Japanese Imperial Diet Dissolves Amid Scenes of Disorder

PREMIER REFUSES TO PLEASE FRANCE

FLASKS AND FISTS USED IN HOUSE

Japanese Diet Dissolves Amid Turbulent Scenes in Tokyo.

PROBE TRAIN WRECK

Premier Kiyoura Refuses to Reply to Questions From Foes.

(By Canadian Press.)

Tokyo, Jan. 31.—The Imperial Diet was dissolved today following scenes of the greatest disorder in which water flasks were flung and fists used. The disturbance resulted from attempts of the opposition to interpellate the government regarding the attempted wrecking of a train at Nagoya carrying opposition leaders to Tokyo.

The turbulent scenes which occurred in the Lower House made further business impossible.

The outbreak came shortly after the representatives had taken their seats upon the resumption of the Diet session.

Reply Is Demanded.

Interpellating the Government in connection with the train wreck, in which three prominent opposition leaders escaped injury, although the engine of their train was damaged, the foe of Premier Kiyoura and his newly-installed cabinet demanded that the Premier reply personally. Kiyoura, however, refused to rise.

Great Disorder Ensues.

Great disorder immediately ensued, amid which Kenjiro Komatsu, Minister of Commerce, and a member of the House of Peers attempted to reply to the interpellations.

In the confusion an agitator, not a member of the Diet, rushed to the platform and thrust Komatsu aside. A riot followed. The legislators used water containers as missiles and several engaged in fist combat.

Hostilities continued until the Speaker of the House hastily declared a temporary adjournment, which was followed by dissolution of the Diet.

The political situation in Tokyo is the tensest in years.

NO MINISTER YET

Hon. Mr. King Speaks of Report That Sir A. Currie Goes to Washington.

Ottawa, Jan. 31.—The Canadian government is not at present considering the appointment of a minister to Washington. This was indicated in a statement made by Premier King last night in reference to newspaper reports suggesting the name of Sir Arthur Currie with the proposed post.

Miami Raffles Caught at Last

Miami, Fla., Jan. 31.—P. N. Harrington, alias W. R. Herron, confessed, according to the police, who caught him leaving a house he had just robbed, to fifteen robberies here, thus ending a mystery which has baffled the authorities.

Harrington, who registered as coming from Pittsburgh at a fashionable beach hotel, bathed in the daytime, enjoyed a nap in his room before dusk, and looted residences in the early hours of evening. Then he danced until the small hours of the morning. He had bought an automobile and paid his room rent up until the first of March in expectation of a rushing and undisturbed business.

He said, according to the police, that he shipped his loot to "fences" in New York and Chicago. If his plunder was not particularly valuable it was thrown into the bay.

Attempt on Life Of German Mayor

Paris, Jan. 31.—A Havas despatch from Frankfurt says that Ernest Gunninger, deputy mayor of Frankfurt, was shot in the back by a man in a dark coat, who fled in a motor car. Gunninger was not seriously injured, but was taken to a hospital in an extremely grave condition. Gunninger is said to be sympathetic with the movement for an autonomous government in the Rhineland.

Schwab, steel magnate and principal holder in the Stutz Motor Car Company of America, Inc., announced that he had presented one of the "Speedway Four" models to Sir Robert Horne, former Chancellor of the Exchequer of Great Britain.

The car, which happened to be available at the salesrooms of the New York distributor, was placed aboard the Majestic at Mr. Schwab's orders so that there would be no delay in presenting it to the illustrious Briton.

The car was presented to the chancellor as a mark of the high regard in which he is held.

NO MONUMENT

Lening's Widow Would Use Money in Honor of Husband, in Useful Works.

Moscow, Jan. 31.—"Krupskiy," Lening's widow, has publicly appealed through the press asking that no money be "wasted" in erecting monuments in honor of the late Premier. She says Lening gave little thought to such honors. She requests that if the country desires to honor her husband, the money be put to use in the movement for nurses, kindergartens, orphanages, schools, hospitals and such institutions for the relief of the suffering people.

Plans had been under way to erect monuments to Lening in half a dozen cities.

PROVINCES' FARM GRANT IS CUT OFF

Notice of Intention of Government is Sent to the Ministers.

ACTION FORECAST

Heavy War Burden is Given as Excuse for Withdrawing Aid.

(By Canadian Press.)

Ottawa, Jan. 31.—Notice of the intention of the Federal Government to discontinue agricultural grants to the provinces has been sent out to provincial ministers of agriculture.

This action was forecast some time ago when a delegation representative of the provinces interested waited upon Premier King and urged that the grant be continued. The premier told the delegates that the Dominion Government was carrying a very heavy financial load as a result of the war and did not feel that it was in a position to continue the grant. He mentioned that the Federal Government maintained a large department of agriculture which was of benefit to the provinces.

The agricultural instruction grant was made to the provinces two years ago and at that time totalled \$600,000 per annum. During the ten year period it grew to \$1,100,000 a year. Last year the Government reduced it to the original amount of \$600,000 by withdrawing the aid.

SETTLE DOWN TO FINANCE PROBLEMS

Experts Work on German Inquiry—Two Committees Are Busy.

Berlin, Jan. 31.—The scene of the inquiry into German finances shifted to the capital of the Reich today as the first committee of experts, headed by Brig.-Gen. Charles G. Dawes, settled down for perhaps two weeks of work on Germany's budget and currency problems.

Assurances of the complete cooperation of the Government by all of its financiers and banks, it appeared, would make the experts' task chiefly that of formulating their conclusions from the vast amount of data which will be laid before them.

The Government itself has prepared a budget for the current year, computed on a gold basis, which it hopes will help stabilize the mark and facilitate the flotation of a new gold currency issue.

The experts also will be confronted with exhaustive information on Germany's fiscal condition.

Tomorrow will find the second committee, headed by Reginald McKenna, of Great Britain, opening its inquiry into the export of the Reich's gold, a return of which it is felt, is of first importance in putting Germany on a "paying basis."

The members of the second committee, including Henry M. Robinson, of the United States, arrived from Paris last evening.

Boxing Promoter To Be Prosecuted

Hull, Jan. 31.—If the U. S. authorities will prosecute Ray Cass of Somerville, Mass., and pay the reasonable traveling expenses of witnesses from Nova Scotia, the Attorney-General's department of Nova Scotia will not press for the extradition of Cass, boxing promoter, who is being held in Boston for hearing in federal court there on a charge of piracy on the high seas in connection with a raid on the Nova Scotian schooner J. Scott Hankinson.

Wanderlust of Man Wins Annulment

New York, Jan. 31.—Justice Starbuck has granted to Mrs. Augusta Freeman, a school teacher, 379 Van Stollen avenue, an annulment of her marriage to Charles Freeman. The couple were married in Philadelphia, Pa., in 1912. Freeman said, according to the wife, that he was going into business and would make a proposition for his wife in Flatbush. She subsequently, she said, he told her that he had the "wanderlust." She stated him as saying "I've simply got to see California."

Justice Hagarty found that the couple had never lived together and that the defendant "was afflicted with the habit of wandering, and disappeared soon after the marriage ceremony." There was no divorce.

ANDERSON GOES ALONG WITH WORK

Anti-Saloon League Leader in New York is Upheld by Minister.

New York, Jan. 31.—The decision of Wm. H. Anderson, secretary of the Anti-Saloon League, that he will not affect his relations with the New York State branch of the organization. Mr. Anderson will remain in his position as state superintendent pending his appeal.

"I am not surprised at the action," said Mr. Burrell. "He was disappointed all along. It is entirely proper that I should have confidence in Mr. Anderson. He is an honest man and I believe that only my fellow directors are responsible for the cause of the present situation. His usefulness is increased by the vain assault upon his integrity."

WOODEN FLEET TO MAKE BONFIRE

U. S. Ships Costing Hundred Millions Are to Be Destroyed.

Washington, Jan. 31.—Plans will be written to the history of the wooden fleet of the United States Shipping Board this week. Nearly 200 vessels, on Germany's budget, and such vessels \$100,000,000 will go up in smoke. It will be the greatest bonfire the Potomac has ever seen. It is all that now remains of the fleet which numbered in the thousands.

For the last year the hulls have been assembled in the river, a few miles below Washington, by the wrecking company which bought them from the Shipping Board. They have been stripped and dismantled. They are now being beached on the flats near Alexandria, preparatory to applying the torch.

