ULSTER DAY-- WILL CONSIDER CHURCH UNION AT SYNOD MEETING

Provinces of Can-
ada May be Di-
vided

ONTARIO SEPARATE

Proposed Change will
Come Before Anglican
Body Convening in
Montreal October 17th

Montreal, Sept. 27.—The division of the ecclesiastical province of Canada, the discussion of practical church union, and an expression of appreciation of the work of the Salvation Army are the three matters which figure on the circular issued by the Archbishop of Ottawa convening the Church of England Synod of the Dominion of Canada for the 17th of October next. Clergy and lay delegates will meet in the Synod Hall, University street, at 10 a. m. on that date, and will proceed in procession to Christ Church Cathedral for divine service, at which the sermon will be delivered by the Bishop of Huron. At 2.30 p. m. members will assemble in the Synod Hall for the transaction of business.

Under the heading of new business the first item is consideration of canon VIII. of the general synod for the formation of places ecclesiastical provinces for the civil Province of Ontario.

There are two notices of motion by C. O. Ermatinger. The first proposes: "That Christian unity is an ideal which should be promoted whenever fitting opportunity offers; that as a means to that end a fuller measure of co-operation between Christian churches is desirable; that the general synod be therefore petitioned at its next session to adopt measures for fuller co-operation in all matters not involving any sacrifice of principle or infringement of jurisdiction of diocesan bishops, with other churches willing to reciprocate, such measures to include county of domestic missions in places where local conditions and necessities call for its application."

The second motion proposes to express appreciation of the life and work of the late General Booth, and to wish his successor God speed.

BRIDGE TENDERS IN NOVEMBER, SAYS HON. JOHN MORRISSEY

Commissioner of Public Works
Makes Statement Before
Leaving Capital—Union De-
pot Likely in Fredericton.

Special to The Standard.
Fredericton, Sept. 27.—Hon. John Morrissey left for his home in New Castle tonight. Before leaving he stated that tenders for the new bridge at St. John would be called about the middle of November.

The St. John Valley Railway has applied to the Federal Railway Commission for running rights over C. E. R. lines from Victoria Mills to York street in this city, which is taken to point to a union station here. Some time ago interviews were published with railway men intimating that such a course would be pursued, and everything has been shaping that way for some months.

MARCONI ON THE ROAD TO RECOVERY PHYSICIANS HOPE

Spazio, Italy, Sept. 27.—The physicians in attendance upon Mr. Marconi issued a statement after a consultation today, declared that the general condition of the patient was excellent. It was stated, however, that the swelling had not yet been sufficiently reduced to permit of a complete examination and that it was possible, aside from visible bruises, the inventor had also sustained other injuries.

Unionists Will Sign Covenant Today
--Demonstration in Belfast.

THREE THOUSAND ULSTERITES REINFORCE HOME RULE PLANS AND FRENZIED CHEERING

Dramatic Scenes at Great Anti-Home
Rule Meeting at Belfast

Sir Edward Carson Presented with Trophy of
Battle of Boyne--Unionists to Sign Covenant
Today--Leaders in Campaign Write Assurances
of Support--Outlook Predicts British Officers
Ready to Bear Arms to Fight Measure.

Belfast, Sept. 27.—The singing of the National Anthem by an audience of three thousand persons, comprising everybody representative of Belfast's great industrial, mercantile, civil and religious community, tonight brought to a close a great anti-Home Rule meeting in Ulster Hall, amid a fervor which was not equalled even by the anti-Home Rule demonstration of 1892. The meeting renewed the adoption of the resolution passed at that convention protesting against a Home Rule parliament for Ireland.

The supreme dramatic moment of the memorable gathering, tonight, was the unfurling and presentation to Sir Edward Carson, the chief propagandist against Home Rule, of the flag carried by the William at the battle of the Boyne. The flag was greeted with frenzied cheering contrary to expectations.

No new pronouncement of Unionist policy was made at the meeting. The Ulster watchword is "We will not have Home Rule," but none of the various speakers nor the letters of the influential Unionist leaders, who were read in making the attempt to repeal the plan of resistance, if such a plan exists, should King George sign the Home Rule bill.

In comparison with the demonstrations held elsewhere during the past week, the absence of talk of armed resistance was noticeable. Also there was less display of the military spirit in Belfast today.

The Weekly Outlook tonight makes the startling announcement that the Ulster Unionists are considering how to resign their commissions in order to lead Ulster in arms against Home Rule.

Hours before the time for the commencement of the meeting a vast crowd had congregated in the hall. The proprietors of neighboring houses took precautions against possible trouble by barricading their doors.

When the doors of Ulster Hall were opened there was a wild rush of ticket holders who speedily filled the 3,000 seats. The hall was tastefully decorated with Union Jacks. The most conspicuous feature of the decorative scheme was a device stretched across the front of the platform in big letters, which read: "We will not have Home Rule." In the absence of the Duke of Abercorn who was unable to attend, Lord Londonderry presided.

Among those on the platform were Sir Edward Carson, the Marquis of Salisbury, Baron Willoughby de Broke, Lord Charles Beresford, the Earl of Kilmorey, Clanwilliam, Ernie and Leith and Frederick E. Smith and many other Unionist members of parliament.

During the wait for the speech, making to commence the crowd frequently burst into song. Among these songs was one beginning: "Ulstermen, the time has come again to stand united, man to man, with all our might and main." This song aroused the greatest enthusiasm.

Significant Demonstrations
Lord Londonderry in opening the proceedings, said the determination of the Unionists of Ulster to oppose Home Rule never had been more significantly shown than in the campaign which was just closing. Those that signed the covenant tomorrow, he declared, would abide by it at all hazards.

Premier Asquith and John Redmond (loud hooting) will learn from it," continued Lord Londonderry. "It is not bluffing, the covenant will be something that they cannot ignore."

Many letters from prominent Unionist leaders were read. These spoke of their inability to attend and expressed sympathy with the objects of the meeting. Andrew Bonar Law, the Unionist leader in the House of Commons, wrote: "Victory, in my opinion, is certain, as long as the Unionist party in the House of Commons is in a position to assure the people of Ulster that it will not allow itself to be divided, but will rely upon the support of the whole Unionist party."

Arthur J. Balfour's letter said: "Nothing can make me believe that the British people or even the House of Commons will now so grossly misrepresent them, would dare attempt

Manufacturers Urged to Sub-
mit Marine Insurance Plan
to Government.

Special to The Standard.

Ottawa, Sept. 27.—Unusual significance is attached to the speech made by Hon. J. D. Hazen, at the banquet of the Canadian Manufacturers' Association. The Minister of Marine and Fisheries dealing boldly and effectively with the question of marine insurance and its effects upon the trade of Canadian seaports, explained the manner in which the British North American clause in marine insurance policy on the Atlantic discourages traffic to Canadian ports, not merely by increasing insurance rates paid across the border to dens of vice, but by virtually shutting the tramp steamers out of the Canadian trade altogether. The effect is that the volume of oceanic transportation available to the producers of Canada thus is seriously curtailed.

Efforts had been made, Mr. Hazen said, to induce Lloyd's to use their influence to have this clause eliminated, but without success. Accordingly, he was sure he would not be hailing over the coals by his colleagues, if he were to suggest to the manufacturers that they get together and formulate a scheme of insurance, and further to suggest that if they came with a scheme the government would give it sympathetic attention.

Dealing with terminal facilities for grain shipping in Montreal, he stated that the present elevator with its capacity of 2,500,000 marked a recent increase of 1,500,000; if necessary the government would not hesitate to effect still further increases.

Soldiers Repeatedly Forced to
Charge Rioters, But Little
Damage Resulted--Battle-
ships Bring Reinforcements

Barcelona, Spain, Sept. 27.—The strike of railroad men led to several conflicts in the streets of Barcelona today. On several occasions the troops were obliged to charge in order to disperse the rioters but very little damage was done. Reports of minor disturbances in other parts of the provinces have also reached here and in one instance the strikers succeeded in wrecking a train, several of whose passengers were hurt. The Spanish battleship Pelayo and another vessel loaded with troops have arrived here.

Perth, France, Sept. 27.—Serious strike riots among the railroad men at Olumataro and San Felix de Guisquillo in Catalonia today were on a scale of violence which had not been seen since the days of the Franco-Spanish war. The few trains which are still running with military crews are encountering many difficulties. Practically all the signals have been wrecked and volleys of stones are hurled at the trains as they pass along. The troops are frequently obliged to intervene in order to clear a passage. A meeting of the employees of the Madrid lines has been convened for tonight. If they vote to support the strike the movement will become a national one.

GUBERNATORIAL NOMINATION.
Saratoga, N. Y., Sept. 27.—James W. Wadsworth, Jr., of Geneva, formerly Speaker of the assembly, was unanimously nominated for lieutenant governor.

