"In Champagne we delivered in the course of the afternoon a new attack against the German positions west of Maisons de Champagne on a front of 1500 metres. BAGDAD'S FALL CAUSES ENEMY BIG SURPRISE

News Brings Great Shock to People of Berlin and Vienna.

Geneva, via Paris, March 12.—The fall of Bagdad caused the greatest surprise in Berlin and Vienna, according to news received here from those capitals. Quite recently the Austrian and German papers announced that owing to the large Turkish reinforcements sent from Aleppo and Smyrna, Bagdad could hold out indefinitely. It is expected here that one of the early results of the occupation of Bagdad by the British troops will be the recall of all Turkish contingents fighting at the various fronts. Colonel Feiler, the military critic, writes in The Journal de Geneve: "Unless a new Ottoman army is constituted for a new campaign against the forces of Gen. Maude, the town will definitely remain in the hands of the English."

WAR SUMMARY THE DAY'S EVENTS REVIEWED

PERSISTING with their offensive action in the Champagne, the French made another advance west of Maisons de Champagne on a front of nearly a mile yesterday afternoon. Their attack carried all the trenches which the Germans had taken on ridge 185, and they penetrated a fortified work on the slopes north of Mamefont. One hundred German soldiers laid down their arms. Operations elsewhere on the French front comprised heavy artillery firing between the Oise and the Aisne and on the banks of the Meuse. In order to give their troops a rest, the French made the bombardment of the open town of Soissons with incendiary shells yesterday afternoon.

ALTHOUGH proceeding on a narrow front, this Champagne action has grown into an affair of great local importance. The French set great store by the maintaining intact of the salient driven in September, 1915, showing that they regard its possession as of great future military value. All the salients which the French created with infinite labor in the spring and summer of 1915 have a definite relation to the future plans of the allies to crush Germany. Each offensive, that many persons then commonly regarded as another failure to break the German front, in reality accomplished what the allied staffs planned it should accomplish. The Anglo-French forces are now proceeding to make good use of their previous gains.

where the Portuguese will deal with them. The pursuit of the enemy into the fastnesses of East Africa has drawn attention to the splendid qualities of newly-raised black troops.

Attacks which improved their positions slightly northeast of Bouchavesnes, on the Somme front, marked the British operations yesterday and the preceding night. In this neighborhood also the British patrols entered German trenches and secured a few prisoners.

The Russian force in Persia is now approaching Kermanshah, on the Mesopotamian frontier, in its movement to meet the British army at Bagdad. The British Mesopotamian army has greatly demoralized the Turks by its effective pursuit.

German and Austrian newspapers announced quite recently that large reinforcements had been sent from Aleppo and Smyrna and that with these Bagdad could hold out indefinitely.

### Canadians in France Grateful For Gifts from the I.O.D.E.

A large number of letters and post-cards from the trenches were read at a recent meeting of the Royal Grenadiers' Chapter, I.O.D.E., also from wounded soldiers in different hospitals overseas, acknowledging parcels and stockings that were sent at Christmas. One man, writing from Seymour Park Military Hospital, Manchester, England, says: "My dear sisters, I take a great pleasure in thanking you for your most welcome Christmas stockings received. Really, sisters of the empire, words fail me how to express my gratitude for your kindness towards your Canadian Tommies. I was wounded last October 15 at the Somme, and have been in bed ever since, but today I was able to get up for the Christmas dinner. Our fight is a hard one, Fritz is a hard nut to crack, but the boys of the Maple Leaf who you are working for so nobly are equal to the task you have asked them to accomplish. Do not for one moment lose confidence in them."  
Several postcards were from prisoners in Germany.  
The proceeds from an afternoon tea held recently to provide comforts for the soldiers amounted to \$130.33.  
The nomination of officers and councillors took place at the close. The nominating committee was Mrs. A. E. Gooderham, Jun., Mrs. Burson and Mrs. Patterson.

### Technical School Students Prepare for Great Bazaar

Students of the Technical School are finding time between classes to prepare for the monster bazaar which will come off shortly and which bids fair to surpass that of last year, successful as that was in every particular.  
Different departments are working according to their specialty, the domestic science section having a store of marmalade, cakes and candies that will keep and go overmas without injury. Many parcels are already prepared for their voyage to the men at the front. Many plain and fancy articles as well as painting and pottery of various kinds are being made and the products of the six or seven thousand pupils cannot but make a magnificent showing.

### PICTURE THEATRE FIRE.

Fires igniting just at the beginning of the performance in the Red Mill Picture Theatre, Yonge street, north of Queen street, yesterday afternoon, started a fire which damaged the building and contents to the extent of \$500 before it was extinguished. The blaze originated in the operator's box, and Chas. Spafford, the operator, had his head slightly burned in fighting the flames. District Chief Corbett also had his hand out by flying glass.

