The congregation of St. James church picnicked at the lakeside on Saturday and had a most enjoyable day. An interesting part of the day's program was the presentation of a purse of \$100 to the departing pastor, Rev. S. P. Irwin, and one of \$45 to Mrs. Irwin, with the expression of many good wishes for their happiness in their new home at Kingsville and deep regret at their departure.

The summer meeting of the Brooke W. I. was held at the home of Mrs. D. Campbell, Tuesday, June 13th, with a good attendance. The meeting opened by the singing of the Institute Ode. The program consisted of an address by Dr. A. Ross, summer delegate, a solo by Mrs. P. MacGregor, a paper on "Cool and Healthful Dishes for Warm Weather," by Mrs. D. Campbell. The meeting closed by the singing of the National Anthem after which the hosts served a very dainty lunch.

At the recent telephone hearing on the proposed levying of an assessment on all subscribers to the Brooke Municipal Telephone System a sum of \$15 each to cover the deficit on the system and to repair the damages caused by the ice storm in March, the Railway Board were much in sympathy with the plans as laid before them and passed the proposition as favorable. Some complaints were made against the management of the system, but not much satisfaction was gained by the kickers, the Board complimenting the officials of the system for the very efficient manner in which they retaliated and got the system in working order again after the destructive ice storm. Many companies and systems, they claimed, were still foundering in an aimless manner, unable to recover from the blow.

The 1922 voters' list for the township is printed and copies can be had from the township clerk or at the Guide-Advocate office.

The regular meeting of the W. I. was held at the home of Mrs. W. J. Fuller with 15 members present. The meeting opened in the usual way by singing the "Maple Leaf" and prayer in unison, after the minutes had been read and accepted by the president, a discussion followed on the proposed memorial monument which the Women's Institute (with the help of the Town and surrounding country) have decided to erect this fall in honor of our fallen soldiers. Mrs. J. F. Dickson gave a talk on her trip to California which all enjoyed and Miss Joyce Fuller a piano solo after which the meeting closed with the National Anthem. Next meeting at the home of Mrs. Norman Stoner, July 4th. A full attendance requested.

The news of the passing of William Dean Hagle on Monday, June 26th, cast a gloom over the hearts of many friends and plunged the family and relatives into the deepest sorrow. It came as a shock to the community where he was known. He underwent an operation for appendicitis at his home on Friday of last week and failed to recover from the shock, passing away on the evening of the day mentioned. He leaves a sorrowing wife and two young children, a girl and a boy, to mourn his sudden demise; also his mother and one brother, Clare, on the homestead at Birnam, and one sister, Mrs. Black, of Forest. The funeral was held from the family residence, lot 25, con. 4, N.E.R. on Wednesday afternoon to Bethel cemetery, the service being held in Bethel church by Rev. C. L. Couzens. There was a very large attendance at the service.

WATFORD 11—PETROLEA 6

Petrolea threw a scare into the local fans on Wednesday afternoon when they had gathered together 6 runs up to the sixth innings with not a single Watford runner crossing the plate. Smith, the Petrolea pitcher, had the locals hitting easy pop flies for six straight innings. He eased up in the seventh and the locals got two runs. It was in the lucky old eighth that the fireworks started. "Slim" Millar started off with a long drive to left field by means of which he trotted around the circuit. Every one up after that hit the ball on the nose and scored five runs in quick succession. Harry Cooke came to bat with two on the bases and hooked one of Smith's curves for a long drive into right field over the race track scoring three more runs which ended the scoring for the game. Millar then struck out two men in the first of the ninth and Harry Cooke gathered in the third out on a fly to center field. It sure was a happy crowd that wended their way up town. The boys see nothing but a win in Forest on July 5th which will tie up the League.

NOTE AND COMMENT

Methuselah lived to be over 900 years of age, but there were no autos to dodge in those days.

They ought to hang "fresh paint" signs on some of the flappers you see on the street these days.

Dé Valera, probably, will ask that the murderers of Sir Henry Wilson be treated as prisoners of war.

While Great Britain is scrapping war ships some of the other nations are busy scrapping with each other.