Crops and Vineyards Near
Messina Suffering Heavily
--Nine Craters Spouting
Lava.

Messina, Sept. 27.—The volcano Stromboli is again in eruption. Clouds of ash and incandescent sand being ejected from nine craters, and dust is falling in quantities over the surrounding country and the outlying islands. Vineyards and crops generally, are suffering heavily.

Sailed North to the
Boundary of
Alaska

MET BY INDIANS

Observed Marked Con-
trast Between Customs
of Civilized and Primi-
tive Tribes.

Special to The Standard.

Nanaimo, B. C., Sept. 27.—Since the departure of the Princess Alice from Prince Rupert at day break on Wednesday with the Governor General's party on board, perfect weather has attended the cruise, which has been as far northward as the Alaskan boundary, the only stop made being at Port Simpson. The Tahmpanan Indians live in well built, well furnished houses, wear modern clothes and are eager for the education furnished by the excellent school provided by the Methodist Mission. A chorus of neatly dressed Indian girls sang the Te Deum and a uniformed band discouraged good music from intruding upon the solemnity of the service.

The Secretary of the Board, Rev. T. Albert Moore, referred to the case of the two young bank clerks who had been ruined by betting on the races. "The criminal code in its present shape," he said, "permits, under the most distinguished social patronage, on race tracks, forms of gambling which are in all other places held to be crimes against humanity."

Canada was one of the few remaining countries where this evil was tolerated, he said. "In his report on the white slave traffic, Dr. Moore stated that while the devil exists in the human mind, the social evil will be increasing. It was estimated that there were 300,000 women on the American continent living a life of shame, of whom 60,000 were Canadian. Many Canadian girls were lured across the border to dens of vice. The board decided to urge the appointment of a government commission to go into the whole matter.

The policy of silence toward children by parents was deplored and the destruction of purity education emphasized.

Warmly Welcomed.

As the Princess Alice approached the wharf here she was welcomed by a gaily decorated fleet of small craft. The school children arranged so as to form a living Union Jack sang "Save the King" and the "Maple Leaf Forever." Their Royal Highnesses proceeded to the court house, where they replied to the civic address of welcome read by Mayor Shaw the Governor General said:

"Your Worship and Gentlemen: I am very happy to think that I am the first member of my family to tread the soil of Nanaimo, and I thank you most heartily for your loyal address of welcome on this occasion as well as for your expressions of loyalty and the throne and person of the King."

"Your reference to the small island which has been made, up to now, upon your hidden wealth, may also be justly applied to the entire island of British Columbia."

"Not only is this great island only very partially developed, but the opening of the Panama Canal must eventually afford you a ready market for the coal which you produce in such large quantities."

"Your hopeful aspirations for the future appear therefore, to rest on a sound basis, and I beg of you to accept my very best wishes for their full and speedy realization."

After the members of the city council and a number of other leading citizens had been presented, their Royal Highnesses were taken on a motor tour of the town.

RECOMMEND LIFE
IMPRISONMENT FOR
HERBERT'S MURDERER

Detroit Jury Finds Wm. A. Ferguson Guilty of Killing Canadian Official and Urges Mercy.

Detroit, Sept. 27.—The first murder trial in Michigan in recent years that has involved the possibility of capital punishment for the accused, resulted today in life imprisonment at Port Leavenworth, Kansas, when a jury in the United States District Court found William A. Ferguson guilty of killing Canadian immigration Inspector H. C. Herbert on July 25 on a ferry boat plying between Detroit and Windsor, Ont. The jury recommended life imprisonment. Ferguson, a 35-year-old Canadian, had been refused admission into Canada because of physical defects. He blamed the inspector for causing his return to Detroit.

ST. JOHN, N. B., SATURDAY, SEPTEMBER 28, 1912.

THE DUTY ON WHEAT.

That an import duty does not increase the price of an article for export, is a lesson which the Western grain growers, who still see visions of higher prices in the "larger markets" of the United States, might well lay to heart. The Chicago Journal in a recent issue contained the following leading editorial:

OUR "PAUPER" FARMERS.

Here is an instance of how the tariff helps the farmer:

On August 27, the wheat known as No. 1 Northern sold in Winnipeg, Canada, for \$1.04 1/2 per bushel.

On the same day, the same grade of wheat, called here No. 1 Hard, sold in Minneapolis for \$1.00 1/2.

On August 27, No. 2 Northern wheat sold in Winnipeg for \$1.02 1/2 per bushel.

On the same day, the same wheat sold in Minneapolis for 92 1/2 cents per bushel.

No. 2 Northern sold in Winnipeg that day for 95 cents.

The same wheat, differently named, sold in Minneapolis on the same day for 88 1/2 cents.

Oats that sold in Winnipeg for 42 1/2 cents, sold in Minneapolis for 30 cents. A similar difference prevailed in the price of barley.

In a word, wheat sells in the American market from 4 cents to 10 cents cheaper than in the Canadian market. Yet there is a duty of 25 cents per bushel on wheat which tries to get into America from Canada.

Why doesn't the American farmer get the advantage of that duty?

Because we export wheat, instead of importing it.

An import duty does not and can not help the price of an article of export—unless the producers of that exported article are in a trust that is strong enough to fix prices.

The farmers have never formed a trust.

It is now in order for some jingo paper over the border to ask for a high tariff on wheat to protect the free and many Canadians from the "pauper product" of American farms!

The September crop report, issued at Washington, estimates a possible yield of 800,000,000 bushels of wheat, 2,300,000,000 bushels of oats, 2,000,000,000 bushels of corn and 72,000,000 tons of hay. The United States market is over supplied. The farmers have produced enormously greater quantities of grain this year and the export market is correspondingly increased. According to statistics of the Department of Agriculture, 150,000,000 bushels of wheat, representing that amount above the quantity required for home necessities, will be exported this year.

The Western grain grower has brought home to him today in a very striking manner the startling, and some what unwelcome, fact that not only are the United States capable of supplying their own demand for grain, but that they also have a very considerable quantity for export, which surplus would, on the removal of the tariff, immediately find its way into Canada.

ELECTRIC POWER FOR THE FARM.

An interesting demonstration has been given in Ontario of the feasibility of employing electric power in the work of the farm. The experiment, which was made on a farm in Toronto township, was under the auspices of Hon. Adam Beck and of Hon. James Duff, the Ontario Minister of Agriculture, and was a striking revelation of what the future has in store for the farmer in favorable localities.

Mr. Beck previous to turning on the power, gave facts as to the suitability of the employment of electric power on the farm which were highly interesting.

He declared that the German farmer who could get an abundance of cheap labor and to whom the cost of power was comparatively high, found it advantageous to employ electric power for practically all the work on the land.

As to the cost of power in Toronto township, Mr. Beck estimated that of two hundred and fifty farmers took the power, two horse-power, or sufficient to do practically all the work of the farm except threshing, could be obtained by each farmer at a cost of eighty dollars a year. In the demonstration that followed, milking, threshing and various other agricultural operations were performed by the employment of electricity, while coffee and toast prepared by electricity were served to the farmers and their wives.

New Brunswick possesses water powers as yet but little developed. It is quite a possibility of the future, however, that in certain sections of the Province water power could be harnessed to provide electricity to perform labors of the farm. For clearing land, threshing, milking, churning, sawing, pumping, crushing feed and for cooking, and lighting the house and barn, the employment of electric current would be invaluable. It would solve many of the problems with which the farmer is confronted would save time and labor, would lead to the introduction of new conveniences and would provide the farmer with many of the advantages of the city.

THE WRONG KIND OF SOOTHING SYRUP.

Prominent in the editorial columns of the Telegraph and Times a day or so ago appeared an article headed "A Word to Liberals," taken from the Toronto Globe and evidently designed to instill some hopes of victory for the party in the near future, and to remove the sting, as it were, from the anniversary of defeat. It was a humane effort much appreciated by Liberal organs throughout the country. The Globe called the story "Borden's two per cent. grip," and proceeded as follows:

"The talk of Borden's 'decisive majority' at the polls a year ago is rendered ridiculous by the publication at Ottawa of a careful official analysis of the total vote. The Premier—like most Premiers of Canada—is merely hanging to office by his finger tips, so far as the popular vote is concerned. He has a majority of 47, or 21 per cent. in the House of Commons, while in the country, where 1,207,528 persons actually voted, he secured 689,569 votes, the Liberals 625,096, and Labor and Socialist candidates 12,867. The Conservative majority over the Liberals was 44,471, and over all 31,006. The popular majority, therefore, was about 2 1/3 per cent. . . . Borden's two per cent. grip has been represented as a stranglehold. Instead he is hanging by the tips

of his fingers, and a very small thing would force him to let go."

