FOURTEENTH YEAR

TRAMPLED TO DEATH.

Nine Killed in a Panic in a Polish Synagogue.

PLOT TO BLOW UP VIENNA BUILDING

A Second Pompeii Discovered in Greece.

The English and Continental Club Strike - Spaniards Protest in Their Demonstrations of Loyalty - Counterfeit English Bank Notes in Circulation - The Dejong Murders - A South African Chief's German Gaiter - London - Radio's Peculiar Request to Cabinet Ministers.

WARSAW, Sept. 28.—A false alarm of fire was given to-day in the synagogue at Kalwary, near Suwalki. The building was crowded with worshippers. It started for the doors, and despite the shouts of the rabbi that there was no fire fought to get out. After a struggle of 10 minutes two-thirds of the congregation were still in the synagogue. As no fire had appeared they became calmer and with the aid of the caretakers and the rabbi quieted down.

Nine dead bodies were found near the exits and 20 persons lay unconscious and bleeding where they had been trampled. Fully 100 persons were injured in the rush. Fifteen are suffering from wounds likely to cause death.

MEANT TO KILL HUNDREDS. A Diabolical Anarchist Plot Discovered in Vienna.

VIENNA, Sept. 28.—The police who raided the house in Siebenbrunnstrasse on Sept. 23, arresting several anarchists and discovering bombs, explosives, revolvers and bomb coats, also came upon several documents which led to the discovery of a gigantic plot to blow up the Parliament houses when the legislators met on Oct. 10; also to dynamite the town hall and a number of public buildings on each side of Kingstrasse, one of the finest streets in Europe. The Parliament building would then have held about 1000 people inside and around. The other buildings would contain many hundreds, and death would have been dealt to hundreds.

The Austrian police assert that the conspiracy of Chicago with the Vienna anarchist is fully established. The affair has caused great consternation in Vienna.

Gen. Clemente May Die. BARCELONA, Sept. 28.—Gen. Clemente, who was injured by the bomb thrown by the anarchist Pallas at the meeting of the Campesino, is now in a serious condition. His leg will have to be amputated.

A large number of arrests continue to be made here and at Madrid, Ceres and Bilbao.

THE BRITISH REVOLT. Foreign Intervention said to Have Been Asked By Residents of Rio.

LONDON, Sept. 28.—A private telegram received to-day from Rio de Janeiro says the bombardment of the city was continued this morning.

PARIS, Sept. 28.—A private telegram from Rio de Janeiro from an American source denies the report that the rebel Admiral Melles' ships were anchored by the land forts at the mouth of the harbor. It says that the forts are unable to shell the ships without running a tremendous risk of dropping shells into the city, in fact the forts being almost destitute of ammunition never fired a shot at the last bombardment. The inhabitants of the city are hoping for outside intervention. It is stated that the British Foreign Office has despatched a private messenger to the British Minister at Rio. Enquiries made at the British Foreign Office in London show that no such telegram has been sent to Rio.

Argentine Rebels Defeated. BUENOS AYRES, Sept. 28.—The Government troops in Santa Fe, after two days' hard fighting, have defeated the revolutionists.

MINERS MAY GO TO WORK. A Majority Favor Returning to the Pits.

LONDON, Sept. 28.—A miners' conference, where nearly all the districts in England were represented, met to-day at Chesterfield under the presidency of Commander Pickard. The meeting was a private one, but the Associated Press hears on the highest authority that a large majority favor resumption of work at the old rate.

The principal speaker was Mr. Thomas Bayley, member of the House of Commons for the Chesterfield division, and himself a mine owner. Mr. Bayley was one of the five members of Parliament who a few days ago guaranteed the repayment of a loan of £1,000,000 negotiated by the Derbyshire miners' association. Mr. Bayley urged the miners to remain faithful to the miners' Federation.

The Owners Issue a Manifesto. The Coal Owners' Federation of Great Britain to-day issued a long manifesto in regard to the coal crisis. It reviews the situation at length and declares that a continuation of the rate of wages which the miners had been receiving will mean work for the men for only one or two days in a week and eventually the closing of a large number of collieries. The owners, the manifesto says, offered first to arbitrate with the miners, but the miners refused. Now the owners have offered to send a committee to meet their former employer and see if there is any possibility of bringing about a settlement.

