### THE SEA.

I must confess that no one thing impresses me so much with a sense of Divine order and goodness in the material world, with the conception of a stupendous machine which the Almighty wisdom has designed, and which Almighty power keeps continually in operation—as this wonderful, beneficent, magnificent system of exchange, between the land and the sea carried on through the pipes of the atmosphere, and veins that cross the azure floor of heaven, this mighty wheel that turns this way and that and keeps the pulse of every living thing in motion. "A great waste," is this expanse of water that chafes "the vexed Bermoothes," or lies swimming under a tropic sky.

But far inland the great heart of continents pants for its blessing, and stately forests sigh for it through all their leaves; and tomorrow this outlying element that quivered like molten lead or dashed in feathery foam, has descended upon the laws of England, the vineyards of the Rhine, and the wheat fields of the West. It has touched with tender coolness the wide prairie, and it opens its fiery lids, more innumerable than the eyes of heaven. The humble plant lifts up its grateful head, as though it felt God's care for it; and the orchard and the garden breathe rich incense of thanksgiving where it has passed along. The little brook bubbles with joy over its new filled cup; and the Mississippi and Orinoco, back among their hidden springs send up their great voices in exultation. But the vast wheel keeps turning, and as it were, tomorrow again, the moisture that trickled from the rock, or dangled like a thread of diamonds in the grass, is surging in the mighty pulse of the gulf stream, is scudding at the Orkneys, or sparkling in a wake of glorious light under the Southern cross.—*Rev E. H. Chapin.*

**THE CROOKED LOG.**—One of our western farmers being very much annoyed last summer by his best sow breaking into the corn field, search was instituted in vain for a hole in the rail fence. Failing to find any, an attempt was next made to drive out the animal by the way of her entrance; but of course without success. The owner then resolved to watch her proceeding, and posting himself at night in a fence corner, he saw her enter at one end of a hollow log, outside the field, and emerge at the other end within the enclosure. "Eureka!" cried he, "I have you now, old lady!" Accordingly he so arranged the log (it being very crooked) that both sides would open on the outside of the corn field. The next day, the animal was observed to enter at her accustomed place and shortly emerge again. "Her astonishment," says our informant, "at finding herself in the same field, whence she had started, is too ludicrous to be described! She looked this way and then that, grunted her dissatisfaction, and finally returned to the original starting place; and after a deliberate survey of matter to satisfy herself that it was all right, she again entered the log. On emerging yet once more on the wrong side, she evinced even more surprise than before, and turning about, retraced the log in an opposite direction. Finding this effort likewise in vain, after looking long and attentively at the position of things, with a short angry grunt of disappointment, and perhaps fear, she turned short round, and started off on a brisk run; nor could either coaxing or driving ever after induce her to visit that part of the field. She seemed to have a 'superstition' concerning the spot."—*Western Paper.*

**What is a Mormon?**  
A Mormon is a living paradox; he says grace before collation, swears in his sermons, selects his texts indifferently from the Bible, the book of Mormon, an almanac or the President's message, and is perpetually quarrelling for the sake of peace. His religion is a joke, and he makes the best story teller of the quorum. He assumes dignities, but has not the slightest respect for them; and the effect of his piety is apparently to put him on a level with the greatest reprobates of the time. In short, he is a Latter Day Saint, or in other words, the last one you would think of calling a saint.

**BADLY BROKEN.**—A well known Providence sporting character tried his luck in that city the other day, and found it bad.—The bank refused to discount for him, and his deposits were exhausted.

On turning his back upon the scene of operations, a sympathizing friend said to him: "Tom, are you broke?"

"Yes," said Tom with a sigh, "and so dead broke, that if steamboats were selling at a cent apiece, I couldn't buy a gangway plank."—*Panther Gazette.*

**HOW TO BE LOVED.**  
Here is a secret, worth knowing. William Wirt, in a letter to his daughter, thus insists upon the importance of the small, sweet courtesies of life. Depend upon it, he is right.

He says: "I want to tell you a secret. The way to make yourself pleasing to others, is to show that you care for them. The whole world is like the miller at Mansfield who cared for nobody—no, not he—because nobody cared for him. And the whole world will serve you so, if you give them the same care. Let all persons therefore, see that you do care for them, showing them what Stern so happily calls the small, sweet courtesies in which there is no parade; whose voice is too still to tense, and which manifest themselves by tender and affectionate looks, and little kind acts of attention giving others the preference in every little enjoyment at the table, or in the field, walking, sitting or standing."

