STEWART'S
Home Made Bread,
THE BREAD MY DADDY LIKES.

Daddy is evidently not one of those back number
lords of creation who believes that woman's place is
in the home—and only there. His taste in a wife is
an up-to-date woman who will prove herself a real
companion. He knows that if she is a slave to her
kitchen she can't enjoy the poise or have the interest
in world affairs that a little extra leisure would make
possible; and so he is pleased to eat MRS. STEWART'S
HOME MADE BREAD—the loaf with the home made
flavor.

The smiling, well-nourished kiddie doesn't look as
though suffering because mother is progressive enough
to buy good bread made by a bread specialist, instead
of wearing out her life in the kitchen.

Eat Stewart's Home Made Bread.

Most teeth are film. Smokers' coated. That film makes tooth troubles. Millions now scientific way. to show the union. The film is on your tongue. Ices and stays. Ordinary brush tooth intact. brushed teeth disintegrated. It is the film-teeth. Film is a food substance acid. It holds teeth to cause decay. Millions of tartar, are the cause.

A Gift

A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

Why Teeth Stain
You leave a film-coat on them

Most teeth are dimmed more or less by a film. Smokers' teeth often become darkly coated. That film makes teeth look dingy, and most tooth troubles are now traced to it. Millions now combat that film in a new, scientific way. This is to offer a test to you, to show the unique results.

You must end film

The film is viscous—you can feel it with your tongue. It clings to teeth, enters crevices and stays. Ordinary brushing methods leave much of this film intact. So millions find that well-brushed teeth discolor and decay. You must attack film in a better way, else you will suffer from it.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Efficient ways
Dental science, after painstaking research, has developed effective ways to fight film. The world's highest authorities now approve them, after careful tests. These ways are combined in a dentifrice called Pepsodent. And leading dentists everywhere now advise its daily use. A ten-day tube is being sent to everyone who asks.

Watch these new effects
One ingredient is pepsin. One multiplies the starch digestant in the saliva to dissolve the starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids as they form. Two factors directly attack the film. One keeps the teeth so highly polished that film cannot easily cling. Pepsodent has brought a new era in tooth cleaning. It fights the tooth destroyers as was never done before. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the silmy film. See how teeth whiten as the film-coat disappears. You will always brush teeth in this new way when you watch the results for a week. Cut out the coupon now.

Ten-Day Tube Free

THE PEPSODENT CO., Dept. N-1, 1104 S. Wabash Ave., Chicago, Ill. Mail 10-Day Tube of Pepsodent to _____ Only one tube to a family.

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Russian Capital Virtually Held by Anti Reds.

Many Wounded in Moscow Street Fights--Trotsky Reported Missing--Lloyd George Does Not Beat About Bush--Boston Trawlers to Lay off Fishing Craft--Nicholas of Montenegro Dead.

RUSSIAN CAPITAL VIRTUALLY HELD BY ANTI REDS.

At least partial control has been secured in Petrograd by the anti-Bolshevik forces, according to the French Foreign Office to-day.

MOSCOW, March 1. Moscow reports the Russian Bolsheviks are becoming more organized against them. In recent street fighting in Moscow many persons are said to have been wounded and hundreds killed. Reports say Leon Trotsky is being held.

LOYD GEORGE'S STIFF TALK TO GERMANS.

LONDON, March 1. Germany through her representatives to the Reparations Conference with the Allies here to-day made a reputation of approximately fifty billion gold marks, or about one billion five hundred million dollars. It was understood outside the conference that after Dr. Simons, German Foreign Minister, had finished his statement, Lloyd George replied that unless the Germans had more to offer than "appears there is no need to continue the conference. Lloyd George told Dr. Simons, "The written proposals are of the general character as the extension of it is not worth while for us to read them. You have complete lack of comprehension of the position of the Allies and of your own position. We will discuss our proposals among ourselves and give it to you tomorrow at eleven o'clock." When the Germans left the conference they appeared greatly depressed. Lloyd George and Briand were smiling as they came from the chamber.

WANTS U.S. REPRESENTED.

PARIS, March 1. The Council of the League of Nations in its reply to the United States note on mandates was delivered to-day. The only definite information as to the contents is that its tone is particularly friendly and its general tenor is an invitation to the U.S. to continue the conversation.

PANAMA MOB THREATENS THE PRESIDENT'S LIFE.

PANAMA, March 1. One person is dead and four wounded as the result of fighting between the Presidential guard and a mob, who, maddened by a published interview in which President Porras said he favored a diplomatic settlement with Costa Rica, broke into the Executive Mansion House. United States troops arrived just in time to save the president's life.

KRUPPS GET CONTRACT.

BEUNOS AIRES, March 1. The announcement was made here to-day that Krupps of Germany, have been awarded the contract for one thousand steel wheels by the Argentine State Railway. Several British firms were competing for the contract.

CREW RESCUED.

NEW YORK, March 1. The crew of the sloop Martlet was picked up a hundred miles West of Bermuda by the steamship Bunsen from Brazil for New York, and a wireless to the naval communications service here to-day. The sloop, according to the message, was bound from Turk's Island for Bermuda, but its nationality or fate were not mentioned.

STEAMER DAMAGED BY FIRE.

BALTIMORE, March 1. Fire which broke out on the United States Shipping Board steamship East Chicago, to-day, badly damaged the vessel and its general cargo. Vice-President Townsend of the Baltimore Steamship Co., who operated the steamer, said the cargo was valued at three quarters of a million. He could not estimate the loss, he said, until after investigation. A broken oil fuel pipe caused the blaze.

FIGHT OVER NAVAL APPROPRIATION BILL.

WASHINGTON, March 1. The Senate late to-day went into executive session to consider the Naval Appropriation Bill, on which there had been a two days' fight. A motion for a secret session was made unexpectedly by Senator Lodge, Massachusetts, Republican leader, and was regarded as a final effort to pass the bill at this session.

FITZGERALD RE-ELECTED.

SYDNEY, March 1. For the fourth consecutive term William Fitzgerald was elected Mayor of Sydney to-day, defeating his opponent, Sidney E. Muggah, by a majority of 821.

CASUALTIES IN REVOLUTIONARY OUTBREAK.

FLORENCE, March 1. Eleven persons were killed, more

than one hundred wounded and five hundred others arrested in connection with disorders here, which seem to have been a revolutionary plot having ramifications throughout Tuscany.

TRAINMEN EXONERATED.

CHICAGO, March 1. William F. Long, engineer of the Michigan Central, the train which was struck by the New York Central train at Porter, Indiana, Sunday night, with the loss of thirty-seven lives, to-day was exonerated by officials of the road of all responsibility for the accident, according to word telegraphed here from Niles, Michigan.

Annual Meeting St. Mary's Parishioners.

