FILTRATION SURE BYLAW

Corporation Counsel Gives Opinion That Money Need Not Add to Civic Debt.

Whatever may be the fate of the trunk sewer and other bylaws, it is practically certain that a bylaw to provide \$750,000 for a water filtration plant will be submitted to the ratepayers on June 27 next. The obstacle which has been in the way in the warning of City Treasurer Coady, that the city's borrowing power was almost exhausted, is now removed by Corporation Counsel Fullerton, whose opinion that the amount required can be appropriated under the waterworks bylaw, without adding one cent to the general civic debt. This cheering advice was given Controller Harrison on his return with Dr. Sheard yesterday from inspection of filtration plants in several United States cities. Waterworks Engineer Fellows will reach Toronto this morning, he having finished up the trip by a visit to Pittsburgh, where a plant is under construction.

Million Cut Off.

Controller Harrison confirms the mayor's statement that Toronto's plant will cost about \$1,000,000 less than the works department estimate of \$1,750,000. This opinion, first received at a conference with the engineers of New York, foremost expert in America on water filtration, was confirmed by later visits to Washington and Philadelphia. The original estimate was based upon the amount of water to be filtered daily, as compared with the consumption in other cities. It is possible that water is not taken of the fact that Toronto's water is not nearly so turbid and muddy, so that water can be filtered here at a much faster rate than was estimated, and less than half the acreage of filtration beds will be needed. Mr. Harrison's opinion was based upon Dr. Sheard's report of the bacteriological condition of the water, which, while comparatively pure, was not free from danger and made filtration advisable.

In Albany and Philadelphia, "preliminary" filters, which take out a good deal of the mud, are being installed. In Toronto this initial process is not required, with consequently a larger saving. In Washington water is brought in a nine foot conduit 14 miles from Great Falls.

Filtration Necessary.

The controller's deputation was entirely convinced that Toronto should have water filtration. Locally there are many advantages. It is possible that island sand may be fit for use, which will be an important saving. The filtration beds will, it is stated, be rather an improvement than an objectionable feature on the island.

In all the cities visited the city authorities were much pleased with the investigation. Dr. Abbott, chief of the bureau of health, Philadelphia, where filtration only provides for a portion of the water supply, said there was a noticeable reduction in typhoid in the sections served as compared with the other portions.

The investigation was a thorough one and a comprehensive report will be presented to the board of control and sent out at a special session.

"We will ask that a recommendation be sent on to council for the submitting of a bylaw on June 27," said the controller.

CARDINAL WANTS HOME RULE

Hopes Irish in America Will Be Able to Influence It.

MONTREAL, May 17.—(Special.)—Cardinal Logue, Archbishop of Armagh and Primate of all Ireland, left this evening for Quebec, after having spent a very busy day. He was accompanied by Bishop Breynon of Chloves and Mgr. Hayes, chancellor of New York.

The cardinal talked politics in his sermon this morning at St. Patrick's Church. He said he did not see why liberty should be denied Ireland when it has been so freely accorded Canada. "They had been promised freedom many times, he added, but as often as the eyes were tempted as often the prize turned to ashes as soon as it reached the lips. He said that the greater Ireland which he had come to know in the United States and Canada would come to the assistance of the old land, for if they did he knew that the people would not be less loyal to the crown.

At St. Patrick's Convent this afternoon his eminence, speaking to the children, intimated that it was well that they should be Irish before being Canadian.

Mr. Hayes of New York spoke in high terms of Canadian educational institutions, and said that the United States had yet a good deal to learn from Canada.

LOOKS BRIGHT FOR TAFT

Will Probably Be Nominated on the First Ballot.

COLUMBUS, O., May 17.—Arthur I. Vorys, manager of the W. H. Taft canvass for presidential nomination, tonight gave out a signed statement as follows:

"With the close of the campaign for delegates to the Republican National convention, the nomination of Secretary Taft, on the first ballot of the convention, is a foregone conclusion. Of the 899 delegates who will sit in the convention, 563 have been chosen under positive instructions to vote for Taft, or under resolutions of endorsement or preference that were the equivalent of instructions. Two hundred and twenty-five delegates have been instructed to vote for other candidates. One hundred and fifty-two delegates are uncommitted. Of these 122, more than 100 are known supporters of Secretary Taft.

The Ottawa Situation

OTTAWA, May 17.—(Special.)—Is there to be a deadlock and a dissolution? A few days will tell: if Sir Wilfrid decides on a dissolution of parliament and a quick appeal to the country he must reach that decision in a day or two, because the only available week for an election under such circumstances is the last week in June, and even that is now almost too near. The election must needs be quick in order to get supplies. But Sir Wilfrid may decide on fighting the supplies thru. If he does, the chances are that he will only get them in dribbles, and every week the opposition will make a situation for him: to-day it is on the Manitoba lists, to-morrow it will be on the marine and fisheries department, next day on some scandal or other, or for explanations in regard to the transcontinental railway, etc., etc. So that it is likely to be a protracted fight, with the government sometimes making a little headway, sometimes making a rear guard fight to cover a slow retreat. The opposition have learned to fight.

Is either side ready for a quick appeal to the country? They must have funds, they must have candidates, they must have a program and they must have organization. Neither seems to be in the best of shape. A few days more will show what is likely to happen.

HOP WORKERS IN SWARMS MAKE DEMONSTRATION

Great Army of Men and Women Gather in Trafalgar Square— Favor Import Duty.

LONDON, May 17.—A great army of men and women interested in the hop industry of England, estimated at a number upwards of 50,000, held a demonstration in Trafalgar Square Saturday afternoon in favor of imposing a duty of 40 on every hundredweight of hops imported into the country.

Speakers in the demonstration included persons from Kent, Sussex, Hampshire, Worcester and Lancashire, the great hop-growing counties, while the east end of London, whence emanated almost all the hop pickers, furnished a contingent perhaps twice as large as the growers and laborers from the provinces.

After being marshalled on the Victoria Embankment, the demonstrators, with banners flying and bands playing, marched to the square, where English grievances always have been accustomed to assemble.

Speakers from half a dozen parliaments rehashed the multitude on the ruin of the hop industry by the dumping of American hops into England, and resolutions were adopted by acclamation, calling for an immediate appeal to the government not to delay in helping to re-establish the industry, and placing a duty on all imported hops.

ROYAL NAVY LOOKS INTO CANADIAN OIL FIELDS

Fuel Oil a Success and a Permanent Supply Has Become a Necessity.

NEW YORK, May 17.—On the steamship St. Louis, which arrived from Southampton to-day, were Major J. D. D. Graham, formerly of the British army, and J. D. Henry, an English oil expert, who are going to Canada to look over the Dominion oilfields, to ascertain their capability of furnishing fuel oil for the British navy.

