OF

THE HOUSE OF ASSEMBLY,

OF

THE PROVINCE OF NOVA-SCOTIA.

THURSDAY, 9th FEBRUARY, 1815.

MESSAGE from His Excellency the Lieutenant-Governor, by Mr. Secretary George:
Mr. Speaker,

His Excellency the Lieutenant-Governor commands this House to attend His Excellency immediately in the Council Chamber.

Accordingly Mr. Speaker, with the House, went up to attend His Excellency in the Council Chamber.

And being returned,

Mr. Speaker reported, That the House had attended His Excellency in the Council Chamber, where His Excellency had been pleased to make a Speech; of which

which Mr. Speaker said he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows:

Mr. President, and Gentlemen of His Majesty's Council,

INCE I last had the pleasure of addressing you in General Assembly, Peace of Europe has been established, by a succession of events so wonderful, that we cannot but acknowledge in them the manifest interference of a Superintending Providence. And should our only remaining enemy be inclined to meet the magnanimous disposition evinced by our Parent State, with corresponding sentiments of moderation and justice, we may reasonably hope that the same blessing will shortly be dissued throughout the world. For information upon this point we must, however, await the result of the negociations carrying on at Ghent; in sull considence that the persons entrusted by the British Government with that important mission, possess both the talents and firmness requisite to procure peace on such terms, as, in the estimation of Britons, shall be considered just and honorable. But, should any insurmountable obstacles present themselves to the attainment of this desirable object, there can be little doubt that the

whole force and resources of Great-Britain will be employed, to put an end to a war, unprovoked in its commencement, and in its continuance strongly manifesting the arrogance, injustice and obstinacy, of an implacable Enemy. You cannot have been insensible to the many blessings this favored Province has enjoyed, during the long and arduous contest in which our Mother Country has been engaged for the freedom of Europe; nor can you have viewed the miseries institled on Upper Canada, by the system of desolation pursued there by the Enemy, without gratefully acknowledging your own exemption from such

I am happy to inform you, that no events have occurred fince we last met, to render it necessary for me to call out the Militia, excepting a few small Detachments for the defence of some of the most exposed parts of the coast, in their own immediate neighbourhood. And it is with pleasure I add, that our Commerce has slourished, and the Provincial Revenue increased beyond my most sanguine expectations. Whilst I rejoice with you in our present prosperity, I am not unmindful of the possible occurrence of adverse circumstances, which may call upon the people of this Province to defend those blessings they have hitherto enjoyed in security; and I feel the most perfect considence that, in obeying this call, they will prove themselves worthy of the favor of their Sovereign, and deferving of that Constitution which experience has taught them to consider as the best Inheritance of their Ancestors.

evils.

Mr. Speaker, and Gentlemen of the House of Assembly,

The Public Accounts of the last Year, with the Estimate for the Civil Establishment and other Services required for the present Year, will be laid before you by the proper Officers. From the satisfactory experience I have hitherto had of

your liberality and prudence, in the management of the pecuniary affairs of the Province, I have the firmest reliance on your granting such further supplies as the exigencies of the Country may require.

Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the House of Assembly,

A ready communication with the Capital, being evidently a matter of so much convenience to the Country at large, I feel it my duty again to call your particular notice to the Main Roads and Bridges of the Province. I must, likewife, request your attention to another object of very great importance to the Community-I mean, the present state of the Police of Halifax; which, from the great increase of population, and other causes, appears to require some further regulation. The whole Province is interested in the prosperity of the Capital; and nothing is more likely to ensure that prosperity, than a proper attention to the regularity and general good order of the Community, and to the religious and moral conduct of the individuals which compose it.—You may rely upon my taking a zealous part in these, or in any other measures, which may be thought conducive to the benefit of the People over whom I have the honor and the happiness to preside. When I enforce my accustomed recommendation for the dispatch of business, I feel it but justice to assure you, that, fince I first had the honor of meeting you in General Assembly, each fucceeding Seffion has afforded me more convincing proofs of the zeal and integrity with which you fulfil your Legislative Duties.

Ordered, That Mr. Robie, Mr. Haliburton, and Mr. Pryor, be a committee to prepare an Address in answer to His Excellency's Speech.

Then the House adjourned until to-morrow, at one of the Clock.

Friday, 10th February, 1815.

PRAYERS.

