C. W. DILL GETS THE POSITION
Of Highway Inspector in City Engineer's Department—He is a Graduate of Toronto

In a letter to the Mayor, George J. Woods, submitted several more reasons, in addition to his others, why the gas mains should be extended so as to supply the residents on Broadview and Danforth avenues. He says the company have extended their mains to Key Beach, which is a far more outlying district than the one in question. When the mainline is completed, gas will be necessary there in Mr. Woods' opinion, and that the company would be fully repaid for its expenditure.

The collection of water rates ended yesterday, and the City Treasurer thinks that it will be fully up to the average.

The new inspectors of the City Engineer's Department, who have been appointed by City Engineer Rust, are as follows: C. W. Dill of Broadview, who has recently been employed in British Columbia.

Owen G. Nichols, manager of a visitors' information bureau at Buffalo, in a letter to the Mayor, suggests that a similar one be established in Toronto, to co-operate with his during the Pan-American Exposition.

CANNOT DO WITHOUT A NAVY

Commander Wadhams Talked to the Arbitration Conference on Practical Lines.

AND IN REGARD TO DISARMAMENT He Said, Bullets Had Their Uses, and Nothing Was So Influential With the Turk.

Lake Mohawk, N.Y., May 31.—Commander Wadhams, U.S.N., addressed the Arbitration Conference today on the subject of disarmament. He would have all international difficulties referred to the Hague Court, he said, and he would be glad to see a world's police army organized.

Guns, however, had their uses. Nothing was so influential with the Turk while favoring arbitration, the United States could not do without a navy, else how would our missionaries be protected and our commercial interests promoted?

How else would the murderers of Americans in little kingdoms be kept in check? Mr. Wadhams said he believed like to see a disarmament, but not until after the other nations disarmed.
