ASQUITH'S THREATS TO TENDER ADVICE TO THE CROWN PLEASE THE IRISH

Debate on the Veto Power of the Lords Concludes Amid Uproar, Hisses and Cries of "Traitor."

MONSTROUS PRICE FOR BUDGET, SAYS BALFOUR

LONDON, April 14.—Amid scenes of intense excitement, hardly paralleled since the Gladstonian home rule debates, the house of commons to-night by majorities of 103, recorded its approval of Premier Asquith's resolutions dealing with the veto powers of the house of lords, and hearing the premier's declaration of policy for carrying them into statutory effect.

Having formally introduced, amid loud cheers, his supporters' bill embodying the resolutions, Mr. Asquith said that they were confronted by an exceptional and perhaps a unique case. The government's action, since depended upon the passing of the resolutions into law. If the house of lords failed to accept or declined to consider their policy, the government would feel it their duty to advise the crown as to what steps were necessary to ensure their policy receiving statutory effect.

It would not be right, he continued, for him to disclose the terms of that advice, unless the government should find themselves in a position to give their policy statutory effect. They would either resign office or recommend dissolution of parliament.

But in no case would they advise dissolution except under such conditions as would ensure that, in the new parliament, the judgment of the people, as expressed at the elections, would be carried into law.

Balfour's Criticism.

The premier's statement was interrupted by cheers and counter-cheers. There was much laughter from the Conservative benches when he said that he could not disclose the terms of his intended advice to the King.

Mr. Balfour, leader of the opposition, rose amid a considerable uproar, and said that the premier's important statement represented the termination of long negotiations with the Nationalists. They had agreed to realize the budget, their agreement whether they had never concealed, in order to get home rule.

The negotiations seemed to him to have been both parties rather poorer than he declared, was paying a monstrous price for the budget. Then, in what a position had the premier put the crown.

The announcement, months beforehand, that to meet certain undefined conditions the government would suggest what was nothing more or less than the destruction of the constitution, was beyond the idea of duty as entertained by any predecessor of the premier, who had bought the Irish vote at the price of the dignity of his office, and its great traditions, of which he, of all men, owned the custodianship.

Redmond To Fight.

The speaker having adjourned the house, an uproarious scene ensued. There were hisses and cheers, and cries of "dynamite," "traitor," and similar names. While Mr. Redmond, the Irish leader, appeared to be trying to reach a Conservative member, who had used an offensive expression, nothing serious occurred, but the demonstrations were renewed in the lobby, where the members, especially the Nationalists, engaged in excited discussion until the lights were extinguished.

The Irish members appeared to be highly pleased with Mr. Asquith's statement.

THE AUSTRALIAN TURN-OVER  
Labor Party Have a Radical Policy—Deakin's Close Call.

MELBOURNE, Australia, April 14.—Premier Deakin's own majority was reduced from 6000 to 360 in yesterday's labor triumph, which has produced a profound sensation. While apparently there was no great difference between the programs of the parties, there was a big divergence in principle. Labor is strong for concentration of power in the federal government, while the Unionists desired to strengthen the authority of the states. A graduated landtax and industrial legislation on advanced lines is inevitable. The first session of the parliament with "new production" as the policy, giving the benefits of the tariff to those manufacturers who only pay higher wages, will be watched with interest.

PHILADELPHIA STRIKE SETTLED  
Struggle Which Began Two Months Ago is Ended.

PHILADELPHIA, April 14.—The strike of the employees of the Philadelphia Rapid Transit Co., which began Feb. 12, was settled to-night.

The terms of the settlement have not yet been made public, but it is said to include many of the features which were strong for concentration of power on March 29, when the company agreed to take back all the strikers and to guarantee them \$2 a day until regular runs could be made for them. The cases of the 174 men whose discharge precipitated the strike on Feb. 14, will be submitted to arbitration.

HOT AFTER OWNED ON THE IRISH RAILFAIR

Despite the Minister's Explanations, Middlebro and Crothers Let Loose Some Strong Statements.

OTTAWA, April 14.—An unprecedented "sustained tirade of unwarranted asserions," was Hon. Frank Oliver's mildest characterization of Mr. Bradbury's four hours speech last night on alleged frauds on Manitoba Indians by government officials.

The discussion continued all to-day and to-night. On division Mr. Oliver was sustained by 107 to 57, the largest majority of the session. The Conservative whip was caught napping.

Where lands held by Indians were not being used to their profit, it was policy to have them surrendered in exchange for money, Mr. Oliver argued.

The surrender of lands on St. Peter's Reserve arose out of attempts made to secure the title of whites and half-breeds who held the lands individually within the area occupied by the reserve. Chief Justice Howell, as commissioner to adjust the claims of the whites and half-breeds, found affairs which made a surrender of the lands necessary. The terms of surrender were negotiated by him at from \$4 to \$17.50 per acre.

Mr. Bradbury interjected that the minister had shown ignorance all thru his speech. The members of the band had not signed the surrender, and therefore it was not legal.

Mr. Oliver insisted that the Indians knew before they voted what they were voting for. Terms had been discussed time and again.

As regards the sale, he would say, without reference to any member of the house, that anyone who said the land was sold without proper advertisement was absolutely regardless of the truth. The land was sold by auction in the open light of day. It was an extraordinary case, and extraordinary measures had to be taken.

Some "Hard Facts."

W. S. Middlebro (North) drew up the transaction was a blot upon the administration of the interior department. Part of the land which had been sold for \$5 an acre was sold to the government for \$20 per acre, and other portions were assessed at \$24. No public body, no provincial authority and not even the Town of Selkirk had petitioned for the sale, only S. J. Jackson, ex-M.P. for Selkirk.

Mr. Middlebro produced a couple of patents, one of land purchased from a widow, another of lands bought from an old resident, both illiterate, and said that both declared they had not received the amount per acre mentioned in the documents. He drew the conclusion that the Indian agent had taken advantage of their illiteracy to sell lands to the government at a profit.

Only \$191,000 had been got for the land, which ought to have brought \$720,000. Only \$12,000 now remained of the sum.

Crothers' Strong Words.

T. W. Crothers (East Elgin) said it was pitiable to the minister's friends in the house to see the feeble arguments he had advanced. He quoted from the Indian Act to show that there was no authority to make a patent of public lands to an unfranchised Indian. The transaction, he described as one of the most contemptible schemes and swindles. He did not know Chief Justice Howell, but he did know that chief justiceship granted by this administration carried no guarantee for everyday common honesty. He was describing Mr. Oliver as guilty of the most contemptible conduct, when Mr. Fielding rose to a point of order and Mr. Crothers altered his statements and said it was the greatest breach of public trust ever brought against a government, already on the eve of national bankruptcy and tottering to its fall.

Hon. A. B. Aylesworth, the last speaker, vigorously defended Justice Howell. He felt sure that Mr. Crothers, upon reflection, would be inclined to retract his statements.

WOMEN HISS PRES. TAFT FOR ANTI-SUFFRAGISM

His Fear, at Suffrage Association Convention, of Undesirable Power, Brings Objection.

WASHINGTON, April 14.—The president of the United States, the first chief executive of the nation ever to greet a convention of women suffragists, braving the danger to-night of facing an army of women who want the ballot, had the courage to speak his opinion and was hissed. So great was the through that sought admission to the hall, that hundreds were turned away.

