise of the lower extremities, and a large amount of time is passed in the open air.

HINTS.

Eyes inflamed, burning, dry, is an indication for Aconite.

Eyes puffed, stinging pains, is a call for Apis.

Acrid, excoriating discharges from the eyes are often relieved by Euphrasie.

Feeling as of a splinter in the eye, especially in scrofulous patients, calls for Sulphur.

Antimonium crudum is the remedy for babies that throw up curdled milk.

Rheumatism in muscles of neck and back is relieved with a few doses of Cimicifuga.

Rheumatic pains that are worse from warmth find a remedy in Pulsatilla.

Carduus mar. is a remedy for enlarged and clogged veins, and for varicose veins.

Child awakes in the morning with violent coughing ending in vomiting of clear, ropy mucus; Coccus cacti is the remedy for these symptoms.

Natrum carb. is the remedy when one has indigestion and sour eructations after eating.

Nux vomica will relieve many cases of hiccough.

Sore throat, fever, aching head and limbs are indication for Phytolacca.

Erysipelas, with vesicles, Rhus tox.

Lumbago and stiffness in small of the back, the best remedy is Rhus tox.

In bad sprains in addition to external treatment, give Rhus tox. internally; similarly in blows and concussions give Arnica.

Vertigo, worse on motion, Belladonna.

Blinding headache, worse from noise or jar, Belladonna.

Chronic headache in the back of the head has been cured by Nitric acid.

Carbo animalis has the peculiar symptom of eating, tires patient.

Headache from any over-indulgence, Carbo veg.

Urine almost black is an indication for Carboic Acid.

One of the mental symptoms of Bismuthum is solitude, is unbearable.

HOMŒOPATHIC ENVOY.

COMMITTEE OF MANAGEMENT

The regular monthly meeting of the Committee of management was held on Sept. 22nd, and was well attended.

Estimates for painting the interior of hospital were received from three city firms. Owing to the great differences in the prices asked, it was evident that the requirements of the committee were not clearly understood. It was decided that a sub-committee be appointed to go over the hospital with a practical painter and ascertain just how much work was necessary, and to put such information into the form of a specification and ask for tenders on this basis. Only such work as is needed for preservation and improvement will be undertaken for the present.

A cheque of \$1,000 was handed in by the President, being payment of the legacy from the estate of the late Mrs. Wm. Arnott, forwarded by the executor, Mr. S. W. Wells. Much satisfaction was expressed over the financial condition of the hospital, which the receipt of the money rounded out.

The placing of the \$100 grant from the Provincial Government in this year's estimates was reported, and being now due would likely soon be available.

Owing to the prosperous condition of the hospital's finances, it was decided to appoint a sub-committee to arrange for the total wiping out of the hospital's current liabilities.

A window was ordered to be put in the private ward, now lighted solely from the light-shaft, thereby making the room more cheery, as well as increasing its earning power. The chairman was requested to attend to the matter.

Some discussion took place as to the advisability of seeking to interest some of the friends of the hospital in the purchase of the houses adjoining. The proprietor is unwilling to sell the houses singly, and as there is only prospect for friends being able to purchase one of them, it was thought that if the other two could be purchased, the hospital could transfer the rent now being paid for No. 46 to No. 48, and thereby gain the much-needed accommodation for the nursing and domestic staff. The Presi-

dent kindly volunteered to inquire into the matter and report at the next meeting.

In the report of the Lady Superintendent, which was furnished by Head Nurse Trench, in Miss Lorenz's absence, attention was drawn to the fact that several applications from private patients had to be refused this month for lack of accommodation. A new housekeeper has been engaged, also a new cook and maid, all of whom are reported as giving satisfaction. No sickness was reported among the nurses. The amount of money on hand at this date was shown to be \$2507.87.

After discussion of this report, it was decided to call a special meeting of the committee, if the sub-committees could get their reports ready before next regular meeting, as it was thought best to have the improvement work done as soon as possible ere the busy winter season set in. There being no further business, the meeting adjourned. Next regular meeting will be held on Monday, Oct. 27th.

 MEDICAL EDUCATIONAL STATISTICS.

These give a total of 5,451 graduates and 26,431 students registered for the school years 1900-1, and it is thus shown that one of every 2,888 inhabitants was a medical student. There are in the United States 155 Colleges that confer the degree of M. D. 122 of the regular schools, 20 homeopathic and 13 nondescript. In our table of medical colleges 159 were shown, but two of these do not grant degrees. This gives the almost startling ratio of one medical school to approximately every 500,000 population in this country. Comparing this to the figures shown in some of the other countries: Great Britain has one to every 2,350,000; Germany, one to 2,500,000, and Austria one to 5,000,000.

