This Book helped me improve my Farm.

It is the most valuable book I own and it cost me nothing.

It has saved me time, labor and money and I've got better looking, more durable and more serviceable buildings than I ever had before.

The first cost of concrete farm improvements is also the last cost. There's no after expense for paint or repairs—no danger from fire, rot or rust—no trouble of any kind. Besides they lower the insurance rate. If you haven't a copy of "What the Farmer can do with Concrete," send for one today. There's more than 150 pages of valuable building information, 52 practical plans, illustrated by diagrams and photographs, and dozens of other interesting facts.

A copy will be sent to you free of charge, immediately upon receipt of coupon below.

HOW CARVELL "SKINNED" THE FARMERS

Certain clauses which appear in a contract made between F. B. Carvell's hay company and B. F. Smith's company in 1902, fourteen years ago, are being used in an attempt to show that Mr. Smith is not the only man to skin the farmers, but that Mr. Carvell in by-gone years conspired to get all he could for as little as he could. That is the way the matter is made to appear.

Let us look into it. The clause in the contract which it is alleged proves Mr. Carvell himself conspired to beat the farmers, is in effect that those to whom he let sub-contracts, were bound not to pay more than \$8 for loose hay. That is the kernel of the supposed damaging clause.

In 1902 Mr. Carvell was not in public life—he was not a member of the Commons or the Legislature. He was a private business and professional man, seeking to earn his living in a business-like way. At the time, the dominion government was giving out large contracts for hay to be shipped to South Africa. He secured a contract of upwards of 11,000 tons. He was not a produce-buyer in the ordinary sense but he was instrumental in establishing a compressing plant at McAdam. He sublet his contract to practically all the regular buyers in the county, and the maximum price clause was not made for the purpose of cheating the farmers, but as all parties to the agreement knew, it was to prevent the buyers from cutting each others' throats. B. F. Smith was a subscriber to the clause, so were the half-dozen other contractors. Each was anxious that the other should be held down to the agreed price. That was business, and good business where "business is business." Every buyer of produce seeks to buy as cheaply as he can. So does everybody else.

Now about the \$8 price. Turning to a local paper printed a few weeks before Mr. Carvell's company got underway we find loose hay quoted at \$5 and \$6 per ton. Mr. Carvell did not squeeze the farmers down in price but, instead, set a new standard of price for hay by paying eight dollars. Local buyers for shipment had never before paid \$8 for loose hay.

Did Mr. Carvell rob the farmers?

The attempt is being made to show that Carvell's charges against Smith have fallen flat.

Have they really? Not at all! See: Mr. Carvell's charges have resulted in the government making a new contract with Mr. Smith, at a lower price, and sending a chartered accountant to see that the conditions are lived up to.

In 1902 Mr. Carvell was in private life, seeking his own. In 1915, as for some years, Mr. Carvell was the representative at Ottawa of the farmers of Carleton county. It is his duty to see that they get a square deal.

He is there to safe-guard their interests. He is remiss in his duty if he does not.

In conclusion it may be pointed out that at the time Mr. Carvell made his charge against Mr. Smith the farmers were getting \$13.50 for pressed hay. Almost immediately afterward the price was boosted to \$15. No buyer along the line will honestly say the Carvell revelations were not the cause of the increased price.

KILLS WIFE AND SELF

A shocking tragedy occurred last Thursday at Woodlawn a settlement in Carleton county, near the boundary line. William Wilson, a well-to-do farmer, murdered his wife and then committed suicide by hanging. It is not known on just what hour the crime took place, but a neighbor, not seeing anyone moving about the place went over and, finding the doors locked, looked in the window and was horrified to see Mrs. Wilson lying on the floor in a pool of blood with a ghastly wound in her head, and an axe covered with blood beside her body.

An alarm was given, men were soon on the scene, and found the body of Wilson hanging from a beam in the barn. The position of the body would indicate that he first fastened the rope and then jumped from the beam, on which he was standing.

Wilson had not been in good health for some years, and of late had been despondent, and it is thought he committed the dreadful act while in one of these moods. There was no trouble of a domestic nature. Husband and wife were about fifty-six years of age, and no children.

An inquest was held, several witnesses were called, and the evidence went to show that both were about their home at noon yesterday. The room would indicate that both had their dinner, and that the crime was probably committed soon after. Mrs. Wilson's head had one terrible bruise which was likely the first blow struck by the insane husband. Her neck had two deep cuts and the blood had been wiped up with a cloth and an attempt to wash the floor.

