No 19] SAINT ANDREWS, N. B., WEDNESDAY, MAY 12, 1852.

[Vol. 19]

St. Andrews & Quebec Railroad Company.

REPORT of the DIRECTORS to the Ordinary General Meeting of the Shareholders, held at the
Town Hall, St. Andrews, on Tuesday the 4th day of May, 1852.

In submitting a Report of their proceedings during the last twelve months, your Directors regret, that in consequence of the difficulties with which they have had to contend, they have as yet been unable finally to settle some of the important matters, which have engaged their attention; and as negotiations are still pending on those subjects, they are necessarily prevented from reporting so fully as they could have wished: but at the same time they are happy in being able to state, that they have reason to believe, and feel themselves justified in saying, every confidence may be entertained, that those difficulties will be satisfactorily arranged, and that the negotiations, now being carried on, will speedily be brought to a successful termination.

In the early part of last summer, Mr. Brookfield, the agent of an eminent English contractor, arrived in this Province, for the purpose of making the necessary inspection of the line and country, previous to entering into an arrangement for the construction of the remainder of the road.

The opinion and report of that gentleman on the facilities and advantages of the line were most favorable, and an agreement was entered into, and a contract actually completed and signed between the London Board and Mr. Shaw to finish the road. In confirmation of the statement, which was made, some time since, to that effect by Mr. Thompson, copies of those documents are appended hereto; the originals having been forwarded by the London Directors to this Board for their satisfaction.

Unfortunately, in consequence of the distrust which has arisen in Mr. Shaw's mind, and which is mainly attributable to the interpretation, which was put by the Executive, on the Facility Bill for the issue of Provincial debentures, in payment of shares in the Company, to be taken by the Province; and to certain rumours and false statements, which have been most industriously circulated both here and in England, to the prejudice of the Company for party purposes, he has since declined to carry out and perform his contract.

The delay which has arisen in the prosecution of the works from these causes, has been a constant source of anxiety, and a subject of deep regret to the Board.

In November last, the Government thought it necessary to appoint Commissioners to enquire into the transactions and the state of the affairs of the Company. The Directors afforded them every possible facility, and gave the fullest and most unreserved information on every point, although they do not acknowledge any right on the part of the Executive to demand it; both of which positions was handsomely recognised by the Attorney General, (one of the Commissioners,) in his place in the House of Assembly. An application has been made for a copy of the Commissioners' Report to the Executive Council, but it being considered a Government paper, the request has not been acceded to.

In order that no misapprehension should for the future exist as to the true meaning and intention of the Debenture Bond Act, and in order effectually to place the Company in the position, which, by that Act, it was expected they would assume; the Directors caused a short Bill, in explanation and in amendment of that Act, to be brought before the Legislature during the late Session. A clause, stipulating that a bona fide contract for the construction of the remainder of the line to Woodstock should be entered into, before any further issue of Debentures should take place; was insisted on and without which the Bill could not have been carried. Believing at the time that the contract with Shaw was safe, your Directors had no objection to this condition, and they felt it better to accept the Bill, even in that form, rather than have to oppose the Government on the question of the meaning and intention of the original Bill, before any further issue of Debentures could be looked for.

The Directors have now to announce to you, that the amended Bill, with the provision attached, has been passed, and received the Lieut. Governor's sanction; and therefore it is now law, and no further doubts and difficulties can be raised as to the issue of the Provincial Bonds in exchange for Class B shares. The Board are glad at the same time to inform you, that by the last advices from England, received here yesterday, the London Board assure us, that a contract has again been arranged and agreed to between themselves and a large contracting firm; the formal documents of which may be expected by an early mail.

It must be a subject of congratulation to the Shareholders in the Province generally, and has caused the liveliest satisfaction at the Board, to remark the unabated good opinion entertained by the Class A section of the Company in the undertaking; notwithstanding all the difficulties, delays and obstructions with which they, as well as this Board, have had to contend; and the firm determination displayed on the part of the Class A Directors to carry the work out to completion, as evidenced in their Report at the half yearly general meeting which took place in London in February last.

Although the Directors feel that nothing need be said, to confirm the belief in the unwavering determination of the London Board, they are glad to avail themselves of this opportunity to draw particular attention to a letter, which has been addressed by Mr. Sharpe, with the concurrence of his colleagues, to her Majesty's Secretary of State for the Colonies; not only, because it affords a direct proof of the correctness of their impressions as to the feelings of the London Board, but because it most strongly exemplifies the enlarged and comprehensive views, and sound practical knowledge of that Body.

Your Directors regret extremely that this document was not in their possession early enough to submit it to the legislature of the Province before the passing of the Government Bills for the Great Trunk Line.

The works undertaken by Mr. Myers are completed, and his contract has been brought to a close; the Board having, on the certificate and report of the Engineer, accepted the Line from his hands in October last. There is an acknowledged balance, at the present moment of £1968 16 1, due on the contract with Mr. Myers, for the whole of which sum, he has already issued orders on the Company; but the Directors have been unable to come to any final settlement with him, in consequence of his having sent in a claim for about £15,000 for alleged extra work, and for losses said to have been incurred by him, in consequence of alleged improper alterations in the location of the line. These claims, which the Board, however, do not for a moment apprehend, can be substantiated; have been referred to arbitration in accordance with the terms of the contract.

With the exception of this unsettled balance, due as above stated on the contract with Myers, the Directors are glad to assure you, that the only remaining outstanding liabilities against the Company, consist of a few claims for compensation for land damages to certain individuals, who refused to come into the otherwise universal agreement of all the land owners, to give a free right of way through their property; the whole of the other claims having been paid off, by Mr. Thompson, from the funds lately placed at his disposal by the London Board for that purpose.

The works between Katie's Cove and the Bar Road have suffered severely by the heavy gales during the winter, and it is most highly desirable to make the necessary repairs at that spot; as well

as to complete, without any delay, the laying of the track from the St. John's Road Crossing at Chain-cook, to the extent of the ten miles; so that, so much of the line may be in operation by the time, or, as soon after, as a contractor can arrive from England.

In order to effect these objects, and to enable the Directors to obtain an issue of Provincial Bonds directly the contract is signed, it is essential that the shareholders should promptly pay up their calls, now long since due; and the Directors earnestly hope this duty will now no longer be delayed, and that the Board may be relieved from the unpleasant task of enforcing payment.

In order to make the books of the Company tally with those of the Board in London, it was found necessary to make them up to the 31st December last past; and in order to avoid the inconvenience which arises from the two Companies striking their balance sheets on separate days, the books of this Company will, for the future, be closed and audited on the 30th of June and the 31st of December in each year.

Copy of Contract entered into between Wm. Shaw and the Board of Directors for
Class A Shareholders.

LONDON, JULY 18th, 1851.

I, WILLIAM SHAW, of Porto-bello, Wakefield, County of York, do hereby propose to execute the whole of the Works, and to provide the whole of the Materials, for a distance of Seventy Miles, (Viz: From the end of the Ten Miles, now in progress, to near Woodstock,) according to the Report of your Engineer, ALEXR. LIGHT, Esq. As regards the Ballasting of Permanent Way, Viz: Two Thousand Cubic Yards per Mile, and correspondent reduction of Earthwork for the same—and in all other respects according to the Plans and Specifications exhibited to me; for the sum of Two Thousand Three Hundred Pounds, sterling, per Mile.

As Witness my hand, this 18th day of July, 1851.

(Signed) WILLIAM SHAW

Accepted, this 24th day of August, 1851, by order
of the Board,

J. W. BYRNE,

Sec'y.

LONDON, August 21, 1851

I am willing to arrange the Contract as follows:—

To receive £100,000 sterling, as the work progresses and the Materials provided, and the balance of £61,000 to remain unpaid for five years after the works are finished, or such balance as may remain, after deducting the price of 10,000 acres of Land, which I agree to take—such balance to bear interest at the rate of ten per cent. per annum, to be paid half-yearly: The Company to give the Land, Timber, Life, and Stock, &c., as security for the balance, and if these securities are not sufficient for Mr. SHAW, the Directors to indemnify me from all loss: the Company to be permitted to redeem portions of this Land in lots of from one thousand acres and upwards, on payment to me at the rate of 10s. sterling per acre, and the Company to be allowed to cut the Timber, the proceeds to be appropriated to the liquidation of my debt.

