Beyond the River. Time is a river deep and wide; And while along its banks we stray, We see our loved ones o'er its tide Sail from our sight, away, away. Where are they sped? They will return No more to glad our longing eyes! They've passed from life's contracted bourne.

'Tis hid from view, but we may guess How beautiful that realm must be : For gleamings of its loveliness, In visions granted, oft we see. The very clouds that o'er it throw Their veil, upraised for mortal sight, With gold and purple tintings glow, Reflecting from the glorious light Beyond the river.

And gentle airs, so sweet, so calm, Steal sometimes from that viewless sphere; The mourner feels their breath of balm. And soothed sorrow drinks the tear. And sometimes listening ears may gain Entrancing sound that hither floats-The echo of a distant strain Of harps, and voices' blended notes Beyond the river.

There are our loved ones in their rest : They've crossed Time's river. Now no more They heed the bubbles on its breast. Nor feel the storms that sweep its shore But there pure love can live, can last; They look for us their home to share ; When we in turn away have passed, What joyful greetings wait us there Beyond the river. -Dublin University Magazine.

WEDNESDAY, MAY IS, 1864.

The Late Rev. Arthur McNutt.

This venerable minister of Christ entered into his rest on Thursday morning last, the 12th inst. He was born in Shelburne in the year 1796, and was consequently in the sixty ninth year of his From his youth he feared the Lord, and when

about twelve years old he sought and found the saving grace of God. Both before and after that event he was much indebted to the counsels and example of a pious mother; and in return, as her lot was cast among those who treated experimental religion with contempt and opposition he cheerfully submitted to bear with her the reproach of Christ. Thus early in life he formed the resolution to serve the Lord, and he cast in his lot with the people then, as often elsewhere, in derision called Methodists. To that purpose throughout life he persistently clung; and in the review of its origin and maintenance he found cause for grateful satisfaction and frequent observation in his latest hours. Subsequently to his conversion, however, though he retained the fear of God before him, it is believ. ed that his religious enjoyments and the vigour of his piety suffered some loss. This, in all proforth he walked in newness of life.

ners, and he soon began both to exhort and to testify the gospel of the grace of God. His ministerial gifts, and his steady consistent zeal attracted the attention and secured for him at this time the friendship of the late-Rev. W. Black, under whose oversight he went forth to do the work of a home missionary. In those days the population of the eastern shores of the Province and of many of its inland districts was small and also widely scattered. Their roads were bad. and their habitations were usually poor and uncomfortable. Struggling for the necessaries of life, and cut off from society as many of these people were, they had but little ability and generally less inclination, to provide themselves with the public means of grace. For these wander ing sheep, our late brother was led to care, and he carried to them the word of life. With noble self-denial and quenchless ardour he journeyed and toiled for their salvation. Literally withou purse or scrip, or hope of pecuniary reward, he went about among the people doing good. For several years, in all weathers, and on foot, he travelled from settlement to settlement, and from house to house, preaching a gospel which bu few of his auditors had previously known, and proclaiming unto all a free, a full, and a presen salvation. And his word was with power. Many tasted and saw that the Lord is gracio Classes were formed. Churches were established And, under God, some of our most flourishing Circuits became the fruit of his labours, and re ceived strength and extension by his means.

In the year 1828 he was appointed to a Ci cuit by the British Conference, and from the time till the year 1859, when he retired as supernumerary, he continued in the full work of the ministry. During two years of that period at the earnest solicitation of his brethren in the work, he again undertook the office of a travell ing Missionary, and in that capacity visited many of the outlying and backwood settlements of the Province of New Brunswick. Here, again, is localities where the voice of the Christian minis ter had seldom been heard, he laboured amids privations and difficulties, but with a large measure of success. He also filled some of the mos important of our Circuits; and never but with acceptance to those beneath his care, and with real prosperity to the cause of God. He relinquished the active work of our con-

nexion, with deep regret. But failing health obliged him to desist. Often did he express the delight which he felt in being enabled at any time to supply an appointment, or assist at the charge of a class, and watched over its members his abode, nothing pertaining to the interests of his heart. Where is the rain? Pattering it came, Dancing along with a merry sound. A grassy bed in the fields it found ; Each drop came on the roof with a bound. Where is the rain? It hath left the ground. What good hath it done, Gone away so soon?

Jimmie's Prayer and God's Answer. "Everything ready, Willy ?"