## "Astonishing how my Strength and Fitness came back," says Mr. Inman, a Winnipeg business man, cured by Dr. Cassell's Tablets.

"It was astonishing how my strength and fitness came back," says Mr. G. G. INMAN, of 330, HARCOURT STREET, STURGEON CREEK, WINNIPEG, for many years a well-known man in the business life of Canada. Mr. Inman continues: "It is about three years now since I first used Dr. Cassell's Tablets. I was terribly run-down and weak. Sometimes I felt such an effort to me, I ate little, I had no appetite, and suffered in a bad way. My nerves of course were in a bad way, and my sleep very disturbed. Everything, in fact, pointed to a nervous breakdown. It was then a friend told me about Dr. Cassell's Tablets, and I got some to try. The first result was that I could sleep at night, and then my health rapidly improved. It was really astonishing how my strength and fitness came back. I may add that some time ago my mother was very ill with pernicious anemia. I urged her to take Dr. Cassell's Tablets, but she would not, so I crushed them down and gave them in food without her knowing. She was confined to bed before she had the Tablets, and now is about again well and bright."

Mr. Inman is now in England, having had to return there some little time ago to take control of the well-known firm of A. W. Inman and Son, Printers and Publishers, Leeds. Letters will reach him there.

# THE FORMAN MYSTERY

BY GEORGE HUGHES.

(Continued from Yesterday.)

The stranger left the office behind the station agent. The train had reached the station and was slowing down to take up freight and passengers. Warrenner instantly darted from his waiting place, and raced toward the station. There was little baggage to take up and few passengers to go aboard, consequently the stay of the train was short. Warrenner resumed his journey by the time that Warrenner, panting after his unaccustomed exertion, reached the platform and swung himself aboard the last car. He stood for a brief moment on the observation platform while he collected himself, then he opened the door and entered the coach.  
The coach was almost empty, only one other passenger besides Warrenner being within. As the passenger was a woman Warrenner paid scant attention to her. His eyes were fast on another—the stranger. So he strode along the aisle to the next coach, and then, near window from the swaying platform, he surveyed the interior. This coach was fairly full. Presently Warrenner's roving eye alighted upon the object of his search. He was seated near the front, on the right-hand side of the coach, apparently engrossed in the flying scenery as seen thru the window.  
Warrenner selected a seat on the opposite side of the aisle and near the rear, from which point he could watch his quarry's movements without himself being seen. He had the seat to himself, and being tired, stretched his weary body in a comfortable lounging position in the upholstered corner. The monotony of the scudding wheels over the rails played a melody that induced slumber and made his mind a prey for the thoughts which he would have forgotten. Once again his mind harked back to the mystery of the Forman case. That Edith Forman had more than a passing knowledge of the events surrounding her husband's death, he had suspected prior to the extraordinary statement made by Dr. Mooney, and while he openly flouted the insidious suggestion, yet in his heart he felt that it was, to some extent, true. For had not Mooney's statement regarding Miss Forman's illness been corroborated by the books of the Benson Home for Inebriates? The name was there for him to see, so there could be no disputing it. And Bainbridge's singular attitude at the mention of Miss Forman's name—what lay behind that? In what way was Miss Forman linked with Mr. Bainbridge? And the peculiar behavior of the stranger? What was he doing in Bowwell, and what was contained in the letter he had taken from the man's pocket? But these were questions which remained unanswered. Every one was as a thread, each independent of the other and leading—where?

After that he must have dozed, for the next he remembered was the harsh cry of the brakesman, "Bellingham!" and the hasty surge of humanity toward the exits. Warrenner jumped to his feet in a daze. The train had stopped, and thru the window he could see the passengers alighting. Suddenly he remembered the stranger. He creased his neck in the effort to see the man, but in vain. Apparently he was not in the car. So Warrenner threw the window-just as the stranger stepped on the platform. Caring little for the discomfort of the passengers, he jostled his way thru the throng, and leaped to the platform, followed by the imprecations and angry remarks of outraged humanity on the trail behind. The platform was crowded with persons conversing in groups and others wending their way to the station exits. Intermixed with the cough of the air-pump on the engine, sounded the raucous cries of baggagemen unloading freight from the baggage car to the trucks, and the hum of voices everywhere.  
"Gangway, there!" Simultaneously with the cry appeared the baggage truck, heaped with trunks, boxes and other traveling impediments, and pushed by two sweating and profane porters. Warrenner, staring ahead at the back of the stranger making his way to one of the exits, narrowly escaped the oncoming truck. It surged past as he leaped aside, the baggagemen blissfully unmindful of the opprobrious epithets hurled at them.  
Warrenner arrived at the exit just in time to see the stranger approaching Main Line car that had slowed up on the corner in response to his signal. The car stopped, the man leaped nimbly aboard, and it resumed its journey.  
Warrenner instantly sprang into action. Adroitly dodging the numerous pedestrians littering the sidewalk, he darted from the sidewalk to the pavement and clutched at the handrail of the car. He missed it, and the truck darted away. Warrenner was after it alongside again. His hand shot out, clutched the handrail, and he swung himself aboard.