Mr. Robie reported from the committee appointed to prepare an Address in answer to His Excellency's Speech, that they had drawn up an Address accordingly; and he read the Address in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:—

To His Excellency Lieutenant-General
Sir JOHN COAPE SHERBROOKE,
Knight of the Most Honourable Order of the Bath, LieutenantGovernor, and Commander in Chief, in and over His
Majesty's Province of Nova-Scotia, and its
Dependencies, Vice-Admiral of the same,
&c. &c.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES, IN GENERAL ASSEMBLY :

May it please Your Excellency;

Is Majesty's dutiful Subjects, the Representatives of the Loyal People of Nova-Scotia, beg leave to thank your Excellency for your Speech at the opening of the present Session of the General Assembly.

We congratulate your Excellency upon the successful termination of the most eventful contest in which Great-Britain ever was engaged; and amidst our rejoicings for the restoration of peace in Europe, we gratefully acknowledge that the wonderful events by which it was produced, could only have been caused by the immediate interference of a superintending Providence.

We hope, that the disposition discovered by our Parent State to end the war with America, upon just and honourable terms, may meet with corresponding sentiments on the part of the enemy; but, should our reasonable expectations be disappointed, we trust that so much of the power of the British Empire will be employed, as shall be sufficient to inslict due punishment upon the authors of a war, unprovoked in its origin, and in its progress exhibiting features of barbarism, disgraceful to the government of a country claiming to rank amongst civilized Nations.

The fystem of rapine and desolation, pursued by the enemy in Upper Canada, and the miseries inslicted upon the desenceless part of its population, must add to the many proofs the inhabitants of Nova Scotia before possessed, of the peculiar selicity of their own condition; sensible as they have always been of the many blessings this Province has enjoyed, during the war so long waged for the freedom of the world.

Happily exempted as we have been from the calamities of war, we yet are taught by the vicisitudes of human affairs, that our present prosperity is liable to interruption; should adverse circumstances call the people of Nova-Scotia to desend their rights, and the inheritance of their Ancestors by arms, we assure your Excellency, that, deeply conscious of the value of that inheritance, and proud of the descent through which it is derived, they will endeavour to deserve the favour of their Sovereign, and to prove themselves not unworthy of that paternal care, by which talents and experience, accustomed to a more brilliant theatre of action, have been selected for their desence.

We thank your Excellency for directing the Public Accounts, and Estimate for the Civil Establishment and other Services, to be laid before us, and will most willingly grant such supplies as shall be requisite for these services, and for the Main Roads and Bridges of the Province.

Having the most perfect reliance upon your Excellency's zealous co-operation in such measures as shall be calculated to regulate the Police of Halifax, we will take the subject into our serious consideration, and endeavour to make such alteration in the existing Laws, as may be considered necessary to remedy the evils now experienced.

The fatisfaction your Excellency has expressed with the fulfilment of our Legislative duties, affords us most sincere pleasure; and we begins to believe, that the performance of these duties is rendered grateful to us, by our entire conviction of your Excellency's strong desire to promote the happiness of the people committed to your government.

Resolved, That the Address be presented to His Excellency, by the whole House.

Ordered, That Mr. Pyke, Mr. Purdy, and Mr. Bishop, be a committee to wait on His Excellency the Lieutenant-Governor, to know his pleasure when he will be attended by the House.

A Petition of Leonard Maxiner, was presented by Mr. Dewolf, and read, praying payment of the sum of sixteen pounds thirteen shillings and sour-pence, by him expended in the year 1803, in reducing the Tanner Hill (so called) on the main road in Windsor, under a contract with John Clarke, Esq. the commissioner for expending the sum of 50l. granted for that service.

Ordered, That the Petition do lie on the Table.

Mr. Pyke reported from the committee appointed to wait on His Excellency the Lieutenant-Governor to know when he would be pleased to receive the Address of this House, that the committee had, pursuant to order, waited on His Excellency, and that His Excellency was pleased to appoint this day at half-past two of the clock, at the Government-House.

Mr. Speaker and the House attended His Excellency with their Address, pursuant to the resolution of this day.

And being returned,

Mr. Speaker reported, that His Excellency had been pleafed to give this Answer:---

Mr. Speaker, and Gentlemen of the House of Assembly,

THANK you for this Address. Your ready promise of providing the necessary Supplies, and of taking into your consideration the objects to which I have called your attention, demands my acknowledgements, and cannot but ensure my approbation.

J. C. SHERBROOKE.

Then the House adjourned until Monday, at eleven of the clock.

Monday, 13th February, 1815.

PRAYERS.

On motion of Mr. Robie, the House resolved itself into a committee of the whole House, on the consideration of that part of his Excellency's Speech which relates to the present state of the Police of Halisax.

Mr. Speaker resumed the Chair.

