## TAX RECEIPTS OF RACE MEETING

T. H. Lennox, M.L.A., Purposes Introducing Bill in the Legislature for Ten Per Cent. of the Proceeds to Government.

## TAXID IN HORSE BREEDING

President Seagram of Ontario Jockey Club Supports the Idea, But Says That Amount Suggested is Too High.

T. H. Lennox, M.L.A., for North York, intends to move in the legislature for a bill to place a government tax of 10 per cent. on the gross receipts of all race meetings held in Ontario.

The idea is that the proceeds should be devoted to a fund for horse-breeding purposes, either in the giving of prizes to farmers or in importing stallions. New York State has a law along this line.

"It is a move in the right direction, but the percentage here is too great," was the comment of Jos. E. Seagram, Waterloo, president of the O.J.C. Mr. Seagram suggested that Mr. Lennox arrange a meeting with members of the O.J.C. executive and other horsemen before completing provisions of the bill, so that it would prove workable.

"It is a matter which required a good deal of consideration," he said, "and it has been discussed off and on by the O.J.C. for two or three years."

The racing associations at Toronto, Hamilton, Fort Erie and Windsor will be liable for taxation if the bill should be passed.

Hon. Nelson Monteith yesterday promised the inclusion of the annual grant in the estimates for the Ontario Horse Breeders' Association to a deputation consisting of William Smith, Columbus, George Pepper, Toronto; John Bright, Myrtle; Mark Gardhouse, Weston, and John Bogue, Revere.

## ROSS CONTROLS COAL WILL FILL VACANCIES

Calls Meeting of Directors of Company for Monday.

Montreal, Jan. 11.—(Special.)—James Ross, president of the Dominion Coal Co., has called a meeting of the directors for Monday morning at 10:30. It is understood that vacancies caused by the resignation of Sir William Jamieson and P. S. Pearson will be filled by gentlemen favorable to Mr. Ross' policy. Lord Strathcona will be present at the meeting, and an effort will be made to bring about a settlement cordial with the Steel Company.

The statement has been made that of the coal directors, Lord Strathcona, R. B. Angus, F. L. Wanklyn, James Reid Wilson, W. B. Ross, are Ross' men, while Senator Cox, Senator McKee and Dimock are opposed to his policy. There can be no doubt, however, about Mr. Ross having the situation well in hand, as he controls a good majority of the stock, both common and preferred.

## EVIL ONE HOLDS TARTE SAYS FRENCH EDITOR

Alleged Libeler Arrested and Sleeps Behind Bars.

Montreal, Jan. 11.—(Special.)—Hon. Jean Tarte's libeler will sleep to-night behind prison bars.

For weeks past La Croix, a so-called clerical sheet, has been telling its readers that Hon. Mr. Tarte and La Patrie have been sold to the evil one because the paper publishes both sides of the controversy in France.

To-day the articles were particularly offensive, and Mr. Tarte had Joe Beff, editor of La Croix, having the situation well in hand, as he controls a good majority of the stock, both common and preferred.

Mr. Tarte's libeler will sleep to-night behind prison bars.

For weeks past La Croix, a so-called clerical sheet, has been telling its readers that Hon. Mr. Tarte and La Patrie have been sold to the evil one because the paper publishes both sides of the controversy in France.

To-day the articles were particularly offensive, and Mr. Tarte had Joe Beff, editor of La Croix, having the situation well in hand, as he controls a good majority of the stock, both common and preferred.

## EXPORT DUTY ON ELECTRICITY

Hon. A. B. Aylesworth Introduces Bill Providing for a License and Authorizing Governor-in-Council to Impose Duty of \$10 per H.P. to be Remitted if Home Market is First Supplied.

Ottawa, Jan. 11.—(Special.)—Hon. A. B. Aylesworth this afternoon presented his bill to regulate the exportation of electric power. He explained that it was, in the main, a reprint of the bill presented at the last session by Mr. Fitzpatrick.

It requires a license from the governor-in-council for the exportation of electrical energy, natural gas, petroleum, etc.

The governor-in-council is authorized to impose an export duty not to exceed \$10 per horse-power, but this duty may be remitted if the power company complies with the conditions of its license respecting the supply to be furnished the home market and the prices to be charged therefor.

He feared that the power companies might regard this bill as an unwarranted invasion of vested rights, but he assured them that the government aimed at nothing more than a reasonable preservation of the great natural advantages at Niagara Falls for the use and benefit of the people of Canada.

There was no reason why a large amount of the energy generated at Niagara Falls could not be sold to good advantage in this country.

W. F. Maclean (South York) said that the statement made by the minister of justice vindicates the wisdom of the house in postponing the Fitzpatrick bill of last session. The measure was then introduced gave a virtual monopoly to the existing power companies. They were exempted from the operation of the bill.

The present measure is apparently better, and the speaker sincerely hoped that it would thwart, and not facilitate, the exportation of electric power. There was danger of a merger—a great international combine—to control Niagara power. Personally, he favored such legislation as would prohibit any exportation of power to the United States.

## HALF A MILLION REFUGEES IN CHINESE RELIEF CAMP

Women Tear Up Roots of Grass For Food and Cook Leaves and Twigs—Gigantic Problem To Be Faced.

Shanghai, Jan. 11.—Capt. Kirton, the foreign relief commissioner in the famine camp at Tsingkiangfu, describes the refugee camp consisting of makeshifts arranged in rectangular groups in street formation two miles long and a mile wide.

Other camps in the vicinity of Tsingkiangfu, of nearly a half million refugees, 30 per cent. show signs of cholera, and among 10 per cent. the suffering is acute. The roads are thronged with rice peddlers. Women tear up the roots of grass for food, and also are cooking leaves and twigs.

The efforts of the officials are confined to attempts to persuade the people to return to their homes. Some of them comply, but more arrive than depart. One hundred thousand men are absolutely starving.

It would not be difficult to organize relief works, none has yet been started. If the situation continues there will be a gigantic problem to face. The end cannot be foreseen. The worst pinch has not yet been felt.

## COLLINGWOOD OPTIONISTS WANT SCRUTINY OF BALLOTS

Say Irregularities Took Place at Evening Poll.

Collingwood, Jan. 11.—(Special.)—The local option campaign here is not yet ended.

At noon to-morrow, at Barrie, application will be made before Judge At-Adair for a recount and a scrutiny of the ballots cast in the vote Monday.

A. B. Spencer is making the application, and has served the necessary notices on Mr. J. H. Duncan, town clerk and returning officer, and also on Mayor Wilson. Affidavits have been filed, alleging certain irregularities on the part of the deputy returning officers and poll clerks, every polling subdivision in town being affected.

The number of ballots given to unqualified persons; that ballots were not put in the box in such a way as to permit the returning officer to see the signature on the back thereof; and also that some voters voted in more than one division of the town, which is contrary to the interpretation of the act, as given in the Owen Sound judgment.

It is claimed that ballots in question cannot at present be estimated, but the optionists are confident of winning their point or gaining a new election.

## WHITBY TAKES ACTION ON LAKE SHORE ROUTE

Town Council Will Move With Other Communities on the East.

Whitby, Jan. 11.—At a public meeting of citizens to-night, Mayor Lawler, chairman, to consider the railway situation affecting the entrance into Toronto of the three railways along the lake shore, the following resolution was practically unanimously adopted:

"That, in the opinion of this meeting, it is very desirable that the town council attempt to secure concerted action with the communities to the east with reference to the proposed route of the Canadian Northern Railway."

Tremont Hotel Dining Hall Special communitarian tickets at twenty for 45 O.D.

## NEW ORGANIZER APPOINTED FOR ONTARIO CONSERVATIVES

W. K. Snider, Manufacturer of Goderich, is the Man—Will Enter Upon New Duties at Once

The appointment of W. K. Snider, manager of the McIntosh Brick Machine Company of Goderich, and brother of Judge Snider of Hamilton, as Conservative organizer for the Province of Ontario, was announced yesterday.

Altho Mr. Snider has had little campaign experience, he is looked upon by members of the party as one man who can awaken to life some of the Conservative associations throughout the province which have been growing more or less dormant, and get the party started into line.

Mr. Snider will have his headquarters in the Crown Life building, Queen and Victoria streets, and will have a permanent staff of assistants.

He will take up his duties at once.

## WIFE OUT THE REBATES TO LOAN COMPANIES

Manitoba Underwriters Want System Done Away With.

Winnipeg, Jan. 11.—(Special.)—A deputation consisting of Capt. Carruthers, W. R. Allan and W. J. Christie, representing the board of underwriters, waited on Hon. J. H. Agnew, provincial treasurer, this morning, to see if some relief could not be secured in the matter of rebates exacted by loan companies operating in the province on insurance which they require in connection with loans.

At present insurance companies have to make rebates to the loan companies, and underwriters want the system done away with in the province.

## LIBERALS AND THE TARIFF

Laurel Club Discusses It After Meeting at Broadway Hall last night.

The Laurel Club held their annual meeting at Broadway Hall last night. The following officers were elected by acclamation: J. S. Dewar, president; A. Calvin Ross, secretary; Mr. Moyer, treasurer; executive committee, M. Gorrie, C. Ross, E. C. Hill, H. Currie, J. T. B. Sempie, G. M. L. A., D. D. Grierson and E. C. Mohun.

The subject debated was: "Is the present tariff consistent with the Liberal platform of 1893, and with Liberal principles?"

W. B. Hamilton discussed it very much in the negative, and considered the order in Canada, his admission having been allowed under the usual age of 18 by special dispensation.

Another speaker was the presentation by Lieut.-Col. Scott of a jewel to Thomas Doughty, past master of Victoria Lodge.

## VICTORIA L.O.L. BANQUET

Robert Roswell Gamey was the popular hero at the banquet of Victoria L.O.L., 188, at Victoria Hall, last night.

Hon. Dr. Pym, Thomas Crawford, M.L.A., and the individuals in the galaxy of prominent Orangemen present were all hailed with hearty acclaim but it remained for Mr. Gamey to obtain the real ovation. It was a large gathering.

Another speaker was the presentation by Lieut.-Col. Scott of a jewel to Thomas Doughty, past master of Victoria Lodge.

## WELLAND CANAL RETURNS

St. Catharines, Jan. 11.—(Special.)—Vessels passing thru Welland Canal during 1906 lighted 1,009,473 bushels of wheat, 11,822 bushels of corn, 2102 bushels of barley, 13,668 bushels of flax, and 28,111 bushels of oats. Besides this amount, the steamer Rosedale took 393,427 bushels of wheat to the Thorold Flour Mills.

No tolls are now collected on the canal, but a record is kept, and the computation made shows that the revenue would be \$12,000 in excess of 1905, and \$42,000 in excess of 1904.

## CONVICTED TWICE

St. Catharines, Jan. 11.—(Special.)—Herman Santee was to-day convicted on a charge of stabbing a man named Livingstone at Niagara-on-the-Lake. County Judge Gorman ruled that as Magistrate Eckersley, in fining the prisoner \$5 for the offence, had exceeded his jurisdiction, the case could not have been previously tried. Santee was given a severe lecture and let go on suspended sentence.

## REBELLION OVER

Washington, Jan. 11.—Senator Valco, the Costa Rican minister here, has received a cablegram from President Bonilla of Honduras, dated to-day, stating that the revolutionary disturbances in that country had been quelled.

## LOSSES BRITISH DOMICILE AND ACQUIRES COLONIAL

Trustees of Estate Held by Scotch Court Not Liable for Legacy Duty.

(Canadian Associated Press Cable.) London, Jan. 11.—It is said there never has been decided a case in which a native Briton has been held to have lost his domicile of origin and to have established a domicile in the colonies.

In the Edinburgh court of session, judgment has just been delivered in a case where the commissioners of inland revenue sued the trustee of a Scotch Ceylon merchant for legacy duty. It was said that the prevalence of a life-long colonial residence in the cases of emigrants to Canada and Australia raised a presumption of domicile which could not be disregarded in considering individual cases. In the case of settlers in a tropical country there was not the same presumption, but the evidence in the case was clear and judgment was given for the trustee.

The Scotsman remarks it is well that such a decision should be established.

Fine funeral wreaths promptly made and delivered any time and anywhere. Jennings, 123 King-st. West. Phones Main 7210 and Park 1857.

## DEATHS

GEARON—Suddenly, at New York, on Monday, Jan. 7th, 1907, William Joseph Gearon.

Funeral from his late residence, 137 Amelia-street, on Saturday, Jan. 12th, at 8:30 a.m., to Lady of Lore's Church, thence to Mount Hope Cemetery.

HILL—At the Manor, Aurora, on Friday, Jan. 11th, 1907, Anne, widow of R. W. Hill, aged 87 years.

Funeral from her late residence, 42 St. James-avenue, Toronto, on Saturday, at 3 p.m.

NIMMO—On Friday, Jan. 11, 1907, William J. Nimmo, aged 25 years, son of R. Nimmo, J.P.

