IMPORTANT MEASURES BROUGHT BEFORE HOUSE

In Calm, After Naval Debate, Much Business Was Done

PARCEL POST BILL WAS INTRODUCED

Minister of Justice Outlined Proposed Amendments to Criminal Code—Lengthy Discussion Yesterday on Provisions of Bank Act.

Special to The Standard.

Ottawa, May 16.—The house spent today in the consideration of important government bills. Early in the day the bill establishing a parcel post system and the bill of the Minister of Justice to amend the criminal code were introduced. The latter measure provides the lash for the punishment of white slaves and regulates the sale of firearms and other deadly weapons. The leader of the opposition on the orders of the day took occasion to his six months' holiday amendment to the naval bill, Mr. Gullbault of Joliette, a so-called Nationalist. The fact is that Mr. Gullbault had said "I second the motion of the leader of the opposition, but the speaker in putting the amendment had taken the usual course of naming the deskmate of the mover. Sir Wilfrid Laurier today that Mr. Graham was the second."

The rest of the day was spent in committee on the bank act, the most contentious clause being held over for later consideration. The talk was chiefly in regard to the provision for loaning money to farmers on the security of their cattle. Mr. Carvell of Carleton Place, N. B., wanted the privilege extended to all farmers. Before the orders of the day at the opening of the house Sir Wilfrid Laurier rose to deny that his amendment for the six months' holiday of the naval bill had been seconded by Mr. Gullbault of Joliette. The seconded, he said, was his deskmate, Hon. G. P. Graham. Having made this denial the opposition leader questioned the premier as to the accuracy of a statement in the United Empire magazine that the Admiralty would suggest the establishment of dockyards and auxiliary naval bases in the Dominions in connection with the base of the Gibraltar squadron.

The prime minister replied that, outside of Mr. Churchill's speech, there had been no official communication on the subject. The Liberal leader next asked for a statement of further government legislation. He was informed that it was the intention of the government to proceed with the bills now on the order paper and, then, to bring down the railway subsidies.

To Amend Criminal Code.

Hon. C. J. Doherty introduced a bill to amend the criminal code decreasing the penalty imposed on white slaves and facilitating their prosecution. The bill provides for sentences on reasonable suspicion of vice, prohibits the leasing of houses for immoral purposes, and provides a penalty in cases of seduction of employees under 21 years of age. In regard to white slaves the bill is provided. The bill deals also with the sale of firearms, requiring the purchaser of a revolver or other deadly weapon to have a certificate from the Chief of Police, and prohibiting the sale of such weapons to persons under 16.

The Parcel Post Bill.

Postmaster General Pelletier introduced his parcel post bill. The measure contains few details of the proposed system beyond declaring the establishment of a parcel post for the conveyance of parcels of all kinds, including farm and factory products other than those which may be excluded by regulation. Parcels are restricted to 11 pounds weight and a length of 72 inches. The system will be under two inspectors or supervisors. Rates will be fixed by the Postmaster General under the authority of the government and must be prepaid.

The Bank Act.

When the bank act was taken up Hon. Mr. White told Sir Wilfrid Laurier it had received very full consideration in committee, and had not been materially changed. The clauses providing for an audit had been amended by the addition of an enactment that the auditors should be selected from a list of forty names suggested, in the first instance, by the general managers of chartered banks who were members of the Canadian Bankers' Association, by ballot, subject to the veto of the Minister of Finance. From the list of forty the shareholders of the banks would make their choice in accordance with the act. A further provision had been made, the Minister said, for the registration of the list which the new act authorized banks to take upon grain and cattle. Some modifications had also

BODY OF AGED LADY FOUND IN A LAKE

Mrs. G. W. Springer, of Upper Jemseg, Strays from Daughter's Home—Only Two Feet of Water in Lake.

Special to The Standard.

Upper Jemseg, May 16.—A gloom was cast over this community today when it was discovered that Mrs. G. W. Springer, the widow of the Rev. G. W. Springer, was missing from the home of her daughter, Mrs. C. J. Purdy.

Mrs. Springer was in her sixtieth year, and as she has recently been suffering from a nervous breakdown, it was feared that something tragic had happened and a search was instituted, and the body was found in a little lake not far from the house. Just how the old lady came to her death is unknown as there was only about two feet of water where the body was found, but it is supposed the accident was a result of her insanity.

Sincere sympathy is felt for her two daughters, Mrs. C. J. Purdy and Mrs. Calvin Purdy, in their sad bereavement. The funeral will take place on Sunday.

MIRACULOUS ESCAPE FROM THUNDERBOLT

Woman of 107 Years Unharm'd When Bolt Wrecked the Chimney and Demolished the Furniture.

Lake Megantic, Que., May 16.—During a thunderstorm here yesterday Mrs. Neil Buchanan, 107 years old, had a narrow escape from death, when a thunderbolt crashed through the room in which she was lying.

Mrs. Buchanan, who resides at the home of Mrs. W. H. McDonald, at Springfield, near here, was lying in her bed when the house was struck by lightning. The bolt struck the brick chimney and wrecked it, passed down the stove pipe into Mrs. Buchanan's room and demolished the stove, then tore a hole through the floor, finally passing into the cellar.

Mrs. Buchanan escaped without even the slightest shock.

DEMOCRATS SCORED FIRST ON THE TARIFF

Underwood Tariff Will Go to Finance Committee Without Public Hearing—Expect Report by June.

Washington, May 16.—Democratic leaders in the Senate were endorsed today in their determination to refer the Underwood tariff bill to the finance committee for consideration without public hearings. The Penrose-Lafollette amendment directing that public hearings be held was defeated by a vote of 41 to 36 and the motion of Senator Simmons to refer the bill was then passed without a roll call. The finance committee will meet Monday and Chairman Simmons hopes to report the bill to the Senate by the first of June. Already quite a number of minor changes have been suggested by the sub-committees. These will be considered in the party caucus to be called before the bill is reported.

FOUR NEW YORK POLICE CAPTAINS GOING TO PRISON

Here are pictured the four New York police captains found guilty of conspiracy and graft in the recent sensational trial just ended, going about the boat which will take them to Blackwell's Island, where all criminals are sent before being sentenced. The personnel of the picture is—(1) Hussey, (2) Thompson, (3) Sweeney and (4) Murtha.

HALIFAX IN THROES OF STREET RAILWAY STRIKE

Rioting, Yesterday, and Some Damage Was Done.

A MOB ATTACKED STRIKE-BREAKERS

Cars Taken off Route Late Yesterday Afternoon—Strike-breakers Refuse Duty Because of Inefficient Protection.

Halifax, N. S., May 16.—This city was in the hands of a mob this afternoon so far as the electric tramway lines were concerned and the company by five o'clock found it impossible to run their cars and gave up the attempt. The trouble was brewing all day. Not one of the company's employees turned up for duty in the morning and the first car was run out of the barns on schedule time by strike-breakers brought from the Thiels agency in Montreal. Only a limited number of cars were kept going, not more than a third of the usual number.

There were some demonstrations of hostility during the forenoon but nothing serious and the cars were fairly well patronized by the public. The same conditions continued until the afternoon, except that after the dinner hour Lockman street was strewn with rocks and debris to prevent the cars passing. The riot broke out at five o'clock when a car coming down Buckingham street ran into a military team driven by two soldiers. The soldiers were slow in getting out of the way and the wagon was caught. No one was hurt but the enraged crowd sprang on the car and threw the motorman off. Things got worse and soon a shouting crowd of thousands was gathered round making it very warm for the strike-breakers. Three other cars came along and some were held by the enraged crowd and the ropes holding the trolley poles were cut. The police were not equal to the task of preserving order but they managed to arrest five men, two of whom were charged with attacking the tramway people, and three were taken to the station. The cars were at last run into the barn followed by a howling mob of thousands. Two are still on the street, guarded by the police, the strike-breakers declining to bring them in till better police protection is afforded. The intention is to try and bring the car in during tonight.

All the glass in the car barns was smashed and the head office wrecked.

NAVAL AID BILL TO REACH THE SENATE BY TUESDAY

It Will Probably be Taken Up on Thursday and May be Passed Despite Threats of Liberal Blockade Brigade in the House of Commons.

Special to The Standard.

Ottawa, May 16.—The Naval Aid Bill had not reached the Upper House today when the Senate adjourned till Tuesday. When the Senate resumes on Tuesday the bill is pretty sure to be there. The expectation is that it will come up for discussion on Thursday and that inside of a week from that date its fate will be determined.

Senator Longhead, as government leader, will introduce the bill in a speech of some length and the Liberal reply will come from Sir George Ross, probably on the day following. The Senate itself does not know yet what will become of the bill. "You cannot tell what will happen," said a prominent Liberal Senator tonight.

"There is not likely to be a very long discussion as the measure has been so thoroughly discussed in the House of Commons and in the country. There is nothing to add and the Senate is likely to have a rush of other work on its hands."

The Agricultural Bill has squeezed through the Upper House, but the Highways Bill is still at the second reading stage and there are rocks ahead. The Senate may, after all, pass the Naval Bill and content itself with throwing out the Highways Bill and the measure to increase the number of Senators from the western provinces.

DID MILITANT SUFFRAGETTES ENGAGE MEN TO WRECK TRAIN

Startling Sequel to Melodramatic Warning Sent to Officials of Midland Railway—Two Men Arrested and Held Pending Investigation.

London, May 16.—There was a startling sequel today to the warning received by the officials of the Midland Railway on May 13th in the form of an anonymous letter which said: "It is my duty to inform you that a desperate act will be attempted in a few days to wreck a main line express."

Today two men giving the names of John Wilson and James Lucas, were arrested before daybreak on a high viaduct near Weller, in Lancashire, which carries the midland tracks, connecting Manchester and Liverpool with Scotland. Crowbars, sledge hammers and boring tools, etc., were found in the vicinity. The prisoners were taken to Clitheroe and charged at the police court. The magistrate remanded them for a week in custody. The incident has created a profound sensation throughout Lancashire, where it is firmly believed the men were about to attempt to wreck a main line express train as part of the militant suffragette campaign.

A total capitalization of \$625,212,299.38. Supplementary letters patent were issued to 13 existing companies, of which 53 increased their total capitalization by \$55,249,900. Five companies decreased their capital by a total amount of \$11,861,251. The other forty-five in the list obtained various powers under the companies act.

INCREASE IN INCORPORATE ENTERPRISES

The letters patent and supplementary letters issued during the year account for 935 charters, an increase of 239 over the previous year. The total capitalization, including new companies, capital and increases, reaches the figure of \$60,465,199.98, an increase over the total of 1912-13 of \$189,896,290.96.

UNDER SECRETARY OF STATE IS IN NEW YORK.

New York, May 16.—Among the passengers who arrived today on board the steamer Iroquois from Trieste was Sir Joseph Pope, under secretary of state for Canada, and Lady Pope.

SENATE WILL APPROVE BILL FOR GOOD ROADS

SYDNEY LOST AN APPEAL TO HIGH COURT

Verdict Against Nova Scotia City in Damage Action Heard Before Supreme Court—A Railway Case.

Ottawa, May 16.—In the Supreme Court today, the appeal of the City of Sydney vs. McDonald, from the Supreme Court of Nova Scotia, was argued. The respondent in this case claimed damages for the death of her husband, who she alleged by negligence of the appellants. The city officials in connecting a house on Sheriff Avenue with the water service, dug a trench from the middle of the sidewalk to the middle of the street, twenty-eight feet long and from three to four feet deep. The deceased had returned to his house at nine o'clock on Saturday night and left it again to go down for some purchases he had forgotten. His body was found on Sunday morning in the trench with his neck broken. The sides of the trench were only protected by the earth and clay thrown up in excavating. The body was a foot or two from the sidewalk end, which was protected by planks, and the planks were not disturbed. There were ashes on the body and blood on the face.

The defence in the action was that the evidence pointed to murder and the defence relied also on contributory negligence, the deceased knowing the existence of the trench. The trial judge held that defendants were guilty of negligence. His judgment was affirmed by the full court. The appeal was dismissed. Mr. Finlay MacDonald appeared for appellants, Gorman, K. C., for the respondent.

Canadian Pacific Ry. Co. vs. St. Joseph, an appeal from the court of appeal for Ontario, was next argued. The action was tried twice, plaintiff respondent recovering two thousand dollars on the first and two thousand two hundred dollars on the second trial.

Respondent lives in West Bay and on returning home from Vankeek hill, he approached a crossing of the railway, heard the whistle of a train coming, saw the headlight, but thought he had time to cross. He got to the further rail on which his foot slipped, and his heel was caught fast between the rail and the plank of the crossing. He made every effort to get free, but could not, and finally threw himself as far as he could from the track, breaking his ankle in doing so, and the train completely severed the ankle in passing. After the train passed he crawled to the rail, twisted his foot out and threw it to one side.

The boot was produced at the trial practically intact. At the trial the jury found the company negligent in having insufficient space between the rail and the planks, thus allowing the foot to be caught. The appellants contended that according to the medical evidence, the accident could not have happened as plaintiff stated, and there was no other evidence of negligence. Judgment reserved. Helmhuth, K. C., for the appellants; J. A. MacIntosh, for respondent.