The annual meeting of the congregation of the Parish of St. Mary the Virgin was held in the Parish Hall Monday night, the Rector, Rev. A. B. Stirling, presiding. The attendance was large and the meeting one of the most enthusiastic ever held. The account submitted by Warden G. F. Pike was most encouraging, showing the financial status away in advance of previous years. The totals of the collections towards the various funds for 1920 were as follows:

General Church Acct. \$6,742.22
Tower Fund Acct. 1,977.33
Parish Hall Acct. 342.10
Sunday School Acct. 239.99

With substantial balances on hand. A special meeting of the congregation will be held during next week for the purpose of discussing the war memorial for our soldiers. As this is a very important matter a large attendance of the congregation is requested to attend. At this meeting a few items left over from the annual meeting will be discussed. After other routine business had been disposed of the Church officers for 1921 were elected as follows:

Rector's Warden—J. L. Noonan.
People's Warden—R. Williams.
Select Vestry—W. J. Pike, N. Andrews, J. R. Harvey, G. T. Cook, A. Whitten, E. Burridge, C. Ash, G. Carberry, A. Learning, C. Warren, T. Warfield, Capt. E. Dawe.

Finance Committee—T. Lewis, D. Burridge, E. Crane, G. F. Pike, Heber Taylor, A. Blackmore, K. Payne, H. Dowton, G. Cranford, W. Bomister. Cemetery Committee—J. A. Harvey, C. Ash, S. Bradbury, Dr. Carnell. General Protestant Industrial Committee—W. J. Pike, Capt. E. Dawe, N. Andrews.

Sidesmen—B. Colton, W. J. Oliver, C. Ash, T. Warfield, B. Downs, E. Crane. Organist and Choirmaster—G. B. Lloyd. Auditors—G. B. Lloyd and W. J. Pike. Lay Delegates to Synod—L. G. Chate, Capt. E. Dawe.

McMurdo's Store News.

WEDNESDAY, March 2, 1921. There is no cure, we suppose, for whooping cough, but by judicious measures considerable relief, may be obtained for the little sufferer. Mothers have expressed themselves as grateful for having had brought to their attention Humphreys' Specific No. 20 for Whooping Cough. These palatable little pellets certainly have a reputation for shortening and relieving these distressing paroxysms of coughing which mark this disease, and their use gives relief which is grateful both to the little sufferer and its parents. These pellets are certainly well worth trying. Price 25c. a bottle.

As a cooling and refreshing Lotion for the head, as well as an efficient dandruff remover, and an admirable Hair Dressing, we can back Acme Ice Water Hair Lotion against any similar thing on the market. Price (\$ oz. bottle) \$1.50.

MINARD'S LINIMENT FOR RHEUMATISM, COLDS, Etc.

It Certainly Did the Work for Him, Declares Baker

Halifax Man Says He Feels Just Great Since Taking Tanlac—Sleeps Fine At Night.

"Whenever I recommend Tanlac I know I am recommending a medicine that will come up to what I say it will," said Peter Baker, 2 John St., Halifax, N.S. Mr. Baker is a carpenter by trade and has lived in Halifax forty-five years.

"I was under the weather," he stated, "felt no account and hardly had the strength to hold out through the day. My appetite was gone and I didn't relish even the little I managed to eat. My nerves were all on edge and I couldn't sleep to do any good. My tongue was coated all the time and there was a mean taste in my mouth all day. At night I came dragging in home completely exhausted and, to put it in a few words, I simply felt miserable.

"But Tanlac gave me an all-round building up, and I have been in the best of health ever since. My appetite is fine, my nerves are good and strong and I sleep as sound as a healthy baby. I have gained considerable weight and am putting in full time at work every day. I just feel great and Tanlac is his medicine that did the work."

Tanlac is sold in St. John's by M. Connors; in Paradise, by Mrs. Martin E. Byrne; in Upper Gullies, by Fisher Andrews; in Portland, by H. C. Haines; in St. Joseph, Salmonier, by Mrs. J. Gushue; in Marystown, by Exploit Valley Royal Stores Ltd.; in Flat Islands, by William Sanson; in Jamestown, by Christopher Haines, and in Lewisporte by Uriah Freake, —adv.

Unkind Fate?

The King of Spain had been telling rather a good story against himself. It concerns his wife and a favorite man-servant of his whom His Majesty is on such good terms that, when no one else is nigh, he not infrequently indulges in an informal friendly chat with him. On one such occasion (said King Alphonso) the Queen happened to pass through the room and, after greeting her, I turned to him and asked whether he did not think Her Majesty was looking unusually well that day. "Sire," replied the old chap enthusiastically, "Her Majesty always looks well. The Queen, in fact, is the most beautiful woman I have ever seen." There was a lot more in the same strain, and eventually I said to him: "What do you suppose induced Her Majesty to marry so plain a man as I am?" He looked at me hard for a few moments, and then replied solemnly: "Sire, it was God's will!"

Personal.

Mr. P. Whitten, of the Majestic Theatre, left by s.s. Rosalind this morning for Halifax.

Mr. J. F. O'Neill, of Bay-de-Verde, is a passenger by s.s. Rosalind to New York.

Mr. C. H. Whitaker, of the Imperial Tobacco Co., took passage by the Rosalind to-day en route to his home in Virginia.

Miss Madge Meaney is a passenger by s.s. Rosalind to-day on a visit to friends in Montreal and will be absent from the city for about a month. During the coming summer she will visit New York to complete her studies of music.

Mr. H. F. Powell, Superintendent with B. Stewart & Son, Engineers, Newton, Mass., sailed by the Kyle yesterday en route to his home in Dorchester, Mass. He is returning from a visit to his parents in Carbonear after an absence of 19 years.

Mr. H. V. Simms, cooper is a passenger to-day by s.s. Rosalind on an extended trip to Canada, United States and England.

Rev. Fr. O'Brien, for whose recovery some doubt was felt, is doing well at the Southcott Hospital, and it is hoped will be able to leave the institution within a couple of weeks.

Mr. John Ashley, for many years resident of Revere, Mass., who has been visiting his parents James and Mrs. Ashley, Atlantic Avenue, for the last three months, left en route for Boston by s.s. Rosalind.

Capt. D. M. MacDonald, formerly master of the steamer City of Sydney, which was lost a few years ago while entering Halifax Harbor, has recently been appointed to the command of a new steamer built at Belfast, Ireland, for the United States Fruit Co. Capt. MacDonald, since the loss of the City of Sydney has been sailing out of Nova Scotia ports and during the war was attached to the Canadian Government Marine. Capt. MacDonald married a St. John's girl, a niece of Mr. P. F. Moore, M.H.A., for Ferryland.

Just Arrived at W. E. BEARNS' 1,100 lbs. HALIBUT, Fresh, "Not Frozen"; also Fresh COD TONGUES, from West Coast.—feb23.m2.3

A WARNING!