Funeral from his father's residence, Coleman P.O., East Toronto, on Monday, 14th inst., at 2:30 o'clock. Interment in Newway Cemetery.

MCVITTIE—On Jan. 10th, 1907, James McVittie, youngest son of Robert McVittie, Funeral private, from 170 Albany-avenue, Toronto, on Saturday, at 3 p.m.

Funeral from his father's residence, Coleman P.O., East Toronto, on Monday, 14th inst., at 2:30 o'clock. Interment in Newway Cemetery.

THE WORLD, Toronto, Canada.

ARE WE TO HAVE A REAL STATE RAILWAY?

The World tried to show two days ago, has tried for many a day to show, that Northern Ontario is one of the richest mineralized countries in the world, and that the Sudbury nickel and the Cobalt silver deposits are part of the profit.

We have also recognized what a significant part the state or provincial railway from North Bay northward plays in that sense, especially in regard to Cobalt. But we have also shown how incomplete that railway is for the development of our greatest asset if the state railway ends at North Bay and is at the mercy of two such enemies as railway ownership as the Canadian Pacific and the Grand Trunk for traffic and telegraph connections.

Every passenger is delayed at North Bay two hours going up, two hours coming down, telegrams are delayed for hours, cars are forwarded as the old lines choose to forward them, and the two big roads are united in "queering" the public road at every point.

Mr. Whitney must go a step farther. He must get his provincial road right into Toronto, he must have a thru telegraph and telephone service, he must run thru trains and plenty of them. Even the Pullman Car Co. thinks (so as to suit its Grand Trunk ally) that its most ancient sleepers are good enough for the people's railway.

The World wishes to tell Mr. Whitney that the men who are investing in Cobalt are disgusted with the telegraph service between Cobalt and Toronto and New York, and that when they complain to the old companies, the government is invariably credited with the "breakdown," tho, as a matter of fact, the government end has not been the chief sinner.

Toronto as a city—this great Southern Ontario from Kingston to Sarnia, is liable to lose the trade of Northern Ontario and to see it pass to Montreal if the Grand Trunk and the Canadian Pacific have their way, and if our provincial government does not rise to the situation. We believe Mr. Whitney will recognize his duty and perform it. Note what The World's Cobalt correspondent had to say yesterday:

"Immediate action is demanded on the part of the T. & N. O. Railway to make connection with this new camp (Larder Lake). An enormous traffic will arise. Supplies, building material and machinery will have to be taken in. Larder lies nine and a half miles from the T. & N. O. line of railway, and half-way between the railway and Larder is a large copper proposition that is being developed, despite the difficult expense of getting in. A first-class wagon road would be a great benefit to the camp. The Ontario Government and railway commission might both make a grant, if a spur line could not be made immediately.

"THE NECESSITIES OF COBALT CAMP ARE ONLY IMPROPERLY SERVED AT PRESENT. THE GREATNESS AND PERMANENCE OF THIS CAMP IMPERATIVELY DEMAND RECOGNITION, AND MR. WHITNEY AND THE MINISTER OF MINES, WHO IS THE LOCAL REPRESENTATIVE, CAN GIVE THE CAMP WHAT IT NEEDS, VIZ. IMMEDIATE IMPROVED TELEPHONE, TELEGRAPH, POSTAL, RAILWAY, BOTH PASSENGER AND FREIGHT, FACILITIES BETWEEN HERE AND THE CITY OF TORONTO. AS LONG AS GOVERNMENT CONTROL CEASES AT NORTH BAY, SO LONG IS THE COMPARATIVE WEAKNESS, TO USE A MILD WORD, OF THE PRESENT SERVICE MADE APPARENT."

"A night staff and an all-night service at the wires, both phone and telegraph, are needed and should be given on without being asked for. The telegraph office at North Bay is said to close at 8 o'clock. The road is paying, and if the staff has to be doubled, let this great camp of the north have the

best service, as the best is none too good."

PUBLIC UTILITY REFORMS.

Governor Folk of Missouri has provided further strong evidence of the remarkable reform movement sweeping thru the United States, and the rapid education of the public in matters connected with the conduct of public utilities. In his recent message to the legislature the governor recommended that a law be passed authorizing the people of each city or town to purchase or own and operate any utility whenever they shall vote to do so, and to issue bonds in payment thereof, and also giving the municipalities of the state full powers to regulate tolls, rates and charges for gas, electric lights, telephones and other public utilities within such cities, and compelling the interchange of telephone service and fixing and regulating the charges therefor. He goes on to state that legislation empowering the state to regulate the operation of public service corporations and to acquire into and determine the actual amount invested in such corporations, and to fix rates on a reasonable basis.

Recommendations of this nature are common in the States of the Union to-day, and are not to be treated as isolated and sporadic examples of individual opinion. The real fact is that whenever franchises were granted to the private property of the corporations to whom they were granted, but really of the nature of public trusts, involving duties and responsibilities, as well as vested interests and powers, the assertion of the right of state and municipal control and expropriation became a foregone conclusion. And this view only required to be stated to have its entire reasonableness acknowledged.

The standing argument for private, as against state or municipal operation of public utilities, is that it is cheaper and more efficient, and, therefore, best calculated to serve the interest of the community. Yet the first and invariable practice of the promoters of a franchise-holding company is to pay the cost of construction and equipment by money borrowed, and then invite subscription for ordinary stock which has no tangible equivalent, and is merely paper, representing anticipated profits.

This process is continued indefinitely in an endless variety of ways. That it has been possible in the past, and still is possible, is due to the existence of company legislation which takes no account of the implied trust under which franchises are handed over to private corporations. Surely there is nothing unfair or unreasonable in the demand that the capitalization of a corporation undertaking the operation of a public utility be limited to the actual capital expenditure, and that the rates and charges be adjusted on that basis, and after the allowance of a fair profit on the capital invested. But hitherto the public has been looked on as fair game, out of whom as much should be taken as the franchise-holders found to be possible. The opportunity for this plundering of the citizens, both as investors and users, is rapidly passing, and with the triumph of public ownership and operation will come better and cheaper public services and higher standards of commercial and political morality.

THE SUNDAY WORLD.

Well-informed men say that the surface of the Cobalt mineral region has been "merely scratched." What should be said of the potentialities of such a region, the "micro scratching" of which has already yielded fortunes for scores of lucky ones? For a time it was thought that the silver riches of the district were contained in the Township of Coleman. Later developments prove that the boundaries of the camp may not yet be defined. And away to the northward—75 miles as the crow flies—reports come of discoveries of gold. Men go mad for gold, Dr. Reddick of Winchester, Ont., made the first discovery of the yellow metal last July. Experts followed him, and there are well-authenticated reports of gold finds which are very valuable. There will be a mad rush to the north as soon as the ice breaks up. To-morrow the fine portrait will give the first picture that has been printed of these gold fields of Larder Lake. They are where the gold has been found, and a story tells how best to reach the Larder Lake region.

Silver has been found in Bucke Township, upsetting the calculations of a good many experts. Pictures illustrate mining in a Bucke claim. A fine portrait is given of the late Baroness Burdett-Coutts, accompanied by an appreciative reference to the life-work of the famous philanthropist, T. J. Stewart is the new mayor of Hamilton. A capital portrait of the gentleman is given. It indicates a character strong enough to grapple with difficult municipal problems. Whether or not the East Toronto elections are valid is yet to be determined. In the Sunday World is an excellent portrait of Mayor Ross, who is chief magistrate, for the present, at least. Fred Dunn appointed to the board of commissioners of the Temiskaming and Northern Ontario Railway, is widely known and popular. There is a fine portrait of him, from a photograph specially posed for The Sunday World. There are not many centenarians able to get out on a winter's day and vote. Mrs. Frawley, a resident of Toronto, is 100 years and two months old, yet she walked to the polls and voted at the elections on Jan. 1. The following day she posed for The Sunday World photographer. A picture shows how the new National Club will appear. Other illustrations are of the unveiling of

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

Thirty-Sixth Article.

The proposed alteration in the route of the Grand Trunk Railway must be considered from the standpoint of what is best for the City of Toronto and the Province of Ontario. It cannot be considered from a local standpoint alone, and it is, therefore, necessary that we should hear the arguments presented by the Grand Trunk Railway before the matter can be dealt with intelligently. The burden of proof rests with them, not with the City of Toronto, and if they are not able to show that the proposed change would result in material benefit to the city and the province, it will not receive the approval of the minister of railways. The railways must submit their plans for the consideration of the people, and if their plans are not satisfactory, it is their duty to work upon them until some satisfactory solution is obtained; it is not the duty of the City of Toronto to prepare plans for the railways that can better be done by their own skilled engineers. But it is our privilege to say whether or not the plans they present are acceptable, and in the interests of the people generally. The mere fact that they would be beneficial to the railroads themselves is not sufficient to warrant their approval.

We have stated that the minister of railways will not approve the proposed plan unless it can be shown to be in the interests of the people, and we say this advisedly. The minister of railways dare not sanction it in the face of the united opposition of the people of this city, unless a prima facie case is made out, showing that it is necessary to make the change for the public good. If he were to do otherwise, it would simply be an admission that he and his government are the subservient tools of the railways, and while there is a general impression thruout the country that they have a leaning in that direction, the people are hardly prepared to come out openly and make a public admission that they are simply the servants of the railroads.

It is not necessary for the City of Toronto to go to Ottawa, hat in hand, and beg for justice from the government. This city is great enough and influential enough to go there and demand fair treatment, and if it should come to a question of the people as against the railway corporations, the whole Province of Ontario will be found ready and willing to take up the fight on our behalf. There may be a little jealousy of the progress made by Toronto in some quarters, but the Province of Ontario generally is proud of their "Queen City" and will not permit it to be divided up for the benefit of the carrying companies.

A few years ago it was suggested to the Grand Trunk Railway that it would be in their interest to abandon the route via Scarborough and build a line from Port Union to Toronto along the lake front, and this proposal, which is now before the minister of railways for his approval. At that time the citizens were anxious to get the property in the east end of the city built up, and felt that if they could get the railway company to run a line there it would be attractive and profitable. Since that time the city has spread out and a large population has grown up in that direction without any assistance from the railways, and realizing that they made a mistake, they are now anxious to get possession of the lake front in that section of the city; so very anxious, indeed, that they endeavored to get their plans rushed thru and approved before the citizens had an opportunity to express their views, and while Mr. Emerson was apparently willing to assist them to get possession of the lake front, the matter has raised such a storm of protest and resentment that he has been obliged to make a change of front, and he will hardly dare to approve a plan which has been introduced solely and absolutely for the benefit of the railway company.

Before the citizens of Toronto give their assent to the proposed change of the City of Toronto, it is necessary that they should know that it is something the railway will be unable to do. The mere fact that it is in the interest of the railway company is not sufficient to warrant its approval.

The issue in this case is broader than the mere question of the rights of the City of Toronto. It involves the principle of whether the interests of the people are to be served or secondarily importance to the demands of the railroads, and Mr. Emerson's reply to the application of the Grand Trunk Railway will settle the point as to whether the people or the railways govern the country. If he decides that he is there simply to give effect to the wishes of the railways, he will kindle a fire that will consume him and his government as well.

The Province of Ontario will stand behind the City of Toronto in maintaining the right of the people to govern.

(These articles have appeared daily since Monday, Dec. 3.—Ed.)

the memorial to the veterans of 1812-15; the trumpeters' band of the I. O. O. F., which is to be reorganized as a brass band; coasting on Beech-avenue, where a number of serious accidents have occurred this winter; of a big freight boat now being built in Collingwood; of expert local bowling teams, and two interesting pictures of

the Quinte Hotel at Belleville, destroyed by fire on Jan. 4. The ladies will be interested in a beautiful fashion page, which gives an evening dress design by Paquin, which is the acme of style and elegance. The fashion page of The Sunday World contains no hackneyed fashions. The engravings and descriptions of current styles are exclusive. Amateur photographers will find entertainment and instruction in "Pathfinder" department, and there's a page of baby pictures for those who like that feature of The Sunday World.

There is something for everybody in to-morrow's World. In pictures it is thoroughly Canadian, dealing with those things which are of timely importance and general interest. It reflects the news of the week and is more handsomely printed than any newspaper contemporary. In its pages are given all the social and news events of the moment, and the results of the Saturday afternoon. The latter feature of The Sunday World makes it especially the paper for the horseman, the athlete, the sporting element, for its local contemporaries. Think it over. The Sunday World is a good investment at \$2 a year.

Patrol Arrested as Deserter. New York, Jan. 11.—Just as he received a knockout blow in a boxing bout at the Longacre A. C. last night, Charles Sinclair, arrested by the police at the instance of the federal authorities on a charge of being a deserter,

50,000 BRITISH "NAVIES" TO BE BROUGHT TO CANADA

Railway Construction to Be Done by Laborers From the Old Land.

Fifty thousand British navies for railway work in Canada was the subject of a consultation yesterday between Robert Verity, Canadian representative of the central emigration board, London, Eng., and Thomas Southworth, director of colonization for the province.