**Profane Swearing.**  
In the apocryphal book of Ecclesiasticus occurs the following sharp and sensible injunction upon this head:

"Accustom not thy mouth to swearing, neither use thyself to the naming of the Holy One. For as a servant that is continually beaten shall not be without a blue mark, so he that sweareth, and nameth God continual ly, shall not be faultless."

A man that useth much swearing shall be filled with iniquity, and the plague shall never depart from his house; if he shall offend his sin shall be upon him; and if he acknowledge not his sin he maketh a double offence; and if he swear in vain he shall not be innocent, but his house shall be full of calamities.

There is a word that is clothed about with death; God grant that it be not found in the heritage of Jacob, for all such things shall be far from the godly, and they shall not wallow in their sins.

Use not thy mouth to interperate swearing, for therein is the word of sin."

**SINGULAR ARITHMETICAL FACT.**  
Any number of figures you may wish to multiply by 5 will give the same result if divided by 2, a much quicker operation; but you must remember to annex a cipher to the answer when there is no remainder, and when there is a remainder, whatever it may be, annex a 5 to the answer. Multiply 464 by 5, and the answer will be 2320; divide the same number by 2, and you have 232, and as there is no remainder you add a cipher. Now take 357, and multiply by 5, the answer is 1785. On dividing this by 2, there is 178 and a remainder, you therefore place a 5 at the end of the line, and the result is again 1785.

Why may a Dutchman be said to come into the world ready dressed? Because he is born in Holland.

Why might a hat be fitly called a Golgotha? Because it is the place of a skull.

Why are lovers like turpins? Because they are often paired.

"La me, see how beautifully that pea fowl spread its posterior extremity," said a modern belle the other day pointing to a peacock displaying his tail in the barnyard.

**OLD PROVERBS.**—Beware of a silent dog and still water.

It is not easy to straighten in the oak the crook that grew in the sapling.

There is many a good wife who cannot dance or sing well.

You will never have a friend if you must have one without a failing.

That's but an empty purse that is full of other folk's money.

He is a worthless fellow who lives only for himself.

Advise not what is the most pleasant, but useful.

A friend that you buy with presents, will be bought from you.

If youth is a blunder, manhood is a struggle, old age a regret.

**THE CAMELS.**—It has been a quite a common sight to see camels and dromedaries marching through our streets. The camels are now employed in carrying govt. freight from Powder Horn to the Depot. They carry the enormous weight of 1600 pounds, and with the greatest ease. The sight of them stampedes all the horses and mules that come within sight of them. They are certainly not very handsome creatures.

The only distinction the Arabs make between the camel and dromedary is, that one serves for the beast of burden and the other is the riding nag. The word dromedary with them means swift or fleet. A horse, in a brisk trot, can scarcely keep up with the camels when in a walk. They apparently go slow with their toing measured tread, but in reality they are moving along rapidly.

The dromedaries, with their riders and gorgeous trappings move along in a brisk trot at the rate of 100 miles per day.—*Indianola (Texas) Bulletin, May 23.*

### WEIGHED IN THE BALANCES!!

His Excellency The Hon. JOHN HENRY THOMAS MANNERS-SUTTON, Lieut. Governor—His Council—and House of Assembly, of the Province of New Brunswick.

[A Dialogue between Father and Son.]

**Father to the Son.**—I suppose you have heard that the Lieut. Governor has dismissed his Council, and dissolved the House of Assembly?

**Son.**—Yes, father, I have; and it surprised me very much. Do you think His Excellency acted wisely?

**Father.**—I do.

**Son.**—I do not. I think his conduct arbitrary and unconstitutional, so much so as evidently to fly in the face of all that is known under the name of Responsible Government. I trust that the next House of Assembly soon to be chosen, will teach better manners than those of Manners Sutton as they stand at present. That they will impeach him for having done contrary to the well-understood wishes of the people. That they will arraign him in the name of the Commons of New Brunswick, and in the name of Common Sense, as being an insane man, unworthy of Her Majesty's confidence, and wholly unfit to be the Ruler over a sensible people. That they will impeach him in the name of the Living and of the Dead, inasmuch as he has set at naught the opinion of his Council and House of Assembly, consequently the voice of the Province, upon a highly important and just law, known as the Prohibitory Liquor Law, which improves the Country, augments the felicity of the People, and prevents premature Death.