Rush Telegram—Anglo or Postal
TO EVERY CUSTOMER, EVERYWHERE, NFLD.
A succession of easterly winds is predicted. What if St. John's should become effectually blocked with ice? Importations of everything are short to date. Hadn't you better order your FEED requirements now? We suggest wiring immediately as we have just received new shipments of HOMINY FEED, White and Mixed OATS, extra good quality FEED CORNMEAL, and TABLE MEAL in barrels and sacks. A mixed car would guard you against any shortage. Quotations cheerfully wired you on request.
March 2nd, 1921. HARVEY & CO., LTD.

We're Thinnest in Winter.

Most people think that in the summer, when they perspire freely, they lose far more weight than in the winter, when they wrap themselves up in order to keep warm. But the reverse is the case. From September to March the human frame undergoes a gradual wasting process, because there is a greater call on the reserves of fat to maintain the heat of the body. With the commencement of April flesh begins to form again, and continues to do so until the end of August, when the accumulation of fat has to be shared out in the shape of heat.

The Railway Fizzle.

Yesterday we paid some attention to Mr. T. A. Hall, Government Engineer, Secretary of the Ministry of Shipping, and one of the Railway Commissioners, an outstanding example of the ease with which people from foreign parts can come in here, be placed in positions of great responsibility, draw enormous salaries and trample on the people who belong to the country. To-day we propose to devote some attention to the railway fizzle, for which he is in a measure responsible. Last summer and fall the faculties of our people were fairly stunned by the profuse announcements in big type with startling headlines of all the great wonders that Mr. Coaker was going to work through the agency of the Railway Commission of which he was to be the head. Everybody will recall now the great things which he proclaimed were going to be done by himself and his associates. The cross-country railroad was to be abandoned for the winter, and a terminal was to be created at Argentinia, as a result of which wonderful things would happen. The Kyle was to make weekly trips between Argentinia and Louisburg, the Meigs was to be fitted up and run all the winter to Halifax carrying freight and passengers, the whole railway system was to be transformed, and the enormous expenditure incurred in previous years in keeping the railroad through the island open was to be avoided, and through the magic wand of Mr. Coaker all our worries and troubles over mid-winter communication by means of the railroad were to be at an end.

But have things happened that way? We don't think so, and we feel sure that everybody throughout the country, and especially the people of Harbor Main, will see that all this talk of Mr. Coaker's was only another attempt to fool the Colony. In the Legislature, last Session, Premier Squires outlined the Government's intentions with regard to preparatory measures for determining the future of the railroad and the relations between the Reids and the country. He said there was to be a Commission of seven appointed, of whom the Government would name four, including the Chairman, and the Reids name three, and this Commission would control the spending of a million dollars which would be raised by loan and ap-

plied to buying locomotives, freight cars, and fish plates for strengthening the rails, and would also inquire into the Reid Company's methods of running the railroad and make a report at the next Session. That was Mr. Squires' idea of how the thing was to be handled, but a week or so after he made this announcement he went to England, where he remained for nearly five months, and in the meantime Mr. Coaker took charge and upset this arrangement entirely. When Mr. Coaker put it to the Reids to appoint such a Commission they would not agree to a Commission of seven but insisted on one of six, which gave them equal voting power. The Government appointed only two, it being understood that the third was to be an Engineer to be specially selected abroad. The two appointed were Hon. Mr. Coaker, who was made Chairman, and Mr. Hall, and it was announced in one of the heavily typed official statements regarding the matter that Mr. Coaker and Messrs. H. D. Reid and R. G. Reid, who with Mr. J. Powell, were appointed by the Reid Co., would give their services without salary. This meant that Mr. Hall and Mr. Powell were paid officials, and Mr. Hall, as everybody knows, was already filling two jobs and drawing two salaries. The Commission started with a great flourish of trumpets, made a trip across country, and then everybody suddenly discovered that the railroad was in first class condition and that at places thirty miles an hour was made, though nothing had been done to alter the condition of the road from the previous year, when the same papers and people were proclaiming that the railroad was unsafe to travel on.

The Railway Commission has now been operating for about eight months, but does anyone see any difference between conditions now and a year ago? The Cross Country Line is running the same as ever, and thereby hangs a tale. Rumor says it is being operated this winter because a friend and confidant of Mr. Coaker has made a contract with the Harmsworth Company to furnish them with pulp wood from his timber lands on the West Coast, and that the Government is operating freight trains across the Topsails at a tremendous expense, to haul this friend's logs, although Mr. Coaker promised that the road would be shut down. Then we asked what had become of the Argentinia terminal. We hear that a spur line has been partly built to Argentinia, but the work is not completed, and the fact that the Kyle is coming to St. John's every week, proves that Argentinia is not available, and that in this respect there is no difference from last year. We were also told that the Harmsworth people were going to use Argentinia and ship great quantities of pulp and paper from it every winter, but the experience which the Harmsworth people are having this year as last year and in previous years, is that the railroad is not able to haul during the winter months anything like enough pulp and paper to Argentinia, any more than it could to Heart's Content to fill a steamer if one could be brought there. The scheme to use the Meigs for a new service between St. John's and Halifax had to be abandoned because the Red Cross with the Rosalind, and the Canadian Government with two boats, provided all the accommodation most necessary, and the thousands of dollars that were spent, thousands of dollars, we hear, of public money, on fitting up the railroad, is only so much more wasted, which might have been used for some sensible, practical purpose.

Schr. Roberts Ray has sailed from Grand Bank with 4,992 qts. codfish for Gibraltar for orders, laden by S. Harris, Ltd.

Nomination Day.

BY-ELECTION HARBOR MAIN. Nomination of Candidates for the bye-election in Harbor Main, set for March 12th, takes place to-day. The candidates are—for the Opposition Dr. W. E. Jones and Capt. John Lewis; for the Government, Messrs. M. E. Hawco and Charles Pury. The supporters of the Liberal-Labor Progressive nominees in the places adjacent to Harbor Main proper, where nominations will be made, have arranged for a huge demonstration in favor of their men, and to swell the numbers which will be present, a large contingent of anti-Coakerites from Kelligrews, Foxtrap, Middle Blight, and other places in the Southern section of the district, went up by early train this morning. All reports indicate that Jones and Lewis will win by vastly increased majorities. The Government of Squires and Coaker is so utterly discredited in Harbor Main—all over the island—that the present opportunity to show the detestation of the voters to the bungling and incompetence, not to say ignorance, of the aggregation now in power will be availed of to the complete routing of the forces of Doctor Campbell and his party followers. It has been said that the Prime Minister has denied that either of the Government candidates are Coaker men, but on the contrary states that they are his personal selection for the district. The party drum beaters are endeavoring to make capital out of this alleged statement in order to have the voters of Harbor Main believe that Squires dominates Coaker. The opposite is the truth, otherwise why should an employee of the Marine and Fisheries, a department absolutely under Coaker's thumb, be one of the candidates of the Government? Squires' assertion that Hawco and Pury were personally selected by him is too transparent to fool the people of Harbor Main. Coaker is the boss of the present Government and Harbor Main will do well to remember that fact on polling day. If no other evidence could be adduced, the presence of Mr. R. Hibbs—Coaker M.H.A. for Pogo—in the district, should be sufficient to prove that Coakerism is the power behind.

