TURNED LIGHT ON FINANCING OF N.T.R.

Hon. Mr. Cochrane Gives Starting Estimate That Eastern Section Alone Will Cost \$258,000,000 or \$143,000 a Mile — Can't Cut Rates, Says Ames.

OTTAWA, Feb. 14.—(Special).—Hon. Frank Cochrane this evening gave the house of commons some startling figures in regard to the cost of the eastern section of the National Transcontinental Railway, when the house went into committee on his bill to provide for the reduction of the N. T. R. Commission to one member. The capital cost of the line to 1924, he estimated at \$28,000,000, or at the rate of \$143,015 a mile for the 194 miles from Winnipeg to Montreal.

His statement, which follows, was based on the estimated cost submitted by the chief engineer at \$171,726,000, and on the supposition that it will be completed and handed over to the Grand Trunk Pacific Railway Co. on Jan. 1, 1914, and that the money could be borrowed at 3 per cent.

The Harrowing Details. Interest during construction at 3 per cent to Dec. 31, 1911, \$7,690,123.68. Interest on estimated expenditure at 3 per cent for one year at Dec. 31, 1912, \$3,720,000. Interest on estimated expenditure at 3 per cent to Dec. 31, 1913, \$3,720,000.

GOVERNMENT TO BUY G.T.P. BONDS

So Hon. W. T. White Intimates But He Draws Attention to Certain Financial Difficulties — Five Millions Voted to Railway, But House Is Urged to Go Slow.

OTTAWA, Feb. 14.—(Special).—The public have been shocked by the announcement of this heavy liability, said Hon. W. T. White this afternoon, in moving the second reading of his bill to provide for the payment of the \$5,000,000 for the implementing of the bonds of the Grand Trunk Pacific Railway under the recent decision of the privy council.

The responsibility for this very heavy obligation and for the further \$5,000,000 to which they might become liable, rested on the preceding government, and he called upon the leader of the opposition to declare what he had to say in explanation or extenuation of the action of his government.

Anglo-German Relations Closer, Says Asquith

Premier in Opening Debate Declares Haldane Found Germany Strongly Desirous of Promoting Better Feeling — Refutes Warmly Rumors That British Navy Was Ready To Start Hostilities.

LONDON, Feb. 14.—(Thru Reuter's Agency).—The prime minister, Right Hon. Mr. Asquith, made a most important statement in regard to the visit to Germany of Lord Haldane, in the course of the opening debate in the house of commons this afternoon. He said that Mr. Bonar Law, the leader of the opposition, referring to Lord Haldane's visit to Germany had used the expression: "Lime-light." As a rule the charge against the government, and particularly against Sir Edward Grey, had been that of furtiveness, secrecy and subterranean diplomacy. It was, therefore, rather a relief to find that the government was now charged with carrying on diplomatic proceedings in what Bonar Law termed the "lime-light." This, however, continued the prime minister, was a most serious matter, and he desired to use the language of seriousness as well as of hope regarding it.

Undoubtedly, he went on, it was a most lamentable fact that the traditional feelings of Anglo-German friendship and good-will had been seriously overclouded during the last few months. When an atmosphere of suspicion had once been created, fiction readily replaced fact and legends, which at other times would be dismissed as incredible, were easily accepted and widely believed.

Didn't Prepare to Attack. "We have been told, for instance, that there were masses of the people of Germany who firmly believed that some thing during the last summer and autumn Great Britain meditated, indeed, had even prepared an aggressive attack upon Germany; also that Great Britain's armaments were carefully calculated with that object in view. I was almost ashamed to have to contradict such a wild and extravagant notion. It was a pure invention without a shadow of foundation, nor was there anything, anywhere, at any time of an aggressive or provocative character in the movements of our fleet.

BIG ELEVATOR FOR TORONTO

Land on West Market Street Is Secured and Total Cost With Building Will Be \$1,000,000.

Toronto is to have the finest grain elevator between Montreal and Port William. Plans have been prepared and construction will commence very soon. The building will consist of re-inforced concrete and together with the land, the cost will reach about \$1,000,000.

The location of the elevator will be at the foot of West Market-st., on a site 80 ft. by 840 ft. The capacity of the elevator will be 2,000,000 bushels of grain, most of which will come by boat from Port Arthur. The site has splendid wharf facilities with a water depth of 20 feet, sufficient to accommodate any of the lake freighters.

LABOR MEN ACCUSED OF DYNAMITE CONSPIRACY Indicted, But Not Yet Arrested

M. J. YOUNG, BOSTON, member Ironworkers' Executive Board and president Boston Local Ironworkers' Union, characterized by McManigal in blowing up a section of the Boston Opera House in March, 1909, and with having sent McManigal to Springfield, Mass., last April, where part of the municipal buildings were blown up.

JOHN J. MCCRAY, former member executive board, formerly of Wheeling, W. Va.

FRANK K. PAINTER, OMAHA, NEB., business agent local union.

INDIANAPOLIS, Feb. 14.—(Can. Press).—The United States Government to-day arrested almost all of the 54 men indicted in the dynamite conspiracy cases. It took into custody within a few hours practically the entire official staff of the International Association of Bridge and Structural Iron Workers, including the chief officers, members of the executive board and about 20 business agents and former business agents. Those included Frank M. Ryan, the president; John T. Butler of Buffalo, N. Y., the first vice-president, and Herbert S. Hockin, the second vice-president and successor of John J. McNamara as secretary-treasurer, and each of these men was required to give \$10,000 bond for his appearance for arraignment here, with all the other defendants, on March 12.

More than 40 of the men, chiefly labor union officials, who are charged with conspiring to destroy by dynamite or nitroglycerine, the property of employers of non-union labor, were under arrest by to-night, and it was declared the apprehension of all the others would follow within 48 hours.

Ryan's Arrest Chief Sensation. The most prominent of those taken into custody is Frank Ryan, president of the International Ironworkers, this city. Vice-presidents Butler and Hockin—the latter also acting as secretary-treasurer since the arrest of John McNamara; Spurgeon Meadows, business agent of the district council of the International Brotherhood of Carpenters and Joiners; and C. E. Dowd, representing the International Machinists Union.

These three unions are alleged to have been involved in the conspiracy. McNamara has charged that Hockin was the man that put him in the dynamite business.

Mr. Ryan said: "I desire to say to the public and for the satisfaction of my friends, both in the union and outside of labor union circles, that I am innocent of knowingly having violated any law of the United States, or of

TEMPERANCE PEOPLE WERE DISAPPOINTED

NO INDEPENDENT TEMPERANCE PARTY

Ontario Alliance Committee Talked Several Hours and Finally Decided to Revive the Old Electoral Union Policy and to Refuse to Support Candidates Who Will Not Adopt Temperance Platform.

All the third party threatnings and independent political action talk was abandoned by the action of the political policy committee of the Ontario Alliance last night.

F. S. Spence, whose eyes blazed on the previous night as he described the march to be made "over the ruins of both old parties," cooled like a dove at last night's committee. But it took him three hours of diplomatic engineering to get the dose of tempering down the committee's throat.

Controller J. O. McCarthy presided. The doleful tidings that N. W. Rowell lacked the snap to take up their fight was given with all the best sugar coatings imaginable. Then the old electoral union scheme, which was attempted ten years ago by Duncan Marshall in the good old "Brother" Ross days, was trotted out.

After all the brave talk of the past two days of independent action, the committee was loth to again just mark time, but at 10.30 they were tired and agreed to the proposition.

It was that the delegates refuse to vote for any candidate or party which failed to adopt the alliance platform of the abolition of the tax and club licenses.

One delegate said to The World: "I'm sick of it. It's just the old bag of tricks thinly veneered, altho it may sound new to the same people."

TWO BACKRACK BOYS ARRESTED

They and John Willis Are Charged With Conspiring to Procure a Criminal Operation.

Charged with conspiring together to procure a criminal operation on a young woman 22 years old, Julius and Emmanuel Backrack, 237 St. Nicholas street, and John Willis, 144 Jarvis street, were arrested on a warrant last night by Detectives Tipton and Archibald. They were taken to Court-street station at 10.30 and a few minutes later were given their liberty, Maurice Backrack giving bail bonds for \$2000 each for the three. The information on which the three young men were arrested came to the police from a private source.

Count von Aehrenthal's Dying. VIENNA, Feb. 14.—Count von Aehrenthal, the Austro-Hungarian minister of foreign affairs, is reported to be dying to-night. The physicians are using oxygen to sustain their patient's life.