"The British admiralty," said Major Graham, "has used a great deal of American oil from the Texas fields, transplanting it in its own tank steamers and its marine experts, believing that oil is to be the naval fuel of the future, are determined to locate every supply which can be found in its own colonies. Its idea for seeking for our own supplies under our own control is the possibility that if war were to break out, oil might be declared contraband of war, and Great Britain's navy, without a supply of the new fuel controlled at home, would be in a serious plight."

KILLED BY LIGHTNING

Babe is Victim of a Bolt Near Harrow.

HARROW, Ont., May 17.—(Special.)—In the electrical storm which passed over this section early Saturday morning a bolt struck the residence of W. H. Hernaman and entered the room in which he, his wife and babe were asleep. The infant was killed and Mrs. Hernaman very seriously shocked.

IN DEBILITATED THRU RELIGION

Young Man Wanders on to Jarvis-street. Fresh from Bathroom and Startles Churchgoers.

Many pedestrians of both sexes were shocked while on their way to church yesterday morning to see a tall young man, about 28 years old, without a stitch of clothing upon him, walking up Jarvis-street.

He was "religious crazy," and was on his way to Jarvis Street Baptist Church, where he had for two days, on Thursday and Friday, attended inspiring meetings as a delegate to the Baptist Laymen's Missionary Movement convention of Ontario and Quebec.

Eddie Brennan and another man hustled P.C. Rosser to the scene in an automobile and the nonconventional person was taken to the Boulevard Hotel and detained until his friends at 219 Jarvis-street came with an outfit of clothing. The street around the hotel became crowded and the story was circulated that a Doukhobor had hit the city.

He was transported to St. Michael's Hospital in the patrol wagon.

His name is Donald McLaughlin and he came to the Baptist convention as delegate from Walter's Falls, near Strathaven, Ont.

Delirious at Hospital.

When arrested and while in the hotel and at the hospital he did not appear to realize his position, and kept uttering fervent prayers, committing himself to Heaven for guidance and aid in his keeping. When the policeman asked him who he was he said he was the son of God, and questioned as to whence he came, he answered, "from the devil."

He would make no move to carry out the officer's instructions and seemed dazed, but he would sit down or stand up if directed by the touch of a hand.

At the hospital he became quite obstreperous, requiring the joint efforts of the janitor and porter all afternoon to hold him down. He would shout the Lord's prayer over and over again in his loudest tones and interspersed his declamations with extemporaneous prayers and by singing "At the Cross."

The hospital authorities requested the police to remove him somewhere else, but Dr. Sylvester would not hear of it, as he was in a terrible high fever. His friends communicated with his parents, who started for Toronto from Owen Sound last night.

At the conclusion of the convention he had started for home, leaving the rooming house on Jarvis-street, posing a ticket to the Central M.C.A., from whence he was conducted back to Jarvis-street. It was then found that he had lost both his money and the ticket. It is believed that the men who threw them to the winds, believing that he had no more use for them.

His aunt, who lives at the Jarvis-street house, saw little to be alarmed at, as he would not eat and said he had eaten nothing the day before. In the morning he started to take a bath and it was while in the operation that he calmly walked out by the front door and proceeded up the street.

AGENT LET 'EM THRU

Port Arthur Attempt to Keep Out Undesirables is Foiled.

PORT ARTHUR, May 17.—(Special.)—The steamer Moore of the Booth line which arrived yesterday was met by Mayor Carrick, Immigration Agent Burroughs and a couple of policemen to enforce the regulations regarding immigration in an endeavor to stop the influx of unemployed from across the line, which has been very heavy lately. Fifty foreigners examined, not having tickets for return of birth to a destination in Canada, or 25 cash, were not allowed to land. On the understanding that the men would be returned to Duluth, Mayor Carrick left the dock, but in about an hour after the men were allowed to leave the boat.

It is alleged they did so by permission of Immigration Agent Burroughs, who now states in explanation that they held thru tickets and also the money, which when first called upon they did not show fearing it would be taken from them.

Mayor Carrick and other citizens are indignant and intend to report the matter fully to the department of the interior at Ottawa.

NO OPEN DOOR TO U. S.

Special Board of Enquiry to Be Stationed at Ogdensburg.

OGDENBURG, N.Y., May 17.—Owing to the increased number of foreigners seeking admission here, the immigration department has ordered a board of special inquiry stationed at Ogdensburg.

At present all cases are disposed of by the American board at Montreal. There were 150 prospective immigrants rejected during the past month, because it appeared to the immigration inspectors that they were likely immediately to become public charges.

Immigration Inspector Conaty of the local station to-day received a warrant for deportation for Peter Nament, a Rumanian, who is in the county house at Watertown suffering from tuberculosis. Nament, who is said to have had the disease at the time of entry, will be deported by the Cunard line, May 24.

AREA UNDER CROP IN THE NORTHWEST ONE FOURTH LARGER

Harvest is Due to Begin August 10 and Every Prospect is of the Pleasantest.

WINNIPEG, May 17.—(Special.)—The reports from all the west are still favorable as regards the crops: the seed got in well, it sprouted well, in places is over six inches high, and warm rains in almost the needed quantity are recorded at nearly all districts. Furthermore the area under crop is believed to be one-fourth larger than ever before, and what is even more significant, the methods of plowing and seeding have been greatly improved in other words, the experienced settlers from the United States wheat belt that have come into Canada have set a new pace in the way of breaking land and planting a crop on time.

The best judges of the present conditions foretell a great wheat harvest beginning on August 10, just 12 weeks from to-day. But the banks and businessmen will have a line on the crops and their policy in regard to breaking land and planting a crop in the next few weeks, and if they see this big crop in sight—only eight weeks away—they will let out money and will place orders for goods in a surprising way and start a new reign of confidence all over the Dominion.

ADMIRAL KINGSMILL NOW PROMOTION ANNOUNCED

Canadian in the King's Navee Receives Further Distinction— Becomes Rear-Admiral.

Capt. Chas. E. Kingsmill, R.N., has been promoted to the rank of rear admiral. A cable message to that effect was received by his uncle, Nicol Kingsmill, on Saturday.

Admiral Kingsmill was born in Guelph 53 years ago. He is the son of the late Judge Kingsmill, who some years before his death retired from the bench and made his home in Toronto.

Educated at Upper Canada College, he entered the navy when 14 years of age. He served on board the late Queen Victoria's yacht and saw active service in the Egyptian war. He was commander of H.M.S. Bienheim, on which Hon. Sir John Thompson's remains were brought to Halifax.

When H.M.S. Dominion was put into commission, then Commander Kingsmill brought the vessel to Quebec to receive the gift of silver plate subscribed for by Canadian citizens.

His promotion should be received with general satisfaction by Canadians.

GERMAN GOLD IMPORTS.