The Ghairman reported from the Committee that they had gone through the business to them referred: and that the Committee had come to a Resolution thereupon, which they had directed him to report to the House, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

Resolved, That it is the opinion of this Committee, that a Committee should be appointed, by the House, to join a Committee of His Majesty's Council, to take into consideration that part of His Excellency's Speech which relates to the Police of Halifax.

"The faid Resolution was read throughout a first and second sime," and, up-

And then the Mellenger withdrew.

A Petition of John M'Leod and others, Freeholders of the County of Sydney, was presented by Mr. Robie, and read: setting forth, That at the late Election for a Member to represent the said County, in the Legislature of this Province, the Poll was opened as usual, at Guylborough, on the 18th day of May, when John Cunningham and Simon Fraser, Esquires, appeared there as Candidates. That the Petitioners were given to understand, that the Poll would be acjourned from Guysborough to Country Harbour, but to their surprise it was concluded at Guysborough . John Cunningham, Eig. being there returned and declared, by the Sheriff, duly elected, although the Petitioners are informed, and have every reason to believe, that a Requisition was made on the first day of the Poll to the Sheriff for luch adjournment; and it will appear, that the Sheriff, in consequence thereof, posted up, on the evening of that day, notices to that effect, which the Peritioners believe, through the undur and unjust influence of a certain person or persons with the Sheriff, were afterwards by him pulled down. That the Petitioners, finding themselves unjustly deprived, by the conduct of the Sheriff, of the dearest rights which, as British Subjects, they posfels, to wit, the right of voting for a Member to represent them, as well as the reft of the County, in this Honorable House; and aware from it alone they can look for redress, humbly pray that the House would take the subject of their Petition (together with the feveral affidavits accompanying it) into confideration, and grant such relief in the premises, as that the Petitioners may be restored to the full exercise and enjoyment of their just and constitutional rights.

Mr. Robie also delivered to the House the following Papers referred to in the foregoing Petition, viz.

A Petition of Simon Fraser, Esq. was presented by Mr. Robie, and read: setting forth, That at the late Election for a Member to represent the County of Sydney in General Assembly, the Petitioner, at the request of a majority of the Freeholders of the County, offered himself as a Candidate, by public advertisement, and appeared upon the Hustings at Guysborough at the opening of the Poll, as will appear by the affidavit of the Petitioner, and the affidavits of Henry Newton and Alexander Cumming. That John Cunningham, Elq. the Candidate opposed to him, the Petitioner, was, through corrupt and undue influence, declared duly elected, by the Sheriff refusing to adjourn to Country Harbour and Antigonishe as the law directs. That the conduct purfued at the Election was highly unconflitutional, and that Thomas Cutler, Eq. and Mr. Alexander Cumming, who were chosen Inspectors, were not fworn. That the former Gentleman took the most active part, and seemed to influence the conduct of the Sheriff entirely—and praying the House would te pleased to take the merits of the Petition into consideration, and direct an application to be made to His Excellency the Lieutenant-Governor for a new Writ, or grant such other relief in the Premises as to the House may seem meet.

Mr. Robie also presented to the House the following Papers referred to in the foregoing Petition, viz.

And the faid message was read by Mr. Speaker, all the Members being uncovered, and is as follows:

Mr. Speaker, and Gentlemen of the House of Assembly:

The Small Pox, last Autumn, made its appearance in an alarming manner, at Dartmouth, at which place, and in the adjacent Township of Preston, there were many persons who, from extreme poverty, and not having been inoculated, were exposed to the attacks of that dreadful disease.—As the services of a Physician could not be obtained there, without great expense, I authorized Mr. Seth Coleman, who was recommended to me as a proper person for the purpose, to vaccinate all poor persons requesting it at those places. His exertions have been successful: upwards of four hundred persons have received the benefit of his services; with such medicines and other articles as their necessities required.

The accounts and papers relating to this subject, I submit to the consideration of the Assembly, and earnestly recommend them to grant such sums as may be sufficient to discharge the expense which has already been incurred, or may still be necessary to prevent the spreading of that satal contagion, together with a reasonable compensation to Mr. Seth Coleman, for his services.

J. C. SHERBROOKE.

Mr. Secretary George also delivered to the House the accounts and papers referred to in his Excellency's message; and thereupon,

Ordered, That the said message and papers do lie on the Table, to be perused by the Members of the House.