The Dominion Police Act. On motion for third reading of the bill amending the Dominion Police Act, Senator Watson offered an amendment providing a penalty for impersonating a Dominion police officer as he said had been done by one Marshall Jackson in an election.

Hon. Mr. Longhead said that the matter would be dealt with in the criminal code. The government was surprised to learn that there was no such law on the statute books already. The government was most anxious to have the law made more strict against police impersonating.

Senator Watson said that in one of the Manitoba elections he knew of a distinguished King's Council who had handed out to all sorts of characters police badges to enable them to impersonate regular constables. They were instructed to arrest all Liberal workers.

When they hesitated to act without proper authority the eminent King's Council assured them they would be protected by the Attorney General of Manitoba.

Sir Mackenzie Bowell, declared that impersonation of police was a most serious offence and should be punished by imprisonment. He thought that the government could be trusted in this case.

On the assurance of Hon. Mr. Longhead, that the point would be covered by amendment to the criminal code, Senator Watson did not press his amendment and the bill was given third reading.

The Highways Bill. On motion for second reading of the highways bill, Sir Geo. Ross, said this appeared to be a measure bearing a good name, but not a good character. It had been discussed by the Senate last year, and he was surprised to see the government bringing the measure forward again in its original form. The minister, on offering the bill to the Senate had really given no reasons in support of it except to say that the provinces had been neglectful of their roads. He did not think this charge in good taste or altogether true. Sir George gave some figures of expenditures by provinces on roads to show that they had not been neglected.

THE WEST INDIAN BILL IS ADOPTED

Roman Catholic Senators Resent Criticism in Connection with Divorce Case—Agricultural Bill Given Third Reading.

Ottawa, May 16.—An intimation was given in the Senate today, Sir George Ross, that the government's bill to aid the provinces in highway improvement would be amended last year by a clause providing for distribution of the money among the provinces according to population. The agricultural bill was given third reading.

Sir Charles Fitzpatrick, administrator, appeared in the Senate and gave assent to a number of measures including the bill confirming the West India trade agreement. On a question of privilege Senator Porter read an editorial from the Ottawa Journal, which said that divorces had been refused by a vote of 24 to 29 in the Senate and that of the 24 who voted against divorces 15 were Roman Catholics, who from religious beliefs could not be guided in their vote by the merits of the evidence and had not done so.

Senator Porter said it was true that Roman Catholics were opposed to divorce, but he maintained that by and by he believed other Senators who were Roman Catholics, weighed the evidence before them and gave their votes on the evidence. He resented the newspaper criticism.

Senator Murphy moved the adjournment of the senate to bring up a charge by the same newspaper that a number of senators had failed in their duty because two thousand dollars on the first and two thousand two hundred dollars on the second trial. Respondent lives in West Bay and on returning home from Vankeek hill, he approached a crossing of the railway, heard the whistle of a train coming, saw the headlight, but thought he had time to cross.

AUTHORITIES SHOULD FIGHT FEVER PLAGUE

George Bradbury, M. P., Says Government Should Spend \$10,000,000 a Year to Combat Typhoid Fever Menace.

Ottawa, Ont., May 16.—The Dominion government spends about ten million dollars a year on military matters and not a cent to fight typhoid fever, which is killing thousands of our people every year. It seems to me that the government would do well to spend as much to protect the health of the public as it does on military matters," said George Bradbury, M. P., chairman of the special committee appointed to deal with the pollution of rivers and streams in Canada during the sitting of that body today.

"Would it not pay the government to employ a special board of sanitary engineers to deal with the problem confronting us?" asked Mr. Bradbury, of R. S. Lea, a Montreal hydraulic engineer, who was a witness before the committee.

"It would be money well spent," answered Mr. Lea. "There is not a special course of sanitary engineering given in any of the Canadian universities; the government would do well to provide chairs of sanitary engineering in the universities of Canada."

"If this problem we are dealing with were taken hold of systematically by the government how much would the typhoid be reduced?" questioned the chairman.

"Three hundred per cent. and it would considerably reduce the probability of typhoid epidemics."

The outcome of Mr. Bradbury's suggestions will be that parliament will be asked to vote a large sum of money to employ chairs of sanitary engineering in the universities and for the formation and upkeep of a central board to deal with the problem.

C. H. MacLeod, vice-dean of the faculty of arts at McGill University, and Wm. Kennedy, consulting hydraulic engineer of the City of Montreal, concurred in the views expressed.

Dizzy Headaches Cured in One Night

If Troubled with Head-Fullness, Ringing Noises, Specks Before the Eyes, the Stomach is at Fault.

Quick Relief and Certain Cure Came From Dr. Hamilton's Pills.

"I had a terrible pain in my head. My appetite faded away, and when I did eat anything it disagreed, and made me very sick for hours after each meal. The pains in my stomach and the dizzy headaches I had to endure almost set one wild. Sometimes attacks came so severely that I had to go to bed. I would feel so worn, depressed and utterly miserable that for hours I wouldn't speak to my family. My system was poisoned with wastes and nothing helped me till I used Dr. Hamilton's Pills. Without this grand system-cleaning remedy I would still be sick, but each day brought me better health and spirits. I was cured and made strong, ruddy and healthy, and will always use and recommend Dr. Hamilton's Pills."

"MRS. B. C. CURRY, Westport P. O."

Thousands who are in an alling, low state of health need nothing else but Dr. Hamilton's Pills. 25c. per box or five boxes for \$1.00, at all druggists and storekeepers, or the Cattaraugus Company, Buffalo, N. Y., and Kingston, Ont.

IMPORTANT MEASURES BROUGHT BEFORE HOUSE

Continued from page 1. been made in regard to the rate of interest, the rate of exchange and agency charges. Provision had also been made for the sterilization of bank's notes by the Treasury Board with a view to protecting the public health. Certain other provisions had been made to protect the public in the incorporation of banks and the issues of the treasury board certificate to commence business. Moreover bank officers were made liable if they received any consideration in connection with granting loans.

During discussion of the interpretation clause, Mr. Carvell (Carleton, N. B.), insisted that houses should be included in the list of animals upon which farmers could raise money. The reply of the Finance Minister was that the intention of the committee to extend the lien not to farmers generally but to ranchers in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how some one had used 'Fruit-a-tives' for similar trouble and asked Mr. Hunter, my draught, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering from like complaints, to commence using 'Fruit-a-tives'.

Transfer of Bank Shares. There was considerable discussion on the clause relating to the transfer of shares, which provides that no transfer of bank shares shall be valid unless the person making the transfer has previously discharged all his debts or liabilities to the bank which exceed in amount the remaining stock, if any, belonging to such person, valued at the then current rate. Mr. Carvell (Carleton, N. B.) stated that this was a discrimination in favor of a bank and thus placed it in an exceptional position as compared with mercantile or manufacturing companies. The Minister of Finance explained that the view of the committee was that by this provision investment in bank shares would be encouraged. The clause was allowed to stand for further consideration.

Mr. McKay (Prince Albert), asked whether the question of minimum salaries for bank officials had been considered. Hon. Mr. White replied that it had been considered, but that incorporation of legislation in the act on that point. He quite agreed, however, that bank employees, more especially the small branches and clerks in banks generally, were inadequately paid.

Better Pay for Clerks. Mr. Oliver (Carleton) in the remarks of the member for Prince Albert, certain of the banks, he said, had been systematically importing clerks from the old country. That was all the evidence necessary, he thought, to show that the salaries of junior bank clerks was insufficient. It had been found necessary in most of the mechanical employments of the men to band together and form unions in order to obtain fair wages. It was not possible for bank clerks thus to protect themselves, and he submitted it was, therefore, the duty of parliament to secure to them a minimum wage.

Bank clerks, he added, handled a great deal of money, in fact all the money of the country, and should be well paid. It was a fact that there had been a great deal of dishonesty among minor bank officials in Canada, said to be due to the small salaries paid to them and to the conditions under which they were obliged to live.

Their "Social Status." Mr. Carvell was not so sure that that was the real reason for defalcations. "If we could get it out of their heads that they are bound to be social leaders in the community," it would go a long way toward correcting the evil, he said. He thought that on the whole bank clerks were fairly well paid.

"Not the juniors," interjected R. B. Bennett. The main cause of defalcations among bank clerks, Mr. Lemieux thought, was their proneness to patronize the bucket shops in order to get rich quick. "If the Minister of Justice would attend to this," he said, "and see that young men are not allowed to trade in stocks, it would be a good thing." As for salaries, he thought \$300 a year was a very good start. He knew many capable lawyers who thought that if in two or three years they could earn a salary of \$1,000 per annum they were doing very well.

At this point Major Sam Simpson announced that he had two amendments to offer, which he had proposed to the committee and would give notice of them in the next few days. The first amendment was to amend the clause, at the suggestion of the Minister of Finance such clauses were allowed to stand and the committee proceeded to run through the bill adopting the clauses to which amendments were not being moved.

Registration of Liens. When the House resumed consideration of the Bank Act after the dinner

STRONGLY ADVISES SENATE WILL AMEND "FRUIT-A-TIVES" BILL FOR GOOD ROADS

Because They Cure Him, And They Will Cure You.

MR. ALEX. MCCARTER.

Walkerton, Ont., May 9th, 1911. "I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by Indigestion and Dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. recess, J. A. M. Alken, of Brandon, argued that the section regarding registration of liens should be struck out. It was quite consistent with the principles of the Bank Act that farmers should be advanced money on their threshed grain in granaries.

Farmers would be saved time if they were not compelled to haul their grain to storage centres and they should not be compelled to part with their grain at inconvenient seasons.

Hon. Mr. White said that the bank and commerce committee had held that liens should be registered, though he was not convinced on that point himself. Banks should have the right, he said, to take liens on cattle and the section had been put in the act to make the right clear.

It was quite consistent with the meaning of the two words, Mr. Bennett, however, did not think the word "rancher" was in the act, but he was in England because he had been a worker himself, and at the hardest and most poorly paid kind of labor. It is possible, though in these days of socialistic gabblers he may not get credit therefor, that better than his critics he knows what will be well for the workers.

Mr. Burns has been a worker himself, and at the hardest and most poorly paid kind of labor. It is possible, though in these days of socialistic gabblers he may not get credit therefor, that better than his critics he knows what will be well for the workers.

Shriners End Convention with a Ball—Meet Next Year at Atlanta, Ga. — Denver to have Commission Gov't.

NEXT MEETING AT ATLANTA.

Dallas, May 14.—What had been a custom was broken on Wednesday when the Imperial Council, Nobles of the Myrtle Shrine, voted for two nominees to the highest office of the order, electing W. W. Irwin of Wheeling, W. Va., Imperial potentate. It had been the practice to advance each officer one step in rank, the highest should have gone without contest to Deputy Imperial Potentate Irwin. However, John Boyle, of Utica, N. Y., was nominated also, although he received only eighty votes against 347 for Irwin. Atlanta, Ga., was chosen for the 1914 convention city. The Imperial Council granted a dispensation to the Mobile, Ala., temple and charter to Montgomery, Ala. The convention was concluded Wednesday night with an elaborate ball.

WILL TRY COMMISSION GOVT.

Denver, Colo., May 16.—Denver's first election under a new charter will be held next Tuesday, and the event is looked forward to with eager interest by citizens who believe that the commission plan of government will destroy many of the political evils that have long flourished in the Colorado capital. The election offices to be filled at the election there are more than 150 candidates.

EXECUTION BY SHOOTING.

Carson, Nev., May 14.—The first legal execution by shooting in Nevada took place at the penitentiary today, when Andrew Mierovich was put to death for the murder of John Gregorovich in Tonopah, on May 14, 1912. Death by shooting was Mierovich's choice in preference to the gallows, the Nevada law giving the option to the condemned.

WILL SPLIT PENSION.

Constantinople, May 15.—An Anglo-Persian convention relating to British control in Southern Persia was signed today. Russia and England agreed to split Persia into two species of influence. Russia took the Northern territory, bordering Russia's soil; England took the Southern. English soldiers will pilot all the trade routes along the Persian Gulf. Persia was compelled to accede to England's terms.

MURDER CHARGE FOR HUERTA.

Mexico City, May 16.—Formal charges of conspiracy, usurpation and of assassination against Gen. Huerta, provisional president of Mexico, have been made by Heriberto Barron, formerly commercial agent of the Madero government in the United States. His charges were read at an evening session of the Chamber of Deputies and Barron asks for the impeachment of the President. The charges were referred to a committee and it is expected that they will be reported to the House.

ENTERTAINED AT BOSTON.

Boston, Mass., May 16.—Boston is entertaining some prominent St. John people. Among those who are in the city are Mrs. James W. Frink, wife of Mayor Frink, Mrs. E. A. Smith, president of the Women's Canadian Club of St. John. Yesterday at the Hotel Somerset, noted as the hostess where Prince Henry of Prussia was entertained, the Canadian ladies were given a luncheon by the Boston Canadian Club Women's Auxiliary. There they renewed acquaintance with many prominent Bostonians who had previously resided in St. John and other Canadian cities. Mrs. Orville Story of Arlington, Mass., was toastmistress. Both the St. John ladies spoke. Today the ladies will tour Boston and suburbs and take in the places of historic interest.