GAIN OF MILLION

Prediction of Increased Gross Earnings by British Empire Steel Corporation.

Montreal, Jan. 31.—Reporting yesterday's meeting of the directors of the British Empire Steel Corporation here, the Gazette says:—President Roy M. Wolvin of the British Empire Steel Corporation said last night that there was no announcement to make regarding yesterday's meeting of directors here, which, after a protracted session, adjourned until Thursday. The meeting has an object which means much to the corporation, for with a stable labor situation the outlook for the company would be greatly enhanced.

The forthcoming annual statement will probably show the preferred dividends earned, with the entire balance over and above this taken up by depreciation. Gross earnings will be more than a million dollars above those of 1932, while a bank loan of approximately \$1,200,000 will be partly offset by credit cash balance of about \$700,000.

TRIES TO SWALLOW A BUTCHER KNIFE

Chicago Man Seeks to Copy Sword Swallower's Act; Is Dying.

Chicago, Jan. 31.—After watching a sword swallower perform at a vaudeville theatre, Jacob Euzelle thought he would attempt to master that classic art. He purchased ten butcher knives, and on his arrival home started to practice. But one was enough. The first blade stuck in his throat. His frantic family called a physician who ordered Euzelle removed to a hospital, where it was reported last night that the young man was dying.

Other Results France defeated Belgium 7 to 6, ending the elimination contests in the second half of the draw. The results in the first round were: United States, first, won 8, lost nothing. Great Britain, second, won 2, lost one. France, third, won 1, lost 2. Belgium, fourth, won nothing, lost 2.

Heller, 21, of Kalispell, Mont., students of the University of Montana at Missoula, are under arrest in that city charged with robbing the Missoula Post Office of \$30,000 currency. The money had been consigned from Spokane to the Missoula Trust Company. The three students confessed, according to Post Office officials, and declared they had concealed the money under a bridge over the Missoula River. The money was recovered. When they committed the robbery the men were masked.

NO PROGRESS AT ULSTER CONFERENCE

Representatives Meet Those of Free Irish State to Reach Settlement.

ORDER RESTORED

President Cosgrave and Sir James Craig to Meet on Friday.

(By HARRY N. MOORE)

London, Jan. 31.—Little progress is expected at the conference over which Sir James Craig is presiding today between representatives of the Irish Free State and Ulster, looking towards a full and final settlement of the boundary problem. Both sides are fighting shy of the real issues preferring a-bombing discussion in place of real action in view of the possibility of Ulster's inclusion in the Free State in the near future.

Undoubtedly there has been a very great change in the attitude of Ulster on the question during the last few months and this is probably due to the fact that the Dublin government has restored order and has begun a programme of really constructive measures. The Free State authorities have treated the Protestant minority with great generosity while the success of the new loan has been a factor also in the change of viewpoint of Ulster.

Quebec Forbids Building Border Houses; Step Taken in War Against Bootleggers

Quebec, Jan. 31.—Trouble is brewing for bootleggers and others who take advantage of international and interprovincial conditions for unlawful purposes. Honore Menard, Minister of Lands and Forests, will introduce a bill to prevent the building of houses on international and interprovincial boundary lines, and the United States and sister provinces in Canada are expected to enact similar legislation.

Under the projected bill it will be impossible to build a house partly in Canada and partly in the United States, or partly in Quebec and partly in Ontario, or partly in Quebec and New Brunswick. Houses under this law cannot be built within sixty feet of the border line of the Province of Quebec in either direction. When the United States, Ontario and New Brunswick pass similar legislation it will become harder for bootleggers and others engaged in unlawful commerce to carry on.

As things are now, a house can and it is difficult to make an arrest. It is impossible for an officer of Quebec, the United States, Ontario or New Brunswick, as the case may be, to establish in what jurisdiction the offense was committed.

The bill proposed here is a recognition on the part of the Quebec Government of the fact that while Quebec is a wet province, our neighbors are not, and that friendly relations require that we aid our neighbors.

AMERICAN TEAM LEADS IN HOCKEY

Canadians, Winners of Other Half of Draw, Play British Friday.

Chamonix, Jan. 31.—The U. S. Olympic hockey team defeated Great Britain today 11 to 0, clinching first place in its end of the draw and reaching the semi-finals. The Yanks play the second team in the upper half tomorrow, probably Sweden, while the Canadians, winners in the other half of the draw, meet the Old Country team.

The U. S. players opened with a rush. Drury scoring from a pass from Rice fifty seconds after the period began. The British attack opened against Small at right defence, but he hoisted the puck and took it down the ice from in front of his own goal, scoring unaided.

Britain then changed Pithblado and Holmes into the forward line, bringing back Caruthers and Sexton. This so stiffened the Britishers' defence that it was only after five minutes of play that Rice, in combination with Drury was able to eke the third goal.

He repeated again a minute later on a long shot from seventy yards off. Drury then scored from a mislay in front of the British goal. He ended the tallying for the period with a brilliant run straight down the ice. Frank Sinnott, of Boston, replaced McCarthy at right wing two minutes before the whistle.

Other Results France defeated Belgium 7 to 6, ending the elimination contests in the second half of the draw. The results in the first round were: United States, first, won 8, lost nothing. Great Britain, second, won 2, lost one. France, third, won 1, lost 2. Belgium, fourth, won nothing, lost 2.

NO STRIKE CHANGE

Future Negotiations in Cape Breton Walkout May Be Carried Out in Montreal.

Sydney, N. S. Jan. 31.—Apart from efforts of the city authorities to secure stocks of coal for domestic use from the province, there are no important developments in the strike situation this morning.

A suggestion that future negotiations may be carried out at Montreal and direct between President Wolvin and Indianapolis is received with satisfaction here because it is regarded as a move to save time and effect an early settlement.

The previous negotiations at Glace Bay have been greatly retarded by the necessity under which Provisional President Barrett and his associates labored of being obliged to refer every new development to Indianapolis for decision and instructions, and it is regarded as desirable to drop the second round of negotiations altogether and have President Lewis and President Wolvin deal with the situation directly. In that way a quick decision for peace or war should be reached sooner.

LETTERS ARE MAILED TO POINCARE

Exchange of Communications Evokes Little Comment in the Press.

PUBLIC MEETING

Liberal Newspapers Can See No Change in Situation, They Say.

(By Canadian Press.)

London, Jan. 31.—The exchange of letters between Premiers MacDonald and Poincare regarding a complete Anglo-French understanding, evokes but little comment from the newspapers pending publication of the texts, but such as has appeared does not build much hope for an improvement in the relations between the two countries.

The Morning Post today says many bright hopes were awakened by a similar communication in the past, the public, however, must await some light as to the progress of the negotiations thus initiated before it can be assured of better prospects now. The newspaper, sympathetic to France, thinks it good that Mr. MacDonald approached Premier Poincare in a friendly spirit, and says "if he can see the French case," the difficulties are half overcome.

See No Improvement. The Liberal press, consistent opponents of the French policy toward Germany, asserts in effect that improvement cannot be expected until France abandons her present attitude.

"Until France's annexation policy is abandoned it is impossible for France and Great Britain to work together." Security Is Questioned.

The Daily News remarking at "the noticeable change in French public opinion in recent weeks," attributes this doubt among Frenchmen as to whether the kind of security Poincare has offered is any security at all. It is the task of Great Britain, continues the newspaper, with all the forces of international good she can mobilize to persuade France that there are better ways of making her safe from attack than by keeping control of the railway systems of Western Germany and reducing Europe to ultimate chaos.

Blame Winter Trip For Loss of Dixmude

Paris, Jan. 31.—The report of the commission which investigated the loss of the dirigible Dixmude finds that the principal cause contributing to destruction of the craft "was its employment during the winter season," when few sheds or refuges were available and when "any reliable weather forecast for her return was impossible." A second commission has been appointed to determine whether higher officials shall be held responsible.

Philadelphia, Jan. 30.—Brigadier-General Smedley D. Butler, director of public safety, has emerged victorious in his first encounter with a group of politicians who sought to interfere in behalf of a police lieutenant demoted because of alleged inefficiency during the director's latest offensive against vice and crime.

In his terse and emphatic manner, General Butler told the politicians that he was boss of the police, and that any sign of political interference would result immediately in his resignation. The Mayor upheld Butler's action.

