State Competition Would Reduce Express Tolls From a Third to a Half-W. F. Maclean Secures Statement from Lemieux That Matter Will Be Investi-

WESTERN MEMBERS TELL OF EXORBITANT RATES

OTTAWA, July 21.-Parcel post as a means of relieving the country from excessive express charges occupied the attention of the house of commons for the entire afternoon to-day. The discussion was initiated by W. F. Maclean (South York), on the motion to go into committee on reciprocity. Mr. go into committee on reciprocity. Mr. Maclean based his argument on the triumph of public ownership in overcoming monopolies, and urged that state competition in the matter of public services would result in tolls being reduced one-third, and probably one-half, instanging in support of his contention that people in European countries had received great benefit from the introduction of state competition. America, which was looked upon as progressive in the matter of political economy, was really corporation—

as progressive in the matter of political economy, was really corporation-ridden, and people were denied the results of advanced legislation, which had obtained in Europe for fifty years. Investigation to Be Made.

For the second time this week Mr. Maclean was able to secure from the postmaster-general a statement that improvements in this direction were contemplated. First, in regard to a reduction of cable tolls between Canada and Great Britain, and second, that he had studied the question of the parcel post, and had already given instructions to Geo. Ross, chief superintendent at Toronto, to carry on an investigation and make a report. He understood that Mr. Ross' view was favorable to enlarging the prewas favorable to enlarging the pre-

Other members expressed strong views on the subject. Responding to the appeal of the member for South York, two western Conservative members, Dr. Schaffner (Souris), and Glen Campbell (Dauphin)

Public Ownership.

Mr. Maclean, at the outset, based his remarks on the previous exposition of the triumph of public ownership in Ontario, and said that another practical point where state ownership would render a great benefit to the people was in connection with the parcel post. The people of the country were paying exorbitant express charges. True, the railway commission has undertaken to reduce them, but the process has been slow, and the people were dissatisfied with the rates obtaining in the country. The express companies were making enormous profits out of their charges. In the United States the irreat of the Interstate Commerce commission to reduce express charges had resident and Traffic Manager Coleman be allowed to divide the time granted to him between them. This request was acceded to. dission to reduce express charges had was acceded to.

mpanies themselves.

"It was not the threat of the efficacy unable to drum up enough of their cothe railway commission which re-need the rates in the United States. It the well known fact that there is on one side of the house, which they but the well known fact that their but the with their employes, who well known fact that country a widespread agitation in that country to-day for the adoption of the parcel kept in their places by the watchful eyes of Cataract lieutenants until Mr. Moody and Mr. Coleman had delivered Moody and Mr. Coleman had delivered the state of them were ost system of England. We say the eyes of Cataract neutenants that Mr. Coleman had delivered than they have in the United States, but our system is not as good as the English system. The effects of the Enblish parcel post system, and in fact to conduct a fair program, the proof the European parcel post system— because they have a better one in Ger-many—is to give the people an express service which does not cost one-third of the rate prevalent in Canada, and there is no such thing in England or Germany as the tyranny of the exnpanies, so well known in

America to-day. A Great Principle.

The great political principle of the mics was state competiday in economics was state competi-tion as against the great public ser-

press companies, everyone of which was controlled by railways. But the day of relief was at hand, and the widespread movement for the adoption of a parcel post system and the threat

brought about a great reduction.

Every time an attempt had been made to provide redress it had been by railway influence. "An international court in railway matters was promised and was authorized by law, but somebody inter-vened and it was a dead letter.

"If these corporations can exert such an influence, if for twenty years they have been able to prevent the expansion of our parcel post, the people of this country ought to know it. espe cially in view of the fact that an elec-tion is near at hand. The people ought to have an opportunity to say whether we are to have the benefit of the parcel post system. It is all very well to have a skeleton system, but that is not enough: you want life in it. The life is this principle of state

Will Dissolve Within Fortnight.