# Service--the Keynote of The Farmers' Dairy Success

"Service" is no abstract term with The Farmers' Dairy. Service has dominated during its nine years of existence. It was for the purpose of giving to the people of Toronto the best milk service that the leading farmers of the province organized The Farmers' Dairy in 1908. Their object was to give Toronto's citizens the richest, purest milk from Ontario's finest farms at the lowest possible price. They have succeeded.

Healthy cows and clean, careful milking methods uphold the farmers' end of the service chain. Then, in the dairy—itsself a monument to the triumph of service ideals—milk experts and the finest pasteurizing, cooling and bottling plant serve our customers by maintaining the quality of the milk.

Next comes the delivery. Regularly every day our experienced, courteous salesmen deliver the milk to our hundreds of customers. In the winter because it is more convenient for our customers they deliver in the daytime. Our service finds definite expression in the delivery system.

We have built up our service so that you might get the best milk at the lowest possible price. Are you receiving this milk? It will benefit your children. It will make them healthy and strong. Get a trial bottle. Order to-day. You can get tickets from our salesmen or from us.

### CATS CAUSE TROUBLE.

Crazed with hunger, three cats, which are said to have been locked in premises at 436 Yonge street, gave Inspectors Bragg and Ballinghall a merry chase when the officers attempted to catch them yesterday afternoon. The officers were compelled to shoot two of the cats. The third was captured and conveyed to the humane society's headquarters.

STOCK INCREASE FOR JOCKEY CLUB

Hamilton Organization Applies for Letters Patent to Enlarge Capital. In reply to questions from Sam Carter, South Wellington, Hon. W. D. McPherson said there was no application from the Hamilton Jockey Club before the government to increase the stock so that each holder of a share, for which \$1000 was paid, will receive a certificate for \$1000 for new stock. There is, however, an application for supplementary letters patent to increase the capital stock from \$100,000 to \$200,000 by creating 4000 shares the new par value of \$1000. The application is under consideration.

Stanley James Pepler, of the Royal Flying Corps, has been missing from his headquarters since March 6, and it is supposed that he may have had to descend in enemy territory.

PROGRESS OF CANADA SINCE CONFEDERATION

"Fifty years of Confederation" was the subject of John Lewis' address before the Canadian Club yesterday. The speaker outlined how Canada, developing fast as a world power, had grown from a few scattered settlements to a great nation. He pointed out that Canada in her fiftyth year of confederation must be alive to her responsibilities and must exercise a real interest in the future of India and the destiny of Europe.

Officials Estimate Tax Rate Will Be Twenty-Five Mills

Civic officials are resigned to a high tax this year, which they estimate must be at least 25 mills on the dollar. While departmental estimates are being prepared as far as possible uncontrolled expenditures, especially debt charges, will be such as to make a low rate impossible. This year it is expected Toronto will have to borrow \$9,000,000 and the city is now applying for the necessary legislation. While the finance commissioner has been eminently successful in floating loans, it is expected that in competition with the provincial and Dominion loans, future civic loans must be raised at less favorable rates.

ACTION DISMISSED

Justice Clute dismissed the action of John P. Abbott, of Buffalo, trustee in bankruptcy of Kroner and Griffin Silk Co., Inc., against the St. Catharines Silk Mills, Ltd., to recover \$2,703.35 alleged due for goods sold to the Ontario company. The defendants will hand over 9 1/2% shares of the company's stock, however, which, it is understood, will satisfy the claim.

LIQUOR LAW INFRINGEMENTS

For having liquor in a wagon on Eastern avenue, William Doherty was fined \$200 and costs, when he appeared in the police court yesterday.

FOR BELGIAN RELIEF

The sum of \$164 was taken up at the lecture given by Professor Carter at Trinity College. This will be devoted to Mrs. Agar Adamson's Belgian Relief Fund.

PRIVATE BILLS IN LEGISLATURE

Soldiers' Votes, Provincial Roads and Street Car Overcrowding Are Dealt With.

A bill giving to councils of cities of over 200,000 power to pass measures to regulate overcrowding of street cars on the recommendation of the medical health officer, and to impose a penalty of \$500 for each infraction thereof, was given its second reading in the legislature yesterday, and was referred to the municipal committee.