The body of Wilson was found in the barn hanging to a beam with a rope that had been used in connection with a pitching fork. The body being frozen must have been in the barn several hours. The crime was undoubtedly that of an insane man. The little settlement was greatly shocked over the sad affair and much sympathy is expressed for the numerous relatives of the victims.

The jury through their foreman, Geo. Campbell, returned the verdict that from the evidence submitted William Wilson and Annie Wilson, his wife, met their death Thursday afternoon. That Annie Wilson came to her death from the blow of an axe in the hands of her husband, and that William Wilson came to his death by hanging at his own hands.

Wants Light on Valley Railway Affairs

F. B. Carvell, M. P., has a few questions on the order paper at Ottawa concerning the Valley Railway. He wants to know something about the agreement under which the road is now being operated. He also wants to know who was responsible for the notice served on employees of the road a short time ago to the effect that Government operation would cease on December 31. The people of the St. John Valley will await with interest the replies which will be handed out to Mr. Carvell.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

THE CARVELL CHARGES

Apart from the war news the great speech of F. B. Carvell in Parliament on Tuesday last week is the leading topic in newspapers from coast to coast. All admit the speech was brilliant, poignant, daring. The Conservative newspapers are filled with howls of rage and agonized bleatings. Independent and Liberal newspapers commend the bold stand in which Mr. Carvell challenges the government to show its hand in the shell contracts. Liberal papers are of course expected to defend Mr. Carvell's stand, but it is noteworthy that the papers that are bound to neither party, the independents, find in his charges something more than political filibustering, something other than "hot air." It is well known that when Carvell goes gunning he always brings home a trophy, so that those not strongly partisan are looking for more than wordy charges. There are results yet to come. Come they will, in spite of the fact that the Minister of Militia, in his strikingly brilliant speech, declared that the Shells Commission was beyond the scope of parliament for investigation.

Of the very many instances of graft and favoritism disclosed by Mr. Carvell, one glaring stroke of hoodluming is shown to have occurred in St. John. There the York and Cornwall Cotton Co., by reason of its good Tory pull, got a contract for more than \$100,000 worth of shells. They possessed no more facilities for making shells than does Sayre's mill at Hartland. Yet they got the contract, apparently with ease, and turned it over to the Phoenix Boundary Co. to fill for them, they to receive ten per cent commission on the amount involved. They have already received \$5000 in cash rake-off.

This was only one of very many charges which Mr. Carvell hurled across the floors of the house. The Conservatives have no defence and have attempted none. They adopted the subterfuge of declaring the government had no power to investigate the work of the Shells Committee which it had itself created.

For these appalling and unanswered charges the Tory papers, such as The Standard and The Gleaner, throw fits, and in frothing rage declare Mr. Carvell is no gentleman, a very bad man, unfit for public life.

Mr. Carvell has shown that some few others were unfit for public life, notably among them being one J. K. Fleming, likewise A. B. Morine, W. F. Garland, A. B. Foster and B. F. Smith.

Letter From O. L. Shaw in England

The following letter is handed for publication by Mrs. James Greer of Mount Pleasant. It is from her son who is with the 55th Battalion at Bramshot camp in England:

Dear Mother:

Received your most welcome letter this morning and was glad to hear from you all. Am well and getting on fine. We are drilling quite hard though I just got back from a 6 days pass to London. Got back last night; had a lovely time; saw a lot of sights. Was all through Westminster Abbey, all through the London tower and Parliament buildings and saw the Wax Works. Say, the Wax Works are fine. You see all the old Presidents clear back in 1700; presidents, mayors, great writers and Kings and Queens up to the present time. They have got King Edward and Queen Victoria. You would think they were going to speak to you as you passed. I also saw the Kings Palace.

It is a grand city. I was also through the "Bloody Tower." I

Well, Mother, I saw a lot of boys back from the trenches on pass and they were a hard looking lot of lads but happy to get a few days off. There is not much doing in the trenches now and will not be before spring. Then there will be a final dash. They are going to wait until they get some of the Canadian boys to back them up. They said when they make a charge the English soldiers wont back them up but will lay down in the trenches and cry like a lot of babies. There will be about 42,000 ready for the final dash in the spring. We will chase the sausages off the face of the earth when we start.