President Taft was welcoming to the delegates to the convention of the American Women Suffrage Association. He had frankly told them that he was not altogether in sympathy with the suffragists. He thought one of the dangers in granting suffrage to women, was that the woman as a whole, were not interested in it, and that the power of the ballot as far as women is concerned would be controlled by the less desirable class.

The walls of the convention hall echoed a chorus of feminine hisses, which sounded as if a valve on a steam engine had broken.

President Taft stood unmoved, and then said: "Now, my dear ladies, you must show yourselves capable of self-restraint which degree of restraint which is necessary in the conduct of government affairs by not hissing. Afterwards, he was heartily applauded.

He then said: "In certain states, which have tried the experiment, states in the Rocky Mountains, where there is no great concentration of population to cope with, equal suffrage has not been a success. It has not made, I think, any distinct difference, tho it is possible to say that it is showing some improvement in the conduct of public affairs. Permit me to say that the task before you in establishing your political rights is not in convincing the men, but in convincing your own class."

Mr. Taft's speech was greeted with a first report on church work, including work she had done in Toronto. There are six million women wage-earners in the United States, thousands supporting their families, while three-fifths of church members are women. Secretary Professor Peck reported that the women workers in the field, and everyone optimistic of near success.

Flora MacD. Denison is the fraternal secretary of the Canadian Suffrage Association.

Dr. Joachim Guinane, 104 Wilton-avenue, has been appointed license commissioner for Toronto to fill the vacancy caused by the resignation of Daniel Miller.

The news of his appointment reached Dr. Guinane late yesterday afternoon from the provincial secretary's department. In view of the many objections which had been made in regard to the appointment this news will be a surprise to many, to no one more than the doctor himself.

The doctor is of the most prominent Conservatives in the city. He graduated from the University of Toronto in 1887, and immediately started to practice in London. After five years in that city he came to Toronto, where he has ever since been a prominent practitioner.

U.S. Steel Trust Increases Wages

225,000 Employes Will Be Affected, and Pay Rolls Will Have an Addition of \$9,000,000.

NEW YORK, April 14.—Substantial increases in wages by the subsidiary companies of the United States Steel Corporation will soon be announced, to become effective May 1, it was officially stated here to-day.

The proposed increase will apply to a large majority of the corporation's 225,000 employes and its total figures will increase the pay rolls of the steel corporation by about \$9,000,000 annually.

A PALACE OF JUSTICE

Likelihood of Fine New Structure for Ottawa.

OTTAWA, April 14.—(Special.)—A palace of justice at Ottawa is contemplated. Houghton Lennox (South Simcoe) asked Hon. Wm. Pugsley if the supreme court would be put in a new government building. The minister said no, but asked that the judges liked the present site, and the idea had occurred that a building might be erected upon it to accommodate the supreme court, the exchequer court, and the railway commission.

SPRING STYLES AT OTTAWA

TORONTO MISSIONARIES ATTACKED BY RIOTERS

Serious Disturbances at Changsha, China, But No Loss of Life—British Gunboats To Rescue.

SHANGHAI, April 14.—The Wesleyan-China Inland Mission at Changsha, the capital of the Province of Hunan, was destroyed by rioters to-day. The missionaries took refuge in the Yamen, which the rioters subsequently attacked. There was no loss of life.

Two British gunboats are hurrying up the Yang Kiang for the purpose of quelling the disturbance.

The outbreak is attributed to the indignation of the natives at the seizure of the Chinese officials in coming and exporting rice.

Three Torontonians Are at the Scene of Trouble.

J. S. Helmer, secretary of the China Inland Mission, had no intimation of the disturbance yesterday afternoon. The Wesleyan and China Inland Mission, he stated, were two distinct missions. The Mission of Yale University also labored in Changsha. The Wesleyan Mission had five or six workers, while the China Inland had 11 missionaries, distributed in several stations, including Dr. and Mrs. Keller (Toronto), B. K. Vervayr (England), Miss Tilley (Toronto), and seven German workers.

Changsha, the capital of the Province of Hunan, is situated on the Siang-Kiang, 50 miles south of its embouchure in Lake Tong-Ting-fu. It is a seat of silk industry and is the home of the famous College of Yolo. The population is estimated at 300,000.

65TH REGT. MAY GO TO PARIS

Rudolph Forget Offers to Defray Expenses, If—

MONTREAL, April 14.—(Special.)—The statement was made to-day in military circles that Honorary Colonel Rudolph Forget, M.P., of the 65th Regiment (French-Canadian) will take the whole regiment of 600 men to London and Paris; also, that while here, en route for the old land, the Queen's Own Rifles of Toronto will be the guests of the 65th.

There was some talk of a civic reception, but the colonel of the Queen's Own expressed a preference for a reception by the brother soldiers of Montreal.

Mr. Forget's offer is conditional. If Lieut.-Col. Labelle's regiment can be got into perfect shape, and if the boys will attend their drill, the trip will come off. He says, however, that he does not fear a comparison of the 65th band with the best military musical organizations in the French army, that of the Garde Republico, of course, excepted.

MAY HAVE FATAL RESULT

Youth Has Skull Fractured in Collision With Motor.

Gordon Cameron, aged 16, of 179 Lisgar-street, rode his bicycle into an automobile at the corner of Devonshire-piece and Hoskin-avenue at 6:45 last night, and landed on his head on the road, sustaining a fracture of the skull, which may result fatally.

The boy was riding northward out of the University of Toronto grounds at a fair rate of speed. The automobile was running eastward, close to the sidewalk, on Hoskin-avenue. The fence obstructed the view and neither boy nor driver of the machine saw each other. As there is but little more than the width of the sidewalk between the fence and the road, neither had time to avoid the accident. The boy ran into the rear wheel of the machine. The man in the machine went back, found that the boy needed a doctor, and went after one.

In the meantime a medical student examined the boy, and found he was seriously injured, and hailed another automobile, taking him to St. Michael's Hospital. Dr. F. E. Uren attended the boy at the hospital.

DISASTER IN QUEBEC

Score of Workmen Buried Beneath Tons of Earth.

QUEBEC, Que., April 14.—(Special.)—News was received this evening from St. Alphonse, Saguenay County, of a bad accident, this afternoon, on the line of the Ha Ha Bay Railway, three miles from St. Alphonse.

While blasting in an earth dump, the man working the battery did not give the working men sufficient time to get out of the way. The mine exploded with terrific force, burying some twenty men, mostly foreigners, under a huge pile of earth and rock. Up to a late hour to-night, ten men had been taken out, two of them dead, and three seriously injured.

Chief Engineer Ladislav Gagne is buried in the debris.

ATTEMPTED SUICIDE

Youth Shot Himself, Leaving a Note Behind Him.

Frederick Jewel, 157 Berkeley-street, shot himself, probably fatally, three-quarters of a mile out of Newmarket, Ont., last night at 8:40 o'clock. A note found on him says: "Driven out by Boss Chisholm and man Fraser." He received medical attendance.

William Chisholm, baker, of 342 East Queen-street, employer of Jewel, said the boy went to him at noon yesterday and asked for his money. No reason was assigned for the sudden desire to leave, said Chisholm, and he has not the faintest idea why the boy tried to kill himself. Chisholm expected to see the boy come back at any moment and ask to be taken on again.