WOMAN BURNED TO DEATH.

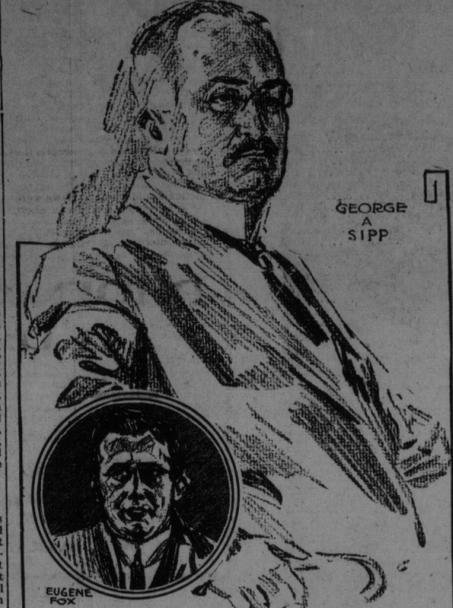

Presque Isle, May 15.—Mrs. Zelouin Field was burned to death Wednesday morning in the barn near her home here. It is believed that Mrs. Field, whose mind has been unbalanced for some weeks, set the fire. She has been dependent ever since the illness of her 16-year-old daughter. The girl was rescued from the fire. The house, buildings and contents were destroyed, the total loss being over \$10,000.

The Daily Hint from Paris.

When the blood is poor and thin and the stomach in consequence is imperfectly supplied with oxidized blood and nerve force, the digestive process becomes slow and fermentations of the food goes on, with the formation of gas and certain acids. The pressure of the gas causes pain in the stomach, sometimes it affects the heart. When the gas is belched out through the mouth, the patient is temporarily relieved, the sour risings in the throat, and the burning sensations in the throat and stomach are caused by the acid fermentations. There are plenty of things to neutralize these acids, or to "sweeten the stomach" as it is called, but they do not cure the trouble. Pure, rich blood which will work the stomach and enable it to do its work naturally intended it to do, is the only road to a cure. Dr. Williams' Pink Pills make new, rich, red blood—that is why they cure even the most obstinate cases of indigestion. The following is a bit of proof, Miss Minnie Greene, of Hall's Bridge, Ont., says: "About a year ago I was greatly troubled with my stomach. Everything I ate caused me pain and distress. I would feel as though I was starved, but when meal time came the sight of food caused a feeling of loathing. There were days when I could not even hold milk on my stomach, and my head would ache so that I could hardly keep from screaming. Only those who have suffered from stomach trouble know the torture I suffered. I tried almost every remedy recommended, but found not the least benefit until I began taking Dr. Williams' Pink Pills. These I used for a couple of months and they worked a perfect cure and I am again enjoying good health and able to eat freely all kinds of food."

If you are suffering from indigestion or any other trouble due to poor water blood, begin to cure yourself today by the use of Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

GEORGE A. SIPP'S TESTIMONY STRONG IN CONVICTION OF CAPTAINS

George A. Sipp, the owner of a disorderly house, gave convincing evidence during the trial of the four New York Police Captains—Sweeney, Hussey, Thompson and Murtha—who have been found guilty of conspiracy and graft.

ALBERT NEWS

Albert, May 15.—George Bennett of Edmonton, Alta., arrived at the home of his mother, Mrs. Henry J. Bennett, Hopewell Cape, yesterday. Mr. Bennett, who has held a position in a bank in Edmonton for the past few years, is at present engaged in the real estate business. Two steamboats carrying about two thousand tons each were loaded with plaster by the Albert Manufacturing Co. this week and left for New York. Nelson Bros. of Hopewell, taking a number of teams, left yesterday for Springhill, where they have a contract to haul a large quantity of lumber to a wharfing point. The death of Nelson Edgett, an aged and respected resident of Hopewell Cape, occurred on the ninth inst. at the home of his brother-in-law, Willard Porter. Mr. Edgett had reached the age of 91 years and had been in the best of health up to within the past two months. The funeral took place on Tuesday and was largely attended. The services being conducted by Rev. Alonzo McCully of Hillsborough. He leaves two sons, Fred and Frank, of Bridgeport, Conn., U. S. A., the former the proprietor of a brush factory and the latter engaged in a bank in that city. Silas Wright has returned from a week's visit in St. John. Mayor Posa and wife of Moncton motored to Hopewell Hill on Tuesday. On their return they were accompanied by Mrs. W. R. Peck, who will be their guest for a few weeks. Capt. Ronald V. Bennett has purchased a five-passenger Cadillac touring car.

PUZZLE IS SIMPLE AND FASCINATING

Everybody is Already Talking About the Standard's Latest Contest Feature—Many Answers Received.

The Standard's big puzzle contest is causing considerable comment both in and out of St. John and while the problem looks simple enough the answers that are reaching the Contest Editor prove conclusively that somebody needs to brush up a little on their arithmetic.

Many inquiries are coming in by phone and letter, and the number of solutions registered increases each day.

Everyone who enters the contest is on an absolute equal footing. Old as well as new subscribers may compete and it really costs nothing to become a contestant.

Should your subscription be paid in advance you can send in your solution with a payment which will apply at the expiration of your present subscription.

Unlike the usual puzzle contest, there will be only one puzzle to solve, unless it happens, as it is quite possible, that a number of people count the number correctly. In that case another puzzle somewhat similar will be provided for these. This will be

WATER AND SEWERAGE.

The removal of the water and sewerage pipes about the city was discussed at length by the commissioners yesterday. Commissioner Wigmore pointed out that tenders could not be called for the work as yet because he had received word from England that the pipes would not be shipped until May 29th. About 200 feet of the sewer connection on Douglas avenue, as far as the railway tracks, has already been laid and the work somewhat advanced. Road extension is also progressing at a satisfactory rate. About 200 feet of the trench in which the water and sewer pipes will be laid, is already opened.

Porto Rico Telephone Bonds
Can now be had to yield 6.76 p.c.

As illustrative of our repeated assertion that NOW is a good time to buy Bonds we might cite Porto Rico Telephone 7 per cent Gold Bonds as a good example of the investment opportunities of the day.

This is a most desirable Public Service Bond, well secured as to principal and interest, and offering excellent prospects of appreciation in value. For a 7 per cent Bond its present price of 103-1/2 per cent and interest, yielding 6.76 per cent, is decidedly very attractive. But this advantage is due to the money stringency which happily is about over.

We have an interesting circular about this Bond which we would find pleasure in sending to you. If you wish we will include our May "Investment Offerings" as well.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CURDY & CO'S IRREGULAR TONE IN MONTREAL LETTER

(F. B. McCURDY & CO.)
Montreal, May 16.—The past week is not brought anything of much interest to the local exchange. It is as far as the international implications are concerned, they seem to have pretty well disappeared and no further trouble is expected in this connection. Notwithstanding this, however, the money situation continues as unfavorable as ever. In fact the situation is in all probably less favorable than ever.

During the week one of the most interesting features was the reduction in the duty on Cement. The market for Canada Cement was not visibly affected, the price holding steady at 30, and better during the two days following the announcement. Thereafter the market lost to around 29 1/2. It is doubtful, however, if this week's news was properly attributable to the reduction in the duty, the price of many other stocks having declined with a greater fraction than the case of Cement. Steel Corporation along with other issues showed weakness.

CLOSING STOCK LETTER.
(J. C. MACKINTOSH & CO.)
New York, May 16.—There was little or no fresh news to influence dealers on the stock exchange today and the market as a whole remained a narrow and featureless affair. The general undertone, nevertheless, was somewhat firmer and it looked as if the leading stocks had worked into a strong technical position. There has been a lively demand for the standard shares in the loan market for some time past but until recently the average observer has been inclined to admit the contention of the bears that the short interest was of a technical character, reflecting temporary borrowing of certificates against future delivery of the actual shares. It is beginning to look now as if the bulk of the deliveries of the certificates has been made and that the borrowing demand in large degree reflects a short interest. As against this, however, there is still little or no outside demand for stocks from any quarter and the dribble of liquidation which has been in progress for some weeks continues, although shifting from one point to another. It seems reasonable to believe that the present level of prices has discounted the more unfavorable aspect of the actual situation. This does not necessarily mean that the prices have seen their lowest but from which to begin a bear campaign.

CLOSING STOCK DOW JONES CO'S CLOSING PRICES OF BOSTON STOCKS

(F. B. McCURDY & CO.)
New York, May 16.—The opening was quiet, but stocks were firm and in the early dealings fluctuations were very narrow. Before the end of the second hour, however, the tone became decidedly strong, shorts covered freely, and leading issues advanced a point or more over last night's close, with the inactive stocks participating to a greater or less extent in the advance. By noon almost everything on the list showed gains over last night. The market continued strong during the greater part of the day. In the late trading there was some shading off, induced partly by profit-taking and partly by the weakness in the Rock Island issue; the collateral selling down to 57 1/4 and the stocks of the company sympathizing with this weakness. There was no reason given for the decline, but the rest of the list sold off fractionally after a very moderate amount of profit-taking. The close was fractionally below the cost, but the rest of the list sold off fractionally after a very moderate amount of profit-taking. The close was fractionally below the cost, but the rest of the list sold off fractionally after a very moderate amount of profit-taking.

CLOSING COTTON LETTER.
(J. C. MACKINTOSH & CO.)
New York, May 16.—Reports of showers over a good portion of the Eastern belt caused a considerable volume of bear selling in the first hour today but it soon became evident that a portion of the short interest was taking advantage of this news to secure profits. This latter buying restricted offerings, especially as there was much uncertainty as to whether the precipitation reported has been enough to bring relief. Bulls on the market felt that the failure of news to bring fresh pressure strongly asserted that if official reports showed that rains in the Eastern belt had been adequate fresh pressure would be forthcoming in volume sufficient to bring a lower range of prices.

Met With Painful Injury.
The many friends of J. N. Golding, Jr., will regret to learn that he met with a painful accident yesterday morning while at work in the Star Theatre. While he was superintending some work of renovation, a large plank was overbalanced and fell, striking him on the head. He was rendered unconscious and received a bad bruise on his forehead. Dr. F. J. Hogan found it necessary to put seven stitches in the wound.

A Chinese Crew.
About twenty-three Chinese reached St. John yesterday from the Old Colony via Halifax, to supplant the English speaking crew of the coal carrying steamer Eastington.

If the petition contains the required number of names the council must either alter the law or order an election on the subject.

Imagination VERSUS Green Fields
We offer CITY LOTS ON EDWARD STREET that are not as pretty as GREEN FIELDS in the COUNTRY, but we depend on your imagination to see the advantages of our lots over green fields, and PRICES ARE THE SAME.
1st.—They are BELOW STREET LEVEL, a feature that builders appreciate, because it SAVES THE COST OF EXCAVATING.
2nd.—Instead of spending money to beautify this ground, which would add to the cost of the lots, and have to be dug up anyway, we are SAVING THAT MONEY FOR OUR CUSTOMERS by offering the lots cheaper.
3rd.—IT IS A CITY STREET that will soon be graded, and at the present time CONTAINS NEW WATER MAIN AND SEWER.
Edward Street will be an important artery of connection between City and West End, THE ONLY STREET PARALLELING DOUGLAS AVENUE between the harbor and river, on the beautiful peninsula of private residences, with its Riverview Park, lovely views in all directions, AND NO OBJECTIONABLE FEATURES. This is the last undeveloped property in the locality, and the LAST VACANT PROPERTY in a high class residential neighborhood, close to the centre of the City, affording as it does, city light, police and fire protection, street car service, and the great advantage of desirable neighbors. In a year or two there will be many who will say, "I HAD A CHANCE TO BUY EDWARD STREET LOTS AT THE PRICE OF COUNTRY GREEN FIELDS, BUT I LACKED THE NECESSARY IMAGINATION, AND SEE WHAT THE LOTS ARE WORTH NOW." Are YOU going to be one of these, or will you then be among the few envied ones, who buy now? WHICH WILL IT BE?
We offer these thirteen lots for quick sale at about 25c. a foot, and we do not believe their equal exists in St. John at LESS THAN DOUBLE THAT FIGURE.

INTERNATIONAL LEAGUE.

Newark 3, Rochester 2.

Rochester, N. Y., May 16.—In a pitchers' battle today between Kaiser Wilhelm and Enzmann, Newark won a 13-inning 3 to 2 victory. Swackina's triple and a wild pitch brought in the winning tally. Rochester had a man on second when Schmidt hit for two bases in the ninth, but did not score through Zinn becoming rattled and sticking to second, he figuring that Meyers was to catch the ball. Score: Rochester 3, Newark 2.

Batteries, Wilhelm and Jackitsch; Enzmann and McCarty.

Buffalo 2, Providence 1.

Buffalo, N. Y., May 16.—Huffa's won a fine pitchers' battle from Providence today, 2 to 1. Main and Bailey kept the hits down, the Greys getting three of their five hits in the ninth. The score: Buffalo 2, Providence 1.

Batteries, Mains and Gowdy; Bailey and J. Onslow.

Toronto 2, Baltimore 1.

Toronto, Ont., May 16.—Southam "Bunny" Hearne won his fifth successive game this season, when he beat Baltimore by 2 to 1 in the opening game of the series here today. The win was dearly bought as Shaw wrenched his ankle going to first and will be out of the game for some time. The score: Toronto 2, Baltimore 1.