Well, mamma, it will soon be Xmas, wont it? I would like to be home with you but I can't. I will think of you all: that is the best I can do this time. Will be home next Xmas I hope. Mother do not get discouraged or downhearted because I am all

right. I am sending you some of my faces. Well, good by; write soon.

With love to all

Death of Mrs. Charles Raymond

Yesterday Mrs. Charles Raymond of Middle Simonds died after a long illness of Bright's disease. She was 58 years of age and leaves besides her husband three sons: Wilbert at Fort Kent, Byron at Keegan, Me., and Harold in Philadelphia. There are two daughters: Pearl and Ruby, at home. Whitfield and Lorenzo Ebbett and brothers, and Mrs. Norville Guerrier and Miss Beatrice Ebbett are sisters of the deceased.

The funeral will be held tomorrow afternoon.

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

I have just visited the head office of the Ford Motor Co. of Canada, and while away also spent some time at the Montreal branch and the Montreal motor show.

At present the Ford Motor Co. of Canada are turning out at Walkerville 165 to 175 cars per day. The factory is running overtime in an effort to boost production to 200 cars per day.

Notwithstanding their record production the demand for Ford cars is so great that the factory is about 1000 cars behind on its January orders.

I have not been able to get one-half of my January allotment.

I have four times as many cars booked for spring delivery as I had this time last year.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, restless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, "figs" and in a few hours all the foul, undigested food, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

10-CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Head-aches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which scours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

You may have heard of the Chevrolet—the car that has taken the public by storm in the United States. Well, that is the car we now offer in Canada—only this is to be a distinctly Canadian Chevrolet—not just Canadian in name, but made by an all-Canadian company—every share-one million dollars of good Canadian money—every feature of its manufacture completed in a Canadian plant by Canadian workmen.

Let's start with the engine—the heart of the car—and in case of the Chevrolet, a "heart" with a dependable action, quiet and smooth running to the last degree, its valve-in-quiet motor drives with a steady stream of power. Up the steep hills the Chevrolet climbs with ease—already they're calling it "The Wizard of the Hills." It has been found that the lever remains in high gear 95 per cent. of the time.

The feeling of ease and security you have in a Chevrolet comes from its low centre of gravity. It "clings to the road," although it has especially high road clearance; so that, on any kind of roads, you have good control of the car, and an upset is not to be feared.

You won't TIRE in a Chevrolet—whether in front seat driving or in the tonneau reclining. First, because it's roomy—seats five people comfortably. Second, because it has cantilever springs on REAR and double-acting, patented FRONT springs—no shock-absorbers necessary. Third, because it's comfortably unholted in fabricoid.

Transmission, selective type, with sliding gears; three speeds forward and reverse. Not necessary to be continuously "pushing the low gear lever" with the foot. On hill work you simply set the hand lever in low, high or intermediate—the motor does the rest.

The price, \$710, includes full equipment and a speedometer. Tires, 30x3 1/2 all round; mohair top and dust hood; clear vision, rain-vision ventilating wind-shield. And an Electric Lighting and Starting System that is designed and built into the car as an integral part of the car. This is important. The lighting system includes dimming attachment.

This 26-horse-power, 5-passenger Touring Car is ready for you now—and you had better get your order in at once. Agencies have been established in all the principal cities and towns of Canada.

MAP OF Carleton County

The man who does not advertise because he doesn't know how to write an advertisement should quit eating because he can't cook.

(We will gladly help you prepare your advertising.)

This beautifully printed map, in four colors, large wall size, on a scale of 17-8 inches to the mile, shows the parishes in different colors, all the highways, railways, lakes, rivers, brooks, every post office. Every Carleton Co. home should have one.

This map was issued at a cost of hundreds of dollars by The Observer last year. It is The Observer's tribute to Carleton Co.

It was issued to be sold at \$3.50. Price is now reduced as follows:

School and Office Edition
Formerly \$3.50, now \$1.75
House Edition, formerly \$1.25, now 50c
(Sent postpaid)

The difference in editions is very slight, only in the matter of mounting.

Send for the 50c Map Today.

The supply will not last long, and when exhausted a map of Carleton Co. will not again be available for a generation.

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-a-tives" Brought Relief.

MR. WHITMAN
382 St. Valler St., Montreal.
"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough."