(Signed) WILLIAM SHAW

HISTORY OF ALCOHOL.

Alcohol was invented 650 years ago, by the son of a strange woman, Hagar, in Arabia. Ladies used it with a powder, to paint themselves, that they might appear more beautiful, and this powder was called alcohol. During the reign of William and Mary, an act was passed encouraging the manufacture of Spirits. Soon after, profligacy prevailed to such an extent that the retailers in intoxicating drinks put up signs in public places informing the people that they can get drunk for a penny and have some straw to get sober on.

In the sixteenth century, distilled spirits spread over the continent of Europe. About this time it was introduced into the colonies as the United States were then called. The first notice we have of its use in public life was among labourers in the Hungarian mines in the 15th century. In 1751 it was used by the English soldiers as a cordial. The alcohol in Europe was made of grapes and sold in Italy and Spain as medicine.

The Genoese afterwards made it from grain and sold it as a medicine in bottles under the name of the water of life. During the reign of Henry the seventh, brandy was unknown in Ireland, but soon its alarming

effect induced the government to pass a law prohibiting its manufacture.

About one hundred and twenty years ago it was used as a beverage especially among the soldiers to the English colonies in North America under the preposterous notion that it prevented sickness and made men fearless on the field of battle. It was looked upon as a sovereign specific. Such is a brief sketch of the introduction of alcohol as a beverage. The history of it is written in wretchedness, the tears, the groans, poverty and murder of thousands. It has marched the land with the tread of a giant, leaving the impress of his footsteps in the bones, sinews and life blood of the people.

It is now forty years since the Freemasons of France had a grand master, the last who presided over them being Joseph Bonaparte, King of Spain, brother to the Emperor, since which time the order has been kept together under the control of various deputy grand masters. Prince Lucien Murat, cousin to the President of the Republic, and nephew to the late and last grand master of the order, has been elected unanimously to that high office. The ceremony of his installation in Paris was the occasion of brilliant display.

AGRICULTURE IN EUROPE.—Growned as England is with a hungry population, forty-five per cent. of her soil is not under cultivation. Yet the proportion of cultivated to uncultivated land, is higher in England than in any other country in Europe. In Russia, less than one-fifth of the soil is under cultivation; in Sweden, only one-seventh; in Austria and Holland, one-fifth; in Switzerland, one-fourth; in France, fifty-four hundredths. There is really no need of emigration. In England, as appears by a parliamentary report, there are sixteen millions of acres, wholly unproductive, that might easily be made productive. The reason why these acres are permitted to lie unimproved is that as soon as they are enclosed, and before they can be sufficiently reclaimed to produce a paying crop, they become subject to tithes and tax. Hence only men of large capital dare to undertake the task, and they prefer to invest their capital where the return is more speedy and more certain.

WHITE CLOVER.—We are satisfied that our farmers do not appreciate the white clover or white honey-suckle, as some call it, so highly as they ought, nor take so much pains as they should to cultivate it. In fact but very few

sow it, when they lay down their lands to FOUR DAYS LATER FROM CALIFORNIA.

The steamer Crescent City arrived at New York on Sunday last, bringing daises from Spain in a long time, for the low short stems San Francisco to the 5th of April. She has with her heads full of seeds, and these be, two million of dollars on freight, and \$600,000 come scattered out into the soil, and thus the 000 in the hands of the passengers, being the seed is kept in the ground and spring up largest amount ever brought by any previous wherever circumstances are favorable for its sowing. She had 500 passengers.

The mail boat for the Crescent City, on is congenial for it, and it this be dressed coming down the Chagres river, was sunk with an occasional dressing of plaster it will by striking a snag. The mails were rescued bring it out abundantly. It affords an excellent great difficulty. It is said that if the accident pasture for bees, the best honey in the cident had happened a few rods further down world being obtained by these little insects the river the mails and persons on the boat would have been inevitably lost.

Intelligence from the mines is cheering, especially cows from whose milk cheese is the late abundant rains having left a rich manufactured, as experiments have proved harvest for the diggers. That cows that graze upon this species of clover yield milk that contains casein, or cheesy than ever known before. Advices from the particles, in greater abundance than they do northern mines are equally encouraging, when fed on the common grasses. We throw snow has fallen on the mountains in immense these hints out for our readers to think of.—quantities.

The late floods in California have left a quantity of other grass seeds will be sufficient serious marks of their ravages. It is not for no, acre, and it can be obtained at reasonable prices at the agricultural seed stores: rivers have been damaged to an immense extent. [Agricultural Paper.]

European Intelligence.

FOUR DAYS LATER FROM ENGLAND.

The Steamer Pacific arrived at New York on Sunday afternoon, with Liverpool dates to the 21st April. She had 83 passengers, and £13,250 in English gold.

The Cotton market was lively, and Flour had slightly advanced.

On Monday both Houses of Parliament assembled. In the Commons, Mr. Haywood introduced a bill to amend the law relating to the appointment of a committee to examine into the East India Company's Charter, which was carried.

The House then went into committee on the Passenger Amendment Act. Mr. Herbert stated that the co-operation of the U. S. government was indispensable necessary to carry out the provisions of the act. Sir J. Pakington expressed a willingness on behalf of the government to communicate with the government of the United States on the subject. The clauses of the bill were then agreed to.

On Tuesday, in the House of Lords, the subject of the Maynooth College was discussed. The Earl of Derby stated that he had no intention of altering the existing laws on the subject.

In the Commons the Chancellor of the Exchequer stated that next week he would appoint a day for making his financial statement.

In the Court of Exchequer on Monday judgment was given against Alderman Selous; thus settling the point as to the eligibility to allow any but Christians in the house of commons.

On Saturday the Goldsmiths' corporation entertained the Ministry, and at the feast Lord Derby made a speech, in which he alluded in general terms to his mission, but without telling his intended measures.

A new line of steamers for Madeira and the coast of Africa is announced to commence on the 1st of September.

From Plymouth, it is said another sailing expedition is to be despatched to Melville Island, with a view of meeting those already in Bering's Straits.

FRANCE.—On Saturday the protest of the French Republic against the seizure of the estates of Nauilly and Moncaux, was heard before the court of the first instance, in Paris. The demand for the restitution of the property has been made in the name of the dukes Nemours, Joinville, Aumale and Montpensier, the duchess of Orleans and her son, the count de Paris, and other relatives of the house. Messrs. Poellier and Bettger were the counsel for the Orleans family; the prefect of the Seine on behalf of the president, against the jurisdiction of the court here.

The case stands adjourned till Friday.

The prefects of police are ordered not to send any more military exiles to Belgium, but to send them to England or Spain.

Prince Paul, of Wertheim, died at Paris on Thursday night. Marshal Gerard died on Saturday, aged 73.

The French budget shows a deficiency of 400,000 francs.

The Parisian coach builders are on a strike for the ten hours system.

STILL LATER.

The Royal Mail steamer Europa arrived at New York on Thursday evening last, with Liverpool dates to 24th April, 3 days later.

Frederic O'Connor, member of Parliament for Nottingham, came passenger in the Europa.

There is little general news of importance. Business in Manchester was steady. The Cotton market was firm at last quotations, but not buoyant.

Flour had advanced 61, and Corn 1s.

France continued tranquil.

Two hundred and thirty emigrants had been suffocated in a ship going from Madras to the Mauritius.

Seven hundred and fifty thousand pounds in gold had arrived in England from Australia.

The drought in England begins to excite a small alarm among the farmers regarding its effect upon the crops. They are beginning to feel exceedingly the want of rain for the last twenty years no such continued drought is recollected at this season.

Messrs. Edward Corbier and Chas. Levesseur, of Havre, have formed a company for the establishment of a line of French steamships to run between Havre and New York, in connection with the Franklin and Humboldt. They design to build three vessels of 2000 to 2200 tons each, with 1000 horse power engines. The plan is supported by the Havre Chamber of Commerce.