CORNER KING LONDON HOUSE

EVENING TIMES-STAR MAGAZINE PAGE FOR THE HOME

THE POISONED GIRL
BEGIN HERE TODAY
A novelist, seeking nocturnal adventures, finds a girl in evening dress in Grosvenor Square, London. The girl informs him that she has been poisoned and wants to die. To all his pleading she answers "Go away."

NOW GO ON WITH THE STORY
In the morning she had had an internal lucidity, for now she was again rather comatose. She did not seem to recognize me, though I pressed a lax hand and reminded her of the incidents of the night. It was only when I pronounced the name of Scarlati that she revived: "Oh, where is he?" she asked. "Where... yes, I remember you now, where is he?"

"What!" I shouted. "You... cur!" and in my anger stepped toward him, so that he ran to the end of the room, interposing a table between us. "Marry!" I repeated. "Well, here's a pretty situation! How can I go back and tell her that? But, look here, how dared you start a love affair with her if you were already married?"

"I couldn't help it," whined Scarlati. "It wasn't I who started it."
"Impossible. I have a message for you from Lady Grace Tarsel." He gazed at me in horror, and meanwhile I surveyed him. He was not at all repulsive; he wore his hair very long and had one of those romantic mustaches, but he did not look too Italian. His hair was black, but reasonably thick; also, he had certainly shaved close and had a beard.

THE OLD HOME TOWN

By Stanley

HANK BOYNTON, COAL DEALER, REPORTS TWO EXTRA LARGE CHUNKS OF COAL WERE TAKEN OFF HIS PREMISES BETWEEN 8PM AND 6:30 A.M.

"What time is the train?" asked Scarlati.
And now I had to land on the European Continent an entirely unknown music mistress of whom all I knew was that she was French, maiden name Jeanne Darbot, aged about forty, red-haired, and a fine woman. There were probably lots of Darbots; as for the other details, Europe simply hummed with them. It was not until the evening that it struck me that Madame Scarlati, being French, could have fled only to France. Born in the provinces, she would return to her birthplace.

BERNICE DRYER.

New York—Personality and appearance is what elevated Bernice Dryer of this city from stenographer to head of her own successful employment agency.

Personality and appearance, Miss Dryer maintains, is what can produce the same results for others.

"The girl who wants to be a success in New York must know how to dress," she repeats, "and she must have a winning personality, besides knowing her typewriting and stenography."

But, school girl or college grad, her opening wedge into business must be stenography, Miss Dryer asserts.

New Start.  
"The college girl often fails to realize that her education, however extensive, has been almost entirely theoretical and that she must start all over in the business world," she explains.

"The fear of losing her job keeps many a woman at work in which there is no advancement, Miss Dryer says.

Beware Ruts.  
"Never stay more than three years in any place unless you are advanced in salary and in position," she advises.

"Otherwise you limit your possibilities and are getting into a rut," she says.

SOCIAL SERVICE COUNCIL HEARS NEW YORK SPEAKER IN FINE ADDRESS

Matter of Budget Increase is Referred to Executive Committee.

In the second full day of its seventh annual convention, the Social Service Council of Canada heard stirring addresses. Miss Julia C. Lathrop, Washington, D. C., founder of the Children's Bureau of the United States Department of Labor, spoke of maternity welfare projects in the United States and also on democratic society and social welfare. Kirby Page, New York secretary of Fellowship for a Christian Social Order, spoke of the role of the church towards industry, and Rev. James Smith, D.D., principal of Wesleyan College, Montreal, on the message and mission of Christianity in the morning and afternoon in St. John's (Stone) church and at the public gathering in St. Andrew's church in the evening. The delegates were entertained at luncheon at noon by the members of the I. O. E. and in the afternoon visited the Health Centre. Afternoon Spent on Finances.

The chief business of the day consisted in dealing with finances and the whole of the afternoon was devoted to a debate on whether the budget for the coming year should be no greater than last year or whether the budget and the appointment of necessary secretarial staff to carry out the extended programme should be left with the incoming executive. The resolution to refer these two matters to the executive was put forward by Dr. J. G. Shearer, on behalf of the retiring executive, and was finally carried by a vote of 28 to 8.

Rev. W. E. Millson, of the Social Service and Evangelism Department of the Methodist Church, moved and Rev. Canon Vernon, of the Anglican Social Service Council, seconded the motion that no increase be made in the budget in view of the present financial stringency throughout the Dominion. The amendment was lost by a vote of 14 to nine. It was Dr. Shearer's claim that the unionification plan already adopted called for extended work.

The report on criminology was given at the morning session and juvenile courts heartily endorsed by very many of the speakers.

Evening Session.  
At the evening session the vocalist was E. C. Lawrence whose singing so delighted the audience that it over-

SISTER MARY'S KITCHEN

(Unless otherwise specified, these recipes are planned for four persons.)  
LIVER.  
Calf's liver has become quite a delicacy and almost impossible to get in some markets without a previous order. Although high in price there is no bone or waste and comparatively little shrinkage during cooking. One pound of liver should serve four persons generously.

Beef liver is never as high in price as calf's, but neither is it as desirable. The flavor is not as delicate and the meat is not as tender. However, if carefully cooked it makes a most appetizing dish and quite an economical one.

Pig's liver is the least desirable of all and quite cheap. This requires exceptional care in preparing and cooking to make it palatable. If boiling water is poured over the liver first, boiling scalded water the second time the rather strong unpleasant taste is overcome and the liver can be used just like calf's.

No matter how the liver is to be cooked or what kind is used it should always be allowed to stand in boiling water for a few minutes before the final cooking.

Liver and Bacon.  
Three-quarters pound sliced liver, 14 pound thinly sliced bacon, beef, salt and pepper.

The liver should be cut in slices about three-eighths of an inch thick. Four over boiling water to more than cover and let stand five minutes. Lift the slices with a fork that each may be well covered with water. Drain.

Season flour with salt and pepper and dip each slice in flour. Fry bacon in hot frying pan and put on a hot platter. Put in a hot place. Fry liver in the bacon fat, first on one side and then on the other. The liver should be well cooked but remain soft and tender. Serve on the platter with the bacon.

Liver Savorry.  
One pound of liver, as many sliced of bacon as there are slices of liver, 4 tablespoons finely bread crumbs, 2 tablespoons finely chopped salt, 1 teaspoon minced parsley, 1 teaspoon powdered thyme, 1-3 teaspoon grated lemon rind, 1 egg, milk, salt and pepper, 1 tablespoon flour.

Slice liver three-eighths of an inch thick. Mix bread crumbs, salt, parsley, thyme, lemon rind, salt and pepper. Add egg, unbeaten, and enough milk to make moist. Spread each slice of liver thinly with the dressing, cover with bacon and arrange in a shallow pan. Pour in boiling water to half cover liver. Cover with heavy brown paper rubbed with bacon rind and bake slowly for half an hour. Remove paper, increase heat and broil in hot place. Remove meat to a hot platter. Mix flour with salt and pepper and add water slowly to make a smooth paste. Add enough boiling water to the liquor in the pan to make one and one-half cups. Let boil up and stir in flour. Boil two minutes and pour over meat. Serve very hot.

Liver Smothered in Onions.  
One pound liver, 8 medium-sized onions, bacon fat, salt and pepper, flour.

Slice liver not more than one-quarter inch thick. Pour over boiling water and let stand 10 minutes. Drain and dip in flour. Peel and slice onions. Melt bacon and fry to a light brown. Add liver, season with salt and pepper on both sides. The onions will cook and cook until tender and brown time to cook while the liver is cooking. Serve the liver surrounded by the onions on a hot platter.

TELLS OF IDEALS OF CANADIANS

Dr. Robert Norwood Gives Fine Address to Canadian Club.

"Canada will be scrapped if she fails in what she has to do as the intermediary force between the British Empire and the United States," declared Rev. Dr. Robert Norwood, of Philadelphia, before the Canadian Club in the Pythian Castle last night. In introducing the speaker of the evening, Dr. E. J. Ryan, president of the Canadian Club welcomed him to the city as a son of the Maritime Provinces. When he started to speak, Dr. Norwood thanked Dr. Ryan for introducing him as a friend and brother. His message, he described as "Canada and the Anglo-Celt."

Canada, he said, had a geographical position which was unique in the history of nations, standing as it did between the two greatest countries in the world, Great Britain and the United States.

**Worship Ideals, He Says.**

The curtain, which had divided the genius of Robert Burns from his just position in the world was slowly drawing back, he declared, and Canada was the glowing soul of Burns, the soul of the Celt, which threw everything away for an ideal.