A FAMOUS COMPOSER. Heinrich Rheinhardt, composer of the music for "The Spring Maid," is at work on the score of a new opera for Christie Macdonald, the delightful young woman, who is appearing as the star in his first work. Rheinhardt heard Miss Macdonald sing "The Spring Maid" score last summer in Germany, and was delighted at the way in which it was rendered.

PERSIAN LAMB COATS. Persian lamb is going up in price. The big annual sale of these pelts comes off in March in Leipzig. The furriers of the world are on their way to that point even now, and Toronto will be represented by William Dineen, president of the W. & D. Dineen Company, and the dean of Canadian furriers. Mr. Dineen arrives in Genoa on February the twentieth, and entrains at once for Berlin.

The prospects for a sharp advance in Persian lamb look more than possible, so that Dineen's stock-taking sale should appeal to the wise shopper.

Mr. Rowell's Friends Will Have a Hard Time Appearing the Convention To-day—Far Will Fly Says President Gibson—Meeting Has Been a Success From a Provincial Standpoint.

Mr. Rowell's friends in the Ontario Alliance will have quite a time appearing the convention when the deputations report and the recommendations of the political action committee are presented this morning.

However plausible the Liberal leader's plea for more procrastination may have sounded to the delegation it was not relished at the convention when rumor carried it there.

"Unsatisfactory" was the adjective used by a prominent clergyman in giving his view of Mr. Rowell's falling to step upon the firing line.

President Gibson said "fur will fly" in the committee. "But President Gibson was not analyzing the personnel of the political action committee when he spoke of a probable hot time at the deliberations.

One of the most prominent delegates who would naturally be expected to be on it spoke almost in a tone of disgust. He pointed out that it was made up of a few of the most prominent Liberals in the gathering, with numerical dignity, contributed by a nice list of the names of wives of delegates.

This frank committee was emboldened by the most independent of the Liberals on it. Controller J. O. McCarthy being disposed of by being put in the chair.

The convention has been a double surprise. From a provincial standpoint it has fallen far short of the number of delegates expected and in that respect

WAKENING UP! Everybody is waking up to the great municipal and social problems of the day. The meeting last night was a revelation. Everybody seems friendly, but our laws seem to be lagging and the unprogressive element seems to be able to use law as a stop progress. There are 33,000 tenants in Toronto against 30,000 owners. Not a tenant had a vote in the recent by-law election. Why not? Why not get a better tenant by a law? And yet these tenants, pay on the average 30 per cent of their income for rent and taxes and most of the street car fares! Is Mayor Geary asking for a change in the law so to who shall vote for by-laws? Or is The Telegram or The Globe? Where are the Pynes and Foyes and Crawfords, and Gooderhams, and McPhersons, and all the rest on these needed reforms?

A TRAFFIC EXPERT. Toronto gets a percentage of \$100,000 a month from the street railways. Why will Mayor Geary and the council take \$100,000 a month out of that for the salary and incidentals of an expert to study local traction and to the laying out of our municipal lines? Such an expert, we are confident, would in six weeks be able to frame up a good case for asking the railway commission to compel the street railways to give a morning and evening service in and about the city that would relieve present congestion immediately. Why is the reason that this proposition can not get forward?

SIR JAMES JOINS THE BIG EYES. Sir James Whitney has got big eyes and consequently sees that \$500,000 for Northern Ontario \$100,000 for good roads is good policy for the province and its people. Toronto is the capital of this province that is to have this expenditure, and Toronto is on the quick road to a million population. But to see that coming in a few years you must have big eyes. Has Mayor Geary gone out yet to get a pair? Controller Hocken got a pair a while ago. But who is the smooth gentleman that has so quietly supplied a pair of small eyes to so many of Toronto's officials, aldermen and journalists? Sam McEldie ought to throw his away.

PROFESSIONALS AT CENTRE ISLAND

Acting Park Commissioner Chambers Suggests That Toronto Spend \$56,641 to Make Necessary Changes—Steps Taken to Find a Site for Municipal Fruit Market.

According to Acting Park Commissioner Chambers' estimates the sum of \$56,641 will be required for the island maintenance and proposed permanent improvements for the ensuing year.

Radial Lines. Mr. Chambers recommends that \$14,100 be spent on permanent improvements of the new athletic field at Centre Island. The suggested improvements are: Grading and top dressing of the field, \$4000; concrete bridge at connection, \$3000; sheds and lavatory building, \$3500; sheet piling for west end, \$2000; water service for the field, \$300.

Civic Fruit Market. The special committee appointed by the city council to consider the establishing of a municipal fruit market met yesterday afternoon, and after a general discussion of the present situation it was decided to have the property commissioner make investigations and report as to what sites would be available, which the committee will hear the opinions of the different fruit dealers and members of the board of trade on the question.

Hydro Extensions. At the meeting of the fire and light committee a letter was read from the Toronto Hydro-Electric Commission stating that their appropriation was insufficient to provide for a further extension of the cluster lights on Yonge-st. If legislation were secured whereby such improvements could be done on the local improvement plan, this letter stated that this and similar extensions could be secured.

Hanlan Memorial. The Toronto Ferry Co. have notified the city parks department that they are willing to donate the large white chimney close to the wharf at Hanlan's Point, to be used as the base of the proposed Hanlan memorial monument.

Roller Towels to Go. The medical health officer proposes in the near future to put the ban on all roller towels in places of public resort such as factories and office buildings.

Church is Economical. At the board of control's meeting yesterday Controller Church made a vigorous protest regarding the lavish expenditures of the board of education. He advocated that the board of control obtain the authority to supervise their estimates. The controller thought that they should be made to bear the expense of collection of that portion of the taxes which were handed over to them.

Laundry Permit. A deputation waited upon the board yesterday to permit being issued for a laundry at 1276 Yonge-st. After hearing the argument on both sides the board decided to lay the matter over till the city solicitor could report upon the legal aspect of the situation.

A letter was read from the city engineer to the effect that on Feb. 11 the above gang had been able to continue the work of placing sand bags under pipe No. 2 at the intake. The letter stated that the sand was spilling up the east side of this pipe, and was at the present time half way up the pipe. On the west side the sand pipe was being more slowly.

Controller Church objected to women with babies and the aged and infirm being placed in Toronto jail. He thought the city should provide more suitable accommodation in such cases. It was decided to have the property commissioner make a report.

### FIRE MARSHAL BADLY NEEDED

Deputation Urged Upon the Provincial Secretary the Necessity of Appointing a Competent Official.

That the appointment of a provincial fire marshal is a matter that is going to be urged insistently on the government was evidenced yesterday when a deputation of fire chiefs and civic officials waited on Provincial Secretary Hanna. Among the speakers were Mayor Lees and Fire Chief Ten Eyck of Hamilton. The deputation also included several members of the Toronto and Hamilton boards of Trade. Hon. W. J. Hanna asked what the new proposal would involve by way of expenditure, and if the members of the deputation had any scheme to meet the cost except out of the general revenue of the province.

"We would have lots of good things in Ontario if we had the cash," remarked the provincial secretary. Fire Chief Ten Eyck of Hamilton replied that the State of Ohio made the first marshal system more than pay for itself last year. The cost of the work had been \$12,800, while there had been \$19,000 of revenue, chiefly from extra taxation placed on the fire insurance companies and the fines collected on trials for arson, etc.

Chief Thompson of the Toronto Fire Department told the provincial secretary that every state in the American Union had a system of fire marshals, whose powers included, not only the prevention of conflagrations by radical measures, such as the elimination of inflammatory property, but also the prosecution of those who neglected to see that the requirements of the law regarding fires were carried out.

Russell Kelly said that the City of

### FINANCIAL AGENT CHARGED WITH THEFT

Charged with stealing \$1500, William Bullock, financial agent, of Toronto, faced Magistrate Denison yesterday, and after a preliminary hearing, the case was sent to a jury. According to Leon Lafontaine and H. Fisher, inventors of a non-collapse life-saving attachment for ships, Bullock committed the offence following an agreement for the incorporation of the International Lifeboat Co. Lafontaine on the stand, claimed that the accused had made misrepresentations which induced the inventors to furnish \$1500.

"He said he was director of the Union Bank and head of the Canada Foundry, and we have found out our sorrow that this was a fabrication," said the witness.

The defence claimed that Bullock lived up to his agreement by publishing a prospectus, etc., but that the proceedings had been held up because the complainants failed to secure the necessary patent in Canada.

