PROMINENT MEN FACE SERIOUS CHARGES

Well-Known Americans in Mexico Alleged to Have Plotted to Overthrow the Huerta Government and for the Intervention of the United States.

(Special to The Toronto World.) MEXICO CITY, Sept. 1.—Accusations involving charges of plotting against the Huerta Government and endeavoring to set influences to work in Washington to cause the United States to intervene in Mexico have been made against several prominent members of the American colony.

The affair has created much comment among foreigners and Mexicans, both on account of the seriousness of the charges as well as the persons involved in the matter, either in the role of the accused or as the ones who are openly charged with making the denouncement to the Huerta Government.

These charges were contained in an unsigned communication which reached Huerta, it is said, thru the medium of a Mexican lawyer who is one of the secretaries of Minister of War Blanquet. The lawyer in question is also acting as one of the attorneys for L. B. Wilfley, who formerly was confidential because of his close confidential relations with Ambassador Henry Lane Wilson.

Wilfley is the defendant in a suit now pending against him in the Mexican courts by Charles A. Hamilton, an American mining man, who asserts that Wilfley dealt unjustly with him in connection with the sale under contract by Hamilton to Wilfley of half of a valuable mine in the State of Oaxaca. Charges are on file in the state department at Washington, accusing Henry Lane Wilson with unjustly using his influence as ambassador to have the courts decide in favor of Wilfley.

Among those named in the denunciation were J. N. Galbraith, the head of the Waters, Pierce oil interests in Mexico; Gen. C. H. M. Small, J. Argüelles, of the American colony; H. M. Diefenbach, a capitalist and a director of the Bank of Commerce and Industry; Robert H. Murray, Burton W. Wilson, attorney for Hamilton in the Wilfley litigation; Hamilton and several others.

Huerta regarded the charges so seriously that he referred them to Foreign Minister Gamba, with instructions to investigate and call them to the attention of American Charge d'Affaires O'Shaughnessy.

In the main the charges allege that the persons named were particular intimates of William Bayard Hale, who was sent here by President Wilson to investigate the part taken by Ambassador Wilson in the downfall of the Madero Government, that they poisoned Dr. Hale's mind against Huerta and his government and that they are seeking to bring about intervention.

Secretary O'Shaughnessy convinced Minister Gamba that there could be no foundation for the accusations and thus far the government has taken no action.

TRAFFIC TIED UP BY INCENDIARY BLAZE

Building Formerly Occupied by James Robertson Company, Totally Destroyed Saturday Night, and All King Cars Had to Be Diverted to Other Routes.

From half-past 11, Saturday night, until half-past 3 on Sunday morning all traffic on West King street from Spadina to Simcoe was held up by the fire which gutted the building formerly occupied by the James Robertson Co. at Nos. 213 to 229 West King. The building is now the property of the Canadian Pacific Railway and the housebreakers were due to start operations today demolishing it to make way for the new freight sheds.

There is no doubt that the fire was an incendiary one. There was supposed to be nobody in the building at the time, and the flames appeared to start in several places on the second and third floors. The first alarm was rung in at 11:30. Deputy-Chief Noble arrived on the scene at 11:36 and ordered a general alarm to be sent in, the fire by then enveloping the whole of the top story.

Ten lines of hose were laid to the burning building, with four high-pressure streams, but in spite of the tons of water that were thrown on to the flames, they spread rapidly, the floors of the building being soaked with oil and paint. The building was used by the former owners as a warehouse and mixing plant for oils and paints.

The King street cars, which were crowded at the time with people returning from the Exhibition, had to be diverted north on Spadina and Bay to Queen, but thousands of the passengers alighted and the police had an enormous crowd to grapple with, many citizens attracted by the flames, which shot high in the air, coming down town to see the blaze.

For four hours the firemen directed streams of water on the flames, owing to the position of the building it being possible to attack it from the rear, where the C. P. R. freight yards are situated; from the front on King street, and from the east side on Dorset street. The western end of the building is occupied by the Hobbs Manufacturing Co., but a thick firewall prevented the fire from extending to their premises.

At 3:33 the fire was out, having done damage to the building estimated at \$5000. The Adams Furniture Co., who had been using the premises for a storehouse, had moved out all their goods the previous week, and the fire had nothing but the interior floors and woodwork of the building to feed on. These were totally destroyed, but the walls remained intact.

BRITAIN AWAITING NAVAL AID WITH PATIENCE, SAYS HALDANE CONSCRIPTION NOT ADVISABLE

Lord High Chancellor Finds Time in Busy Whirl at Montreal to Discuss Empire Problems—Doesn't Think Further Limitation of Appeals to Privy Council Needful.

(MONTREAL, Aug. 31.—(Can. Press.)—After exchanging greetings with some thirty chief justices of Canada and the United States and lesser lights, Viscount Haldane, the lord high chancellor of Great Britain, with an affable smile turned to the group of newspaper men with the remark: "And now we will discuss the greatness of Canada and other important things."

With the intention of filling every moment of his brief two days' stay in Montreal, the lord chancellor was already planning a schedule of his movements beginning with an automobile ride through the city with Chief Justice White of the United States Supreme Court and Hon. Frank B. Kellogg, president of the American Bar Association, an audience with the prime minister of Canada, Right Hon. R. L. Borden, a call on the lieutenant-governor of the province, Sir Francois Lanclier, and so on until his special train leaves again at 10 o'clock on Tuesday morning to catch the Lusitania at New York on her return voyage, having spent altogether five days on the American continent.

Make Address Today. The entire journey, covering a distance of some 6000 miles, was made by Lord Haldane principally for one event, which will be accomplished tomorrow afternoon at the Princess Theatre when the lord chancellor makes his address before the convention of the American Bar Association. "This is my first visit to the shores of your beautiful Dominion," he said, when he had a moment's respite from the throng of callers at his suite. "It's a wonderful country and I look to you to keep up the greatness of the Anglo-Saxon traditions in the days to come."

Only Seal Left Behind. "It is also unique—only the second time in our history that it has happened—for the lord chancellor to leave England, bearing his office with him, with the exception of that strange animal which our American friends were so curious about, the great seal. Otherwise we have brought the office complete, for you see here Sir Kenneth Muir Mackenzie, the depository and custodian of the traditions of the lord chancellor for many years, in fact, ever since Lord Selborne's time. We have two very full days before us, as you know we must leave again on Tuesday morning, and how I am going to bear the burden that you strenuous Canadians and Americans have set for me is quite a problem."