We learn from Smyrna that the pirates are beginning to reappear on the waters of the Levant. They have actually come up as far as the port of Smyrna in search of booty, which they have succeeded in carrying off in the teeth of an Austrian man of war. As the Austrian commerce suffers greatly from this scourge, a part of the war fleet, composed of a frigate and two corvettes, are to be sent thither shortly to make a cruise against these formidable pirates.

GERMANY.—The Central German Emigration Society complain that swindling emigration agents are inducing the Polish peasantry of Posen to leave their homes, by representing that the President of the United States has granted to Kossuth vast tracts of land for the purpose of settling on them.

The ship Huthah Salaim left Madrid Dec. 3, with 234 native emigrants for the Mauritius. During a gale on the 23d, the hatches were battered down, and every one perished from suffocation.

DISASTROUS CONFLAGRATION.

On Wednesday night last, at half-past ten o'clock, a fire was discovered in one of the outbuildings connected with the extensive steam mill situated in Carleton, the property of the Hon. John Robertson. In a very short time this erection was enveloped in flames, which were speedily communicated to the main building; and in one hour, all the spacious and commodious works, were a mass of burning ruins.

The large building, being Ribney wharf, the lower part of which is used as a warehouse, workshop and counting room, and the second story of which contains the dwelling apartments of Mr. Robert Blair, the engineer, and Mr. Hawkes one of the superintendents of the establishment, had a narrow escape, the roof having taken fire which by great exertion was extinguished by the Carleton engine.

Some time elapsed before steam could be got up in the ferry boat, lying as is usual on the eastern side of the harbour; when this was accomplished, the boat crossed the harbour, carrying over the City engines, which were soon set to work, and saved an immense amount of deals and other lumber.

Very fortunately the tide was up, when the fire broke out, and continued raising for about an hour and a half afterwards, thus conveniently furnishing a copious supply of water, to the suction hoses of the different engines. Had the accident occurred at low water, it is more than probable that the large building saved by the exertions of the Carleton fire company, would have been destroyed, and the fire would have extended from it to several square rigged vessels, which were being loaded, at the opposite side of the wharf. Indeed, it would be difficult to predict, what would have been the extent of the disaster, had it occurred when the tide was low.

The loss on the part of Mr. Robertson, we are happy to learn, is covered to a great extent by insurance. For a long period however, all manufacturing operations must be wholly suspended, and a large number of labouring men thrown out of employment.

Charles Johnson, Esq., High Sheriff of the City and County, was promptly on the spot, and we regret to learn that this gentleman was seen disabled, by a fall from a pile of deals, by which accident his leg was broken below the knee. Medical aid was promptly rendered, and we learn that he is doing as well as could be expected.—Chronicle.

MUNICIPAL ELECTIONS.—The election for Councilors took place in the several Parishes in this County on Tuesday, and as far as we can learn, throughout the whole, every thing was conducted with the most perfect order. The meeting in Woodstock was called to order by the Clerk at 9 o'clock, and L. P. Fisher, Esq., was elected to preside. Short but appropriate speeches were made by the several candidates on the occasion.—Carleton Sentinel.

The Municipal Council of Norwich, C. W., has resolved to allow no licence for the sale of intoxicating drinks. The tavern keepers are greatly distressed, and threaten delay, and, by way of retaliation, say they will accommodate no travellers, either for love or money.

The Law Commission, we understand, arranged; and the Government has certainly acted most judiciously in the appointments. The three nominated in the direct commission are—the Hon. Solicitor General, the Hon. Chas. Fisher, and James W. Chandler, Esq. To these are added, as *ex officio* members, and consequently acting without pay, the Hon. Attorney General and the Hon. Surveyor General.—[Reporter.]

The Rev. James Fortescue has been appointed General Superintendent of Schools for the Province. This appointment will also give general satisfaction; but must to those who know most of the talents, education and amiable deportment of the gentleman thus selected. The County Inspectors will not be appointed till the next sitting of the Council.—[lb.]

The fine new steamer "John Waring" arrived here yesterday afternoon from Woodstock, having made the trip in four hours and twenty five minutes. She is an extremely handsome boat, and her interior accommodations indicate the desire of her owner (Mr. George Connell) to make every thing comfortable in the interior. She is, as we intimated a week or two ago, commanded by Capt. Segee. She left to-day for St. John; we suppose to provide herself with a Register.—[lb.]

THE AMERICAN TARIFF QUESTION.—It is stated that the Committee on Ways and Means of the House of Representatives in Washington, regard with disfavor the petitions of the silk manufacturers who have prayed for a reduction or repeal of the duty on raw silk. The reason of this is stated to be, that if they set about liberating that article, they must, consistently, do the same with respect to others. This is feeble, yet perfectly consistent argument for protection in this case. It is the only one that could be used; for there is scarcely an industrial interest in the country more aggrieved by the government duty than the silk manufacture; this seems to be admitted on all hands. The silk manufacture, among others, is, as it were, a voice crying out from under the altar of Protection: "How long, gentlemen, how long?" and the proper answer might not come before next year, when these questions will be discussed in another spirit, and with reference to another course of policy, we hope.—[International Journal.]

THE EARTHQUAKE.—Four distinct shocks of the earthquake on Thursday were felt at Philadelphia, at the U. S. Arsenal, at intervals of about a second, the building vibrating S. E. and N. W., and the crash of the windows rattling before and after the shocks were perceptible.—[lb.]

[For the Standard.]

Mr. Editor, Sir,—It is matter of regret, that John Wilson, Esq., retired from the Board of Directors of the Saint Andrews and Woodstock Railroad Company, after many years unvalued and unrequited services in the management of that institution. It is notorious, that owing to his exertions, combined with his pecuniary means and great business talents, the affairs of the Company have been brought to their present position; that in fact, without his co-operation, which was at all times indefatigable, the Company would long since have been numbered with the things that were.

Mr. Wilson's retirement from the Board is deeply deplored by many who differ from him on other subjects. He carries with him the best wishes of a large mass of this community, whose prayers for his prosperity and future happiness will cease, only with his existence.

I am, Mr. Editor, ONE WHO KNOWS. St. Andrews, May 11, 1852.

THE STANDARD.

WEDNESDAY, MAY 12, 1852.

On Monday last, Lieut. Col. Murray was sworn in as Administrator of the Government of this Province, during the absence of His Excellency Sir Edmund Head.

Among the Provincial appointments, we notice the name of our respected townsman, James W. Chandler, Esq., as one of the Law Commissioners, an office which it is admitted he is eminently qualified to fill, from his high legal attainments and long standing at the Bar. This appointment will give general satisfaction, and we heartily join in congratulating Mr. Chandler on this mark of the Executive's appreciation of his talents.

We are, informed, upon good authority, that Mr. Needham will probably be Secretary to the Commission.

It is with feelings of much regret we give insertion to the following letter; regret, because we have known that Mr. Wilson has been from the very first the main spring by which the wheels of the Railroad Company have been set in motion. In years gone by, and even up to the present time, he has thought and written much upon the subject of the St. Andrews & Quebec Railroad, and his indomitable perseverance, and untiring exertions in pushing forward the work, are universally admitted. We well remember his successful efforts to revive the important undertaking when it was quite forgotten by some, and cared but little for by others. Mr. Wilson must have been gratified to hear the encomiums passed upon his exertions, at the Annual Meeting by members of the present Board of Directors and other Stockholders; and we assert, that the public generally regret his retirement from the Board, which would have been published in our last number had we been present when he stated that he resigned his office as a Director.—The present Directors, the majority of whom were Members of the Board last year, are gentlemen of energy and experience, and no doubt will, to the utmost of their power, push the work forward to completion. The following is Mr. Wilson's letter:—

[To the Editor of the Standard.]

CHAMCOOK, 10th May, 1852.

Sir,—Observing your report of the proceedings at the election of officers for the St. Andrews & Quebec Railroad Company on Tuesday last, I am not a little surprised at your omission to name my resignation as one of the Directors, which took place at the time the names were declared; and beg you will now do so by insertion of this in your next paper.

Your obt. Servt. JOHN WILSON.

William O. Smith, Esq., has been elected by the Common Council of St. John, Mayor of that City for the ensuing year.

BANKS.—We learn from St. John papers, that from statements laid before the Annual Meetings of the Stockholders of the Banks in that City, these institutions were found in a prosperous state. Thomas E. Milledge, Esq., has been re-elected President of the Bank of New Brunswick, with the Directors of the last year. Daniel J. McLaughlin, Esq., has also been re-elected President of the Commercial Bank, with the Directors of the previous year.