And the faid message was read by Mr. Speaker, all the Members being un-

covered, and is as follows:

Mr. Speaker, and Gentlemen of the House of Assembly:

I recommend to your favorable confideration, the accompanying Petition, which has been addressed to me by the Commissioners appointed for the better management and relief of the Poor of Halifax: They state the existence of

inany

many difficulties which they experience from the infufficiency of the Funds placed at their disposal, for the maintenance of Transient Persons requiring electrosynary support. You will observe, that one cause of their pecuniary embarrassment, has arisen from their having erected a Building for the reception and accommodation of Lunatic Persons from all parts of the Province, for the expence of which they are greatly in arrears: Under these circumstances I feel it my duty to call your attention to this Petition, in full considence that your humanity will induce you to consider the same savorably, and extend such relief to the Petitioners as will extricate them from their embarrassments, enable them to continue their meritorious services, and provide for the unfortunate Paupers under their care.

J. C. SHERBROOKE.

Mr. George also delivered to the House the Petition of the Commissioners of the Poor, to his Excellency, referred to in the foregoing Message.

The laid Petition was read by the Clerk, setting forth. That the Petitioners laboured, for the last three or four years, under the increase of great, and many pecuniary embarrassments, and notwithstanding they have made every possible exertion, they find it impossible to extricate themselves; it is, therefore, with great concern they seel bound in duty to state to his Excellency, that, after the most careful investigation of the accounts relative to the Establishment under their management, they are unable any longer to provide for the support of the Poor committed to their care.

That the Petitioners have been obliged to borrow, on the personal security of some of their Members, a sum of Six Hundred Pounds, which sum is now due with an arrear of Interest; and in addition to which, upon adjusting the accounts up to the end of the last year, they find themselves indebted in a further sum of at least One Thousand Four Hundred Pounds.

That the present support of the Poor depends altogether on the personal credit of the Petitioners; and the daily expence is nearly doubled, as the Petitioners are anable, for want of money, to lay in the Fuel and other Necessaries at proper seasons of the year, when the same may be purchased at reasonable rates. That it is easy to point out the causes which have thus involved the Petitioners in debt, and they beg leave to call your Excellency's attention to the three following facts, which, without pointing to any others, are more than sufficient to demonstrate the cause of their present difficulties:

First—That his Excellency, our late Lieutenant-Governor, Sir George Prevost, deemed it expedient to recommend to the Legislature to provide a suitable Building for the reception of Lunatic and Deranged Persons; and the General Assembly, in consequence of such recommendation, granted the sum of One Thousand Pounds for that purpose; and the Petitioners were authorised to conduct said Building, which they have completed at an expense exceeding Two Thousand Five Hundred Pounds.

Secondly—

Secondly—That the vast increase in the numbers of sick Seamen, Fishermen, and distressed objects of different descriptions, since the American War, which have been received into the Poor-House, together with a proportionable increase of the Town Poor, has more than doubled the numbers of Transient and Town Poor within a few years.

Thirdly—That the vast increase of the price of every article wanted for the Establishment, justifies the Petitioners in stating, that their expenditures shave been nearly doubled from that cause alone.

That the fum of One Thousand Eight Hundred Pounds is now affested and collecting from the Town of Halifax for the support of the Poor, chargeable on the Town only for the present year. That formerly when the General Asfembly allowed the fam of Four Hundred Pounds yearly for the support of the Transient Poor, the proportion for the expense of the Town Poor required only an annual affefiment on the Town for the fum of Four Hundred Pounds. That the Petitioners beg your Excellency to cause their Accounts to be examined by fit and proper persons, and the whole economy of their Establishment to be inspected and examined, as the Petitioners feel particularly anxious to shew, that they have made every possible exertion to conduct the business trusted to them, with prudence and humanity; and it is but justice due to their characters to have an opportunity of shewing, that the present difficulties have not proceeded from any fault or neglect on their part. That the Petitioners have estimated what Monies will enable them to pay off their present debts, and conduct the business in future upon those terms of advantage which past experience has proved, and this can only be accomplished with command of ready money. The Petitioners are prepared to shew that it will require a fum of ready money to discharge the debts, now remaining due, up to the first of January last, of Two Thousand Pounds, and that an addition of Two Hundred Pounds at least, to the usual Grant of Four Hundred Pounds, allowed for the support of the Transient Poor, is necessary. That the Petitioners have cheerfully devoted much of their time to discharge the various painful and disagreeable duties which their office requires them to perform: they seek no compensation for themselves, and would be greatly rejuiced could your Excellency find any persons competent to discharge the duties of the Commission. But, in the present state of the Establishment it is totally out of their power to conduct it any further. The Petitioners therefore humbly pray your Excellency to take fuch measures as, in your wisdom, you may deem expedient to preserve an Establishment, that common humanity requires, and which cannot be continued unless means are provided.

Ordered, That the foregoing Message from his Excellency, and the Petition, do lie on the table, to be perused by the Members of the House.