Now, if Mr. Borden is merely hanging by the tips of his fingers with a popular majority of about 2 1/3 per cent., what kind of a grip would the Globe say Sir Wilfrid Laurier had in the last Parliament? He was returned to office in 1908 with a popular majority of less than one per cent. The Liberal majority in 1908 in the total vote polled in the Dominion was 16,871. On the strength of this, Sir Wilfrid had a majority of 48 in the House of Commons. Would the organs of the Liberal party be prepared to stand for the statement, even at this late date, that Sir Wilfrid retained office for more than three years by the skin of his teeth? He surely did, if there is any force in the Globe's argument.

In commenting upon this foolish attempt to misrepresent the facts of the case the Ottawa Journal gives the Liberal party a pointed reminder of the true situation. "In last year's election," says the Journal, "the Conservatives had a majority of 44,471 over the Liberals. Independent candidates polled 12,867 votes. These were against Sir Wilfrid also, making his minority 67,000. Mr. Borden will go into the next election not merely with this comparatively large advantage, but with the aid of power in addition. And everyone knows what that means in Canada. The Conservatives fought and won last election in the teeth of power, prestige, patronage and money. Now they have on their side the power, the prestige and the patronage; and are much more likely than they were before to get easily the money which is needed in general elections, while the Liberals will find they can't get what they used to. Apart altogether, then, from questions of political principle or record—we leave them out because we are dealing merely with what the Globe confines itself to—the Borden grip is a jolly tight one."

TARIFF REVISION IN THE STATES.

It is significant that one of the fixtures in the programme of each of the three leading political parties in the United States is a revision of the tariff, and that would seem to be a certainty of the future. Usually an impending revision of the tariff unsettles business and many enterprises mark time until definite changes are made. But this year business in the States is reviving and the country as a whole is enjoying a return of prosperity.

The fact that all lines of business are active in the face of the probable success of the Democratic party, which has declared for the immediate downward revision of the tariff, may be taken as a sign that people have confidence in the Democratic standard bearer, and that the country is prepared for the change in schedules.

Mr. Taft and Mr. Roosevelt also favor revision along lines to be recommended by a tariff board.

This revision will be undertaken at a time when the crops are good and the country can stand an adjustment. It is generally conceded that the Payne-Aldrich tariff is a failure and most of its schedules will be revised downward. The sooner that task is finished and the country has a chance to conduct business on a fixed tariff basis, the better the people will like it.

Current Comment

National Ideas.

(Winnipeg Phase.)

Through whatever phase a power is passing, its people consider the ideal which animates it the best possible. A people given to war consider martial glory the end of life. A people absorbed in arts, letters and commerce care everything as subservient to these, and a people devoted to the accumulation and preservation of wealth understand nothing else as their highest aim. This makes the cyclic process of rise, zenith and decay as near by a definition of the inevitable as anything could be among creatures who apparently control their own destiny.

The Latest.

(Montreal Gazette.)

Neuromobilis is the name given by Dr. John P. Walker of Walla Walla, to what he regards as the disease which impels people in automobiles to drive furiously. He says also it will make nervous wrecks of its automobile riding victims. This might be borne if it did not also operate so often to make physical wrecks of the other class of its victims, the walking people on the streets.

Safeguarding Food.

(Hamilton Spectator.)

Iowa, under the State Pure Food Law, intends prosecuting vigorously all grocers, butchers and others who expose foodstuffs to flies. It is held there that food so exposed is adulterated, and therefore amenable to the act. This is certainly true, and united with the higher claim of sanitation, furnishes abundant reason for the universal prosecution of this vital reform.

Not Unexpected.

(Hamilton Spectator.)

Palling the opportunity, through Reciprocity, to grind Canadian wheat in the United States, a Minneapolis company is establishing a 1,500-barrel-a-day mill in Moose Jaw. Others are sure to follow its example. One more case of Mahomet going to the mountain. The moral is as plain as a pikestaff.

Some Food for Thought.

(London Free Press.)

The amount of American tonnage passing through the Canadian canal at the Soo exceeds Canadian tonnage by 60 per cent. The tolls to both countries are alike. Here is one of the answers to special privilege on the Panama Canal that should give Uncle Sam food for thought.

A Wise Man.

(London Opinion.)

Once upon a time a Wise Man penned a letter full of confidential statements and at the end he wrote this line, heavily underscored: "Burn this letter." Then, being a Wise Man, he took his own advice and burned the letter himself.

Proverbial Facts.

(Judge.)

It's the early bird that catches the worm, No doubt you've often heard; But don't forget it's the early worm That's caught by the early bird.

Ships that Can Fight.

(Canadian Courier.)

Thus from the Great Lakes to the Pacific Coast there is only one voice and it speaks for a big Canadian navy. Not a Laurier navy, not a tin-pot navy, but a more substantial and effective navy.

A Tall Order.

(Calgary Herald.)

If the Borden naval policy includes the gift of battleships to Great Britain it would be a splendid thing to name them after the various Provinces of the Dominion.

THE SACKVILLE NEWS LETTER

Women's Institute Organized at Middle Sackville — Students from a Distance at Mount Allison — Other News.

Sackville, Sept. 24.—Mount Allison University opened for the year on Tuesday with a large enrollment of students. The two new members of the faculty, Professors Dwight and Wheelock, with their wives, arrived in town last week. The former takes the chair of physics and the latter of logic and psychology.

Dr. R. C. Archibald, who has spent a few days here on a return trip to England, has left for Brown University.

Dr. Margeson and Mrs. Margeson, of Vancouver, are the guests of Mrs. Margeson's brother, Rev. W. H. Robinson, Point de Bute.

Editor A. H. McCready, of the Sackville Post, is confined to the house with a mild attack of typhoid fever.

A Women's Institute has been organized at Middle Sackville with a promising outlook. This was one of the practical results of a meeting on Monday afternoon in the school room of the Baptist church, under the auspices of the Department of Agriculture which was addressed by Mrs. Harrison and Miss Snell, of Ontario.

Demonstrations on home nursing and cooking were given which were highly instructive as well as interesting. Institute officers are: President, Mrs. Albert R. Fawcett; Vice-president, Mrs. Wesley Wheaton; Secretary, Treasurer, Mrs. Fred Thompson; Directors, Mrs. W. W. Fawcett, Jr., Mrs. Thomas Hicks, Miss Jessie Hicks; Auditors, Miss Nita Fawcett, Miss Dora Wheaton. Monthly meetings will be held on Wednesdays.

J. H. Beazley, formerly of Mount Allison, now engaged in teaching in Calgary, visited former friends here last week.

Among students attending Mount Allison Academy are Alexia Harriott, of Kingston, Jamaica; Victor Rees, of San Domingo; Moran de Latorre, of Camaguey, Cuba; Gordon LeMarquard, of Newport, Que.; Jacques LeClerc, of Paspébiac, Que.; John Ryan, of Paris, France.

James Smith, of Poudry street, was successfully operated on for appendicitis on Saturday in the Moncton hospital.

Mr. and Mrs. M. E. Nichols and children of Winnipeg, who have been the guest of Mrs. Nichols' parents, Governor and Mrs. Wood, left this week for their home in the west.

Cedric Ryan left on Tuesday for Montreal to resume his studies at McGill.

Mrs. James Distant left last week to visit relatives in Boston accompanied by her daughter, Mrs. D. H. Chouven, of Taymouth.

James Smith and Miss Helen Smith are spending a short time in Sackville.

Mrs. Silas James and niece Edna James, have returned from a trip to Ottawa.

Mr. and Mrs. John Trueman, of Connecticut, are guests of Mr. Trueman's mother, Mrs. Howard Trueman, Point de Bute.

An interesting service was held in the Methodist church, Upper Sackville, Sunday afternoon, addressed by Rev. E. C. Hennigar and Mrs. Hennigar, missionaries of Japan.

Mr. and Mrs. Floyd McLeod, who have spent some weeks at their old homes in this vicinity have returned to Lacombe, Alberta.

Miss Minnie Tingley, daughter of William Tingley Port de Bute, leaves this week for Red Deer, Alberta, and will be married at the home of her sister there to Mr. Hall of British Columbia.

The Misses Bridges of New York are guests of their sister, Mrs. A. Lucas.

Loyal Orange Lodge held a successful box social on Saturday evening. There was a large attendance and a choice programme of vocal and instrumental music and readings was rendered. The sale of boxes by Auctioneer J. M. Hastings brought in a substantial sum.

Thirty members of the Sackville Golf Club visited the Moncton club on Wednesday where a match game was played, after which they were hospitably entertained, and report a most enjoyable time.