It was now high time, he declared for the people to realize that the old racial division no longer existed. There were but few in the world, he said, who could claim that they were of pure Irish, Scotch, of Saxon blood, and the distinguishing trait today, he said was not breed but tongue. The only logical barrier between nation and nation was the barrier of speech.

**Misunderstanding and Trouble.**

Misunderstanding was at the bottom of all the evils in the world today, Dr. Norwood said, and it was the attitude of the people that was keeping them estranged. Some one had to cross the road and talk it over, and here again he demonstrated the power of speech, in straightening out difficulties.

**Sees Understanding Coming.**

Through the mighty speech of the "Anglo-Celt" this understanding would come, Dr. Norwood declared. In Canada, he continued, there were two great languages, first, the French, with its music, beauty and softness, which had given Canada many of its dearest treasures. But he declared it was not the French tongue but the Anglo-Celt tongue which was to convey to the world the great message that was Canada's.

"Learn all the tongues you can," the speaker urged. Continuing, he said that if he had his way every boy and girl in Canada would be able to talk French, but he said it would not be until every child in Canada could speak English, that Canada's mission would be accomplished.

It was for the best interests of the British Empire and the Anglo-Saxon world, Dr. Norwood declared, that Canada should be independent, just as it was to the best interests of the world that the United States was economically independent.

Canada must be politically broad, he declared. The people must remember that in Canada feudalistic aristocracy was a thing of the past. One reason why Canada was not fulfilling its mission was because it was keeping alive the spirit of feudalistic aristocracy, he said.

**Future of Literature.**

It was Canada's own fault, he declared in closing, that her genius among the nations at the present time was unknown and unrecogized. It was not, he said, that Great Britain and the United States were indifferent, but it was because Canada had not recognized her own greatness, which was to save the great soul of the Anglo-Celt.

Dr. Ryan extended the thanks of the meeting to the speaker.

BEGIN PROCEEDINGS TO UPSET A WILL

Catholic Bishop of St. John Beneficiary in \$7,000 Estate

A Fredericton despatch last night said that relatives of the late James Holden, former sheriff of Sunbury county, had commenced a legal battle to upset his will, under which he left his entire estate of \$7,000 to the Catholic Bishop of St. John, with the exception of \$100 to Rev. Father Carleton and \$100 to Rev. Father Hannigan, former pastors of the Catholic church of Oromocto.

Mrs. Edith A. Merrithew, of this city, and Alexandria G. M. Holden, of Fredericton, nieces of the late Mr. Holden, are seeking to upset the will upon the grounds that he was of unsound mind and was subject to undue influence.

Judge Gillmor has named Feb. 26 as the date to hear the case in the Sunbury Probate Court.

Last Spring's Floods Cost Province More Than \$300,000

PROVINCE HAS DEFICIT OF \$524,611

Freshet Losses and Valley Railway Debt are Reasons.

RECEIPTS HIGHER

Were More Than \$242,000 in Excess of the Estimates.

Fredericton, Jan. 30.—Without taking into account a deficit on the St. John and Quebec Railway (the Valley road operated by the C. N. R.) and emergency expenses, the New Brunswick Government had a surplus of about \$70,000 in the fiscal year ended Oct. 31 last, according to the annual financial statement which appeared in the Royal Gazette today. The total receipts of the province for the year were \$3,445,878.48, an increase over the estimates of \$242,052.72. Funds for Flood Damage.

Of the expenditures, about \$868,000 was paid out of ordinary funds for flood damage to roads and bridges. The extraordinary expenditure on account of spring freshets was over \$900,000, which had to be funded, and including the deficit on current revenue account of the Valley Railway is a total deficit on current revenue for the fiscal year of \$824,611. The estimated expenditure for all branches of the Public Works Department was \$654,110 and the actual expenditure, not taking the flood damage into account, was \$656,245, or an over-expenditure of \$2,135, of which \$2,081 was for roads and bridges. The Department of Lands and Mines expended about \$62,000 more than was estimated, due mainly to forest fires.

The enforcement of the prohibition law cost \$67,397, while revenue from fines and licenses amounted to \$52,599. (Continued on page 11.)

TO HAVE HOSPITAL FOR CURE OF T. B.

Sanatorium at Ste. Agathe des Monts to be Taken Over.

Quebec, Jan. 24.—The sanatorium of Ste. Agathe des Monts will be taken over by the Province of Quebec, to be devoted early next spring exclusively to the cure of tuberculosis as soon as the necessary alterations to the buildings have been made.

Five years ago the Federal and Provincial Governments entered into a contract by which the institution was taken over from the Laurentian Society and both Governments contributed an equal share to an expenditure totaling \$500,000 for repairs and the construction of annexes, which were considered necessary. The sanatorium, valued at \$500,000, was to be completed within a few days, and the cost was to be met by the Province.

Repairs and alterations to the premises will be made without delay and within two months the sanatorium is expected to be available to handle cases of civilians, the six patients now remaining in the hospital being removed to other institutions.

While this work is being done, Hon. Athanasius David, Provincial Secretary, and Dr. J. A. Lesard, Director of Health, will arrange for a staff of medical men and nurses. Four patients which are expected to be completed within a few days, will place the institution under the supervision of a congregation of nuns, who have up to now greatly contributed to the fight against tuberculosis.

MARITIME PROVINCES ORGANIZE FOR PREVENTION OF ACCIDENTS

Safety League Organized at Moncton Meeting—St. John in It.

Moncton, Jan. 30.—The organization of the Maritime Safety League was successfully accomplished here today. A. T. Weldon, traffic manager of the C.N.R., vice-president of the Maritime League, occupied the chair. One of the main objects of the organization is accident prevention, and the prevention of forest fires.

At the organization luncheon given by the Canadian National Society League for the purpose of forming the maritime league there were nearly 400 guests. Dr. P. E. Doolittle of Toronto, vice-president of the Canadian League, occupied the chair, in the absence of the president, Sir John Gilson, who was unable to be present on account of illness.

Dr. Doolittle spoke briefly upon the great importance of a safety league in the Maritime Provinces. He said it was being undertaken at the request of the Dominion Government, and he instanced the great amount of good such an organization could accomplish in the work of accident prevention.

Especially could this be done, he said, through educational work among the people and through the schools. Dr. Doolittle was followed by Hon. C. W. Robinson, Minister of Lands and Mines, who represented endorsed Maritime Safety League and pledged their support.

District Committee Here. Mayor J. Fred Edgett, chairman of the organization committee, then conducted a business session. It was decided to make Moncton the headquarters of the maritime league. There will be an executive in Moncton and district committees in St. John, Halifax, Charlottetown and other places.

The officers are—Hon. Premier, President; Hon. J. A. Stewart, Premier of N. S.; Hon. J. Thompson of Amherst, secretary of the Maritime division of the Canadian Manufacturers' Association, and secretary of the Accident Prevention League of Nova Scotia, gave an excellent address on the subject.

Philip Ring of Halifax, chief inspector of factories for Nova Scotia, extended a message from Premier Armstrong in which he and the Government of Nova Scotia expressed their best wishes for the success of the Maritime Safety League and pledged their support.

JUDGMENT IN DR. NEVE CASE

Court Decides for F. B. McCurdy Company and Makes Order.

Judgment for the plaintiff with costs was given this morning by Judge Grimmer in Chancery Court in the case of F. B. McCurdy & Co., Ltd. against Dr. F. H. Neve and his wife E. Winifred Neve. By this action the plaintiff sought to have an accounting made of all property acquired and money invested by Dr. Neve and the name of his wife after May, 1917 and a declaration that conveyance of certain property to Mrs. Neve was done for the purpose of defrauding Dr. Neve's creditors.

The judge referred to the fact that Mrs. Neve had no income except \$50 a week allowed her for household expenses and yet in a few years had accumulated property valued at some \$20,000. The court ordered a master to take account of the property acquired and money invested by Dr. Neve in his wife's name; and that a declaration be granted in favor of the plaintiff.

Trustee of the Canadian Permanent Mortgage Co. the value of the car and furniture sold amounting to \$2,876. J. F. H. Ted appeared for the plaintiff and B. L. Gerow for the defendant.