On motion of Mr. Haliburton, ordered, That the Auditor of Public Accounts ado furnish this House with a Return of the names of such Commissioners of

Roads and Bridges as have not accounted for the several Sums of Money appropriated for that service since the year 1806, with the amount of the several sums in one Schedule.

Mr. Shaw, pursuant to leave given, presented a Bill to regulate the Plaister of Paris or Gypsum Trade, and the same was read a first time.

Resolved, That the Bill be read a second time.

Then the House adjourned until to-morrow, at eleven of the Clock.

A petition of Alexander Walker, and others, inhabitants of Aylesford, was preferred by Mr. Crane and read, praying an aid to build a Bridge over the Annapolis River on the road leading from the Annapolis road to the South Mountain.

A petition of William Sabatier, and others, the Committee of Persons in. terested in the Trade, Fisheries and Agriculture, of the Province, was preiented by Mr. Pryor, and read, fetting forth, That the Fisheries, on which this Province most effentially depends for support, have greatly suffered duriing the last season from a scarcity of Salt, which obliged many of the persons engaged in that important branch of business, to abandon their intended voyages, to the manifest injury of their families. That the small quantity of that article at market was to very high in price during the last Spring and Summer that not only many of the Fishermen were deprived of their accusthried occupations, but eventually, the West-India supply became much less than it would otherwise have been, and thereby, in consequence of a limited. exportation, the Merchants fell short, also in the amount of their imports. from whence the Provincial Revenue principally arises. That it is almost Superfluous to observe to this Honourable House, that when the Fisheries and the attendant: Commerce flourishes, the effects circulate beneficially through every branch of industry, and that the farmer, the woodsman, and the mechanic, all therefrom receive an immediate and general impulse, but the remote consequences to this, and the other British Provinces, will be in all probability, either adversely or prosperously sincalculably great: for should the West-India Mands suffer from a deficient supply, when the whole trade is confessedly in possession of British Subjects, the consequence would prove as injurious to these Provinces, as a plentiful supply at this period would become beneficial to them, by offering to those who have the control of British Commerce, an undeniable proof of the incompetency or the competency of these Colonies in time of Peace, to furnish what may be required without the intervention of Foreign veffels and traders. That the article of Salt is of a bulky nature, compared with its price, and can only be imported free from loss, under circumstances which are liable to great fluctuations. That to apbly a remedy to this inconveniency, the wisdom of the Legislature of this Province gave a proportionate bounty on Salt, when that article was below a certain fixed price, by which policy the importation became at any rate a certainty, and induced the Merchants in England and Scotland, without hazard, rotemploy their Capitals partly in this branch of trade, which not only supplied the Fisheries directly, but the Timber trade also partook of the other part of their Capitals, which furnished shipping for a return voyage, and thus the freight out and home was put upon two articles, inflead of becoming an over burthen upon one; which at times, by reason of low prices of Timber at home, ceased altogether, to the ruin of the woodsman, the fruits of whose winter labour often found no customers in the spring and summer. That certainty being confessedly the best friend of Commerce, the providence of the wisest Legislators has, at all times, afforded to it their aid and support, where favorable opportunities presented themselves, nor can a more unquestionable means of nourishing the Fisheries of this Province occur, than that of renewing a Bounty on Salt, so extended in its duration as to place the distant Merchant in security. And praying that the House would be pleased to take their Petition into consideration, and grant to the Fisheries and Commerce of this Province the aid and support which to them may, at this important period, appear best calculated to answer the purposes set forth in the Petition.

Ordered, That the petition do lie on the table, to be perused by the Mem-

Mr Haliburton reported from the committee appointed to prepare an Address to his Excellency the Lieutenant-Governor on the subject of the Douglass and Philadelphia Grants, that they had drawn up an Address accordingly; and he read the Address in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

To His Excellency Lieutenant-General Sir JOHN COAPE SHERBROOKE, Knight GrandCross of the Most Noble Military Order of the Bath, Lieutenant-Governor and Commander in Chief in and over His Majesty's Province of Nova-Scotiu, &c. &c. &c.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES, IN GENERAL ASSEMBLY :

May it please Your Excellency;

E, the Representatives of His Majesty's loyal Subjects, the People of Nova-Scotia, in General-Assembly convened, beg leave to lay before your Excellency, the case of certain Settlers of long standing in the Township of Douglass, who are at this time insecure in the titles to their Lands.