BERLIN, May 17.—News that \$3,000,000 in gold has been engaged for import caused some surprise here because the price of exchange makes it impossible for Berlin bankers to import American gold at a profit. It is believed that the German Imperial Bank will soon reduce the discount rate, especially if the Bank of England makes a reduction.

Suburban Service is In Demand

Special Civic Committee Will Meet To-Day to Take Part in the Agitation.

In its demand for a suburban service the World finds itself backed up by the whole-souled and united support of thousands of its readers.

The natural reticence which impels so many men to stand in the background when great reforms are in process of evolution has in this case been thrown aside. The people are in earnest in this demand upon the railways running from this city. The material welfare and comfort of so many depends on the outcome of the fight which the World has taken up on their behalf, that it is not surprising the support has been so cordial and spontaneous.

That the people want this service, need it and have the right to demand it, no one has disputed. The railways know—it is said their officials have admitted—that they have not a leg to stand on when this case is taken before the railway commission. The people, who have subsidized these companies with millions of dollars, vast areas of public lands, and friendly legislation have rights and are standing on their rights, when they demand service and accommodation in return.

The special committee of the city council for suburban service has been called to meet the City Hall at 2:30 sharp this afternoon. W. F. Maclean has been requested to attend this meeting.

In the meantime arrangements are being made for an appointment with the railway commission during the session here this week.

KING MANUEL LOVES A LADY IN WAITING SPOILS STATE PLANS

Early Attachment Still Holds With Him, and the Girl Will Be Sent Away for a Holiday.

LISBON, May 17.—The Mundo prints a romantic story about King Manuel's attachment for the young daughter of a lady-in-waiting to Queen Amelie, which threatens to disrupt the matrimonial plans which are being laid for him. King Carlos and Queen Amelie were fully aware of the fondness of Manuel, when a prince, for the girl, who is connected with the highest Portuguese nobility, but they considered it simply a childish fancy.

Since Prince Manuel's unexpected accession to the throne, a suitable alliance with a European royal house is regarded as a necessity of state. Queen Amelie and the Duke of Oporto have been casting about to find an available princess, both favoring one of British extraction because of the close relations between the countries.

A few days ago they were openly canvassing the matter in the king's presence, when, to their great surprise, he suddenly announced as his available choice his early love, and proclaimed his determination to marry her or nobody.

As a consequence the lady-in-waiting and her daughter will be asked to go abroad, in the hope that a long separation will cure the king of his boyhood's love.

Nearly 1000 residents of Oporto, representing all shades of monarchists, arrived here to-day by special train. They marched in procession to the palace and presented homage to King Manuel.

Montreal Hears a Rumor That a Consolidation is in the Realms of Possibility.

MONTREAL, May 17.—(Special.)—A story is current here that a consolidation of the Canadian Northern with either the Canadian Pacific or the Grand Trunk Pacific is now under way in London; that both companies are willing to take over the Mackenzie system.

It is further believed that Sir Wilfrid Laurier, at Ottawa, would like to see some merger take place and that he would assist it in every way in his power.

REV. DR. HOSSACK LEAVES HIS PULPIT

Resigns from Deer Park Church That He May Be Free to Campaign Against the Bar.

Rev. D. C. Hossack has followed up his acceptance of the nomination as Liberal candidate in North Toronto by resigning his pastorate in Deer Park Presbyterian Church. The resignation was read at the close of the service yesterday evening and caused no little sensation. The grounds of the resignation are given as Mr. Hossack's realization of personal responsibility in the temperance question. He cannot ignore the call to abolish the bar, with the resultant evils arising from the treating system. The addition of the bar does not involve prohibition, and is sure to crystallize the temperance sentiment of the city into practical effort.

The Resignation.

Mr. Hossack's letter is addressed to W. J. Thomson, clerk of the church session:

Dear Mr. Thomson: I hereby tender my resignation as minister of Deer Park Presbyterian Church. I do this with great regret, as my relations with the congregation have been most pleasant. It is a satisfaction that the congregation is not only harmonious but strong and vigorous. On account of the character of the district, it is clear that the congregation will seek to be one of the largest and most influential not only in this city, but in the whole country.

I am resigning that I may deal in public and practical way with a great moral question which has been discussed academically, but without that result which has been desired. I refer to the abolition of the bar. The academic question of personal liability is not involved, as I am not referring to prohibition. The bar as an institution of our province, in the opinion of very many, is a social blight, a source of immorality and an economic burden. It justifies its own banishment. The mischief which springs from it is appeal to all men to abolish it.

As it is a provincial institution, every citizen is personally responsible. This can be discharged by responsibility by silence. Those who now suffer by this institution are calling for help, and a minister of the gospel is calling for help. I, for one, am not prepared to decline that call. I hope and believe the church will prosper abundantly. It is a great satisfaction to my family and myself to know that we are to remain here where we have so many friends.

With kind regards, I remain, sincerely yours,
D. C. Hossack.

Toronto, May 16, 1906.

It is apparent that Mr. Hossack means abolition of the bar to be one of the most important planks in his platform, if, indeed, it does not take precedence. In this respect he is adopting a "traditional" Liberal attitude, which has been neglected by the party to its own loss.

Recalls the "Rags Letter."

The power of a minister, such as that which underlies the popular opposition to the liquor traffic, is one which politicians, considering merely with an immediate apparatus exact on votes, frequently lose sight of, and the hosts of families which have suffered through the bar and its belongings will appreciate the opportunity Mr. Hossack has made.

Mr. Hossack is not striking a new note in this respect. In his celebrated letter to Hon. G. W. Ross, on Dec. 19, 1904, Mr. Hossack devoted about a fourth of that four-column document to the temperance question.

"The blame for broken pledges in regard to temperance legislation, which cannot rest upon your colleagues, for you alone must answer that charge."

Many of the severity of the indictment of Mr. Ross's conduct was in connection with his attitude on the temperance question, and especially with regard to the demand for the closing of the bars.

"When the temperance people demanded the closing of the bars there were more delays and excuses," Mr. Hossack wrote. "At last, it was announced that you had not sufficient support in the legislature to carry an advanced temperance measure. It was said that the cabinet was divided upon the question. * * * Not long ago the sincere advocates of the movement to close the bars were cheered by the news that you would reorganize your cabinet. Their time had come. You had personally made such a strenuous fight against your reluctant colleagues that now, when you know the mind of every one of them, you would bring into the government the men who would give you the necessary support upon this great moral question. You waited a long time; you made a deliberate selection. Mr. A. G. MacKay and Mr. George P. Graham were chosen. The great convention met, the temperance question was introduced. Mr. A. G. MacKay and Mr. George P. Graham wrecked the temperance resolution while you looked on, and a word for it to be defeated."

In Pastorate Six Years.

Rev. Mr. Hossack has been about six years in Deer Park, previous to which he held charges at Orangeville and Parkdale. He has also practised law. He has been an outstanding figure since the publication of his letter to Mr. Ross, and his more recent epistle to Premier Whitney, while in effect, was an independent pronouncement.

