Wage Earners' Act.

In the legislature yesterday after-
noon Liberal Leader Dewar, in the
absence of W. E. N. Sinclair (North
Ontario) introduced an important bill
to amend the mechanics' and wage
earners' lien act. The measure, among
other things, provides that the whole
contract price for any building or
erection should be held in trust by
the owner until all labor and material
has been paid upon or furnished for the
building by the contractor.

EGYPT IS ALARMED AT COTTON PROBLEM

Return per Acre Has Been Decreasing for Past Twenty Years.

Cairo, Feb. 18.—Alarm over the present situation of Egypt's cotton growing industry is expressed in a memorandum to the council of ministers from the cotton research committee. Should the diminution in the yield of cotton continue, the committee says, the result would be a veritable disaster for Egypt. It was just over 100 years ago that Mohammed Ali introduced the cotton plant into Egypt, and the value of the crop steadily increased every year until last year, when it passed the sum of £100,000,000. In spite of all efforts, however, the return per feddan (1½ acres) has in the past twenty years constantly diminished. Although there has been a considerable increase in the area under cultivation, it is stated, the total yield last year was less than it was ten years ago. It was only the exceptional prices ruling in 1920 that produced the record value of the crop. Pointing out the difficulties met with in grappling with the problem, the committee declares that during nine years the administration has been confined to no fewer than seven ministers, and therefore, it is not surprising there had been no continuity in the study of the problem.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Night Up.

Instant relief—no waiting. Your clogged nostrils open right up; the passages of your head clear and you can breathe freely. No sneezing, hawking, snuffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, soothing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

INCENDIARIES IN LONDON ARE GIVEN PRISON TERMS

London, Feb. 18.—The men arrested when an attempt was made on January 15 to set fire to the Vacuum Oil Company's plant at Wandsworth, southwest London, were sentenced today. Two of the prisoners, O'Sullivan and Moran, were sentenced to eight years' imprisonment, and Patrick Kenny was given a term of four years. The men were convicted of attempted arson, being acquitted of the charge of attempting to murder the policeman who arrested them.

Former German Spy Released; Rearrested for Deportation

Leavenworth, Kansas, Feb. 18.—A. Karischmidt, sentenced to serve four years in the federal prison here in connection with a German plot to blow up the tunnel connecting Detroit with Canada during the war, was rearrested at the prison gate today upon his release and will be held for deportation.

Karischmidt was arrested by Leavenworth police acting under instructions of immigration authorities, Carl Schmidt and Fritz Neff, who were convicted with Karischmidt, were released some time ago and also are being held for deportation.

Albert C. Karischmidt was arrested in Marine City, Mich., April 6, 1917, on a warrant charging him with having "set on foot in the United States a military expedition against the Dominion of Canada." A federal grand jury in Detroit subsequently returned several indictments against Karischmidt, and twelve others, charging complicity in numerous dynamite plots, conspiracy to blow the Windsor armories, the Detroit-Windsor tunnel, and the plant of the Peabody Overall Company, Ltd., of Walkerville, Ont. He was sentenced to four years at Leavenworth and fined \$500.

RUSSIA SUFFERING FROM RED REGIME

Speech by Trotsky Admits Chaos in Railways and Rolling Stock.

New York, Feb. 18.—A description of apparently serious conditions in Russia under the Bolshevik administration as taken from Soviet newspapers and other documents, is given in a statement issued by A. J. Sack, director of the Russian information bureau in the United States.

"The official Bolshevik Izvestia of Dec. 28 last contains the text of a speech by Trotsky before the eighth congress of Soviets, in which he declares:

"At present about 14,000 versts (38,000 miles) of Russian railroads are destroyed, so that only the central part, about 15,000 versts, remain intact. Three thousand bridges and

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair, after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

ENGINEERING EXPERT FINISHES EVIDENCE

Testifies on Assets of G.T.R.—Minneapolis Specialist Follows.

Montreal, Feb. 18.—(Can. Press).—After seven days on the witness stand J. B. Berry, the railway engineering expert from Chicago, today finished his evidence before the Grand Trunk arbitration commission, which is seeking to ascertain the physical value of the Grand Trunk Railway system, prior to its being taken over by the Dominion government.

He was followed by Findlay R. McQueen of Minneapolis, who gave evidence as an elevator expert as to the value of the elevator system of the Grand Trunk with inferential references as to the cost of replacement.

It was decided at the cessation of the sitting today that the board should sit for the first of its Saturday sessions tomorrow morning.

TARIFF WAR WITH SPAIN BY FRANCE IS FORESEEN

Madrid, Feb. 18.—Another tariff war between Spain and France is foreseen in Spanish political circles as a result of this government's insistence upon a partial payment of credits advanced to France by Spanish bankers. Announcement is made that payment of an instalment amounting to 35,000,000 pesetas will be made on Saturday, and it is widely reported that France, owing to her inability to reach an agreement regarding a postponement of this payment, intends to adopt in reprisal a virtually prohibitive duty on Spanish wines.

The discovery is the second of its kind made within the last two weeks, the first mastodon skeleton having been found about ten miles from Charleston.