What is my first impression of Canada? Well, now, I have not been here before, I am not unfamiliar with your great Dominion and many (Continued on Page 6, Column 5.)

Money Easing, Says White

(OTTAWA, Aug. 31.—(Can. Press.)—Mr. W. F. White, minister of finance, returned to the capital this morning from England, where he has been since early in July. In an interview, Mr. White expressed confidence that the high money period will shortly terminate, and stated that in his opinion the cause of the stringency are now practically removed.

OLD DE LA SALLE INSTITUTE GOES

Larger Quarters Needed to Accommodate Pupils Trying From Roman Catholic High Schools.

The opening of the city schools on Tuesday will mark the passing of the old De La Salle Institute on Duke street. Owing to the large increase in the number of pupils for the Catholic high school, the building on Bond street, hitherto used for the separate school of St. Michael's parish will be converted to the use of these pupils and the brothers of the Christian schools will conduct a high school where pupils passing the entrance examination from the separate schools, can take the Toronto University matriculation course. A commercial course will also be established for pupils who intend strictly business.

LLOYD GEORGE TO COME HERE

Will Attend Convention of Disciples of Christ at the End of September.

David Lloyd George, chancellor of the exchequer in the British Government, has secured reservations at the King Edward Hotel in anticipation of his visit to Toronto at the close of the month. The object of his coming will be to address the world's convention of the Disciples of Christ, beginning Sept. 30, which will be attended by about seven thousand delegates from all parts of the world.

TWO STREET CARS COLLIDE AND FOUR PEOPLE WERE HURT

Twelve Passengers Were Waiting to Board Parliament Car When Scarborough Beach Trolley Crashed Into it, Throwing Five People to the Pavement.

Just as a crowd of about twelve persons were climbing aboard a west-bound Parliament car standing at the corner of Queen and Berkeley last night shortly before 10 o'clock a heavy west bound Scarborough Beach car coming along at a high rate of speed crashed into the rear of the Parliament car, crushing the vestibule as the latter had been an egg shell and throwing the passengers who were boarding the car to the ground, while every window in the smaller car was smashed with the force of the tremendous impact.

NOT SO CONTENT YET SAYS THAW'S LAWYERS

Even if Police Chief Boudreau's Writ of Habeas Corpus is Sustained, Appeal Will Act as Stay Until October, They Contend—Chauffeur Thompson Slips Away Quietly to Montreal.

(SHERBROOKE, Que., Aug. 31.—(Can. Press.)—Harry K. Thaw's lawyers, swept off their feet yesterday by the sudden move of William Travers Jerome in obtaining thru John Boudreau, the Chief of Police, a writ of habeas corpus requiring Thaw's production in the superior court here on Tuesday, spent the day in conferences and tonight gave renewed expression to their belief that the writ would not be sustained.

DOCTORS OBJECT TO HOSPITAL ORDER

Deputation Will Ask Mayor Hocken to Rescind Commissioners' Regulation Compelling All Patients Moved in Police Ambulances to Be Taken to the General.

The order of the police commissioners that all patients in accident cases in which the police ambulance is summoned, must be taken to the General Hospital, is being vigorously protested against by the doctors in the city, and also by several of the largest employers of labor in Toronto. Already one of the largest corporations doing business in Toronto, is sending out an order that in cases of accident a private ambulance must be summoned so that the patients can be taken to an institution where arrangements have already been made to have the corporation's employees treated.

VANCOUVER MAN MEDAL WINNER

Major McHarg Made Record Score for Governor-General's Prize.

(OTTAWA, Aug. 31.—(Can. Press.)—The annual matches of the D. C. R. A. closed with the last range of the Governor-General's match on Saturday noon. Major W. Hart McHarg of Vancouver carried off the big prize, the Governor-General's Medal and \$200. Grenadier McCullum of Victoria was second. Major McHarg's score of 202 was four points higher than any other in the history of the association.

SPEEDING BOAT TURNED TURTLE

Detroit Man and Mechanician Rescued After Being Hurlled into Water Near Montreal.

(MONTREAL, Aug. 31.—(Can. Press.)—The motorboat Jovial, owned by Dr. Kent of St. Anne de Bellevue, turned a complete somersault on Saturday, while going at a speed of twenty-eight miles an hour, throwing the driver, W. E. Baker of Detroit and the mechanic 20 feet in the air. With the nearest boat a mile and a half away, the men lost consciousness when finally rescued.

FELL FOR FAKE ON HARRY THAW

"Doctored" Newspapers Circulated Stating That He Had Been Shot.

(Special to The Toronto World.) NEW YORK, Aug. 31.—A disgraceful fraud was sprung on the public early tonight by a gang of clever scoundrels, who circulated a faked issue of The Philadelphia Telegraph, announcing "Harry Thaw shot while attempting to escape." The type used was large and black.

HUNDREDS HURT IN RIOTING AT DUBLIN

Street Car Strike Brought About Fierce Clashes With Police, in Which Stones and Bottles Were Hurlled—Hospitals Unable to Accommodate the Wounded.

(DUBLIN, Aug. 31.—(Can. Press.)—The fierce rioting in connection with the tramway strike was renewed Sunday. Hundreds of persons, including thirty constables, were injured. On Saturday sixty or more persons were injured. All the hospitals are so crowded that many serious cases had to be sent to their homes for treatment.

HOWLL IT COSE?

This is a backward season for fodder corn on the Ontario farms; and as our enormous herd and dairy industry is largely dependent on this crop, the farmers are anxiously watching to see the cobs come out on the stalks. And they are starting to fill up, but to the extent of seasons that were earlier. Fodder corn is good feed anyway, but it's twice as good when the corn cutter shops up a wealth of well-filled cobs. These cobs with the succulent stalks. There is no sign yet of the stalks beginning to yellow; a few days more of them in the green and growing weather with the late rains will make the cobs abundant.

STRAW HATS ARE CALLED IN

On and after September 1st straw hats will be distinctly out of style. September days mark the passing of the straw hat and the coming of the fall felt. The styles have never arrived in all the seasons before. A few light summer felts, entirely proper as to color and style, but lighter than our recent importations of fall felts, regular \$2.50 value, some worth \$4, to clear the balance of our summer stock, for \$1.95. MILLION MARK IS IN SIGHT AND DIRECTORS ARE HAPPY

Saturday's Attendance Was Twenty Thousand More Than on Same Day Last Year, and Today's Crowd Should Beat All Records.