Another amendment to the Municipal Act was introduced yesterday. It provides that lands expropriated but not used, on the repeal of the bylaw shall return to the original owners without further conveyance or expense.

G. H. Goodenham introduced a bill to make the election of school trustees annual in the case of 200,000 and over. H. Muirgrove (North 152nd) said the bill should apply only to municipalities that favored the principle; not one in ten favored it. After the speaker had recommended it, the bill passed its first reading.

Capt. Thos. Magladery (Timiskaming), wounded at the front, made his first appearance in the house in the afternoon, when he was greeted with applause and numerous congratulations.

Hon. J. Macdunnald introduced his bill to create a provincial highway system from the Michigan to the Quebec border. The principle of the bill was that the localities thru which these trunk roads passed should bear only that portion of the cost which was required by a road for local use. The government, therefore, pay 70 per cent. of maintenance on construction, while the municipalities pay 30 per cent. In suburban areas the city and the local authority will each pay 30 per cent., while the province will pay the remaining 40 per cent. The minister was not very clear as to the authority to define the limits of these "suburban" areas. The question will be designated by order-in-council.

PROPERTY COMMITTEE DEALS WITH ESTIMATES

The property committee yesterday passed the 1917 estimates of the fire and architect departments and the jail without alteration. In each case the members seemed disposed to question salary increases, but as this is within the scope of the board of control only, the figures went forward unchanged.

The jail estimates show a decrease of over \$40,000 as compared with the year 1916. This does not take into account the proposed increase in the amount at the institution, and a further saving will be effected when the governor and deputy are pensioned.

A big decision from Moore Park was successful in having the committee refuse to lift the residential restrictions from the Moore Park district. J. J. Fullerton was the contestant, and in lieu of lifting the restrictions he offered the property to the city for park purposes at \$20,000.

WILLS PROBATED

Rev. A. Logan Giggie has applied for probate of the will of Pte. Francis Smith, who went overseas with the 83rd Battalion and was killed in action Oct. 2, 1916. The estate, consisting of \$1348 cash and \$1000 insurance, will be equally divided between his sister Marie, of Shrewsbury, England, his brothers, Edward of Toronto and Charles of Aberdeen, and Miss Isabella Sidon, a friend, in Toronto.

STRUCK BY LORRY

Well-Known Citizen Has Narrow Escape When Heavy Wagon Skids Into Foot Box.

When a heavy lorry, driven by W. McMillan of a Home place, collided with a pillar box at the corner of Yonge and King streets yesterday morning, E. S. Jackson, 36 Shannon street, secretary of the Sportsmen's Patriotic Association, had a narrow escape from serious injury. Mr. Jackson was in the act of pulling a stamp man from the machine when the lorry, loaded with rolls of paper and going west on King street, commenced to skid on the slippery pavement. The driver tried to keep the vehicle to the middle of the road, but the rear end slid to the sidewalk. One roll of paper struck Mr. Jackson on the arm, then crashed thru the glass top of the box. That part of the lorry containing the money and stamps remained intact.

T. S. R. APPEAL FAILS

The appeal of the Toronto Street Railway Co. against a judgment of \$525 and costs in favor of Martin J. Tatum, for malicious prosecution, has been dismissed by the appellate court at Osgoode Hall. The court was unanimous in sustaining the conviction of the lower court, and rendered their decision without hearing the case of the defendant in the appeal.

Music for the Man Who 'Hasn't Time'

How often men lose their hold on some of the worth-while things of life because they "haven't time". How few men play the piano. Yet they love music. They know that nowhere could they find a more satisfying, a more splendid pleasure. To such men we offer the means of making music their personal hobby. Place a Gourlay-Angelus in your home. Not as a sort of "Hobby-home" investment. But as your personal pleasure. Then see how close music will come to you.

Gourlay-Angelus Player-Piano

The Gourlay-Angelus is an instrument, not a machine. It takes the place of the skill and knowledge of the musician. But it leaves you wide scope for expression—it leaves the warmth and soul of the music to you—for you to fit your own moods, your own feelings.

The musical world does not offer the busy man any greater benefit than the Gourlay-Angelus. The beauty of the music it enables you to produce—its splendid range of tone—its appealing style—and its permanent superiority—all recommend it to the man whose taste in all things is above the ordinary.

We may point out that the Gourlay-Angelus is a notable combination of the superiority of the pioneer player and the qualities of the Gourlay Piano.

If you are one of those men who have longed for music, let us show you the Gourlay-Angelus.