LABOR DENOUNCES REPARATIONS PACT

British Party Demands Reversal of Allied Conduct to Europe and Russia.

London, Feb. 18.—The Paris reparations agreement is denounced in a manifesto issued by a joint meeting of the parliamentary committee of the trade union congress and party. The manifesto also declares that the present unemployment is the direct outcome of the "suicidal foreign policy" and requests not merely reconsideration of the indemnity demands, but reversal of the whole line of the allies' conduct toward central Europe and Russia.

The manifesto attributes the industrial crisis to the impoverishment of Europe thru the war. Millions of

Britain's former customers, it says, are too poor to trade with her; exports to Germany are only one-eighth of those before the war, while the demands for indemnity mean an immense tribute from German industry, which must still further incapacitate the German public from consuming British goods. The shipments to Germany, Russia and Austria are only one-tenth those before the war, which, it is added, suffices to account for the present unemployment.

Referring to the German tribute for forty-two years, it says that "sweeping the world's markets with what are virtually prison-made goods, it will confront our workers with an unprecedented form of competition."

Admitting the obligation of Germany to repair the devastation in France, preferably with German materials, it demands drastic revision of the economic sections of all the peace treaties.

BOARD OF FIVE TO RUN SCHOOLS

Trustee Edmunds of Ward Seven Suggests a Radical Departure.

PAY HIGH SALARIES

Ten Thousand Dollars Each Not Too Much, in His Opinion.

"That a school commission of five members at a salary each of \$10,000 for the removal of the present school trustee system in Toronto would be not only a step in economy, but also a move toward the solution of many of the present school difficulties," is the opinion of F. B. Edmunds, chairman of the finance committee of the board of education.

Mr. Edmunds is a busy educationist. He has the advantage of having been a public school teacher, and upon the completion of his law studies at Osgoode Hall, he secured his LL.B. at Toronto University.

In cities of 10,000 or 20,000, where everybody knows the candidates for trustee honors, the school board will, no doubt, do good work. Said Mr. Edmunds to The World:

"In the matter of finances, too, the representatives we have should be able to exercise expert judgment if we are to have economy. The city of Toronto applies to education this year about \$9,000,000. I have been told by the finance commissioner that we would be responsible for \$6,000,000. Now, I maintain that good work can be done with that large amount should be passed without the closest scrutiny.

Now, what chance have we to do what we should? A board of commissioners, whose business it is to do that, could do it better than a board of trustees. These matters should be handled in a business way.

Teachers' Salaries. "Then there is the matter of teachers' salaries. There are instances where a teacher's salary should be reduced, and it might be very difficult for some time to insist upon a reduction in a teacher's salary in his own ward. It is possible for teachers to see that that trustee is not re-elected, the voters in that small section of the city being persuaded that the teachers know better than the trustees. But when a teacher is getting \$60 per week, or \$3,000 per year, there should be no doubt left that that teacher is earning that salary. There may be teachers, too, who, for personal reasons, have been unduly advanced.

Some Trustees Not Progressive. "Then the personnel of the trustees board is not always the best. There are some trustees who are not progressive. I am not saying anything against any trustee, but these matters are matters of general interest, and it must be remembered that trustees get no remuneration for their services. I would be in favor of trustees being paid a salary. Mr. Edmunds intimated that since the beginning of the year he had been unable to devote more than five hours a day to his business. He was willing to give the time, but was unwilling to have men employed who could give their whole time. They should be very grateful to our trustees for their services," he added.

Mr. Edmunds intimated also that trustees are called upon to decide upon matters sometimes upon which they know very little. "The opinion of experts, such as a school commission, would save a great deal of time and sometimes of friction, too, upon the most vital question to any community."

UNVEIL MEMORIAL TO HEROES OF WAR

Hundred and Forty Former Pupils of Rosedale School Went Overseas.

NINETEEN GAVE LIVES

Dr. Hughes Tells of Great Part Toronto Boys Played in Big Conflict.

An honor roll containing the names of 140 ex-pupils of the school who served Canada overseas during the great war was unveiled yesterday afternoon at Rosedale school, Scarborough.

The roll, which is an illuminated one and handsomely framed in mahogany, is a gift to the school by the Rosedale League of School Art, an organization which has done good things for the school in the past. On it is the names of 140 pupils of the school. Nineteen were killed in action. There are also several names of nursing sisters who were former pupils.

The names of the 19 are as follows: Harvie Asgett, Stewart Boulter, R. Douglas, George Cleal, J. Gordon, P. L. Egan, Allen Denovon, John E. P. Egan, Edmund Gunn, Joseph Hillwell, Trafford Jones, Ernest Kapteff, W. McNeil Munro, Gordon Morley, Sydney McWhinney, George McLean, Allen Townsend, Clifford A. Wells, Roy Wood, Douglas Wright.

The boys as standard bearers. The event was attended by Dr. James L. Hughes, who unveiled the memorial, Rev. Alex. McMillan, Mrs. F. A. Rutter, who has been president of the league for nine years; Major Blaney, assistant supervisor of public school cadets, members of the school league and a number of parents of the children.