RECORD OF ATTENDANCE.

Table with 2 columns: Day, Attendance. Monday 1913, 1912, 25,000, 28,000. Tuesday 61,500, 50,500. Wednesday 101,000, 84,000. Thursday 88,000, 85,000. Friday 69,500, 62,000. Saturday 112,500, 92,500.

The million mark is in sight! The first great week of the Exhibition, commencing by day after day, has swelled the chain of figures until the happy hopes of the most cautious director promise abundant realization.

The closing hours of Saturday evening witnessed the exodus of a typical sightseeing procession. The splash of rain which crossed the grounds about the time that an imposing throng from Hamilton entered the gates was merely in the nature of a last word from the weatherman.

A Successful Day. Hamilton was marked by all the concentrated energy and enthusiasm which the contingent of delegates could bring along.

Pleasure All Ours. Ex-Mayor Oliver referred to the pleasure of the directors in reciprocating the off-extended hospitality of Hamilton.

This demonstration was replied to by Mayor Allen of the visiting delegation. He wished to thank the directors for their courtesy.

Hon. Adam Brown, hailed as the "grand old man" brought forth applause for his public spirit in coming for the occasion.

He made a rather significant reference to the coming in of undesirable elements who had been kept out of the Dominion.

"We have had centuries of peace. God grant we may never have war again," he declared passionately.

Not only the granary of the world but the ruler of the British Empire was Earl Grey's predilection for the Dominion.

"We have had centuries of peace. God grant we may never have war again," he declared passionately.

The exhibition owed a great deal to Hamilton enterprise.

The mayor then suggested that the directors should honor the memories of those who had founded the institution.

Why not name the drives after these men? Why not withdraw drive McNaught circle, Booth avenue.

The climax, he felt, would be to call the Midway the old Kent road.

Dineen's Genuine Furs

THE FOX belongs to the canine tribe and is widely distributed around the world.

Among fur-bearing animals the fox family is the most varied in its colors, which seem to follow no laws as to species or locality.

The typical fox of England appears in different shades of red, white and black.

And an attempt has been made on the Presblott Island, off the coast of Alaska, to breed foxes that will take on the blue-gray winter coat of fur.

The fox fur mostly used in Canada is caught by trappers and hunters who trade with the Hudson Bay Company.

Carlisle wrote a book about a tailor and he could scarcely do this without dealing somewhat with clothes, thus, too, when the science of things wear- ing seems to be a serious study...

There was a man—Beau Brummel—away back in the days of the Regency, who was an expert in the art of dressing...

We don't deny that women like clothes and pretty ornaments, but we think that we are a long time coming to it, that the attraction of beautiful outside adornment is universal...

And, indeed, there are charming things that have caught the eye of the average woman. Plush and velvet are favorites and will form a warm, rich part of wearing for the fall and winter...

What a pity it is that flowers fade! The cut flowers in the horticultural building on Saturday night made all feel as did Moore when he wrote: "I feel like one who reads alone."

There was one group, however, that in themselves would brighten a whole atmosphere, and the women and girls clustered about this magnificent display with real enjoyment.

Steel Barns and Why. Steel Barns have come to stay, and a good example of why is shown by the exhibit at Toronto Exhibition of the Metal Shingle and Siding Co., Limited...

"These high things" continued the critic, regarding the small hats perched on one side of the waxen heads, and having as their sole adornment a single feather standing erect at one side...

Exquisite things are found among the parasols, models, handsome and attractive in white silk, lined with black lace. A beauty, fit for the princess in her fairy story, is of white silk with a border of the daintiest rosebuds...

The best made, we can easily believe. The raw material is shown in a large mass resembling a piece of ice frozen from water free from all impurities. It is hard as metal and beautifully clear.

A handsome pattern is the Empire, the chief feature being finely-cut and many pointed stars. Then there is the new "star" design, in which the pattern is left unpurified, the clear metal glass of the foundation bringing out the figures in fine contrast.

## LABOR COMING INTO ITS OWN CHURCH FACED BY PROBLEM

### Rev. Hiram Hull Defines Living Wage to Large Congregation in Parkdale Methodist Church—Depicted Terrible Conditions Resulting From Payment of Small Salaries.

A living wage and what happens when it is not paid, was the subject of Rev. Hiram Hull's sermon at Parkdale Methodist Church, last night. A large congregation turned out to hear the pastor speak on the labor question, and the interesting sermon proved to be very instructive, as delivered by Mr. Hull.

In explaining what a living wage was, Rev. Mr. Hull told of what happened and the results if the wage were not paid.

An increase of interest was being paid by the church to the problems of labor, stated the pastor. Labor was rapidly coming into its own. It was almost a coming together of capital and labor during recent days, and a better understanding of labor's obligation to capital was being arrived at.

There should be no scamping of work, no damage of property. An intelligence of work in which all labor's intelligence should be placed could be classified as an obligation to capital.

A Living Wage. The definition of a living wage, which Mr. Hull said Mr. Hull was that labor should be paid a living wage. The definition of a living wage in his opinion was of such remuneration for labor as would maintain the life, health and efficiency of the wage-earner and a family of

## ENLARGING WORK AT ST. MARY'S C. I.

### Commercial Diplomas Will Be Given if Sufficient Pupils Apply.

ST. MARY'S, Aug. 30.—(Special).—A semi-annual game will be played on the flats, St. Mary's, Monday, between Godechick and St. Mary's. The St. Mary's Kilty band, in full uniform, will be in attendance.

The new owners of the Leavitt Park Bend intend building a new hotel at Grand Bend to meet next season's requirements.

The twin electric railway, which is to be called the London, Grand Bend and Stratford Railway, is fast assuming definite shape, and plans for incorporation are already being made. The interests behind the railway and park are practically the same. Since the purchase of the Leavitt property engineers have been at work between London and Grand Bend locating the line.

## C. I. Commercial Diplomas.

An effort will be made to enlarge and strengthen the commercial work of the Collegiate Institute this year. A two years' course, which may be extended to three, will be outlined, leading to a commercial diploma. To that end a special commercial form will be organized, if sufficient pupils apply for the work.

Messrs. Bugg and Bailey, oil drillers of St. Mary's, are boring a well in Ingersoll. It is reported that a new cement works is likely to be built in Ingersoll.