### STEEL CORPORATION NOT THE ONLY TRANSgressor

WALL STREET—A man who has been in the steel business nearly all his life, speaking of the statement of Commissioner of Corporations Smith concerning excessive profits of the Steel Corporation, says:

"Why should Mr. Smith mention the Steel Corporation only when he speaks of profits accruing from ownership of coal and ore lands, railroads, etc.? There are several of the independent steel companies that are as large holders of properties in comparison to their total output as the Corporation. Other steel companies own branch roads, lines of ore vessels and coal, ore and limestone, and are, in particular, one in particular has everything that the Corporation has, the not on so large a scale."

### WALL-STREET AND GOLF.

Perhaps no game claims more attention in Wall-street than golf, and every Saturday morning throughout the season one can see bankers, brokers, clerks and other workers on the street coming downtown with their sticks. C. B. Macdonald, the big trader, was one of the first persons to introduce golf in the United States. He is a member of the St. Andrew's Club of Scotland.

### BRAKEMAN SCALDED TO DEATH.

BELLEVILLE, Feb. 14.—(Special).—At 4:30 this morning a collision between a double-header freight train from Lindsay and some empty cars occurred on the line of the Midland division of the G. T. R. System, just north of the city yards, resulting in the death of J. J. Spencey, a brakeman. The victim was on the front engine, and he was caught between the fore part of the engine and tender and literally scalded to death. He was a young man, residing in Lindsay.

The engineers and firemen escaped with slight injuries.

An inquest was opened this afternoon before Coroner Dr. Farley, and adjourned until Monday next.

### KINGSTONIANS.

The Kingston Old Boys extend a cordial invitation to all Kingstonians residing in Toronto, or visiting here, to an informal gathering, designated "Ladies' Night," in the Temple Building, on Friday, 16th inst., at 8 p.m. Refreshments and a good program have been prepared.

### DR. ALLEN LOST PILES OF MONEY

Merely an Act of Charity to Advance of \$4000 to an Inefficient Business Man.

Relating the particulars regarding his connection with the Fielding Chemical Co. of Guelph, Norman Allen, a prominent Toronto physician, who is being sued by Messrs. McKinnon & Howitt barristers, for recovery of \$500 for professional services, told of his lamentable experience in high finance as the result of a "good deed."

"It was merely an act of charity," said the physician, when asked why he advanced \$4000 to the now defunct concern. He said he took an interest in Fielding, the head of the company, but he realized that Fielding was an inefficient business man. He had loaned \$4000 to the concern, and he had lost the money on the understanding that the company's finances were between \$20,000 and \$30,000.

Dr. Allen also related that the Deputation Bank had obtained \$10,000 in judgment against him, and had subjected him to the indignity of placing bailiffs in his house. "It was through the negligence of those involved in the management of the Fielding company that I lost," he exclaimed.

The case resumes to-day.

### MEN'S CLUB VISIT.

The Men's Association of St. Anne's Church will visit the Men's Club of the Church of the Epiphany, corner Queen-street and Beatty-avenue, Parkdale, to-day. Members will meet at St. Anne's, leaving at 8 p.m. sharp, and proceed in a body via Dundas, Lansdowne, Maudslowi, to Queen-street. Members unable to go with the main body are requested to go direct. Badges will be worn.

### THE REAL EVIL OF THE TIPPING SYSTEM.

Mr. P. E. Rowe, of the Commercial Travelers' National League, issues a stirring appeal against the tipping nuisance.

"The greed of hotel proprietors," he declares, "is the basic cause for the growth of the tipping system in this country," a system which he is also free to say "does nobody good except the hotel proprietor."

This statement bears the root of the tipping evil of the day. The gratuity, continuously and indiscriminately bestowed, does not secure better service. It is neither regarded as payment for such nor as a gift. The servant simply views it as his right, a part of the reward for his regular work. In the final analysis it is the payment of wages that should be paid from the pocket of the employer.

It explains the beggary wages of hotel and restaurant employes, their long hours of labor and the ghastly health conditions by which they are environed. Dr. J. D. Nagel has recently made an exhaustive study of the condition of this class of toilers and his findings are of sufficient importance to justify more than passing comment.

According to him, the hotel worker usually begins in early youth. His labor long hours is indoors. His life is spent in an atmosphere of tobacco smoke and the exhalation of liquor. His food is inadequate and his sleeping quarters small and unhealthful. The whole environment is abnormal just as is the labor unwholesome and the temptation to dissipation very strong.

The doctor reports from Germany, where an extensive study of hotel workers has been made, that of all classes of laborers, they lead in the number of suicides and death from venereal diseases, tuberculosis, liver complaint, rheumatism and many other ailments. The mortality rate among hotel employes is nineteen per cent., as against six per cent. in all other professions.

Investigation reveals much the same condition of affairs in England. In London, according to Dr. G. F. Arlidge, "hotel servants show a comparative mortality of 2.50, the highest of all trades."

Statistics of the kind are neither definite nor abundant in this country. They are sufficient to show, however, that

### HIGHER DIVIDEND AND STOCK BONUS.

The directors of Wm. A. Rogers, Ltd., have announced that a stock bonus dividend of 10 per cent. will be paid to common shareholders as of record Feb. 20, and that the regular dividend rate on common shares will be increased from 10 per cent. to 12 per cent., commencing with a quarterly dividend of 3 per cent. on April 1.

It was also announced that the remainder of the unissued common stock will be offered to shareholders for subscription at \$10 per share. The right will be given to all shareholders (both preferred and common) to subscribe for one share of new common stock for each fourteen shares of stock (both preferred and common) held on the 31st inst.

### Tom's Reform.

Upton Sinclair, at a vegetarian banquet at Battle Creek, said a social reform he disliked:

"That social reform is as foolish and ridiculous as the reform attempted by Tom Haines."

"Tom Haines was playing checkers in the general store with a man who kept looking at the clock."

"What do you keep looking at the clock for?" said Tom.

"Because," said the man, "I see by the Sunday paper that every time that clock ticks old John D. is \$10 richer."

"Tom Haines rose hastily."

"What are you going to do?" said the man.

"Stop the clock," said Tom.

"There is always a best way of doing everything—if it be to boll an egg—Emerson."

### REALTY DEAL ENDS IN SUIT

Judge Riddell Ordered That All Money Should Be Returned and Agreement Rescinded.

Because he claimed an agreement had been drawn up and signed without proper legal advice and was not understood generally by the parties interested, Judge Riddell, in the non-jury assize court yesterday against Ernest S. Glasco, a real-estate broker, and T. Herbert Barton, a barrister. The action involved about \$25,000 in a real estate deal. The plaintiff purchased a parcel of land on the north side of Dundas-street for \$25,000 for the purpose of cutting it into small lots. He got an advance from John Glasco of \$5000, and, in consideration, Glasco was to share equally in the profits of the sale of the lots, after the payment of a \$15,000 mortgage and the return to Hamilton of \$4000 and \$5000 the original owner, Glasco.

On the stand, Hamilton said the agreement touching on the above gave an impression not to his liking. In fact, he claimed it gave him half the land and provided that Hamilton should pay all of the \$15,000 mortgage. The deal was ultimately sold for \$42,000. Mr. Barton was acting as a trustee. Mr. Justice Riddell rescinded the agreement and ordered the return of the money to the proper parties.

### Peel County Conservative.

The annual meeting of the Liberal-Conservative Association of Peel will be held at Brampton on Saturday, Feb. 21, at 2 o'clock. The election of officers will take place and general business be transacted. An address will be delivered by J. A. M. Atkins, M.P. for Brandon, Manitoba, the local members and others.

HAD BRAND NEW LOTTERY GAME

Two Alleged Whiskey Detectives Taken Into Custody and One Admitted "Working" Merchants.

For two months the police here have been looking for Edmund Meredith on a charge of theft. Meredith says he is a "whiskey detective," and that he has worked at informing the Ontario Government of illicit liquor trafficking in the north country.

Meredith, so the landlady claims, came around at once with an order and took the dead man's money, some \$20 in cash, and a few articles of clothing.

On Monday, Meredith, who is single and 24 years of age, left Ottawa for Toronto with a friend, Peter Ridley, alias Riley, single and 24, and also a self-assured whiskey informer from the north country.

The two boys were arrested by Detective Twigg and sent to the Shelter, where they will be held pending enquiries. Both are thought to be runaways. Twigg also gathered in Ridley, alias Riley, on a charge of vagrancy.