On Saturday evening Mr. and Mrs. George A. Hicks celebrated the 20th anniversary of their marriage at their residence in Midgie. Over one hundred persons were entertained at supper and an enjoyable social time spent. Congratulations and gifts in abundance were generously bestowed on the bride and groom of former years.

Trenholm Spence, a highly respected resident of Sackville, passed away suddenly on Saturday. He was shooting on the marsh in the vicinity of his home and died, to all appearance, from heart failure. Dr. Carter and Coroner Silas Hayward, of Port Elgin, were summoned immediately on the finding of the body of deceased and an inquest was considered unnecessary. He was in his 67th year and was survived by a wife, formerly Miss Robinson, one son, Walter, at home, and two daughters, Mrs. Bedford Allen and Mrs. Hasen Milton, of Bayfield. Two brothers and three sisters, all of Sackville, were also left to mourn. The funeral services were held on Sunday, a large number coming to show their last tribute of respect to their friend. Rev. B. O. Hartman conducted the services. The pall bearers were relatives, Messrs. Howard Spence, William Spence, Walter Spence, Frank M. Stacking, Hasen Milton and Bedford Allen.

Much sympathy is felt for Mr. and Mrs. Coll Doose, of Dorchester, in the death of their eldest son, Russell, after an illness of three days from an attack of cerebral meningitis. The funeral was held from the Methodist church and was very largely attended. Services being conducted by Rev. James Crisp assisted by Rev. S. Howard, Sackville. The sympathy of a wide circle was shown by the beautiful floral offerings. The pall bearers and flower bearers were the members of the schools formed in the procession a large part.

Mrs. Stummons, of St. John, is the guest of Mrs. Galus Fawcett.

Miss Daisy Gass, of Shubenacadie, is visiting friends here.

MUST, used sincerely, is a strong word. It brooks no doubts, no excuses.

That is why it fits Regal.

This flour *must* satisfy you, else your dealer returns your money.

SERIOUS ACCIDENT BRAVELY AVERTED.

A four-year-old child of Mrs. Jas. Donohoe, had a narrow escape from serious injury Wednesday. A butcher's team was standing outside the house and the little one in attempting to get on to it, scared the horse with the result that the animal started running down the street and around the park. Clayton Morris, who was standing at "The Palms," went to the assistance of the child and owing to the young man's bravery saved the youngster from serious injuries.—North Shore Leader, Sept. 27.

The St. John Standard is having its plant and building remodelled and rebuilt, and is also installing a modern Hoe press, one of the most up-to-date presses in the world. When the alterations are completed the Standard will have one of the most up-to-date printing establishments in the Maritime Provinces.—St. John's Courier.

PURIFIED HIS BLOOD
Dr. Morse's Indian Root Pills
Healed Mr. Wilson's Sores
When the severs of the body—bowels,
kidneys and skin ducts—get clogged up,
the blood quickly becomes impure and
frequently sores break out over the body.
The way to heal them, as Mr. Richard
Wilson, who lives near London, Ont.,
found, is to purify the blood. He
writes:
"For some time I had been in a low,
depressed condition. My appetite left
me and I soon began to suffer from indi-
gestion. Quite a number of small sores
and blotches formed all over my skin. I
tried medicine for the blood and used
many kinds of ointments, but without
satisfactory results. What was wanted
was a thorough cleansing of the blood,
and I looked about in vain for some medi-
cine that would accomplish this.
At last Dr. Morse's Indian Root Pills
were brought to my notice, and they are
one of the most wonderful medicines I
have ever known. My blood was puri-
fied in a very short time, sores healed up,
my indignation vanished. They always
have a place in my home and are looked
upon as the family remedy."
Dr. Morse's Indian Root Pills cleanse
the system thoroughly. Sold by all
dealers at 25c a box.

UNDERTONE OF MARKET WAS STRONG

New York, Sept. 27.—Regardless of
the monetary situation, which was
sufficiently tense to cause local stock
markets to manifest a strong undertone
of nervousness, the market today
showed a strong undertone of strength.
The movement at times was narrow
and irregular, and the total output
smaller than for several days. Money
on call opened at a fraction under
yesterday's initial rate, but soon rose
to its normal level, at which figure the bulk
of the day's loans were negotiated.
The rate eased in the afternoon
when the stock market recorded its
top prices under the lead of United
States Steel, which scored its highest
quotations of the year on excep-
tionally large offerings. Other stand-
ard shares also were in demand, but
most of them failed by a slight margin
to equal recent high levels.
A further rise in steel and allied in-
dustries was generally attributed to trade
conditions, which show increased ac-
tivity at all leading centres of the
country. Demand for pig iron is re-
ported to be so large that additional
capacity is required at Pittsburgh. Con-
tracts for various sorts of finished
products are already being taken for
the coming year. Similar conditions
prevail in the copper trade, the do-
mestic inquiry for current month
having been the largest, according
to authorities in more than three
years.

Among the strong and active rail-
way stocks were Canadian Pacific and
its ally, Minneapolis, St. Paul and
Sault Ste. Marie. New York Central,
Reading and Illinois Central, with
which minor issues as Missouri Pacific,
St. Louis and Western, and Western
Maryland. In the final hour, Rock
Island and the United group also be-
came active at smart advances.
An unexpected inflow of money
from the interior caused a reduction
in the cash loss of the local banks to a
nominal figure.
Bonds were steady with special
strength in Warbush, Pittsburg and
terminal issues. Total sales, par value,
were \$25,000,000.
United States government bonds
were unchanged on call.

CLOSING COTTON LETTER.

By direct private wires to J. C. Mac-
Intosh and Co., St. John, N. B.

New York, Sept. 27.—It was esti-
mated that 50,000 or 60,000 October
notices were issued which were eventu-
ally stopped by the leading spot
houses. When this process was com-
pleted the market again developed a
weak undertone on reports of warmer
weather in the belt and a rumor that
the National Grainers' report would in-
dicate an improvement of 20 points
in the condition of crop since its last
report issued a fortnight ago. Wall
Street has liquidated heavily. This
selling was attributed largely to the
strength of the stock market and the
brilliant business and financial pros-
pect, the theory being that large specu-
lators desired to shift their commit-
ments from cotton to stocks. This ac-
tion should have a two-fold favorable
bearing on cotton, first the heavy
liquidation has gone for a favorable ex-
pectation of the market's technical weak-
ness; second, the bright business and
financial outlook forebodes expan-
sion and a consequent steady demand
for the staple. It is possible that liquid-
ation has not yet fully run its course
and it looks to be time to cover short
contracts and accumulate cotton on
a scale down.

JUDSON & CO.

CLOSING STOCK LETTER.

By direct private wires to J. C. Mac-
Intosh and Co., St. John, N. B.

New York, Sept. 27.—General senti-
ment was still reactionary on bal-
ance this morning, but as not fre-
quently happens when the majority
is committed to one belief the market
merely developed a dull undertone for
a time during the morning and then
gradually gathered activity and
strength until it had developed actual
buoyancy. There were few stocks for
sale on the fractional reactions of
the morning and the bull contingent
while believing that a shakeout would
be beneficial, was inclined to wait
too long for this to come. When it
was announced that the banks had
actually gained a small amount of cash
in their operations with the sub-treasury
and later when call money was of-
fered at three per cent, large opera-
tors bid freely for stocks. The fact
that practically all of the day's money
requirements had been filled at much
higher rates didn't seem to mind. The
main consideration was that tension
in loan rates would be temporary and
that fundaments of the situation were
so strong as to create a substantial
and increasing demand for stocks on
every reaction. The upward move-
ment in last hour was active and gen-
eral and there seems every reason
to believe upward tendency will con-
tinue.

LAIDLAW & CO.

WOODSTOCK NEWS.

Woodstock, Sept. 27.—Mrs. Wm.
Hayden of Grafton has gone to Bos-
ton for a visit to her son, J. Allen
Hayden.
A. B. Lovely of East Florenceville
was here on professional business
yesterday.
Mrs. Alex. Scott, of St. John, who
has been visiting Miss McCartin, re-
turned home yesterday.
The guest of Mrs. J. W. Dalling,
Manager D. McMahon and Capt. P.
Duff, of the Woodstock ball team,
who have remained here since the
close of the season, will leave on
Tuesday for their home in Malden,
Mass., and Providence, R. I. Capt.
Duff, as well as some of the local
baseball fans, contemplates attend-
ing the world's series which will be
played between the Boston Red Sox
and the New York Giants, beginning on
October 7th, to be played in Boston
and New York alternately.
Mr. and Mrs. Godfrey Newham
have returned from St. Louis, Mo.,
where Mr. Newham was attending
the convention of Retail dealers.
George L. Porter, of Medford, is
now located at Woodstock, Ont.