Messrs. Weir and Weir have in addition to their regular water fountain built a drinking trough for animals at the corner of Church and Park streets, adjoining Cadzow Park and their fine residence.

## Labor Day Social.

A social will be held at Avonbank Church under the auspices of Division No. 220, S.O.T., on Monday. There will be an interesting program at Lakeside.

### Seedpods.

A number of times during the last few weeks I have been strongly tempted to call your attention to the various seed vessels that have been forming during the summer.

The seed-pods cannot but be beautiful as well as interesting and educative. Most of our garden flowers produce either pretty or unique pods. All are more or less decorative.

About the first seed vessels to form—at least to form in such a manner that an outsider's attention is attracted—is the columbine. I wonder how many gardenfolk have ever noticed these peculiar five-celled vessels. Borne upright at the end of the flower stems are many rich green vessels, made up of five narrow cigar-shaped pods, joined together vertically. Three many long weeks deep brown until they have become like so much thin brown paper. Then each of the five cells opens at the top, and the seeds escape. The seeds are like black tiny bullets. While these seed-pods are on the plant, the effect is most decorative.

Swiss William forms seed vessels next. But seeds and flowers are frequently forming at the same time as the great flat flower bearing. Each seed pod is a narrow cylinder opening at the top, and disclosing the tiny black seeds, which are flat, not at all like the gleaming seeds of the columbine.

On account of the fact of bloom and seed growing at the same time and sweet William, it is impossible to find one perfect uniform seed head, as in most plants.

The Canterbury bells produce the prettiest carved and fluted seed vessels of deep rich green, also containing five seed cells. Since every plant bears a bell, a seed vessel, wherever there was a bell, a seed vessel forms, just try to imagine, the attractive appearance of a Canterbury bell bush, just as the bells hung downwards, so do the seed vessels. But instead of a bell hanging there, a five-celled star, an inch in diameter, hangs from the stem. At the back of the star, the body of the pod swells out in the shape of a round bowl, the outside being hung with five dimpled flaps, giving a quaint and ancient look.

Turn the bowl right side up—and the seeds will have a circled rim, from which the star points ray out, and within the circle are many yellow-brown berries.

These pods hang on the plant until very late, as the seeds within take long to ripen. At the moment of ripening they are far from ripe, being small, soft and white.

7919 Norfolk Outing Blouse, 34 to 42 bust.

WITH THREE-QUARTER OR LONG SLEEVES.

The Norfolk blouse is such a generally becoming one that it is a well deserved favorite and is extensively worn both with skirts to match and with contrasting ones. For the outing costume, jackets of this kind in bright colors are liked over white skirts and entire gowns in white or color with the blouses made in this way are extremely fashionable. Again the Norfolk blouse of white linen or pique or white serge makes a very satisfactory wrap to be slipped on when the days are cool. The three-quarter sleeves are finished with rolled-over cuffs but the long sleeves are simply stitched. The collar can be made round or square at the back.

For the medium size, the blouse will require 5 yards of material 27, 3 1/2 yards 36 or 2 1/2 yards 44 inches wide, with 3/4 yard 27 inches wide if contrasting material is used for the collar and cuffs, 1 yard for collar, cuffs and belt.

The pattern of the blouse 7919 is cut in sizes from 34 to 42 inches bust measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of 25 cents.

## CHRISTIAN SCIENCE FULLY EXPLAINED

Clarence C. Eaton of Boston Spoke in Massey Hall Yesterday.

Clarence C. Eaton, C.S.B., an eminent lecturer of the First Church of Christ (Scientist) Boston, delivered an interesting address in Massey Hall yesterday, on the aims and principles of the Christian Science faith.

Mayor Hoelen introduced the lecturer, who was warmly received by the large gathering present.

Mr. Eaton said that the most precious gifts of Christian Science might be designated as peace, contentment, satisfaction, joy—experiences and conditions for which the craves and which can become ours only thru the casting out of evil and the acquiring of the enlarged spiritual understanding.

Usually the first errors to yield in one's mentality he said are those which have found expression in physical infirmities, but cures of this kind were not the goal which Christian Science, urged one to seek. The main thing to be desired was the winning of a consciousness thoroughly purged of evil.

He claimed that for sixteen centuries mental therapeutics instituted by the Master had remained dormant, until that Christian Science represented the re-establishment of its practice.

The promises of Christian Science he said were to be found in the Bible, as well as in the literature devoted to its teaching and practice.

### Fruit Desserts for Late Summer Days

It are not tired of fresh fruits, but the cool weather makes us welcome them in various forms. Markets are flooded with apples that seem to beg us to serve them, and baked in dumplings and served with rich dip, they do their part to finish a dinner.

Make the dough as you would for biscuits and roll out in a half-inch sheet. Cut in squares and in the centre of each, place a tart, juicy apple, cored and pared and seasoned with a bit of butter and a sprinkling of nutmeg, sugar and cinnamon. Bring up the corners of the square and pinch them together. Put in a baking pan, the joined sides down, and bake until a fine brown, brush with butter and serve with dip.

Roller-Poley—Mix dough as above and roll out in a half-inch sheet. Spread this with butter, then cover thickly with jam or with fresh, sliced sugar peaches. Roll up as tho it was a jelly-roll and fit it into a floured bag. Bake snugly, but not so close that there is no room to swell. Make a kettle of water boiling briskly and put it in. Keep this kettle boiling for an hour. Then remove the roller-poley and serve with sweetened cream or fruit sauce.

Peach Cake—Make a cake, using the recipe given in this column for "an adjustable cake." Bake in three layers as usual, but before putting it in the oven, put slices of ripe peaches in the batter. They will sink towards the bottom of the pan during the cooking, if they do not it does not matter. When the layers are baked put the cake together with a cream filling and cover with whipped cream. Eat as soon as cool.

Niagara peaches have helped to make Canada famous, baked and eaten with fresh biscuits and honey, they still do her proud. Cut off the top and fasten in place with toothpicks. Bake 30 minutes in a shallow pan with a little water in it. Take up the peaches and make a syrup of the liquor in the baking pan. Pour this over the peaches. Five drops of almond flavoring may be added to the syrup.