Batteries, Johnson, Danforth and Egan; Hearne and Graham.

NATIONAL LEAGUE.

New York 7, Pittsburgh 4.

New York, May 16.—Hard hitting by the home team and loose fielding by Pittsburgh gave New York today's game, 7 to 4. O'Toole's offerings were batted freely in the first two innings and he was handicapped by miserable support. The locals played sensational ball behind Mathewson, who pitched well until the eighth, when the Pirates started the inning with six consecutive hits. O'Toole's playing was the feature of the game. He made the initial bag four times on singles and once on a double. He also stole three bases. Score: New York 7, Pittsburgh 4.

Batteries: O'Toole, Cooper, Camnitz and Kelly; Mathewson, Myers and Hartley.

Brooklyn 6, St. Louis 5.

Brooklyn, N. Y., May 16.—St. Louis got an early lead of three runs at Brooklyn today, but the locals came up with a rush in the next five innings and batted their way to a six to five victory. Outshut hurt his leg speeding around the bases on his homer and scored. Score: Brooklyn 6, St. Louis 5.

Batteries: Sals, Viles, Geyer and Wingo; Curtis and Miller.

Philadelphia 10, Chicago 4.

Philadelphia, May 16.—Toney's delivery was easy for Philadelphia today and the home team defeated Chicago by ten to four. Rixey puzzled the visitors until play was resumed after a ten minute intermission caused by rain at the start of the eighth inning. Evers was spiked in the fifth inning by Knabe, and his place was taken by Phelan, who, in three times at bat, made a home run, a triple and a single. Paskert was put off the field for disputing a decision at first base by umpire Bryon. Score: Philadelphia 10, Chicago 4.

Batteries: Toney and Archer; Rixey and Killifer.

Game Postponed.

Cincinnati at Boston—No game, rain.

AMERICAN LEAGUE.

Detroit 5, Washington 2.

Detroit, Mich., May 16.—Detroit did not waste a base hit today and defeated Washington 5 to 2. The locals hit safely in but three innings and in these three all of their runs were scored. Washington took the lead in the first inning and held it until the sixth. Morgan brought in both of Washington's tallies. Busy was put out of the game in the 1st inning by Empire McGreay for disputing a decision. Louder, who replaced him started at bat, and in the field. Score: Detroit 5, Washington 2.

Batteries—Hughes, Drohan, Henry and Ainsmith; Lubuc and Rondeau.

Philadelphia 8, Cleveland 5.

Cleveland, May 16.—Battling Gregg hard Philadelphia overcame Cleveland's early lead and won today's game 8 to 5. Brown was taken out in the first. After Philadelphia had taken the lead they scored two runs in the seventh. Mitchell then replaced Gregg and allowed him one hit after. In the seventh Cleveland filled the bases with none out, but all the runners were caught off base by a triple play in which most of the Philadelphia team participated. Score: Philadelphia 8, Cleveland 5.

Batteries—Gregg, Mitchell and Calsch; Brown, Houck, Bender and Thomas.

Boston 3, St. Louis 2.

St. Louis, May 16.—Boston won from St. Louis today 3 to 2. Both teams played perfect ball in the field and the pitching of Collins and Baumgartner was about equal. Hooper won for

Boston in the fifth inning with a long drive into the right field bleachers, scoring Wagner-scattered in the ninth. St. Louis hit Collins hard in the second inning, scoring two runs. After this Collins had little trouble, St. Louis being unable to hit him with any success. Score: Boston 3, St. Louis 2.

Batteries—Collins and Carrigan; Baumgartner and Agnew.

Chicago 7, New York 0.

Chicago, Ill., May 16.—Pitcher Joe Benz of the Chicago American League team, held the New York Americans at his mercy today, allowing the visitors but three scattered hits, while Chicago batted McConnell opportunely and won the second game of the series, 7 to 0. This is the eighteenth scoreless inning pitched by Benz, who pitched well in the pluches, either fanning or forcing the batsmen to pop out. Score: Chicago 7, New York 0.

Batteries—McConnell, Clark and Sweeney; Gossett, Benz and Shalk.

MARK HALL IS BEST OF THE TIGERS

Mark Hall is about the best of the lot. He comes from Omaha in the Western League, where he had a record of 25 won and 9 lost. He has won several games for the Tigers so far this year and has his job in the majors cinched, as long as he keeps up his present gait.

SPORTOGRAPHY BY "GRAVY"

While Chicago fans are honoring their former peerless leader, New York American League bugs are already gravely discussing the probability of another cellar championship for the Yankees. No city in the main circuit takes the cellar title more seriously than New York, and it is probably because Gotham teams have been so fortunate in avoiding the lowest berth. From the beginning of the game until 1909, New York escaped the booby prize of baseball. The Giants finished in the cellar in 1900, and again in 1902. The Yankees had their first sub-cellar experience in 1905, and repeated last year. Chicago has an even more remarkable record,

never having had a real tail-end berth. In 1877 the Chicago Club was officially the cellar champ of the National League, but that was because Cincinnati, the real tail-end, dropped out before the close of the season. Washington has harbored more cellar champions than any other city in big league history. Four times Washington finished last in the National League, two times in the old American Association, and four times in the American League. St. Louis crowds Washington for the doubtful honor with a record of nine tail-enders—six in the National and three in the American. Cincinnati has finished last in the National three years, in the National one year, and once in the old American Association. Since the old American League and once in the National. Louisville was represented by tail-enders in the National three years, and once in the American Association. Milwaukee had one tail-end aggregation in the National and one in the American. St. Louis finished last once in the American. Worcester was last twice in the National, Kansas City once in the American Association, and Troy and Indianapolis each had a tail-end team in the National.

Mileage Records sell these Tires

ARE Canadians checking their Tire Mileage?
Read this:—
In 1911 the Goodyear Canadian factory made 33,750 tires. In 1912 they made 51,000, an increase of 51% over 1911, and as many as the parent factory in Akron made in 1908. We had to turn down orders for thousands of tires because we did not have the equipment to turn them out.

In 1913 our output will be 500 tires per day. These figures show plainly that Canadians keep mileage records—that they want to make the saving which No-Rim-Cutting and 10% oversize make possible.

How the Saving is Made Up
Out of every 100 ordinary tires, 23 are ruined by rim-cutting. Every one of the 51,000 tires we sold last year in Canada has made this big saving because it cannot rim-cut.

And these Tires have, on the average, 10% greater air capacity than ordinary tires. Tire experts allow 15% more mileage for every 5% of oversize. To make a safe estimate we place the extra mileage for No-Rim-Cut Tires at 25%.

Here is a chronicle of crime.
The foreman of the Tire Department every so often takes a No-Rim-Cut Tire—a new, perfect tire—picks it out at random from the pile of inspected tires and carries it away to the Superintendent's Office.
Then another cut parallel with the first. This makes a slit about an inch wide, which is lifted at one end and tugged at with instruments until it is slowly dragged back, laying bare the fabric.
This tire is ruined.
It is the sacrifice tire that proves the perfect curing and vulcanizing of all. This interesting test is as necessary as the laboratory tests of the raw rubber and the cotton duck. The strain on the tread shows the Superintendent if there has been the slightest deviation from the specified time and temperature, in either the curing process or the vulcanizing process.
With Goodyear Tires we have to be sure.

LARCHMONT WANTS THE YACHT CUP

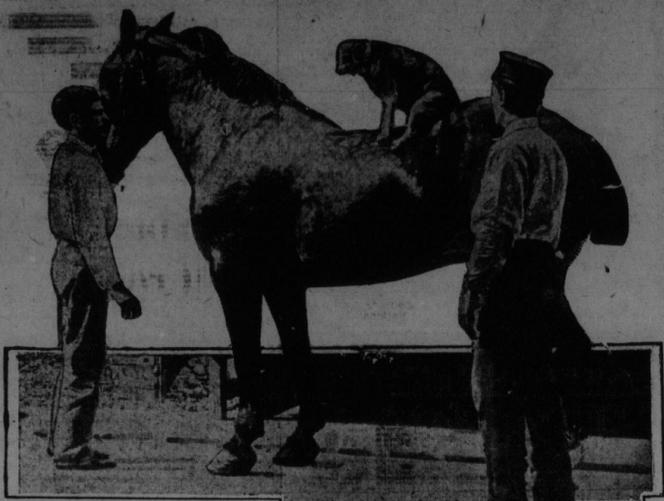

New York, May 16.—Still another club has sent a challenge for the Manhattan Bay Cup, now held by the Chicago Yacht Club. The announcement comes from the Larchmont Yacht Club, which states that it will be represented in the races on Lake Michigan. Commodore Smith's club has nominated Richard Monks, and the new yacht that is being built for the Hanan brothers. The yachts will go west in August, shortly after the cruise of the New York Yacht Club. In addition to the Larchmont craft Eastern yachtsmen will be represented by the Joyant, the property of Commodore W. H. Childs, Indian Harbor Yacht Club. The Manhasset Bay Challenge Trophy is one of the most important prizes in the American world of yachting. It was won last year by the Chicago Yacht Club in an interesting series on Long Island Sound. The trophy will be defended by a new yacht now nearing completion at City Island.

FREDERICTON GETTING IN CONDITION

Fredericton will have practically a brand new team on the field this year. Manager Ganley, who is training the squad in Lowell, Mass., reports that he has fifteen men in practice for outfielders, six infielders, two catchers and three pitchers. Three more pitchers are on a string and will report at once.
In addition to Manager-Captain Ganley there will be at least three players who are well known locally included in the team outside of the battery men. These are: Bert White, outfielder; George Sullivan and Hank Callahan, infielders. It is expected that some other players who are known here will be with the club when the season opens or shortly afterwards.
As Victoria Day will be observed in Fredericton on Monday, the 26th, it means two ball games that day, one in the morning and the other in the afternoon, and the fans will have a chance to see the club playing on Saturday in

ABROAD

A DOG WHO HAS WON DISTINCTION AS A STEWARD
OF A CANINE COLONY IN HAVANA, CUBA

OTHELLO WITH HIS FRIEND, ODISPO, THE FIRE HORSE.

CARRYING HIS RATIONS

OTHELLO IN FRONT OF THE FIRE HOUSE IN HAVANA

Mascots are as popular in Cuba as anywhere else. In fact, there is one in the "Magoon Fire House," or Centro de Perro, in Havana, which is so intelligent that the firemen would trade him for all the mascots in the world. Othello, as he is called, is a dog which came from somewhere some time ago; no one knows just where or when.

As a steward Othello has won special distinction. In the fire house are other mascots, many of them, over which Othello seems to be the acknowledged leader.

At ten minutes to five o'clock every afternoon Othello can be seen going from the fire house to the Cosmopolis Restaurant, where he will lie down in the middle of the sidewalk and wait until five minutes after five. At that time one of the waiters comes quietly and places a tray of meat scraps against one of the pillars and presently Othello rises leisurely, picks it up and carries it back to the fire house and distributes the morsels to the other dogs.

During the coming year the firemen believe that Othello will be pointed out to the tourists as one of the city's chief attractions.

TENNIS TEAM
CHOSEN FOR
THE STATES

New York, May 16—Maurice E. McLoughlin, of California; R. Norris Williams, of Pennsylvania; and Harold H. Hackett and Raymond D. Little, both of this city, were officially nominated yesterday as the American lawn tennis team for the Davis International Cup matches against the Australians. The selections were announced after a meeting of the American committee, which included R. D. Wrenn, chairman, H. W. Slocum and G. T. Ades. The nominations will stand for the matches which will be played on the turf courts of the West Side Tennis Club, in this city, on June 6, 7 and 8.

Mr. McLoughlin stands as No. 1 on the ranking list and holds the national championship in both singles and doubles, as well as other important titles. Mr. Williams is now at Harvard. He was the sensation of the last season, ranking No. 2 to Mr. McLoughlin. His chief victory was the winning of the national clay court championship at the Pittsburgh Athletic Association.

Mr. Hackett's record as a doubles player has never been duplicated on the American courts. He was rated three times with different partners last season. He has held the national title and at times all of the other important ones. Mr. Little was rated No. 8 in singles last season. He has figured in other international cup matches and was also rated in the doubles with Hackett, with whom he has been playing steadily this season.

CRICKET.

The St. John Cricket Club will play the Rothesay College team at Rothesay this afternoon on the College grounds. Game commencing at three o'clock. The following will be the team:

E. Tucker, A. Hill, G. Morrissey, A. J. Sollows, E. Walker, T. D. Popham, H. E. C. Sturdee, Rev. P. Colthurst, F. Wade, H. Cannell, C. Munro, G. Stubbs, F. R. Fairweather, Limpire—C. E. MacMichael, Scorer—E. J. Potzenham.

In addition to the Larchmont craft Eastern yachtsmen will be represented by the Joyant, the property of Commodore W. H. Childs, Indian Harbor Yacht Club. The Manhasset Bay Challenge Trophy is one of the most important for small craft in the American world of yachting. It was won last year by the Chicago Yacht Club in an interesting series on Long Island Sound. The trophy will be defended by a new yacht now nearing completion at City Island.

