THAT RANSOM.

Constantinople, Nov. 1, via Skagway. Nov. 9.—Turkey will resist the demand for repayment to the United States of the ransom demanded by the Bulgarian bandits for the return of Miss Stone.

First—Miss Stone, although warned of the dangers of going over the road persisted in doing so.

Second—Miss Stone did not notify the authorities of her intended trip or secure an escort, which precaution even foreign consuls take when traveling through that district.

Third—That the brigands are Bulgarians and that their sanctuary is on Bulgarian soil.

WAS JEALOUS.

Toronto, Nov. 1, via Skagway. Nov. 9.—John Armstrong, a marble polisher of this city, last night murdered his young wife by smothering her. Jealousy was the cause.

RACE RIOTS.

Raleigh, N. C., Oct. 31, via Skagway. Nov. 9.—A serious race riot is in progress here as the result of Deputy Sheriff Butler being shot by a drunken negro.

R. R. WRECK.

Grafton, W. Va., Oct. 31, via Skagway. Nov. 9.—Eight officials of the Baltimore & Ohio railroad were killed in a wreck on that line last night.

BELK IS OUT.

Ottawa, Nov. 1, via Skagway. Nov. 9.—Langlois Bell, assistant gold commissioner at Dawson, has been dismissed for irregularities.

SCHLEY OFF RACK.

Washington, Oct. 31, via Skagway. Nov. 9.—The examination of Admiral Schley by the court of inquiry was completed today.

BLACK PLAGUE.

San Francisco, Oct. 31, via Skagway. Nov. 9.—One death has so far occurred here from bubonic plague.

E. E. JESSUP IS NOT DEAD WINTER MAIL ROAD NEEDED

Club Waiter Who So Mysteriously Disappeared Some Weeks Ago Stopped Two Days at a Roadhouse—Gave the Roadhouse Man Important Papers—Letter Received.

Did Jessup, the man who disappeared so mysteriously and suddenly on the 26th of last month, meet with foul play or did he shake the dust while others think it to be genuine, as it is concerning a transaction which was known only to a few parties. The new developments in the case are now being looked into, and the corroboration or denial of the story will be ready by Monday, when the complete details will be given for publication.

MUSICAL CONCERT

That Tomorrow Evening Will Be the Best of the Season.

The concert given by the Musical Club at the Auditorium tomorrow night promises to be the best ever heard in the city. Mr. McLeod, the tenor who has created such a future, will sing "The Lost Chord" by Sullivan. Miss Kreig will be heard in an aria adapted to the beautiful intermezzo from "Cavalleria Rusticana," with violin obligato by Mr. Walcott, and Miss Jewell will render a new sacred solo, "In a Manger Rest a King." The orchestral numbers, too, are of exceptional interest, including a descriptive piece by Leiders, selection from "Mignon," a flute solo by Mr. Stewart, and several of Sousa's latest productions.

In Order That Dawson and Yukon May No Longer Be in Relentless Grasp of the W. P. & Y. R.—Public Good Now Demands Government Road to Selkirk.

The disgraceful, unpardonable manner in which the mail has been handled during the past 30 days has made it well nigh imperative that the proposed overland road between Dawson and Whitehorse, or at least as far as Selkirk, be constructed next season without fail. It is too late to think of taking active steps in such direction this year, there being no funds available for the purpose, and the climatic conditions being such that road building in mid-winter is out of the question, but the movement having for its object the desired end must be started at once. Nearly two weeks elapsed between the arrival of the mail on the Emma Knott and that which came yesterday on the Nora, and almost the same time intervened between the Emma Knott's mail and that immediately preceding. The arrival of the Nora may be regarded as an accident, and the "same" thing might not happen again in years. If she had not made her now famous trip the probabilities are the remnants of Dawson might not have received another mail for weeks to come. When the next will arrive is purely a matter of conjecture. Word was received yesterday that a canoe load was en route and could be expected by Sunday, but there is nothing certain about it, and the amount said to be in the consignment, but 265 pounds, is so meagerly small as to be but a drop in the bucket. The White Pass route, the mail contractors who receive the magnificent sum of \$65,000 for carrying the winter mail, have shown an apathy in the matter highly reprehensible. Never before since Dawson has been in existence has the service been so utterly wretched, in fact, there may be said to be no service, no mail coming in, none going out, and none can tell when conditions will change. The contractors offer as an excuse the impracticability of navigation at present, which has a small atom of truth in it, but they are receiving an enormous sum for the service which they are making no attempt to render, hence the absolute necessity of finding other means of communicating with the outside world during the closing of navigation and while the ice is breaking up in the spring, a route which would also be used continuously throughout the winter. Such a route exists, it has been pronounced practicable and the most strenuous efforts will be put forth at the coming session of parliament to secure an appropriation sufficient to put the proposed road in next summer. Necessity and the welfare of the public in this the richest spot in the Dominion of Canada demand it, and then, too, for at least six months in the year the Yukon would be free from the blood sucking tentacles of the White Pass octopus.