Meredith was arrested by Detective Taylor at 253 Church-st., charged with theft. With him was found a new kind of lottery game, with which he admitted getting several Ottawa merchants into trouble with the police.

Part of the lottery outfit, all ready for use, was taken by the detective. A book showing what appeared to be the money received from several shopkeepers, barbers and bartenders in Ottawa, and their individual commissions or takeoffs, was also taken.

The scheme revolved around the giving of a watch, which Meredith in each case appraised at \$18.20, but which in reality would be worth no more than \$3. On a card were printed numbers ranging from 1 to 60, with blank spaces for names of the partakers in the lottery opposite. In envelopes were also numbers ranging from 1 to 60. A customer of the shop or bar where a card was being used, would be asked to pick an envelope. If he drew number 60, it meant he paid sixty cents for a 60 to 1 chance of winning a \$3 watch.

HOME RULERS FEEL CHAGRIN Brief Allusion in King's Speech Dashes Hopes—Suffragettes Also Bitter.

LONDON, Feb. 15.—(C.A.P.)—The King's speech at the opening of parliament proved disappointing to both the supporters of home rule and of woman suffrage.

A telegraph message in The Times from Dublin this morning regarding the former states that the scanty reference to home rule disappointed the Irish Nationalists, who hoped for a more fervent allusion to the pro-unionist majority of the session.

Nationalists are still more seriously perturbed by the persistent rumor that the bill will not be introduced until after Easter.

Miss Christobel Pankhurst says the speech has been one more disappointment, and that an impressive demonstration will be made at a very early date and embarrassing the government.

TEMPERANCE PEOPLE WERE DISAPPOINTED

Continued From Page 1.

spec that has not been sufficiently impressive, as its promoters expected, to carry Leader Rowell and his little group off their feet, or to inspire them with requisite courage to accept and carry aloft the proffered temperance standard as an assured talismanic banner of victory. Disappointed at the failure to get the response expected from their former allies, confere, Newton Wesley Rowell and with the recollection of the extent to which F. S. Spence committed the Alliance to his party declarations the promoters of the projected renewed Liberal-Alliance fusion were nonplused.

While the attention of the various parts of Ontario, and the unexpected further exhibition of faint-heartedness by the opposition leader has disappointed the promoters of the convention, it is far ahead of expectations in its representative character from the federal standpoint. Practically all the provinces are ready to fall into line, except Manitoba, where W. W. Buchanan is a provincial temperance secretary.

When Secretary Ben H. Spence wrote to enlist the Manitoba League in the new scheme of Dominion Alliance organization last fall, W. W. was so busy to take it up. Now, instead of that league having representation here, the Manitoba League are clashing dates by holding their convention this week. It is pointed out that Secretary W. W. Buchanan would not have been any too flattering in his remarks had this personnel of the committee on the new Dominion federation fallen under his analysis. F. S. Spence, Ben H. Spence, Rev. Dr. Shearer, Theron Gibson, J. C. Miller.

Ontario Local Option. In leading up to the point of an immediate campaign for provincial prohibition, in an atmosphere charged with anticipation that N. W. Rowell would indicate his willingness to whip his followers into line, Rev. Ben H. Spence occupied a good portion of the morning reviewing the local option situation in Ontario, the old much extolled local option method being almost "damned with faint praise." "We are not fighting for local option," he said, "but for a much more decisive ultimate end. Local option, as local option, is simply creating an intolerable situation. Where a dry district is adjoining a license district, the former does not affect the latter, but the latter is a terrible menace to the former."

Provincial temperance secretaries from Prince Edward Island to British Columbia (including the Yukon) and all expressed strong desires for federation on an active federal basis. Rev. Dr. Spence, representing the British Columbia Association, asked: "Have you seen Vancouver? We know of Montreal and Toronto, but we have not seen Vancouver who have seen the best part of the three. The first white man to settle there lives there still. In a few years that settlement will have a population of a million. There will be a great growth during the two or three weeks I'm away. I invite you

to come to the land of sunshine, of showers and of flowers. "I am also glad to report that there is a growing sentiment in British Columbia in favor of local option and temperance reform."

Dr. Spence read a telegram from the Royal Templars of British Columbia suggesting as a motto for the congress: "Prohibition for Canada by 1920." The telegram also stated that the British Columbia Government had on Tuesday promised a temperance deputation to enact further restrictive legislation.

With a total population about equal to that of Toronto, British Columbia had 750 licensees. Rev. E. Park, from the transcontinental extreme of Prince Edward Island, declared prohibition a success in that slight little island, the only drunkenness there being thru the convenience of doctors and druggists handing out alcoholic liquors as medicines.

MORE THAN FORTY LABOR LEADERS ARRESTED

any law of any state in the Union. Therefore I have no fear of a trial and I am absolutely confident and know that I will be able to prove myself innocent of any crime charge whatsoever before any fair-minded court and jury in the country.

"I am indeed proud of the work which I have been able to accomplish in my long years of service and affiliation with an organization that has, on the whole, done so much to elevate American citizenship."

Huge Plot Alleged. By its action the government revealed the identities of the men whom it charges with being the accomplices of the McNamara and Orle E. McMannigal in the dynamite plots, embracing almost one hundred explosions which were begun in Massachusetts in 1905, which were scattered over the country for six years, and which resulted in the wrecking of The Los Angeles Times

building, and an attempt to blow up President Taft's special train at Santa Barbara, Cal., last October. Fourteen of those indicted are each required to furnish \$10,000 bond, and forty are each required to furnish \$500 bond, making an aggregate bond required of \$40,000. Some of those whom the government was unable to find today were reported to have disappeared thru fear of inability to get bonds. It was intimated that the Iron Workers' Association would be unable to furnish security for its indicted members.

Two Unable to Get Bail. Ernest G. W. Baky, former business agent of the Indianapolis Iron Workers' Union, and Edward Clark, former business agent of the Cincinnati Union, were unable to furnish bail and were taken to jail. When Clark appeared to Secretary Hockin of the Iron Workers' Association for aid, Hockin advised that the International Association could do nothing for him, and referred him to his local union. Hockin said it would be impossible for the International Association to take on the burden of supplying bail for many of the men arrested.

May Recall Grand Jury. United States District Attorney Charles W. Miller intimated to-night that the federal grand jury which returned the indictments, might be recalled to resume investigation of the conspiracy.

After the defendants are arraigned on March 12 and the trials proceed, Miller said that the grand jury might be recalled to resume investigation of the conspiracy.

as being principals in the transportation of nitro-glycerine. A further indictment on thirty-four counts charges McNamagal and J. B. McNamara with physical transportation of nitro-glycerine and all the other defendants with being principals in the transportation of dynamite and with having aided McNamagal and J. B. McNamara.

Altogether the indictments contain 128 counts against each of the defendants and the penalty for any one of the offences varies from 18 months to two years.

Erectors' Association Suffered Most. Sixty-five of the explosions considered in the indictments were on work of members of the National Erectors' Association, an organization of "open shop" employers, and 31 explosions, or attempts, were on work of contractors who were not members of the Erectors' Association.

LA BOHEME

Last night's production of La Boheme, the lyric drama by Puccini, founded on the famous novel by Burgoyne, proved another triumph for the Montreal Opera Company and the story itself is concerned with the Quarter Latin of Paris, synonymous with the gay and free living but nevertheless hard working section of Paris, devoted especially to the cultivation of the fine arts and literature.

The success of the musical interpretation of Puccini can only be gauged by the warm appreciation it received last night. The audience was the largest of any attending the series of operas.

The rising curtain discloses the four young Bohemians in a safe and barren attic. Despite their penniless condition they are full of buoyant and happy spirit and make friends of the audience from the start. The play deals with many little episodes typical of Paris, the supremely gay and the dementally sad. The petty little quarrels that spring up between the lovers and the great emotional scenes of the dying of Mimì are portrayed in a magnificently human way. There is the genuine, happy sympathy of life about every incident in the entire action.

While the lines of the play are opening out, the music goes on in a most appealing way. Puccini's genius in the life of these truly human young people in a way that faithfully and significantly tells their story in music. The singing of the various parts marks the warmest praise. Mme. Ferraris, who plays Mimì, captured the hearts of her hearers with her fervor and sweetness of voice. Her histrionic ability was strikingly shown in the pathetic death scene.

Signor Colombini, taking the part of the poet Rodolphe, and Signor Nicoletti as Marcel were particularly effective, and M. Huberty and M. Cerri as the other Bohemians played with ability in both the trivial and tragic moments. Mme. Pawloski, as Musette, sang with brightness and yet the proper restraint needed for this difficult part.

