The copy filmed here has been reproduced thanks to the generosity of:

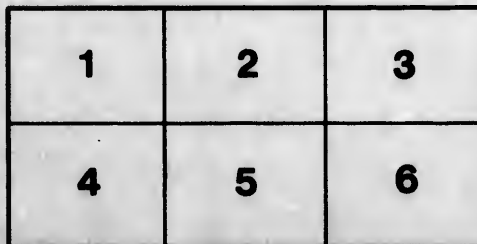

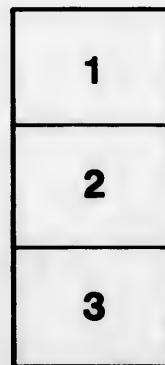

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE second volume of the Directory, which is now offered to the public, will, it is hoped, be found to be as nearly accurate and perfect as it is possible to render a work of the kind. When the publication was first projected by the editor, it was feared by many who were friendly to the undertaking, and who appreciated the value of a City Directory, that there was not among the citizens of Montreal, such an amount of public spirit as would ensure it a permanent annual support. Determined, however, to test the matter fully, the labour of revising and correcting for the present edition was commenced early in May; and, in pursuance of those objects, every house in the city has been visited since then either by the editor or his assistants. As the result of those labours, it will be found, that in the Alphabetical Directory, there are *fifty three additional pages of names*; and when to this it is added that more than two thousand changes of residence have occurred since the publication of the first volume, it will at once be obvious to all, that it is the interest of every professional and business man, to encourage and sustain the publication of a work calculated to save time, labour and expense; and presenting as this does, at one view, a guide to every thing of interest connected with the City. That the work has been sustained, so far as paying for the *mere manual labour* expended upon it, is true; but to prove that it has not been sustained in the spirit of liberality which should characterise Montreal, it will be sufficient to state that the whole number subscribed for is not much over five hundred, and the entire edition printed, only six hundred copies.

The stagnation of business, which has been almost universal in the city, may in some measure account for the paucity of the support which has been extended to the new edition; but the editor apprehends that it also arises in a good degree

from want of familiarity with the use of the Directory, and as illustrating the fact he would mention, that several gentlemen who were possessed of the book have stopped him to enquire after information which it contained. He would in consequence respectfully suggest that if a string was placed in the Directory, in such a manner that it could be hung up in the counting house, in a prominent place, it would be found much more useful in answering the questions of either citizens or strangers, than if snugly placed away, under perhaps, half the papers in the desk.

It will be observed that in the present volume the second part is composed of a statement of the Chartered Companies, Public Bodies, Courts of Law, Religious and Benevolent Societies, Churches, Schools, Clubs, &c. &c., in the city; and the third part of the names of Professional, and the names and cards of business men *who are subscribers*. This arrangement, it is hoped, will meet with decided approbation, as it is doubtless an improvement upon the plan of last year. The very neat Map of the City, engraved by Mr. Bourne, which accompanies the work, will also be found to render the Directory more intelligible and satisfactory, and the proprietors trust, that altogether the volume will be found to meet the wants and wishes of their patrons and friends, to whom they would in conclusion tender their respectful acknowledgments for the support which they have received at their hands.

ESTABLISHED BY ACT OF PARLIAMENT IN 1805.

Capital, Two Millions Pounds Sterling.

*AFFORDS a ready, safe and profitable investment of small savings by persons of limited incomes. The public are secured by an ample capital, besides which all payments are set apart to accumulate as a distinct and inviolable fund, which at the end of seven years is strictly investigated, all existing claims provided for, and the surplus or nett profits are then apportioned, and four-fifths allotted to the Assured for the whole term of life, which may, at the option of the party, either be added to the Policy, or applied in reduction of the future annual payments; so that persons insuring at this Office may justly calculate upon a gradual annihilation of the annual Premium, without incurring the responsibility of Mutual Insurance.*

*The Rates of Premium are fixed as low as the paramount duty of security permits, and the errors in these Rates, if any, again corrected and reduced to the actual average risk by the periodical divisions of four-fifths of the profits among the Insured.*

WM. MURRAY, *Manager.*

This Company is composed of a numerous body of proprietors, affording, in addition to the paid up capital, ample security to the Assured. On commencing the Fire Department of the business, the Company reduced the rates 25 per cent., and the decided success which has attended its operations in that department, affords satisfactory proof that the advantages which it offers have been duly appreciated by the public.

At the recommendation of many of the most respectable merchants of this city, and elsewhere, the Directors were induced to embrace the Inland Marine branch of the Insurance business, and accordingly have commenced to grant Insurance against all Loss and Damage to Vessels or their Cargoes, navigating the Rivers and Lakes of this Province.

In a short time the Company will also be prepared to commence the Life Department of the business, due notice of which will be given.

**LIFE ASSURANCE.**

**BESIDES the perfect security to the policy holder of a large paid up capital, and accumulating funds, with moderate rates of premium, the following is one amongst many of the advantages which belong exclusively to the principles of Life Assurance and Deferred Annuities, originated by the Society, viz:—Power to borrow (without delay, expense, or forfeiture,) Two-thirds of all Premiums paid upon a Policy of Assurance.**

**DEFERRED ANNUITIES DEPARTMENT.**

By the plan exclusively developed by the Society, a single Deferred Annuity is made, not only to answer the same object, but to equal in amount the entire sum of all the advantages heretofore only obtained by the middle and industrious classes by separate investments in Savings' Banks, Benefit Societies, and Loan Banks.

1. A small yearly, or weekly contribution, will secure the most

ample return for after life; thus,—£2 12s. per annum (1s. per week,) at 20, will, at 65, give the Policy holder the choice of an Annuity for life of £47 16s. 6d.; £394 11s. in cash; or Policy, without further contribution, of £466 at death.

2. Two-thirds at any time lent on deposit of Policy, being a fund always available during sickness or want of employment.

3. Two-thirds of all payments returned to representatives in case of premature death.

The Report to the Annual General Meeting of Proprietors, Prospectuses, Tables, &c., may be obtained at the Office of the Society, by letter or otherwise, St. Sacrament Street, Montreal.