Over a year ago the agitation of a proposed overland road was begun, the matter reaching the point where a preliminary reconnaissance was made under the direction of Mr. Tache. The investigation demonstrated the ease and comparatively small cost which would attend the cost of construction and the maps and data are now before Mr. Tache, minister of public works. Of the 150 miles, approximately, between here and Selkirk, over 50 are already built and in everyday use. Twenty more are partially constructed and with but little expense can be widened out suitable for teams. The projected route lies by way of the present government road to Gold Run, Montana and Clear creeks, thence in an almost air line from the confluence of the latter with the Stewart to Selkirk, at which point the Yukon crosses from Selkirk the present winter trail is followed to Five Fingers. Here the river is left for the last time, the road bearing well off to the right, as one proceeds from Dawson, leaving Lake Lebarge on the left and striking Fifty-nine river a short distance up the Tahkaneen, the latter being but 75 or 20 miles below Whitehorse.

The distance saved over the present winter trail is over 87 miles, and by its use the time between Dawson and Whitehorse could be shortened 48 hours. Commissioner Ross when approached upon the subject today was heartily in accord with the idea.

"This being my first winter in Dawson," said the governor, "it is only at the present time that I am able to appreciate the difficulty of getting mail in and out during the time intervening between the close of navigation and the arrival of safe traveling over the ice. You may say that if the proposed overland road is pronounced feasible by the government engineers and the cost is not too enormous, I shall strongly advocate its construction next year. To build it now is of course out of the question, as we have no money, but I shall endeavor to have the estimates secured this winter so that the funds will be available next summer. The money will have to be gotten through an appropriation by parliament and would be used under the direction of the board of public works. Parliament will convene the latter part of January and will sit probably three or four months. No, I do not think the appropriation would be one specially made, but would be included in the general appropriation for roads for the Yukon territory. During the absence of Mr. Tache, the public works department in the territory is in charge of Mr. Bertrand, and if he recommends the construction of the road as being feasible and at a moderate cost it shall certainly receive my hearty endorsement."

Postmaster Hartman, who is probably more concerned than anyone

(Continued on page 4.)

THE STATE ELECTIONS

Many of the Common Wealths of the United States Prepare to Choose Officers—The Struggle for Control in New York—Col. Bryan's State Is Very Apathetic.

New York, Nov. 4, via Skagway. Nov. 9.—Elections occur tomorrow in several of the states of the union. The municipal contest in this state calls for more than passing notice by reason of the fact that the national contest in 1904 may hinge upon the result of the local election.

Edwin M. Shepard of Brooklyn is the candidate of Tammany hall, while opposed to him is Seth Low, the president of Columbia College, and formerly mayor of Brooklyn. Low is pledged to put down everything in New York that is vile, repellent, depraved and corrupt.

IN OHIO.

Columbus, Ohio, Nov. 4, via Skagway. Nov. 9.—The election in this state is a straight contest between the Democrats and Republicans. The former claim the state for their gubernatorial candidate, Col. Kilbourne. Senator Foraker is seeking re-election.

BRYAN'S STATE.

Lincoln, Neb., Nov. 4, via Skagway. Nov. 9.—Little interest is manifested in the approaching election. William Jennings Bryan has been endeavoring to put vigor into the campaign but without success. A Republican victory seems assured.

IN KENTUCKY.

Louisville, Ky., Nov. 4, via Skagway. Nov. 9.—In this state members of the state assembly are to be elected who will select a successor to U. S. Senator W. J. Deboe. There will also be elections for county officers and for municipal officers in cities of first, second and third class.

IN IOWA.

Des Moines, Iowa, Nov. 4, via Skagway. Nov. 9.—The Republican will easily defeat Cummings as Governor.