**Father.**—You appear to be angry. Are you one of the "Sons of Temperance?"

**Son.**—I am not, but nevertheless abstain from the use of all liquor.

**Father.**—The reason I asked you this question was, the "Sons of Temperance" appear to me now, and also for a length of time back, to have more zeal than was tempered with knowledge. Now a teetotaler, when he is so from principle, believing that he is walking in the right path, and at the same time does not make himself a busy-body with other people's concerns, such as one I have no objection to. It is only him who goes about like a prowling wolf seeking whom he may devour, that I detest and abominate. With respect to the charges you have brought forward against the Lieut. Governor, let me tell you they are destitute of all truth. I intend to vote for him, at the ensuing election, and I should be glad you would do the same. You have been informed no doubt that it was in consequence of the liquor law both Council and House were dissolved. It is clear to me that the Lieutenant Governor had full power and just right to proceed as he did.

The Prohibitory Liquor law was highly important, involving many good and great subjects. Now tell me upon what good and solid ground the Council objected to a dissolution of the House, when it was by no means certain that they, the Members of the House, were true exponents of the mind or will of the people at large, when they enacted that law. It was passed in the House by a very small majority—three-four in number; and His Excellency from time to time was receiving Petitions respectfully and numerously signed to dissolve the House in consequence of that very law.

The members also who voted on behalf of the enactment, how did they get into the House? Did they express themselves openly, as in the day, either at the hustings or in the public prints, that it was their intention, if they succeeded in making their election sure, to bring in a Bill such as the Prohibitory liquor law, or any thing like it. The cunning foxes did not, they knew better than to do so. What means Responsible Government? It means administering the Government according to the well understood wishes of the people. What better way of arriving at a knowledge of what the wishes of the people were, than for the Governor at once to dismiss both Council and House, so as to have a new creation of advisers, and one of the great subjects to be discussed was the liquor law. This is no crime surely; on the contrary, praise is due to the Governor.

There was grandeur, majesty, and nobleness of mind in his proceeding. He was determined neither Council or House should ride rough-shod over the consciences of God's people without knowing the reason why.

You say in addition, impeach him in the name of the living and of the dead. I suppose you mean by this, that he is careless or indifferent about jeopardizing the lives of those committed to his charge by Her Majesty, by allowing them free will to drink spirits liquors as they might think proper, but if any one die through intoxication by, or falling over a cliff or wharf accidentally, or purposely putting an end to his existence after having taken liquor, he, the Lieutenant Governor, ought to be looked upon as ac-

cessory to that person's death, and that the spirit of him cried for vengeance.

Heed me now, listen attentively. We are not called upon to be our brother's keeper to such an extent as set forth in this Prohibitory liquor law. The Saviour of Mankind says: "They have Moses and the Prophets, and if they will not hear them, neither will they believe though one rose from the dead."—St. Luke, ch. 16, v. 31.

They have the voice of Christ. They have the voice of the Church. They have the voice of their own conscience; all saying, Keep away from drunkenness. If they die in their sin then, whose fault is it but their own.

The Prohibitory liquor law is not founded on Justice, Mercy or Truth. It is founded on ignorance. Are we worse people for drunkenness in the nineteenth century of the Christian era, than the Jews were when the Saviour taught them in the synagogue and temple, rebuking them for many things, but not once for drunkenness. The law is sinful, because it exalts itself above Holy Writ, which does not forbid the moderate use of strong drinks. It is sinful, because it is in opposition to the declared will of all Christian churches throughout the world. They never forbade the moderate use of it. What did our blessed Lord at the marriage in Cana of Galilee? He turned water into wine.

When the ruler of the feast (says St. John, ch. 2) had tasted the water that was made wine, and knew not whence it was, (but the servants which drew the water knew,) the governor of the feast called the bridegroom, and said unto him, every man in the beginning doth set forth good wine, and when men have well drunk, then that which is worse, but thou hast kept the good wine until now."

That does does not look like the Prohibitory Liquor law of New Brunswick. It seems to me—

**Son.**—But I have been informed by Sons of Temperance, that the wine mentioned there, is not the same as used in these days. That was unfounded.