YOUTHFUL
LEAGUE IS
BROKEN UP

Reading, Pa., May 16—After an existence of but three days, the United States Baseball League has disbanded. President William Abbott Witman of this city, threw up the sponge late Tuesday night. The first break came on Sunday when New York would not play in Newark because that club had not been paid the guarantee for the Saturday game. Washington and New York were dropped and it was decided to go along with six clubs, but yesterday only a few people were on hand for the games and this discouraged all connected with the league and they quit. Nineteen players are stranded here.

ASHBURN FISHING CLUB.
The annual meeting of the Ashburn Fishing Club, Ltd., was held yesterday in the offices of Barnhill, Ewing and Sanford. The members present were A. W. Adams, Dr. Spangler, Dr. W. W. White, Mayor Frink, J. T. Knight, Geo. McAvity, Chas. F. Tilley, Chas. Nevins, W. H. Shaw, James A. Gregory, S. W. Wilkins, D. J. Brown, Col. F. E. Wedderburn. Officers were elected for the year as follows: President, James S. Gregory; secretary, treasurer, J. T. Knight; directors, A. W. Adams, S. W. Wilkins, D. J. Brown.

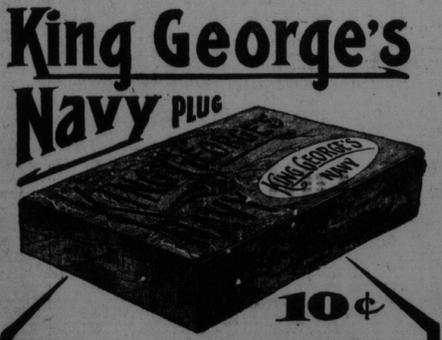

Mrs. Ramsdall—Those two women don't speak any more; each claimed to have the smartest child in town.

"The Car Ahead"

Save the Duty

Men too often judge a car by its price. Having decided to buy a \$2,000 or \$2,200 car, they are not interested in cars that sell for \$1,625. When you choose your car remember this. Do not class the Tudhope 4-36 as a \$1,625 Car. The Tudhope cars are built in Canada. They do not carry the 35% duty charge which is added to the price of imported cars or cars assembled from imported parts—a charge that increases the price without adding to value. The Tudhope cars can be bought at the duty-saving price.

The Tudhope cars have that massive and well-balanced appearance that marks the perfect car. They show care and skill in the details of body building, in upholstery, and in finish. The generous proportions—exceptional spring equipment, long wheel-base, big wheels: these are the things that bespeak comfort, freedom from rocking and jolting—a steady car. The accessories are well chosen: Gray & Davis Electric equipment; Extra Tire; small things, perhaps, but evidences of our study for thoroughness.

Ride in a Tudhope car. Feel the quiet throb of the powerful motor. This big silent machine is the product of a factory that takes pride in its output. The Motors, Gears, Axles are built with the exacting care that is essential for comfortable touring and dependable service over Canadian roads.

Catalogue comparison will give some indication of the extra value we build into Tudhope cars. Remember we save the duty. But to appreciate what Canadian building actually means you must see the cars.

NEW BRUNSWICKERS OUT WEST PLAIN JULY PICKING

Dominion Day will be kept in Loyal Manner.

HON. GEO. E. FOSTER ASKED TO TAKE PART

M. B. Wilson, Formerly of Moncton, Celebrates 53rd Wedding Anniversary—News of Others From the Provinces.

Vancouver, the new city, is a natural centre of reunion societies and there are over a dozen here, with members of 250 or more. But of all these the most active at this time of year seems to be The New Brunswick Association of British Columbia. On Tuesday April 23, was held the Annual Box Social in the Orange Hall and attended by 300 former residents of New Brunswick. Plans are now being made for the Annual Dominion Day picnic on Second Beach, English Bay, Vancouver. Last year when this event came off, Premier Fleming and Hon. Geo. E. Foster, were secured to address the association. This year it is hoped to go one better, and Hon. Geo. E. Foster, who is also a native of New Brunswick will be asked to participate in the picnic in June from his tour of Australia and the Orient. The New Brunswick Association has secured the month of Second Beach, English Bay, for all subsequent Dominion Days, and have erected there permanent tables and other equipment.

At the last election of the Association, the following were chosen to the executive: Messrs. William Everett, John Burpee, Dr. C. J. Bell, J. A. Pelletier, J. B. Appleby, Kirkland Grey, H. Raymond, and Harry Hipwell, secretary.

Many Guests Known Here.

The Box Social and dance given on April 29, was a very successful affair. The ladies provided the refreshments, after the enjoyment of the jolly old-fashioned basket supper, and the sale of the baskets caused considerable merriment. The prize for the highest figure was awarded to Mrs. D. J. Bell. Supper was served about 11 o'clock and the dancing was continued until 3 a.m. Among the guests were: Mrs. D. J. Bell, Mrs. M. R. Cliff, Mr. and Mrs. J. H. Cameron, Mrs. J. D. Cotte, Mr. and Mrs. Black, Mrs. John Black, Mrs. R. Currie, Mrs. J. Chares, Mrs. Harry E. Eddy, Mr. and Mrs. C. E. Fowler, Mr. and Mrs. A. E. An Old New Brunswicker.

The biography recently appeared in a Vancouver daily of an Old Timer here, who will be remembered by many Old Timers also of New Brunswick, is that of J. H. Duval, owner of a small garden and several valuable acres of woods in North Vancouver. A native of Yorkshire, England, he came out to New Brunswick in the early fifties. He now possesses a medal commemorating the time when he served in a New Brunswick regiment, against the Fenians along the St. Croix River, in 1856. Recalling progressive

PICKPOCKETS WORKING ON THE G. T. P.

German Immigrant "Touched" for \$25,000—Railway Officials Convinced that Light Fingered Gang is at Work.

London, Ont., May 16.—Chief Detective Davy, of the Grand Trunk Railway, is in the city working on the pickpocketing cases which have been reported to the local police. Heinrich Melniko, a German immigrant, who was robbed of \$2,500 has not heard since of his roll. Railway officials at the head office are convinced that a gang of light-fingered crooks are operating on trains.

There every reason to believe the business for the week has been profitable in the last few days. On Wednesday a traveller was relieved of thirty-seven dollars on the Buffalo-Chicago express. Yesterday a colored man was arrested by the police. He was a pickpocket of note from the Southern States, and it is said that he is a member of an organized gang. Officials reported here today that nothing further had been heard of the German immigrant's money, but stated that the company had the matter in hand and are doing all possible to locate the thieves. The case will be rigidly investigated. Chief Detective Davy began an search on the case. He called at the Carling street police station and solicited the aid of the local police force in his investigations.

movements in Vancouver. Mr. Duval mentioned the day, 23 years ago, when the Vancouver branch of the Imperial Federation League was organized. Among those present were: Messrs. William Downie, A. H. B. MacGowan, a native of Prince Edward Island, and A. St. George Hammerley. Mr. Downie is now superintendent of the Maritime Division of the C. P. R., for MacGowan is an M. P. P. for Vancouver, and Mr. Hammerley is a member of the Imperial Parliament. Mr. MacGowan recalls the days when he and Mr. McLeod, former manager of the Bank of Nova Scotia, were chosen Mr. McLeod, he says, once with three friends started a course of reading and study, and before the year was out had acquired twice the information on the subject studied as either of his associates.

Another old timer from New Brunswick on April 23, celebrated the 53rd anniversary of his wedding day. He is Mr. M. B. Wilson, who was born in Moncton and came West about 15 years ago.

Col. Markham Injured.

Colonel Markham, former manager of the University Women's Club, Miss Kate McQueen, New Brunswick lady, sustained serious injuries as a result of a fall caused by the approach of an automobile, while on his way to a prominent place in the business life of Point Grey, the municipality to the West of Vancouver. At the head of some 200 or more Aislers, he is clearing the immense acreage of C. P. R. lands near Vancouver coming into the residential section of the city. Under his superintendence also the Canadian Pacific flower and market gardens in raising supplies for the Vancouver Hotel, and the C. P. R. passenger trains entering Vancouver. Seven acres of land, which was, six years ago, little but muskeg has been filled in, and it now raises some of the best flowers in Vancouver district.

Personal Notes.

At the recent election of officers of the University Women's Club, Miss Kate McQueen, New Brunswick lady, was elected President for next year; and Mrs. W. DeB. Parrie, well known in St. John; and wife of a New Brunswicker man, was chosen second vice-president. The club has purchased lots on Howe Sound, near Vancouver, where a summer camp will be established.

Sir Charles Tupper, former Minister of Railways for Canada, but best known in the extreme Eastern Provinces, where he was born and started his political career, and in this Western Province, where he carries on a large law practice, will address the next meeting of the Vancouver Canadian Club, on Federation, has left for the East again, after visiting Vancouver and Victoria. He will include the Okanagan in his return trip to New Brunswick.

Miss Nora Knight, of St. John, will spend the summer here, with Mrs. D. Lester Chapman who is also a St. John lady.

The old friends here of the late Mr. G. U. Hay, feel a deep sense of loss on account of his recent death. He had left to spend the summer in the summer cottage, Howe Sound. Mr. and Mrs. Everett, formerly of Woodstock, will join them later.

NEW FLAGSHIP FOR POWER BOAT CLUB ARRIVES TODAY

Commodore Stephen P. Gerow has Purchased "The Elizabeth"—Luxurious and Speedy Yacht Originally Built for Famous Actress, Julia Arthur—St. John Men as Guests on Trip from Boston.

THE ELIZABETH, NEW FLAGSHIP OF THE JOHN POWER BOAT CLUB.

By "Dutch" Ervin.
Special to The Standard.

Eastport, May 16.—After an excellent trip down from Boston, the large and luxuriously appointed steam yacht Elizabeth, which was purchased in Boston for the famous actress Julia Arthur, and by her sold, later to Roger Upton, commodore of the Boston Yacht Club, arrived here this morning. The Elizabeth, a picture of which is published herewith, is one of the finest pleasure craft ever brought to the East and certainly the speediest and one of the largest ever owned in the port of St. John. She has been the admiration of all who have seen her and there is little doubt that Commodore Gerow will be as well pleased in her as any yachtsman could desire.

Built for Julia Arthur.

The Elizabeth is practically a new yacht having been built seven years ago for the famous actress Julia Arthur and by her sold, later to Roger Upton, commodore of the Boston Yacht Club. The yacht was called the "Julia II." She was an expensive craft and fitted with every luxury. When she passed into the control of Mr. Upton he re-named her, and she has been christened "The Elizabeth." Great care was taken in building and fitting out this yacht, as Miss Arthur wished not only to have a safe and speedy vessel, but one that would give the owner and guests most comfortable quarters. The only reason Commodore Upton sold the Elizabeth is that he has had a much larger yacht built and Commodore Gerow was thus able to possess himself of one of the finest yachts on the coast.

A Lawley Built Boat.

Yachtsmen will be interested in the fact that the Elizabeth was built by the firm of George Lawley and Sons at their yards in Quincy, Mass. This is a well known yachtsmen and builders of some of the finest yachts in the Atlantic waters. Their motto speed and comfort combined, and they have made a happy combination of this in The Elizabeth.

The Elizabeth is built on the most perfect plan obtainable while her hull, water, deckhouses, inside and out are of solid mahogany. Between her stem and her stern she has a deck room with a companionway leading to the crew's quarters below.

The pilot house is about 15 feet high and is built with plenty of room for both the captain and guests. It can also be comfortably used as a dining saloon. It is carpeted with rich green Brussels carpet, and green silk curtains are draped on each window.

The seats are upholstered in leather and the room is lighted by gas. In quarters for the cook.

BARBERS ASK MAYOR TO SETTLE STRIKE

New York, May 16.—One hundred boss barbers called on Mayor Gaynor today and asked him to arbitrate their controversy with their striking employees. They told the mayor that two thousand barber shops in the city were closed by the strike, and that the bosses were ready to concede many of the barbers' demands for the organized profession, and Mr. Frederic said he would try to get in touch with the strike leaders and arrange a conference.

ORDINANCES IN CHRISTCHURCH CATHEDRAL TOMORROW

Frederick May 16.—Rev. C. Gordon Lawrence, dean, in charge at Kingston, Kings county; Rev. Lewis Dickinson, dean, in charge of Parish of Westmorland; and Rev. Frank Gaskill, assistant at Hampton, are to be ordained presbyters and Mr. Frederick May will be ordained a deacon in Christchurch Cathedral, tomorrow morning.

COMMODORE S. P. GEROW.

Launched a Week Ago.

The yacht Elizabeth was launched from the marine railway in the Baker yard basin on Friday last, and on the following day started on her voyage to St. John.

In addition to the owner, S. P. Gerow, the party on board consisted of Captain Frank Akroyd, who piloted the yacht along the coast; also Leo Gallagher, F. P. Burpee, Harry Ervin, Wm. Laskey and Wm. Blount.

The yacht left the Baker Basin, Quincy, Mass., Saturday morning last and cruised to Boston, and after a brief stay in the Hub she steamed to Marblehead, Mass. On this run of about 25 miles, those on board had an excellent opportunity of proving that the Elizabeth is an excellent sea boat. The yacht put well out of Boston Bay. A young gale of wind was blowing which caused a heavy and nasty cross sea.