STREET RAILWAY FACTIONS AGREE TO NEW SCHEDULE

Young Men Can Have Nights Off if the Ontario Board Rules Favorably.

HAMILTON, May 17.—(Special).—The two factions of the street railway men had a meeting Saturday evening and came to an agreement under which they all go back into one fold. The arrangement is that the younger men are to have a week of nights off out of every three weeks. This will have to be sanctioned by the Ontario railway municipal board before it becomes effective as the arrangement under which the men work now gives the day work to the older men, and was patched up by the board.

LET THEM TAKE

The Toronto World

A Morning Newspaper Published Every Day in the Year. MAIN OFFICE, 83 YONGE STREET, TORONTO.

THE SITUATION AT OTTAWA.

There is a situation at Ottawa that may end in a political crisis. It turns for the moment on the preparation of the voters' lists to be used in Manitoba and British Columbia in the coming federal election.

Mr. Aylesworth, as minister of justice, has now before the house an election bill which, among other things, provides for the preparation of voters' lists for these two provinces by officers to be appointed by the Ottawa (Liberal) Government.

The Liberals at Ottawa want to make the lists to be used in Manitoba; the Conservatives of Manitoba say they will not run a candidate in that province if they have to go up against lists made by the Liberals at Ottawa.

The Conservatives of Manitoba have made the existing lists and the Liberals at Ottawa declare they are most unfair—that their candidates will have no show under these lists.

In other words, the fight is as to which party is to make the lists—each party declaring it distrusts the other. There seems to be some force in the contentions of both sides—each fears the other and the other's lists.

Is there no honorable way out of the situation? Is it not possible to have lists made by a non-partisan board that will be satisfactory to both sides and fair to both sides.

The proposition has only to be stated to find the solution. ELECT INDEPENDENTS. Independent men with convictions and the courage of their convictions are needed in parliament and the legislatures at this time.

Not necessarily that they should have no party proclivities or affinities, but that they should be strong enough and brave enough to sacrifice these when the public interest demands it.

There are politicians and newspapers to-day—plenty of them unfortunately—who know no other aim and object than to keep a certain set of ministers in office, irrespective of what their policy and the character of their administration may be.

Just at present the Liberal party hacks are up against a difficult and disturbing proposition. When the federal and the Ontario governments were of the same political complexion it was easy to maintain the appearance of consistency—it is impossible now that they differ in political color.

The extraordinary and ludicrous spectacle is offered the people of Ontario day after day of the provincial government being bitterly abused because it is alleged to have done things which have been the common practice of the federal administration.

What possible respect can intelligent electors have for criticisms so flagrantly dishonest? An independent and conscientious public man has principles and when he becomes a representative of the people either at Ottawa or at Toronto he governs himself by his principles.

It is a believer in the policy of public ownership of public franchises and of their operation in the straight interest of the people and if he has pledged himself to support that policy he will not be coerced or seduced into betraying it for any partisan consideration.

THE WORLD AND THE BOYS

The Toronto World is the only newspaper in Toronto that recognizes the Newsboys' Union. The Toronto World is the only union newsboy's paper in Toronto.

Never in the history of the World was there a bigger hustling of Sunday Worlds by the newsboys than on Saturday night. The World and The Boys have got together, and everybody is happy.

Further, The World proposes, in the near future, to submit a few facts to the public, and to suggest a line of co-operation that will make for better conditions of life for the bright, hard-working newsboy, who is The Man In The Street in the making.

Give the glad hand to the newsies. Their resolution to stand together and enable it to be carried out in its entirety. Preston has the honor of forwarding Toronto in executing the formal contract for the supply of Niagara electricity, and will get 600 horsepower at the cost of \$23 per horsepower per annum.

CHICAGO, May 17.—In its weekly bulletin the health department declares that three wholesome meals, a bath, and a doctor if needed, can be had for nine cents a day. Even this modest allowance, it is asserted may cause some to be overtaken.

These meals can be provided so cheaply, are not for invalids or dyspeptics. They are for the men who toil with the pick and the shovel, and are calculated to produce the greatest working energy for the least cash outlay.

No one is to be starved thru the new nine-cent meal, Dr. Evans' specialists say, and then they supply proof which ought to be sufficient. They point out that every individual is to have 3200 gram calories per day. All he really needs, if he has no job, is 1820.

The figures of the health department refer to lodging houses and take no account of the rent to be paid. They are compiled after a careful study of the applicants who were housed during the first three months of the year.

The observations proved to the satisfaction of Dr. Evans that a lodging house could be kept clean, well heated and ventilated, not overcrowded and provide bathing facilities and a good profit at the same time. They point out that every individual is to have 3200 gram calories per day.

Some doubt about the value of food properties. The results were tabulated as a guide for the new nine-cent menu which was recommended. After making numerous tests of the strength-giving value of different kinds of food the health department hit upon the following: Breakfast—Bread; butter, sugar, coffee, molasses.

Dinner—Bread, meat stew with vegetables, coffee, sugar. Supper—Bread, coffee, sugar, mutton soup thickened with vegetables. Some doubt about the value of food properties. The results were tabulated as a guide for the new nine-cent menu which was recommended.

Promissory notes amounting to \$1300.00 are the basis of an action brought by Heron & Co. against Arthur J. M. Downer, carrying on business as the Downer Pattern Works, has begun proceedings against James A. Doige to recover \$428 alleged to be due for goods sold, money lent and for rent.

QUEBEC'S HUGE GRAND STAND Fifteen Thousand Persons Can Be Seated at Pageant Program. QUEBEC, May 17.—A force of 100 men is now busily at work on the Plains of Abraham rushing the construction of the grand stand which is to allow Quebec and her visitors to view the pageants. The site indicates the exact spot where the various historic views are to be presented.

The stand being erected some 300 yards to the west of Wolfe's monument and about 100 yards from the edge of the cliff facing the river. It is shaped like two consecutive sides of an octagonal figure. Directly in front of this, on the grassward, the pageants will take place daily at 5 o'clock in the afternoon.

Fifteen thousand persons will find seats at stands of this kind. The stand is 900 feet in length, 130 in depth, and the height at the back will be 35 feet. Over the central entry will be built the Royal Box for the accommodation of His Royal Highness the Prince of Wales, his excellency the governor-general, and distinguished visitors. It will be in the form of a kiosk, and will be surrounded by two small towers.

Construction work has also been started on a triumphal arch to be erected at the crossing of St. Joseph-street and Boulevard Langelier, where the grand parade of the final pageant will pass. It is planned to depict several scenes of Canadian history on its structure.

An Evangelist's Plea. Evangelist of the Rescue Gospel Mission of Andrew and Philip, 289 East King-street, writes: "my time, my talent, my life, and I shall bear the Saviour's seal. 'Well done, enter thou into the joy of thy Lord.' I have money and am in debt, having given so much to feed those coming to my house hungry. Will those who are interested in salvation work send what they can to help me to get out of debt?"