The honor roll has been created in the assembly room and at 2.30 yesterday afternoon, all the pupils of the school were gathered there. None of the younger pupils attending. Eight boys carrying Union Jacks acted as standard bearers, and formed an aisle on both sides of which the pupils and guests marched into the hall. The boys were: Keith Barber, Jack Turnbull, Billy Thompson, James Henderson, Harry Clark, Bruce Murray and several others.

Wen World Admiration. Dr. James Hughes in unveiling the roll spoke of the great part which Toronto boys had played in the war. Before the war there had been 44,000 school cadets in Canada, of whom 23,000 were from Ontario, and of these latter 18,000 from Toronto. Most of these boys had enlisted for overseas duty, and in telling of their service to Canada, Dr. Hughes enumerated the great things that they had accomplished. They had won the admiration of the world; had proved equal to the best British troops and more so; they had made Canada proud and respected throughout the world; they had made Canada proud of itself and had helped to win a world victory; had helped to make the world safe for democracy, liberty and justice, and had saved their wives, mothers and sweethearts from undergoing the terrible suffering of the women in Belgium.

Rev. Dr. McMillan spoke in the latter part of the service, and upon the way the boys had answered the call of duty. Mrs. A. F. Rutter eulogized the heroic deeds of the school cadets and the pupils.

MIXED MARRIAGES ARE BROUGHT HOME

Archbishop McNeil Tells of Cost to Catholics in Educating Children.

Lenten Pastoral Says Legal System of Divorce Opposed to Unity of Christian Family.

In his Lenten pastoral, His Grace Neil McNeil, archbishop of the diocese of Toronto, says:

"In Toronto the effect of mixed marriages upon the Catholic body is brought home to us by the fact that every year we pay about \$30,000,000 to educate the children of mixed marriages."

The law, as interpreted in Ontario, forbids a non-Catholic to pay his school taxes to a separate school board, even when he sends his children to a separate school. The cost of the separate school is threatened by the multiplication of mixed marriages, and by the lack of thought for the welfare of the church in the past of too many young people.

Gives Heavens Chance. "It enables the heathen to say to Christian missionaries: 'You have a different religion than we have; give it to us.' In Christian countries it makes Christian efforts appear ineffective in comparison with works carried out by men for worldly purposes. It adds to the difficulties of preserving peace in the world."

The workshop was once but an extension of the family. Today it is the factory, with its hundreds of thousands of employees. Cities grew up around the factories, and the division of the family occasioned by this factor, is carried further by the attraction of streets, shows, dance halls, etc.

Social workers usually realize, at least in theory, the importance of the family as an institution of society. Probably they do not take sufficiently into account that the family of today is a weaker institution than it was before machinery and combinations of capital revolutionized industry.

The pastoral concludes with an urgent appeal that Catholics by prayer and organization endeavor to amend to the law which will give a greater share of taxes on corporations to the separate schools. Why should the separate schools receive nothing from the taxes on the Canadian National Railways, is asked.

MIXED MARRIAGES ARE BROUGHT HOME

Archbishop McNeil Tells of Cost to Catholics in Educating Children.

Lenten Pastoral Says Legal System of Divorce Opposed to Unity of Christian Family.

In his Lenten pastoral, His Grace Neil McNeil, archbishop of the diocese of Toronto, says:

"In Toronto the effect of mixed marriages upon the Catholic body is brought home to us by the fact that every year we pay about \$30,000,000 to educate the children of mixed marriages."

The law, as interpreted in Ontario, forbids a non-Catholic to pay his school taxes to a separate school board, even when he sends his children to a separate school. The cost of the separate school is threatened by the multiplication of mixed marriages, and by the lack of thought for the welfare of the church in the past of too many young people.

Gives Heavens Chance. "It enables the heathen to say to Christian missionaries: 'You have a different religion than we have; give it to us.' In Christian countries it makes Christian efforts appear ineffective in comparison with works carried out by men for worldly purposes. It adds to the difficulties of preserving peace in the world."

TORONTO MAN ONLY WEIGHED 80 POUNDS

Turan Takes Tanlac and Now Weighs 128 Pounds—Had to Quit Work Two Months at a Time, Now on Job Every Day.

"My troubles had pulled me down from one hundred and forty to only eighty pounds in weight, but it's a fact that Tanlac has built me up to where I now balance the scales at one hundred and twenty-eight pounds and I am feeling great. The remarkable statement made by Walter J. Turan, a well-known contracting plasterer, living at 142 Hallam avenue, Toronto, Ont.

"Yes, all before I got Tanlac I was in mighty bad shape. I had no appetite and my food nauseated me so I could scarcely retain a thing. It was the fact that I had been put on Tanlac that I believe is the best medicine ever made breathing very difficult for me."

Tanalac is sold in Toronto by Tamara Drug Stores and by an establishment of agency in every town.

BANKS ARE WILLING TO HELP FARMERS

General Manager Discusses Government's Rural Credits Bill.