When told that one of the reasons suggested was that the boy had been teased by the other employes of the bakery, Chisholm said that Jewel was a teaser himself. The boy had been in his employ for five years. Jewel was a little queer at times, said Chisholm, in most ways he was a bright boy.

Frederick Jewel, father of the boy, has been in the General Hospital for the past four weeks.

KITCHENER'S IDEA OF CANADA'S FUTURE

To Make Us Sleep Easier of Nights, He Says—Future World's Peace by Force of Arms.

CHICAGO, April 14.—Lord Kitchener of Khartoum, was in the city for 20 minutes to-day.

On militarism the general spoke guardedly, saying: "One must be careful when a thoughtless word might be wrongfully taken to mean something one did not intend it to."

"As to Canada's military future, I haven't visited Canada. I see no aggressiveness in the future, so far as Canada is concerned. The little navy they are building up there is only that they may sleep a little easier at night. One rests better with a 'bobby' walking around the square. I suppose they will some day begin to increase the army there—just for the same reason."

"I see no reason that international peace should not continue for the very moment. One never knows, however, when something may stir up trouble and war does not often announce itself far in advance. It always pays to keep one's powder dry."

"Is that an expression of England's military policy?" Lord Kitchener was asked.

"Well, I should not put it that broadly. England is at peace with all the world, but our safest safeguard of peace is always to be ready until such time as some international agreement shall be reached, if such there be. England will be ready at all times to lend that influence toward peace. I think I may say that in a general way, without respect to my military position there."

Food Chief Peace Factor.

Asked what he considered the chief factor tending to international peace, the general replied: "Food. I think food is one of the first. The Panama Canal has come into the list now as a new factor, not only in commerce, but food supply is cramped, or restless and irritable. It wants to expand. It wants what the other fellows have. It was a comfort to my nature, but a peace loving man to see broad acres of food producing land in this country and to hear that Canada could duplicate it. The Panama Canal will move the Americas ever made. It will bring the east and the west closer together and by a big factor, not only in commerce, but in the country's military future."

"I wish I knew what the future would bring forth for the Pacific," he said. "It is gratifying to us that the canal is being built at Panama, for that helps to simplify matters. But only by the movement of nations in the future, we tell what part the Pacific will then take in history."

Navy in First Place.

"My idea of the army or navy of the future is the navy must be of the first consideration. Either in defence or offence the navy must take the initiative, but a nation must depend upon the army before it can whip another."

"My whole view of the future is one made peaceable by force of arms. Even with an international agreement for peace, some force must exist to punish offenders."

Hundreds of persons, chiefly Englishmen, crowded the station platform when Lord Kitchener arrived and gave three cheers.

SERIES OF QUAKES DEVASTATING COSTA RICA

Central American Republic Suffers Great Damage From Succession of Upheavals, But No Loss of Life Reported.

SAN JOSE, April 14.—A series of earthquakes, varying in intensity, has swept over Costa Rica during the past 24 hours, doing vast damage, the extent of which can only now be estimated so far, there has been no report of loss of life, but the people in the cities are panic-stricken, and are abandoning their homes for the hillsides.

In several instances weaker buildings were partially wrecked and many persons were slightly injured.

Communication between the various towns has been interrupted, and details of the damage done at these places are lacking.

Costa Rica is one of the most flourishing republics in Central America, extending from the Caribbean Sea to the Pacific, between the republics of Nicaragua and Panama. The inhabitants are chiefly the descendants of Spaniards from Galicia. Coffee is the most important export, with the banana and cocoa industries both developing. San Jose is the capital and is in the interior. The area is 18,400 square miles, and the population numbers about 350,000.

### Tea Time Talks

*It's always tea time when you are tired or thirsty.*

#### The Teapot Test

The final proof of "Salada" superiority is in the teapot test. If "Salada" Ceylon Tea does not prove superior in fragrance, flavor and refreshing qualities, then the tea has not been properly prepared.

The teapot, having been scalded clean, put in a teaspoonful of tea for every two cups. Pour on freshly boiled (bubbling) water and allow tea to brew five minutes before serving. If tea has to be kept longer than five minutes, pour the liquor off the leaves into another warm teapot.

You'll get the most delicious cup of tea you ever tasted.

Ask your grocer for "Salada" Tea or send for a free trial package which makes 25 cups of delicious tea. We will mail it to you without charge. Say whether you use Black, Mixed or Green Tea and the price you pay per pound.

### HAMILTON HAPPENINGS

#### CANADIAN CLUB BANQUET

Rabbi Levy of Pittsburgh Pleads for Universal Peace.

HAMILTON, April 14.—(Special.)—At the meeting of the board of education to-night, in discussing a committee to wait upon the board of control to see if water rates for schools could not be reduced, Trustee Booker argued that a committee had been appointed by the finance committee last week, when Chairman Lamoreaux of the finance committee said tartly, "If Trustee Booker would keep his mouth shut once in a while, we could do business." Trustee Holden, who met with an accident, was given three months' leave of absence. Principal Hill asked to be permitted to come under the salary schedule for 13-room schools. He has 11 rooms. The board was offered \$3 and 20 Wilson-street, adjoining King Edward school, for \$10,000.

A letter was read from the lawyers acting for Constable Bolton, who is trying to compel the county council to build a house of refuge in accordance with the law, in which the councillors were threatened with attachment if they do not build. Council calmly instructed another period of delay by appointing a committee to look over available places. The council passed tenders for the new \$12,000 registry office.

#### Canadian Club Banquet.

The annual banquet of the Canadian Club was held here at the Royal Hotel to-night. William McClelland was in the chair. The speakers were: Rabbi Levy, Pittsburgh's \$15,000 a year preacher; F. H. Deacon, vice-president, Toronto Canadian Club; and T. Nakamura, the Japanese consul to Canada. Rabbi Levy took as the theme of his address "The Peace of Justice," and made eloquent argument for the abolition of war, the introduction of an era of practical Christianity and the settlement of all disputes by arbitration. Mr. Nakamura gave examples of what the Japanese-Canadian treaty had done in the way of trade. Mr. Deacon pleaded for the beautification of the city of Canada. About 250 guests were present. Songs were sung by Royden Mills and Roy McIntosh.

At St. Paul's Presbyterian Church this evening the new Casuarian organ was dedicated by the pastor, Rev. D. H. Drummond. Richard Titterton of Toronto gave a recitation. Mrs. Frank MacKiehan, Miss Ella Holman and Vernon Carey sang solos.

#### TWO DOCTORS AND THREE NURSES FOR THE SCHOOLS

Miss Lina L. Rogers of New York Engaged as Supervising Nurse.

Toronto is to have two physicians, one a lady doctor, and three nurses to inaugurate medical inspection in the public schools. This move was decided at the meeting of the management committee of the board of education yesterday, after a great deal of discussion.

Altho no physician has been appointed, Miss Lina L. Rogers of New York, a Canadian, born in Woodbridge, was made supervising nurse on the recommendation of John Ross Robertson, who appeared personally before the committee to urge her appointment.

Mr. Robertson stated Miss Rogers was an expert in medical inspection among school children, and had been most successful in systematizing that method in various other cities. The committee instructed him to telegraph her to come immediately and take charge of the work at a salary of \$1200 a year.

It was decided to give the two nurses \$600 a year, and on Mr. Robertson's suggestion not make any appointments until Miss Rogers arrived in the city, so she could be consulted. It was, however, stated that two nurses, who are experts in children's diseases, should be engaged.