SEASIDE has now fairly set in. Thursday and Friday last, were as warm as July weather usually is. The trees are leafing out—the grass is springing, and looks well. Winter clothing has given way to articles of lighter texture; the swallow, and other birds, have

returned to our climate, and all Nature denotes that we are now in the midst of rosy May. Many of the farmers have taken advantage of the fine weather, and are busily ploughing, planting, and sowing.

We learn that Thomas B. Abbot, Esq., Barrister at Law, has been appointed a Justice of the Court of Common Pleas for the County of Charlotte.

MURDER IN THE EASTERN TOWNSHIPS.—On Friday night last, two men, named Kenneth McDonald and Kenneth McKenzie, laborers on the Railroad, were returning from Richmond, and were attacked by some three or four men. McDonald was knocked down, but subsequently made his escape, leaving McKenzie to his fate, whose cap, with a broken bludgeon, were found on the spot immediately after. The body of McKenzie is supposed to have been thrown into the river, which runs near the road. Four men have since been arrested on suspicion, and an investigation is now going on at Melbourne, before Major Johnson.—[Montreal Herald.]

HORSE-WHIPPING AN OFFICER.—On the 16th instant, Mr. Ord, Lieutenant 71st Regiment, preferred a complaint before the Recorder of Toronto against Mr. J. Lyons, tobacconist, for having assaulted him in the street. It appeared from the complainant's evidence that he was walking down King street, when he was called by his name, and received two or three smart strokes with a whip. He gave no provocation, and in cross-examination said he did not hear Mr. Lyons say "now you little whelp, for your impudence to me yesterday, I will flog you." The assault was admitted, but on the part of Mr. Lyons it was alleged, that he had ample provocation for what he did. This provocation Mr. Ord on being requested to do so explained as follows:—

On Wednesday morning last, while the officers were at breakfast in the mess-room, he had occasion to go out, and at the door of the room he found Mr. Lyons standing, obstructing the passage. This being a very unusual place for a stranger to stand, complainant asked him what he wanted there? to which Mr. Lyons replied that he wished to see Mr. Overhouse. Complainant then told him to go outside the hall and wait there. Complainant also observed, that Mr. Lyons was a nuisance to the officers. Mr. Lyons said that he would not leave on any one's orders but the Major's. Mr. Ord then sent his servant with orders to the corporal at the sentry door to come and put the defendant out, which was accordingly done.

Mr. Garnett fined the defendant 50c, observing he would have inflicted a greater punishment if Mr. Ord's conduct had not been hasty. The decision was appealed against on the part of Mr. Lyons.—(Quebec Morn. Chron.)

LAKE ST. PETER.—The works on this Lake are to be immediately recommenced. The Commissioners have purchased two additional steamers and an additional steam-dredge, in order to prosecute them with vigour.

STEAM AND RAILWAY.—One of the best examples of the facilities for intercommunication with which modern science has endowed the world was yesterday afforded by the desert at the St. Lawrence Hall. We had the pleasure of partaking of banquets from the West Indies, and placed on the table fourteen days before, and placed on the table in excellent condition. This is a degree of speed in the transit of goods hitherto unexampled, and will enable our citizens to avail themselves of the perishable but delicious produce of the intertropical latitudes notwithstanding our frosts and snow, in condition almost as fine as that in which they appear on Creole tables.

The steamers are now actively employed on the river between this City and St. John, and between Fredericton and Woodstock.—The first that arrived here after the opening of the navigation was the Carleton from Woodstock, on Thursday last. On Friday morning the Forest Queen arrived from St. John, followed by the Reindeer in the evening, and from hence she proceeded with passengers and freight to Woodstock on Saturday morning. The St. John made her first appearance on Sunday afternoon, and the Union last evening, the latter starting for Woodstock this morning. The John Warren, a new boat built at Woodstock, is expected here this evening, which, together with the Anna Augusta, yet to arrive, and the above named steamers, there is reason to believe will afford ample convenience and accommodation to those who may be inclined to travel. The Forest Queen, Anna Augusta, Saint John, Reindeer, and Union, belong to Messrs. Hatheway & Small, who are also owners of the Creole, plying between the City of St. John and Boston. The John Warren and Carleton belong to George Connell, Esq. of Woodstock.—[Head Quarters.]

From late English papers.

A telegraphic despatch from Vienna says the persecutions against the mother and sisters of Kossuth have been stopped, and they are to be allowed to come to America.

The Vienna Lloyd's contradicts the statement that a conference is to be held in London respecting the Danish succession. That matter, it says, is settled.

The cholera has again broken out in Persia.

The arrangements for establishing a Crystal Palace in Paris are going on with slowness. Extensive preparations are also being made for the grand fête on the 10th May.

The "Patrie" announces officially that the President has no intention of proclaiming the Empire.

Flax planting is going on extensively in the north of Ireland.

The Peruvian Legation at London cautions all vessels against proceeding to the Island of Lobos de Guerra and Lobos de Fuera, for guano, without permission from the Peruvians, under penalty of confiscation.

THREATENING THE LIFE OF HER MAJESTY.—A woman, named Elizabeth Hunt, was charged, at Bow-street police court, with having used threatening language with regard to the Queen.

It appeared that the prisoner was formerly an inmate of St. Luke's Hospital, but was discharged some time ago as cured and quite sane. On Thursday night, Inspector Walker, a division, saw her walking about in front of Buckingham Palace, and apparently in a very excited state.

He accosted her, and all that she would say was that "she wanted the life of the Queen, and would have it by some means." He then took her into custody, and on searching her found a large knife concealed in her bosom.

The prisoner, who was evidently a lunatic, said nothing in her defence, and Mr. Henry sent for the relieving officer of the Strand Union, and desired him to take care of her until Wednesday, when he would have an order made out for her consignment to an asylum. The prisoner was then removed.

CALIFORNIA ITEMS.

At Ballistic a party had turned up a lump of nearly pure gold, weighing thirty six pounds.

A war of extermination has been declared by the whites on the Ciamath against the aborigines. A crowd of settlers and miners had surrounded two lodges at Indian Ferry, on the Ciamath, and shot all the men and several squaws, and destroyed the ranch. Some thirty or forty Indians were killed in this affair, and their squaws and children were roaming about begging for bread.

A Mexican, named Carlos Isbelzy, was hung at Mokelumne Hill, on the 13th of April, by the vigilance committee, for theft.

FRONTIER.—The whaling-barque Hesper was spoken in the Gulf of Guayaquil, with 600 tons, sperm oil. This vessel reported that Gen. Flores had succeeded in entering the Guayaquil river with the British steamer Chile and the brig of war Albatross. Blanco and one other war brig. On reaching the city of Guayaquil, a decided demonstration appeared in favor of Flores and the soldiers of Ecuador. Government spiked their own guns, to prevent their being used against the invaders.

Flores succeeded in taking the city without any opposition. The majority of his troops were Europeans and Peruvians, and there appears to be no doubt that he was but an agent of the Peruvian government, and Ecuador will be annexed to Peru. Flores, it is said, will now be appointed Vice President of Peru.

Another account of Flores' movements, published in a Panama paper, contradicts the above in all essential particulars, and that he has made any attack upon the city of Guayaquil.

SANDWICH ISLANDS.—Dates from Honolulu are to the 15th of March. The papers are filled with accounts of the grand eruption of Mauna Loa, a mountain on the Island of Hawaii. At the last dates from there, the quantity of lava thrown up had not decreased. The altitude of the eruption was 10,000 feet above the level of the sea, and the jet of burning lava was estimated to be 500 feet high. A large number of persons had gone from Honolulu to witness the scene.

We understand that His Excellency the Lieutenant Governor and Lady Head and family are expected to arrive in town this evening from Head Quarters, and will proceed to Halifax on Monday, by way of Windsor, to take passage for England in the Royal Mail Steamer Niagara on Friday next.

A meeting of the Executive Council will be held in this City on Tuesday, when Colonel FREEMAN MURRAY, of the 72d Regiment will take the oath of office as Administrator of the Government during the absence of Sir EDMUND HEAD.—Courier.