Mr. Verity has written to Sir Wilfrid Laurier, confirming a telegram sent to the premier by E. Storle, secretary to the board, before he left for England, promising to undertake the supply of the number of men mentioned.

The condition was that a rate of \$20 from London to the place of work be arranged. This co-operation would be necessary between the central board, the government in Canada, the various railways and steamship lines, and the railway contractors.

The British board will lend all possible help, and Mr. Verity stated that he had the assurance of railway men and contractors that they will be glad to employ British navies. Hitherto very few of this class have reached Canada, owing to the cost of transport. Those who have come have found steady employment, and Mr. Southworth stated that to his knowledge a preference existed for experienced British navies, as distinguished from unskilled laborers of other classes.

W. E. MACLEAN, M.P.

"Mack" in Toronto Saturday Night: W. F. Maclean, M.P., may be this, that or the other. He is accused of being a zealot, a fanatic, a fanatic, an animosity towards individuals rather than zealous for the reform of abuses. Very few of this class have reached Canada, owing to the cost of transport. Those who have come have found steady employment, and Mr. Southworth stated that to his knowledge a preference existed for experienced British navies, as distinguished from unskilled laborers of other classes.

Parliament has tried to ignore W. F. Maclean, but he has tried to bring him into line; he has tried to talk him down. But his opponents say what they will of him, there is no denying that he has caught the country's attention, and his advanced views are regarded with considerable acceptance. Some of his critics are being embraced by leaders who never thought to treat them with tolerance.

W. F. Maclean, thru his newspaper and thru his speeches in parliament, has set a lot of new ideas circulating in Canada; he has broken thru old political lines and struck out new paths, and unless there comes a great change in the political parties as they stand at present, he may emerge one of these days with a large following in the country. Parliament needs a man to champion the square deal, and the politicians at Ottawa are leaving the job open to W. F. Maclean, M.P.

SCOTCH COWS. Messrs. Price & Sons to Make Spine Importations for Their Erlingdale Farm.

Harry and George Price of S. Price & Sons, left yesterday for Scotland, where they purpose purchasing some choice registered dairy stock for their famous Erlingdale farm. Messrs. Price & Sons have been negotiating for this stock for some time, and have finally completed their plans for bringing Canada some of the finest dairy cattle ever imported. Messrs. Price will combine business with pleasure and will visit the principal European centres before returning to Toronto.

Major of Vancouver. Vancouver, B.C., Jan. 11.—Ald. Alexander Bethune defeated the former City Clerk, McLaughlin for the majority by 60. Barrister J. E. Bird, formerly of Toronto, was elected an alderman.

Money on Trust. Richard Walker wants certain proportions on Philip T. Lee's house, at 40 Sculler-street, removed. He claims they overhang his lands and has issued a writ against Lee, claiming an injunction and damages for trespass.

Smellie of Woodbridge, are made defendants in an action brought against the International Harvester Company of America, who are claiming \$54,720 entrusted to or received by Smellie as agent of the company.

Want to Quit. A. Bradshaw & Sons had a suit against H. Cohen of Sault Ste. Marie over a guarantee given them for the payment of certain goods sold to Mrs. Cohen's brother-in-law. Bradshaw & Sons applied to the master in chambers to be allowed to discontinue the action without costs. Judgment has

been now handed out refusing their application with costs.

Gurney, Tilden Co. Levied. Benjamin Emerson of Bradford was awarded judgment in October last against the Gurney Tilden Company, Charles Richards and S. A. Richards of Waterford, claiming \$229.66 for payment of money entrusted to Charles Richards as agent of the plaintiffs.

From Snow to Sunshine and Florida. It is summer now in Florida. The sun is going, hot and open-air bathing. Why not escape the rigors of the northern winter? The Pennsylvania Railway is the natural route to Washington and all resorts in the south from Buffalo. Two through trains to Washington, daily, connecting with Pullman trains to St. Augustine, all through sleeping cars to other points.

Mother's Anxiety for Her Child

Under few circumstances does a mother feel herself so anxious and so helpless as when the child in whom her hopes are centred is seized with croup or bronchitis, and struggles in vain to get its breath.

It is then she asks: "What is the most effective treatment I can buy?" and probably remembers what her friends have told her about keeping Dr. Chase's Syrup of Linseed and Turpentine in the house for use in such emergencies.

Any cough mixture the dealer may offer is not good enough in the face of serious illness. You insist on having Dr. Chase's Syrup of Linseed and Turpentine because it has been proven by the test of time to be the most certain cure for croup, bronchitis and severe chest colds.

Children like to take Dr. Chase's Syrup of Linseed and Turpentine because it is well suited for their use. It contains a bottle, five cent size. At all dealers or Edmondson, 60 Cts., Toronto.

Write for Dr. Chase's Calendar Almanac and enter the \$200.00 Diary Contest.

**EFFORT TO SAVE MACRI.**  
 Winnipeg, Ill., Jan. 11.—(Special)—The Italians of the city are making another desperate attempt to save Macri, the Italian anarchist, who was sentenced to hang on Jan. 15. E. L. Howell will leave for Ottawa to-night to interview the department of justice and endeavor to secure a postponement of the execution until further evidence can be secured. The department of justice is reported to be continuing and in another day or so will be completed.

**THE VALUE OF CHARCOAL.**  
 Few People Know How Useful it is in Preserving Health and Beauty.

**Costs Nothing to Try.**  
 Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the poisons and impurities always present in the stomach and intestine and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved complexion of the general health, better complexion, sweeter breath and purer blood, and therefore also better health, possible harm can result from their continued use, but on the contrary.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise the use of Stuart's Charcoal Lozenges to patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath. The lozenges are also better than any other remedy I have used for the relief of indigestion, and I believe I get more and better results than in any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. F. A. Stuart Co., 66 Stuart Building, Marshall, Mich.

**INSPECTION OF CANNED MEATS**  
**FISHERMANS NO PROTEST**  
 Strong Opposition to Some Features of Bill Presented by the Government.

Ottawa, Jan. 11.—(Special)—The house went into committee this afternoon upon Mr. Fisher's bill to provide for inspection of canned meats, fruits and other food.

Mr. Smith of Wentworth, while not objecting to frequent inspections, pointed out that the bill provided for a duplication of work now done by the provincial government. As to the inspection of canned meats from the carcasses of the can, it could only be objected to on the ground of cost. The Fruit and Canned Meats Act, passed in 1905, provided for government inspection, but not for date marking. Mr. Smith suggested that before the present bill was further proceeded with, opportunity should be given to the canners to express their opinion upon its provisions.

Mr. Wilson (Prince Edward County) said that as the representative of a county in which there were thirteen canneries, he seconded the request for a postponement until those interested could be heard.

A. F. MacLaren (Perth) said that in conversation with a prominent canner yesterday, the latter expressed the hope that the trade would be heard before the bill was passed. Mr. MacLaren hoped this would be done, and urged the minister to give an opportunity to deputations to be heard on the subject.

**No Protest.**  
 Mr. Fisher said that he had taken precautions to have the first reading before the Christmas recess, so that members could have printed copies of the bill to enable them to consult their constituents upon its provisions. He had heard no protest against the bill, but had decided to give deputations a chance to be heard.

Mr. Wilson (Lennox and Addington) observed that so far from there being an adequate supply of the printed bill, he found on asking for a half-dozen copies that only two were available.

David Marshall (East Elgin) agreed that it was important that the sanitary conditions of canneries should be seen to, but contended that as to inspection of goods for quality there was no necessity for it, as the high standard kept by canners could not be improved upon by inferior goods. It would be difficult to get qualified inspectors. He would urge the minister the importance of providing that the packer's name must be on the can.

Mr. MacPhee (British Columbia) strongly objected to the requirement of dating the can in the case of salmon. No chemical reaction could possibly occur in a sealed tin of salmon. He flourished before the house two cans that were six years old, and insisted that if they were opened the contents would be found unharmed.

Mr. Gunn (South Huron) corroborated Mr. MacPhee's statement. Salmon improved with age.

**Inspect the Can.**  
 Mr. Blain (Peel) thought that it was not wise to inspect the can itself, but to inspect its contents. Did the bill provide for this? Mr. Blain thought it was a defect in the bill in this respect was deficient. He would give it consideration.

Mr. Marshall supported Mr. Blain. Many canners were making goods with a very thin coating of tin. The acid soon destroyed the tin. The conditions of canners were more important than inspection of their contents.

Mr. Smith (Wentworth) called attention to the fact that the Ontario government inspectors provided for three factory inspectors. He objected to dating the cans.

Mr. Blain insisted that it was idle to safeguard the contents of the can, if the can itself was not inspected.

Dr. Harty (Dufferin) very pertinently observed that if canned goods did not deteriorate after five or six years' canning, why this objection to dating the cans? But if canned goods did deteriorate, when was it?

The canners seemed to be strangely silent on the subject.

Mr. Lancoater (Lincoln and Niagara) opposed the bill in toto.

Mr. Prince Edward County submitted that the unsanitary conditions of canners was a rule arose from unsuitable cans. But should the tin be inspected would that be inspection run mad?

Mr. Marshall said that the cans could not be inspected. The sheet tin would have to be inspected. Yet there was trouble from poor tins. The English would not take our canned peas and beans, but our exports were not what they should be.

Mr. Blain insisted that an inspector could tell whether a can was properly coated with tin as well as he could inspect the tin plate.

**NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL**

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of organs be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which these afflictions cause.

**Doan's Kidney Pills**  
 are a specific for all kidney troubles. They begin by healing the delicate membrane of the kidneys and thus make their action regular and natural.

They help the kidneys to finish off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages.

Doan's Kidney Pills are entirely vegetable, and are so safe that they may be given to the most delicate. Let Doan's Kidney Pills do for you what they have done for thousands of others, that is, cure you. Mrs. John Young, Harwood, Ont., writes: "I was troubled with my kidneys for some time and my back was so lame I could scarcely get around. After using two boxes of Doan's Kidney Pills, I am completely cured, and feel like the same person."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25, all delivered by mail direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

**FATAL MONTREAL FIRE**  
**BANK CLERK IS VICTIM**  
 A. Basil Greene Dead and Three Others Seriously Injured—Property Loss \$25,000.

Montreal, Jan. 11.—(Special)—Closely following the fatal conflagration on St. Antoine-street, another fire was sacrificed to the fire-fight to-day, and two men and a woman were injured. The loss to property owners will be about \$25,000.

The stone dwelling and stores at the corner of Fort and St. Catharines-streets was the scene of the fatality, and the fight for the lives of a dozen or more people was one of the most courageous and exciting of the many which Montreal has known in the last few years.

The dead man is A. Basil Greene, 26 years of age, a son of C. P. Greene, general manager of the high school on St. Johns, Que., and a clerk in the Dominion Bank in Montreal. The injured are: Rupert Reid, medical student, of Sudbury. He is lying at the Western Hospital with a badly cut arm and burns. Partial asphyxiation by smoke and shock to his system will keep him confined for some time.

Charles Dennis, who lives at the home of St. R. Charlton, 8 Sussex-avenue. He is suffering from cuts and burns and severe shock.

Marguerite Begin of Canton Neuchâtel, Switzerland, leaped thru a storm window sliding shutter in the home of Mrs. Roy, 121 St. Catharines-street. Her face was badly cut and her hands and arms injured.

Those who are burned out are: Baker & Co., grocers, 400 St. Antoine-street; \$4000; total loss; insurance \$3000. J. Gauthier, 67 Port-street; loss \$1500; insured. E. Parker, owner of the furniture in the dwelling over the store, \$4000; insured. W. Bryan Foster, New York agent of the building; Henry Ward & Co., grocers; \$5000; fully covered by insurance. The Dennis family; personal belongings all lost; no insurance. Mrs. Hormidas.

**THE LATE DR. LAPONNI**  
 Death Has Removed a Distinguished Physician and a Man of Rare Courage.

In the death of Dr. Laponni, physician to the Pope, a personage has been removed from the scene who was scarcely less known throughout the world than the pontiff whom he ministered unto. He was a wonderful man as well as a distinguished physician—Ottawa Free Press.

It may be added that Dr. Laponni was a man of rare courage. He had no fear of the most dangerous professional etiquette. When he found something good in a medicine he did not hesitate to say so to the world. He proved this when he wrote the Dr. Williams' Pink Pills for Pale People advertisement. Dr. Williams' Pink Pills in four cases of the simple anemia of development. After a few weeks of treatment, the result came fully up to my expectations. For that reason I shall not fail in the future to extend the use of this laudable preparation, in all cases of anemia and kindred conditions. (Signed) Dr. Giuseppe Laponni, Via dei Gracchi 282, Rome.

The "simple anemia of development" referred to by Dr. Laponni is, of course, that tired, languid condition of young girls whose development to womanhood is tardy, and whose health, at the period of that development, is so often imperilled. It is the ailment of the "pink pills" system. In all cases of anemia, the blood is deficient in iron, and the greater confidence because they were tried by drumhead court-martial and condemned to death.