The best advice The World can at this moment offer the people of Canada is that parliament will be dissolved within a fortnight, and a general election will be held and be over before the first week of September. All the indications here point that way. There will be no waiting for new lists for the six unorganized districts of Ontario. The government will either ignore the law in this case or instruct the returning officers to post. pone them for a time. There will be no new subjects brought up this session. The government, after they hear that Taft has signed the bill, will declare that in view of what they term obstruction it is useless to delay in appealing to the people, and that they have decided so to act. The government are afraid of time and discussion.

In right hon. friend's remark."

The extent to which the railways control the policy of the government in such matters, Mr Maclean pointed out, was shown recently in the United States. When John Wanamaker was postmaster general in Washington, he was asked why the people could not have a parcel post system, and his answer was the names of four great express companies, everyone of which was controlled by railways of the state of the first of the board of trade, will likely be recommended to council as two of the civic nominees.

Yesterday the future career of the veto bill was apparent to all politicians and its eventual acceptance by the House of Lords not doubted. Premier Asquith dispelled all clouds today by communicating informally to Mr. Balfour, leader of the opposition in the house of commons, the substance of an announcement which he will make in that house on Monday. His letter which Mr. Balfour communicated to the meetins of the lords this afternoon was brief and to the point. The prime minister stated that the king had agreed to take such measures as were necessary to secure the passage of the bill, and brushed aside the lingering hope the peers have cherished that the crown would refuse to lend itself to weakening the prestige of the nobility, which stands between the crown and the people. The premier's letter was as follows:

The attractions were a race for Canadian bred two-year-olds and a steeplechase over the wo mile course. Steamboat, owned by George Hendrie of Detroit, won the race for Canadian breds, while Prince won the steeplechase. The boosters were very much in evidence this afternoon. After the Toronto owned Ta Nun Da won the third, a selling dash of a mile, he was run up from \$500 to \$1500, and sold to J. W. Flynn, whose The Golden Butterfly finished second. Another big boost came after Light o' My Life won the fifth race, a two-year-old dash of 5 1-2 furlongs. Light o' My Life won entered at \$500, and Albert Simons, who trains Jawbone, who finished second, ran the winner up to \$1605, at which price he was protected and bought in by his owner. Jockey J. Henry, recently reinstated by the Canadian Racing Associations, to-day signed a contract to ride for J. W. Flynn. Weather clear, track fast. ZOMBREWER WINS HOTEL

Fast Time and Straight Heats-Major Brino Defeats Walter W.

KALAMAZOO, Mich., July 21.—Zombrewer, the first-2.05 pacer of the year, had no difficulty in winning the \$5,000 Rickman Hotel Stake for 2.19 class pacers, the feature of to-day's Grand Circuit card. She was a heavily-played favorite over a fast field of starters, and won each of the three heats in etasy fashion. Don Labor, the Wisconsin geiding, which dropped from the Grand Circuit to slower company early last season, returned to 101 to 404, taking the 2.11 trot in straight heats. Walter W., favorite in the 2.00 pace, won the first heat easily, but after that he was outstepped by Major Brino, who took the next two without difficulty. Owing to last Tuesday's rainstorm having caused a rearrangement of the program, the events scheduled for to-day will be run off to-morrow. Summaries: row. Summaries:

ARLINGS

FROM PROVIDENCE GREYS

Game Was Loosely Played With Many Errors - Rowan, the Local Boy, Had a Chance.

Kelley's band annexed the secondfrom the Providence Greys by 6-2 in a very loosely-played contest, marked by unsteady pitching. This win makes the sixth straight for the Leafs, and also 14

wins out of the last 17 games played. Manager Atz of Providence worked a ouple of new players in Pitcher Pierce, a left-hander, and Catcher Shean, the lat-

S

a left-hander, and Catcher Shean, the latter coming from the Pacific Coast League. Pierce showed himself a very fair pitcher, forcing no less than nine of the Leafs to fan the air. He was rather wild at times, and his bases on balls kept him in trouble nearly all the time.