I have tried to make plain to the people the name of my mission hall, my work and its purpose to preach the Gospel, to help the fallen, to give clothes or food to those in need. Jesus sent Peter to the fish net to pay the tax. I have a collector; he has a book; he is an honest man, a veteran of the South African war. When he calls on you, Jesus sends him, and when I am not doing the Master's work at the hospital, or in the prison, consoling and helping those in distress at their homes, I am collecting. If there were no takers or funds, I would be the need of a Saviour. For He came to seek and save the lost. To carry on our mission here in Toronto we need money to pay the tax. We do not let men sleep in our mission on the floor or benches; we do all we can to elevate man to a better condition, and nothing to degrade him to a worse condition.

York Pioneers Report. One can congratulate the York Pioneer and Historical Society on the excellent report that they have just issued. It is neat in appearance and full of information. It contains the address of the president, Mr. William Reunie, and the reports of the secretary and treasurer. The treasurer, Mr. John Harvie, after paying all expenses, has a balance in the bank of \$1238. Addresses were given during the year on "Toronto's Early Days," "Pioneer's Uphill Workings," "The Waterfront Problem," and "The Old Fort." There are likewise (some fourteen) of the members who were active during the year, and short biographical sketches of and views on the history of the past year the society has more than doubled its membership, and the secretary informs us that the list of members was prepared upwards of one hundred and three were received, making the membership nearly seven hundred. On the death of a member the York Pioneers' flag floats at half-mast over the St. Lawrence Hall. A copy of the report is sent to each member. The society is in a highly flourishing condition, and its prospects were never brighter, than at the present time.

QUEBEC'S HUGE GRAND STAND Fifteen Thousand Persons Can Be Seated at Pageant Program. QUEBEC, May 17.—A force of 100 men is now busily at work on the Plains of Abraham rushing the construction of the grand stand which is to allow Quebec and her visitors to view the pageants. The site indicates the exact spot where the various historic views are to be presented.

The stand being erected some 300 yards to the west of Wolfe's monument and about 100 yards from the edge of the cliff facing the river. It is shaped like two consecutive sides of an octagonal figure. Directly in front of this, on the grassward, the pageants will take place daily at 5 o'clock in the afternoon.

Fifteen thousand persons will find seats at stands of this kind. The stand is 900 feet in length, 130 in depth, and the height at the back will be 35 feet. Over the central entry will be built the Royal Box for the accommodation of His Royal Highness the Prince of Wales, his excellency the governor-general, and distinguished visitors. It will be in the form of a kiosk, and will be surrounded by two small towers.

Construction work has also been started on a triumphal arch to be erected at the crossing of St. Joseph-street and Boulevard Langelier, where the grand parade of the final pageant will pass. It is planned to depict several scenes of Canadian history on its structure.

An Evangelist's Plea. Evangelist of the Rescue Gospel Mission of Andrew and Philip, 289 East King-street, writes: "my time, my talent, my life, and I shall bear the Saviour's seal. 'Well done, enter thou into the joy of thy Lord.' I have money and am in debt, having given so much to feed those coming to my house hungry. Will those who are interested in salvation work send what they can to help me to get out of debt?"

I have tried to make plain to the people the name of my mission hall, my work and its purpose to preach the Gospel, to help the fallen, to give clothes or food to those in need. Jesus sent Peter to the fish net to pay the tax. I have a collector; he has a book; he is an honest man, a veteran of the South African war. When he calls on you, Jesus sends him, and when I am not doing the Master's work at the hospital, or in the prison, consoling and helping those in distress at their homes, I am collecting. If there were no takers or funds, I would be the need of a Saviour. For He came to seek and save the lost. To carry on our mission here in Toronto we need money to pay the tax. We do not let men sleep in our mission on the floor or benches; we do all we can to elevate man to a better condition, and nothing to degrade him to a worse condition.

York Pioneers Report. One can congratulate the York Pioneer and Historical Society on the excellent report that they have just issued. It is neat in appearance and full of information. It contains the address of the president, Mr. William Reunie, and the reports of the secretary and treasurer. The treasurer, Mr. John Harvie, after paying all expenses, has a balance in the bank of \$1238. Addresses were given during the year on "Toronto's Early Days," "Pioneer's Uphill Workings," "The Waterfront Problem," and "The Old Fort." There are likewise (some fourteen) of the members who were active during the year, and short biographical sketches of and views on the history of the past year the society has more than doubled its membership, and the secretary informs us that the list of members was prepared upwards of one hundred and three were received, making the membership nearly seven hundred. On the death of a member the York Pioneers' flag floats at half-mast over the St. Lawrence Hall. A copy of the report is sent to each member. The society is in a highly flourishing condition, and its prospects were never brighter, than at the present time.

ROAST FOR GAS INSPECTORS

Mayor Says Public Have No Confidence in Them. In a letter to W. J. Gerald, deputy minister of inland revenue, with regard to inspection of gas meters, Mayor Oliver writes:

"It appears to me that when such gross carelessness takes place in an office of your department, there is only one possible way to ally the public mind, and this is to have an independent man inspect 20 or 25 gas meters, with a view of ascertaining whether the same method of inspection has not been adopted in the case of the meters complained of, or whether Mr. King's was an exceptional case. The public at the present time have absolutely no confidence in the inspectors in Toronto."

Mr. Gerald had stated that the matter of the inspection of meters had been placed in the hands of the chief gas inspector, and that the city would be pleased to have present at such investigation an engineer to represent the city. TEACHERS' TRIP TO ENGLAND

Great Time Assured the Three Hundred Who Will Go.

The minister of education has issued a circular in connection with the trip of 300 Canadian teachers to the old country as arranged by Alfred Mosely, C.M.G. of London. General and local reception committees have been formed in Britain, which ensures that the visit is a cordial one everywhere. The great universities and public schools will be visited and the total expenses, allowing for a month in the old country, are placed at \$250. About two hundred teachers may go from Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. Opportunity will be given to send from each of the five provinces in proportion to the number of teachers in each province. If any province does not send its proportional number the vacancies will be filled from the applicants from other provinces.

Mr. Mosely's plan is to have the teachers who go chosen by the boards of education, so that the teachers who hold the most important positions may be sent in order that the best results may be secured for Canada and for the empire. Applications should be made to the minister through the boards of education, and not by teachers individually, not later than June 10.

STRIKE BREAKERS FIGHT.