**J. A. Murray & Co.**  
 Business Hours Daily—  
 Store Opens at 8:30 a.m. And Closes at 6 p.m.

**Women's Fashionable Slippers**  
 At \$2.95 a Pair

 EUROPE, WEST INDIES, NEWFOUNDLAND, BERMUDA.

**G.T.P. WANTS WATERPOWER**  
 Dog Falls Are in Demand, But Municipalities Will Be Protected.

The Port Arthur papers state that the G.T.P. Railway Co. has made application for the water privileges of Dog Falls for the purpose of developing electric power. It appears that the company is not the only applicant for the franchise, and a number of others are anxious to secure the opportunity to develop power. It is surmised that the railway company would utilize the power in their shops, branch lines and yards, and possibly for the electrification of the road. No information on the subject is to be had from the Ontario government, but the rights of municipalities are certain to be protected by Premier Whitney's administration, and in accordance with the declared policy of the government, any lease or franchise granted would undoubtedly be under the control and supervision of the Ontario hydro-electric power commission.

**ITALIAN STABS ANOTHER.**  
 Sault Ste. Marie, Ont., Jan. 11.—Beausault Raffaele Luitert said he was a better man than Luigi Alessandro, the latter drove a knife deep into his abdomen. The victim may die. Luigi was taken to jail.

**Parlor Cars to Lindsay and Peterborough.**  
 Leave Toronto via the Grand Trunk at 7:05 p.m. Car parlor or buffet parlor cars are also attached to trains leaving Toronto at 9:00 a.m. and 6:10 p.m. for St. Catharines, Niagara Falls and Buffalo. Reservations may be made at city office, northwest corner King and Yonge-streets. Phone Main 4209.

**HE FOUND HIS MAN.**  
 Two days ago a young man named Mills was arrested charged with stealing an overcoat from John Phillips. He was wearing the stolen coat when he was taken to the police station. Police court Mills said he had purchased the pawn ticket for the coat from the government of Ontario, and he had no other means of support. He was released on bail for \$100, and was taken to the police station. Mills was taken to the police station.

**PREMIER RETURNS.**  
 Premier Whitney and Mrs. Whitney arrived home last night after their brief holiday in New York.

Mr. Whitney considered himself much benefited by the change, but said nothing further of public interest to discuss.

He will be at the Parliament Buildings to-day, and preparations for the approaching session will be pushed forward.

**The Double Track Route**  
 To St. Catharines, Niagara Falls and Buffalo. Four splendidly equipped trains leave Toronto daily via the Grand Trunk at 8:00 a.m., 12:01, 5:00 and 6:10 p.m. Buffet parlor cars are attached to the 8:00 a.m. and 6:10 p.m. trains. Reservations may be made at city office, northwest corner King and Yonge-streets.

**Terrorist Bomb Up.**  
 Warsaw, Jan. 11.—Nearly 700 terrorists were arrested in this city yesterday by the police, who also seized many rifles and revolvers. Five terrorists were tried by drumhead court-martial and condemned to death.

**GRAND TRUNK RAILWAY SYSTEM**  
**A Visit to the Mineral Springs**  
 of St. Catharines, Preston, Chatham or Mount Clemens will be beneficial to you. Try a few days at one of these places if you can't spare time from business for a longer holiday. All situated on the Grand Trunk and easily and quickly reached by fast trains.

**MAN MEDICINE**  
 A Big Round Dollar's Worth of MAN MEDICINE FREE for a Dime.

A dime—ten cents—isn't much money. No man longing with all his soul to feel again the vigor of his main creator of the balk at the amount of life in his bones will balk at the amount of a dime.

There is a chance, though, that you might miss this offer of real help to weak men if you don't put in a word or two on WHY it is a dime for a dollar's worth. You might say, "Only a dime—they can't afford to do anything REAL for me for a dime." Right you are; a dime is NOT the measure of value of MAN MEDICINE. We are not trying to make money on this proposition, but for a dime we are going to FRUITE to you that MAN MEDICINE IS ALL that you need.

This dime is not for the medicine. We give you that. We give you FILL MEDICINE ABSOLUTELY FREE. It has cured thousands perfectly and permanently—and we KNOW what it will do for you. You want to have a whole dollar's worth to prove its merits on yourself. We want to prove it to you on your expense. We will give you the medicine—make you a present of it.

Your dime simply helps to cover the cost of packing and postage on one whole dollar package for you.

There is no other expense—absolutely none. Simply enclose your ten cents, all over or stamps in your letter, at our risk, and MAN MEDICINE, carefully packed in plain wrapper, will reach you by return mail. This is a square deal. We say, "MAN MEDICINE is great—it is worth more than its price." It will add pounds to your horse power, it will give you energy, it will give you a whole dollar's worth to prove its merits on yourself. We want to prove it to you on your expense. We will give you the medicine—make you a present of it.

That weary, worn condition, that debility, that lost animation, that prostration, that kidney trouble due to the exhaustion of your strength, the drains, losses and weakness peculiar to men will not get well or last if you must get help somewhere and there is none so sure and quick as MAN MEDICINE.

That's why we offer you MAN MEDICINE for a dime—so you can STOP and MAN MEDICINE to-day. Interstate Remedy Co., 204 Luck Bldg., Detroit, Mich.

JAMIESON'S JAMIESON'S JAMIESON'S JAMIESON'S JAMIESON'S

# A Bank Account for the Children

**IN ORDER** to encourage thrift with young people we have arranged with the Farmers Bank to open savings accounts for our customers with a credit of \$1.00 to start with, to apply on purchases of not less than \$5.00 and representing a clean discount of 20 per cent. on top of the usual January reductions. It is intended that these savings accounts shall be opened in the name of some boy or girl, more to encourage the right ideas of economy. Purchases can be made to any amount, in any department of the store, and credit will be allowed at the rate of 20 per cent—the money to be deposited in the Farmers Bank to your account. For instance:

- A \$5 Purchase Entitles You to \$1 Credit in the Bank
  - A \$10 Purchase Entitles You to \$2 Credit in the Bank
  - A \$15 Purchase Entitles You to \$3 Credit in the Bank
  - A \$20 Purchase Entitles You to \$4 Credit in the Bank
- and so on. We want this to be the nucleus of savings

accounts for hundreds of young people, and is in addition to the reduced prices we always make at this season of the year.

The only stipulation we make is that the money must not be withdrawn from the bank immediately. The entire success of this business has been based on the fact that we always had the ready money to pay spot cash for anything we bought, and we want to encourage more of this idea with the rising generation. It is the groundwork of any permanent success, and as this offer is absolutely complimentary with us we are privileged to ask the beneficiaries to keep the account intact and not withdraw the money we credit them if by any chance it can be avoided.

We take pleasure in recommending the Farmers Bank as a strong, safe and up-to-date financial institution, conveniently located for our customers and ready at all times to serve their interests.

## In Addition to These January Reductions

### Bargains in Men's Clothing

## P. JAMIESON, THE CLOTHING CORNER—QUEEN AND YONGE STS.

### HEALEY FALLS POWER CASE EXTENSION OF TIME WANTED

Influential Deputation Waits on Government—Squatter Has Caused Delay.

A deputation representing the Northumberland-Durham Power Co. waited on Hon. Frank Cochrane and Hon. Adam Beck yesterday afternoon to request an extension of time for the performance of work on the power development at Healey Falls. The Ontario Government owns the lower portion of the rapids, the Dominion Government the upper portion, and the company the middle reaches. A squatter on the provincial portion delayed the acquisition of this property until three days

### Liquor and Tobacco Habits

A. McTAGGART, M.D., C.M., 75 Yonge St., Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity permitted by: Sir W. R. Meredith, Chief Justice; Hon. G. W. Ross, ex-Premier of Ontario; Rev. John Fotts, D.D., Victoria College; Rev. Father Tealy, President of St. Michael's College, Toronto; Rev. W. A. Swatman, Bishop of Toronto; Rev. Wm. McLaren, D.D., Principal Knox College, Toronto. Dr. McTaggart's vegetable remedies for the liquor and tobacco habits are healthful, safe, inexpensive home treatments. No hypodermic injections, no publicity, no loss of time for business, and a certainty of cure. Time for consultation or correspondence invited.

after the time when construction work should have commenced. The Dominion Government has not yet consented to the use of the upper portion of the rapids, but the company hopes to procure this privilege shortly, the delay arising from the desire of the Dominion Government first to receive the engineers' report on the Grand Valley Canal System, which is expected to be ready next month.

Sir Mackenzie Bowell saw the government during the week, and was asked to arrange a deputation of the prominent men of the lake shore district, the present visit being the result. The deputation was informed that the general policy of the government, whatever disposition should be made of the present application, would be in accordance with the terms of the new uniform lease, under which all future grants of waterpowers will be made. Control of rates is included among these conditions. The deputation was assured that nothing was intended in any way detrimental to the success of the enterprise. The matter will be taken up at a meeting of the council next Tuesday.

Those in attendance were: Capt. A. E. Bywater, president of the Reform Association, and a foremost taxpayer; M. B. Morrison, M. L. A., West Hants; P. J. O'Rourke, proprietor, The Advocate, and President Conservative Association; J. M. Hurley, ex-M. P., from Trenton; H. C. Hunt, secretary-treasurer, Belleville Hardware Co., representing Sir Mackenzie Bowell, president of the company and of the Northumberland-Durham Power Co.; Ald. Green, representing the city council, Belleville; E. C. S. Huycke, R. C.; Frank M. Field, T. E. Lapp, Cobourg World, Cobourg; H. T. Brush, president Standard Ideal Bath Co., Robert A. Mulholland, president Durham Conservative Association; J. F. Clark and

Public Amusements

"The Education of Mr. Pipp" is the Gibson play in which Daniel V. Arthur presents Digby Bell and a splendid cast for an engagement of one week at the Princess beginning next Monday, with matinee on Wednesday and Saturday. Everyone who has admired the splendid type of masculine and feminine youth as idealized by Chas. Dana Gibson in his famous drawings, will wish to see how the flesh and

DIGBY BELL  
As Mr. Pipp at the Princess This Week.

blood counterparts of his characters carry themselves. In Misses Julia and Mia Pipp, as portrayed in this play, have been found two girls whom Mr. Gibson considers perfect representatives of the Gibson girl. The two men who are in love with them, and whose love stories are a strong point of interest in the play, are equally perfect representatives of Mr. Gibson's idealized man. The same players who interpreted the other roles during the New York engagement last year will be seen at the Princess during the engagement here. Among them are Digby Bell, the star; Helen Tracy, Fred Courtney, Grace Thorne, Frank Powell and a dozen others.

"The production of 'Way Down East,' which will be offered to theatregoers at the Grand Opera House next week, is the big No. 1 company, with complete equipment, the same that was identified with the play during its successful engagements in the metropolitan cities. It is needless to dwell

MISS LILLIAN BEACH  
As Mrs. Murphy, in 'McFadden's Flats.'

upon the merits of the play at any length, for our theatregoers know full well its clean and wholesome story, its deftly intermingled pathos and comedy, its real characters of the New Hampshire hills, and its great moral. It is made up of a series of happenings designed to portray the simplicity, comedy and tragedy of a community: the purity and sweetness of which might run uninterrupted forever, but for the casting across of the shadows of the wicked city.

The few musicians who have heard Mrs. LeGrand Reed since her return from her stay abroad, where she finished her course with Jean DeReze, under whose coaching she had the advantage of two years, are delighted with her voice. It is a dramatic soprano of great freshness, pure quality and big range. Her appearance will be witnessed next Saturday at Massey Hall with great interest. The sale of seats begins Monday morning.

Everything is in readiness for the concert of the National Chorus, under

CERTAIN OF FINAL VICTORY  
POPE'S MESSAGE TO FRANCE

Union With Holy See Must Be Maintained, Tho Many Trials Will Come.

Rome, Jan. 11.—The Observatore Romano to-day published the text of an important encyclical addressed by the Pope to the French Catholics.

In this document the Pontiff said that his chief object in addressing the faithful in France was to comfort them in their sufferings, which he felt deeply. There was, however, great consolation in the fact that the Catholics of France were united. The French government's declaration of war was not only against the Christian faith, but against all spiritual ideas. The French Catholics must be prepared for all sorts of trials, but they were certain of final victory. This meant the maintenance of their union with the Holy See, which was of the greatest importance, as shown by the efforts of the enemies of the church to dissolve this union.

Contrary to the statements made on the subject, the church did not desire a religious war, involving violent persecutions. Being a messenger of peace and carrying out the mission of the church did not willingly expose herself to war and persecutions, as she did not desire to see her children suffering.

Regarding the ecclesiastical properties, the encyclical said the Pope had not abandoned them. The French government had imposed on French Catholics an organization which the church was unable to accept without imperiling its existence as a divine institution. The statement that the government disposed of the "abandoned" properties of the church was adding derision to spoliation. It was false to state that the Pontiff condemned in France what he approved in Germany, as the German cultural associations were merely tolerated, although they recognized the hierarchy, which was not done in France. The new bill amending the separation law of 1905 was simply a law of confiscation, and in regard to the exercise of public worship was an anatomical measure. Therefore, the Pope condemned it.