Tesreau, who worked for the Leafs, was also in bad most of the time, and hiddle Phelps put in a busy afternoon. The big pitcher made a couple of wild pitches, and should really have had a third one, tho, according to the scoring rule the catcher got an error, as the play was made on the third strike, which allowed the runner to score. Tesreau fanued six and walked five.

Rowan, the local boy, was given an opportunity in the seventh knings, owing to an injury to Bill O'Hara's leg. Rowan drew a base on balls the first time up, but the second time he singled cleverly to left field.

Two runs were secured by Providence of the second innings, when Tarleton

drew a base on balls the first time up, but the second time he singled cleverly to left field.

Two runs were secured by Providence in the second innings, when Tarleton tripled and scored on Fitzpatrick's error of Gillespie's grounder. The latter was advanced on a sacrifice and scored on Pierce's single to right. The Leafs evened it up in their half. With one out, Bradley was safe on an error. Phelps was hit by pitcher. Smith and Fitz were walked, forcing in a run. Shaw singled to left, scoring Phelps, but Tony Smith was caught at the plate.

Toronto went to the front in the fifth on a couple of errors and a single by Delahanty. They put the game safely away in the next innings, securing three runs on singles by Bradley, Phelps and Fitzpatrick and Tony Smith's corking double up against the bleacher fence in right field. The visitors scored their final run in the eighth. Gillespie was safe on an error. Rock filed out, and Shean fanned. Plercé beat out a slow-rolling bunt to Fitz, and the latter let it roll between his legs, Gillespie reaching third. Anderson, if. a wide one on the third strike, and the half got away from Phelps, Gillespie scoring. Atz fanned. They made a strong raily in the ninth, but a fast sand heady double-play cut off their chances. Perry had singled and Eiston walked. They both advanced on a wiid pitch. Tarleton was thrown out by Smith to Jordan, and when Eiston ran Perry off third base the latter was doubled up, after he had attempted to reach home, and had then run back to third.

F. W. Coulter asks: Team A defeats team by a score of 8 to 2. Subsequently the game is protocsted by team B on the ground that one of the decisions of the umpfre, in which he ruled one of their men out, was wrongly given. The officers of the league, in considering the protest, decided that the umpfre was in the wrong. In view of the score (8 to 2), should team A, in your opinion, be made to play the game again. Answer: Yes. The game should be played over again.

Stands for simplicity in furnace construction. it does Distributes heat evenly from every register. Requires the least attention.

Lasts longer with a minimum of repairs. Extracts the greatest quantity of "heat" possible from the fuel used.

Has a special contrivance which assists in consuming the gases which would otherwise escape up the chimney.

Makes practically no dust at all in the house, on account of its specially constructed cup joints. Is the most economical both from a fuel burning standpoint and cost of upkeep.

What It may cost a little more to instal than most It costs furnaces because only the highest quality materials are used throughout its entire construction.

But it costs less for fuel because of the special construction of its combustion chamber, air blast, and radiating surface.

It costs less to operate because owing to the high quality of material used throughout it costs practically nothing for repairs and lasts longer.

What Your temper, because it always works right it saves and is "on duty" all winter through. Labor, because there is practically no dust when you use a "PEASE."

Money, because it burns less fuel and needs almost no repairs.

Backache, because you don't have to stoop with its new shaker.

It will save you from all future heating troubles if you instal one this summer. "ASK THE MAN WHO HAS ONE."

Lemieux Interested. Postmaster-General Lemieux received Mr. Maclean's remarks with considerable show of interest. He had been working on a plan to introduce a parcel post system, and for that purpose had studied a series of articles on the subject which had been published as a result of an investigation carried on by a magazine in the Unit-ed States. He admitted that the parcel post system had done a great deal for the people of England, France and Germany, and he was astonished to find how far a parcel could be carried thought the enemy of the system was the railway corporation, and declared as the hydro electric commission offer.