During the meeting two physicians were appointed by the board, but this was upset by a clever ruse adopted by Chairman Simpson and Dr. Bryans, who wanted to leave the appointments open until Miss Rogers should arrive. The two who were chosen were Dr. Helen MacMurphy and Dr. Willmot Graham, who were to receive a salary of \$900 each per year. A hard fight was put up to try and have Dr. W. B. Hendry, who was first recommended for the position, appointed, but was outvoted by one.

The motion to appoint any physician was lost, however, on a motion of Trustee Dr. Bryans that there be no head for the medical inspection department, as the motion previously called for a male doctor to be the head, and that all clauses referring to this appointment be referred back for further consideration. This was carried by a majority of one.

After the appointment of the physicians the next problem the committee will be called to face is the question of what schools will be necessary to inspect. All members of the board agree that this staff is far too small to go thoroughly into the question, and it is practically decided, if the venture should prove a success, more doctors and nurses will be engaged before the end of the year.

### WHY ESTIMATES WERE LOW

Big Stretches Where Rock Was Unexpectedly Found.

OTTAWA, April 14.—(Special.)—Don Grant, chief engineer of the N. T. R. Commission, further examined before the special committee enquiring into the Lumsden charges, expressed the opinion that the trouble over classification was all due to the difference of opinion over what constitutes assembled rock.

He had never seen anything to justify the assertion that any of the engineers were acting in bad faith.

Asked as to the large difference in the present estimate of the cost of the road, as compared with the original estimates, he said that there were some stretches of fifty miles where, owing to swamps, no rock had been estimated, but it had been found in quantities. Then, whenever the preliminary line was departed from, the cost was increased. Other factors in the reduction, and in some instances, the increase, of grades, while on two sections the profiles did not show hillside cuts.

The disputes as to classification would not appreciably increase the cost of the road.

Church Dining Hall.

Elm-street Methodist Church people, who are making extensive improvements this year, last night opened a new dining hall. R. C. Hamilton presided over a gathering of 500 persons. W. G. Watson asked the congregation for \$1500, and in a short time was able to announce subscriptions amounting to \$1575.

### A Real Home for the Working Girl

Mrs. Georgina H. Broughall writes the following self-explanatory letter to The World:

"Reading the daily papers that the business men are considering the need of suitable boarding houses for business women, I would lay before them the fact that it was the promoters of the 'Georgina Houses Institute,' that brought this need before the public, nearly in an article with pictures, which appeared on the 12th May, 1907, in The Sunday World. Other newspapers also kindly took the matter up."

"The house, 106 Beverley-street, has just closed its first year, and will shortly present its first annual report. It is a happy, refined, healthful home, always full, with a long waiting list. We have plans ready for necessary enlargements, gymnasium, swimming tank, etc."

"If the business men will provide \$25,000, we will have our building erected so as to accommodate 100 working girls. Those interested are invited to call at the Georgina House, and see and hear for themselves what is being done. Mr. Noel Marshall, president of the Standard Fuel Company, one of our directors, will give any further information, and also gladly receive money, which may be sent to me at the above address."

"Georgina Broughall."

The World heartily commends the object above set forth to the sympathies of our readers. The ultimate aim is to have an hotel with about 100 beds, with the top floor divided into cubicles at a smaller price, with plenty of small sitting rooms where the guests could entertain visitors, library and reading-room, gymnasium and baths. There is to be no idea of "institution," but just a good comfortable home. It is a big idea that the public generally should endorse, and the woman who shops because it is to her interest that the girl behind the counter should be bright and happy, the business man, because it is to his interest that his employees should be well fed and well housed.

At Meriden, Conn., one woman was killed outright, another woman seriously injured and a man probably fatally hurt when a train struck a large touring car.

### Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular or violent throbbing. Often there is only a fluttering sensation, or an "all gone" sinking feeling, or again, there may be a most violent beating, with flushings of the skin, and visible pulsations of the arteries.

There may also be experienced a smothering sensation, gasping for breath, and feeling as though about to die.

In all such cases the action of Milburn's Heart and Nerve Pills in quieting the heart and restoring it to its normal beat, is beyond all question marvellous, as our thousands of testimonials will show.

Mrs. Martha Mason, Marlbank, Ont., writes:—Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble.

Price, 50 cents per box, or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### To Keep the Skin Clear

You Must Learn for Yourself the Virtues of DR. CHASE'S OINTMENT.

Dr. Chase's Ointment is so pure and clean, so delightfully soothing, and healing and so certainly effective in making the skin soft, smooth and clear that it has only to be tried to be appreciated.

You may know of its value as a cure for eczema, salt rheum, and the most severe and painful forms of itching skin disease.

Have you realized that as a means of clearing and beautifying the skin it has no equal and no rival? Pimples, blackheads, roughness and redness of the skin, irritations and eruptions of every form yield readily when this soothing, healing ointment is applied frequently.

The cold winds of winter and spring bring actual suffering to many people whose skins are tender and easily irritated. To such Dr. Chase's Ointment is of inestimable worth. It cures a host, all dealers or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

### PLAYGROUND FOR THE SECOND WARD CHILDREN

Arnold Square May Be Chosen - Ravine Drives For Park Purposes.

The second ward is likely to get a supervised playground out of the park committee's appropriation for that purpose, even if the other sections of the city have to go without.

Arnold-square was drawn to the committee's attention yesterday by a deputation from the Playgrounds Association, and the committee decided that the playground be located on the site. C. A. B. Brown secured the committee, as a trustee of the church, that the cathedral would sell at a very low figure, and would be content to wait for the money for several years if necessary.

In discussing the "Ward" prospect, Controller Spencer advised that the city take advantage of the widening of Christopher-street and buy a few acres immediately south. Thus they would procure a street frontage without being held up for frontage prices.

As to there not being sufficient funds appropriated for the purchase of playgrounds outright, Mr. Spence said there was some money available thru the sale of land confiscated for tax arrears. It should not be used as revenue for the purposes of keeping down taxes, but should be spent in parks or improvements for the citizens at large.

The Playgrounds Association got permission to look up both ends of Cottingham-square as supervised playgrounds; Miss McCormick of the big Chicago Harvester Company, who is living in the John McDonald residence, High Park, has agreed to provide the equipment, and the association will pay for the supervision.

It is believed to be projected to dedicate the north and south ravine drives to park purposes. This is the outcome of a complaint that the teaming over the ravine drives has helped cut up the gravel surfacing.

Commissioner of the City will report on the cost and ability of turning University-avenue, and University-street into a boulevard.

The Salvation Army was granted the use of Dufferin Grove from June 13 to July 8 for camp meeting services.

## A New Idea in Linen Collars

It's a collar style that has returned after many years, and is already one of the most popular collars seen in New York. It combines all the style of the high linen collar and the comfort of the Dutch collar, being designed in a style that will suit those who find the Dutch collar too low and the linen collar too high. The front is in a regular mannish effect, being made with long points and fastening very close at the throat; all are embroidered in neat, pretty designs; all sizes. Price .15.

## Low Prices on Women's Whitewear

Besides the many pleasing styles and qualities in our large assortments, attention is drawn to another important feature — **Low Prices**—which you'll find demonstrated in this beautiful lacy skirt at 1.00, or in this fine cotton gown at .55.