Equine Sports To-Day.

ENTRIES IN HORSE RACES. The Horsemen's Association have decided to run the Annual Horse Races on Quidi Vidi Pond to-day. A better day perhaps could be had but considering the amount of snow and water piled up in the river at the head of the pond, a postponement for another week might see the pond flooded. The race takes place at 2:30 sharp, and spectators are asked to keep on the North Bank of the Pond. The following are the entries:—

Table with columns for Race Name, Driver, and Horses. Includes Championship Trotting Race, Championship Pacing Race, and Farmers Race.

Life Underwriters'

HOLD MONTHLY LUNCHEON. The first monthly luncheon of the Life Underwriters' Association of Newfoundland was held at 1 p.m. yesterday at Wood's Restaurant. Mr. J. A. McKinnis, President of the Association, presided, and the various companies were represented by their managers and salesmen. Amongst the guests was the Hon. the Prime Minister who addressed the gathering on "Life Insurance as an Economic Factor in its Relation to the State." At the conclusion of the address, which was a most interesting one, a hearty vote of thanks was proposed by Mr. C. A. C. Bruce, carried by acclamation and accorded the speaker. It is the intention of the Life Underwriters' Association to hold their meetings and luncheons each month, when select speakers will address the members on various matters of interest to the salesmen and to the insurance public. The Association has made an excellent beginning, and their monthly social and business gatherings, whilst a new departure in the local life insurance field, will be looked forward to with great interest by all ranks.

Boy Accidentally Killed.

FATALITY AT ELLISTON. A boy named Tucker was so badly injured in an accident which occurred at Elliston, T.B., on Friday night last that, according to a message received from Magistrate Roper of Bonaville, he died on the following day. Tucker, who was only 10 years of age, was playing at the time of the accident when a slide, ridden by Horace Goff, struck him on the head, causing injuries so severe that the victim never recovered consciousness. An inquiry is being held by the Magistrate.

Locomotives Imported.

THE GOVERNMENT'S EXAMPLE. The locomotives which, as was stated in yesterday's Telegram, were brought here by the steamer Road Jarl, will probably not be placed on the roads before June next. By importing these engines, which could have been made here just as satisfactorily, the Government has undoubtedly set a fine example to local employers of labour. One of the Government's mottoes is certainly not "Encourage Home Industry."

Elks to Play City.

IN CHARITY HOCKEY GAME. Ice conditions permitting, a hockey match between the Elks and a City team will take place on Thursday night, the proceeds to be devoted to the Elks' Charity Fund, which was instituted as a means of bringing relief to the poor and needy, irrespective of creed. As the Elks have a number of well known hockeyists on their membership roll, the game ought to prove a most interesting one and in any case, its object makes it well worthy of support.

C. L. B. Old Comrades

TAKE OVER C.L.B. BOAT HOUSE. At a meeting held by the Old Comrades of the C.L.B. Cadets, last night, which was attended by several members of the C.L.B. Boat Club, it was decided that the former body take over the Boat House and boats belonging to the Boat Club. There are three boats in the Boat House at present the Blue Peter, Nina and Red Cross. The Old Comrades intend entering crews in the Amateur and Football Races at the next Regatta. The meeting also decided that a dance will be held the second week after Easter.

Local Flight of Sealing Plane.

The scorpions to be used at locating the seal herds the coming season, had a successful trial flight in charge of Pilot Cotton, on Monday evening. The machine flew over the harbor at Botwood and made a graceful landing. The first actual flight is expected to take place on Friday next.

Norwegian Fishery.

Table showing fishery statistics for March 2, 1921, and March 1, 1920, with columns for Lofoden and All others.

Sagona Put Back.

The Reid Company received a message from the Captain of S.S. Sagona, saying that it was impossible for the ship to attempt to force her way out of the harbor and that she will have to remain at Louisburg until a change of wind occurs. The Sagona left Louisburg at noon yesterday with a cargo of coal and a large mail for this port, but was obliged to return again at 3 p.m., owing to the presence of heavy packed ice. The Kyle, which left here yesterday afternoon for Louisburg, will likely have some trouble in reaching there.

Tried Out Yesterday.

The new locally built Rotary, which was constructed under the supervision of Messrs. Fulmore and Duder of the R.N.C., made its trial trip yesterday in charge of Driver Steele, going as far as LeMassurier's Cut on the Trepassary line. A continuous drift of 8 feet in height was met with and combated most successfully by the Rotary, which is modelled on the big C.P.R. plans.

Shipping Notes.

Schr. Agnes F. Duff is still detained at St. Lawrence, waiting for port, for to move off in order to reach port. Schr. Harry and Verma, which arrived at Burin on Monday morning, reports passing through considerable slab ice when nearing the coast. S.S. Meigs has not been reported since leaving Pushthrough Monday. It is expected, however, that she is at Port aux Basques.

Blues Defeat Reds

IN GIRL'S HOCKEY GAME. After a four minute play-off the Blues, a team composed chiefly of Spencer girls, defeated the Reds, representing the pupils of the Methodist College, by a score of 5 goals to 4 in the Prince's Rink last night. If the girls' previous game were exciting, last night's was positively thrilling and our reporter was discovered during the play-off, running round the rink to find somebody to hold his hand. The play during the game was almost as good as one or two of this season's league games, and beyond a slight neglect of the off side rule, which the players didn't see the use of, and a little roughhouse, left nothing to be desired. The work of both goalkeepers was very good indeed. Miss M. Lawrence of the Reds was the "star" performer, both her stickhandling and combined play being excellent. She was responsible for most of the goals for her side. Misses J. Parsons and A. Ladley were also quite good. For the victors, Miss M. Findlater played well, netting all their goals but one. Misses S. Chalker, D. Sellars and M. Hutchings also put up good games. Mr. Hubert Rendell was referee and the only fault to be found with him was that he winked—not at the players—but at quite a bit of rough play.

Harbor Grace Notes.

The funeral of the late Mr. Alfred Horwood, an old and respected resident of the West End, who passed away on Tuesday last, after a brief illness, took place from the residence of his son, Mr. Eldred Horwood, on Wednesday last, interment being in the Methodist cemetery.

Here and There.

THE AVONDALE MURDER.—The preliminary enquiry into the Avondale Murder Case will probably be continued before Judge Morris tomorrow afternoon. Several witnesses have yet to be examined.

Obituary.