These settlers are disbanded soldiers of the late 84th regiment, who began to improve on a large tract of Land granted in trust for them and others to Lieut. Col. Small in the year 1783. Owing to an error in this Grant, and to the subsequent absence and death of Col. Small, many of them had no separate titles given through him so intended; and after the lapse of some years, and after improvements made on those lands, under circumstances of peculiar dissiculty and hardship, it was found that many had not their lands definitely bounded, nor any legal titles to them. The discontents arising from this discovery, occasioned some settlers to withdraw from the Country, who had not been discouraged by the difficulties attendant upon improving a wildeness, but those settlers, in whose behalf we now address your Excellency, as are such, as implicitly confiding in the faith and the engagements of Government, at the time of their settling, that they should have good titles to their respective

respective quota of land free of expense, have continued to improve their lands, until at length, grown uneafy from repeated disappointment and long delay, they have petitioned the House of Assembly for relief.

The Grant before-mentioned made to Col. Small, covering much more land than those settlers laid claim to, Government some years ago caused the faid grant to be cicheated, engaging with the fettlers aforementioned, that their interest should not be affected by it; in consequence of which engage-

ment they acquiefeed in the escheat.

In pursuance of recommendations from His Excellency Sir John Wentworth, late Lieutenant-Governor, the Assembly of this Province took the proper fleps, at the expense of the Province, to have the lands of the seatlers, now under confideration, surveyed, and designated, so as that a grant to confirm them in their respective possessions, might pass without injury, and nothing flands in the way of perfecting such grant but the demand for fees by the officers of His Majesty's Government.

From the pledge given by Government, as above-mentioned, as well as from what is due to the simplicity and generosity of those settlers (who are poor and illiterate men) in submitting, without security, to a general escheat, it does not feem just that they should pay any fees; but that they should be confirmed in their possessions agreeably to the expectations they were authorifed to entertain when they first fettled in the Province—the present defect in their title proceeding from no default on their part.

We therefore humbly pray, in their behalf, that these settlers, to the number of forty-one (whose names are hereunto annexed) may be confirmed in their peffessions, and that your Excellency will be pleased to direct the necessary

measures to be adopted for that purpose.

We also humbly beg leave to state to your Excellency, that the proprietors of land within the limits heretofore covered by the new Philadelphia Grant, lately escheated under peculiar circumstances, are without any legal title to those lands, and that it seems equitable that a grant or grants should pass to them in such a way as not to occasion expense, agreeably to a former undertaking by His Majesty's Government.

Having the fullest considence in your Excellency's disposition to favor the industrious and poorer classes of loyal Settlers in this Province, and more efpecially the disbanded and worn out Soldiers who have fought an atylum in our Forests, we feel fully satisfied, that what is proper will be directed by your

Excellency in their behalf.

Refolved, That the faid Address be presented to His Excellency, by a comwittee of the House.

Ordered, That Mr. Haliburton, Mr. Marshall and Mr. Mortimer, be a committee for the above purpose.

Then the House adjourned until to-morrow, at eleven of the Clock.

And the said Message was read by Mr. Speaker, all the Members being uncovered, and is as follows:

Mr. Speaker, and Gentlemen of the House of Assembly:

NOT being sufficiently acquainted with the facts alluded to in your Address to me of the 9th instant, nor of the pledge stated to have been given to the settlers, under the grant made to the late Lieut. Col. Small, of Lands in Douglass, I deemed it expedient to ask the advice of his Majesty's Council on the subject, and I now submit to your consideration, the report made to me, by a committee of the Council, and approved of by them, relative thereto.

By this report it appears: That the claims of the fettlers under Lieut. Col. Small, to have their titles made good, refult from the interest which the Assemblies have felt, and the aids which they have at different times afforded, for the purpose of accomplishing this desirable object; and not from any pledge given on the part of the Executive Government. As, however, common justice seems to require, that such of these settlers as belonged to the late 84th Regiment, and had an interest in the Escheated Grant to Lieut. Coi. Small, should have their titles, under that Grant, made good to them without expence. I hope the Assembly will be disposed to complete the good work they have began, by granting the further aid which, by the report, appears to be necessary, and no endeavours on my part shall be omitted, in the application of it to the purposes intended.

I feel it my duty to state further, that the Royal Additional Instructions, under which Grants of Lands are now made, limiting the number of acres to five hundred for each settler and his family; I should not feel myself authorized to exceed that amount in any case, without the special leave of his Majesty's Government, for which, in the case of the settlers under the Philadelphia Grant I have particularly applied; and should such permission be obtained in that case, I should have no difficulty in extending the same indulgence to the aforementioned settlers at Douglass.