Humiliating. "As to the annual declaration required for public worship, it did not offer the legal guaranty that the church had the right to expect. Nevertheless, to obviate any misunderstanding, the church might have tolerated making declarations, but laying down that the clergy shall be only occupants of the churches, without any legal status and without the right to perform any administrative act in the exercise of their ministry, places them in a vague and humiliating position that the making of declarations could not be accepted.

"It remains to examine the law recently voted by the chambers. From the point of view of church property, the law is a law of spoliation and confiscation and has consummated the pillage of the church.

"Altho her divine mission was born poor in a stable and died poor on the cross, and altho she knows poverty from the cradle, the property she was possessed of belonged to her and no one had the right to deprive her of it. This ownership, indisputably hers from every point of view, has been officially sanctioned by the state.

"The statement that the government disposed of the church property is a spoliation of the church is adding derision to spoliation.

Organized Anarchy. "From the point of view of the exercise of religion the new law has organized anarchy. It installs a regime of uncertainty and arbitrariness. There is uncertainty as to whether the churches, which are always liable to disaffection, shall in the meanwhile be at the disposal of the state, or whether, in each parish the priest will be in the power of the municipality, with the consequent possibility of conflicts. In addition, the law is under an obligation to meet the heaviest expenses, while their resources are restricted to the strictest limitations. The new law aggravates the law separating church and state. We can only condemn it with precision and without ambiguity. Certain articles of the law throw new light on the real aim of our enemies. They wish to destroy the church and de-Christianize France without attracting too closely the attention of the people. If their course was really popular, as they pretend it is, they would pursue it openly and take all the responsibility."

Appeal to History. In conclusion, the Pope appealed to the judgment of history, which he said will recognize that the papacy acted as it has done because they did not wish to humiliate any trivial official or oppose any form of government, but to maintain with all its strength, the work of the divine founder of the church, demanding respect for the hierarchy and the inviolability of its property. The papacy wished to remind the world that "man must concern himself here below with higher ideals than the occurrences of every day life, and that the supreme, inviolable joy of the human soul on earth is to accomplish its spiritual duty at all costs and thus, in spite of all, honor, serve and love God."

THAW'S TRIAL MUST GO ON.

Distort Attorney Says Will Be Called on the 21st.

New York, Jan. 11.—The trial of Harry K. Thaw for shooting Stanford White to death at the Madison Square Garden Theatre will not be put over, but will begin on Jan. 21, the date now set, according to announcement to-day by representatives of the district attorney.

"The district attorney is not going to move any case to trial to avoid the justice of the Thaw trial," said Mr. Smyth. There is nothing that will be served to the Thaw trial. It is possible that some case may be carried over for a few hours on the date set, but the district attorney means to go on with the trial.

San Francisco Needs Coal. San Francisco, Cal., Jan. 11.—Unless the coal situation is relieved San Francisco will suffer seriously by next week. There is at present in the bunkers and in the hands of retail dealers a supply more than seven days' supply of fuel. There are no colliers on the way to this port, and a genuine coal famine threatens the city.

WOMAN'S WORLD.

6765—A DRESSY SHIRRED WAIST.

A little more labor expended upon a waist for nice occasions is never wasted, for the pleasure in wearing a really beautiful garment is recompensed enough. A strikingly pretty waist seen recently at a fashionable gathering is sketched for the benefit of the lover of beautiful clothes. The fabric of which it was made was silk voile, beautified with threads of silk in another color. The shoulder edges and sleeves were gathered and shirred in such a manner as to not only bring out the charms of the material, but those of the wearer also. A pointed tucker of lace gave the daintiest of finishes next the face, while a note of contrast was touched by the trimming bands of dark velvet. The waist is one which might be fashioned by the amateur sewer at home, and for the purpose is reproduced here. The sleeves of the pattern may be long if preferred. For the medium size 27-8 yards of 24-inch material are needed. The waist being adaptable to silk, cashmere, velveteen or chiffon.

6765—Sizes, 32 to 42 inches, bust measure.

Beauty.

Someone very aptly says, "A girl's hair is plain-looking at sixteen and may not be her fault, but the woman who is plain-looking at sixty has only herself to blame."

And to a very great extent this is so, for no matter how plain a woman may be, exquisite cleanliness, good grooming and becoming dress will go far towards making her at least attractive, while, no matter how beautiful she may be, the neglect of these essentials will spoil her appearance.

The first requisite of beauty is health, and the second, cleanliness, for without these two qualities a good complexion is impossible, and we all know how necessary a good complexion is for beauty.

The most beautiful complexion in the world is obtained if your skin is not clean, and to keep it clean hot water, soap and a good cold cream are necessities.

An excellent shampoo is made by dissolving castile soap in water until it is of the consistency of honey. Mix two tablespoonfuls of this with a beaten egg and rub well into the hair while wet and rinse until the last water is clear. Lemon juice from the final rinsing will keep fair hair from turning dark.

A little vaseline, rubbed into the scalp the night before washing, is good, if the hair is inclined to be dry or full of dandruff.

Brush and comb should be kept spotlessly clean, and the hair should be brushed regularly, but so that the bristles of the brush do not touch the scalp, or the hair is dragged out. For the same reason a coarse, smooth comb should be used.

For the teeth, too, cleanliness is essential. They should be brushed several times daily, but especially at night, and the dentist should be visited regularly, so that your teeth may be inspected and approved of.

A good figure and graceful carriage are the result of the lack of a pretty face. Habitual deep breathing and a short physical culture course will be very valuable, both to the thin and fat woman.

Remember, beauty is power, and the secret of it lies within your own hands.

Boy Loses His Hand.

Belleville, Jan. 11.—A 12-year-old boy named Merrill Wright will go thru life with only one hand. His father had just left a straw-cutter, which he was operating, and told Merrill to keep away from it. He didn't.

Holland Landing Nominations.

Holland Landing, Jan. 11.—Nominations were held to-day for the Village of Holland Landing, as follows: Reeve—Duncan Bell, G. B. Thompson; councillors, James Art, John Puley, Thomas Foster, A. Lennox, Daniel Pegg, Thomas Smith; school trustees, elected by acclamation, Abner Howard (2 years), Wm. Tate (1 year).

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician, and follow his advice carefully.

SCHOOL ACCOMMODATION.

Hon. Dr. Pyne Issues a Circular to the Inspectors.

"Under present conditions, especially in view of the misunderstandings that have arisen in connection with the educational reforms introduced during the present year, it will be well for you to construe the provision with judicious liberality," says a new circular issued by the minister of education for the information of public school inspectors on the question of school accommodation, and in explanation of the circular of last July on this subject.

The minister observes that "at a time when the department is requiring a minimum equipment, and in some cases a considerable increase of the teachers' salaries, the inspector cannot be too careful in enforcing his suggestions."

"Not all the desirable and practicable improvements can be secured in a short time. In many cases it will take years before the conditions of the schools will become satisfactory, and at first the inspector should secure the changes that are of the greatest importance. The key to the situation is judicious persistence.

"As far as possible," continues the circular, "inspectors should advise the school boards in favor of the most firm furnishing school supplies, but that free and fair competition is allowed to all in order that trustees may have the full benefit thereof, both as to prices and to quality of materials offered."

"I had intended," says the minister in conclusion, "to settle before the close of the year the details of the distribution of the legislative and county grants, but the amounts available for the purpose in 1907 have not yet been settled by the legislature. I have accordingly decided to defer the final settlement of this matter until some time this half-year. I may remind you, however, that this scheme will be a modified form of that which has proved so successful in the case of the high schools."

IMPRESSIVE FUNERAL SERVICE

Remains of Rev. James H. McCollum Laid at Rest.

With solemn ceremonies, in accordance with the burial service of the Church of England, the last rites were paid to the remains of Rev. James H. McCollum yesterday afternoon. The night before relays of representative clergymen of the church held solemn vigil by the coffin. Earlier in the evening solemn services for the dead were read, with incense used, followed by the celebration of the Holy Communion, after which, with incense again used, the abolition over the body was pronounced. At 3.30 yesterday afternoon a large attendance filled the church. The remains, encased in a plain but rich coffin, which, with six lighted candles around it, was covered with beautiful floral tributes, rested in the chancel. The procession of choristers, men and boys in surplice, and the leading clergy in full canonicals, preceded by the cross, moved from the vestry to the chancel, each rendering obsequies when opposite the altar.

Rev. Enos Sweeney read the opening sentence, and the lesson from the Gospel of St. Paul, chapter xv. "Now is Christ risen from the dead." Bishop Sweatman read the concluding prayers. The 90th Psalm, preceded by the cross, moved from the vestry to the chancel, each rendering obsequies when opposite the altar.

The procession of choir and clergy

Woolstock Man Speaks.

Milwaukee, Wis., Jan. 11.—Before the Wisconsin Cheese Makers' Association to-day, various phases of the industry were discussed by Robert Johnson of Woodstock, Ont.

London, Jan. 11.—Charles Frohman brought Edna May back to the stage last night at the Aldwych Theatre in a new musical play called "Nelly Nell."

SHE PATIENTLY BORE DISGRACE

A Sad letter from a lady whose Husband was Dissipated.

How She Cured Him with a Secret Remedy.

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's drinking habits. Hearing of your marvellous remedy for the cure of drunkennes, which I could give my husband secretly, I decided to try it. I procured a package and mixed it in food and coffee, and, as the remedy was effective and tasteless, he did not know what it was that so quickly relieved his craving for liquor. He soon began to pick up flesh, his appetite for solid food returned, he stuck to his work regularly, and we now have a happy home. After he was completely cured I told him what I had done, when he acknowledged that it had been his saving, as he had not the resolution to break off his own career. I heartily advise all women afflicted as I was to give your remedy a trial."

FREE SAMPLE and pamphlet giving full particulars, testimonials and prices sent in plain sealed envelope. Correspondence accepted confidentially. Enclose stamp for reply. Address The Samaritan Remedy Co., 191 Jordan Chambers, 23 Jordan Street.

# Canada-Cuba Land and Fruit Company, Limited

### CUBA'S LARGEST CANADIAN COLONY, BOTH IN ACREAGE AND NUMBER OF SETTLERS

Our estate is absolutely free from encumbrances, and deeds are issued which can be at once registered when purchase completed.

We have still for sale **Forty Thousand Acres** of the finest land in the island for citrus fruits and tobacco, at moderate prices.

The soil is pronounced by experts the finest in the world for citrus fruits and tobacco. In the heart of the world-famed **Vuelto Abajo District**.

We have thousands of acres of such lands. **Purchase Now.**

We have two churches about to be erected, resident physician, two post offices, four mails per week by rail and steamer, our own dock, at which steamers from Havana call once a week; saw mill now running; one settler near the town has 82 acres under cultivation in oranges; another has 15,000 trees in, and many others smaller tracts; good drinking water in every part of the estate.

Ocean beach on the coast; magnificent stretch of sandy beach. The finest sea bathing in the world.

CALL AT ONCE FOR EVERY INFORMATION.

AGENTS WANTED

## GEORGE F. DAVIS, MANNING ARCADE, MANAGING DIRECTOR.

### MISSIONARY A PLAGUE VICTIM

Death in India is Reported of Dr. Agnes Trumbull.

A cablegram was received at the Presbyterian Foreign Mission rooms yesterday, stating that Dr. Agnes Trumbull had died in India as a result of a partial stroke of paralysis, with which she was stricken two months ago.

Miss Trumbull had been lately highly honored by the Indian government for services rendered during the recent plague, by the presentation of the Kaiser-Hind medal, which is a similar award to the Victoria Cross, and is bestowed for valiant and conspicuous service rendered to the government.

It is stated that during the plague

Miss Trumbull had overtaxed her strength to such an extent that a four-months' rest was insufficient to restore her normal health, and that the final collapse was a direct result of the plague's vicissitudes.

Canadian Institute. The members of the Canadian Institute will hold their usual meeting in the lecture theatre of the university medical building this evening at 8 o'clock.

Dr. A. Lawrence Roth, director of the Blue Hill Observatory, Boston, will deliver a lecture entitled "The Exploration of the Atmosphere Over Land and Sea," with lantern illustrations. The public are cordially invited.

### NOT THE CITY GATES.

Which Are Out of Order at Sunnyside-Danger Still There.

Park Commissioner Chambers, investigating the assertion that the railway gates at Sunnyside were not lowered when trains were passing because the gateman said, they were frozen up, found yesterday that it was the G. T. R. watchman who is at fault, and not the city official, who keeps guard at the entrance to High Park.

The gates at the crossing were still out of business yesterday.

### MUSIC SUPPLEMENTALS AND MUSIC EXAMINATIONS

Results Announced in the Matriculation and Various Year Subjects.

The results of the University of Toronto supplemental examinations (January, 1907) are announced as follows:

Senior Matriculation.