Fishing Club Matter. Judge Grimmer gave judgment in the matter of the South Branch Fishing Club against Thomas A. Linton. The judge granted an injunction restraining the defendant from fishing in South Orpington Lake in any other section except those specified in his order, as far as the centre of the lake, and declaring that the plaintiffs had exclusive right to fish in the waters of the lake.

Moncton Property Case. In the case of Horvay Herman against Eliza Woodworth, a Moncton case involving the ownership of property there, and in which the defendant claimed ownership, Judge Grimmer gave judgment in favor of the plaintiff, and ordered it set aside and a declaration of ownership in the plaintiff issued. The defendant was ordered to pay rent from October, 1922, amounting to \$900. M. G. Ted for the plaintiffs; A. A. Allan of Moncton for the defendant.

B., Jan. 31.—The license for a timber berth located east of the mouth of Cains River on the Northumberland-Kent county line containing four and a half square miles was sold this morning at public auction by the Department of Lands and Mines to Fraser Companies Limited, at \$51 per square mile. The berth had been applied for by Fraser Bros. of Moncton, and the competition in bidding resulted in the sale to Fraser Companies, Limited.

60,000 Wanted Jobs With Circus

Berlin, Jan. 31.—Sixty thousand people of both sexes and all ages and classes applied for jobs in the German Saravant circus, which left Dresden for a South American tour. Emigration with passage paid was the inducement. Members of the aristocracy and ex-officers who held high positions in the war were among the applicants. A former cavalry general asked if he could be taken as a groom, while a distinguished military engineer thought he had qualifications for a stage hand.

Society women in hundreds petitioned for permission to go with the circus. A German princess who had been a lady-in-waiting to the late Empress wanted a post as programme seller. "Passage paid out of this detestable republic," she wrote, "and food and lodging without salary is all I want."

Several ladies offered themselves as "travels" for the circus, without specifying their qualifications. A dentist anxious to make a new start in South America wrote that he would leave after the teeth of the lions.

R., headed a large delegation of railwaymen here for the funeral.

MARRIED 60 YEARS

Aged Mrs. Hyde Says Women Were "Finer Characters" in Her Day.

Enfield, London, Jan. 31.—Days when railway travel was a sensation—days when "women were finer characters than now"—are recalled by an Enfield, Wash. couple who have been married 60 years. Mrs. Hyde is quite emphatic about the women part of this hypothesis. "I was housemaid at Highbury Hill then. My mistress gave me a wedding reception at her home. There was more 'fellow-feeling' between mistress and maid in the old days." The couple were married at St. Mary's, London, in 1864.

Mrs. Hyde came along to what was then a little town and is now one of the largest and most thickly populated boroughs which make up "London" as a boy of ten. He tells of how the very first railway train ran there from London. "The third-class passengers in their open trucks," he said, "when it rained simply got wet, and that was all there was about it."

"I remember seeing Queen Victoria come past the station in 1844. But I think her gracious Majesty caused less excitement than the train did." Mr. Hyde has the King's long-service medal.

UNEMPLOYMENT AND MARRIAGE LAWS DISCUSSED BY SOCIAL SERVICE COUNCIL

Relief for the Workless and Closer Supervision of Weddings Urged.

Methods for the prevention and relief of unemployment in Canada were discussed at this morning's session of the Social Service Council of Canada. The discussion took place during consideration of the report of the committee on industrial life. The report of the committee on the family occasioned considerable discussion on the matter of marriage laws, during which a more strict supervision of the wedding ceremony was urged by several speakers. The day would be devoted to the discussion of the problem of unemployment in political party and the franchise was also presented.

Industrial Life. Discussing the report on industrial life, Prof. John Linc, Mount Allison, urged the adoption of a constructive realization which would get at the root of the unemployment problem without destroying the fabric of the present system. He said that Canada was bound to be an industrial nation and steps should be taken now that would prevent the usual causes of unemployment as well as those due to the fluctuations of the business cycle in the country. He regretted it was usually found that the first to suffer by unemployment were the willing workers.

Dr. W. C. Keirstead said that back of the imperfections of the human nature. He said there could not be any peace until the world was divided according to faith, but according to the requirements of his people. He said the Nations or some such body must say "This is your territory" and "That is yours" according to the needs of the particular country. Speaking of the difficulties encountered in the industrial situation, he said that the chief of the business world were not as high as either the legal or medical professions. He said there was an over-emphasis on the pecuniary interest in industry, as compared with the economic and other interests. He said that the problem of distribution of population today was a greater one than the distribution of Civil Service.

Referring to the movement on foot to urge a reduction in the civil service, he said that this followed upon the conditions resulting from unemployment. He felt that if the Government could not find a way out of a dilemma to relieve unemployment by creating work, it would sound the death knell of the Government. He said that the Government should be urged to create work by the invention of labor saving devices, with the consequent increase in production. The facts had to be contended with.

Desertion By Husbands

Rev. Peter Bryce said one child in ten in the Dominion is born to a deserted child. The problem of desertion was becoming a serious one. In many cases the husband had been secured to the law—once providing that one, other than the wife, could lay a charge, and the other that a public defender be established to pay the cost of bringing the deserting husband back to the wife's side.

Hasty Marriages Condemned

Dr. Gibson's comments was a desecrated child. The problem of desertion was becoming a serious one. In many cases the husband had been secured to the law—once providing that one, other than the wife, could lay a charge, and the other that a public defender be established to pay the cost of bringing the deserting husband back to the wife's side.

Members Defy President Who Refuses to Change Ruling

Indianapolis, Ind., Jan. 30.—Defiance of International President John L. Lewis, burst bounds in the United Mine Workers' convention late today and for one hour turned bedlam loose. "Shout till you meet in hell," President Lewis thundered when the rioting reached the edge of his platform, "but the chair won't change his rule." He had first ruled that anti-administration forces had failed to get sufficient votes to secure another roll call, on a proposition to change representation in the convention.

Insurgents Fought for a Return to the Rule in Effect Before the 1922 Convention, when it was Charged Because of the Size of the Anti-Administration Delegates from Illinois.

For an hour President Lewis, at one time demanding, then appealing, tried without effect to restore order. Shrieks of "give us justice" and "we want a square deal" filled the immense Tompkins Hall to the echo, each time that he called on Secretary Van Bitter, of the constitution committee, to continue reading items of his report.

FORESTERS ABANDON BIG DANCE

Action Taken in Montreal in Deference to Cardinal's Pastoral.

BALL WAS PLANNED

Set for Golden Jubilee—Archbishop Praises Act; Writes of Dancing.

(By Canadian Press.) Montreal, Jan. 31.—In deference to the condemnation of modern dancing expressed in a recent pastoral letter of Cardinal Beugin, of Quebec, the local branch of the Independent Order of Foresters has called off the ball intended to celebrate the fifth anniversary of the foundation of the L. O. F. which had been fixed for Feb. 6.

This decision is embodied in a letter written by Henri Rochon, high chief forester, and J. A. Choquet, high secretary, addressed to Archbishop Georges Gauthier, apostolic administrator of the diocese of Montreal.

What They Say. The letter says in part: "We wish to show that the strongest mutual society in America does not want to be suspected of ignoring your recommendations and lack in respect towards authority."

In his reply Archbishop Gauthier expressed his congratulations and thanks to the church, but which equally honor your sense of responsibility and your Christian spirit."

"The abuses which are being committed today at these public dances are so grave that, while equally honor need to get together to have them disappear."

WERE MARRIED IN SYNAGOGUE HERE

Joseph Tobin of London, Eng. and Miss Ida Guss of St. John.

A very pretty wedding took place on Tuesday night at the Sharie Zedek synagogue here, when Miss Ida Guss, daughter of Mr. and Mrs. Max Guss of 48 St. Paul street, became the bride of Joseph Tobin of London, England. The ceremony was performed by Rev. J. Saltzberg. The bride was gowned in white brocaded satin, with pearls and orange blossoms, and carried a shower bouquet of Ophelia roses. She was attended by her sister, Miss Sarah Zedek, and Miss Ida Guss, who wore lavender crepe, and Miss Jessie Benjamin, peach satin. They carried pink carnations. Miss Ida Guss was a flower girl, dressed in baby blue tulle. The best man was Benjamin Guss, a cousin of the bride. The ushers were Nathan Velsky and Irving Bursaw. There were four canopy holders—Joe Guss, Abram Guss and Rubin Freedman, cousins of the bride, and Nathan Levine.