The Executive Committee of the Miners' Federation at Chesterfield to-night decided to oppose the sending of a committee to meet the representatives of the owners because they do not recognize the necessity of a reduction.

REFUSED A PERCENT REDUCTION. Warwickshire Miners Do Not Agree With Their Derbyshire Brethren.

LONDON, Sept. 28.—The striking coal miners in Warwickshire balloted yesterday on a proposal to resume work at a 5 per cent. reduction in their wages now and a

THE NEW U. S. TARIFF BILL.

DIFFICULTIES TO BE MET IN CONSTRUCTION.

The Problem is to Reduce Taxes and Meet a Deficit—Forecast of the Methods By Which It is to be Solved—The Bill Proposed—The House Will Be Repealed.

[Washington Special to N.Y. World.] WASHINGTON, Sept. 28.—Democratic members of the Ways and Means Committee are meeting every day to formulate a tariff bill, and incidentally are considering new forms of taxation by which the necessary revenue of the Government will be provided. It is too early to say definitely what all the changes will be, but as the bill comes from the committee the changes and reforms will be radical.

Mr. Wilson and his colleagues on the committee have approached the problem of reforming the tariff with the determination that the desire of the people who elected a Democratic president and a Democratic congress should be observed by Republican extravagance and by legislation designed to prevent tariff reform. The free list will be generally adhered to. Numerous changes will be made in the rates of duty imposed on manufactured articles. Duties will be abolished and the administrative feature of the law will be so amended that honest importers will not hesitate to be treated like thieves on whom rests the burden of proving their innocence. It may be that the reduction of duties will decrease revenues at first, but this decrease of revenues will not be the rule except for a short time. It has been calculated by experts that in a tariff bill prepared on the basis of the duties averaging about 20 per cent, that the following would be the ascending order of revenue from Customs duties for five years to come:

1894.....\$119,850,000 1897.....185,000,000 1900.....190,000,000 1903.....210,000,000 1906.....270,000,000

It is wise to calculate. Mr. Wilson and his colleagues are making a careful calculation on the basis of importations for the fiscal year 1893, and to assume a falling off in the revenues to the amount that make calculation will show. In order to avoid whatever difficulty there may be as the result of such tariff reductions, the bill will be made, additional revenue may be levied. Certain features of the tariff bill have been decided upon and certain others will be under discussion. It is a bill for the purpose of the task before the committee that the revenues, which have been falling off recently, must be increased by \$30,000,000 a year. Assuming this as the starting point, we may calculate how much the proposed increase to the free list will add to this sum. In the first place, wool will certainly be placed on the free list, and probably coal, iron and copper ore, lumber and flax. The duties collected on these articles during the fiscal year 1893 were:

Wool.....\$1,100,000 1893.....\$ 7,475,000 Lumber.....96,257,000 1893.....119,737,000 Iron.....18,189,000 1893.....20,883,000 Copper.....18,189,000 1893.....20,883,000

Deficit to be Covered.....\$10,883,000

This will make the deficit to be covered \$10,883,000. It is not for the need of greater revenues in places would also be placed on the free list, but the reduction of the rate of duty on wool, which is the most important article, would probably be sufficient to cover the deficit. The reduction of the rate of duty on wool, which is the most important article, would probably be sufficient to cover the deficit.

Under present contracts the sum is comparatively trifling, but it is an expenditure that has a possible profit in the long run. According to the report of the Secretary of the Interior with reference to the sugar plantations, the argument is made that the sugar plantations will be a source of revenue, but that as the plantations are to be taken away from the sugar growers, a source to restore part of the duty on the competing article would be unequal and, therefore, unfair treatment of the sugar planters. However, the argument will prevail if the tax is restored will be that it is essential to the revenue of the Government and that its imposition will enable the committee to reduce taxes on other necessities that are more serious burdens upon the people than the tax upon sugar. A strong pressure has been brought to bear by the sugar planters, but whatever the result may be, the burden of making the burden of taxation only lighter to the consumer. If the planters are thereby incidentally protected no harm is done, but the consumer.