- The following have passed in the subjects indicated:
- Greek—A. E. Baker, T. C. Colwell.
  - Latin—P. F. Baldwin, A. M. Cooper, H. L. Douglas, W. Ellis, W. M. Rowlett, F. H. C. Lansell, Miss H. G. Matheson, T. W. Mills, A. E. Owen, E. A. Steirn.
  - English—A. A. Smith.
  - German—J. H. Bull, Miss F. Crane, P. B. Deeth.
  - French—A. E. Bell, H. L. Douglas.
  - Ancient history—A. B. Austin.
  - Mathematics—K. C. MacKenzie.
  - Biology—P. E. Deeth, F. S. Okell.
- First Year.
- The following have passed in the subjects indicated:
- Greek—T. H. Stanley, M. H. Staples.
  - Latin—H. E. Hemingway, E. P. Moore, J. A. Tuer, H. L. W. Turnbull, Miss I. P. MacLachlan.
  - English—D. A. Welsh.
  - German—Miss L. Denne.
  - French—J. V. McKenzie, M. H. Staples.
  - Hebrew—A. Leese, O. E. Simons.
  - Ancient history—Miss M. O. McDougall, J. A. Tuer.
  - Mathematics—Miss M. O. McDougall.
  - Biology—H. Barlow, W. C. King, Miss A. E. Graham, W. D. Herridge, W. J. Sangster, Miss M. H. Stevens.
  - Physics—W. Kilpatrick, Miss M. O. McDougall.
- Second Year.
- The following have passed in the subjects indicated:
- Greek—T. C. Colwell, J. A. Leese, J. H. Martin, T. Larsen.
  - Latin—G. W. Coulter, Miss M. E. Ross, Miss M. M. Stewart.
  - English—W. J. McLarty, G. G. Paulin, German—F. H. Barlow, E. T. Coates, W. P. Lambert, J. P. MacKenzie, L. P. Sherwood, R. P. Stockton, E. S. Williams.
  - French—C. W. Coulter, W. J. McLarty, Hebrew—G. E. Simons.
  - Medieval history—Miss L. I. Durton.
  - Latin—G. W. Coulter, Miss M. E. Ross, Miss M. M. Stewart.
  - Logic—N. P. Lambert, Miss M. M. Stewart.
  - Psychology—Miss L. C. Bicknell, L. McDonald, P. K. McKenzie.
  - Geology—S. M. Mehr.
  - Light—E. A. Baker, W. A. Cameron, F. S. Okell.
- Third Year.
- The following have passed in the subjects indicated:
- English—F. W. H. Armstrong, W. H. Goldstein, W. L. C. Macbeth.
  - French—J. S. Carle.
  - Hebrew—W. H. Kilpatrick.
  - Modern history—Miss F. Harrison.
  - English constitutional history—Miss M. M. Stewart.
  - Ethics—N. L. Croome, W. H. Goldstein.
  - Physics—Miss M. M. Stewart.

Boehm, 1; Miss L. Cairns, 1; Class II—Miss A. F. Dorewend, 1; Miss E. Morse, 2; Miss O. Casey, Miss M. Davis, Miss C. Morrow, 3; Senior pianoforte—Pass—Miss C. Scully, 1; Miss M. McFadden and Miss M. A. Wilson, 2; Miss E. Austin, 4; Intermediate theory—Class I—L. Cairns, Class II—Miss A. DuVerne, Pass—Miss M. E. Bruce, Junior theory—Class I—Miss G. Hill, 1; R. S. Soames, 2; Miss L. Cairns, 1; Class II—Miss F. R. Harrington, 1; Miss M. Davis, 2; Pass—Miss I. Keetch, 1.

### TENDERS FOR Pulpwood Concessions

Tenders will be received by the undersigned up to and including the eighth day of March next for the right to cut the pulpwood on a certain area in the District of Nipissing, north of the Townships of Holmes, Burr, Ely, Otis, Boston, etc., and immediately west of the Interprovincial boundary line.

Tenders should state the amount they are prepared to pay as bonus, in addition to such dues as may be fixed, from time to time, for the right to operate a pulp or paper mill on the territory. Successful tenderers will be required to erect mills on the territory, or at some other place approved by the Lieutenant-Governor-in-Council, and to manufacture the wood into pulp in the Province of Ontario.

Parties making tenders will be required to deposit with the Treasurer of Ontario, for ten per cent. of the amount of their tender, in the event of their not entering into agreement to carry out the conditions, etc. The highest or lowest tender not necessarily accepted.

For particulars as to description of territory, special requirements to be observed, apply to the undersigned.

F. COCHRANE, Minister of Lands, Forests and Mines, Toronto, Dec. 28, 1906.

No unauthorized publication of this notice will be paid for.

### Application to Parliament

NOTICE is hereby given that an application will be made on behalf of the Corporation of the Township of York to the Legislative Assembly of the Province of Ontario, at its next session, for the following purposes:

- To provide that the nomination for Reeve, Deputy Reeve and Councilmen for the Township of York be held on the 24th day of December in each year, unless that day is on Sunday, then to be held on the 22nd day of December, and that the election for said offices be held on the 1st day of January following, or if that day is Sunday, then on the following day.
- To provide that the provisions of Sections 27 and 28 (and the sub-sections thereof) of the Municipal Act, 1900, as amended by 6 Edward VII. Cap. 54, Sections 28 and 29, shall apply to the Township of York.
- To provide that the provisions of 4 Edward VII. Cap. 59, Section 5, sub-section 1, shall apply to the Township of York.
- To provide that the provisions of 4 Edward VII. Cap. 59, Section 5, sub-section 2, shall not apply to the Township of York.
- To authorize the Council of the said Township to abolish Statute Labor in any portion of the Municipality.
- To ratify and confirm the following by-law: By-law No. 2048, to fix the assessment of the J. E. Edwards & Sons, Limited.
- By-law No. 2053, to fix the assessment of general Leathers Goods, Limited.
- By-law No. 2054, to fix the assessment of the Toronto Bolt and Forging Company, Limited.
- To confirm the sales of land for arrears of taxes in the Township of York since the year 1900, and all deeds given in the said City of Toronto, and by the said Township since the said year for lands sold for arrears of taxes.

BULL & KYLES, Solicitors for York Township, Toronto, Dec. 12, 1907.

Further particulars may be obtained from Messrs. Denton, Dunn & Bonithe, Solicitors for the Administrators.

CHAS. M. HENDERSON & CO., Auctioneers.

### GERTRUDE GOES TO MERCER

Sentenced to 6 Months—Her Sister Pleads No Guilty.

Gertrude Harris, alias Grace Cameron, six months in the Mercer.

Maggie Harris, alias Ruth Wilson, remained until Wednesday.

This is the disposition of the two girls from the country, who became more or less famous thru the passing of forged cheques, and in other ways. The courtroom was crowded.

The girls had no counsel, and when asked whether she would be tried by the magistrate or a jury, Gertrude said she did not know. "Whichever is the best way, but I want to get it over at once," she said, and pleaded guilty to having forged and passed cheques on W. H. Knowlton, Dr. P. E. Doolittle, Dr. F. Winnett, John Pettigrew and C. G. Cowell for \$15 each. Maggie is supposed to have been mixed up in the Cowell and Pettigrew cheques, but claims she did not know what she was doing, as Gertrude gave her the cheques in envelopes. Her sister corroborated her.

It Gertrude is to be believed, she certainly had an extended acquaintance with men of the "upper ten" of all ages and professions. She had no hesitation in mentioning names, and recited them off quite freely when in conversation.

Elizabeth Jackson, keeper of the house where Gertrude Harris lived for a time, was arraigned on the charges of procuring and keeping a house of ill-fame. The first charge fell thru, but on the second she was sent to jail for thirty days without the option of a fine.

Under and by virtue of the power of sale contained in a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction, subject to reserve bid, by Messrs. C. Townsend & Co., at their auction room, No. 63 King-street East, Toronto, on Saturday, the 26th day of January, 1907, the following valuable freehold property: Part of Lot No. 20, on the north side of Collier-street, in the City of Toronto, more particularly described in the Registry Office for the eastern district of Toronto, and known as 80 Collier-street, Toronto.

Terms—Ten per cent. of the purchase money at the time of sale, balance in cash in fifteen days thereafter, with interest thereon at five and one-half per cent. per annum. For further particulars apply to

O. R. MACKLEM, Vendor's Solicitor, 15 Toronto-street, Toronto.

# WORTH ITS WEIGHT IN GOLD TO WEAK MEN

This is the way my patients write about Dr. McLaughlin's Electric Belt.

Read what ANGLUS McDONALD, No. 2 Buffalo St., Brantford, Ont., says:

DR. McLAUGHLIN: Dear Sir—I came to Brantford a little over two years ago crippled up with rheumatism so bad I had to be carried into the house, and was bedfast for six months. I went to Preston and took the baths, and received slight benefit from them. I then bought one of your Belts, and at that time considered my case hopeless. I have improved steadily since wearing it, and have been able to resume my business as builder and contractor. I have recommended your Belts to many as a sure cure for Rheumatism, even in its worst form, as it was about as bad as anyone could be with it when I got your Belt, which has, I am glad to say, completely cured me. The Rheumatism had affected my heart, and it has greatly improved me in that respect.

My way of restoring strength is different from all others. It is my own plan, and it is as simple as anything can be. I find a man suffering from stomach trouble, arising from a weakness of the organs of digestion and assimilation. Now what is the use of pouring drugs into that poor stomach? It does not want drugs to force an organ. It wants strength. The proof of this argument is substantiated by the following letter from MRS. BERTHA HAMILTON, Erin, Ont., who has worn my appliance:

DR. McLAUGHLIN: Dear Sir—Since calling at your office on June 29th, I must tell you that I am sure it was the Electric Belt that has helped me. I know that I could not have lived if I had not got it when I did, and I cannot be too thankful to you. After five years of agony that I endured, it is like having a new lease of life now. I am gaining two pounds of flesh a week, and am eating solid food. I have been in bed for a month nearly, and could not get up for three weeks. The people think my case very rare and wonderful. Many of them said I would never get again. I am certain that you cannot advertise your Electric Belts enough. The only trouble is that there are those that do not care for it. We do not think anything of the money we spent on the Belt. I have to repeat my story over and over again every day to different people, as every one wants to hear from myself about my cure. I never get better than I do now. Of course, my nerves began to quiet when I began to use the Belt, and, as you know, I wore it even when I was very weak. I have a host of grateful friends who wish me to thank you also for them, for they were all nearly sick about me. I would give you a window every day, with plenty of food about me. I cannot speak too highly of your Electric Belt, for it is a perfect fit and is doing just what you said it would do in so short a time. I never expected a cure so quickly. It was a surprise to me, and I can hardly believe it. I love you very well. You would hardly recognize me as the woman who called at your office on June 29. I think my doctor here is as delighted as you are, as anyone can be.

You know there is not an organ in the body which will not do its work well if it has the strength. You will never feel a pain or moment of distress unless some part of your body is weak. Remember that, and don't paralyze your poor stomach with poisons. My plan is to give strength to the part that is ailing. I do that, and the trouble is gone before you understand why.

My treatment is a success in any case, where strength is lacking, whether in the nerves, stomach, heart, kidneys, liver or any other part. My appliance gives a soothing, constant electric glow, which is taken by the body just as a sponge takes up water. It cures weakness in any case as well as any other form of pain. My cures prove the truth of my argument.

I don't think there is any case of weakness, failure of vitality or of any trouble resulting from the imperfect action of any organ of the body that I can't cure. Of course I do not cure all cases, but I do cure any case I undertake. I have such confidence in my treatment that

### I Will Cure You First, and You Can Pay Me After the Work Is Done.

All I ask is that you secure me while you are using it. I don't ask you to take any chances. I am willing to do that.

My strongest arguments are the letters from prominent people whom I have cured. Every man or woman who comes into my office gets a practical illustration of my method of cure, and goes away convinced that the claims I make for my ELECTRIC BELT ARE TRUE. After seeing original letters from the cured (letters I am permitted to exhibit) their doubts are dispelled. They know that I have not only proven that electricity is the substance of life and organic vitality, but I have perfected the best known appliance in the world for replenishing that force in the body when it is low.

My Electric Belt is the result of years of scientific study, coupled with experience and scientific skill.

My cures are simply marvellous. Take the case of WM. BOWERS, P. O. Box 106, Brantford, Ont.:

DR. McLAUGHLIN: Dear Sir—I purchased one of your strongest Belts for Nervous Debility about four years ago. I had been taking medicines when I first got sick, and they did me some good, but they did not give me the results I desired, and I did not want to get my system full of medicine, so I thought I would try one of your Belts. Before I commenced to wear it I would wake up in the night with bad spells with my heart, which caused a deadly feeling to come over me. I would get up and rub myself, but I had not had any of these spells for over two years, and I do not want any more. I believe the electricity cured me. I am feeling well generally, and I do not have to work on the farm every day.