JIM THORPE WILL HAVE PLENTY OF REDSKIN COMPANY WHEN HE BREAKS INTO THE BASEBALL GAME

Left to Right, Geo. Johnson, Louis La Roy of St. Paul, Jim Thorpe, "Chief" Meyers of the Giants, and "Chief" Bender of the Athletics.

Ever since baseball has been in on the American sport calendar the game has had a peculiar attraction for Indians. Next year, if Uncle Sam is willing, there may be another star added to the galaxy of Indian diamond stars. Jim Thorpe, greatest athlete in the world, has promised Barney Dreyfuss to sign with the Pittsburgh Pirates next season.

Thorpe, the winner of the decathlon and pentathlon at Stockholm, the foot ball captain at Carlisle this fall, wants to break into professional baseball, the sport to which he says is just a trifle partial.

But before he can sign with the Pirates, Thorpe must get the consent of Uncle Sam. He belongs to the Sac and Fox tribe of Indians, who are still wards of the government, and who must have the consent of a govern-

ment agent before they can transact any business.

Thorpe could have signed with the Pirates this season. He didn't care to because he had been elected captain of the Carlisle football team and wanted to preserve his amateur standing. In another year he will be through college and then the man who was too bashful to be presented to the King of Sweden, hopes to be at the King of Baseball.

Thorpe ought not. Probably now and then he will run across Chief Bender, also a Carlisle man who has been one of Connie Mack's mainstays for years.

If he tries for a mound job, as he plans to do at present, of course he will have the opportunity to try to keep "Chief" Meyers of the Giants,

team in the Western league.

There is scarcely a league in the country these days that doesn't boast one or more red men. Louis Latoro has been a winning pitcher for St. Paul for years. Mike Bielecki, out of Southern league star, and in the Detroit Oklahoma state league, enough Indians performed to make up an entire team.

About the only time an Indian fails to make good in professional baseball is when he tries to amass averages in the diamond in the afternoon and in the "firewater league" at night. That was what put Sockalexis out of business years ago. When he broke in at Cleveland in the halcyon days of most promising youngsters in the game. Booe got him, and now he is content in his job as a ferryman in Maine.

CITY CHAMP GAME THIS AFTERNOON

If everything is favorable there should be a large crowd of fans on the Marathon grounds this afternoon when there will be a good game of baseball. The Victoria who are the champions of the South End League, will play the Carlton team, who are the champions of the West End League, and the game will be for the championship of the city. The teams are said to be evenly matched, and a good article of ball may be expected. The game will commence at 2 o'clock.

TWO GREAT RACES ARE EXPECTED

The prospects are good for some keen long distance racing on Saturday, Oct. 12th when two races will be held under the auspices of the Every Day Club. There will be a 20 mile bicycle race, and a 10 mile running race. It is expected that there will be a large number of entries for both events and the entries will close with A. W. Covey, 8 Sydney street, on till Wednesday, Oct. 9th.

HARRINGTON AND FITZIE TO PROVIDENCE

Fredrickton, Sept. 27.—The first word received from Bob Ganley, captain of the champion Fredrickton Pats since he returned to his home in Lowell, Mass., came yesterday in letters to his friends here.

He says that he had sent along to Owner Frank Navin, of the Providence International League club the signed contracts of Catcher Danny Fitzgerald and Pitcher Frank Harrington, who he was stated in The Gleaner, would go to the Grays.

This lets the Montreal club down in their announcements that they had Fitzie corralled, and the promising young catcher will be on hand in the spring to do his share in trying to pull Providence out of the cellar position in the International League.

WAGNER FAMILY GROWS.

Boston, Sept. 27.—Charles Wagner, captain of the Boston Red Sox, received word yesterday morning that Mrs. Wagner had become the mother of a 10-pound boy and that both were doing nicely. This is the second boy and they have a sister about 7 years old.

SIMPSON'S SCOTCH WHISKY

FOR QUALITY AND AGE
Agents: R. SULLIVAN & CO., St. John, N. B.

CLAIM THAT ST. PETERS NOT CHAMPS

St. John, Sept. 27, 1912.
To the Sporting Editor of The Standard.

Sir,—I notice in your issue of Friday that you have an article on Inter-School League Baseball in which you say: "At a meeting of the executive on Thursday evening the St. Peter's team was ordered to play off with the Alerts for the city championship."

You have evidently been misinformed on this matter and as we know the Alerts for the city championship, a square deal, we respectfully ask you to publish the true facts.

At the meeting of the executive the F. M. A. representatives offered to play one game with the St. Peter's team on Saturday, September 28, to decide the league. This offer was turned down, the latter team's representative claiming that as soon as they were advanced for the game to be played, and instead, while admitting fully the rights of the F. M. A. team to a play-off, but still refusing them the opportunity, politely requested that team to forfeit their rights, thus allowing the Alerts, and, as a special inducement, offered to use some of the F. M. A. team's best men in their lineup. A fine offer, no doubt, but the F. M. A. team refused to consider it and the matter was dropped. It being understood that the St. Peter's team would not play off with the Alerts.

Now, Mr. Editor, if your saying that they are to do so, is correct, all we have to say is that they are not playing off as "champions of the Inter-School League." The claim in the evening papers of Friday that the St. Peter's team is entitled to the championship would be all right if not the standing as presented to the executive at their meeting.

Just a word in regard to the playing ability of the St. Peter's and F. M. A. teams. Those two teams have played two full games each team taking one. They have also played two games which were called on account of darkness and in each case the F. M. A. team was leading at the finish. If this will convince faith-minded readers that the St. Peter's team is superior to our team they all very well, but we leave your readers to judge this for themselves.

Hoping that you will extend us the courtesy of publishing this letter, we remain,

Yours for fair play,
J. L. MCNULTY, Mgr.
Representing F. M. A. team.

PLAY FOOT BALL THIS AFTERNOON

The football situation in the city is beginning to take definite shape, and this afternoon the intermediate team of the A. C. Club will lock horns in a practice game with the St. John High School fifteen. This game is being looked forward to by the players as it will show where each team stands. After the game the seniors will turn out for practice, and it is hoped that a good showing will be made. During the past week practices have been held every afternoon, and although only a few of the boys have turned out, those who have are in excellent condition, and it is expected that during the coming week a far better showing will be made.

The game this afternoon will undoubtedly prove interesting. The A. C. team is to be picked from the following men: Anglin, McDonald, Finley, Gilbert, McKee, Simms, McGowan, Climo, LeClair, Nelson, Golding, Wetmore, Humphrey, Nugent, McGarry and Foley, while the High School will have their regular men. Play will be started at three o'clock and immediately after the game the senior practice will commence.

WOODSTOCK BASE BALL YESTERDAY

Woodstock, Sept. 27.—The Woodstock fans were treated to baseball by local players this afternoon and the game proved to be a fine one, as the big league games. The constants were the teams from East Florenceville and Woodstock, and the latter won by a score of 5 to 4. Previous to this game the boys from East Florenceville won 8 of 11 games. The officers of the baseball association of East Florenceville are: B. Frank Smith, president; H. M. Marell, vice-president; P. Semple, manager; E. Moore, captain.

The following are the players and score by innings—

East Florenceville—E. Charlton, catcher; R. Hunter 2nd; J. Tompkins, 3rd; G. Mooney, pitcher; H. Marell, c.f.; R. B. White, 1st; E. Saunders, 1st; K. Lavigne, short stop; A. Kyle, r.f.

Woodstock—Joe Bradley, 2nd; G. McLean, 1st; Arthur Kelly, shortstop; R. Jones, c.f.; J. McElbourn, 3rd; R. Goss, 1st; E. Ryan, pitcher.

East Florenceville... 10010102-4
Woodstock... 01010102-5

The visitors were one to the good when Woodstock went to the bat in the last half of the ninth. Mooney was wild and he walked G. McLean. Kelly singled and worked a double steal. D. McLean struck out. G. McLean tied the score by a steal home. Mooney colliding with McLean and dropping the ball. Moore's single, Kelly scored and the game was over.

"The natives make use of this property to make ice cream."

The fish is caught, frozen and placed in the cream, thawing out it freezes the cream, and its movements at the same time stirring the mixture, making it smooth."

In commenting on the above the New York Sun says: Taking them by

BOXING DEAD IN CANADA.

Boston, Sept. 27.—Tom Flanagan, Impresario of Marathon champions and erstwhile manager of John Arthur Johnson, writes from Toronto that the boxing game is decidedly dead across the border and that the Canadians will endeavor to resurrect the game by bringing the colored champion to Toronto the coming week.

GIBBONS AND MOGOORTY ARE MATCHED

New York, N. Y., Sept. 27.—Mike Gibbons of St. Paul, Minn., and Eddie McGorty of Oshkosh, Wis., have been matched for the middleweight championships of the world, Nov. 7. The announcement was made tonight.