ROYAL MAIL STAGE.

Between St. Andrews and St. John.

THE Subscriber, having Contracted with the

Post Office Department to carry the MAIL,

has commenced running a STAGE from St. An-

draws to St. John, according to the following ar-

rangements, viz:—

Leaving Saint Andrews, every day at 12 noon,
(Sundays excepted); and Saint John every day,
at 10 o'clock A. M. (Sundays excepted).

The well known disposition of the Subscriber,

who, for many years, was upon this Mail route,

to give every attention to the Comfort and Con-

venience of Passengers, will be strictly ac-

companied in the Mail Arrangements between this City and St. Andrews; viz:

Mails for St. Andrews, &c., will close at this Of-

fice at 10 o'clock A. M. daily, Sundays excepted;

and the Mails from St. Andrews, &c., will leave

this Office daily, Sundays excepted, at about

noon, or as soon as possible after the arrival of

the Mails from the United States.

J. HOWE,
Postmaster General.

General Post Office—
St. John, 22d Jan. 1852.

WHISKY.

Per "Sophia," from Greenock.

European Intelligence

FOUR DAYS LATER FROM ENGLAND

The Steamer Pacific arrived at New York on Sunday afternoon, with Liverpool dates to the 21st April. She had 83 passengers, and £13,250 in English gold.

The Cotton market was lively, and Flour had slightly advanced.

On Monday, both Houses of Parliament assembled. In the Commons, Mr. Haywood intimated that he would postpone his motion respecting the fate of the crystal palace until the 29th. A long and important debate ensued on a motion by Mr. Herries for the appointment of a committee to examine into the East India Company's Charter, which was carried.

The House then went into committee on the Passenger Amendment Act. Mr. Herbert stated that the co-operation of the U.S. government was indispensable necessary to carry out the provisions of the act. Sir J. Pakington expressed a willingness on behalf of the government to communicate with the government of the United States on the subject. The clauses of the bill were then agreed to.

On Thursday, in the House of Lords, the subject of the Maynooth College was discussed. The Earl of Derby stated that he had no intention of altering the existing laws on the subject.

In the Commons the Chancellor of the Exchequer stated that next week he would appoint a day for making his financial statement.

In the Court of Exchequer on Monday, judgment was given against Allerman Salomons; thus settling the point as to the eligibility to allow any but Christians in the house of commons.

On Saturday the Goldsmiths' corporation entertained the Ministry, and at the feast Lord Derby made a speech, in which he alluded in general terms to his mission, but without telling his intended measures.

A new line of steamers for Madeira and the coast of Africa is announced to commence on the 1st September.

From Plymouth, it is said, another sailing expedition is to be despatched to Melville Island, with a view of meeting those already in floating straits.

In France.—On Saturday the priest of Lyons in behalf of the heirs of Louis Philippe, against the confiscation of the estates of Neully and Moncaux, was heard before the court of the first instance, in Paris.—The demand for the restitution of the property has been made in the name of the dukes Nemours, Joinville, Aumale and Montpensier, the duchess of Orleans and her son, the count de Paris, and other relatives of the house. Messrs. Pisselot and Betyer were the counsel for the Orleans family; the prefect of the Seine on behalf of the president, against the jurisdiction of the court here.—The case stands adjourned till Friday.

The prefects of police are ordered not to send any more military exiles to Belgium, but to send them to England or Spain.

Prince Paul, of Wertheimberg, died at Paris on Thursday night. Marshal Gerard died on Saturday, aged 79.

The French budget shows a deficiency of 400,000 francs.

The Persian coach builders are on a strike for the ten hours system.

STILL LATER

The Royal Mail steamer Europa arrived at New York on Thursday evening last, with Liverpool dates to 24th April, 3 days later. Feargus O'Connor, member of Parliament for Nottingham, came passenger in the Europa.

There is little general news of importance. Business in Manchester was steady. The Cotton market was firm at last quotations, but not buoyant.

Flour had advanced 61. and Corn 1s. France continued tranquil.

Two hundred and thirty emigrants had been suffocated in a ship going from Madras to the Mauritius.

Seven hundred and fifty thousand pounds in gold had arrived in England from Australia.

The drought in England begins to excite no small alarm among the farmers regarding its effect upon the crops. They are beginning to feel exceedingly the want of rain—for the last twenty years no such continued drought is recollected at this season.

Messrs. Edward Corbier and Chas. Levasseur, of Havre, have formed a company for the establishment of a line of French steamships to run between Havre and New York, in connection with the Franklin and Humboldt. They design to build three vessels of 2000 to 2200 tons each, with 1000 horse power engines. The plan is supported by the Havre Chamber of Commerce.

We learn from Smyrna that the pirates are beginning to reappear on the waters of the Levant. They have actually come up close to the port of Smyrna in search of booty, which they have succeeded in carrying off in the teeth of an Austrian man of war. As the Austrian commerce suffers greatly from this scourge, a part of the war fleet, composed of a frigate and two corvettes, are to be sent thither shortly to make a crusade against these formidable pirates.

GERMANY.—The Central German Emigration Society complain that swindling emigration agents are inducing the Polish peasantry of Posen to leave their homes, by representing that the President of the United States has granted to Kosuth vast tracts of land for the purpose of settling on them.

The ship Hattah Salama left Madrid Dec. 3, with 224 native emigrants for the Mauritius. During a gale on the 23d, the hatches were battened down, and every one perished from suffocation.

DISASTROUS CONFLAGRATION.

On Wednesday night last at half past ten o'clock, a fire was discovered in one of the outbuildings connected with the extensive establishment situated in Carleton place, property of the Hon. John Robertson. In a very short time this erection was enveloped in flames, which were speedily communicated to the main building; and in one hour, all the spacious and commodious works, were a mass of burning ruins.

The large building, facing Robbey wharf, the lower part of which is used as a warehouse, workshop and counting room, and the second story of which contains the dwelling apartments of Mr. Robert Blair, the engineer, and Mr. Haykes one of the superintendents of the establishment, had a narrow escape, the roof having taken fire which by great exertion was extinguished by the Carleton engine.

Some time elapsed before steam could be got up in the ferry boat, lying as is usual on the eastern side of the harbour; when this was accomplished, the boat crossed the harbour, carrying over the City engines, which were soon set to work, and saved an immense amount of tools and other lumber.

Very fortunately the tide was up, when the fire broke out, and continued raising for about an hour and a half afterwards, thus conveniently furnishing a copious supply of water, to the suction hoses of the different engines. Had the accident occurred at low water, it is more than probable that the large building saved by the exertions of the Carleton fire company, would have been destroyed, and the fire would have extended from it to several square rigged vessels which were being loaded, at the opposite side of the wharf. Indeed, it would be difficult to predict, what would have been the extent of the disaster, had it occurred when the tide was low.

The loss on the part of Mr. Robertson, we are happy to learn, is covered to a great extent by insurance. For a long period, however, all manufacturing operations must be wholly suspended, and a large number of labouring men thrown out of employment.

Charles Johnson, Esq., High Sheriff of the City and County, was promptly on the spot, but we regret to learn that this gentleman was soon disabled by a fall from a pile of goods, by which accident his leg was broken below the knee. Medical aid was promptly rendered, and we learn that he is doing as well as could be expected. Chronicle.

MUNICIPAL ELECTIONS.—The election for Councilors took place in the several Parishes in this County on Tuesday, and as far as we can learn, throughout the whole, everything was conducted with the most perfect order. The meeting in Woodstock was called to order by the Clerk at 9 o'clock, and L. P. Fisher, Esq., was elected to preside. Short but appropriate speeches were made by the several candidates on the occasion. Chronicle.

The Municipal Council of Norwich, C. W., has resolved to allow no licence for the sale of intoxicating drinks. The tavern keepers are greatly distressed, and threaten defiance, and, by way of retaliation, say they will accommodate no travellers, either for love or money.

The Law Commission is, we understand, arranged; and the Government has certainly acted most judiciously in the appointments. The three nominated in the direct commission are—the Hon. Salisbur General, the Hon. Chas. Fisher, and James W. Chandler, Esq. There are added, as ex officio members, and consequently acting without pay, the Hon. Attorney General and the Hon. Surveyor General. [Reporter.]