I am an enthusiast, you say. Why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belt after the failure of the best physicians. I am enthusiastic because I know that I offer suffering humanity the surest cure for the least expenditure of money that is known to-day. I have gained my success by learning how to treat my patients and then curing them. I understand the action of the current on the human system. My years of experience have taught me how to apply electricity. I charge nothing for my knowledge, knowing that it helps me. My patients are my friends. They are advertising my business.

You can talk with the men and women who have been cured by my treatment, and that's worth considering. I might preach for years in my efforts to gather converts to my way of curing disease and nobody would pay any attention to my arguments, but when I tell you I have cured them, then I have given you proof, and you know that I do as I claim. And I want you to give in credit for what I prove. There's no hinger surer than the word of an honest man, and when such men as these admit that I have cured them, you know that I can cure you.

# Free Book.

Every man who admires the perfection of physical strength should read my beautifully illustrated book. It tells how strength is lost and how I restore it with my Electric Belt. I will send this book, closely sealed, free upon request. If you are not the man you should be, write to-day.

Put your name on this coupon and send it in.

DR. M. O. McLAUGHLIN, 112 Yonge Street, Toronto, Can.

**Port Hope Pale Ale**

Ale for a dollar a drop, couldn't be better and couldn't be purer than

**Port Hope Pale Ale**

Brewed in the old-time way from Highland Spring water (clear as clear air) and Kentish hops (finer hops don't grow) and whole Canadian malt (richest of all malts). Flavor that pleases the taste, quality that tones and enriches the blood.—Port Hope Pale Ale does people real good and agrees with anybody. Try it in pints or quarts—order from all reliable dealers.

**The Port Hope Brewing and Maltng Company**  
At  
Port Hope, Canada

Family trade supplied on receipt of telegraphic order to: J. Herbert, Park 920, 22 Robinson-street; E. H. H. King, Park 382, Dundas and Argyle-streets; B. McGrath, Park 308, 14 Arthur-street; D. J. Murphy, Main 1066, 60 Bathurst-street.

**TOBACCO FIRE; MILLION LOSS**

Crossing of Electric Light Wires Responsible for Dismalous Blaze.

Lancaster, Pa., Jan. 11.—A fire which started in the tobacco warehouse of E. E. Moss & Company here to-day caused a loss estimated at \$1,000,000.

A delay in turning in the alarm gave the fire a good start, and when the firemen arrived it was beyond their control. The structure was a four-story brick, which was filled with tobacco. The flames communicated to the Moss cigar factory adjoining, a five-story brick building, which was also destroyed. When the south wall of the cigar factory collapsed, the only truck of the fire department was buried in the debris, and several firemen were narrowly escaped. The loss on the warehouse is placed at \$300,000, and on the cigar factory at \$200,000. The warehouse of the American Cigar Company, north of the Moss buildings, caught fire, but was not greatly damaged. It is feared, however, that the company's loss on the contents will be heavy from water and smoke. East of the cigar factory five dwellings were ruined.

Across the street are several large tobacco warehouses, and in their rear the immense Pennsylvania freight sheds. The wind swept the flames against these warehouses. The fire department turned almost its entire attention to the warehouse of the Morris Levy, Kramer & Goldberg and John Brimmer, which were attacked by the flames. None of them caught fire, but the contents were damaged. With the Moss and American Cigar Company's loss the damage will run up to a million dollars.

The fire is ascribed to a crossing of electric light wires.

The Pennsylvania officials sent men to the roof of their freight station to use a hose. Among these were two men named Beam and Moyer, who fell thru a skylight and were badly injured. Both were taken to a hospital, where Beam died.

**AGRICULTURAL SOCIETIES.**

Annual Meeting for the District Societies Takes Place on the 16th.

The annual meeting of the district agricultural societies all over the province is fixed for Wednesday next, Jan. 16. This is the last meeting under the old constitution, and the procedure of the meeting will be governed by those rules. These will be very important ones, as the new regulations are to be discussed and understood, and arrangements completed for the proper handling of next year's work. There will be a full attendance of the members, in all probability.

**St. Paul's Church.**

Rev. Canon H. J. Cody, M.A., will preach at the morning and evening services in St. Paul's Church, East Bloor-street, to-morrow.

**ASSASSIN BEHEADED.**

Executed With Cheers for "the Revolution"—Not Yet Identified.

St. Petersburg, Jan. 11.—The assassin of Lieut.-Gen. Davlov, the military procurator of St. Petersburg, was executed early to-day at Lysyns, near Cronstadt.

He refused to take the sacrament and died unidentified and with a cheer for "the revolution" on his lips. The head of the assassin was removed and preserved at the headquarters of the political police for possible identification later.

**A BOMB EXPLODED.**

St. Petersburg, Jan. 11.—There was a mysterious explosion this morning at Vassily Island, in the court yard of a house in Little Prospect-street, a party believed to be that of St. Petersburg, where many English families reside. The bomb was most powerful, tearing a hole three feet deep in the ground and splintering a foot into the walls of adjoining houses, no one was injured.

**JURY CUTS CLAIMS.**

Give \$250 in Slender Suit and \$300 for Injuries.

In the civil assizes before Justice Britton, John Walton, a city street sweeper, sued J. A. Marshall, liveryman, for \$2000. The jury awarded him \$250, and the plaintiff was knocked down by one of Marshall's rigs, driven by a man named York. The defence claimed that the plaintiff was not a passenger, but a driver, and that he was not injured. The jury returned a verdict for \$250.

**GLAZED KID TO BE DEARER.**

Morocco Manufacturers in United States Decide on an Increase.

Philadelphia, Jan. 11.—Representing an industry whose yearly production is valued at more than \$5,000,000, the Morocco Manufacturers' National Association, in international meeting, has decided to advance prices of glazed kid. The advance is due to a rise in the price of raw material, which has having undergone an increase of from 15 to 20 per cent., and to increase in the wages of employees and the cost of chemicals entering into the manufacture of the kid.

**FREE UNTIL CURED**

Not One Penny in Advance or on Deposit

Forty years ago, when I first discarded drugs and devoted my whole attention to the study of Electricity, I could not afford to do business on a day's basis, but I have so perfected my Electric Appliances, and the knowledge I have gained from all these years of experience and research is so great, that I will now give my world-famed Dr. Sanden Electric Belt, with Electric Suspensory, to any man who suffers from Nervous Debility, Varicose, Losses, Rheumatism, Lamé Back, Stomach, Liver and Kidney Troubles, absolutely

**FREE UNTIL CURED**

I don't ask you to pay or deposit one cent until I convince you. Simply call or write for a Belt and wear it for two months, and if cured I pay the usual price—in many cases not over \$5.00. If not cured, return the Belt, and that ends the matter. If you prefer to pay cash, I give you the usual wholesale discount. Be sure you get the genuine. My great success has brought forth many imitators, and I must caution the public against their worthless, blistering imitations. Call to-day and take a Belt along, or write for one and my two valuable books on Electricity and its medical uses. Sent, sealed, free by mail.

**EASTERN DAIRYMEN CLOSE MEETINGS AT OTTAWA**

New Officers Are Elected—Mr. Derbyshire Is Honored—Supt. Putnam on Inspection.

Ottawa, Jan. 11.—(Special.)—The Eastern Ontario Dairymen's convention closed to-day after a three days' session. The eyes of the dairymen will turn now to the Western Association, which meets at London next week. The principal outcome of the meetings has been the new work outlined by Supt. Putnam for the better instruction of cheese and butter-makers, and for the better regulation of sanitary conditions. The total appropriation for the work is \$42,000, and it is proposed to charge each factory \$12 towards this work. The report also recommended that a fine be imposed on any factory owner or manager who knowingly allows milk from tainted sources to enter his factory.

G. H. Ecklin, sanitary inspector of Eastern Ontario, said that more attention would be paid next year to the condition of farmers' premises and wells.

Prof. Dean of the O. A. C. laid great stress on the necessity of being absolutely clean around the dairy. Our dairy products are becoming of increasing importance, and their utility as food was being recognized more than ever. In this connection, he denounced the use of tobacco by dairymen as being a dirty habit and as destroying the sense of taste so as to impair the judgment of the maker and seller. A. F. MacLaren, M. P. for North Perth, agreed with Prof. Dean that the time for cheap dairy products had passed. He expressed himself as heartily in accord with the movement to bring the western and eastern associations closer together.

Prof. Robertson of St. Anne's, in an able address, reviewed the growth of the dairy industry from 1874 to the present day. The exports in the former year were only four millions, while to-day they exceed thirty millions.

**Dargavel, President.**

In the election of officers, John R. Dargavel, M. L. A. for Leeds, was elected president; E. G. Murphy of Ottawa was re-elected secretary. The retiring president, Dr. Derbyshire of Brockville, was presented with a gold-headed cane, and elected honorary president for life. The following is the newly-elected board of directors: John H. Singleton, Smith's Falls; Neil Fraser, Vankeek Hill; Edward Kidd, North Gower; J. D. McPhail, Russell; John McGregor, Alexandria; Angus Grant, Moose Creek; C. F. Whittaker, North Williamsburg; Levi Patton, Brockville; C. W. Carson, Charlesville; John R. Dargavel, Elgin; D. Derbyshire, Brockville; T. A. Thompson, Almonte; Wm. Guthrie, Perth-road; Robert Metzler, Okeana; James Whittion, Wellman's Corners; T. B. Carlow, Warkworth; G. A. Gillespie, Peterboro; Henry Glenning, Manilla; G. G. Publow, Kingston; hon. director for Eastern Ontario, D. H. Young, Prince Edward; Morden Bird, Stirling, auditor.

**HOT CELLULOID EXPLODES ROOM IS FILLED WITH FIRE**

Twenty Persons Lose Their Lives at Strassburg, Germany—Others Terribly Scalded.

Strassburg, Germany, Jan. 11.—Twenty persons were killed to-day by the explosion of a vat of boiling celluloid in a book bindery at Galspolsheim owned by an English firm, Eoudert and Company.

The flaming liquid was thrown over rooms where many men and women were at work and caused such instantaneous ignition, everything with which it came in contact that all the exits were cut off.

Some of those who escaped from the burning rooms were terribly scalded.

**ASSASSIN BEHEADED.**

Executed With Cheers for "the Revolution"—Not Yet Identified.

St. Petersburg, Jan. 11.—The assassin of Lieut.-Gen. Davlov, the military procurator of St. Petersburg, was executed early to-day at Lysyns, near Cronstadt.

He refused to take the sacrament and died unidentified and with a cheer for "the revolution" on his lips. The head of the assassin was removed and preserved at the headquarters of the political police for possible identification later.

**SULTAN BACKED RAISULI?**

Quotations From Letter Which Gives Sidelight on Moroccan Affairs

London, Jan. 11.—In a despatch from Tangier, the correspondent of the Times says that some of Raisuli's official and private correspondence has been placed in his hands. Among these papers is Raisuli's appointment by the sultan to the post of governor after the Percidaris incident, letters from high officials at Fez asking for money and a private letter from the sultan, written two months ago, in which there occurs this phrase: "We hope to hear of your continued energy in the knowledge that you have our entire confidence and support."

**DANGEROUS.**

Tangier, Jan. 11.—The representative of the sultan has requested the dean of the diplomatic corps to notify the European residents of Tangier that it is dangerous for them to pass outside the town limits.

**St. Cyprian's V.P.S. and Vaccination**

An address was given on Thursday evening, 10th inst., in the schoolroom of St. Cyprian's Church by R. S. Weir, secretary-treasurer of the Anti-Vaccination League, to the Young People's Society, on compulsory vaccination. The speaker traced the history of vaccination, and showed that the evils resulting from the practice, isolation and non-vaccination, he contended, was the common sense and effective way to control smallpox, as was illustrated in the case of Leicester, Eng. Referring to Dr. Ogden's threat to reintroduce the compulsory vaccination of scholars for discussion at the board of education, he thought it a good move—the best thing imaginable to arouse public interest. A hearty vote of thanks was accorded the speaker at the close.

**OBITUARY.**

**INCREASE OR RESCIND.**

Alternative re Teachers' Salaries Facing Management Committee.

When the new management committee of the board of education meets on Monday afternoon, it will deal with recommendations from J. L. Hughes (1) to assign H. B. Wood to the temporary staff of Devon-street School, and D. M. Davidson temporarily to Jesse Ketchum, and (2) that the committee be authorized to supply free charge text books and supplies to the pupils for the next year.

Of the three newly-accepted teachers who were expected to assume their duties Jan. 1, only one came. Mr. Patterson of Cornwall has notified the inspector, however, that he will come Feb. 1.

Mr. Hughes, in his report, states that it will be necessary for the board to consider the proposition of increasing the minimum salaries paid to male teachers or rescind the regulations requiring them to hold first-class certificates.

**GLAZED KID TO BE DEARER.**

Morocco Manufacturers in United States Decide on an Increase.