Gourlay, Winter & Leeming, Limited 188 Yonge Street Toronto

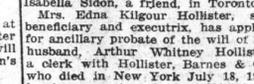

War time demands call for simplicity, elegance and a measure of economy in style. We have two or three Gourlay-Angelus players in more costly and elaborate cases which we have decided to discontinue. These we are offering at prices that represent unusual opportunities. They can be seen at our showrooms.

Comfort and Cure for Baby's Skin Troubles

Dr. Chase's Ointment Cured When Baby's Body Was Covered With Distressing Eczema.

If every mother could try Dr. Chase's Ointment for the chafing, skin irritation and resulting eczema which tortures so many babies, what a blessing it would be for the little ones. This letter will give you an idea of what a wonderful work this Ointment is doing in the way of bringing comfort to children who are so unfortunately afflicted with eczema. It is so easy for this trouble to develop from chafing or irritation caused by the clothing, and so difficult to get it cured, that Dr. Chase's Ointment is appreciated "when" once its healing qualities are known. Mr. M. J. Ducloux, Postmaster, Duquoyville, N.B., writes: "I believe it is my duty to recommend Dr. Chase's Ointment as a cure for eczema. My baby was seized with eczema and his face and arms were covered with this terrible disease. After trying all sorts of ointments the disease con-

With some of the most prominent financial men in Canada as mourners, the remains of the late G. P. Scholfield, who died suddenly at the Waldorf Hotel, New York, Wednesday afternoon, were laid to rest in St. James' Cemetery yesterday afternoon...

COAL MERCHANTS OBJECT TO BILL

Representing that the government measure to empower municipalities to buy and sell fuel and foodstuffs would create unfair competition to retail merchants, a delegation waited on Hon. W. D. McPherson, provincial secretary, yesterday to protest. It was led by W. C. Miller, provincial secretary of the Retail Merchants' Association, and J. A. Harrington, secretary of the Ontario Retail Merchants' Association...

HAD STOLEN FROM LETTERS AND IS SAID TO BE INSANE

If when he appears before Judge Coatsworth next week, Charles White can prove that he is insane, he will more than likely be dealt with very leniently. He is charged with having stolen letters and money amounting to \$281.10 from the Toronto Postoffice, where he was employed as a porter. Detective Mitchell told of finding \$9 twenty-five cent bills and \$22 in other bills piled up in White's locker, and also two bank books showing deposits in the Bank of Montreal of \$1026, and in the Bank of Nova Scotia of \$1618.

SIX MOTOR CARS INVOLVED IN THIS COMPLICATED CASE

Justice Clute is hearing an action in which Lucinda Fleming is trying to recover a garage of motor cars. Geo. Perrault is the defendant, and the plaintiff made an agreement with him in which she was to transfer the cars and the lease of the garage at 115 Wilton street, and in exchange she was to receive two houses, 410-412 Brockville street, subject to two mortgages for \$2,500 and \$1,500. The money was to be paid by \$300 cash and \$1,000 in ten notes secured by the cars. She claims that the defendant did not live up to the agreement to vary the agreement in regard to the renewal of the second mortgage, reducing it from \$1,800 to \$1,500.

CHARGED WITH THEFT

Cameron Rumpel, of Brookfield street, was arrested last night by Acting Detective Carter, on a charge of stealing a motor car from E. L. Kingsley, 86 Hawthorne avenue.

CAPT. OSBORNE PROMOTED.

Canadian Associated Press Cable. London, March 12.—Lieut. G. C. O. Osborne has been gazetted as a flight commander, with the rank of captain whilst so employed.

AUGMENT CADET CORPS.

If military drill is made compulsory in the Toronto schools following the words of Premier Healey on "preparation" made at the meeting of the Canadian Defence League Saturday, it will mean an addition of approximately 10,000 boys to the cadet corps. Chief Inspector Cowley states that the drill question might well be considered from two standpoints—as an educational course and as a measure of safety for the state.

FRENCH MAKE GAINS IN BOMBING ATTACKS

Paris, March 12.—The French continued their offensive operations in the Champagne last night. Further gains in the region of Malson de Champagne were reported in today's official announcement. Prisoners were taken in raids and patrol encounters at different points on the front.

LABOR DISPUTES SETTLED.

Ottawa, Ont., March 12.—The labor department has succeeded in getting two disputes settled, one with the help of a board of conciliation, and the other without. The employees of the Canadian Northern Express Company demanded an increase in wages, and as the result of the deliberations of a board of conciliation they got it. In the other case the dispute was over the extent to which a locomotive engineer, who has been suspended and fined, should get pay for the time lost. A compromise was reached satisfactory to the Brotherhood of Locomotive Engineers.

MUSKOKA BATTALION GROWS.

Galt, March 12.—The strength of the 122nd (Muskoka) Battalion today reached the 850 mark. During the past few days of the recruiting campaign over one hundred men have been taken of the strength, 25 being accepted over the week-end.