GIANTS BEING GROOMED

New York, N. Y., Sept. 27.—Manager McGraw of the New York Giants today began grooming his men for the season's series with the Boston Americans. The team's failure to clinch the pennant until yesterday's game, aided keeping all the world series eligible regularly in the games, but with the race won, the recruits are his, two of which were allowed to remain in the team's play. The veteran players will rest in plays, playing just enough to keep in good condition. It is seldom that McGraw discusses the initial work of his young players, but he said today the debut of Demaree, the Southern League star, in the box against Boston yesterday was the finest work he had seen done by a newcomer in 29 years of baseball. It was Demaree's first game for the Giants, and although the game was crucial to the extent that winning it meant clinching the pennant, the youngster had almost perfect control. He struck out nine men, allowed seven hits, two of which were scratches, gave only one base on balls and scored a shut out. Speculation as to how Demaree would figure in the world's series, however, is useless, as he only reported to the Giants on Sept. 4th, a week too late to be eligible. Testard is being groomed particularly for spit ball pitching against the Red Sox, and Matthews and Marquard probably will each have a chance to start one of the big games.

NOVA SCOTIA GENIUS.

Not all the fish prevaricators live in the United States. The following is a letter to the editor of the Montreal Star:

"Recently I read an interesting account of the singing fish in your paper. It recalls to me the memory of a rather remarkable fish we have here in Nova Scotia. It is known as the 'Frost Fish,' because it may be frozen like a lump of ice, but if put in water in that condition it soon thaws out and swims around as vigorously as ever."

The natives make use of this property to make ice cream.

The fish is caught, frozen and placed in the cream, thawing out it freezes the cream, and its movements at the same time stirring the mixture, making it smooth."

In commenting on the above the New York Sun says: Taking them by

WORLD'S RECORD IN SWIMMING.

London, Sept. 26.—J. G. Hatfield, swimming at Hoxton, London, tonight broke the world's record at 400 meters. He covered the distance in 5m 21.85s. cyards only to a distance of 400 yards.

and large, from Moosehead Lake at Puget Sound and from the Upper Mississippi to the Gulf, we have some very capable and industrious fish lars in this country. But we should hand the reel and rod over to Nova Scotia. We have talent in this country. But Nova Scotia is the abode of genius."

LIVE TOPICS ABOUT LIVE RING STARS

Phil McGovern and Young Rector will box in Brooklyn next Monday night.

Willie Gibbs and Matt Brock are booked for a bout at New Orleans Monday night.

Gunboat Smith and Jim Savage are slated for a bout at New York next Monday night.

Frank Mantel and Bill Papko have been signed to meet in New York Tuesday night.

Young Dyson and Hugo Clements have been matched to box in Albany next Monday night.

Al Benedict, another one of the exploded hopes, has been matched to box Bob Williams in Pittsfield next Monday night.

Eddie Morgan, one of England's best bantams, will get a tryout with Frankie Burns, of Jersey City, in New York Oct. 7.

AUSTRALIAN TEAM IN NEW YORK

New York, Sept. 27.—Fifteen Australian cricket players reached New York on the Olympic today to engage in a series of matches here, and in Philadelphia.

WILL GO AHEAD WITH ALLOTMENT

Boston, Mass., Sept. 27.—Now that the National Commission has decided about the ticket sale, the Boston Red Sox management will go right ahead with their allotment, and within a few days the Red Sox roster will begin to receive their postcards. Not until after the first of the month will they be ready for distribution, but in the meantime those whose applications have been favorably considered will be notified just when they are to call and receive the seat checks.

Those whose application may ultimately be turned down need not take it so much to heart, as the only seats to be reserved are those in the grand stands and boxes, the new grand stand back of third base being put on the reserve list, with seats at \$2 apiece irrespective of location.

Every other seat in the park, those in all the bleachers as well as the few hundred in Duffy's cliff, will be put on sale the morning of every game.

FAMOUS RACE HORSE EEL IS DEAD

Columbus, Ohio, Sept. 27.—One of the horses entered in the free-for-all pace of the grand circuit races will not go to the post today. The race is number 13, and The Eel, with a record of 2:02 1/4, died last night, following several days' illness of lung fever. The Eel was owned by F. W. Ehrlken, of Tavistock, Ont., was well known over the entire circuit, and was considered good for second money in the race today.

AN OPEN AIR FIGHT.

Pittsburg, Pa., Sept. 27.—Articles were signed here today for an open air fight between Luther McCarty and Al Kaufman, at San Francisco, Oct. 12. The match is to be held under the auspices of the Broadway Athletic Club.

Western Canada's Unlimited Prosperity

PRESENT BASIC RESOURCES OF CANADIAN WEST SUREST GUARANTEE OF SOUNDNESS OF CANADIAN INVESTMENTS

The development of Western Canada has been so unprecedented that it has attracted the interest of many of the keenest minds of America. Men who note and examine into the trend of world-forces recognize that in Western Canada there is taking place an epochal movement which ranks in importance with that which transformed the middle western states from prairie to prosperous cities and states. How Western Canada's growth is looked upon by widely known men of acknowledged judgment is indicated by the quotations below.

Further facts and figures will be presented in later announcements which will show how rapidly Western Canada is developing, why its towns and cities must forge ahead and new centres spring up each year. Read this announcement and watch for others which will follow.

Making Good in Every Instance

Camrose, Alta., Aug. 31, 1912.
International Securities Co., Limited, Winnipeg.
Gentlemen,—I have been making hasty visits to all the towns out here in which you have offered and are selling property and I have found that your properties have made good in every single instance. Tofield and North Battleford will average your clients 250 per cent. on investments made with you; and not a single man I visited did I find a single individual that was not enthusiastic and full of optimism over your property. One leading man said, "Where the international people buy is a safe town to invest in, and their name is a synonym of success in their choice, and they are upright in all their business dealings."
I go back in a few weeks to tell my clients and the public what I have seen and proved, to tell them they no longer hesitate to buy your property wherever offered by you and to impart to them some of the optimism I myself feel toward Western real estate investments when bought from your Company—to tell them no longer to look upon it as a wild piece of speculation, but an investment of the highest and most solid class to be had.
Yours truly,
(Signed) R. S. PRIDHAM.

Prompt and Efficient Service.

Sirathclair, Man., Sept. 6, 1912.
International Securities Co., Limited, Winnipeg.
Dear Sirs,—Having bought two lots in your G. T. P. subdivision at Watrous, I have pleasure in recording my satisfaction with the purchase of these lots and with the prompt and efficient way your Company manages its business, and trust it will continue to be a big factor in the development of our fine country. Yours truly,
(Signed) DAVID M. ROSS.

Increased 50 Per Cent. in Six Months.

Box 40, Watrous, Sask., Sept. 8, 1912.
International Securities Co., Limited, Winnipeg.
Sirs,—The lot bought from you was a good investment, having increased in value fifty per cent. in six months. Several houses have been built in immediate vicinity since I bought, and I believe this part of the town will be most thickly populated, it being nearest to roundhouse and shops. Will you please send me a plan of this Grand Trunk Pacific subdivision with price of lots still for sale, and oblige, yours truly,
(Signed) WALTER NICKSON.

Could Have Taken Profits at Once.

London, Ont.
International Securities Co., Limited, Winnipeg.
Gentlemen,—I have returned from Regina, where I inspected the property in Tuxedo Park, which I purchased from your company. Having bought two blocks I made a thorough investigation into conditions at Regina, location and future prospects of Tuxedo Park, with the result that I am pleased to advise that I am well satisfied with my purchase. I found that if I so desired I could sell my property at a price that would give me a substantial profit, but believe that the values of Tuxedo Park will continue to increase.
In view of this, I think it only fair to advise that I found your statements in regard to this property to be correct; and to state that my business relations with your concern have been pleasant and satisfactory.
(Signed) H. M. PETERMAN.

Rapid Advance in Value.

Kenora, Ont., Sept. 2, 1912.
The International Securities Co., Limited, Winnipeg.
Gentlemen,—Regarding the Watrous property I purchased from you under agreement of sale some time ago, I have to say that I am well satisfied with it, as it is without a doubt a splendid investment, and the rapidity with which it has advanced in value the last few weeks, will be eclipsed entirely when the history of the next few months comes to be recorded.
Yours sincerely,
(Signed) ROBERT WILLIAMSON.