Two persons in Canada paid income tax on one million dollars during last year. They don't live in Lambton.

Over one hundred thousand Canadians applied last year for positions in the Federal Civil Service. Most of them were likely looking for an easy job and sure pay.

London Daily Chronicle:—Get to, you city girls, and wash your faces! Many of you are young enough to save still something of the rose and white God made you, and the exquisite texture.

Protesting at the prohibitive cost of cheese and price of 13 cents a pound for bread, French deputies recommend prosecuting profiteers and those controlling wheat, meat, etc. Spoken for government intimates farm activities will be fostered and imports cut to minimum.

Forest preservation is a vital question these days. Every year Ontario's forest are being devastated through the carelessness of campers failing to extinguish camp fires or by throwing away cigar or cigarette butts among dry leaves. The Department of Lands and Forests of Ontario is endeavoring by a series of advertisements in the newspapers to draw the attention of the public to the great dwindling of our forest wealth by these causes and to stop this disastrous toll. Whether you are going camping or not it will pay to read carefully these advertisements.

Persons installing radio must pay the government \$1.00. Is this to pay for the use of the air or to give someone a job seeing the fee is paid?

Once a man gets into Government service he has either to steal something, get drunk, or hit the chief to get dismissed. In business if a man is inefficient he goes.

The story of the bloody affray at the Southern Illinois Coal Company's mine reads like a tale from Red Russia at its worst. That a dying man should be jeered at when lying out under a scorching sun, he pleads for water seems almost incredible. Yet women were among those who refused the boon.

There are too many undiscovered murderers. The Detroit News asks: Who killed Taylor? Where is Charlie Ross? Who shot Elwell? Who threw the Wall Street bomb? To which the Ottawa Journal adds: Who killed DeLorme? Who murdered young Farrell or Farrieton? Who killed Florence Kinraid? Where is Ambrose Small? and the list could be extended.

Kitchener Telegraph:—The United States Government has investigated and approved a new milk container. Up-to-date cities will eventually demand their use, for the glass milk bottle is doomed. Moreover, the new paper container cannot be refilled. It is made, filled with milk and sealed by machinery, and is germ proof and sanitary. It will cost less than the dairyman now pays to wash milk bottles. Milk and cream will come to the lips untouched by human hands and free from dirt of any kind. Sterilized paper containers will replace the familiar glass bottles with the paper lids and sometimes grimy sides.

Owen Sound Sun-Times:—One cannot escape the insistent suggestion, as one reads the daily reports of crime and consequences, that there must be something wrong with modern home life and education. Are things being made too smooth and easy for the children and youngsters? Is more store being set on a good time by the way than on getting somewhere worth while in the end? Is there too much parental and self indulgence? Are too many growing up with a distaste, if not a contempt for the simple life, the life of self-discipline and development, the life with ideals and a worthy goal, with a will to pay the price of real success instead of drifting with the crowd, who never give a thought to "the morning after" till it comes, and even then always blame someone for not saving them from themselves? Young fellows cannot too soon realize that they are the only ones who can save them from making fools and failures of themselves, and that they can't begin the job too soon nor keep on it too strenuously.

FIELD MARSHALL WILSON ASSASSINATED BY SINN FEINERS

London, June 22.—Field Marshall Sir Henry Hughes Wilson, former chief of the imperial staff, member of the British Parliament for North Ulster government, was assassinated outside his house in Eaton Square this afternoon.

Sir Henry was just stepping out of his automobile when he was confronted by two men who opened fire on him with revolvers. The field marshal fell mortally wounded, with several shots in his body, and died in a few minutes.

The two assassins were captured after a short chase, in which three policemen and a civilian were wounded. The arrested men, the Central News states, gave the names of James O'Brien, aged 24, no occupation, no address, and James Connolly aged 24, no occupation, no address. Scotland Yard announced that one of the assassins declared they were soldiers. They refused to designate their regiment. One of the murderers carried a letter revealing the fact that he was a member of the Irish republican army.

A few months ago Field Marshall Wilson accepted an appointment as military advisor to the Ulster government, and made frequent visits to Ulster. He spent most of his time in London, however, attending the House of Commons.