IN SOUTH DAKOTA.

Pierre, S. D., Nov. 4, via Skagway. Nov. 9.—The election in South Dakota is confined to the selection of eight district judges and the settlement of purely local questions. The odds are in favor of the Republicans.

IN COLORADO.

Denver, Nov. 4, via Skagway. Nov. 9.—Colorado will cast a heavy vote, although county officers only will be elected.

IN KANSAS.

Topeka, Nov. 4, via Skagway. Nov. 9.—In this state all the counties will vote for commissioners and township officers. The election, although it is purely local, is interesting because it is the first held under the anti-fraud law.

IN MARYLAND.

Baltimore, Nov. 4, via Skagway. Nov. 9.—The new election law has made matters in Maryland very un-

certain. The legislature to be chosen tomorrow will select a senator to succeed Wellington. Democrats have most favorable outlook.

IN CALIFORNIA.

San Francisco, Nov. 4, via Skagway. Nov. 9.—Municipal officers will be elected in this city. There are three tickets in the field, as follows: J. S. T. Democrat; Asa R. Wells, Republican; and Eugene Schmitz, Union Labor candidate. The Call and Chronicle are both supporting Tobin, while W. R. Hearst is personally conducting the Examiner on behalf of Schmitz.

IN NEW JERSEY.

Jersey City, Nov. 4, via Skagway. Nov. 9.—Republicans claim a plurality for New Jersey of 18,000 Democrats are certain of not less than 8,000.

IN BOSTON.

Boston, Mass., Nov. 4, via Skagway. Nov. 9.—A very quiet campaign terminates by the admission of the Democrats that a Republican victory is certain.

IN MISSISSIPPI.

Jackson, Miss., Nov. 4, via Skagway. Nov. 9.—All the candidates for state offices are Democrats. Local issues govern.

CONCESSION SNAG.

Vancouver, Nov. 1, via Skagway. Nov. 9.—James McOgilvray left today for Ottawa where he will submit to the government a statement antagonistic to the Treadgold water and ground concession. He says it is not possible in justice to understand how or why the concession was ever granted.

A GO THIS TIME.

London, Nov. 1, via Skagway. Nov. 9.—The divorce of Countess Russell having been made absolute, Earl Russell and Mrs. Sigmerville were at the registry office of the city this morning and united in marriage.

FATHER IS HERE.

Vancouver, Nov. 1, via Skagway. Nov. 9.—Annie Johnson, whose father is a barber in Dawson, died yesterday of scalds received through upsetting a tea-pot containing boiling water.

NEW LIBERALS.

Montreal, Nov. 1, via Skagway. Nov. 9.—Baillert, Delange and Pilon were elected from three Quebec districts. No Conservatives were nominated.

MASSEY DEAD.

Toronto, Nov. 1, via Skagway. Nov. 9.—W. H. E. Massey, a millionaire of this city, is dead.

DOINGS OF YUKON COUNCIL

Matter of Sanctioning People's Petition Now at Ottawa Asking for Wholly Elective Council Insisted Upon by Councilmen Wilson and Prudhomme—Much Business Is Transacted.

Instead of holding its session in the evening, as was formerly the practice, the Yukon council met Thursday afternoon in its regular monthly assembly. The change proved a wise one on the part of the commissioner, as at 6 o'clock in the afternoon the accumulation of business in the council's hands had not been entirely gone over and it became necessary to continue the session in the evening.

A great deal of the time of the council was occupied in considering the miners' protection ordinance section by section, it finally being passed and now standing as the law of the territory. The incorporation ordinance did not come up, though it was officially stated that with the exception of a few minor details it was ready for presentation.

At the convening of the council Commissioner Ross occupied the chair, there being present Mr. Justice Dugas, Gold Commissioner Senkler, Major Wood, Legal Adviser Newlands, Councilman Wilson and Councilman Prudhomme, all the members excepting Registrar Girouard. The commissioner notified the members that Mr. Newlands had been sworn in as legal adviser, received his commission and was now a regular member of the council. Councilman Wilson expressed pleasure in welcoming to the council one so well and favorably known for his learning and erudition. Mr. Justice Dugas likewise extended his felicitations.

Under the head of petitions, Mr. Senkler presented one from Mrs. Ferguson asking for payment of the sum of \$2,500 to her for street numbers, signs, etc., which she has caused to be erected throughout the city. Referred to the committee on public works.