**Father.**—I question the rectitude of that saying very much. How did they keep it sweet longer than twenty-four hours in a hot climate, or export it to foreign countries where the grape might not be cultivated?

**Son.**—I do not know precisely, but I suppose they salted it down.

**Father.**—"Salted it down"—"Salted it down!" What, with pickle! You must be a funny man to think that. I am afraid, after all my efforts, you will give a wrong vote on the 3d of July. But tell me wherein is the difference between the juice of the grape being unf fermented before it is taken into the stomach, or becoming so after it is taken into it. Is it not one and the same thing still. The heat of the stomach would undoubtedly cause fermentation to arise. If it did not, then what sort of digestion would there be. It is not the quality of the wine which makes a man drunk and injured thereby, so much as the quantity taken into the stomach over and above what it ought to receive. If you want, however, more proof than what I have already advanced, I will give it from Holy Writ:—(St. Matthew, ch. 9.)—"Neither do men put new wine into old bottles; else the bottles break, and the wine runneth out, and the bottles perish: but they put new wine into new bottles, and both are preserved."—Here you see fermentation plainly set forth, or the bottles would not break.—To return, now, and begin at the point where I left off, when you so unexpectedly, and I must say ungenerously, though meaning well at the time, interrupted me in my course of elucidation, I will say that it seems to me those who voted for that Prohibitory Liquor law in the House of Assembly, were giants of unassailable stature, nothing so lofty that they could not reach with perfect ease and overcome—nothing that they cared about, saving Neal Daw, with his heretical, fanatical doctrine. Man, according to this Prohibitory Liquor law, is no longer a Free Agent, left to choose for himself good or evil. He is saved by compulsion, (an arbitrary law of the land) and not by a voluntary acceptance of Christ as his all and chief of ten thousand. It strikes at the very root of all Christianity.

**Son.**—If we take away the tree of temptation, then we will not fall by it.

**Father.**—To go upon that principle it would lead us at last to reject every thing beneath the sun, and even that luminary itself, for many have fallen down and worshipped it. Take care, mind what I say to you, be careful not to fall down and worship sun, moon, planets, liquor, or other creature of God's creation, by reason of a setting at naught his commandments. If I have spoken against the Prohibitory Liquor law, Council and House of Assembly, it is not because I am an advocate for drunkenness, or am I an interested wine merchant or a wine bibber, but solely because I wish just laws to prevail, and the fear of God to abound both in the Council, House of Assembly, and every where else.

**Son.**—I feel extremely unwell. Your words are powerful; they make me tremble like a leaf. I will vote on behalf of the Governor; and now, with your permission, I will retire.

**Father.**—You have my approbation in so doing. Shall I go with you?

**Son.**—Accept my thanks. I deem it not requisite.

**Father.**—The King of Heaven, with his blessed angels, accompany you, my son.

**Holloway's Ointment and Pills** have gained a sale of some of twelve years' standing.—Miss Emma Hartley, of Hamilton, Canada, was one of the most deplorable of objects, and the most unfortunate of sufferers with bad legs from a child, and frequently bitterly deplored her fate; she had undergone many operations, and spent a little fortune in obtaining medical advice, but she was not benefited. Her friends persuaded her not to impoverish her purse any further, and her medical man candidly told her not to impoverish her purse any further, and her medical man candidly told her she could never be cured; her own good sense, however, made her have recourse to Holloway's Pills and Ointment, and by persevering with these remedies at a mere nominal expense for two months, her leg was completely cured; she now walks better than she ever did before in her life, and enjoys the best of health.