Business Man Says He is Asked to Pay Eight Factories May Join With Capital of 85,000,000.

At least one Toronto manufacturing concern claims to have discovered that, in some respects at any rate, the new Toronto Electric Light rates for commercial service are higher than the old.

Manager Frank Wise of the Macmillan Publishing Company, Bond-street, says that after having waited for six weeks for the new T. E. L. rates on direct current he finds them less to his advantage than the old ones.

MONTREAL, July 21.—An effort is being made to form a merger of all the coated paper factories in Canada. There are about eight factories. They are the Montrose Paper Company of Sherbrooke, Que.; the Kinleith Barber Bros. Company, St. Catharines; the Barber Bros. Company, Georgetown; the Toronto Paper Company, Montreal, and the Northern Paper Company, Montreal, and the Northern Paper Company, Quebec. The merger will have a capital of \$5,000,000. The matter has been taken up with the managements of the various companies, but a uniform line on amalgamation has not yet been struck.

Why remain weak and ailing when my wonderful invigorator is being offered you? Why let disease drag you down and destroy your happiness and peace? Why not let my Belt pump life and strength into your body and bring back that glow of health and youth that should be yours? There's no use fighting Nature with drugs. Of course drugs will deceive the senses, but they only weaken the vitality that you need to fight disease with. Fight diseases by aiding Nature—bring life, activity, circulation to the weakened organs of your body, and see how quickly they will commence pumping healthy blood and life into your veins. Disease vanishes like a bad dream. My Belt pumps a steady stream of warm, life-giving electricity into the body, direct to the weakened parts—no shock, joit, jar or shaking, but a warm glow, a steady current that GETS THERE AND GIVES RESULTS.

It quickly cures all chronic ailments by restoring life and vigor to the weakened organs. Cures rheumatism, lumbago, backache, kidney trouble, stomach and all nervous complaints, organic debility, varicocele and prostatic troubles.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and

MEET WILL BE OFFICIAL Aeronautical Society Gives Approval -Aviation Appeals to Citizens.

The Aeronautical Society of Toronto has given official endorsation of the aviation meeting to be held at Donlands farm from Aug. 3 to 10, and a corps of engineers, with the necessary equipment and instruments, will be in attendance as representatives of the society, for the purpose of taking measurements of altitudes.

Messrs. McCurdy and Willard have announced their intention of attempt-ing to break the altitude record, and Excursion to Kingston this branch of the program will be given over to the Aeronautic Club. The demonstrations to be given at the meeting should prove of scientific value, as there will be an interchange of wireless messages between aeroplanes, rifle practice in the air, the dropping of bombs at temporary forts and other experiments of a utilitarian character.

Since the announcement that Messrs. McCurdy, Willard and Ward have agreed to carry passengers, the man-NIAGARA FALLS, Ont., July 21.—

New C.P.R. Pacific Liners

MONTREAL, July 21.—"So far as Canadian steamships are concerned, no arrangements have been made for an increase in rates, either for passengers or freight, as the result of the increased wages to various employes since the recent seamen's strike," said an official of the Canadian Pacific Railway on his return from a business trip to England to-day.

As far as he knew, nothing had been done, and he was not in a position to predict a change. He had heard nothing which could serve to confirm the statements that the North Atlantic conference were about to raise passenger rates to counterbalance increased expenditure caused by the granting of wage

His trip, he said, had not been made with the object of playing a part in the labor disputes, but to procure new steamships. As a result, two new steamships for the Pacific, to be delivered in the spring of 1913, had been ordered. These are to be much superior to the present vessels. They are to average 18 knots an hour and to make 20 on their trial trips. They will have a tonnage of 15,000, will be capable of carrying 1300 passengers, and will cost in the neighborhood of \$2,500,000 each. The new vessels will be put on the Vancouver service, and a fortnightly service will be inaugurated. One of the present Empresses will be taken off that service and placed on another Pacific route.