Mr. Archibald reported from the committee appointed to join a committee of His Majesty's Council, to prepare an Address to His Excellency

X

the Lieutenant-Governor on the subject of the Coal Mines in this Province, that the joint committee had drawn up an Address accordingly, and he read the Address in his place, and afterwards delivered it in at the Clerk's Fable, where it was read and is as follows:

To His Excellency Lieutenant-General Sir, JOHN COAPE SHERBROOKE, Knight Grand Cross of the Most Honourable Military Order of the Bath, Lieutenant-Governor and Commander in Chief, in and over His Majesty's Province of Nova-Scotia, and its Dependencies, &c. &c.

THE HUMBLE ADDRESS OF HIS MAJESTY'S COUNCIL, AND THE HOUSE OF ASSEMBLY :

May it please Your Excellency,

Is Majesty's Council, and the House of Assembly, have deemed it expedient, in the present Session of the Legislature, to state to your Excellency the situation of His Majesty's Suljects in this Province, who are, in many parts of it, wholly dependent for the great article of Fuel upon the uncertain supply of Coal afforded by the Island of Cape-Breton; in the hope that your Excellency will take such measures as, in your wisdom, may appear best calculated to procure the attention of His Majesty's Government to the subject of this Address, which they deem of great importance.

The demand for Coal, which is daily increasing with the increasing population of this Country, is already so great and urgent, that the supply of that article from the Island of Cape Breton, is not only exceedingly expensive, but wholly insufficient. His Majesty's Garrisons in this and the neighbouring Provinces, as well as the Inhabitants of Halifax, are supplied from the Coal Mines at Spanish River in the Island of Cape-Breton, which is a harbour exceedingly unsafe at the place of shipment, and quite inaccessible during the Winter Months, likewise vessels resorting to those Mines, being frequently disappointed in procuring cargoes, the demand being greater than the supply, the price, owing to delay and frequent losses of freight, has of late years become so greatly enhanced, that the poorer classes of the inhabitants cannot afford to purchase such quantity as is absolutely necessary to their comfort in this climate.

They further inform your Excellency, that Coal is to be found in great abundance, not only in the eastern and western parts of this Province, but also in several of the midland Counties, and the communication afforded by the numerous harbours, bays and rivers, would enable the Inhabitants to transport it with great facility to all the principal Towns and Settlements, and thereby afford them a regular and ample supply.

The use of Wood for Fuel, even in those parts of the Province where it can be procured, is attended with many inconveniences, the great quantity which is consumed during the long Winters, requires the constant employment of many months in the year of the farmers, their servants and teams; in consequence of which, their attention is taken from the cultivation of the ground and all agricultural pursuits, and also a great quantity of excellent timber, of the sirst utility for other domestic purposes, and likewise of great value to this Colony as an article of export to the Mother Country, is annually cut down and consumed.

We make this application to your Excellency, in the earnest hope that His Majesty's Eubjects in this highly favored Colony will be allowed the privilege of opening the Coal Mines in this Province, and supplying themselves with a material of the first importance to their comfort, and which the Land they

cultivate affords in the greatest abundance.

The ready attention your Excellency has ever afforded to the applications of the Legislature on former occasions, induces us to hope that your Excellency will take the earliest opportunity of recommending the subject of this Address to the favourable consideration of His Majesty's Ministers.

On motion, resolved, that this House doth agree to the said Address, and

that the Clerk do acquaint the Council therewith.

Resolved, That Mr. Speaker do communicate with the President of His Majesty's Council on the time and mode of presenting the said Address to His Excellency the Lieutenant-Governor.

PRAYERS.

Mr. Wiswall reported from the Committee appointed to examine the Commissioners

missioners of the Province Building, &c. and he read the report in his places and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That the Commissioners of the Province Building had been before the Committee, and informed them that the delays attendant upon the Province House Building have arisen chiefly from the difficulty of obtaining Workmen. That a hope is entertained by the majority of faid Commissioners that a Supply of Workmen will arrive during the coming Summer. That there is on hand a sufficiency of Stone to employ the Workmen at present engaged, and should those expected arrive in the Spring, the Stone would be sufficient to employ them till the middle of Summer; and a further supply could be easily obtained before that time, as the Commissioners had secured what Stone they That should the expected Workmen arrive in the wanted at Remsheg. Spring the Commissioners are of opinion that they could expend about the fum of £6000 the coming Season, in addition to the balance now in their hands, which would carry up the walls of the building to the eves, including a cornish. That the Commissioners have already expended something more than £14,000 in materials and workmanship, in which is included much of the infide finish of carpenter's Work, &c. and are of opinion that about £6000 more will carry up the Walls, but what fum will be required for putting on a Roof, and completing the exterior of the Building, they could not inform your Committee.

That the Commissioners could not state to the Committee that they were fure of obtaining Workmen the ensuing Season, although, from the return of Peace, and the information they have seat to their correspondents in Europe, they were inclined to hope and believe that workmen will come.