# TO THE INDEPENDENT ELECTORS OF THE COUNTY OF CHARLOTTE.

GENTLEMEN,—  
His Excellency the Lieut. Governor, having in the exercise of his prerogative dis-  
solved the House of Assembly, you are now  
called upon by his proclamation to elect fit  
and proper men to represent your interests,  
individually and collectively.  
Gentlemen, I have aged seventeen years  
as one of your representatives, and feel proud  
to say, with but few exceptions, to your  
entire satisfaction; and if it should be your  
pleasure to again return me, I trust I shall  
be spared long enough, to complete the full  
term of twenty one years.  
The old-firm is good yet, never misses fire,  
and if I do not kill at every shot, I am pretty  
sure to hit.  
The inhabitants of the Province have, for  
the last three years been embroiled with agi-  
tation on the temperance question, a question  
which in my humble opinion, should never  
have been brought upon a question of  
a 2. Prohibition, accompanied by acts  
of tyranny and oppression, such things will  
not do for free born Britons, rouse up then  
in your strength, send such men to represent  
you, as will allow one and all of you, to sit  
under his own vine, and under his own fig  
tree, none daring to make him afraid. To  
my numerous friends on the Islands, I would  
say, be as true to me as I have been to you,  
and all will go as smooth as the marriage  
bell—don't forget protection to the spawning  
ground, the continuance of which shall be  
secured to you so long as I have the honor to  
represent you, it is to you a mine of wealth,  
it is nature's bountiful feeder, which, with  
prudence and industry will secure to you, all  
the temporal blessings that you can require.  
To the Agriculturist, the Lumberman, the  
Mechanic and the Merchant, I would say, the  
County of Charlotte requires practical men,  
men of liberal views to represent them; a true  
liberal as a representative is a safe man, a spu-  
ritous liberal is to be abhorred, he is ambitious  
for his own aggrandizement, and perfectly in-  
different as to yours. Religious questions should  
if possible, be kept out of the Assembly, they  
are productive of no good; but should such  
questions unfortunately arise, all denominations  
shall receive at my hands equal justice.  
The Country is now, and has been for years  
curse with a bad system of Education; a  
better system was expected from the late ad-  
ministration but nothing was done, indeed it  
is a difficult subject to grapple with, but let  
us hope that the next change will be for the  
better, worse it cannot be. The time given  
for this Election is so short, I regret that I  
cannot call on all the Electors personally, I  
will, however make the most use of my time.  
I have been unexpectedly called to St. John,  
and cannot commence my canvass until the  
next week, look out for me, I am coming!—  
I have my boilers well filled, wooded up, I  
will dash ahead, keeping always to the right.  
The great question now to be decided is Pro-  
hibition or no Prohibition, let that be the ra-  
lying cry, that is the question on which the  
dissolution has taken place, and that ques-  
tion will be best answered by the men you re-  
turn; and I think I am well enough ac-  
quainted with you to know that you will do  
your duty; you have tried me and proved  
me, and all I require, is an opportunity to  
be tried again.  
I am Gentlemen, very respectfully,  
Your old and staunch friend,  
JAMES BOYD.

# TO THE ELECTORS OF THE COUNTY OF CHARLOTTE.

GENTLEMEN,  
The Representative of our most graci-  
ous Queen having exercised his undoubted  
prerogative in dissolving the House of As-  
sembly, for the purpose of enabling the peo-  
ple to decide the agitated question of the  
continuance or repeal of the Prohibitory  
Liquor Law; you are now called upon, in  
common with the rest of the Province, to  
express your opinion as to the propriety of  
the step he has taken, and to exercise your  
equally undoubted privilege of electing fit  
and proper persons to represent you in the  
Provincial Parliament.  
Having on former occasions been a Can-  
didate for your suffrages, and though un-  
successful, having received such support as to  
induce me to believe that I possessed the  
confidence of a large number of the Free  
holders of this County, and having again  
been strongly urged to offer myself, I have  
determined to announce thus early my wil-  
lingness to become your Representative,  
should you think proper to elect me.  
In doing so, I do not hesitate to express  
my opinion that the course pursued by  
his Excellency the Lieutenant Governor, in  
dissolving the late House of Assembly,  
meets with my warm approval, that I deem  
the conduct of the majority of that House  
in many instances such as the Prohibitory  
Liquor Law—the Education Question, and  
the Provincial Railway Scheme unwise,  
and inconsistent with the true interests of  
the Province.  
My opinions on these and other matters  
I shall be prepared to declare openly and  
freely on the Husting, and should they  
meet with your approbation, I shall feel  
proud of the honor of becoming one of  
your Representatives and will pledge my-  
self to discharge its duties to the best of  
my ability.  
As from my long residence in this Coun-  
ty, and my having solicited your suffrages  
on former occasions, my character and op-  
inions must be well known to most of you,  
it will not be necessary, nor indeed should  
I have time in the short interval before the  
Election, to visit you personally at your  
homes, but I shall be happy to attend any  
meetings that may be held in the different  
sections of the County, and explain more  
fully my views and sentiments on the sub-  
jects which now agitate the public mind.  
Should I have the honor to be elected  
one of your Representatives, I shall feel it  
my duty to make myself particularly ac-  
quainted with your local wants and cir-  
cumstances, and to devote my unwearied at-  
tention to the promotion of the interests of  
this County in particular, and as far as lies  
in my power of the Province in general.  
I am Gentlemen,  
Your faithful Servant,  
GEO. D. STREET.