BE ON TIME AT 7:30. The Montreal Opera Company will to-night produce for the first time in this city, Charpentier's famous opera, "Louise," which has been the rage of Europe for eight years, and was introduced to this country by the great organization now appearing at the Alexandra Theatre. It is important that the musical public should know that the performance begins sharp at 7:30 p.m., and as the action of the piece is continuous and connected, everyone should be in his seat by that time. The opera will serve to introduce to the Toronto public Madame Pely Dereyne, who is recognized as one of the rising stars of France, and has been generally drilled in the role of Charpentier himself.

Harper, Jordan Broker, McKinnon Building, 10 Dundas St., Toronto.

Ortie McNamagal, on whose information most of the arrests were made, said Mr. Miller, "we have reason to anticipate new aspects. Information is expected to develop at the trials indicating the complexity of many more than those indicted now. We do not assert that we already have all those implicated. This is, however, a beginning."

The indictment on which all the men were arrested was made public to-night. It charges all the fifty-four men with conspiracy to violate the statutes forbidding the carrying of explosives on passenger trains and details forty-seven transportation charges as overt acts and names Orle E. McMannigal, the McNamaras, or Herbert S. Hockin in each act, but does not specify the part taken by the other defendants.

NOTHING TO SAY SAYS SIR JAMES

Hon. Mr. Hanna Wanted to Know How Many Members of the Opposition Committed Themselves.

"Abolish the bar, the trading system and drinking at clubs." This was the slogan with which a deputation representing the Ontario branch of the Dominion Alliance appeared before the government yesterday morning in the interests of the local option movement.

Among those present were Joseph Gibson of Ingersoll, president of the Ontario Branch of the Dominion Alliance, Father Minehan, W. E. Raney, K. C., Rev. Ben H. Spence, Canon Green, I. B. Kennedy, Orlita, R. Rodgers, Owen South.

"Every Christian body in the province has pronounced in favor of the policy I represent," said Mr. Gibson. "You have the whole Christian forces of the country in favor of abolishing the bar."

W. E. Raney said it was a question if the province hadn't already outlawed the present licensing system. "The present system will remain long," said he. "That is apparent, but the question is, what will succeed it?" Mr. Raney did not suggest a substitute because there was a difference in the proposals made to this effect.

"But that doesn't relieve the leaders of public thought of political thought from getting a substitute," he added. "Was this platform, denouncing the government, as it appears in the papers, adopted by the alliance yesterday?" asked Sir James.

Nothing to Say. "It was not adopted, but we are considering it," replied Mr. Spence. "Then, have nothing to say," was the premier's only remark.

"Looking over the legislature," said Hon. W. J. Hanna, "how many members included Sir James' mention of prohibition in their platforms last December?"

"There are many in hearty sympathy," replied Mr. Spence. "Is there one member of the opposition," repeated Mr. Hanna, "who commits himself to the temperance question before the last election?" Mr. Spence responded that several of them said they were on his side.

LIBERAL POLICY BEING FORMED

Before the Legislature Adjourns the Opposition Will Take a Definite Stand, Says Mr. Rowell.

Salaams, interchange of greetings, cordial assurances of mutual admiration and even the expression "God bless you," marked the interchange of remarks between N. W. Rowell, leader of the opposition, and Joseph Gibson, who headed a deputation representing the Dominion Alliance, that visited the parliament buildings yesterday in the interests of a "dry" Ontario.

Mr. Rowell seemed delightfully indignant after having the members of the deputation for the courteous and moderate way in which the case was presented, he assured them with all cordiality that he could not give them any answer at the present time.

Mr. Rowell then read his pre-election pledge, in which he had given the assurance that the Liberal party would form a definite policy on the temperance question. "We are even now conducting an investigation in pursuance of the pledge given," he said. "Let me interrupt you just a moment," said Mr. Gibson. "Are you going to pursue in this investigation the attitude of Sir Oliver Mowat?" "That point has not been discussed," replied Mr. Rowell.

"Yes; but has it not seriously crossed your mentality that such a course would be a proper one to pursue?" was the answering query. "Will Spence Decide." He replied the opposition leader. "I may state that before the present session of the house is over the policy of the Liberal party on the temperance question will be decided on. Our decision will be conveyed to the people of the province without delay. Our policy will be in the interests of the country rather than the interests of political expedience, he added.

HOME RULERS FEEL CHAGRIN Brief Allusion in King's Speech Dashes Hopes—Suffragettes Also Bitter.

LONDON, Feb. 15.—(C.A.P.)—The King's speech at the opening of parliament proved disappointing to both the supporters of home rule and of woman suffrage.

A telegraph message in The Times from Dublin this morning regarding the former states that the scanty reference to home rule disappointed the Irish Nationalists, who hoped for a more fervent allusion to the pro-unionist majority of the session.

Nationalists are still more seriously perturbed by the persistent rumor that the bill will not be introduced until after Easter.

Miss Christobel Pankhurst says the speech has been one more disappointment, and that an impressive demonstration will be made at a very early date and embarrassing the government.

# AT THE THEATRES

**Second Week of Grand Opera.**  
Seats are now on sale for the second week for the Montreal Grand Opera Company. This is not only the largest theatrical organization that has ever visited this city, but the most complete and artistic in its interpretations of classical and modern music. The critical appreciation with which this company has met from people who are regular visitors to the Metropolitan Opera House, New York, and other great opera houses of the world, must be gratifying to everyone connected with the enterprise. Grand opera on a scale hitherto unknown to Toronto is being given exactly at one-third the price that was ever charged in this city for productions of such a quality. The repertoire for next week consists of a repetition on Monday night of "Faust" with the superb cast which rendered it last night on Tuesday the brilliant actress, Farinelli will be heard in her unsurpassed performance of "Carmen", on Wednesday "Louise", the stupendous production, will have its second performance in this city, on Thursday the finest production of Verdi's immortal opera "Rigoletto", that has been heard in either in the United States or Canada for many a year, will be given; while on Friday evening and Saturday matinee the first performance in this country of "Le Chemineau" by Xavier Leroux, and "Le Jongleur De Notre Dame," by Massenet, will be heard.

The engagement will close on Saturday night with a gala performance of Gounod's "Roméo and Juliette".

The first performance in Toronto of Chappentier's marvellous opera of Parisian life, "Louise," will take place tonight, and the music-loving public is warned that the performance will be given sharp at 8.

**"Madame Sherry" Set Sale To-Morrow.**  
The great success that "Madame Sherry" met with in this city on a former presentation, when it appeared that audiences could not see and hear enough of this brilliant musical comedy, has resulted in the booking of a return engagement of the piece at the Princess Theatre, which commences next Monday evening, when audiences will again have an opportunity to enjoy the musical swing and artistic environments of the production. The sale commences this morning.

An important fact connected with the coming engagement is that audiences will see the original New York, New Amsterdam Theatre production of the play with the original "Madame Sherry," Lina Abrahams in the title. This is announced as the last visit "Madame Sherry" pays to this city, and is an all-star performance of the play. Assisting Miss Abrahams are the well-known names of Elizabeth Murray, George A. Schiller, Ignacio Martinetti, Jack Kearney, John Reinhardt, Moe Phelps, Florence Mackay, and the famous "Talking Chorus" of American Beauties, who have been selected by the well-known producer of the play, George W. Lederer.

**"The Stampede."**  
The best proof that a theatrical attraction has merit and that theatre-goers want it is its continuous success from season to season. In these times of critical audiences and exacting dramatic writers, a play that stands the test must possess more than ordinary merit, and this can be said of "The Stampede." For two seasons it has met with great success, both artistically and financially. A. G. Delamater, one of the best known of the prominent New York producers, has given this De Mille play a massive scenic investiture. It calls for scenery of the most elaborate kind and he has spared no expense in making it a fit competitor to "The Hounddog" or "The Squawman." It would remind one more of a Belasco production, so carefully has every single effect been taken care of. De Mille used a more interesting incident for his theme—the States senate some time ago—than in any of the dramas in which the Indian predominates, and consequently, it is of more dramatic interest. Delamater has placed at the head of a most competent cast Lillian Buckingham, a western actress of note, and she will be seen in the part of an Indian girl, who, for her people, sacrifices her own love and happiness. It is a gripping, vital play of intense interest, set in the highest example of modern stage art. "The Stampede" will be the offering at the Grand all next week.