These skirts were specially bought to sell at this price and are of good cotton, free from starch or dressing; made with a flounce of fine lawn, trimmed with four rows of wide lace insertion and edge of fine lace and dust ruffle; lengths 38, 40 and 42-inches. Price, 1.00

**Women's Gowns**—Fine quality cotton, slip over style; neck with one row of fine embroidery insertion; wide edge of fine lace with ribbon draw; sleeves with edge of fine lace. Lengths, 56, 58 and 60. Price, .55

NEW CAR LINES AND TUBES.

In the recommendations for new street-car lines presented by the city engineer yesterday, there lies the fate of the tube proposals which the board of control has had under consideration.

The delay about appointing an expert engineer to take charge of the tube scheme may not have depended upon the preparation of these recommendations, but it is quite evident that if the street railway company accepts the city's proposals for new lines the tube system will receive a considerable shock.

It is difficult even to imagine what attitude the Ontario Railway Board may adopt. If the street railway company evinces a desire to compromise, that is, to accept as much of the city engineer's recommendations as appear profitable and necessary to the company, without regard to the convenience of the outlying population, it is possible that the board may yield to the vested interest what it demands.

If the board insists upon the whole scheme or nothing, either for the city or the company, there can be no objection to the lines recommended. If the city builds and operates the lines it can do so in conjunction with the tube system.

If the company operates the lines after the city builds them, as the city certainly ought to do, a new difficulty will arise, which may lead to the re-opening of the whole street-railway situation, and to negotiations for a new agreement. This is what the street railway company would like. This is what may indefinitely postpone the tube scheme.

Perhaps it will be clearer to some people after a week or two how an apparent effort to promote a plan for city improvement may be quite plausibly elbowed off the stage and buried.

If the street railway company is permitted to do as it pleases with the city engineer's recommendations for new lines, the tube scheme will be postponed indefinitely.

WHO WILL BE RESPONSIBLE FOR IT?

PULPWOOD EXPORTATIONS.

Quebec is about to put in force the policy of prohibiting the export of pulp wood cut on crown lands and in doing this the provincial government is acting within the scope of its authority. Intimation that the government had the order in contemplation was made some time ago, and this was within the knowledge of the president and the U. S. tariff committee during the discussion prior to the recent arrangement. The federal authorities have had experience with the situation that may be created by independent state governments and understand the difficulty thoroughly, and there is no more reason why they should resent the Quebec prohibition than that they should have required removal of the similar Ontario provision.

No discrimination against the United States is involved, since the prohibitions are entirely general, and include all foreign countries, and even the United Kingdom. Nor can there be reasonable challenge of the principle that the process of manufacturing Canadian raw material in Canada should be encouraged by all legitimate means. As it is, the Quebec order will only apply to government lands and will not prevent private owners from disposing of their lumber as they please. Another argument in favor of the prohibition policy is the necessity of conserving Canadian forest resources. The United States has so depleted its own forests in the eastern and north central states as to make its paper manufacturers dependent to a material extent on Ontario and Quebec. But Canadians have something else to do with their timber lands than allowing them to be used for the benefit of United States industries.

THE AUSTRALIAN ELECTION.

The strength of the Australian labor party is shown by the result of the commonwealth general election. Hitherto it has held the balance of power between Liberals and Conservatives, and has been able to impose its policies on whichever of them it happened to be in alliance with. This was unsatisfactory, and the coalition formed by Premier Deakin was designed to restore the dual system. In the last parliament, the Fusionists had an absolute majority over the Laborists and Independent Liberals, but this position has been decisively reversed. Apparently a strong section of the Liberal rank and file found more congenial company in the Labor party than they did among those with whom Mr. Deakin wanted them to coalesce.

TO ATTAIN PUBLICITY.

Artificial attempts to attract industries to a city which is incapable of furnishing conditions such as the industries require are the most futile of efforts. All that Toronto needs to do is to ensure good government. From that follow low taxes, a high standard of living, plenty of labor, big demand for goods, and all the other features of a prosperous community.

A good government is to be had here as in other places by getting the best men to govern. Our present methods of selection have not secured the best men among us. The present rates of remuneration are not capable of attracting the best kind of men. Of course, if we adopt the academic attitude of The Globe, that it is better to have poor government and educate the sufferers gradually into a demand for better government, well and good; but this method will not attract industries. They naturally go where they can get business-like treatment. That may be had under a thoroughly democratic government by commission, or it may be had under the aristocratic methods of some of the English cities, or it may be had under the autocratic methods of some German cities. Some even contend that it may be had under the boss system of some United States cities. But we are certainly not getting the best possible nor a business-like government under the present method.

Give Toronto the best possible government and the publicity the city will achieve will astonish everybody. Does your boy belong anywhere? Does he swim, or play lacrosse, or soccer, or baseball, or cricket, or ride a wheel? Now is the time to get him outdoors and to make a man of him. Do not let him be a molly; but let the spirit of Canada thrive in him. Nothing like clean sport to make clean minds, and nothing like the open air to make healthy bodies.

Bloor-street viaduct is necessary to give the city access to the newly-annexed territory east of the Don for car service. As the Street Railway Co. is not entitled to supply the annexed districts with service, it naturally opposes any measure like the erection of the viaduct, that would enable the city to establish such a system. All the southern approaches to the territory east of the Don are occupied by the Street Railway Co., so that the Bloor-street viaduct is a necessity if the city car lines for the new districts are to be built.

"That well-nigh intolerable piece of oxymoron and antithesis" is what Samuel Lee Wolff calls Tennyson's lines about Lancelot. "His honor rooted in dishonor stood, and faith unfaithful kept him falsely true."

WILL TEACH HOUSEKEEPING

Management Committee Decided to Look Out for Suitable Premises. That lack of knowledge regarding housekeeping was a menace to domestic life, was a statement made by Trustee Dr. Ogden, at a meeting of the management committee of the board of education yesterday, during a discussion as to whether it would be advisable to procure a building to instruct girls in housekeeping.

The trouble of today was the speaker said, that girls left school before they reached the higher grades, and entered stores or factories. In these vocations there was no way in which they could learn how to keep house, and the result was when they married, a great deal of unhappiness was caused by the slack way of keeping house. The speaker was supported by the rest of the committee, and it was decided to instruct the property committee to report on a suitable site, where a house could be purchased. This will likely be one adjoining a school, so the grounds surrounding can be used for a playground. It is also suggested that it be situated as near the centre of the city as possible. The resignation of J. E. Whiting, principal of Roden school, was accepted, and L. K. Falls appointed his successor, while 17 lady teachers and 7 men were appointed to the regular staff.

Woman Mangled by Train. ST. THOMAS, April 14.—Mrs. Jane Mapson, a widow, aged 70, who kept a restaurant, was found frightfully mangled on the M. C. R. bridge over Kettle Creek at daybreak this morning. Partially dressed, she had evidently left her home while temporarily insane.

Inquest Adjourned. TWEED, Ont., April 14.—The adjourned inquest into the Masters murder mystery opened in the town hall this afternoon before Coroner Farwell. Crown Attorney Anderson of Belleville was in attendance. The enquiry was adjourned until next Thursday. Parker, the suspect, is still in custody.

A Seaman's Yarn. NEW BEDFORD, Mass., April 14.—When Wm. Garrity, a seaman, landed at Boston from London in February last, and related a tale of the loss of the New Bedford whaling bark Platina, he was romancing. The barge is safe.