# TO THE FREE AND INDEPENDENT ELECTORS OF THE COUNTY OF CHARLOTTE.

GENTLEMEN,—  
I have been solicited by a great  
number of the influential freeholders to come  
forward as a candidate for the representation  
of this County at the approaching Election;  
and have consented to do so.  
I formerly, had the honour of being one  
of your representatives, for many years; and  
believe that you gave me credit, for indepen-  
dently and faithfully discharging my legisla-  
tive duties without being influenced by pri-  
vate or selfish motives; and should I again  
be the object of your choice, I will, as I have  
ever done, carefully watch over your interests  
and as far as in my power lies protect you  
from tyranny and oppression.  
I am, Gentlemen,  
Your sincere friend,  
ROBERT THOMSON.  
St. George, 4th June, 1856.

# TO THE FREEHOLDERS OF CHARLOTTE.

GENTLEMEN,—  
At the forthcoming election of rep-  
resentatives for this county, I intend to offer  
myself as a candidate for your suffrages.  
Time will not permit me to visit you per-  
sonally.  
My political views have so recently been  
expressed both in my address and at the Hus-  
tings, that I need not repeat them: I will  
again announce them at the Husting.  
The present state of the Province (arising  
in a great measure from bad legislation) is  
deplorable, and it must be the work of time,  
prudence, and reinforcement to restore it to  
a better condition.  
If you think I can serve you in this em-  
ergency you can say so by returning me. I wish  
no man to vote for me from personal feeling  
to myself, but simply and solely from the con-  
sideration that my services may be useful to  
the country in its present depression.  
Should I be honored by your confidence, I  
will not betray it. I will only profess what  
I feel—and honestly try to fulfil what I pro-  
mise at the Husting.  
I am Gentlemen,  
Your obdt. servant,  
GEO. J. THOMSON.  
St. Stephen, 21 June, 1856.