COUNTY COUNCIL

(Continued from last week)

The building committee, by its chairman Burt, submitted a report showing an expenditure on \$174.66, and an expenditure on \$430.85. Upon motion the report was adopted.

Fleming on behalf of a committee appointed to consider the question of expending money on the Houlton road, said he and ex-Coun. Caldwell had met Mr. Munro who said the sum of \$200 had been appropriated, on his responsibility, on the road, one half in the Parish of Woodstock and one half in the parish of Richmond. It was a small sum. We don't get any further grant. The appropriations had been made before we waited on Mr. Munro.

The report, on motion of Stevens, was received, and on motion the board was authorized to name another member in place of Caldwell.

Stevens thought that the committee should be authorized to wait on the government at Fredericton in the matter.

Alex Bell did not see the necessity of going to Fredericton. We could get at the members here.

Burt said there was quite a large sum of money spent in Carleton County. He was told, \$6000 between the three members.

Gallagher said the Houlton road was a disgrace. Its condition was the means of preventing many tourists from coming over this way and seeing the St. John valley. He believed it would be well for a delegation or the committee to go to the government. Generally the road along the river is in very good shape, but from Houlton to Woodstock the road is very bad.

Bell agreed that the road was very bad. I talked to Mr. Munro about some of the money not having been put on the road at the Houlton end. He said that would be practically impossible.

Lamont—For fear rumors go out that any of our members were to blame, it should be explained that they never handled the money. It was the fault of the commissioners. It is just possible that the money which should have been spent on the Houlton road was spent on some cross road. I knew the commissioners must render an account for every dollar spent. There is no possible way for the money to be switched off. I have taken it on me to fix roads and I will get my pay. I do not believe it would be any good to go to Fredericton.

Perry—I wanted to find out certain facts before a commissioner. I could not get anything from the Fredericton office but a report, no itemized account.

Lamont—Every dollar spent in Aberdeen can be accounted for. Perry—I could not find out anything.

Burt said the Glassville road is a good road.

Lamont—I believe the Councilors can have a large influence with the commissioners. If councilors get busy and leave politics out, they can get good results.

Phillips—I don't favor a delegation to Fredericton. I think as much good can be done by waiting on the members here. As far as expending \$5000 in the county, it only means a little in each parish. It would look as if it would be necessary to have a special grant to Houlton road.

Melville—There are receipts for all monies expended on roads, and under the present system, if any false reports are made, the man could be brought to book. If Coun. Perry went to the Public Works Office he could get all necessary information. It was not fair to insinuate money was going wrong, and not properly applied. It was sometimes difficult to make an account about statute labor.

Perry—I did not insinuate. I asked the question. I applied to the Minister of Public Works and he said they had sent me a full return. I could not make head or tail of it. It was not about statute labor. I was not suspicious but I wanted to know where the money went to.

Lamont said the provisions of the Act were such that it was almost impossible for money to be misappropriated.

I suppose Coun. Burt meant that the three members had \$5000 given them to spend individually. As I understand, all monies go through the commissioners.

Lamont—Every dollar.

Burt—I don't think this council is so thick-headed that this must be explained. This \$5000 was their money to expend in the county, not for their own use.

Melville—I move in amendment that that committee wait on the local members here.

Fleming—This is a very live question about the roads and the council will yet have to deal with the matter. We should appoint a committee of Council and wait on the government and formulate a plan for fixing the road. A good deal of money is worse than wasted, not necessarily misappropriated.

Melville spoke of a case in his parish where there was a bad bit of road, one of the members said he would see that it was fixed, and the commission promised to

do it but neglected to follow it up. I think if this matter is called to the attention of the members they will look after it.

Lamont said that he understood the government would especially take up the matter this session.

Gallagher said he was not anxious to put the county to expense but the three members were scattered. This Houlton road is a truck road and it is a disgrace. I think if we went personally and put the matter before the Minister of Public Works we could get a grant. We are more likely to succeed by going to Fredericton instead of waiting on the members here. It means much to this county in the way of paying tourist travel so have this road fixed and put in some sort of shape.

Moxon—If the road is not passable, like the Houlton road, and the commissioner went on and did the work, he believed the government would pay it. He spoke as a commissioner who had experience in this work.