Following the ceremony dinner was served in the vestry room of the synagogue. Later dancing was enjoyed until the early morning hours. The music was by Ben Cohen's orchestra. Some 50 telegrams of congratulations were read by Harry Guss.

TO PUT CHECK ON LIQUOR RUNNING

Quebec, Jan. 30.—Run rumming carried on between this province and the border states is to be checked and the responsibility of this province being a source of supply of liquor for the

UNITED STATES MAY NO LONGER BE IMPUTED TO QUEBEC IF POUARTEURS NOW ON BETWEEN THE QUEBEC LIQUOR COMMISSION INSPECTORS WITH THE ASSISTANCE OF THE PROVINCE AND THE BORDER STATES AUTHORITIES ARE SUCCESSFUL IN EVOLVING A SATISFACTORY PLAN OF CAMPAIGN.

A few weeks ago a revival of activities was reported again on the border states, especially at points south of Temiscouata county, near the New Brunswick border, where forest fires had ravaged the country. Investigations were conducted and the commission advised the American authorities that unless co-operation was arranged

THE TASK OF PREVENTING ILLEGAL EXPORTATION OF LIQUOR FROM THIS PROVINCE WOULD BE VERY DIFFICULT. AS A RESULT NEGOTIATIONS WERE AGAIN OPENED AND ARE NOW ON THE EVE OF BEING SUCCESSFULLY COMPLETED.

The Quebec liquor commission inspectors will be supported by the American revenue men across the border and on the other hand bootleggers entering Canada to escape the United States revenue will be dealt with by the Quebec liquor commission inspectors. Single grains of rice containing a verse from the Koran are distributed in India.

'Reb' Russell, Sensation of National League in 1922, Proves Big Bust

"REB" RUSSELL.

Pittsburg, Jan. 29.—One of the biggest hitters of the past season in the National League was "Reb" Russell of the Pirates.

Russell, who was acquired from Minneapolis in the middle of the 1922 campaign, where his fence-busting proclivities were the chief attraction, failed to come anywhere near living up to the reputation he established in the association.

All told, the former White Sox pitcher, who took up playing the outfield when he lost his arm got into 94 games. In many of them, though, he only appeared in the role of pinch-hitter. He crashed out 12 home runs for a total of 148 bases. His batting average was .291.

Russell joined the Pittsburgh club again in July of 1922, great things were expected of him. Cast adrift by Comiskey when his scowling finger had played itself out, the rebel person took to the outfield for the Millers. Always a good batter, Russell soon learned the art of chasing down fly balls, and ultimately gained a regular position on the Cantillon.

Shortly thereafter, Russell commenced driving the ball out of the "double A" parks. His ability to manage the horsehide attracted the attention of big league scouts with the result that Pittsburg signed him to a contract.

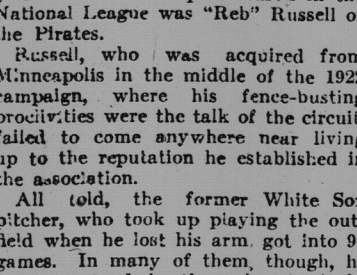

In the majors, Russell got off to a good start. In 60 games he batted .368, and crashed out 12 home runs. His stick work kept the faltering Pirates in the center. Russell was the biggest sensation of the season. His "come-back" was lauded.

But in 1923, Russell failed to keep pace with his performance of the previous campaign. He wasn't the "Reb" of 1922. Not by a wide margin. National League hurlers were out to "get" him. And they did. For "Reb" instead of being the big gun in the Pirates battery didn't even make the grade as a regular. The pitchers got his number. And with that accomplished, he lost his much talked-of batting eye. With it of course went the confidence he knew in 1922.

Now, he has petersed out. At last the Sweden, Sweden, judging from his 1923 record. He may find himself again next season. And he may not. It's problematical.

Hero Fails To Deliver

Pitchers No Longer Fear Batting Ability of Pirate Sluggler

CARL MAYS.

The low ball is the difficult one for the umpire to judge. With Mays playing the umpire was constantly displeasing either the batsman or the pitcher.

In addition, the fact that Mays labored under the delusion that he threw nothing but strikes didn't improve the position of the umpire.

Although the English Association Football League race is unusually close this season, British sporting periodicals report that it has been many years since there was such a marked slump in the sale of tickets for English cup ties. In the North League the gate receipts have decreased noticeably in many instances, owing to the industrial depression and the consequent unemployment.

Even in London, where the competition among the city clubs is keen, and there is less unemployment than in the northern industrial districts, there are very few cases of gates being closed this year—there often have been in previous seasons—and it is particularly noticeable that fewer football followers are accompanying their favorite teams on games away from home.

HOW BERENBACH WON FROM CARBONE

Former Amateur Champion Scored Victory With Comparative Ease.

PAUL BERENBACH.

Paul Berenbach, former amateur middleweight champion, Monday night scored his twenty-third consecutive knockout as a professional fighter, in the ring of Madison Square Garden, New York, where, before a crowd of about 10,000 persons, he knocked out Frank Carbone, veteran Brooklyn middleweight.

Carbone, survivor of many hard-fought ring struggles, succumbed to Berenbach's vicious assault in the sixth round of what was scheduled to have been a twelve-round bout on the Garden's twin-feature card.

The bout ended forty-seven seconds after the sixth round started, when Carbone sank to the ring floor under a shower of wicked left drives to the body and jaw. Before the punches of his rival sent him down and out, Carbone had been battered mercilessly about the ring, despite his game efforts to utilize the speed and cleverness of his younger rival.

Six times, all told, Carbone went to the ring floor. On four of these occasions the Brooklynite was floored by the power blow of Berenbach's bludge, which Carbone was unable to ward off without being hit after missing vigorous blows.

When he sank to the canvas in his sixteenth being battered helplessly on the ropes, Carbone struggled to regain his feet at the count of nine, but after a few moments he was lifted him erect, waving Berenbach to his corner, the winner.

Sincere as Joe Jacobs, Carbone's manager, shied a towel into the ring, a mute token of defeat for the Brooklynite. Berenbach scored his victory with comparative ease. He experienced little dangerous opposition from Carbone, whose speed when not cornered by his opponent was distinctly ineffective because of the Brooklynite's wildness.

For the first time in his career, Carbone fell to the floor of the ring in the first and again in the second when he missed blows. Then Berenbach floored his rival with a volley of rights and lefts, but Carbone disdained to retaliate, and resumed milling. In the third round, Carbone twice was floored, once for a count of nine. The other time he went down Carbone regained his feet before a count was started over him.

Through the fourth and fifth rounds Carbone was battered about the ring under a consistent assault by Berenbach. A terrific right to the jaw near the end of the fifth round hurt Carbone, but he fought on blindly, until Simons unobscured the succession of lefts in the following round which ended the battle.

The victory was the most important of Berenbach's career. In knocking out Carbone the former amateur battered his way to victory over a veteran whose boast it was that he had survived battles with five world's middleweight champions—George Chip, Al McCoy, Mike O'Dowd, Johnny Wilson and Harry Greb. Berenbach weighed 164½ pounds, a fact which was accepted as indicating that the former amateur is a full-fledged light-heavyweight. At 159½ pounds Carbone was a pound and a half under the middleweight limit.

WILLS MUST REST FOR TWO MONTHS

Injury to Hand Will Prevent Him Meeting Madden.

HARRY WILLS.

New York, Jan. 31.—Announcement by Charley Rose, manager of Bartley Madden, that the latter's bout against Harry Wills has been definitely scheduled for Feb. 23, has been dispatched from Hot Springs, Ark., where the negro heavyweight is undergoing treatment for an injury to his hand.

Originally this bout was scheduled for Feb. 4, but when Wills injured his hand in training the contest was postponed. It is extremely improbable that the match will be held Feb. 23 was shown when an examination of Wills' injury disclosed that the negro heavyweight would be compelled to remain idle for at least two months.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

BRINGS SUIT SEEKING TO DETHRONE  
WILL H. HAYES AS CZAR OF FILMDOM

Proprietor of a New Jersey Theatre Alleges Conspiracy by Producers.

New York, Jan. 31.—Dethronement of Will H. Hayes as "czar of moviedom" is one of the alleged objects of a suit begun in the United States District Court here by Sidney E. Samuelson, proprietor of the Park Theatre, at Newton, N. J., who charges that he has suffered from a conspiracy in restraint of trade in violation of the Sherman anti-trust law. He asks \$450,000 damages. Besides Mr. Hayes, defendants in the action include the Famous Players-Lasky Corporation, Fox Film Corporation, Associated First National Pictures, Inc., Goldwyn Pictures Corporation and Metro Pictures Corporation.