hopelessly from eczema and other torturing, disfiguring eruptions of the skin and scalp, and who have lost faith in all manner of treatment, may learn that there is one way to find immediate relief, the following remarkable series of condensed testimonials is published:

W. H. White, 312 E. Cabot street, Philadelphia: Knee to ankle a mass of eruption. Suffering simply indescribable for six long years. Had to scratch till blood ran and health was undermined from lack of sleep. Cuticura Remedies cured it without a mark.

Mrs. M. C. Maitland, Jasper, Ont.: Itchy rash on her baby's head when but three months old. It spread over entire body. Put mittens on him to prevent tearing skin. Reduced to a skeleton. One bath with Cuticura Soap and application of Cuticura Cintment soothed him to sleep. A single set cured him. Thinks child would have died but for Cuticura Remedies.

Mrs. Wm. Hunt, 239 Fairmount avenue, Newark, N.J.: Whole body a mass of raw, torturing eczema. Agony was beyond words. Hair all fell out and ears seemed ready to drop off. Clothing would stick to bleeding flesh. Hoped death would soon end fearful suffering. Cuticura Remedies cooled the itching, bleeding flesh at once and soon cured her. Mme. J. B. Renaud, 271 Montana street, Montreal: Treated by doctors 25 years for bad eczema on leg. It peeled from knee down; foot like raw flesh. Doctor advised cutting leg off. Decided to 'ry Cuticura Remedies first. In two mon.'s use of Cuticura Remedies she was cured. Mrs. Nora Emmott, 28 Lena Gardens, Brook Green, London: Two little girls had dreadful scalp trouble that doctors called ringworm. Cried with intense itching. Hospital treatment gave frightful pain, but did no good. Suffered three years; cured by three sets of Cuticura Soap and Ohtment.

H. A. Krutskoff, 5714 Wabash avenue, Chicago: Itching eruption spread from hands to body. Literally tore his skin off in shreds. Debtors and remedies did no good. Cuticura Soap, Ointment and Pills stopped itching quickly and cured disease in three weeks.

FEDERAL POLITICS IN QUEBEC.

In this week's Sunday World will appear a guide map to federal politics in the Province of Quebec. This map is colored red and blue, according to the political divisions in that province. Quebec sends only 12 opvince. Quebec sends only 12 opposition members to Ottawa, counting as an oppositionist Mr. Guilbert, who was elected as a Nationalist in the by-election in Drummond-Arthabaska. The map, with the accompanying tables, will give you a clear view of the situation there. It will be exceptionally valuable in view of theapproach of the elections. The following week the seven other provinces will be shown in a similar manner.

Reorganization at The West Dome Mine

Well-Known Western Mining Mas Assumes Charge of Property-Mr. Warfield Goes North.

Mr. Carlos Warfield, director of the West Dome Mining Co. left Toronto last night for the Porcupine to reorganize the working staff at the com ganize the working staff at the company's property. Arrangements have already been made for the appointment of Mr. J. B. Cleveland of Artaona, who has had considerable experience in gold mining in the west and who will assume the duties of general manager at the West Dome succeeding the late R. Alvin Welss. Frank J. Hamilton is at present in charge of the property, and will continue under Mr. Cleveland.

The first undertaking at the mine will be the erection of a steel and

will be the erection of a steel and concrete building for the machinery. This will also provide a place of shelter in case of emergency thru fire.