ALEX T. CLOUSTON. Last evening Mr. Walter Clouston received a cable apprising him of the death of his eldest son Alexander Taylor, who died at Linford Ringwood, Hants, England, to which place he went for treatment in December last. Taylor who had reached the age of 30 years, was educated at the Methodist College, where he passed his London Matriculation afterwards entering the Bank of Nova Scotia where he held the position of Paying Teller. Owing to failing health he resigned his position to take one with the A.I.D. Co., at Millertown, Grand Falls, thinking that outside work would be more beneficial to him. He held the position of Estimating Clerk with the A.N.D. Co. up to the time of his death. He was a young man of estimable qualities and of a retiring disposition and his many friends will regret to hear of a promising young life cut off in his early manhood. His mother and aunt left here by the Sackham, reaching Liverpool on Tuesday last and arriving in Ringwood a few days before his passing away. His remains will be interred at Ringwood, England. He leaves to mourn his wife and mother, two brothers, J. H. Clouston and Andrew, two sisters, Elizabeth and Gladys also numerous friends, to whom universal sympathy is extended. To know Taylor Clouston was to know one who was ever ready to lend a helping hand.—COM.

Hints to Home Decorators.

The decorating of the home is a fine art, the best results can only be obtained by careful study of surroundings the following hints may be helpful:— If your room faces North use a Warm Coloured Paper such as Brown, Yellow, or Red. For rooms which get a good deal of sunshine, paper of cooler shades such as Greys and Blues may be used. Care should be taken to harmonize Your Wall Papers with the Paints, Fawns and Tans usually bind nicely with natural wood finish or grained doors and wood-work. Remember Green is Nature's Colour for a Decorative Background, and Green Papers of the softer shades usually combine well with rugs, curtains, and pictures particularly if the latter have gilt frames. Small Rooms may be made to look larger by the use of Striped Papers. On low ceilings only use a narrow bordering, or perhaps better again a drop ceiling of white paper which joins up almost unnoticeably with the white ceiling, and so gives the room the appearance of more height than it really has. It is important to buy your Papers at TEMPLETON'S who keep a Splendid Selection of the Newest Patterns at Prices which defy Competition.

Floral Tributes to the Departed.

Nothing so nice as Flowers in time of sorrow! We can supply Wreaths and Crosses on short notice, and guarantee satisfaction. We will endeavour to meet the humblest purse. "Say it with Flowers." VALLEY NURSERIES. Dealer Brothers, Phone 124. Box 994, St. John's.

FOR SALE or HIRE.

A Magnavox Music and Voice Telephone. This instrument can be used both indoors and outdoors, gives great volume of tone (which can be modified from very loud to very soft) and occupies very little space. Just the thing for dances and outdoor concerts and speeches. Apply to M. R. FINDLATER, feb25, tel. 600. Ordsay St.

POT & CUT FLOWERS.

Daffodils, Tulips, Hyacinths, Narcissus, Freesias, Stocks, Primulas, Carnations and Lettuce. Valley Nurseries, TESSIER BROS. Box 994. Phone 124. febl14.

Taylor who had reached the age of 30 years, was educated at the Methodist College, where he passed his London Matriculation afterwards entering the Bank of Nova Scotia where he held the position of Paying Teller. Owing to failing health he resigned his position to take one with the A.I.D. Co., at Millertown, Grand Falls, thinking that outside work would be more beneficial to him. He held the position of Estimating Clerk with the A.N.D. Co. up to the time of his death. He was a young man of estimable qualities and of a retiring disposition and his many friends will regret to hear of a promising young life cut off in his early manhood. His mother and aunt left here by the Sackham, reaching Liverpool on Tuesday last and arriving in Ringwood a few days before his passing away. His remains will be interred at Ringwood, England. He leaves to mourn his wife and mother, two brothers, J. H. Clouston and Andrew, two sisters, Elizabeth and Gladys also numerous friends, to whom universal sympathy is extended. To know Taylor Clouston was to know one who was ever ready to lend a helping hand.—COM.

Hints to Home Decorators.

The decorating of the home is a fine art, the best results can only be obtained by careful study of surroundings the following hints may be helpful:— If your room faces North use a Warm Coloured Paper such as Brown, Yellow, or Red. For rooms which get a good deal of sunshine, paper of cooler shades such as Greys and Blues may be used. Care should be taken to harmonize Your Wall Papers with the Paints, Fawns and Tans usually bind nicely with natural wood finish or grained doors and wood-work. Remember Green is Nature's Colour for a Decorative Background, and Green Papers of the softer shades usually combine well with rugs, curtains, and pictures particularly if the latter have gilt frames. Small Rooms may be made to look larger by the use of Striped Papers. On low ceilings only use a narrow bordering, or perhaps better again a drop ceiling of white paper which joins up almost unnoticeably with the white ceiling, and so gives the room the appearance of more height than it really has. It is important to buy your Papers at TEMPLETON'S who keep a Splendid Selection of the Newest Patterns at Prices which defy Competition.

Floral Tributes to the Departed.

Nothing so nice as Flowers in time of sorrow! We can supply Wreaths and Crosses on short notice, and guarantee satisfaction. We will endeavour to meet the humblest purse. "Say it with Flowers." VALLEY NURSERIES. Dealer Brothers, Phone 124. Box 994, St. John's.

FOR SALE or HIRE.

A Magnavox Music and Voice Telephone. This instrument can be used both indoors and outdoors, gives great volume of tone (which can be modified from very loud to very soft) and occupies very little space. Just the thing for dances and outdoor concerts and speeches. Apply to M. R. FINDLATER, feb25, tel. 600. Ordsay St.

Echoes of Hr. Main.

It is laughable to hear the Advocate speak of the Opposition "wiping the Government." A plain statement of all the Liberal-Reform Party—save the mark—has done, and the effect on the country, is enough to condemn them forever in the eyes of the electorate.

Judging by the magnificent reception that Jones and Lewis are getting wherever they go, there is much doubt about the ultimate result of the Harbor Main election. It's a good thing the Minister of Agriculture and Mines is as big as he is for otherwise the halls where he holds his meetings would be absolutely empty. There's some use in being stout after all.

It's a wonder that the Food Control Board do not go out to Harbor Main to tell the story of the sugar bungle. It would make interesting hearing and the electors of Harbor Main would very much like to have information from their lips why they have to pay 25 cents per pound for their sugar.

Whilst the "Minister of Air" has been doing all the explaining, has he ever told the story of the "Model Farm"? It would make very interesting hearing, especially the story of that pedigree animal.

They say that "charity begins at home," and one may be excused for wondering why the Liberal-Reform Party hasn't started in to reform itself yet. There's lots of room for it, unless, of course, they are blind to their own faults. If they are, however, the voters of Harbor Main see them and will show just why they think about the crazy doings of the Squires-Coaker gang on March 12th.

It is very satisfactory to note that the Advocate knows that Harbor Main won't be deceived. It would be getting a very poor compliment to the intelligence of the people of that district to say that they are likely to allow themselves to be hoodwinked by men like Campbell and Ruby, to speak of Hawco and Furey.

The Advocate also says that Harbor Main is the most neglected district. It would be neglected a great deal longer if the Opposition hadn't forced the Government to an issue.

If the "Old Lady of Duckworth" thinks that the Harbor Main voters are going to be taken in by the story it has been printing lately, it's another guess coming to it.