BLOODLESS WOMEN

It is an unfortunate fact that nine women out of ten are victims of bloodlessness in one form or another. The girl in her teens, the wife and mother, the matron of middle age, all know its miseries. To be anaemic means that you are breathless after any slight exertion—you feel depressed and worn out all day. You turn against food and cannot digest what little you do eat. At night you do not sleep well, and in the morning you wake up tired and feeling unwell. Headaches, or pains in the back or side. Often a feeling of dizziness and despondency. These are the signs of anaemia, or bloodlessness. There may be only one or two of these signs noticeable, but the more there are the greater are the ravages of the trouble. There is only one way to cure anaemia, and that is by increasing and enriching the blood supply, and there is only one medicine that does this so quickly and effectively—Dr. Williams' Pink Pills. These pills purify the blood. It is in this way that thousands and thousands of weak, ailing, perhaps all but broken, men and women have been restored to the joy of energy and good health through their use. Give these pills a fair trial and you will enjoy that health and strength that is the birthright of every woman.

You can get Dr. Williams' Pink Pills from any dealer in medicines, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Car was built—a CHALMERS

Across the vision of a man came a car. He built the car—and with it built a world-famed institution. The field of motordom choked with weeds. Luxury rode behind a Mogul engine in an upholstered truck. Men were tired of motor extravagance. But, the supreme comfort of motoring came not with economy.

Security and reliability above all. Chalmers made a car for every day business: not a toy nor a truck—but a road-active pleasure car—A MOTOR CAR. The car was built, a Chalmers. Chalmers efficiency held down costs. Chalmers markets supplied an output enormous. The Chalmers Institution produced the ideal at the cost of mediocrity—\$1625.

Chalmers success—marvel of a decade—came from low-cost production of the car ideal. Chalmers saw the sensible car—the sort of car a business man would drive. A car that would appeal to keen minds as a sound buy. The Chalmers Institution, founded on ideals, took up the task, to bring to men of moderate means, comforts that until then only a Croesus could buy—luxury, beauty, fine furnishings and finish, light weight, speed performance. Chalmers built the ideal car. Not—mark you this—a car ideal for the price. Price never creates the ideal. Chalmers has said "Any fool can cut prices, but it takes brains to make a better article."

CHALMERS BRIDGES THE BOUNDARY. The Canadian Chalmers is made to the Chalmers ideal—in Canada. Chalmers has created a Factory in Canada. The young giant parallels the old. It is one with the parent Chalmers Institution; one in purpose—one in ideals of making and marketing cars. Men high up in motordom have linked their fortunes with Canadian Chalmers. In every city the big motor car distributors are Chalmers men. Local success joins with Chalmers success. Men who achieved by serving, well, are eager to sell the ideal car—the Chalmers. Chalmers is a symbol of success that attracts successful men. Your business man drives his Chalmers. He chose it because it was the ideal car, the sensible car for him. He calls it by name, "his Chalmers." In Canada, throughout the world, the name rings clear. Chalmers is a car, a man, an institution.

Table listing Chalmers car models and prices: Chalmers 6-30 6-passenger - \$1625, 6-30 roadster - 1625, 6-30 7-passenger - 1775, Cabriolet - 1895, Sedan - 2555, Limousine - 3555, Town Car - 3555.

Many Seeking to Qualify As Officers in British Navy

By a Staff Reporter. Ottawa, March 12.—Very many applications are being received by the naval service department from men of all ages who are anxious to qualify as officers in the British navy. A few days ago it was announced that Canadians would now be eligible under the new regulations. However most of the applicants are over age. The announcement was for cadets between the ages of 17 and 18. Previously boys entering the navy had to go to Osborne or Dartmouth, at the age of 13, and the change in the age limit is to get boys just as they leave school. When accepted they go to the naval school at Osborne or Dartmouth for two years.

Count Zeppelin's Remains Placed in Vault at Stuttgart

Rotterdam, March 12.—The funeral of Count Zeppelin was held this afternoon at Stuttgart. Many years ago the late inventor erected his own vault in the Jag Cemetery at Stuttgart, and therefore Countess Zeppelin declined the offer which was made to her by the King of Wurtemberg to give the body a tomb in the royal cemetery. King William II was present at the ceremony, which was very brief, owing to the illness of the countess. The services consisted merely of a sermon by the Bishop of Stuttgart and of prayers. Gen. von Voepfner, commander-in-chief of the German air forces, attended the funeral by command of Emperor William, and 1000 workmen from the zeppelin plant at Friedrichshafen came on a special train for the service.