One Gets Broken Leg in a Gambling Row—Pickets Summoned. BRANTFORD, May 17.—(Special.)—Disturbances of a serious nature occurred among the strike-breakers at the Buck Stove Works late last night, when there was a free fight over a gambling dispute. Daniel Flaherty received a broken leg, and another man named Jackson had his head badly injured. Flaherty was hit with a hammer. No arrests have been made, as the affair happened in the shop where the men are quartered. The firm has secured eighty new men, chiefly from Chicago. In connection with the strike, special police are patrolling the district to prevent the continuance of picket duty by the union men, and a number will be standing trial for picketing, but have continued to do duty on advice received from their counsel, J. G. O'Donoghue of Toronto.

A GOOD INVESTMENT

It is not the first cost of a furnace or boiler, but the low operating cost that decides the shrewd buyer or way.

A plant that consumes an excessive amount of fuel without giving desired amount of heat and gets out of repair soon after installation, will in a short time eat up small saving in first cost and then has to be operated at a yearly loss.

Peace Heaters have been on the market for over twenty-five years and each year improvements have been added until to-day we have a product which is in a class by itself where efficiency, small fuel accounts, durability, ease of management and simplicity are a consideration.

We have testimonials from thousands of people who know from experience the superior qualities of "Peace Furnaces and Boilers."

Don't take our word for it, but write to-day for "Result Booklet," and descriptive leaflets.

ROGERS TO LAURIER.

Willing to Prove Leach's Perfidy or Consent to Aylesworth Bill. OTTAWA, May 17.—(Special.)—Hon. Robert Rogers, who reached Ottawa Saturday, will be followed to-morrow by Premier Roblin of Manitoba. They have come here to back up the federal Conservatives in their opposition to the Aylesworth election bill. Mr. Rogers told The World that he found his friends determined to fight all summer if need be to compel the withdrawal of the first clause of the bill.

The debate will be continued to-morrow by W. A. Gailher (B.C.) and it may be that the bill will be passed by the House of Commons. Mr. Bordin (H.C.) is willing to back down, since Friday nothing has passed between the two leaders.

Attorney-General Rogers of Manitoba, discussing the provincial lists, declared that there was not one name on them that was not placed there by the county judges. No appointee of the Manitoba Government has power to add to or strike off one name; and these were the lists then revised by Leach and his associates.

"I will throw down the challenge to Sir Wilfrid Laurier," said Mr. Rogers, "and if he will produce the lists used in the four polling divisions of St. Boniface in the last Dominion election, I cannot establish that more than a few names were taken from the list."

"I do not care for money. I freely give it to the poor. I am a man who are in need. People ask me, 'Where is your home?' and I tell them that there is no home but Heaven. I have a place waiting to do good, to extend Christ's Kingdom, to make God's power manifest and so going to win souls for Him."

She was badly wounded in the breast and legs, but was promptly hurried to the hospital, and may recover.

Landslide Causes Suicide.

NOTRE DAME DE LA SALETTE, May 17.—As an indirect result of the landslide which occurred here on April 25, a pathetic suicide occurred here yesterday, when Emille Morisset, aged 40 years, sister of the Mayor of Salette, threw herself from the top of City Creek and was drowned.

The woman was demoralized for the last year by the loss of her husband, who had been injured by the heavy loss of life in the landslide, and this had a serious effect on the weak-minded woman.

POPE MESSIAH HERE READY TO HEAL SICK

Declares That "Divine Church" Has Two Million Adherents and Wishes to Enter Canada.

His Holiness Pope Messiah of the Divine Church, New York, N.Y., Headquarters in Toronto, Ont., 23 West King-street.

Such is the text of the pen-printed card which introduced his holiness to a World man last evening. A man of medium height, with dark hair falling over his shoulders and heavily bearded, of rugged build and good-humored blue eyes; wearing a long saffron cassock and a soft felt hat, riding a bicycle. Such is his personality. He talks pleasantly if not elegantly, and narrates, with evident satisfaction of the hundreds of thousands who are flocked to him to have his blessing and receive from his hands health and happiness.

"It matters not," he said last evening, "whether they have been blind from birth, I can cure them." He spoke earnestly and his invitation to ride a bicycle. "Tell them all to come—all who are afflicted and are in distress. It is nothing, I do not ask that they have faith, show them that there is a Divine God, who can heal their wounds and their sorrows, and they will believe, and believing, they become workers in the church."

The Divine Church, he said, has 2,000,000 adherents, scattered throughout the States, Mexico, Central America, British West Indies and Cuba.

Will Tour Canada. "For ten years I have urged me to come to Canada and now I have come," he said. "I have just concluded a long mission in St. Louis, where hundreds have come to me, and I have stayed there much longer. But I had here up my mind to come to Canada and I feel that I shall be successful here. The people here seem more religious than in the States. I shall visit all the great cities, east and west."

His holiness, or, as he sometimes said, in telling of other's style in addressing him, "I am not a pope, I am a messenger," he commenced preaching at the age of 6, away out in Wisconsin. He tells of the furor that "that boy" created in those days, and that he was urged to divine healing by those who believed that he was inspired of heaven.

He told me to lay my hands on the sick, the same as Christ, and I went to the house of a woman who was bed-ridden from rheumatism for 20 years. I prayed with her and in three days she was cured and running about from joy.

His holiness has been confined chiefly to the west. At twenty, alone, he crossed the great American desert, and by so doing he has cured many of the great sufferers. He also fasted for 40 days and 40 nights in the great Canon of Arizona. At Denver, Col., he cured a man of a disease which related how railway companies brought hundreds of cripples to him free of charge to be healed, and how the state of Colorado treated in those days. Fifteen years ago he established the Divine Church. Last winter in Cuba he was received with open arms and he has also been received in many other countries.

Eager to Demonstrate. "We know no church or creed," he says. "We believe that God is all in all, and that he will cure all who are used to being mankind to a higher standard of life. We do not believe in denunciation, but in brotherly love. 'What if he will produce the lists used in the four polling divisions of St. Boniface in the last Dominion election, I cannot establish that more than a few names were taken from the list.'"

"I will throw down the challenge to Sir Wilfrid Laurier," said Mr. Rogers, "and if he will produce the lists used in the four polling divisions of St. Boniface in the last Dominion election, I cannot establish that more than a few names were taken from the list."

"I do not care for money. I freely give it to the poor. I am a man who are in need. People ask me, 'Where is your home?' and I tell them that there is no home but Heaven. I have a place waiting to do good, to extend Christ's Kingdom, to make God's power manifest and so going to win souls for Him."

"Tell the ill or afflicted of Toronto all and let them know that I am here to come. Seeing they will believe."

PRISONER SET FREE.

New British Court of Appeal Found Evidence Insignificant. LONDON, May 17.—The first court of criminal appeals held its new session yesterday and justified its existence by releasing a prisoner who had been convicted on insufficient evidence. The opposition to the right of appeal in English criminal courts has been based chiefly on the fear that it would produce evils usually described as American evils in the administration of justice. These evils are summarized as unnecessary delay and the thwarting of justice by frivolous technicalities.