AN AMAZING SITUATION NOW CONFRONTS INVESTMENT WORLD

DR. J. G. SCHURMAN, PRESIDENT OF CORNELL UNIVERSITY, CONVINCED OF CANADA'S FUTURE

In a public address recently before the Canadian Club of Winnipeg, Dr. J. G. Schurman, the distinguished American authority on finance and economics, said in reference to the Canadian West:
"I am amazed at the wonderful development of the country."
"The Cities of Winnipeg, Calgary, Vancouver and Prince Rupert have expanded in the last few years at a rate which confounds the predictions of the most enthusiastic prophets."
"These and other cities I have seen with unabated astonishment; and I realize that their growth and prosperity have resulted from the rapid and extensive occupation and cultivation of your wonderfully fertile farm lands."
"On the face of our globe there is no other area left for such agricultural development as is now going on in those rich plains which stretch from Winnipeg to the Rockies and from the American boundary to the Peace River Valley—700 miles to the north."
"Who can forecast the future of this marvellous growth and expansion? What you witness today is only the beginning."
"Twenty years hence the population of Canada may be 20,000,000. I do not think this is an extravagant estimate."
"Canada is destined to be one of the greatest countries of the world."

NINETY PER CENT. OF WEST STILL UNTOUCHED

CONVINCING STATEMENT OF COMMISSIONER CHAS. F. ROLAND, OF THE WINNIPEG INDUSTRIAL BUREAU

"The wealth of Canada's partially developed natural resources is practically incalculable. With only ten per cent. of the vast stretches of the fertile lands of the West under crop, and with lumber, mineral and other natural resources, what a future there is for Canada! Eight millions of population is a mere fraction of the people who will eventually find homes and a good living in the Dominion."
"Some time, without doubt, Canada will be crowded; but between now and then there lies a long road bordered by countless opportunities, tapping the regions of success and wealth, driving straight into the heart of development that, already remarkable, will be the most tremendous made by any country occupying a like position with Canada today."
"The marvellous growth of such cities as Winnipeg, Calgary, Vancouver, Saskatoon, Edmonton, Toronto, Hamilton, and Montreal shows the capacity of Canada for increase of population in civic centres."
"Industrial output, banking figures, customs duties, statistics of export, immigration records and building figures go to prove growth and expansion so remarkable that the case of Canada as a headline attraction on the stage of the world's doings is made out and approved by the audience."
"The time is ripe for the people of Canada to analyze what has been done and what ought to be done in the upbuilding and development of this heritage."

GROWTH OF TOWNS IN WESTERN CANADA

STEADY FORWARD MOVEMENT WITH AGRICULTURE AS ITS PERMANENT BASIS.

Hon. Robert Rogers, Minister of the Interior, Ottawa, is authority for the following statement of facts about the West:
"Two or three hundred towns have come into existence during the past two or three years, and many more during the past year."
"The station house, the blacksmith shop, the boarding house, the store, of April are dwarfed in August by a hundred or more dwellings, by large hotels, by splendid stores, and a half dozen implement warehouses, not forgetting the two or three churches and the excellent public school building; and in a few years there is a town with well-paved and electric lighted streets, market, and all modern equipment."
"There are cities of from ten to fifteen thousand people, where five or six years ago there was but the bare prairie and the lone section post."
"The change of the Canadian West during the past eight or ten years has been marvellous; and it is no idle tale to say that the development in number and growth of the cities, towns, and villages there in the past decade has eclipsed anything in the history of the building of a new country."
"Agriculture has been the basis—and it is agriculture of the kind that is lasting."

IMMIGRATION TO CONTINUE ENRICHING THE WEST

STATEMENT OF THE WALL STREET JOURNAL AS TO THE FABULOUS INCREASE IN CANADA'S WEALTH

"The movement of farmers from the United States into the three Canadian Provinces—Manitoba, Saskatchewan and Alberta—continues and increases."
"Last year more than 131,000 came, and the immigration officials say that they have advices which lead them to believe that the number of incoming American settlers this year will be not less than 175,000."
"Immigration, banking and railway officials agree in estimating that the average American settler brings with him at least \$1,000 in cash, and this seems to be a conservative estimate."
"It means that they brought into Canada last year upwards of \$131,000,000, and that their cash contribution to Western Canada's wealth this year will be \$175,000,000."
"The idea prevails in many quarters that this movement is spontaneous. This is an error. In the history of mankind there has never been a movement from one country to another more carefully or skillfully planned and operated than this one."

FAMOUS
RACE HORSE
EEL IS DEAD
Columbus, Ohio, Sept. 27.—One of
the horses entered in the free-for-all
race of the grand circuit races will
not go to the post today. The race
is number 13, and The Eel, with a
record of 2:02 1/4, died last night, fol-
lowing several days' illness of lung
fever. The Eel was owned by F. V.
Entriken, of Tavistock, Ont., was well
known over the entire circuit, and
was considered good for second
money in the race today.
AN OPEN AIR FIGHT.

Who's that knocking at the kitchen door?

Why, it's Mrs. Edwards round again—she's always ready to end a hand with the cooking. That nourishing home-made Irish soup of hers is a real dish-of-all-work—useful in a hundred ways.

It's fine and tasty by itself. It's the secret of a savoury sauce. It's the making of a made dish. And, to bring out the goodness of your own soup and gravies and hashes and meat puddings there's nothing like adding

EDWARDS' DESICATED SOUPS

Prime beef and the finest of Irish vegetables—that's what Mrs. Edwards puts in it; nothing but the pure and delicious. As there is no strong added flavouring it will blend perfectly with any other soup. Remember to boil it for half an hour.

5c. per packet.

Edwards' Desicated Soups are made in three varieties—Beef, Tomato, White. The Beef variety is a thick, nourishing soup prepared from the best of Irish vegetables. The other two are purely vegetable soups.

Lots of dainty new dishes in our new Cook Book. Write for a copy post free. S. H. B.

sentative for Quebec and St. John's
Provinces.

overlord. What Porto Rico wants, he maintains, is self-government, and no interference by the United States in its domestic affairs.

Chisholm and Dick's Lakes will shortly be as much esteemed as hunting paradises, as they have been for the abundance of trout obtainable in their waters. Last week Roy Thomson, St. John, shot a moose from the verandah of the cot at Chisholm Lake. On Monday, Mr. Clarke, St. John, was at Dick's Lake and shot a bull moose under the same conditions. He called the animal from the verandah and shot it as it came up. On Tuesday he also captured a fine deer. Both were shipped to St. John.—Sussex Record.

More Facts About McClary's "Sunshine" Furnace

—The Understudy of the Sun—

There's no dust nuisance about the "Sunshine"—when you rock down the ashes the dust is drawn up dust-flute then directly across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace for the home.

See the famous "cup joints" here—the frame of the ash pit—the two sections of the fire-pot and the dome all jointed together by our "cup joints".

There's a layer of asbestos cement in each joint—this unites all sections in a permanent way, yet leaves room for the expansion and contraction of the metal.

No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace—Since it diffuses pure warm June air throughout the house.

You don't have to wear overalls when attending to the "Sunshine" furnace—It has a big rock ash-pan. All the ashes are guided directly into the pan by ash-chutes. A minute or two performs the job. Yes, the "Sunshine" is the clean furnace.

The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater percentage of heat units than the Buffalo plate (a new McClary device) decidedly increase the heating efficiency of the furnace.

But—see the McClary agent of your locality. Ask him to show you all the features and exclusive devices which make the "Sunshine" Furnace worthy of the name—The Understudy of the Sun.

If you do not know the McClary Agent, write us at our nearest address and we'll forward you a letter of introduction by return.

NA-DRU-CO.

Insist on seeing this Trade Mark on every Toilet and Medicinal Preparation you buy.

It is your assurance that you are getting the best.

In buying food, clothing or house furnishings you can judge their quality by their looks, feeling, taste or smell. But when you buy Toilet or Medicinal Preparations your senses give you no clue to quality—you must buy on faith. You take no chances, though, but are safe, if you always select preparations bearing on the package the Na-Dru-Co Trade Mark shown above. This Trade Mark is positive evidence that the article which bears it, whether Toilet or Medicinal, has been compounded by expert chemists, from the purest and best ingredients, according to formulae that have been tried out and proved safe and effective.

When your physician gives you a prescription, you would not think of having it filled by any but a qualified and reliable druggist. Why then should you not know who compounds the household remedies which you and your family take? When you buy a preparation bearing the Na-Dru-Co Trade Mark you buy a product which has been compounded by properly qualified chemists, in the employ of the largest Drug Firm in the British Empire, the National Drug and Chemical Co. of Canada, Limited. So sure we are of the quality of Na-Dru-Co goods that we back up each and every package with the unconditional guarantee quoted in the inner circle.

Vincent, which was selected for the test, does not represent the full lifting capacity of the dock, since, with war stores on board and a full complement of crew, she displaced only 21,000 tons, the dock being equal to raising 32,000 tons.

The warship steamed slowly up the Medway where the dock was moored with a clear run of water between its 60 feet walls. Then, with four government tugs to steady her into position, she slid over the submerged structure of which only the crane and funnel were visible. As soon as the ship had been warped into the middle, the pumps, deep down in the walls below water, were set working.