Chief of Austrian Staff At German Headquarters

Berlin to Amsterdam, via London, March 11.—It is officially announced that Field Marshal Arz von Straussenburg, chief of staff of the Austro-Hungarian army, arrived at German headquarters Sunday to confer concerning the military operations.

U. S. to Hurry Construction Of a Fleet of Sub-Chasers

Washington, March 12.—Preliminary steps were taken by the navy department today toward contracting for the quick construction of one hundred high speed coast patrol boats of a new type, for scouting against submarines. At a conference in which a score of builders were represented, assurances were given that deliveries could be begun within four months. Plans prepared for the patrol boats call for craft 110 feet long, propelled by powerful steam engines. Details of their armament and equipment now being worked out.

BURGERS GO TO JAIL

Special to The Toronto World. Chatham, March 12.—Chitford Herbert and Elwood Jackson, the two young negroes arrested on a charge of burglarizing the G.T.R. express office on the night of March 1, were arraigned in police court this morning. Herbert was sentenced to one year in the Ontario Reformatory, and Jackson to eighteen months. Both men have long police court records.

### THIRD WAR LOAN SUCCESS ASSURED

Prevailing Opinion is That  
Loan Will Be Over-  
Subscribed.

OFF TO GOOD START

Local Bankers Express Confidence in Financial Ability  
of Country.

"I hope and believe it will be a great success," stated Sir Edmund Walker, when questioned by The World last night with regard to the third Canadian war loan, which was launched yesterday. Sir Edmund Walker's confidence in the ability of the country to shoulder the financial burdens brought about by the present European war found reflection in the general opinion expressed by leading Toronto bankers and brokers.

That the bonds, amounting to \$150,000,000, will be oversubscribed, is confidently expected in banking circles, and judging by the heavy returns from local and outside points yesterday this confidence is not misplaced.

"Before the opening of the books for the new war loan," said Mr. A. E. Ames of Ames & Co., to The World, "we had tentative subscriptions from towns and cities in Saskatchewan, Manitoba, Ontario, New York State, Ohio, Cape Breton, Nova Scotia, Quebec, Michigan, Connecticut, Colorado and Washington. One of these was for \$100,000."

"It is very difficult and inadvisable to make premature predictions regarding the loan, but, judging from the first day's operations, we can hope for success."

Sir Edmund Oster, when interviewed, said: "These big investments by first-class institutions of this kind ought to bear weighty influence with the small investors—the private people—as for estimating the wisdom of investing in Canadian war loans."

Mr. Peleg Howland, president of the Imperial Bank, stated that the indications for a full subscription to the loan were very favorable.

"The Dominion war loan is most attractive, and it looks as if it will work out fine," stated Sir Henry Follett. "This is just the first day, and you have to give people time, but everything points to its being most successful."

The largest individual subscription reported yesterday was that of the Sun Life Insurance Co. for \$10,000,000. This splendid subscription was announced by the manager of the local office, Mr. John Tory. This company has participated in each of the former war loans, their subscriptions to the first two being \$5,000,000 and \$5,000,000 respectively.

Another large subscription reported was from the Imperial Oil Company

for \$1,000,000. This firm has also bought liberally of the Canadian war bonds since the beginning of the issues, having now taken one million dollars' worth for the third time. The first, made yesterday morning, among other large subscriptions, brought an application for \$500,000 worth from the Canadian General Electric Company.

Other large subscriptions reported were: Canada Permanent Mortgage Co., \$250,000; Civic Power Co. of Montreal, \$250,000; Sir Herbert Holt, president of the Royal Bank, \$200,000; Jas. Carruthers of Montreal, \$200,000; London and Lancashire Fire Insurance Co., \$100,000; J. S. Norris, \$50,000.

#### Attacks on Premier Briand Likely to Force Resignation

Paris, March 12.—The attacks of the opposition in parliament have produced a situation of such a character that both the friends and the adversaries of the government admit today that it cannot continue. The general opinion is that the opposition, which has been resorting to obstruction by refraining from voting, must overthrow the cabinet and assume responsibility for solving the problems which form the basis for its results on the ministry, or else cease its attacks.

#### LITTLE GIRL WAS STRUCK.

Eight-year-old Beatrice Cohen, 10 Arthur street, had her jaw broken and face lacerated when struck by a motor truck driven by William Rawlings, 221 Euclid avenue, on Arthur street, near her home, last night.

The truck belonged to the mechanical transport section of Exhibition camp, and just as it neared the Cohen home the girl is said to have attempted to cross the road. Rawlings pulled up as quickly as he could, and assisted the child into a passing motor car, which took her to the Western Hospital. He was taken to Claremont street police station, but on the testimony of eye witnesses that it was an accident he was allowed to go.