The Rev. James Porter has been appointed General Superintendent of Schools for the Province. This appointment will also give general satisfaction; but most to those who know most of the talents, education and amiable deportment of the gentleman thus selected. The County Inspectors will not be appointed till the next sitting of the Council. [H.]

"The fine new steamer John Waring" arrived here yesterday afternoon from Woodstock, having made the trip in four hours and twenty five minutes. She is an extremely handsome boat, and her interior accommodations indicate the desire of her owner (Mr. George Connell) to make every thing comfortable in the interior. She is, as we intimated a week or two ago, commanded by Capt. Segee. She left today for St. John; we suppose to provide herself with a Register. [H.]

THE AMERICAN TARIFF QUESTION.—It is stated that the Committee of Ways and Means of the House of Representatives at Washington, regard with disfavor the petitions of the silk manufacturers who have prayed for a reduction or repeal of the duty on raw silk. The reason of this is stated to be, that if they set about liberating that article, they must, consistently, do the same with respect to others. This is feeble, yet perfectly consistent argument for protection in this case. It is the only one that could be used; for there is scarcely an industrial interest in the country more aggrieved by the government duty than the silk manufacture; this seems to be admitted on all hands. The silk manufacture, among others, is, as it were, a voice crying out from under the altar of Protection: "How long, gentlemen, how long?" and the proper answer might now come before next year, when these questions will be discussed in another spirit, and with reference to another course of policy, we hope. [International Journal.]

THE EARTHQUAKE.—Four distinct shocks of the earthquake on Thursday were felt at Philadelphia, at the U. S. Arsenal, at intervals of about a second, the building vibrating S. E. and N. W., and the crash of the windows rattling before and after the shocks were perceptible. [H.]

ONE WHO KNOWS.

THE STANDARD.

WEDNESDAY, MAY 12, 1852.

On Monday last, Lieut. Col. Murray was sworn in as Administrator of the Government of this Province, during the absence of His Excellency Sir Edmund Head.

Among the Provincial appointments, we notice the name of our respected townsman, James W. Chandler, Esq., as one of the Law Commissioners, an office which is admitted to be eminently qualified to fill, from his high legal attainments and long standing at the Bar. This appointment will give general satisfaction, and we heartily join in congratulating Mr. Chandler on this mark of the Executive's appreciation of his talents.

We are informed, upon good authority, that Mr. Needham will probably be Secretary to the Commission.

It is with feelings of much regret we give insertion to the following letter; regret, because we have known that Mr. Wilson has been from the very first the main spring by which the wheels of the Railroad Company have been set in motion. In years gone by, and even up to the present time, he has thought, and written much upon the subject of the St. Andrews & Quebec Railroad; and his indomitable perseverance, and untiring exertions in pushing forward the work, are universally admitted. We will remember his successful efforts to revive the important undertaking when it was quite forgotten by some, and cared but little for by others.

Mr. Wilson must have been gratified to hear the encomiums passed upon his exertions, at the Annual Meeting by members of the present Board of Directors and other Stockholders; and we assert, that the public generally regret his retirement from the Board, which would have been published in our last number had we been present when he stated that he resigned his office as a Director.

The present Directors, the majority of whom were Members of the Board last year, are gentlemen of energy and experience, and no doubt will, to the utmost of their power, push the work forward to completion. The following is Mr. Wilson's letter:—

[To the Editor of the Standard.]

CHANCECOCK, 10th May, 1852.

Sir,—Observing your report of the proceedings at the election of officers for the St. Andrews & Quebec Railroad Company, on Tuesday last, I am not a little surprised at your omission to name my resignation as one of the Directors, which took place at the time the names were declared; and beg you will now do so by insertion of this in your next paper.

Your obdt. Servt.

JOHN WILSON.

William O. Smith, Esq. has been elected by the Common Council of St. John, Mayor of that City for the ensuing year.

BANKS.—We learn from St. John papers, that from statements laid before the Annual Meetings of the Stockholders of the Banks in that City, these institutions were found in a prosperous state. Thomas E. Milledge, Esq. has been re-elected President of the Bank of New Brunswick, with the Directors of the last year. Daniel J. McLaughlin, Esq. has also been re-elected President of the Commercial Bank, with the Directors of the previous year.

SPRING has now fairly set in. Thursday and Friday last, were as warm as July weather usually is. The trees are leafing out—the grass is springing, and looks well. Winter clothing has given way to articles of lighter texture: the swallow; and other birds, have

returned to our climate, and all Nature denotes that we are now in the midst of rosy May. Many of the farmers have taken advantage of the fine weather, and are busily ploughing, planting, and sowing.

We learn that Thomas B. Abbot, Esq., Barrister at Law, has been appointed a Justice of the Court of Common Pleas for the County of Charlotte.

MURDER IN THE EASTERN TOWNSHIPS.—On Friday night last, two men, named Kenneth McDonald and Kenneth McKenzie, laborers on the Railroad, were returning from Richmond, and were attacked by some three or four men. McDonald was knocked down, but subsequently made his escape, leaving McKenzie to his fate, whose cap, with a broken bludgeon, were found on the spot immediately after. The body of McKenzie is supposed to have been thrown into the river, which runs near the road. Four men have since been arrested on suspicion, and an investigation is now going on at Melbourne, before Major Johnson. [Montreal Herald.]

HORSEWHIPPING AN OFFICER.—On the 16th instant, Mr. Ord, Lieutenant 71st Regiment, preferred a complaint before the Recorder of Toronto against Mr. J. Lyons, tobaccoist, for having assaulted him in the street. It appeared from the complainant's evidence that he was walking down King street, when he was called by his name, and received two or three smart strokes with a whip. He gave no provocation, and in cross-examination said he did not hear Mr. Lyons say "now you little whelp, for your impudence to me yesterday, I will flog you." The assault was admitted, but on the part of Mr. Lyons it was alleged, that he had ample provocation for what he did. This provocation Mr. Ord on being requested to do so explained as follows:—

On Wednesday morning last, while the officers were at breakfast in the mess-room, he had occasion to go out, and at the door of the room he found Mr. Lyons standing, obstructing the passage. This being a very unusual place for a stranger to stand, complainant asked him what he wanted there, to which Mr. Lyons replied that he wished to see Mr. Myerhouse. Complainant then told him to go outside the hall and wait there. Complainant also observed, that he, Mr. Lyons, was a nuisance to the officers. Mr. Lyons said that he would not leave on any one's orders but the Major's. Mr. Ord then sent his servant with orders to the corporal of the sentry box to come and put the defendant out, which was accordingly done.

Mr. Burnett fined the defendant 50s. observing he would have inflicted a greater punishment if Mr. Ord's conduct had not been hasty. The decision was appealed against on the part of Mr. Lyons. [Quebec Morning Chron.]

LAKE ST. PETER.—The works on this Lake are to be immediately recommenced. The Commissioners have purchased two additional steamers and an additional steam-dredge, in order to prosecute them with vigor.

STEAM AND RAILWAY.—One of the best examples of the facilities for intercommunication with which modern science has endowed the world was yesterday afforded by the desert at the St. Lawrence Hall. We had the pleasure of partaking of bananas from the West Indies, cut from the trees only fourteen days before, and placed on the table in excellent condition. This is a degree of speed in the transit of goods hitherto unexampled, and will enable our citizens to avail themselves of the perishable but delicious produce of the intertropical latitudes notwithstanding our frosts and snow, in condition almost as fine as that in which they appear on Creole tables.

The steamers are now actively employed on the river between this City and St. John, and between Fredericton and Woodstock.—The first that arrived here after the opening of the navigation was the Carleton from Woodstock, on Thursday last. On Friday morning the Forest Queen arrived from St. John, followed by the Reindeer, in the evening, and from hence she proceeded with passengers and freight to Woodstock on Saturday morning. The St. John made her first appearance on Sunday afternoon, and the Union last evening, the latter starting for Woodstock this morning. The John Warren, a new boat built at Woodstock, is expected here this evening, which, together with the Anna Augusta, yet to arrive, and the above named steamers, there is reason to believe will afford ample convenience and accommodation to those who may be inclined to travel. The Forest Queen, Anna Augusta, Saint John, Reindeer, and Union, belong to Messrs. Hatheway & Small, who are also owners of the Creole, plying between the City of St. John and Boston. The John Warren and Carleton belong to George Connell, Esq. of Woodstock. [Head Quarters.]