Soon the St. Vincent began to rise, the red of her hull showing through the water. Immediately shipwrights and riggers from Chatham set to work with wedges and mallets, fixing the first line of timber shores to hold the ship upright. In five minutes the St. Vincent had been raised 15 feet, and in seven hours she stood fair and square on the blocks without deviating an inch either way.

ITALIANS SOCIALIZE INSURANCE

Government Institute Arranges to Have Monopoly of Business—Comprehensive Plans Are Being Laid.

Rome, Sept. 23.—Regulations under which the new governmental Institute of Insurance, provided for in a bill recently passed by the Italian Parliament, will begin work on January 1, of next year, have just been made public by the Government. The experiment, which practically is the establishment of a government monopoly of all life insurance in Italy, through the absorption of the Italian companies and by gradually taking over the business of foreign concerns now operating in this country, will be most interesting, as the profits derived therefrom will be used to augment the Workmen's Old Age Pension Fund and because it is the intention of the government to make life insurance compulsory for many classes of people.

A sensation was caused both in Italy and abroad in April of 1911 by the announcement that Signor Nitti, minister of agriculture, industry and commerce in the then newly formed Giolitti cabinet, intended to introduce into parliament a bill for the formation of a state monopoly of all life insurance. The measure contained provisions for the absorption of the Italian companies then in operation and for the curtailment of foreign companies doing business in the kingdom.

The scheme as outlined, affected powerful and established interests and called forth intense and widespread protests.

A party nicknamed the "Young Turks" was formed in the Chamber of Deputies and it waged a strenuous war against the project, while the companies organized, in the press and through public meetings, propaganda in favor of the maintenance of insurance conditions as they then existed. Meanwhile John G. A. Leishman, the United States ambassador at that time accredited to the Quirinal, headed a movement against the bill, which was supported by the diplomatic corps representing the countries where companies doing business in Italy had their headquarters.

The representatives of Great Britain, the United States, France, Germany, Switzerland and Austria-Hungary maintained that the sudden expulsion of foreign companies, which for years had operated in Italy where they employed enormous amounts of capital and where they had established important permanent interests under the laws passed by the Italian Parliament, might almost be considered a breach of good faith.

As a result of these protests the insurance bill had not received the approval of Parliament when the summer recess was taken, and during the vacation period Signor Nitti and Premier Giolitti took the opportunity to study the question more fully and to amend the bill to certain provisions by which the foreign companies could continue, for the time being, on work in Italy, though in an inferior position compared to that of the government Institute of Insurance.

The measure, then, with a few additional amendments, was again presented to Parliament, which passed it by a large majority.

The scheme will be an experiment in Socialism under a monarchical government. From the wages of all military and civil servants in Italy the government deducts each month a tax corresponding practically to an income tax. A percentage of the sum collected goes towards the Workmen's Pension Fund which entitles the pensioner or his family in case he voluntarily leaves the service, or dies, before the expiration of twenty-five years, to one month's salary for each year that the man has served. After twenty-five years the pensioner receives one-third of the salary earned, and the amount of the benefits gradually grows until after forty years of service the employee is entitled to a full pension.

The government's idea is to extend this system to all individuals who even indirectly have dealings with the governmental, provincial or municipal authorities, and also to those workers for whom insurance against accident is compulsory, and to the part of the employees. The Institute of Insurance in employing help will give preference to the clerks of the present companies.

Among the advantages to be derived from the institute is one by which the insured who pay premiums at any government office, such as the post, telegraph, telephone, customs, and tax collectors, and at the offices of the salt and tobacco monopolies, etc., will be allowed a reduction in their payments. The new law provides that the surviving insurance companies may operate only under a tariff prescribed by the government, and they cannot make reductions in any form to their clients, not even in the shape of private restitution of taxes paid to the government, under the penalty of having their authorization to do business immediately revoked.

In a few years the government's monopoly of life insurance will be complete and the scheme is expected to bring to the exchequer an amount of capital at present difficult to estimate. The law already establishes that this immense fund shall be invested half in state bonds, which will render possible, perhaps in the near future, the reduction of the interest from 2½ to 3 per cent. one-tenth in real estate, and the remainder in loans and subventions to military and civil servants or pensioners of the government.

PRICES IN GERMANY HIGHEST

Meats, Wheat and Rye Cost More in Fatherland Than Elsewhere—Dread British Tariff Reform.

Berlin, Sept. 18.—Germans are now paying for all kinds of meats, wheat, rye and several other necessities of life prices higher than are paid anywhere else in the world. Prices are still rising and the per capita consumption of virtually all foodstuffs is falling off. The number of horses slaughtered for meat in Berlin during the first six months of the present year reached 5,554 and exceeded the figures for the corresponding period of 1911 by 1,463. The Germans ate 42,762 tons less of beef in the first half of this year than in 1910 and paid \$8,750,000 more for the smaller quantity.

Dressed swine are bringing more than 18 cents a pound at the abattoirs and more than half of all the meat consumed in the empire is pork. Retail butchers have had to pay 22½ cents a pound for dressed beef, and veal is higher. Veal cutlets bring from 48 to 53 cents the pound. Official statistics for the last week of August showed in Mannheim paying \$12.50 more per ton for wheat than is paid in the United States, and \$11 more per ton for rye, the chief breadstuff of the people, than is paid in any other country.

Market days throughout the cities and towns of Silesia are being marked by mad riots of a people enraged over the high prices exacted for virtually everything they must buy. The police have had to guard the dealers in Liegnitz, Glogauer, Jauer, Hirschberg and half a dozen towns more.

Faced by these conditions, the government finally has admitted, through the official North German Gazette, the existence of almost famine prices for virtually all necessities and especially for meat. It still asserts, however, that the period of high prices is only temporary, and that a normal lower level must soon be reached. Holding, as it does, such a point of view, the government believes that no legislative or other remedy is needed, and demands for such relief which are coming from every quarter except from the agrarians, are met by the declaration that the economic policy of the nation cannot be altered to meet a situation which will soon pass.

Meanwhile there is a rapidly growing discontent with the government's policy which is so many times cannot be overlooked nor disregarded. All over the Empire the Socialists, who represented a good third of the total population, have been holding meetings of protest which have been packed to the doors. The Socialists of the Reichstag, the strongest in that body, has petitioned convocation of the Reichstag and speedy legislation to open the borders to the free importation of cattle, meat and other necessities. Scores of city councils have discussed the situation and have either petitioned the government for aid or have established municipal markets, made agreements with butchers and taken other means to afford relief.

The Diet of the Kingdom of Bavaria debated an interpellation looking to a general lowering or abolition of the tariff rates on necessities of life. Herr von Soden, minister of the Interior, answering the interpellation declared that such action would have no effect on prices, and furthermore, that it could not be considered in any event, since it would mark a departure of Germany from the established protective policy. The municipal authorities of Frankfurt-on-the-Main have addressed a second petition to the government which make it all but impossible for the lower classes to get enough to eat.

Thoughtful Germans look upon the present situation in Great Britain with unconcealed anxiety, not on account of the growth of the British navy or the host of other matters displayed so widely in England, but on account of the possibility of the fall of the present ministry and the installation of a Conservative government. Since the last bye-elections in 1906, the Conservative party has been pointing out that a change of government will probably bring in its train in Great Britain tariff reform—a measure which will hit German industry far harder than the English patent legislation, which forced so many German factories to establish branch establishments in England. That the fall of the Liberal government is imminent is prophesied as a certainty.

Herrmann von Rath, a prominent member of the Prussian Diet, points out in an article in the "Tag" that for this menace the Germans and their navy personnel are in part to blame, since one of the factors behind the movement to abandon free trade is the need for more revenue to bear the cost of England's big naval program which has been imposed upon the already enormous burdens for old age pensions, national insurance and other social legislation. If England adopts a customs tariff, Germany, which has with Great Britain the latest trade relations, will find herself paying not only for her own big navy but for the British as well.

In connection with the visit of Prince Henry of Prussia to the German possessions in the Far East, attempts are being made to boom manufacturing in the German protectorate of Kiaochow. The establishment of 20 iron and steel works, for which the rich ore fields in the German sphere of influence would furnish abundant raw material, is considered of first importance, since these metals are scarce in East Asia and there is a strong demand for them throughout China. An energetic promotion of the cotton and silk spinning industries is also being urged. In addition, the German government is endeavoring to secure export trade in steel products and cotton goods.

POPULAR APPOINTMENT.

The appointment of W. W. Hubbard to be manager of the experimental farm to be established at Fredericton by the Dominion government will be generally commended throughout the province, where he has rendered valuable assistance to the agricultural interests. Mr. Hubbard is the provincial commissioner of agriculture.—St. Croix Courier.