There will be no necessity to hydrogen in the blimps at Botwood. Let the Government spellbinders get out there and fill the gas-bag up with "hot air". There is nobody up there who could do it more efficiently.

And so Mr. Richard Hibbs is there too. It seems rather funny to imagine "Dick" trying to pilot the "Camel" across the "Ruby-con". In any case it's pretty awful to hear of a Cookerite to go out and write to a people who his leader has done his utmost to ruin, but the electors are onto him.

Freight by Air.

England is credited with being the foremost nation in aviation. In fifteen months, the record shows 22,000 passengers and 200,000 pounds of freight travelled 1,000,000 miles in 45,000 flights. The trans-Atlantic passenger schedule, which was so confidently predicted as almost nonexistent several years ago, is still remote, but it is a long way off, in spite of the fact that a round trip from London to Paris (574 miles) can be made in six hours instead of twenty-four, at a cost of about \$90 for plane, baggage and food. The aero company which is operating a passenger service between Key West and Havana charges \$150 for one passenger one way from New York to Boston (1,000 miles).

Outwitting the Skeeters

Miss Clemens, a cousin of Mark Twain, the famous American humorist, told an amusing story concerning her illustrious relative in the course of a lecture she delivered in London recently.

When Mark paid his first visit to Honolulu (said Miss Clemens) he told me that he was much troubled by mosquitoes. One night especially, although his bed was covered by a net, two or three mosquitoes succeeded in entering by means of a small hole.

Mark proceeded to make the hole larger in order to admit all the mosquitoes in the room.

Having done this, he crept out of the hole, closed it up, and slept comfortably on the floor all night.

Do not let another day pass without trying Dr. Chase's Ointment for PILES. It is the only relief in obtainable and even the most stubborn home treatment. 25c. a box.

Dr. Chase's Ointment will relieve all PILES, Hemorrhoids, Itching, Swelling, and all other ailments of the rectum. It is the only relief in obtainable and even the most stubborn home treatment. 25c. a box.

The Sealing Fleet at the Zenith of Its Glory.

List of March--The Old Sealers' Day.

(H. F. SHORTIS.)
 (Continued.)

I have often written about the daring of our people in pursuit of their seal, but it must not be forgotten in this connection that their power of endurance was in keeping with their courage. It is a well-known fact that the sealers of the present time are not the same as those of the past. The sealers of the past were men of iron will and iron nerves. They were men who were accustomed to the hardships of a life of danger and of a life of struggle. They were men who were accustomed to the hardships of a life of danger and of a life of struggle. They were men who were accustomed to the hardships of a life of danger and of a life of struggle.

READY TO DARE EVERY PERIL.

The spirit of adventure and daring is by no means confined to any one section of our countrymen. All over the Island instances could be multiplied of courage and self-sacrifice.

THE Nujol treatment of constipation is endorsed by leading medical authorities throughout the world.

Nujol will help you obtain regular bowel movements. It works on an entirely new principle. Without forcing or irritating, it softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to pass the food waste along and out of the system.

It is absolutely harmless and pleasant to take. Try it.

Nujol For Constipation.

The Modern Method of Treating an Old Complaint.

World's Greatest "Thirsty Feet of Danger" (Constipation-anti-Indigestion) Relief—will be mailed gratis on application to sole agent for Newfoundland, J.B. Orr Co., Limited, New Martin Building, St. John's, Newfoundland.

on the part of Newfoundlanders when in pursuit of their dangerous and hazardous vocation which circumstances and environment compelled them to follow. That they were a dauntless and fearless race of men numerous instances may be cited to prove. The perils and dangers to less experienced navigators were often utilized by our mariners as means of safety and protection. Take for instance that terror to "those that go down to the sea in ships"—the iceberg. Nothing—not even fog or a lee shore is possessed of so much terror to the foreign going mariner as these floating menaces to navigation. Yet our hardy sealers are so familiar with these travelling mountains of the deep that it is a common occurrence for them to moor their ships to them, and to safely ride out a terrific gale under the lee of their protection.

NO INVIDIOUS DISTINCTIONS.

It has been sometimes remarked that I have in my description of the deeds and daring of my fellow-countrymen confined myself considerably to the men of Conception Bay, altogether ignoring the heroes who in the past sailed from the harbor of St. John's. This is not correct, as any one reading what I have written on the subject for the past forty years can perceive, and I am sure the Telegram can vouch for the fact. I have written about all parts of our country—and hope to continue doing so to the end. It is worth writing about. Many of my stories of the seal and other fisheries which upon scenes and incidents in connection with Conception Bay, and in dealing with the events of the time, I was of necessity compelled to bring forth men who conspicuously figured in those periods. I have neither overlooked nor underrated the Vikings whose base of operations was St. John's, Trinity Bay or any other bay. These are men whose names will live forever in the minds of all true Newfoundlanders. The sealing Captains and pioneer planters of St. John's were of the same stock as were those of Conception Bay. They all claimed the same ancestry. They were English, Irish and Scotch or their offspring. They were possessed of the same daring and pluck, and they were, above all things, eminently successful in their undertakings. It was by no means follows that because my youthful days were not spent in St. John's that I should be wanting in information concerning the men who were the main factors in making St. John's what it is to-day. It was presumption on the part of any one to attempt to review the fisheries of the past who would not be able to relate the deeds of the Whites, Hillierans, Grahams, Feehans, Pikes, Jackmans, Purcells, Walshs, Duffs, Gerans, John Barron and a host of others who were the corner-stone layers of the prosperity of Newfoundland, and whose names are given in the list I publish at the end of this article. Besides it is not much trouble for me to do so as my ancestors lived here in St. John's over one hundred and forty years ago. As far as space will permit I will relate a few of the deeds performed during the time those men were in the prime and vigor of their manhood. As an illustration of self-assertion and entire absence of anything like a spirit of boasting of their exploits, I will relate one out of the many instances that have come to my notice.

"BLEW UP" THE GOVERNOR.

In the thirties of the past century when Governor Prescott presided over the destinies of the Colony, and when the seal-fishery was in the zenith of its glory, he happened one fine morning in March to go to the water-front to view the sight of upwards of one hundred and twenty sail of vessels stretched out in line, ready for their perilous voyage. Of course, as was always the case in those days at that time of the year the whole harbor was entirely frozen over. The previous day the whole fleet had been occupied in cutting a channel in order to effect a passage-way for the vessels to proceed to the Narrows in single line. During the preceding night it froze hard, and this channel was frozen over and formed what was known in local parlance as "seam," and this was not, after one night's frost, capable of bearing the weight of an adult person. His Excellency, who was accompanied by his lady, boldly ventured out upon the ice in order to have a better view of the attractive sight, and not knowing the difference, walked out upon the ice of the channel, which had formed the previous night, and both were instantly plunged into the water. A man who was doing some painting over the stern of one of the vessels saw the occurrence, and instantly called out to the only other occupant of the vessel at the time, that "a man and woman were in the water." This man, whose name was Richard Lacey—commonly known as Dick—without a moment's hesitation jumped overboard and with great difficulty rescued from what would certainly have been a watery grave, the Governor and his wife. Poor Lacey, not knowing who the parties were he was the means of saving, soundly reprimanded the Governor for being such a fool as to bring a woman on such ice as that. It soon leaked out who the rescued were, and one of his companions informed Dick that it was

His Excellency the Governor and his wife he had rescued from drowning. "Be jabbers," said Dick, "if that be so I'm in a fix, for I gave myself a blow of a blowing up for bringing a woman on such ice as that."