At the office of the Motion Picture Producers and Distributors of America, Inc., 522 Fifth avenue, which is Mr. Hayes' headquarters as "dictator" of the film industry, it was said that Mr. Samuelson's difficulties had already led to the filing of a suit in the State courts.

In the absence of Mr. Hayes, Courtland Smith, secretary of the corporation, gave out the following statement:—"Neither Mr. Hayes personally nor as president of the Motion Picture Producers and Distributors of America, Inc., nor the association itself, is in any way involved in the alleged action leading up to the Samuelson suit."

One of the purposes of the suit is said to be to contest the right of any industry to appoint a "dictator" of the industry. Mr. Samuelson and those associated with him contend that such procedure tends to centralize the control of an industry in the hands of a few and that it is illegal and invalid under the spirit of the Sherman law.

David L. Poole, it is reported, will be associated as trial counsel in the action with Norman H. Samuelson of 283 Broadway. Benjamin S. Kirsh of 283 Broadway is the attorney for the plaintiff. Mr. Poole, who has figured in anti-trust prosecution, was special assistant to Attorney General Daugherty in several successful Government actions against combinations formed to control building materials.

He also was prominent in the recent law cases against landlords. The plaintiff alleges proprietors and owners of motion picture theatres have been blacklisted by producers and distributors for the purpose of aiding their supposed effort to monopolize the business. The complaint charges that exhibitors have been prevented from receiving the proceeds of films to carry on their business. The plaintiff asserts the producers and distributors have blacklisted the exhibitors on several occasions and that they made it difficult for him to obtain films of a quality which would enable him to do business profitably.

The complaint assails the uniform contract alleged to have been put in force by Mr. Hayes as president of the Motion Picture Producers and Distributors of America, Inc., and one of the clauses contained in the contract. It is asserted that arbitration is a misnomer and that what actually takes place is dictation by the exhibitors, who cannot get films unless they sign the contract.

The complaint further alleges the defendants conspired to gain complete control of the motion picture industry and to drive out of business all independent producers, distributors and exhibitors.

**She Found Them a Marvellous Remedy**

**What Mrs. Morneau Says of Dodd's Kidney Pills.**

Quebec woman suffered from a complication of kidney troubles and found relief in Dodd's Kidney Pills. Ste. Perpetue, P. Q., Jan. 30.—(Special.)

The value of Dodd's Kidney Pills as a household remedy is shown by the following statement of Mrs. E. Morneau, a well-known resident here. "I have suffered for several months from rheumatism, backache, pains in the head and cramps," Mrs. Morneau says. "I took eight boxes of Dodd's Kidney Pills and they have greatly benefited me. I recommend them to all those who suffer from kidney complaints. For I have found them marvellous. You can tell others who suffer from bad kidneys that they are very good."

Dodd's Kidney Pills have become a family remedy all over the world, because people have tried them and found them good. They are purely and simply a kidney remedy. They help backache, rheumatism, lumbago, diabetes, heart disease and urinary troubles.

**Court Etiquette.**

Sir Percy Sykes of London, former commander-in-chief of the British forces in Persia, and authority in royal court etiquette, aided D. W. Griffith in staging several of the most spectacular scenes in "America," which is scheduled to have its world premiere at the Forty-fourth Street Theatre, New York, on Feb. 21.

Until Sir Percy, who has been thrice presented at the Court of St. James, as well as at the royal courts of India, Persia and other Eastern countries, volunteered, Mr. Griffith and his research workers were at a loss to learn the details of court ceremonies in 1775, for despite the voluminous writings of the diarists of that period, none of them described formal court etiquette in detail.

"Buster Brown" in Films.

R. F. Outcault's famous boy of the comic strips, "Buster Brown," is to be brought to the screen by Century Comedies. Tests are now being made for a suitable "Buster," a "Mary Jane" and even for the dog, "Fig."

Her New Role Is Off Stage

Madeline Traverso, motion picture actress, received the high award of \$72,489 from a jury in New York city from the Sherman anti-trust law.

Flo's Bonehead Play Costs \$6,500 a Week

New York, Jan. 31.—Flo Ziegfeld is losing \$6,500 a week from the profits of "Kid Boots," in which Eddie Cantor is the star, because of gambling spirit. When the show once in his life he had't the was in rehearsal he negotiated for the rental of the Earl Carroll Theatre. The owners of the theatre offered it on a flat rental basis of \$5,000 a week. Ziegfeld refused to rent the theatre except on a sharing basis. The owner agreed to take 35 per cent. The first performance of "Kid Boots" indicated that the show would be a tremendous winner and Ziegfeld wired an offer of \$5,000 a week, but the theatre owners demanded \$7,000. The producer refused to meet it. The show has averaged \$30,000 a week, and the Earl Carroll Theatre owners are getting over \$10,000 a week.

Used in the Campaign Against Animal Tuberculosis. The eradication of animal tuberculosis on American farms has been made the subject for a motion picture just finished by the United States Department of Agriculture. The story is founded on a clash between members of a community who see the economic and health benefits and those who see only the immediate dollar and are blind to future profits and welfare. This film, called "Clean Herds and Hearts," is made up of four reels, the longest being yet made to illustrate better farm practices. Practically all members of the cast are regular employees of the Department.

The film will be circulated through the film distribution system of the United States Department of Agriculture, the State agricultural colleges, and other co-operating organizations and institutions. Prints may be borrowed for specific periods, or may be bought at the laboratory charge by authorized purchasers.

KEPT HAT ON BY THEATRE, FINED \$5

It cost Frank Dubrocky, 19, of 89 Centre Place, Yonkers, N. Y., \$5 for refusing to take his hat off in a theatre. Louis Baum, owner of the Model Theatre, told Judge David Gorink of Yonkers City Court that Dubrocky annoyed other patrons by declining to doff his hat. In fining Dubrocky, the judge said he was giving the offender a lesson in etiquette.

HUBBY MUST BE GOOD; WIFE PICKS HIS PLAYS

MARCUS FORD

Kansas City, Mo., Jan. 31.—What kind of show does hubby attend? Answer: The kind wife likes. This is the opinion of Marcus Ford, producing director of the Kansas City Theatre, a stage democracy where plays of and for the people are presented by the people.

The audience, Ford declares, is recruited from the ranks of citizens and this is where Friend Wife comes in. "Our representatives," he says, "speak before women's clubs throughout the city and obtain their support and interest. If we get the woman, we've sold the man, because a man always goes to the theatre where his wife decides to go."

Amateurs, Too. The Kansas City Theatre is supported by 1,000 subscribing members. Its plays are chosen by a reading committee according to their artistic sense and the players are recruited by public tryouts and from the professions and amateurs available.

"The stage," Ford asserts, "should be entertaining and amusing. It should offer more than an evening of pastime; it should illuminate the most interesting of all studies—human nature. Our thoroughly good plays are plays that have an idea, not preachy plays nor plays of immoral plays. Especially objectionable is the play that appeals merely to superior persons."

Box Office Joke. The joke, Ford holds, is not on the men led by their wives to the "thoroughly good" plays, but on the men who offer the other kind of entertainment, conceived and produced by the box office. Here is his opinion of commercialists:

"New York is not America, nor do I believe a syndicate of New York theatrical managers can any more dictate the artistic taste of this country than the president of a railroad can compel you to admire the scenery along his right of way."

"If the stage has fallen in evil ways, let us start afresh, for human nature does not change nor has the comedy of life grown stale. The stage may express greater beauty to some than the box office, and a public may be won under the spell of its magic charm."

DE WOLF HOPPER IS DIVORCED FROM HIS FIFTH WIFE

Mrs. Hopper Granted 30 Per Cent. of Actor's Salary, Custody of Child.

New York, Jan. 31.—The fifth matrimonial venture of De Wolf Hopper, musical comedy star, ended in failure when Mrs. Eida F. Hopper, known on the stage as Hilda Hopper, was granted an interlocutory decree of divorce and custody of her seven-year-old son, William, by Supreme Court Justice Van Sicken in Queens County.

His third wife was Edna Wallace, who appeared with him in many of his stage successes, and whom he married in 1903. The fourth was Nella Reardon Bergen, who divorced him in 1918 after living with him 14 years. The fifth marriage took place May 8, 1919, at Riverside, N. J.