The agricultural committees of the legislature yesterday announced the rural credits bill, the passage of which was urged by Premier Drury and others. They urged that the bill was necessary because banks will not advance money to farmers who cannot establish their financial responsibility.

General Manager Bogert of the Dominion Bank, who was present, said the banks were anxious to cater to the farmers and did so. They were not discriminated against. Premier Drury wanted to know whether Mr. Bogert had figures to show the ratio between the total deposits of Ontario farmers in the banks with the total of short term loans to farmers. Mr. Bogert had not the figures available, but he understood the deposits exceeded loans.

Too Early Yet. As for the statement made by Thomas McMillan of Seaforth that there had not been a loss of a single dollar by the rural credit societies of Manitoba, Mr. Bogert pointed out it was too early yet to definitely state whether the banks would suffer a loss or not from advances made to these

MAIL EDITORIAL IS CONTRADICTED

Association Flatly Denies Statements About Deeper St. Lawrence Waterways.

The secretary of the Canadian Deep Waterways and Power Association has issued the following statement: In an editorial in The Mail and Empire of January 18, certain statements are made in connection with the proposed improvement of the St. Lawrence River in order to admit ocean traffic to the Great Lakes, which should not be allowed to go unanswered. In the first place, it is stated that it will require the deepening of lake harbors at a cost of at least \$100,000,000. The fact is that the existing harbors of the Great Lakes have already a depth of water capable of accommodating 75 per cent. of the vessels afloat on the waters of the world today, and no improvement would be necessary unless the busiest of 20,000-ton vessels entering the lakes.

It is stated that the cost of the project would be \$500,000,000 to \$600,000,000. The fact is that the highest of a fiscal engineering estimate which has been made calls for an expenditure of less than \$250,000,000, and at the present time engineers expounded by the governments of Canada and the United States are preparing de-

INCOME RETURNS CITY OF TORONTO

The Council of the Corporation of the City of Toronto passed, on December 6th, 1920, Bylaw No. 8684, which is as follows: "Every person in receipt of an income liable to assessment shall, between the 15th and 25th days of February in each year, forward to the Assessment Commissioner of the City of Toronto, a statutory declaration according to the form referred to in Sub-section 1A of Section 18 of the Assessment Act, showing his total income from all sources during the current year, and in ascertaining such income, Sub-section 2 of Section 11 of the said Act shall apply, provided, however, that this Bylaw shall not apply to persons who have made a return to the Assessor upon request. The word 'person,' as defined under The Interpretation Act, R.S.O. 1914, includes an Incorporated Company. Blank income return forms, for the purpose of making the return under this Bylaw, may be secured at the Assessment Department, City Hall, Toronto, in which office the returns shall be filed and where the affidavit, verifying the return, may be taken before an Assessor. Section 21 of the Assessment Act provides that every person, who makes default in delivering or furnishing his return, shall incur a penalty not exceeding \$100, and an additional penalty of \$10 for each day during which default continues. Toronto, February 11th, 1921.

POWER FIGURES RIDICULOUS

It is stated that the marketing of 4,000,000 horse power of electrical energy in Canada and the United States is very problematical as coal-generated power would be cheaper at distances of more than 100 or 125 miles from the point of origin. This statement is, of course, ridiculous in the face of the fact that power is today transmitted from Niagara Falls to Windsor, a distance of 250 miles, and is sold at a much cheaper rate than was charged for the coal-generated power which preceded it; the house lighting rates in Windsor under Hydro in 1920 being 3.9 cents per kilowatt hour as compared with 12 cents per kilowatt hour charged by the private company for

Mr. Mills declared that the meeting would "empirically protest" against the proposed raise in the tax, but Mr. Everett today says that the sole intention was to bring the minister of mines to explain the government viewpoint in the matter. Further action by the I.L.P. would depend upon what transpired at the meeting.

 I would lie down at night, looked like I was going to die. I suffered with constipation, had dizzy spells, and had a bad stomach. I was almost blind, sometimes I had to go to my work for two months and came very near giving up to a hospital. I was so much about Taniae decided to give it a trial, and it began to pick up from the first, and it wasn't long until I was like a bear. The medicine relieved me of my stomach, my stomach never bothers me, and I never have an ache. My breathing is free and so good, and sound every day. I am back on the job every day, just fine. Taniae is the best medicine ever sold in Toronto by Tam-Sorens and by an establish in every town.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the city by The World Newspaper Company, of Toronto, Limited. H. J. MACLEAN, Managing Director.

Chairman Ellis of the Transportation Commission and His Plans.

The attempt to build sections of what will be the city street railway system on a plan of taxation is theorising without any idea whether it may lead. To help such a scheme the commission is allowing Mr. Couzens, its engineer, and Mr. Fairly, its solicitor, to suggest to the citizens in various ways the wonderful advantages that would accrue from this method.

There is no proof that this cannot be done on a reasonable fare. Chairman Ellis has another scheme with which The World has more sympathy, namely, that the commissioner be empowered to buy up and subdivide blocks of land near proposed lines, and to apply the profit to construction account. A good district to try this on is at Mr. Ellis' hand. Let him give a price on his block of land on Avenue road extended; also Mr. Baldwin on his block of 100 acres just out of the city west of Avenue road; also let some of the other owners nearby do the same; and put say 300 acres on the market. It would sell and pay part of the cost—might pay it all. And there would be no special load put on the taxpayer.