The war office believes that Irish extremists were responsible for the assassination. The murdered Field Marshall was buried in the crypt of St. Paul's cathedral where Nelson and Wellington lie. The funeral was an imposing one.

FOUND DEAD IN BED

The community was shocked on Thursday of last week to hear of the sudden death of Mrs. Stanley McLachlan of Brooke, who was found dead at her home.

Mr. McLachlan had gone to Petrolia on business in the afternoon, while their only child, a little girl of seven years, was in attendance at school. Upon returning after 4.00 when school was dismissed she found the door locked. Going around the house she gained entrance by forcing a window, and was horrified to find her mother lying on the bed dead. Rushing out of the house she called Duncan McLachlan who was working in a field near by, who came and found life extinct, she having been dead about two hours.

Coroner Dr. Axford was called and upon medical examination decided that an inquest was unnecessary. She was in her 31st year.

The funeral was held from the family residence, lot 7, con. 6, Brooke, on Saturday, to Alvinston cemetery.

THE ANDROCK PICNIC

Weather Delightful—Keenly Contested Program of Sports—Good Eats—Everybody Happy. Once again Time turned its wheels to the last Saturday in June and brought to attention every member of Andrews Wire Works. No better day could have been chosen for the Androck picnic for even before the picnickers were astride the sun, endeavoring to do his bit to add to their comfort, was brightening the day with his warm cheering beams.

You Need a Good Engine

You can't realize the money-saving value of a good farm engine until you've seen how much more quickly and efficiently you can clear up the numerous odd jobs about the farm. For milking, separating, churning, sawing, grinding, sharpening tools, mixing cement, shelling corn, filling the silo—there's nothing I know of that will give better service with so little attention as a Toronto Engine.

Be Sure You Put Them Out

CARELESSNESS with matches, cigarette butts, cigar ends, pipe ashes, camp fires, fly smudges, railway locomotives, slash-burning operations—human carelessness of some kind accounts for 97% of the forest fires which every year add further devastation to the northern areas of this province.

DON'T

- DON'T take any chances with fire in Ontario's forests. DON'T throw away cigarette or cigar butts, pipe "heels" or burnt matches until you are dead sure they are out. DON'T neglect to drown out your fire with lots of water. DON'T build your camp fire against a rotten log or stump; nor on windy points; nor near moss patches; nor at the base of a tree. Build it in a former fire place, or on a flat rock, or on a spot cleared down to the true soil below, or by the edge of the water. DON'T forget that the upper layer of ground in the forest consists of partially rotted wood which will burn.

Here are typical cases picked at random from last year's Fire Rangers' reports:

- The rangers on the Ombabka, to Port Hope canoe route in the far north on July 4th found an area 10 miles long by 4 miles wide which had been swept by fire since their previous trip. A camp fire left on a portage was the cause. A prospector on the Montreal River started a fire on July 7th which burned over 4,800 acres in Baden Township, destroying 1,000,000 feet of pine and 9,000 cords of pulpwood, and which required attention for a month. A party of fishermen camped on Porcupine Lake, Burton Township, Parry Sound, were responsible for a fire on July 10th, which burned over 25,000 acres and 2,000,000 feet of timber. Indians smoking moose meat started a fire on June 26th, which ran through 1,700 acres of young jack pine trees. Careless trappers on May 7th caused a fire in Head Township, which burned over 2,280 acres, half of it young white pine. The best way to fight forest fires is to prevent them.

The death of Mrs. Malcolm MacIntyre of Strathroy which occurred Friday at the family residence removes a unique personality from the district. Mrs. MacIntyre, whose maiden name was Charlotte Grant, possessed literary ability of a very high order, and a few years ago published a volume of poems entitled "Between the Gates," which received favorable comment.

Mr. Charles E. Burgess of Burgessville, the veteran clerk of North Norwich Township, had a close call from being electrocuted on Saturday morning last. During the electrical storm that passed over this district on the above morning, lightning struck the transformer in front of Mr. Burgess' residence, removed the insulation from one of the wires which pass over the top of the transformer, and as the case of the transformer is grounded the current passed down the ground wire and set fire to the pole near the ground. Mr. Burgess noticing the fire rushed out with a pail of water, and when he dashed it on the flames the current followed back on the water to the pail in the hands of Mr. Burgess, knocking him to the ground. It is very fortunate that he suffered no serious injury.