The amendment carried. Miss Vince, on behalf of her brother, A. N. Vince, submitted the report of the County Auditor, as follows:

Hardening of the Arteries

An Interesting Explanation of How This Dreaded Condition is Brought About.

You take out the garden hose in the spring, turn on the water, and if the rubber has got hard and brittle the tubing bursts and water spurts out in all directions.

The arteries of the human body may be likened to small rubber pipes, which go everywhere through the body and carry blood to the hands and feet, as well as to the nerves, muscles and vital organs. They carry all the blood in the human system, and if this blood is burdened with the poisons left over when the liver and kidneys are not properly performing their filtering work, these poisons form a deposit on the inside walls of the arteries.

The deposit, thus formed gradually thickens and hardens the walls of the arteries. The tiny blood vessels of the liver are affected, and thence comes that fatal disease—cirrhosis of the liver. The cells of the kidneys become starved for want of blood, and Bright's disease gets its start.

In health the arteries have the elasticity of rubber, and expand, contract or elongate, as required by the demands of the blood pressure. Hardened, the arteries are like no much brittle rubber tubing. The blood pressure comes on, the tubing bursts, and the resulting blood clot on the brain causes apoplexy.

It will be plainly seen that the cause of trouble is in the inefficient condition of the liver and kidneys. When these filtering organs are kept healthy and active, and the bowels regular in the removal of waste matter, there is no chance for such dreadful conditions as hardening of the arteries bring about.

As in all forms of serious disease, prevention is the only wise course to follow. You can positively depend on Dr. Chase's Kidney-Liver Pills to awaken the action of liver and kidneys, and also ensure the regularity of movement of the bowels. It is only by the activity of these organs that the blood can be kept pure and free from uric acid and other substances which form deposits in the arteries and at other points in the human system, causing pain, suffering and serious disease.

When you think of the scores of common ills, such as colds, indigestion, biliousness, headaches, backaches, etc., which arise from a torpid condition of these organs, you will better understand the reason why Dr. Chase's Kidney-Liver Pills are the favorite family medicine in many thousands of homes. By keeping the liver, kidneys and bowels active they cure the common ills of life, and prevent serious disease. One pill a dose. 25 cents a box, all dealers, or Edman, Bates & Co., Ltd., Toronto.

Since above report was completed the collector of Kent has

paid Secty-Treasurer \$29.01, and the collector of Wicklow paid

\$20.88. Also L. E. Young for jurors fees \$14. Therefore, the

county owes Kent \$88.84 and Wicklow owes the county \$262.71.

Melville—The \$2000 in the Secretary's hands, is it all in cash?

Sec.-Treas.—\$400 or \$500 would be in cash. The rest would be in

jury fees and witness fees paid out. It would represent a surplus

of about \$1500.

Report received and adopted.

Morgan—All amounts are charged to different Parishes are they?

Sec.-Treas.—No. There are some amounts of pauper lunatics.

Melville—How about Peel?

Sec.-Treas.—I could not tell you just now. But I can tell what

has been assessed outside of certain cases, where private parties

have agreed to sustain pauper lunatics and then have failed to

do so.

Melville—I object to pauper lunatics being charged up to us

without our knowing it. Simonds

has a special way of getting out

of this.

Perry—I enjoy my friend's talk,

but Simonds takes care of all the

lunatics it is entitled to.

Warden—I appoint Coun. Burt

on the committee on the Houlton

road question in place of Caldwell.

Election of County Officers

then came up, resulting as follows:

Sec.-Treas.—J. C. Hartley.

Auditor—A. N. Vince (during

his absence Miss Vince to act.)

Reporter—T. C. L. Ketchum.

Coun. Perry said the Patriotic

Committee wished to wait on the

Council and he moved that they

be heard tomorrow afternoon.

Coun. Tompkins seconded the

motion which carried.

Whooping Cough

"The disease I most dread is Whooping Cough, for children are often permanently injured by the awful straining of the cough. You should never neglect

it, and treatment should be started at the first symptom. You cannot mistake the symptoms: protracted coughing, worse at night; peculiar whoop; labored expectoration of mucus; apparent suffocation after coughing.

Chamberlain's Cough Remedy

is a positive remedy for this disease—repeat the dose frequently, for if given freely it liquefies the tough mucus, makes it easy to expectorate and counteracts any tendency toward pneumonia. There is no danger whatever from Whooping Cough when Chamberlain's Cough Remedy is freely given."