She was granted 30 per cent. of her former husband's weekly salary as alimony, with the stipulation that the amount at no time be smaller than \$50. Decision was based on a report from Referee Seymour Fuller.

De Wolf Hopper, who is 64 years old, was married first to Ella Gardiner, his second cousin. She divorced him and he married Lida Mosier of Boston, a member of a company in which he played a leading role.

ELEVEN CARS DERAILED; SOME GO OVER BANK ON C. P. R. IN MAINE

No One Reported Hurt—Trains Bound Here are Delayed.

A serious derailment occurred on the Madawaska sub-division near Guilford, Me., caused by a broken axle on one of the freight cars, which was loaded with condensed milk. Eleven cars were derailed and a considerable portion of the rails and roadbed was torn up. There was a thirty-foot embankment at the place where the accident occurred and some of the cars went over it and carried away a couple of telegraph poles, snapping off the wires and cutting off all communication. Fortunately no one was injured. When the accident was reported, steps were immediately taken to have the wreckage cleared up and arrangements were made to have the Montreal train, which was en route to the junction at Northern Maine Junction over the Bangor and Aroostook railway and thence to Madawaska via the Maine Central.

Trains Late It was estimated that the regular Montreal train and a special with passengers for the Canadian Pacific steamship Minnedosa would be about two hours late arriving in the city.

WALKS STREETS IN PALM BEACH SUIT

Geo. Parker Loses Bet on Charlie Gorman; He Pays Today.

George Parker, a popular Fairville barber, was due this afternoon to start from Fairville and proceed to the Union Station, Mill street, wearing a Palm Beach costume, which was to consist of white slacks, white shirt and trousers, light coat, straw hat, a cane and a monocle. The reason for this unreasonable rig-out was the outcome of a bet made recently in connection with the skating races at Chamonia, France. When Charlie Gorman called for France Mr. Parker made a bet with a friend, Frank Whiting, that Gorman would win at least one event. His friend took the field against him and won. They decided to make some friends bet and originally intended to harness a rooster and drive it from the bridge over the Bevering Falls to the corner of Douglas avenue and Main streets. The authorities, however, refused to countenance this and the mid-summer sporting costume was substituted. It was recalled that following the Fippo Dempsey bout, Mr. Whiting had to roll a peanut from the bridge to the corner of the avenue. Mr. Parker was the winner that time and had the laugh. It is the other way round now.

MINNEDOSA WILL TAKE 285 AWAY

Some Prominent People to Take Passage Here—A Missionary Band.

Ebb, chief of the pathological department of the Children's Hospital in Toronto; Col. J. L. Miller and Col. W. H. Hicks, children of Bransby Williams, a famous English actor, who are returning to England with nine members of their father's company; George H. Woodgate of Minneapolis, head of the Woodgate Telephone Systems; C. P. Stegall and family and twenty-one members of a missionary band, who are en route to Congo, Africa; G. J. Chaplin of Montreal; G. E. Pasquiel, wife and daughter of Ottawa; Miss Mary Evelyn of Ottawa; and Dr. D. Hartin of Nelson, B. C.

SHIPS PARTY ENTERTAINS WELL

The Minnedosa Concert Party in the Empress Theatre, West End, gave an excellent concert last evening, under direction of Ralph P. Bolton. The Concert Party made a decided hit in a first class programme. Harry Watson was at the piano. Miss Marie Lehman sang with good effect. Bert Daniels was given a hearty reception in his character songs, and Harry Hammond, Scotch comedian, was at his best, and was recalled to sing "Stoney Broke in No Man's Land." Roy Walker was just as good as ever and caused much amusement. Charlie Olden, who has visited this city many times, was in good form. Mr. Kerr sang several songs with good taste, and the Minnedosa Jazz Orchestra gave several very good selections. The Minnedosa will be back about March 29, when it is hoped they will give another opportunity of hearing some more of their talent.

WILL GIVE CITY BIGGEST BOOST

New Hotel Great Drawer of Tourist Traffic, Says Dr. Doolittle.

"The new hotel which is to be erected in St. John will be the biggest boost the city ever had," Dr. P. E. Doolittle, Toronto, the noted traveler, lecturer and efficiency expert, predicted on Tuesday in an interview with The Times following an address before the local Gryo Club. Dr. Doolittle voiced pleasure at the announcement that Admiral Beatty is soon to be built and expressed the opinion that its construction would benefit the whole province. Will Draw Tourists. The majority of tourists like luxuries, he said, and will go where there are good hotels, even should there be no other outstanding attractions. John is in a special measure favored with natural attractions, he pointed out, and instances that here is one of the wonders of the world in the Bevering Falls. This province should derive from tourists a revenue of \$50,000 a year, in the opinion of Dr. Doolittle, who referred in glowing terms to New Brunswick's wonderful scenic beauty and remarkably attractive summer and winter advantages for healthful, entertaining recreation out of doors. Fishing, hunting, boating, bathing, skating and other sports could be indulged in under most advantageous conditions. The climate and environment, while there is variety of choice to suit every reasonable taste and inclination. A great central hotel such as will be provided in the Admiral Beatty at St. John, which is the chief centre of ocean transportation and the terminus of several railways, supplemented by smaller hotels in the other provincial centres, is suggested by Dr. Doolittle as the best method of handling the tourist traffic. That combination, together with the province's natural beauty and scenic environment, would prove a tourist incentive of the highest type and bring here the most desirable classes. Speaking at a meeting of the Halifax Board of Trade, Hiram Ricker, president of the Automobile Association of the State of Maine, chairman of the Maine Tourist Association and director of the Poland Springs Hotel, said tourists brought to Maine last year \$50,000,000 in new money. Mr. Ricker estimated that in the past ten years Maine has benefited financially to the extent of \$100,000,000 through the tourist trade. He pointed out that many of the tourists, going to Maine merely for a brief visit, had built camps; later they erected more commodious dwellings, and today, from the tourist trade, Maine has many beautiful, elaborate summer homes owned by people residing outside the State. All this represents a real estate investment. In recalling the statement of Mr. Ricker, Dr. Doolittle pointed out that New Brunswick has attractions superior to those of Maine, and more varied. He also drew attention to the fact that the American likes, as do people of other nationalities, to travel in foreign countries; hence, New Englanders would naturally prefer to come to this province rather than to stay in their own country. That is all subject to good hotel accommodation. Dr. Doolittle stressed the point that Maine has a population of 25,000,000 million people within a few hours of motoring from the border of this province.

SEWING CIRCLE MET

The Sewing Circle of Roxborough L. O. B. A. met at the home of Mrs. W. H. Fuller, Rodney street on Tuesday evening and a very enjoyable time was spent. Those present were Mrs. B. Nice, Mrs. A. Brown and Mrs. J. Carrier. After dainty refreshments were served, the circle adjourned to meet on other Tuesday at the home of Mrs. A. Hatfield, Rodney street.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "I want to say a word about the feller that loads himself up with a speech and goes to a meeting to get it off whether it does any thing to do with what they're talking about or not." "I have met the gentleman," said the reporter. "With a club?" queried Hiram. "There were always ladies present," said the reporter, "and one he talked to so he heated up some strong arm methods." "That's so, too," said Hiram, "but I tell you something 'ort to be done to them." "There are several of him," said the reporter. "Too dern many," said Hiram. "But the chairman would die of shock if he failed to turn up," said the reporter. "You must consider the life of the chairman." "Some day," said Hiram, "a man'll be elected chairman that'll walk right straight down the aisle an' grab the feller by the windpipe and shut off the gas. Then the crowd'll get a hero medal an' the papers'll be full of it, an' the thing'll be done. I want to be there when it's done." By Herp

Announcing Everett's February Furniture Sale. Commencing Monday, February 4, our annual clearance sale will be the head-liner in both of our stores, 84 King street and 91 Charlotte street. This is not a sale of inferior goods, brought in because they are cheap, but an event of genuine big reductions from prices of our regular high-grade stock. We announce frankly we need the space for new goods now arriving, and where there is a suite from which some of the pieces have been sold, or other lines which have been discontinued by the makers and cannot be matched up, we are willing to take big losses which will result in great benefit for our customers. This applies to every department, and there will be wonderful bargains in all. Just enter from either street and walk through. The red tags will tell the story. Furniture Crated for Shipment. A.