Mr. Justice Dugas presented a petition from the citizens of Whitehorse asking aid in the establishment of a free library. The estimated cost of maintaining the same is \$175 per month for rent, care, etc., and \$50 per month for literature. Referred to the finance committee.

Mr. Newlands filed a petition in behalf of the Hadley stage line, asking that an ordinance be passed granting them the right to increase their capital stock to \$60,000. It was stated that by reason of a combination of interests recently made the assets of the company were now over \$50,000. The legal adviser suggested that as the company had incorporated under the joint stock ordinance, he would move instead of granting the petition of the petitioners to pass a new ordinance having in effect the same purpose. Such action was taken, the increased capitalization being divided into 600 shares of \$100 each.

Mr. Prudhomme asked if any reply had ever been heard from a memorial forwarded to Ottawa some months ago, and if so, what was the nature of such reply. He stated the memorial referred to requested the amendment of certain provisions in the mining regulations. A formal receipt from the deputy minister of the interior was read by the commissioner announcing the arrival of the memorial and adding that it would receive respectful consideration.

Mr. Wilson again asked the council for its endorsement and recommendation on two petitions which had been forwarded to Ottawa, one praying for two representatives in parliament and the other asking for a wholly elective council. The request of Mr. Wilson was the same made by him at the last meeting of the council, at which time the objection of the council's endorsement was made by Justice Dugas on account of the petitions of copies thereof not having been produced so it could be seen who were acting as sponsors for them. As on the previous occasion, Mr. Dugas asked if the petition bearing the signatures was present. Mr. Wilson replied that the originals had been forwarded to Ottawa some time ago and he regretted very much that he could not produce a list of the petitioners in full. He, however, had one of them and portions of another, and stated that the petitions sent were the largest and most extensive signed of any that had ever been forwarded from the Yukon. Mr. Prudhomme seconded the motion of Mr. Wilson, but before putting it to a vote, the commissioner suavely remarked, his suggestions acting like oil upon troubled waters.

"I am sure that every member of the council will endorse to a certain extent the sentiments expressed in the petitions referred to. The desire for representation in parliament is only in keeping with the natural sequence of things, but as the question of a wholly elective council, there may be some difference. There is no question as to the desirability of representation, but to give a wholly elective council without any increase of power I do not consider judicious. Then, too, I consider when legislative enactments are de-

the diameter to four inches in order that there might be no forfeiture of insurance due to a slight technicality. As to the question of better protection from fire caused by electric light wires, in the provisions added to the ordinance requiring more perfect insulation, the matter of the liability and where it falls came up, whether on the tenant or the owner of the building where changes were ordered made and how they complied with. Mr. Dugas suggested that the provisions of the ordinance should be cut off. The provisions effecting the wiring of a building are as follows: "(a) Whenever a connection is made between a larger and a smaller conductor at the entrance to or within a building, some automatic device must be introduced in the circuit of the smaller conductor whereby it shall be interrupted whenever the current passing through it is in excess of its safe carrying capacity."

"(b) The wires passing through the exterior wall of a building shall be firmly encased in substantial tubes of non-conducting material, not liable to absorb moisture; "(c) Whenever wires are carried through doors or partitions in buildings they must be surrounded by a special insulating tube of substantial material; "(d) Exposed wires must be covered with at least two coatings, one of insulating material next the wire, and another outside of this, material calculated to protect the former from injury; "(e) In running along walls and the like, wires must be rigidly attached to the same by non-conducting fastenings and must be placed at a distance from each other of eight inches for are lights and two and one-half inches for incandescent lights, and whenever they approach any other wire or conducting body capable of furnishing another circuit or ground connection, they must be rigidly secured and separated from the same by some continuous solid non-conductor of at least one half inch in thickness."

The following penalty is provided for tampering or interfering with the fire alarm boxes: "Anyone interfering with any fire alarm box in the unincorporated town of Dawson, except for the purpose of giving a bona fide alarm of fire or unless authorized by the chief of the fire department, and everyone tampering with, injuring or destroying any such fire alarm box shall be guilty of an offense and liable on summary conviction to a fine of \$50." An ordinance was presented by Mr. Newlands defining the limits of Dawson and Klondike city. The bill was prepared from notes of a survey made by the superintendent of surveys, the description being advanced to its final reading and passed.