Lord Chief Justice Alverstone at the first session made it clear that it would be the effort of the court to avoid these evils. The court dismissed an appeal against a conviction of a man who had been convicted of passing spurious money. He pleaded in the lower court that he was ignorant of the fact that the money was spurious. At attempt was made to show that he had passed another bad coin a fortnight before the transaction for which he was arrested. The prisoner proved an alibi later by showing that he was in jail at the time of the former alleged offence.

The judge of the lower court failed to warn the jurors that they must regard the man's admission of imprudence against him.

About 50 immigrants arrived at the Union Station last night. Only two were ticketed to Toronto and the remainder were going farther west, some right thru to Chicago. Another consignment is expected in this morning, but judging from the number of disappointed people who expected them in last night, they are all coming to friends here.

The consignment express on the C. P. R. from Owen Sound arrived about 2 o'clock yesterday. Several passengers had made the trip from Fort William by boat.

Grieving, Ends His Life. MONTREAL, May 17.—Broken-hearted over the loss of his wife, who had died less than a week, Isidore David, 60 years of age, a resident of Tremblayville, committed suicide by hanging himself in a shed in the rear of his home.

David had not been dead more than an hour when two young men who were passing looked in thru the open door of the shed and saw the old man suspended from a beam by a rope around his neck.

They cut the body down.

Montreal's Garrison. MONTREAL, May 17.—(Special.)—There were over 3000 men in line to-day at the annual church parade, and the different regiments looked exceedingly soldier-like.

JAP CABINET SUSTAINED PREMIER WON'T RESIGN

Popular Endorsement and Marquis Ito's Pleadings Encourage Saijoni to Continue.

TOKIO, May 17.—The results of the general election, held on Friday in Tokio and throughout the provinces, have not yet been decided on account of the difficulty experienced in communication with distant points. It is safe, however, to predict that the Constitutionalists have secured a substantial majority, probably exceeding that in the previous session.

The cabinet declares that such a popular endorsement of the government ensures the stability of the present cabinet, although it is understood that the premier, Marquis Saijoni, recently expressed a desire to resign. Prince Ito, however, persuaded the cabinet to continue in office, and Saijoni's resignation in face of the endorsement of the people.

It is reported that Marquis Saijoni was offended at the elder statesman's interference in his financial policy, which Marquis Inouye recently severely criticized. The latter favors a large reduction in the expenses of the army and navy, and in other government undertakings. Prince Ito points out that Marquis Inouye's long experience as a statesman qualified him to criticize, and it is understood that Saijoni has recalled his intention of resigning and has consented to certain steps in the future which will relieve the financial situation.

The announcement of this is expected to steady the market, relieve the depression and restore confidence generally. The settlement of the pending settlement of the question relating to the Yalu forests, the assurances of the open door policy to Manchuria, and the steps in the future which will relieve the financial situation.

Justice Longley Said What Would Happen The U. S. If— OTTAWA, May 17.—(Special.)—The Ottawa contingent who attended the annual Canadian Club dinner in New York on Thursday night have returned, and from their observations it is gathered that the word "disgrace" about which the feeling of many of those who listened to the speech of Chief Justice Longley of Nova Scotia.

It was midnight when he was called upon, and within the time allotted for his address was 15 minutes, he spoke for three-quarters of an hour. The chief justice declared that the Dominion was not destined to remain a portion of the British Empire, but full defiance at the United States. His closing sentences, which did not get in, he reported in The World, press reports, were as follows:

"Aggression from our big neighbor, I deem as unworthy of consideration. If by any such aggression, power became vested in the United States in any body of men so as to attempt to infringe Canada's rights and liberties, I can only say that there is some good stuff on the other side of the line, and when Canada has 15,000,000 people, the fact that she is a democracy, which did not get in, he reported in The World, press reports, were as follows:

JEROME REQUESTS THAW TO SEE STATE ALIENISTS

Prisoner Agrees, But Under Such Provisions That the Attorney Drops the Proposal.

POUGHKEEPSIE, N.Y., May 17.—Harry K. Thaw's plea for his liberty from Matteawan Insane Asylum, where he has been confined since his acquittal for the murder of Stanford White, will probably be decided by Judge Morschauer on Monday, May 25.

The hearing in the habeas corpus proceedings brought by counsel for Thaw ended late last night after District Attorney Jerome of New York had made the sensational request that Thaw, whom he had called to the stand, permit his alienists to examine him (Thaw) and judge of his mental condition as heretofore they had had no opportunity to converse with the defendant.

Thaw was not permitted to respond to the court itself telling him not to do so. The judge, however, suggested that Thaw confer with his counsel and that perhaps they might decide

that it would be wise to grant the request. Thaw, his lawyers, Messrs. Graham and Peabody, and Drs. Pilgrim, Evans and Jelliffe, who had testified that Thaw was sane, went into the judge's private room and after a conference lasting a little over an hour came back into the courtroom, and said that Thaw would submit to a personal examination, but not by the alienists who had appeared for Mr. Jerome. The alienists who should make this examination, it was stated, should be selected from some who had never appeared in the case.

Another condition was that the examination should be restricted to a personal study of the relation, and should not be founded on testimony of previous trials.

District Attorney Jerome instantly rejected these terms, saying he would not consent to a personal examination, but that he would consent to a personal examination by the alienists who had appeared for Mr. Jerome. The alienists who should make this examination, it was stated, should be selected from some who had never appeared in the case.

Experts called during the day by Thaw's lawyers were emphatic in declaring his sanity.

The suddenness with which the four proceedings in the case were brought to a close was unexpected. Thaw was the coup of District Attorney Jerome in forcing the hands of Thaw's counsel when at the last minute they refused to give Jerome a chance to interrogate him. It had been the opinion of those following the case as it was expressed during the time that Thaw and his counsel were in consultation during the recess that since Jerome used force of the issue by calling Graham to the stand, the best way Thaw as his own witness was to call Graham to the stand to allow Jerome to continue the examination.

Under the status of a witness called by Jerome, Thaw would have been comparatively safe, more safe in fact than under the examination of the alienists who had pronounced it as their conviction that he was an incurable paranoiac. When, however, Thaw's counsel interposed conditions to the examination which were prohibitive to Jerome, the latter achieved his second unusual stroke of policy.

He closed the case suddenly on a day of testimony delivered by the alienists for Thaw, which was weak in the extreme and which by its weakness left only the trump card of Thaw on the witness stand himself to bolster his chances of an acquittal from the asylum. It became known shortly after Jerome called Thaw to the stand that not until five minutes before Graham announced that he had finished with taking testimony did Jerome know that it was not the plan of Thaw's counsel to put their client on the stand. Graham had announced yesterday that he would put Thaw in the witness chair.

A FRIEND OF HOME RULE.

Campbell-Bannerman Proved Himself Friend of Cause.