Philadelphia, Jan. 11.—Representing an industry whose yearly production is valued at more than \$5,000,000, the Morocco Manufacturers' National Association, in international meeting, has decided to advance prices of glazed kid. The advance is due to a rise in the price of raw material, which has having undergone an increase of from 15 to 20 per cent., and to increase in the wages of employees and the cost of chemicals entering into the manufacture of the kid.

The association also decided to "stand pat" on the tariff, believing that any reduction that would affect the Morocco industry would be inimical to its interests. It has a membership of 115 firms, which control practically the entire output of glazed kid manufactured in the United States. Philadelphia leads the cities of the world in this industry. The world production of goatskins is 50,000,000, of which 50,000,000 are tanned here.

# COBALT---Corner is Reported to Be in Effect in Red Rock Shares---COBALT

## SHORTS IN RED ROCK ARE GETTING NERVOUS

Wealthy Cobalters, it is claimed, have given an option which may prove costly.

Red Rock mining shares were distinctly on a feature of the curb market to-day, the stock, on sales of about 2000 shares, running up to 120, closing there. In New York it sold at 125. The stock, so brokers report, is extremely scarce; in fact, the supply is almost nil. There is a story current that several big Cobalt men who held to bear the market in Red Rock have been caught heavy short, and, as they have soon to make good their contracts, the chances are that Red Rock will enjoy a substantial advance in the near future.

The brokers identified with the movement to-day--a Toronto Stock Exchange house and a Standard Stock Exchange house--have been associated with some exceptionally profitable deals--deals that have promoted a lusty following during the last six months.

Respectively of the rumored corner, and despite the unfavorable opinion expressed by some brokers for technical reasons, Red Rock is reported by Cobalt experts to be a rich property.

### RUMORS ARE CURRENT

That the Standard Oil Crowd are investing in Cobalt.

Cobalt, Jan. 11--(Special)--The great point of interest at the moment is the rumor that the Rockefeller and the Standard Oil interests are seeking investments here. The deal for the Drummond Mine is undoubtedly on, altho no particulars will be given out by the friends of the Drummond. The statement is made that a young Buffalo manufacturer, having a Canadian branch, is now in New York trying to close a deal for the Peterson Lake property with Rogers of the Standard Oil. The price for the Peterson property is said to be \$3,000,000.

**New York Curb Market.**  
Charles Head & Co. wired R. R. Pongard the following closing prices and transactions: Nipissing, 13 1/2 to 13 3/4, high 14, low 12 3/4; Silver Queen, 2 1/2 to 2 3/4, high 2 3/4, low 2 1/8; Foster, 2 1/2 to 2 3/4, high 2 3/4, low 2 1/8; Trethewey, 1 1/2 to 1 3/4, high 1 3/4, low 1 1/8; Green-Mechan, 1 1/2 to 1 3/4, high 1 3/4, low 1 1/8; McKinter, 2 1/2 to 2 3/4, high 2 3/4, low 2 1/8.

**Wills & Co.'s Weekly Bulletin.**  
Toronto, Jan. 12--The market this year, so far, has shown a buoyancy far beyond our expectations. The fact is, we believe, the rise in values has been entirely too rapid, and the profit-taking of the past few days, and the leveling of prices, have, no doubt, done the market considerable good. The investing public can and will absorb a certain amount of investment and speculative stocks, but when a concentrated effort is made to gorge them, they naturally refuse. The large number of shipping properties in the Cobalt camp of great earning power offers great opportunities for investors, and at the present selling prices a great many bargains are presented.

We would especially recommend the purchase of Nipissing, Watts, Trethewey, Silver Queen, Silver Leaf, Foster, King Edward and Colonial of the shippers; Amalgamated, Montreal, Peterson Lake and Lac Seul of the shippers. The shipping mines at the present selling price are a good purchase for investment or for speculation. The prospects are speculative, and good ones, but mines have to be prospects before they become shippers, and prospects should be encouraged.

We are preparing a special letter on Nipissing that we believe will be of great value and assistance to our friends and clients; in fact, we believe it will be sensational.

The Larder Lake section is beginning to attract considerable attention. Our advice to investors is to go slowly, not purchase shares in companies that have snow-staked claims. The late spring or early summer will be ample time to get into this section. We have had prospectors in this district for some time, and are, therefore, familiar with conditions. Up to date there are no developments justifying an investment in this camp.

The reduction test plant that we have erected in Toronto for concentrating of Cobalt ores is completed, and a mill run will commence about the 14th inst. This means a great deal for all mining properties in Canada, and especially the Cobalt camp. If it proves to be a success, the question of saving the total values of the wonderful Cobalt camp is solved, and at a very low cost.

Both our New York and Toronto offices are prepared to execute orders for Cobalt stocks, either on the Standard Stock Exchange of Toronto or the New York curb, and with our facilities we can guarantee the best possible service.

**Chair of Mineralogy.**  
Prof. A. I. Parson, a graduate of the University of New York, and for four years in the chair of mineralogy in the Minnesota University, has been appointed to a similar position in the University of Toronto.

**A Progressive Mining Co.**  
The Cobalt Union Mines have adopted a very progressive policy, and development work is being continued on their properties through the winter with good results. This is a development and exploration company, and has power to buy, sell and develop

promising mining claims through Northern Ontario. They own several good properties in Coleman, and are preparing for active exploration work in other districts. The head office of the above company is located in Aberdeen Chambers, Toronto.

**No Toronto Office.**  
The University Mines Company, prior to the absorption by John McMartin of Cobalt, had an office on Jordan-street, and stock in the concern could be transferred at this office. Brokers are now complaining that no office of the company exists in Toronto, and, as no transfer agents have been appointed, it is impossible to get stock certificates transferred. It is designated as absurd that a company with the reputation of the University cannot either maintain a transfer office or make arrangements whereby transfers can be made with alacrity.

## THE GREATEST MINING BOOM

of the world will commence early this spring in the country North of Cobalt. No Mineral taken from the earth excites the attention of the general public like that of Gold. It is the money metal of the world, and millions are struggling for it in all climes.

## The Greatest Gold Mine in the World

Since its discovery the entire country surrounding the mine has been located by prospectors, and active operations will commence early in the spring.

## 50,000 Tons of Ore

are certified by the engineer, Mr. T. Simard, to be in sight and he further certifies that it will average \$30.00 per ton. The ore is free milling and the gold is plainly visible in the quartz and only requires the completion of the mill now under construction by the Jencks Machinery Company of Sherbrooke, Que., to be made into Gold Bullion. Don't wait until the boom has reached its climax, but buy now when the price of the shares is within the reach of everyone.

## \$1.00 Per Share

And we reserve the right to advance this price without notice. Remit by registered letter, draft on Montreal, or certified cheque to

Announcement of Further Capital—Domestic Dull.

World Office.  
Friday Evening, Jan. 11.  
If any new feature was visible in the local market today it was a tightening in the general run of speculative stocks. Business was too dull, however, to make any broad movement in the market. The demand for the exchange was unusually limited and as yesterday, many of the broken orders were being made for making quotations. The strong showing made in the annual statement of the Dominion Bank brought a tightening in the offerings of these shares and advances in the bids failed to produce liquidation. C.B.H. was the feature of the market today and sales were forced from local holders because of the slump at New York. The break in C.P.R. is attributed to the recent heavy decline in the Hill stocks and "soo." The decline in the common stock of this company has been largely held among a certain speculative class here and not nearly so strong as it was a few days ago. The common in Nipissing has fallen off considerably on the recession and only 20 shares were dealt in on the market today. The market closed dull and heavy.

Price and Stoppans report the close on the following at New York: Mackay common, 73 bid, 75 asked; Mackay preferred, 60 bid, 70 asked; Granby, 13 bid, 14 asked; Lake Superior, 15 bid, 16 asked; Nipissing, 15 bid, 15 asked.

London settlement will begin Monday. Eight demand for stocks in loan crowd. United Metals Selling company now selling copper at 24 1/2.

Northern Railway net earnings \$1,000,000 short of late President Spencer's estimate last February.

Inter-state commerce commission investigation of Hamilton lines closed at Chicago yesterday; will resume in Seattle and will not meet in New York for several weeks.

Issue of \$18,000,000 bonds by Seaboard Air Line finished yesterday.

Stockholders of Pennsylvania Railroad met March 12 to vote on lease of 1,000,000 additional capital stock and a bond issue of like amount.

For several days it has been rumored that the Atchafalaya situation by the Toronto Pacific Railroad Company, had been referred to the Pennsylvania Railroad Co. Today it is rumored that the Pennsylvania Railroad Co. has agreed to purchase the Toronto Pacific Railroad Co. for \$10,000,000.

Joseph says: The proposed \$100,000,000 asked by Pennsylvania is not a harsh argument. The management deems it necessary to prepare and provide for emergency. Much of the money will be used to buy back the stock of the company.

The report of the Mackay Companies for the year ending Feb. 1, 1907, is expected to reveal a large increase in earnings over the preceding fiscal year. To pay 4 per cent on the preferred stock and a dividend amount on the common stock requires \$3,281,000. The income shows such a pronounced gain over last year as to make any question of time when common shareholders will receive a dividend.

The recent advance in the stocks in outside market indicates much. The report of the company covering the period Feb. 28, 1905, to Feb. 1, 1906, showed an income from investment in other companies of \$2,715,505, as compared with \$1,483,000 in the period Dec. 10, 1904, to Feb. 23, 1905. The annual report of the Mackay Companies are rather voluminous. For example, the report of the Commercial Cable Co., which holds a vast surplus, is not given. The increase in the earnings of the establishment of new cables, and it was not so great while it laid its first cable to the Atlantic coast. The Mackay Companies have outstanding \$1,500,000 of common stock, and \$40,000,000 preferred stock—Wall Street Journal.

New York, Jan. 11.—Owing to a decision having been handed down by the Minnesota courts in the action by which the attorney general of that state would enjoin the Great Northern Railway Company from issuing its proposed \$40,000,000 of new stock, the company is obliged again to propose closing its books to the public. The books were to have been closed yesterday, but they will now be kept open until Jan. 15. The date of the first payment on the new stock has been advanced from Jan. 14 to Jan. 15. The stock exchange issued notice yesterday that the

hour, there was active trading at declines of from one to four points, the latter in Pennsylvania, which bore the brunt of the selling movement. A considerable amount of liquidation was in evidence on the decline, but there was also a good proportion of short selling, and while there were no vigorous attempts to check the selling movement, a considerable amount of good buying was in evidence, which helped to steady the tone by the end of the first half hour. The lowest prices were established during that time, after which an irregular upward movement developed. It was estimated that the new Pennsylvania issue of \$50,000,000 of stock to be held against the conversion of the \$100,000,000 bonds, and that \$50,000,000 of the latter is to be used to return \$50,000,000 of outstanding notes. The monetary situation also developed marked improvement, as reflected in lower call rates and freer currency of time, with a gain of \$11,000,000 in cash by the banks on the week's currency movement. There was a renewal of bear pressure shortly after the delivery hour, but it failed to induce any liquidation and prices recovered quickly when the pressure ceased. The closing was firm, with a rally in prices.

**\$20.00 MAY EARN \$1000.00**  
**QUICK PROFIT**  
 \$20.00 invested now may result in earning \$1000.00. This may seem incredible, but we can convince you. The Lead and Zinc industry is assuming proportions that make it one of the most profitable enterprises in the world. We represent a Lead and Zinc company of Lethbridge, Alberta, the Zinc metropolis of the world. The company has a positively proven developed mine, and a prospect, remainder. Shares are work, drifting down on their 30-cent price. It is a great opportunity. It has merit. We are offering a limited number of shares, just 10 cents a share (par value \$1.00), fully paid and non-assessable. And the price of these shares will surely advance in a short time, thus assuring almost immediate profit through increasing value. The company plans to construct mills in its own country, centralizing the immense bodies of ore now in sight. \$20.00 will buy 200 shares now. When mills are running and dividends begin to be paid, 200 shares should be worth \$1000.00. Not less than 100 shares will be sold at 10 cents a share, the installment subscriptions will be accepted on one-half down and the balance in four equal monthly payments.

National Bank references as to officers and directors. Positive proof of value of property given in report of State Mine Inspector, under three governors, as well as other experts.

Write us for full particulars, including maps, etc. always, mining engineers' reports, independent's report, references, etc.

**A PROSPEROUS REPORT.**  
 The Toronto Land and Investment Corporation has had a year of marked prosperity. The annual general meeting of the shareholders was held on the 8th January instant. A most favorable report of the year's operations and of the condition of the company was presented. The report was unanimously adopted by the shareholders, who recorded their thanks to the president, G. R. R. Cockburn, vice president, directors, Hon. George A. Cox, Donald MacKay, J. Gordon Jones, Robert Kilgour and John Catto.

The directors were re-elected as follows: Mr. George R. R. Cockburn, president; Mr. Frederick Wylie, vice president; directors, Hon. George A. Cox, Donald MacKay, J. Gordon Jones, Robert Kilgour and John Catto.

The following were the last quotations at the board of trade call board. All quotations, except where specified, are for outside points.