### A FASHIONABLE GOWN OF PLAIN AND FIGURED SILK

SILKS as they are made to-day are so delightfully cool and light of weight that they make ideal summer gowns. This one combines plain with figured foulard and includes so many new features that it is of special interest. The sleeves are sewed to the blouse on the elongated shoulder line, the fronts are

the open neck finished with an upstanding frill and the skirt is the favorite one in two pieces. In this instance, it is made of two materials joined beneath the lower tuck but that treatment is not necessary if preferred, the sleeves can be made shorter and trimming of lace could be arranged over the bodice as indicated in the small view of the chemisette. Any fashionable design can be made with high neck. Nothing more fashionable than the chemisette of tuck muslin. Plain colored voile could be combined with white, too, or a gown made after the manner shown in the small view could be made of white or color throughout. Any fashionable silk could take the place of the foulard.

For the medium size, the blouse will require 2 1/4 yards of material 27, 1 1/4 yards 36 or 1 1/4 yards 44 inches wide, with 1 1/4 yards 27 or 1 yard 36 or 44 inches wide for the sleeves and chemisette; the upper portion of the skirt will require 2 1/4 yards 27, 1 1/4 yards 36 or 1 1/4 yards 44 inches wide. The width of the skirt at the lower edge is 1 1/4 yards.

The May Manton pattern of the blouse 7523 is cut in sizes from 34 to 40 inches bust measure; of the skirt 7528 from 22 to 30 inches waist measure. They will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents for each.

## SELL MANSIONS TO BUY GASOLINE

Fashionable Families of Boston Embarrassed Thru Rivalry in Buying Autos.

(Special to The Toronto World.) BOSTON, Aug. 31.—(Special).—So keen has become the rivalry among fashionable families of Boston for high-priced automobiles that nearly \$2,500,000 worth of Back Bay mansions are offered for sale at cut prices in an effort to raise gasoline money.

There are sixty mansions in all now on the market at "bargain" prices in Beacon street and vicinity. The "bargain" prices range from \$20,000 to \$95,000, but the average is \$40,000.

T. Dennis Boardman, a prominent Back Bay clubman and real estate expert, said today:

"Times are hard and the automobile has caused a good many to change residence; and then a good many of the older people have died."

MATINEES TODAY AT ALL THEATRES

Except the Princess, Where William Collier Opens Tonight.

McINTYRE AND HEATH

"Little Miss Fix It," Cathrine Countess and Good Burlesque.

William Collier and the company this afternoon in Richard Harding Davis' "Who's Who?" at the Princess Theatre tonight and for the balance of the week are expected to arrive from New York early this morning.

Mr. Collier has asked to have the status in readiness for a final rehearsal of his company this afternoon. With Mr. Collier in "Who's Who" Mrs. Collier (Paula Martin on the program), his son, William Collier Jr. (widely known as "Fuster") and his brother, William Collier who is the acting manager of the company.

Others are Grant Stewart, William Frederic, Edward Lester, Nicholas Burnham, Graecy, Edward and Leigh Wyan. The play deals with the adventures of a young fellow from Massachusetts who gets into such serious difficulties in the west that he is afraid to return home.

He goes back at last, but with more adventures—all more or less amusing. Mr. Collier, of course, impersonates the young fellow.

"The Ham Tree." Mr. J. H. C. O'Connell's revival of George V. Hobart's successful musical comedy "The Ham Tree," in which he introduces the famous delusion of the dark, McIntyre and Heath as stars, will be the opening attraction of the regular season at the Alexandra Theatre, this week starting with a matinee today. This piece is really a great musical comedy written

Thomas L. Heath of McIntyre and Heath who will open the regular season at the Alexandra Theatre in an elaborate revival of "The Ham Tree."

about the popular vaudeville sketch McIntyre and Heath have been playing for several years in the Strand and three acts, with scenes which show a southern hotel, a railway crossing in Delaware and a reception room in a Fifth Avenue mansion. The book is by George V. Hobart, the lyrics by William Jerome and the catchy music by Dan Schwartz. Manager O'Connell in his revival has been most lavish in his production and has surrounded his stars with a company of real excellence. A special feature is the large chorus of pretty girls who do some of the most effective dancing in the east are Paul La Croix, Lawrence Phillips, Ted Holmes, George C. Brungman, Arthur Douglas, and Miss Edna, Edward S. Holder, Norman Wood, Mabel Elaine, Lulu Wells and Jane Burt.

"Little Miss Fix-It" at the Grand. Miss Lucile Parrish appeared on Broadway dancing on stilts and singing some songs she has given the critics something unusual to see about her. Her performance is original in everything she does and is as magnetic and lively as any woman in musical comedy. She will appear at the Grand all this week in "Little Miss Fix-It," as breezy as the rollicking music with which the late Charles H. Hoyt used to pack the theatre. She has nothing since Hoyt has been in many years. It has a plentiful supply of bright lines and funny situations all growing out of a romantic story about a summer house party at a Long Island country, where Miss Parrish as Mrs. Della Wendell, an all-around widow, proves a fascinating hostess. During the two acts Mrs. Parrish will introduce a number of swinging songs, which always succeed in capturing the audience. "Turn Off Your Lights, Mr. Moon Man," "Look Now, Look by Storm," "Little Miss Fix-It" for four months at the Globe Theatre, New York and was the big success of 1912. During the action of the play the original dance sensation, "Newport Trot," the comical tertiary creation and the latest novelty craze will be danced. The engagement opens with a special matinee today.

Cathrine Countess at Shea's Today. Heading the bill this week is Cathrine Countess, who is appearing here for the first time in vaudeville, and has as a medium a dramatic sketch called, "The Birthday Present," from the pen of Frances Whitehouse. From the pen of Miss Countess is seen in support of Miss Countess, including Anita Allen, James Hyde and John W. Little. The extra attractions for the week are Carl Eugene's troupe of acrobatic marvels, Joe Heister, the winsome English comedienne and the Gardner brothers with their latest society dances. Included in this week's bill are Joe Robert, Buchanan, Murphy and Francis, Reed Bros and the kinetograph.

At the Star. A show of things fitting title for "The Follies of Pleasure," which opens at the Star theatre this afternoon. Burlesque has been brought to a high standard of excellence in the past few years and there is no doubt that the "Follies of Pleasure" will measure up to all the

THREE INJURED IN AEROPLANE FALL

French Airman and Two Passengers Crashed to the Earth.

LONDON, Aug. 30.—(Can. Press.)

Andre Debuissey, an aviator, and two passengers were badly injured by the fall of an aeroplane this evening. Debuissey had raced his machine at Hendon in the afternoon, finishing second in the contest. He then started for Aldershot with the two passengers to deliver the machine to the army authorities.