**QUEENS OF THE FOLIES.**  
In the organization of "The Queens of the Folies Bergere," due here at the

Star next week, the management of the show have shown skill and care in making it superior to the average burlesque. Such players as Wood and Meadows, a singing and dancing trio of the first rank, who have played the best vaudeville theatres in the country in the past three years; Joe J. Sullivan, famous as the irresistibly funny McFadden of McFadden's Flats, and a truly finished and natural Irish comedian, Lillian Smalley, the beautiful song bird, whose past connections with "Madame Sherry," and "Our Miss Gibbs," proves her class, and the Misses Comedy Four, one of the most successful quartets in vaudeville—will go a long way toward the making of an attractive and pleasing show—such as the rollicking, frolicking, musical folly is.

**Ben Welch's Burlesquers.**  
Next week's attraction at the Gaiety will be "Ben Welch's Burlesquers" under the direction of Jack Singer (Inc). Particular attention has been paid to the costuming and mounting. The olio is a special feature and is headed by Ben Welch. All in all, the performance will give you pleasure and satisfaction. The sunshining personality of the players will warm the cockles of your heart, the music is jaunty and fetching and the surroundings are brilliant and attractive. It demands recognition from the theatre-going public, and its unparalleled success has shown that the stamp of approval has been affixed already. The company, headed by Ben Welch, who will appear at every performance in the burlesque, as well as the olio, includes Lew Kelly, Pat Kearney, Vic Cashmore, Ben Burditt, Della Curley, Alice Clifton, Patsy Delaney, Edna Western, West Sisters and the Three Chesters.

**Schubert Choir.**  
No musical event of the season will create greater interest than the appearance of Jan Kubelick, the great pianist, who appears at Massey Hall on Tuesday night, Feb. 20, with the Schubert Choir. Kubelick is an entire stranger to a Toronto audience, and his name is mentioned in the program of the concert to be given at Massey Hall on Monday evening, Feb. 19, at 8. Mrs. Pasquall, the brilliant coloratura soprano of the Metropolitan Opera House, New York, and Mr. Henri Scott, basso of the Chicago Opera Company, Madame Pasquall being the leading soprano of New York. A few nights ago, at a performance of "Lucia," given at the Metropolitan Opera House, she received nine encores during the evening.

Henri Scott, the principal basso of the Chicago-Philadelpia, is an artist with a world-wide reputation, of whom Oscar Frazee has declared he had one of the finest bass voices he had ever heard. The plan is now open to the public at Massey Hall.

**Held Fine Rehearsal.**  
Dr. Norman Anderson, musical director of the Toronto University Glee Club, "tried out" at the last rehearsal the program for their concert in Convocation Hall, Feb. 22. The result, the admitting further improvement in detail, was very alike, and when the night of the concert arrives, there is no doubt that the reputation for the male voice singing of a difficult, but interesting, program. The Toronto String Quartet will assist with a specially pleasing program. Plan opens Thursday at Bell piano rooms to subscribers: Friday to the public.

**CAMORRISTS RELEASED.**  
VITERBO, Italy, Feb. 14.—(Can. Press.)—The court which for a year has been engaged in the trial of the thirty-five members of the Camorra to-day ordered the release of Francesco Desiderio and Antonio Perocco, two of the men accused of having been present in the Alida Tavern, in Baxnoll, on May 23, 1906, when Genaro Cuccolo was condemned to death for treachery by a court of the Camorra.

Intense excitement was created among the public when the order for their liberation became known. The judge gave as his reason for the step that both prisoners had already served their term, and that they were found guilty of being accomplices.

Seven more Camorristas are to be released to-morrow and a further thirteen on Friday for a similar reason.

**Elizabeth Murray Had Stage Fright Never**  
No name is more popular to those who visit the vaudeville than that of Elizabeth Murray, whose personality and brilliant wit have made thousands of people laugh with and love her. Now Miss Murray has turned her back on vaudeville, and what is vaudeville's loss is the legitimate drama's gain. She returns to this city next week at the Princess Theatre as one of the all-star cast of the extra-blue-ribbon, all-original, number one special "Madame Sherry" Company, which is touring the large cities with the most expensive cast that has yet been given to the "Madame Sherry" Company.

Miss Murray declares that no incident of her life has been more important or dearer to her than the one which took place on the night upon which she stepped upon the legitimate stage in support of Miss Lina Abrahams in "Madame Sherry."

"It may be thought an easy matter to step from one form of entertainment to another," said Miss Murray, "and the experience of one to qualify for anything of the sort and come pretty near blowing up."

Elizabeth was attempting to describe the situation and the incidents of her recent and rapid voyage from the individual responsibility of vaudeville headliner to the less individual, yet fully as important, responsibility as a member of a regular company, giving a regular production, to another, said Miss Murray, "and these were trying times for the popular vaudeville artist who is relieved day after day with the members of the 'Madame Sherry' Company."

"Maybe you think I wasn't scared, but I was, thru and thru, up and down and sideways. I had never played a part never attempted to play a part and never expected to play a part. Yet, when this opportunity arrived, I said to myself, 'Elizabeth, grab it! The experience and possibilities will be quite attractive, anyhow.' I then got my diminutive number and footings, signed up a contract and then proceeded to go thru the entire range of degrees of 'Fahrenheit's' every degree far into the night. It was something fierce."

Notwithstanding her harrowing experience with the legitimate, however, Miss Murray has evidently made good with her managers, Messrs. Woods, Frazee and Lederer, for they are arranging to star her next year in a new comedy written especially for her.

**Of Value to Automobile Owners**  
Fine New Accessories Department Opened by Russell Motor Car Company.

What is perhaps the most complete automobile accessories establishment in the city has been opened on the second floor of their building at 100 Richmond Street West, by the Russell Motor Car Co. The company's business in motor accessories has grown so fast that the quarters formerly occupied on the showroom floor have become much too small to accommodate the business.

The Russell Company, owing to its distributing facilities through Canadian branches and agencies, have the one of the latest and most popular starting devices on the market, and which can be applied to four-cylinder cars of any make. It is the purpose of the company to carry very heavy stocks of everything which a motorist may require, and make a specialty of quick service.

**UNANIMOUS FOR CHURCH UNION.**  
BROOKVILLE, Feb. 14.—(Special.)—The quarterly official board of Wall-street Church, Brookville, representing one of the largest Methodist congregations in the Montreal Conference, voted unanimously in favor of Church union.

**CANAL PROBLEMS**  
A. W. Wright Will Speak to Empire Club on the Subject.

A general invitation has been issued to the members of the Toronto Board of Trade by the Empire Club to attend their luncheon, to be given at the St. Charles Restaurant to-day at 1 p.m.

An address of more than usual interest will be delivered by Mr. A. W. Wright on "Canada's Canal Problems." Mr. Wright will deal with the subject of canals in a general way, emphasizing the necessity of depending on the Welland Canal, of which the board of trade have taken so much interest in the past.

Probate has been admitted of the will of Mary Fitzgerald, wife of Daniel Fitzgerald of the City of Toronto, who died on the 23rd day of January, 1911.

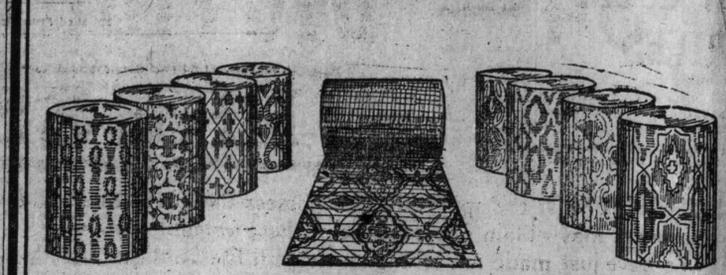

Mrs. Fitzgerald left an estate of \$15,000, and in addition, an interest in the estate of her grandfather, William Dugdale, of Liverpool, England, which has not yet been realized.

The will disposes of \$200 to each of the following charities: House of Providence, the Sacred Heart Orphanage, Sunnyside; the Precious Blood Convent, the Monastery of Lady of Charity, St. Vincent de Paul Society, St. Vincent Infants' Home, and the sum of \$500 for masses. The sum of \$12,000 to her cousin, James B. Wright, of the City of Toronto, the equal annual instalments, and the residue to her husband, Daniel Fitzgerald, who was appointed the executor and trustee.