But let us tell the transportation commission that its first and main duty is to take over the Toronto Railway system, and that in connection therewith a new north and south line be built from the Union Station by Bay, Teatula, Avenue road, St. Clair, Mount Pleasant and west to Yonge street at the north city limit, after that an east and west line, also of standard gauge, along the whole of Queen street, thereby letting in all the radicals. After that we can discuss theories. But the Mount Pleasant line has already been approved by the city council and citizens and money voted; and it isn't cricket to suggest something else in its place.

No Time for Strikes. It would be exceedingly unfortunate at this time if the break between the journeymen painters and the master painters should develop into a general building strike. This is the season of the year when the people are hoping for a full speed ahead program, not only in the building trade, but in everything else; but there is to be a deadlock in building, goodbye to any real progress in a big business recovery all over the city. There may have to be some wage modifications, but until the costs of living, rents and other things come down, it is not quite the thing to expect that the mechanic and the workman can make any big concessions, and the master painters must view the matter in this light.

Remarked in Passing. These are sad days for some people. Even the city hall clock doesn't get hit up the way it once used to. Russia's government is credited with imposing fines on those who refuse to go to theatres. If that were in Toronto no fines would be necessary, particularly if the plays were of the kind designed for tired business men.

Trustee Bell had agitated for salaries for trustees before he became one himself. His motion would have been less suggestive.

Speaking of the annoying "rash" of Bohemians, which seems to have broken out in Canada, The Labor News astutely says: "Even Canada's troubles should be made-in-Canada by Canadians."

REJECT FOR RELIEF FIGHTS AT HOSTEL

Immediate Unemployment Outlook is None Too Bright, Bureau Officials Say.

One of the rejects at the Krausman Hostel yesterday started a fight with an official and shortly afterwards found himself locked up in Court street police station.

You cannot get any more relief here, then," he was told. "I can't," he shouted, and, swearing profusely, despite the fact of ladies being present, became very abusive.

Another rejection case was that of a young man of prominent family, who applied for meal tickets as a lark, but whose identity was recognized by a relief official, who also happened to be a friend of the family.

Relief Figures Increase. Yesterday's figures for relief showed a slight decrease, 2,158 all told being given meal tickets for the day.

Government employment bureau figures show 14,138 men as having applied for work to date, of whom 2,425 have been placed. The total registration includes 6,803 returned soldiers and 7,330 civilians.

FAVOR ONE PER CENT. TAX ON TURNOVER

Rotary Club Speaker Urges Substitution for Present Business Impost.

Substitution by the federal government of a one per cent. sales tax on all Canadian business turnover of \$5,000 per year and over, in lieu of the present burdensome business profit tax, which was not only an unfair imposition on one-third of the Canadian farmers, but was holding back young men with capital, capable of putting their big money in the country, to the prospering of the country, was the proposal laid before some 20 members of the Rotary Club yesterday by Rotarian J. F. M. Stewart, director of the Dominion Steel Corporation and manager of the Port Credit Brick Works.

The business profits tax, said he, was strictly a war measure, and when Canada needed capital as never before, it was simply a tax whereby the government took a large share of the profits, if any were made, while if they didn't make money, they didn't pay any. It would simply frighten money away from the industrialists and helped considerably in the pyramiding of profits, thus not only unproductive, but economically unsound. Until industrialists could pay dividends it was a hindrance to expansion and the government would only suffer a postponement of revenue.

Mr. Stewart did not believe the business profits tax would bring in any more than the amount of revenue estimated last year, and that a one per cent. sales tax, as he outlined it, would bring in an enormous revenue and would be cheap and easy to collect by having a report made to the government every month on the business turnover. That industrialists had been imposed Canada could advertise all over the world offering land to prospective settlers without taxation, and the government would be sacrificing a few millions.

"This turnover tax," said he, "would be a budget speech in a few weeks and unless that business profits tax is removed, we shall be burdened for another year."

He also advocated buying at home to raise the value of the Canadian dollar in the United States, and believing it was a great mistake to make loans payable in New York City when we could be paying the interest to our own people.

Colonel Ralston, Halifax, who commanded the 85th Battalion in France, was the guest of the club. He believed that the League of Nations could only be composed of a league of men imbued by the spirit and character

distinctive of Rotary, and said that he would carry with him to Australia a vivid impression of the sincerity shown by the club in the singing of the National Anthem.

Next Wednesday night will be ladies' night, when Rotary will informally celebrate its 16th anniversary.

DAMAGES AGAINST T. S. R.

A jury before Justice Sutcliffe in the artizes yesterday awarded Robert James McKay \$2,750 in his claim for unstated damages against the Toronto Railway Company. Plaintiff sued for damages to himself and a wagon when struck by a street car at Sherbourne and Howard streets, in January, 1919.