From late English papers.

A telegraphic despatch from Vienna says the persecutions against the mother and sisters of Kosuth have been stopped, and they are to be allowed to come to America.

The Vienna Lloyd's contradicts the statement that a conference is to be held in London respecting the Danish succession. That matter, it says, is settled.

The cholera has again broken out in Persia.

The arrangements for establishing a Crystal Palace in Paris are going on with alacrity. Extensive preparations are also being made for the grand fete on the 10th May.

The Patrie announces officially that the President has no intention of proclaiming the Empire.

Flax planting is going on extensively in the north of Ireland.

The Peruvian Legation at London cautions all vessels against proceeding to the Islands of Lobos de Guerra and Lobos de Fuera, for guano, without permission from the Peruvians, under penalty of confiscation.

THREATENING THE LIFE OF HER MAJESTY.—A woman, named Elizabeth Hunt, was charged, at Bow-street police court, with having used threatening language with regard to the Queen.

It appeared that the prisoner was formerly an inmate of St. Luke's Hospital, but was discharged some time ago as cured and quite sane. On Thursday night, Inspector Walker, A Division, saw her walking about in front of Buckingham Palace, and apparently in a very excited state.

He accosted her, and all that she would say was that "she wanted the life of the Queen, and would have it by some means." He then took her into custody, and on searching her found a large knife concealed in her bosom.

The prisoner, who was evidently a fanatic, said nothing in her defence, and Mr. Henry sent for the relieving officer of the Strand Union, and desired him to take care of her until Wednesday, when he would have an order made out for her confinement to an asylum. The prisoner was then removed.

CALIFORNIA ITEMS.

At Ballerina a party had turned up a lump of nearly pure gold, weighing thirty six pounds.

A war of extermination has been declared by the whites of the Clamath against the aborigines. A crowd of settlers and miners had surrounded two lodges at Indian Ferry, on the Clamath, and shot all the men and several squaws, and destroyed the ranch. Some thirty or forty Indians were killed in this affair, and their squaws and children were roaming about begging for bread.

A Mexican, named Carlos Escobar, was hung at Mokelumne Hill, on the third of April, by the vigilance committee, for theft.

FRONT PAPER.—The whaling barque Hesper was spoken in the Gulf of Guayaquil, with 600 lbs. sperm oil. This vessel reported that Gen. Flores had succeeded in entering the Guayaquil river with the British steamer Chile and the brig of war Almarante Blanco and one other war brig. On reaching the city of Guayaquil, a decided demonstration appeared in favor of Flores and the soldiers of Ecuador. Government spiked their own guns, to prevent their being used against the invaders.

Flores succeeded in taking the city without any opposition. The majority of his troops were Europeans and Peruvians, and there appears to be no doubt that he was but an agent of the Peruvian government, and Ecuador will be annexed to Peru. Flores, it is said, will now be appointed Vice President of Peru.

Another account of Flores' movements, published in a Panama paper, contradicts the above in all essential particulars, and that he has made any attack upon the city of Guayaquil.

SANDWICH ISLANDS.—Dunes from Honolulu are, to the 15th of March. The papers are filled with accounts of the grand eruption of Mauna Loa, a mountain on the island of Hawaii. At the last dates from there, the quantity of lava thrown up had not decreased. The altitude of the eruption was 10,000 feet above the level of the sea, and the jet of burning lava was estimated to be 500 feet high. A large number of persons had gone from Honolulu to witness the scene.

We understand that His Excellency the Lieutenant Governor and Lady Head and family are expected to arrive in town this evening from Head Quarters, and will proceed to Halifax on Monday, by way of Windsor, to take passage for England in the Royal Mail Steamer Niagara on Friday next.

A meeting of the Executive Council will be held in this City on Tuesday, when Colonel Fitzhugh Murray, of the 72d Regiment will take the oath of office as Administrator of the Government during the absence of Sir Edmund Head.—Courier.

MARRIAGES.

At Boston, on the 3d inst. by the Revd. Dr. Neale, Mr. EPHRAIM WILLARD, to Miss OLIVE JANE CLARKE.

BY AUTHORITY.

CROWN LAND OFFICE, May 4, 1852.

THE undermentioned Lots of Crown Lands will be offered for sale by Public Auction, on Tuesday the fourth day of May next, at noon, by the respective Deputies at their Offices, agreeably to the Regulations of 11th May, 1845, and no sale on credit will be made to any person who is indebted to the Crown for previous purchases.

Purchasers will not be allowed to interfere with the right to cut Timber or other Lumber on these Lots under application already made.

No price is allowed to hold more than one hundred acres payable by instalments.

CHARLOTTE.

By Deputy Mahood, at St. Andrews, 80 acres on McDougall's Lake, 60 acres on Seely's Brook, 50 acres on Seely's Brook, 160 acres on McDougall's lake stream.

As surveyed by Deputy Mahood, improved by Daniel Gibbon, 70 acres on Piskahagan River, north of Moses Shaw, John McColl.

St. Andrews, Nov. 5, 1851.

ODELL & TURNER.

ST. JOHN NURSERY.

J. HARRIS has just received from Lon-
don, via Boston, a good collection of
GARDEN SEEDS.
Farmers and Gardeners would do well to have
these Seeds, as they are excellent samples, and
many of the kinds are of new and improved qual-
ities. At this Nursery the variety of TREES,
PLANTS, SHRUBS, ROOTS, SEEDS, &c.
are extensive, particularly the BERRIES, of
these J. H. has about 20 new kinds of a novel
character, blended with perfection—a desidera-
tum gained after 25 years' incessant perseverance.
Every thing suitable for the Kitchen, Fruit,
and Flower Garden, will be sent to order.

PUBLIC NOTICE.

I HEREBY CAUTION all persons from either
purchasing or negotiating five certain Notes
of Hand, drawn by me and made payable to one
Joseph P. Hay, as follows:—one made payable
for twenty-five Pounds, in November 1851; one
for twenty-five Pounds, payable in November
1852; one for twenty-five Pounds, payable No-
vember 1-53; one for twenty-five Pounds, pay-
able in November 1854; one for twenty-five
Pounds, payable in November 1855; said notes
being given to said Joseph P. Hay for a certain
house and piece of Land, wherein the said Joseph
P. Hay has no title whatever; therefore there has
been no value received for said notes, and I will
not pay them.

I also caution all persons from purchasing a
certain note of hand, drawn by me in favor of
Susan Sawyer, for six Pounds five shillings, pay-
able on demand in 1850, having received no value
whatever for said note.
JOHN MITCHEL.

ROYAL MAIL STAGE.

Between St. Andrews and St. John.

THE Subscribers, having Contracted with the
Post Office Department to carry the MAIL,
have commenced running a STAGE, from St. An-
drews to St. John, according to the following ar-
rangement, viz:—

Leaving Saint Andrews, every day at 12 noon,
(Sundays excepted); and Saint John every day,
at 10 o'clock, A. M. (Sundays excepted).

The well known disposition of the Subscriber,
who, for many years, was upon this Mail route,
to give every attention to the Comfort and Con-
venience of Passengers, will, he trusts, secure
him a full share of Public patronage.

The Stage Books will remain open at Mr. Brad-
ford's Temperance Hotel, St. Andrews and at the
St. John Hotel, St. John's.

GEORGE CHRISTIE,
St. Andrews; Feb. 2, 1852.

Notice to the Public.

A CHANGE having been made at Robinson
in the arrival and departure of the United
States Mails, in consequence of which the Mails
from this Office do not reach St. Andrews in time
for direct transmission to the United States—the
following change, commencing on Friday, the
25th instant, will be made in the Mail Arrange-
ments between this City and St. Andrews: viz,
Mails for St. Andrews, &c., will close at this Of-
fice at 11.0, A. M., daily, SUNDAYS excepted;
and the Mails from St. Andrews, &c., will leave
that Office daily, SUNDAYS excepted, at about
noon, or as soon as possible after the arrival of
the Mails from the United States.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting

of Blood, Night Sweats, Asthma,

Liver Complaints, and

CONSUMPTION.