The next source of revenue which a larger revenue may be derived is the increased tax on beer, recommended by David A. Wells. This, according to Mr. Wilson, is a measure which is advocated by the Internal Revenue Department, will increase revenues from that source by \$82,000,000. It is not probable that there will be

TAMMANY WON THE RACE.

LAMPLIGHTER BEATEN BY THREE LENGTHS.

Garrett's Clever Ride on Marcus Daly's Favorite. Another Match at 1 1/2 Miles Made. Tammany to Conquer 3 Days. Nancy Banks Falls in the Trial—Results for the Championship Game.

October 28, Sept. 28.—The match between Marcus Daly's colt Tammany and G. Walbaum's colt Lamplighter took place at this track this afternoon in the presence of 15,000 people.

Tammany easily vanquished the son of Spendthrift and Tormentor in as true a race as ever occurred in the history of the turf.

The winner was ably ridden by "Snapper" Garrison. He allowed Fred Ratz, who had the mount on Lamplighter, to make the pace to the head of the stretch and the last.

It was, too, there he let out a link on Tammany and the race was over. The chestnut passed his rival in three jumps and romped home the easiest kind of a winner in the last time of 2:05 1/2.

This time established a track record for the distance of 1 1/2 miles. Lamplighter started and argued his uncles, finished three lengths behind the winner.

The match was \$2000 a side, to which the Hudson County Jockey Club added a purse of \$5000, thus making the total value of the stake \$10,000.

Crowds go to the Hilltop. The pilgrimage to the Hilltop began early. A vast crowd came from the railroads, electric cars and in fact every known kind of vehicle and surged through the gates two hours before the saddling bell for the first race tolled its signal.

Everything was in favor of the match. The weather was perfect and the track was dry and fast. Neither pains nor expense had been spared to have the conditions favorable for a perfect test of the merits of the champions.

The judges for the day were Joseph J. Burke, president, Judge, and Col. S. D. Bruce and J. E. Brewster, secretary of Washington Park, Ontario, associate.

The crowd scarcely knew that Tammany as he received his warming-up gallop, but his friends were making themselves felt in the betting ring. Lamplighter, however, and his colors and received an ovation. In the betting ring at the opening the bookies chalked up 9 to 1 against each of the betting ring. Lamplighter, however, and his colors and received an ovation.

For a while the odds remained steady, but then the crush of Tammany money forced the price of that horse down until at post time 7 to 10 was best price obtainable on his chances, while as good as 11 to 10 could be obtained all round the ring on Lamplighter.

His owner had confidence. Marcus Daly, owner of Tammany, sent a big commission into the ring. The exact amount could not be learned, but several well-posted bookmakers said it amounted to at least \$20,000.

The bugle called the horses to the post at 4:15 exactly. Tammany was first to appear and was vigorously applauded. Lamplighter was second and the match was on.

Local immediately went Lamplighter in front, evidently having instructions to make a hot pace. Passing the stand Lamplighter was going easily a length in front of Tammany, but Tammany leaped ahead behind in that long, easy stride so peculiar to him.

Around the turn they swept with no perceptible difference in the distance between them. Lamplighter's adherents were shouting as they went down the back stretch, but Garrison made no move with Tammany until the far turn when he drove a half in and moved up to within a length of the brown son of Spendthrift. Then they swept into the stretch. Here the match remained on Tammany. In a twinkling he was 113 on even terms with Lamplighter; went past him and when it descended with cruel force Lamplighter's quivering muscles.

Tammy Spurred in Vain. "Lamplighter's beast!" roared 15,000 throats. Again and again the whip descended on Lamplighter, raising cruel welts on his glossy hide. Tammy spurred with a vigor and energy borne of despair. His efforts were futile, however. Tammany drew further and further ahead, until he was in an easy winner by three lengths in the last time of 2:05 1/2.

Mr. Walbaum was naturally disappointed at the result of his race and asked Mr. Daly if he would make another match for the same stake, the distance to be 1 1/2 miles. Mr. Daly had intended to retire from the turf to the stud in the event of his winning today's match, but he generously gave up this purpose for a time at least and agreed to give Mr. Walbaum another chance at his horse. Tammany will once again Lamplighter's foe in the new match.