Is lost-no, never

" Yes. Jimmie, all but the luncheon basks and this ugly knot in the lines, which won't come out. If ever I go fishing again, I shall take care and put my tools in good style when I get home.' Never mind, Will ; I'll manage that beautitully if you'll get the basket filled."

So Jimmie, very good naturedly, went to work upon the fishing line, while Willie, like a little commissary-general, provided the supplies. A little patience at the knot and a call upon Bridgel in the kitchen, soon made everything ready for the fishing excursion.

A finer morning could not have been for an excursion anywhere. I have my doubts whether, on such a bright, sunny day, wise old fish could be coaxed out of the cool, quiet waters; but, at et enough to keep us patient and expect ing more. I supposed it wouldn't be well, however, for fishermen in general to be so easily satisfied. The two little fishermen who set forth this morning, certainly had no idea of coming back without their share of the fishes, that lived in Cove Bay. On they trudged, out over the little sandy isthmus, to the place where old Mr Rake, the fisherman, had told them fish could always he found, " who were thankful to get a half to abbie at, even if they had to go into a frying pan to pay for it. Whether the fish had managed to get a breakfast on this particular morning, of not, I cannot say; I only know that

the tempting bait went untouched for such a long time, that Willie's patience was at last quite gone, and Jimmie's was going faster and faster every minute. Toward noon the sky became overcast and the air to be very still, as it some times is when a storm is coming on. After the hove had talked off their impatient over the luncheon basket, they concluded the would make one more good trial, and then, if

the fishes were still obstinate, they would start for home. So out were swung the long lines into the deep water again, while the two boys watched eagerly for any signs of a "bite." "There, I've got a nibble," said Will; and in

an instant he had landed a fine fish on the sand. Very soon both lines were hard at work bring ing in one hungry fish after another, until in the excitement, everything beside was forgotten.

They certainly had forgotten to look out from under the broad hat brims at the fast gathering clouds, and it was not till the long summer twi light was fast fading into night that they thought of winding up their lines and starting for home. "Well." said Jimmie, "we have got fish enough for one day. It's worth while to wait

for such a nice lot as we have caught."
"Yes," said Walie; "I don't believe Mr. Rake ever did a better day's fishing when he was a boy. I guess we'll have to hurry home, though, for it looks as if it was going to rain soon."

"Yes," said Jimmie, "we must hurry and ge over the neck before the water rises, for you know Mr. Rake said the water sometimes rose over it. I declare, how dark it grows. Hurry

W;!! " So on they went for a little way, when, to their terror, they found that the water had already risen over the sandy neck which they had crossed in the morning. For a moment they stopped to consider what they should do. Could they go back and spend the long night on the little spot the city to see ye." they had left, surrounded by the dark, sullen waters, which might possibly sweep over the Bridget." small space and drift them away from the pleasant home which now seemed dearer to them

than ever? At length Jimmie said: " We'll try and wade across, and then, if we can't do that, we will go back and let God take care of us."

Then with their little bundle of clothing on their heads, they stepped out into the water, hand in hand, to try and reach the shore beyond. On they went, deeper and deeper, till the water reached the chin, and then, seeing that it was impossible for them to pass over, they returned to the place where they had spent the last hours no rapidly. They now saw that the water was fosming and rising around this, and that perhaps, in a short time, it would be covered. Oh, in rispect to the work and the wages, I'll be after how dreary seemed the night as they sat down stopping with ye." wearily, side by side, almost in despair.

At last Jimmie said : " I am going to pray, and take us up to heaven, where grandfather is."

Then they trustfully watched and waited to see | cooking ?" what was to be done for them. At last he landed safely, and not waiting to see the joy over the safety of one child, he went forth breathlessly to rescue the patient, trusting boy, who still remained alone on what was now a desolate island, perhaps even now nearly covered with the waves. But God had kept Jimmie in safety, and now would save him as he saves all who trust in him. Oh, how joyfully did he welcome back the brave man when he had returned to take him away from that dark and lonely spot to the safe shore beyond. Fearlessly they pressed through the deep waters to the friends who were waiting their return, and who soon received them with a joy in their hearts that they never felt before. I do not think it would be possible to tell with what thankfulness both Willie and Jimmie were taken to their home or how much love and gratitude was felt for the good and brave man who had saved them : but I know that ever after they loved and trusted the dear Saviour, who loves us much more than we think, and who wishes so earnestly that we could