The council then resolved itself into a committee of the whole for the purpose of considering the miners' protection ordinance, a verbatim copy of which was published in yesterday's issue. At the evening session the taxation ordinance and other matters pertaining to the assessment and levy for the current year came up. The present is the last regular meeting of the council which will be held in the court house. The next session will be held in the council chamber in the new administration building.

Whereas, the present regulations regarding the cutting of wood on hydraulic concessions is causing much trouble and litigation; and Whereas, the hydraulic concessions are being worked, and as there is no assurance of their being worked in the near future, this council respectfully recommends to the honorable minister of the interior to amend the present regulations so that any bona fide miner be allowed to cut wood for the working of his property on grounds covered by the hydraulic concessions, under the same conditions and regulations as if such ground was vacant Dominion land; The commission stated in reference to the wood cut had had inspectors appointed to make a number of examinations, and in instances where miners could not procure wood except by hauling it a long distance, he had issued permits allowing them to cut and take wood from the concessions. Such permits would continue to be granted where it was shown they were made in good faith.

Mr. Wilson introduced the ordinance providing a sub-section to the ordinance already in force respecting the medical profession. The purposes of the section, it was stated by Mr. Newlands, was merely to provide for such Canadian physicians who had received their education in countries other than Canada, and who under the present ordinance are disqualified from practice. He instanced a case here in the city where a gentleman highly educated in the practice of medicine and surgery—a Canadian, yet from having received his education in the United States he was barred from practice. The sub-section as passed reads as follows: "All bona fide medical practitioners practicing in the Yukon territory at the date of the formation of the college of physicians and surgeons, who have produced evidence of having attended a recognized college or school of medicine for a term of three years, and a diploma of qualification for the practice of medicine, surgery and mid-wifery, obtained from such medical college or school, shall be eligible for admission to the college of physicians and surgeons of said territory upon payment of the sum of \$100."

Mr. Newlands introduced an amendment to the fire ordinance which, after considerable discussion, was passed. By it the fire limits are extended from Third avenue to Ninth avenue. A change was also made in the size of the thimbles used through which stove pipes pass. The former ordinance requires the air chamber should not be less than four and a half inches in diameter and as a great many now in use are but four inches and numbers of insurance policies have been written subject to the full compliance of the building insured with the fire ordinance, it was thought best to reduce

the diameter to four inches in order that there might be no forfeiture of insurance due to a slight technicality. As to the question of better protection from fire caused by electric light wires, in the provisions added to the ordinance requiring more perfect insulation, the matter of the liability and where it falls came up, whether on the tenant or the owner of the building where changes were ordered made and how they complied with. Mr. Dugas suggested that the provisions of the ordinance should be cut off. The provisions effecting the wiring of a building are as follows: "(a) Whenever a connection is made between a larger and a smaller conductor at the entrance to or within a building, some automatic device must be introduced in the circuit of the smaller conductor whereby it shall be interrupted whenever the current passing through it is in excess of its safe carrying capacity."

"(b) The wires passing through the exterior wall of a building shall be firmly encased in substantial tubes of non-conducting material, not liable to absorb moisture; "(c) Whenever wires are carried through doors or partitions in buildings they must be surrounded by a special insulating tube of substantial material; "(d) Exposed wires must be covered with at least two coatings, one of insulating material next the wire, and another outside of this, material calculated to protect the former from injury; "(e) In running along walls and the like, wires must be rigidly attached to the same by non-conducting fastenings and must be placed at a distance from each other of eight inches for are lights and two and one-half inches for incandescent lights, and whenever they approach any other wire or conducting body capable of furnishing another circuit or ground connection, they must be rigidly secured and separated from the same by some continuous solid non-conductor of at least one half inch in thickness."

The following penalty is provided for tampering or interfering with the fire alarm boxes: "Anyone interfering with any fire alarm box in the unincorporated town of Dawson, except for the purpose of giving a bona fide alarm of fire or unless authorized by the chief of the fire department, and everyone tampering with, injuring or destroying any such fire alarm box shall be guilty of an offense and liable on summary conviction to a fine of \$50." An ordinance was presented by Mr. Newlands defining the limits of Dawson and Klondike city. The bill was prepared from notes of a survey made by the superintendent of surveys, the description being advanced to its final reading and passed.