Single Court.

Before Meredith, C.J. Re Branton.—J. H. Kilmer, K.C., for applicant. E. G. Lott, for the other parties. Motion by Henry Branton, under C.R. 98 for the determination of certain questions which have arisen on the will of Thomas Branton of 26th January, 1914. Judgment. Testator devised to his wife Elizabeth lots Nos. 4 and 7 on Davenport-road "to have and to hold for her personal benefit, so long as she should live, and the said Elizabeth Branton shall remain his widow, and in the event of the said E. Branton remarrying, the said lots, houses and appurtenances with all the privileges thereof to become the property of my children Henry Louis Branton and Mary Johnston Branton, to have and to hold as theirs without let or hindrance. Elizabeth Branton died in 1900 without having married again. Mary J. Branton died in 1904 intestate. There must be a declaration that the two daughters took under the will a vested remainder in the land, to take effect in possession upon the death of the daughter, M. E. Branton, intestate and without issue, her

undivided one-half of the land became under the provisions of the Devolution of Estates Act distributable in like manner as personal property, and the applicant, who but a half brother, is entitled as one of her next of kin to share equally with the other next of kin, the surviving sister, and there will be a declaration accordingly. Costs out of the estate. Zabalan v. Canadian Contractors—M. Macdonald, for plaintiff. Motion by plaintiff for judgment. Pursuant to consent filed, motion enlarged to trial.

Williams v. Gemmill.—H. S. White, for plaintiff. J. M. Ferguson, for defendant. Motion by defendant for an injunction to restrain plaintiff from further dealing with the partnership property. By consent motion turned into a motion for judgment and judgment appointing plaintiff receiver on giving security to the satisfaction of J. Macleod, official referee at Barrie, with power to complete the manufacture and to sell the lands in question for the defendants, an official referee at Barrie, to take the partnership accounts. Further directions and costs reserved to be determined on the conduct of the reference, and if it is not proceeded with promptly, plaintiff may apply.

Ebergh v. Chambers.—G. M. Garvey, for plaintiff. J. H. Spence, for defendants. Motion by plaintiff for judgment. Held that the plaintiffs cannot succeed on this record, but must add necessary evidence. J. Macleod, official referee at Barrie, to take the partnership accounts. Further directions and costs reserved to be determined on the conduct of the reference, and if it is not proceeded with promptly, plaintiff may apply.

Costs to defendants in any event. Before Falconbridge, C.J. Colonial Loan and Investment Co. v. McKimney.—S. Denison, for plaintiff. A. McL. Macdonell, K.C., for plaintiffs. H. C. Macdonald, for original defendant. A motion by J. W. Findlay to set aside the notice served on him adding him as a party defendant in the Master's office. Judgment: It is sworn by Findlay and his solicitor that Findlay's claim is based in part at least on representations and conduct of the plaintiffs and their solicitor and not as a claim to title to lands in question, that the defendants by original writ. These statements are denied and there is an issue of fact which cannot be disposed of on this motion, nor, I apprehend, satisfactorily in the Master's office. There may be a subsidiary question to be determined as to the authority of plaintiff's solicitors to do that which they are claimed to have done. Findlay says in fact that plaintiff gave him title and that he does not wish and cannot be called on to redeem. An order of the Master's office should go, setting aside the notice to incumbrances and the order of the Master's office, adding J. W. Findlay as a party in the Master's office, with costs.

Divisional Court. Before the Chancellor, Magee, J.; Lathford, J. Re Ball and Stewart.—J. J. Gray, for appellant. R. McKay, for respondent. Contra. An appeal by E. Ball from the judgment of the Chancellor of Feb. 21, 1910. Argument of appeal resumed from yesterday and concluded. Judgment. McKimley v. County of Oxford.—W. M. Douglas, K.C., and G. F. Mahon (Woodstock), for respondents. J. B. Clarke, K.C., for plaintiff, contra. Judgment by defendants from the judgment of the Chancellor of Jan. 27, 1910. The action is for \$100 damages against defendants for alleged injuries to his land caused by defendants diverting water from the donia. Findlay says in fact that plaintiff gave him title and that he does not wish and cannot be called on to redeem. An order of the Master's office should go, setting aside the notice to incumbrances and the order of the Master's office, adding J. W. Findlay as a party in the Master's office, with costs.

Thompson v. Court Harmony.—L. F. Heyd, K.C., for defendants. H. E. Rose, K.C., for plaintiff, contra. An appeal by plaintiff, a member of defendant's court, sued defendants for \$388 for sick benefits, which defendants declined to pay until a medical certificate, as required by their bylaws, was presented by plaintiff. At the trial judgment was given for plaintiff for \$380 and costs. Appeal not concluded.

Cotton v. Medcalf.—An appeal by defendant from an action to recover \$300 paid to defendant as a deposit and interest on an agreement to purchase property. The title not being satisfactory, plaintiff demanded his deposit back. At trial judgment was given for plaintiff for \$300 and costs. Judgment given for defendant dismissing the action without costs.

Before Falconbridge, C.J.; Lathford, J. Hadley v. Westman.—Plaintiffs claim as ratepayers of Chatham, under a verbal contract for continuous supply of water

THE BROCKTON COMET CHART. BROCKTON COMET APRIL 10TH 11TH 12TH. April 15th: The "Brockton Comet" is causing some worry. Although wireless messages led us to believe that it would land early Saturday morning, observations suggest that it is now stationary in the near vicinity of Venus. Venus has always exercised considerable influence over comets and other things, and at the present moment it is hard to say just when the "Brockton" will lift anchor. The Brockton Comet was first sighted near Brockton, Mass., on April 10th. Special: The "Brockton" is still stationary in the proximity of Venus, and is not likely to reach Toronto before the 19th.

CASE FOR THE NEWSBOYS

President Lichtman Tells How "Strike" Came About. President Sammy Lichtman of the Newsboys' Union came to The World yesterday seeking a voice to put before the people of Toronto the position of the boys in their present strike against The Evening Star and the move, in the nature of a lock-out, declared against them by The Evening Telegram in combination with The Star.

"It is this way," says Sammy, "The boys have a rate of six cents a dozen from The Globe, Mail and Empire and World. A week ago that rate was given us by The News, and we thought it no more than fair that The Star give us that rate.

"The boys went on strike against The Star only. We insisted on handling The Star. They hired grown men at two dollars a day to break our strike. On Tuesday when we went to the Telegram to get papers, they told us we must go to The Star to buy Telegrams. The boys were mad and wanted to strike right away. I told them to wait until I could see Mr. Robertson. I saw him the next day, and I told him that we did not think it was fair for The Telegram to combine against a lot of boys, and that if he liked we would give him a bond that we would buy from him at seven cents a dozen for three years. He said he would not alter that price.

"The next day when we went over to The Star to get The Telegrams we were told that we must buy one Star for every two Telegrams we bought. That is not fair, because each boy has his regular customers, and lots of boys only sell Telegrams, and so he would lose more than half of his profits. You have to sell a lot of papers to make even a bare living.

"Here are these two big papers combining to squeeze the poor newsboy. That is what it is, for The Star will sell the paper to outside places for a year and deliver it at a cost of 15 cents for postage, and pay 30 cents commission to the man that makes the sale for a little over 4 cents a dozen. Why then should they charge us 7 cents?"