Fine Sea Boat.

The yacht was continually battering in to the sea which broke clear over her, the sea water washing the top of the wheelhouse and deck houses, while the spray flew high about the engine stack. The Elizabeth threw things about considerably, but weathered the gale in an excellent manner and arrived safely at Marblehead. The yacht remained at the Boston Yacht Club quarters until Monday afternoon when she steamed east and put in to Portsmouth, N. H., that evening.

Should Arrive Today.

Leaving Portsmouth early Tuesday morning the Elizabeth made good weather of it to Portland, Me., arriving in Portland harbor in the afternoon.

Rockland was reached on Thursday and Eastport this afternoon. East from Portland the sea was heavy, but the weather fine and everybody on board enjoyed the trip keenly.

It is expected that the yacht will get underway on the last lap of the journey in the morning, and should reach St. John Saturday afternoon.

LABOR MAN AS COMMISSIONER

Former President Mitchell, of United Mine Workers of America, Accepts Office from New York State.

Albany, N. Y., May 16.—John Mitchell, former president of the United Mine Workers of America, has declined to accept a so-called recess appointment as state labor commissioner. Mr. Mitchell was nominated twice for this office by Governor Selzer, but was rejected by the Senate. The governor holds he has the power to name Mr. Mitchell for a term to expire twenty days after the convening of the legislature next January.

With a view to so organizing the labor department, in accordance with the provisions of a law passed this year, Mr. Mitchell today conferred with the governor.

HALIFAX STREET RAILWAY TIED UP BY STRIKE

Halifax, N. S., May 16.—The employees of the Halifax Electric Tramway Company, including the car and power house employees, went on strike this morning, following a conference between the representatives of the men and the company's directors yesterday afternoon. When the position taken by the company roused the men to immediate action.

TENTED CITIES TO RELIEVE CONGESTION

ALDERMEN AND POLICE BOOST TAXI BUSINESS

Investigation of Taxi Rates Show They Received Tips from Companies for Whom they Secured Business.

New York, May 15.—Traffic policeman and apartment house runners and hall men "boost" the trade of taxicab companies in return for tips, the district attorney's office learned today, in connection with the grand jury investigation of the board of aldermen's failure to pass a city ordinance regulating the taxicab rates from the public. The taxicab companies paid out an average of \$15,000 a year, giving fifteen cents for each taxicab call obtained from apartment house employees and more to a policeman.

"Graft" lists containing names of persons thus paid and of persons entitled to free rides were interchanged by companies, and a number of aldermen, police officials and other city employees are on these lists, according to a former officer of a company who visited the prosecutor's office today.

Three employees of the Yellow Taxi Cab Company were witnesses today at the continued hearing before the grand jury. The purpose of the inquiry is to determine if financial consideration from taxicab officials had any part in the aldermanic taxicab committee's delaying passage of the proposed ordinance for fifteen months.

HON. JUDGE STEADMAN DIED YESTERDAY AT AN ADVANCED AGE

Fredericton, N. B., May 16.—The Hon. Judge Steadman, retired Judge of the County Court for the counties of York, Sunbury and Queens, and at one time the Postmaster General of New Brunswick, died this morning at his residence, 100 Water Street, Fredericton. Judge Steadman retired from the Bench fifteen years ago, and for some years past he has been confined to the house. In the sudden change in the weather yesterday he suffered a severe chill, and last night his condition became very serious. He died at 10 o'clock, after a long illness. His widow, who was formerly Mrs. Turnbull of St. John, one step-daughter, Mrs. E. H. Jewett, of St. John, and at present in this city, survive.

STANDARD OIL TO CUT A \$50,000,000 MELON

New York, May 15.—Prospects of a sixty million dollar melon today, caused a rise of 23 points in the shares of the Standard Oil Co. of New York. A special meeting of shareholders was called for June fifth to vote on a proposed increase in capital stock from fifteen million dollars to seventy-five million dollars, the new stock to be divided among the present holders through a four hundred per cent. stock dividend.

ENGINE FULL, AND DRIVER, TOO.

Moncton, May 16.—At the meeting of the fire committee last evening an interesting discussion took place over the conditions in No. 3 fire station and also No. 4, and as a result Chief Tingley was appointed to investigate the flooding of No. 2 engine at the big fire, May 6th, and other matters.

A chairman Tingley brought up a report in the Transcript of the statement at a temperance meeting that the driver of one of the engines was seen intoxicated and also the question of one of the engines being flooded for twenty minutes at the West. It was stated that if it was the fault of the engine it should be fixed, but if caused by somebody a rigid enquiry should be held. He said there was no doubt that the engine was flooded at the previous fire.

SUBURBAN TRAIN SERVICE FOR VICTORIA DAY

The I. C. R. will run a morning suburban train to Hampton on Victoria Day, May 24th, leaving St. John at 9 A. M. and arriving at Hampton at 9.55 A. M. This will afford a nice opportunity for those who wish to spend the day in the country or to visit friends in the suburban villages along the line. The usual holiday excursion fares prevail on Victoria Day.

Need for Small Dwellings Becoming Imperative in Province Towns.

WESTERN VIEW OF EASTERN BOOM

Former St. John Man Has Good Luck Hunting Foxes in Alaska—Opening of Lakes Stimulates Business.

Winnipeg, May 16.—The political event of the week has been the nomination of E. L. Taylor as the government candidate in Gimli (Manitoba) constituency by election. Mr. Taylor opened his campaign at Gimli on Monday. So far there has been nothing of an unusual nature to mark the campaign, the government candidate being first in the field. The speeches so far have been of quite the ordinary type.

The general feeling in business circles has shown a decided improvement during the past week. The opening of navigation on the Great Lakes has made available returns from the large quantity of grain which was wintered at the head of the Lakes and the result has been a slackening of the more or less pronounced money stringency on the prairies. In all lines it is conceded that trade is better and more brisk and that collections are decidedly improved. Real estate shows increasing activity, it is now apparent that the year will be an average good one in that line. Building has increased materially. Winnipeg's figures on building permits are but \$500,000 ahead of a remarkably good month in 1912, and the same condition may be said to apply throughout the west generally.

A feature of western life which will appeal to newcomers to the country and to prospective newcomers is particularly, is the lack of facilities in the way of small dwellings. In Moose Jaw, the city council has decided to arrange with a builder or builders to finance a project to erect a hundred or more small dwellings for rental purposes. At Medicine Hat the civic authorities have erected a block of forty tenements which are laid out in form of streets and watered with electricity and heated by gas. These tenements are rented cheaply to such as are unable to secure dwellings. Edmonton has her tent city, and F. MacLure Scanders is advocating a similar departure at Saskatoon. Calgary is lenient to these circumstances by the decision of the Winnipeg Housing and Town planning association to expend \$100,000 in the building of dwellings in order that the newcomers to the city will be able to secure dwellings without difficulty. The cities of the prairies have fewer dwellings and apartment suites to let than the cities in the history of the country.

Booming Real Estate.

Many of our prairie cities have been subjected to considerable abuse, derision, calumny, reproach, sarcasm, ridicule, banter, chaff and general abuse because of the advertising methods followed by the real estate dealers of this part of the country. Some of these outbursts may have been warranted and some of them unquestionably were unjust. Some of the real estate positions which have come in for such criticism will make money yet for the people who have been concerned in them, even for the buyers who would sell and cannot. Still, a small proportion of the town lots exploited in the west, have been sold from five to ten years too soon. A number of these town lots are located in the Saskatoon district, a district which has yielded handsome profits in the past and will in the future, but which is undoubtedly sufficiently subdivided. Nevertheless the city of Saskatoon has been subjected to much peevish innuendo, some of it undeserved by certain eastern newspapers. And Saskatoon is sensitive. Some of the disparagement of the eastern critics sunk deeply into tender places in the side of a very busy and self-satisfied city. Note the following from the Saskatoon Saturday Press:

"We are not hearing so much knocking from the East as formerly. A few months ago almost every paper in Halifax, St. John and other parts of the Maritime Provinces, had references to Western real estate bores, and warnings to people not to treat their money away out on the prairies, and especially to beware of real estate advertisements with their horrible tendency to exaggerate. The reason we are not alone now is that the eastern cities are hard at the real estate game themselves; and no western boomster is in the same class with them, in the matter of imaginative advertising. In the Montreal Financial Post, for example, appears the advertisement of a Halifax real estate firm in which the statement is made that upwards of fifty acres at this port. It is to be expended at this port. In the

Happenings of the Week

FERRY WEDDING TO BE BRILLIANT AFFAIR

The weather of the past week has been cold, and in a measure has prevented many of our citizens from moving to the country as early as in former years. Monday, the 13th, will be celebrated as Loyalist Day and the entertainment given by the several different societies in Keith's Assembly rooms will no doubt be a great success.

Mrs. James H. Frink, Miss Frink and Mrs. E. A. Smith are expected home today from Boston.

The amount received on the "tag day" Saturday last for the Free Kindergarten amounted to \$1,125. The receipts certainly worked hard and nearly every person was wearing a tag, either yellow or blue.

Mrs. D. King Hazen is visiting her parents, Mr. and Mrs. J. D. Creighton, at Newcastle.

At a meeting of the council of the St. John Law Society on Wednesday morning, Mr. E. G. Fernald was elected president, and Mr. C. F. Sanford secretary-treasurer.

The annual meeting of the New Brunswick Loyalist Society was held Tuesday evening and was largely attended. Officers were elected for the coming year, and reports read from different communities. The annual service will take place in Trinity church, the chaplain of the society, Rev. Archdeacon Raymond preaching. There will be a function on the 19th in the Assembly rooms in conjunction with the Canadian Club and the Loyalist Chapter Daughters of the Empire. Rev. John H. MacVicar, D.D., will give an address.

Mr. Goring will visit and explain his valuable collection of old views of St. John and vicinity. Archdeacon Raymond will give musical numbers yet to be provided. Refreshments will be served during the evening.

Miss Elizabeth Furlong will open her tea room "The Brown Betty Tea Shop" on Tuesday. It is said Miss Furlong has fitted up the rooms most artistically and will, no doubt, be most successful in her undertaking.

The tea given by the members of the Women's Suffrage Association in the studio of the St. John Art Club on Tuesday afternoon and evening, was successful, and well attended. The rooms had been tastefully decorated for the occasion, the dainty tea tables presenting a most inviting scene. The evening an interesting programme was carried out.

At the dinner given at the Marconi Athletic Club, held recently at the Ernest Restaurant in London, Mr. G. Hornburn turned the toast of the visitors. The club, which is a very large one, is apparently composed of men and women interested in the development of the wireless, and who realize that social gatherings are by no means unimportant factors in promoting the larger interests of the community, football and swimming are among the outdoor sports of the club.

Mr. Thomas Walker's many friends in the city will join in congratulations on the honor conferred upon him by the Senate of the University of New Brunswick, the degree of LL. D. at the end of the year.

Mr. and Mrs. Leonard Parker, of Tyamouth Creek, were guests at the Royal this week.

Mr. and Mrs. H. B. Schofield left on Thursday for a trip to New York.

The many friends of Mr. Clarence B. Allan will be glad to know he is daily improving in health.

Miss Bertha of Amherst, who is instructing a class of girls in playground teaching, was the guest of honor on Tuesday evening at a reception given at the residence of Mrs. C. M. Porter, Union street. During the evening Miss Bertha Turner, on behalf of the girls, presented to Murray with a gold silver ring. Miss Murray on Thursday evening closed her course in playground instruction, much to the regret of her class. The young ladies who have taken the lessons are anxious to carry on the Friday afternoon classes for the High School girls both for the benefit of the school children and to keep in training and it is probable this plan will be carried out.

Friends will be glad to hear that Mrs. Allison Bissett (Charlottetown) who has been ill in the General Hospital, is daily convalescing.

Mr. and Mrs. Clarence Stevens, King Street East, went to Fredericton this week to attend the Seneca. Mr. Stevens received the degree of M. Sc. in course.

The ending for the season of the Saturday Evening Bridges took place

during the service. The bride looked charming in a white serge suit with a corsage of pink and white flowers, and carried a shower bouquet of Connaught roses. She was attended by Miss Eleanor Shaw, gowning in cadet blue satin with trimmings of Bulgarian, leopards hat with trimmings to match and carried a bouquet of crimson Richmond roses. Mr. Lawrence T. Allan supported the groom.

Mrs. Hornbrook, mother of the bride, wore black silk with overdrains of black silk applique net, black lace tulle with pink roses. Only immediate friends and relatives were present. Immediately after the ceremony luncheon was served at the home of the bride's parents at Renforth. Many very handsome gifts were received by this popular young couple. The bride's costume was blue-walpoor with hat to match. Mr. and Mrs. Cooper left by the evening train for Ottawa where they will be followed by the brides from hosts of friends in this city.