That the Commissioners are at present bound by no contract except that with the Architect, at the rate of Six Pounds per week: and even this is not tenaciously held to, by the Architect, who can find other employment. Another contract is indeed open for Stone, but the contract having been broken by the person who engaged with the Commissioners is a subject before the House of Assembly. That no material injury is to be dreaded to the Building, as far as it is gone, from the delays in the finishing of it that have taken place; and in case the work should be arrested for awhile, the whole that is done may be easily secured. That with respect to the mode of conducting the Building, the Commissioners. That the zeal and integrity of all the Commissioners appear equal, but two of them are of one opinion, and one of another, respecting the best mode of obtaining proper Workmen.

bers of the House.

To His Excellency Lieutenant-General Sir JOHN COAPE SHERBROOKE, Knight Grand Cross of the Most Honourable Military Order of the Bath, Lieutenant-Governor, and Commander in Chief, in in and over His Majesty's Province of Nova-Scotia, and its Dependencies, &c. &c.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES, IN GENERAL ASSEMBLY :

May it please Your Excellency,

E, His Majesty's dutiful and loyal Subjects, the Representatives of his good people of Nova Scotia, in General Assembly, beg leave most respectfully, to state to your Excellency, that we observe with concern, and alarm, the frequent arrival in this Province of Bodies of Negroes, and Mulattoes, of whom many have already become burthensome to the Public.

In compliance with your Excellency's humane recommendation, a fum of money is, by this Assembly, placed at your Excellency's disposal, for their

temporary relief.

We are well persuaded that these poor people have been cast upon this Province by unforseen events, not in the power of your Excellency to control: But it becomes our duty to state to your Excellency, for the information of such of his Majesty's Officers, as we have not the means of communicating with, that we are unwilling by any aid of ours, to encourage the bringing of Settlers to this Province, whose character, principles and habits, are not previously ascertained.

In the full persuasion, that our most Gracious King, in the exercise of his just prerogatives, will ever consider the interests of his faithful Subjects in this Province; we beg leave respectfully to suggest, that the proportion of Africans already in this country is productive of many inconveniencies; and that the introduction of more must tend to the discouragement of white labourers and servants, as well as to the establishment of a separate and marked class of people, unsitted by nature to this climate, or to an affeciation with the rest of his Majesty's Colonists.

Relying upon your Excellency's approved zeal, in behalf of this Province, we humbly pray that your Excellency, will use your endeavours to probibit the bringing any more of these people, into this Colony, by making such representations to his Majesty's Ministers, as your Excellency may deem proper, or taking such other measures as to your Excellency may seem expedient.

We conclude this Address, with expressing our grateful sense of the attention on all occasions, shewn by your Excellency, for applications made to you, by the Representatives of his Majesty's Subjects in this Province, and with offering our earnest wishes for your Excellency's health and hap-

piness.

Mr. Speaker and Gentlemen of the House of Assembly,

IT is very gratifying to my feelings, to learn that the Sums which were from time to time placed at my disposal by the Provincial Legislature, during the late war with the United States of America, have in your opinion been managed by me with care and economy.

From you, Gentlemen, who have had an apportunity of obtaining the most correct information upon this subject, such an honourable testimony in itself would have been an ample recompence for any pains I may have taken in the execution of this part of my duty.—But to these expressions of approbation you have most liberally added such a proof of your good opinion, as claims my sincere and most grateful acknowledgements. Previous, however, to my acceptance of your valuable present, I conceive it will be my duty to submit your offered kindness to the Prince Regent: and, should His Royal Highness not object to my receiving it, I shall with pride and pleasure accept this distinguished mark of your esteem.

After which Mr. Speaker spake as follows:

MAY IT PLEASE YOUR EXCELLENCY,

Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the House of Assembly,

Since I had the honor of addressing you at the opening of this Session, a Treaty of Peace and Amity has been concluded between Great-Britain and the United States of America, the ratification of which has afforded repose, from the miseries of War, to the whole Christian World.

This happy event will I doubt not call into action the diligence and enterprise of the industrious inhabitants of Nova-Scotia: and as there is every reason to believe, that His Majesty's Government will extend its softering care to the Commercial Interest of this rising Colony, I anticipate, with the most fanguine expectations, the prosperity to which the Province is likely to attain from the commendable exertions of her industrious and loyal population.

I thank you very cordially for the liberal arrangement you have made in aid of the various fervices which this flourishing and improving Province now requires from its Legislature; and I am happy to embrace the opportunity, which your diligence and attention has afforded me, to release you from the labours of the present Sessions, and to permit your immediate return to your respective homes.