"They sell the papers at seven cents a dozen to the newsdealer, and all the boys is to lay it on the counter. We vendors to buy at that price, and we have to do all the work of selling. When we sell twelve papers, we have made a nickel. If we have passed right on to the number of papers we sell for if any left are over we lose what we pay for them.

"Did you ever stop to think how long you must stand on tired feet, and how much you must stand to sell twelve papers and make a nickel?"

"Did you buy your papers from the boys calling The News, it is giving us a fair chance to make a living."

"You hit the Newsboys' Union hold their big benefit concert in St. Andrew's Hall, and it is up to those who sympathize with the little news vendors to patronize the performance. A real good program, consisting of music, recitations, etc., is assured, but the real features of the concert are the various athletic stunts.

TO PROVE THE RAILWAY A MYTH AND PHANTOM

Counsel for Commission Investigating Alberta Deal Makes Strong Statements.

EDMONTON, ALBA., April 14.—(Special.)—When the Alberta and Great Waterways Railway Commission resumed to-day, W. L. Walsh, counsel for the commission, intimated that he might get a warrant out for Solicitor Minty for contempt of court.

Walsh said he intended to prove that the Alberta and Great Waterways Road was a myth and a phantom, and that the Canada West Construction Co. was the substance; also that \$50,000 capital of the A. and G. W. was a feat of bookkeeping, having been placed on the books of the bank to the credit of the A. and G. W. and then debited to President W. R. Clark a few hours afterwards.

Cornwall said he had over a year ago transferred all his holdings to W. R. Clark for a consideration, Clarke to invest \$25,000 in Cornwall's steamboats on the great waterways. Clarke had already invested \$14,000 in this project. Cornwall declared he knew nothing of the bond deal.

Clarke's testimony in the investigation is of paramount importance, and if this is not forthcoming, which is very probable, the investigation will fail.

Cornwall denied having in any way endeavored to assist Clarke in getting the government guarantee of the bonds, but had happened to be in New York when S. B. Wood, deputy attorney-general, and M. J. McLeod, the provincial treasurer, and C. W. Cross, attorney-general, were there at the time the bonds were taken.

He declared he knew nothing of the formation of the Canada West Construction Co., until he heard it in the legislature and knew nothing of the order-in-council of the Alberta Cabinet approving of the bond issue.

HERE and NOW is your LAST OPPORTUNITY. Sale ENDS at 6 P.M. Saturday

LET US give this final, urgent Invitation to any who may have been hesitating to profit by our unprecedented Piano Sale, and state that

On Saturday Evening at 6 P.M. the great MASON & RISCH Stock-Taking Sale will end--the Greatest Piano buying opportunity in the history of the Canadian industry will be a thing of the past. At that hour our doors will be locked and the Sales Books closed. Make up your mind to investigate NOW—it costs you nothing to do that. If you have even a remote idea of some day placing in your home the High Grade Piano you want to see there—you will find that hope realized NOW—in a way that we frankly tell you we never expected to see in this business. The remaining Pianos on sale have been reviewed and prices cut deeper—there is no question of profit—every Piano on our floors must go before Stock-taking date.

\$10 is a comparatively small sum—there is little room in the industrial world to invest it with appreciable profit. There is ONE place—ONE opportunity to make such an investment, and to make it yield a thousandfold profit during many years, in the shape of musical enjoyment—stimulus towards refinement—pleasure in which the whole family participates—by having it send a Piano of Quality directly to your home at Mason & Risch Great Sale.

We cannot begin to enumerate the bargains—fine-toned upright Pianos are going at \$176—savings are illustrated right and left of \$50 to \$150—and not ordinary "Commercial" instruments, but superb representations of the World's Greatest Makers. Don't let financial considerations keep you from choosing NOW the Piano you want—we lift the financial burden, make it our own, give you the benefit of radical reductions from regular prices, and give you as well all the ease you need to pay the balance.

Don't let delay bar YOU from possession of YOUR Piano. We withdraw all special price concessions at 6 o'clock on Saturday. Benefit while yet there is time?

SUSPECT'S WANDERINGS

Visited Several Places After Masters Was Shot and Seemed Surprised.

TWEED, April 14.—(Special.)—The inquest into the death of William Masters last Friday forenoon was resumed to-day, when Crown Attorney Anderson of Belleville examined witness, Provincial Detective Miller brought Masters' clothing and the bullet that killed him, together with the 44-calibre rifle and revolver that belong to the aged suspect, Barker, who has retained Mr. Stewart of Madoc as his counsel. Members of the family told of Masters going for a load of wood and of the finding of the body on a side road. They also told of threats that Parker had made, while neighbors told of seeing Parker on the main road a little while before the shooting. He was also seen running away toward Tweed by a Miss Way. Mr. and Mrs. Palmatter, where he was Friday afternoon, had told him of the affair, and he appeared greatly surprised. He stayed at the home of James Tucker all Friday night, something he had never done before, and left before breakfast. He told them their announcement was the first he had heard of the shooting. On Saturday he went to a brother-in-law's, William Ferguson, who lives many miles away, who also told him of the tragedy. Again he seemed surprised. Ferguson told him a warrant had been issued for his arrest and he readily assented to give himself up. The inquest resumes next Thursday.

A gas buoy exploded at Sarnia while being filled with carbide and two men, C. E. Stewart of Ottawa and George Day of Sarnia, were seriously burned.

OBITUARY.

Dr. O. Totten. FOREST, April 14.—Dr. O. Totten died suddenly this afternoon of apoplexy. He was a brother of Henry Totten of Toronto. The body will be taken to Paris, his former home, for burial. He leaves one son and one daughter. Dr. Totten was government medical attendant to the Indians at Kettle and Stony Points.

James H. Knight. LINDSAY, April 14.—(Special.)—James Henry Knight, late P. S. Inspector for East Victoria, died to-day, aged 75.

He was born in Ryde, Isle of Wight, Eng., and for twelve years was a grocer's assistant. Emigrating to Canada, he went on a farm near Stratford, later taking up the profession of public school teacher, teaching in Perth, Waterloo, Durham and Victoria Counties. He was public school inspector for 23 years. He was an active member of St. Paul's church, being organist, Sunday school teacher, synod delegate and circuit preacher. Two sons survive, A. F. Knight, Toronto, and Leigh R. Knight, barrister, Lindsay.

INSPECTOR RAMSDEN'S CAMPAIGN.

PORT ARTHUR, April 14.—(Special.)—Inspector Ramsden of Toronto, of the Indian branch of the interior department, has been in the city several days, making a campaign against selling and giving of liquor to Indians. Ten convictions have been made, including one wholesale liquor store, and one hotel, the fines varying from \$10 to \$100.

Public Amusements

"Sham" is the story of a girl who has been brought up in New York's most fashionable circles and taught to live without any means by dishing the tradesmen and shopkeepers out of their goods, and who wakes up before it is too late to find that she cannot respect herself or live comfortably until she gets established on an honest footing with herself and the man she loves. The Princess had an appreciative audience last night to see the play presented by Miss Henrietta Crossman and one of the best companies that has appeared this season. The comedy is of much more solid elements than the usual farce order of entertainment presented as comedy, but the dialog is very bright and clever, and the situations give scope for amusing and penetrating character study. There are delicious bits of satire, as when the aunts enlarge upon the pearl necklace that was given to her great-great-grandmother by General Lafayette, and Katherine reflects "She must have been a grafter, too." Then she insists upon telling the whole sordid tale of her life, even to how she got the lamp out of the Scotchman, which is worth the price of admission itself, so that her lover may know the very worst of her. But, of course, he does not mind, the she is big and strong enough to refuse him until she can pay her own debts. It is a charming comedy, charmingly played, and ought to draw out of the Scotchman, which is worth the price of admission itself, so that her lover may know the very worst of her. This "Ascot" proposition of ours is buying land on the easy payment plan. Something down and the balance at \$5.00 the month. "Ascot" is being offered at \$16 to \$18 the foot and we believe that at this time next year you will not be able to purchase it for twice that amount.