REFUSED THE INVITATION.

About mid-day an orderly from Government House went on board the vessel enquiring for Mr. Lacey. That gentleman, on learning that his presence was desired at Government House, flatly refused to proceed there, for Dick's mind was filled up with a wholesome dread of the consequences of the strong language he had made use of to the Governor, and no amount of persuasion would induce him to go before the great dignitary, who a few hours previously, he had saved from death, of which fact Dick took no notice, but he had a vivid recollection of the strong language he made use of at the time, having not the least idea of the gentleman to whom he administered the strongly worded reproof. Later in the day a second request was brought to Dick, asking him to call at Government House, and the message stated that Lady Prescott particularly desired to see him, but Dick was not against such blandishment even as that. No power could induce him to move a step towards where the now dreaded Governor resided. This messenger brought him something more substantial than mere words, for he handed Dick a crisp Ten Pound Note, a gift from His Excellency. Dick took pleasure in after years in relating the sudden death of that note. He himself and his shipmates, together with the crews of other vessels, retired to various public houses, and had a glorious time while the money lasted. The rejoicing they made over the rescue of the Governor would make the more modern celebration of the Peace Treaty sink into insignificance.

(to be continued.)

ALL ANTI-PUSSYFOOTS.

Lieut.-Col. C. Basil Price, M.D., whose work in connection with that excellent institution, the Royal Army Temperance Association, is so well-known, told me an amusing story recently concerning a colleague of his in the old hard-drinking, hard-swear-fog days. It was his duty (said Col. Price) to report upon the site chosen for his camp by the commander of a certain crack cavalry corps, and he asked the regimental commanding officer for particulars.

"Oh, it's quite a good site," was the reply. "The soil is dry, I've got a very good place for the men to pitch their tents in; the horse lines are not bad; the water allotted to the horses is quite passable, and—"

"Yes, yes," interrupted the M.O. "but what is the men's drinking water like?"

"The men's drinking water, sir," snorted the C.O. "Dammit, sir, my men don't drink water. They drink beer, sir. Good British beer, and plenty of it. What in thunder d'ye suppose the canteen's for?"

INDIGESTION CAN'T STAY

Stomach Pain, Sourness, Gases, and Acidity ended with "Pape's Diapespin"

Out-of-order stomachs feel fine at once! When meals don't fit and you belch gas, acids and undigested food. When you feel indigestion pain, lumps of distress in stomach, heart-burn or headache. Here is instant relief.

Just as soon as you eat a tablet or two of Pape's Diapespin all the dyspepsia, indigestion and stomach distress caused by acidity will end. These pleasant, harmless tablets of Pape's Diapespin always put sick, upset acid stomachs in order at once and they cost so little at drug stores.

TRINITY.

(Continued from Feb. 12.)

In 1912 Mr. Grant introduced the Gill Nets, that had been so successfully used by the Gloucester fishermen; and they proved to be a great success at Blanc Sablon, so long as the fish moved about not far from the bottom. They have not been used during the last three years, owing to the changed habits of the fish, caused by the movements of ball. Mr. Grant has seen wages go up 300 per cent, whilst he has also seen the average season's catch amount to 20,000 qts., and a man and a boy working together, being paid off with \$1,200 for their catch with trawl, and hook-and-line. The season of 1921 will be marked by the introduction of a scientific fish splitting machine worked by electric power. (Fish have been split and salted by electric light for several years past). Though the difference between machine power and man power will be the splitting of 25 qts. an hour by the machine, as compared with 6 quintals by a man, it will not reduce the number of laborers required, as those heretofore employed at splitting, will be needed for salting, and other branches of curing.

As in connection with nearly all great industries, there are certain valuable by-products which go to the credit of the industry; so it has been in connection with the Blanc Sablon Co.; and apart from other such products that I know nothing of—it may be said that the Rev. S. M. Stewart's claim in Unraba as one of its by-products. He was stationed at, and in charge of the Church of England congregation at Flower's Cove, with occasional duties to Blanc Sablon. When Capt. Blandford came back from Cape Chidley he told Mr. Stewart about the Eskimo who lived there and in the interior; and in whose spiritual welfare no one appeared to be interested. Through Capt. Blandford's kindness Rev. Mr. Stewart was enabled to get in touch with them at Chidley. When, however, the law came into force prohibiting steamers from engaging in the fishery along the coast, the fishing room that had been bought by the Blanc Sablon Co., was of no further use to the company, and it was closed and sold.

Capt. Blandford then went around Cape Chidley and along the coast of Hudson Bay. On one of his trips he met Rev. Mr. Stewart with him, and landed him at a part of the coast, from which he went inland to Fort Chimo, where many of the Eskimo lived. He became so deeply interested in their spiritual welfare, that he decided to offer himself as a missionary of Newfoundland for work amongst them. He did so, and was duly appointed to the work in Unraba, by the Bishop of Newfoundland, in whose jurisdiction it is supposed to be. Eternity alone will reveal all the results of Mr. Stewart's unselfish years of work amongst those people; but I doubt not that in the Great Day of reckoning, Capt. Samuel Blandford, as the representative of the Blanc Sablon Co., will be acknowledged as an instrument by which God directed His servant Rev. S. M. Stewart to take the interest in those people, which, up to the present is fraught with untold blessings to them.

During Capt. Blandford's and Mr. Grant's careers, they had the honor of receiving and welcoming several distinguished men to Blanc Sablon. Amongst them were the Duke of Cambridge, Lord Brassey, Governor, Mr. Hains and others. The Bishop of Onchee, and the Bishop of Newfoundland were frequent visitors there; whilst the missionaries along the coast have always looked forward to Blanc Sablon as a haven of rest, and an earthly paradise for a few days or weeks.

In the year 1905, Mr. Grant was asked to stand as a candidate for election to represent Trinity Bay in the House of Assembly. It was not in his line; but so great was the pressure brought to bear upon him by his political friends, that with the consent of his employer, Mr. Job, he agreed to do so, and (in company with Messrs. Watson and Squires) he was elected. In this changed condition of life, and surrounded by which Mr. Grant then found himself, he made no attempt to change either his personality or his code of morals, and with a full knowledge of his shortcomings and untitness for the work of a politician, he left no stone unturned to fit himself for an honorable discharge of his duties to his constituents, the House of Assembly, and himself so long as he decided to undertake these duties. He soon realized, however, the truth of Sir John A. Macdonald's words, that "the position of a politician is between the devil on one side, and the deep sea on the other," and having no wish to be either burned or drowned so early in life, Mr. Grant retired from political life at the expiration of his term of office; taking with him the highest respect of all who worked either with him or against him, on the floors of the House.