DENIES LOCKOUT AT THOROLD MILL

Official of Beaver Board Companies Says Men Are on Strike.

Labor troubles in the Thorold plant of the Beaver Board Companies are not due to a lock-out, but to a strike called by officials of the International Paper Makers' Union at Albany, N. Y., in sympathy with the paper makers' dispute at the Beaver board's mill in Tonawanda, N. Y., according to a statement issued in Toronto yesterday by J. F. Haggerty, vice-president of the companies.

Companies had seized the police authority of Thorold to break up labor troubles there, made Thursday by organized labor leaders who visited Attorney-General Raney, were ridiculed by Mr. Haggerty.

"We have no army of men parading around with shotguns to frighten the laboring people of Thorold," said Mr. Haggerty. "Such a charge is so absurd that it does not call for a denial. The 70 Royal Northwest Mounted Police who are on duty at present in Thorold and vicinity were despatched to that district by Dominion authorities at Ottawa. They were sent there to clean up the entire industrial district after Dominion secret service men had carefully made a survey of the conditions existing there."

"The Beaver Board Companies are not opposed to unions. They have organized union and non-union men without discrimination."

"We have resumed operations at Thorold and are turning out the product of every department. There were more than 800 men at work in the mill today."

LATE MRS. B. B. OSLER LEAVES BIG ESTATE

Division Among Relatives and Bequests Made to Various Charities.

Margaret Emily Scadding and A. G. Ramsay have been granted probate of the will of Mrs. Elizabeth (Lily) Mary Osler, widow of the late B. B. Osler, R.C.C., who died January 5, leaving \$31,472.

The estate consists of half interest in the house at 515 Huron street, valued at \$6,000; cash, \$1,949; bonds, \$25,833; personal and household effects, \$1,500; stocks, \$46,139, the latter including 194 shares C.P.R., \$26,578; 33 Mackay Companies, \$5,532; 35 Toronto General Trusts, \$6,300; 10 Ogilvie Flour Mills, \$1,800; 10 Dominion Bank, \$1,920, and 18 Consumers' Gas, \$3,170.

The will was executed April 10, 1913. Edith Speas Ramsay, a sister, devised the interest in the house at 515 Huron street, the contents, except other specific bequests, and a life interest in 50 shares C.P.R. and following her death, these are to be divided among a sister, Margaret Gordon Ramsay and two nephews, A. Gordon Ramsay and Kenneth A. Ramsay. Under a marriage settlement of the will of her husband, Margaret received \$25,000, and this is to be held in trust for the benefit of her two daughters, Edith S. Ramsay and Margaret S. Scadding. After their deaths, it is to be divided, half between the two nephews, Gordon and Kenneth Ramsay, and the other half to a brother, William T. Ramsay. Walter Francis Ramsay, a brother, receives the income from \$2,000, for life, and after his death it passes to the two sisters.

The sum of \$2,000 is bequeathed to endow a cot in the Home for incurable children, Bloor street, such to be called the Britton Bath Osler cot, reads the will. The Sisters of St. John the Divine receive \$500; a similar sum to Jean Perie, an old and faithful servant.

Requests are also made to various members of the family and personal friends.

CLERGYMAN CLAIMING DAMAGES FOR INJURIES

Rev. A. Ketterson, an Anglican clergyman, who serves covens for three years, is suing the Toronto and York Radial Railway before Mr. Justice Logie and a jury in the assizes for \$2,500 damages for alleged negligence. While crossing the tracks at Lake Shore road and 6th street, New Toronto, in his auto, on June 11 last, he was struck by a street car, and crushed against the side of his auto. He claims \$1,000 for personal injuries and \$1,500 for the damage to the auto. The defendants deny negligence.

COUNCIL HAS MILD AGENDA MONDAY

Will Consider Protest Against Imposing Tax on Power Production.

Unless something unforeseen develops, Monday's session of council will be a short one, as the matters to be taken up are not contentious. Some of the recommendations of the board of control are: That an interim appropriation of \$20,000 be made to the house of industry; that a further grant of \$2,000 be made to complete the public library in Eglinton; that a bylaw be passed to authorize the expropriation for the use of the Toronto Hydro electric system of the properties at 280 to 290 Macpherson avenue; that the street cleaning department, said to be approved, and that a grant of \$4,000 be made to the L.O.E. Preventorium; that an appeal be also recommended to the board to abolish the amusement tax, and that a protest be registered against the proposal to impose a tax of \$2 per horse power on production of power.

For Widening Yonge.

A bylaw will also be before council calling for the expropriation of land at the corner of Yonge street and Glencairn avenue, which is required for the widening of Yonge street. The board is also recommending that northward has not yet been authorized by council, but early action in this respect is anticipated.

CHINAMAN IS BIGAMIST.

Three months at the jail farm was the sentence Judge Coatsworth imposed yesterday on Chu Fai, a laundryman, convicted of bigamy.

MAIL AND WIRE REPLACE DRUMMER

James L. Knowles' Prediction in Action Against Wholesale Grocers' Association.