"Ascot" is next door to the fashionable residential district of "Greater Toronto," and must shortly be included in that catalogue. "Ascot" is splendidly situated on the high hill north of the city. It is all broad, level land and the lots have been laid out so that they are very deep and run to lanes.

**Saturday at "ASCOT" Sub-Division . . .**  
**The Biggest Land Snap of the Whole Year**  
**\$16 to \$18 the Foot . . . . .**

Small Payment Down and Balance on the Basis of Five Dollars the Month.

"Ascot" is bounded on the south by St. Clair Avenue, on the east by Boone Avenue, on the west by Earls Court and on the north by Ascot Avenue.

Our representative will be on the property Saturday afternoon. Chances are the weather will be fine so that an excursion to the hill will give you a good outing. "Ascot" is worth seeing under any conditions.

Take Dovercourt or Lansdowne Ave. cars to terminus. Our salesmen will be on the property Saturday afternoon.

## What Hat?

Can You Hesitate in the Matter of Choice?

"Ask for the size you require and turn the hat over, looking carefully at the inside band." That is the advice any well-groomed man will pass you.

The feature about our hat is that every one has the name of a big maker on the inside band, and there are some names that you cannot find beyond our door in Canada, Henry Heath of London, Eng., and Dunlap of New York.

### NORTH TORONTO SCHOOL BOARD STILL UNDECIDED

Did Not Choose New Site Last Night—Swansea News—County and Suburbs.

NORTH TORONTO, April 14.—(Special.)—A meeting of the public school board was held to-night, the outstanding subject under discussion being the selection of a school site to serve the big Bedford Park and Northern Heights district. The school board have already given this matter a good deal of thought and attention, and the choice has practically narrowed down to three sites, any one of which would answer, but one of said sites is admirably adapted to the purpose. The members of the board have looked over the whole situation before coming to any definite conclusion. Little else of a public nature was discussed. Evidence begins to accumulate that the assessment commissioner has dealt trenchantly with the matter of increase of valuations in North Toronto. Whether the big increase is warranted will be for the court of revision and the county judge to determine. A case in point is the chapel property down in the Davisville district, a farm property, which has been booted from \$400 to \$25,000. If there are many more like this, the town will be in a position to finance almost any thing another fall.

With the sale of the old Sparrow farm and Alex Fryce's retirement from the dairy business, the latter has decided to dispose absolutely of everything in the dairy line, and has announced his sale as taking place on Thursday, April 28. Some idea of the magnitude of the sale may be gathered from the fact that Mr. Fryce has nearly one hundred eighty-two acres of which are Holsteins, the most sought after dairy cow on the market to-day. Besides cattle, there are a large number of horses, together with general farm stock and implements. Metropolitan City is the firm said.

Remember the choir concert in the Davisville Methodist Church to-morrow (Friday) evening.

WEST TORONTO.

WEST TORONTO, April 14.—The young men's club in connection with St. John's Anglican Church will give an entertainment Friday night celebrating the completion of the improvements to the Sunday school building. The boys' society will have a big outing on Saturday near the Lambton-road bridge on the Humber.

### LET CANADIAN ENGINEERS REPORT ON TUBE PROJECT

Controller Church Argues That Graduates of Our Colleges Are Equal to America's Best.

Controller Church intends to move in the board of control a resolution in favor of the retaining of Canadian civil engineers for the expert advice necessary on the tubes problem. He argues that the graduates in science of Varsity, McGill and Queen's are second to none in the world. S. P. S. men are almost entirely in charge of the hydro-electric work and many of the most important chief engineers of the C. P. R. and G. T. P. are U. of T. graduates. Canadians are among the heads of the board of engineers who built the New York subway and the tunnel under the Hudson, and are now building the Pennsylvania tunnel. They also directed all the work for the Niagara power companies. There was no need of Americans for our own filtration plant. Engineers Noble and Parsons of the Pennsylvania tunnel are high priced men, yet a Canadian was chief engineer for the contractors in the New York and Pennsylvania tunnels, and just as good as Messrs. Parsons and Noble, the Americans.

"American bridge experts were imported for the Quebec bridge job by the Dominion Government, to their sorrow. Yet it was a Canadian, Principal John Galbraith of S. P. S., Toronto, who, as chairman of the board of investigation, restored on this job order out of chaos," said the controller yesterday.

"His report is said by two American scientific monthly journals to have been the greatest written treatise on bridge work and 'strength of material' in the English language.

"The board of engineers of the New York tunnel had no previous personal experience, and the city should secure a Canadian who understands the local situation to prepare plans and report, if at all necessary, have a consultation with a tube expert, the same way as was done on the filtration matter."

"Our own city engineer should, with Principal Galbraith, be able to name such a Canadian. We have one in our own city, a graduate of S. P. S., who I am informed by leading engineers, was engineer of construction for the contractors on the principal section of the New York subway. Canadians, Varsity and McGill graduates, did the bulk of the work on the St. Clair tunnel, and they also tunneled the Rockies, and their feet in the west of Canada fit them for any undertaking.

"It is a funny thing that in Canada, when private companies and firms want a difficult job done in this great profession they secure a Canadian, while municipalities and certain governments import them from the States. I discussed ten days ago this matter with a very eminent railway engineer, and he agreed with me that we had plenty of men in Canada for the work. The new steel bridge at Hamilton was constructed by Mr. Wagner, a recent graduate of S. P. S., and is an example of the way private companies deal with Canadians.

### IMMIGRATION CRUELITIES

Senator Gibson Refers to an Incident at Quebec.

OTTAWA, April 14.—(Special.)—In the senate to-day Sir Richard Cartwright stated that the purpose of the revision of the immigration law was to strengthen the provision against undesirable.

Senator Gibson referred to the case of an Englishman at Hamilton, who went for his wife and children when they reached Quebec the officers detained them, alleging one of the children had ringworm. A bill of \$60 was run up and because the man's funds were exhausted the family would have been deported had not the St. George's Society come to the rescue.

Sir Richard said the new bill would prevent such incidents.

### CANDIES ARE HARMLESS

Coloring Matter Will Have No Bad Effect, Says Analyst.

OTTAWA, April 14.—(Special.)—That harmless dyes only are used in coloring candy, made by Canadian manufacturers, is the opinion expressed by A. McGill, chief analyst of the Dominion Government, who has just issued a bulletin giving results of an analysis of the 149 samples of highly colored confectionery purchased throughout the Dominion.

"It is gratifying to report," says Mr. McGill, "that only a single sample gave any indication of arsenic, and this quite a negligible trace, entirely harmless."

Cheaper grades of candy contain from 50 to 70 per cent. of cane sugar for the softer varieties, and from 75 to 85 per cent. for harder kinds. Other ingredients are of a harmless character.