Mr. Warfield, talking with The World immediately prior to his department. world immediately prior to his depar-ture for the north, said that many of the mines which have discovered show-ings of sufficient richness to warrant going thoroly into development, will undoubtedly put up buildings of this nature. The fact that the railroad is in running order and that supplies can now be gotten into the camp should make for a more substantial charac-ter of buildings. It was his opinion that fireproof quarters could be taken into Porcupine and put up almost as cheaply as wooden ones. This would be on account of the scarcity of lum-

Visit Porcupine At Our Expense

We offer investors a splendid opportunity of visiting this sensational gold camp, entirely without expense to themselves. Parties are being formed in the United States that will centralize at Toronto; then proceeding as a special Pullman trainload to the Porcupine Goldfields, spending approximately a week among the virgin lakes and woods of Northern Ontario. All of the big mines will be visited, and a unique feature of the holiday will be a two days' canoe trip to the Langmuir properties of the Porcupine Gold Spot Company.

Start August 12th Return August 18th

All expenses will be paid, including transportation, by rail and water, Pullman charges, meals, hotel bills, launch trips, guides, horses, etc., and we will see to it that every member combines a most delightful vacation with a money-making

After providing management expenses there was written off f1000 for preliminary expenses and there was put to reserve direct £2607, being the net profit accruing from sales of securities. There is a further reserve fund of f1500 in shares in various companies received as commissions. The report was considered eminently satisfactory.

London, July 21.—Money was easy and discount rates were steady today. The hot weather, the Morocco situation and home politics depressed the stock market in all directions. Home rails declined sharply on rumors of renewal of the shipping strike, but covering operations caused a general hardening of prices at the closing. American securities were quiet and featureless during the afternoon. Later the market improved under the lead of Canadian Pacific on Wall street buying. The closing was steady. Cotton Gossip.

Erickson Perkins & Co. had the following:
Prices moved irregularly to-day, but were higher for the most part, with business less active. As often happens after a big break, speculative sentiment continued against the market and strong opposition was offered by confident shorts on all buiges, which restricted the market's rallying power. Buying was of a better class, while liquidation appeared to be about ower. Continued rains over the belt lead conservative operators to believe that weevil activity will become prominent. Messissippi, Alabama and Louisiana report too much rain. Believe a bearish August report discounted and advise purchases on all sharp recessions.

Erickson Perkins & Co. had the following:

Wheat—The market opened irregular, but generally firmer, and has ruled within a comparatively narrow range all day. The trade has been largely professional, and fluctuations within ½c range have been frequent, due chiefly to the wperations of pit traders and a light general outside business. The little setback in the market to-day was quite natural after the advance of the past two days. We look for a market of rather narrow proportions, but feel inclined to favor purchases on weak spots.

Corn—Opening prices showed a moderate advance, and the market ruled strong until the latter part of the session, when a good reaction from the high point of the morning took place. Weather conditions as regards temperatures were favorable, but there was no additional rainfall of moment. We consider that the market held very well to-day, after the recent weakness and quick raily of yesterday. We firmly believe that corn should be beught on all weak spots, this belief being based on conditions surrounding the growing crop, as reported to us.

Oats—The market opened strong, but well was a possible, but there was no additions surrounding the growing crop, as reported to us.

Oats—The market opened strong, but well was a possible, against 640,000 to the United Kingdom.

Australian Shipments.

The Australian wheat shipments this week were 1,568,000 bushels, against 640,000 bushels last week and 284,000 bushels last year. Oats—The market opened strong, but broke sharply from the high point, due to lack of speculative buying and some pressure from offerings of the new crop. The market may prove a dragging one temporarily, but for a long pull we believe that underlying conditions more than warrant present values, and that ultimately a very much higher level will prevail.

How About Taking Stock Yourself This Morning!

Aren't there a good many garments in your wardrobe that are ready to be passed along to others? Maybe you didn't notice that your trouser-edges were almost worn through, or that your bathrobe was slightly torn.

If you'll be wise enough to take stock at the same time as the Simpson Store for men, you may replace your nearly-worn garments with quite new ones at minimum cost.

Only a couple of items are mentioned here, but after you go over your wardrobe, bring the list here of what needs replacing, and you'll be saving money.