Near Maldenhead the engine went wrong. Debuissey tried to volplane, but in the descent the machine struck a turtle 50 feet from the ground. Debuissey, who was pinned under the wreckage, was the most severely hurt of the three.

BOILER EXPLOSION COSTS NINE LIVES

Six Also Injured in Accident in Harbor at Pittsburgh.

PITTSBURGH, Aug. 30.—(Can. Press.)

Nine persons lost their lives and six were injured when the boilers of the tugboat Alice exploded at an early hour today. Two of the dead have been found and efforts are being made to recover the bodies of the remainder.

Late today the body of Mrs. Kate Mills, stewardess, was found floating near the dam at Coraopolis, Pa., where the accident took place. A diver recovered the body of Grant McCormick, fireman.

Names of others who lost their lives were Capt. Thomas Flaherty, senior officer, Pittsburgh; Capt. Harry Donald, pilot, Rice's Landing, Pa.; Perry Robbins and Cyrus Glimmer, firemen, Elizabeth, Pa., and Joseph Mills, son of the stewardess.

The injured were taken to the Marine Hospital here. They are reported to be improving and it is thought their condition is not serious.

The Alice was proceeding up the Ohio River with a tow of six flats loaded with sand gravel when the explosion occurred.

Bargains in Upright Pianos. During Exhibition week the Old Firm of Heintzman & Co., Limited, are offering very special values in slightly used upright pianos of well-known makers, including several of their own manufacture, etc., tuned from rental. Visitors will find their worth while to call at the firm's warehouses, 193-197 Yonge street, and inspect these instruments.

Sir George Doughty, a prominent Unionist member of the British Parliament and an authority on dominion and home fisheries, is recovering from an illness at his hotel in this city. He is 65 years old.

Sir George reached New York on the 22 instant from Vancouver, B. C., where he had visited his son, Wilfred Doughty. His intention was to call for England the next day, but the railway journey was aggravated by illness and on Monday the 25th, the lithotomy operation was performed. A remarkably quick and satisfactory recovery ensued.

Sir George's son will accompany him home during the coming week.

RAILROAD MEN MET CABINET MINISTERS

A. W. Smithers and Others to Join in Inspection of New Lines.

COBALT, Ont., Aug. 31.—There was a great gathering of railroad magistrates to meet Hon. W. H. Hearst and Hon. Frank Cochrane yesterday and today. A. W. NOT BEATEN YET SAYS LAWYERS

(Continued From Page 1.)

doing. Friends might criticize his act, added, but he had acted with his eyes open.

Thaw's lawyers denied that they were trying to coerce Boudreau into signing a confession. They said they were trying to get Boudreau to sign a statement that would be used in contesting Boudreau's right to ask for a writ.

After explaining what action Thaw had taken Mr. Keown issued this formal statement:

"I do not believe Boudreau has any right to make application for a writ of habeas corpus for Harry K. Thaw, but should judge Hutchinson hold that he is an interested party we will produce the document in which Thaw declares he does not intend to sue Boudreau. That, in our opinion, should nullify any claim Boudreau may make as to his interest in the matter."

"Gentleman Roger" Thompson, the New York chauffeur, who drove for Thaw on the trip from Matteawan, disappeared from Sherbrooke today. It was learned he had gone to Montreal, where he had disclaimed any intention of jumping the \$500 bail on which he was held here on the charge of aiding Thaw, a lunatic, to cross the border, the state of New York is taking no chances.

Thompson is under indictment in Dutchess County, N. Y. for conspiring with Thaw and five others to bring about Thaw's release, and detectives under Captain John Lanyon, who accompanied Jerome here, followed him on his journeyings. His case comes up here on Wednesday.

How Accidents Happen.

Skidding on ice is a common occurrence when least expected. It never comes to the same driver who uses Dunlop Traction Tread Tires.

BISHOP PREACHES AT CATHEDRAL

Head of Diocese Delivers Inspiring Sermon at St. Alban's.

CENTRE OF WORSHIP RECEIVES A PRESENT

His Lordship Says That When Completed Cathedral Will Be Thronged.

The Bishop of Toronto preached at St. Alban's Cathedral yesterday morning, the special reference to the wonderful progress that the cathedral during the summer, and the expansion of the work which is completing the edifice by 1915.

His lordship took for his text Numbers xxiii. 2. "What hath God wrought?" After dealing with the historical setting of the great National Exhibition now in progress, as an annual general thanksgiving, as already he had received numerous requests from the clergy to preach harvest thanksgiving sermons. This spirit of gratitude is, thank God, universal. The world's progress brings us up to dizzy heights. This is amazing to us. We have in the past century a City of Toronto at the present time a splendid demonstration of this fact in the great National Exhibition now in progress. The visitor passing from one great building to another is almost overpowered with the sights of the products of the whole world as seen within the walls of these beautiful edifices.

Power, Might and Wisdom. "Such a demonstration of power, might and wisdom of God, working thru man in all the world's ramifications, is perhaps not seen anywhere else in the whole world. A man in such surroundings is led to exclaim, 'What hath God wrought?' The reason for this local special thanksgiving is, therefore, Splendidly and gloriously, the whole year in the cathedral building, starting from the laying of the corner stone of the Duke of Connaught in August, 1912, the completion of the beautiful baptistry in May of this year; the opening of the main building, throwing out before our eyes the magnificent solidity and beauty of the whole edifice, giving confidence to all, as the exceeding beauty of this great undertaking, and the fact that it may become a centre of religious worship of this city.

Two Viewpoints. The stimulation of this work may be considered from two viewpoints, on the divine side and on the human side. A desire to honor God as a splendid and praiseworthy sign of gratitude and expression of thanksgiving in the science and art and the whole of our life, we are privileged to live; the expression of the constructive spirit of the day.

His lordship concluded an eloquent sermon by stating that the campaign will begin with renewed vigor on Tuesday, the 2nd of September, when a large ingathering of Christian officers and laymen will be held in the house of God that it may very soon become of fame and glory thruout all lands."