#### COTTON DUTY IN INDIA STAYS DISPUTE PROTEST

London, March 12.—A deputation representing all sections of the Lancashire cotton industry waited upon Austen Chamberlain, secretary for India, today to protest against the recent increase in duties upon cotton imported into India. The delegates declared the duty was the greatest blow ever struck at the cotton industry, and that it would result in the closing of the mills.

Mr. Chamberlain replied that it was impossible to grant the request of the deputation. The duty, he said, was a necessary contribution to the charges on India's war loan of £100,000,000. The cotton trade was not asking for equality, he declared, but for a favored position not enjoyed by other industries. The Indian people and British residents of India, he added, were unanimously in favor of what had been done.

The Lancashire cotton deputation, after conferring with the Lancashire members of the House of commons, passed a resolution calling on them to oppose the imposition of an Indian protective duty on cotton goods.

#### WRONG ADDRESS GIVEN.

The address of Mrs. Bowles, mother of Mrs. Edith Marchmont, who abandoned her baby on the West Presbyterian Church steps last Saturday, was incorrectly given to The Sunday World as 44 Frollis avenue. Mrs. Bowles lives on Hollis' avenue, but not at 44.

#### CANADIAN FORCES REARRANGED.

Canadian Associated Press Cable. London, March 12.—Infantry and reserve battalions, both in France and England, coming from Eastern Ontario and British Columbia, are now units respectively of Eastern Ontario and British Columbia regiments, with depots at important army lines and at Seaford. Princess Patricia's are also included as an Eastern Ontario unit.

## Six Reasons

Why You Should Invest in the  
New War Loan

- 1 BECAUSE every dollar invested in the Loan helps twice: first, when you do not spend it; and again, when you lend to the Nation.
- 2 BECAUSE the War Loan is the finest and safest investment in the Land.
- 3 BECAUSE it is your Duty as a non-combatant to back up the Country—under whose protection you are living—with every dollar available for investment.
- 4 BECAUSE Canada's credit, which stands high in the World of Finance, can only be maintained in its present enviable position by making every Internal Loan a success. The result will be certain if everyone who can will help.
- 5 BECAUSE War Time is a period for economy, and economy can be practiced best by allowing no funds to remain idle.
- 6 BECAUSE "The more we get the surer the victory, the shorter the war, and the less it will cost in treasure." —(DAVID LLOYD GEORGE)

### Replies of Sugar Dealers Suggestive of Agreement

By a Staff Reporter.  
Ottawa, March 12.—W. F. O'Connor, the cost of living commissioner, has struck something new in the way of combinations. "Combine" sticks out all over many replies to questionnaires he sent recently to wholesale grocers in Ontario, Quebec and elsewhere, asking where they got their sugar, and whether they had any agreement as to selling prices. The suspicious thing about the answers is that, more es-

pecially those from Ontario, but to some extent those from Quebec, they are all couched in exactly the same language. Evidently an agreement has been entered into as to the form of the answers.

This is in itself a combination under the regulations, and Mr. O'Connor is returning each of them with a warning that prosecutions will follow unless full answers are given. In his opinion, the questionnaires have not been answered properly.

Ottawa, March 12.—According to figures compiled by the bureau of census and statistics, the area sown to potatoes in 1916 was 449,000 acres, or 20,000 acres less than in the preceding year.

### FARMERS ARE INDIGNANT.

Special to The Toronto World.  
Chatham, March 12.—The farmers of the county are highly incensed over the action of the city council in passing a bylaw requiring that poultry and

butter be weighed, and a ticket verifying the same attached. Unless the measure is rescinded they threaten to abandon all stalls. A petition was circulated on Saturday, and largely signed, which will be presented to the council, asking that the bylaw be withdrawn.

## NEW WAR LOAN

There are thousands of people in Canada today who have a nice little sum put away in a Bank, or elsewhere, for a rainy day. That is a thrifty and proper proceeding. The rainy day is here. Suppose the British Empire came crashing down—what would your money be worth then? You are not asked to spend your money, only to lend it, and it will bear a rate of interest which never before has been given on such firm security. It will bear also another more precious rate of interest—that peace of mind, more valuable than many pieces of gold—which will be yours because you have done your duty.

Subscribe, therefore, to the new War Loan to the fullest extent of your resources.

Applications through us will receive every attention, and we will gladly arrange all details free of trouble and expense to the subscriber.

China Bargains Shrewdly Before Entering the War

Washington, March 12.—Further developments looking to a severance of relations with Germany by China were reported today by the Chinese minister, Minister Reisch at Peking, with one prediction that a final rupture might be expected at any time.

It is stated by his wife that William St. Pierre subjected his little girls to periodical attacks, and that he murdered most of the male children born to him. The police will dig up the land around the St. Pierre home and try to verify St. Pierre's story.