LONDON, May 18.—In today's The Nation, John Redmond tells a touching story of the late Sir Henry Campbell-Bannerman's determination on behalf of home rule for Ireland.

The last time he visited the house of commons, Sir Henry told Mr. Redmond that it was his intention himself to wind up the approaching home rule debate. The next day the premier was stricken with the illness that eventually proved fatal. The debate was fixed for Feb. 17, and as Mr. Birrell, chief secretary for Ireland, was indisposed, Mr. Redmond asked Mr. Asquith, as acting leader in the house, to postpone the debate.

Mr. Asquith declined, but Sir Henry hearing of this, sent word that unless the debate was postponed he had made up his mind, whatever the cost, to leave his bed and go to the house of commons and participate in the discussion. Thereupon Mr. Redmond says, Mr. Asquith yielded and postponed the debate to March 30.

Political Gossip

Registration for the provincial election commences in Toronto to-day. Every man should MAKE SURE that his name is on the voters' list. Application at any of the various committee rooms will bring the desired information. If your name is not on the list, REGISTER. To register, the qualifications are that you must be a British subject, at least 21 years of age, resident in Canada for at least a year, and in the city for at least three months previous to date of registration. Any committee room will tell you WHERE to register.

J. M. Davis of Vandeleur writes: "I noticed in The World a brief report of the temperance meeting at Fiesherston, which states the temperance people failed to put a candidate in the field, but did not state why I. B. Lucas was successful enough in his canvass with his friends in Markdale to bring down enough of influence to invite him to the convention and to move a motion at the beginning of the meeting that no temperance candidate be put in the field. The said motion was moved about 2:30 p.m., and was not carried till after 8 o'clock, and after a great number of the best temperance people had left the hall, and it only was carried on the promise by Mr. Lucas that he would not only work at the next parliament and vote against the three-fifth clause, but if Mr. Whitney did not bring in a government bill to abolish the three-fifth clause he would introduce a bill himself as a private member and what he could to repeal the said clause. He made a short speech after the meeting to some of his friends on the side and told them he had been converted at the meeting but two, and I was one who remained to the finish and voted against the motion. I want to say that the reason why I did so was because I had no confidence in his promise and instead of converting the whole meeting he converted two of them, for if he had exhibited the same attitude in regard to the three-fifth clause at the Conservative convention and at the temperance convention as he did on the floor of the house a few days previous he would have been opposed by a temperance candidate and no doubt defeated."

Saturday's nominations were: North Waterloo (Conservative), Dr. Lackner; West Northumberland (Liberal), Sam. Clarke, for the legislature, and J. B. McCall for the commons.

Daniel Foucher, who was nominated for the legislature by East Hastings Liberals, has notified the executive that he consents to be the candidate.

A convention of the Liberals of East Lambton will be held on Thursday to select a candidate in succession to the late M. A. Smith.

A rally in the interest of J. C. Milligan and the Whitney government will be held at the music hall, Cornwall, on Wednesday evening, when addresses will be delivered by Hon. Dr. Reaume, minister of public works, Toronto; Geo. W. Fowler, M.P.; R. A. Pringle, K.C., M.P., and the candidate.

A Berlin special says: North Waterloo Conservatives held a rousing convention in Waterloo Town hall last night. As expected, the present member, Dr. Lackner, carried the convention. Hon. Adam Beck and J. B. Downey, M.L.A. of Guelph, were the chief speakers, and the meeting was marked by great enthusiasm.

"There's nothing in it," said J. B. Hay, Liberal candidate in class B, West Toronto, when asked by the World last night if the report that the Grand Trunk Railway was objecting to his candidature were true. Mr. Hay is C.T.R. agent at the western cattle market and it was reported that the company had instructed him to withdraw from the contest.

The New York American, with a two-column portrait embellishment, announces that the woman in politics has come to staid Presbyterian Toronto. Miss Clara Brett Martin, who has already achieved the distinction of being the first woman admitted to the Canadian bar, is now desirous of becoming Canada's first female member of parliament.

Rev. Dr. Hossack has arranged the following campaign meetings in North Toronto:

Tuesday evening, Prospect Hall, Ontario-street.

Wednesday evening, Simpson's Hall, Yonge-street.

A Montreal special says: There is certainly a good deal of encouragement in the opposition camp over the progress of the campaign during the last few days. In the first place, Hon. Mr. Devlin has thrown up the sponge in Nicolet, in the face of a very strong Conservative candidate, in Charlevoix. Hon. Mr. Taschereau was booked to run against Mr. R. Forget's brother-in-law, but something happened in Mr. Taschereau's own County of Montmorency that has frightened him away from Charlevoix, and so the campaign progresses in the most satisfactory way for the opposition. The fact of Premier Gouin having accepted to run in Portneuf is, so people allege, a sign of weakness in St. James, and it is stated that the premier is somewhat alarmed of Mr. Bourassa in the city division.

"Hiawatha."

THE MEN WHO DARE

SAILORS pity landsmen when it storms. They think the shore a dangerous place. We wonder at the courage of the men at work high on the girders of a steel frame building, swinging aloft by cable and derrick or running-like careless tight rope walkers along narrow beams a hundred feet above the ground. They on their part pity us below and the danger we run from trolley cars and falling rivets. And so it goes. The men who dare in one direction are pitied, envied or admired as the case may be by those who dare in other ways. We too have dared—we have dared the future of Canada with plans and preparations for the finest store building in the country. And to us, confident in the future and in our own strength, it seems but a logical development.

OBITUARY

At Princeton, N.J., Walter Augustus Wyckoff, assistant professor of political economy at Princeton University. He had been ill for some time. Born in Madras, India, on April 12, 1857, he was the son of a missionary to India. After a preliminary education under his father's

direction, Mr. Wyckoff went to Princeton. With the exception of the years of travel following his graduation from that institution and his life among the wage-carriers in that country, he lived at Princeton. While he was expounding his theories of socialism at a reception in 1881, an older man told him he knew nothing of the conditions of the laboring class. He once lectured in Toronto. The death occurred yesterday of Robert Barton, a well-known figure in downtown offices as a vendor of chocolate, tea and coffee. A week ago while moving

months he toiled as a farm hand, as a member of a traction gang, as a hotel porter, and as a lumberman. He worked his way from Connecticut to California. All this time he made notes of the social and economic conditions of the classes of wage-earners he worked with. He once lectured in Toronto. The death occurred yesterday of Robert Barton, a well-known figure in downtown offices as a vendor of chocolate, tea and coffee. A week ago while moving

ing, he fell on the stairs and an article of furniture gashed his head and neck resulting in erysipelas. Deceased was 49 years of age and came of good family but "the boom" reaction swept away his real estate wealth. Some years ago he was an alderman candidate in the third ward. He leaves a widow and child. George Kew, agent of the Litchfield Valley Railway at Suspension Bridge, age 43 years.