Further evidence was heard by Justice Ure yesterday in the action brought by the attorney-general of Ontario against the Canadian Wholesale Grocers' Association and others for a declaration that certain trade agreements entered into by the defendants were illegal and for an injunction to restrain them from carrying such agreements into effect.

Robert Dawson, president of the York Trading Co., in answer to I. F. Smith, A.C., acting for Macdonald & Leam, said that there were very few instances when justice was bought from manufacturers and were created as retailers. He did not desire to have any restrictions put on trade.

In reply to Justice Ure, witness declared that if anyone walked into his store he would be compelled to sell to him, which brought from his lordship the remark, "That's a new theory."

Deals With Retailer.

James L. Knowles, replying to A. W. Roebuck, for the attorney-general, said he was with Wholesale Grocers' Association for one year. Their trade was chiefly with retailers outside the city. They employed two salesmen. His firm maintained set prices on 80 per cent. of proprietary goods. Some competitors, said witness, were selling an article at a margin of less than two per cent. He preferred not to divulge the names of wholesalers who cut prices on proprietary articles, as the practice affected seventy-five per cent. of the having seen the invoices. Justice Ure said these people should be subpoenaed to attend and bring the invoices.

"Drummers" Not Needed.

Under cross-examination, Robert McKay, K.C., Mr. Knowles contended that well known "drummers" would be supplanted by the telephone, telegraph and mail. The witness system their overhead cost was six and a quarter per cent. In his business he did not consider travelers necessary.

Witness was confident that all retail business of the world, as well as manufacturers and wholesalers businesses, could be done on cash basis.

"Do you recognize the fact that the world could not go on for a day if it were not for pay cash?" asked Mr. Hellmuth, who continued, "Do you not recognize that the bulk of business of the world is done on credit?"

"Yes," replied witness.

"Could the unemployed get groceries if they had to pay cash?" "Yes," they were thrifty and had saved up money," replied witness.

GRANDCHILDREN LOSE IN APPEAL OVER WILL

George Sheard died leaving \$128,000, and by will bequeathed \$12,000 to be distributed among five grandchildren, the children of a daughter, Caroline, who had died eight years before the making of his will. A clause in the will provided that the share of any child should, in the case of the death of that child, be distributed among the children of such child. The five grandchildren claimed to be entitled under this clause, but in addition to the specific bequest, Justice Orde held that the mother, having died before the making of the will, took no share, and that the grandchildren could not share in the residue.

The appellate division yesterday morning gave judgment upholding Justice Orde's view, and dismissing the appeal on behalf of the grandchildren.

ALL OFFICERS ELECTED ARE TORONTO PEOPLE

The Ontario Granite and Marble Dealers' Association, closing its annual conference at the Caris-Ritz yesterday, has broken its records by electing Torontonians to all offices.

R. H. Hilsenrath, president; H. S. McLeod, first vice-president; D. T. McIntosh, second vice-president; C. W. Wardell, secretary-treasurer.

Ninety Ontario firms and companies are present convention and are interested chiefly to plans for creating a high standard of memorial art in Canada and protecting the public in the matter of cemetery regulations.

Music...
The Birthright of Every Child

Through music the child enters a world of beauty and harmony. Music makes it possible for the child to know of the joy of creating, helps widen sympathies, develops the mind.

By all means teach your children to appreciate and love music. Children may absorb a love of music as they absorb air and sunlight. If you plant the love of music in their hearts while they are young, you will have given them a companion for their every mood, a well-spring of joy and a softener of sorrows.

Not only the children, but mother and father, the big boys and girls will each enjoy the music of a good violin.

CO-OWNERS OF CARS LIABLE FOR DAMAGES

When one co-owner of an automobile takes friends for a free ride, even without the knowledge of the other co-owner and negligently runs into danger, both co-owners are under the Ontario motor act, equally liable in an action for damages brought by their injured friends.

Such was the decision yesterday of Justice Middleton who awarded Geo. Parlov \$1500 damages against John Lozina, who was driving the car, and George Raelovich who was co-owner of the car. Lozina drove Parlov and ran in front of a street car, with the result that one man was killed and Parlov lost four teeth and had a rib broken.

HOCKEY ARGOS 5 AURA LEE 4

CORNWALL READY FOR SEMI-FINALS

Aura Lee Cut Margin on Round to Five Goals.

Toronto has only one team left in the running for the junior O.H.A. title. Aura Lee found the eight goals that much too large and could only cut the margin by three in the eastern game at the arena last night.

The team that eliminates Cornwall will be just about good enough to win the title series. Cornwall's margin of five goals and body work will not be enough to get them into the final game.

Richman was the outstanding player for Aura Lee. He played his best game of the year and scored himself out with efforts to get the scoring started.

Seathorn, Feb. 18.—In a semi-final at Junior O. H. A. game, played here tonight between Stratford and Seathorn, the result was 10 to 4 for Seathorn.

Two games on card. This afternoon there will be a doublet at the arena. At 2:15 o'clock Hamilton Beavers tackle De La Salle in the second of their home and home games in round three.

At 7:15 o'clock the first game of the day will be played between Stratford and Seathorn. The teams will meet at 7:15 o'clock.

