Budget, 2211. Solving our railway problem by giving railways more freight to haul; nothing in budget to improve conditions; setting aside sufficient money in prosperous years to tide us over periods of depression, 2211; getting back to 1928 conditions; issue of dominion notes in December last as compared with 1900 and 1920; increasing our dominion notes and bringing down a program of public works, a housing scheme and completing the Beauharnois power project as a public enterprise; budget shows biggest deficit of any year since confederation except during war years; surpluses from 1921 to 1930; depression due to collapse of commodity price level; effect of gold standard on lowering prices; abandonment by England of gold standard, 2212; exchange value of pound sterling in Canada, Australia and Argentine; injurious effect of keeping up the dollar in New York; comparison of policies followed by Canada and England, 2213; high interest rates the result of hoarding of savings; proposal of Mr. Bennett in 1927 to create a consolidated four per cent security for maturing bond issues; floating the national service loan at too high a rate of interest; Alberta bond issue at almost seven per cent, 2214; interest must be paid out of production; fall of commodity prices has doubled the burden of interest; federal government assuming role of banker for provinces; collapse