# AYER'S PILLS,

A new and singularly successful remedy for the  
cure of all Bilious Diseases—Constipation, Indi-  
gestion, Jaundice, Dropsy, Rheumatism, Fever,  
Gout, Humors, Nervousness, Irritability, Inflamma-  
tions, Headache, Pains in the Breast, Side, Back,  
and Limbs, Female complaints, &c., &c. Indeed,  
very few are the diseases in which a Purgative Medi-  
cine is not more or less required, and much sick-  
ness and suffering might be prevented, if a harm-  
less but effectual Cathartic were more freely used.  
No person can feel well while a cative habit of  
body prevails; besides it soon generates serious and  
often fatal diseases, which might have been avoided  
by the timely and judicious use of a good purgative.  
This is a true case of Gold, Feverish symptoms, and  
Bilious Derangements. They all tend to become or  
produce the most serious and formidable diseases,  
which lead the horses all over the land. Hence a  
reliable family physic is of the first importance to  
the public health, and this Pill has been perfected  
with consummate skill to meet that demand. An  
extensive trial of its virtues by Physicians, Profes-  
sors, and Patients, has shown results surpassing  
anything hitherto known of any medicine. Cures  
have been effected beyond belief, were they not sub-  
stantiated by persons of such exalted position and  
character as to forbid the suspicion of truth.  
Among the eminent gentlemen to whom we are  
allowed to refer for these facts, are  
Prof. VALENTINE MOTT, the distinguished Sur-  
geon of New York City.  
Dover, A. A. BAYNE, Practical Chemist of the  
Port of Boston, and Geologist for the State of Mas-  
sachusetts.  
Jas. L. MOORE, M. D., an eminent Surgeon and  
Physician, of the City of Lowell, who has long used  
them in his extensive practice.  
H. C. SOREY, M. D., one of the first mer-  
chants in New York City.  
C. A. DAVIS, M. D., Surgt and Surgeon of the  
United States Marine Hospital, at Chelsea, Mass.  
Did space permit, we could give many hundred  
such names, from all parts where the Pills have  
been used, but evidence even more convincing than  
the certificates of these eminent public men is  
shown in their effects upon trial.  
These Pills, the result of long investigation and  
study, are offered to the public as the best and  
most complete which the present state of medical  
science can afford. They are compounded not of  
the drugs themselves, but of the medicinal virtues  
only of Vegetable remedies, extracted by chemical  
process, in a state of purity and combined together  
in such a manner as to insure the best results. This  
system of composition for medicines has been found  
in the Cherry Pectoral and Pills both, to produce a  
more efficient remedy than had hitherto been ob-  
tained by any process. The reason is perfectly ob-  
vious. While by the old mode of composition, every  
medicine is burdened with more or less of ser-  
vicious and injurious qualities; by this, each indi-  
vidual virtue only being retained. Hence it is  
self-evident the effect should prove as they have  
proved more purely remedial, and the Pills a surer,  
more powerful, and more delicate than any other  
medicine known to the world.  
As it is frequently expedient that my medicines  
should be taken under the control of an attending  
Physician, and as he could not properly judge of a  
remedy without knowing its composition, I have  
supplied the accounts by which both my  
Pectoral and Pills are made to the whole body of  
Practitioners in the United States and British Amer-  
ica. Physicians, if they desire there should be no  
one who has not received them, they will be  
promptly forwarded by mail to his address.  
Of all the Patent Medicines that are sold, how  
few would be taken if their composition was known?  
Their life consists in their mystery. I have no  
mysteries.  
The composition of my preparations is laid open  
to all men, and all who are competent to judge on  
the subject, will acknowledge the wisdom and value  
of their intrinsic merits. The Cherry Pectoral was  
pronounced by scientific men to be a wonderful  
medicine before its effects were known. Many em-  
inent Physicians have declared the same thing of  
my Pills, and even more confidently, and are will-  
ing to certify that their anticipations were more  
than realized by their effects upon trial.  
They operate by their powerful influence on the  
internal viscera to purify the blood and stimulate it  
into healthy action—remove the obstructions of  
the stomach, bowels, liver, and other organs of the  
body, restoring their regular action to health, and  
by removing wherever they exist such derange-  
ments as are the first origin of disease.  
Being sugar wrapped, they are pleasant to take,  
and being purely vegetable, no harm can arise from  
their use in any quantity.  
For minute directions, see the wrapper on the  
Box.

## HOLLOWAY'S PILLS.

**WHY ARE WE SICK?**  
It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

**THESE PILLS PURIFY THE BLOOD.**  
Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

**DYSPEPSIA AND LIVER COMPLAINTS.**  
Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

**FEMALE COMPLAINTS.**  
No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. ## E. D. SPEAR, INDIAN DOCTOR.

18 Kneeland Street, BOSTON, Mass.

THE great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites curiosity in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed to have originally been received from the Indians one hundred and seventy years ago. No other remedies deserve the name of Indian.

**DR. SPEAR'S GREAT INDIAN MEDICINE.**  
(For names and description see his "Family Physician"—to be had, free, at his office, or sent on order, prepaid on receipt of a paper postage stamp.)

Are certain cures for  
Asthma, Ague and Fever, Harbors' Eruptions, Boils, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Cramps, Debility, Diarrhoea, Derangement of the Bowels, all humours in the blood, Giddiness, Headache, Inflammation of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.

Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Prolapsus Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.

**DR. SPEAR,**  
Is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.

Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.

Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.

Dr. Spear consults with patients at his Office No 18 Kneeland street, upon all conditions and diseases of the system, free of any charge.

## A MARVELLOUS REMEDY FOR A MARVELLOUS AGE.

## Holloway's Ointment.

## THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

**ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS.**  
No remedy has ever done so much for the cure of diseases of the Skin, as this Ointment, when they may assume, as this Ointment, Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

**SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.**  
Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

**PILES AND FISTULAS.**  
These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bad Legs, Chiefo-foot, Bad Breasts, Chilblains, Burns, Chapped hands, Bunsions, Corns (soft), Bite of Mosquitoes, Cancers, and Sand Flies, Contracted and Stiff Joints, Coo-bay, Elephantiasis, Fistulas, Glandular Swelling, Gout, Lumbago, Scurvy, Piles, Rheumatism, Sore Heads, Tumours, Ulcers, Scalds, Sore Nipples, Wounds, Yaws.