PHILLIPS TRAINING SCHOOL NOTES

Nurse Spence is the first of the 1902 graduates to complete her course. She leaves the hospital this month to take up private nursing.

Miss Egan, '96," has returned to town after a long vacation and nursing engagement at Ste. Agathe, and again resumed work.

Miss Keating, '01," has been kept busy professionally since her return from New York.

Miss Willoughby, '98," is in Kingston, taking care of her sister.

Miss McLagan '99," has been appointed Lady Superintendent of the Berlin (Ont.) general hospital, to succeed Miss Maybee, who was matrimonially inclined. Miss McLagan's work as assist. supt. gave such satisfaction to the management that in less than a month she was chosen to take full charge of the institution. The appointment was made early in September.

The lectures to the nurses for the session 1902-1903 will open Oct. 14th. Lectures will be given Tuesdays and Fridays at 8.45 p.m. The opening lecture on Anatomy will be by Dr. H. M. Patton.

The lecture course comprises Anatomy and Surgery, Dr. H. M. Patton; Obstetrics and Gynecology, Dr. A. R. Griffith; Materia Medica and Practice of Medicine, Dr. A. D. Patton; Eye, Ear, Nose and Throat, etc., Hygiene and Toxicology, Dr. E. M. Morgan; Diseases of Children, Dr. L. Muller; Physiology, Chemistry and Pharmacology, Dr. O. W. Bradley; Minor Surgery and Urinalysis, Dr. Connell; Theory and Practice of Nursing, Lady Superintendent.

Examinations will be held at end of session as follows:—1st year nurses, primary examination in the subjects, Anatomy, Physiology, Hygiene, Toxicology, Pharmacology, Chemistry, Urinalysis and Minor Surgery; 2nd year

nurses, final examination in above-named subjects, and primary examination in Surgery, Obstetrics, Gynecology, Eye, Nose, Ears, Throat, etc., Practice of Medicine, Materia Medica, and Diseases of Children; 3rd year nurses, or graduating class, final examination in above-named subjects, together with final examination in subjects of former years which candidate failed to pass in.

Examination papers in each subject will consist of 5 questions, to be marked at a value of 20 marks for each question, and a total average of 75% will be required from each candidate in order to pass.

ANNUAL BAZAAR.

At a meeting of the Woman's Auxiliary held at Mrs. Hagar's house October 9th, it was decided to hold the annual bazaar in Windsor Hall on Saturday, the twenty-second of November, if the hall was available. The following ladies who were present kindly consented to take tables:

Jam table—Mrs. Griffith and Miss Robertson.

Cake table—Mrs. Scarff and Mrs. J. A. Mathewson.

Candy table—Mrs. W. D. Birchall.

Doll table—Mrs. A. D. Patton, Mrs. W. T. Rodden, Mrs. Jas. Baylis.

Apron table - Mrs. Geo. Sumner and Mrs. E. G. O'Connor.

Fancy-work table—Misses Ames and Baylis, Mrs. Morgan.

Fancy-work table (junior) Mrs. Watson, Miss M. Hagar.

Lemonade—Miss W. Hagar.

Toys—Miss Nichol, Miss Bancroft.

Refreshments—Miss Rodden, Miss Chillias.

Pop-Corn—Mrs. Sandham and daughters.

Other tables and attractions will be arranged for later, and it is hoped those who were not present at the meeting will do all in their power to make the Bazaar a success.

Donations in money for expenses of the Hall, etc., may be sent to Mrs. Hagar, 376 Mountain St., and articles or material for any of the tables will be gratefully received by the ladies in charge.

It is hoped that the sale of tickets may be large before the day of the Bazaar. They may be procured at the hospital by anyone not receiving them from the committee.

HOSPITAL NOTES.

Dr. CONNELL, our house physician, has gone home on a holiday; his place in the hospital being taken by Dr. Amos of Kingston.

MISS LAWRENCE, a former pupil of our Training School, has returned from New York and taken up work in district nursing, and as assistant to Dr. Griffith.

THE PAINTING QUESTION is still in process of evolution, and definite arrangements will be completed shortly.

THE NEW WINDOW in the "Boy's Home" private room is a decided improvement, and brings that room up to the standard of the other wards.

THANKSGIVING DAY comes rather early this year; but remembrances will not come amiss, if slightly belated.

THE COAL SITUATION concerns us also, warmth being of vital importance to the sick. Can you help us out in this direction.