Summer Care of Warm Air Furnaces

A good many people, following the advice given in one of the many bulletins issued during the war, leave all of the doors of their furnace standing open when it is not in use. Our recommendation—based on experience is that when furnaces are not in use they should be kept closed up tightly.

Allowing cellar air to circulate freely through the furnace means that fresh moisture is constantly being brought in contact with the interior of the furnace, as a result of which a considerable degree of corrosion must take place. This is very clearly demonstrated in cases where the check damper in the smoke pipe has been left open during the summer. Where this is done, the pipe will rust out in a single season, whereas if the check damper and furnace doors are kept closed, this does not occur.

We advise cleaning out the furnace in the Spring, kindling a light wood fire to dry it out thoroughly, and then closing all the doors and drafts tightly, including the check damper. There is no way to prevent rust if the cellar is damp, but if these directions are followed there will, provided the cellar is dry, be very little corrosion.

BEAUMONT S. FLACK OBITUARY
 Corporal Beaumont S. Flack died at the Military Hospital at Byron on Friday, June 16th, 1922. "Beaunie" as he was familiarly called, was born in South Africa, reared and educated in England, and came to Canada to reside about 10 years ago. He found employment in the vicinity of Arkona, where his genuine qualities and attractive personality soon commanded such attention as to surround him with many friends. Although without relatives here, he had friends who were as true and staunch as any relatives could be.
 When war was declared and the empire called for volunteers, he like many others from the old land was prompt to respond and enlisted in 1914, within three weeks after the war broke out. He served at the front during nearly the whole war. He was wounded but returned to action, until finally late in the war, in 1918, he was so gassed as never to be able to further serve.
 Returned to Canada, he spent nearly four years in the military hospital in Byron, patiently awaiting the release which finally freed him from the physical weakness and disease.
 In conformity with his request, his remains were brought to Arkona. The home of William Evans was generously opened for his funeral. The roomy house and spacious lawn were required to accommodate the friends who gathered on Sunday afternoon to pay respect to the memory of the departed. His casket was covered with floral tributes, and his body rests in the beautiful cemetery at Arkona, the first to occupy the soldiers plot near which the memorial will soon stand.

 Miss Lillian Jacobs of London was the guest of Mr. and Mrs. W. R. Smith over Sunday.
 Mr. and Mrs. Horatio Parker, of Paisley, were guests of Mr. and Mrs. Seymour Langford last week.
 The Ladies' Aid of the Methodist church will meet at Mrs. Fred Richardson's on Wednesday afternoon, July 5th. A good attendance is requested.
 A large number of visitors attended last Sunday evening's service. We are glad to welcome the old boys and girls back among the old associates and associations.
 Sunday morning the subject in the Methodist church will be "The Seventh Commandment." In the evening the subject will be "Why did Christ grant the request of the evil spirits?"
 The members of the Epworth League gave a social evening last week which was largely attended, a program of readings, solos, and contests was given and luncheon served. The Epworth League meet every Tuesday evening at 8 o'clock in the basement of the church. The young people of the community are invited.
 The garden party held on the lawn of Mr. E. E. Langford, under the auspices of the Brunswick Trio was well attended. The Trio and soloist Miss Frederick and orchestra put on a delightful clean, amusing program. They possess exceptionally good voices and surely kept faith with the people here in the high class concert given, everyone seemed well pleased with the evening. Mr. and Mrs. Langford make charming hosts.
 Mr. James Richardson has returned from a delightful trip to New York, Brooklyn and Niagara via the Hudson river. Mr. Richardson, who visited New York 68 years ago saw many changes. The old Fort is now a museum where sea lions and all kinds of fish are kept. While in New York he was the guest for several days of Dr. T. Morgan, an old Kerwood boy, who is head surgeon in the largest hospital in the city and who took Mr. Richardson to Long Island Sound where they dined sumptuously at the Dr.'s club house which accommodates 400. He also visited the museum where he saw many wonderful sights among them the skeleton of the huge Jumbo Elephant that was killed in a railway accident near St. Thomas. Mr. Richardson, who is over seventy