**Anna Belle, with "The Passing Parade," at the Gaiety.**

**Miss Lillian Smalley with the "Queens of the Folies Bergere," at the Star next week.**

# The February Carpet Sale

Decidedly you will find that the Carpets themselves supply the best possible argument we can advance as to why you should take advantage of the reduced prices we quote during this sale and make selections now instead of waiting until later in the season. We invite you to see them. The display is of the easiest possible access, on the ground floor, just inside the entrance door, and the whole stock is included in this great February event. Note the sale prices here quoted on some principal lines in these incomparable weaves:—

**Kay's English Wiltons**  
In this make of Pile Carpet we show some beautiful examples of Oriental designing in carpets for the living-rooms, while for bedroom use there are dainty patterns in light shades of grey, green and blue, with narrow borders to match. Our regular prices, which range from \$1.65 to \$2.75 per yard, are suspended for the month in favor of sale quotations of \$1.35, \$2.00 and \$2.25 per yard.

**Kay's English Brussels**  
This carpet is always in large demand for bedrooms, and we show many effective designs suitable for use in these rooms. Soft shades of rose, blue, grey, green, etc., predominate in small trelles and other designs, with narrow borders to match.

**Kay's English Axminsters**  
Oriental designs, in dark and medium colorings, are peculiarly well suited for dining-rooms, sitting-rooms, libraries, dens, etc., and our stock of Axminsters is rich in designs of this class. Beautiful Persian effects, with India blue, camel or red grounds and Turkish designs in reds, blues and greens, being largely represented. Our regular prices range from \$1.75 to \$3.50 per yard. During February the prices are \$1.35, \$2.00 and \$2.75.

# Special Values in Remnant Rugs

In order to quickly dispose of the remnants of carpet that so rapidly accumulate, we have kept our sewers busy during the last few weeks making them up into rugs with match borders, and a large number of the completed rugs are now on sale. Axminster, Wilton and Brussels Rugs are all included, and there is a wide variety of color effects and designs. These rugs form no part of our regular stock, and we have marked them at extremely low prices, ranging from 30 to 40 per cent. below regular values, in order to ensure quick selling. Note the particulars which follow concerning a few of these Rugs:

**AXMINSTER RUG**—A self-tone crimson, in a floral design; size 12.9 x 7.8. Regularly \$33.00, for \$28.50.

**WILTON RUG**—A self-tone rose effect; with lattice centre, and green and tan border; 10.6 x 7.8. Regularly \$41.00, for \$36.50.

**AXMINSTER RUG**—In a lawn, terra cotta and bronze floral design; 13.0 x 7.8. Regularly \$36.00, for \$32.50.

**AXMINSTER RUG**—In a dark rose, Persian design; 8.6 x 7.6. Regularly \$28.50, for \$24.00.

**AXMINSTER RUG**—A self-tone green, scroll design; 13.8 x 7.6. Regularly \$40.00, for \$35.50.

**WILTON RUG**—In a light lawn, cream, rose and green lattice design; 10.9 x 7.6. Regularly \$39.50, for \$32.90.

**WILTON RUG**—In dark bronze green, crimson and navy effect; 7.6 x 7.6. Regularly \$30.00, for \$27.00.

**AXMINSTER RUG**—In a rich navy blue, red, green and brown Oriental design; 12.6 x 9.8. Regularly \$48.00, for \$43.50.

**WILTON RUG**—A small lattice design in golden brown; 12.2 x 9.9. Regularly \$46.00, for \$42.00.

**ADULTERATED MAPLE PRODUCTS**  
asked for maple syrup. One grocer in Saskatoon insisted on calling a can of mixture pure, even after I called his attention to the label on the can. To put the case as it is here, if a grocer has both the pure and the compound, he will explain to his customers when they ask for maple syrup that he has them their choice. On the other hand, if a grocer has only the compound, as is the case with many, he gives out the compound to customers asking for maple syrup without any explanation as to its contents.

There appears to be very little distinction made in regard to price between syrups sold as pure and those sold as compound or maple flavor. The one varied considerably in price, but reducing them all to the price per gallon the six samples sold as pure average \$2.50, the two sold as maple flavor \$2.37. I think you will agree with me that this indicates a very unsatisfactory condition in the western trade.

The maple flavor stuff brings within 13 cents of the price of the pure. The compound, which contain a portion of maple, even if it be but a very small one, sell on an average at \$1.95—40¢ per gallon less than the flavored goods that never saw a maple tree.

This goes to show that while the ordinary man who understands English flavor, he is not sufficiently conversant with the process of manufacture to be able to tell whether he is paying too much for his goods or not, or whether he is buying an article which is misrepresented.

The new standard for maple syrup recently, makes maple syrup illegal, containing more than 25 per cent of water, and maple sugar 10 per cent of water. This is by far the best work done by the department at Ottawa. But this new standard fails to provide for protection to the producer as well as to the consumer against adulteration. What is required is an amendment to the Adulteration Act, making it illegal to use the word "Maple," or any of its derivatives on the labels of any package of maple syrup, unless the same be guaranteed absolutely pure.

We would request every maple syrup and sugar maker who reads this article to make it his business, in his own interest, to draw the attention of the member of parliament of his county to the situation, and persuade him to use his energetic endeavors to have the law amended, and thus protect both maker and consumer from the adulterator.—John H. Grimm, Montreal.

### General Contents of Webster's New Illustrated Dictionary

Based upon Noah Webster's Dictionary, revised and brought UP TO DATE in accordance with the most recent eminent English and American authorities on spelling, pronunciation and definition, and especially designed to meet the popular demand for a CONVENIENT, complete and RELIABLE Dictionary.

It contains all the words of the English language that are not peculiarly appropriate to a Dictionary of technical terms; it gives the Spelling and Pronunciation of Plurals and indicates the use of capital and small letters in writing every word in the vocabulary. It gives the past tense and the participles of all verbs not regularly formed by the addition of -d, -ed and -ing; the Pronunciation of each word is plainly indicated by phonetic spelling; the Definitions, comprehensive, yet concise, are accurate and reliable.

Preceding the Dictionary proper will be found a treatise on ABBREVIATIONS of the Parts of Speech and their grammatical signification. Also a discourse on the Origin, Composition and Derivation of the English Language.

The ANALYSIS of the "Principles of Grammar" will fill a long-felt want in promoting the correctness of speech, both spoken and written.

Under the head of "SIMPLIFIED SPELLING" will be found the rules as adopted by the SIMPLIFIED SPELLING BOARD, and giving a complete list of 200 words spelled in two ways, of which the Board says, "Choose the simpler spelling."

Finally is given a Complete KEY TO PRONUNCIATION.

## SCARBORO FARM STOCK SALE BRINGS NEAR \$5000

More and Cows Sell For \$1000—Big Crowd Present—Snappy News From All the County.

AGINCOURT, Feb. 14.—(Special.)—The auction sale of high-class horses and cattle held here to-day, the property of Thomas Shaddock, was one of the biggest events in Scarborough for a long time. The crowd was one of the largest seen this season and everything sold well, bidding being spirited throughout.

Imported mare sold for \$700 and her spring colts for \$200, \$100 for the pair. Another mare sold for \$500 and her spring colts for \$100 more. In the horse horse sale, cows sold from \$80 to \$70 each and the implements and general farm truck brought good figures.

Three causes led up to the splendid success of Mr. Shaddock's sale, viz., the splendid quality of the stock offered which was in the pink of condition, the fact that the horses were the good capable man and up-to-date farmer (that is) advertised his sale extensively in The World, and the bringing buyers from all over, and the presence of John H. Prentice, the well-known auctioneer. The threefold attractions were irresistible.

Mr. Shaddock was himself not able to be out at the sale being confined to the house with an attack of inflammatory rheumatism, but when he is fully recovered the family will remove to this village and take up their residence here. Agincourt has lots of room for the accommodation of many more good citizens.

The total receipts of the sale will be approximately in the neighborhood of \$4500.

## WEST TORONTO

### What's Going On In The Big Western Ward

WEST TORONTO, Feb. 14.—(Special.)—The Humber-side Collegiate again defeated the Parkdale Collegiate, even when they met in their second game of the season on the evening of Monday afternoon. At halftime the score stood 2-0 in the Humber-side boys' favor, but during the second period the Parkdale students succeeded in securing a couple for themselves, and the final score was 2-2.

## Dress Warmly To Avoid Colds

Few people are careful enough in regulating the clothing to meet the changes of temperature. And until more attention is given to dressing suitably there is little chance to check the increase of the great white plague.