Two of the monuments in Trinity to the credit of Mr. Grant's political interest in the place, are the Fog Alarm on the Fort Point, and the

Motor-Ferry between Trinity East and Trinity. Though Mr. Grant would, I am sure, be the last person to suspect many points in common between himself and St. Peter, yet in their impetuosity they are enough alike to be twins. Some day, in the sweet by-and-by, when they meet and talk over their respective lives of down here, they will, I am sure, agree, that though they were always anxious to do right, and that they did a good deal that was right, yet they often got into trouble by their impetuosity—their desire to do things right away, without the careful thought that others gave to the subject, or opportunity; and that if they had the life to live over again they would go slower.

Whilst looking through the old Church Registers last week, I made a note of the following entries that are just a little out of the ordinary, and may be interesting to some of my readers:—

July 2nd, 1764—Buried, Laurence. Sept. 4th, 1764—Buried, Thomas Warren, Church Warden.
 Sept. 12th, 1764—Buried, John Green, Clerk of the Church.
 Oct. 6th, 1764—Buried, Moses Emery, D—S.

Sept. 7th, 1766—Buried, a stranger of the Kingdom of Ireland.
 Dec. 10th, 1768—Buried, Darby Daly, who was flogged to death for want of care.
 Sept. 30th, 1775—Buried, Francis Connors, accidentally murdered by a drunken mother.
 Oct. 21st, 1777—Buried, John Sweet, suffocated by liquor.
 Oct. 29th, 1788—Buried, John August, a native Indian of this Island.
 July 23rd, 1796—Buried, William Dewey, Sr. struck by lightning at Bonaventure.
 Sept. 16th, 1798—Buried, Robert Phair, Surgeon, County of Wexford.
 Nov. 24th, 1800—Buried, Felix Smith, a Black, belonging to Mr. Lester.

Dec. 16th, 1711—Buried, Thomas Weir, drowned in a well at the North Side.
 April 5th, 1810—Buried, John Hurdley, aged 108.
 Dec. 30th, 1821—Buried, Peter Braslin, the noted Indian.
 Deaths by drowning were very common in those days, as one would naturally expect, with so many people living and moving along the waterfront, and so much liquor being drunk.

Some memoranda by Rev. William Bullock on a fly leaf, give the following information:
 During the first visit of the Bishop of Nova Scotia in 1827, on the 16th of June, he consecrated the Church and Churchyard at Bonaventure.
 On the 17th of June, he consecrated the Church and Churchyard at Trinity, and confirmed 187 persons.
 On the 19th of June, he confirmed 54 persons at Perlican.
 On the 20th of June, he consecrated the Church and Churchyard at Heart's Content, and confirmed 64 persons.
 On the 21st of June, he consecrated the Church and Churchyard at New Harbor, and confirmed 24 persons.
 Thirty-four years before that, on August 9th, 1793, Rev. John Clinch had visited Heart's Content and baptized 68 persons, of whom 17 answered for themselves. At the same time he visited New Harbor and baptized 18 persons, 5 of whom answered for themselves.

Some fifty years ago, when the population of the South Side of Trinity was many times greater in number than it is to-day, the Church of England Board of Education built a school-house there. It was used for the day school, and also for Sunday school and occasional Sunday services.

Mr. William S. Lockyer and his daughter Stella, got back to Trinity from Kentville, N.S., on Monday (14th). Mr. Lockyer reports having thoroughly enjoyed this, his first visit to Canada, and that he is more than pleased with the Sanatorium Institution, and staid equipment at Kentville, and with the results of the treatment received by his daughter. Kentville is an ideal location for a Sanatorium, and its fine equipment and careful supervision by the Nova Scotia Government, has won for it the reputation of being one of the best of such institutions on the continent.

GIN PILLS

FOR THE KIDNEYS

Drop a little "Freezone" on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. It doesn't hurt a bit. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without a particle of pain.

Deaths for the old people: Death, and removals to other parts of Trinity, resulted in so diminishing the number of children and old people, that years ago the building was closed, and has been steadily going to decay. By authority of the Board of Education, the fabric was recently sold of public auction, and the money received for it, has been divided between the old people of the South Side, who had part in the erection of it years ago, and who are still living there. A good idea.

Some special interest has been awakened in the Bell of St. Paul's Church. It was cast in 1824; at least that is the date on it. It was presented to Old St. Paul's by Robert Slade, Esq., in 1833. It's tone is clear and musical. It is altogether too small for the work assigned to it, and at present it needs some repairs to the wheel, and other wood work of the stand on which it swings. The clapper, too, needs re-adjusting. A parishioner has offered \$100 for it, with the intention of placing it on the Mortuary Chapel, providing others will supply the balance necessary for the purchase of a larger bell for St. Paul's. It would be an ideal bell for the Mortuary, as the defective clapper could then be permanently removed, and a taller attached, which would give it a fullness of sound, such as the clapper has never done.

Mr. William Snelgrove, son of the late Mr. Norman Snelgrove, of Catalina, spent a few days here with his brother, Mr. Snelgrove left Newfoundland in 1839. Since that time, he spent four years in New York, four years in Toronto, and six years in San Francisco. During the last eight years he has been in different parts of Saskatchewan, doing good for the country and himself, as a contractor and builder. He will leave to return to Saskatchewan in April. He speaks in the highest terms of the great and fertile prairie lands of Canada; but he could wish that they were not quite so far away from everywhere. His name attached, which would give it a fullness of sound, such as the clapper has never done.

Rev. Fr. O'Dwyer, of Bonavista, was a guest of Mr. Sheehan's last week, and returned to Bonavista by Saturday's express (Feb. 6th).

The members of the F.P.U. Council, at Trouty, attended Divine Service in St. Matthew's Church, Trouty. Rev. Chas. Stickings conducted the service.

Mr. William Pittman, of Brick Yard, Smith's Sound, spent the week-end with friends and relatives at Trinity. He was with the Foresters Battalion during the war.

Mr. Harvey Green, of Trinity, who was one of the crew of the "Belliveau" that was rescued and taken to the Azores some time ago, has got back to St. John's. Mr. Green is suffering from some after effects of typhoid fever, contracted at the Azores. He is now with friends at 39 Parade Street, and we hope to hear of recovery at an early date. His brother, Andrew has gone to St. John's to see, and to be with him.

Trinity, Feb. 19, 1921.—W. J. L.

Brick's Tasteless is the best preparation known for children who are delicate. Taken in half to one teaspoonful doses it works marvellous results. Try a bottle and convince yourself.—Jan 27, 1921