still enjoys the sports and went to see the baseball game between New York and Pittsburg, he also visited the Cathedral of Commerce, the tallest building in the world being 60 stories high where he had a good view over the city. He was also on the world's largest ship, the Majestic, which is 956 ft long, and 100 ft wide, 102 ft deep, has 9 steel decks and has a capacity for 4100 passengers and is fitted with all the latest accessories and has a crew of 1000. She is also one of the fastest ships, her speed being more than 25 knots an hour, insuring an average ocean passage of five days from land to land. Mr. Richardson spent several days with his cousin, John B. Taltavall, who though he is blind publishes a magazine called Telegraph and Telephone Age which is sent to all parts of the country, some subscribers being as far as Greenland. Mr. Richardson is looking forward to another of these delightful trips next year.

RELIGIOUS EDUCATION CONVENTION
 The Twelfth Annual Convention of the Warwick Township Religious Education Council was held in the Methodist church, Watford, on Wednesday, June 21st. The attendance not being quite so large as in former years yet the interest of the members in the sessions was even greater than in former years.
 Owing to the General Supt., Mr. Halpenny, being unable to be present Miss Taggart acted as substitute and gave two very interesting and inspiring addresses. During the afternoon session the Rev. Byron Snell of Alvington interested the audience with a very forceful and instructive address. The Round Table Conference proved very beneficial being taken charge of by Rev. C. L. Couzens of Arkona. At the supper hour a very tasty and sumptuous repast was provided by the ladies of the town.
 At the evening session Miss Taggart gave an address on "Giving Our Very Best." She spoke of Peter and John saying to the man who couldn't walk, "Silver and Gold have I none but what I have I give unto thee, Arise and walk." They were giving their best to that man. Giving one's best in character, giving our knowledge of Christ to others. Jesus lived this message everywhere. His great friendship, His great sympathy, and His wonderful faith in this world. He gave his best, even himself, for our salvation and are we giving our best to Him in any way. We can give our best by prayer, by service and making use of the talents he has given us, our time and money and our all. Consecrated men and women are doing great things and our days are great things and our days are great. Everyone has a calling. Work that is done whole heartedly gives best results. Fathers and Mothers give their best to their children in their home; to the church in the community they live in. S. S. teachers and teachers in our schools and colleges are giving the boys and girls their best and making the best use of the talents God has given them.

C. O. F. RATES RAISED
 Quebec, June 23.—The 3rd annual convention of the Canadian Order of Foresters came to a close here last night.
 The City of Ottawa was selected as the place for the next annual convention, which will be held in June, 1923.
 The big issue at this year's convention was the proposed increase in the insurance rates of the order, which will mean an additional annual revenue of half a million dollars. This was voted by the convention on Wednesday night, but the legality of the vote was questioned as the by-laws of the order specify that a two-thirds vote is necessary to increase the rates. The question was left to the solicitor of the order to decide and he ruled that the vote was legal and the increased rates will therefore go into effect.
 Burglars looted the barber shop and pool room of Homer Lewis at Lucan a few nights ago, getting away with cigarettes and tobacco valued at \$60 and about \$8 in cash.

Resolutions passed were as follows:
 1. Re Sabbath Observance—We resolve that a Special Sunday be set apart when the ministers and S. S. officials of Warwick Township should impress upon the congregations a more serious consideration of the Sabbath Day as a Holy Day rather than a holiday.
 2. Re Training of Leaders—Since there is an urgent need for trained leaders in our church work, we would urge that a greater effort be made to establish Teacher Training classes and also urge that the congregation send delegates to Leaders' Camps, and to Girls and Boys Camps.
 3. We desire to express our appreciation to the Methodist Church for their beautiful welcome, and sincere hospitality, to the ladies of the congregations for their tasteful and sumptuous supper. We also express our appreciation to Miss Taggart and Rev. Byron Snell in giving such splendid addresses.
 4. We wouldn't forget to thank our Heavenly Father for the little success attained this past year and would urge greater interest and prayerful attention to the teaching of God's word and to realize as never before the privilege of our high calling.
 The following officers were appointed for the ensuing year:

LAMBTON DEANERY MEETING

The annual meeting of the Deanery of Lambton was held in Christ church, Forest, Tuesday, 13th, with morning, afternoon and evening sessions. At 10 a.m. a Communion service was held, conducted by Rev. W. M. Shore, of Warwick, assisted by the local rector, Rev. A. R. E. Garrett. At eleven o'clock the Deanery Chapter was held.

At the same hour the Women's Auxiliary met in the Sunday School when Rev. Abjanker, a native of India, now of Huron College, gave an address on "The Women of India." At the afternoon meeting he also spoke on conditions in his native country.

At the afternoon session Rev. F. G. Newton, of Sarnia, presided. A paper on "The Faithfulness of the S. S. Teachers" was given by Rev. C. K. Masters, of St. Mary's; and another "The Layman in the Parish" was ably presented by R. E. Davis of London.

STOCKMEN ELECT OFFICERS

The annual meeting of the Lambton County Pure Bred Live Stock Breeders' Association was held in Petrolia on Saturday afternoon June 10th, when the following officers were elected:

President—G. T. Fuller. Vice-Pres.—P. W. McPhedran. Treasurer—George Hay. Secretary—W. P. MacDonald. Upon motion of Messrs. McPhedran and Keach the 1921 Board of Directors were re-elected with the addition of Wellington Annett to the short-horn class and W. S. Steadman to the Angus class.

Mr. W. S. Steadman, whose refusal to accept the presidency for 1922, resulted in Mr. Fuller's election to the office, was given a vote of thanks for his assistance to the association. Coupled with Mr. Steadman's name were the names of Major Fairbank and W. P. MacDonald. A rebate of \$3.50 per head to parties who disposed of animals at the 1922 sale will be made. Mr. W. S. Steadman was granted \$15 for services rendered and Miss Margaret Knight was given an honorarium of \$10 for services.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. BEFORE BABY COMES

Watchful Care Necessary

Lydia E. Pinkham's Vegetable Compound is a splendid medicine and should be taken by the expectant mother. It will assist her in keeping well and strong. This is very necessary, not only for her own comfort but for the future as well. Read the experience of Mrs. Barton of New Brunswick, and please bear in mind that every letter published recommending Lydia E. Pinkham's Vegetable Compound is genuine and unfeigned. It is the expression of gratitude from women who have been helped.

Cumberland Bay, N. B.—"I was troubled with weak feelings, headache, all the time, a cough, fainting spells and pains in my back and side. I could not do a single bit of work and had to be helped out to the hammock where I lay in the fresh air from morning until night and I had to be carried up and down stairs. After other medicines had failed a friend advised me to take Lydia E. Pinkham's Vegetable Compound as she said it was excellent for anyone in the family way. Before the first bottle was taken I could walk alone and as I kept on with it I got stronger, until I was able to do all my work. My baby is now six weeks old and is a big fat healthy fellow. I am sure Lydia E. Pinkham's Vegetable Compound has done wonders for me and I recommend it."—Mrs. MURRAY J. BARTON, R. R. No. 1, Cumberland Bay, N. B.

THERE IS DANGER IN WATERY BLOOD

Not Corrected Serious Results May Follow.

In no trouble is delay or neglect more dangerous than anaemia, a poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized.

But taken in time there is a tonic medicine which increases the number of red blood corpuscles thus enabling the blood to carry the life-giving oxygen to all the tissues of the body. Dr. Williams' Pink Pills have had much success in the treatment of this stubborn trouble because of this wonderful property.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Take as an example the case of Miss Mary D. Kelly, Charlottetown, P.E.I., who says:—"My blood was thin and watery, and my system very much run down. I could not do any work or walk upstairs without resting. I suffered greatly from headaches, my appetite was poor and I was also troubled with indigestion. I began taking Dr. Williams' Pink Pills and in a short time the results showed they were just the medicine I needed. I only used six boxes but am now feeling stronger and better than I have done for several years. From my personal experience I can strongly recommend Dr. Williams' Pink Pills." These pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

ARE YOUR EYES GETTING BETTER?