DO NOT NEGLECT IT.

CONSUMPTION

Can be and has been cured in thousands of cases by this only certain remedy.

30 drops of CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

and no remedy has ever before been discovered that will certainly

CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever.

It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by excretion, producing a most delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind-sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE

persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pains in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

Caution.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINEMENT

For the cure of Founder, Split Hoof, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh, Galled Backs, Cracked Heels, Scorchings, Cuts, Kicks, &c., on horses.

CARLTON'S RING BONE CURE.

For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS

FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Ileaves, Worms, Boils, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. Remember and ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,

and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthens weak limbs, and is also used for sprains, bruises, saddle galls, swollen legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, livery men, stage proprietors and others, with the most marked and decided success.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used, it effectually eradicates Worms from both adults and children. It cannot harm the most delicate infant of strongest adult; and never fails to complete, if root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.

RHEUMATISM.

Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, strengthen Weak Limbs, and enables those who are crippled to walk again. Comstock & Brother, Proprietors, New York and none genuine without their name on the wrapper.

TOOTHACHE.

DR. KLINE'S Drops, for the cure of the Toothache.

It is with confidence that we can recommend and so infallible cure in all cases, without injury to the teeth of gums. Price 25 cts. CARLTON'S LINIMENT FOR THE EYES &c.

It is now used in the Protestant Hospital, and in the Dispensary in our country, by an immense number of individuals and families, first and most certainly for the cure of the EYES, and also extensively and effectually as to bulble credibly unless where its effects are witnessed. Entirely in the following complaints:—

For Dropsy. A retching extraordinary absorption of water. Swellings. Reddening then in a few hours. Rheumatism. Acute or Chronic, giving immediate ease. Sore Throat. In Canals, Ulcers, or Glands. Croup and Whooping Cough. Asthma and over the chest. All Brashes, Sprains, and Burns, Curing in a few hours. Sores and Ulcers. Whether fresh or long standing, and feverish sores.

In operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception.

CAUTION.—All of the above named articles are sent only New York by Comstock & Brother, No. 9, John Street, New York, from London by

S. J. Allen, St. Andrews, by Odell & Turner, D. G. Allen, S. L. Bailey, St. John, L. Taylor, S. J. Allen, J. W. Brantley, Fredericton, B. Patterson, Woodstock; G. Spear, Robbinston; also by our Agents in every Town in New Brunswick. Enquire for Comstock's Almanac for 1852 which is given gratis.

St. Andrews, June 17, 1851.

FRUIT TREES.

THE NURSERY and ORCHARD of the Subscriber, consisting of nearly Forty Thousand

Trees, are now offered for the inspection of the Public and for sale. Persons planning these Trees may be assured of success, as every possible precaution has been used in the selection of varieties, all that have not proved hardy, have been at once discarded, and those which have not yet fruited have been propagated with the advice of the most distinguished cultivators of New England.

The Subscriber flatters himself that his assortment is unrivalled for this climate, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, with many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.

Price of Grafted Apple Trees, assorted, one shilling each.—Any person or number of persons ordering 1000 or upwards is one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.

FRANCIS P. SHARP.

Woodstock, Oct. 22, 1851.—31.

October 15, 1851.

REMOVAL.

DR. BAYARD.

Has removed to the House formerly occupied by Mr. Sloan, situated between the stores of Messrs. Dimock & Wilson, and Odell & Turner, St. Andrews, Oct. 22, 1850.

BLANKS

HEALTH where 'tis SOUGHT.

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, Virginia, Scotland, dated the 13th of January, 1850.

Sir—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a Liver and Stomach complaint of long standing, which during the last two years got so much worse that even one considered my condition as hopeless. As a last resource, I got a Box of your Pills, which soon gave relief and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and night after night by their means alone got completely cured, and to the astonishment of my friends and every body who knows me.

(Signed) MATTHEW HARVEY.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. Smith, of No. 9, or Thomas Street, London Street, London, dated Dec. 12th, 1849.

To Professor Holloway,

Sir—I beg to inform you that for nearly five years I have known what it was to have a day's health from extreme weakness and debility, and nervous headaches, and a great depression of spirits, I used to think that nothing could benefit me as I had been to many medical men some of whom after doing all that was in their power informed me that they considered that I had some special complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be accomplished. After having used your Pills, and in a few days, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found myself better by taking them, and so I went on, persevering in their use, until six weeks after I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH.

(frequently called EDWARD.)

CURE OF ASTHMA, OF TWENTY YEARS' STANDING.

Extract of a Letter from Mr. J. R. Heydon, 78 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway,

Sir—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a Lady residing near the "Razorbuck," who after having for twenty years been unable to make the slightest exertion, suffering very severely from shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of the mountain. Another case is that of Mr. Eaton, Parley, Hildon, who after suffering for several years who was so dreadfully bad that he was confined entirely to his bedroom for six months, prior to his commencing with your Pills, and attended regularly by his medical men, who pronounced him incurable, and who had been in the hospital for several months, and who after using your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) J. R. HEYDON.

ASTONISHING CURE OF THE EAL OF ALDBOROUGH.

By this Miracle, after every other means had failed.

A copy of a Letter from the Earl of Aldborough, dated Villa Massimo, Leghorn, 21st Feb. 1850.

To Professor Holloway,

Sir—The extraordinary cures which your Pills have effected in my family, and the possibility of my thinking you'd spare this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had not been able to effect; and I had even the waters of Carlsbad and Marienbad, I wish to have another Box, and a Port of Ointment in case any of my family should ever require either.

I remain, with much respect,

Your most obliged and constant servant.

(Signed) ALDBOROUGH.

TIME should not be lost in taking this Remedy for any of the following diseases:—

Ague, Consumption, Fits, Rheumatism, Tumours, Asthma, Debility, Gout, Retention of Urine, Ulcers, Bilious Complaints, Dropsy, Head-aches, Sore Throat, Venereal Affections, Blotches on the skin, Dysentery, Indigestion, Scalds, or Burns, Eruptions of all kinds, Erysipelas, Inflammation, Bowel Complaints, Female Irregularities, Jaundice, Stone and Gravel, Colic, Liver Complaints, Secondary Symptoms, Weakness from whatever cause, Lumbago, Constipation of Bowels, Fevers of all kinds, Piles, &c. &c.

SURROGATE COURT.

COUNTY OF CHARLOTTE

In the matter of the Estate of Daniel Cunningham late of the Parish of Saint David in the County of Charlotte, deceased.

WHEREAS Lachlan Doon administrator of the said Daniel Cunningham deceased, at the time of his death, hath this day filed his Account with the said Estate, and hath prayed that the Creditors and next of Kin of the deceased, and all persons interested in the said Estate, may appear and attend the passing and allowance of the said account,

NOTICE is therefore hereby given, to all the Creditors and next of Kin of the said deceased, and to all persons interested in the said Estate, and they are, hereby cited to appear before me at a Court of Probate, to be held at the Office of the Registrar of Probates in Saint Andrews, in the said County of Charlotte, on Saturday the Tenth day of APRIL, next, at the hour of one in the afternoon, to attend the passing and allowance of the Account of the said Administrator.

Given under my hand and the Seal of the said Court, this tenth day of December A. D. 1851.

(Signed) H. HATCH.

Geo. D. Street,

Registrar of Probates

NEW BRUNSWICK.

HOUSE OF ASSEMBLY.

The following were adopted as Standing Rules in the Session of 1851:—

37th.—That no Bill of a private nature or petition for money or relief, shall be received by the House after the fourteenth day from the opening of the Session, both inclusive; and that the Clerk of this House do, one month previous to the meeting of the Legislature, cause to be printed copies of the Rules to be sent to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in such County where Newspapers are published.

38th.—That this House will sustain no application for, allow moneys to Teachers of Common or Parish Schools, unless it shall be certified by at least two Trustees of Schools for the Parish where such School has been taught, showing the time actually taught;—the Teacher to be licensed—the cause why such Teacher was not certified to the Sessions in the ordinary way;—and that such Teacher was not compelled to discontinue his or her School on account of any improper conduct.