WODEBINE HOTEL COMPANY, LTD.  
Geo. A. Spear, President.  
108 to 110 King Street West,  
TORONTO, July 22nd, 1913.  
The Simplex Sales Co. Toronto:  
Dear Sirs—About a month ago I had you equip my car with a set of puncture-proof tubes. When the tubes were installed, your Mr. Shaw drove a nail into one of the tubes six or seven times to test the self-healing quality of the tube for some friends of mine, who were present at the time. Since then I am pleased to state that the pressure in the tube has remained the same and I have no trouble whatever with my tires. I never feel compelled to stop as far as I like and get back without stopping on the road to replace a punctured tube. Wishing you every success with the new tube, I beg to remain, yours truly,  
GEO. A. SPEAR.

## We will make this Sensational Test to fully Convince You

We have a demonstrating Simplex Puncture-proof Pneumatic Inner Tube, with more than 100 punctures, which we will place in the shoe and drive you 50 miles WITHOUT ANY APPRECIABLE LOSS OF AIR.

CAN YOU EQUAL THIS DEMONSTRATION?

## ANDERSON WON BIG AUTO RACE

Covered Over Three Hundred Miles at a Breakneck Clip.

ELGIN, Ill., Aug. 30.—(Can. Press.)—On Anderson driving a Stutz car 202 miles at the rate of 71 1/2 miles an hour today won the Elgin National road race in 4:18.28. Ralph Mulford in a Mason, finished second in 4:20.21. Spencer Wishart, piloting a Mercer, was third in 4:29.58 and Harry Gray, driving an Isotta, finished fourth. Ralph De Palma, in a Mercer was fifth. Joe Dawson, driver of a Marmon was on the last lap when the race was called and Bill Endicott with a Case car had completed 259 miles. The weather was perfect and 50,000 persons saw the contest in which twelve cars started. Rickenbacher, pilot of a Mason, went out of the race in the first lap. The car ahead of him had skidded and to avoid bumping it Rickenbacher drove into a ditch, breaking a rear axle. Haupt, another Mason driver, was another contender in the race for 245 miles, when his engine burned out and he limped off. The course Bob Burnan also drove a pretty race in his Keeton, but he quit at 159 miles with a cracked cylinder. Henning's Valler car lasted only 28 miles. Bergdoll, who drove an Edwin Special, seemed to have third place secured at 259 miles, but he allowed himself to run out of gasoline on the stretch and ceased to figure. Anderson by his performance today broke the record for the event. His speed, 71 1/2 miles an hour, compared with 62 1/2 made by Mulford in 1910. He ran in 1911 and 1912 a year ago, when he Palma won.

## DIVISION LEADERS BEATEN IN T. AND D.

Runners Up in Every Series Caught Up a Little on Their Rivals After Hard Battles.

Saturday in the T. and D. all efforts to score on form were thwarted, and only the also rans captured the games. A singular feature of the results was the fact that the leaders in every division went down to defeat at the hands, or rather, the heads and feet, of their closest rivals in the race for the championship. In the senior section, Eaton defeated Overseas by the score of 1 to 0, and booted themselves two points. Don Valley and Pioneers had a great game, but neither a draw. Then, in Section A, another bump was administered by Devonians, who saw to it that Simpsons were at the wrong end of a 1-0-0 score. The erstwhile champions of Section B were also the recipients of a Humpty Dumpty experience, as Caledonians took a fall out of Fraserburgh, and became much more upheaval finished the day. One more upheaval finished the season when they stacked up against Yorkshire, The North of England kids were waiting for this opportunity for several weeks, and they doubled the score on the leaders. The results:—  
Senior.—Eaton 1, Overseas 0.  
Don Valley 1, Pioneers 0.  
Sunderland 1, Davenport 0.  
Thistles 1, Hiawatha 0.  
C.N.R. 1, Parkviews 0.  
Section A.—Devonians 1, Simpsons 0.  
Christie-Roland 1, Middlethians 0.  
Olympics 1, St. Gile's 0.  
Sons of Scotland 1, St. Cuthberts 0.  
Section B.—Caledonians 1, Fraserburgh 0.  
North Riverdale 1, Swans 0.  
Taylors 1, Orchard St. 0.  
St. James 1, Bristolians 0.  
Section C.—Yorkshire 1, Old Country 1.  
Parkviews 1, Earls Court 1.  
Eaton 1, Wychwoods 1.  
Overseas 1, Riverdale 0.  
Waverley 1, St. Johns 0.

# A Cadillac Town

There are about 1200 CADILLAC Automobiles in regular use in Toronto. They are in evidence wherever you turn, and men who can pay ten times the price of a CADILLAC, if they want to, drive CADILLACS by preference. More actual money is invested in CADILLAC cars than in any other make of automobile at any price, and the new 1914 models have behind them the experience of twelve years, during which period the CADILLAC organization has produced more high-grade cars than any other plant in the world.  
If you want absolute confidence in a car's ability and stability, buy a CADILLAC.

## SPORTS FRIENDS AT ELGIN, ILL.

Three Hundred-Mile Auto Race Draws Big Crowd—Spills and Thrills Early—The Starters.

ELGIN, Ill., Aug. 30.—The automobile race for the Elgin trophy, with 160 miles or half the distance completed, developed one of the closest and fastest road contests ever run in this country. The leaders were making 75 miles an hour and frequently better, with Anderson, in a Stutz, leading.  
Twelve cars started, and at the 100th mile only 16 minutes separated the leader from Grant, the rear runner.  
The crowd brought out for the attraction was estimated at 50,000.  
Twelve cars got away this morning in the annual 300 mile race for the Elgin trophy. The largest field and larger machines than appeared in yesterday's race added to the interest in the contest and a crowd, excited to such a degree that it broke thru the lines of the militia at the finish yesterday was on hand to cheer the starters.  
Bill Endicott, in a Case, was first man away, and he was followed by the following:—  
1. Mason—Ed. Rickenbacher.  
2. Mason—R. K. Mulford.  
3. Mercer—Spencer Wishart.  
4. Stutz—G. A. Anderson.  
5. Marmon—Joe Dawson.  
6. Case—Bill Endicott.  
7. Case—Bob Burnan.  
8. Case—Erwin Spang.