BRITAIN'S RELATION TO THE DOMINIONS

Interesting Aspects of Question from Australia and New Zealand.

London, Feb. 18.—Interesting aspects of the question of the relation of the mother country to the Dominions are brought out by cables from Australia and New Zealand appearing in the London press today. Premier Massey of New Zealand, according to a Wellington cable to the Times, repudiates the suggestion recently made in some quarters that each nation within the empire is free to do as it likes.

WAVE OF PROHIBITION NOW STRIKES DENMARK

Copenhagen, Feb. 18.—A bill for prohibiting the importation, manufacture and sale of spirits and strong wines was introduced in the rigsdag yesterday by the prohibition group. Property Committee Agrees to Purchase of Considerable New Equipment.

ESTIMATES CURTAILED

Recommendation for Costly Civic Garage Withdrawn By Commissioner.

The estimates of three departments, fire, property and the architect's, were reviewed by the property committee yesterday and some reductions were made. Fire Chief Russell's recommendation for the purchase of new motor equipment at a cost of close to \$100,000 was endorsed "in the interest of economy." These additions will, with a few minor exceptions, motorize the whole system. In the expectation that council will approve of the buying of motor equipment, the committee struck out \$1500 for the purchase of more horses.

The fire chiefs estimate of \$1,309,475 for maintenance was left intact, and his request for \$184,919 for new equipment was cut down by \$25,475. Instead of providing for four combination hose and chemical trucks, gasoline driven, at a cost of \$46,000, the committee approved of the purchase of two.

About \$155,000 increase in maintenance estimates is for salaries for additions to the force, made necessary in order to inaugurate the one-day-off-in-seven system. The total estimates as passed are \$7,460,000 against an expenditure last year of \$1,987,488.

Architect's Estimates. The architect's estimates, totaling \$134,650, were sent along without amendment. The expenditure last year totaled \$112,187.45.

Salaries are put in at \$124,500 against \$102,677.05 expended last year. Architect Price adds to his statement the following footnote: "The above does not include salary increases, which amount will be sent on at a later date."

The chief extra outlay is \$5000 for plant and equipment for day labor work and \$2800 for a new motor car for Mr. Price's use. His old car is worn out.

Property Estimates. Property Commissioner Chisholm prepared estimates totaling \$1,296,651 for maintenance and \$460,000 for capital account, \$400,000 being for a new reception hospital and \$60,000 for a civic garage. He voluntarily withdrew the \$60,000 item, and the committee cut a few thousand off the \$1,336,651. They added \$2500 to provide for the lowering of the fire hall on Ford street. Some of the items cut off by the committee were: \$4000 for the erection of a garage on Agnes street to house police cars awaiting repairs and also stolen cars; \$15,000 for the rebuilding of tax wickets in the main corridor of the city hall and the main corridor of the police station, but the committee decided to inspect this station on Monday before passing the items. "The coils are not fit to put human beings in," said Chairman Burgess.

WILL UNVEIL MEMORIAL IN ROSE AVENUE SCHOOL

A handsome tablet in honor of the 264 ex-pupils of Rose Avenue School who served overseas, will be unveiled in St. Simon's Parish Hall, Howard street, on Tuesday evening next at 8 o'clock.

The names of these pupils are on three brass plates, with those of the heroes who still "sleep in Flanders fields" on the centre plate. Forty-five names appear on this plate, among them one nurse. The whole is framed in bronze suitably engraved to commemorate the honor these pupils have brought to this school. All ex-pupils and friends are being invited.

STRUCK WIFE ON FACE; HUSBAND UNDER ARREST

Two badly discolored eyes and severe bruises about the head placed Mrs. Lena Watson, Virginia lane, under a physician's care and her husband, George, in custody. George Watson was arrested last night by Detectives Black and Donaldson on a charge of aggravated assault.

Watson, the police claim, returned home drunk yesterday afternoon, and after having odds with his wife struck her several times in the face with his fist. The police were notified and the man was placed in custody. Mrs. Watson, altho her condition, the police say, aranted it, refused to go to a hospital. She is in her home under a doctor's care.

PROPOSE INCREASE FOR PROPERTY COMMISSIONERS

At the meeting of the civil property committee yesterday afternoon, it was decided to recommend to council that the salary of Commissioner Chisholm be increased from \$6,000 to \$7,000 per annum. Mr. Chisholm has held his position for about ten years and received the appointment during his term as alderman for ward one.

ANNOUNCEMENT

To the Theatregoers of Toronto

It affords me great pleasure to announce that starting Monday night, February 28, will be presented at the Royal Alexandra Theatre, for a special limited engagement, the most interesting and unusual attraction ever offered in Toronto.

It will amaze, delight, and thrill you. It is not drama; it is not opera; it is neither tragedy, comedy, or pantomime; nor can it be called poetry or painting!

And yet, you will find it compact of all these arts--A NEW AND AN EIGHTH ART--combining the beauties of the others and welded into a perfect whole by one of the master magicians of the age.

Respectfully,
L. SOLMAN,
Royal Alexandra Theatre.