By unduly exposing the throat and chest by wearing thin shoes, by insufficient protection to the body, by passing quickly from overheated rooms to the chilly outdoor air-cold are contracted and too often neglected until serious developments arise.

Dr. Chase's Syrup of Linseed and Turpentine is a medicine of thorough and far-reaching action on the human system. It is not a mere relief for coughing, but a positive cure for the cold.

# Only One-Third of Total Crop Has Been Moved in the West

Special Commissioners Who Have Been Investigating Say That Last Year's Crop Will Not Be All Moved Till Next September—Railway Rates Are Being Adjusted.

The Winnipeg Free Press, which has shown an intelligent interest in the transportation question and freight rates as they affect the western farmer, is now investigating actual conditions in the west, caused by the car shortage and the possible relief by an outlet for Canadian grain thru the railways of the United States.

For this purpose the Free Press has sent a commissioner thru the prairie provinces and another to Minneapolis. In its issue of the 12th instant its constructive reports are published, one from its representative, then at Zealandia, Sask., and the other from its representative recently despatched to Minneapolis.

The correspondent from Zealandia reports that not over one-third of the wheat crop in that vicinity has been moved from the farms, the greater part of it lying upon the ground honeycombed with ice.

Zealandia is on the C.P.R., a non-competitive point, and at present is second about ten cars a week. The Free Press correspondent computes that at this rate last year's crop will not be all moved until next September.

A considerable portion of the wheat crop has not yet been threshed, and about one-third of the crop is still to be threshed. The district tribune reports that Zealandia produced last fall about 2,000,000 bushels of grain, 1,600,000 being wheat and 400,000 barley.

The fact that this district quadrupled its grain output over the preceding year illustrates how the western country is outrunning its railway service.

Some Grain Is Drawn. The correspondent observes, however, that some grain is drawn, at some distance, to other points for shipment on the C.N.R. and the G.T.P. Orders for 175 cars have so far received no attention. Not only this but it appears that speculators have put in orders for cars and peddle their grain to the grain growers. Moreover a tipping system is being used by which car orders by one farmer go to another and are even switched from one to-day to another. A considerable portion of the wheat in this district, thru exposure to dampness and cold, is in danger of becoming moldy and unfit for use.

Condition Unimproved. Reviewing general conditions at this point The Free Press commissioner says: "Storekeepers, implement agents and bank managers report, so far as Zealandia is concerned, an unimproved condition of affairs. Purveyors of the necessities of life find it impossible to close their books, although this is usually done by the end of the month. It is simply a case of renewing their inventories. Bankers are unable to reduce their loans, are obliged to add to them. An implement agent told me to-day that his firm had \$30,000 outstanding but could not collect more than one-tenth of what was due. Grain commission firms, I hear, are beginning to send out notices to the effect that they will not advance more than \$200 on a car until the latter is inspected. I find that the storekeepers here have received the circular from the Winnipeg Credit Men's Association with regard to a suspension of the elevators, the idea being to permit the elevators to get out the tough grain of small farmers. A local storekeeper told me that he had not been able to get signatures to the petition except odd ones. It was no use, he said, broaching the question to farmers, as they would not look at it twice. They claimed they had been fighting the elevator companies for over a year and didn't feel inclined to concede an inch of what had been their position to ship a whole car of grain."

There is also, he declares, a great demand in Minneapolis for Canadian barley and flax. Apparently the wheat point he makes is to the effect that Minneapolis welcomes such

IT ALL STARTED WITH LA GRIPPE  
And the cure was quick and sure when he used Dodd's Kidney Pills.

Lower Abouggoggin, Westmoreland County, N. B., Feb. 14.—(Special.)—"I had a severe attack of La Grippe, which developed into Diabetes and Bright's Disease, but Dodd's Kidney Pills cured me. I am now seventy years old, but I am in good health. I can't say enough to tell you I am well-satisfied with Dodd's Kidney Pills."

Such is the story of Damien Boudreau, one of the oldest and most highly respected inhabitants of this province. He was attached as lieutenant to the naval brigades, while attacking a fort they suffered from the extraordinary marksmanship of one of the rebels.

Salmon volunteered to climb a tree, which exposed him to almost certain death, in order to pick off the Indian marksmen. He held his breath until he was hit by the sharpshooter, but Salmon shot the Spy dog dead.

Quiet Speculation in Stock Markets---Sentiment is Cheerful

Wall Street in Languid Mood And Market Moves Narrowly

Few Signs of Life in Stock Trading and Prices Barely Move--No New Developments.

NEW YORK, Feb. 14.--Few of the active stocks moved either up or down as much as a point today. Quotations were advanced in a languid way at the opening, fell back again to an approximate level with yesterday's close, and stayed there until shortly before the end of the day, when a bear drive weakened the list.

Pressure against some of the less active industrials, particularly the shares of the independent steel companies, led to reports of dividend reductions. The copper stocks were again strong, and the producers were said to be doing a fairly good business.

BIG FINANCING BY U. S. RAILROADS

NEW YORK, Feb. 14.--The Chicago and Northwestern Railway Co. is planning to do some additional financing. This will take the form of an issue of securities to the amount of \$10,000,000.

Rio Earnings

The Rio de Janeiro Tramway, Light and Power Co. reports gross earnings for the last week, as received by cable, as follows: \$220,712, increase \$32,221.

European Prices

PARIS, Feb. 14.--Prices were firm on the bourse today. More favorable views of the international political situation and firm foreign demand caused a decided improvement on the bourse here today.

ON WALL-STREET

Erickson Perkins & Co. had the following: Professional traders, after a lethargic session, possessed themselves of enough courage in today's trading to formulate an attack on Steel and Banking, which again carried the former back under the 60 level and Reading under 157.

London Didn't Like The King's Speech

LONDON, Feb. 14.--Money was in good demand, and discount rates were easy today. The stock market opened quiet and generally higher with the exception of Consols, which declined on an eighth on profit taking.

# Stamp Mill Era in Sight for Porcupine--Stocks Lower Again

## Hollinger at New Low for Year Shake-out in Mining Market

### Porcupines Turn Weak in Last Hour's Trading--Cobalts Reflect Advance in Silver Metal Prices.

World Office, Wednesday Evening, Feb. 14.

The continued weakness of Hollinger, which fell as low as \$11, disrupted settlement in the local mining exchange today, and incidentally carried prices of the other Porcupine issues lower, creating profit-taking aided the movement in the stocks most prominent in the advance of late last week. Closing prices were generally at declines for the day.

During the morning session prices related to the pressure with marked stability, and in some instances actually rose above their previous records. Thus Dome Extension sold above 44 and Vipond was bought quite freely around 47. The break in Hollinger, however, had an effect all its own on sentiment, and during the last hour's trading prices sank rapidly, stocks being thrown down in large volume at the close of the day.

The slump in Hollinger to the \$11 mark, a new low record for this year, has proved a decided disappointment to the brokerage fraternity. As today's figure the stock was quoted \$24.00 a share below the top price reached on the January rise. The selling has represented, more than anything else, the realization from "real" holders who were waiting on the old market, aware that stocks should be sold on the receipt of good news. The market for gold was formerly sustained by the report on the property; now that has been given out, the stock is selling at its own weight, since there is nothing on which to build up speculative sentiment.

The liquidating movement late in the day carried Vipond down three points to 47, and Dome Extension down two points to 42. Much of the selling was accepted as representing the closing operations of floor traders, who are engaged in working the market for quick turns. Closing quotations in both instances were well below figures for the day. Prices elsewhere sagged in sympathy, and declines were shown in Rea, Foley, Peterson Lake, and several others.

The Cobalts were quiet, but generally firm, with strength in the big stocks, which were no doubt influenced by the advance in silver prices.

## Timisk's Surplus Is Now \$477,441

The fifth annual report of the Timiskaming Mining Co. shows the income of the mine during 1911 amounted to \$477,441, and the expenditure to \$277,441, leaving the handsome profit on the year's working of \$200,000. Of this amount \$24,999 was disbursed in dividends, and the remainder added to the year's balance on profit and loss account, making the total surplus \$477,441. This total dividend paid by the mine is \$1,000,000 since the start of the total production of the mine, which was somewhat less than that of the previous year, was 1,213,754 ounces.

## LITTLE NIP LEASE WORKED BY OWNERS

COBALT, Feb. 14.—Operations have been resumed at the Little Nip lease by the owners of the property, the Peterson Lake Company, who have cancelled the lease owing to non-compliance with conditions by Little Nip Company.