SOME YEARS AGO an enthusiastic patient proposed the installation of electric bells for the private wards. However gratitude waned as health returned, and our bells have not materialized. This, therefore, gives opportunity to some kind friend to fill a calling want in our equipment.

SEVERAL APPLICATIONS made last month for private rooms had to be refused for lack of accommodation; even the Lady Superintendent's room was pressed into service for a short time, during her vacation.

AS THE HOSPITAL YEAR ends with this month, the management are unwilling to incur any burden of debt for successors to wrestle with, and appeal to our friends for generous response to the painting fund. We would like to see our hospital enter the new year keeping up its reputation as the best and neatest small hospital in Canada.

THE LADY SUPERINTENDENT has returned from a pleasantly spent vacation at Ste. Marguerite, much benefited by her holiday. All of the nurses have now had their holidays, and are again back at work, with the exception of Nurse Warner, who is still detained at home through sickness in her family.

YOUR ATTENTION is drawn to the article in this issue about the nurses' quarters. With your help we can remedy the present crowded condition, which owing to the hospital's increased work is now worse than it was two years ago, when we moved out of the main building. Next time you visit the hospital, take a look at the nurses' dormitory, and see if you can devise some means of devotions being performed otherwise than after retiring.

AT THE LAST monthly meeting of the Medical Board a new dispensary schedule was drawn up. Clinics will be held as follows:—Monday, Dr. E. M. Morgan; Tuesday, Dr. A. R. Griffith; Wednesday, Dr. H. M. Patton; Thursday, Dr. O. W. Bradley; Friday, Dr. A. D. Patton; Saturday, Dr. L. Muller. The hour is from 12 to 1. Special clinics for women will be held on Tuesdays and Saturdays. A small sum for the medicines is expected from those able to pay, but no deserving poor person will be refused medical advice and treatment.

OUR READERS will be pleased to learn of the debt-lifting from the hospital, which process will most likely be completed ere the end of this month and the close of the hospital year. It seems natural for most of us to be sympathetic with, if not enthusiastic over, institutions which bear the hall mark of success. As our hospital may fairly claim good measure in this respect, it would appear fitting that we may now look for an even more generous response to our appeals for funds, and a greater personal interest in our workings and welfare. We need your active interest just as much as we do your money.

DONATIONS IN SEPTEMBER.

The Lady Superintendent acknowledges with thanks the following:

Mr. J. T. Hagar—2 stools for operating

Mrs. Geo. Sumner—1 dining table for nurses dining room.

Mrs. J. T. Hagar—1 boiler.

Mr. Dunham—2 back rests, 1 commode, 1 wheel chair.

Mrs. M. Moody—basket of fruit for nurses.

Miss Robertson—basket of crab apples for preserving.

Mrs. Goodwin basket of peaches for nurses.

Miss Lewis Nut cake for nurses.

Simpson & Peel old account, receipted, \$35.05

Woman's Auxiliary—6 glass towels, 12 kitchen towels, 6 large dish towels, 8 roller towels, 16 yds. white cotton, 4 mats, 1 cocoanut mat, 7 yds. red cotton, 30 cups and saucers, 3 doz. plates, 12 agate bowls, 3 pie dishes, 9 pie plates, 4 salt shakers, 1 fish kettle, 2 prs. lace curtains, 1 doz. strainers, 4 toasters, 1 tray, 1 toilet set, 10 yds. muslin.

\$2047 25

In a Russian Medical journal, Dr. G. Tatevosoff draws attention to the excellent service which may be obtained from the ordinary snuff tobacco, as a means for cutting short hicough. He relates an instructive case of a patient with some chronic chest disease, accompanied by violent cough attacks, in whom the latter used to be followed by extremely obstinate hicough. The common remedies (including cocaine) failing to exercise any controlling influence on the most distressing symptom, Dr. Tatevosoff at last decided to give a trial to the said old-fashioned popular means, making the patient on each occasion thoroughly snuff into his nose a pinchful of the powder until the appearance of lively sneezing. From the first sneeze the effect was truly brilliant, the hicough subsiding as if by magic. Under the influence of the simple remedy the attacks steadily became milder, and ultimately vanished, though the patient's cough remained as intractable as ever.

—Ohio State Journal.

Doctors in France are heavily taxed. They have to pay what is called a patente, just as if they were engaged in business, and this is equivalent to about one-sixteenth of the rent they pay. Moreover, if they have a house outside their office, they are also obliged to pay for the latter. In case they practice a few months in a watering-place, they are obliged to pay where they practice and also where they live the rest of the year.