## PEARL WAIN WINNER IN LAST STRIDES

R. Davis' Southern Maid Beaten in Thrilling Race for Rich Futurity Stakes.

SARATOGA, Aug. 30.—Pearl Wain won the \$10,000 Futurity at 800 furlongs here today after a desperate drive to ward off Southern Maid and Addie M., who finished second and third, respectively. The result was in doubt until the last few strides. The time was 1:15.  
Both Pennant and Southern Maid came from far behind in the stretch, and had not been able to keep Pennant, Bringhurst, and Addie M. in the lead in the first few strides, followed by Forum and Early Rose. When Pennant, Southern Maid and Addie M. were well separated from the leaders, Pennant and Southern Maid tried to atone for her slow beginning with a wonderful burst of speed. She was taking two jumps to the winner's one in the whip on Pennant, and the cot answered gamely, holding a long way for the winner's one in the place.  
The fractional time shows:  
FIRST RACE—Handicap, all ages, 5 furlongs.  
1. Flying Fairy, 113 (Davies), 5 to 2, 7 to 10 and 1 to 4.  
2. Worship, 115 (Butwell), 8 to 5, 5 to 5 and 1 to 4.  
3. Springboard, 112 (Wolfe), 5 to 2, 7 to 10 and 1 to 4.  
4. Light of My Life, Swann, 127 1/2.  
SECOND RACE—The Beverick Steeplechase, 3-year-olds and up, about two miles.  
1. Post Boy, 140 (Allen), 7 to 5, 2 to 1 and 1 to 2.  
2. Welshship, 141 (Kermath), 9 to 2, even and 1 to 2.  
3. Addie M., 114 (Butwell), 15 to 1, 5 to 1 and 1 to 2.  
4. Black Toney, Early Rose, Forum, Bringhurst and Anytime also ran.  
THIRD RACE—The Futurity, 6 furlongs.  
1. Pennant, 119 (Bore), 5 to 5, 3 to 5 and 1 to 4.  
2. Southern Maid, 119 (J. McTaggart), 5 to 1 and 1 to 2.  
3. Addie M., 114 (Butwell), 15 to 1, 5 to 1 and 1 to 2.  
4. Black Toney, Early Rose, Forum, Bringhurst and Anytime also ran.  
THIRD RACE—The Futurity, 6 furlongs.  
1. Pennant, 119 (Bore), 5 to 5, 3 to 5 and 1 to 4.  
2. Southern Maid, 119 (J. McTaggart), 5 to 1 and 1 to 2.

## BIG STORE DOWNS OVERSEAS CLUB

Under a threatening sky and on slippery ground Eaton's and Overseas met in practice for the coming game for the Senior T. & D. soccer game for at Eaton's Field on Saturday afternoon. Both teams were very keen on winning this game, and presented their strongest line-ups. In a 7-0 victory, Eaton's defeated Overseas by the score of 7 to 0. At the time of the game, the Eaton's senior fixture a large number of spectators, but at the end of the game, the Eaton's team presented the following line-up:  
Eaton's Goal, Martin; right back, Tweedie; left back, Rutherford; right half, McNealy; outside left, Molyneux; inside left, Rutherford; right half, Howth; outside right, R. Baver; inside right, Winters; centre, Rutherford; inside left, Rutherford; inside right, Rutherford.  
Referee—Mills.  
After the Kick-off, Eaton's had a couple of runs on Overseas' goal, but nothing resulted. Overseas' first shot was a header, but it was off target. Eaton's goal, a beautiful shot by Rutherford, was just what Eaton's needed. Overseas at this time were playing the better football, but Eaton's were playing nicely with the forwards. The Big Store team lived up after this and worked Overseas' defence hard. Eaton's were in times, but couldn't get it past them. McNealy, Eaton's inside left, missed a fine shot, but it was blocked. With nobody but the goalkeeper to beat, both teams were in a bit of a tussle. Eaton's were in a bit of a tussle. Eaton's were in a bit of a tussle.  
Full time score: Eaton's 7, Overseas 0.

## JUDEANS HOLD THE CRESCENTS TO TIE

Toronto Senior League First Game a Great Battle—Good Pitching.

STANLEY PARK, Aug. 30.—The Judeans and Crescentes played eight innings to a tie in the opening game of the Toronto Senior League. The Crescentes should have won, but Barker was given very poor support. Flude was wild and hit hard in the early part of the game, but settled down and proved himself a valuable strike out pitcher. Barker's home run drive featured the game.  
Totals:—Judeans 32, Crescentes 24.  
Pitching: Barker, 4 1/3; Flude, 4 1/3; Triller, 3; Simpson, 2; Gibson, 2; Calhoun, 1; Newcomb, 1; Barker, 1.  
Fielding: Triller, 2; Simpson, 2; Gibson, 2; Calhoun, 1; Newcomb, 1; Barker, 1.

cricket compiled 27, falling at fifth wicket to a ball from Priestley. The home team's score was 2 for 70. The remaining wickets fell for 5 runs, all being out for 75. The bowling was done by St. Paul's, 4 for 12, W. Priestley, 4 for 13; Jennings, 2 for 24; Joy, 0 for 25.

Yorkshire, being in to bat, Denton and Joy opened, the latter being dismissed for 3, Pugh following on and scoring 17 before being caught by Henderson off Gray. Jennings then took the bat and put on 11, being bowled by Larmouth.

Hewitt succeeded him, when Denton was unfortunate to be out to a good ball from Larmouth, after scoring 15. With the score at 7 for 59, Rostrick got hold and put on 20 (6 three and one 2). Tom Priestley made a useful 8. At the fall of the ninth wicket Yorkshire wanted three runs to win, these Rostrick and Robinson soon made and carried the total score to 89, thus winning by 14 runs and qualifying for the final match against the winner of the eastern division. Bowling honors go to Gray, 2 for 31, and Larmouth, 7 for 40.

UNIONISTS ENTER PROTEST. Protesting against the manner in which different contractors have been violating clauses in their contracts in regard to the payment of union wages the Toronto Building Trades Union sent an epistle to the committee of property of the board of education, urging that something be done to keep connection with this matter. The violations specified are those of the plastering contractor of the new McNaught School, the structural steel contractor of the Williams Road School, and also several carpenter contractors.

CAPS CHAMPIONS NORTHERN LEAGUE. KETCHICAN PARK, Aug. 30.—Attracted by the final game of the championship, the crowd was the largest since the Pearson crowd played at 2:15. Strollers were handicapped by Robinson's absence, he having strayed while catching his train their full line-up. In the first innings Strollers started off by scoring three runs. After that Stanley pitched air-light bats striking out eight men, while Brown pitched a gem, 1015 batsmen could not hit when his counted. In the seventh the Caps put the game on ice, scoring four runs on two hits, two outs and a wild throw. Altogether, it was a splendid exhibition, and excitement was tense until the last man was out. The new champions will play the winners of the championship league for the city championship. Score:
