YORK COUNTY AND SUBURBS

ST. DAVID'S CHURCH PLANS APPROVED

Earls Court Presbyterian Congregation Will Start Campaign.

MUCH MONEY NEEDED

Board of Control Decide to Give District Baseball Diamond.

Unanimity marked the proceedings of a thoroughly representative meeting of the congregation of St. David's Presbyterian Church, Harvey avenue, last evening, when plans were submitted and arrangements made, which pledged the congregation to an early commencement of the new church.

It is estimated that at least \$10,000 will have to be raised within two years as the new building will cost between twenty-five and thirty thousand dollars. A whirlwind campaign for private subscriptions will be started and bazaars will be held.

Two influential churches in the city have already made known their desire to render monetary assistance, and it is hoped that others will get rid of their surplus funds by aiding the work of the Presbyterian Church in Earls Court.

Baseball Diamond

President J. M. Warren of the Hillcrest Ratepayers' Association is well pleased with the result of his interview with the board of control yesterday, when in company with a delegation of the ratepayers, a visit was made to the city hall for the purpose of securing a site on the corner of St. Clair avenue and Bloor street, the property of the city, some six acres in extent, for a baseball diamond. The board decided to comply with the request, and promised to level up the ground and put it in shape for the purpose.

All Dissatisfied

Much surprise and dissatisfaction is expressed by the residents of Earls Court at the silence of the park commissioner, with regard to a park for the district.

The various large associations, and particularly the Earls Court District Voters' Association, received an assurance from an authoritative source some time ago that the park site was practically settled for Earls Court, but nothing has materialized to date.

The majority of the residents, with large families, look forward to their children, during the long summer holidays, playing in the dust or mud of the streets, according to the weather. An indignation meeting will likely be held in the near future.

Men's Banquet

A banquet under the auspices of the Men's Club of St. Edmund's Anglican Church, was held last evening in the church, Rev. E. Vesey occupying the chair.

Excellent Recital

On Friday night, May 1, at Oakwood High School the choir of Davenport Presbyterian Church gave an excellent rendering of "Daniel," assisted by a local orchestra.

All the choruses and solos were well rendered, and Mr. Dixon, the leader of the choir, is to be congratulated on the success of the recital.

The orchestra, also under the direction of the choir leader, acquitted themselves in fine style. The soloists of the evening were: Mrs. Ballantyne, Miss J. Graham, Miss T. Russell, Mr. J. Davidson, Mr. F. Hamilton, Mr. W. Russell, Mr. A. Wallace, Mr. T. Williamson, Mr. A. Bonnar, Mr. J. Weil, Mr. W. Whyte, Mr. J. Williamson.

ANOTHER ACCIDENT AT ROYCE CROSSING

Locomotive Crashed Into Auto Truck - Driver Nearly Killed.

NEWS OF WARD SEVEN

Resident Found Dead on the Floor by Errand Boy - Other News.

At 2:45 yesterday afternoon what might have been another fatal accident occurred at the Royce avenue level railway crossing. A large auto truck, owned by J. Cosentino, fruit merchant, of 90 East King street, was being driven in a westerly direction along Royce avenue by his son, Nicholas, and when it came to the crossing the gates were still up to allow another vehicle to get out. The truck, not noticing the approach of a south-bound yard engine on the farther track, started to cross, but he had scarcely got within the gates when they were lowered, imprisoning the truck on the tracks. Before he could stop the motor or apply the brakes, the locomotive had crashed into the truck, throwing it to the edge of the crossing, where it lay smashed against a cluster of electric-light poles. Young Cosentino was thrown instantly from his seat to the ground, but escaped with some severe bruises and minor cuts. The truck, however, a new one, was badly smashed and the large load of fruit which it carried was scattered to the four points of the compass.

Crossing Dangerous. Ward seven citizens have long been complaining of this dangerous crossing, which is one of the worst in the city. They feel that such accidents have become altogether too frequent and several fatalities have occurred there in the last few years. The crossing is too wide and the gates too far apart for the traffic which fills the street all day long, and unless the gates are lowered several minutes before the arrival of a train, there is bound to be some slower-moving vehicle caught between them.

Traffic Blocked. If the gates were lowered long enough to prevent this, a long line of blocked traffic extends on both sides of the crossing for nearly a block. There will have to be something done to that crossing before long," remarked a well-known member of the Ratepayers' Association, who happened to be present when yesterday's collision occurred. "Why can't it be done now before further loss of life results from it?"

Sudden Death. When James Rowe, a butcher boy from 1219 Dundas street, called for the day's wages at 31 Bloor street yesterday morning, shortly after 9 o'clock, he found the owner of the house, Harry Robinson, aged 47, lying dead upon the floor of the kitchen. He called in two neighbors, Frank Turk and Mrs. Robinson, and they summoned Dr. Matheson, Dundas street, but Robinson had been dead for some time when discovered, and medical aid was useless.

Mr. Robinson has been in ill-health lately, and her husband was in the habit of getting his own breakfast before the Wednesday half holiday winter, and it is rumored that an early closing rule for each night in the week, with the exception of Saturday, will also be adopted by many of the merchants of ward seven.

S. Cobean Dead. The death occurred yesterday at his late residence, 217 Fort avenue, of Samuel Cobean, in his 52nd year. He is survived by a widow and grown-up family. The remains will be shipped to his former home at Caledon East today for interment.

The "children's services" members of St. John's Church held their annual tea and entertainment in the parish house last night. About sixty children were present.

Incorporation Petition Will Be Circulated Right Away.

FINANCING CONSIDERED

Ald. Ryding Wants Village Area Extended North and West.

A lively special meeting of the Runnymede Ratepayers' Association was held in the King George school, when Mr. Watt presented his report on the probable cost of running the proposed village.

Enoch Ward, J. P., was called to the chair, and Mr. W. H. Cross acted as secretary. Mr. Watt, in opening the matter, said that the fact of there being two sides to the question would make it all the more interesting, for the advocates of incorporation would have had to be half so zealous in the work had they not been stirred up by opposition. The money collected in the district proceeded Mr. Watt would be spent there under the proposed scheme, and if the village council did not suit, the remedy remained, each year of turning the "whole shooting match" out. There were sufficient men, he said, of proper calibre, to run every-

Mr. Watt advocated the appointment of a commissioner of works, who would "also" act as policeman to "keep" all sidewalks and other work allotted to him, this work to be done by day labor, and to give as far as possible employment to the men in the district. This commissioner must also be a whole-hearted interest in the welfare of the district, and a fair salary—as suggested, \$1000 per year—should be paid. Day labor, said Mr. Watt, would cut off all profits—and he referred in some measure to "graft" on public works. Mr. Watt proceeded to suggest that the assessor to be appointed should place a greater value on land than on improvements, and if possible, that—say in five years—the assessment should be taken entirely from improvements and placed on land, vacant or improved, the final result being an up-to-date single tax system.

Would Extend Area. Ald. Ryding suggested that the proposed boundaries be extended so that up to Eglinton avenue on the north be taken in and on the west to the Humboldt street, and the area between the proposed boundaries and the water problem or in anything else. Ald. Ryding said he was not holding any brief for the city, neither for Home Smith. The city has no intention of taking the initiative in the matter, but is willing he said for Runnymede and other districts to ask for annexation.

Mr. Wosner made a vigorous protest against the alleged faction of the township, and he said the Ward did not give the question fair play. "Incorporation would probably interfere," he said, "with W. F. Maclean's metropolitan ideas."

A committee was formed to canvass for signatures to the petition for incorporation, the committee being Messrs. Deley, McQueen, Hallet, Woolner, Kerr, Watt, Joslyn, Vaughan, Slater, Mowbray, Cross, Ward, Durrant, Dutton and Clouston, and the signatures those at the meeting in favor of incorporation were then and there obtained.

Messrs. Durrant, Robson, Schunck, Costford, Clouston and others took part in the discussion.

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions, and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disgusting eruptions. To this same condition are due attacks of rheumatism and lumbago; the sharp, stabbing pains of sciatica and neuritis; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ, and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts, give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood. You can get these pills from any medicine dealer, or by mail at 50 cents a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

SPEECHES WERE GIVEN AND CONCERTS HELD

May Day Celebrated by Workingmen of Toronto in Sensible Manner.

May Day was celebrated by about fifteen hundred people at the annual May Day concert given in Association Hall in the evening and in the Ward in the afternoon, under the auspices of a joint committee representing a large number of labor and socialist organizations of Toronto. Controller James Simpson addressed the evening gathering on "The Emancipation of Labor," along with several other prominent labor men and socialists. The musical program was under the supervision of Prof. Michael Ham-bourne and Kenneth Angus. Miss Evelyn Chelver, Miss Nellie Gill, Miss Fieschman and Goldwin Stewart took part in the program. The choir of the Young People's Socialist League rendered songs of the Revolution in Russian.

Well up in front!

Intelligent comparison with the specifications of this season's models will show the Reo to be strong in the things that count. We are speaking now of cars priced at or near the same as the Reo. Even at that the Reo has features which properly belong to the expensive high-priced cars. For example, the new streamline body—electric starter and lights—a 35 h.p. engine capable of giving 45 h.p. energy—oversize tires 34x4—dimming searchlight—one rod control. Take the one important item of tires alone:

Reo owners save over 65 per cent.

in tire mileage because we add over 30 per cent. to the cost of the tires. We could give you cheaper tires and save you a little in the first cost, but we couldn't begin to give you anything like the same satisfaction. The latest type of demountable rims we use is a feature—no fear of blow-outs. And so it is throughout the whole car, the same conscientious care for details, for the irritating little things that grow up into big troubles if they're not properly looked after—marks each step in its construction. In short, the Reo is a thoroughly good reliable car—economical and serviceable. To a man who knows cars this is saying much. We don't know of anything more likely to prove the splendid value of the Reo than a thorough demonstration—inside and out. Make an appointment by mail or phone.

THE MODERN METHOD OF TREATMENT FOR ALCOHOLISM

The Neal treatment affects alike the periodical, the habitual, the moderate or the excessive drinker as well as the man who drinks to "steady his nerves." It takes away all inclination, taste, craving and desire for liquor and the man who once takes the Neal treatment will have no struggle or the least difficulty thereafter to keep from drinking. Its administration is easy, and not attended with the slightest danger. No hypodermic injections are employed, and the medicine used is a harmless vegetable compound, absolutely guaranteed to be free from narcotics or hypnotic drugs. The Neal treatment always accomplishes the desired results and at the end of treatment the patient finds his nerves steady, eyes bright, flush gone from his face and is sleeping and eating well. The Neal Institute is centrally located in Toronto at 53 College, and is equipped with all modern conveniences for the comfort of patients—physicians in attendance with lady graduate nurses at all times—absolute privacy is maintained and all business relations are strictly confidential. We shall be pleased to take this matter up personally with all who are interested, and go into the question of treating men and women who are addicted to alcohol by a method of treatment which is quick, safe and absolutely reliable. For further information, booklets, etc., write, please, call.

NEWS OF SPECIAL INTEREST TO WOMEN

FOUR APPLICANTS FOR PRINCIPALSHIP

But Miss Lawler Has Longest Experience in Toronto Schools.

HER EXCELLENT RECORD

Woman Nominee for Jarvis Street Collegiate Has Excellent Qualifications.

The applicants for the Jarvis Collegiate principalship are Miss Gertrude Lawler of Harbord C.I., Mr. P. J. Munro of Riverdale H.S., Mr. John Jeffrey of Humber-side H.S., and Mr. Richard Gourley of Humber-side H.S.

Mr. Munro was on the Jarvis street staff in the department of classics, and after a leave of absence was transferred to the Riverdale school. He has been a teacher for 13 years, only 7 of which have been in the city schools. His salary is \$2500.

Mr. John Jeffrey is head of the department of English in Jarvis C.I. He has had 27 years of experience, but only 7 have been in Toronto. His salary is \$2250.

Mr. Gourley is head of the mathematical department, at Humber-side. His salary is \$2350. He is a specialist in mathematics and classics.

Miss Lawler has been head of the English department in Harbord C.I. for the past 22 years, and thus has by far the longest service in Toronto. She taught her first year in Stratford Collegiate as head of the English department. But in addition she has a principal's certificate for specialties in French, German, and mathematics, and a university gold medal for general proficiency in honor courses. Her salary is \$2400, larger than that of any other applicant owing to her length of service, her high qualifications and her position as head of a department. Miss Lawler has been the pioneer in a number of distinguished positions. She is the first woman teacher in Ontario to receive the principal's certificate for specialties in French, German, and mathematics, and the first woman to receive the university gold medal for general proficiency in honor courses.

There is every possibility that owing to her exceptional qualifications and experience she will be also the first woman to receive the appointment of principal in a Toronto high school.

RED KID SLIPPERS, WHITE LACE HEELS

This Combination is Said to Make a Stunning Accessory to Modish Gown.

The "cascade collar" is a very new feature of the most exclusive waists. It falls in graceful ripples from the shoulder to a low pointed "V" in the center where it is caught with a jeweled bar pin, placed perpendicularly in its filly folds. These collars are made of silk organza or embroidered net, and also stand erect at the back of the neck, thus preserving the law laid down by Parisian experts. Pearls are very much in vogue, so much so that they are rapidly taking the place of the old-fashioned necklets. The ropes are of extravagant length, and many of the prettiest strings are developed in inexpensive filled pearls, which lend a softness to the complexion not otherwise obvious. Shoes are more exquisite than ever, and the designs are unique. Slippers display a successful combination of patent leather and brocade cloth. Sometimes the red and white are introduced in brilliant hues into the brocade, and rhinestone buckles are used to conceal the strap fastenings. Red kid slippers with white lace heels over satin are a stunning accessory to a handsome gown of chiffon hand-painted in best-red and brightened with brilliant buckles which catch the tunic into a puff. Long puffed sleeves of white chiffon are popular, and banded at the wrist with narrow black velvet studded with tiny jet ornaments. The newest parasols may be pivoted so that they tilt to any desired angle.

SPRING BRINGS WORK TO MANY IN ST. JOHN, N.B.

(Special Correspondence.) ST. JOHN, N.B., May 1.—With the reopening of the sawmills near the city some thousand men are given employment, and with the warmer weather large crews have been engaged in the construction of the new west side wharves, the Courtenay Bay works, the new postoffice and other construction work. The manufacture of lumber is still a very important industry in St. John, there being ten large sawmills, besides other woodworking establishments. The product of the mills is shipped to the United States, the United Kingdom, South America, West Indies, Africa and Australia. An estimate places the number of logs that will be rafted this season on the St. John River at Frederickton at 61,000, 600 feet, and in addition, the mills at St. John carry over a considerable quantity of logs from last year. This will give the mills plenty of raw material for the season and give work to many men in the mills and to the men who unload the ships of the lumber.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Herb Bouquets

THE herb garden is not the least considered spot at this season, for it must furnish the wherewithal to make our soups, roasts and sauces truly good. The herb bouquet gathered from your own little garden patch seems to have a spicy smell and a specially fine flavor that package herbs lack. The pleasant part of herb growing is that all these friendly, useful plants demand a corner of their own and when it is given to them they come up each year and spread and thrive and repay you in the only way they know. Safe to say a sunny place and the mist will not grow without water, but get along together in any moist spot. Thyme and pennyroyal want shade and quiet, and chives and shallot grow anywhere, always ready to take the place of onion or garlic.

This gives the housewife an excuse to loiter about the garden and yard, peering into the corners and under the bushes, and reaching with sure fingers among taller growth for the parsley that never fails or for the sweet marjoram, that has grown in the same spot ever since she can remember.

Herbs are gathered about the middle of summer, when they reach their best, just as other crops are. The dry, sprightly herbs are rejected, and the good ones well washed, dried and tied in cheesecloth bags and hung to dry until brittle. The leaves are then picked off and put into bottles or cans and labeled and well corked.

The great secret of good cookery is to use many flavors correctly and not to allow any characteristic taste or flavor to predominate. What the French call a "bouquet of fine herbs" is just a well chosen assortment of these tied in a bag and thrown into the food or put in loosely or chopped and sifted and worked into dressings and stuffings.

In some markets the meat men make capital of their knowledge of what constitutes a proper bouquet for certain meats. On the real will be a handsome bunch of cross, a few sprigs of mint will decorate the spring lamb, and the best will have a true bouquet by it. This last is sent with all meat orders in southern markets. It consists of a carrot cut in long strips, a strip of horseradish, a leek or some tops of chives, and all bordered with parsley and tied with stout twine.

If soups are to be delicate there will be a special assortment of a sweet pepper pod cut in four strips, a bay leaf, a sprig of sage, a stalk of celery and thyme and a very little onion.

Mint is used on lamb always; that it is fine on cold mutton, too, is agreed by most lovers of good soups, but now it is finding favor on pork as well.

There are several ways of using mint, as a garnish or in the clear bottled sauce, where the extracted mint juice is mixed with vinegar and in the gravy. In the last form the mint leaves are chopped and put into the hot clear meat gravy.

A piquant sauce to be made fresh as needed and for all meats is composed of two onions chopped fine and browned in a tablespoon of butter. Add the onion and the butter, and a sprig each of parsley, thyme, sage, mint and bay leaf, four leaves of chives, two small pickles, salt and pepper. Mince all these very fine, add a tablespoon of consommé or water and a tablespoon of sharp vinegar. Mix this with two tablespoons or more of richest salad dressing.

cord-like feelers (that always make one fearfully remember old school lessons concerning the "devil fishes") so that they will easily settle themselves back again into the moist earth.

You will notice that the lower part of the shoots are whitish; be sure to replant deep enough that this white part is well covered.

The three-petaled blue blossoms of half a day only come in clusters of as many as fifteen, each "pretty" bud deeply enclosed in dark green sepals. Before the lark is awake spider lily has already opened her blossoms to the world. Since her time is short she must at work before the lark. The hot sun looks down into a golden heart, in the morning; that heart is hidden under the meeting and light-folded blue petals by one o'clock, and five o'clock next morning sees spider lily crowned again with royal blue.

See that there is plenty of loose mulching deep under the roots, plants so that the greedy roots will easily penetrate into cool regions.

Add plenty of water for spider lily. Floods of it—every morning before the sun is up. Pour a good pailful on each clump. A sprinkling with the hose is useless, if you would have blue blossoms three inches across: Three inches across! Yes, four inches across, if you are generous with your pails of water.

WILD FLOWERS CONDUCTED BY RACHEL R. TODD'S Bunch Berry

Under wreaths of flowery tethers, buds and leaves and flowers and blossoms there, that sprout in quiet. Round your feet their charms are.

A true Canadian is bunchberry, and to be found almost anywhere in our woods and forests, at this time of the year.

A child of the earth, modest, lowly and unassuming, little bunchberry rarely catches the eye, and even the most earnest wildflower lover will find her.

Keep eyes, watching among last year's leaves, along the paths of the forest floor, where the moist mold makes rich feeding place, may spy the little rosy stem, reaching up ambitiously to a nine or ten inches with its whorl of four, five or six deep green, fleshy, parallel-veined, against the shimmering of which four-petaled blossoms rest, wide open, its four petals exact replicas of the green leaves.

A closer look will disclose the fact that these four white petals are not petals at all but sepals, while instead of green, as usually, against each of these white petal-like sepals are to be seen small clusters of greenish blossoms, so tiny as to be scarcely distinguishable.

These tiny blossoms will in time become wee berries that, as they grow, are lifted upwards on a gradually lengthening peduncle after the blossoms fade away. Chime early in June the berries form, so that by the middle of July may be seen here and there and everywhere throughout the woods these tightly-clustered, shiny, crimson berries.

It is no uncommon sight to watch goldfinch, trout and spring beauty nodding together among the ferns, for they each love a rich, moist earth in which to dwell.

Since the bunchberry is one of the well-known dogwood family, beloved so truly of all Canadians, and since this wee trim plant is so characteristic of the dogwood tribe, there should be little difficulty in recognizing the tiny plant. And this is the smallest of all the family.

The children are learning to leave the blossom of bunchberry unplucked, and that theirs may be the pleasure of gathering later the cunning bunch of shiny berries.

PIANO RECITAL IN FORESTERS' HALL

Herbert Fryer Entertained Large Audience With Varied Program.

A charming piano recital was given last evening at Foresters' Hall by Mr. Herbert Fryer, many students and recognized musicians being present.

The program was a varied one, embracing selections from Haydn, Beethoven, Brahms, Mendelssohn, Liszt and other composers, three preludes by Herbert Fryer himself being among the compositions given.

Neatness and perfection of finish are outstanding features in Mr. Fryer's playing, fine pedaling is part of his outfit and his technique generally appears faultless.

Variations in Chopin Haydn was given with the finish which prepared the audience for the satisfactory character of the remainder of the program. Two German dances by Beethoven were played in a charming manner. The Canonets del Salvatore Rosa was a stately number, and deeply and earnestly appreciated by every number given. The preludes, the work of the artist himself, showed the versatility of his talent, and were received by musicians present with beautiful. The closing numbers were a group from Chopin, including Barcarolle, two preludes and waltz in A flat, op. 34.

NURSERY

CONDUCTED BY Elmer Murray Teaching Nature Study

As a broad general rule I would say never teach from books what you can teach first-hand from nature. For example, I have in mind a nature study reader which gives several carefully planned "stories" on the germination of the pea. It tells how the seed swells, how the little plant begins to grow, it gives pictures of the seed, root, stem and leaf in every conceivable stage of development. This is all as instructive and also as destructive and deadly dull as possible. For a child to learn how a pea grows let him plant a few peas in a jelly glass half full of sawdust and water them each day; or better, plant one pea each day for ten successive days, and then, when the last one is beginning to sprout, compare them; or best of all let him raise peas in his own garden. He will learn then how a pea grows—learn first-hand from old Mother Nature, and not only will he remember, but he will also have a new interest in the thing that he has helped to live. Then if you wish a story about peas read Anderson's "Five Peas in a Pod"—the tale of five little brothers who went out in the wide world to find homes, and of how the fifth little brother, lodged in the gutter under the attic window of the tenement, and there grew to make a garden for the sick child. I call to mind also certain lesson stories on toads. They will "inform" a child on all the points of toad life which he otherwise might find out for himself with pleasure and profit, but such a story as Mrs. Ewing's "Monsieur the Vicomte's Friend"—a narrative of a prisoner of the French revolution and his solitary friend the toad—brings the child into

CHARACTER IN POLITICS. Fine opportunities are lost by the provincial Liberal party through its partisanship. Independent observers must feel that in many ways the government in the session just closed played into the hands of the opposition in the most tactless and unnecessary way.

## FOOTBALLERS HAVE CITY PARKS TODAY

Parks Commissioner Has Issued Notice That Football Teams Are to Hold Sway.

The threatened clash between the footballers and the baseball men on the city parks this afternoon has been averted, as Parks Commissioner Chambers issued a notice last evening to the effect that no permits would be issued to other than football teams until the 15th of May. This will prevent several openings in amateur baseball today, but it will prevent any free-for-all which had threatened to be staged.

Just here it might be said that the football people have shown a very enthusiastic and aggressive front in the securing of grounds this year, and while the baseball, cricket and lacrosse men were reading around their grounds the footballers were up and doing, involving the powers that be at the city hall, hence the new decision regarding the allotment of grounds.

The Queen City Professional Football Club have decided to stand by their president, W. Hilton, in regard to the charges made by the Ontario F. A., an evening contemporary says, but the secretary, Lew Brown, is at a loss to understand how any charges have been made by the O.F.A. against him. At the semi-annual meeting a member of the association asked the question as to whether or not a person who was not recognized by his association, and who could not hold office in his association, could sit upon a professional body's executive who was applying for affiliation. There were no charges made, one way or the other, and the application that was before the association from the profr. for consideration was refused because there were two names upon it of professional players. No objection was made against Mr. Hilton at that meeting, and at present, as far as the O.F.A. are concerned, they are not considering his eligibility to sit upon that board.

Russell Motor Play Footballers on Saturday at Mount Dennis in a league game. Team: Dan, Turner, Richardson, Veitch, Barron, McMurry, Tully, Broadfoot, Wallace, Popping, Tooper, Wilson, reserves, Alton and McCaughey. Kick-off at 3.30. Players are requested to be on hand at 3 o'clock.

Dunlop Tire senior team play T.S. Hallway on Willowdale Park Saturday at 2.30, when the following line up for Dunlop: S. Wood, W. Shore, W. Hawkins, G. Slater, H. Williams (captain), G. Cooper, E. McMurphy, S. Howson, H. Catterpole, F. Beadle, R. Lavery; reserves, Ben Cooper, E. McLean. T.S.R. are, as yet, an unbeaten team and this should be a rousing game, as the rubber men are anxious to regain their lead in this division, which Lancashire rather luckily snatched last week.

Dunlop Juniors play Rath Rovers at 2.30, when the following line up for Dunlop: Scougal, Flak, H. Taylor, Riley, Lowen, Fickett, Derrick, R. McHardy, J. Taylor, Lawrie, Seville; reserves, Blackledge, Davenport, Harper, Duncan, Meschan.

**FINAL INDOOR MEET**

All the Cracks Were Out and a Large Crowd Saw Varied Program of Events.

The closing indoor meet of the season at the Central Y.M.C.A. last night, was a great success. Between 400 and 500 men turned out, and the events were all interesting. The program was started with a drill by the young men's class, after which Alex. Cameron and Nelson Ward gave an exhibition of pole vaulting, and, although they have not had much practice this season, they cleared ten feet quite easily.

The relay race between West End and Central was a beauty at the way. West End got a lead in the first relay, when Croft went twenty yards from Keashey. Putty increased the lead against Newell, while McCullough, Kelly and his own. Treasurer started in the second to last for Central, and in a desperate sprint at the way, all but put the team on even terms, actor Phillips gave a great exhibition of sprinting against Harry Cook, and the West End team won by twenty yards. The thirty-yard sprint was run off in six heats, and every heat was decided by inches. Jack Cook, who had just returned from England, celebrated the event by winning his heat. The final was a great race from the crack of the gun to the tape. The judges were unable to decide the winner for some time, but it was given to J. R. Galdner by a half-breath against Chas. Kelly.

Alex. Cameron, Nelson Ward, W. G. Brown and Harry Cook gave a fine exhibition of high jumping, in which W. G. Brown was the winner, clearing five feet five inches in excellent form.

The feature event of the night was a mile relay race, in which George Goulding and Carl Mertens defeated Percy MacDonald and Jack Freeman. Mertens and Freeman looked up in the first relay, and for the first two laps it was neck-and-neck, but Freeman went ahead for about thirty yards, but the last two laps of the half-mile saw Mertens gain.

Macdonald took up the relay and for the first two laps held his own against Goulding, and then the world's champion began to show his class and from here on pulled down the lead, with only two laps to go he got MacDonald and with a terrific burst of speed, which was applauded by the big crowd in the excellent time of 18 1/4.

### PEOPLE ROBBED SAYS A. B. FARMER

System of Assessing Buildings in Toronto is Entirely Wrong.

### CITY'S WATER SUPPLY

Ald. Meredith Says Filtration Plant Should be on Mainland.

Ald. Meredith and A. B. Farmer were the principal speakers at the meeting of the Ward Five Central Ratepayers' Association, held in the Clinton Street school last night. Speaking on the water problem, Ald. Meredith stated that the city was pumping 50,000,000 gallons of water daily. Thirty million were filtered, but 20,000,000 were unfiltered. The reason for this was that the filtration plant at the island was not large enough, and the result was that unfiltered and filtered water came together and necessitated the using of chlorine. It had been said the Lake Ontario water was superior to that of Georgian Bay or Lake Simcoe, but the real obstacle in the matter of pure water was the method of sewage disposal. The water, he thought, in Lake Simcoe was too warm, and besides it was not deep enough; therefore, a water supply from Lake Simcoe would mean the spending of a great amount of money. There was a doubt as to whether the filtration plant should be located at the island. He contended that it should be built on the mainland for fear of a breakdown in the tunnel.

**People Are Robbed.** A. B. Farmer declared that the people of Toronto were being robbed by the assessment department. The most important thing in raising taxes was to assess properly and fairly, and if the department did not do that it failed primarily in its business. He had gone into the question of taxing in the city, and he found that a house valued at \$5000 was assessed at 75 per cent. of the sale price, while a building valued at \$20,000 was assessed 47 per cent. The properties which comprise the proposed postoffice square were assessed 72 per cent. of their value, and if they were paid at the same assessment rate as the small houses they would be paying \$3000 more than at present. The assessment department is completely helpless in the matter of assessing lands. Still I consider Mr. Farmer to be a capable valuator, but he is not the proper system," he concluded.

### C. N. R. WILL NOT CONTROL FUNDS

Government Objects to Misinterpretation of Terms of Contract.

(Continued From Page 1)

contains three important items, which are not to be found in the resolutions as printed on the order paper. In the first scheduled, it is stated that the votes and proceedings of Thursday, there were included: The Brockville, Westport and North York Railway, the Manitoba Railway, and the rolling stock and equipment of any of the above. As these have been eliminated, I do not suppose the clerk in charge has done that on his own authority. By whose authority was it done?

**Premier's Explanation.** Mr. Borden: "The matter stands in this way: When the notice was given a draft was used instead of the finally completed copy. I did not notice particularly what my right honorable friend had called attention to, but I noticed that there were some blanks, and I called the attention of the solicitor-general to it, and it was my idea and my suggestion that changes should be made, but I directed that they should be made, not by transferring the changes to the order paper, but by amending the notice which of course would be the regular proceeding. That can still be done if my right hon. friend desires."

**Sir Wilfrid Laurier:** "I think we should have on the votes and proceedings the exact text of the resolutions as they will be submitted to the house."

**Mr. Borden:** "There is no objection to doing that, in fact, that is what I directed should be done, but there seems to have been misunderstanding, and that the officials of the house may have understood that these changes should be made to the resolutions as they appear on the order paper. I did not intend that, and I quite agree with my right hon. friend that the course he suggests is the regular one."

**Asked for Trust Deeds.** Sir Wilfrid Laurier: "I suggest the advisability of advising the members of the house, some days in advance of the debate on the Canadian Northern agreement, of information which seems to us on this side of the house absolutely indispensable to the intelligent discussion of these resolutions. In the past several times to different trust deeds of June 30, 1913. I would suggest that the table of the house with all convenient speed. I would also ask that all outstanding contracts made by the Canadian Northern Company with contractors for construction of any line still uncompleted should be placed on the table of the house with a statement of the liabilities mentioned in sections 4 and 5 of the resolutions."

**Opening of Navigation, Niagara Steamers.** The Niagara Navigation Division of the Canada Steamship Lines, Limited, will open on Saturday, May 2, Steamers Corona will leave Toronto at 7.30 a.m. and 2 p.m. daily except Sunday. Book tickets are now on sale at the company's ticket office, 44 Yonge street, corner Wellington street. 456

**TAX BILLS 1914.**

For the convenience of ratepayers whose own various properties, and estates, companies, etc., in charge of agents, and who pay the taxes thereon, the city treasurer, on being immediately furnished with list, giving proper descriptions of such properties, will have the bills for same, mailed or delivered at one address. 614629

### SCREAMED WITH PAIN

Nearly Died With Kidney Trouble Until "Fruit-a-tives" Gave Welcome Relief and Completely Cured The Disease.

CHARLES CALVEART, Esq.

St. Thomas, Ont., April 1st, 1912.

"In 1911, I was laid up with Kidney Trouble and not able to get out of my chair. I tried many different remedies without any results and I was steadily growing weaker. One day, a friend from Ottawa came in to see me, and when he found me in such poor health, said he would send me a sample of 'Fruit-a-tives,' which he had, and I commenced taking them. They did me good from the start, and in a very short time I was up and around. 'Fruit-a-tives' completely cured me and I have enjoyed the best of health ever since."

"I would not have any other remedy for Kidney Trouble and would strongly advise anyone suffering from this trouble to cure themselves with 'Fruit-a-tives.'"

It is simply wonderful, the relief that "Fruit-a-tives" gives in Kidney and Bladder Troubles. In the great majority of cases of "acid urine," pain in the back, "kidney cramps" and Rheumatism, the kidneys are not actually diseased. They are merely overworked. That is, they are doing more than their share of the work of ridding the system of waste matter. In most cases of Kidney and Bladder Trouble, there is also Constipation and faulty Skin Action. "Fruit-a-tives" relieves the Kidney Trouble by correcting the action of the Bowels and skin, and is the only medicine in the world that does not on all three of these great eliminating organs. "Fruit-a-tives" will always cure Kidney Trouble when caused by poor skin action, constipation and acid indigestion. 50c a box, 6 for \$2.50, trial size 25c, at all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

### MEXICANS SEIZED AN AMERICAN BRIG

But Released Her Again on Demand of Warship Raleigh.

WASHINGTON, May 1.—An American brig was seized by Mexican federal officials at Manzanillo, who thought that war had been declared, but was immediately released with apologies on the demand of the Raleigh, according to a report received at the navy department today. The American fleet on the west coast of Mexico. Admiral Howard also reports that the Mexican steamer Leulia has been burned at Manzanillo, and it was the noise of the explosion which caused a false report that the Raleigh was bombarding that port. Everything is now quiet there, the admiral reports.

### NEWS FROM THE CITY HALL

#### TODMORDEN ASKS TO BE ANNEXED

#### PRICE CHALLENGES JUDGE'S FINDINGS

Acting City Architect Accuses Mr. Justice Denton of Discrimination.

#### CALLS IT IMPROPER

Defence Report Submitted to Controllers Combats Investigators' Strictures.

Acting City Architect Price submitted to the board of control yesterday his defence against the findings of Judge Denton in the investigation of charges against the city architect's department. The document was tabled.

"His honor seems to have gone out of his way to make findings detrimental to me which are not in any way supported by the evidence," is the way Mr. Price leads off. "I submit that the bringing in of a finding in the Woodbine case, while the coroner's jury were investigating same, was very improper, and had the crown attorney taken the judge's view of the fire department with certain rights which could not be taken from him, as the building bylaw is not retroactive."

As to responsibility for construction of the burned building Mr. Price states: "The evidence shows that the alterations, etc., were started under the old bylaw, and there seems to be absolutely no doubt that Mr. Horn thereby places himself within certain rights which could not be taken from him, as the building bylaw is not retroactive."

Dealing with the remainder of the findings Mr. Price gives his viewpoint of the reasons for each occurrence. He adds: "A very glaring case of discrimination is shown by his honor (even after the enquiry was over, and the report in the hands of his worship the mayor) refusing to let me have an office file out of the evidence to report on a certain matter to the mayor, while The Globe newspaper was able to obtain exhibits during the investigation, and make comments on same, which were not made and were not borne out by evidence. A very singular coincidence in connection with this incident is that the judge's comment is along the same lines as The Globe, and opposed to the evidence."

#### A LITTLE MISTAKE IN MIXING VATS

This is the Explanation of Excessive Chlorine Taste in the City Water.

"The bad taste of the city water is from the residue of the supply that was affected thru a mistake in the chlorine mixing vats," Dr. Nasmith, director of laboratories of the local health department, said yesterday afternoon. "Excessive chlorine taste will soon have disappeared."

At the conference of the city council on Thursday over the extension of the filtration plant, Dr. Nasmith was questioned about the bad taste of the water that day, and he explained that there had been a mistake made at the vats in which the chlorine is mixed. He stated that very little extra chlorine had been placed in the water. Dr. Nasmith added that the establishment of an automatic mixer has been under consideration for over a year, and no definite action has been taken because of expected change in the system of filtration, when possibly little or no chlorine would be used. The mixing of the chlorine is now done by two shifts of men, each working twelve hours. This mistake in mixing is stated to be the first that has occurred, and a repetition is regarded as very unlikely.

Petition Signed by Nine Hundred Ratepayers Presented to Council.

A petition for the annexation of Todmorden district was presented to the board of control yesterday by Dr. McDonald. The petition is signed by 900 ratepayers, of a majority in the territory to be annexed. The boundaries are as follows:

From the northeast corner of Mount Pleasant Cemetery south along Bayview avenue to St. Clair avenue, east along St. Clair avenue to C. N. R. tracks, thence along C. N. R. tracks to the junction of the C. N. R. line running southeasterly, thence down that line to Scarborough Township, thence south on the townline to the city limits.

"We would like a recommendation sent on to the council next Monday," Dr. McDonald urged.

"Impossible," Mayor Hocken said, "but it will go to the following meeting of the council."

Another annexation was brought up, Controller Church stating that a majority in the council are in favor of it. The boundaries are as follows:

North from city limits on west side of Spadina avenue to a direct line east and west from Burton road, and that direct line east to the city limits. This is known as the Upper Canada College district. It would come in under the terms of the property paying in full for local improvements. Its annexation will be recommended to council on Monday.

#### NEW YORKER FOR CITY ARCHITECT

William W. Pearce is Board of Control's Choice for Position.

William W. Pearce, recently of New York City, now of Toronto, was recommended by the board of control yesterday for appointment as city architect, at a salary of \$5000 a year. His appointment was supported by Mayor Hocken, Controller McCarthy and Controller Simpson.

Controller Church nominated Prof. Wright and Controller O'Neill nominated Acting City Architect Price. A deputation from the Canadian Club asked the board to suggest to the railways that the new Union Station on the waterfront be equipped with an apartment building to accommodate a minimum of 1000 people at luncheon or in convention, and that the kitchen equipment meet those requirements. This apartment could also be used during the Canadian National Exhibition as a diningroom for the immense crowds that come to the city during those two weeks annually.

John W. Cooper said that the railways are in sympathy with the proposition. "If the east wing is not to be utilized by the government for postal service, there may be space available for a convention apartment," Controller McCarthy said.

The board decided to have the proposition submitted to the railways on Tuesday next in Ottawa, when the plans for the Union Station are before the Dominion Railway Board for approval.

Deputations for and against increasing the minimum pay to labor employed on contracts for civic works from 18 to 25 cents an hour, as provided for in a proposed fair wage clause in city contracts, were asked to return next week, when there will be time for full discussion.

**EIGHTY LICENSES WERE CUT OFF**  
Secretary Spence of the Ontario Alliance stated yesterday that according to his list 80 Ontario hotel licenses were cut off yesterday by the January vote on local option bylaws. There would have been 29 more but for the quashing of the Ottawa license reduction bylaw.

Delivery of the World to Toronto Island will be resumed on Monday, May 4. Telephone your order to Main 5308, or hand to Carrier at Island.

#### PREMIER PRESENT AT PROROGATION

But Sir James Takes No Official Part in Closing Proceedings.

#### PAST SESSION'S LABORS

Lieutenant-Governor Comments on Importance of Workmen's Compensation.

With Sir James Whitney sitting once more at the helm of state, the Ontario Legislature prorogued yesterday. Nothing, however, beyond the usual ceremonies demanded by the occasion took place, and the premier, apart from shaking hands warmly with his old associates and friends who had come for the closing, undertook no official share in the proceedings. A touch of his old vigor was manifest in his bearing, but every care was taken that he should not unduly exert himself.

Cannon roared forth as usual in the park as the lieutenant-governor entered the chamber and mounted the dais of the Speaker. Hon. W. J. Hanna, in the capacity of provincial secretary, presented the scroll, and following the ascent of the throne to the series of bills passed during the session, pronounced the prorogation.

The assembly was somewhat smaller than usual, the government members being confined to a baker's dozen or so, who had stayed over the intervening day. The opposition was represented by Mr. Rowell, who sat in his seat with a red rose in his lapel. A little to his left Allan Studholme, the labor member, who has never neglected such an occasion, sat amid empty chairs.

A small galaxy of the fashion added a touch of artistry to the chamber. Lady Gibson and the Misses Gibson, sitting to the immediate right of the dais, Sir James was accompanied by Miss Nora Whitney. The cabinet ministers, with the exception of Hon. L. B. Lucas, grouped about the premier when the photographer requested the premier to "please sit still," as he had moved in the first case to the peril of the plate. Sir James' chuckle was echoed among the visitors.

The address of Sir John read in part as follows: "I am glad to observe that you have provided by statute for the permanence and extension of the system of district representatives of the department of agriculture. The labors of these officials throughout the province are being more and more appreciated by the people, and the extension of the system may be expected to contribute to the prosperity of the whole community. The financial assistance provided by the Dominion of Canada is materially helping the province in extending this very desirable undertaking."

"An important and far-reaching measure has been adopted to provide compensation to workmen for injuries sustained, and for industrial diseases contracted in the course of their employment. The general agreement reached is a striking tribute to the foresight and wisdom of the Dominion government before framing the bill, and is a hopeful indication for the success of the measure in the future."

"Provision has been made for necessary extension of the Hydro-Electric system, and legislative authority has been given to the Hydro-Electricity Power Commission to supervise the financing, construction and operation of radial electric railways undertaken by municipalities, either singly or in groups."

"The amendments made to the Liquor License Act are in accordance with the temperance sentiment of the province, and include provisions facilitating the enforcement of the Canada Temperance Act and the addition of Good Friday to the list of days on

#### IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act like the kidneys of a healthy person.

Jad Salts is inexpensive and cannot injure. It makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and prevent lithia-water, avoiding serious kidney complications.

Principal Bowles of Victoria College Advises Practice of Altruism

Rev. Principal Bowles of Victoria College told the graduating classes of the Royal College of Dentistry at the graduating exercises in Convocation Hall last night that to them would come the opportunity of rendering good service to their communities. He advised them to exercise self-reliance of individualism, but to avoid its selfish viewpoint. They were not to allow the spirit of rivalry to be predominant among them. As an outcome of their college training, he said they would have certain public duties to do. Diplomas were presented by Dr. Wilmont, who presided, to 45 graduates in the presence of 600 students.

#### ELECTRICITY IS THE REMEDY FOR YOU

Give me one who crawls around, "Facking" a load of Dyspepsia, dulness of eye, a drowsy brain, a lame back, tired legs and a woeful look in the face, and I can transform him into a man of brawn and brain with my Electric Belt, full of life and action, able to face the world, to fight its battles and conquer.

This magnet force is within reach of all of us. Thousands and thousands have come to me wrecked in mind and body, and I have restored them to health and happiness with my Electric Belt. They are shouting the praises of my Belt, and they'll gladly tell you what my great appliance has done for them.

Electricity is life! It's the greatest curative force in the world to-day. I have developed a method of applying this force to the body by means of my Belt that has resulted in more actual cures than any system of applying Electricity yet devised.

Dear Sir, I have used your Belt for over three months and have received more and better results from it than from all the other treatments I have had. My back and kidneys are much stronger than they were a year ago. I have no pains in any part of my body since using your belt. All my troubles are gone and I am feeling ten times as well as I did. I wish I had bought your Belt sooner than I did, for I would not have had to suffer with the pains as I did. I feel quite proud of your Belt for what it did in my case.

### A Little Journey to BUFFALO

By Elbert Hubbard

I first arrived in Buffalo on May 10th, 1875. I was nineteen years of age, and had been earning my own living since I was twelve.

In my own mind I was considered a man. I wore spring-bottom pants, a warm vest, a dinky derby, and had a fairly good opinion of myself. Looking at myself as I then existed, I can perceive that I might have been something worse. I did not use tobacco, I never touched a strong drink, and my Baptist environment had made the pasteboard proclivity strictly taboo. I had lived in the out-of-doors, and I prized my health.

Buffalo at that time had a population of about one hundred thousand.

Since 1875, when I landed in Buffalo, to this second day of May, 1914, I have never been sick a day, never consulted a physician, never lost a meal, and life on the whole has been one delightful little journey. Erie County has been good to me.

In fact, Erie County is good to every one who will get out and hustle.

In Buffalo there are over a thousand factories, representing over two hundred lines of manufacture—peculiar, separate, useful commodities. Soaps, linseed oil, automobiles, railroad cars, furniture, paper, the packing industries, the biggest market in the world, a great grain market, railroad industries, magnets and steamboating supplies.

Look 'em up in the Encyclopedia.

The point is that with such a diversity of industries, business in Buffalo never suffers a slump. If things are a little dull in one line, the others are booming; so the money flows and the Pay Envelope is pink and pudgy.

And this means progress and prosperity.

In 1890 '91 and '92 Buffalo had a real estate boom. We all went land flurrying in the alfalfa.

Since then things have been getting back to normal. Buffalo real estate now is right down to the limestone. The motature is off out of it. Buffalo is ripe for a boom.

I've watched Buffalo grow for thirty-nine years. I've seen big fortunes made by men who bought and held on. And it seems to me that, of all times, now is the time for Buffalo folks to hold on to their real estate, and if convenient add a little to them.

Buffalo can never go back. Buffalo will be there still. Therefore, Buffalo must go ahead.

Buffalo is on the verge of the greatest real estate boom in its history—every part of Buffalo property at present prices shows a double and treble in value in a short time.

I have written a little booklet telling in detail of the growth of this great city, and of a wonderful investment opportunity—namely, lots on the fringe of the City in BUFFALO INDUSTRIAL ANNEX, at \$3.75 PER FOOT UP.

Think of it—an absolutely safe investment with a chance for at least 100 per cent PROFIT.

This Booklet is FREE for the asking; so ask today.

### Offer to Purchase Preferred Shares

An offer is being made to holders of Electrical Development preferred shares by directors of the Toronto Power Company, to purchase their holdings at \$127.16 for each \$100 share, the purchase price being payable in 5 per cent. 10-year bonds of the Toronto Power Company.

This offer is made, it is explained, because of the arrangement in 1908, when one-half the Electric Development Company's common shares were converted into preference stock to carry 6 per cent. cumulative dividends. As these dividends have never been paid, and by July 1 will amount to \$27 a share, the offer is being made.

As the Toronto Power now holds nearly all the common stock, this exchange would give them control of the company.

### INQUIRY FINISHED WITHOUT MOYES

Left Town for North and Ignored Order of Ontario Railway Board.

### TO MAKE REPORT SOON

Discovery of Documents Let in Light on West Shore Railway.

Despite the urging of the Ontario Railway Board that he appear to clear up certain matters in connection with his enterprise, John W. Moyes left the city, and the inquiry into the affairs of the Ontario West Shore Railway, of which he was president, ended abruptly yesterday morning without hearing him testify.

When the session opened the chairman expected the chief witness to arrive, according to intimations from his counsel, but when half an hour later it was learned that Moyes had gone to Algonquin Park under doctor's orders, the case was closed. A report based on the evidence taken is now under preparation and within a few days will be issued. This report will determine whether or not the criminal proceedings which the court has sought will be warranted.

William Proudfoot, conducting the examination, asked the brother of Mr. Moyes whether it were correct that Moyes had been working in the garden all week and had left town the evening before. The reply was that it was true, but that only Dr. Davidson's orders had caused him to leave. He was determined to appear, but had collapsed a week ago while studying papers.

Retracted to Limited Testimony. Mr. McIntyre then stated that the inquiry had been protracted to the limit. The board would now deal with the documents and prepare a report. Every facility had been given for evidence. Up to the discovery of the papers

### MAKE YOUR WILL TODAY

Tomorrow May Be Too Late—Lawyer Unnecessary—Use "Willed and Tested Form."

When you are dead and gone, the first thing the law looks to is your will to know whom you intend to have your belongings, no matter whether they are big or little. If you have made no will your property may be divided in a way you never intended. Loved ones may be missed out entirely. Family quarrels often result. Your property may be eaten up with costly legal expenses. All this would never have happened if you made a will.

The thing to do today is to secure a Bax Legal Will Form from your stationer. If he hasn't the original, genuine Bax, don't take a substitute. It's important to get the real Bax, the only copyrighted form that has stood the test of years in the law courts. Or tear this out, write your name and address plainly in the margin and mail to us with 35 cents. If you want three Forms, send \$1.00. We will mail the Form to you by return mail, post free. We send full instructions, also a sample Will Form, all filled out, so you know exactly how to proceed.

The Bax Will Form has exclusive copyrighted features, and is successfully passing through the courts every day. Write us today. Address Bax Will Form Co., Room 82, 280 College Street, Toronto.

# The Builders' and the Investors' Choice To-Day

**WHY?**

Because—FIRST—The location on Yonge Street is the only close-in developed property for sale to-day at reasonable prices. A mile and a half nearer Bloor and Yonge than High Park District.

SECONDLY—Developed—When we claim developed we mean not only graded roads, but water, sewers, gas, electric light, telephone poles at the back of the lots, sidewalks, everything that is possible to put in a property to facilitate building and to induce people to locate, is now provided in

# GLEBE MANOR

THIRDLY—Prices low in comparison with adjacent properties. Builders do not buy unless they buy right. There are over 25 houses ranging from \$6,000 to \$10,000 already erected on Glebe Manor by builders, and something like 40 more are either in course of erection or arrangements made to start during the next few weeks.

Excavating on Yonge Street and Belsize Drive is now under way for stores and apartments. The property North and South of Glebe Manor is almost completely built-up and Glebe Manor will be sold with attractive houses in a short time.

These are the reasons why Glebe Manor is the choice of builders and investors. Do you remember how quickly some districts in this city have been built up, and do you remember that even out in the High Park district you could have bought as low as \$25 per foot only three years ago, and to-day it is selling at over \$100 per foot and so will Glebe Manor. Don't lose this opportunity. Hundreds of people are making and are going to make nice profits in Glebe Manor. Why shouldn't you be one of them.

Remember Glebe Manor is 1 1/2 miles nearer Bloor and Yonge than High Park District. Shall we stand you prices, plans, and full particulars. This coupon signed and mailed will bring them. Don't delay; you have nothing to lose and much to gain.

SHORTS TURN BUYERS

Canners the Only Issue Not in Accord With the Movement.

Supporting interests took the Toronto market in hand again yesterday and assisted by the strength of outside markets prices were bid up from half to a point higher than Thursday night's close.

The public has participated to only a small extent in the advance since Monday, but is now beginning to nibble in a small way.

The announcement by the British Postmaster-General of a desire to hitch up with a wireless company was not a factor in Mackay stocks, as the common was raised to a new notch of 3 1/2, an advance of points for the week.

The shorts caused a flurry in Toronto Ralls on the rumor of an increase in capital, and in the stamped price was raised to 13 1/2, from which a precipitate drop was made to 12 1/2.

Maple Leaf, Steel of Canada, Macdonald, General Electric and Twin Cities were dealt in at improved prices. The rally was almost general, the main exception being Canners, which could scarcely be classed as steady.

STRONG TONE IN MONTREAL MART

C. P. R., Laurentide, Power and Brazilian Were the Leading Issues.

MONTREAL, May 1.—After some early hesitation the local market moved forward strongly, and to the accompaniment of some increase in activity, finished at the highest, with substantial gains in most departments. The movement was governed entirely by the course of the New York list, which was consistently strong in all departments throughout the day, and also finished at the highest.

The trend thru the balance of the day was distinctly to higher prices. Richelieu rose 1 1/2 to 10 1/2, Shawinigan 2 to 12 1/2, Toronto Ralls sold in the morning at 13 1/2, a rise of 1 1/2 points, reacted to 13 1/2, finished firmer at 13 1/2 bid. Scotia improved 1 point to 63 1/2, Iron 5 to 2 1/2, Cement 1 1/2 to 2 1/2, Ottawa Power 2 to 14 1/2.

PARIS, May 1.—Prices were easy on the bourse today. Three per cent. renter, 4 1/2 to 5 1/2 for 75 times for the account. Exchange on London, 26 francs 12 centimes for cheques. Private rate of discount, 2 1/2 per cent.

BERLIN, May 1.—Prices improved moderately on the bourse today except iron shares, which closed lower, owing to reductions in quotations of steel for export. Exchange on London, 26 francs 12 centimes for cheques. Money, 2 1/2 per cent. Private rate of discount, 2 1/2 per cent.

LONDON MARKET CLOSED. LONDON, May 1.—The stock market is closed today. Bar silver steady, 100 per ounce. Discount rates, short bills, 1 1/2 to 2 1/2 per cent.; 3 months, 2 1/2 to 2 1/2 per cent.

TWIN CITY EARNINGS. For the third week of April the earnings of the Twin City Rapid Transit Company were \$18,771, a gain over the corresponding period of last year of \$8,100 or 5.04 per cent.

PRICE OF SILVER. In London yesterday bar silver closed 1-16 lower at 27 3/16 per ounce. In New York commercial bar silver was 99 1/2 per ounce.

COBALT, April 30.—Nipissing's shipment of bullion this week totalled 104 bars, valued at \$71,765.02. It contained 121,625.69 fine ounces. Cobalt bullion was shipped to England on Wednesday.

Toronto Railway Cuts Small Melon

Balance of Unissued Stock of Capital to be Given Out at Par.

It was announced yesterday afternoon that the directors of the Toronto Railway Company propose to issue the remaining \$1,000,000 of stock of the \$12,000,000 capital of the company. For eleven shares of the old issue shareholders would be allowed to subscribe for one of the new shares. Recording date to be closed with May 11. On the strength of this news Toronto Ralls made quite strong advance on the market.

GENERAL ADVANCE IN BIG MARKET

Bullish Feeling Was Strongly in Evidence at New York.

MANY SHARP GAINS

Hope of Increase in Freight Rates Was Important Factor.

NEW YORK, May 1.—The upward swing in stocks was continued today with a more general exhibition of strength than at any other time since the market began to recover from its recent decline. Stocks of all classes participated in the movement, and in many instances the rise amounted to around two points.

There was no decisive change in the speculative situation, the upturn which apparently was a further reflection of the improvement which came early in the week. Each added day which peaceful status of the country's relations with Mexico is preserved causes a lessening of concern over this factor, which was a disturbing influence last week. With England's home rule problem on a fair way to solution, prospect of a brighter future has passed the point of a mere reaction from last week's depression, and even at the high point today there are no signs of weakness. Stocks were marked up thruout the session without a setback of consequence. While public buying is still small, there were evidences of investment purchases of both stocks and bonds on a larger scale than recently.

Eastern railroad stocks were especially strong owing to expectations of higher freight rates. Union Pacific benefited from the selling of the advance has passed the point of a mere reaction from last week's depression, and even at the high point today there are no signs of weakness. Stocks were marked up thruout the session without a setback of consequence. While public buying is still small, there were evidences of investment purchases of both stocks and bonds on a larger scale than recently.

Random Notes on the Mining Stocks.

COBALT, May 1.—The Buffalo mine report for the month of March shows an increase in every particular, including ore milled, average assay at the mill, and total of 842 hours assayed.

At the annual meeting of the Rea Consolidated Gold Mines held in Toronto last evening, the directors authorized the directors to make an agreement with the Mines Leasing and Development Company for the Rea property.

Mining Editor World: Mines are acquired in number of ways. They are occasionally acquired by staking. But that is a lot of bother, with no certainty of the thing being worth the 'linker' after you have sworn to having found 'mineral in place' or had somebody else do the swearing.

WHEAT PRICES AGAIN DECLINED

Estimate of Huge Yield Caused Heavy Tone at Chicago.

CHICAGO, May 1.—Estimates that 3,000,000 more acres of wheat would be harvested in the United States this year than ever before, smashed values today for new crop months. May contracts, however, were in strong hands, and scored a net gain. The market as a whole finished weak at a range varying from 5-8 to 3-4 decline to 3-5c advance. Corn lost heavy pressure, 3-8c down to 1-4c up, oats unchanged to 1-4c lower, and provisions with a loss of 2-1/2c to 1-1/2c.

Wheat—No. 2, 58c to 61c nominal, per bushel, outside. Buckwheat—No. 2, 75c to 76c, outside, nominal. Rye—Outside, 63c to 64c. Corn—American, No. 3 yellow, 74c, all rail, track, Toronto. Manitoba wheat—New crop, No. 1 northern, 86 1/2c track, bay points; No. 2 northern, 84 1/2c, more at Goderich.

Ontario flour—Winter wheat flour, 90 per cent. patents, new, \$3.90 to \$4; bulk, seaboard. Millfeed—Manitoba bran, 25c, in bags, track, Toronto; shorts, 28c; Ontario bran, 24c, in bags; shorts, 28c; middlings, 33c.

Barley—For malting, 57c to 58c, outside, nominal. Flaxseed—No. 1, 12 1/2c to 13c, outside, nominal.

TORONTO SUGAR MARKET. Sugar is quoted in Toronto, in bags, per cwt., as follows: Extra granulated, St. Lawrence, \$4 21; No. 1, 40c; Red Star's, 4 21; Beaver granulated, 4 21; No. 1 yellow, 3 81; In barrels, 5c per cwt. more; car lots, 5c less.

VATERLAND FAST SHIP. HAMBURG, Germany, May 1.—The new Hamburg-American Line steamer Vaterland, the largest steamship in the world, has had her trials in Norwegian waters. She made 28 1/2 knots an hour against the wind and 26 knots with it. Her machinery developed an average of 30,000 horse-power.

PATIENT DROWNS HERSELF. GUELPH, May 1.—Agness Powells of Hamilton, a patient at the Homeopathic Sanitarium, drowned herself in the river below the sanitarium at 6:15 this morning. She was seen by a nurse at six and escaped shortly afterwards. Drivers who were getting their teams out across the river saw the unfortunate woman in the water, but were powerless to go to her rescue. The body was recovered.

TO SEND BODIES HOME. WASHINGTON, May 1.—Admiral Badger reported to the navy department today that within two or three days he would send the battleship Montana to New York with the bodies of sailors and marines killed at Vera Cruz. The vessel would sail, he said, as soon as it became certain that her services were no longer needed for refugee work. The bodies will be shipped from New York to the homes of relatives.