Your eyes are either getting better or they are getting worse. If your eyes need correction, any delay in getting glasses is slowly but surely damaging them. Do not hesitate to wear glasses if you need them. You can select a style which is becoming, and the comfort to your eyes will be well worth while. Have your eyes examined lately?

OF PASSING INTEREST

The Charlottetown Examiner, the second oldest paper in Canada, has suspended publication.

An Atchison, Kas., young woman is trying to make her young man friend quit drinking, and he is trying to make her quit smoking.

The bigger they are the harder they fall. The largest mail order house in the United States lost \$16,435,469 in 1921, the result chiefly of falling prices.

An Omaha woman sought to compliment her minister by telling him that after hearing him preach a funeral service she almost wished she was the corpse.

The Ontario Legislature has amended the Municipal Act by giving the wives of property owners or tenants the right to vote at municipal elections if the property is assessed sufficiently high to entitle both to a vote. If the wife is the owner of the property then the husband too is entitled to a vote.

With possible changes in the regulations in prospect and to secure a more convenient arrangement of the board's official "year," only six months' renewals of standard hotel licenses have been granted this spring by the Ontario Board of License Commissioners, and, consequently, the hotelkeepers will have to submit their applications again this autumn.

Canada leads the world with volume of exports per head of population. Computations made by the Department of Trade and Commerce show that Canada's exports now amount in value to \$150 per capita as compared with \$98 for the United Kingdom and \$65 for the United States. In 1902, Canada was exporting products to the value of \$28 per capita, as compared with \$40 per capita for the United Kingdom, and \$15 per capita for the United States.

The increased rates of stamp taxation on cheques, post office orders and express orders will not become effective until August 1, next. Until that date the present flat rate of two cents on all cheques will continue in force. After that date, the rate will be two cents for every fifty dollars or fraction thereof with a maximum tax of two dollars. The proposed stamp tax of two cents on receipts for payments of ten dollars and upward will not become operative until January 1, 1923, the proposed excise tax of 24 cents a hundred pounds on beet sugar produced in Canada, will also remain inoperative until the beginning of next year.

The postal guide for June reports that during the last fiscal year \$90,000 was collected on shortpaid matter at those offices where care was exercised in collection of deficient postage. Many offices are, however, neglecting their duty in this respect. Revised instructions are being issued to postmasters in connection with insurance of parcel post. The number of cases where postal notes are filled in with lead pencil appears to be increasing, and postmasters are instructed to see that purchasers are instructed to use pen and ink in filling in their names and names of payees and offices of payment, because names written with pencil can be too easily erased and others substituted.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

THE HIGH SCHOOL PICTURE
JUNE, 1922

I'm looking at the picture and thinking while I look That man was not created on the level with the brute Those noble human features with faculties divine. The expression of the mental, a beautiful design. The varied expressions are puzzling to the mind. Blest object of creation is easy for to find. I'm looking at their faces not looking at their feet Fastidious surroundings, or beauty of their street. The womanhood, and manhood, the vision of the soul. The character, and fragrance, of those who have control. The sun was surely shining, the skies were surely clear. When the image of our scholars was printed to us here. The leaders in the centre the trainers and the trained. No worry on their faces but happy what they've gained. But one seems to be wanting or rather out of place. We see him in the background so that must be the case. Their youth seems to be radiant we like the happy glow. There's one a little awkward perhaps a little blue. But you must rest contented it is not me or you. Some are extra natural you feel like speaking out. And ask where's their importance, and what are they about. The heart of every picture is deep down in the mind. Individuality the grouchy, or the kind. Oh, scholars lay foundations to stand the rugged test. Whatever we intend to be, intend to be the best. Lads and lassies, clear and clean, wherever we may roam. An honor to our hamlet and every rural home. A high and noble object to every earnest scholar. Before we can be tainted by the unhealthy Dollar.