RECEIVED BY WIRE. HOT FOR TURKS. Paris, Nov. 1, via Skagway, Nov. 9.—France today sent a large division of her Mediterranean fleet under sealed orders to Smyria with instructions to force settlement by Turkey of French claims. The fleet is not expected to arrive until Saturday, which will give the Sultan three days of grace to think the matter over. It is anticipated that a settlement will be made. To add to the Sultan's troubles 600 officers and non-commissioned officers mutinied yesterday and were only appeased by a promise of immediate settlement of salaries in arrears.

WINTER MAIL ROAD NEEDED (Continued from page 1.) 'He, is enthusiastic over the new road. He said: "Mr. Tache told me the road was quite feasible and could be built at comparatively little expense. When I was in Ottawa last winter I brought the matter before parliament with the result that Mr. Tache instructed Mr. Tache to secure all the data necessary concerning the proposed road, including the probable cost. It was too late to get in the estimates then, but I am in hopes they will go through this year. The road must come eventually, and the sooner the better. There is a firm here which stands ready the moment the road is completed to enter into a contract to carry the winter mail for one-third less than what is now paid, a saving of \$20,000, and if desired they will give a bond in double the amount of their contract insuring the carrying out of the agreements made in the Caribou country a number of years ago after the government had built good roads we had our freight hauled in the winter time (40 miles at cost of but 8.5 cents a pound, and if this road were put in many of the merchants would freight their spring stocks of goods in overland instead of being compelled to wait for them until the summer was nearly all over. The effect would be tremendously felt in the upper Stewart country, too, where miners could have their ore taken in for a considerable sum. But the principal advantage would of course lie in the mail, which would come and go uninterrupted, regardless of the condition of the river."

On Wednesday evening Mr. and Mrs. Chas. McDonald entertained the executive committee of the S. P. C. A. Society, at their beautiful residence on Seventh avenue. The committee decided to hold an open meeting for the benefit of the society at the Board of Trade on next Tuesday at 7 o'clock. After the business of the evening had been transacted the meeting was served a luncheon which was thoroughly appreciated and enjoyed by all.

Master Alex. McDonald, the 13-year-old son of Mr. and Mrs. Chas. McDonald, enjoys the distinction of being the only youngster who has made the round trip from Toronto to Dawson and returned unaccompanied. Master Alex. made the trip in the latter part of September. A letter was recently received by his father notifying him of his son's safe arrival at the Upper Canada College of Toronto where he will remain throughout the winter.

One of the most successful affairs of the season was the party given at the residence of Mr. and Mrs. F. T. Congdon, Thursday evening. The party was in the character of a surprise for Mr. Congdon, and was arranged by Mr. and Mrs. Captain Starnes and Mr. and Mrs. Green. About forty of the elite of Dawson's society were present, and the evening was passed with dancing and music. At midnight a delicious luncheon was served, and about 2 a. m. the guests took their departure, all expressing themselves as having enjoyed a most pleasant evening.

On Thursday evening Capt. Starnes gave a box party at the new Auditorium theatre. The comedy "Niobe" was greatly enjoyed by all present, among whom were Capt. and Mrs. Starnes, Mrs. French, Major Z. T. Wood and Mr. George Wood.

The smoker given by the N. W. M. P. last evening was a "feast of reason and a flow of soul." Three hundred and thirty present, including the members of the force and their friends, and the merriment was continued until an early hour this morning. A finely selected program was rendered, including some of the best singers and speakers of Dawson. Ray Southard of the New-Sawco Co., Mr. Bittern of the Auditorium, and the renowned Freddie Brown, were in attendance and entertained the company with songs, recitations, etc. Included in the program were selections by the police band, songs by Const. Hell, Const. Wright, Chas. Harvill, Capt. Hunter, Corp. Piper, Const. Shaver, Sergt. Marshall, Sergt. Stillman, Corp. Cobb, Capt. Cosby, speeches by Major Wood, Capt. Starnes, R. P. McLennan, Corp. Tweedy, Joe Barrett, L. L. Bell, selections by the fire brigade orchestra and duets by Messrs. Stevenson and Cowan. The occasion was one which will long be remembered.

Preparations are now complete for the grand concert which is to be given by the choir of St. Andrew's church, on next Monday evening, in the new church building on Church street. The program is one of the best ever arranged for a concert in Dawson.