Miss Frances Campbell was hostess at a very enjoyable birthday party at the residence of her father, Mr. Alexander Campbell, King Street East, on Thursday afternoon. Prizes were won by dining room was prettily decorated with pink carnations. A large birthday cake adorned the centre of the table. The guests were assisted in entertaining the children were: Miss Campbell, Miss McFarlane, Misses Villah and Alice Starkie and Mrs. J. F. Sullivan. During the afternoon the children enjoyed several guessing contests, the prize winners being Miss Mary Barnes, Miss Eileen Williams, Miss Josephine Finley and Miss Eileen Branscombe. The young guests were Helen Smith, Robert Smith, Louise Smith, Isabelle Walker, Lillian Wilson, Lillian Clarke, Jean Patterson, Dorothy Sinclair, Gordon Sullivan, Dorothy Bosch, Dorothy Sutherland, Florence Henry, Mary Barnes, Marion Henderson, Margaret Henderson, Eileen Williams, Margaret Anderson, Josephine Finley, Audrey Kerr, Margaret Nixon, Eileen Branscombe, Kathleen Branscombe, Marjorie McFarlane, Helen McFarlane, John McFarlane and Alexander Sinclair.

The annual meeting of the Protestant Orphans' Home directors was held Monday afternoon at the absence of the treasurer, Mr. H. C. Rankine, who is in England, no reports were made. Other business transacted until his return.

Miss A. Amelia Green, of this city, who graduates from the senior class at the Emerson College of Oratory this year, opened the commencement debate on woman suffrage, speaking on "The Right of Woman Suffrage." Miss Green held her subject well.

Mr. and Mrs. W. Rothwell have taken rooms at Mrs. March's, 95 Colborne street, until they leave for their summer residence, Westfield.

Mrs. Simon Jones, and Miss Helen Sidney-Smith.

A delightful recital was given on Friday evening of last week, by Miss Elizabeth Holder, at the residence of Mr. and Mrs. Morris H. Emery, Miss Holder, who is a pupil of Mr. Emery's, has a rich, strong contralto voice and a great favorite with music lovers, she having been contralto soloist in St. John's (Stone) church for some time and it is with much regret her many friends have heard that she is leaving returning this month to her home in Boston.

Miss Bayard left on Tuesday for a visit to Montreal, where she will be the guest of Mrs. Timmerman.

Many friends in St. John will add their congratulations to Mr. W. W. Skinner on his appointment at Ottawa as King's Counsel. Mr. Skinner is a son of the late Hon. C. N. Skinner and brother of Dr. Stewart Skinner and Mr. Sherwood Skinner of this city.

Mr. U. B. Desbarri, travelling agent of the C. P. R., left on Monday evening for Montreal to accompany the student-canada special train on its trip through the Canadian West.

Mrs. Thomas Bell Rothesay and Mrs. Frederick J. Peter, left on Saturday last for a trip to Boston.

Mrs. H. A. Austin and Miss Austin returned at the end of their week's missioner's office, London, last week.

Mrs. Frank Starr and Miss Constance Starr, are visiting in the city.

The marriage of Miss Mabel Burns, of this city to Mr. Bolt Smith, of Halifax, will take place on June eleventh.

Mrs. Frederick C. Bonnell gave a genuine surprise and novelty shower at her residence, Paddock street, in honor of Miss Mabel Burns. The drawing room was beautifully decorated with red geraniums. After the guests had assembled a miniature chariot was wheeled in, lavishly trimmed with red hearts and cupid and laden with many very lovely gifts for Miss Burns, each containing original appropriate verses which caused much amusement while being read. The guests were: The Misses Burns, Miss Mary Roberts, Miss Bertha Knight, Miss Jean Nixon, Miss Lottie Dodge, Miss Frances H. King, Miss Harriet Sandill, the Misses Splane, Miss Valie Sandill, Miss Pauline Baird, Mrs. Fred Fowler, Mrs. Joseph Petrie, Mrs. Miller (New Carlisle) and Mrs. John Splane.

Mr. and Mrs. Percy Clark and little daughter, have moved to their summer residence, Westfield, this week.

HAD PIMPLES ON FACE AND BACK WAS LITERALLY COVERED WITH THEM.

Bad blood is the direct cause of pimples breaking out on the face and body, and it is impossible to get rid of them unless you cleanse the blood of all its impurities.

Burdock Blood Purifier is without a doubt, the very best medicine for this purpose.

This old and reliable remedy has been used for over thirty-five years, and has a reputation unequalled by any other for purifying the blood.

Mr. Peter Le Flare, Assistant Postmaster, Touchwood Hill, Sask., writes: "The fall before last, I was very much troubled with pimples on my face and back. My back was literally covered with them, and I could not go on it at night, they were so painful. One day my mother advised me to use Burdock Blood Purifier, so I got two bottles, and before I had taken all the first one, the pimples had nearly disappeared, and now I am completely cured."

A full house greeted the St. Bernard's amateurs, at the Grand Opera House on Tuesday evening, at their presentation of the three-act comedy "The Teaser." In addition to the play itself were two specialties, which were fully up to the standard of any production ever staged in this city. Taken as a whole "The Teaser" was probably not quite so good as "Perguson of Troy," which was some weeks ago staged by the same organization, but it was nevertheless a source of great enjoyment to the large audience which attended.

Mr. Connolly's song, "The Face of the Girl I Love," was perhaps the better of the two specialties. Its stage effect was excellent. Mr. Walter J. Coyne, audience, Mr. Connolly was in splendid voice and as usual charmed all present. Little Miss Margaret Bissett, who was followed by Miss Galt, Winnie, Hon. Martin and Mrs. Burrell, Capt. and Mrs. Walter Long, Hon. Clifford and Mrs. Sifton, Hon. A. A. and Mrs. J. G. Sifton, Miss Douglas Bowie, St. John, N. B., Capt. Walker Bell, Toronto, Major O. W. The cast of "The Teaser" was as follows: Alice Flemming, Mrs. Flemming's daughter, Miss Kathleen Brown Arnold Haye, a young journalist, Mr. Marion Flemming, a widow, Mrs. Jennie McAllister, Dr. Thorpe, homopath, and philosopher, Mrs. J. Sisson Drusilla Todd, Uraliah's best girl, Mrs. May Moran Uraliah Higgins, rural free delivery, Mrs. Ebenezer Randall, a man of means, Mr. Fred A. Elliott, As for the comedy, it may be said that the members of the cast took their parts very well. Perhaps the best interpreted part was that of Mrs. May Moran, as "Drusilla Todd," the "best girl" of Uraliah Higgins. Miss Kathleen Brown as "Alice Flemming," took her part exceptionally well. Mr. E. Keating and Mr. F. Elliott and Miss Jennie McAllister made good impressions. Messrs. J. Sisson and Walter Coyne also appeared to advantage.

OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After a Few Doses Are Taken.

Sleep disturbing bladder weakness, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Croxone, cures all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly.

COPYING FOR TRACING

An excellent way to get the exact shape of leaves or ferns for sketching or tracing for ornamental work, is by taking a smoke copy, says the Commoner. Butter lightly a sheet of writing paper, and hold over a candle until it is thoroughly blackened, but not burned. Lay the right side of the fern on the paper and press down the entire surface, especially the edges, with a pencil or something of the sort; then transfer it to a clean sheet, not letting it move after once being laid on, or it will "smudge." Place another sheet of paper over it carefully and press with the fingers, of a book. A perfect impression will be obtained, which can be traced, or otherwise copied, and those who do not draw sufficiently to outline the leaves or ferns, will find this the best way to do.

FOR THEIR IRONING BOARD.

Pad the ironing board with a thick quilt or old blanket. Then lay the board on the table, and cut a piece of heavy muslin so it will fit the board loosely. Steam it, leaving the slips open at each end. Make two of these slips, and change them frequently, says Mother's Magazine. Thus the ironing board is always clean and the padding will not have to be changed for months.

Every owner of a garden will appreciate a kneeling board, says the Chicago Journal. It can be used when you are weeding, planting and cultivating the flowers. Make it from a piece of wood, perhaps 12 by 24 inches. Under one long edge, nail a support three or four inches high, to keep the board at a comfortable angle. Pad the upper surface of the board.

BAG IN WHICH TO CARRY SMALL ARTICLES FOR WEEK-END VISIT

If you are going on a journey, or for a weekend visit, you will find a bag of silk and stock it with all the necessary small articles you may happen to need, says the Philadelphia North American.

Purchase a half yard of silk in a design to please your fancy. If desired, the bag may be made from the goods of a yard of ribbon seven inches in width, 1 1/2 yards of white satin ribbon one inch in width and half a yard of silk standing behind which the ribbon is threaded to draw the bag together.

From cardboard cut a circle four inches in diameter and cover this with cotton wadding. From an odd piece of silk cut two circles an inch wider in diameter than the cardboard, stitching the pieces of silk, cover the cardboard neatly, whitewashing the edges of the silk together. To the wide ribbon, or strip of silk, attach the piece of silk seam binding and join the ends by making a French seam.

To cover the articles used to attach the seam binding, two rows of feather-stitching are worked on the right hand side of the bag, and the narrow strip of ribbon from three to four inches wide is then stitched to the lower selvage. This is divided into a number of small compartments by vertical rows of feather-stitching on the right side. Now gather the lower selvage and whipstitch it to the circle.

Plus, needles and safety pins are stuck into the padded circle which in diameter is the size of the bag, and the compartments are placed hairpins, perfume, soap, scissors, pumice stone, shampoos, orange sticks, thread, glove menders, emery bag, buttons, hooks and eyes, a roll of tape and anything else you are apt to need.

The pretty dresses by metre ribbons are particularly suitable for this bag. More ribbon with a cream background and a narrow strip of green or blue effectively combined with green to make a bag of this type.

The circle of cardboard has a covering of pale pink and the feather-stitching is done with green silk.

Lilac and pale blue, pink and blue, yellow and violet are all good combinations of color for making a bag of this variety.

THE WRONG KIND OF BEAUTY SEEKING

Very few intelligent persons today will deny that there is a right kind of beauty seeking—that every woman has a right or even an obligation to make herself look as attractive as possible. I've talked a good deal in this column about the right kind of beauty seeking, and there is not one chance in ten thousand that it will harmonize with the complexion or eyes. The result is that the woman's face looks hard and expressionless and in many cases actually "tough."

Then the matter of powders and rouge: "First" call should be returned properly. The effort is generally the same as in the case of bleached hair—very line and bluish of the face stands out, and the rouged woman looks about ten years older than she naturally would. If a woman can put it on so that it blends into the skin she can't tell whether she is rouged or not—well, that's her own business. But it takes an artist to do it, and the average woman shouldn't flatter herself that she has special talents along that line.

Now a word about dyeing the hair. Gray hair to most people means old age, and I don't wish to be unympathetic or dogmatic in this matter. Personally, I think a woman is foolish to attempt to dye her hair. Really white hair is beautiful, and it is almost impossible—especially for an amateur—to dye the hair so that it looks natural. But I can say that there are social and business conditions that make gray hair—premature gray hair, at any rate—a tragedy. So if any woman feels that she must dye her hair, I can only advise that she get some expert to do it. Home hair dyeing is hardly ever a success.

The trouble is with a lot of women that they think they can attain beauty by some sort of magic. They aren't willing to spend the time and patience necessary to get real beauty. They are lazy and self-indulgent and careless, and pin their faith to cosmetics and drugs to do away with the consequences. Beauty is like happiness—it can't be bought in a bottle. Mme. Jeanne La Plac in Woman's World for April.

THE ETIQUETTE OF CALLING

New-comers to the country must always be called upon. Usually it is customary for the resident to be returned within a month or two of the arrival of their new neighbors, or at all events when they know they are perfectly ready to receive visitors. The new-comer and his wife are often the first callers, or some lady who is recognized as a social leader in the district.

A first call should be made before four o'clock. It should be short in duration—no longer than ten or fifteen minutes. On leaving the house, a married lady, although having seen the hostess, would leave one of her cards, and the new-comer would leave one of her cards, and the hostess would leave one of her cards, and the new-comer would leave one of her cards.

Should any unforeseen circumstances occur to prevent a first call being returned, a polite letter should be sent in explanation of the omission.

It is very impolite to return a call with a card. It should always be remembered, that a card must be returned with a card, and a call with a call. At afternoon calls the visitor who arrives first is the first to leave, unless specially requested by her hostess to make a longer stay. The duration of a call may be anything from ten to twenty minutes. If a large number of visitors be present, the shorter the stay the better.

It is not necessary for the hostess to introduce visitors when there are several present. She may introduce those of her immediate vicinity, or if there are any whom she knows would be mutually pleased to know each other. Callers may enter into conversation without being introduced. When leaving, it is only necessary to smile and bow to the callers whom one has conversed with; but it is understood that the interchange of conversation does not constitute an acquaintance.

A hostess always rises to greet lady or gentlemen visitors and shakes hands with them. A lady visitor does not rise when another lady takes acquaintance at an "At Home," both should rise and shake hands.

FROSTING OF MARSHMALLOWS

The Woman's World gives this recipe for making marshmallow frosting: Two cups granulated sugar, one half cup of water, whites of four eggs, one half pound of marshmallows, one teaspoonful of vanilla extract.

Put the sugar in a smooth saucepan and add to it the water; put over a slow fire and stir carefully until dissolved. Do not allow the sugar to become too thick. When the syrup is clear set it over a hot fire and boil rapidly, without stirring until it will spin a thread.

When the syrup first begins to boil, cover closely for two or three minutes to allow the sides of the dish to wash down. The grains from the sides of the dish may be removed by wetting a clean cloth in cold water and running it around the sides.

When the syrup will spin a thread, pour in a fine stream on the stiff beaten whites of the eggs and beat vigorously until all of the syrup is solved. Do not allow the mixture to be used if it may be poured on the egg whites a little faster. Set in a cool place or in a pan of cold water and continue beating until the mixture is just lukewarm, then add the marshmallows which have been cut in quarters with a pair of sharp clean shears. Stir the marshmallows well into the frosting and let it stand until the frosting is of such consistency that the marshmallows and frosting will not run from the cake when it is put on. Cover the cake and top with this frosting and allow to stand several hours or overnight. Cut in any shape desired. If the frosting is too warm when the marshmallows are put in the marshmallows are melted and lose their form and it makes the frosting sticky.

TRIED RECIPES

- Baked Lobster.**
Two cans of lobster, two cups of breadcrumbs, three hard-cooked eggs, eight tablespoonfuls of butter, salt and pepper to taste, four tablespoonfuls of cream, two lemons.
- Yum Yum Pudding.**
One cupful of cooked cereal, one half cupful of molasses, one half cupful of milk, one half cupful of seedless raisins, two well-beaten eggs, one half teaspoonful of powdered cinnamon.
- Spanish String Beans.**
One pound of string beans, one chopped onion, one clove of garlic, five ripe tomatoes or one half can of tomatoes, two chopped green peppers, two tablespoonfuls of lard, seasoning to taste.
- Prune Bread.**
One heaping cupful of prunes, one quart of whole wheat flour, one pint of graham flour, one tablespoonful of salt, one tablespoonful of sugar, one compressed yeast cake, lukewarm water.

BATH ROOM DECORATION

Heavy bath towels are made attractive by the addition of an initial and a crocheted edging, says the New York Press. Embroider a 3 1/4 inch initial in the center of one end and then crocheted the lace edging in this manner:

Use a medium-size crochet needle and, making the stitches close together, crochet a row of single stitches across the end. This acts as a foundation for the design which is to follow. Select a cream-colored yarn, similar to that used by our grandmothers to edge the pillow cases.

Next, make an attractive cover for the hot water bag from bag toweling. Crochet a simple shell scalloped around the edge and sew snap fasteners to the top, where the bag is slipped in position. Embroider a three-inch initial in the center of the cover.

TEACHERS STUDY DRAMATIC ART AT COLUMBIA

Forty teachers are taking a course at Columbia University in the teaching of dramatic art. Mrs. August Belmont, of New York, who is the leader in the development of this new subject, said: "We are not attempting to create actors or to make recruits to the dramatic stage, but instead we want to develop the dramatic instinct and feeling of the children."

As the president of the Educational Dramatic League, Mrs. Belmont presented an outline of the work and aim of this organization, in which the Municipal League is interested. "We believe firmly that this branch of training is valuable to the child. The music school settlement has done wonderful work along the line of the development of dramatic instinct which all of us possess and which, with careful guidance, can be used for the benefit of all."

"Recently when I visited several reform schools for boys I found that the business in many cases came from a misplaced dramatic instinct. This was my own discovery, and I am rather proud of it. Now if we could train that instinct we would surely have better boys."

AGRICULTURE

CROPS AND LIVE STOCK IN CANADA

Report for the Month Ended March 31, 1913

According to reports made by correspondents at the end of March, 1913, the wheat crop in Canada, 1912, is estimated to be 1,232,000 bushels, as compared with 1,232,000 bushels in 1911. The proportion of merchantable quality is estimated to be 88 per cent. in the Maritime Provinces, and in Ontario the proportion of merchantable quality is estimated to be 88 per cent. in the Maritime Provinces, and in Ontario the proportion of merchantable quality is estimated to be 88 per cent. in the Maritime Provinces...

COST OF HORSE-BREEDING IN THE UNITED STATES

Reports have been received from 10,000 correspondents of the Bureau of Statistics of the U. S. Department of Agriculture upon the cost of raising colts on farms to the age of three years. The average cost in the United States is found to be \$104.06; or, if the value of the work done by the horse before he has passed his third year be deducted, viz., \$7.52, the net cost is \$96.54; this is 79.9 per cent. of the selling value of the colts, or 85.1 per cent. of the value of the horse when he is three years old.

MARITIME PROVINCE CONDITION

Spring, reports from the Maritime Provinces to the Census and Statistics Monthly, dealing with conditions, are as follows: Prince Edward Island. The winter has been exceptionally mild, and there are indications of an early spring. The snow has melted, which is a month earlier than usual. Farm live stock wintered well. Swine are scarce and the prices for them are high. Nova Scotia. The winter has been exceptionally mild, and live stock have generally wintered well; but in some cases the damaged hay of last season made poor fodder, and cattle suffered accordingly. The weather was mild, and at the end of March there was every prospect of an early spring.

THE MAKING OF CREAM CHEESE

In the manufacture of cream cheese, one of the soft cheeses which are to be sold and eaten fresh, one room, the making room only, is necessary. It should be provided with a window, the weather with suitable means for regulating the temperature and keeping it equitable. In summer for the United States, it is sufficient, but in winter it must be maintained from 65 deg. F. to 70 deg. F. The temperature must not be allowed to vary greatly. Too high a temperature produces a too rapid drainage of the whey, whereas too low temperature retards drainage and causes bitterness. Pure unacidulated milk rich in fat yields the finest quality of soft cheese. Requirements for cheeses: - 1 gallon cream, 15 c. butter fat, 1 tablespoon starter, 15 to 20 drops Hansen's rennet, 1 yard huckaback cloth, 1 oz. salt to 1 gallon cream, grease-proof paper, cardboard boxes.

HER BUTTERFLY LUNCHEON LIKED. In my entertaining, this spring, I originated a butterfly luncheon, which every one seemed to agree was most decorative, writes a contributor to Good Housekeeping. I made about 50 butterflies from water-color paper. This seemed like a good deal of work, but it really was simple and easy, and such pleasant work. The butterflies were cut by one pattern and pasted in every combination of colors - soft browns and pale gray greens, delicate mauves and pinkish blues, and deep orange and red. They were simply exquisite in themselves and could be used with any color scheme or any variety of floral flowers. When cut out and the wings bent up, they could scarcely be detected from real butterflies. My luncheon came right in apple blossom time, so my place cards were painted with sprays of wild crab blossoms and on each card was a butterfly of glass, we stuck a butterfly, bending the wings up so that it seemed to be hovering over the flowers. The centerpiece on the table was a glass rose bowl filled with graceful

NEW ONE DESIGN PORT WASHINGTON FISH CLASS.

When the yachting season of 1913 gets in swing many new one design classes will be in evidence, but none will attract more attention than the Port Washington Yacht Club's fish class, on the mainmast of each of which will be a red sea horse.

Eight of these little vessels have been ordered. They are from designs by William Gardner, and are of practically the same dimensions as the Bayside Birds, but are fin keels instead of cantharoid boats.

They will be raced every Sunday at Port Washington or at Bayside in special regattas, which are to be open to them, as well as the Bayside Birds, the Hugs, the Butterflies and the class Q sloops, and will take part in all open regattas on Long Island Sound.

COAL BY RAIL

The Importance of a Distributing Plant Having a Railway Siding.

A few years ago nearly all the soft coal used for domestic purposes was brought to the city by small schooners and barges from Parraboro, N. S., and in large schooners and sailing vessels from Cape Breton.

Low rail rates on the I. C. R. have changed this and now a very large portion of the soft coal used in the city for house purposes is brought in by rail.

A few years ago the railway would carry only ten tons of coal on a car, now a carload of coal ranges from 20 to 40 tons and cars of coal arrive here daily from mines in Cape Breton, from the Pictou mines and from Gibbon & Co.'s coal mines in Queens County, N. B., for distribution from the all-rail branch established by Gibbon & Co. at Marsh street, near Gilbert's Lane.

Gibbon & Co. are the only firm in the city having a rail branch with a railway siding of their own and also a most centrally situated dock property on the waterfront for receiving the coal from vessels.

\$1,250 PUZZLE CONTEST

Count the Circles—Seventy Gold Prizes

The St. John Standard,

OFFERS ITS READERS THE OPPORTUNITY TO WIN VACATION MONEY

No Trick or Chance Involved. Only Accuracy and Patience Required in Solving This Problem. Both Old and New Subscribers May Enter

Note Carefully the Plan of **DIVIDEND PRIZES** Make Them Worth What You Please

THE PROBLEM

The problem is to count the circles. Every circle is complete and intersects or touches one or more other circles. There are no parts of circles or shams or deceptions of any sort in the puzzle. In the event that no one counts the exact number the prizes will be awarded for the nearest correct solutions. Accuracy and patience are the main requisites for arriving at the correct or nearest correct count. Those who display these qualifications to the best advantage will solve the puzzle best.

How to Enter

This contest is restricted to people residing in the Provinces of New Brunswick and Nova Scotia.

A payment on subscription to The St. John Standard of from \$1.00 to \$5.00 entitles the contestant to submit a solution of the puzzle. The amount of money paid in will cover the subscription price for the paper according to the regular rate, whether the rate be for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES UPON MAKING AN ADDITIONAL PAYMENT WITH EACH ONE, BUT NOT MORE THAN \$5.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one be submitted.

As the main prizes have an added value according to what is paid in on subscription with the winning solutions, contestants should familiarize themselves with the DIVIDEND schedule before sending in their subscription and solutions.

Remit by check, money order, registered letter or in 1 or 2-cent stamps.

What ever is paid, whether on one or a number of solutions, will apply on a continuous subscription to The Standard.

Solutions unaccompanied by cash subscription will not be registered. This contest is open to both old and new subscribers within the territory designated.

SPECIAL ATTENTION.

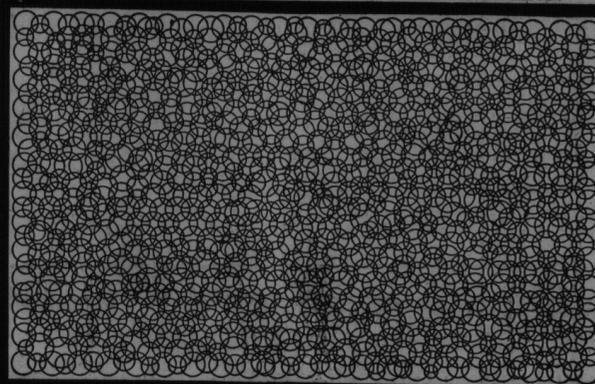

While the winning of the prizes does not in any measure depend upon the time the solution is sent in, it is best to begin counting at once and send in your solution as soon as you have finished. There is no limit to the number of different solutions you may send in.

All those entering the contest will be required to abide by the ruling of the Contest Manager. In the event of any questions arising the Contest Manager, if he deems wise, can appoint a committee to assist him in deciding them, and those who enter the contest do so with the understanding that such decision will be final.

5.00 wins	300.00	5.00 wins	175.00

Contest Closes Saturday, June 14, 1913

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.

\$1.00 up to \$5.00 on your subscription allows you one solution, but \$5.00 on your subscription gives you one solution and five times as much in dividends.

An additional payment of \$1.00 up to \$5.00 entitles you to another solution. Remember, that the more you pay on your subscription the larger will be your dividends should you win one of the dividend prizes.

Study the first prizes and dividends offered and send in your solution today.

DECIDING TIES

In case there are ties, as many prizes will be reserved as there are contestants tied before any prizes are awarded for less correct solutions. For instance, if ten people tie on the correct solution, they would receive the first ten prizes, and those having the next nearest correct answers would receive the remaining prizes.

If there should be more ties than there are prizes offered a second puzzle will be presented. No money will have to accompany the solution of the second puzzle. The second puzzle will be practicable and solvable.

In the event of ties on the second puzzle, a third will be presented to those that have tied. The second and third puzzles will be used only in case of ties. Their purpose will be merely to decide ties, so that in the event there is a tie, the prizes can be awarded without having to divide them or without resorting to chance.

However, only three puzzles will be presented, and in the seemingly impossible event of still another tie, the prizes will be equally divided. If there are no ties, there will be only one puzzle.

AS TO DIVIDEND PRIZES.

Same will be divided between those who have the correct or nearest correct answers. ALL DIVIDEND prizes will be divided pro rata according to the amount paid in by the winner.

For example, if there are two contestants who tie having the correct or nearest correct answer, they will divide the first and second prizes of \$100.00 and \$75.00, giving them \$87.50 each, and will also be entitled to DIVIDEND prizes, which is forty times the amount paid in for the first prize and twenty times the amount paid in on the second prize, the two tying will then be entitled to divide sixty times the amount they have paid in, making thirty times the amount paid in on their subscription.

Now, if one paid \$2.00 and the other paid in \$5.00, the one paying in \$2.00 would receive thirty times the amount paid in or \$60.00 as his DIVIDEND prize, while the one paying in \$5.00 would also receive thirty times the amount paid in, or \$150.00 as a DIVIDEND prize.

This same rule and example will be followed throughout in the awarding of prizes in case of ties.

Cut out this blank smoothly around the border and send it with your solution and money.
